Toasts and songs appropriate for the occasion, were given and sung, and these, with the wishes of a successful voyage whiled away the pleasure of the evening. On the following day Mr. Pinyoun was accompanied to the station by his guests of the previous evening, and on his arrival at Toronto station congratulations were exchanged by his friends there.

Mr. S. B. Harman has been appointed to the vacant office of chamberlain for the city of Toronto.

One hundred years ago Louis XVI. had just ascended the throne of the Capets; there was no American Republic; the colonization of Australia had not begun; there were fifty years more to wait for the first railway, and nobody had disturbed the world with such a notion as communication by telegraph.

Wine growing is an important industry in the colony of Victoria, and the Government has forbidden the importation of European vines for fear of introducing some of the prevailing diseases.

The scarcity of rain is interfering considerably with farming operations along the line of the St. Lawrence.

Mr. Potter, President of the G. T. Railway Company, held a conference with the Montreal City Council in reference to the location of the proposed new depot. The present site was ultimately fixed upon.

A new reading room of the St. Patrick's Benevolent Society, was opened in Hamilton on Thursday evening.

Drs. Orton and Paetz were sent for, and did what they could to ease his suffering, but we understand that his injuries are very serious.—*Express.*

TORONTO GAS COMPANY.—At the meeting of the Toronto Gas Company on Monday, it transpired that the defalcations of the late President, Mr. Rutherford, amounted in all to \$3,545 61. It appeared that Mr. Rutherford had been in the habit of obtaining advances of the Company's moneys for his private purposes, keeping an account in the office of the Company, which advances sometimes amounted to considerable sums. The Company, however, has sustained no loss, Mr. Rutherford having refunded, with interest, all the moneys of the shareholders improperly taken by him.

SHARKS IN THE ST. LAWRENCE.—It seems that sharks are beginning to be common in those parts of the St. Lawrence which are now being fished for porpoise. These fish, though dangerous to man, are not wholly useless. The skin may be converted into a sort of leather of considerable value; a good deal of very tolerable oil can be obtained from the liver, and though the flesh is coarse and poor, it is by no means absolutely unpalatable. Not only is shark occasionally eaten at sea for a change from salt provisions; it is employed as food in some parts of northern Europe, and its fins are preserved in some places for the Chinese market, where they are sold as a delicacy.

CLUB OF ENGLISH MISSIONARIES.—A series of missionary meetings in connection with the Synod of the Church of England, have lately been held in the Northern part of this County. The first of these was held in St. John's Church, Elora, when addresses were delivered by Rev. Messrs. Curry, Chase, Denroche, Rutlan, Oiler, Stephenson and Denroche. Subsequently meetings were held at Alma, Ferguson, Arthur, Mount Forest, Clifford, Harriston, and at Hamilton's school house, Garafraxa. Missionary Sunday services will also be held at London, Bathurst, and Guelph, in an early date, which have been undertaken by the Rev. Mr. Fessenden.

Presentations at Acton.

The members of the Rev. Mr. Cameron's Bible Class, numbering about sixty, visited the Manse, Acton, on the evening of the 23rd, and presented him with a valuable Dressing Case, and Mrs. Cameron with a very handsome Album, accompanied with the following address:—

To Rev. Mr. Cameron.

REV. AND DEAR SIR.—We, the members of your Acton Bible Class, beg leave to address you briefly on the eve of your departure from this place, where we have enjoyed each other's friendship during the past twelve apparently short but happy years.

We desire also to express our unfeigned sorrow at the idea of your leaving Acton, and while we thus mourn your removal, we would humbly submit, believing it to be ordered by an overruling Providence.

We desire also to acknowledge with gratitude your faithfulness and diligence in the instructions you have from time to time bestowed upon us, as a Bible Class, as well as your earnest and devout prayers on our behalf; and we sincerely hope that your labors amongst us may not be in vain; and our most earnest desire and prayers are that you may long be spared in the service of your Master, to proclaim a free and full salvation to perishing fellow-men. We also hope that your beloved partner and family be spared with you, and have the same hope in the heart of your future class as they have in ours.

In conclusion, we would ask you to accept of this Dressing Case and Album, as a slight token of our love and esteem for you personally and officially; hoping that whenever you may have cause to use these articles your thoughts may recur to Acton and your Bible Class.

In return we hope your kindness, your faithfulness and evident attachment will not be forgotten by us while life lasts, and when our journey of life is past, we all meet around the great white throne among the blessed who rest from their labors, and whose works do follow them.

Signed on behalf of the Acton Bible Class.

R. B. CAMPBELL,
WM. GORDON,
MAGGIE L. MAXN.

Mr. Cameron made a very suitable and feeling reply, thanking them sincerely for their kind address, and for the valuable token of their affection towards him and his; and after spending a few hours profitably together, the meeting was brought to a close by devotional exercises.

In connection with the foregoing we may add, that Mr. Cameron has accepted a call from the Presbyterian Church in Champlain, and has left Acton a few days ago for his new field of labor. He has had the oversight of the Presbyterian Church in Acton for twelve years, and during that time has endeared himself to the congregation as an able, faithful and earnest minister of the Gospel. He has aimed to be a father to all his old parishioners, who wish him every temporal and spiritual prosperity in his new field of labor.

London, Oct. 30.—The whole Irish Catholic Episcopate, headed by Cardinal Cullen, have issued a pastoral letter denouncing the address of Prof. Tyndall to the British Association at Belfast as a revival of Paganism.

Lisbon, Oct. 30.—Advices by mail from Buenos Ayres state that the Congress of the Argentine Confederation has passed a resolution declaring the Republic in a state of seige, and has voted the necessary money to enable the Government to crush the insurrection. Many officials, suspected of sympathy with the rebels, have been removed, and trustworthy men appointed in their places. The newspapers *Macion, Pampa, Pensu* and *Libertad* have ceased publication, and their editors have fled from the city. The national official papers have been suppressed, and its editor sent to prison.

Berlin, Oct. 30.—The trial of Kullmann was resumed at nine o'clock this morning. The President of the Court summed up the medical testimony to the effect that at the time of the assassination, as well as at present, Kullmann was accountable for his acts to but a limited degree. Kullmann was found guilty, as charged in the indictment, and sentenced to imprisonment for fourteen years in the House of Correction, and ten years' suspension of his civil rights and police surveillance.

Bombay, Oct. 30.—The cotton crop in Presidency of Bombay is in magnificent condition, and promises the largest yield ever recorded. The crop is a fortnight in advance of that of 1873. Picking has now fairly commenced.

New York, Oct. 31.—The divorce suit of Pauline Luca will be brought up in the Supreme Court on Monday, on a motion for the appointment of a Commission to take testimony in Prussia. As is well known, Madame Luca obtained a divorce from her husband, Adolphe Von Rhoda. From this decision Von Rhoda appealed, and now asks for the Commission to obtain testimony.

Cincinnati, Ohio, Oct. 30.—A special despatch from Hartford City, Indiana, says that there is a terrible fire raging in the woods just south of there, fully four miles in length, and a heavy wind is blowing it along the track of the Fort Wayne, Muncie and Cincinnati Railway, threatening the track and bridges with destruction.

HOW TO PASS THE DAY.—Arise early; serve God devoutly, and the world busily; do thy work wisely; give thine alms secretly; go on thy way gravely; answer the people demurely; go to thy meat appetitely; sit thereat discreetly; of thy tongue be not too liberal; rise therefrom temperately; go to thy supper soberly, and to thy bed merrily and sleep surely.
—*Dame Julia Barnes.*

The well-known grass, *Zizania Aquatica*, is coming into use for making paper. This plant, which is known in this country as "Canada Rice," grows in enormous quantities on the shores of Lakes Erie, Ontario, St. Clair and others. Doubtless Rice Lake got its name in this way. It is stated that a supply from these sources, of 100,000 tons annually may be looked on as certain. It grows in swamps, ponds, and shallow streams, where it attains a height of from 7 to 8, or even 12 to 14 feet. The structure is similar to that of rice except that the flowers are unisexual. The grain is largely used by the Indians for food, and is superior in flavour to most other cereals.

On Sunday, 25th inst., a young man named Sand, a resident of Asheville, while in the act of throwing a stone at a squirrel, fell into a hole and broke his leg.

John Ebaugh, a blacksmith in St. Clements, was recently kicked in the abdomen by a horse, and now lies in a precarious condition.

GOOD WALKING.—Mr. Robert Clarke, of the Bank of Montreal in London, one day, walked from London to Ipswich, and returned a distance of forty miles.

Our New Story

On Monday we will commence our New Story, entitled

HELENA GRAHAM, OR THE BRIDE'S SACRIFICE.

It is a tale of powerful romantic and domestic interest, and cannot fail to satisfy our readers.

The Great Western Railway.

As everything bearing on the relations between the Great Western Railway and the Wellington, Grey & Bruce Railway Companies is of interest to our readers, we give some extracts to-day from the speeches made at the half-yearly meeting of the shareholders of the former Company, in which reference is made to the latter. It will be seen that the remarks of the chairman, and one of the shareholders, Mr. Fildes, is not at all favourable either to the W. G. & B. line, or to the terms of agreement entered into between the two Companies. We are not in a position to express an opinion with regard to these terms, but on one point we are clear enough, and that is, that the bulk of the shareholders of the Great Western in Britain do not seem to understand, and, therefore, do not appreciate, the value of this road to the Great Western. Mistakes may have been made in drawing up these agreements, and one or both Companies may be to blame in the matter, but the character and value of the road should not suffer in consequence. Everyone who knows anything of the working of the lines, or of the extent of the traffic and travel over the W. G. & B. road, are decided in the belief that it is a most important and profitable feeder to the main line. It has never had justice at the hands of the Great Western Company, and the opinion entertained by not a few of the shareholders seems to be, that it is a sort of elephant on their hands, of which they would be glad to get rid. Such an alternative would be better than the present unsatisfactory relations, for any independent Company, we believe, could run the road at a profit.

The Chairman of the Great Western, after he examines the line, and understands the whole position of affairs, may get his eyes opened to its true value, and also to that of the Southern Extension. Until then we have no hope that the latter line will be opened. And even then there is a possibility that the two Companies may not be able to come to terms. In such an event it has been suggested—and the suggestion has been favourably entertained by many not only in Hamilton but along the line—that running powers be procured from the Legislature over the Great Western from Guelph to Hamilton, and that the W. G. & B. Company run their main line and the Southern Extension as an independent road. We do not know if the Legislature has this power, but at all events an attempt to force the Great Western Company to terms of some kind may bring them to their senses, and to make such arrangements as will secure the opening of the Southern Extension.

The general policy of the new Board of Directors, as indicated by the Chairman's speech, is to reduce to the minimum the working expenses of the road. To the growth of these expenses he attributes the non payment of a dividend, and his great object will be to cut them down from 84 per cent.—what they now are—to 60. Judging from his past career and character, Mr. Childers is not likely to be diverted from his purpose. Before long we will see reductions in every branch of the service. The pruning knife will be unsparingly applied, and so long as the efficiency of the road is maintained this is quite right. There can be no doubt that under careful and economical management, the road should in the future pay as large—if not larger—dividends than ever it did in the past.

EAST DURHAM.—Mr. Seth S. Smith has accepted the Reform nomination for East Durham.

ADDINGTON.—The latest returns from Addington give Shibley, the Reform candidate, a majority of nearly 300, with several places to hear from.

The Hamilton Times propounds the following conundrum:—If, at the elections in January for Essex and South Kent the return of Reformers was due to bribery; and if on the second election for those constituencies, in October, the same Reformers were returned by increased majorities without bribery; and if in the October elections, conducted without bribery, the Conservatives polled considerably less votes than they did in January, to what extent did the latter bribe in January? It is, of course, clear that the party most indebted to bribery in January for votes would suffer most from the absence of bribery in October. As it is the Tories who have suffered the most from the increased stringency of the law, and parity of elections, it ought not to be difficult to guess what game they played in January.

Albert Fritch, son of Mr. Chas. Fritch, of Blenheim, was found dead, near Drumbo, on Monday, cause, apoplexy.

Mr. John McMillan, Pilkington, has sold his farm of 71 acres, in that township, to Mr. Wedick, for \$4,000.

It is stated that the friends of Mr. Chaplain in Montreal have decided to present him with a testimonial in recognition of his services.

Miss Arch, daughter of Mr. Joseph Arch the champion of the English agricultural labourers, has appeared as a lecturer, with considerable success in the Provinces.

THIS SHOULD BE NOTICED.—Parties purchasing goods always wish to buy them at the cheapest rate. Now the nearer you can get to the Manufacturer, the cheaper are the goods. Mr. Horsman, the popular Hardware merchant of this town, last summer visited the manufacturing districts of Europe, and purchased very largely from the manufacturers there. He has also made special arrangements with manufacturers in the United States and Canada to have their goods at the lowest Cash prices. In consequence of the extraordinary bargains Mr. Horsman offers, his sales this season are largely increased; in fact, there has been a perfect rush at his mammoth establishment during the last two months. Remember, by purchasing Hardware from John Horsman the profits of the wholesale dealer, or middleman, are saved to the customer. Groves and Tinware have been added this season, and on account of the very low prices at which these goods are offered by Mr. Horsman this branch of the business has exceeded his most sanguine expectations.

Great Western Railway.

By the late mail we have a full report of the half-yearly meeting of the shareholders of the Great Western Railway, which took place at London on the 19th Oct. After the report, of which we have already given a summary, was read, the Chairman in the course of his speech in reference to the Company's relations with the Wellington Grey and Bruce Company said:—Some two or three years ago an Act was passed enabling the Wellington, Grey, and Bruce Railway Company to raise additional capital. Every day's delay has been to the detriment of that Company and also of ours, and we have now made to them certain proposals advantageous to us, and which will provide for the issue of the additional bonds. With regard to the London, Huron, and Bruce Company, that is also an old matter. I may say that I entirely object to the principle of these agreements, and that I only consent to the arrangement with the Wellington, Grey, and Bruce Company on the ground that, having begun the bargain, it will be better to finish it, and not attempt to tinker it. (Hear, hear.) But it must not be forgotten that here is a Company coming to us and borrowing money on its own very inferior credit, and carrying out works under its own very inferior supervision, and it asks us to continue to carry out works under that supervision. If you take up a Company like this, to which very large subscriptions have been made both by local companies and municipalities, you should stand in a position to raise whatever money is required on your credit, and to supervise the works on your system. If you are satisfied that it would be a good feeder to our system—and that is the opinion of both Boards—the course we shall adopt is to do the work just as we would with regard to any other lines that may be necessary.

A Shareholder—Will you state what equivalent is to be given?

The Chairman—The advantage we shall derive with respect to the Wellington, Grey, and Bruce is this:—We require to be absolutely satisfied that the expenditure is covered entirely by the bonds that are raised, and that the line is put into a sound and satisfactory position without any further demands upon us to spend money. There are one or two smaller conditions imposed, which would not interest the shareholders—conditions giving a certain time for transferring the shares to us, in order that we may have control of the line; but the principal thing we have insisted upon is, that the capital expenditure should be absolutely covered by the bonds, and that we shall not find ourselves, after we have taken over the line, obliged to spend any more money upon it. There are certain conditions in the former draft agreement, which we absolutely refuse to be bound by. All we wish is to be left in the position of an ordinary company.

Mr. Fildes, one of the shareholders, after commenting on the different subjects contained in the report, said:—With regard to the Wellington, Grey, and Bruce Railway, he had before expressed his opinion. They had then to be allowed to issue one-fifth more bonds, calculated at £10,000 or £12,000 per mile. As he understood the President, they intended in return to give this Company—first, supervision, and next, shares. Supervision was a very small thing, while the shares were only so much paper. Now, if they give the Wellington, Grey, and Bruce the privilege of issuing more bonds, it was only fair that they should be asked to contribute one-fifth more for working expenses. At present this Company received 70 per cent. for working the line, and he thought his suggestion of additional working expenses was only just and reasonable. (Applause.) They had all heard of the Asian mystery. He thought the working of the Wellington, Grey, and Bruce was the Canadian mystery—(laughter)—which he had not been able to solve. If the Wellington, Grey, and Bruce cost 70 per cent., how was it that the main line, with its greater traffic, could be worked for 75 per cent.? The fact was, he altogether discredited the accounts of the Wellington, Grey, and Bruce. His impression was that the accounts were made to fit the whole 70 per cent.

COSTLY WHEAT.—At the late Provincial Exhibition an American gentleman got a sight of a few heads of a new kind of wheat, said to have been grown in Collingwood township; and seeing a chance for a speculation, he obtained the assistance of Mr. Chas. Grant, who was tending the fair, to search up the sower and secure the wheat, promising not afterwards paying him \$50 for his services. On returning home, Mr. Grant was fortunate enough to find the man, and at once informed his keen-sighted American friend, who came along promptly, and bought up 200 bushels at \$5.50 per bushel! The lucky grower had promised 25 bushels to a local dealer, but the American was determined to secure the whole and thus monopolize the sale of the wheat for seed; and he paid for the 25 bushels \$350! Is all this true? the reader will ask. So at least Mr. Grant assures us. He saw the wheat threshed, helped to bag it up, and saw the money paid for it. What kind of wheat is it, and who was the lucky grower? will be asked. The wheat has a double head (so much we have seen); is very like, if not actually the Egyptian variety, and was grown by Mr. Donald Smith on the eastern slope of the mountain. The difference between the Egyptian and this Smith wheat is, the former is a fall wheat while the latter is a spring variety. The appearance of the grain is precisely like fall wheat, but we are assured that it was sown and reaped this season.—*Meaford Monitor.*

Although the fall wheat in Maryboro' was considerably injured by winter frosts, the crops never were better. Robert Hamilton thrashed from 30 acres, 700 bushels of spring wheat of a splendid sample; John Simson thrashed from 11 acres, 900 bushels; Geo. Fleet 800 bushels, giving an average that has never been realized before.

The balloon in which Duront and his wife made their perilous ascent from Calais, France, has been found in the North Sea, 150 miles from Christianand, and has been placed on exhibition at the Crystal Palace, London, together with a compass, a stopped watch, a discoloured log-book, and other articles saved with the adventurous aeronaut.

The boys of New York profess to be perfectly independent of the society men, as they have plenty of good managers for work. They believe that many of the Unionists will desert the Society. The Union men of course are, as usual, confident in victory.

The price of wheat has been gradually lowering for the past few weeks, and the prospects are that another month or so it will be down to 75 or 80 cents per bushel. Prophecying is not in our line, but we would advise farmers to sell their wheat as soon as possible. The world seems well supplied with wheat—Russia, France and the United States, all great wheat growing countries, have crops as bountiful as Canada, or nearly so.

M. Guizot has left a will, in which he makes a profession of his faith. He says that he dies in the bosom of the Christian Reformed Church of France; that he has engaged, and even doubted, but that he has returned to the convictions in which he was reared, and that he believes in God, and bows before the mysteries of the Bible and the Gospel.

THE SYMPTOMS OF MENTAL decay resemble the gradual changes that come over old people, and are similar to those induced by excesses and bad habits, and the tendency is to the production of softening of the brain and insanity. The cause is the decay of the system, as it is well known that man grows older and mentally weaker when the nervous system is insufficiently supplied with these elements—the solidity of the brain depending upon phosphoric acid, calcium, and iron. The Compound Elixir of Phosphates and Calcium contains these agents in an easily assimilable form, constituting a brain and nerve food. O23-law2w

Which may be done at one-fourth the usual Expense, by Using Glines' Patent SLATE ROOFING PAINT!

AGENTS WANTED IN EVERY TOWN.

A Roof may be covered with a very cheap shingle, and by application of this slat may be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slat, for ONE THIRD THE COST OF RE-SHINGLING. The expense of slating new shingles is only about the cost of simply laying them.

The Paint is Fire-Proof against Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the Same Tariff as for Slated Roofs. For Tin and Iron it has no equal, as it expands by heat, contracts by cold, and NEVER CRACKS NOR SCALES. For Fenestras it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheeting Felt can be made water-tight at a small expense. The Slate Paint is

EXTREMELY CHEAP! Two gallons will cover over 100 square feet of shingle roof, or over 400 of tin or iron. No Tar is Used in this Composition, therefore, it does not affect the water from the roof, if turned off from the eaves before the first few rains. Although the fall wheat in Maryboro was considerably injured by winter frosts, Hamilton thrashed from 30 acres, 700 bushels of spring wheat of a splendid sample; John Stinson thrashed from 11 acres, 300 bushels; Geo. Plect 800 bushels, giving an average that has never been realized before.

The balloon in which Duront and his wife made their perilous ascent from Calais, France, has been found in the North Sea, 150 miles from Christiansand, and has been placed on exhibition at the Crystal Palace, London, together with a compass, a stopped watch, a discoloured log-book, and other articles saved with the adventurous aviators.

The boss coopers of New York profess to be perfectly independent of the society men, as there are plenty of good men eager for work. They believe that many of the Unionists will desert the Society. The Union men of course are, as usual, confident in victory.

The price of wheat has been gradually lowering for the past few weeks, and the prospects are that in another month or so it will be down to 75 or 80 cents per bushel. Prophecy is not in our line, but we would advise farmers to sell their wheat as soon as possible. The world seems well supplied with wheat—Russia, France and the United States, all great wheat growing countries, have crops as bountiful as Canada, or nearly so.

M. Guizot has left a will, in which he makes a profession of his faith. He says that he dies in the bosom of the Christian Reformed Church of France; that he has acquired, and even doubted, but that he has returned to the convictions in which he was cradled; and that he believes in God, and how bears the mysteries of the Bible and the Gospel.

THE SYMPTOMS OF MENTAL DEPRESSION are of a general character that come over the mind and are similar to those of a cold, but with the addition of a peculiar feeling of depression, and a loss of interest in the usual avocations of life. The cause is the depression of the system, and it is well known that a man's mind is generally weaker when his nervous system is unduly depressed. It is a common complaint, and one that is often overlooked. It is a disease of the mind, and it is a disease that is often overlooked. Two gallons will cover over 100 square feet of shingle roof, or over 100 of tin or iron. No Tar is Used in this Composition, therefore, it does not effect decay of the roof, if turned off from the eaves before the first wet rains. On the water from the roof, it fills up the holes and pores, hardens them, and gives a new, substantial roof that will last for years. Corrosion or Warped Shingles it brings to their place and keeps them there. It fills up all holes in tin or felt roofs, and STOPS THE LEAKS. The color of the slate when first applied is dark purple, changing in about a month to a light uniform slate color, and, to all intents and purposes, SLATE. The Paint has a very Heavy Body, but is easily put on, and, through a slow dryer, rain will not affect it in the least one hour after applying.
