Thoughtful citizens all over the Province are beginning to open their eyes to the business and moral dangers of the wicked character of the campaign for office-at-any-cost now being pursued by Mr. Meredith. These dangers, in the United States, have culminated in many places in severed business relations, in sundered neighborly attitudes, in bitterness, insecurity-in a word, in everything that is implied by the word "anarchy," apart from the bombs. It is not any mark of ability, but the opposite, that a politician is able to create irreligious bitterness in the name of the Author of the Golden Rule. The infamous work of kindling religious strife, says the Canada Presbyterian, is always easily done in a mixed community like that of Canada. If it be replied, "Oh! Mr. Meredith does not mean what he is saying on the platform; he is only trying once more, after long years of failure, to get into office on a new tack;"-such an apology only deepens the deep wickedness of his present course. It is one thing to-day, another thing to-morrow. Just now he shrilly appeals against one section of the population-his local and other organs being now filled every day with open or covert appeals to sectarian bigotry. Yet the Toronto Mail of December 8, 1886, reports Mr. Mer- physician that his Holiness' recent attack

"An attempt is being made to make it appear that I am hostile to the separate schools. That is a cowardly attempt on the part of the Globe, in the face of my address, in which I said I promulgated. am in favor of maintaining the separate schools and increasing their efficiency. The Globe has not the manliness to publish those remarks, but distorts what I have said in order to prejudice those who may not have ac- cent loan of £500,000 to assist in the comcess to any other means of information | pletion of the final work on the canal. The than its columns. Who secured the authorization of this sum will exhaust the passage of the separate school law? IT WAS THE CONSERVATIVE PARTY OF CANADA."

To-day, either openly or covertly, according to the constituency, or the house, has been arrested on the charge of ward, or the concession, Mr. Mere- attempting to kill one of her lodgers, a dith is seeking the poor success of arsenic. From discoveries made the office-at-any-price by endeavoring to authorities believe the woman's husband arouse the basest, the most dangerous all of whom died recently, were poisoned passions of mankind. What wonder by her. that the Canada Presbyterian says, "Beware of those who try to kindle strife among neighbors." What wonder Rev. Dr. Dewart, editor of the Methodist Christian Guardian, says of Hon. Geo. W. Ross, who is especially singled out for attack, that "the per- Hundreds of other persons were at the sistent assaults on his administration have been so triumphantly met and repelled that they are now cast asidelike bullets that have been flattened Kong newspaper, under date of May 8, against a granite wall-and are of no further use to their authors"? What wonder that Principal Austin, of St. Thomas, should declare he feels bound, as an honest man, to support Sir Oliver Mowat? What wonder should declare, Ontario cannot afford to dismiss Sir Oliver Mowat? The honest, quiet citizen has an imperative call to rally to the support of Sir Oliver Mowat by supporting those candidates who are pledged to support the business credit of this Province, while other countries have shaken to the center. Sir Oliver Mowat has fought and won for Ontario 100,000 | may be averted by negotiations between square miles of valuable territory of which her opponents sought to deprive her. Sir Oliver has kept Ontario out of debt-the only Province of which that can be said. Is it of no moral consequence that before them for all these years the ex ample of a pure-minded, God-fearing, that a man to marry his deceased wife's and before a physician could be reached he

courage all attempts to bedevil the lost by 129 to 120. community by the raising of false of us, whether Conservatives or Lord Salisbury, the Duke of Norfolk, and many other Tories and some twenty bishops opposed it. Liberals, Jews or Gentiles, have to mingle in friendly business and general intercourse after the 26th of June. As Principal Grant puts it, "Ontario cannot afford to dismiss Sir Oliver

Anarchist Tactics.

ROME, June 15 .- During the trial of Signor Tanlongo to-day a letter signed by Anarchists was circulated in the court room threatening the jurors with death if they acquit Tanlongo. The letter says since Deputy De Felice and other children of the people have been condemned guilty capitalists must not be treated with leniency. The concluding sentence of the letter says: "We know your addresses."

Easily Answered. LONDON, June 15 .- In the House of Commons to-day Sir Hugh J. Kay-Shnttlein reply to a question by Mr. Charles E. H. Vincent that it was true that the British Admiralty had purchased pork, oils and other naval supplies in foreign countries. The reason for this, he said,

was because these supplies could be bought

cheaper abroad than at home. The Pope Was Near Death. ROME, June 15 .- The representative of the United Press is informed by the Pope's of weakness brought him near to death. His edith as saying in his London speech: Holiness has fully recovered his strength and is now in excellent health. A committee of the College of Cardinals

has approved of the Pope's encyclical letter, stamping it as his political testament. The encyclical will shortly be

To Finish the Manchester Canal. MANCHESTER, June 15 .- At the meeting of the directors of the Manchester Ship Canal to-day it was resolved to make application to the council of the city of Manchester on June 30 for the issue of a 3 per statutory powers of the city of Manchester to vote money to the canal.

A Horrible Suspicion.

MELBOURNE, June 15 .- Mrs. Martha Needle, a widow, keeper of a lodging man named Juncken, by giving him and three children and Juncken's brother,

Anniversary of Emperor Frederick's Death.

BERLIN, June 15 .- The Emperor and Empress observed the anniversary of Emperor Frederick's death by going to the Potsdam mausoleum this morning, and offering silent prayer at the tomb and laying wreaths at the head and foot. tomb this afternoon. Many of them left wreaths and great bunches of flowers.

Two Thousand Coffins Given Away. The Canton correspondent of a Hongsays: "Hardly a house but has someone dead. The plague began in the Mohammedan quarter, and 100 cases are reported daily. It is impossible to ascertain the number of deaths. Officials try to suppress the facts. At the largest charitable dispensary a notice on the door says that up to date 2,000 coffins have been given away. This is tar below the actual number used." that Principal Grant, a Conservative, French and Belgians on Bad Terms.

BRUSSELS, June 15 .- The Government has received news from the African district of Oubarghi, bordering on the Congo State, that the French and Belgians there are on bad terms. The hostile feeling grows out of disputes in regard to the occupation of that territory. As was announced in the French Chamber of Deputies him. Sir Oliver Mowat has preserved by M. Hanotaux, French troops are en route to the Oubanghi country, but the Belgians there greatly outnumber the French, and in these circumstances a conflict would result very seriously to the latter. It is hoped that an armed collision

> the Governments of Brussels and Paris. Lost by Nine Votes.

LONDON, June 15 .- The Earl of Dunraven second reading of the Deceased Wife's to conceal a serious offense not specified. Sister Bill. He said that the experience of

the quiet elector, through quiet, uncon-bishop of Canterbury and Lords Selborne troversial and persuasive talk, to dis-and Dudley spoke against it. The bill was

The Prince of Wales, Lord Rosebery and most of the Liberals supported the bill.

In Re Morocco.

LONDON, June 16 .- Sir Edward Gray, Parliamentary Secretary to the Foreign Office, stated in the House of Commons this afternoon that the powers had decided upon cencerted action to maintain the statu quo in Morocco, but had not yet decided to formally recognize Abdul Aziz as Sultan of

TANGIER, June 15 .- Abdul Aziz has been proclaimed Sultan in Fez. No militant opposition to his succession was manifested there, despite the previous apprehensions of trouble. His uncle, Muley Ishmail, has been appointed Khalif of Fez. A large force of French and Algerian troops has been ordered to the Aigerian border to watch the course of events in Morocco.

Many Miners Killed.

VIENNA, June 15 .- Five distinct explosions of fire-damp occurred in the coal mines of Count Larisch, at Karwin, Austrian-Silesia, last night.

The first explosion occurred in one of the pits of the Franzeska mines at 10 o'clock last night. Of the large number of miners at work there twelve were killed. Almost immediately there was another explosion in an adjoining pit, followed by several other explosions, the most serious being in Johann mine, in which a large number of men were working, and of whom 80 were killed.

At 5 o'clock this morning a rescue party went down into one of the pits. The fire was spreading in all of them, destroying the ventilator shafts.

The rescue party were caught by the

flames and perished. Large crowds of people, many of them the wives, children and other relatives of the dead miners, are congregated abo. the entrances to the shafts giving vent to their grief in loud lamentations.

At 3 o'clock this afternoon the fire in the Karwin mines had not abated, and men were set to closing the pit with brickwork. It was then thought that all the bodies in the mine had been burned.

A dispatch from Karwin says that only twenty of the men injured by the explosion were taken out of the mines. Several of them were dying when brought to the surface. tThe rescue party which was lost consisted of ten men. In 1885 there was a fire in the same mines. It lasted eight days, and mining experts say that this worth, Secretary to the Admiralty, stated | time it will continue to burn for at least a week.

# IN LABOR'S FIELD.

The Anti-Canadian Crusade

Many Miners in Pennsylvania and Elsewhere Will Resume Work on Monday.

BUFFALO, June 15 .- The anti-Canadian crusade has gained an important point. Heretofore the street railway company has employed a very large number of Canadians annually. Select Councilman Byrne recently opposed a grant of right of way to the company because of this fact, and had the grant tabled. President Watson, of the street railway company, now announces that hereafter only citizens will be em-

ployed by the company.
Pirisburg, Pa., June 15.—At 4:30 o'clock this afternoon the miners' district convention voted unanimously in favor of resuming work on June 18, and with the same vote ratified the action of the Columbus convention and indorsed the action of the national officers.

NEW YORK, June 15 .- Bradsteets' says: Present prospects point to the practical tailure of the bituminous coal strike and the outlook is for a practical return of the miners to work in a sufficient number of districts to end the strike by the middle of next week. Should western manufacturers of iron and steel refuse to sign the wage scale of the Amalgamated Association higher prices for various forms of those metals will result.

ZANESVILLE, Ohio, June 15 .- A trestle was burned this afternoon near Granger's Station, on the Brush Creek branch of the Columbus, Shawnee and Hocking Railroad. Striking miners are suspected of firing the

PITISBURG, Pa., June 15 .-- A riot occurred on the south branch of the Pennsylvania Railroad early this morning at Strickler's mines, in which 800 miners engaged. A coal train was stopped at Shoup station and the engineer compelled to reverse his engine and take the train back to the sidetrack.

SPRINGFIELD, Ill., June 11 .- Advices from Mount Oliver state that the miners there have again broken out and are stopping all trains on the Chicago, Peoria and St. Louis Railroad, and the United States deputy marshals there are powerless.

PITTSBURG, June 15 - The convention of coal miners of the Fittsburg district accepted the 69-cent rate and will resume work Monday. The vote was 89 to 31, but it was made unanimous immediately after the announcement. When explanations were given the opposition to the officials growing out of misunderstanding gradually melted away. There are nearly 20,000 miners in the Pittsburg district, and as a majority of the operators are satisfied with the new schedule, a large number of miners will return to work Monday. Where operators will not pay the scale the miners will remain on strike.

Lambton Liberals Hold a Good Meet-Ing in Petrolea.

Mr. Jackson and His Friends Doing Well in East Middlesex.

SPLENDID LIBERAL MEETING AT ST. IVES. At splendid meeting was held on Wednesday at St. Ives in the interest of Mr. R. W. Jackson, the Reform candidate. The chair

The meeting was opened by a rousing speech from Mr. Woods, one of the first Patrons in the Province of Ontario. He pointed out clearly the position of the Patrons and that of the P. P. A. as inconsistent, as a man could not properly belong to both institutions. He was frequently

marks principally to farmers, and urged upon them the fact that if the farmers could not get justice in the present House, where more than one-third of them were farmers, it would be impossible to organize a Legislature in which they could get jus-

Mr. Archie Black followed, entering minutely into several of the issues, and in his clear, pointed style, and with the ritual of the P. P. A. Order in his hand, de-

speech, of the evening, taking up the various issues which had not been taken up by the previous speakers.

much dissatisfaction with the fact that Mr. Shore advertises his meetings for Patrons of Industry and those who appear on the platform for him to deliver P. P. A. speeches, and the feeling is strong that there is an attempt being made to hoodwink the Patrons of Industry and make tools of them in the interest of the P. P. A. The meeting broke up with three cheers for the Queen, Sir Oliver Mowat, Mr. Jackson and the chairman.

A good meeting in Mr. Jackson's interest was also held in Nilestown on Thursday night, and another at Hyde Park. If the friends of Mr. Jackson get out their vote, they will win by a good majority. THE TIGER AND THE BOY.

Thursday night, in answer to an interrupter, Mr. Lindsey, the Liberal candidate, made an excellent point when he told how the separate schools tiger of the News cartoon represented but 7 per Protestantism. (Cheers.) A PEANUT POLITICIAN.

The latest charge against the Mowat Government is that brought by Mr. Marter. He has discovered that the London Asylum bill for laundry work includes the washing of Dr. Bucke's shirts. Having in view, probably, the success with which the "bloody shirt" has been used in United States political struggles, Mr. Marter, Mr Meredith's large hearted and generous lieutenant, seized upon it as one of the great issues of the campaign and after dwelling on the subject sometime has magnified it to a \$400 robberv. It turns out, however, that the total of the bill for washing in the superintendent's department was \$65. Mr. Marter scems to be like Dr. Rverson, very much of a peanut politician. -[Hamilton Times.

LAMBTON LIBERALS. PETROLEA, June 15 .- Mr. C. Mackenzie. the candidate of the Reform party for this county, opened the ball here this evening in Victoria Hall, Mr. John Fraser, acting as chairman. The hall was filled. Mr. Mackenzie spoke for about one hour and a half, touching on all the important points in connection with the Mowat Gov. ernment. He was frequently applauded and received a good hearing.

A PATRON CHANGE. LERLIN, June 15 .- At a convention of Patrons of Industry held here Mr. Val Otterbein, of Wellesley township, was chosen in place of Mr. D. M. Shoemaker to contest the north riding in the approaching elections. There are now in the field Mr. Robertson, Reform; Val Otterbein, Patron, and F. G. Gardiner, Independent.

MR. ROSS AT NORWOOD. night in the drill shed. Mr. Ross, accompanied by his wife, was the guest of John Davidson, head master of the high school, and during the afternoon visited the high and public schools, and witnessed a football match between the town and school boys. At the evening meeting Thos. Fraser, of Norwood, was chairman. Mr. Blezard, the Liberal candidate, spoke for an bour with good effect. Hon. Mr. Ross, upon the policy of the Mowat Government. He defended his position as Minister of Education and the general policy of the

PULLING FOR SHORE.

A Slim Meeting of His Followers in Collins' Hall.

Henry Macklin, Wm. Shore, Wilson Mc-Cready and Joseph Marks Speak to a London West Audience.

Mr. Wm. Shore, the Conservative-P. of I.-P. P. A. combination candidate of East Middlesex, held forth to empty benches in Collins' Hall, in London West, last night. The place was less than half filled after an hour's wait from 8 until 9 p.m., when the proceedings commenced. Henry Johnston was moved into the chair by a youth who received his instructions from one of the intending speakers. Those on the platform were Henry Macklin, Joseph Marks, Mr. Shore and Mr. Wilson Mc-Creadie, the Patron candidate of the riding

for the Dominion House. Mr. Shore was the first speaker. "We should be united," said he, "and not divided by party lines as we are to-day. We should unite as Protestants and work to our interests instead of dividing on old party lines. We have been divided too long and working against our own interests by these party lines. We should unite and come together, for what is good for the Grit is good for the Tory. We are divided against our own interests year after year." Mr. Shore claimed that every department under the present Government was extravagant. "You will excuse me if I touch on Mr. Mowat," said Mr. Shore, half apologetically. "We are dealing with the Ontario Government now, but when we get up on a Dominion election we will show up the other Government, too." Mr. Shore took up a book of public accounts, assuring his hearers that "facts what we find here is facts." When he touched upon the asylum laundry bill someone in the audience asked him if the amount was not spent in permanent laundry machinery. Mr. Shore did not know, but he reassured his listeners that his figures

were absolute facts, anyway. Further on he said: "We are knuckling down to everything and sacrificing principle -and Protestant principle at that (tearfully). I claim that we have not got a thorough Protestant school in the Dominion. Whither are we drifting?" A Voice-What is the matter with Lon-

don West schools? Mr. Shore-I claim that the school books are drifting away to Popery and to Rome as fast as possible. (Hisses.) Then Mr. Shore opened a Third Reader and turned to a poem entitled "Angels'

Whispers." He said of course it was a very nice poem, but listen: "A baby was sleeping, its mother was weep-Its father was far on the far distant sea."

Several stanzas of a similar strain fol-

lowed, and then Mr. Shore lowered his voice as he came to 'Her beads while she numbered, her baby still slumbered." "There," said Mr. Shore, "that is called

a Protestant Third Reader." Continuing,

he picked up the Scripture lessons compiled by the Minister of Education called by some the "Ross Bible." He said that he would read to them portions of the Old Testament Scripture that were eliminated. A Voice-Let us pray first. (Laughter.) Continuing in his Third Reader voice,

Mr. Shore came to a passage, "He was led like a lamb to the slaughter." A Voice-That's just like Mr. Shore. Mr. Shore closed his Bible reading and address with his oft repeated question, "Whither are we drifting." If Mr. Shore is a P. of I. or a Tory he failed to make it

Mr. McCreadie followed, and supplied

known.

the P. of I. part of Mr. Shore's address. He received a better hearing, and was more at home on the platform than Mr. Shore. Mr. Joseph Marks followed. "I intend to enthuse no man's prejudice," said he. "to arouse no man's passions, and I will talk about no man's religion or church. I recognize that as workingmen, if we ever want to attain our object we have got to get together on the same line and remember when we get together we are work. ing for an object and don't know what a man's religion is. I stand here to-night because Mr. Shore is pledged as an independent in an independent movement, and I stand upon the platform on no other ground." Continuing Mr. Marks said that he had faults to find with both Mr. Mowat and Mr. Meredith's stands, and he also believed

the P. of I were going to hold the balance of power after the next election. Mr. Marks spoke in the interests of labor and said: "The man who grumbles for four years of Parliament against wrong conditions and then on election day goes and votes for those wrong conditions-that man's a fool." (Applause.) In conclusion Mr. Marks criticised the platforms of both Mr. Meredith and Mr. Mowat, and said neither were to be trusted. He asked the workingmen to rise in their might and

Mr. Henry Mackl n followed and spoke along the same lines as he did at the last

The meeting broke up in the usual way about 11 o'clock. Piles Piles ! liching Piles. SYMPTOMS-Moisture; intense itching and stinging; most at night; worse by scratching. EFFECTS OF THE DOWNPOUR.

The Engineer Wants \$4,000 With Which to Repair Damages.

Mr. L. E. Meyer's Offer for the Street Railway Franchise First Filed and Then Voted to Lie Cver.

It was a few minutes over time before the members of No. 1 committee started business, but when they did they handled quite a number of items. A communication was read in reference to a claim of Westminster township for remission of school rates, which was filed.

C. A. Kingston sent in a specification for the remodeling of the streets for the use of the street railway. Filed. The committee were asked to investigate

the expenses of the Old Men's Home. The matter will be attended to.

Mr. Sussex's application for remission of police court fine was allowed, if he will comply with the engineer's requests.

L. E. Meyer's final offer for the street railway was fired, and then it was decided to merely lay it over. J. Ryan's and J. Brooks' fines on appli-

cation were remitted. Mrs. Jane Bayley's taxes were remitted. Engineer Graydon asked for \$4,000 for

repairs to culverts, bridges, roads, etc., which were damaged by the recent flood. It was decided that the committee keep within the estimates. The Free Library Board requested that

debentures for \$20,000 be issued. In regard to this matter the chairman presented a petition, two yards long, from John Campbell and others, requesting that the matter of issuing debentures for the free library be voted on by the people. The committee have no power.

Graydon & Graydon, representing the Ontario Mutual Assurance Company, stated had to pay the 75 cents and a nice bill of that this company had \$3,000 worth of debentures of the city of London on their hands in May, 1892, when the company went into liquidation. The Ontario Government took charge of these debentures, which were handed to the city treasurer in ing in the 65th year of her age. October, 1892. The directors of the company asked for the interest on this sum during county constable of Oxford. the intervening months. Mr. Graydon, who appeared for them, stated that they had no legal claim, but if the city or any person in connection with the city were put to any trouble over granting it, the sum would be remitted. The matter will be brought up before the council.

Mrs. Long, of Bridges street, asked for remission of a \$6 fine and also her taxes of 1893, as her income at present is extremely

Messrs. Wood and O'Hara, brokers, were requested to withdraw, and the tenders for debentures consisting of \$25,000 for two years and \$50,000 for seven years, bearing years and \$50,000 for seven years, bearing 4 per cent interest were opened. Mr. George A. Stimson's (Toronto) tender of \$99 07 for the former and \$98 51 for the

latter was accepted. The monthly accounts, amounting to \$12,333 46, were passed, as was also the police court clerk's report.

The members present were Chairman Judd, Secretary Pope and Alds. J. W. Jones, T. Pritchard, J. A. Fitzgerald and Robt. Carrothers.

PERTH. During the storm on Tuesday morning the brick residence of Mr. John Brine, Shoebottom's Corners, Blanshard, was struck by lightning and so badly wrecked that the family had o move to another house until it is repa. d. Mrs. Brine and her son James, as well as her sister, Miss Jeannie Smith, were severely stunned by

the shock. John Whyte, jun., of the firm of John Whyte & Son, St. Marys, is on his way to the old country, as the doctors are of the Suspension Bridge, good to June 30. 7g opinion the sea vovage will be very beneficial to his impaired health.

Robert Treacy, contractor, St. Marys, with several of his employes, met with a bad mishap in East Nissouri the other even-bad mishap in transite from work. Treacy ing while returning from work. Treacy Bros., furniture dealers, alighted on a harb wire fence and the opposite Market House.

driver fell upon him. He was terribly out about the face and his clothes torn to shreds. Simon Henry, the driver, had the nail of the initial finger of the right hand torn off and was also badly shaken up. Stephen Towle sustained a cut across the wrist, necessitating five stitches being put in. John McMillan was thrown over the dashboard, and alighting upon the ground head first was rendered unconscious for some time.

The Bishop of Huron has offered the rectorate of Mitchell, made vacant by the removal of Rev. A. D. Dewdney, to Rev. J. T. Herrin, of Bayfield, and he will likely accept. Rev. Mr. Owen, the first choice, did not accept as his congregation urged did not accept as his congregation urged upon him to remain, and he acceded to their wishes.

WATERLOO. The very sudden death of John Hayes, treasurer of the township of Wellesley, startled his friends the other day. He was extensively engaged in farming, as he owned and cultivated two very fine farms of 200 acres each.

of 200 acres each.

The annual convention of the Waterloo W. C. T. U. was held in Knox Church, Ayr, on Thursday. Mrs. Graham, of Galt, the retiring president, gave an interesting address on the work of the union. The following officers were elected: Mrs. Graham, honorary president; Mrs. J. R. Cavers, Galt, president; Mrs. Roat, Berlin, vice-president; Miss J. A. Neilson, Ayr, corresponding secretary; Miss Rennelson, secretary; Mrs. Williams, treasurer. A mass meeting was held in the evening, when mass meeting was held in the evening, when F.S. Spence, of Toronto, delivered a stirring address on temperance.

WELLINGTON. Mr. W. B. Cockburn, of Guelph, arrived home from the old country on Friday last after a very pleasant and successful buying trip. He brought home with him 72 head of Oxford Down sheep, and has eight to follow after the Royal Agricultural Show. Several of these animals cost from £15 to £40 and are considered an exceptionally fine lot.

How to Look Well and Feel Well.

# THE PLAN ADOPTED BY SENSIBLE PEOPLE.

They Use Paine's Celery Compound and Keep up Their Strength and Vitality in the Hot We ather.

"How to look well and feel well" during the oppressively hot summer months, is a subject that should command the attention of every busy man and woman. There are thousands of business men, clerks, toiling, bustling housewives and girls employed in offices, stores and workshops, who lose all strength and vitality in the months of July

and August. As a rule, these daily workers feel well in ordinary weather; but, when the sun pours down his scorching rays day after day, and when the air is heated and heavy, then all life and heart seem to depart from everyday toilers. They look pale, listless and The Dominion Government Will Dis nervous; they are irritable, languid and broken-down. It is no exaggeration to say that "they feel worse than they look."

To those who find life a burden in summer time, we would strongly recommend the wise and unfailing plan adopted by more fortunate men and women, who even in the hottest weather, look well and feel well, and always escape the debilitating effects produced by a heated and impure atmos-

phere. The wise, prudent and vigorous in summer use Paine's Celery Compound as a tonic and strength giver. This remarkable medicine, it must be remembered, is not intended exclusively for the rooting out of disease, and for the cleansing of the blood; its toning qualities and its virtues for keep. ing well people regular, strong and active,

may prove useful and helpful. A busy wholesale grocer, doing business in one of our largest cities, says: "During the summer weather of 1893, I used Paine's Celery Compound which was recommended to me by a banker. It kept me in perfect condition during the whole summer, and

gave me strength and regular appetite. I did not find it necessary to go to the seaside with my family. It will be my friend every succeeding summer." A young lady in a large Montreal dry. goods house, says: "Two summers ago, one of my lady friends advised me to try Paine's Celery Compound during the hot weather, as a tonic and health-builder. I used the always vigorous and active, while many

girls around me in the store, of stronger constitutions, were complaining of lassitude and debility." A well-known lady and mother of six children says: "I seriously and confidently recommend Paine's Celery Compound to all mothers who wish to keep up their health and strength during the very hot weather of summer time. I use the medicine every day, and feel hearty and strong, and have no difficulty in getting through with my household work and cares, which are never very light. Since I have used the com-

to the country for two or three months to gain health. In every dose of Paine's Celery Compound I find a supply of MORAL .- You save time and health, and banish all discomforts by using Paine's

pound I do not find it necessary to go off

Erie Excursion to New York. On Thursday and Friday, June 21 and 22, the Erie Railway will run an excursion each day to New York from Suspension Bride, the fare for the round trip being \$8. This promises to be one of the best excursions ever run to the metropolis of America. Everything that is required for comfort in a journey of this kind will be provided by the Erie officials. Tickets can be secured at the Bridge and are good on any train on either Thursday or Friday, and are good for return passage on any train leaving New York on or before Saturday June 30. The coaches will be the latest high-back seat day coaches used. The pleasures to be derived from a visit to New York are innumerable. The wonders of New York should be seen by everyone, and the advantage now given by the Erie Railroad should be accepted by many from this section. Pullman vestibuled sleeping cars and parlor cars will be run on the trains. Remember the dates, June 21 and

pose of the Thousand Islands.

A Liberal Proposal Voted Down by 32 Mrs. William Langley Was Subject to of a Party Majority.

Mr. Charlton's Sunday Bill Killed by the Senate-22 to 13.

(Special to the ADVERTISER.)

OTTAWA, June 15 .- In the Commons on motion to go into committee of supply Sir Richard Cartwright drew attention to the advertisement stating that the Thousand Islands would be sold by private sale at an upset price ou July 2. He protested against selling 700 or 800 islands by piecemeal at auction when the Ontario Government was willing to purchase them en bloc and preserve them as a natural park. He held the view strongly that it would be a mistake to part with these islands to individual purchasers, who would in most cases be wealthy Americans, and, for one, he did not care to see the American flag on both sides of the river for 40 miles. It would only cost \$3,000 or \$4,000 a year for Canada to extinguish the Indian title in these lands. He moved in amendment "That the House has learned with surprise of the intention of the Government to dispose forthwith of the remainder of the Thousand Islands by private tender; that in the opinion of this House the present is not an opportune time for disposing of the said islands, and further, in view of the proposition submitted by the Government of Ontario to purchase the same for the purpose of converting them into a national park for the benefit of the people of Canada, it is expedient that no further action

Mr. Daly said that the Ontario Government could come in and tender for the islands if they choose, but Mr. Laurier pointed out that the Ontario Government could not obtain an appropriation from the Legislature until next winter, but that if the Dominion Government had promptly acted on their offer when it was made during the last session of the Legislature the appropriation could have been got. Mr. Laurier dwelt on the desirability of securing for the people this great natural park in all Its beautv.

Sir John Thompson, who was in a very bad humor over the matter and sneered at the motives and opinions of Sir Richard Celery Compound during the summer Cartwright, contended that if the Province of Ontario was going to acquire the islands it would not be necessary for Canada to THE spend \$70,000 in doing so, especially as it would only benefit Ontario. This narrow view of a great question was repudiated by one of the Premier's own supporters, Dr. Weldon, of Alberta, who declared that, speaking for one of the other provinces of Canada, he was in favor of the amendment of Sir Richard Cartwright, though he might be compelled to vote with the Government on a motion of want of confidence. The St. Lawrence was our great national waterway and one of the most famous river in the world-in fact, it was the noblest rivers in the world-and he sincerely hoped the Government would not insist on parting with these beautiful islands to private parties for the sake of a petty \$4,000 a year. On a division Sir Richard Cartwright's

motion was rejected by 32 to 64-a Government party majority of 32. The House then went into committee of

Them for Five Years - Dodd's Kidney Pills, which Never Yet Failed, Cured Her.

LONDON, June 11 .- Mrs. Wm. Langley, of 21 Euclid avenue, South London, has for the past five years been subject to fits. She was treated by doctors in Lansing and Detroit, Mich., and by three different physicians in London. No one of them could cure her. About two months ago she began using Dodd's Kidney Pills. Since then she has no return of the fits. To-day she is perfectly cured. Her trouble was undoubtedly due to kidney disorder, a fact which the physicians who treated her never discovered and consequently their treat-

ment was in vain. Some men are too stupendously wise to

understand themselves. The life that is made up of nothing but

years is stuffed only with moss. Among the pains and aches cured with marvelous rapidity with Dr. Thomas' Electric Oil is earache. The young are especially subject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above ailment, but also to the hurts, disorders of the bowels, and affections of the throat, to which the young are specially subject.

ELECTRICITY FOR LONDON'S STREET RAILWAY.

It is now nearly two years since the negotiations for securing rapid transit for London began between the City Council and the street railway company. Many attempts to reach a settlement have been made, but through one cause or another a completion of the negotiations has been gain and again postponed.

The time has arrived for action, and it is be hoped that the agreement between he city and the company, which has lately en under consideration, will, with any ally fair amendment, be ratified at an

As it is understood that the council will eet on Monday evening next to finally buy coal without tender and without an spose of the bargain, it is well to rememwhat is now before the aldermen. nder its franchise the street railway comits own interests as well as for the connience of its patrons, to respond to the tem by means of electricity.

ad on cheaper fares and much increased ammodation to the public. If an agreet is reached the company binds itself to rovement may be gathered from the for the supply of the coal sold by them last that the present tracks of the company year. only eleven miles in length. The main ks on Dundas and Richmond streets remain, but subject to this the comg are ready to lay down the additional ks anywhere that in the wisdom of the

pany to make, for the better able it is to that the public accounts are "rushed secure public patronage the greater will be its revenues.

We learn that the street railway comstreets by the middle of August, and thus familiarize the company's officials and the London public with the working of the trolley for some time before the great crush of visitors incident to the Western Fair. It is understood that within a week after the agreement is signed, a large force of men will be put at work on the improvements. For many reasons there should not be a day's unnecessary delay. Let there be no ward jealousies or bickerings.

BETTER NEWS.

The latest news is that British Columbia has not suffered nearly as much from floods as has been represented. Let us all rejoice. British Columbia is a sister province, in which are many former Ontario families, and London promptly responded to the appeal for aid. If there is less need for it than expected that does not minimize the generosity of the hearts that prompted the donations made.

# London Merchants Attacked

An Explanation that Exonerates One Trader and Implicates Another.

Both Accusations Equally Without Foundation.

Specimen Election Cries in Regard to Asylum Management Effect-

The ADVERTISER is in receipt of the following letter from Mr. P. D. Bartlett, barrister, one of the platform opponents of the London citizen candidate:

To the Editor of the ADVERTISER: I notice in your issue of to-day an interview with Mr. James Cowan respecting a statement made by me at the Westminster Rink meeting, that the firm of James Cowan & Co. had supplied the asylum with supplies to the amount of \$16,854 57 in one year. In justice to Mr. Cowan and myself I desire to state how the error arose. By turning to page 162 of the public accounts of 1893, it will be seen that the name of the firm of James Cowan & Co. immediately precedes that of A. D. Cameron & Son, and that the latter firm supplied the asylum with coal, lime, etc., to the amount of \$16,839 57. My attention was fixed upon the figures, and in running back over the leaf to get the name of the firm I inadvertently and in the heat of discussion quoted the name of James Cowan & Co. instead of that of A. D. Cameron & Son. I could have no possible motive in quoting the name of the former firm instead of the latter, for the argument first case; for whatever may be said in city, he should find a seat in London. Thus tender could be called for goods such a committee at the tail end of the session. In regard to the prices, it has been proved of record when an investigation has been held that prices have been paid for goods

cent above the ordinary rates. I gladly relieve Mr. Cowan of any odium that would naturally attach to a transaction such as I inadvertently charged him

with. Yours truly, P. H. BARTLETT. London, June 15, 1894.

In the above letter it will be observed that Mr. Bartlett makes one retraction

he erred in "the heat of discussion." There was no "heat of discussion" in Westminster Rink, and even if there had been it is due to the merchants of London, who have been so unfairly attacked in this campaign, for every speaker who intends to assail them or their customers to refrain from making any statements that he is not absolutely confident are true. Hurried Chamber of Deputies. As he arrived in the glances at columns of figures are not enough to secure the absolute accuracy that fair play demands. In making amends the mark, but one of the bullets was imorator falls into a less excusable mistake. It was Mr. A. D. Cameron that I meant, he explains in effect, when I charged that \$16,839 57 worth of goods were obtained without contract; it was coal that I meant to mention; and though Mr. Cowan's supplies could not have been bought by tender, what right has the asylum authorities to itemized account?

The offense more than insinuated by Mr. ny could run its lines with "horses or Son, is as ill-founded as that which he Bartlett, in the case of A. D. Cameron & les" till 1925; but the company is wise, made, inadvertently, in the case of James Cowan & Co. Coal purchased for the public pular demand for the establishment of as Mr. Bartlett could have learned if he institutions of Ontario is bought by tender, d transit and a large extension of the had taken the slightest trouble to refer to the ADVERTISER of the date on which he he proposal now before the council is sent his letter to us. Therein he would have seen the advertisement calling for tenders for the year's supply of coal to all the public institutions of Ontario. At nd its lines to nineteen miles, and little trouble, too, he could have ascerhave the whole electrified with- tained from the asylum authorities that A.

Mr. Bartlett should really get at the facts before he again either speaks or writes in regard to Ontario affaire. It is not correct, as he first affirmed, that no ceil the public will be most efficiently supplied without tender." It is equally "itemized accounts are given and all are en the public with be most emelently supplied without tender. It is equally d. This is a wise offer for the com- incorrect, as given in his revised statement. W. BAKER & CO., Dorchester, Mass.

through in committee at the tail end of the sessions." The accounts are at the disposal of Mr. Meredith and his friends comparapany are now pushing for a sattlement of tively early in the session, but the fact is the question, it ever it is to be settled, so that so close do the asylum authorities of that it may electrify Dundas and Richmond | London buy that Mr. Meredith and his friends have ceased calling for investigation of the itemized bills, which Mr. Bart. lett is confident are not given. Four years ago Dr. Sippi, bursar, was sent for and examined by the public accounts committee. At the close he was highly complimented by the Opposition members, and from that day to this he has never been asked to give a single explanation. What the committee dare not charge, however, the opponents of the Government in the canvass and on the stump insinuate, either entered by burglars Thursday night, who in ignorance or willfully. If we are able by these illustrations of how Opposition cries are promulgated to prevent our readers and their friends from being misled, then will the recent attacks on London merchants and their customers not have been made in vain. The record shows how unprofitable these cries are to the party that resorts to them by taking mere hearsay as their guide. London merchants should not be misrepresented or traduced because they sell goods to be used in this city or elsewhere at regular trade prices. WOMEN'S WORK.

Doings of the Canadian National Council of Women-Reports and Papers Read.

The regular meeting last night of London branch of the National Council of Women was unusually interesting and well attended. It was opened at 8 o'clock with silent prayer, the president, Mrs. Dr. English in

After the ordinary routine business Mrs. Talbot Macbeth presented an admirable report on the need of a police matron. A memorial was also presented to be signed by the ladies of the council, asking that a matron be appointed. The document received many signatures.

The reports of the delegates to the National Council, which met recently at Ottawa, were also presented, and showed a most encouraging state of affairs.

Mrs. Tilley gave a number of extracts from the speeches of Lady Aberdeen, Mrs. Macdonald and Mrs. (Sir) John Thompson, which proved most interesting. Mrs. Boomer related her impressions of

the convention and showed how strongly she was imbued with the idea of the power for good which the council wielded now, and how much they would wield in the future. She also pointed out how necessary it was for the ladies to work together, and illustrated this necessity by an amus-Mrs. John Cameron stated in a few

words the reason why the memorial on the subject of prayer, which was sent by the London Council, was not presented. It was owing to the fact that two months' notice was required, and that the time had elapsed before the memorial was forwarded. Mrs. Cameron also said she was greatly pleased with the general aspect of the convention. It was a remarkable success considering that it was the first, and it promised well for the future.

Mrs. McMechan gave several character sketches of ladies met at the convention, prominent among which were those of Mrs. Drummond, wife of Senator Drummond, of Montreal; Mrs. Schultz, wife of the Lieutenant-Governor of Manitoba; Mme. Dandurand, of Montreal; and Mme. Routhier, wife of Judge Routhier, of Quebec, who gave a paper on "Rescue Work," in French. They were all termed earnest, large-hearted women.

Mrs. Talbot Macbeth gave a condensed report of the papers on "Co-operative work and the necessary reforms and methods." The ladies were urged to complete better organizations on charitable and philanthropical societies. From her own experience, Mrs. Macbeth was quite certain it was necessary.

A paper on "The training of infant

children," contributed by Miss Laidlaw, of Alma street, London, and read at the Ottawa meeting, was also presented. It went very deeply into the influences which tended to form the character and develop the mental, moral and physical being.

Mrs. Boomer's paper on "The domestic problem," and Mrs. Tilley's paper on "Nursing the poor in their homes," were postponed until next meeting.

Mr. Rosebrugh, of Toronto, secretary of the Prisoners' Aid Association, wrote asking the council to appoint a committee on prison reform which would co-operate with the association. The request was acceded to, a committee of five ladies being named, with Mrs. Charles Hutchinson as convener. A collection was taken up to defray the expenses of the hall, and the meeting adjourned after singing the National Anthem.

PRESBYTERIAN PARLIAMENT. Report of the Hymnal Committee Accepted by the General Assembly-

Sketch of the New

Moderator. Sr. John, N. B., June 15.-Discussion on the hymnal report of the committee was resumed to-day. Finally the commit-tee's recommendation was carried over Dr. C. A. Vine's amendment by a vote of 126 to 94. This sanctions the inclusion of selections from the Psalters in the Hymnal. The draft copy of the new hymnal is to be sent to Presbyteries for consideration to report through the Hymnal committee on or before the 1st of March next, and the com-

pleted book is to be submitted next. The Hymnal contains: 1. The whole Psalter in metrical selections. 2. Selections from the prose version, the Psalms and other portions of the Scripture for chanting 3. Selections from the Psalms in the ordinary metrical version and other versions. 4. Hymns approved and adopted by the assembly. 5. Scripture sentences. No book containing any portions of the Book of Prayer shall receive the assent of the assembly, which shall not contain either the whole Psalter or the selections from the Psalms which shall be approved by the assembly. No separate children's hymn will be published. The book is to contain several full indices.

The report as amended was finally adopted. The evening was devoted to foreign missions, Dr. Sedgewick presiding. Rev. A. Falconer, presented the report. This is the jubilee of foreign missions in this

Dr. Mackay's speech was an impressive account of his wonderful inheritance from the beginning, 23 years ago. It cannot be summed up here. It was an inspiration to any Christian soul. It was illustrated by maps, etc. He showed graphically the obstacles to the Gospel: 1. Racial prejudices. 2. National suspicion. 3. Official duplicity. 4. Superstition. 5.

THE NEW MODERATOR. Rev. George L. Mackay, D.D., is a Canadian, born and educated in Ontario. He was set apart as a missionary to China at a meeting held for that purpose in Knox Church, Montreal, in the summer of 1871. speech as dashing and irristible as a small Niagara. He has a soul swelling with a at 1:26:38. This is 4 hours and 7 minutes holy, sanctified, passion, and a force of Will which would break down the Alps. 5:35 p.m. Up to a few years ago there seemed to be Chamberlain and Vaughan, Umpire-Lynch, a conviction in the minds of many good people that John Chinaman was built upon a plan which Christianisy could not successfully manipulate. But Dr. Mackay has knocked that notion upon the head, and has given us a record of missionary success among the Chinese of Formosa which has scarcely a rival in the history of the

Christian Church. When he landed on that island in 1872, he could not speak a word of the language, had not a place to lay his head in, but rented some building which its owner had intended for a stable. Except-Batteries-Barnett and Hess; Dolan and intended for a stable. Except-Lohbeck. Umpire-Gaffney. tion and every foul calumny which could be heaped upon a man were heaped upon Dr. Mackay. Barefooted and hungry, he and lay down on mud floors at night. Government soldiers tracked his journeyings, ready to pounce upon him if he infringed a law, and town rowdies, with the connivance of the authorities, burned down his churches and sought his life. In his last report, among the many fruits of his labors, he mentions four self-supporting stations, day schools, colleges for men and women, 56 native preachers, 25 Bible women, 2,641 "living members" and contributions for salaries, churches, etc., ap-

# FOUND CUILTY!

Close of Erastus Wiman's Trial for Forgery.

The Defendant Had Expected a Disagreement of the Jury-He Is Recommended to the Mercy of the Court.

NEW YORK, June 15 .- In beginning his address to the jury General Tracy for defendant, told them they must remember that it is a fundamental fact in law that there can be no crime where there is no criminal intent. If the jury did not believe that Wiman had signed that check with a criminal intent they must acquit him. Gen. Tracy then spoke of the great service the defendant had rendered the firm of R. G. Dun & Co. How by sagacity and genius he built the business up to what

After Gen. Tracy concluded his plea, Mr. Wellman, for the people, began his address to the jury, reviewing the evidence at length and denouncing Mr. Wiman as a renegade to the trust reposed in him by his benefactor, Mr. Dun.

Justice Ingraham in his charge to the jury said at the outset that the attempt of the counsel of defense to make the jury believe that the judge and jury were antagonistic was a mistake. They both make up the court. The judge gave the law and the jury dealt only with the facts. He said that the jury must disregard everything but facts brought out on the witness stand. The reported charity of defendant had nothing whatever to do with the case, nor had Mr. Dun anything to do with the prosecution. The people of the State of New York were prosecuting the case, and no one else.

And right here, gentlemen, it is not improper for me to speak of this fearful greed \$1 25 to \$1 50 a bag, and sold readily at for gold that is one of the marked charthat. Oats have taken an upward bound acteristics of the age. They are not content to make their money in a legitimate way; they must speculate and go on speculating until they are forced to commit crime to get money. They go on from bad to worse until they end in prison.

Justice Ingraham read the law in regard to forgery, and added that in signing the name of Bullinger on the back of the check Wiman had come within the statute, but he is not guilty of forgery until the intent to forge is clearly proven. Continuing, Justice Ingraham said that in putting that money to his own accounts the defend. ant had defrauded not only R. G. Dun & co., but also E. W. Bullinger, against whose account the \$5,000 was charged. Justice Ingraham briefly went over the facts of the case, as already presented, and dizziness, specks before the eyes, twitching of the case, as already presented, and ended by saving: "Gentlemen, it now rests with you to decide whether that check was signed with intent to defraud. That alone must determine your verdict. I know that your duty may be hard, but it is hard for me, too. We both have a stern duty to perform, and we must do that duty regardless of any future consequences." Gen. Tracy asked to have the jury charged that if Wiman had believed he was really a partner of the firm the writing of the check was not a forgery. Justice

Ingraham denied this application. Gen. Tracy then made other similar equests, all of which were denied. The jury retired at 2:34 p.m.

room increased, and as the hours passed and nothing had been heard from the jury room Wiman's hope increased. He chatted and laughed with his friends and seemed in the best of spirits. "I am sure of a disagreement at least," he said to a reporter not ten minutes before the jury came in with their verdict, and only fifteen minutes before Mr. Wiman had sent a telegram to his wife telling her that things looked very bright for him. As the jury filed into The progress of the great relay bicycle the court room it was easy to see what the verdict was. The jurors showed plainly

that they had decided adversely Wiman's fate. As Wiman rose to face the jury his ruddy face became deadly pale, and he trembled violently. The foreman of the jury was much more affected, however. Indeed, he was actually weeping when he delivered the verdict "Guilty," with a strong recommendation for mercy. The other jurors would not look at the prisoner, and burried from the court room as soon as Justice Ingraham had thanked them for their service to the State.

As soon as the verdict was announced Mr. Wimen fell back in his chair with a groan. His young son placed his arm about his father's shoulders and the two sat silent for a few minutes. Then Sheriff Brown came and Erastus Wiman started for the Tombs, and immediately after his father's departure young Wiman left for home to tell his mother the sad news.

Both Gen. Tracy and Mr. Boardman seemed very much surprised at the verdict. Mr. Boardman said the case would be appealed. Justice Ingraham adjourned court until next Wednesday morning at 10 o'clock, when Wiman will be sentenced. The penalty for Mr. Wiman's crime is imprisonment for not more than ten years in the State Prison. There is no minimum penalty, it being discretionary with the

After hearing the verdict Mr. Wiman said: "There is nothing that I can say. My case will, of course, be appealed. I am not guilty, for I did not intend to defraud anyone. I was persecuted, not prose-

WIMAN INTERVIEWED. To a reporter who called on him at the Tombs Mr. Wiman said, pointing to the four walls of his cell: "Well, here I am, convicted of a felony. It is a terrible thing, but, as you see, I do not give way. I have great energy, great will power, and I am a philosopher. I will not let this situa. tion crush me down.

"Believe it or not, it is almost a relief to have this terrible ordeal over with. No one will ever appreciate what I have suffered the last few years, the terrible strain I have been under in the relations with my partners.

"Of course it is dreadful to think that I may soon be in Sing Sing Prison, but the hope of the future will buoy me up. I know now that I did wrong, but I committed no crime that I ever knew of. If I had thought indorsing that Bullinger check was a forgery do you think I wouldn't have torn it up? It was in the effice and available, so that I could have destroyed it at any time, but I never dreamed of crime, I never entertained any criminal intent. I simply considered that I was using money that I would pay back in a short time.

"If Justice Ingraham imposes a light Montreal-Relay courier arrived here I don't feel as if I had the right to ask ahead of schedule time. Due at Montreal Boardman to do all the work over again. I have no money to pay them. I have been unable to give them a cent for all they have already done for me. I don't want to ask any more if I can avoid it. If I am to go to Sing Sing I will try and keep my mind occupied while in prison, and devote myself as much as possible to study, and I trust to have enough energy left when I come out to build ap anew.

"I am in my 60th year, but I feel able to do a great deal yet if I ever get the chance

"When the jury stayed out so long I was so confident that they would appreciate the fact that I had no criminal intent. Every man on that jury did what he conscientiously considered his duty. Of that I am confident. But I did not see how, under the many ways in which Justice Ingraham charged on the point of criminal intent, they could have found me guilty. However," continued Mr. Wiman with a smile that had just a tinge of sadness in it, 147, 149 and 151 DUNDAS "I am not in a position to criticise anyone. I will take my punishment and say as little about it as possible.

"My only consolation is that my wife and my children, who have shown such unceasing devotion, take my condition bravely. They are true to me to the last.'

London's Saturday Market.

"Look here," said a dealer on the market to an ADVERTISER reporter this morning, "the patrons of this market have a grievit is to-day, and that it was owing to ance that ought to be attended to right Wiman's efforts that Dun was able to enjoy away. It is not one day only that it last two days eleven have been reported between 7 and 8 o'clock in the morning, when the frequenters of the market are taking their positions. The place becomes one vast mud puddle, and all morning women with low shoes get their feet and skirts wet, and the men are also put to great inconvenience."

"What would you suggest as a remedy?" "Use the street sweeper. The market has a splendid foundation, and every bit of dust could be swept up and the place sprinkled the night before. Then no matter how strong the sun or wind is, no dust will blow. Make that suggestion,

will vou ?" The suggestion is therefore made. The market was crowded to-day. Strawberries have made their appearance and opened at 15 cents. The sales were slow at that figure, and they dropped to 10 cents before this week and sold to-day at \$1 10 to \$1 13. Hay has also gone up to \$8 50 and \$9 a ton. Butter was stationary at 13c and 15 cents; eggs quiet at 9 and 12 cents. Wool was stronger at 161 cents. Wheat was steady at 92 and 98 cents. The meat and flower markets were unchanged.

ALL MEN
Young, old or middle-aged, who find themselves, nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of vitality, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the bidneys, headaches, nimples, on the form of the muscles, eyelids and elsewhere, bash-fulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes, surrounded with LEADEN CIRCLES, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity unless cured. The spring or vital force having lost its tension every function wanes in consequence. Those who through abuse committed in ignorance, may be permanently cured. Send your address and 10c in stamps for book on diseases peculiar to man, sent sealed. Address M. V. LUBON, 24 Maedonneil avenue, Toronto, All the forenaon the crowd in the court Please mention this paper.

# SOME-TIME

Ladies are in a quandary where to procure the most fashionable garments. While we are recognized as the leaders in London, still there must be a number of ladies who do not come to us. That is the reason they are wondering why other ladies look so much more fashionably dressed than they. It is all where you procure your goods. We buy direct from the manufacturers and personally select our own goods. We know what we are getting, what we have to sell and that it is all new. There is a hint here for dissatisfied

# SOME-

# WHERE

skirt and cape, at \$7, were offered elsewhere. \$10. Brown and navy skirts, braid trimming, at \$3 50.

# FANCY VESTS.

Ladies' Fancy Navy Vests have a few. Fancy Cash-mere Vests at \$3 50. We elegant suit, good enough for any man almost, will be sold for have opened up a Tailor-Made Costume Department in connection with our Mantle Department. The and we doubt very much if any house nouncement with pleasure, for \$14. as nothing tends to add more grace to the figure than a good fitting tailor-made suit. We have filled several out-of-town orders. We are able to guarantee satisfaction.

EAST BUFFALO, N. Y.

EAST BUFFALO, N. Y.. June 15.—Cattle—
15 cars on sale; bulk half fat grassers, for 15 cars on sale; bulk half fat grassers, for which there is no demand.

Sheep and Lambs—30 cars on sale; market continues dull and if anything lower on the few sales made. Cull sheep and yearlings sold at lc per lb; light weight lambs, unless very choice, neglected; good to extra, \$3 65 to \$3 75.

Hogs—22 cars on sale; prices 10c to 15c lower; \$5 05 was the best paid for selected lots; good Yorkers, mediums and heavies selling generally at \$5.

MONTREAL.

MONTREAL, Que., June 15.—There were about
350 head of butchers' cattle, 500 calves, 1,500
sheep and lambs and 40 small pigs offered at
the East End abattoir yesterday. The butchers
were present in large numbers, and there was
an active demand and higher prices paid for an active demand and higher prices paid for good stall-fed beeves, but there was not much difference in the prices of grass-fed beeves. Superior cattle sold at from 41c to 44c per b; Superior cattle sold at from 32c to 44c; grass-fed superior cattle sold at from 41c to 41c per 1b; pretty good stock at from 31c to 41c; grass-fed cattle brought 21c to 31c, and milkmen's strippers from 3c to 31c. Good calves were in demand at about former rates, but common and inferior calves were lower in price than for several weeks past. Common calves sold at and inferior calves were lower in price than for several weeks past, Common calves sold at rum \$250 to \$5 each, and good ones at \$6 to \$10 each. There was quite a break in the prices of sheep and lambs. Shippers are paying from 3½ to 3½ per 1b for good large sheep, and the others sell at from 3c to 3½c. Good lambs sell in lots at about \$3 each, with a few very choice ones up to nearly \$4, while the smaller ones sell at from \$2 to \$250 each. Fat hogs are very plentiful, and sell at about 5c per 1b.

very plentiful, and sell at about 5c per lb. very plentiful, and sell at about 5c per lb.

TORONTO. June 16.—Total offerings yesterday, 94 carloads. The demand is somewhat slack and prices generally a shade easier. The best shipping cattle sold at 4½c to 4½c per lb, and good at 4½c to 4½c; butchers' cattle dull, with sales of the best at 3½c to 3½c; medium at 3½c and inferior at 3c; calves sold at \$3 to \$6 each, and milch cows at \$25 to \$50, according to quality. Sheep and Lambs—Dull; the best exportsheep sold at 3½c per lb, and butchers' at 8½; yearling lambs sold at 4c to 4½c per lb. and 84; yearling lambs sold at 4c to 44c per lb. and spring lambs at \$3 to \$3.75 each. Hogs—Steady, spring lamos at \$5 to \$5 75 each. Hogs—steady, with quality not up to the mark; the best sold at \$5 to \$5 10 per cwt; half-fats at \$4 70 to \$4 75; stores. \$4 50 to \$4 60, and common, \$4 25.

CHICAGO. Ill., June 15.—Cattle — Receipts, 6,000; market weak; common to extra steers, 33 60 to \$5; stockers and feeders, \$2 50 to \$3 75; cows and bulls, \$1 25 to \$3 65; calves, chicago.

the Toronto Conservative newspapers a batch of private correspondence between Mr. John Leys, ex-M.P.P., himself, and Sir Oliver Mowat, beginning with a letter in 1889, and ending in a letter sent to the Premier by Mr. F. B. Leys in the present leafy month of June. To put the matter briefly, the Mr. John Leys mentioned was for several years an M. P. P. for Toronto, and a supporter of the Government. He was a well-liked man, and had good qualities, but unfortunately became later in-volved financially, and is now resident in the United States. One of the strong desires of Mr. John Leys' heart was to have his brother, Mr. F. B. Leys, of this city, appointed registrar of Middlesex. Sir Oliver, it would seem from the correspondence now published by Mr.F. B. Levs, was personally favorable to Mr. F. B. to \$2 70.

RYE—Dull: western, 48c to 57c.

W.FAIRBAIRN MERCHANT TAILOR,

"Quick, sir!" Henry said with impatience, as soon as I came within hearing.
Do not detain me with your affairs longer than is necessary. M. de Turenne presses me to carry into effect the order I gave yesterday. But as you have placed yourself in jeopardy on my account I feel that something is due to you. You will be good enough, therefore, to present yourself at once at M. la Varenne's lodging, and give me your parole to remain there withbut stirring abroad until your affair is con-

Aware that I owed this respite, which at once secured my present safety and promised well for the future, to the great event that, even in M. de Turenne's mind, had overshadowed all others, I bowed in silence. Henry, however, was not content with this. "Come sir," he said sharply, and with every appearance of anger, "do you agree to that?"

I replied humbly that I thanked him for

his clemency.
"There is no need of thanks, he replied "What I have done is without coldly. "What I have done is without prejudice to M. de Turenne's complaint. He must have justice."

I bowed again, and in a moment the troop were gone on a gallop towards Meudon, whence, as I afterwards learned, the King of Navarre, attended by a select body of five-and-twenty horsemen, wearing private arms, rode on at full speed to St. Cloud to bresent himself at His Majesty's bedside. A groom who had caught the Cid, which had escaped into the town with no other injury them a slight wound in the shoulder. injury than a slight wound in the shoulder, by-and-bye met me with the horse; and in this way I was enabled to render myself with some decency at Varenne's lodging, a small house at the foot of the hill, not far

from the Castle-gate. Here I found myself under no greater constraint than that which my parole laid upon me; and my room having the convenience of a window looking upon the public street, I was enabled from hour to hour to comprehend and enter into the various alarms and surprises which made that day remarkable. The manifold reports which flew from nouth to mouth on the occasion, as well as ne overmastering excitement which seized are so well remembered however, that rbear to dwell upon them, though they ed to distract my mind from my own sition. Suffice it that at one moment we heard that His Majesty was dead, at another that the wound was skin deep, and again that we might expect him at Meudon before sunset. The rumor that the duchess of Montpensier had taken poison was no sooner believed than we were asked to listen to the guns of Paris firing feux de

joie in honor of the king's death. The streets were so closely packed with persons telling and hearing these tales that seemed from my window to be looking on a fair. Nor was all my amusement without-doors; for a number of the gentlemen of the Court, hearing that I had been in St. Cloud in the morning, and in the very chamber, a thing which made me for the moment the most desirable companion in the world, remembered on a sudden that they had a slight acquaintance with me, and honored me by calling upon me and sitting a great part of the day with me. From which circumstance I confess I gathered as much hope as they diversion; knowing that courtiers are the best weather-prophets in the world, who hate nothing so much as to be discoverd in the company of those on whom the sun does not

which happened about the middle of the afternoon, while it dissipated the fears of SWAYNE'S OINTMENT. Lyman, Sons & Co., some and dashed the hones of others, put an end to this state of uncertainty by confirming, to the surprise of many, that His Majesty was in no danger. We learned with varying emotions that the first appearances, which had deceived, not myself but experienced leeches, had been themselves belied by subsequent conditions; and that, in a word, Paris had as much to fear, and loyal men as much to hope, as before this wicked and audacious

I had no more than stomached this surprising information, which was less welcome to me, I confess, than it should have been, when the arrival of M. d'Agen, who greeted me with the affection he never failed to show me, distracted my thoughts for a time. Immediately on learning where I was and the strange adventures which had befallen me he had ridden off; stopping only once, when he had nearly reached me, for the purpose of waiting on Madame de Bruhl. I asked him how she had received

him.
"Like herself," he replied with an ingenious blush. "More kindly than I had a right to expect, if not as warmly as I had the courage to hope."

"That will come with time," I said, "That will come with time," I said, laughing, "And Mademoiselle de la Vire?"
"I did not see her," he answered, "but I heard she was well. And a hundred fathoms deeper io love," he added, eyeing me roguishly, "then when I saw her last."

It was my turn to color now, and I did so, feeling all the pleasure and delight such a statement was calculated to afford me, Picturing mademoiselle as I had seen her last, leaning from her horse with love written so plainly on her weeping face that all who ran might read, I sank into so delicious a reverie that M. la Varenne, entering suddenly, surprised us both before another word passed on either side.

His look and tone were as abrupt as it

was his nature, which was soft and com-pliant, to make them. "M. de Marsac," he said, "I am sorry to put any constraint upon you, but I am directed to forbid you to your friends. And I must request this gentleman to withdraw."

"But all day my friends have come in and out," I said with surprise. "Is this a "A written order, which reached me no

farther back than two minutes ago," he answered plainly. "I am also directed to remove you to a room at the back of the house, that you may not overlook the "Bur my parole was caken," I cried, with

a natural feeling of indignation.

He shrugged his shoulders. "I am sorry to say that I have nothing to do with that," he answered. "I can only obey orders. I must ask this gentleman, therefore, to with-

Of course M, d' Agen had no option but to leave me; which he did, I could see, not-withstanding his easy and confident expressions, with a good deal of mistrust and apprehension. When he was gone, La Varenne lost no time in carrying out the remainder of his orders. As a cousequence I found myself confined to a small and gloomy apartment which looked, at a distance of three paces, upon the smooth face of the rock on which the Castle stood. This change, from a window which commanded all the life of the town, and intercepted every breath of popular fancy, to a closet whither no sounds penetrated, and where the very transition from noon to evening

I took it to be significant of a change in my LOCUSTS HELD UP A TRAIN. fortunes fully as grave. Reflecting that I must now appear to the King of Navarre in the light of a bearer of false tidings, 1 associated the order to confine me more closely with his return from St. Cloud; and comprehending that M. de Turenne was once more at liberty to attend to my affairs, I began to look about me with forebodings which were none the less painful because the parole I had given debarred me

from any attempt to escape.
Sleep and habit enabled me, nevertheless, to pass the night in comfort. Very early in the morning a great firing of guns, which made itself heard even in my quarters, led me to suppose that Paris had surrendered; but the servant who brought me my breakfast declined in a surly fashion to give me any information. In the end, I spent the whole day alone, my thoughts divided between my mistress and my own prospects, which seemed to grow more and more gloomy as the hours succeeded one another. No one came near me, no step broke the silence of the house; and for a while I thought my guardians had forgotten even that I needed food. This omission, it is true, was made good about sunset, but still M. la Varenne did not appear, the servant

appeared to be dumb, and I heard no unds in the house. I had finished my meal an hour or more, and the room was growing dark, when the silence was at last broken by quick steps passing along the entrance. They paused, and seemed to hesitate at the foot of the stairs, but the next moment they came on again, and stoped at my door. I rose from my seat on hearing the key turned in the lock, and my astonishment may be conceived when I saw no other than M. de Turenne enter, and close the door behind

They Swarmed Over Jersey Excursionists and Frightened the Women.

PERTH AMBROY, N. J., June 15 .- A swarm of 17-year locusts took possession of a Long Branch train near Avenel the other morning, and for a time there was abandon the coaches and let the locusts retain them. The train which experienced this unusual trouble was No. 987, of the Pennsylvania Railroad. It left Jersey City at 10 o'clock. The warm weather tempted hundreds to visit the coast towns, and the train was heavily loaded. The heat had caused almost every win-

dow to be opened, and when the train came to Avenal the passengers leaned out to look at the hundreds of thousands of the locusts on the ground and in the air. They would have been satisfied with this, but the locusts were not. Before the passengers were aware what was happening, the pests had swarmed up the sides of the cars, and through the windows and doors inside. Women screamed and stood on the seats with their skirts drawn up so as to avoid immediate contact with the crawling objects. They soon had to let go their skirts and pay undivided attention to keeping the locusts from their hats and faces. The more timid passengers started for the doors, but at that moment the cars started. The rush of wind seemed to disconcert the pests. Those on the cutside of the cars dropped off, and those inside clung closely to the seats or floors, and were soon thrown out of the windows by the train hands who started through the cars.

SHADOW VS. SUBSTANCE.

Why the Duke D'Auxy Lets the Duchess Attend to Household Expenses.

NEW YORK, June 15 .- Arthur Charles Eugene Edward Duke D'Auxy, having failed to pay a judgment for \$78 24 on a grocery bill, is now being examined in supplementary proceedings. Nellie Schnelling has the judgment in return for the groceries.

The duke inherited his title and one sixth of his father's estate of \$1,000,000 about 25 years ago. His patrimony he disposed of some years prior to his marriage, but he still has his title.

He married Charlotte Lucy Antoinette Lamar in Paris twelve years ago. He testified before Referee William J. Boyhan yesterday that he supports himself with his wife's income; that he never had an occupation, and possesses nothing in this country, although he thinks perhaps he has propagate elgium; that he has not had an i or some years; that the duchess rec .s income from him, but that she pay ... the expenses of his house.

Ine duchess rents the house and receives and pays for everything, according to Duke D'Auxy, and she allows him his board, but gives him no money except for daily expenses. Up to six months ago he kept an account in the Second National Bank, but it was his wife's money, which was used to pay household expenses.

Speaking of the rent of the flat in which he lives he said: "I do not know even whether there is a lease. It is none of my business. The duchess attends to all

The examination of the duke will be continued June 20.

Diet is Necessary.

Lactated Food a Perfect Substitute for Mother's Milk.

Baby must be weaned. The change is often fraught with great danger to the little darlings. Hundreds of babies die a few weeks after they have been deprived of nature's fount of life. No wonder we hear of so many deaths at weaning time; it is sheer nonsense to expect a weak and delicate stomach to retain prepared foods that

would give indigestion to an adult. When baby is about to be weaned, it is absolutely necessary to provide a food that contains the principal constituents of mother's milk. Science has given mothers the celebrated Lactated Food which is a perfect substitute for breast milk. It is nourishing, strengthening, easily assimi-

lated, readily digested and very palatable. When Lactated Food is used, babies can be weaned sefely and easily in the heat of summer. This scientific Food aids and corrects digestion, and protects from all the dangerous and deadly summer com-

plaints. Thousands of doctors, mothers and nurses in Canada know the life-giving properties of Lactated Food, and strongly recommend it.

REMARKABLE COINCIDENCES.

Husband, Wife and Brother Drop Dead in a Cemetery.

BATH, N. Y., June 15.-Six years ago George Blaisdell, of Montezume, while at a funeral drepped dead in Port Byron Cemetery. Three years ago a brother of Blaisdell's widow, while walking in the same cemetery, dropped dead near Blaisdell's grave. The other day Mrs. Blaisdell went to the cemetery to order work done on the lot where her husband and brother were buried, and, while talking with the superintendent, dropped suddenly to the ground and died almost instantly.

every prospect of the passengers having to A Lady of Shelburne, Ont., Permanently C ured of Indigestion After Using Two Bottles of South American Nervine-Glad to Let Everyone Know It.

MRS. A. V. GALBRAITH.

With indigestion it is not only that one | bottles and am pleased to testify that these suffers all imaginable torments, physical and | fully cured me, and I have had no indicaof countless ailments that in their course lead to the most serious consequences. Let | nervousness. the stomach get out of order and it may be said the whole system is diseased. When the digestive organs fail in their important functional duties, head and heart, mind and body are sick. These were the feelings of Mrs. Galbraith, wife of Mr. A. V. Galbraith, the well-known jeweler of Shelburne, Ont., before she had learned of the beneficent results to be gained by the use of South American Nervine Tonic. In so many words she said: "Life was becoming unbearable. I was so cranky I was really ashamed of myself. Nothing that I ate would agree with me. Now it does not matter what I eat; I take enjoyment out of all my meals." Here are Mrs. Galbraith's words of testimony to South American Nervine given over her own signature:

SHELBURNE, Ont., March 27, 1894 . I was for a considerable time a sufferer | day. from indigestion, experiencing all the misery South American Nervine is sold by

mental, but more perhaps than anything tions of a return of the trouble since. I else an impaired digestion is the forerunner | never fail to recommend the Nervine to all my friends troubled with indigestion or

"MRS. A. V. GALBRAITH." The testimony of this lady, given freely and voluntarily out of a full heart because of the benefits she experienced in her own person, have an echo in thousands of hearts all over the country. South American Nervine must cure, because it operates at once on the nerve centers. These nerve centers are the source from which emanates the life fluid that keeps all organs of the body in proper repair. Keep these nerve centers sound and disease is unknown. There is no trick in the business. Everything is very simple and commonsense-like South American Nervine strengthens the digestive organs, tones up the liver, enriches the blood that is peculiarly efficacious in building up shattered and nervous constiintions. It never fails to give relief in one

and annoyance so common to this com- all reliable druggists, among which plaint. South American Nervine was number in London we would mention recommended to me as a safe and effective remedy for all such cases. I used only two W. S. B. Rarkwell and J. G. Shuff,

THE BUSINESS OUTLOOK

As Reported by the Commercial Agencies.

Evidences of Slight Improvement-Collapse of the Coal Strike Near at Hand-Marked Decrease in the Number of Failures.

NEW YORK, June 15 .- R. G. Dun & Co.'s weekly review of trade says: The strike of | in the back, languor, etc., etc., make many bituminous coal miners will end Monday wherever the authority and advice of their general organization can end it, and there is little room to doubt that the coal famine will then begin to abate. Some time must elapse before supplies of fuel will enable all works to resume that have no other reason for suspending production. Meanwhile the demand for products is so slack that it seems questionable whether as many hands

June as were employed in April. Many boot and shoe shops have stopped, but shipments from the east are ten per cent. larger for June than for last year. The demand is mainly confined to low

priced goods. The woolen mills are closing rapidly. It is asserted scarcely any of them have orders to occupy them beyond July 1 in

While business is narrow it is comparatively free from losses by failure. The number of failures this week has been 232 in the United States against 313 last year and 40 in Canada, against 340 last year. BRADSTREET'S.

Bradstreet's says: The practical arrival of the midsummer season and the usual slacking of business, the extreme heat and the need of rain in the Northwestern and Southeastern States, continued uncertainty as to the tariff preventing merchants from anticipating demands next fall, together with the large number of idle wage earners in industrial mining and other lines all combine to produce continued duliness in business.

There are 227 failures in the United States this week, against 207 lust week, and 303 in 2nd of Juffe, 1893, 161 in 1892, and 230 in the like week of 1891.

Of more important eastern cities the only one noting improvement is Pittsburg, where sales have been stimulated by sion heretofore reported at other eastern points are still preminent. In the west

few, if any, evidences of improvement in business are to be perceived except those telegraphed from Omaha, Chicago and Detroit. The collapse of the coal strike seems near at hand.

Special telegrams from more important of Canadian centers show no general imprevent from previous conditions.

Women's Weaknesses.

How many women are subject to sick headache and who try remedy after remedy in the hope of getting rid of the trouble. This, and the commonly occurring "run down" condition of women, pain a life wretched while if a specific remedy were found to allay these symptoms, life to many of these sufferers would be once more worth living. Eseljay's Liver Lozenges is the specific remedy for these cases. 25 cents a box or 5 boxes for a dollar.

Bread, two loaves for 7 cents yet, if you will remember me when you want something in the grocery line. D. J. LANGDON, will find employment before the end of grocer and baker, corner York and Thames

Royal and United States Mail Steamers for Queenstown and Liverpool. GERMANIO.....June 20

orders to occupy them beyond July 1 in men's wear, but in the demand for dress-goods a somewhat better tone is perceived. Further concessions have not enlarged the demand for cotton goods. That goods are accumulating is evident, but sales have been distinctly improved with the weather.

Exports from New York for two weeks of June have been 7 per cent larger in value than last year, while imports at this point have been 18 per cent smaller. It is reasonable to expect that the resumption of work at the coal mines will considerably increase railway receipts.

LONDON AND ENVIRONS

Roast, bake, broil,

As we totter in town to and fro:

And oh, for one blast of a blizzard's breath. From the land of perpetual snow! -Mr. and Mrs. Begg, city, have been visiting in Glantord.

-Jas. Piper, of Winnipeg, has come east on a visit to this city. -Mr. and Mrs. George Marshall, city,

are soon to leave for a visit to the old -Abuse by letter writers who dare not sign their names is winning friends for Mr.

Hobbs every day. -About 300 Londoners attended the picnic of the Westminster schools, held at Port Stanley yesterday.

-Dr. Burkholder has not returned to the city, as stated a few days ago. The doctor writes that he is working up an excellent practice in Chicago. -Rogers & Doss have secured contracts

fine houses being erected on Waterloo street by Mr. A. W. Frazer. -Dr. Gardiner interested the pupils of the Princess avenue school vesterday afternoon by his lecture on the circulation of the

for all electrical furnishings of the four

blood, which he also illustrated. -So highly do his fellow-business men think of Mr. Hobbs that at the last annual meeting of the London Board of Trade they unanimously elected him vice-president. -It takes more money and greater exertion for a merchant to keep up with his competitors without advertising than it does for him to employ its agency dis-

cretely. -Two or three society ladies were singled out as giving a stylish party down the river the other day. The party was merely an afternoon's outing and a large umber were interested in i

-The Ontario Medical Council held meeting on Thursday and passed a resolution of condolence with the family of the late Dr. Fenwick, who was the representative of the Western Medical College on the

-Postoffice Inspector Spry has been in Barrie a number of days preparing to move his family to their new home in London. They left yesterday morning. Mr. W. D. B. Spry will make Barrie his domicile for the present .- [Barrie Advance.

-In the faculty of law examination in connection with Toronto University, of which the results were announced yesterday, eight students obtained the degree of LL.B. Of these the only one who obtained first-class honors was Duncan C. Ross, son of Hon. George W. Ross.

-The Home for Incurables, 577 Hamilon road, will be opened on Monday, June 18, at 7:30 p.m., when several gentlemen will address the meeting. The Sons of England Band will also be in attendance and refreshments will be served. A cordial invitation is extended to all interested.

-At the last meeting of the quarterly board of the Colborne Street Methodist Church, a resolution was passed expressing sympathy with Mrs. Wm. Graham in the death of her husband. The board also paid high tribute to the character of M1. Graham, who for a number of years had been an active worker in the interests of

-A correspondent asks if "Mr. Peter McCann is tather-in-law of Mr. Edmund Meredith, Q.C., and if he is appointed fishery inspector by the Dominion Government or by the Ontario authorities." Mr. McCann is so related to Mr. Meredith, and he is a Dominion Government official in the same respect as customs, inland

revenue and postoffice clerks are. -Some ignorant, heartless wretch, who would be better behind the bars at Kingston than running at large, poisoned Lady Niddia. Lady Niddia was 16 months old, and registered as one of Canada's best thoroughbred St. Bernard dogs, valued at \$300, owned by G. R. McGillivray, of London, and N. P. Finch, of this town. Fortunately for the owners, however, Niddia's pups were old enough to wean .- [Aylmer

-Victoria Park last evening was the resort of thousands of appreciative citizens, the occasion being the first open air concert given by the band of the First Hussars, under the baton of Mr. T. H. Warren. This organization is now rapidly improving, and deserved the hearty applause elicited by its efforts. The collection at the gates was superintended by Col. Gartshore. The mount subscribed is in aid of the Fraser River sufferers, but is not yet known.

-After two years of hard work a class of 17 young ladies have just graduated from the Illinois Training School for Nurses. Some idea of the merit which attaches to being a graduate of the school is obtained when it is considered that the class started with 94 members, of whom only 47 graduated. Miss Ida Weston, sister of Mr. W. H. Weston, of this city obtained the honors, being first in the class. Her percentage, the highest, was 96.6. Canadian girls as well as boys hold their own anywhere.

"This Train for Sarnia!" The employes of the ADVERTISER Printing and Publishing Company will hold in Poonah, near Bombay, and Miss Sorabji | their annual picnic at Sarnia again this year. The date will be Saturday, July 14. Last year's outing was one of the most successful ever held by the ADVERTISER employes, but this one is expected to surpass it, through the many additional attractions which are being arranged for. Paste this in your hat: Saturday, July 14

Thanks ! The following dispatch from the Provincial Treasurer of British Columbia was received yesterday:

"VICTORIA, B. C., June 15. "His Worthip Mayor Essery, London

cures any corn, wart or mole, ingrowing toe nails, and for cancers in the early growth. Barkwell's Sure Corn Cure is a favorite pre-scription with many leading physicians. For bunions use Barkwell's Sure Bunion Cure, the most successful preparation ever manufactured for bunions. All for sale at

### BARKWELL'S DRUG STORE **,** Cor. Dundas & Wellington Sts.

Ont.—Accept the Government's gratitude on behalf of the flood sufferers for London's liberal and generous proffer of assistance. We shall not hesitate to draw as authorized should occasion require, but so far as developed the flood and distress consequent thereon have been much exaggerated abroad. Until the water goes down it will be impossible to tell the extent of the injuries, the effect of which we fear may be

more disastrously felt towards fall.

"J. H. TURNER, Minister of Finance."

May Visit London. At last night's quarterly meeting of the Board of Trade President John Bland informed those present that he had replied to the invitation of Hon. Mackenzie Bowell, to be present at a proposed luncheon at Ottawa to a large delegation of prominent colonists. The party is making a tour of the country, and intends visiting Toronto and Hamilton. If a trip west is taken the strangers will be cordially invited to stop over at London. Should they comply the Board of Trade will show them around the city and entertain them as only Londoners can. Postoffice Inspector Barker, of Toronto, acknowledged in kind words the copy of the resolution passed at the annual board meeting, expressing regret at his removal from the city and appreciation of his valuable assistance while connected with the board here. Mr. Bland reported that he had seen Sir John Carling, and was given the assurance that the alterations to the postoffice, for which the board have been asking for two years, were soon to be made. A communication from the manager of Commerce, a weekly trade journal published in London, Eng., relative to subscription was referred to the council of the board. Mr. T. E. Mara was unanimously elected a member. No discussions arose under new business, and Mr. John Cameron suggested that at the next quarterly meeting in September papers be prepared on some special subjects, which would give rise to a useful and helpful debate. Those

### son and J. A. Nelles (secretary). LONDON, HOLD YOUR OWN!

in attendance were: Messrs. John Bland (president), T. R. Parker, John Cameron,

D. W. Blackwell, A. B. Greer, J. Mattin-

Why a London Candidate Should be Preferred to a Toronto Civic Cfficial. Mr. Hobbs' firm pays over \$1,000 in wages every week of the year. Workingmen understand this, storekeepers understand it. Everybody knows the value to the community of such men. They know that Mr. Meredith has deserted the city, and within the last year has become the paid servant of Toronto, receiving \$13,500 a year to fight for that city. London electors will honor the man who does not desert this fine city, who spends his money to build it up, and who supports a Govern-ment that will do full justice to London and to every other constituency. London has been in the cold shades of Opposition long enough. Let us send a London man, not a Toronto man, to represent us as a supporter of the best Government Canada

has ever had. The pulpit is supposed to be heaven's Prof. Smith's Three Keys will positively

cure rheumatism in three days, neuralgia instantly. Sold by all drug stores. Our whole attention is given to fin watch repairing. All work practically executed. J. E. ADKINS, East London.

E. Mara Co., (Ltd.) 153 Dundas St, 155 Dundas St. and Market Square, London

When the Advertiser, a few days ago, presented to its readers a picture of Mr. W. R. Meredith's fine residence in Toronto, some people objected to the discrimination in favor of the Toronto corporation counsel, and asked, "Why not give us some idea of the Messrs. Hobbs' business premises?" Our reply has been that the enterprise of the citizen

candidate for London and his brother is known to citizens generally. Still, there has been a demand for the pictures, and to-day we have pleasure in presenting them. From these busy hives of industry, the Messrs. Hobbs send out many thousands of dollars' worth of London manufactures every year, and pay now, with their new factory not

yet at its full development, over \$1,000 a week in wages. London workmen will remember these facts when they come to choose between the Toronto absentee landlord and the London merchant and manufacturer on Tune 26.

Views of the Official Organ of Organized Labor in London.

Referring to the candidature for London of Mr. Meredith, corporation counsel of Toronto, the Industrial Banner, the official organ of organized labor in this city, succeingly refer to the matter. In view of

"There is nothing small about Toronto. She is not content with wanting four city members in the Ontario Legislature, but manages to pick candidates for a score of rural constituencies as well. She is now reaching out after rival cities, and London is expected to elect her able solicitor to swell the crowd. Toronto is no hog, she doesn't want the universe. Give her all the land and someone else can have the water. She is always willing to go halves so long as she gets the solid half. Great head! Some day she will have the right to elect the whole Legislature; she has only got to go ahead as she is doing, and 'Get there, Jacob.' is the word while other people pay the piper."

### TORONTO'S CAMBIDATE FOR LONDON | Why Was Mr. Jas. Carter's Letter Suppressed?

The following letter was sent to the London Free Press for publication as a matter of justice, but was refused publication: "London, Ont., June 8, 1894.

"To the Editor of the Free Press, London: "I notice in your issue of Saturday, June 3, a letter finding fault with Bro. T. S Hobbs for not wearing the Sons of England regalia and marching to church with the order, and again this morning I notice you what has appeared in your paper, in justice to Bro. Hobbs, I ask you to publish the

facts as set forth here. "Bro. Hobbs, being a member in good standing without office, could not wear the regalia of the order if he had wished, as none but officers of the order are allowed

"With reference to his not going in the church parade, I can only say that as he had not been a regular attendant at our lodge it would have been considered bad form for him to turn out on that occasion. If he had done so there is no doubt that his action would have been misconstrued. "I am positive he was not in the lodge

room on the occasion. Yours truly, "JAMES CARTER, P.D.D., "Sons of England."

# Peddle's Defeat.

Meredith Raised the Non-Resident Cry Against the Labor Man

Because He Lived in the Village of London West!

An Important Point Now That Mr. Meredith Is a Resident in and Paid Servant of Toronto.

When Mr. Peddle ran as a Labor candidate in this city in 1886 Mr. W. R. Meredith strongly objected to his candidature on the ground that, though he was a workman in the London furniture factory, he had his home in London West!

At the nomination in the City Hall on Dec. 21, 1886, we learn from the report of the meeting that Mr. Meredith spoke as

He (Mr. Meredith) referred to the fact that his opponents had gone outside the city to select a candidate, and said this was the first time such a thing had been done in London. A Voice-Didn't Sir John go to the

Pacific slope? Mr. Meredith-He did; but this is the first time London has had to go outside its limits for a candidate.

In reply to this allegation, Mr. Peddle "Mr. Meredith has told you that this is the first time the people of London have

had to go outside the city to secure a candidate. I say that I am a citizen of London because all my money has been spent was arming and drilling men or counten-in London ever since I have been here. I ancing such action, as so boldly stated by pelled by giving Hood's Sarsaparilla a trial.

### A NEW DISEASE.

The Remarkable Outcome of the Agitation in the States.

Unscrupulous Anti - Catholic Agitators Raise Unfounded Terror in many Districte.

(From "The Arena," a leading United States non-political magazine.)

A year ago I was visiting an old farmer friend in Illinois, and very naturally the talk was of the great Fair. Was he going Not he-he dared not leave his house a single day; did I not know that the Catholics had been ordered by the Pope to burn the barns and houses of all heretics? It sounded like a joke, but I saw the gray eyes of this old man flish and I knew he was terribly in earnest. With trembling hands he showed me the Pope's encyclical, printed in a newspaper which had a deep border of awful black. I tried to tell this man that Pope Leo XIII. was a wise and diplomatic leader, and probably the most enlightened man who had been at the head of the Roman Church for many years, and by no human probability could he do a thing which would work such injury to the Catholics as well as the rest of humanity. (This pretended encyclical has since been proven and acknowledged a forgery.) But my argument was vain. I was taken to the two clergymen in the village, a Presbyterian and a Methodist; both were full of fear and hate toward the Catholics, with a little left over for each other. They were sure that the order to kill and burn had gone forth. And so in many towns and villages as I journeyed I found this quaking fear. In many places men were arming themselves with Winchester rifles; many preachers never spoke in public without fanning the flame; A. P. A. lodges were rapidly initiating new members, and lurid literature which was being vomited forth from presses in Louisville, Chicago, Omaha and Kansas City was being sent out broadcast.

For a year I have endeavored to find proof that the Catholic Church in America don because all my money has been spent was arming and drilling men or counten-

gine of the Empire State express. The engineer was a little, bronzed weatherbeaten man of near 50. I showed my permit, and without a word he motioned me to the fireman's seat in the cab. He ran around his engine with oil can in hand, then climbed to his place and waited for the conductor's signal to start. I was watching, too, and back in the crowd I saw the hand swung aloft; at the instant, the engineer turned and made a quick motion as if crossing himself, seized the lever and we were off. For exactly three hours the telegraph poles sped past, and we rolled and thundered onward through towns, villages; over switches, crossings, bridges, culverts and through tunnels and viaducts at that terrific rate of a mile a minute. The little man at the throttle looked straight out ahead at the two lines of glistening steel; one hand was on the throttle, the other ready to grasp the air brake. I was not afraid, for I saw that he was not. He spoke not a word, nor looked at me nor at his fireman, who worked like a Titan. But I saw that his lips kept moving as he

still forced the flying monster forward. At last we reached Albany. What a relief it was! My nerves were unstrung. I had had enough for a lifetime. The little engineer had left the cab and was tenderly feeling the bearings. I turned to the fire-

"Bill, why does he keep moving his lips when there at the lever?

"Who-th' ole man? Why, don't you know he's a Catholic. He allus prays on a fast run. Twenty years he's run on this road with never an accident-the nerviest man that ever kicked a gauge cock, he is, swelp me !"

Bill is not a Catholic, neither am I, but we do not ask whether the engineer who pilots us safely to our destination is a Presbyterian or Baptist; we only ask that he shall be a man who knows his business and is willing to do it. And yet the A. P. A. are clamoring for the removal of all Catholies from the employ of railroad companies; and their cath of initiation requires that and their oath of initiation requires that the candidate shall never give employment to a Catholic provided a Protestant can be found to do the work.

The scrofulous taint which may have been

of this city, and recently appointed corporation counsel of the city of Toronto, with an income of \$13,500 a year.

Mr. Meredith has another fine residence, for his use in summer, on Toronto Island. But we have not been able

to get a picture of it at this time. Our former townsman is thus prospering in the city of Toronto, to the build-

ing up of which he is now so effectively contributing. The people of London wish their late representative and former citizen every prosperity in his new sphere. He has taken a front position in the promotion of the welfare

of our rival city during the six years that he has resided in Toronto, and it would not be surprising to see him

and factories of the Hobbs Hardware Company of this city. All Londoners, however, know of the enterprise of

this well-known firm, and of the fact that they pay, in wages alone, to be spent in London, over \$52,000 a year.

When the Messrs. Hobbs converted the idle factory of John Elliott & Sons into a busy hive of industry, they con-

ferred a great benefit on the city of London, and there are many reasons for believing that their enterprise in building up this western metropolis as a mercantile and industrial center has not yet reached its climax. The people are

HOW TO CARE FOR LAMPS. the Thrifty Housewife Reduces

the Job to a Science. May Silvers writes in the American Agriculturist, under the title of "Care of Lamps," as follows: The ordinary caring for kerosene lamps is simply to fill them when about three-fourths empty, to pinch off the wick or cut it irregularly when it is found to burn badly, and to wipe off the oil from the outside. Then one washes one's hands of this disagreeable task. If the gas in my village home had not proved so poor and so disagreeable as to odor. I, too, should have gone on all my life caring for the one or two lamps in use in this same manner, but when I found it necessary to set up a dozen or more, it seemed worth while to give the matter more attention and to reduce their care

to a science, if possible. An interview with a large lamp dealer brought out the following important points: The worst possible economy is a cheap burner. Have as inexpensive a lamp as your purse demands, but let the burner be the best in the market. Keep the gauze or fine holes which admitsfair to the blaze, perfectly free from dust, and for this purpose rub it every morning with a cloth moistoned with kerosene. When the wheels lower and raise the wick with difficulty, take out the latter and boil the burner in washing soda and water; if this does not remove the trouble, take it to a repairer, although the chances are that you will need a new one. In this case it is important that it should exactly fit the collar of the lamp. A lamp that is burned for several hours every night should have a new wick every three weeks. Tacking on strips of canton flannel to enable you to use the last inch of wick, is a pennywise proceeding that cannot be too highly censured. The quality of the light is always impaired by a wick that has been too long saturated with oil. Never cut a wick; remove the charred part with a soft cloth, turn it down until nearly even with the burner and even the wick with the burner by passing one blade of a dull scissors over it. When only a little light is required, do not turn down the wick of a large lamp, but use a small lamp with a correspondingly small wick. Very little less oil is burned when the blaze is turned low, for what is not burned in the blaze passes off in an ill-smelling gas, poisoning the air. Physicians say that this way of using a kerosene lamp is a frequent cause of diphtheria.

Fill lamps in daily use every morning Stop within half an inch of the brim, and not run them over. Once a fortnight let the lamps burn until threefourths exhausted, and the next day throw out what remains, washing the receptacles with hot water and washing seda; turn them up-side down to dry, and fill with fresh oil. Use only the best quality of oil. The safest lamps are those in which the oil is put in a seperate receptacle of metal filling inside the vase, or outside which may be more or less ornamental.

The almost invariable cause of explosion is the neglect of one or more of these rules. Charred bits of wick allowed to remain on the burner sometimes ignite, and if no one is at hand to remove them an explosion may follow. If a lamp explodes, threw some heavy fabric such as a rug over it at once, if one is at hand. A lady once prevented what must, but for her presence of mind, have been a terrible conflagration. A lamp in a basement kitchen exploded; no rug was near, but the flour barrel stood handy and she threw the flour over the blaze in great scoopfuls until the fire was extinguished.

# STRAWBERRY DAINTIES.

Many Toothsome Desserts Made With the Luscious Fruit.

Strawberries are at their best when the cook has not tampered with them. They should be served with hull and stem still attached, and small individual sugar sauces should accompany the plates holding them; into this sugar each berry may be daintily dipped, and the result is delicious. Cream is curd-led by the acid fruit, but as strawberries and cream are among the traditional dishes of the race, it is likely still to be served. Claret is sometimes substituted with delicious results.

A souffle of strawberries is a dish not to be despised. A layer of the berries should be placed in the bottom of a dish and sprinkled with sugar. Then another layer of strawberries and another of sugar should be added, and the whole allowed to stand for several hours. Then pour over them cold boiled custard, and pile whipped cream on tow. This should be placed on ice until it is very cold.

Another delicious strawberry dessert is made of strawberry juice, the whites of eggs and powdered sugar. The proportions are two cups of juice to the stiffly beaten whites of twelve eggs and twelve spoons of sugar. This should be served very cold with whipped cream.

Strawberries in jelly make a good described to the strawberries in jelly make a good described to the strawberries in jelly make a good described to the strawberries in jelly make a good described to the strawberries in jelly make a good described to the strawberries in jelly make a good described to the strawberries in jelly make a good described to the strawberries in jelly make a good described to the strawberries in jelly make a good described to the strawberries in jelly make a good described to the strawberries in jelly make a good described to the strawberries in jelly make a good described to the strawberry to Strawberries in jelly make a good des-

sert. A little gelatine is melted in cold water, and to it is added the juice of a pint of red currants. This is sweetened. About a pint of hulled straw-berries are added, and the whole poured into moulds and set on the ice to

Lady fingers, strawberries, and whipped cream make a good dessert. A mould should be lined with lady fingers split in two and moistened with straw-berry juice. Strawberries and whipped cream in alternate layers should fill it up, and the whole put on ice and served very cold

Ripe strawberries mashed and pounded in a bowl of sugar in the proportion of a pint of berries to one of sugar, allowed to stand, strained, mixed with a pint of ice water and the juice of one lemon, and frozen, make a delicious

# An Economical Dish.

# A New Sleeve.

We have a new sleeve-not that it is a great change from the leg of mutton, but the cuff or close fitting piece is quite short instead of coming from bow to wrist.—Philadelphia Record. DOMESTIC ACCOUNTS.

Keeping Them Will Do Much to Encourage Thrift and Economy.

Those who have never kept an itemized account of their incomes and outgoes, or have attempted and abandoned the effort after a few months' trial, or persisting through an entire year, were disgusted at the tale the figures told, or because the debit and credit account could not be persuaded to balanceshould muster up courage and good sense, and determine to make another trial. Few things will do more to encourage habits of economy and thrift. for it not only shows what one's money is expended for, but oftentimes the want of consistency, and the injudiciousness of many of our pet efforts at economizing. And then, again, it may show and convince the "gude mon" that the experiment of entrusting his wife with a weekly or monthly allowance for household expenses was not half as risky as he feared.

The practice of giving wives a regular allowance may not be always practicable with farmers, however liberal minded and well disposed they may be. But surely there are few instances even when the husband holds the purse strings, that a wife may not at least keep an itemized expense account and be helped by doing so. Economy is a comprehensive term, and means the expenditure of time and labor-not less than of money—judiciously and with-out waste. The latter, however, seems more tangible, and people are more easily convinced of the necessity and wisdom of guarding against its losses. But however lacking in such appreciation a housekeeper may be, she will, invariably, find that a determined effort to wisely manage her financial affairs will result in giving her a truer conception of the value of time and labor. According to this reasoning, then, the keeping of a strict financial account is the beginning of reformation in economizing all along the line of household management.-Katherine B. Johnson, in American Agriculturist.

### For the Tea Table.

One woman declares that the most awful problem which confronts her in domestic life is the one of providing some dainty substitute for the inevitable waffle at afternoon tea. Here are a few successes culled from her recipe

Little Cakes.-Mix a half pound of flour with four ounces of sugar and a teaspoon of baking powder. Gradually stir in six ounces of butter, which has been warmed enough to make it liquid; flavor with vanilla; beat well for a few minutes and add two well-beaten eggs. Stir well and drop in spoonfuls on a buttered tin. Put a glace cherry in the centre of each and bake for ten minutes in a quick oven.

Cookies. - A cup of sugar, a quarter of a cup of butter; three eggs, well beaten together; a cup of milk and two teaspoons of baking-powder, sifted in two cups of flour.

Lady Fingers.—Mix into half a pound of confectioners' sugar the yolks of six eggs. Work this mixture with a spoon until very light and frothy. Add the stiff-beaten whites of the eggs and a quarter of a pound of sifted flour. Squeeze this batter through a meringue bag in strips two and a half inches long; sprinkle with fine sugar and bake in a moderate oven about fifteen min-

### An Ideal Breakfast Dish.

Bacon and poached eggs, if correctly cooked and served, make a breakfast dish which will tempt even the most capricious appetite. Care should be taken in selecting the bacon. Choose bacon of medium size, with the fat and lean quite distinct in coloring. The lean should be pink and the fat white. If the lean looks streaked the bacon will probably be hard or tough. In cutting the rashers from a piece of bacon cut in the same way as slices of bread off a loaf. A sharp knife or a small carver should be used, and with a little practice the rashers can be cut with un-

erring precision from top to bottom of the joint, fat and lean in even slices. The toast beneath the eggs should be extremely thin and well browned and the eggs poached according to the individual fancy. They should be served on a small platter, with the thin slices of bacon resting upon a bed of watercresses. Prepare this dish for breakfast some warm morning this week and see if the members of your household will not appreciate it.

### A Salt and Whisky Bath. One of the always to be relied upon

signs of spring is "that tired feeling" which appears with the perennial regu-larity as the bursting of the buds into

Here is a bath for persons suffering from debility, which, if taken in connection with a tonic and careful diet, is sure to banish all languid feeling. Take a quart of cheap whisky and put into it a teacupful of rock salt. Dip a crash towel in this and let it dry, then wet the body all over with the salt and whisky and rub dry with the towel. The rubbing should be done with short, light strokes and toward the heart, that is the limbs should be rubbed up, and the face, neck and upper part of the chest down. This bath relieves congestion and facilitates circulation by bringing the blood to the surface of the body. You may add to the mixture one tablespoonful of camphor and one-half tablespoonful of ammonia.

# New Way of Arranging Lace.

Lace is more worn every day. The new way of arranging it on the Marie Antoinette waistcoats is very graceful. The waistcoat is composed of pale satin or figured shot silk if made full; but if quite plain, brocade or moire antique can be used. It is either worn with a belt or made just beyond the waist line, and always fastens at the back. Collar and belt are of colored velvet fastened with the inevitable paste buckles. A deep flounce of the new fine guipure lace falls from the collar band, quite short in front, and gradually deepening into two points, which descend on either side beyond the gilet on to the dress. The short, open jackets of Fig-aros are worn with these.

A Precaution, A neat housekeeper, who does her own work, yet never keeps a visitor waiting while she changes her gown, has confessed that she wears it all day, but keeps hanging in the kitchen a very loose wrapper, and that she further protects herself by wearing cuffs of matting, such as are sold to butchers.— Harper's Bazar.

### Cider Drinking. Cider drinking is an injurious habit. We should take no more fluids than the system actually demands.

WHEN MOTHER IS SICK

What the Small Daughter May Do to Make Her Comfertable.

It is peculiarly the province of a daughter to be a help and comfort at the time when mother falls sick and everybody and everything in the household has a natural tendency to be at "sixes and sevens." Indeed, it is often just knowing that things are going wrong which is the last straw in prolonging for an invalid mother her distracting headaches, painful rheumatic twinges or fevered state of mind or body. What is a daughter to do? In the first place, you must strive to keep the sight and sound of domestic friction from your mother. This is a pretty big contract sometimes, but courage and ability come with trying, and unselfish efforts rarely fail in the end.

To begin to do your own small share of duties, if it be only to make your bed, in such a manner as you know would please your mother. These duties ought to be done promptly, too, and this in itself is not an easy matter, especially when there is no pleasant voice to say: "Come, my daughter, don't dawdle," or "Do the errand first and then read Tennyson."

When there is no chance that your own neglect may add to the general dis-comfort open wide your eyes and see where you can help others. Above all things avoid having little fusses with your younger brothers and sisters. Just so sure as you do not the sound of your sharp voices, perhaps the very words, will reach the sick room. Don't you remember when you had the measles and your head ached so severely how much pains your mother took to keep the baby from crying? Perhaps you did not notice, but I can tell you she was trembling with weariness at nightfall from the care she gave you. So even though it is not fair for Grace to take your handkerchief or for John to hector, pass baby's fingers if they stray into mischief doubly often. Poor child! he is unstrung and nervous, and is too young to understand being without mamma, much less to tell his vague discomforts.

Take the children out to walk, and help John in his "home work," with its "awful" examples in decimal fractions. Slip into the dining-room and see if it and the table are in readiness before the bell is rung. You know how your father hates to find something missing from the table or John's cap on one of the chairs. Be constantly on the alert to fill in the gaps which no one else sees and to repair the blunders and neglects of others, but do not assume a manner of command. Be tactful, and while you may in truth be the housekeeper, treat the situation as one where you are merely an assistant.

If your mother's illness should require the services of a nurse you have still more opportunity to help. The nurse is, for the time being, the head of the household in all that concerns the sickroom, and this fact is apt to cause friction, if not rebellion, especially in case of a contagious disease. Your first duty is not only to treat the nurse kindly and considerately, but to uphold her authority by your own obedience and by your influence over and example to others. A tactful chat in the kitchen may lull a storm there as well as in the nursery, If you are allowed to stay with your mother do not forget to offer to let the weary nurse out for a breadth of fresh air. Would you like to stay in a sickroom night and day without a bit of relief? These are small duties, each trifling and the whole not at all heroic; but your mother has done this and more for

# Banana Cookery.

The banana seems a tame and tasteless fruit to many palates, but it can be treated in such a way as to become a rare delicacy. Banana fritters, for instance, are not to be despised, and banana shortcake is a dish before which the glories of ambrosia pale.

To make this delicious shortcake, mix a pint of flour, a large teaspoon of baking powder, and a third of a cup of shortening. Moisten with milk. While this is baking, slice bananas in proportion of these to one orange, grate a little tion of three to one orange, grate a little lemon peel and mix with a cup of sugar. When the cake is baked, split it and fill with the fruit. Beat enough cream stiff

to pile over the top of the cake. Fried bananas also have a flavor which the raw fruit entirely lacks. They should be pared and split in two. A pan of melted butter should be on the stove, and into this the bananas are plunged. When they are brown on both sides they should be spread for a few minutes on absorbent paper to rid them of the grease, sprinkled with powdered sugar and served.

Banana cake is made by placing sliced bananas between layers of cake prepared by the ordinary rule for jelly cake. Banana fritters are made by dropping little slices of banana half an inch thick, into ordinary fritter batter, frying in boiling lard, draining and serving hot with powdered sugar.

# How to Tie Shoestrings.

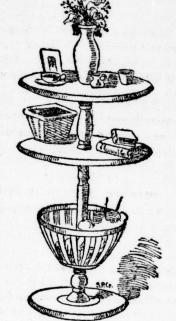

"Stop a minute. My shoestring is ntied." "Oh, dear! What a nuisance! Your shoes are always untying, and there's our car coming." Result, fuss and bad temper. Though a shoestring is a very easy thing to tie, not one person out of a hundred knows how to do it. We all know how to tie a bow and of what a bow consists—two loops and a knot in the middle. Now suppose before you tighten your bow, and while you still have a loop in each hand, you take the loop in your right hand and pass it through the knot in the middle. Now go your usual way and give booth loops a good hard tug to tighten them, and there you are! No more untied shoestrings. No more lost cars. When you want to unfastsn it, take one of the tag ends in your hand, give a good pull, and the thing is done, or rather undone, writes one of Good Housekeeping's correspondents.

Thirsty Babies. It seems strange, but true it is, that there are yet in existence young mothers who never give their young babies a drink of water. Water is as necessary to a child's well being as good food and its bath. Two or three times a day the baby should be given a drink of water, say a tablespoonful at regular intervals. Try the little mite and see how he relishes it. Furthermore, it will, if given at regular intervals, keep the bowels in good order. The other day, by the way, a prominent physician was called in for a severe case of vomiting and sore stomach. He prescribed a tablespoonful of water and one of milk to be taken separately every hour. His patient laughed, but had the good sense to obey, and sure enough in a few hours she was well enough to get up and attend to her

NOVELTY IN TABLES.

Very Convenient Little Thing to Have in One's Room.

The newest table provides on three tiers accommodation for all the small things one likes to have ready to hand in a library. a boudoir, bed, smoking or invalid's room. It occupies but little space and has the great advantage of being perfectly steady and firm, an iron rod running through the

centre supports. The trays are eighteen inches in diameter and have slightly raised rims, the top tray being French polished and the second lined with card cloth. A special feature of the table is a brass wire basket to contain newspapers, needlework, etc. The table is two feet six inches high and made of oak, walnut, mahogany and birch, and forms a very useful addition to it by quietly this time. Do not slap the the furniture of any room.—Lady's Pictorial.

SUPPLEMENT TO DAILY ADVERTISER --- SATURDAY, JUNE 16, 1894.

# Motto for the Week:

Total abstinence is a law of true freedom for the soul. We hear it said "I wish to be free to take a glass of liquor or not to take it." They who so speak are seldom or never free to put the glass away from their lips. Their boasted freedom is the servitude of passion. The total abstainer is a moral hero .- [Archbishop Ireland.

# With the Poets.

### My Petticoat.

Yes, I'm sure I want to vote; But they say that I shall soil, In the dust and the turmoil Of political debate, Woman's love and woman's hate, My lace-edged white petticoat.

Yet a man once said to me: "Be the stocking of that hue Called in art cerulean blue, So 'tis hidden from the view, There is no harm, if old or new; et the wearer step out free."

when I go out to vote, f I hold my skirts aright, Azure socks well out of sight, epping, dainty, through the dirt, I can lift and save from hurt My lace-edged white petticoat. -By Miss M. B. Warren in the Woman's Journal.

### Momentous Trifles.

One vague inflection spoils the whole with doubt;

One trivial letter ruins all, left out; A knot can choke a felon into clay; A knot will save him, spelled without the K:

The smallest word has some ungarded

And danger lurks in i without a dot. -O. W. Holmes.

### Looking Back.

Have we not all, amid life's petty strife, Some pure ideal of a noble life, That once seemed possible? Did we

The flutter of its wings, and feel it

And just within our reach? It was, and yet We lost it in this daily jar and fret, And now live idle in a vague regret;

But still our place is kept, and it will Ready for us to fill it soon or late. No star is ever lost that once has

been-We always may be what we might have

been. Since good—though only thought, has life and breath,

God's life-can always be redeemed from death: And evil in its nature is decay,

And any hour can blot it all away; The hopes that lost in some far distance seem, May be the truer life, and this the

dream. -Adelaide A. Proctor.

### Returned From India.

Interview With Miss Hester Alway, Beturned Missionary From India.

[For the Home Guard.]

The voyage was mostly pleasant though we were caught by the monsoon in the China Sea and were befogged several days off the coast of journey. We called at ports in Cey-Japan, also at the Sandwich Islands, that "paradise of the Pacific," saw a little of the Mid-Winter Fair in San Francisco, then continued northward by steamer to Victoria and thence home by the C. P. R.

Ontario is a garden spot. Its comfortable homes, fertile, well-cultivated farms, sunny slopes and bits of woodland were never tairer nor dearer than huts and parched plains, or the mountain regions and lonely prairies of the far west.

I am greatly improved in health. Physicians said my only hope was to leave the country and that the voyage would do much to rid my system of the me once and again to death's door. new lease of life.

The progress of Christian missions is slow. The statistics are misleading, standing for both too much and too

Obstacles are many and forces inadefitted for leaders.

to lose and more to gain than the higher The Christian faith is a thing of yet greater reproach because of its acceptance by the outcasts or low caste of people.

People of India, lacking in noble qualities, climate and religion against immoral and full of evil, and with such ideals little marvel they themselve are degraded. The climate is enervating, tending to habits of sloth and indolence. For a pure religion and birth in a stern northern climate I am increasingly thankful.

Aimlessness of the lives of the women are pitiful. Household duties are few because the habits are so simple and wants so few; little social life; world of books closed; no participation in great events of the world.

Opposition to the education of women is in decline. Four schools for girls are in my station were a few years ago there were none, although a score of boys' schools existed.

Missionaries should be not only the noblest of Christians, but our best educated and most talented men and women. They are first the representathe military genius of a Moses.

Too much is the opinion abroad in the home churches, "anyone will do for a missionary." Only recently I was told of a young man whose dullness in study was overlooked and who received his degree "because he was going east." It was not thus in the early churches; a Paul and a Barnabas, the most gifted men of the little Christian community, were set apart to the HESTER ALWAY. foreign work. Komoka, June 1, 1894.

Untried, Not Outgrown. It is constantly said by critics of Christianity that it has failed to redeem society, and it is constantly assumed that a new Gospel must be preached It is assumed that Christianity has while it has done much good, measured by its aims and its claims it has been found wanting. This is said so often and in so many different ways believe that it is true. As a matter of fact, however, Christianity has never never. Although the doctrine of hope, for 1.800 years, and splendidly illustrated in individual lives, society has never yet been organized on these principles, and has never yet attempted ideals about which it has talked; they are not practical rules by which it has endeavored to live. This is not underestimating what has been done, nor depreciating the noble devotion to these ideals by individual men and people seem so anxious about, is bet-

as a whole has never yet been Christian, and that the world, as a whole, has never yet tested Christianity by making it a practice and a rule of life.

Striking testimony to this effect comes from a little book, from many of the conclusions of which the Outlook differs fundamentally, but the frankness of which it is glad to recognize. "We have been told," says Japan. We were two months on the Richard Le Gallienne in his "Religion of a Literary Man," "that the world on, Malay Peninsula, China and has tried the Gospel of Christ and found it wanting. To that the answer is simple: The world has never tried the Gospel of Christ, and in this nineteenth century of the so-called Christian era it has yet to begin." This is testimonystraight to the point from one who does not accept that Gospel in the sense in which the Outlook accepts it, but who recognizes the historic attitude of society toward it. What the world when in contrast with India's mud is suffering from to-day is not lack of truth to live by, but lack of vitality, virtue and power to translate the truth into the terms of life. There is truth enough in the world to bring in the millenium if the world would only use it, and the talk about truths being outgrown simply means that s ciety is deadly Indian fever which had brought tired of them because it is tired of hearing what it refuses to accept and I weigh 25 pounds more than when I obey. But what will society put in set sail, and feel as though I had a place of Christianity? Mr. Le Gallienne says well: "The censors of modern literature are continually crying aloud for a new message. Where is the new prophet who will give peace to our souls? A very short time ago Browning's was the new messagequate. If the country is ever evangel- Whitman's, Emerson's, Carlyle's, Rusized it must be by native workers. But kin's Tennyson's. Was ever age we are reaching only the lower classes, more rich in prophets and in great hence the difficulty to obtain men messages? But what have we done with them? Have we realized them Why do the lower castes more in our lives, quite used up every availreadily accept our religion? One able particle of their wisdom? And reason may be because they have less vet here are we, hungry and clamoring again. The truth is that the men who cry out for new messages mean, rather, new sensations of doubt. It is not peace they want, but new perplexity." Mr Le Gallienne goes to the very One danger of our work is the giv- heart of the matter in these sentences. ing of book knowledge apart from in- | Men are not clamoring for new truth, dustrial training. cision on the constitutional question. He also agrees with Mr. Meredith about an after plebiscite before confirming the act before it should go into should be a two-thirds majority in its favor or it should not be confirmed. Just why this measure should thus be treated as no other measure proposed by either party is treated does not appear clear. It may be that Mr. Meredith may also insist on a two-thirds sweep. If there is any one measure R. H. Hall, Elmira; Darius Dafoe, hibition. The old Dunkin Act majorities were larger still; the plebiscite majorities were more sweeping; yet, and after all these, it seems these gentlemen want still more votes taken.

### The Mound-Builders.

The investigations which have been carried on during the past five years under the direction of the Smithsonian Institution into the origin of the artificial mounds found in the Mississippi Valley and other parts of the United States have, it is believed, settled a very important question in archæo-

It has been generally supposed that the mound-builders were a race of people distinct from the Indians, and who had occupied this country in advance of the tribes found here by the European discoverers and settlers.

But the investigations to which we have referred seem to show, beyond doubt, that the mounds were the work of the red men themselves, and that their contents serve to throw light upon the early history of the Indian

In regard to the study of American archæology Prof. Langley, the secretary of the Smithsonian Institution, draws attention to the lamentable fact that, owing to the exportation to Europe of the most important collections of "finds" made in this country, students must go to the museums of England in order thoroughly to master what is known of the early history of the Mississippi Valley; to those of Germany to study the past life of Alaska, and to those of France for information concerning the archæology of California.

# What Education Is Doing.

The things which people do not know frequently astonish persons of culture. But the things which some people do know are yet more amazing. For example, a writer in a weekly paper informs the world that the Black Douglas, Edward I., Robert Bruce. and Sir William Wallace were all alumni of the University of St. Andrews. That Edward I. was educated in Scotland is a proposition which might stagger any one not a professional reviewer. That Edward met his future foes, Wallace, Bruce, and Douglas, at college is a pleasingly dramatic, though neglected circumstance. And that they were all at a university which was not founded till long after Wallace was chopped up, and Bruce's heart was tossed among the Paynim, and Edward's skeleton was dust, and Douglas had fallen in war, is a fact which delights the educational reformer. It is like a recent assertion that Charles I., of England, was probably poisoned by the Jesuits, an hypothesis which may be useful to the Rev. Lancelot Holland when next he goes a-lecturing to Protestants. This is what education is doing—it is producing critics, public writers, who are ignorant and inventive beyond the powers of the very stupidest little schoolboy.- Andrew Lang, in Longman's Magazine.

# More Contented.

The Scottish Reformer invites as tention to a letter from a large employer of labor to J. H. Raper, in the vicinity of whose works there were their homes. The temptation to stop and drink was of course great. These licensed places for the sale of liquor have now been closed. The statement is made that the improvement is wonderful. The people are better fed and clothed, and they are more thrifty. Their nomes are more comfortable, some of the men have even bought houses of their own, and the young G. Scribe, L. H. Drew and others. to the effect that "effect should be men and boys are attending evening schools, instead of spending their mare time in the public house. The people

### Lost.

During the convention all letters rezeived had to be laid aside unanswered. Now that the pressure is removed I am again back at my desk, and hope soon to catch up with my letter pile. But one epistle, of which I have a vague memory, is missing. It was from a union, in an unorganized county, asking advice as to the wisdom of uniting, in a coming convention, with the women of an adjoining organized county. As I cannot remember either the name of the writer or her place of residence, I am at a loss to i freely admitted that the religious, or know how to establish communication. Should any member of the union take the HOME GUARD, and recognize the facts herein set forth, will she kindly supply the required information? Sincerely, MAY R. THORNLEY.

### Points.

Memory is a queer article. It retains often for well on to a century some little insignificant trifle, while facts and happenings of the deepest moment are obliterated in a brief space.

Have you never said of some happy or calamitous event, "I shall never forget it as long as I live." Yet in six months it was only recalled with an effort, and before the year was out, if you canted the exact data, and were given to accuracy of statement, nothing but your diary could keep your story within the limits of truth.

It is also easily proven that joy makes a less lasting impression than pain. The occurrence that has precisely met your expectations, and filled the measure of your dreams, drifts away more readily than the sad disappointment, or the harrowing failure. Grief seems to have better "retaining

points" than pleasure. Tried by these standards the late convention should pass out of mind almost as rapidly as it has out of sight. For weeks previously to the arrival of the clans the local committee lived association would tend to infidelity. ever in its view. Asleep or awake the horizon contained little else. But

the convention is over; the flowers are dead; the flags and other decorations have been returned to their owners with thanks; the sky-high platform, hastily improvised, has again resolved itself into tea meeting tables and trestles, and the big bill board that so long adorned the church lawn announcing the character of the exercises within has vanished.

To-morrow, at the union meeting, the committee will make final report and disband, and there will be nothing left to do but thank God and congratulate each other, for everybody agrees that the gathering was unusually successful.

At the local W. C. T. U. meeting held May 22, the convention was the topic for the prayer service. The leader suggested that petition be made for spiritual, numerical and financial success. Surely the answer included all for thich the petitioners made request.

Many of the delegates said no previous gathering had left behind it more of the spirit of the Divine Master. Mrs. Barney's address and Bible reading, drew every heart out after an intenser consecration and a more practical exemplification of the Christ life. The leaders of the noon hour service found prepared soil; and the listeners realized that the message was of the Lord.

The day meetings were well patronized. The night rallies were larger, and increased in size, until the closing exercises, when not more than twothirds of the people who came could gain entrance.

For some years conventions have failed to meet their own outlay; not on dition of affairs forced the executive to start each year with a depleted treasury, and greatly hampered the

Though the expense for speakers was heavy, the collections covered all the bills, and left a small balance to

XXX

No discussion throughout the four working days of the convention provoked more interest than that in reference to federation with the Woman's Council. Both advocates and opponents held to their opinions sincerely prise can readily clear all expenses, and strongly, but the best of feeling prevailed all through the consideration of the question.

Those in favor of immediate federation cited the well-known benefits of co-operation in public work, and the broadening of opinion sure to follow the co-mingling of so many minds.

Those opposed based their objections mainly upon the evident anxiety they have provided for their edification she was a girl. Unlike her brother, and was sent by a lady of rank and man's reform society which did not inof the founders of the council to keep we will hear less about lecture losses. she had every qualification to be one fortune, Mary Smith, of Stanmore, in clude women in its objects: "I have out of the exercises the religious ele-

The fact that the earlier local councils were organized without any recognition of God, and that when a change was insisted on only silent prayer was permitted, even the Lord's Prayer being objected to upon the ground that it might offend some, made the majority of the delegates fearful of closer con-

tact. As one of the speakers re-

marked, to unite upon such terms with

the hope of broadening the sphere of action might be grasping at a shadow

and losing the substance. Some of those in favor of federation rather non-religious, status of the council was to be regretted; but argued that by becoming part of it, the W. C. T. U. could effect needed changes, This plea was answered by a review of the basis of representation as given in the council constitution. The Dominion W. C. T. U., with its nearly 10,000 members, would only have the right to send one-third as many delegates as any local council, though the latter might not boast a hundred adherents. Each would claim one seat on the central executive. Any local council would, therefore, no matter how small, carry three times the weight of the Dominion Union.

Furthermore, any alterations in existing practice have been guarded by unusual precautions. No appeal to the general convention can be made unless the desired inovation has first run the gauntlet of the executive.

XXX The vote on the council was overwhelmingly against immediate federation. The Presbyterian Woman's Foreign Missionary society has taken the same ground, and other similar societies promise like action. Bishop Bond, of the Episcopal Church, has requested the woman's organizations of his diocese to remain aloof, and certain Catholic authorities are doing

women are not prepared to ignore the divinity of Christ. With the broadest Christian charity they would permit all varieties of belief to worship God according to their several modes of thought; but a national council society on which appeal to God through Christ is ruled out will not attract the womanhood of

The election was a tame affair. The old officers were so entirely satisfacclamation. Yet everyone felt so which they have so faithfully labored that each ballot brought a Chautauqua M. R. T.

went on her way rejoicing. Clara Parish, an American "Y" organizer, gives the following in last week's Union Signal: "New Jersey women are good advertisers. At the Cumberland county convention word reached us that our appointment for the next night had been canceled. The Post Norris women, at that late moment, had the courage to invite us there and gave us a crowded house. Their work began at 6 o'clock Friday ation did not end with Paul. The morning, and at 8 o'clock Friday night their hall was full to overflowing. How did they do this? They secured a new and popular hall, the platform of which they decorated with rugs, rockers, pictures, lace curtains, stands and piano lamps from their parlors, and with natural flowers. They put a canvas on the omnibus, secured good music, and last, but not least they had 500 'complimentary tickets' printed and these were sent what shall be when man welcomes allowed to hold property and to vote into the homes early in the afternoon by bright young men, the young pastor of the M. E. Church leading. I hope this may help some discouraged union to hold public meetings."

### Women in Politics.

[By Frances E. Willard in Union Signal.] At a recent meeting in Riegate, Eng. of the local association of the Liberal Women's Federation, Mrs. Fenwick, Miller, the famous journalist, in her own charming way made the closing address, which delighted all present and was the outcome of her life-long study and practice of the art of persuasion added to remarkable native powers. My notes yield the following most inadequate outline:

She said: "I cannot forget that the found our friends, then, both in the that part of the business of each of us joyed an independent government of sonally I am not suited with the world as it now stands. Men have carried it they are willing to admit they have not made a very good thing of it. I should feel free to say to them with all duced a bill to that effect two years tory that they almost went in by ac- good-will, 'You have done pretty well previously, for the same ground of -better very likely than I could-but SUFFRAGE FOR WOMEN AS FOR MEN. thankful for the possibility of their two heads are better than one; you Thus, then, there are two spots on the continued service in the cause for need now to seek the help of women to bring the world to be a purer and happier place than you have been able to make it alone.'

"We wish to enlarge the circle of thought and conversation in the home. As it has been in the past when a man came from his work in shop or office condition of Johnnie's tooth, little Mary's corn, the increase in the price of potatoes, the difficulties that have and I differ in politics; we have many a nice little tilt about great Mr. Gladfar from it; indeed, we often sit up later than we would, so interested are ing for us to agree to differ, to modify each other's opinions, to have the pleasure of sympathy and company together, rather than for me to be sitting alone and for him to be off at the club until all hours. I want women in politics for men's sake and for home's women themselves.

"Mr. Walter Besant, one of the greatest critics of the woman's move- of the parliamentary suffrage for women ment, has recently said his say in Lady Henry Somerset's paper against our progressive ideas. He cannot deny that queens have been notoriously tries to neutralize this by saying that they have had great men as their advisers; however, we who know for ourselves something of the history of Elizabeth of England, Catherine of ment, but if so, that is sure to come.

"Please give us the rest of that pas- will see a wonderful world one of these wonderful influence they have had in Whereupon the excellent dominie pro- our history. Their single, salient and convinced, and our temperance friend their treatment of women as their equals. No class of religionists has ever more worthily won the respect and good will of mankind. A famous member of it said recently, 'Our society has never taken up a cause state; probably it was out of respect to that has not at last succeeded. I the once asked an illustrious old Quaker woman how she reconciled with her belief the declaration of St. Paul, 'I suffer not a woman to speak in the a degree. church,' and she replied: 'God's revelspirit of the Lord is upon his people still and has been always; we should do violence to the inner voice if we testify how gracious have been the Lord's dealings with our souls.' Who could wish anything nobler, gentler, more home-loving, upright, truthful and moral in every way than the character of Quaker women as a class? woman to his side in every line of life. 'The woman's cause is man's; they rise or fall together, dwarfed or godlike, bond or free."

### Woman's Enfranchisement.

It is only a little over half a century -not even the space of a man's alloted life-since the first note was struck of the coming enfranchisement of woman. To many-perhaps to most—there appears a world of work to be done before this reform shall be that they cannot vote themselves, and effected, and truly there is much to be yet that they have the power of conaccomplished, even in those countries ferring votes on other people. I wish where the question has been most they had the franchise, for they would powerfully and longest agitated. is, nevertheless, both gratifying and encouraging to know that the whole question of parliamentary rights for women has been carried even in one civilized community, that of New first man who ever spoke in favor of Zealand, Macaulay's famous antitype the enfranchisement of women in our of England. Yet justice hardly perlikewise, giving as a reason that the Parliament was Benjamin Disraeli, and mits one to say that New Zealand is pays taxes and is liable to serve as the next was John Stuart Mill, repre- the first to grant its women parlia- churchwarden and overseer, have a This is a Christian country and its senting the two parties. To my mind politics is just of the Vikings, its first settlers, has enwhich may be more conventionally its own, gave its women propertydone by the people altogether. Per- owners up to a certain amount, £20 per annum, the parliamentary fran- nected therewith, and indeed in the chise, the House of Keys (the Lower reigns of Mary and Elizabeth, ladies of about a revolution in society. In any on as best they could for ages, but House in the Man form of government) fighting manfully under Mr. Richard Sherwood, who had intro-

> question of civil rights. But the first stroke of the libertybell for women was heard when, in United States to the world's anti-slavery convention in London were, after he was regaled with such topics as the discussion and protest, refused seats. Not only did the American ladies return home to call the first woman suffrage convention (at Seneca Falls, arisen with the ruling power in the 1848), when a campaign was opened kitchen. But nowadays we are chang- that will never close until its work is ing all that; for instance, my husband done; but the women of Great Britain, certain of them, as of the American women, were "wrought up to a white stone, but we do not lose our tempers, heat" by this arbitrary action of the anti-slavery convention, and work for woman suffrage was begun in Great vincial elections are at hand. we in talking over the state of the Britain and Ireland. Not, indeed, country, and he says, Why, this is the that that moment heard the first way men talk at the club!' and I know vibration of the chord of equal it is far better for him to be at home rights—such movements are not voltalking with his wife; far more interest- canic in their origin, and many a previous thought and act had gradually resonance of the full harmony. Here, however, it is not desirable to go back so far, yet it will be seen from some quotations we are able to give of the sake as well as for the sake of the earlier English advocates or speakers

on the subject that the RIGHT AND JUSTICE

was quickly recognized. "In the ferment of opinion which preceded the great Reform Bill (1832), woman's claim to participate in it was successful as administrators, but he never heard," says a writer. "The new time created applied exclusively to male persons, but in the old franchises continuing in force the word 'person' alone is strictly used. This may have Russia, and Maria Theresa, know that been an oversight, or it may have been in the face of what they accomplished that respect for precedent which used it is simply grotesque for Mr. Besant to be an inherent quality in English to try to belittle their achievements. statesmen. But it is curious that the that years of local effort would not ac- It will take a revolution perhaps to first petition ever to our knowledge shunted off the English throne because times. She could see no good reason for the exshine." "If you, my honored friend, If anybody fears that the world will be clusion of women from political rights shall expect when next I meet you to study the history of the Quakers ex- that of the crown, was open to the in-

It is evident from the above that this lady (Mary Smith, of Stanmore, Yorkshire) realized the judicial and logical rights of women as thoroughly as we of these later times. The prayer of the petition was "that every unmarried female possessing the necessary pecuniary qualifications should be entitled to vote for members of Parliament. Why the restriction to the one class of women we are not able to

PREJUDICES OF THE PERIOD with regard to the rights of married women and which even now survive in

The following year Sir Robert Peel, one of the greatest statesmen of his time said, when speaking on an equally new idea, that of the vote by ballot: "The theoretical arguments in favor of did not obey it when it tells us to woman suffrage were at least as strong as those in favor of vote by ballot (which he opposed). There were arguments in favor of extending the franchise to women to which it was no easy matter to find a logical answer. Other and more important duties were allowed to hold property and to vote on many occasions in right of that property; nay, a woman might inherit the throne and perform all the functions of the first office of the state. Why should they not vote for a member of Parliament?"

### And still we are asking

"WHY ?" In 1845, Richard Cobden said at a meeting on free trade: "There are many ladies present I am happy to say. Now, it is a very anomalous fact often make much better use of it than their husbands." On another occasion Mr. Cobden said: "A gentleman asked me to support universal suffrage on the ground of principle, and I said to him, if it is a principle that a man should have a vote because he pays taxes, why should not a widow who

From the above it will be seen that 50 years ago, women who held certain sorts and amounts of property were expected to exert the franchises con- ton. If the enthusiasm holds out, the the manor in their own right sent event it will fix the position of unmembers to Parliament. It is strange to read that the op-

ponents of an extended franchise for men ever should have used that as an argument against the non-enfranchisement of women, yet such was the case. earth's surface where women are almost In 1846, Col. T. Perronet Thompson, on an equal footing with men in the the anti-corn law advocate, wrote: Whenever the popular party can agree upon and bring forward any plan which shall include the equal unmarried women. 2. The Northern Reform Society which takes its stand upon justice, should claim for us at least that we be exempted from the duties, if we are to be denied the rights of citizens."

These are among the initiative expressions of opinion on the great question of woman's enfranchisement, There is much more of equal interest, but space forbids it here. S. A. C.

### Will Support Sir Oliver.

A Well-Known Prohibitionist and Equal Rights Advocate Who Believes in His Administration.

The Rev. Prof. Austin, principal of Alma Methodist College, St. Thomas, who was prominent in the formation of the Prohibition third party, of which Rev. Alex. Sutherland, D.D., was president, and was also a leader in the equal rights movement of a few years ago, announced himself the other day to a representative of the Globe as being heartily in favor of the Mowat Administration at the coming election. Prof. Austin, on the third party organization being succeeded by the Advanced Prohibitionist Association, immediately became identified with that movement, and is the most prominent member of the St. Thomas branch of it. Prof. Austin has been visiting the various conferences in the in terests of Alma College, and is in the city to do the same before the Toron conference, which opens this morning Speaking of the political situation yesterday, Prof. Austin said: "I consider that the temperance electors should give Sir Oliver Mowat an opportunity to carry out the pledge which he has given us. If the Mowat Administration were not sustained their successors would say the Government went to the people on that issue and you didn't support it. We went to Sir Oliver and asked him to do certain things. He undertook to do them, and to be consistent we must support him." Prof. Austin stated that he was taking this view publicly, and in making the above utterance was quite willing to see it published, as he considered it to be unquestionably his duty to take strong ground at this juncture in support of the present Government.

### Bachelor Girls.

age of 30, shall be known as "bachelor girls," and after that age they shall be designated as "bachelor women."

So says the constitution of a unique organization just formed in Washing-Bachelor Girls' Club promises to bring married women, remove the odium attached to that state, and for ever explode the idea that women remain single from necessity - never from choice.

The object of the club can best be told in the words of Miss Kendall, who is its secretary: "The main objects of the club are: 1. To determine and maintain a standing in society of ours. It will mean a confession of A WHOLESALE DISQUALIFICATION OF age, but our theory is that a woman ought to grow more charming down on our calendar. Th is an essential, as we want ev be congenial, and the elec new member must be u Last, but by no means least pendently of a husband." society intends to erect a club house, and after a whi will organize, on a less expe

### Alliance Manifesto.

Ontario Electors Urged to Support Candidates Who Will Support Pledges That Have Been Made Them.

Following is a copy of the manifesto prepared in reference to the impending Provincial elections by the Ontario executive of the Dominion Alliance for the prohibition of the liquor traffic. It is addressed to the electors of the Province of Ontario:

A general Provincial election is close at hand, and the executive committee of the Ontario branch of the Dominion Alliance respectfully and earnestly appeals for wise united action on the part of all who deplore the evils of intemperance, and desire to see at the earliest possible date the enactment of effective legislation to the full limit of the ascertained power of the Provincial Legislature for the suppression of the traffic through the operation of which those evils exist.

At no time in the history of our Province was there as favorable an opportunity for the working out of the principles which we have frequently affirmed, and never was there before placed on Prohibitionists a heavier responsibility in relation to the prohibition question, which is to-day the most important issue before the electorate.

In many meetings and conventions there have been made strong declarations as to the duty of temperance men to make partisanship subservient to principle, and vote, in every election, so as to make their ballots tell effectively for the promotion of this great reform. The time has come for action in harmony with these declarations.

The events which have given the prohibition movement the prominence which it occupies in the present electoral contest may be briefly summarized as follows:

The Legislative Assembly of the Province of Ontario at its session in 1893, in response to a great many petitions, enacted a measure providing for the taking of a vote of the electorate on the question of immediate total prohibition to the full extent of the urisdiction of the Legislative Assembly and the Dominion Parliament respectively.

The vote was taken on Jan. 1, and resulted in a majority of 81,769 in favor of prohibition. Following up this voting a great representative prohibition convention was held in Toconto on Feb. 6. This convention adopted the following resolution:

That a deputation be appointed to wait upon the Ontario Government and respectfully request them to declare in favor of the total prohibition of the traffic in intoxicating liquor to the full extent of the power vested in the Legislature.

laid the request of the convention before the Attorney-General and his Cabinet. The Attorney-General gave the deputation, in writing, the follow-

ing reply: "If the decision of the Privy Council should be that the Province has the jurisdiction to pass a prohibitory liquor law as respects the sale of intoxicating liquor, I will introduce such a bill in the following session, if I am then at the head of the Government.

"If the decision of the Privy Council is that the Province has jurisdiction to pass only a partial prohibitory liquor law, I will introduce such a prohibitory bill as the decision will warrant, unless the partial prohibitory power is so limited as to be ineffective from a temperance standpoint."

This declaration was hailed with much pleasure by the friends of the prohibition cause.

The question of jurisdiction has been submitted to the Supreme Court by the joint action of the Provincial and Dominion Governments, and in ital employed, wages paid and value of blessed." reference to it a final authoritative decision is expected. The Legislature about to be elected will therefore have to deal immediately with the question a marked decline in the number of esof direct prohibition legislation to the tablishments engaged. limit of its authority as demanded by the electorate.

Although the Government is thus definitely pledged to carry out, as far as in its power, the demand of the people for prohibition, it is clear that their doing so must largely depend favorable to the unconditional fulfillment of that promise, ready to carry ut the expressed will of the people, ad believing in the principle of pro-

t is therefore manifestly the duty of Pibitionists to support in the apthing contest only such candi-dat as will co-operate in the carrying the pledge that has thus been

United States National Wealth

[From Youth's Companion, Boston.] The steady progress of our country and our people in wealth, notwithstanding periods of comparative depression and of general discontent, is brought out clearly in a series of reports derived from the researches of by the Government,

One report presents the true value of all real and personal property in the United States, exclusive of Alaska. From this it appears that the total value in 1890 was \$65,000,000,000, against \$43,000,000,000 in 1880, an increase of nearly one-half in ten years.

Were all the property evenly divided among all the people, there would have been \$1,039 worth for each one in 1890, against \$870 worth in 1880. lieve, is founded on an interpretation had four daughters, virgins, which did impecunious young woman in the This is an increase of a little less than one-fifth.

Put in another form, the average addition to the value of each person's property in ten years was \$169, or nearly \$17 a year. Of course we all understand that the property of the country is not distributed evenly, nor have all the people made an increase of wealth during the period of ten years. The census takes note only of aggregates and averages.

We must remember this again when we come to examine the figures which show the average and total wealth of each geographical division of the country. The census can tell us how much all the property in Michigan is worth; but it cannot tell what part of its copper mines are owned in New England, or how much of its railroad property is owned in New York.

The geographical division which possesses the greatest body of wealth, real and personal, is that officially called the North Central, which begins with Ohio and extends westward to the foot of the Rocky Mountains. This section possesses more than \$25,000, 000,000 of total wealth, against \$21,-000,000,000 for the North Atlantic division, usually called "the East."

In wealth per capita these two geographical divisions are nearly equal. The average for 1890 was for each not far from \$1,200.

But the richest section—supposing all the property to be owned by the The deputation was appointed, and people residing within it-is the western division, stretching from Wyoming to the Pacific Ocean. It possesses an average wealth of more than \$2,000 to each person. The wealth of Nevada, equally divided among all its people, would give them about \$4,000 each.

On the other hand, the two Southern divisions are the poorest of all, having right, thou shalt surely give them signed to men and women with severe property to the value of less than \$600 to a person, and a division of all the property of South Carolina among its people would not yield \$350 to each.

This represents a great change since 1860, when the Southern States averaged greater wealth per capita than those of the North and West. Then the Western States, too, averaged poorer than the East, whereas now the reverse is the case.

Another tendency with regard to property is shown in the statistics of the leading manufacturing industries just made public. As a rule, the industries show a great advance in capproduct from 1880 to 1890; a smaller proportion of increase in the number of employes, and in a great many cases

This seems to show that while the ndustries have been growing greater and richer, they have been concentrat. ing in fewer hands.

By far the greatest item in our national wealth is still, as it has always been, real estate—land and the imupon the co-operation of a Legislature provements upon it. This item comprises nearly two-thirds of the whole. Of the real estate valuation, just about one-third was for farm lands, including | Israel to battle, without whose presfences and buildings, but not including ence the captain would not face the that she is censured. She may prove live stock, farm implements and machinery.

All these items showed an increase of from one-fifth to nearly one-half in ten years; though in that time the value of farm products increased but little more than one-tenth. The farming business has expanded in a much larger measure than its profits have

Money saved and pain relieved by the leading household remedy, Dr. Thomas' Eclectric Oil-a small quantity of which usually suffices to cure a cough, heal a sore, cut, bruise or sprain, relieve lumbago, rheumatism, neuralgia, excoriated nipples, or inflamed breast.

PERSIFLAGE OVER THE BABY .-"I'm going to call my baby Charles," said the author, "after Lamb because he is such a dear little lamb."

"O, I'd call him William Dean," said the friend, "he Howells so much."

# "Women's Rights" and the Bible.

It was on ceremarked by an unscrupulous foreigner that when potatoes were first introduced into England the people declined to eat them because wisely exercise their electoral power at they were not mentioned in the Bible. the present crisis, so as to insure the A very large number of people who are triumph of the principle so overwhelm- fairly thoughtful, often decline to thoroughly examine a question on its own merits, or the social advantages accruing from its adoption. We cannot doubt that too many such people and to others too, the following view of the question known as "Women's Rights" (preferably Women's DUTIES) will be of interest. Our correspondent says:

In your issue of August 6, you notice the recent action of the Rev. E. Husband, vicar of St. Michael's Folkestone, who intended to withdraw the eleventh census, lately published from the church congress because a lady was announced to address it. Although I entirely differ from the voice (Gen. xxi., 2) and thou shalt call reverend gentleman as to the validity her name Sarah'" (which means my department in the meanwhile? Are of his reason for the proposed action, lady or princess), whereas in his the young men of the age so uniformly in public assemblies is one shared by neither male nor female, neither bond woman's college or a factoryful of a great many really good men and nor tree," and it is recorded (Acts xxi.- young women, simply on the chance women throughout the empire, and therefore worthy of consideration and discussion. Their conviction, I be. the evangelist (one of the seven), who antee? We cannot well set up every once given to a very few passages of prophesy." Scripture (chiefly St. Paul's fourteenth chapter first Corinthians) without due reference to their context or the circumstances under which they were written, and since his time taken for granted.

If you can afford me so much of your valuable space, I should be glad | markable words, "The kingdom of to submit to your readers what I have God shall not come until two shall be so far been able to gather from the as one, and the man as the woman." Bible and the New Testament with reference to the rights, duties and position of women, and the interpretation which, in a spirit of great reverence and with an earnest desire to find the truth, I am able to put upon it.

To begin with the Old Testament. Eve was of course a helpmeet, not a slave, and in the history of creation was the culminating work, none of the lower creatures being found a helpmeet (suitable) for Adam, and dominion over them was given to Adam and Eve jointly. In the 27th chapter record we have of a "Woman's Rights Association." In relation to property the inheritance was theirs, and if there own dinners. A woman, they urge, is or cousins of the deceased. The ac- own bread; but the farther question why should the name of our father be have decreed that she should live withdone away from among his family be. out it, or that someone should always cause he hath no son?" and Moses stand ready to provide it for her. If brought their cause before Jehovah! this is the theory, it is evident that sotheir father's brethren, and thou shalt cause the inheritance of their father to nothing than if they were Coxey's inpass unto them." So you see the first dustrial army; the conductor of the recorded appeal for woman's rights could not have been more successful, since Jehovah himself asserted the its doors, "Women half price." Their justice of the claim.

Then the description in the book of Proverbs of a virtuous woman is really and they must therefore pay; they of a wife who manages and gives laws to the whole family. "She riseth early in the morning and gives law to her whole house."

"Her husband is known in the

"Her children rise up and call her "She considereth a field and buyeth

"She perceiveth that her merchandize is good and delivereth girdles to the merchant."

"She OPENETH HER MOUTH WITH wisdom."

"Give her of the fruit of her hands and let HER OWN WORKS praise her in the gates." Surely this is the discription of a woman able and worthy to make

enemy, and whose husband, Lapidoth, would never have been heard of be-

ship to her. The record in the first and second appears to me the most significant and conclusive. It is of Christ's first ap-DAUGHTERS shall prophesy."

chapter First Corinthians) says, triously employed takes the place of not been translated into German." He driven from the body.

churches, and if they wish to learn anything ask their husbands at home," but that they should be witnesses and prophesy. This the Quakers have

always fully and practically recognized. I have often wondered at the apparent inconsistency of St. Paul's limitations about women in spite of the much light is thrown upon it when we remember his very natural dread that any practices of his Christian converts among women should appear in any way similar to those of heathen priestesses and their frenzied discourses.

When St. Paul in his advice to wives reminds us how "Sarah obeyed Abraham, calling him Lord," he made no mention of the not less inspired words "and the angel of the Lord said unto Abraham, 'In all that Sarah thy wife saith unto thee, hearken unto her

It required the help of Priscilla as well as Aquila to fit Apollos for his great work of teaching when they took him and expounded unto him the way of God more perfectly (Acts xviii., 26). fathers has left on record these re-

I will conclude with the new rendering of the 4th verse of the lxviii Psalm, which in the old version ran, "The Lord gave the word, great was the company of those that published it," but the learned translators found that the original text was "The Lord giveth the word; the WOMEN that publish the tidings are a great host !"

E. F. BEHRENS.

Concerning the Value of a Dinner. Lord Byron hated, it is said, to dine with women. If they set themselves count to which I refer is of Zelophhad, how she is to live without bread, and high priest, and all the princes of the uncertainty. Surely, if nature incongregation, saying, "Our father died | tended that a woman should not earn in the wilderness and had no sons, her dinner, nature should also either And Jehovah spake unto Moses saying: ciety is grossly one-sided. All the or-"The daughters of Zelophehad speak dinary expenses of life are plainly aspossession of an inheritance among impartiality. Women can be no more transported from place to place for electric car holds out his merciless palm and no bakeshop announces over tea, their beefsteak, their potatoes, know no Salique law; women must eat, must pay, and therefore must commonly earn. They may be very elevated beings, full of aspiration and imagination, but "faith asks her daily bread and fancy must be fed."

Accordingly, as a matter of fact, they are permitted, all the world over, to work hard for food and shelter so long as they are willing to work at disadvantage and are not paid too well. Even where their faces are veiled they may still grind at the mill, but at low prices. The same distinction prevails in Christian lands; witness that school committee report which said, "Since this office involves neither honor nor profit we see no reason why it should not be held by a woman." It is the low places that excite no jealousy; a her influence felt and to take part in man is willing to be displaced by a the important movements of her time. woman when it is a question of scrub-Then, again, consider Deborah, the bing floors; nobody complains of it victorious leader of the children of then. "Women should keep silent in the some man! In a poor family it is the brightest and ablest who must maintain the fortunes of the household, Christ himself sent the Holy Spirit and and sex has nothing to do with it. power upon women with the command | Even on the farm the wife's butter and cheese and her summer boarders often bring larger cash returns than the husband's crops, but where a young woman is launched upon the world with only herself to support she has precisely the same number of mouths fulfillment of Joel's prophecy, but to feed as the average young man, earnings must supply it no matter who mark. eats it. If she can displace him in the highest business pursuits is there any reason why she should not? The answer is that if she stays at home and earns nothing somebody will probably marry her. But if her dinner is not provided in the meantime, it is very certain that nobody will marry her, because she will starve while waiting. Who will provide for the commissary I "realize that his conscientious con- epistle to the Galatians iii., 28, Paul self-sacrificing that they will guarantee viction" that women should not speak fully grants "that in Christ there is in advance the dinners of a whole 8-9) that "at Cæsarea Paul and his of marrying some one of them herecompany abode in the house of Philip after? If not, who is to give the guarpublic park, with the label appended:

"Marry me! I am starving."

The more we think of it the more

plain it becomes that except for the much-denounced "capitalists" and the favored pets of fortune the direct way And one of the earliest of the to get a dinner is to earn it. Sex makes no difference in this respect. Napoleon said that there should be a free field for talents; and so long as the world is carried on by competition each must be left free to compete. Wherever a woman can do anything for an honest living she must find no obstruction in doing it. If the man at her elbow can do it better she will have to give way; there is no doubt about that; she has been doing it for many centuries. If he can do the work precisely as well it will be practically shared te ween them; if he does it less well he must stand aside. It is very important in this world, first that every piece of work should be done by the competent, not by the in- heels. They had a good run before of Numbers there is a very notable up for angels, he thought, let them live competent; and second, that those who the thief could dodge the pursuer. account of what is perhaps the earliest accordingly. ammary of the arrangements which re being made towards exploring the ands of the Antarctic Circle. They re, that the proposed English expedition has received the support of the Challenger's geographer, Dr. John Murray, and also of Admiral Sir Erastus Ommaney, and that the "Prensa" of Buenos Ayres announces that a Norwegian ship has made important discoveries near Graham Land. This is an outpost of that vast region in most instances now the young men which bears no trace of land flora or are required to sign a pledge of total fauna. By some narrow avenues or entrance through the apparently unbroken ice-wall guarding the region, Dr. Murray hopes to force his way to the land-mass which he claims is not simply means totel-abstinence for the less than 4,000,000 miles in area, and having mountain ranges whose peaks tower from 2,000 to 10,000 feet high. An ice sheet covers all the land and extends out into the sea, where it finally ends in the before-mentioned steep and impenetrable cliffs. This is the reason why Victoria, Graham, Enderby, and all the other lands discovered about the Antarctic Circle have not been explored. In lands within the Arctic Circle, and up to the 82nd parallel of latitude, there are found flowers and butterflies, but in the Antarctic region, owing to its low summer temperature, there is no trace of land vegetation or animal life. On the contrary, in the Antarctic seas, so says Dr. Murray, the fauna "is apparently more abundant and more peculiar than that of any region on the ocean's bed." It was in this service, rather than in land exploration, that the Challenger expedition was a success, for "the great bone bed of the world, lies on the floor of the Antarctic Ocean. In one haul the trawl of the Challenger brought up, besides many other bones, more than 1,500 giant sharks' teeth. In addition to new facts relative to land and sea, another service which further exploration might accomplish strong in South Huron, but unfortuin the South Pole region would be in clearing up the ignorance about the origin and distribution of Antarctic drift-ice, and of atmospheric pressure terests have united to a man against in those high latitudes. Modern im- Mr. McLean on account of his temprovements in sledge traveling, collapsible boats, and other paraphernalia may in time do as much to familiarize us with the Antarctic as with the Arctic region.

# Progress in England.

In England the attempt is now becoming general to reduce the number of licensed liquor houses. Not only is the Church of England Temperance Society's bill now before the country limiting the number by more than onehalf, but the Government local veto measure, to enable any locality to outlaw them altogether, is now also "practical politics." The various local corporations are also working practically in the same direction. The Metropolitan Board of Works, within the last seventeen years, has acquired 158 public houses, at an enormous cost, and of these 108 have been closed as licensed places. The London county council, with a larger number of persons in its jurisdiction than is in the Province of Ontario, has in two or three years acquired twenty licenses at an expense of \$130,000, and closed them all. Even at that great financial loss the leading members of the taxpayers are gaining more by closing can be got out of them for that pur-

# The Logic of Facts.

Whatever mere theorists may see fit to argue about moderate drinking as "true temperance," and however well it may suit the purpose and fancy of some ministers and other leading men, yet to talk about "setting a good example by a moderate use, and not the change of opinion was in Wyoming a abuse," of alcoholics of some kind, the hard-headed men of practical business affairs, with large actual experience, have been well convinced by the logic of facts that even moderate drinkers had better be avoided.

The life insurance companies are now nearly all conducted on the safest and surest business principles, and there is scarcely one of them left that does not now greatly prefer a risk on a total abstainer to a moderate drinker, while a good number are refusing all but total abstainers. It is not "mere sentiment" with them. Their business experience has domonstrated that such live longer, have tic management. better health, and are much less sub-

ject to accidents. The railway companies of the county are also conducted on hard-headed business principles, paying little heed to mere sentimentalism. Years ago began to be the rule to drop off all has cured many when supposed to be done? It is in a child's eyes that one common people, and is heard in the who were in the habit of getting drunk. far advanced in consumption,

We use the New York Outlook's Now the rule on all the leading and best conducted roads is not to employ any person who is in the habit of drinking at all. That rule has been found to be safest and best by actual experience. To-day a young man who applies for an important position on the Grand Trunk or Canadian Pacific is likely to be ruled out at once if it is known that he drinks moderately, even if in so doing he may follow the example of his own minister. Total abstainers are selected as a rule, and abstinence before they are employed at all. Theorists may argue as they like about "true temperance," but the successful men of affairs know that entire abstinence is best. Prohibition entire people. Practical experience will demonstrate that it is the wisest

The Contest in South Huron.

Our temperance friends in South Huron are deeply interested in the contest now in progress in that riding. One of the candidates, Mr. M. T. Mc-Lean, is the editor of that well-known excellent newspaper, the Huron Expositor, a journal which has always advocated every moral reform, and is always ready to denounce evil of every kind. The columns of the Expositor have always been open to advocate the cause of temperance. In fact, so tearless has Mr. McLean always been, that during the Scott Act agitation in Huron a few years ago an attempt was made to burn one of his buildings in Seaforth. Personally Mr. McLean is strongly in favor of prohibition, and has stated that he will spare no effort the following resolution. to promote the will of the electorate as expressed by the plebiscite last January. This is one of the few ridings in Ontario where the contest lies entirely between temperance on one side and free whisky on the other. Although Mr. McLean is the Liberal candidate, he has pledged himself to place prohibition before party every time. Such men as Mr. McLean are untortunately too few in Parliament. The temperance sentiment has always been nately some who are loud in their professions at other times seem ready to forget that their sincerity is now on trial. The liquor inperance principles, and are expressing the hope that, with the assistance of a few weak-kneed temperance electors, who in the hours of an election contest forget their principles, they may succeed. The defeat of Mr. McLean in South Huron would be a severe blow to the cause of temperance.

It is stated that the Conservative candidate, Mr. Wiesmiller, has given the tavern-keepers a written pledge, which they are now exhibiting where it will assist them, in which he faithfully promises to vote against temperance measures. The same questions were submitted to Mr. McLean and he tion which waited upon him that he had always advocated the temperance cause, and that nothing would tempt him now to make any concessions to catch the liquor vote. In the face of such faithfulness to principle how can any consistent temperance man vote against Mr. McLean? They simply cannot if they are consistent. The electors of South Huron can rest assured that many outsiders will watch their action on the 26th.

# Chauncey Depew a Convert.

Mr. Chauncey M. Depew, the able American business man and aftercouncil, like Lord Rosebery, delight to dinner speaker, has signed a petition make boast of the fact, feeling that the favoring woman suffrage. When he was asked if he had always been in the places as liquor shops than they favor of women voting he said: "Well, are losing in the shape of revenue that I think I must be content to be in the light of a convert. I have seen the error of my ways. That is, I think that times have changed. Woman herself is different in some respects from what | she used to be. She owns a large amount of property, upon which she is taxed. She has become a great industrial factor. She has a right to say how she shall be taxed, and under what laws she shall conduct her business. I think the beginning of my few years ago. I was traveling through the State and met a great many prominent men. I asked them about the workings of woman suffrage, and heard nothing but praise for it. I found out that my old ideas about all the horrible things that would happen to the home were unfounded. I think that woman has a right to the suffrage, and that giving it to her will do good rather than harm; so I signed the petition.

> SORRY HE SPOKE. - "Well, why don't you say that you wish you were a man?" asked Mr. Potts during the little discussion he was having with his ment, into the simplest home pleasspouse about some matters of domes- ures.

"Because I don't wish anything of the sort," see retorted. "I only wish you were one."

### The Plebiscites.

(From the Vanguard for May.) Full returns have now been received of the voting of the different Provinces. The result is an indorsation of the principle of prohibition to a greater extent than was anticipated by even the Prohibitionists. In every case very large majorities were polled. As our readers know, the voting had no immediate legislative effect, being simply a declaration by ballot, of the electors, of their favor for or disapproval of the total prohibition of the manufacture, importation and sale of intoxicating liquor. The dates of voting were: Manitoba, July 23, 1892; Prince Edward Island, Dec. 14, 1893; Ontario, Jan. 1, 1894; Nova Scotia, March 15, 1893.

The votes polled for and against

	prohibition are	as follow	WS:

### Mr. Gladstone's Religion.

Canon Scott-Holland, the popular preacher at St. Paul's, contributes to his eyes and ears open, and saw and Goodwill, London, a sketch of the recent Prime Minister of England, in which he says: William Ewart Gladstone is the last of the "old men," the last of the earlier generation, of the great heroic breed. Carlyle, Browning, Tennyson, have passed away; and now the only survivor is preparing to depart. "There were giants in those days." They were cast in a large mould. We feel very small now. And refused every effort made to induce the new names do not ring in our ears him to compromise, telling the deputa- with trumpet-tones, nor carry with them grand histories. The old order passes, it is drawing to a close; we feel chilly, and forlorn, and deserted.

The old man goes. And yet, if we were to sum up, in one word, the full impression of Mr. Gladstone's character and presence, it would not be his age that we should speak of. Rather, we should say that he carries with him, in spite of his years, the fresh simplicity of a child. He wins us still, as a child wins us, by his guilelessness.

Never was any child more transpardoubt, he is subtle and skillful in

parrying inconvenient inquiries. But in moral character every mood and impression is visible. His tace, his remarks by saying, not unkindly, in its quick changes, tells the whole but rather in a tone of half-contemptstory; he suspects nobody, conceals uous pity for a man with strangely nothing; he shows you the whole man little knowledge, but who should not in plain daylight. He does not seem be blamed for the defects of his eduto know what guile is. And, again, cation: his total unworldliness is the temper of a child. "The world" has singularly crutter!" failed to touch him. All his judgments on men are perfectly simple, spontaneous, plain. Out they come without a suspicion of being colored by afterself-consciousness.

Perhaps it is the child, too, in him, which gives him his amazing power of giving himself up wholly to one thing at a time. He is absorbed; for the moment you would think that there was nothing else in the world that he had ever cared for or thought about, except just that one thing that happens itself over to a single interest.

Certainly it is the child in him which throws itself, with such complete enjoy-

Anything will satisfy him; he asks for nothing but the plainest bill of fare. A walk, a picnic, a family expedition, these are real events into which he puts all his heart. All the little do-The great lung healer is found in mestic fun that grows out of such things is thoroughly in his vein.

And his seriousness, his earnestness,

man's face.

And his religion—so deep, so pervading, so obvious, so instinctive in him-seems to go back, far behind all the man's questions and perplexities. It is utterly undisturbed. It springs out of the natural convictions of the this is corrected in accordance with the heart, with that simplicity and directness which belong to those who have never traveled far from God.

It is not the religiousness to which a man has fought his way by desperate practically lost 500 years before their struggles; but rather the religiousness which would be our natural habit, if only we had kept our first freshness.

An old, old man, with a child's heart—that is what he is; and for this, all England, of whatever party, will say, "God bless him."-[Condensed for the Literary Digest.

### Not a Woodsman.

James Russell Lowell was, as every lover of his poems knows, a close and recurring seasons, and the sweet cycle of the flowers, is no less evident. He jokes happily over the pigs and poultry of his Elmwood home; he marks their progress and celebrates their perfections, while of his early peas he declared with humorous envy: "I wish I Twelve thousand four hundred and could be planted every year and come up so fresh!"

Birds seem to have been his favorites. "I am turned contractor of hammock-netting for the orioles, taking my pay in notes," he wrote to a friend. "I throw strings out of the window, and they snap them up at once. They sit in the cherry-tree hard by and warble, 'Hurry up! hurry up!' I never found out before just what they said, but if you listen you will find that this is what they first say. A vulgarism, I admit, but native!"

He characterized a cricket under persons, however, who express confi- disagreed with him for supper, or written some verses that folks didn't in favor of prohibition in all of these like. It has just begun to rain on him, places. It is, no doubt, absolutely and I'm glad of it. I hope he'll get a thorough ducking, but all the waters in heaven can't wash the nonsense out of a poet, as he is."

But the great poet's natural history had its limits. The familiar vegetation of country grove and field, the birds that haunted his own elms and orchard, he knew well; but when he ventured

He spent some weeks one summer with a party of friends among the Adirondacks. While there he kept heard much-far more than ordinary likely to see and hear. But he was brought into contact with men who saw, heard and understood more of woodland ways than he did; and their opinion of his powers was not wholly complimentary.

A friend of Mr. Lowell's, traveling in the same region some years after, fell in with a guide, an expert in woodcraft from his boyhood, whose conversation made this fact plain. Mr. Lowell's name was first introduced by the old woodsman, who, learning that his new acquaintance lived near Boston, inquired:

"Know anybody there by the name

of Jim Lowell?" The gentleman was about to reply that he did not, but remembered in time that he was acquainted with a Lowell whose Christian name could be rendered Jim by any person venturous enough to attempt such a feat. He therefore replied that he did. At once ently open to all the influences that the guide began to pour forth copious cross his path. Intellectually, no reminiscences of Mr. Lowell, the point to most of which was the poet's inlogical refinements, and wonderful in comprehensible failure to understand or notice some common object or phenomenon of the forest. He concluded

"Fact is, he's a durned ignorant

This opinion Mr. Lowell's friend had afterward the pleasure of reporting to Mr. Lowell himself; but he perceived with some amusement that the thoughts. They are quite fresh and poet, though he enjoyed the humor of untainted, and free from every hint of the anecdote, was none the less a little piqued at the slur cast upon his woodcraft.

# Hebrew Resurrected.

Probably one of the strangest facts in the history of language is the resurrection of the Hebrew to life and ac- that the best energies of our best men tivity as the language of a people and should be put forth in an earnest mana country, after its death, which oc- ner in the interests of the Canadian to engage his attention. So a child, in curred 2,250 years ago. The Jews who people. its simple kind-heartedness, can give returned from the exile were a small people and they were compelled to learn and employ the Aramic, the language of the country, so that the Hebrew was disused, excepting by the priests, as the Latin now is by the Catholics. But the language was preserved in the Old Testament Scriptures, and it was taught that the Scriptures might be understood, and this has been continued till the present day. Now the Jews are returning to Palestine from Russia, Poland, Germany, Italy, Spain and other countries, and cannot understand each other in

which is so characteristic of this old | The Hebrews of Palestine employ it exclusively in their families, so that it has become again the mother tongue. In Jerusalem it died and in the same | by. city after so many centuries it has come to life again. As was to be expected, the pronunciation varies, but Arabic and other Semitic dialects. There is something marvelous in this restoration of, not only the people, but the language which they had dispersion.

### Some National Dangers.

Abraham Lincoln, nearly 30 years ago, foresaw some of the serious evils which now menace the United States, and which may yet work more harm to the nation than even the great rebellion that occurred in his day. On one occasion he said:

"I see in the near future a crisis apaccurate observer of nature. In his proaching that nearly unnerves me and recently published correspondence his causes me to tremble for the future of delight in birds and blossoms, in the our country. As a result of the war corporations have been enthroned, and an era of corruption in high places will follow, and the money power will endeavor to prolong its reign by working on the prejudices of the people till all wealth is aggregated in a few plied, "Pleasure walked ever by my hands, and the republic is destroyed." side.

That crisis has now well-nigh culminated. While there are to-day great armies of tramps and unemployed, and over one-third of the entire people of the nation are without homes or lands of their own, a considerable number of millionaires have have also the companionship of Pleassprung up, and large corporations are ure." monopolizing nearly every branch of business, crushing down all small competitors. It is said there are now in the United States over 4,000 men and women who count their wealth by millions, and some of them are now becoming the wealthiest people in the world. One-fourth of the entire wealth of the country is in the hands and under the control of this handful.

On the other hand, for every thousand millionaires there are over a million people landless and homeless, and such an army of tramps and medicants is rising up such as there is in no other country. This disproportion between the rich and the poor is growing greater every year. A crisis must surely come, and it begins to look as though it was very near at hand.

The "corruption in high places," such as Lincoln foresaw with trembling, is something deplorable to-day. The Senate at Washington is said to have become largely a body of wealthy monopolists, even to a greater extent than the House of Lords in England, persons, not poets, would have been and numbers of the senators are now charged with making themselves wealthy out of changes brought about by their own legislation in the tariff, currency legislation, and other ways. In New York, Chicago, and other great cities, even the municipal officials have gorged themselves and fattened on plunder. Several have been sent to prison, but the evils are apparently growing worse and worse.

That the money power is being successful in its "endeavor to prolong its reign" is now being well demonstrated in the great struggle for tariff revision. Nearly three years have passed since the majority of the nation gave its verdict against the present high protec tion tariff, and almost two years since the protective party was totally defeated and a party professing free trade principles was elected to power, but "the money power," whose interests are best served by that system, has as yet prevented any change in these laws. Whether any tariff changes will be effected at all at Washington seems to become every day more doubtful. The money power has the nation by the throat, and whether it will relinquish its grasp until it and the nation are in a death struggle remains to be seen. No events in the late great civil war seemed more ominous to the very existence of the nation, as a republic at least, than the events of to-day.

Canadians may well take lesson by these events. With us powerfel corporations are being enthroned, such as may well cause us more serious apprehensions than they have. We have had an era of corruption in high places truly disgraceful to the country, and the worst feature of it is that the masses of the electors have shown but poor inclination to drive parties implicated from place and power. With us the money power is making great and successful efforts to prolong its reign, while the thousands are its victims in some way. Surely the times require

A GARMENT THAT IS ORNAMENTAL AND USEFUL

How the Patient May Be "Dressed" and Yet Not Tire the Invalid by Much Dressing-The Wrap and Full Details of How

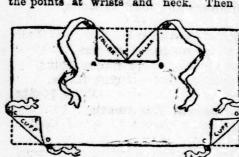

The invalid's wrap pictured in the accompanying illustration is quite as ornamental as it is useful. It is designed as a light wrap to be thrown over the nightdress when the temperature of the room falls a little below the proper point, or it aan be put on when the invalid is to receive a caller and wishes to look a bit "dressed up." It is very easily adjusted, and that is one of its recommendations, and as its color can be chosen to suit the especial one to wear it, it can be made a very becoming wrap, indeed. Everyone who has had the misfortune to be an invalid for ever so short a period knows the delight to be "dressed" and look like other

ENVALID WRAP COMPLETE.

people. When the dressing must needs be of the very simplest kind possible to suit the poor little strength of the sick body, the very lifting of whose hands is a great pain and weariness, a wrap that almost puts itself on is a bonanza truly. The wrap shown in the picture very nearly comes under that head. The hands have only to be slipped in at the wrists, and the work is over. The dear patient is "dressed" then, to be sure, and a glimpse of herself in a glass will be very likely to add to her pleasure. The little garment is rather nondescript at first sight, before it is put on, but once adjusted it assumes a very graceful, attractive comeliness.

The materials required are a piece of delicate-tinted flannel one and a half yards long and three-quarters of a yard wide, about three yards of inch-wide ribbon to match the flannel, silk of the same color for the feather stitching, and split zephyr worsted for the crocheted edge all round it. The flannel, of the dimensions named, is entirely unshaped, save that, in the centre of one side, it is cut down about six inches, and the sides turned over, making two little points four inches deep. These points, a and b, form the neck and collar. The lower corners of the flannel strip are also turned over in two little points, which make the cuffs and wrists, when the points c and d in the diagram are joined with ribbon ties. At the point k a small box-plait about three-quarters of an inch wide is laid over, to draw in and shape the neck, but this is not done until the finishing touches are put to the garment, and it is all done in every other respect. As for the finishing touches themselves, they consist merely of a line of silken feather. stitching close to the edge (which of course is turned in), and extending all round the four sides of the flannel, and also round the points at wrists and neck. Then a

DIAGRAM, SHOWING FOLDS FOR CUFFS AND COLLAR.

tiny edging of worsted is crocheted all round, wherever the feather-stitching goes. It may be narrow or broad, but a row of tiny holes and little shells of seven stitches each, above it, are sufficient to be very pretty and dainty, and will doubtless be work enough, considering all the distance to be gone over. The ties at the throat and wrists are of

satin ribbon, to match the garment, which in this case is of a delicate blue color, though any preferred tint may be chosen. The simplicity and oddity of this bit of a "sick" wrap recommend it to the artistic

eye, and its comfortableness and ease of donning recommend it warmly to the invalid who may wear it .- Annie Hamilton Donnell, in Country Gentleman.

The Laundry Cupboard.

Etiquette for Widows. A widow ought not to entertain withis the year of her bereavement. A CUP OF TEA.

How to Make It and How to Serve It on

State Occasions. The old saying, "The cup that cheers, but not inebriates," which has been re-peated in season and out until it has become a dull platitude, must now be relegated entirely to the past, with its deli-cate blushing maidens and prim and ancient spinsters. Old maids are no more, and the gay girl bachelor flavors the cheering cup with whatsoever beverage she likes best. Not that it has ever been known to exert any disquieting influences. Still it has possibilities of a distinctly bohemian tendency.

"Shall I give you just a wee drop?" "Oh, you needn't trouble to measure

"I wouldn't give anything for a cup of tea without a little rum in it. There was a bevy of bright women gathered in the large light room. In one corner the first speaker, an artist, had made a little nook for herself just at one side of the great fireplace, where, dressed in a soft silk Japanese costume, she made little housewifely trips from the kettle hanging over the bright coals to the little table from whence she dis-pensed the steaming beverage in the daintiest of Japanese cups. The second speaker was a charming matron, a literary woman with a successful book out, and the maker of the third somewhat startling remark was also a literary woman, tall and stately, blond and beautiful, The "wee drop" was in a small bottle by the side of the artist and took upon itself no undue prominence.

That was one pretty tea, and it shows the tendency of the times. But there are teas and teas. The little black bottle is not by any means a necessary accompaniment, and pretty and dainty accessories are. The idea of the prettiest seen this winter involved from a green and white tea cozy. The cozy is not very frequently to be found at the 5 o'clock tea table, often for lack of room, but it is an æsthetical and practical improvement.

The sides of this one were of white linen, sprayed with maidenhair fern and embroidered in wash silk. Sewed around the curve of each of the two sides were rings, buttonholed with white, and through them narrow white ribbon was laced back and forth over a puffing of light green silk. The effect was exceptionally dainty and fresh. Following this came a teacloth of plain white linen with similar sprays of the fern. They can be bought for \$10, but the material hardly costs an eighth of that sum. Green is the predominating color in the newest designs in china this year, and a tea set shaped like those of our grandmother's days, low and oblong square, with green and gold decorations and here and there a pink rose, is quaintly pretty enough for a queen.

There is an old fashioned tea caddy exactly the shape of our grandmother's with a cover holding just a drawing of tea for one person. It is in the same colors in the old imperial ware copied from the Dresden, with a Watteau decoration. There are the prettiest little cups imaginable, with designs of the maiden-hair, but every one has cups and of all shapes and patterns. There is an endless variety to be bought, and at all prices. The most exquisite are of the first empire design, with phine Bonaparte. Mme. de Stael and other first empire celebrities adorning the sides. In shape they are tall, like the choeolate cups, but at the price, \$9 apiece, no one would hesitate to take either tea or coffee from them.

In viands for the tea table there is but little variety, but the owner of the green and white table has made an innovation. She has a loaf of bread steamed instead of baked until it is thoroughly done. Slices are cut of waferlike thickness, made into sandwiches, with a delicious pate de foi gras filling, then rolledthe bread being a little tougher than when baked-and tied with a narrow green ribbon that exactly matches the rest of the

Those ideas could be carried out in other colors, for there are charming tea sets with dull gold edge and a border of blue forgetmenots that would give the motif for a blue tea table and still others—though not so pretty-strewn with violets. There are odd little tea sets in pink, heart shaped, and the handles forming a figure five. With them are cups and saucers to match. and in the centre of each saucer is the face of a clock with hands pointing to 5. They are curious-yes, and pretty-but curiosities are not always in good taste and soon become wearisome.—M. A. Taft in Mirror and Farmer.

California and Mexico. The Wabash Railway has now on sale winter tourist tickets at the lowest rates over made to Old Mexico and California. These rates are available for the winter

fair at San Francisco. The banner route is the great trunk line that passes through six States of the Union, and has the most superb and magnificent trains in America. A Wonderful Cure.-Mr. David tion.) Oxalic acid injures the color of Smith, Coe Hill, Ont., writes: "For the some blue and like prints, but does not benefit of others I wish to say a few words about Northrop & Lyman's VEGE-TABLE DISCOVERY. About a year ago I took a very severe cough, had a virulent but slight effect on the ink, and the same sore on my lips, was bad with dyspepsia, effect on the colors of prints that we noalmost every conceivable remedy, outwardly and inwardly, to cure the sore but all to no purpose. I had often thought of trying Northrop & Lyman's VEGETABLE DISthan with exalic acid, the spot when af covery, so I got a bottle and when I had used about one half the sore showed evident signs of healing. By the time that bottle was done it had about disappeared and my general health was improving fast. that had passed many times through the I was always of a very bilious habit and wash and remained as a drab colored stain had used quinine and lemon juice with removed all but its outline, and this out very little affect. But since using three bottles of the VEGETABLE DISCOVERY the biliousness is entirely gone and my general health is excellent. I am 60 years old. Parties using it should continue it for some time after they think they are cured. It is by far the best health restorer I know." 3

### THE SUNDAY SCHOOL

LESSON XIII, SECOND QUARTER, IN-TERNATIONAL SERIES, JUNE 24.

A Comprehensive Review of the Lessons of the Second Quarter-Golden Text, Deut, xxxii, 9-Commentary by the Rev. D. M.

Lesson I.—Jacob's Prevailing Prayer (Gen. xxxii, 9-12; xxiv, 30). Golden Text (Gen. xxxii, 26), "I will not let thee go, except thou bless me." The first part of this lesson shows us Jacob filled with a sense of his unworthiness, yet pleading and clinging to the promises of God. The second part shows us Jacob with his thigh out of joint, helpless to resist any longer, clinging in his weakness and conscious need to the Mighty One, and obtaining the total of the mighty of the might of the m obtaining that which he sought. The whole lesson teaches us how to obtain power with God and men. Here is found the word "Israel" for the first

LESSON II.-Discord in Jacob's Family (Gen. xxxvii, 1-11). Golden Text (Gen. xlv, 24), "See that ye fall not out by the way." Here we see Jacob's special love for Joseph, the beloved Rachel's first born, and are warned of the danger of having favorites among the children. But we see also the special love of God to Joseph in exalting him above father, mother and brethren, and choosing him to be a great deliverer, and before God, who cannot err, we bow with adoration for none can say to Him, "What doest thou?"

LESSON III. - Joseph Sold Into Egypt (Gen. xxxvii, 23-36). Golden Text (Gen. 1, 20), "Ye thought evil against me, but God meant it unto good." Joseph now enters upon his road to royalty, which means death to father, mother, brothers, sisters, home and friends, self and the world, to find one's all in God. It is the way of the cross and means much suffering and long suffering with pa-

tience and joyfulness (Col. iv, 11).
Lesson IV.—Joseph Ruler in Egypt (Gen. xli, 38-48). Golden Text (I. Sam. ii, 30), "Them that honor Me I will honor." The twenty years' humiliation and suffering, the false accusations and imprisonment are now past, and the dreams are about to be fulfilled. Joseph can now say from his position as ruler. in the joy of his gentile bride and his two sons, "God hath made me forget all my toil; God hath caused me to be fruitful" (Gen. xli, 51, 52). Through all his sufferings he was prosperous, for God was with him (Gen. xxxix, 2, 21), but it did not look so to human eyes. Now all can see it. See the applica-tion to us in Rom. xiii, 19; I. John iii, 2. LESSON V.-Joseph Forgiving His Brethren (Gen. xlv. 1-15). Golden Text (Luke xvii, 3), "If thy brother trespass against thee, rebuke him, and if he repent forgive him." The sin of twenty years is at last uncovered and brought home to them, but there is forgiveness for them. They see now the reality and fulfillment of the dreams they despised, and they bow down to their brother Joseph as their great and only deliverer. When the Jews again look upon their protner Jesus, after perhaps 2,000 years since they saw Him last on the cross and heeded not His cries, they will find a wonderful parallel to the history of

Lesson VI.—Joseph's Last Days (Gen. 1, 14-26). Golden Text (Prov iv. 18), The path of the just is as the shining light, that shineth more and more unto the perfect day." Still misunderstood by his brethren after so great kindness, he has again to comfort them and reassure them of his unchanging love. If we have treated Jesus in any degree like this, let us be ashamed and question His love no longer, but with implicit mankind have their origin in an impovconfidence make Him glad by our faith in Him. See Heb. xl, 22, as a fitting close to the story.
LESSON VII.—Israel in Egypt (Ex. i,

Joseph.

1-14). Golden Text (Ps. cxxiv, 8), "Our help is in the name of the Lord." We now come to the book of redemption, but before the deliverance we must see the bondage. The word of Abraham concerning the affliction of his seed is being fulfilled (Gen. xv, 13), but the and they also shall be fulfilled.

Lesson VIII.—The Childhood of Moses (Ex. ii, 1-10). Golden Text (Ps. xci, 15), Medicine Co., Brockville, Ont., or Schen-I will deliver him and honor him. Here is God working, even through His enemies, to accomplish His purposes. Those who fight against Him are all unconsciously made to further His ends to their own confusion. Consider Jochebed's faith and its reward in the light of Heb. xi, 23. Let your own heart fear no evil. "If God be for us, who can be against us!" Consider the three arks of Scripture, of which this is the second,

each made to preserve its contents. We are preserved in Christ (Jude 1). LESSON IX. - Moses Sent as a Deliverer (Ex. iii, 10-20). Golden Text (Isa. xlf. 10), "Fear thou not, for I am with thee." Moses at the age of 40 thought that Israel would see in him their deliverer, but at the age of 80 he is slow to obey the call of God and asks, "Who am I that I should go?" The great lesson for us is to hear God say: I am; I will send thee; I will be with thee. We are no. thing except we are messengers for God.

LESSON X.—The Passover Instituted (Ex. xii, 1-14). Golden Text (I Cor. v, 7) "Christ, our passover, is sacrificed for The great lessons here are the safety of the firstborn under the blood and their occupation as saved ones; teaching us so strikingly that it is the blood alone that saves, but there is no safety for us unless we are under it; then as saved ones we are continually to feed upon Him who saves us, even as He said, "He that eateth Me, even he

he said, "He that eateth Me, even he shall live by Me."

LESSON XI.—Passage of the Red Sea. (Ex. xiv, 19-29). Golden Text (Heb. ii, 29), "By faith they passed through the Red Sea." In the cloud we see God as Israel's light and shield and guide and avenger. In the incident of the leavenger. avenger. In the incident of the lesson we see how God leads His people into difficulties that He may show His power on their behalf; that He may be glorified. When we find ourselves in straits and see no way out, let us stand still and see the salvation of the Lord. Consider that He who divided the sea is our God the creator of heaven and earth, and there is nothing too hard for Him

(Jer. xxxii, 17). LESSON XII.—The Anointed King, a Missionary Lesson (Ps. ii, 1-12). Golden Text (Ps. ii, 8), "Ask of Me, and I shall give thee the heathen for thine inheritance." This is the picture of the Lord God of Jacob and Joseph and Moses, Israel's great Deliverer and Messiah, who will in due time be king over all the earth, but not until He shall have received His bride, the church, and returned with her for the salvation of Israel and judgment of the nations.

### A NORTHWEST MIRACLE.

Collison, of Prince Albert.

Physicians Declared She Was in Conin Healing Have Not Passed.

Mrs. George Collison is a well known and esteemed resident of Prince Albert, N. W. T. This lady has had a remarkable experience, having almost entered the valley of death when the timely use of Dr. Williams' Pink Pills restored her to health and strength, and she now relates her marvelous story for the benefit of suffering humanity. We cannot do better than give Mrs. Collison's story in her own words. She says: "We formerly lived in Carberry, Man., where I lay ill for a year and a half. My case was pronounced hopeless by all the doctors there, and they agreed that I had not long to live, and in fact I had but little hope of recovery myself. The doctors stated that my trouble was consumption, and when they said they could do nothing for me I determined to go to my old home at Tara, Ont., and see if the doctors there could help me. I remained there for three months, and returned home not any improved. I was so weak I could scarcely walk across a room, and when I reached Carberry I was forced to take my bed and at times was so weak I could not turn myself in bed. For some months I was troubled with chronic diarrhea and after returning home I called in another doctor who had just located there. He checked the diarrhea, but held out no hopes of my recovery. This doctor stated that not only were my lungs in a very bad condition, but that abscesses had formed. I suffered from the weakening effects of night sweats, and had alternate chills and fevers. Then my trouble became aggravated by the cords in my legs drawing up to the extent that it was impossible for me to straighten them. I was bandaged from my chest to my ankles, and my feet and hands would swell terribly. I had severe pains about the heart and coughed and spit so much that I thought the end was coming fast. When my minister called one day I told him I would like to try Dr. Williams' Pink Pills, but as other medicines failed me I feared they might too. He told me to remember that we must do all we could to preserve life, and perhaps God would bless the Pink Pills to the benefit of my health. I then began to take them, very lightly at first for my stomach was very weak. When I had taken the Pink Pills for a time I began to revive somewhat and there was an improvement in my appetite. After using Pink Pills for about a month I could sit up, and in four months from the time I began using them I could do my own work, and I am as strong, and I firmly believe healthier, than I ever was before. After I began the use of the Pink Pills I took no other medicine, but took with them occasionally juice of lemon and crushed sugar. It is a pleasure for me to speak strongly of the medicine which, with God's blessing, saved my life, and you are at liberty to ence the widest circulation, as it may be the means of benefiting some other despairing sufferer. My husband joins his grateful thanks with mine, and we both feel justified in saying that Dr. Williams' Pink

Pills are a marvel among medicines."

Dr. Williams' Pink Pills furnish in a condensed form the constituents necessary to give new life and richness to the blood, assisting it to absorb oxygen, the great sustainer of organic life. By this means this great remedy strikes at the root of disease, speedily driving it from the system, restoring the patient to full health and strength. Most diseases afflicting mankind have their origin in an impovupon these Pink Pills are a specific for all such troubles. Thousands of grateful people testify to the benefits they have derived from the use of Pink Pills, and no other medicine has ever published such strong and carefully authenticated evidence of merit. If in need of a medicine do not be persuaded to try someting else, but insist upon getting Dr. Williams' Pink words of deliverance are just as true, Pills. Sold by all dealers or sent by mail post paid at 50 cents a box or 6 boxes for \$2 50, by addressing the Dr. Williams' ectady, N. Y.

A BIT OF ROCKWORK.

The Principles Which Underlie Effective Work in This Direction.

Rockwork as a receptacle for trailing vines and for plants, says Webb Donnell in Country Gentleman, is too frequently so constructed as to be an eyesore to one who has artistic taste and an eye for the "eternal fitness of things." A heap of stones piled up in regular form in one's front yard or on his lawn is a most atroctous object, but rockwork in its proper place and given its proper shape may be rome a really artistic feature about one's

In the first place a rockery should not be located in one's front yard, or before his house at all. Its place is off at one side or in the rear of one's dwelling, and then only when the immediate surroundings harmonize with it. For instance, a rockery rising abruptly from a bit of smooth green lawn is most incongruous. It needs rougher accessories to make a harmonious whole, and rougher accessories are usually to be found at the sides of one's grounds, and here it is often possible to utilize a pile of rough stones so as to secure a very pleasing and artistic effect; but let no one make the mistake of erecting a set or ele-vated atructure, over which to train hardy climbing plants.

A rookery should have no appearance of stiffness or "setness," nor should it appear at all obtrusive. An irregular, low-lying pile of rough stones may be thrown together without apparent attempt to give form or comeliness of outline. The result will be, most likely, the form and comeli-

A BIT OF ROCKWORK,

ness that is most appropriate in a bit of rock work. The illustration accompanying this is offered as a suggestion of the way such a loose heap of stones may be treated to secure a good effect, and one that is neither conventional nor obtrusive. Rough, "ragged" rocks pile up in the most artistic fashion, and a much more pleasing effect is obtained when vines are trained over such rocks, as these have much more "character" than do the smoother, rounder cobblestones, that fit together so closely as to make only a rounded heap.

Another point may well be remembered

by one who essays to construct a rockery upon his grounds, and that is the proper course to pursue in covering the rocks when in position. In the first place, do not attempt to gather a great variety of plants together here, placing this plant in one "pocket" between the stones and that plant in another, with several varieties of vines striving for supremacy. As the rock heap in itself is to be made rough and wild in appearance, this character should be further maintained by using plants and vines that grow wild in rough places. There are many such plants and vines that can be found native in any locality, and these will be found to take most kindly to the new surroundings, and to prove most hardy and satisfactory. One variety of vine growth and one or two varieties of plants, with some wild grasses added, will be amply sufficient for stock-

ing the rockery.

If it is located in a moist and partiallyshaded spot, nothing could be more appropriate or beautiful than the use of some of our native ferns, as ferns delight in the company of rocks, and after becoming established will grow quite well, even where the ground is not very moist naturally, for the rock heap, especially when well covered with plant growth, will hold a large amount of moisture beneath it. It will be well in training vines over the rocks to permit some moss-covered and jagged points to remain exposed, as they will add not a little to the good effect of the whole.

Cultivation of Apple Orchards. The apple archards do not receive the cultivation that ought to be bestowed upon them. Many orchards, it is true, are located on such rough and rocky ground, that it would not be possible to cultivate to any considerable extent, but where the land can be cultivated it is highly desirable that it should be. Especially is it desirable that a young orchard should be kept in cultivation until it comes into full bearing, and even after that there are great advantages to be derived from cultivation. Take two young orchards planted at the same time, on equally good soil, with the same care, and equally good trees used for the purpose, and let one be kept

in cultivation and the other kept in grass. The result, in ten years, will be a very instructive object lesson. The trees kept cultivated will be nearly full growing or in full bearing, while the trees in the uncultivated orchard will be only about half grown and just beginning to bear. Now if cultivation is good to develop an orchard and bring it into bearing quickly, it is certainly equally beneficial for an orchard during its bearing period.

In Southern California the apple orchards are cultivated and irrigated about the same as the orange groves, resulting in an abundance of fruit. Belleflower apples raised in this way are twice as large as those raised in Maine, and equally as fine flavored, if not superior. Irrigation in New England is not so much needed, of course, as it is in Southern California, but in dry seasons it would be a great benefit. It would save the dropping of fruit from drouth, and enable the trees to bear larger and more perfectly developed fruit. If the surface in our apple orchards were kept cultivated but not planted to crops, the ill effects of severe drouths could be guarded against, to a great extent. By keeping the surface often stirred the pulverized soil of the surface would act as a mulch and prevent the soil beneath from drying up. By cultivating the surface lightly after each rain, the evaporation from the soil would be checked to such an extent that the orchard would not suffer for want of moisture, even in severe Grouths. In our Northern States we seldom have drouths lasting more than six weeks, so that by cultivating the surface soil after each rain the orchard would be materially protected from very dry wea-

ther. - American Agriculturist. See After the Insects.

This is a busy month for insects and from present prospects it will be one of much insect activity this year. The various orchard pests seem to be very plentiful and must be attended to, but the question of spraying has already been fully dis-cussed and this months work will be simply e continuation of that begun.

VEGETABLES FOR SMALL GARDENS. List of Those Available and Something About Their Culture.

Persons who wish to grow vegetables in small gardens will as a rule usually select only those suitable for summer use. It does not require much space to furnish a liberal supply for an ordinary family, if the ground is kept full all the time. Remembering always that the fresher the vegetables are the better, it pays to grow them at home rather than depend upon the open market, where the supplies which the grocer delivers are often anything but fresh. For winter supplies of the various root crops and vegetables there is not so much difference, as in either case they can not at the north be obtained direct from the ground.

Lettuce, followed by endive for fall use can be had. Radishes may easily be se-cured the summer through by sowing every three weeks or so. A very small space suffices. The turnip radish, especially of the bright scarlet kinds as early breakfast, the scarlet and white tipped and the oliveshaped in the same colors, form quite an ornament for the table as well as being always palatable. Celery is easily grown, the variety called celeriac or turnip-rooted celery is just as good for flavoring, and needs no earthing. Transplant the young plants to

moist, rich soil, in rows two feet apart and six to nine inches in the row; good culture is all they require. After the roots (the portions used) attain a diameter of two inches or over they are fit for the table, either cut up as a salad, or cooked as other vegetables. Cress is another desirable vegetable, either the old peppergrass sown several times, or those who choose may grow with this the Southern Giant curled mustard, a plant very much cultivated in the South where it stands the winter. It is a sort of cut-and-come-again plant for salad purposes. Cherval similar to the common plain-leaved parsley, has a pleasant aromatic taste, and is used for flavoring soaps and salads. The corn salad, or lamb's lettuce is used cut up in salads. Of leguminous plants, the Bush or Snap short beans are well adapted to small gardens. By keeping the beans closely picked so that no seed forms, they crop for a long time. For succession sow now, and again within a month. This crop is better grown in a moderately rich soil. Always cutivate or hoe very shallow—just deep enough to destroy weeds and keep the ground friable on the surface. There are many different varieties, some with white, others green pods. The Dwarf Black Wax is greatly prized by some. The old Refugee is one of the earliest, and for snaps the red Valentine is excellent. The only other bean worth producing in small gardens is the dwarf Lima, growing only a couple of feet high and needing no sticks for supports. Rows two feet apart will answer for any of the beans mentioned above. In the way of peas, dwarfs only should be grown. A pint of beans will sow four rows of twelve feet each in length. A pint of peas as they are sown thicker, will give four rows eight feet long. This quantity at a sowing will answer

for a single picking.
Of other crops available for the small garden early beets, carrots and parsnips may be mentioned. Those who like these while they are yet young may even make a second sowing. Early blood beets and horn carrots are more satisfactory than the larger kinds. Cauliflower is always a desirable vegetable, that sown in the open ground in May is ready for the table in the fall. The early plants from hot-beds should now be growing fast and be ready for the table in June or July. A dozen or two plants of second early cabbage may be planted to come in along in September. If cucumbers are grown, choose the new Japanese climbing and train up to sticks or a fence. Kohl Rabi or turnip-rooted cabbage

TURNIP-ROOTED CELERY.

eatable part. Sow in rows sixteen inches apart and thin out, when large enough, to six inches in the row. Tomatoes can be grown either on the ground or partially supported by tying up to sticks or trained up a division fence. A few peppers take up little room, but the plants will need to have been previously started in a hotbed. The same is true of the egg plant. Either of these two are quite ornamental when in fruit and are thus also considered suitable for the small garden. Spinach may also be mentioned. The Round Summer is the best variety to sow now. A row of squash if there is room may be planted the Yellow Bush and Crook Neck being the most available. If turnips are grown choose purple strap-leaved Milan, or flat Rutabagas are better for larger areas. An herb garden is always handy, takes little space and all not used in summer may be cut and dried in winter. Parsley may be sown as a border plant. The roots taken up in the fall and put in a warm place may be made to give green enough for garnishing. Sage is easily grown, and with sweet Basil, and summer savory, perhaps constitute the kinds generally in use. Thyme is also a noted potherb.

Horticultural Notes. By gathering and burning all limbs and twigs removed from trees in pruning a

great many insects will be destroyed. Keep the soil in the orchard clean, mellow and well cultivated through the spring and summer for the first threey ears. By recent experiments it has been shown that the Moore's Early grape is not dependent upon foreign pollen for fer-

It is estimated that the use of a muleh tilization. may sometimes increase the amount of water in the upper one foot of soil on one

acre by 1,700 barrels. Cold storage increases the demand for many of the fruits by extending the season during which they can be supplied while

fresh and in good condition. As a general thing the skins of fruit are infested with germs or microbes. The bloom of some ruits is made up of germs. The skin protects the fruit from their action but if the skin is bruised or broken the small organisms get inside and cause the fruit to decompose. It is best to remove the skin before eating the fruit for the microbes will be carried down into the stomach where they usually find conditions well suited to their development.

WINTER FLOWERING ROSES.

The Papa Gontier, a Splendid Crimson Flower, Shown in Bud. Winter flowering roses should be plant-

ed during the month of June, certainly not later than July, says Orange Judd Farmer. These are now never grown in pots, but on benches in the greenhouse. Six inches of soil is plenty; many of the best florists now grow them in only four inches. Always select fresh soil, the top sod of a

PAPA GONTIER ROSE IN BUD. meadow being best. This should have been composted a few months, and mixed with a sixth of rotten manure. Young, healthy plants in a three or four-inch pot are the best size. These are set about fifteen inches apart. Press the soil well about the roots at planting and give a thorough soaking with water. If all goes well, in a month they will be giving a few flowers; in two months quite a good cutting. The kinds to grow are included among the following: Bridesmaid, a fine clear pink, more highly colored than the old favorite Mermet; Catherine Mermet, elegant either in bud or partly open, color shining pink with fawn center; Mad. de Watteville, color remarkable shade of creamy yellow, richly colored with rosy blush; Mad. Hoste, color soft canary yellow, answers well for either a white or yellow; Nephetos, very large white; Papa

Gontier, a splendid crimson rose, capital in the bud, one of the very best; Perle des Jardins, clear golden yellow, the very best of its color for general use; Sunset, golden amber or old gold, far better than the old Saffrano; the Bride, a superb pure white tea rose, best of its color, buds and flowers unusually large and a constant bloomer. Of course many other kinds of the Teas are grown, but by far the largest number one sees in the market are among those given. Duchess of Albany and La France belonging to the Hybrid Teas, are of a similar nature and belong to the croppers, that is bring in a good crop of flowers, then make new growth, followed by another crop. They are both great favorites among florists; color, a peach blossom shade of pink, changing to amber rose. The American Beauty is of the Hybrid Perpetual type, the only one of them grown in quantity remaining in season the year through; color, a rosy crimson of the largest size on very stout stalks, often grown and sold

good as an open flower. CARE OF TRANSPLANTED TREES: Bracing-Cultivation-Mulching-Protecting from Insects-Fertilizing.

three to four feet long. It is very fragrant, makes a grand bud and is equally

The spring season of tree-planting is over and the problem of getting the tree to live through the summer and autumn must be solved. They must be kept in place so the winds will not sway them sufficiently to injure the roots. Drive a stake close to the trunk and with some soft material like strips of canvas fasten the tree to it. Cords or wire must never be used. Breaking the bark is always dangerous for, in addition to the shock given the tree, germs of fungi which attack the wounded surfaces are usually present in the atmosphere. As plenty of moisture is absolutely necessary for growth every precaution should be taken to preserve what is in the ground. Remove all grass and weeds from about the trees for they appropriate water in the soil. Mulching with almost any kind of litter is beneficial. The same end is accomplished by frequently stirring the surface of the ground. Shading the trunks by wrapping with loose straw rope or some similar material is helpful.

Watering is often necessary during a dry season and if practicable should be attended to. During the growing season the foliage and trunk are exposed to the attacks of many insects. These must be guarded against and prevented as much as possible. If borers are troublesome watch for them carefully and where there is evidence of their presence remove at once by following up their burrow with the knife. Sometimes they can be killed before they get in very far by means of a wire thrust into the opening. For insects which feed on the leaves spray with London purple or Paris green. If lice are causing damage a spraying of kerosene emulsion will usually be found effective. For fungous diseases such as blights, etc., apply bordeaux mixture. Two or three

times during the growing season. Remove all suckers or leafbuds which are not wanted. This aids in preserving the shape of the trees and prevents a waste of energy in developing useless parts. Of course it is necessary to protect the trees from injury by animals, or barking with doubletrees, etc. If the bark is broken cover the injured part at once with tar or moist earth held on by bandages. If the trees have been mulched it is best to remove it in autumn as vermin, such as mice, are liable to harbor in it. Replace it by a top-dressing of well-rotted manure which is most beneficial if worked into the surface. For fruit trees an application of potash or phosphoric acid fertilizer will always show good residts. If the trees have been well set, treated as above directed and protected the coming winter from rabbits, mice, etc., next season ought to find them ready for a second year's vigorous growth, with little danger of losa,

Thumb-Pruning Trees and Shrubs. "Nip it in the bud," is an old saying, says the American Agriculturist, but contains a remarkable amount of good common sense, and when the application is made to tree growth, it is of great importance as regards the future shape, value and health of the tree. Upon the large limbs and trunks of trees, buds are pushed forth that, if not removed in the early stages of growth, will cause an unsightly tree. If left several years before removal, it may result in the decay of the tree at the point of removal, or, if allowed to grow and become a part of the tree, will often make it a difficult matter to reach among the limbs to gather the fruit. All of this trouble may be avoided by promptly pinching or rub-bing off the out-of-place buds as soon as they appear. On trees planted only a few years, this is an easy matter. An active man will hand-prune many small trees in a day's time, and it should be done several times each summer for these succulent grewths are not confined to spring.

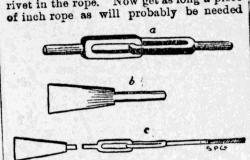

DRILL FOR FARM WELLS

A HOMEMADE ONE THAT DOES EX-CELLENT WORK.

A Pennsylvania Farmer's Valuable Experience in the Use of This Device Detailed for the Advantage of Our Readers -Incidental Well Digging Hints.

Many localities are so situated as to make well-digging an expensive and uncertain necessity. In some places water is not found without digging from one hundred to one hundred and fifty feet for it. It is a prevalent idea that a well thus deep cannot be put down without employing some one who makes a business of drilling wells with appropriate and expensive machinery; and possibly after going to this depth, water may not be obtained. My experience in drilling some deep

wells on my own farm may aid some farmer to put down a well that will cost him only a few dollars in cash. The necessary tools can be made, at little expense, by any village blacksmith. The tools, when properly made, will drill a well five hundred feet deep if needed. First, two pieces of one and one-fourth inch gas pipe are needed; one ten feet long, the other five feet. Take these to the blacksmith and have him make a pair of jars (a Fig. 1) similar to the jars used for oil-well tools. These jars should have a shank a foot long that will fit inside the one and one-fourth inch pipe. Now either weld these jars into the two pieces of pipe, or securely rivet them, welding being preferable. Have the loop of one jar left open, so as to connect them like links in a chain. Loop them together, and weld the open end of the jar. Now have the blacksmith make a steel bit, the shank also one foot long, and the end of the bit or drill two and one half inches wide (b Fig. 1). Weld this bit into the end of the ten-foot pipe, and drill two holes in the end of the five-foot piece, to

rivet in the rope. Now get as long a piece

FIG. 1. JA'S AND BIT FOR WELL DRILL.

and rivet it into the end of the five-foot pipe (c Fig. 1). After putting the rivets through the rope, drive some soft wood wedges between the rope and pipe, and the rope will never pull out.

Build a derrick fifteen feet high, or the limb of a tree will answer the same purpose. If no trees are convenient, put up three poles and hang a pulley at the top. Put the rope on the pulley, and the derrick is ready. The first fifteen feet of drilling will be the slowest. One can weld a twoinch augur on an iron rod, and bore the fifteen feet in clay very well. If in gravel, this first part must be spudded unthe drill can be attached to the spring pole. This pole should be twenty or twenty-five feet long, with the butt end firmly fastened to the ground (Fig. 2). About eight feet from this end put a block so that the small end will be about four feet from the ground. Now put a swivel on the small end, with a link large enough for a loop of the rope to pass through. I put a handle on the swivel of the tools I made, for they have to be continuously turned to insure a round hole.

A sand pump must be made. A threefoot two-inch wired tin pipe will make this. Have the tinsmith solder some ears on the inside of one end, and put a heavy wire bale on it. For the valve, use a round piece of wood the size of the pipe, and bore an inch hole through it; saw it off about four inches long and nail a round piece of leather or rubber on one end, so that it will act as a pump valve. Put this in the end of the sand pump, leather end inside, fastening it with some brads through the tin, and the sand pump is finished. As the tools are churned up and down with the spring pole, add a little water occasionally. After drilling a foot, pull out the

too'- and use the sand pump.

In clay, a man can drill thirty or forty feet in a day, but only ten to fifteen feet in rock. The jars allow the driller to loosen his tools should they become wedged in the hole, which they frequently do. Anyone who has seen a gas or oil well drilled will at once understand the directions, as the tools are the same, only on a small scale. When water is found, a pipe two inches in diameter, or even smaller, can be put down and the pump attached. Should you fail to find water, you will at least

FIG. 2. SPRING POLE FOR WELL DRILLING. have the satisfaction that the hole cost you but a few dollars. The spring pole may be run through the side of the barn or any building, and the rafters will make the necessary derrick.

Should quicksand be encountered, as frequently happens, slip down some twoinch pipe, narrow up the drill, and if the jars are made narrow, the quicksand can be cased off, and the drilling proceed through the pipe. One of my neighbors had a seventy-five foot well drilled last fall that cost him one dollar per foot, which is a reasonable price. I drilled a well nearly as deep with tools like those described, that did not cost over five dollars in cash. A natural gas well was drilled one hundred feet deep in this way with a spring pole by one of my neighbors. I do not intend to say that this is the best way to put down gas or water wells, but simply that it can be done, and cheaply done, by those who have the time.—R. W. Battles, in American Agriculturist.

Hog Notes. Look to the pigs for the cheapest source

of manure. There is more heat in a pound of pork than in a pound of beef. Four pounds of food should make a pound of live pig.

Keeping Butter. Good butter will keep much better if the cream is churned when it is pleasantly acid,

the butter washed free from buttermilk and then salted in this condition and packed carefully into packages ready to send to maraet.

Charm of Country Life.

Great minds in all ages have been lovers of the soil. This demonstrates the inherent charm of country life. Where the love of the woods and fields does not exist, a natural taste is wanting.

# POND'S EXTRACT

THIS IS THE GENUINE.

Our trade-mark on Buff Wrapper around every bottle.

THE WONDER OF HEALING. FOR RHEUMATISM, NEURALGIA, WOUNDS, SPRAINS, BRUISES, PILES, FEMALE COMPLAINTS,

Genuine is strong and pure. Can be diluted with water. Sole Manufacturers POND'S EXTRACT CO., 76 FIFTH AVE., NEW YORK.

# LICHING PIN WORMS.

No More Misery.

cheaply.

ITCHING PILES is an exceedingly painful and annoying affliction, found alike in the rich and poor, male and female. The principal symptoms are a severe itching, which is worst at night when the sufferer becomes warm in bed. So terrible is the itching that frequently it is impossible to procure sleep. Often the sufferer unconsciously during sleep scratches the parts until they are sore—ulcers and tumors form, excessive moisture is exuded. Females are peculiarly affected from this disease, causing unbearable irritation and trouble. These and every other symptom of Itching Piles or irritation in any part of the body are immediately allayed and quickly cured by Chase's Ointment. It will instantly stop itching, heal the sores and ulcers, dry up the moisture.

PIN WORMS is an ailment entirely different as to cause than Itching Piles, yet its effects and symptoms are exactly the same. The same intolerable itching; the same creeping, crawling, stinging sensation characterizes both diseases. Chase's Ointment acts like magic. It will at once afford relief from this torment. Gives Instant

Relief.
