Difficulty With Boers in Orange River Colony—Business in Steel Material.

Bloemfontein, Orange River Colony, July 11.—Difficulty has arisen regarding the oath of allegiance. Many of the Boer commandants, field cornets and officials of the late Free State Government, refuse to sign the oath, though few if many object to signing the document called "the declaration" acknowledging King Edward as their sovereign. The oath of allegiance, however, is much more binding. Johannesburg, Transvaal, July 11 .-The British trades commissioners who recently arrived here from England, admit that they are amazed at the amount of business in steel building material which is being offered and then comment on the indolence of the British firms. They say that so far as they are able to discover, only one firm, and that an American concern, has a capable representative in South Africa, and he has been securing immense orders in Cape Town and at Johannesburg, at his own prices, for huge buildings up to fourteen stories by being able to quote prices promptly and promise construction at American

Montreal, July 11 .- A fire early this morning caused damage of \$25,000 to paint manufacturing plants of Henderson and Pott, corner Queen and Wellington streets. The adjoining building of the Empire Box Company, and Canadian Butterin Company were saved by fire walls. The watchman of the latter building, Ernest Duford and his son, had a narrow escape from suffocation by smoke. The fire ap-parently originated in the putty department, but the oil tanks in basement were untouched, as the fire worked up. The cause is believed to have been spontaneous combustion. The loss is covered by insurance.

# AT LEAST 200 MINERS PERISH VICTIMS OF DEADLY FIRE-DAMP

Johnstown, Pa., the Scene of a Calamity Only Surpassed by Its Historic Flood.

Like Paper Barriers.

WERE POWERLESS

Little Hope for Any Who Had Not Escaped Before Midnight-Nearly 411 Are Fereigners.

Johnstown, Pa., July 19.-Johnstown has again been visited by an appalling disas-It is only less frightful than the awful calamity of May 31, 1889, in cost of life, but it has brought sorrow to hundreds of homes made desolate by mine explosion which took place in the Cambria Steel Company's rolling mill, under Westmont Hill, at 12:20 o'clock this afternoon. Exactly how many are dead it may take several days to de-

It was nearly an hour after the explosion before any general knowledge of what had happened got abroad. Men who came from the mines, escaping with their lives, told the news. Soon it spread all over the city, and hundreds rushed to the point. At the opening across the river from the point, the Cambria Iron Company's police, with several assistants, stood on guard, permitting no one to enter the mine, from which noxious

WOULD-BE RESCUERS HELPLESS. It was nearly 4 o'clock when all hope of sending rescue parties from the Westmont opening was abandoned. Two men who had escaped from the mine-Richard Bennett and John Meyers-went back two miles to see what assistance could be rendered, but the "damp" drove them back, and they fell prostrate, when reached the outside. Two doctors gave the men assistance, and after working with them half an hour restored them. Their story of the situation in the mine made it clear that the rescue work could not proceed from the Westmont opening, and hasty preparations were made to begin that mission at Mill Creek entrance.

STOPPED BY DEADLY GAS. Soon after the news of the explosion reached the Cambria officials, Mining Engineer Marshall G. Moore and one of his assistants, Al G. Prosser made an attempt to enter the mine. They were followed by Mine Superintendent George T. Robinson, but the deadly gases stopper their progress and they were com-

pelled to return to the surface. Mine Foreman Harry Rodgers, his assistant, William Blanch, and Fire Bosses John Whitney, John Retallic and John Thomas, were overcome by gases, and it is feared they perished in an effort to rescue the miners. A son of Harry Rodgers then tried to reach his father, but he was quickly overcome and was carried out unconscious. William Stibich spent several hours at the Mill Creek opening. He said that he believed as many as 450 men were still in the mine. In his opinion, from all he could glean, the number

who came out did not exceed 150. At 10 o'clock tonight after-damp prevented rescue parties from making rapid

FIRE-DAMP DID IT. The mining officials of the Cambria Company stated that the explosion was one of fire-damp. The catastrophe occurred in the section of the mine known among the miners as Klondike. The name of the section on the company's books is the sixth west of the south main

heading. It is about a mile and a half from the main entrance of the rolling mill mine. The few survivors who have escaped from the depths of the mine describe the conditions to be frightful in their nature Outside the Klondike the mines are safe and uninjured. Within the fatal limits of the mine solid walls of masonry, three

feet through, were torn down AS THOUGH BARRIERS OF PAPER. The roofs of the mine were demolished, and not a door remains standing. In the face of these difficulties even the most heroic efforts towards rescue may well

seem hopeless. Miners who left the mine by way of the Mill Creek entrance brought horrible stories of crawling over the dead bodies

of their comrades. Two young men who were at work in the Klondike when the explosion occurred, escaped by way of the air shaft heading up through Kernville Hill from the mine. A fan-house, now out of use, stands at the top of this air shaft. This way the young men, sick and dizzy from the nauseous after-damp or black-damp,

reached safety. Chief Mining Engineer Marshall G. Moore, and his assistant, Al G. Prosser, were the first to enter the mine after the explosion. They went in at the main entrance and began to work their way to the other end. Both were supplied with safety lamps. The progress was slow and tedious, because of the poison-

ous gases. FIRST FOUR VICTIMS. At 11:20 the first four victims were brought to the surface from the Klondike section. They were William Robertson, who was unconscious when found; John

Dr. Lowman, who came up with the men, said he passed 25 dead bodies, some of them in sitting postures. PRESIDENT'S STATEMENT.

At midnight President Powell Stackhouse gave out the following statement: "The disaster is an awful one, and came on us entirely unexpected. The mine had been inspected only three days ago, and was pronounced in a satisfactorw condition. In the thirty years that the mine has been in operation no serious accident had occurred. The cause is yet indefinite, but I believe the explosion was caused by gas escaping from the fifth heading, which was closed and was not being worked, but it contained gas. The number of casualties is now placed at 125. No list of the names of the dead miners can be given, for the majority of them are foreigners, and were only known by check, and not by name. The only way their names will be known if the bodies are not recovered in time for identification, will be by their families sending

#### their names to us.

THE DEATH-PIT. The mine in which the accident occurred is one of the largest coal mines in the United States, according to the statement of officials tonight. From the entrance in the hill across the river, from the point, to the one at Mill Creek, is a distance of three and three-quarter miles.

THIS MORNING'S DEVELOPMENTS

Some Eighty-Seven Bodies Taken Out-Probably 200 Perished. Johnstown, Pa., July 11.-Eighty-seven bodies have been recovered from the Cambria mine up to 5 o'clock this morning, while the heroic work of rescue had

disaster. The bodies lie piled in coffins aboard cars ready to be brought into the Latest estimates place the number of dead at about 200. A temporary morgue has been improvised in the Johnstown armory, to which all bodies will be

not penetrated nearly to the seat of the

taken. A score of men are waiting to prepare finally, after a desperate struggle, they the horribly-mutilated remains of the victims. All the Johnstown undertakers have been pressed into service. The exposion horribly mangled its victims. Heads are missing from many of the bodies, while all are burned and blackened almost beyond recognition. Grief-stricken crowds still linger about

the mine entries. Sleep has visited none of them. No attempt at identification was made at the mine. That many of the men who were thought last night to be still in the mine will be able to survive until reached by the rescuing party, is not thought probable. Immediately succeeding the explosion

the air all over the big mine became so foul that even with the huge pumps working to their full capacity, and the air they supplied turned into the proper channels to reach the imprisoned men, none of the mine officials would hold out any hope from the lives of those thought to be still in the mine. Measures for the relief of the stricken families have already been taken. A

fund started last evening by the Johns-

town Democrat at midnight amounted to

\$200. W. A. Crist, general manager of the Berwind-White Coal Company, contributed \$110.

THE DEATH LIST. Those known to be dead include: Mike McCann, a loader, married, and lived in Prospect; Phillip McCann, a loader, married, and lived in Cambria City; William Blanche, a labor boss, married and lived in Prospect; Joe Thompson, single, a fire boss, who came recently from Pittsburg, and William Robinson, a machine boss. As near as can be learned there was not one dozen Americans killed, the rest being Hungarians and Slavonians. These foreigners lived in different sections of the town, and it is difficult to tell how many are actually missing.

# FRIDAY AFTERNOON'S REPORT

First Official Statement of the Disaster

Made by the Mine Superintendent. Johnstown, Pa., July 11.-The first official statement of the disaster was given by General Mine Superintendent George Robinson at 5 o'clock this morning. He said: "As to the direct cause of the explosion, I cannot exactly say. We know there was an ex-plosion of firedamp in the sixth right heading of a section of the mine commonly known as the Klondike. So far as I can find out now, there were not more than three or four deaths from the explosion itself. The balance were

caused by the afterdamp. "Our mine officials, the mine man, Henry Rogers, Fire Boss John Retallic, Machine Boss William Robinson, who is my brother, and a Slav whose name I do not know, were back eating lunch when the explosion occurred. They immediately went down to the point of the explosion to put up the stoppings in order to carry the air in its proper channel again. These were blown down by the force of the

explosion. "They, with the exception of the assistant foreman and one of the fire bosses, were overcome by afterdamp. They were found by a rescuing party, and the chances are that all will recover with the exception of my

being kept on Fred Lee Rice, the condemned murderer of Constable Boyd. In eight days he is to die, but he has said that a rope will never go round his neck. Every precaution is being taken to keep from him anything which would help him to take his own life. He has, it is said, little hope of the success of the latest scheme for a respite, and it attending to his spiritual adviser, Rev. Robert Hall. "If you have to die," his mother wrote, "my only hope is that you will be prepared for the end."

# STREET CAR MEN TALKING UNION

Agitation at Ottawa May Be Terror Caused by a New Erup Settled by Arbitration.

Arbitration Committee at Chicago Scientist Had a Narrow Escape-Expect to Settle Freight Handlers' Difficulty.

[Special to The Advertiser.] Ottawa, Ont., July 11.-The employes of the Ottawa Street Railway Company met at midnight last night and talked over the question of an increase in pay, and forming a union. No delision was arrived at, however, although the meeting lasted till 2:30 a.m. There is a large difference of opinion with respect to forming a union. It is not thought that any strike will result, as the men are inclined to submit their differences to a committee of leading citizens for arbitration. The

company has the situation well in hand. AGREEMENT REACHED. Boston, July 11.-An agreement has been concluded between a committee representing the 2,500 building laborers of this city and vicinity, and the arbitration committee of the Mason Builders' Association, which is expected will keep peace in the building trades at least one year. Eight hours per day with 28 cents per hour are

agreed upon. SETTLEMENT EXPECTED. Chicago, July 1 .- This morning an authorized statement was given to the Associated Press to the effect that the arbitration committee, which is trying to secure a settlement of the freight handlers' strike, is awaiting word from the railroad managers, who have been requested to meet with the executive committee of freight handlers in the presence of the arbitration committee. The arbitration committee has every hope of a settlement today.

NO STRIKE IN MONTREAL. Montreal, July 11. - The Montreal Street Railway Company have decided to give their employes an increase in wages. All men who have been in the employ of the company two years and over will get 15 to 161/2 cents an hour, and those who have been in the service under two years will get from 14 2-7 cents to 151/2 cents an hour. This will mean an extra charge on the company of \$50,000 annually. There

will be no strike now. MINERS STANDING OUT. Birmingham, Ala., July 11.-The United Mine Workers today voted against accepting the scale agreed upon by the joint committee of miners and operators. Another effort will be made to modify the scale, so as to make is acceptable to both sides. If a strike should result 1,000 men will

BOSTON STRIKE STAVED OFF MANY OF THE PEOPLE FLED

Villagers Who Had Returned Deserting Their Homes.

Fort de France, Martinique, July 10 .-Last night the inhabitants of Fort de France were thrown into a panic-stricken state by a violent eruption of Mont Pelee. Many of them fled in all directions with little or no clothing. The incessant rumbling continued until 9:30 this morning. In the first half hour the black heavens were dotted with scintillant lightning points like slag on the surface in an iron foundry. This phenomenon had not been noticed in the previous eruptions. The lightning points became gradually longer and longer, and more serpent-like, and the flashes grew larger and spread over a greater area every minute. The rumblings ceased at 9:30. Black clouds then covered the heavens, and heavy rains followed. The rumblings began again later on, and were accompanied by vivid flashes of lightning. It is reported that a tidal wave lowered the sea level by a metre. Telegraphic communication was closed for the time, as the operators became

panic-stricken when the lightning began to play about the wires. Several of the lines were broken. STONES THE SIZE OF WALNUTS. Drs. Anderson and Flett, of the Enga lish Scientific Commission, who were in a sloop between St. Pierre and Carbet, during this latest eruption, arrived here this morning from St. Pierre. The sloop on which they traveled was covered with

# A GOOD HARVEST IS PROMISED

At Many Points Yield Is Above Average-Bad Weather Has Affected Hay.

The following additional reports of the crop conditions in Ontario and the United States have been received: BRANT.

Paris-Present appearances indicate that this is to be a good year in this section. Fall wheat is very heavy, although late in consequence of the heavy rains. Spring grains-Oats and barley are considerably above the average, but very few peas are being grown. Hay, unusually heavy, but great difficulty being experienced in curing it. In some cases farmers are plowing it under after a vain attempt to cure it. Fruit of all kinds abundant, with the exception of apples, which are not more than half an average.

Port Elgin-Farmers report the crop to be in excellent condition, with the exception of those on low land. The wheat in some places is a little rusty,

crops raised here are about average. Walkerton-With the exception of corn and potatoes crops of all kinds in this neighborhood are remarkably promising. Rain has injured potatoes and corn, and is now delaying the beginning of harvest. The moist, hot at-mosphere of today is threatening wheat with rust, but no damage is yet reported.

ELGIN. St. Thomas-Corn in a failure, owing to cold and wet weather. Hay crop very good, but poor harvesting; will be much damaged by rain. Prospects for oats are very good. Considerable damage done all through this section by rain.

#### KENT.

Ridgetown—Strawberries, currants, black and red raspberries, etc., abund-ant crop. Cherries rotting some with year, but not full crop. Peaches one-half crop. Pears average crop. The prospect for an abundant crop of good quality apples is the best in many years. Hay is a good crop, but is likely to be of inferior quality on account of frequent rains. Oats, the including dications until the rains of the 22nd inst, was for the heaviest crop in years, not been damaged by recent rains has crop. Beans have been planted the have destroyed 50 per cent. of the crop, and many have not been able to plant on low lands.

Owen Sound-Oats, barley and wheat, good in high land, but considerably damaged on low land. Peas are almost a total failure. Apples,

#### pears, cherries and plums, rather MIDDLESEX.

London-Hay crop above the average killing three guards and murdering and ready for harvest, but the present wet weather will not permit of any harvesting in proper condition. Wheat is an abundant crop, above the average, and with good conditions for harvesting, will turn out simply immense. Peas-A partial failure now on account of much moisture. Oats-Could not be better, and with dry weather from this out will be far above the average. Barley—Above the average; heading out now. Potatoes—Too early to give condition. Good weather will double crop. In fact, abundant crop of everything. Fruit crop, good show-No damage by rain yet. OXFORD.

Then, again, quite a large acreage of hay has been cut already, and now it lies flat on the field, soaked with water, and unless fine weather comes soon the grass for hay purposes in this condition will be valuless. The corn crop is also suffering. In the early summer the weather was so cold that It did not sprout properly, and the continued cold has retarded the develop-ment and the growing of the young plants. In some cases the seed has rotted, and whole fields have had to be replanted. The spring grain crops are exceedingly promising. The growth has been marvelous, and the ground now possesses sufficient moisture to he intended to clean out a saloon composed the cordon, but Tracy gave insure the maturing of these crops without any more rain. There is every indication for an abundance of small fruits, and reports state that apples will be an average crop. NORFOLK.

Tilsonburg—The crops in this sec-tion, although considerably delayed by the cold weather of the last month, are looking fine. With the exception of the hay, nothing will suffer from the recent heavy rains which have fallen. Wheat is exceptionally good, the heavy rains having completely destroyed the Hessian fly. All spring crops looking well.

WATERLOO. Berlin-The crop outlook was never better until late heavy rains, which have played havec with the hay crop, farmers not being able to get it dry.
Other crops, especially fall wheat, somewhat impaired by heavy rains knocking it down badly. It is, however, anticipated that a good yield will be had. Bugar beets and other root grops promise exceedingly well. Apples good.

Hamilton-The crop prospects in this district are good for an abundant whis district are good for an abundant yield. The grain and hay crops will exceed average yield. Peaches will be very plentiful. Apples and pears good crop. Plums scarce. The berry crop is an excellent one, and the root crop will show a good supply as usual, the

frequent rains having done no harm. With the usual weather conditions the harvest will be a good one.

SITUATION IN THE STATES

Official Estimates of Acreage and Condi-

tion of Crops. Washington, D. C., July 10 .- Preliminary returns to the statistician of the department of agriculture on the acreage of corn planted indicate an increase of about 3,520,000 acres, or 3.9 per cent. on the area harvest last year. The average condition of the growing crop on May 1 was 87.5, as compared with 81.3 on July 1, 1901, and a ten-year average of 89.2. The condition in Illinois was 91; in Iowa and Nebraska, in Indiana, 90; in Kansas and Okla-

homa, 99; in Missouri, 102. The average condition of winter wheat improved during June 9-10 of 1 per cent., standing on July 1 at 77, or 11.3 points below the condition of July 1, 1901, and 2.4 points below the ten-year average.

The average condition of spring wheat declined 3 points during June, standing at 92.4 on July 1, as compared with 95.6 on July 1, 1901, and a ten-

mated at about 52,440,000 bushels, or 7 per cent. of the crop of last year.

The average condition of the oat crop in July was 92.1, as compared with 83.7 on July 1, 1901 and a tenyear average of 87.3. The average condition of barley is 93.7, against 91.3 on July 1, 1901, and a ten-year average of 87.1. In New York improvement amounting to 1 point is noted.

The average condition of winter rye is 91.2, as compared with 93.6 on July is 91.2, as compared with 93.6 on July 1, 1901, and a ten-year average of 89.2.

Reports of the hay crop are very favorable, an improvement in condition being noted during June in nearly every important hay producing state. The rains of the past two months have been very beneficial to pastures, and their present condition is excellent, nearly every important state reporting a condition considerably above the ten-year average.

While there has been a general decline in the condition of apples and peaches, as compared with last peaches, as month, reports of those fruits from almost every important state indicate that more than an average crop of The condition of spring and winter wheat combined on July 1 was 82.9, as compared with 91.1 on July 1, 1901.

# OFFENSIVE FEET

May Be Made Sweet and Wholesome by the Use of "Foot Elm."

Many people of cleanly habits, who bathe their feet regularly, are never-theless mortified to find, despite all their care, that their feet emit an un-pleasant odor. This is due to germs or bacteria which find the warmth and moisture of the feet a splendid place for their development. There is no treatment so effectual for destroying these germs, without injury to the feet, and removing the unpleasant odor as "Foot Elm." It keeps the feet sweet and clean, cool and comfortable.

Besides this, if your feet itch or ache, get tired or sore easily, blister or burn, swell or sweat, "Foot Elm" will readily remedy all these unpleasant condins. Price 25 cents a box at all druggists, or by mail. A. STOTT & JURY, BOWMAN-VILLE, ONT. Do not take a substitute.

Brewery Horses, Routed by Fire, Go Over Their Routes.

Philadelphia, July 11.-Fire started in the Weissbrod & Hess Brewery stables, and to save 100 horses they were turned loose into the street. The horses cantered about in wonderment, then each animal found his team-mate and off they started to do business. As calmly as though attached to brewery wagons, the teams trotted off upon

their various routes. At a tavern two miles from the stable one team came to a stop at a watering trough, where they daily stopped. Another team was last seen trotting contentedly side by side out the Bustleton Pike bound for a farm where they

were at pasture last week. Most of the horses were not recovered until they returned to brewery after going entirely over their routes.

# HER SKIRT SAVED A TRAIN TORONTO'S LOSS

Which Otherwise Would Have Dashed Into Washout.

Brother Got Her to Take It Off and Waved the Red Signal.

Poughkeepsie, N. Y., July 11.-Eldridge Finkle, a 15-year-old farmer boy, went out with his 13-year-old sister Mary to pick wild blackberries near Boston Corners.

"Oh, Mary, look at that rail!" suddenly exclaimed the boy, as he pointed to a place where the recent rains had washed the dirt from under three

or four ties. "Don't you see how the ties have settled and how much further that rail is from the other one than it is back there and there, beyond?" "Hush," commanded her brother.

'That's the train from Poughkeepsie blowing at the crossing, and if it strikes that rail it will go down the bank; we must stop it." "Take off your red skirt quick," he told her; she hesitated, the boy began to unbutton the garment, and then, realizing that human lives depended upon her, the girl quickly took off the skirt and Eldridge ran with it up the

track, waving the dress above his head to warn the engineer. Two hundred feet from the menacing place he stopped the train. The engineer and trainmen got out and the boy told them of the danger, nobody noticed what it was that he had used Ice Company, whose wooden icehouse for the danger signal until they saw the boy go up to the girl, who was partly hidden by a clump of bushes, hand her the red skirt, and heard him say, "Put on your dress and let's go

The trainmen fixed the rail so that the train could run over it, and before the excitement subsided the children, warehouse of Gadsby & McCann, hay with their pail of berries, had disap-

# HAMILTON'S FIRE

Blaze Was Confined to the Prat Building-Loss \$7,000.

Hamilton, Ont., July 10.-The fire in the departmental store of the T. H. Pratt Company today was fully under control at 3 o'clock, and a couple of hours later was completely extinguished. The fire originated where waste paper was being burned in a furnace, and was discovered by a lady clerk after it has attained good headway. It spread with gleat rapidity to the third story, where the carpet and work rooms are located, and on account of the dense smoke the firemen were unable to gain admission to the building, and had to be content for two hours in fighting the fire from the windows in front and rear.

The fire was confined to the Pratt building, which is owned by T. H. Pratt, and is damaged to the extent of about \$7,000. The stock is a complete loss. It was valued at about \$65,000; fully covered by insurance. The details of insurance could not be learned, as the papers were in the store vault, which was not approachable

Grafton & Co.'s clothing store, immediately in rear of the Pratt building, will lose heavily by water damage and removal of stock; fully insured.

### A Scandalous Resolution.

The board of works last night delivered itself, body and bones, into the of the London Electric Com-

action of the committee is an insolent defiance of public opinion, of public rights and of public interests.

The resolution of the committee, if It passes the council, will place the city under of the yoke of an electric monopoly as effectually as if an exclusive franchise of the city streets had been given the London Company. No firm or individual can offer com petition under such conditions.

The resolution requires the Sifton Company, a small concern with small capital, to extend power and light wires, within the short space of six months, over double the area that is bounded by the main lines of the London company.

The Sifton Company must furnish current to every citizen who asks for It. The London Company may refuse current to anyone unless half the residents in the block petition for it, and then only within 1,400 feet of the main line.

The Sifton Company must give the same rates to all portions of the city. The London Company may and does charge what it pleases. Its rates vary according to locality and to the quantity supplied.

In a nutshell, the board of works says that no one shall compete with the London Company on equal terms. If this is not granting exclusive rights and creating a monopoly, what is it? And this at a time when nearly every municipality in Western Ontario is exerting its enterprise to secure cheap

The public looks to the City Counil to undo the wrong committed by the Board of Works, and the independent aldermen should say preciseby what they think of the conduct of some of their colleagues.

# A Clean Election.

On the cross-appeal McKay's mafority in North Grey has been increased from two to six. This is highly satisfactory for the reason that it deprives the Opposition of the cry that the Government owes its mapority to four irregular ballots. Those four ballots have been a great comfort to Mr. Whitney and his friends, the one crumb of scandal they could pick up. Before the election they went about proclaiming that a hideous conspiracy existed to invade the ballot boxes and calling on electors to organize a committee of thugs in every subdivision. The election came, the ballots were counted and a great many were re-counted in the searchlight of the courts. The result has exploded all those reckless charges, and has splendidly vindicated the deputy returning officers of the Province from the aspersions which were thrown upon them as a class. With respect to the ballots there never was a cleaner, purer general election. What a contrast to the orgy of ballot-spoiling in 1896, when the Tupper Government had control of the machinery! North Grey was a sweet morsel in the mouth of the Opposition until a high court dudge disposed of that, too. Deprived of every weapon of attack on the Government, the chief organ of the Opposition assailed the judge in ques-Mon, but now humbly begs his pardon.

# Railroad Discriminations.

The Weekly Sun points out that the action of the Wabash and Michigan Central roads last May in reducing their export rates on grain from 131/2 to 111/2c per hundred led to a similar reduction by the Canadian roads in southwestern Ontario, but from all points north of the main line of the Grand Trunk between Toronto and Sarnia the rates that prevailed before the reduction by the American roads still continue. From Lucan, for instance, the export rate is 111/2c per bundred, while from Exeter, but 12 miles away, the rate is 15c. From Guelph the rate is 111/2c, while from Fergus it is 141/2, and from Chesley 1514c. From Brampton the rate is 11%c, while from Orangeville it is 14%c. from Bradford and Allandale 15c, and from Stayner 151/2c. The millers shipping from the high rate points raised vigorous objection to the dis-

crimination, and both ... Canadian

railroads acceded to their request by bringing the rates on "grain products" from northern points down to the southern level. On grain itself, however, the rate remains unchanged, and the farmers are thus placed at a serious disadvantage. The Sun thinks that if, like the millers, they had an association of their own they would be

able to secure the same treatment.

The discriminations cited by the Sun add to the volume of evidence in support of the creation of a commission to regulate freight rates and arbitrate between the railways and the shippers. The Minister of Railways, in introducing the bill for that purpose, was inclined to doubt whether the benefits would realize the expectations of those who had agitated the question for years. He probably had in mind the experience of the inter-state commerce commission, which has had so often to confess its own impotence But the abuses in the United States have been largely due to the tyranny of the trusts, which have attempted to crush competition by forcing the railroads to discriminate against independent producers. The Standard Oil Company has been the worst offender and its manipulation of the railroads has been absolutely criminal. The Canadian roads are not under the same influences and a Canadian commission should be able to command obedience to its orders. It required only a word from the rallway com-

Dan McGillicuddy's paper, the Goderich Signal, grows eloquent over the advantages of Goderich as a cool summer resort. Is that why the Signal is so perennially breezy? And yet it can give an opponent a frightful roast.

This city isn't quite so povertystricken that it can't buy waste-paper cans for the streets if they are needed. The board of works last inight voted to accept a free gift of 100 cans, the giver to have the privilege of plastering them with advertisements. What a one-horse town this would be, anyway, if the board of works ran it?

Success to the Forest City Paving Company, which is fighting the big itch lake asphalt monopoly in Toronto. The board of control yeste day voted to accept the London company's tender, but the monopoly hopes to do better with the city council. It succeeded last year in driving its only competitor out of business, but the London firm is evidently game.

Lieut.-Col. Mason, of Toronto, writes to the press protesting against the criticism of the treatment accorded the Canadian coronation contingent in London. If the Associated Press had een the only authority for the story, it would have merited no attention, but special correspondents of Canadian newspapers have cabled to the same effect. No one doubts that the Canadians have received splendid hospitality from the English people, and have been marked out for special social Iavors. The only complaint is that the War Office bungled the arrangements. However, the boys will soon be home and the public will know all about it.

But newspapers and books will still made in the United States, and makers in the United States would get their paper where they could-from the Canadian paper mills. Is not that plain enough?

### .. Poems the World Has Read..

The Better Land.

[Felicia Dorothea Hemans.] Allan Cunningham, the poet, says of Mrs. Hemans: "Felicia Hemans is the authoress of many a plaintive and mournful strain. She has shown high sentiment and heroic feelings occasionally, but her affections are with the gentle, the meek and the wounded in spirit. Her genius is of the domestic kind, and her best songs are rightly named of the affections."

I hear thee speak of the better land; Thou call'st its children a happy band; Mother! oh, where is that radiant shore? Shall we not seek it and weep no more? Is it where the flower of the orange And the fire-files glance through the myrtle boughs?

Not there, not there, my child!

where the feathery palm-trees rise, the date grows ripe under sunny Or 'midst the green island of glittering Where fragrant forests perfume the And strange bright birds on their starry wings
Bear the rich hues of all glorious things?
Not there, not there, my child!

Is it far away in some region old, Where the rivers wander o'er sands of gold? Where the burning rays of the ruby shine, And the diamond lights up the secret And the pearl gleams forth from the coral strand—
Is it there, swees mother, that better land?

Eye hath not seen it, my gentle boy, Ear hath not heard its deep songs of joy. Dreams cannot picture a world so fair; Sorrow and death may not enter there. Time does not breathe on its fadeless bloom,

an anarchistic plot. Detective—The Reds were getting ready to manufacture explosive ping-

[St. Thomas Times.] "A commotion was caused in the Methodist Church, Pine River, last Sunday morning by the floor dropping down a foot. A stirring sermon was preached by Rev. R. Hobbs, of Wing-Cause and effect!-Kincardine ham."

Mr. Hobbs is noted for weighty utterances, but this is the first time a floor has sunk under his preaching. A Reminder of Riel.

[Hamilton Herald.] The man who hanged Riel has just died in Glasgow. B. B. Osler, the crown prosecutor at Riel's trial, and A. D. Stewart, the high constable, are dead. Judge Richardson, the presiding judge, is critically ill. However, before assuming that hard luck followed those who helped to bring Riel to the scaffold, let us remember that

# A Gastronomic Feat.

[London Tit-Bits.] At a little schoolhouse in the north of Scotland the schoolmaster keeps his boys grinding steadily at their desks, but gives them permission to nibble from their lunch basket some-

times as they work.
One day, while the master was instructing a class in the rule of three, he noticed that one of his pupils was paying more attention to a small tart than to his lesson.

"Tom Bain," said the master, "listen to the lesson, will ye?" "I'm listening, sir," said the boy.
"Listening, are ye?" exclaimed the master; then ye're listening wi' one ear an' eating pie wi' the other."

#### Pointed Paragraphs. [Chicago News.]

A well-bred person is one who doesn't beast about it. When it comes to earning a living ome men are dead ones. When the office holder

grip he does less handshaking. A small boy's ideal hero is another boy who runs away from school. A pessimist is a man who believes that every chestnut has a worm in it. The man who likes to hear himself talk is usually the only one who cares

to hear him. A man is not always known by the company he associates with-as company sometimes discovers to its

# Honest Tenant.

Youth's Companion.] The father of Earl Fitzwilliam, who died recently, was an excellent landlord. A London paper relates how once a farmer went to him with the complaint that the earl's fox-hunters had ruined a field of corn, or, as we should call it, wheat.

The earl gave the man 50 pounds in payment for damage. After harvest saying that the wheat had turned out well, after all. Earl Fitzwilliam drew a check for

100 pounds and gave it to his tenant. "This is as things should be be-tween man and man," said he. "When your eldest son comes of age, give him this, and tell him how and why you got it."

# A True Story.

[From Harper's Magazine.] A Sunday school superintendent, in talking to the children about cruelty to animals, said: "Only a coward would abuse a creature that had no way of protecting itself. Why, children," said he, "I once knew a little boy who cut off a calf's tail! Think of it, children off! Can anyone tell me a verse in

off the calf's tail? After a moment's silence, a small gether, let no man put asunder," responded the small boy.

The superintendent was so impressed that he never brought his own verse

#### Strawberry vs. Raspberry. [Toronto Star.]

We assert that the strawberry seems first in quality only because it is first in order of time. It is the first fresh fruit of the summer that comes to the table. After a long winter course of dieting on canned stuff, people hail herald of the strawberry as the change. They may think they love it for itself alone; but in reality they love it also for the better things to follow. The raspberry is better. It is more luscious, richer in flavor, more reliable. The strawberry is a coy creature, often deceptive-it may be pretty to look at, but will often prove sour on more intimate acquaintance. The raspberry does not flaunt its own merits in outside show; but they are sterling, reliable and lasting. The raspberry does not come as a casual visitor, like its predecessor, but as a friend, to stay with us through the summer. All housewives know it but to love it, and few of them would exchange it for the much-belauded strawberry. Let the raspberry have its due meed of honor in the succession Detective-We have just unearthed of the season's fruits.

# STREET CAR MEN TALKING UNION

(Continued from page 1.)

Gompers, of the American Federation of Labor, who is here, in an interview last night, said: "The convention of the United Mine Workers meets in Indianapolis soon, and the matter of a strike fund will then be taken up. The convention will also vote on the proposition of calling all the soft coal miners of the United States out on a general strike. I hardly believe they will do this, because it would be better to concentrate all our strength on the anthracite strike. The miners will win. We are with them heart and Since he has been in Denver Mr. Gompers has been in constant telegraphic communication with President Mitchell.

NOT SETTLED. Quebec, July 1.-The difficulty between the Quebec Ship Laborers' Society and the Levland Line remains in statu quo. Both sides seem bound to hold out. Laborers condemn the action of the authorities in sending police to the wharf where the Leyland boats are being loaded by their crews, no intimidation having been offered by the strikers.

AID FOR STRIKERS. Wilkesbarre, July 11 .- President Mitchell received a telegram from Dennis Hayes, president of the Glass Bottle Blowers' Association of the United States and Canada, announcing that his organization, now in annual session at Atlantic City, N. J., had donated \$5,000 to the striking miners.

### FORT DE FRANCE PANIC-STRICKEN

(Continued from page 1.)

They were off St. Pierre when the eruption occurred, the mountain emitting clouds of smoke that resembled gigantic cauliflowers. Later on an immense black

loud swept over the ruins of St. Pierre This was followed by an incandescent avalanche, which swept down the mountain side and expended its force seaward. The phenomenon was accompanled by vivid electric discharges, while all round ashes and stones were raining. When the cloud swooped seaward in the direction of the sloop the crew of the vessel cried aloud in fright, and the captain prayed for Divine assistance. Drs. Anderson and Flett and the photographer turned to and helped the crew When morning broke it was seen that

in sailing the sloop along the coast, everything was again under a pall of ashes, while steam was shooting upward from the mouths of the rivers. The side of the mountain was coverer with ashes, boulders, and other volcanic material. The inhabitants of Carbet, who recently returned to that village are again deserting it. LOST FAITH IN SCIENTISTS.

An official bulletin was published here Tuesday containing a statement by M. Lacroix, a scientist who was sent out by the French Government to study Mont time the farmer returned the money, Pelee. He said that the activity of the

volcano was decreasing, and the conditions prevailing led to the supposition that no new eruption would occur. He also gave other optimistic opinions. Last night's eruption, which so closely followed the issuing of the bulletin, has caused the people to scoff at the opinions of scientists so far as the deal with the vagaries of Mont Pelee. It will be recalled that shortly before the eruption that swept St. Pierre out of existence occurred, an official statement, based on scientific deductions, was issued, declaring that there was no danger of a de-

structive outbreak. SCIENTIFIC MISSION RECALLED. Paris, July 10.-M. Doumergue, Minister of the Colonies, has received a cable dispatch stating that a violent eruption of took a knife and cut the tail right Mont Pelee occurred yesterday. The scientific mission now at Guadeloupe has been asked to return to Martinique.

The French Chamber of Deputies by a vote of 307 to 224, invalidated the election of Count Jean de Castellane a brother of Count Boni de Castellane, at St. Flour, Department of Cantal. Charles Bos, Radical Socialist, opposed the validation. He said the arrival of Count Jean at St. Flour was signalized by a rain of gold. Sums of from 5,000 francs to 10,000 francs were given to electors. Bands of men also organized to disturb or prevent the meetings of the supports of the Count's opponent. Count Jean admitted various liberalities, but declared his opponent did the same. He denied the charge of accepting clerical interference. The validation of the election of Count Jean is interesting, because the elections of his brother Bani and Stanisla were also hotly contested on similar charges, and the Chamber may

possibly invalidate them. CABLE NOTES. It is stated that Harry Leslie Blundell McCalmont, M.P., has been chosen to succeed the Earl of Hopetoun as Governor-General of the Commonwealth of

Attend the Reception Given by the Prince and Princess of Wales—Good Shooting.

London, July 10 .- All the state apartments of St. James' Palace were utilized tonight for the reception given by the Prince and Princess of Wales to the distinguished colonial visitors now in London. The hosts were assisted by a score of relatives of the royal family. The brilliancy of the spectacle was enhanced by thousands of newlyinstalled electric lamps. The effect of this system of lighting was particularly lustrous in the throne room, in which the Prince and Princess Wales received their 850 guests. The reception was followed by a supper,

THE QUEEN'S NARROW ESCAPE

Canadian Lady Near Her Majesty Killed-Was Daughter of the Late J. B. Strathy.

London, July 11.-The Coronation Bazaar was opened at the Royal Botanical Gardens by the Queen, many members of the royal family being present, and a most distinguished company representing the British peerage, the foreign embassies and the world of fashion. Germany, Russia, Italy, India, Australia, Canada and South Africa had departments of their own, and there were numerous stalls for the sale of jewels, flowers, fruit, sweets, books, prints, china, toys, silver and other articles. These stalls were served by the best known ladies of London society, and Melba, Albani, Kubelik and other singers and musicians were engaged for the concerts. The American court, under the direction of Mrs. Choate, Mrs. Reid and Mrs. Adair, was one of the features.

COSTLY AND WONDERFUL JEWELS.

Some wonderful jewels were on sale at Mrs. Paget's stall. One firm of Paris dealers alone sent a collection valued at £200,000. The greatest diamond in the world was on offer, and another jewel of interest to be seen at the stall was the great southern cross of pearls, said to be worth £10,000. The Queen was received at the foreign departments of the bazaar by the embassies with dignity and state. The scene at the opening of the bazaar was most brilliant and animated. The patrons are expecting to make £30,000 for the Hospital for Sick Children on

Great Ormonde street. The bazaar was held under a temporary structure covering 150,000 square feet, in the Botanical Gardens, Regent's Park. It was in aid of the hospital for sick children. Over 5,000 tickets at a guinea (\$5 25) each were sold in advance. A bank had established on the grounds, dinners were arranged by Ritz, and altogether every facility was offered those desiring to spend money.

IMPRESSIVE SCENE. The Queen in semi-state, with an escort of the Life Guards and accom- ages. panied by several members of the royal family, drove up to Regent's Park at four o'clock. Her Majesty was wel-comed by the Duke and Duchess of princes, the colonial premiers, almost mbers of the diplomatic my of the ministers and nobility ibled on a dais, from which, amid anfare of trumpets, the Queen dered the bazaar opened. #### RESULTS OF THE HEAT

Six Deaths in New York and Four in Pittsburg-French Soldiers Suffer.

New York, July 11.-Wednesday was the hottest day of the year in this city. The weather bureau thermoneter showed a temperature of 91 degrees at 1 o'clock and there was little or no breeze. Six deaths from the heat were reported during the morn-

Pittsburg, July 10.—Copious showers and thunderstorms last night and to-day have broken the hot wave, and the mercury is down to 68 degrees. Four fatalities and 11 prostrations were reported since yesterday.
Paris, July 10.—The summer manoeuvres of the French army have had

to be suspended owing to the prevalence of intense heat. There have been 320 cases of sunstroke among the troops, and three of these have been

> Pittsburg, July 11.—Fifteen were burned, one fatally and eight seriously, at the Homestead Steel Works, yesterday. Michael Levin, the most seriously hurt, was burned all over the body and will die. A ladle filled with moten metal was being lowered into the pit, when the drum of the crane broke and the seething metal was thrown over the unfor-tunate men. A panic followed and the men rushed from the mill, many with their clothing burning. DROWNED.

Simcoe, Ont., July 11 .- Peter Clouse, a former resident of Simcoe, was drowned at Port Rowan this afternoon while out sailing on Long Point Bay. He and a companion were out in a boat together. When his friend came ashore Clouse remained on the boat, which shortly afterwards was noticed to be empty.

SHOT HIS FRIEND. Neepawa, Man., July 11.—A fatal hunting accident occurred at Riding Mountain yesterday. John Angus and Peter Pellerin corralled a deer in a bluff at the latter's place and circled around to get a shot at it. # RESULTS AT ST. NICHOLAS AT LEAST 200 MINERS PERISH BY FIRE DAMP

(Continued from page 1.)

THE RESCUE WORK. "As to the rescue work, I directed it to commence just as soon after the explosion as possible. We started in at 1 o'clock p.m. We started working our way down by putting up brattices in order to carry the air in with us. suppose it was 10 o'clock at night before we came across the bodies of the

"Drs. John Lowman and John Hannan went down with us. They carried tanks of oxygen with them, which were emptied to good effect on the living.
"We found 25 dead on our way to these four living. Twenty more we found later on. They were scattered through that section of the mine. Most of them were on their way out, when caught by the fatal after-damp."

BEEN RUNNING 50 YEARS. Johnstown, a., July 11.—The rolling mill mine has been worked for about 50 years. Five or six years ago the section where the disaster of yesterday occurred was opened. The miners fan-cifully called it the Klondike. It is said that for the past three years gas has been noticed in it, and careful in-spections have been kept up. For the last three years safety lamps have been

carried by the men.
Frank Sabot, a boy, met death in a heroic endeavor to save his comrades. He had worked in the mine ever since the Klondike was opened up. After the explosion he hastened into the place of death to do what he could to of the after-damp. He was found lying near a partly closed door leading off to one of the left headings.

COSTLY CONCERN. Outside of the property loss the catastrophe will cost the Cambria Steel Company a large sum.

The company has for many years

past paid to the family of every person killed in its employ \$1,000, outside of what it expended for medical purposes, and it has paid every man who has lost an eye, limb or become otherwise partially disabled, the sum of \$500. It is understood these rules will

not be deviated from.

A searching party of forty, headed by Mine Superintendent Robinson, entered the mine at 9:30 o'clock. Those on the outside do not expect the bodies of victims will be brought to the surface until the middle of the afternoon.

# CONVICT TRACY STILL AT LIBERTY

The Slippery Desperado Again Slips Away From Posse of Deputy Sheriffs.

Covington, Wash., July 11.-Tracy has again slipped through a cordon of guards, this time at the mouth of deputies. He is now in the timber. No one was hurt in the fight.

When darkness fell last night Tracy was thought to be securely penned on the point of the western bluff, where Harg. he had been concealed all the aftertioned every 50 feet, he eluded them, and traveled

miles distant. Late last night he reached a sawmill plant a mile from here. Deputy Miss Waide. Sheriffs J. C. Brunce, F. Brunce, Galvin and Crowe had been sent to guard this point. Crowe and the Bunces, father and son, posted themselves on and Murray Wilson. the railroad near the sawmill, the Burces being on the outer guard line. Tracy soon appeared, and when ordered to halt started to run.

The Bunces fired four times each. Tracy ran up the track, and encountered Crowe. At Crowe's challeng: he coolly responded that he was a deputy. Crowe, thinking he was the elder Brunce, started to approach. They fired at him at close range twice without effect. Crowe was burnt slightly by

the powder. Tracy then entered the brush along the side of the track, and was lost in the darkness. The deputies made a burried detour through the woods to Covingt n to head him off, but on their arrival found that he had not

passed the station. Later it was learned that after his escape at Sluice Creek, Tracy attempted to board an eastbound freight Boston, July 1.-Joseph Graves, 5 train, but the grade is heavy at this years old, fell overboard near the float at North End Park and called for the speed was such he could not do The conductor of another train reports that near the sawmill someone called to him to stop the train. There were no deputies there, and it is thought it was Tracy who called.

A man thought to be Merrill, the escaped convict, appeared yesterday at the lome of a farmer near Ravendale, near here, and sought food. He remained in the vicinity all day.

# SERIOUS CHARGE LAID

Wm. Wilson Remanded to Appear on Saturday.

William ("Scotty") Wilson, who has been employed at various local livery stables for some years, appeared at police court this morning to answer a charge laid under the Charlton act. The charge is laid by Mrs. Margaret Ranahan, on behalf of her fosterdaughter, Mary Jane Brennan, a girl under 14 years of age Wilson is un-married, and his former and present employes all give him a good character. The maximum punishment for the offense charged is imprisonment for life, and whipping. Wilson was remanded to appear tomorrow.

Now, this was one of those chance shots which, like the missile of an am-bushed sportsman, though aimed at a single duck, brings down a whole troop single duck, brings down a whole of wild fowl, splashing and quacking and scattering over the water. At the first scattering over the water, he youngmention of the ominous name, the young-er lady gave a little toss of her shapely head, while the elder's brow grew black as midnight; but when the supposed conquest of the hard-hearted Gilbert was conquest of the hard-hearted Gilbert was reported, a sudden change seemed to show itself simultaneously in each. John had judged, and rightly, that proud Gertrude would support him vehemently in any conquest he might make rather than be supposed capable of jealousy of a Miss Jones. But he had not calculated on Lady Olivia's speedy acquiescence in any measure which might tend to further separate the two cousins. So he was not surprised when Lady Gertrude answered quick-

ure which might tend to further separate the two cousins. So he was not surprised when Lady Gertrude answered quickly, and with rising color:
"Oh, by all means, let us have her, Aunt Olivia; poor girl, it will be a charity to take her away from the savages on the other side of Oxford street, if only for one night, and to show her the manners and customs of the civilized English in the nineteenth century."
But he was a little astonished to mark Lady Olivia's frown gradually subside as he concluded his sentence. That lady, however, was incapable of granting a favor gracefully. She always seemed to think its value enhanced by the difficulty with which it was wrung from her. So think its value enhanced by the difficulty with which it was wrung from her. So the coughed ominously as she replied:
"I fear I have already exceeded my stated number, Mr. Gordon; and I do not wish my house to be quite as crowded so your friend Mrs Montpellier's."
"I know it is a great favor," said John; and I assure you, Lady Olivia, I would not have asked any one to do me such kindness but yourself."
While at the same moment Gertrude interposed eagerly:

interposed eagerly:
"Oh, pray send her a card. Aunt Olivia; "Oh, pray send her a card, Aunt Olivia; one more won't make any difference, even with our large dresses; though Charley Wing does say that every soldier occupies eighteen inches on parade, and every lady eighteen feet! Say 'yes,' Aunt Olivia, and I will write a card for Mr. Gordon in a moment.'

Thus adjured, Lady Olivia said "yes," though not very grat, usly: and so it though not very grac usly; and so it was decided that Bella Jones should be

was decided that Bella Jones should be supremely blest that very night. Diplomatic John Gordon had gained his point, and that was always sufficient for John, who, like a great man of the last century, confined himself to doing one thing at one time, and did it, in consequence, effectually.

Perhaps he gained more than his point without knowing it. In the general con-

thing at one time, and did it, in consequence, effectually.

Perhaps he gained more than his point without knowing it. In the general conversation which ensued, Lady Gertrude was not so talkative as usual. Neither did she indorse her aunt's invitation to a spare place in the well-known barouche then waiting at the door, an invitation the busy gentleman was compelled somewhat reluctantly to decline; but when he lingered a few moments after the elder lady's departure to prepare for her drive, Gertrude lingered, too—not because he did, of course, for she went to the writing-table in the back drawing-room, and proceeded to fill in a printed card for Miss Jones. That letters, and the day of the month requires no great effort of caligraphy, yet it took Lady Gertrude two or three minutes to accomplish her task. Then she came back to John and put the card in his hand with a little scornful courtesy, and rather a forced smile.

"Is Miss Jones really a nice person?" she asked, turning away to inspect minutely the mignonette in the window.

"Good-humored—unaffected. Yes, a very nice girl, I should say," answered John; as what else could he answer?

"And very beautiful, too, is she not?" pursued the lady.

"Many people admire her, I believe," replied he, abstractedly, and, truth to tell, somewhat tired of the subject.

"Do you think her pretty?" said Gertrude, turning round with a quick, searching glance. Rapid as it was, John's eyes met hers, and a faint blush came into his pale cheek.

"No, I can't say I do," was his reply; and the tone in which he spoke would have carried conviction to the most incredulous.

Lady, Gertrude was evidently not on terms of ceremony with Mr. Gordon, for

Lady Gertrude was evidently not on terms of ceremony with Mr. Gordon, for she bounded upstairs to put on "her things," without wishing him "good-by," and a minute afterwards was singing as merrily over her toilet as her own canary bird. When she came down again, Lady Olivia was ready in the drawing-room, but Mr. Gordon was gone. If she had expected to find him there, she bore her disappointment bravely enough. Even the footman who shut up the carriage steps after her thought he had never seen his young lady look so well and cheerful—"saucy" would have been his expression had he been capable of reducing his reflections to his own vernacular—as on that bright summer afternoon. Lady Gertrude was evidently not on

And John Gordon, having inclosed and sealed up the precious document, stepped into Piccadilly to drop it into the near-est postoffice. It had cost Lady Olivia's writing table two envelopes, though, for he spoiled the first by addressing it to THE LADY GERTRUDE JONES,

The son of Peleus, flinging his shield abroad in high defiance, as it would seem, of his equestrian rival perched on the gate of Constitution Hill over against him, must have acquired ere this a degree of philosophy and savoir vivre for which he was not distinguished in the days when he sulked in his tent by the sounding sea, and chafed to hear of high-crested Hector crashing through the batle under the walls of Troy.

high-crested Hector crashing through the batle under the walls of Troy.

How many London seasons has he stood there in his naked bronze, and watched the living kaleidoscope in Hyde Park, ever varying, ever on the move, tossing its tinsel into a thousand combinations, gaudy, purposeless, and provokingly alike!

Since our fair countrywomen put him up in honor of one whose fame shall outlast his own, he has indeed witnessed some unimportant changes. He has seen Grosvenor Gate deserted for the banks of the Serpentine, and the wooden rails in the ride converted into iron; also the the ride converted into iron; also the cality, an imitation of the French, which is, doubtless, even in our uncertain elimate, no trifling improvement. Nevertheless it has its drawbacks. Three-quarters of a mile of beauty-English beauty, too-looking its best, attired in gorgeous apparel, and drawn up sometimes even three deep, is a glorious sight, doubtless, and one calculated to inspire feelings of admiration and enspire feelings of admiration and eninspire feelings of admiration and en-thusiasm not entirely devoid of awe; but to walk composedly from end to end of such an array, is an ordeal that a bashto walk composedly from end to end of such an array, is an ordeal that a bashful man may well shudder to undergo. JUNIORS PLAY SAINTS. The junior lacrosse team will play the St. Thomas juniors tomorrow.

Judging by the way lacrosse is played these days this team would beat anything on earth, says the Montreal Herald: Goal, John L. Erne and Joe Walcott; outside home, Tom Sharkey; Inside home, Jim Cor-

Brantford Courier: London defeated tricks, and, as it doesn't show a disposition to do so, the C. L. A. should take the matter up. If the natives cannot be restrained from interfering the games should be played on neutral grounds.

# BOXING.

Buffalo Courier: According to advices from New York, Frank Erne has arrived in that city from England. His Buffalo friends had heard nothing from him up to a late hour last night, but they believe he will come on here in a few days, as they know of nothing that should detain him in New York. The management of the Fort Erie club is prepared to put on Erne with Mc-Partland or Art Simms at an early date, if the ex-champion is disposed to box either of these men.

Bob Fitzsimmons publishes an article telling why he will win this coming battle, writes a well-known New York fistic critic. In it he claims that he has learned a good deal from his battle with the champion. He does not tell exactly what he will do when he meets him in San Francisco, but I gather from it that he intends to depend mainly on his leg-work rather than on his hands. He saw Jim Corbett fight the champion, and he witnessed the way in which he bested him while his strength allowed. He admits that he is not as scientific as Corbett, but he claims that he is a harder hitter. Judging by what he says in this epistle I am of opinion that Bob intends employing a good real of footracing in the coming battle. He admits that he has no hope of winning this fight by clashing man to man with the champion, but he will depend on tiring him out by his leg-work. I have no doubt that by the employment of the mode of fighting he indicates he will employ, he will be able to last longer than he would by any other; but the champion may upset all of Bob's plans. He is clever on his legs himself, and though Bob may postpone the end by his tactics, I don't think he will be able to change results, and that, I believe, will be the victory of the present champion.

Poor Young Griffo is still running wild in Chicago, crazy from drink with no one to care for him, says a Chicago paper. Last Sunday morning Griff got one of his whisky fits and dashed down State street in his bare feet on the lookout for a friend to buy him liquor. A policeman nabbed him, and under threat of arrest sent him home to put on his shoes. On the way down the street Griff ran into a bootblacking stand and, being acquainted with the owner, asked the man if he would accommodate him with a shine. "Where's your shoes?" asked the boot-'Aven't got dem with me," black. replied Griff in a careless way. "Jist shine me blooming feet. It's all de same." The bootblack followed structions, and after polishing up the The Western Ontario Bowling Asso- feet of the eccentric fighter, Griffo walked away rubbing his hand over etation has issued a programme of the seventh annual tournament, to be held on the lawns of the London Rowing now," said he, "I would be all right for Sunday." He then made his way apparently contented with to a saloon, apparently contented with himself and the world at large. The poor fellow is in a pitiful plight, but even the police of Chicago find it a hopeless task to try and reform the once great featherweight, who has lost a fortune by his acts of dissipation.

as follows: "James J. Corbett, I write you thes feew lines hearing you was going to San Francisco to see the Jeffries-Fitzsimmons fight and challenge the winner. Now, if you will drop off at Muncie, I can get a purse of \$275 for you and I for a six-round fight. I'm the tuffest man in Muncie and have beaten ten men. I weigh 167 pounds." This communication signed "James L. Tweed, 231 Shirley avenue, Munice, Ind." In reality it was written by Charles Murray, the comedian of Murray and Mack. Murray sent with it a picture of himself taken in fighting pose, and showing his features twisted into a shape which would have frightened a grizzly bear. When Corbett saw the photo he almost called murder. He at once wrote a letter to James L. Tweed, saying he would not fight a man with a face like that for the whole State of Indiana. Tweed's amazement on receiving this epistle was limitless and his indignation boiling. He indited a hot epistle to Corbett, asking why he should be insulted in such a manner and threatening to have Corbett arrested for sending scurrilous matter through the mails. When Corbett was inditing a hot retort he received a letter from Murray telling of the joke. The pugilist immediately sat down and wrote an apology to Mr. Tweed, placing the blame on the latter's funny townsmen. No blood was shed, as it happened Tweed and Murray were friends.

Edward (Kid) Carter, the Brooklyn middleweight boxer, who meets Al Weinig next Monday night in Fort Erie, like Weinig has squared all of his pugilistic losses in precisely a similar manner to Weinig, comments a Buffalo writer. It will be remem-bered that Weinig lost to Dan Creedon, to Dick O'Brien, Billy Stifft and others. But Weinig refused to be satisfied with the losses and kept after the boxers until they gave him a second trial. In every one he reversed the decision, beating the very men who previously won from him. So, too, with Carter. In February, 1900, Jimmy Judge, the Scranton boxer, was at his very best as a boxer and knocked out Carter by a fluke blow in five rounds. Carter would not stand for a refusal for a second bout, and finally Judge was compelled to give him one, with the result that Carter test. knocked the Scranton man out three rounds and a second time in three rounds. Wild Bill Hanrahan whipped Carter in May of that same year, but the second time they met the Wild Man was beaten in turn. Carter has the distinction of two victories over Walcott, winning the first one on a foul in the nineteenth round in Hartford, and beating the negro in October of last year in San Francisco. Carter is one of the best looking middleweights today in the business and is a manly young fellow in every way. If he whips Weinig on Monday game. W. Orr, of Toronto, acted as night he will sign at once for a battle with Tommy Ryan. Carter is making many friends at Fort Erie by his quiet unobtrusive deportment. He has little to say and treats all with whom he comes in contact courteously. The Kid is working earnestly and is already in fine shape. He will be well backed by Fort Erie people, the majority of whom believe he will win. Weinig is training more assiduously than he ever did before. He is box-ing more than he did in preparation for former bouts and paying much attention to clean breaks. Weinig is betting on himself, and so are his friends. He believes he will give Carter a beating.

Bob Fitzsimmons is without doubt Second race, 5 furlongs, for maidens, 2-year-olds, colts and geldings—First Mason, 112 (Allairie), 8 to 5, won by two lengths, Crais Crais are a speedy are a spe to believe that this is correct. When a man is drowning his rescue is a question of timely help. It is the same thing in disease. Many a time the doctor says of a man whose condition is hopeless, "If you'd begun in time you might have been cured."

This is especially true when the disease affects the lungs. Delay is dangerous. The timely use of Dr. Pierce's Golden Medical Discovery will result in a quick cure of deep-seated coughs, bronchitis, and weak lungs. Even when hemorrhages have been frequent and profuse "Golden Medical Discovery" as been used time and again with the result of a perfect and permanent cure. "I was in poor health when I commenced taking Dr. Pierce's medicine," writes Mr. Elmer Lawler, of Volga, Jefferson Co., Ind. "I had stomach, kidney, heart, and lung troubles. Was not able to do any work. I had a severe cough and hemorrhage of the lungs, but after using your medicine a while I commenced to gain in strength and flesh, and stopped coughing right away. Took about six bottles of the 'Golden Medical Discovery' then, and last spring I had Grippe and it settled on my lungs, leaving me with a severe cough. I had the doctor, but he didn't seem to help me any; so I commenced your medicine again and took three or four bottles of the 'Discovery' and two vials of Dr. Pierce's Pellets, and that straightened me up. I feel like a different person. I gladly recommend your medicine to all sufferers, for I know it cured me."

He went with that gentleman to Toronto, filling the same position, afterwards going with him to Vermont. We are not surprised at the rapid promotion of our old friend, Mr. Mullins, and we wish him still greater distinction. It is but a recognition of rare merit, and his advancement will, we hope, prove a most useful lesson for many a young man who lacks ambition, who is expecting friends to come to his assistance, and is always waiting for "something to turn up."

# SIFTON APPLICATION GOES AGAIN TO CITY COUNCIL

Are Same as Before.

THE CITY SOLICITOR'S OPINION

Board of Works Holds Two-Hour Session and Considers Various Important Matters.

The most important matter before No. 2 committee at its regular session last night was the application of Mr. E. I. Sifton for permission to string electric wires. The matter took up very little of the board's time, however, for as soon as City Solicitor Meredith's letter on the subject had been read, Ald. Jolly moved that the matter be again sent to council with a recommendation that the application be granted on the same terms as outlined in the mover's resolution of two weeks ago. This motion carried. Others matters considered by the committee included the feasibility of passing an anti-spitting bylaw, the nonfulfillment of contracts by gravel con-

tractors, the settling of a couple of claims for damages. THE SIFTON APPLICATION. The consideration of the Sifton matter was brought up in connection with the submitting by the city solicitor of his finding on the three ques-tions propounded by counsel for Mr. Sifton. The questions were as follows: 1. Are the London Electric Company bound by their existing agree-

ment to supply electricity to any individual in the city? 2. Are the London Electric Company bound by their existing agreement to supply electricity at any fixed

rate to any persons, or may they fix rates at their discretion? 3. Does such existing agreement apply to supplying electricity for power?

THE SOLICITOR'S OPINION. City Solicitor Meredith's answer to the questions submitted were to the following effect: If the wires of the company were extended throughout the area and locality mentioned in section 2 of the agreement with the company, the ratepayers in any block within that area could require the service to be extended to them, provided the block were within 1,400 feet of any wire of the company, and that the ratepayers so applying agreed to be-come consumers of electric light, at the current rates for the period of one year. If a right were granted in the same language to Mr. Sifton, he would not be under the same obligation because it is admitted he has no wires extending throughout the area des-cribed in section 2a, of the agreement, and would only be bound to extend his service to a block which was within 1,400 feet of some wire of his. The right of persons to require the service of the company to be extended to them is limited. The company are not bound by their agreement to supply electricity at any fixed rate. The agreement between the company and the city does not relate to the supplying of electricity for power purposes.

SENT TO THE COUNCIL. Ald. Jolly said he considered the matter had been thoroughly discussed. He accordingly moved the same resolution as was moved by him at the board meeting on Thursday, June 26, it being to the following effect: "That with the object of giving com-petition in electric light and power to the citizens, this committee recommend that E. I. Sifton be granted the privilege of stringing wires across or over the streets on condition that he

will within six months extend power

and light wires throughout the fol-

lowing area: Ontario and Rectory streets on the east, Hamilton road

Terms of Recommendation and Horton street on the south, Wharncliffe road on the west and Oxford street on the north, and also in that portion of South London bounded by the Wharncliffe road on the west and Elmwood avenue on the south, and shall supply current to all citizens within the said areas, desiring the same; that the rates be the same The motion carried, Ald. Jolly and Dreaney voting for it. Ald. Gerry entered a protest against this method of dealing with the application, but his protest was unheeded.

THE ENGINEER OVERRULED. The engineer reported that be had canceled the gravel-supplying contract of P. M. Fox, who has refused to fulfill it properly. In view of the scarcity of gravel, the poor quality supplied and the unsatisfactory way in which contractors are fulfilling their contracts, the engineer recommended that no gravel be advertised for, out that only broken stone be used on the streets. Mr. Fox addressed the committee and pointed out the difficulty he had

had in the securing of the proper quality of gravel, owing partly to the height of water in the river, and partly owing to the continued rains. Engineer Graydon said that Ald. Dreaney had said that the gravel supplied on Adelaide street was half sand. Ald. Dreaney forcibly denied having made the statement attributed to him

by the engineer. Engineer Graydon said that Mr. Fox was not the only contractor who was not fulfilling his contract. A couple of other contracts should be canceled. Ald. Dreaney moved that Mr. Fox be allowed to complete his contract.

The motion carried. Ald. Jolly moved in amendment that Engineer Graydon's canceling of the contract be recommended to the council for confirmation. The amendment lost, and the motion carried.

CLAIMS FOR DAMAGES. John Fleming, 20 Dundas street. asked for remuneration for damages

caused to the walls of his house by street water running against his Engineer Graydon recommended that no action be taken. The house was built in a hollow, and it would be difficult to prevent the street water running against it. A new walk should have been put down, but it was peti-

tioned against. Action was deferred to allow the committee to view the damage done

to the house. Mrs. Catharine Norris asked for remuneration of \$30 and payment of her doctor's bill for injuries received in a fall on the sidewalk on Grey street, between Wellington and Clarence streets. She broke her fingers and was

unable to work. Engineer Graydon reported that the sidewalk had been repaired since Mrs. Norris' accident. He recommended that she be granted \$10 or \$15 and have her doctor's bill paid. On motion of Ald. Jolly, Mrs. Norris will be offered \$25, she to pay her own bill for medical attendance.
