SIXTEENTH YEAR

NO REMEDIAL BILL  
THIS SESSION

Possibility of a Commission  
Being Appointed.

TO REPORT AT A FALL SESSION.

The Cabinet Discussed the  
Draft of the Bill.

FAILED TO AGREE UPON DETAILS.

Quebec Conservatives Disas-  
tified at the Delay.

Official Intimation That the Ontario Wing  
Has Scored a Victory Will Be Made on  
Monday.

150 Clauses—A Quebec Member  
Views the Action of the Ontario Con-  
servatives—The French-Canadian Press  
Confident of Remedial Legislation Be-  
fore Dissolution.

Ottawa, July 5.—The desire to know  
the result of the deliberations of the  
Cabinet to-day was as keen as ever  
on the part of members. Shortly be-  
fore 3 o'clock it was in everybody's  
mouth that there would be no Remedial  
Legislation this session, and if this  
view is confirmed by the Premier and  
his First Lieutenant on Monday pro-  
gram will take place within a week.

It was freely expected that an official  
announcement would be made in both  
Houses to-day; but, as will be seen  
from what follows, it has been  
deferred until Monday.

The Premier's Statement.  
In the Upper House, Gordon Scott  
said: "The session is drawing to a  
close, and many members are anxious  
to know if we are to have any im-  
portant legislation, and particularly with  
regard to the Manitoba school ques-  
tion."

Mr. Mackenzie Bowell replied: "I  
think I shall be enabled to give the  
House definite information upon the  
particular point to which the hon. gen-  
tlemen have called attention, at the  
opening of the session on Monday."

Mr. Mackenzie Bowell: "I think I  
shall be enabled to give the House  
definite information upon the particu-  
lar point to which the hon. gen-  
tlemen have called attention, at the  
opening of the session on Monday."

Mr. Scott: "Do I understand that  
the Government have not yet decid-  
ed upon the legislation with regard to  
the school question?"

Mr. Mackenzie Bowell: "I do not  
think I gave any intimation as to  
whether they have decided or not. I said  
I hoped to be able on Monday to give  
the House definite information with  
regard to the school question."

Mr. Scott: "That is the last  
(laughter)."

The Premier's statement is looked  
upon as confirmatory of the view that  
Remedial Legislation is deferred.

A Deadlock in the Deliberations.  
The reason for this is not difficult to  
see. It was the result of the decision  
to declare that a Remedial Bill, if  
drafted by the officers of the Depart-  
ment of Justice, was laid before coun-  
cil, and that the House would be asked  
to pass it on Monday, when the  
House assembled, I will make a definite  
and positive statement.

Mr. Laurier: "That is the last  
(laughter)."

## BURGLARS TIE UP AN OLD MAN

DAVID BLACK OF FAIRHURST ILLUDED  
BY ROBBERY.

A Demand for \$500 Not Being Complied  
With, the Three Masked Men Threatened  
to Four Cook Oil on the Old Man  
and Set Fire to It—They Got \$25.

Fairhurst, Ont., July 5.—One of the  
most daring robberies ever perpetrated  
in this neighborhood was committed  
this morning about 10 o'clock.

Three masked men entered the resi-  
dence of Mr. David Black, an old un-  
married man living a short distance  
from town.

Mr. Black was awakened by the rob-  
bers, who were in the act of tying his  
hands, and although he struggled  
hard, was soon bound, hands and feet,  
and his head covered with a quilt.

Fifty hundred dollars was all the  
money he had, and on being told that  
it was not in the house threatened to  
pour coal oil on the victim's feet and set  
fire to them unless he told where the money  
was.

After searching the house and ransack-  
ing his papers, they slightly loosened  
the cord on one of his wrists and  
made good their escape.

The reward they received for their  
trouble was something over \$25, and  
two pairs of wearing boots, the money  
they were after having been safely  
banked the day previous.

KILLED IN A RAY-MILL.  
Cut to Pieces by the Sharp Saw at Which  
He Worked.

Forestville, July 5.—Henry Martin,  
22 years old, was at work in William  
Hornburg's sawmill yesterday at Sher-  
burne.

He was caught on the saw, and threw  
him upon it. A great chunk was cut  
from his side exposing his bowels.

No Poison Found in the Stomach of Mrs.  
Nelson of Colborne by  
Prof. Ellis.

Prof. Ellis has completed his analysis  
of the stomach of Mrs. Nelson of Col-  
borne, whose body was exhumed on June  
10, in consequence of rumors which  
stated that she had been poisoned with  
sugar of lead by one William Footes,  
with whom she lived, and Mrs. Pilkey,  
a woman whom Footes had taken up  
with. No trace of poison was found in  
the stomach.

## BURNED HIS WIFE AS A WITCH

HERB OIL ON HER, THEN HELED  
HER WITH A WITCH.

Superstitious Michael Cleary of Clonmel  
Believed His Wife Concocted With  
Fairies—He and His Relatives Tortured  
the Woman to Exercise the Witch,  
Whom Her White She Keated to  
Death.

Dublin, July 5.—Michael Cleary, liv-  
ing near the Town of Clonmel, was con-  
victed to-day of manslaughter in hav-  
ing burned his wife, Bridget Cleary, to  
death last March. The court deferred  
sentence. Cleary believed his wife  
was bewitched, and upon the advice of  
Dennis Gancy, the "family doctor,"  
and in the presence of her father and a  
brother, he held her over a fire, and  
poured paraffin over her body and set  
fire to it. The woman was burned to  
death.

The principal Crown witness testified:  
On the night of March 14, I accompa-  
nied my wife, when she went to the house  
of Patrick Holland, owned by him and by  
Michael Cleary and Bridget Cleary, his  
wife. When we arrived close to the  
house we met Mrs. Johanna Burke, and  
I inquired how Mrs. Cleary was. She  
said they were giving her some herbs  
just then which they got from Dennis  
Gancy, the family doctor, and that no  
person would be let in for some time.  
We then proceeded to the window of  
the house. In one of the front rooms  
the door was opened. I saw there John  
Dunne, P. Kennedy, M. Kennedy and  
William Kennedy, holding Mrs. Cleary  
by the arms. She was being held back  
by Mrs. Cleary, who was standing by her  
bedside.

Covered With Oil.  
I heard him call for paraffin oil, and  
he said, "Take it." It was brought

NO REMEDIAL LEGISLATION

Continued from First Page.

lack of progress made at the last three meetings, would be impossible to get through with the business now standing before the committee unless leave were given to sit during the sittings of the House. He therefore moved that the committee have permission to sit while the House is in session.

Mr. Edgar objected that no notice had been given of motion.

Mr. Miller characterized the proposal as a monstrous one, and made without the consent of committee.

The speaker ruled the motion out of order, as there was no statement or report from the committee indicating that such a motion was essential in order to perform its duty.

Board of Customs.

Mr. Wallace introduced a bill reconstructing the Board of Customs. Referring to Mr. Laurier, he said it was not intended to create a Board of Customs Experts, as the present measure would meet the object simply by Boards of Trade.

Justice Davis's Salary.

On the bill respecting judges of provincial courts, Mr. Minto moved the reduction of the salary of Chief Justice Davis as judge in admiralty in British Columbia to the amount received by the former incumbent of the office. The amendment was defeated by 90 to 55, and the bill was read a third time.

A Bonus for Silver Smelting.

The House went into committee of the whole on Mr. Foster's resolution providing for the payment of a sum not to exceed \$100,000 in five years, to encourage silver lead smelting in Canada, the payment for each ton of ore smelted not to exceed 50 cents. The minister explained that the bill proposed to expend more than \$30,000 a year as a bonus unless there was a balance remaining over from the previous year. The product of the smelter was \$50 to \$60 per ton. This silver lead deposits in British Columbia were very extensive, and were being worked to some extent, but that the industry in the United States to be smelted. This retarded the development of the industry, especially as only a certain class of ores would bear the expense of transportation. It was provided in the act that a smelter must begin operations before July 1 next.

Mr. Laurier said that, in view of the depressed state of the silver market and the condition of the Dominion, it was not desirable to make an offer of this kind; but, as the amount was small, and it was an experiment which might be the means of developing the principal industry in British Columbia, he would not offer any opposition. (Loud Ministerial applause.) The resolution was carried unanimously.

Several Government measures were advanced a stage.

Canada Railway Bill.

The first hour after recess was devoted to private bills, and first was taken up the act to incorporate the Intercolonial Railway Company. There was considerable discussion on the clause specifying the time limitation and forfeiture. Three amendments to the original clause were offered, and finally Mr. Masson, promoter of the bill, agreed to a compromise stipulating that if the construction of any of the three lines of the system be not commenced, and 15 per cent. of the whole capital stock expended, within two years, or if each of the railways be not operated within five years, the charter shall be void as regards so much of the railways as has not been completed in five years.

Mr. J. V. Maclean made a stout stand against the adoption of the 14th clause of the bill, which empowers the company to lease or transfer its lines to the Canada Southern, C.P.R. or New York Central. The member for East York deprecated the idea of these big companies being empowered to come in and gobble up even our electric roads.

The bill eventually passed through committee in its amended form, and was read a third time and passed.

Several other bills were also put through the final stage, including the Metcalfe bill respecting the Kingston & Pembroke Railway.

Decrease in Cost of the State Department.

After some talk on Lake Erie fishery matters, in the course of which Mr. Allan (South Essex) denounced the fishery regulations as unnecessary and unprofitable, the House got into committee of supply.

Good progress was made in supply, and the House adjourned at 12:40 a.m.

The bill respecting the Toronto, Hamilton & Buffalo Railway, which has been before the House for several weeks, monopolized the attention of the Railway Committee of Parliament all morning.

Mr. McWilliams moved an amendment making the company responsible for certain debts incurred by the contractor who constructed the road. These debts are charging the board and materials. W. G. McWilliams of Toronto appeared before the committee and asked that some guarantee be given him respecting the claims of the company for \$445 for legal expenses. The company's solicitor, before the meeting closed, entered an agreement with Mr. McWilliams. Edward Meek of Toronto also asked for relief from the committee. He said he represented the original promoters of the railway, who assigned their charter to the present promoters on condition that they were to be paid \$100,000 in cash and \$200,000 in stock. This agreement had not been carried out. Mr. Teetzel of Hamilton also appeared before the committee to secure protection for the claims of C. R. Smith, who secured the passage of several by-laws for the company. Eventually the bill passed the committee.

Promoters Without Examination.

Last session an act was passed enabling anyone who had been in the civil service in 1882 to be promoted without passing the examination prescribed in the civil service act. Mr. Maclean moved some weeks ago for a return of any appointments made under this act.

The return brought down today shows three appointments only, and those in one department—Public Works at Ottawa, \$730.

Several of the departments, including the postoffice, declined when requested to do so to make promotions, under the special act in question. The three appointments were: T. J. McLaughlin, second-class clerk, at \$1,100; H. J. Guppy, third-class clerk, \$1,000; Mrs. T. F. Hyndman, third-class clerk, \$730.

New Appointments.

The following appointments will appear in The Canada Gazette tomorrow: Thomas Shannon, to be sub-collector of customs at Killarney; W. J.

THE GRAYS BROUGHT BACK.

DETECTIVE MURRAY BRINGS THE FAMILIAR FROM FLORIDA.

Neither of the Alleged Murderers of David Scoble Made Any Reference to the Family on the Trip—V. G. Murdoch Retained to Defend Them—An Occasion Where Justice Moved Quickly.

Threw out as the result of four nights loss of sleep, Chief Government Detective John Murray arrived in the city last evening from Toronto, where he placed in charge of the jailer of Peterboro County Thomas Gray and his wife, Hattie Gray, charged with the murder of David Scoble in Ontario Township on Feb. 23, 1894.

He also left with the jailer the six children of the accused, who had been brought back from Florida by their parents, the officials of Marion County, Fla., who had been charged with the offense unless the offering accompanied them to Canada.

The husband and wife will have their preliminary examination before County Magistrate Edmondson on Tuesday, July 16. It is expected that the children will have been adopted by relatives of the accused.

THE WAY HE GOT THAT DRESS SUIT.

The Adventures of the Tramp Who the Toronto Police Arrested in a Box Car.

The Toronto police have been endeavoring to find an owner for a dress suit found in possession of a tramp arrested in a car at the Union Depot.

The World learned yesterday the history of the dress suit and it is an interesting one. On June 17 a man astride a bicycle rode into the premises of Mr. George Marriott, farmer of Richmond and asked for employment. Mr. Marriott was at the time needing help and readily engaged the man to work for him at \$16 per month. After being in Mr. Marriott's employ for a few days he disposed of the bicycle to a St. Mary's man for \$25. Next day, while engaged on Mr. Marriott's farm hoeing potatoes, the roll of bills which he carried in his pocket got for the bicycle because wet from the sweat of the laborer and was taken from his pocket and placed under the shade of a large potato plant. The proprietor's dog, looking in the situation, became financially hungry and seeing the roll took therefrom a bill and the cur's teeth caused him to cough vehemently. This drew the laborer's attention and he discovered the bill in the cur's teeth and he took it. Brooding over the loss of the \$3 bill the laborer rose early in the morning, dressed himself in a suit of broadcloth (the proprietor's best clothes), and taking the cast-off bicycle rode to the factory in the morning with the speed of a locomotive. Mr. Marriott, after waking from his morning doze, discovered the missing bill and with all speed followed the fleeing thief to St. Mary's, where it was learned he had boarded a freight for the east.

The ship was outward bound, and had 543 cattle, 187 sheep and 71 horses on board, and a little over 1000 tons of cargo. The vessel was wrecked, and the crew and passengers were rescued.

The Inquest in the St. Henri murder case is at an end, and the husband of the victim, Napoleon Demers, has been released from custody. He was found guilty of the crime, and sentenced to the penitentiary for life.

Demers takes matters coolly enough, and was driven off to jail. It turns out that a prayer-book was found in the woods in rear of the house, in which Mrs. Demers lost her life, and the leaves were turned down at the prayer for the dying. This is the gist of the case at present against Demers.

Mr. J. S. Bousquet, for many years cashier of the Bank du Peuple, has resigned. The salary offered Mr. Bousquet was \$7000, but being a very able financier he believed he could do better under other ventures. The retiring cashier remains, however, financial adviser to the Board of Directors.

Argonauts' Fast Trial at Stanley Makes
English Cracks Not So Sure of
the Stewards' Cup.

London, July 5.—The Cornell crew see
defeat ahead of them and sagaciously
announce that they cannot train at Hen-
ry.

Coch Critchley says he is making every
effort to bring them into condition, but
it is doubtful that they will be in shape
when the trials begin on July 9.

The telegram special says that there
is no question now about the favorite for
the Diamonds. "Buck" Thompson has
let himself out, and recent trial spins
have placed him high in public favor.

To-day he rowed over the course for
the singles in 35 minutes and 35 seconds,
beating the record, and the achievement
was witnessed by many who will from
this point pin their faith to the Canadian,
especially as Guy Nickalls went the same
journey a short time later, finishing in
8 minutes 40 seconds. The critics are
more favorably disposed toward the Canadian
style than formerly, and it is fully ex-
pected that the next published quotations
will show the Canadians in the front
of the betting both for the Diamond
Sculls and the Stewards' Challenge Cup.

The men are in good spirits and enjoy-
ing the best of health. The return of fine
weather has improved the aspect of
things generally, although some of the
Cornell crew are still a little indisposed.

The Argonauts' practice this morning
was witnessed by the Canadians in the
vicinity of the Stewards' Cup course in 7
minutes 40 seconds, and in such good form
that they went up a notch or two in
critical opinion, and are now regarded as
dangerous by the friends of the Le-
anders.

This evening the Amsterdam crew, pull-
ing a 42-horse, rowed to Fawley Court
in 3 minutes 30 seconds.

Guy Nickalls sculled to Fawley Court
in 4 minutes 15 seconds and Guinness in
4 minutes 9 seconds.

The new college eight, pulling 37
strokes a minute, rowed over the full
course in 7 minutes 6 seconds.

Valkyrie Beasts All
Hunters Quay, July 5.—The Britannia
having withdrawn from the private
trial, the Ailsa entered in a merely
friendly contest with the new Valkyrie.
The contest was dead to the windward
and return. The starting signal was
given by the Iverna at 2.30 p.m., and the
Ailsa got away fifteen seconds in ad-
vance of Valkyrie. The weather was
freer and the Valkyrie heeled
more. The Valkyrie finally drew out in
fine style. She rounded the weather mark
three and a half minutes ahead and from
that point to the finish gradually increas-
ing her lead crossing the line with a
finish at 4.45.50. The Ailsa's finishing
time was 5.06.50.

The time of 20-raters yachts at the
Commodore's boat at the finish of
the third round was: Zinita 2.59.08, Ni-
agara 3.05.55, Edouard 3.10.00, Dakota
3.20.00. The Zinita was disqualified by
the judges.

Partridge's Big Margin

draw, the latter defeating Brantford by 248
runs.

by an innings and 35 runs.

The first annual athletic tournament
of the Toronto Athletic Club, which will
be held to-day at the Rosedale grounds,
promises to be a decided success. All
the events are well filled, and athletes
will be present from all parts of Canada.
Montreal also sends nine of her best
men, including competitors for the 100
yards, 220 yards, 440 yards, 1-2 mile
and mile, and Orton comes all the way
from Worcester, Mass., to start in the
1-2 mile, mile and mile handicaps, in the
latter of which events there will be no
less than 14 starters. The two provin-
cial bicycle championships are also well
filled and should form an attractive
feature of a good program. The O.Q.B.
and Royal Grenadiers will contest for
the honors in the military bicycle race.
All that is needed is fine weather to
make the first venture of the A. C. a
grand success. The seat plan is open
at Webster's ticket office, corner King
and Athletes and General Notes.

When men and women can be got
away from simply temporizing with dis-
ease, there will be less disease in the
world. The immediate matter is the
natural, is to relieve the present trouble,
but how often is it forgotten that any
cure that is only a temporary relief, will
certainly turn up again.
The well-known hall of Dr. W. J. Hill,
Ont. He had suffered from severe liver
trouble and prostration for
nearly three years. During this time he
doctored to no end, and occasionally ac-
quired a little temporary relief. But the
trouble would come back again, after
the charm of the cure-alls had been ex-
hausted.

He entered upon the use of South Amer-
ican Nerveine with little hope that it
would be any better than other medi-
cines he had used. He had soon dis-
covered the mistake. Where doctors had
said that he must die, this medicine gave
him life. He persevered with it, and
in possession of robust health,
which flow the life-blood that keeps the
system in perfect health. When these
nervous centres are kept healthy, neither
liver complaint nor other troubles will
worry one. Mr. Hill's cure was lasting
for this reason. Anyone who uses Ner-
vine will experience same results.

THE T. EATON Co., (LIMITED) 190 Yonge-street, July 6, 1895.

A Constant Procession Some buyers in England are on the Continent; others outward bound; orders being sent by cable; new goods coming to us on every steamer—a constant round of activity, with ceaseless vigilance the watchword and greater usefulness the goal of all our ambition.

Shopping by Mail: Immediately after stock-taking prices on many kinds of goods are usually reduced. The idea is to prevent a possible surplus in any stock and to keep assortments on an even average.

- Heavy Jean Corsets, 14 inches length in front, fine corded, 5-hook, 2 side steels, tan colors, Special .35 PAIR
Children's Fine Print Pinafore, Mother Hubbard style, with full print, 5 sizes .35 EACH
Ladies' American Skirt Waists, laundried front, cuffs and collar, pink, blue, mauve, colors and black and white stripes, Special .50 EACH

Mail orders filled promptly and absolute satisfaction guaranteed. This store isn't unknown to you. Thousands and thousands of country people send to us for the goods they need, and city people stopping at summer resorts will be equally interested in shopping by mail.

The special Dress Goods clearing on Monday next promises to be an interesting event. Three hundred pieces of the choicest goods in the market just arrived from Europe, all 42 and 46 inches wide. To be thrown on the dress counters Monday morning at 25c a yard. Many of these goods are usually sold at 60c. First comers get the first pick in these goods.

THE BLOOMER CONTROVERSY. The use of the bicycle by women ought to be generally encouraged. The father should teach his girls to ride the wheel, because it affords them a pleasant way of taking the physical exercise that is so essential to healthy womanhood.

THE GRASSHOPPER CROP. 8000 Bushels a Day Harvested by the Hop-Machines. St. Paul, Minn., July 5.—Prof. Otto Longley, Entomologist, called at the Governor's office yesterday and made a report on the grasshopper killing in Chicago County with the hopper dozers.

THE LABORER MAKES GOOD TIME. The following official time of two Montreal steamers will be of interest. The Labrador left Quebec on Sunday, June 24, at 8:30 a.m. and arrived at Montreal on Tuesday, June 25, at 8:30 a.m.

THE ICE CONTROVERSY. There is a good deal to be said both for and against the free and indiscriminate use by the public of ice taken from any source whatever. If we allow ice to be harvested indiscriminately, we render it too cheap that people ought to be able to use it for cooling purposes in an indirect way, that is by not allowing it to come in contact with the article that is to be consumed.

THE ISLAND WATER SYSTEM. It appears that no waterworks system will be established on the Island this summer, at least, and if we are to credit the statement of the Waterworks officials it is some years yet before such a system will be erected.

UNGRATEFUL CIVIL EMPLOYEES. Charges That They Do Not Support the Trades Council. At last night's meeting of the Trades and Labor Council the report of the Municipal Committee drew attention to the fact that not only were the carpenters in the employ of the Ontario Government ungrateful to the Council, but numerous bodies of workmen, notably city employees and members of the Fire Department, render no assistance to the Council, but never fail to turn for assistance to it when they desire to secure some benefit.

BETWEEN LIFE AND DEATH.

THE NARROW ESCAPE OF A WELL-KNOWN NEWBURGH MAN.

By the Loss of a Finger Mr. Charles Moore of That Village Nears Death's Door, But is Rescued After Doctors Have Failed.

From The Napesee Beaver.

In the pleasant little village of Newburgh, on the Bay of Quinte Railway, seven miles from Napesee, live Mr. C. H. Moore and family. They are favorably known throughout the entire section having been residents of Newburgh for years. Recently Mr. Moore has undergone a terrible sickness, and his restoration to health was the talk of the village, and many even in Napesee again felt pale, as the result of the news that The Beaver reporter was detailed to make an investigation into the matter. Mr. Moore is a well-to-do man, and while working in Finkle's factory last winter met with an accident that caused him to lose his right hand. It was following this accident that his sickness began. He again felt pale, suffered from dizziness to the extent that he sometimes fell. He was constantly growing worse and the physician seemed puzzled, and none of his friends thought of anything to do. One day a neighbor urged Mrs. Moore to persuade her husband to give Dr. Williams' Pink Pills for Pale People. After a few days he began to feel better, and it was longer medicine to induce him to continue the treatment. A marvelous change soon came over him. Each day he seemed to gather new strength and new life, and after eight boxes had been taken he found himself again a well man. Mr. Moore is now about 65 years of age; he has been healthy and has worked hard all his life until the sickness alluded to, and now, thanks to Dr. Williams' Pink Pills, he is once more able to work in his old accustomed way, and does not hesitate to give the credit to the medicine which restored him to health, at a cost no greater than a couple of visits to the doctor.

Time and again it has been proven that Dr. Williams' Pink Pills cure when other medicines fail. No other medicine has such a record and no other medicine gives such undoubted proofs of the genuineness of every cure published, and this accounts for the fact that, go where you will, you find nothing but words of praise for Dr. Williams' Pink Pills. This great remedy also accounts for the fact that unscrupulous dealers here and there try to pass off a bulk pill upon their customers with the claim that it is "just as good," while a host of imitators are putting up pills in packages somewhat similar in style in the hope that they will reap the reward earned by the merit of the genuine Pink Pills. No matter what any dealer says, no pill is greater than the wrapper around every box. Always refuse substitutes, which are worthless and may be dangerous.

A WIFE IN EACH COUNTRY.

An Englishman With a Charge of Bigamy Against Him.

New York, July 6.—William H. Figles, 35, an Englishman, who was arrested here, was arraigned before Judge Moore in the Court of Sessions, Brooklyn, this morning, on an indictment charging him with bigamy. The defendant Jennie Waters in Ontario 12 years ago. He, his wife and two children lived last together in Calver-street, in Green Point.

In April last he went to a ball, at which he danced with Kate Barton of 35 Grand-street. After the dance he went to New Haven to live. Figles said, in pleading guilty, that he had never lived happily with his wife, and that he married Kate because he thought she would make him a pleasant home.

A LONG PILGRIMAGE.

Has Set Out to Visit All the Shrines in the World.

John Thaler, by birth an Austrian, from the neighborhood of Trieste, is now in the city on a long pilgrimage. He started from Montreal some 15 months ago and has got thus far. Thaler says he arrived in Montreal in 1891 and 18 months ago lost his sight by falling upon a broken chair.

After treatment at the Grey Nuns Hospital he undertook a pilgrimage to St. Anne de Beaupre last August, and there claims to have partially recovered his eyesight. He considered the idea last winter of visiting all the famous shrines of the world on foot. To-day he goes to Stratford, then to London and Detroit, on to Denver and San Francisco, where he hopes to have accumulated enough in small donations to buy him transportation to Yokohama. He will tramp through Asia into British India and Palestine, and also intends visiting all the shrines of Europe, and hopes to be back in Montreal in ten or twelve years.

Two New Separate Schools.

The Sisters and the committee of the Separate School Board have commenced to make the repairs and alterations that are necessary to the following schools: St. Basil's, St. Vincent-street; St. Paul's, Queen-street east; St. Patrick's, William-street; St. Francis, Manly-avenue; St. Helen's, Brockton-st. Cecilia, Edwin-avenue; St. Mary's, McDonnell-square; St. Mary's (old), McDonnell-square; St. Michael's, St. Peter's, Bathurst-street; St. Joseph's, Crown-street; Dr. La Salle, Duke-street. There are two new schools to be built this summer, one in Winchester-street, and the other in Bolton-avenue.

Bear Shot in Pastich.

Mr. James McGar of the 4th concession, Pastich, on going to the field for his horse on the morning of Tuesday, the 2nd inst., ran across a black bear. McGar showed fight, but McGar's dog pulled the bear up a tree. McGar at once informed Mr. F. Brick, who came to Haveler, and in company with his son John Mr. William Holiday, Mr. John Wayner of the Queen's Hotel went on a bear hunt. Mr. Brick got sight of a bear, and after an exciting chase, got two well-planted charges of buckshot in the bear's head and neck, killing him instantly. The bear weighed 6 feet 7 inches long and weighed 200 pounds.

THE PUBLIC SHOULD BE IN MIND THAT

Dr. Thomas Electrolytic Oil has nothing in class of so-called medical preparations. It is a pure and really efficacious—relieving pain and lameness, relieving joints, muscles, and sores of hurts, the most powerful and specific for rheumatism, cough and bronchial complaints.

Claimed He Was Drunk.

Charles Gussam of Wexford was tried before Judge McDougall yesterday on a charge of robbing the Queen's Hotel, Unionville. The all the afternoon, money from the till and amounting to \$100 was taken and handed it over. Gussam had taken it and drunk at the time and did not know what he was doing, and was allowed to go on suspended sentence.

CITY HALL. THE ALLEGED GERMAN BOODLERS.

The Order for Their Arrest Came from the Division Court of the City of Toronto.

Albert and Paul Reiser, who were arrested Thursday evening on behalf of the Herzog-Anhalt Amstergicht, or, put into Anglo-Saxon, the Division Court of the Duchy of Anhalt, Germany, appeared before His Honor Judge McDougall yesterday. Mr. Sigmund Weichert, acting German Consul, called the authorities of Zerbst the news of their arrest. He received a cable in reply to this, asking that the men be held, pending the arrival of the necessary papers in the matter, which had been sent on.

Claim They Are Not the Parties.

The prisoners have engaged Louis F. Heyd as counsel, located in Upper Baita-street. They continue to persist in their assertions that they are not the parties wanted. This point, however, seems to be indisputable, as the cable requesting their apprehension not only was positive in this point, but also stated that they were in Toronto, but described the prisoners as coming to Toronto by many fugitives from justice in foreign lands. They had once begun to associate with the German consular officials in the course of conversation have let slip in the presence of a native of Zerbst that they came from that town. The fact that a formerly well-to-do merchant would leave his native land after spending three years there, and in the enjoyment of prosperity gave rise to suspicion that caused some one at present in the city to write home and whereof. This appears to be the only explanation of the fact that the German authorities know of their whereabouts before being seized.

The prisoners deny the imputation that they have made any money in the city or in the hands of a friend. Their assets, they say, will not total more than \$300. They were remanded for a week.
