Gov. Gen. and Party In Town To-day

Governor General, Lord Byng of Vimy, G.C.B., G.C.M.G., M.V.M.O. accompanied by Her Excellency Lady Byng and members of the official staff, arrived here at 10 o'clock this morning.

The Governor General's party was met on their arrival at the C.N.R. Station by His Worship Mayor D.S. Creaghan, Hon. John Morrissy, W.A. Park, J.R. Lawlor, R.C. Clark and the members of the Town Council. A large gathering of the citizens were on hand at the depot to meet their Excellencies and the Newcastle Band rendered several musical selections. A guard of honor under the command of Capt. A.L. Barry was inspected by His Excellency, during which he held a conversation with each individual soldier on the guard.

The Vice-regal party was then conveyed through the town by automobiles to the Opera House. The citizens with beautifully decorated automobiles joining in the procession, making a most pleasing spectacle. The buildings along the route were tastefully decorated for the occasion and the town presented a most favorable appearance.

On arrival at the Opera House, which was beautifully decorated and filled to its capacity, Mayor D.S. Creaghan read and presented an appropriate address to His Excellency to which Lord Byng replied. The citizens were then given an opportunity of meeting their Excellencies, and many took advantage of shaking hands with the distinguished visitors.

From the Opera House, a short drive about town was given to their Excellencies, returning to St. Andrew's Church, where Lord Byng was presented with and placed a beautiful wreath at the base of the Memorial Cross in front of the Church. His Excellency walked around the cross, reading the names of the fallen heroes, then placed the wreath and coming to attention saluted the Memorial. He then entered the Church and remained about ten minutes.

The party then motored to the Soldier's Memorial Field which Lord Byng officially opened. En route a stop was made at the G.W. V.A. rooms, with which His Excellency was well pleased. At the opening of the Memorial Field the guard of honor presented arms and a beautiful flag donated by the Lord Beaverbrook Chapter I.O.D.E. was fittingly raised by His Excellency. The large field was filled with the large gathering of citizens, the weather being ideal for an occasion of this nature. Dr. R. Nicholson, Chairman of the School Board of Trustees explained to His Ex-

cellency and the large gathering of citizens the purposes for which the Memorial Field was to be used and the presentation on behalf of the Lord Beaverbrook Chapter I.O.D.E. was made by Mrs. A.E.G. McKenzie. His Excellency briefly replied and then hoisted the beautiful Union Jack. His Excellency authorized Dr. K. Nicholson to proclaim a holiday in the public schools on September 11th. Three rousing cheers were then given for His Excellency, Lord Byng. Their Excellencies and party were then taken to the Miramichi Hospital and St. Mary's Academy, and were much impressed with these two fine institutions.

The Vice-Regal party then returned to their train and left at 2 o'clock for Chatham, where they will be entertained until 5 o'clock this evening.

The reception to His Excellency Lord Byng and party, was well conducted in every respect, and the holiday proclaimed by His Worship Mayor Creaghan was most fittingly observed. The several committees in charge of the reception are to be congratulated on the manner in which every detail of the reception was carried out.

GUNBOAT HERE TO AWAIT ARRIVAL OF LORD BYNG

The H.M.C.S. Patriot arrived in Chatham about noon on Wednesday and is now docked at the Town Hall Wharf. The Patriot with several naval reservists on board is on one of its periodical training cruises and came here from Campbellton. She will remain in port until to-day.

The Patriot which is of the destroyer type was launched in 1916 and was attached to the Grand Fleet flotilla of destroyers from 1917 until the end of the war. The majority of the members of the crew saw active service in various branches during the war.

The boat is 280 ft. long, 27 ft. beam with a displacement of just over 1000 tons. She draws about 13 ft. of water and can attain a speed of 37 knots. She is equipped with three 4 inch semi-automatic quick firing guns, one 2 lb. Anti-aircraft gun, and four 21 in. torpedo tubes.

She carries a crew of five officers and 80 men and was until Wednesday commanded by Lt. Commander G.C. Johns. The latter has been relieved and the command has been taken over by Lt. Commander H.E. Reid.

ST. ROSES WON FROM CHATHAM TWO GAMES

For the first time in many years a series toward deciding the amateur baseball championship in New Brunswick commenced in St. John on Thursday, when St. Rose's winner of the city senior amateur league, took both games from Chatham, winners of Miramichi League 12 to 11 and 9 to 2. The afternoon game was a ding-dong struggle, the St. Rose's finally pushing over the winning run in the eleventh inning. In the evening game, Chatham appeared off color and St. Rose's, securing an early lead, were never threatened.

Miss Keys Retires From Hospital

Miss Eliza Keys, R.N. who has been matron of the Miramichi Hospital here, for the past four years said farewell to that institution and its staff last Tuesday. Miss Keys was a most painstaking matron and was loved by the staff and patients and her retirement from the institution will be keenly felt. She has reluctantly been compelled to tender her resignation and sever her connection with the Miramichi Hospital because of the necessity of taking a rest from the arduous duties which she so well performed. Her position has been filled by Miss Campbell, who has had a number of years experience in the nursing profession and has been assistant matron for some time under Miss Keys. Miss Campbell has a thorough knowledge of the Miramichi Hospital and her many friends congratulate her on her promotion and wish her success.

PUBLIC BANQUET FOR THE PREMIER

A banquet will be tendered Premier Veniot on Thursday, Aug. 30, under the auspices of the Liberal committee at St. Leonard, N.B. The banquet will be held at the Cyr Hotel and guests are expected from all over the province. The following day the premier will be present at the opening of the new school at Edmundston.

SALMON ANGLING SEASON EXTENDED TO SEPT. 30TH

A Message To MacLean's

MacLean's, the National Magazine of Canada, with a circulation close to 100,000 some time ago sent out a questionnaire to a number of their subscribers. Of the women who wrote MacLean's in reply four times as many named MacLean's as their favorite, as compared

Stiffness

It is astonishing how quickly Minard's Liniment relieves stiffness and lameness.

Gives Great Relief

Mrs. A. R. Calvert, 26 Park Ave., Guelph, Ont., writes: "My husband had used Minard's Liniment frequently, always with good results. Friends of mine use it for rheumatism and tell me that it gives great relief."

Mrs. Fred Johnston, Box 735, Thorold, Ont., writes: "I suffer very much with rheumatism in my face but was advised to try Minard's Liniment, and it relieved immediately after first application. I renewed in using it and it has entirely gone. This winter I can go out without tying up my face and give the credit to Minard's Liniment. I have told several people about Minard's, and others are using it."

RETURN OF THE LIGHTNING ROD

Electrical Scientists Reindorse It

(New York World)
The lightning-rod is coming back. The first electrical scientists of the time, Thomas A. Edison and Dr. Charles P. Steinmetz of the General Electric Company, have reindorsed it, when properly installed as a protection of buildings from fires caused by lightning. The National Board of Fire Underwriters now give a great practical push towards its restoration by declaring that 94 per cent of such fires can be prevented by the general use of the rod, and by offering its services for the adoption of right methods of installation.

It is a new vindication for Benjamin Franklin and the first lightning rod, which grew out of his kite experiment some 170 years ago. But it needs to be said that in all this time electrical science has never flatly condemned lightning conductors for buildings and other lofty objects as useless. What killed them in popular favor and use was the "lightning-rod man" and his tricky commercialization of the Franklin discovery. Memories of men now living easily go back to the time when this person was considered a worse pest along the countryside than the book agent or the Yankee notion peddler. Faulty material, bad insurance, superficial grounding, and failure to follow a direct path from tip of the rod to the ground, commonly made it useless and often worse.

Against a return in the lightning rod's comeback of this ignorance and petty swindling, owners of exposed property can have the help of the fire insurance companies, and with it the incentive of reduced insurance rates. Nor will the run of humankind fail to gather comfort from this insurance of electrical science in its present rapid and extraordinary developments that the dreaded lightning stroke may be robbed of its power to injure or destroy where due precaution is taken.

How to Make Apple or Crabapple Jelly

Remove stem and blossom ends from about 5 lbs. ripe fruit, and cut in small pieces. Add 3 cups water, cover pan and simmer 10 minutes. Crush with masher, cover pan and simmer 5 minutes longer. Place fruit in cheese-cloth bag and squeeze out juice. Measure 7 1/2 level cups (3 1/2 lbs.) sugar, and 4 cups juice into large saucepan, stir and bring to a boil. At once add 1/2 bottle (scant 1/2 cup) Certo, stirring constantly, and bring again to a full boil for 1/2 minute. Remove from fire, let stand 1 minute, skim and pour quicky.

Cleopatra's Beauty Secret

Cleopatra knew that to have a fresh fine skin, thorough cleansing was necessary. She knew that the gentlest means must be employed. She used Palm and Olive oils.
The crude combination of these oils which was the best even royalty could command, is today brought to perfection in Palmolive.
Every girl can have the radiant healthy skin which is the foundation of all beauty. Intelligent care is the secret - thorough cleansing the basis.
Unless thoroughly cleansed with soap and water, the skin becomes sluggish and inactive. The tiny pores clog with dirt, oil secretions, perspiration, rouge and powder, and blackheads and other blemishes result.
A pure mild soap causes no irritation. Women who fear it have been using the wrong soap.
Palmolive, with its creamy mild lather is lotion-like in its action. It soothes while it cleanses; it freshens, revives and stimulates and leaves the skin delightfully fresh and rosy.
You can buy Palmolive Soap at all first-class dealers.

Is This Christianity?

To the Editor of the Advocate
Dear Sir:-

It is well to look around us sometimes. If we do, we cannot fail to see, how the day "of worship and rest" ordered by God, to be kept Holy, is being desecrated more and more by people who profess culture, civilization and religion, and who would be awfully mad and shocked if Christ came among them again and said to them "you are of your father the devil, and his works ye do."

Go to some of our cities, and there you will find Saturday night revelries and dances "to be stopped at twelve." What a nice preparation for Sunday worship, or well, "so tired, can't go to church today," when morning comes; and can't find time in the evening as "we must have an auto drive or stay at home and have a game of cards." Your readers know lots of places, where all this happens and yet of course we are all Christians, Oh yes! Nice Samples!

Let us take a trip to Montreal and some other Canadian cities, where this mixture of "Good God, Good Devil" is very visible. There we find the movies, theatres and other dissipations in full swing on Sundays and patronized among others, by some people "holy and devout," as they patronize church in the morning, but who go to the sports of the evening. "Jeckyl and Hyde" in full life.

Take another sample in Newfoundland. On a Sunday, a short time ago (July 22nd) at a place called Tor's Cove, where there was a Sunday Garden Party, and all kinds of devices were on play, to win the dollars. Monday morning, St. John's papers described it thus: "About 300 passengers were on the trail to Tor's Cove which left St. John's yesterday afternoon. An enjoyable evening was spent at the garden party which was well attended. Various sports were held (Tug-of-War, foot races, and other side shows) which proved very interesting. The ladies served delicious teas, and the band rendered a lively programme. At night a delightful concert and dance was held in the hall, largely attended, the audience enjoyed themselves to the fullest extent. This is up-to-date with Point de Chene. Wasn't this nice? All kinds of by-ways."

Further for the sake of the Union Advocate, I will not say more. I will only say that the Union Advocate is a very good paper and I am glad to see it published every Tuesday afternoon.

people were there, no doubt after the dollars, and with the same kind of regard for the sacredness of the Day.

If there is a place called "Hell" how all the big and little devils must have laughed with glee at the antics of their Christian Brethren on that Lord's Day. We are certainly becoming a queer mixture. If we keep on, "the horns will be there in full growth."
Good heavens, what strange performances are carried on in the name of Christ! We can even knock the Ten Commandments higher than a kite, and as for grace there is lots of it in tripping the light fantastic toe. After all, will somebody tell us if this is Christianity, or what are we coming to? With thanks.
Yours
SABBATH

The Presbyterian Witness and Church Union

To Editor of Union Advocate
Newcastle, N. B.
Sir,

The Presbyterian Witness is broadcasting its Church Union Editorials, in advance, all over Canada. Will you therefore, kindly permit a few words, first on the Witness: then on its statements.

During the past three years on so the Witness has cost the Presbyterian Church some forty-five thousand dollars, and has thus helped to cause the deficit in her Mission funds. Another factor in that deficit is the attempted coercion, mis-called "Union." There are many who will not give to the Church so long as there are attempts to blot out that Church by an act of Parliament.

In this state of affairs, with missionaries sending home piteous appeals for means to retain their native workers, the Witness, under official direction, instead of bending all its energies to the removal of that deficit, and to helping the Church which has expended upon it so great a sum, is being devoted to the coercion which is bringing the Church nothing but ill, bringing Deficit, Division and Distrust which, continued, will bring Disaster.

May I now turn from the Witness to its statements regarding the Doctrine and Polity of the proposed New Church. As to Doctrine, the Witness claims that there is full and ample statement of Christian Truth in the Basis of Union. But the Witness omits to state that no one is pledged to acceptance of that Basis of Union. In the Presbyterian Church, both ministers and elders, in their ordination vows, profess to accept the Standards of the Presbyterian Church as "founded on and agreeable to the Word of God" and promise "faithfully to adhere thereto." The people thus know where their ministers and elders stand in relation to Scripture Truth.

But in the proposed New Church the Ordination vows of ministers make no reference whatever to the Basis of Union or to its Doctrine. In the first draft of that Basis there was, among the Ordination vows, one question, as follows: "Do you believe the Statement of Doctrines of the United Church, as you understand it, to be agreeable to the teaching of the Holy Scriptures, and is your own personal faith in essential agreement therewith?" Later that question was dropped. Note that fact. It was purposely and deliberately dropped. And so the proposed New Church stands for no system of religious truth. It would be a wide open door for every system of error that might choose to claim support from Scripture as all errors do.

Especially in these days would it be an open door to Unitarianism, which takes the crown of "Duty" from Christ; leaves man only an excuse, and robs them of an Almighty Saviour. Further for the sake of the Union Advocate, I will not say more. I will only say that the Union Advocate is a very good paper and I am glad to see it published every Tuesday afternoon.

called elders in the New Church there are no Ordination vows of any kind whatsoever. And yet the Witness tells that the New Church is Presbyterian and that all things will be the same as they are now. As to the Witness' statements on Polity, or Government—many things might be noted. I mention two.

First—the Presbyterian Church is the people. It is not a corporation. Some of its Boards are incorporated for convenience in holding and managing Trust Funds, but these Boards have no independent powers. They are subject to the Church Courts, to the Assembly; while the Church itself, as an organization, is not incorporated. The people are the Church, and the Church Courts exist to serve the Church within the clearly defined limits of her Constitution, having no right or power to blot out or to end the Church as a separate organization.

On the other hand the proposed New Church would be itself a Corporation. Its Church Courts are the Church, and have corporate powers. This is a long, long step from democracy to autocracy, from government by the people to irresponsible clerical despotism.

A second point in the Polity of the New Church is the calling and settlement of ministers. A Presbyterian congregation can call a minister when ready to do so; and the matter is arranged for them by the local presbytery. If the minister accepts the call—well. If not they can at once proceed to call another. They can both call and choose their minister.

In the proposed New Church they can give a Call at a certain time of the year when the Settlement Committee meets, but the appointment rests with that Settlement Committee, at a distance, which meets once a year, and can appoint whom it may choose. If the one who is called does not accept the Call, the Settlement Committee appoints some one for at least a year. Next year the congregation may call again and be served in a similar way. The rule of the New Church is as follows: "Any pastoral charge, in view of a vacancy, may extend a Call or invitation to any properly qualified minister or ministers, but the right of appointment shall rest with the Settlement Committee, which shall report to the Conference for information only."

Presbyterians can both call and choose their ministers. In the New Church they may call but they have to take what the Settlement Committee sends them. And yet the Witness tells people that the New Church is Presbyterian, and that there would be no change!

Other points might be noted, but these suffice to show the spirit and type of the proposed New Church. Presbyterians who would barter for it their own Church, worldwide, democratic, Scriptural and free, would be selling their glorious birthright for a yoke of ecclesiastical bondage.

UNSETTLED
The editor of a country newspaper received from a subscriber the Query: "Can you tell me what the weather is likely to be next week?" In reply he wrote, "It is my belief that the weather next week is likely to be like your subscription." The enquirer puzzled his head for an hour over what the editor was driving at when finally he happened to think of the word "Unsettled."

PROTECT AGAINST
BRITISH FLAG ON
WRANGLER ISLAND

Foreign Minister Tchitcherin has sent a note to the British government protesting against the raising of the British flag on Wrangel Island by Stefansson, the explorer.

Wrangel was incorporated into Russian territory in years 1821-24 the note says. In the year 1910 Russia built lighthouses on the island and undertook works there, and in 1915 formally notified the Allied and neutral governments that Wrangel, together with the other islands and territories along the coast of Siberia constituted integral parts of Russian territory.

As, during the entire intervening period no government has questioned Russia's claim to the island, the note says, the Soviet government regards the raising of the British flag there as a violation of Russia's sovereignty.

St Andrew's
Sunday School Picnic

Tomorrow, Wednesday, (weather permitting) the Sunday School picnic, in connection with St. Andrew's Church of England here, will be held at Wilson's Point. The Sunday School will commence again next Lord's Day, as the time given for vacation will be over.

It might be well to mention that friends desiring to spend a few hours with the picnickers at Wilson's Point, would find it an easy matter to do so, by taking the morning train to Derby, shortly before eleven o'clock, returning to Newcastle in the afternoon. A few social hours could thus be spent at the Point, which is an ideal spot for a picnic and the cost of traveling is trifling. The Point is only a short distance from Derby Station.

QUESTION OF COSTS

Before Mr. Justice Chandler, argument of counsel was heard regarding the matter of costs in the Buckley Lumber Company versus Liverpool and London and Globe Insurance Company. Costs in this case will likely be well over \$2,000. The contention of the plaintiffs was to the effect that as the defendant had alleged fraud on the part of the plaintiffs they would not be entitled to costs, while the defendant argued that inasmuch as the amounts bound both as to quantity and value of the lumber insured were not more than 3 per cent of the amounts claimed, the plaintiffs were not entitled to recover. The Court ordered a memorandum of authority to be submitted by each side, and said judgment would be given later. M. G. Ford, K.C., appeared for the plaintiffs, and F. E. Taylor, K.C., for the defendant.

DAMAGE TO PHONE LINES EXTENSIVE

Much damage was done to the long distance lines of the New Brunswick Telephone Company by the high winds of Tuesday night and Wednesday. The lines between Moncton and Newcastle were out of commission and the lines between Newcastle and Fredericton. Trees falling on the wires were responsible for the damage in most cases, and on the Newcastle-Fredericton line it was chiefly trees in the Taxis woods section that caused the trouble. Some trouble was reported north of Bathurst and be-

3 ESCUMINAC FISHING BOATS SAVED BY MIRACLE

Three fishing boats and their crews had a terrible experience off Escuminac in the gale of last week and some of the men have declared they are through with the sea forever.

These particular boats were out fishing with others at the time the terrible wind came and were driven out to sea, so violent was the gale. Their motors could make no head way and in spite of all their efforts their boats were driven farther and farther from land and they were in momentary danger of being overturned and drowned. For three days and three nights they were at sea and had a terrible experience.

Finally on Friday the wind had lulled enough for them to make their way back to harbor, where they arrived in safety to the great joy of the residents, who had been searching for them or their bodies since Thursday and had come to the conclusion that all hands were lost.

tween Bathurst and Campbellton in the Petit Rocher district, and there was also some trouble between Fredericton and Woodstock. In Moncton city falling trees destroyed the poles in one or two places and the wires were hanging so low as almost to touch the ground.

WANTS TO HELP OTHER WOMEN

Grateful for Health Restored by Lydia E. Pinkham's Vegetable Compound

Toronto, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for backache and for weak and dreary feelings caused by my condition. Sometimes I felt so bad that I couldn't do my housework. My neighbor told me of your medicine and I read about it in the 'Toronto Telegram' and thought I would take it. I got very good results. It built me up and I have told several friends what it has done for me. You may use this testimonial as it may be of help to some one who has suffered as I have."—Mrs. J. LEE, 25 Harvie Ave., Toronto, Ont.

Mrs. Lee is willing to write to any girl or woman suffering from such troubles, and answer any questions they may like to ask.

Women suffering from female troubles causing backache, irregularities, pains, bearing-down feelings and weakness should take Lydia E. Pinkham's Vegetable Compound. Not only is the worth of this splendid medicine shown by such cases as this, but for nearly fifty years letters like this have been received from thousands of women.

Rheumatic Sufferers

May Obtain Relief by Enriching the Blood Supply

In the days of our fathers and grandfathers, rheumatism was thought to be the unavoidable penalty of middle life and old age. Most every elderly person had rheumatism, as well as many young people. It was thought that rheumatism was the mere effect of exposure to cold and damp, and it was treated with liniments and hot applications, which sometimes gave temporary relief, but did not remove the trouble. In those days there were many cripples. Now, medical science understands that rheumatism is a disease of the blood and that with good, rich, red blood any man or woman of any age can defy rheumatism. There are many elderly people who have never felt a twinge of rheumatism, and many who have conquered it by simply keeping their blood rich and pure. The blood enriching qualities of Dr. Williams' Pink Pills is becoming every year more widely known and the more general use of these pills has robbed rheumatism of its terrors. At the first sign of poor blood, which is shown by loss of appetite, dull skin and dim eyes, protect yourself against further ravages of disease by taking Dr. Williams' Pink Pills. They have helped thousands—if you give them a fair trial they will not disappoint you.

You can get these pills from any dealer in medicine or by mail postpaid, at 50c a box, from the Dr. Williams Medicine Co., Brockville, Ont.

Sending Business Out Of Town

Advertising makes a town, therefore, the men who do the advertising of any town are the makers of it, and should have the credit for doing so. In this, as in all towns there are some non-advertisers—men who do business, or try to with never a cent spent for advertising. These fellows get part of the benefit from their progressive neighbor's advertising, therefore, in a sense they are mooching on their neighbor's investments. When you come to town to spend your money you should always try to trade with the firm that spends its money freely for advertising, for that is the kind of people that make your town and keep it going. The people are rapidly learning that it pays to trade where they are invited, and many will shun the store that does not think enough of their business to solicit same. INCREASED COMPENSATION RATE OPPOSED

The New Brunswick Lumbermen's Association is to make an organized protest against the recent increase in assessment on the industry of lumber and allied industries, which increase amounted to four percent under the Workmen's Compensation Act. Arrangement has been made for Premier Veniot to meet the members of the Association on Sept. 4th when a conference will be held. The Association has been circularized by its executive and a large attendance is expected for the conference with the Premier. The action on the part of the lumbermen is not unexpected as it was known some time ago when the increase first was rumored, that an organized protest was likely.

Here and There

Nearly four thousand men were recruited by the Canadian Pacific Railway agents in England for work in the harvest fields of the Canadian West.

A sudden demand for wheat in Scandinavian markets has caused increased activity in the movement of grain through Vancouver. Four boats left with bulk wheat for ports of Norway and Sweden, marking the first direct grain shipments from the Canadian Pacific coast to Scandinavia.

The rapid increase in the export butter trade of Saskatchewan during the past year or two has been the outstanding feature of the provincial dairy industry. Recently the Saskatchewan Co-operative Creameries made a shipment of 25,000 lbs. of butter to China.

The export of gold bullion, gold coin, and fine gold bars from Canada, except as deemed advisable by the Minister of Finance, and as licensed by him, is prohibited until July 1, 1924, by proclamation issued in the current issue of the Canada Gazette.

Breaking all 1923 passenger traffic records, the Canadian Pacific S.S. "Metagama," westbound from Glasgow via Belfast, docked recently at Quebec, and Montreal the same evening, with a record number of 3,200 cabin and 1,073 third-class passengers.

"There are hundreds of first class farm workers in Scotland anxious to come to Canada, and the finest material Canada could wish for, but their wages are sufficient to barely support them and they are unable to accumulate funds for the passage." This is the opinion of Thomas Scotland, of the Canadian Pacific Railway Colonization and Development office in Glasgow, who recently arrived in Canada with a party of Scotch immigrants bound for the western provinces.

To J. K. L. Ross, director of the Canadian Pacific Railway, goes the honor of catching the world's record fish with rod and reel. At St. Ann's Bay, N.S., he landed a tuna weighing 712 pounds; length, 9 feet 2 inches; girth, 6 feet. Commander Ross used a Vom Hofe tuna rod and reel, No. 39 thread line, with mackerel for bait. His catch took three and a quarter hours to land.

The world's wheat crop this year is estimated at 3,313,000,000 bushels, as compared with 3,104,000,000 bushels last year, an increase of 214,000,000 bushels, according to figures carefully compiled by the International Institute of Agriculture at Rome. The estimated shipments from supply countries of the world for this year is 690,000,000 bushels, of which Canada is expected to supply 290,000,000 bushels, or about one-third.

Canadian trade with Australia is on the increase, according to returns made public by the Bureau of Statistics. Canadian exports to Australia for the twelve months ending with June were \$19,524,239 as compared with \$12,200,463 for the corresponding period ending June, 1922. Canada's imports from the Commonwealth have also increased. The imports from Australia for the last twelve months were \$1,545,829, as compared with \$1,275,871 for the year previous.

GERMAN GOVT. IS FACING DESPERATE SITUATION NOW

The financial and political situation facing the new German Government must be regarded as well nigh desperate. Dr. Rudolph Hilferding, the Minister of Finance, declared in addressing the budget committee of the Reichstag.

Not only is the federal government required to cover its own deficit, he said, but also the deficits of all the federal states and many of the companies, otherwise, the

whole, administration would break down. He criticized the Reichbank for attempting to support the falling mark with insufficient means, and complained that private firms were issuing emergency currency without the consent of the Reichsbank.

The payments in execution of the peace treaty increased from 450 billion marks in January to four trillion marks in July, Dr. Hilferding asserted, and these would be considerably increased in the present month. The deficit in the operation of the state railways alone, he added, amounted to 450 billion marks. He concluded by declaring it impossible to balance the budget even with the proposed heavy increase in taxation.

POTATO CROP IN PROVINCE IS GENERALLY GOOD

Northumberland Exception With Poor Crop, Sixty Per Cent Stand In Some Places Diseases Few

The Dominion Plant Pathological Laboratory has received a number of reports on the condition of the potato crop in various districts of New Brunswick. The general tenor of the reports is that the crop is good with diseases less prevalent than usual.

The reports from the inspectors on their first round of their district are not complete but the chief potato growing areas are covered Carleton and Victoria Counties which produce a large proportion of the total crop of the province are reported to have good crops. Westmorland is reported the same, that county having a considerable acreage and also being important in the seed-potato business. Northumberland is reported to have a poor crop of potatoes. In sections in the vicinity of Newcastle and Chatham a sixty percent stand is reported good as the average.

Two inspections are made on behalf of the Pathological Laboratory. The result of the second is forwarded to Ottawa as a basis of certification of seed stock. The first inspection was two weeks late on account of the backward season. The second will begin shortly. Restigouche is considered the banner district in the matter of certification of seed-stock.

The general report is less disease in the potato fields this season than usual. This is probably the result of the lack of rain in the early summer and the cool weather which has characterized the entire season.

What is a "Hardwood" Tree

From time to time there comes up to wood-users of all description (that is, to practically everyone) the question as to what constitutes a "hardwood" tree as distinguished from a "softwood" tree. Can we call the poplar a "hardwood" when its wood is so soft? And, conversely, can we speak of hard pine as a "softwood" when its wood is so much harder than that of the poplar?

This is a case where a term, apparently quite definite, has acquired an altered meaning in use. A "hardwood" tree is not necessarily a tree whose wood is hard; nor is every tree whose wood is hard, a "hardwood" tree. Poplar, basswood and tulip, or "whitewood," for instance are all termed "hardwoods" although their wood is comparatively soft; and, on the other hand, hard pine and yew belong with the "softwoods" although their wood is much harder than that of the "hardwoods" just mentioned.

The usage prevailing in the forest services both federal and provincial in Canada (and the same may be said of those of the United States) is to apply the term "hardwood" to a tree that bears leaves, such as the maple, oak and ash, as distinguished from those trees having needle-like foliage, such as pine and spruce, or scale-like foliage such as the cedar, which are termed "softwoods."

These latter are often described as "evergreens" though the tamarack, which is a softwood sheds its foliage in the autumn, and the madrona in British Columbia, which is a hardwood, keeps its foliage all winter. Nor is the term "conifer" or cone-bearing tree, altogether satisfactory; the fruit of the yew (another softwood) has the external appearance of a "berry." The botanical terms "Angiosperm" and "Gymnosperm" (as applied to trees) could they be popularized, would clearly define the groups of "hardwoods" and "softwoods" respectively.

IMPOSSIBLE TO GET RELIEF

Until She Started To Take "Fruit-a-tives"

The Medicine Made From Fruit

R.R. No. 1, Everett, Ont.
"I had been troubled for years with Dyspepsia, Liver and Kidney Trouble, and could not get relief until I started taking "Fruit-a-tives". Thanks to their beneficial action, I am in normal health again."

Mrs. THOMAS EVANS
"Fruit-a-tives" alone can give such happy and successful results because "Fruit-a-tives" is the famous medicine made from fruit juices and tonics. "Fruit-a-tives" is pleasant to take and will always restore the health when taken regularly as directed. 50c. a box, 6 for \$2.50, trial size 25c. All dealers or from Fruit-a-tives Limited, Ottawa, Ont.

Guard Baby's Health In The Summer

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic, diarrhoea and dysentery come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to banish them. No other medicine is of such aid to mothers during hot weather as Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe.

They are sold by medicine dealers or by mail at 25c a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Would Take Month To Count \$1,000,000

A lecturer addressing a class of the New York National City Bank recently in endeavoring to present an idea of the meaning of trillions in currency, said that the Treasury experts at Washington can count a maximum of 4,000 silver dollars an hour, or, on the basis of an 8 hour day, 1,000,000 silver dollars in 31 days. At this rate a man would require 100 years in which to count 1,000,000,000 coins and one thousand men would have to be counting simultaneously to reach the trillion mark within that period. German, Austrian and Polish currencies are all outstanding now in the trillions while the currency of Soviet Russia has long since passed this stage and is now reckoned in quadrillions.

ITALY APPROVES BRITISH PROPOSAL RE REPARATIONS

The Italian reply to the recent British note on reparations, as published in Rome shows that Italy generally approves of the British proposals. It says, further that the Italian attitude is inspired by the Italian views expressed at the London conference in December 1922. Premier Mussolini gave prominence to two important questions the inter-allied debts and productive guarantees.

The Italian Government, while recognizing the difficulties of an investigation by a commission of experts into Germany's capacity to pay, as Great Britain proposes, does not include such a measure from the preliminary steps, but reserves its right in an agreement with the other Allies to determine the composition, character and limits of such a commission and the fundamental principles on which the commission's activities should be based.

The reply says that the Government would have preferred to discuss the subject with the allies on a basis of the inter-allied debts and productive guarantees in conjunction with the general reparations problem. "Italy believes that a general and final settlement of reparations must include the settlement of the question of debts," says the reply. "Italy further upholds her proposals with regard to pledges and guarantees which she believes might conform with those recently advanced by the Belgian Government."

Concerning the question of the cessation of passive resistance, as well as that of the occupation of the Ruhr, the Italian Government continues the note, "adheres to the opinion on this subject which is expressed publicly on many occasions namely: that it is opposed to passive resistance, that it is opposed to all ulterior military occupation of the Ruhr and that it favors a gradual reduction of the Franco-Belgian military occupation of the Ruhr, when a general understanding shall have been reached and guaranteed."

Providing Insulin For Poor Patients

Great Britain is providing insulin the new diabetes cure, discovered by Dr. F.G. Banting of Toronto, without charge to sufferers who are unable to pay for the treatments, according to Dr. Charles H. Frazier, dean of the medical department of the University of Pennsylvania. Dean Frazier went abroad to attend the international surgical congress at London and to visit a number of famous clinics.

"I Had Bilious Attacks and Stomach Weakness"

Mrs. Wm. Robinson, York, Sask., writes:
"I suffered from stomach and liver trouble, and used to have bilious attacks so bad that I could do nothing for weeks at a time. My stomach would be so weak that not even a drink of water would stay on it. On my sister's advice, I began to use Dr. Chase's Kidney-Liver Pills, and must say that they have made me feel like a new woman."

A NARROW ESCAPE
Last Friday morning a young boy named Russell had a very narrow escape from serious if not fatal injuries. He was driving a horse attached to an express wagon, when the horse became frightened, coming down the Post Office hill, and ran away. The young lad did all he possibly could to stop the horse, but was unable to manage it. Near the Post Office, three small children were almost run over by the team but fortunately escaped, by only a small margin. The boy steered the horse around the square, going at a fast rate, until in front of the Miramichi Hotel Sample rooms, the run-away team ran into a sloven laden with trunks, driven by Michael Dunn, an employee of Mr. Chas. Sargeant. The young fellow was thrown off the wagon, up against the Miramichi Hotel sample rooms, and the wagon was piled up over him. With the compact which knocked a wheel off Dunn's sloven, the horse fell and was unable to move. A crowd soon gathered and after unhitching the harness, the horse again got on his feet, showing no signs of any injury. To the surprise of those who saw the collision, the young lad immediately picked himself up from out of the debris, badly frightened but otherwise unharmed.

BASEBALL GAME
The locals played the Bathurst Baseball team here last Wednesday afternoon and evening. The afternoon game resulted in a win for the visitors by a 17-7 score. While the evening game was a tie 4-4. The games were well patronized, considering the cold wind which prevailed. Bun Green refereed both games.

SCHOOL OPENING
Vacation is rapidly drawing to a close. Beginners will be looking eagerly forward to making the start. As we look higher in the grades the eagerness diminishes, and in about the same proportion the size of the classes diminish. Here then, is the law; attendance depends on eagerness, i.e., interest. Parents and children look upon the beginning to go to school as a matter of course. There is no reason why continuing should not be treated as a matter of course. Some parents treat entering High School just as they do the first starting school and their children go through High School. This should be the attitude of all. No Canadian should fall short of a High School education. Those who do not get it are wronged even if willingly.

CONFERENCE ON RUM RUNNING IN SEPTEMBER

Following a meeting of the cabinet council Premier King announced that the conference between Canada and the United States government officials at which measures to curb rum running activities on the border will be discussed, is to be held early in September. A series of friendly notes have been exchanged between the two governments in regard to this matter, the Premier stated, and arrangements for the meeting have been practically completed.

The United States government will be represented at the conference which takes place in Ottawa, by McKenzie Moss, assistant secretary of the treasury department. The Canadian government will be represented by Hon. Jacques Bureau, Minister of Customs and Excise.

Communications which passed from the Canadian to the United States governments, the premier said, assured the American authorities of Canada's desire to cooperate, as far as possible with them in the enforcement of their laws just as Canada expected the American government would cooperate with Canadian authorities where possible in the maintenance of Canadian laws. It was pointed out in the notes addressed to the American government that already Canadian customs officials stationed at border points had instructions to notify American officials of liquor shipments consigned to points in the United States.

Thrilling Sea Picture

Dorothy Dalton and Jack Holt in "On the High Seas"

Appearing in one of the strongest sea pictures ever screened, Dorothy Dalton and Jack Holt, featured players, will be seen in Paramount's "On the High Seas" at the Opera House next Wednesday and Thursday. The action opens on an ocean liner, which is wrecked and the principal players are saved in a leaky boat when almost dead from thirst and exhaustion, run upon a derelict which is deserted save for a black kitten, all on board having died of a plague. On this ship many incidents ensue as the storm arises and beastly passion becomes uppermost in the mind of Polack, the burly stoker, who attacks the girl, a woman of high station and is worsted in a fight, by Jim, the other stoker who at the finish of the story, proves to be a wealthy man who had worked his way back on the liner in search of adventure. Jim and the girl are finally rescued from the derelict as it is about to sink and taken back to port, where they again resume their social positions of lady and stoker, until in the surprise finish, Jim kidnaps the girl and then reveals his true identity.

MARITIME BOARD OF TRADE

LET THE PAPER DO IT

The other day several prominent citizens of Yazo were discussing a local situation and thought something should be done. After it was brought a letter to the editor asking him to "jump on" somebody and nearly always the writer wants his own name kept secret. If the newspaper were to do all that is asked of it by these people, it would be a growing snarling thing—and would individual with both feet and force

the desired action.

There isn't anything strange about such proceedings as this, comments the Yazo (Miss) Sentinel. There is hardly a week passes but the mail brings a letter to the editor asking him to "jump on" somebody and nearly always the writer wants his own name kept secret. If the newspaper were to do all that is asked of it by these people, it would be a growing snarling thing—and would individual with both feet and force

is ever ready to oppose wrongs, or fight for the right to demand practical reforms, to praise the worthy and blame the unworthy. They are unafraid. But the truth is, most of the demands that the paper "jump in with both feet and force action" are selfish propositions and are usually urged by the people who themselves are unwilling to do exactly what they request the newspapers to do.—Publishers Auxiliary.
