

THE ACADIAN.

WOLFVILLE, N.S., APR. 26, 1918.

Mr. Phileas Rice, of the Lennox Power School of the Spoken Word will give a recital in College Hall, Friday evening, May 3. Mr. Rice will read at the request of Miss Gates "Peaceful Valley" by Edward E. Kidder. This is a rural comedy made famous by Sol. Smith Russell. This is the play through which, more than any other, Mr. Rice's reputation was made. The following statement will show in how high estimate Mr. Rice's work is held.

"Few men on the American platform have been accorded a more notable ovation than was Mr. Rice at the New York Chatsqua. He read 'Peaceful Valley' to a large evening audience. Following the recitation he was called back twice by the applause. Two nights later he gave 'David Garrick' and at the close the Chatsqua Salute was started in the audience and widely taken up—a most unusual ovation, as Bishop Vincent usually starts the salute from the platform and it is given but a few times in an active season."

Mr. Rice appears for the first time in Wolfville under the auspices of the Athenaeum Society and the patronage of the Department of Oratory of Acadia Seminary. Realizing the many demands upon the purse at the present time the tickets have been placed, general admission, 25 cents. South Gallery, two rows reserved at 35 cents. Plan at Rind's.

Baby's Health in the Spring

The spring is a time of anxiety to mothers who have little ones in the home. Conditions make it necessary to keep the baby indoors. He is often confined to overheated badly ventilated rooms and catches cold which rack his whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. This will prevent cold, constipation or colic and keep baby well. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The sad news reached Wolfville on Wednesday last that Mr. John Hunter Stevenson had died on board the S.S. Maréta in Halifax Harbor just on the eve of his sailing for England. Mr. Stevenson spent over eight months in Wolfville and his many friends will be sorry to learn of his death. The remains were interred in St. John's cemetery, Halifax. Much sympathy goes out to Mrs. Stevenson and son as they start on their lonely voyage across the Atlantic.

A Timely Appeal.

We are the recipients of appalling war news. The war has been in progress for over three years. Our boys and those of our Allies have given their lives, their health, and all have suffered. The women of Belgium, France, Italy, Serbia, etc., have given more perhaps than have their men. Life we call the supreme sacrifice, but is it? Life after death we expect to be one joyous soul existence. It is more often the far easier alternative—death—than to go on bearing the burdens of earthly existence. We have read of them giving up honour, homes, children, wealth, health, loved ones—starving and ill. They have given their all, done their whole duty, while we have talked over our bit and only bit it has been for the majority of us. We have given Red Cross teas and subscribed to the Patriotic Fund, read the papers and kept at some touching incidents we have heard. We have all done that and had our souls stirred at addresses and lectures. There are people who are realizing and doing all in their power to help in this war. Many women are knitting and sewing, putting their best endeavours to the fore. All gratitude and honour to them is due. There are men who are giving their hard earned dollars, subscribing to the war loans, sending their boys because they themselves are unfit to do their utmost.

But—the majority of us are not in this list. We are asked to conserve food not as a country only but as individuals and if we are to win this war it is up to every one of us to stop our complacency and we must win for we are in the 'right' attitude and put our souls into the fight. Why are the Germans making progress? Their only thought, endeavour, prayer is to win the war, all else is as naught. They put a grim determination into it. Are the women in their towns having bridge parties, serving refreshments, having church teas, entertaining as though it were peace time? Indeed they are not, and it is a fact we should be most heartily ashamed of that men and women claiming the intelligence we do are trifling with time, money and food away. Thousands are starving, suffering and dying and in this country our heartlessness and selfishness becomes more ruthless. God is just and is with us, we say. We consider ourselves God's elect. Our civilization stands for all that is highest. We are justly proud of our moral national reputation. England has been the means of giving the world the high standards which we are fighting to retain. The time for individual sacrifice has arrived and if we do not heed the call of necessity

To Test Tractors for Farm Work and Road Making at Truro.

The Agricultural College Farm at Truro has a Ford Tractor with which several tests on various kinds of work have been made and they also have a shipment of fourteen of these machines which are shortly expected. It is hoped this shipment will have been received by then.

On Thursday, May and it is planned to have a Tractor Day at Truro, when the Ford and also the Cleveland Caterpillar type Tractor are to be tried out, especially with Road Machinery and at other kinds of work.

A great deal of interest has been shown in both these types of Tractor and the Cleveland is particularly well suited for soft or rough ground. Good on bad road haulng, as it lays its own track as it goes along.

Undoubtedly the test of these tractors will be instructive to all who can get there and it is hoped there will be a large attendance.

Tabernaec Missionary Concert.

A Sunday School concert at the Tabernaec usually fills the hall with an interested and appreciative audience of parents and friends, and Sunday evening, the 21st, was no exception. The singing and recitations were well sustained, and a recitation by four young girls in the picturesque setting of heathen nations drew the attention of all. The recitation of a small boy and the sweet singing of a small girl deserve special mention. A good collection was taken.

All who hope for the social and moral uplift of the community will promise so much for the future of the town.

To Help Win the War Producing Food

THE CANADIAN FOOD BOARD urges that at least one extra acre of cultivated crops be grown this year on every farm of Nova Scotia and from five to ten or more additional acres on the larger farms; and that every garden and every possible vacant lot in the towns and cities be cultivated.

To assist this, the Agricultural Production Committee of the Provincial Legislature aided in their policy by a grant from the Dominion Government announce the following—

- (1). Arrangements have been made for Farmers' Special Credit, by which Bonus Fide farmers may obtain loans payable after harvest from Banks for the purpose of purchasing seed and fertilizer.
- (2). To secure supplemental labour for farmers—all boys from 15 to 19 years are being recruited as Soldiers of the Soil. Over 2,000 are already enlisted. There are local representatives in every county centre who will supply where possible neighbourhood boys or women or other available labour. Farmers' application for such labor should be forwarded free of postage to Arthur S. Barnstead, Organizing Secretary, Food Resources Committee, Halifax. It is also recommended that every person or firm, such as lumbermen, who have teams of horses or oxen that could be spared at seeding time, should hire these teams with or without teamsters at reasonable terms to farmers, so as to increase the acreage of cultivated crops.
- (3). Business Firms and Co-operative Farmers' Associations making applications are guaranteed against loss on the unsold surplus of oats, wheat and barley seed. This has already resulted in a satisfactory extra supply of seed being available for farmers through the regular channels of distribution.
- (4). To supplement the supply of fertilizer in the hands of established companies, the Department of Agriculture has imported a substantial quantity of fertilizer to be sold, mainly in car-load lots, to centres where supplies are lacking.
- (5). Seeds for early maturing Beans, suitable for planting in Nova Scotia, have been secured and may be purchased at the Agricultural College, Truro, and other centres.
- (6). A Bonus is being given on all Two-furrow Plows brought into the Province up to May 1st this year, and purchased by Bonus-fide farmers; and a like bonus on Red Drill and Grain Planting Mills is given in the Cape Breton counties from Guysboro to Digby inclusive.
- (7). Seventeen Farm Tractors have been imported to be sold at a cost and more will be provided in order.

For further information and practical bulletins apply to the Secretary of Agriculture, Truro, or the Secretary of Industries and Immigration, Halifax.

The British, the Dominion and the Provincial Governments appeal to every farmer and every citizen of Nova Scotia to do his best.

Vast Issues Depend Upon the Welfare of Our Men!

Cheer Up and Thank God for the Y.M.C.A.

TRY to picture yourself in the muddy cold trenches after exciting days and long nights of mortal danger and intense nervous strain. Rushing "whiz-bangs" and screaming "cool boxes" are no respecters of persons. You are hit! But despite shock and pain you still can face the long weary trudge back to dressing station. Weary, overworked and depressed, you are prey to wild imaginations of that other coming ordeal with the surgeon. There are other "walking wounded," too. You must wait, wait, wait!

Up comes a cheery Y.M.C.A. man, the ever-present "big brother" to the soldier, with words of manly encouragement. Close beside the dressing station the good generous folk at home have enabled him to set up a canteen. He hands you biscuits, and chocolate or coffee.

Y.M.C.A. Red Triangle Fund \$2,250,000, May 7-8, 9 Canada-Wide Appeal

"In thousands of cases," writes an officer, "it was that first hot cup of coffee that dragged the man back to life and sanity." The tremendous helpfulness of the Y.M.C.A. as an aid to the "morale," or fighting spirit of the soldier is everywhere praised. No wonder the Germans make every effort to smash the Y.M.C.A. huts out of existence.

The Y.M.C.A. is everywhere. You first met the helpful manly Y.M.C.A. worker in camp, then on train and boat, at camp in England and in France, close to the firing line. Often he risks his life to reach you in the trenches. He has won the warmest praise from military authorities, statesmen—the King!

Have you a precious boy at the front? You cannot be "over there" to guide him away from fierce temptations of camp and city. You cannot comfort him in his supreme hour of trial. Your parcels to him are necessarily few. But the Y.M.C.A. thank God, is "over there," going where you cannot go—doing the very things you long to do—doing it for you and for him.

Will you help? This vast organization of helpfulness needs at least \$2,250,000 from Canada for 1918. For your boy's sake be GENEROUS!

This Club was organized in 1916 by some of the young married women of the town who were desirous of learning to knit. Weekly gatherings have been held and some splendid work accomplished both in knitting and in sending boxes to our Wolfville boys who are overseas.

The regular quarterly meeting of the Daughters of the Empire will be held at the Rectory on Thursday afternoon, May 2nd, at 7 p. m. The committee in charge have decided to contribute a specified sum of money. Instead of serving tea as suggested at the last meeting. His leave will date on or after May 1st to begin his duties (Dr. Shaw is a native of Berwick and a graduate of Acadia University).

A letter from Rev. W. V. Higgins, Waltham, India, brings the information that he and other members of the missionary party expected to leave Calcutta about the first of March. Mr. and Mrs. Higgins will hasten their journey to Canada as much as possible, in order that they may re-join their son, Lieut. Frank Higgins, who has been granted leave of absence from the fighting line. He has joined the Royal Flying Corps and has had a term of service as an 'observer' at the front.—Mattie's Baptist.

The Boy Scouts attended St. John's church last Sunday in full force, (about eighty being present) under the leadership of Mr. E. Perry Brown. They sang a few songs and played some several hymns with much brightness. The last hymn—"Oward Christian Soldiers"—was accompanied by the band under the direction of Mr. McAvoy who has done a splendid work in this connection. The pastor preached on Patriotism and spoke of the call to work on the farms. This is by far the best term out of the Scouts we have yet seen and Mr. Brown is to be heartily congratulated on the success of his efforts which are now beginning to visibly tell, and for which he has laid the community under an eternal and happy debt to him.

FOOD CONSERVATION.
To the Editor of THE ACADIAN:
Dear Sir—I should like to draw attention to some points in Food Conservation which I feel we have not sufficiently taken to heart. Senator Colby of the U. S. A. Food Board has recently addressed a conference in Montreal and Halifax and stated he was sorry to say a cable had been recently sent to Lord Rindoll, the British Food Controller, from Mr. Hoover that the U. S. A. had sent his best wheat to Canada in order to feed the soldiers in France; he also stated that his own part had determined to use no more white bread during the war. To this I wish to refer later.

I was much disappointed with the action of our Food Controller when deciding upon a Standard Flour that a stronger stand had not been taken for which I know the public were prepared and willing to accept, and a real War Flour ordered. In Great Britain a considerable percentage of other flours are added to the wheat flour, such as rice, oats, barley, maize, etc. Our Standard Flour only increases the amount of flour milled from a given quantity of wheat by about one per cent, and so small is this that it is difficult to distinguish any difference from the flour previously used. I feel there should be more equality of sacrifice among the Allies, and as we have not suffered with regard to our Daily Bread, we should be willing to forego some of our present foodstuffs and pleasures of the table.

We cannot fail to appreciate the heavy responsibility resting upon us all not only to produce more food for which by the way, we are well paid, but also to save in all these vital food stuffs that are absolutely necessary. If we are to see that our gallant soldiers are properly provided for, and save our Allies from the dread hand of famine which is menacing them. Every pound of flour counts and we can all help. In my own household we have decided to follow the lead already mentioned and to use no more white bread on our table for the duration. Who will follow?
C. HOGAN,

"Marrying Peggy" to Be Repeated.
On account of the great enthusiasm with which "Marrying Peggy" was received in College Hall on March 26th, and the disappointment of those who were unable to be present at that time, the A. A. A. has decided to have the play repeated at their regular closing entertainment Saturday, May 25th. This not only give the town people but the anniversary guests an opportunity of enjoying a production which has been voted the best amateur performance ever given in Wolfville.

Be Ready for Emergencies.
The best way is to always keep a bottle of Dr. Chase's Syrup of Linseed and Turpentine in the house ready for emergencies. Then when cough, or cold, come suddenly they can be promptly cured before they have time to reach an acute and dangerous stage. To meet this requirement we have put the syrup up in family size bottles which contain nearly three times as much as the 40 cent bottle and will sell at 60 cents.

Russia's Story Told on Screen.

'FALL OF THE ROMANOFFS' IS GREAT HISTORICAL FILM OF THE AGE.

MAD MONK IN EAST. ILIADOR, EXILED FROM HIS COUNTRY, APPEARS IN GREAT DRAMA.

At Opera House next Monday and Tuesday. In dealing with the story, the authors have revealed Russian history for the past fifteen or twenty years. The Russia at the time of the Romanoffs is shown, with its strange laws and their grip upon the common people. The coming and rise to power of the second Rasputin is shown, and the secrets of the mystic spell which he was able to wind around his victims are exposed. His relation to the Russian Court, the influence he was able to bring upon the ruler under whose orders massacres were permitted and carried out, forms a fascinating and absorbing sketch. Iliador, the former confidant of the Czar and Rasputin, appears himself in the picture. He was known as the 'Mad Monk,' and was able to assist in the exploding of Rasputin's influence, but was exiled for his part in the overthrowing of the Czar's plans.

And then comes the Revolution, followed by Kerevsky's supremacy, and the retreat of the traitors on the battle line, and the struggle for life of the new Russian Democracy. The Czar's participation with her pro-German sentiments for a separate peace is vividly portrayed in all its diabolic phases. Its creation is largely due to the fact that Iliador, the mad monk, as he was called, became an exile and was secreted out of the country to America. His story is complete, and he himself appears in the picture. He portrays how German secret agents conducted their espionage system, ruined the discipline of the army, and almost succeeded in securing a separate peace.
