MY DEBT.

A wide grey sky and a wide grey sea,
And strained are the Look-out's eyes!
Then night as black as black may be
And the wind and the sleet drive bitterly,
And who knows where our foeman lies?

In heat or cold, on land or in air,
In weariness, grief or pain,
Are hearts that keep our fair land fair,
That give us our food, our burdens bear,
And that break 'neath the dreadful strain.

O men who watch over me and mine,
Each stout-hearted man and true,
How can I help both thee and thine,
What token give, what word, what sign,
On the day when my debt falls due?

L. HERWARD.

To all the men who defend our shores from invasion our debt is due already, but it is due in far greater measure to those who have been incapacitated by nerve strain or whose minds are clouded by the haunting horrors of the war.

WOUNDED MEN'S EFFECTS.

THE Canadian military organisation at the Front is so excellent in many respects that, when we point out any shortcomings, it is done in no carping spirit. The matter which we wish to bring to the attention of the authorities this week is in regard to the personal belongings of those who happen to become casualties. It has been a long-standing complaint that by the time the men arrive at hospital their personal belongings have parted from them between the advanced dressing station and the casualty clearing station, and certain articles are seldom subsequently recovered. So much is this recognised as unavoidable in the turmoil of war that allowances are made by the Government for the replacement of lost kit and equipment. To-day, however, the military machine runs so smoothly that a man's belongings ought to follow him far more regularly than they do, and the Government should be saved much money thereby.

We may be told that confusion in men's effects only occurs at times of stress, when heavy casualties try the machinery unduly. Against this we may place the fact that the medical service has outstandingly proved its ability to look after the men, however severe the pressure on its staff. For instance, at Vimy the wounded were dressed, collected, and transported with wonderful speed and regularity. One officer, however, while speaking in the highest terms of the medical attention he received, expressed his luck at even saving his boots from the covetous fingers of the orderlies whom he heard preempting his desirable footwear while they thought him

to be unconscious. Other more easily-removed belongings left him, and as his wounds quite incapacitated him from further service, he has lost hardly-earned souvenirs of his soldier's life which he will ever regret.

There is a special department of the military organisation for the collection, storage, and return of soldiers' effects, and undoubtedly a great deal is forwarded to the man or to his family. But there is a laxity of moral and discipline among some of the medical orderlies which should be sternly dealt with. The man himself is the chief object of attention, and so well is he cared for that, in the satisfaction of getting him comfortably to "Blighty," the loss of a few articles may be thought to be negligible. In an army less admirably organised than our own this might be accepted, but so long as there is any purloining of the belongings of the wounded men on the way to the base hospitals, the organisation and discipline of the C.A.M.C. will not be complete. A very few stern examples would put a complete stop to such pilfering, and remove the only criticism which we hear to-day regarding the work of this most efficient and self-sacrificing branch of the Canadian military organisation at the Front.

A "TRUTH" CANARD.

FEW of our London contemporaries are so peculiarly inaccurate in their Canadian "news" as *Truth*. This ultra-Radical and Little-Englander journal seems incurably addicted to distorting facts about Canada. Recently we had to point out the fantastic comment by its military correspondent on the Canadian attack at Fresnoy. Last week the editor of *Truth* wrote:—

I hear a number of our flying officers, when they get their wings, are taken on by the Canadian Government under contract which entitles them after a given period of service to a first-class fare to Canada, where they can enter into a fresh contract with the United States Government, which is offering as much as £20 a week for qualified airmen. The more we can help America the better, but for obvious reasons I think the right way is for the two Governments, British and American, to arrange for this help between them, instead of allowing individual action of the kind brought to light in this paragraph.

This entire statement is so packed with inaccuracies that one wonders at the ignorance of present military conditions shown by the writer. The Canadian Government has no flying service of its own, and, although some thousands of the flying officers in both services are Canadian by birth, it retains no control over any of its officers or men in the British flying services, apart from continuing the pay of its officers seconded to the R.N.A.S or R.F.C. Therefore, the suggestion that the Canadian Government acts as a kind of middleman in withdrawing flying officers from the Mother Country in order to give them a "fresh contract" in the United States at £20 a week, as if they were music-hall performers, is as untrue as it is unworthy. *Truth* is evidently ignorant of the fact that the British Government has a large aviation school in Canada, where some 1,500 cadets are now in training, which is paid for entirely by Imperial funds. If, therefore, the United States require the services of qualified airmen, they will naturally deal direct with the British Government.

NOTES OF THE WEEK.

Union Cabinet Difficulties.

The political situation in Canada continues to be unsettled and uncertain. The formation of a Union Cabinet appears to be further off than ever. Sir Robert Borden has reiterated his determination to spare no effort towards achieving that end. The negotiations, however, have been checked by the attitude of the Western Liberals. The Premier of Alberta, the Minister of Railways for Saskatchewan, and the President of the Grain Growers' Association had agreed to join the Union Cabinet, but only on condition that Sir Robert Borden, while he might be a member, should not be Prime Minister.

In order to meet their views, Sir Robert Borden offered to resign and serve under Sir George Foster, whom they suggested as leader. The Minister of Trade and Commerce, however, declined to agree to that proposal, hold-

ing that it was essential that Sir Robert should be Prime Minister if Canada was to prosecute the war to the utmost. This view was upheld by the Conservative caucus at Ottawa. The position, therefore, is that a *rapprochement* has been made still more difficult, and a General Election has been brought nearer. This, says Sir John Willison, will be chiefly a struggle between the two parties, with conscription as the issue. The only gratifying feature is Sir Wilfrid Laurier's consent to join in the appointment of the Tribunal Board of Selection on the ground that the Military Service Bill was now law, and it behoved every loyal subject to see that its provisions were carried out.

* * *

Canada's National Press Service. The inauguration this week of the Canadian National Press Service is an important event in the life of the Dominion. Thanks to a grant of \$50,000 from Ottawa, it has been made possible to set up a co-operative system for the exchange of news from the Atlantic to the Pacific, which should enable every Canadian to hear more about his native land and the life of his fellow-countrymen than has hitherto been the case. Some 12,000 miles of leased wire will be operated under the new service, which will employ ninety telegraphists. An important feature is the fact that every Canadian publisher associated in the service not only bears a share of the cost, but supplies local news to all other Canadian newspapers. The result will be less dependence upon American news agencies, while the availability of the news service, through the Associated Press, to American newspapers is all to the good. The Press of Canada is afforded a new opportunity of proving its national influence.

* * *

Canadian Officers' Pay. The table which we published in *Canada* a fortnight ago, showing the comparative pay of regimental officers in the Imperial, Canadian, Australian, and American Forces, has brought us more letters than we remember having received on any one subject since *Canada* was established, nearly twelve years ago. They have come from the Front and the training camps in England alike, and from officers of every commissioned rank. They certainly indicate a keen interest in the matter.

Some of the letters have simply asked for details as to the scales of Canadian pay referred to. Those details, we may say, were published in our issue of June 23 last; and, as pointed out last week, separation and other allowances are included in the totals mentioned. Of course, as one correspondent points out, not only are unmarried officers not in receipt of a separation allowance, but the \$1 per day messing allowance terminates when an officer ceases to be a member of a mess. Other letters which we have received go further in the way of comment, and draw the moral from the comparative figures we published that Canadian officers should receive much higher pay than Imperials, especially on account of the value of a dollar in Canada. One of the grievances to which attention was drawn, for instance, is that widowers with families receive no separation allowance, although they have a household to maintain in Canada, where the cost of living is high, while other dependents have to be looked after in other cases.

* * *

The Mind of the Soldier. A cogent and timely plea is made in a recent issue of the *British Medical Journal* that furlough should be given to officers at the Front in the higher commands, in the interests of military efficiency. From internal evidence, this editorial was from the pen of Major Andrew Macphail, C.A.M.C., whose Cavendish Lecture was recently referred to at some length in *Canada*. The writer realises that it is necessary to conserve to the fullest extent possible the mental vigour of officers who have proved their capacity to assume heavy responsibility, and to preserve for the Army their valuable experience. It is urged that in civil life a man takes a holiday to save his business, and he returns regenerated to his task. How much more necessary is it now, after three years of war, that the mind of

the soldier should be considered and the benumbing strain should be temporarily relaxed?

It is urged by this writer, who speaks from professional and military experience, that the cumbrous and inelastic machinery of medical boards is quite unsuited to meet the case. He urges that "an officer who is fit to command a battalion, or its equivalent, is fit to be taken at his word when he signifies that he needs a rest." A three months' furlough would be necessary for such officers to return to their homes in Canada. This has been strongly urged by the Canadian Veterans' Association, both for officers and men, and, although it may be impossible for the latter owing to the difficulties of transportation, it ought not to be insuperable for the former. Moreover, the mental strain in the case of the rank and file is by no means so severe as in that of officers in the higher command. The plea made by this writer deserves the very serious consideration of the authorities, and, if it can be acceded to, it will undoubtedly increase the efficiency and mental energy of the most important units of the Canadian military organisation.

* * *

"Unfriendly London." "Unfriendly London" is the title of a sketch which appeared in the *Daily Mail* the other day, with the result that several letters have since appeared on the subject in the columns of our contemporary. It told of a meeting in a popular restaurant with an Overseas officer, who turned out to be a V.C., in London on his "V.C. leave," but who, having no friends in town, was depressed with the "terrible loneliness" of London. One of the letters which followed was from an Army School Chaplain in France, who stated that many Canadian officers had told him of the same experience.

The sketch and the correspondence must have touched many readers, and left them with a sense of surprise and resentment. It is a thousand pities that any brave soldier should have such a bitter experience, especially when it is altogether unnecessary. The case of friendless officers from Overseas has not been left out of sight. Provision has been made for putting them in touch with hospitably disposed Londoners while they are on leave from the Front. The Royal Overseas Officers' Club has amply justified its existence, not only in respect of the "at homes" and concerts it provides, but by arranging hospitality at both town and country houses, garden parties, entertainments on the river, etc.. As far as Canadians are concerned, the services in the same direction of the Red Cross Society and the War Contingent Association must not be forgotten.

Protection of the Absentee Owner. One of the measures passed by the British Columbia Legislature last year amended the Forest Relief Act in such a way that possible injustice may be done to holders of timber licences who are serving with the Overseas Forces. Previous legislative enactments in 1914 and 1915 had protected the absentee on war service from any seizure of his holding for arrears of rent or taxes. By the amendment passed on May 19, 1917, it seems possible for the owners of local sawmills who find themselves short of raw material to acquire compulsorily the timber holdings of any absentees who happen to be six months in arrear in their tax liabilities. It is true that such holders must have six months' notice before action can be taken, but "service of such notice can be legally made by sending a copy of the notice by registered post to the last known address."

Considering the various areas of the world in which possible holders of these timber licences are now stationed, it is evident that the notices might never reach them, or reach them too late. We quite recognise that in the present condition of the lumber industry, when the demand for any immediately available timber is urgent, it is reasonable that such should be acquired by forced sale, if necessary. At the same time, the absentee on national and Imperial service should be protected against confiscation. This result could be accomplished by a legislative provision that the Government should take the responsibility of seeing that the sale of any timber holdings so

acquired should be negotiated at the current market price, and that the amount paid should be held in trust for the holder, less the arrears of his taxes and reasonable expenses.

THE LATE EARL GREY.

Duke of Devonshire's Tribute.

The death of Earl Grey, on August 29 (recorded in last week's *Canada*) has been the occasion of noteworthy tributes to his statesmanship and his high personal character.

The Duke of Devonshire, speaking at Ottawa, said the late Earl "always had a warm spot in his heart for this great Dominion. The world has lost a great man and Canada has lost a good and true friend."

The members of the British-American Peace Centenary Committee, of which movement Earl Grey was President from its inception, have expressed their grateful acknowledgment of the valuable services rendered by him to the cause of British-American friendship and common action.

Funeral at Howick.

At the funeral of Earl Grey, in the Churchyard near Howick Hall, last Saturday, the chief mourners were the Countess Grey (widow), Major Viscount Howick (now Earl Grey) and Viscountess Howick (son and daughter-in-law), Lady Sybil Grey and Lady Evelyn Grey (daughters), the Countess of Minto and Lady Victoria Dawnay (sisters), Mr. R. Boosé (Royal Colonial Institute), Sir Robert Nivison, Lady Sifton, Mr. Moreton Frewen, Mr. H. E. Brittain, Mr. William Petersen, and Mr. E. T. Scammell.

The Agents-General for Ontario, British Columbia, Nova Scotia, Alberta and Quebec were represented, and also the Canadian banks having branches in London and various other institutions.

The service was conducted by Archdeacon Pearce and Canon Gamble, who wore the purple and gold funeral copes which have been in the possession of the Abbey since the time of Charles II., and the Rev. L. H. Nixon, Precentor. The music included Sterndale Bennett's anthem "God is a Spirit," Tchaikovsky's "Funeral March," the Dead March in *Saul*, and Beethoven's Funeral March.

Services in Canada and Rhodesia.

A memorial service for Earl Grey was held in Christ Church Cathedral, Ottawa, on Sunday. Among the distinguished people present (says Reuter) were Sir Robert Borden and other members of the Cabinet, Sir Wilfrid Laurier, the Speaker of the House of Commons, a representative of the Governor-General, the Archbishop of Ottawa, and a number of officials.

A memorial service was held in the Cathedral at Salisbury (Southern Rhodesia). It was attended by Sir Drummond Chaplin, Administrator of Southern Rhodesia, and Lady Chaplin, Col. Raleigh Grey, of the Legislative Council, and representatives of all the important bodies.

THE FIGHTING FOR LENS: GENERAL CURRIE'S APPEAL.

FROM the 10th to the 24th of August the Canadian Corps had the hardest and most successful fighting in which they had ever been engaged, and they killed more Germans than in any previous battle. During this period they repulsed more than thirty counter-attacks by the enemy, and defeated more than six German divisions—truly a magnificent victory.

The slaughter of Germans has proceeded as steadily at Lens (says the *Morning Post's* correspondent). The Canadians have consolidated the ground recently won around the south-western and western sides of the city, and have resisted all counter-attacks.

Several raids have taken place during the past week, in one of which the Canadians captured four machine guns, in addition to a number of prisoners.

About midnight the Canadians once again bit in upon the outer shell of Lens (says Reuter's special representative at the Front, writing on Tuesday). In the brilliant moonlight the raiding party went over from our front opposite Cité Sainte Elizabeth. Whilst the enemy was busy dealing with this incursion another party moved out further south, and, along a front of about 600 yards, succeeded in establishing posts from 250 yards forward of their front lines. A few prisoners of the 2nd Prussian Guards Reserve Regiment were brought back. The raiders found the Germans mainly in shell-holes, into which they had been driven by our artillery fire. To the north of Lens there is now in some places less than 300 yards of open ground between the Canadian positions and the buildings of the city proper.

through our barrage. Among the Newfoundlanders are men of the hardy fishing class, and especially trappers and lumbermen from the woods, accustomed to fight with Nature in all her moods, whom nothing in the way of floods or swamps or man can appal.

Behind our barrage they went doggedly on in the grey of the early morning, wading, stumbling, forcing a way as best they could. Those who were badly hit sank into the dreadful ooze. Some lightly wounded went on after their comrades or made their painful way back. But the rest went on, and, mud from head to toe, with only their rifles held above their heads still dry, panting and almost worn out, on the heels of the barrage they rushed the German fort. There was a short burst of wild fighting, and the fort was theirs after as fine an exhibition of mere physical endurance as men have often been called on to show. Then, when it was over, they turned to help their comrades who were still embedded in the slime, and, in bodies of three or four together, they pulled them out and got them safely to shore. It is largely owing to them that our line here is now well beyond the Broenbeek, up the first stages of the ascent on the other side of the dip to the little valley bottom.

AN AMBULANCE AT REST. A C.A.M.C. Reminiscence.

"An Ambulance in Rest" is the title of a charming article contributed by Major Andrew Macphail, C.A.M.C., to last week's *British Medical Journal*. It describes a brief period of quietude spent by the members of a Canadian field ambu-

Sir Arthur Currie's Message.

In the Dominion House of Commons on Friday of last week the Minister of Militia read the following message from Lieut.-General Currie:—

"Your message of congratulation is sincerely appreciated by all ranks of the Canadian Corps. Tell our comrades in Canada and the Militia that, in addition to winning and consolidating ground of great tactical value, we have inflicted casualties on the foe at least treble our own. In repeated determined counter-attacks the flower of the German Army has been thrown against us, but our line has remained as unshaken as our own Rockies. Will not the pride which you say Canada has in her sons inspire her to send us men to take the place of those who have so nobly fallen?"

NEWFOUNDLANDERS' ENDURANCE. The Crossing of Floating Swamp.

In proportion to their numbers there are no troops in the Army which have earned for themselves a finer reputation than the Newfoundlanders (writes Mr. H. Perry Robinson, the special correspondent of the *Times* and *Daily News*). Nothing could have exceeded the splendour of their sacrifice on July 1 last year on the Somme. Nothing could have been sterner or better than their later fighting there upon the Switch Line. This year at Arras, beyond Monchy, they behaved magnificently, and, as I told in my despatches at the time, inflicted relatively colossal losses on the enemy. Once more in the recent fighting here they have done superbly.

It was in the advance beyond Steenbeek, when they were among the troops whose task was to cross some 500 yards of what is known as "Floating Swamp" to attack a strong fortified position with concrete defences on the farther side. Floating Swamp is the name for a quaking morass which gives no foothold anywhere, but heaves and oozes and bubbles to unknown depth as you wade through it.

Swept by Machine-Gun Fire.

The swamp itself was a fearsome thing to breast, and it was swept by machine-gun fire, which, however, spluttered blindly

lance unit in a French village in August, 1915. The sketch is full of happy touches reminiscent of the hospitality and dainty fare provided, as well as clever character sketches of both the inhabitants and the Canadian visitors.

"During those few days," remarks Major Macphail, "each officer manifested his especial genius for making himself comfortable in his own way. The adjutant smoked cigars, and heard never a word that was said to him. The young major made a methodical acquaintance with every inhabitant of the town. First, he determined the main family lines; then he investigated the collateral branches and ascertained their relationship. He entered into the joys of the young and the sorrows of the old. He visited the sick, and did not complete his ministrations until he was summoned to the convent to consult and advise upon the condition of the *refugiés* who were sheltered within its walls. The colonel enjoyed himself in his orderly room poring over establishments, writing his war diary, checking nominal rolls, and verifying accounts. The officer with the Italian voice spent whole days visiting the shops to seek out the strange foods which are affected in foreign parts. One captain passed the time with his stethoscope. It was nearly a year since he had sufficient leisure to expend upon a case and examine the patient to his satisfaction. The sounds he heard seemed to give him as much pleasure as if they originated in an old and well-played violin."

THE VALUE OF "CANADA."

A leading firm of library agents in London recently forwarded to our publishing department a letter received from one of their clients, the Librarian of one of the Provincial Governments, which said: "I trust that you will by some means or other obtain for the Provincial Library the numbers of this important journal issued from March 24 to May 5, in order that our files may be preserved intact. If you are familiar with *Canada* you will understand why it is so interesting to Canadians at this particular time. The publication in question possibly contains more information about our forces at the Front than is given by any other publication in the Empire. In the circumstances I know that you will use every effort to find the missing numbers."

A PICTURE WITH A STORY.

The American Girl and the Canadian Mascot.

A pleasant little story attaches to the publication in an American paper of a photograph taken by the Canadian official photographer at the Front, showing Col. Ironsides and his dog Gibby—the mascot of a Canadian unit—which has survived the effects of being twice gassed.

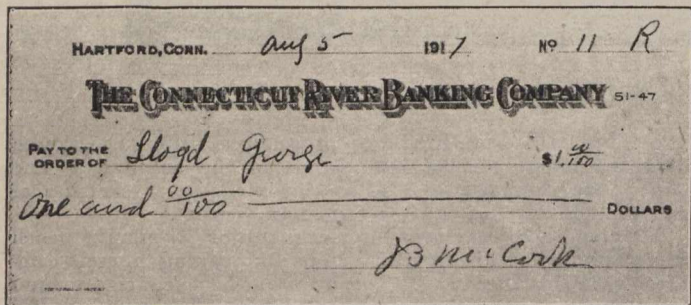

Dr. J. B. McCook, of Hartford, Conn., has written to the War Office stating that a little girl there was so concerned at

the idea that a dog so much like one she lost should be twice gassed that he promised to send on money for the dog's war equipment. So he forwarded the cheque which we reproduce,

DR. MCCOOK'S CHEQUE.

with the request that the War Office should see that it went for the making of a special gas mask for the canine in the picture.

The cheque has been passed on to the Canadian authorities, who have sent it to Col. Ironsides.

RETURNED FROM SWITZERLAND.

The following Canadian soldiers have returned to this country via Switzerland as repatriated prisoners-of-war:—21334 W. Allen, Manitoba; 51113 C. Cumberland, P.P.C.L.I.; 9809 W. F. Mesley, Eastern Ontario; 16705 S. S. Trumpour, B.C. Regiment.

V.C. OFFICIALLY REPORTED KILLED.

Pte. John George Pattison, of the Alberta Regiment, who was recently awarded the Victoria Cross, and who was reported missing on June 3, is now reported killed. Pte. Pattison, who was 42, and who came from Calgary, single-handed attacked and put out of action an enemy machine gun which held up the advance of his company. The full text of his heroic deed appeared in *Canada* of August 11.

A verdict of "Wilful murder" was returned against a Montenegrin soldier in the C.O.M.F., named Layovitch, at the inquest at Eastbourne last week into the death at Seaford last May of Pte. J. P. Wilde, Canadian Infantry. Layovitch was previously sentenced to three years' penal servitude for attempted murder.

The question was dealt with in a general way and some very interesting points were touched upon. Arrangements for the debate were made by Mr. H. Snell and Capt. T. ROYAL RED CROSS.—1st Class: Matron Bertha Willoughby. 2nd Class: Nursing Sister Georgianna McCullough.

* *

Matron Willoughby, who was subsequently received by Queen Alexandra at Marlborough House, along with Nursing Sister McCullough, belongs to Kingston, Ont., and came overseas with the First Contingent in 1914, and has seen extensive service in Egypt and France.

* *

Nursing Sister McCullough earned the Royal Red Cross for her splendid work in Salonica, where she saw many months' service. She comes from Ottawa, and also came over with the First Contingent. Miss McCullough's brother was recently killed whilst serving in the R.F.C.

* *

Brig.-Gen. Auckland Geddes had the honour of being received by the King at Buckingham Palace on Wednesday of last week, when his Majesty conferred upon him the honour of knighthood, and invested him with the K.C.B.

* *

The Marquis and Marchioness of Aberdeen and Temair have been staying with Mr. and Mrs. James K. Hackett at their summer cottage on the St. Lawrence. They were also guests of Col. and Mrs. C. N. Perreau at the Royal Military College, and of Brig.-Gen. T. D. R. Hemming at Barriefield Camp.

* *

Mr. Ernest E. Brydone-Jack, C.E., of Winnipeg, formerly of the staff of the University of Manitoba, has been appointed by the Dominion Government Superintendent of Engineering in Western Canada.

* *

Miss Georgina Pope, R.R.C., senior matron in the Permanent Nursing Service in Canada, and sister of Sir Joseph Pope, of Ottawa, has arrived in this country, prior to taking up duty in France. Miss Pope was awarded the Royal Red Cross for her services in the South African War.

* *

The special service decoration of the Navy League has been conferred on Mr. W. G. Ross, Chairman of the Montreal Harbour Commissioners, in appreciation of his work in raising money for the British Sailors' Relief Fund.

Brig.-Gen. Archibald H. Macdonnell, C.B., C.M.G., D.S.O., whose retirement from active service in France is announced, and whose portrait we reproduce, is one of the senior officers belonging to the Canadian Permanent Force who have seen almost continuous fighting in France and Flanders during the present campaign. He went to France in command of the Royal Canadian Regiment (a unit of the Permanent Forces of Canada), and in April, 1916, when General Watson was appointed

BRIG.-GEN. A. H. MACDONNELL, C.B., C.M.G., D.S.O.

to the command of a Division, Col. Macdonnell was given a Brigade. It was General Macdonnell's Brigade that captured Courcellette, during the heavy fighting on the Somme in the autumn of 1916. For his part in that action he was complimented by the Commander-in-Chief, and his services have been officially recognised by the bestowal of the Orders indicated. He was invested with the insignia of a Commander of the Bath by his Majesty on Wednesday of last week. General Macdonnell served in the South African War and in several West African campaigns. The strain of continuous service in the field, however, has told on his health, and consequently General Macdonnell has vacated his command to make room for a younger man. The General, who is a brother of Mr. Claude Macdonnell, M.P. for Toronto, and cousin of Major-General A. C. Macdonnell, is a bachelor, and is extremely popular with all ranks, and, despite his position, was a familiar figure in the trenches.

* *

Lieut.-Col. C. L. Flick, C.M.G., of Nicola, B.C., late of the 31st B.C. Horse, has returned to duty in Mesopotamia. At the beginning of the war Col. Flick transferred from the Canadian Cavalry to the Imperial Forces, and commanded a battalion of the Essex Regiment in Gallipoli, where he distinguished himself, and where he was wounded. He afterwards proceeded to Mesopotamia, and took command of a bat-

talion of the Devons. He was invalided to England with sunstroke some time ago.

* *

Col. A. Hodgetts, C.M.G., Canadian Red Cross Commissioner, has returned to his headquarters at 14, Cockspur Street, London, S.W., from a visit to the hospitals at Eastbourne, Hastings, Shoreham, Shorncliffe, and Folkestone.

MOOSE JAW.—The Railway Board has issued a judgment in favour of the application of the Boards of Trade of this city and of the town of Rosetown for an order directing the Canadian Northern and Canadian Pacific railway companies to provide transfer facilities between the two railways at Rosetown.

YORKTON.—There were over 30,000 paying visitors at the opening of the 30th annual fair here.

ALBERTA PROVINCE.

EDMONTON.—The Dominion Government has increased the amount to be spent in Canada for the furtherance of agricultural knowledge to \$1,100,000, of which \$66,965 is allocated to Alberta. The only Government experimental farm to be started in the Dominion since the beginning of the war is to be put into operation at once at Beaver Lodge, twenty-five miles from Grand Prairie, Peace River.

CALGARY.—The Great War Veterans' Association has elected Mr. F. W. Greer president of the local branch, Mr. R. Parker vice-president, and Mr. J. W. Mitchell secretary.

BRITISH COLUMBIA.

VICTORIA.—Through the instrumentality of the Duke of Connaught portraits of King Edward and Queen Alexandra and of their present Majesties have been received from the Imperial authorities and placed in Government House.

VANCOUVER.—Mrs. Ralph Smith astonished her audience at an I.O.D.E. meeting here by telling them that 110 languages were spoken in Canada. In Vancouver about 47 languages were in use, and at one school there were children of 22 different nationalities. When the honours in that school came to be distributed, 75 per cent. of them went to the foreign-born children. Mrs. Smith will be a candidate at the next general election.

NORTH VANCOUVER.—The North Shore Iron Works of this city, which company was awarded a large order by the Imperial Munitions Board for machinery for the new ships being built under the direction of the Munitions Board, have taken out plans for an enlargement of their works.

—Mayor Vance states that the time has come for this city to adopt a name which shall not give the idea that the city is a mere suburb of Vancouver. He suggests that henceforth the city should be known as Burrard.

NEW WESTMINSTER.—Officers of the Grand Masonic Lodge of British Columbia have been elected as follows:—*G.M.*: D. D. Corsan, Fernie; *D.G.M.*: John Shaw, Nanaimo; *S.G.W.*: S. J. Willis, Victoria; *J.G.W.*: C. A. Welsh, New Westminster.

CRESTON.—The Board of Trade here has a scheme for reclaiming 25,000 acres of land in the Kootenay River Valley, which would employ many returned soldiers and provide them with rich land to cultivate.

Major Lambert Dumont Laviolette, who was wounded at Courcellette, has died at Montreal, according to a *Daily Record* cablegram.

The wife of Pte. Thos. Wylie, of the C.O.M.F., was knocked down by a public motor bus in High Street, Hythe, and received injuries which proved fatal.

The Eskimos who were brought to Edmonton from the Arctic Circle—a distance of 2,000 miles—by the R.N.-W.M.P., on a charge of murdering the Rev. Father Leroux, a missionary, three years ago, have been found guilty (says a *Daily Record* cablegram). The jury, however, made a strong recommendation for mercy, on the grounds of ignorance and superstition. After the Judge had communicated with the Department of Justice at Ottawa, the Eskimos were allowed to return home, with a warning and advice from the Court.

Success attends very largely the work of the training ship *Arethusa*, the office of which is at 164, Shaftesbury Avenue, London, W.C.2, but now and then it secures exceptional success. One old boy during last year secured the Second Mate's Certificate, and was awarded a sextant for passing this examination. Another gained a commission in the Royal Navy. It is a typical case of advancement. From the *Arethusa* he entered the Royal Navy, and while at Shotley secured the watch for general proficiency, competed for by 2,400 boys. Pressing on and upwards, he received the Distinguished Service Medal at Gallipoli, and is now Flight Sub-Lieutenant in the Royal Naval Air Service. No one need hesitate to support a work of this kind.

SASKATCHEWAN SOLDIERS !!!

I desire to announce to my friends that I have been nominated as the soldiers' representative for the Saskatchewan Legislature.

I enlisted in September, 1915, as a private in the 53rd Battalion, C.E.F., and rose to be C.Q.M.S.

I returned to Saskatchewan to take up my appointment as Quartermaster in the 232nd Battalion, C.E.F.

Two years as a private, non-Com. and officer enables me to know what the soldier needs.

I stand as a Conservative in opposition to the Premier, who disfranchised all soldiers from voting in their home constituency and was thus able to defeat General Embury for Regina.

Would the result have been the same could Regina soldiers have voted?

Where would the votes of the 28th have gone?
Now I appeal for them.

A. J. MANVILLE, Captain.

Applications for Homestead Patents—Notes on Officers.

THE attention of any member of the Canadian Forces who has filed on a homestead, or who has taken up a pre-emption or a purchased homestead, is directed to the notice bearing on the same which recently appeared in General Routine Orders.

By Order-in-Council passed on July 9 last, an entrant who has completed the conditions of his entry and is entitled to the issue of Letters Patent for a homestead, pre-emption, or purchased homestead, but who, by reason of his services as a member of any of the military or naval forces of the Allies, is unable to make the application for such Letters Patent in person as provided by the Act, may appoint a legally authorized attorney, from whom the Minister of the Interior shall receive the application of the entrant and deal with the same in like manner as though it had been made by the entrant himself in person. The form of power-of-attorney must be signed by the applicant in the presence of his C.O., who must witness the same. Applicants, it is suggested, should secure the assistance of an officer possessing legal training in completing the power-of-attorney.

Recent casualty lists contain the names of ten soldiers of the Newfoundland Regt. who have been killed or have died of wounds—two in Germany—and 67 prisoners.

A branch of the Canadian Club, as it exists in Canada, is now being organized among the Canadian officers stationed in the Shorncliffe area. The scheme has the full approval and support of Major-General S. B. Steele, C.B., M.V.O. (G.O.C. Troops, Shorncliffe), and Col. Chas. A. Smart, C.M.G. (G.O.C. Canadians, Shorncliffe), as well as the hearty support of the brigadiers and the other commanding officers in the locality.

The Exhibition of Canadian Battle Pictures at the Grafton Galleries on Monday enters the last week of its run. The close of the exhibition, which still continues to attract visitors in such numbers that at times it is difficult to accommodate them, has twice been postponed owing to its wonderful success. Recently the show has received additions in the shape of a portrait of Lieut.-General Turner, V.C., and new pictures of recent events at the Front.

Canadian Relay Team Beaten.

One of the finest athletic struggles to take place this season was seen at Ilford last Saturday, when the Surrey A.C. and a Canadian team met in a 2½ miles relay race. The English team had the assistance of A. H. Nicholls, the international champion, and his fine running enabled his side to eventually win by 17 yards in 9 min. 27 3-5 secs. Nicholls only beat Gnr. Phillips two yards in the first mile of the relay, but Sgt. Fraser and Lieut. Gardner lost ground, and when Sgt. Schaefer took the last furlong he had to wipe out a handicap of nearly 20 yards. This handicap proved to be too great, although Schaefer made remarkable running, and must have come very near record for the distance. Sgt. Schaefer won the open "hundred" by inches; and in the open mile L.-Cpl. McNiven was beaten by the international champion.

The winners of the half-mile novice relay race at Stamford Bridge on Saturday week were Lieuts. W. E. Baker, J. H. Rogers, A. Brownlee, and W. O. Reid, from the Canadian Training School, Bexhill.

push-ball match was won by the Canadians, who had as their opponents the "Tank Boys," by 2 goals to nil.

The deferred high jump for officers in connection with the Canadian Reserve Cavalry Gymkhana in Radnor Park, Folkestone, on August 11 (see centre double-page), took place in the Riding School at Somerset Barracks, Shorncliffe, on Wednesday afternoon of last week. Major G. Robinson, M.C. (Broadview, Sask.), second in command of "D" Squadron (Canadian Light Horse Res.), C.R.C.R., cleared 6 ft. 1 in., and won first place. The second and third were, respectively, Lieut. G. F. Berteau (Toronto), "A" Squadron (R.C.D. Res.), and Lieut. A. L. Scott, "C" Squadron (Fort Garry Horse Res.), who each cleared 5 ft. 10 in. The prizes for this event were presented by Mr. R. G. Wood, J.P., of London House, Guildhall Street, Folkestone.

Elie Lalumière, who is in custody in Montreal (says a *Daily News* cablegram), declares that two men, named Leduc and Monette, had planned to shoot Baron Atholstan, but that he (Lalumière) unloaded their revolvers before they could make the attempt, and afterwards persuaded them to dynamite Lord Atholstan's house instead of shooting him. Two days later the Cartierville outrage was planned and carried out. Leduc was on Monday pursued and cornered at the village of Lachute, but committed suicide by shooting himself.

LONDON, Tuesday.

There has only been a light volume of business on the Stock Exchange during the week. There has been a lack of sustained activity in the Canadian group, as elsewhere. Among the gilt-edged issues of the Dominion, the Old Fours, after allowing for the interest deductions, are rather higher at 80. The 4½ per cents. hold at 93½.

In the railroad group, Canadian Pacifics have kept close around 179½ throughout the week. Grand Trunk junior stocks have further dropped ½ to ½, and the 1st Preferred at 64½ is a point lower. The company's earnings for the concluding ten days of August were £11,500 heavier than for the corresponding period last year. Canadian Northern issues have not varied.

As regards land shares, Hudson's Bays, after allowing for the dividend deduction, are firm at 7 5-16. Lower-priced shares have continued to mark time.

Industrials have kept in the background, but they have displayed some features of cheerfulness. Canadian Cars have risen 5 to 55, the Preferred being unchanged at 95, after having been up to 100. The recent mysterious movements in these issues have aroused some comment in financial circles. Dominion Steels, after a further advance, have reacted slightly to 67. There is no change in Steel of Canada. Canadian Marconis remain around 9s. 6d. There has been a set-back of 5 to 295 in City Services.

Brazilian Tractions, though no higher, are steadier around 47, reflecting, with other Brazilian securities, the increased stability of the Rio Exchange. Mexico Trams have reacted 4 to 35, and Mexican Light and Power issues are 2 to 5 points down.

A further spectacular rise in the price of silver metal has not affected the Canadian silver mining shares. Casey Cobalts at 9s. 3d. are 3d. down, and Mining Corporation of Canada, around 16s. 6d., are about the same.

OUR TORONTO LETTER.

TORONTO, August 18.

The most noticeable feature of Stock Exchange business during the past few days has been the activity in Spanish River. Both the Common and the Preferred have advanced, the former to 18¾ and the latter to 53¾. This is probably due to discounting the expected favourable report for the past year, and the movement is accompanied by various dividend rumours. It is suggested, for instance, that the company has now earned all its arrears of Preferred dividends, and that it will shortly pay one year's arrears of these dividends. The company, of course, is one of the largest, if not the largest, producers

of news-print in Canada, and, as such, must have shared importantly in the good times of the industry; but it must not be overlooked that its total arrears of Preferred dividends now amount to \$1,406,811. Also, while the company is now regularly paying its bond interest, it owes its bondholders \$1,356,429 on account of Deferred interest payments, has \$1,460,000 short term notes which will have to be provided for before long, and its last balance-sheet showed a deficiency account of \$1,335,399. The suggestion that it can yet have made up its Preferred dividend leeway seems, therefore, hardly credible.

Early in the week there were some signs of a broadening of interest in industrials, transactions occurring in some low-priced stocks which had been inactive for some time. Thus a transaction took place in Sawyer-Massey Common at 10, while another in Ames-Holden Common at 16 shows a little improvement. The Steel stocks have fairly maintained their strength, with the exception of Scotia, which is now several points below the high point which it recently reached. A settlement of the steel price controversy would probably improve the demand for the Canadian steel stocks, which are largely influenced by New York, while a definite statement in regard to income taxation would also favourably affect the market. Steamships have been firm, but Civic Power and Quebec Railway, though active, have been somewhat heavy. Traction issues have been firm, Winnipeg Electric improving to 40, or 4 points above the low point recently recorded.

Among other current prices, Scotia is 104½, Dominion Steel Corporation 62¾, Steel of Canada 57¾, Cement 62, Canadian Car Common 32, Preferred 70, Canadian General Electric 102½, Locomotives 61½, Dominion Bridge 147, Civic Power 74½, Riordon 120¾, Brompton 46, Smelters 29, Quebec Railway 20; the War Loans are quoted: 1925, 97¾; 1931, 96½; 1937, 95½.

The mining markets have continued to be active, and show considerable strength. Among the gold stocks Hollinger at \$4.50, Dome at \$10, McIntyre at \$1.55, Newray at .71, and Kirkland Lake at .50, all show improvement. As a result of the advance in the price of silver, silver stocks have been in some demand. Adanac has improved to 17½ and Beaver to 36½. Nipissing recently sold up to \$8.10, closing at \$8, Temiskaming is steady at .32½, Kerr Lake is \$4.50. The Mining Corporation of Canada recently sold 125,000oz. at 90 cents.

Mr. Fred. C. Salter, European traffic manager of the Grand Trunk Railway system, has returned from a business visit to Havre, Bordeaux, and Marseilles.

HONOURS FOR CANADIAN AIRMEN. DISTINGUISHED SERVICE CROSS.

Flight Sub-Lieut. (Actg. Flight Lieut.) Alfred Williams Carter, R.N. (Calgary, Alberta).

This officer has at all times led his patrols with great courage, skill, and pertinacity, often engaging superior numbers of hostile aircraft. On July 22, 1917, he engaged single-handed for half-an-hour five enemy scouts, which he prevented from carrying out a reconnaissance. On July 24, 1917, with one other pilot, he attacked four enemy aircraft, one of which he drove down completely out of control.

[Actg. Flight Lieut. Carter, D.S.C., is the only son of Mrs. D. Carter, of Calgary, Alberta, and a nephew of Dr. Adam Shortt, Canadian Civil Service Commissioner. He joined the Royal Naval Air Service in June last year, and has served in France since November. His cousin, Mrs. Clarke, is a voluntary worker at the Maple Leaf Club in Elizabeth Street.]

C.P.R. AND C.N.R.

Statement by Lord Shaughnessy.

On being asked to make a statement in connection with the proposed acquisition of the Canadian Northern Railway by the Canadian Government, Lord Shaughnessy, President of the Canadian Pacific Railway, made the following reply (says *Reuter's* Montreal correspondent):—

"I wish to deny most emphatically the statement, evidently inspired, which has been published in a number of newspapers, that the Canadian Pacific Railway Company is offering organised opposition to the Government's proposals about the Canadian Northern. Up to the present time no effort of any kind has been made by the Canadian Pacific Railway Company to influence the vote of a single member of the House of Commons or of the Senate upon the measure now before Parliament. It is true that the acquisition of the Canadian Northern Railway by the Canadian Pacific Railway was discussed by representatives of the parties concerned, but the discussion took place at the suggestion of members of the Dominion Cabinet. After a time it was evident that no transaction was possible and the negotiations were dropped.

"The fate or destiny of the Canadian Northern Railway is not a matter of special moment to our company as a common carrier, but the company, having enormous interests in Canada, naturally views with apprehension the possibility of the payment of an excessive price for the alleged equity of the holders of the majority of the stock, and feels that some less speculative and more direct means should have been used to fix the amount rather than the very uncertain process of arbitration. It is to be hoped that if the transaction is carried out the country will not in consequence be saddled with heavy liabilities which have not up to now been disclosed, and that in fixing the amount to be paid under arbitration proceedings no consideration whatever will be paid to personal investments in unfortunate ventures, such as coal-mines, lumber mills, blast furnaces, and other works alleged to have been undertaken in the interests of the Canadian Northern Railway's enterprises, but which are in fact private speculations."

Capt. (Act. Major) H. H. Gribbon, Hampshire Regt., a grandson of the late Sir Hugh Allan, of Montreal, has been mentioned in despatches for services in Mesopotamia, and awarded the D.S.O. Lieut. E. K. Campbell, R.A.M.C., whose wife is a grand-daughter of the late Sir Hugh Allan, has been promoted Major.

INVESTMENT NOTES.

In connection with the proposals for the taking over of the C.N.R. by the Government an interesting statement, tabled in the Canadian House of Commons in the middle of August, shows that the total assets of the Canadian Northern Railway on April 30 were estimated at \$581,084,678, showing a surplus of assets over liabilities of \$37,494,870. The estimated cost of completing the lines and terminals whose construction it is desirable to proceed with before the end of the war, is given as \$4,188,099, to meet the cost of which there is cash in trust accounts to the amount of \$3,683,831, together with Government guaranteed securities amounting to \$217,160 and C.N.R. debentures to the value of \$287,566. On construction account the company owes \$999,566. It is estimated that for betterments and rolling stock \$6,590,000 will be required in 1918, \$8,355,000 in 1919, and \$8,317,500 in 1920. Up to date the Government, under the legislation of 1913, advanced in 1916 and 1917 a total of \$2,634,500 to the C.N.R. interest account. In connection with the terms under which the system is to be taken over, the Montreal *Financial Times* recalls that the company's profit and loss statement for 1914 showed a net surplus over all fixed charges, of \$304,505, and suggests that if strongly financed the system is capable, under conditions of moderate general prosperity, of earning all its fixed charges and providing a very substantial sum annually towards the reduction of its floating liabilities.

* * *

It is pointed out that the Government, as the stockholder of the C.N.R. Co., will own all the company's assets, including its large land holdings. The statement above referred to shows that the company at present holds 843,127 acres of land in Manitoba and Saskatchewan, 2,000,000 acres in Ontario, and 402,860 acres in Quebec, the land in Saskatchewan being valued at \$15 per acre, and that in Ontario and Quebec at \$3 per acre. The estimated total value of unsold lands is \$19,855,485, while deferred payments receivable amount to \$7,140,996. The total land assets of the company are valued at \$29,405,165, against which mortgages amount to \$21,251,073.

* * *

A correspondent, writing us in regard to the 4 per Cent. Bonds of the Grand Trunk Pacific Branch Lines Co., reminds us of the attractions which these bonds possess for those who require a Canadian investment. These bonds were issued to finance the construction of branch lines in Saskatchewan and Alberta as feeders for the Grand Trunk Pacific Railway, and besides being secured by first mortgages on these lines are unconditionally guaranteed as to principal and interest by the Provinces mentioned. £2,032,800 of these bonds have been issued under the guarantee of Saskatchewan and £738,600 under that of Alberta, all of which is repayable at par in 1939 excepting £238,600, which, guaranteed by Alberta, was issued in 1913 and is repayable in 1942. The bonds, with either the Saskatchewan or Alberta guarantee, can now be purchased at about 72. At this price they afford an annual income yield of well over 5½ per cent., while if to this is added the proportion of the increment at redemption the yield is over 6½ per cent. For those who desire a fairly long term Government-guaranteed investment for their money, these bonds, which afford a yield of 5½ per cent. and a bonus, in 22 years, of nearly 40 per cent. on the capital invested, would seem to be highly attractive.

* * *

The eleventh annual statement of the Western Trust Co. shows that for the year which ended Jan. 31, 1917, the company's net earnings were \$81,058 after making full provision for doubtful accounts. This, with the \$43,278 carried forward from the previous year, made a total of \$124,336 available for appropriation. Payment of dividends at the regular rate of 5 per cent. per annum absorbed \$50,205. \$25,000 was written off the company's real estate holdings, thus bringing this book reserve, which is not shown on the balance sheet as an asset, to \$49,702, and the sum of \$49,086 is carried forward into the current year. The report states that collections for the year have been well maintained, and that owing to the increased demand for farm lands it was possible to realise on many farms, so that a number of estates whose only remaining assets were farms lands were successfully closed and the residue distributed.

Ontario after the War—WATER POWER.

The whole industrial success of Ontario may be said to depend upon the development of its water power.

The water power of Ontario is cheapened and made generally available by Government control and operation, and nearly every city and town in Ontario has already been provided with hydro-electric power both for lighting and manufacturing purposes.

The importance of this phase of development may be realised from the fact that Ontario to-day has 16,000 factories depending upon water power, with an annual output amounting to \$579,000,000.

The enormous reserve of Ontario's water power may be realised from the fact that, of the many millions of horse-power available, only about 10 per cent. has, up to now, been brought under control.

NOTES ON INVESTMENTS.

Sir Robert Borden and Canadian Railways. Another step in the direction of bringing the Canadian railway companies into closer communion with the Government was indicated by Sir Robert Borden, in his speech at Ottawa on the railway situation. The *Times* correspondent, in cabling this important information, says that the Canadian Premier in outlining what he regarded as a necessary railway policy to meet the situation in the future, declared that "the railway companies and the Government should get together in the immediate future and deal with the possibility of having a system of co-operative management of the railways of the Dominion. Without some such system," he said, "there would continue to be an unnecessary duplication of lines. Co-operative management would result in a reduction of capital expenditure, and also," he claimed, "in operating expenses," and Sir Robert indicated that this would be the policy of the Government if it were returned in the coming election. That some drastic measures are required to cope with the present situation is evidenced by the rapidity with which expenditure is rising month by month. The returns for July were pregnant with significance, the expense ratio of the C.P.R. being 71.88 per cent. against 67.20 per cent. in the corresponding month of 1916, the respective figures in the case of the Grand Trunk Railway being 79.30 per cent. and 70.46 per cent. The C.P.R. is now only \$1,139,000 to the good in the matter of net revenue for the seven months, and the Grand Trunk is no less than \$500,800 to the bad.

* * *

A Disastrous Showing for July and for 1917. Analysing the figures for July in the usual way, we arrive at the following results:—

| July. | Gross Receipts. | Working Expenses. | Net Revenue. |
|---------------------------------------|-----------------|-------------------|--------------|
| Grand Trunk Railway ... | £138,300 inc. | £150,900 inc. | £12,600 dec. |
| Grand Trunk Western ... | 5,250 " | 42,700 " | 37,450 " |
| Detroit, Grand Haven and Milwaukee... | 2,900 dec. | 15,550 " | 18,450 " |
| Totals... | £140,650 inc. | £209,150 " | £68,500 " |

It is of interest *en passant* to note that the actual gross receipts by the companies for the month of July were £700 in excess of the record £1,000,000. How the companies have fared for the seven months of the present year for the Canadian railways is shown in our second table:—

| Jan.—July. | Gross Receipts. | Working Expenses. | Net Revenue. |
|---------------------------------------|-----------------|-------------------|---------------|
| Grand Trunk Railway ... | £776,400 inc. | £984,450 inc. | £158,050 dec. |
| Grand Trunk Western ... | 23,650 " | 288,350 " | 264,700 " |
| Detroit, Grand Haven and Milwaukee .. | 4,100 " | 82,150 " | 78,050 " |
| Totals ... | £804,150 " | £1,304,950 " | £500,800 " |

No words are required to emphasise the significance of these figures. It may, however, afford a melancholy interest to record the decline in net profits resulting from the uncomfortable progression in working expenses this year, and this we set out below:—

| Results Analysed Jan.—July. | Gross Receipts. | Working Expenses. | Net Revenue. |
|-----------------------------|-----------------|-------------------|--------------|
| January ... | £86,250 inc. | £93,500 inc. | £7,250 dec. |
| February ... | 37,000 dec. | 68,150 " | 105,150 " |
| March ... | 101,300 inc. | 125,850 " | 24,550 " |
| April ... | 41,100 " | 177,600 " | 136,500 " |
| May ... | 242,150 " | 357,550 " | 115,400 " |
| June ... | 229,700 " | 273,150 " | 43,450 " |
| July ... | 140,650 " | 209,150 " | 68,500 " |
| Totals ... | £804,150 " | £1,304,950 " | £500,800 " |

How the C.P.R. and the C.N.R. Fared in July.

In the case of the C.P.R., for the first time since February last, higher working costs have entirely obliterated the increase in gross receipts, a rise in the latter of \$1,130,000 being converted into a net loss of \$257,000. With the effect of the recent alarming increase in operative costs on this company's expense ratio we have dealt above. How changed is the position of the C.P.R. as compared with this time in 1916, when expenses were beginning to increase sufficiently to cause serious alarm, may be gauged from the fact that the expense ratio is now practically 72 per cent., or nearly 4½ per cent. up on the year. For the seven months of the current year all that survives as net addition to revenue out of a total gross increase of \$9,475,000, is \$1,139,000, or less than the average monthly gross gain of the seven months. If this kind of thing continues C.P.R. stockholders will begin to feel pleased that 3 per cent. of their 10 per cent. dividend is independent of the operations of the railway. The Canadian Northern Railway presents a distinctly dismal showing for the month under review. The total gross earnings for the period in question were \$10,700 higher than a year ago, but as it cost no less than \$303,200 to secure

this, the net earnings have suffered to the tune of no less than \$292,500. How changed is the position of this system also compared with last year is seen from the fact that in July the net revenue was \$1,197,400, with a mileage less by 138 than this year, as compared with only \$904,900. Such a showing as that made by the Canadian railways for July can but have an alarming effect upon the minds of stockholders, and make them wonder when the apex of this unpleasant upward movement in expenditure is likely to be reached.

CANADIAN INFORMATION.

Openings for Settlers and Opportunities for Business or Investment.

Owing to the severe restrictions on the use of paper and the necessary precedence in our reduced pages to all the news concerning the Canadian Overseas Forces, it is not possible to publish the information we would desire in regard to the above subjects. As the Editor of "Canada" is desirous of giving the fullest assistance and information to anyone wishing to be informed of suitable openings in Canada, either for settlement or as a field for the investment of his capital, we will reply as fully as possible to any letter we may receive from enquirers, and will give the latest information and data, and suggest the best sources from which to obtain local or particular information. An enquiry coupon from the current issue of "Canada" must accompany all letters of enquiry.

ANSWERS TO CORRESPONDENTS.

N.B.—All letters asking for information or advice must contain an enquiry coupon from the current issue of "Canada," except when the enquirer is an annual subscriber.

Detailed replies by letter are not made except to annual subscribers. Non-subscribers desiring detailed or exhaustive replies by letter must enclose a P.O. for 5s., which will cover three questions.

Copies should be kept of questions, and these should be numbered when more than one is asked. Enquiries regarding investment matters should be marked "Financial" on the left-hand top corner of envelope.

The fullest particulars of special investment opportunities in Canada mentioned from time to time in the column headed "Investment Notes and Opportunities" are supplied on request to readers who are annual subscribers.

Enquiries by telegram in regard to new issues can be made if a reply is prepaid, but this privilege is extended only to annual subscribers.

E. H. (Bramshott).—You should write to the Hon. W. R. Motherwell, Minister of Agriculture, Regina, and in the meantime can obtain some information from Lieut.-Col. J. Obed Smith, at the Dominion Emigration Offices, 11, 12, 13, Charing Cross, London, S.W.1, or to Mr. J. A. Reid, Agent-General for Alberta, Trafalgar Buildings, Charing Cross, London, S.W.1.

SALMON (Glasgow).—The reports as to operations generally of packing companies on the Pacific Coast are not very satisfactory, but the full results of the season have not yet been made public. On the Fraser the total pack was 130,000 cases, as compared with 719,000 cases in 1913, the last "big" year.

C. S. (Liverpool).—Negotiations are, we understand, making satisfactory progress, and there is in the near future a possibility that a thoroughly experienced man will be placed in charge. It is said that contracts on hand for one of the subsidiary companies will absorb the full working capacity of the plant of same well on into 1918.

J. J. B. (Ashford).—The loss of your leg 3 in. below the knee will make you entitled to an annual pension of \$192. This is the scale paid under Class IV. of the Pensions Regulations, which places disability at 40 per cent. of total disablement. The additional pension you will be entitled to for disability following the loss of thumb and forefinger of the left hand will be determined by the Pensions Board after receiving the written report of the medical examiners.

J. G. C. (Seaford).—Lieut.-Col.'s pay, \$5; field allowance, \$1.25; messing ditto, \$1; command pay, \$1; separation allowance, \$2—\$10.25. Lieutenant: Pay, \$2; field allowance, 60c.; messing ditto, \$1; separation ditto, \$1—\$4.60. See paragraph on page 240 of last week's *Canada*.

J. R. W.—The particulars you send are not sufficient for us to give you a final answer. Certain ranks of non-commissioned officers, provided they secured such promotion in France, may not be "reverted" without a court-martial, which they may demand. The best course for you to adopt is to put in a written complaint to your commanding officer, who is compelled by military regulations to forward such complaint to the higher authorities. If he fails to do so, address your complaint direct to the Brigade Commander. Let us know how you get on.

THE WESTERN HARVEST.

Favourable Weather Conditions.

The High Commissioner for Canada, 19, Victoria Street, London, S.W., has received the following information by cablegram from the Minister of the Interior at Ottawa, under date August 30:—

There has been a wonderful improvement in the crops in the three Prairie Provinces, due to favourable weather conditions. Threshing operations have been started in Alberta.

In British Columbia the indications are favourable for good crops. Apples, apricots, peaches, pears, and plums compare favourably with the returns last year, and vegetables are cropping well.

A large number of prairie towns are organising "stooking bees." Parties of business men and others go out in the evenings to neighbouring farms and help in stooking the grain.

Five new Manitoba Government elevators of the latest type will be ready for this season's grain. Each has a capacity of 30,000 bushels. Three of them are on the Canadian Northern Railway and two on the Canadian Pacific Railway.

The prospect which is entertained of the crops exceeding expectations has improved business. Wholesale trade is maintained in good volume.

THE THEATRES.

Canadian soldiers on leave in London who wish for a bright, cheerful revue could not do better than visit the Garrick Theatre to see Albert de Courville's production, "Smile!" Its title is indicative of the type of the entertainment, and its lengthy run bespeaks the public verdict.

"Inside the Lines" continues the attraction at the Apollo Theatre. This spy-play is essentially the sort of theatrical fare to be appreciated. It is topical and well produced, and its happy "Americanisms" will make appeal to British, Canadians, and Americans who have not yet availed themselves of the opportunity of seeing one of the best entertainments being staged in London.

Full houses afternoon and evening are testifying to the popular interest in the really wonderful film "Intolerance," which purports to portray Love's struggles against oppression. Babylon in the time of Belshazzar and Cyrus, the road to Calvary, the Massacre of St. Bartholomew and the operation of a modern strike, are vividly presented. The intense realism of the pictures, and the dramatic unfolding of the story, holds the unflinching attention of the audience. The addition of an orchestra and chorus lends to the attraction of a spectacle which is well worth seeing.

The popularity of good, sound problem plays among all ranks of Canadians was never more strongly proved than last week, when the Haymarket play, "General Post," drew crowded audiences of officers and other ranks to each of the eight performances at the Pleasure Gardens Theatre, Folkestone. Next week, "My Lady Frayle," the Shaftesbury Theatre musical comedy, should prove highly popular with the Canadian troops. The Lyceum drama, "Seven Days Leave," will be presented during the week commencing October 15.
