their schedules time, must be hoped the falsehood and I as firstly to specified and in falsehood and I as firstly to specified as ours, is constantly occurring.

'As I might weary you by details, if it entered into too minute an explanation of how this done, I will give you the eystem in as few words as possible.

'For an example: we will say the regular crossing-point for No. 34 going west, and No. 35 going cast is B—Now, all trains are reported by telegraph from each station as they pass. We were on the look out for these reports, and before us is the train sheet upon which must be noted in the first of the tour of the place of the up and-down motion: 'Wave it, the time of departure of each train from the trust is supplied with the new of the first which is evidently beginning to lose its the bigh rate of speed he was coming, and placing him in the bigh rate of speed he was coming, and placing him in the bigh rate of speed he was coming, and set of the bigh rate of speed he was coming, for one moment imagine that the bigh rate of speed he was coming, for one moment imagine that the bigh rate of speed he was coming, for one moment imagine that the bigh rate of speed he was coming, for one moment imagine that the bigh rate of speed he was coming, for one moment imagine that the bigh rate of speed he was coming, for one moment imagine that the bigh rate of speed he was coming, for one moment imagine that the bigh rate of speed he was coming, for one moment imagine that the bigh rate of speed he was coming, for one moment imagine that the bigh rate of speed he was coming, for one moment imagine that the bigh rate of speed he was coming, for one moment imagine that the bigh rate of speed he was coming, for one moment imagine that the bigh rate of speed he was coming, for one moment imagine that the bigh rate of speed he was coming, for one moment imagine that the bigh rate of speed he was coming, for one moment imagine that the bigh rate of speed he was coming, for one moment imagine that the bigh rate of speed he KEEPING WARM - It may not be generally known that, when exposed to severe cold berries flourish abundantly. Large quanwarmth is readily tities of these products are shipped north

One day, sitting at my instruments busily employed as you saw me a few moments ago, I discovered that freight No. 102 was loosing time. Soon it was there may came and passed now, so freight No. 65, which usually crossed at B.—, I conducted to push it, along to call of ap D.—, the next station beyond the usual crossing point, and upon receiving the response went alread with this station. 'Traine made no regular stop order:

'To Conductor and Engineer No 65:
'You will proceed to C.—— and cross No. 102 there.
'The next move was to protect them in first,' I greed daspondent.' Spread of the station my little den of an office, the next may take the may as a measure for guarding against further trouble, very kindly offered the situation beyond to me. I could but accept. Soon we were moved fired our reach, I could see the special passenger train coming. Now for it I Looking and running shead again I saw the freight.

'Thank God, I shall reach the switch is accordant to push it, along to call of a pure point, and upon received in the switch order:

'To Conductor and Engineer No 65:
'You will proceed to C.—— and cross No. 102 there.

'Ye will proceed to C.—— and cross of the part of the station, it is the man what is termed a flag by day, or red light by night, basied to take the train of the switch of the reach of the same way and the switch of the reach of the station. If the shall reach the same way and the same way and the switch of the reach for life. To insert of the train one thousand the switch of the part of the train one thousand of the could mo

ADVANTAGES OF GOING TO PRISON .- John troubled my conscience off and on ever since; and I sent money to you by a friend and she was ashamed to deliver it; so I enclosed it by mail (50 cents) and beg that you will acknowledge it."

—A communication has lately reached us, from a responsible person, which states that bigamy has been committed in the case of a recent merriage. It is a matter that should be brought to the attention of the proper authorities. The minister who officiated at the last marriage, is, so our informant says, ignorant of the fact of one of the contracting parties being previously married and partner still living. This should be brought to his notice at once, and let him take some action in the matter. The Monitor cannot allow any such direct charges to be made in

for the present year at least, it has been placed beyond the power of our com-missioners to extend the sewerage There will be a social at Mr. Characteristic complete the sewerage of the would be wise or advisable at the resent to complete the sewerage of the own; but we certainly think it would have been far better if the rate-payers, the adjourned meeting on the 12th net, had voted a specified amount for ny special emergency that might arise. The necessity of good sewerage in a specified and applea at Ancherosphere. system of this town. We do not think it would be wise or advisable at the have been far better if the rate-payers, have been far better if the rate-payers, at the adjourned meeting on the, 12th first., had voted a specified amount for any special emergency that might arise. The necessity of good sewerage in a town is of paramount importance. It costs something at the outset, but it is The necessity of good sewerage in a town is of paramount importance. It costs something at the outset, but it is very questionable if it really costs more in the end than the miserable plank drains that have to be depended upon in the principal portion of the town. To our certain knowledge the main drain of Queen Street is shoked up and rotted away for a distance of fifty or more feet from its outlet, and nearly the whole street depends, for cellar drainage, upon a private four inch drain. Sink drainage is, necessant return to load apples at Annapolis for London for £1 900.

—The Arlington Baptist Church has put the Court House on Monday evening next, lith inst. The com. has arranged for outside as well as local talent. Temperpance matters are reviving in our town. Let the people show their sympathy and give their support to this, one of the "for music has been provided. The newly some feasional fees have been raised.

Temperpare and return the fourth the court house on Monday evening next, lith inst. The com. has arranged for outside as well as local talent. Temperpare and return the field from the different wards and friends from the different wards. The various schools were represented by the feet of the nearly the whole street depends, for cellar drainage, upon a private four inch drain. Sink drainage is, necessarily of an uneatisfactory character. The major portion of the town is so ity. This is good news.

motives. Our object is to make Bridge town one of the most desirable places just opened at J. W. Beckwith's. 1:

WHY MANUPACTURING SHOULD BE ENday next, the 12th inst., commencing great encouragement to such industries. They grow apace, the sales of their products rapidly increase, so that they have to enlarge their capacity for production, which gives more employment to home labor. The money paid to this labor is labor is people are given employment, and the more trade the better home-market they afford to the isrmer. The more the farmer and the more the farmer and the more the farmer and the general subject will be Temper; tis for everybody. Buy all that you can that is made at home. Build up such the programme. A full house is extended that is made at home. Build up such that is made at home. Build up such that is made at home. Build up such the programme. A full house is extended that is made at home. Build up such that is made at home. Build up such that is made at home. The south is beginning to understand this, not only in manufacturing, but in varying and diversifying her farm products. The farmer or planter there now rai-es coin, cotton, oats, wheat, rye and stock, and if doing so he becomes independent. When only one product is planted, although to pays well, it is too much like placing all your eggs in one basket. Diversity of products insures safety. The more you encourage diversity of manufactures in your evicinity, the more readily you will build up your home market and entich your-elf.

publish, but as it is too lengthy for our limited space we give the essential stenographers. Professor grounds of the appeal, which is direct to Presbyterians to come forward in the support of an important institution.

Mr. Laing maintains that while the Presbyterian Church holds a position of first rank as a missionary agency she of first rank as a missionary agency she contains the successful stenographers. Professor Russel will report the proceedings of legislative council."

The angel of death visited our section on the mountain and called away Thomas Harris at the ripe age of about ninety years. A quiet, good neighbor and economical farmer. His son Richard succeeds him on the farm. Alex. Gregory, who lived for more than a score of years at Lilly Lake, was not a law to La

tions will have to be begun without much delay. Almost immediate action is necessary in regard to building operations, but the Directors do not feel that they can assume this additional re-ponsibility without first appealing to the good will and liberality of our people and securing some guarantee that they will be supported Tais appeal they make in the firm conviction that the necessities of the case and the justice of the case and the justice of the case will secure a ready and ample response.

In order to save time labour and expense will not our friends and supporters at a termon, but I can say that they were send to us such subscriptions as they are willing and able to give either as shares of the value carried over, at J. W. Beckwith's.

It is any of their marriage by the customary wooden wedding. An luvitation had been extended to about sixty guests, and the marry faces that greeted one in all parts of the house attested to the fact that all who could possibly attend were present.

There was quite a large crowd on the ice last Saturday afternoon. Feltus was there in full force, and was as the collection until the collection room bore the appearance of an wholesale atternoon, but I can say that they were send to us such subscriptions as they are willing and able to give either as shares of the vall file ables were fast being the customary and also as a means of bringing others into the customary wooden wedding. An invitation had been extended to about sixty guests, and the customary wooden wedding. An invitation had been extended to about sixty guests, and the extended to about sixty guests, and the customary wooden wested one in all parts of the case and the house attested to the fact that all who could possibly attend were prese

Within two years a heautiful and most under his preaching. gratifying to know that results have not justified these fears. Already our buildings are too small, and our accommodation entirely inadequate. Last September, on the opening of the classes, it was on the opening of the classes, it was found necessary to remove the Conservatory of Music to a Louse near the college which the Board were fortunate in being able to secure. This arrangement, although the very best that could be made in the circumstances, is expensive, inconvenient and inadequate, and could not be continued for any length of time. We must have a home for our Conservatory within one own grounds. Our Dining the circumstances, is expensive, incomvenicht and inacquary, and could not be

baving been induced to publish the by Mr. Andrews, and further explanations In answer to Mr. Edgar, Mr. Bowell baving been induced to publish the dy Mr. Address, he attorney general the said the government had paid \$262,500 as letters as Mr. Pernell's or to use them of the bill by the attorney general the said the government had paid \$262,500 as interest upon \$15,000,000 of Canadian in evidence against him. The expression of regret includes also the letters falsely attributed to Mr. Eagan, Mr. Davitt and Mr. O'Kelly. It is scarcely fitting now to enter into the circumstances under learning a case cansed quite a lively learning a case cans which we received and published them. discussion. A motion was made We are bound, however, to point out that have the fee made one dollar. Other Piggott was not the person with whom members took the ground that the fee was communicated. Moreover, we must was not to pay members for their time, add that we firmly believed the letters but to indemnify threm for stationery J. B. Norton, Bridgetown, N. S., We are bound, however, to point out that have the fee made one dollar. Other coming to hand almost every day reads were genuine until the disclosures made and to establish a scale of fees, that by Piggott on cross-examination. It would avoid legal trouble. The clause must be evident to all reasonable persons that if a conspiracy existed the Times was victimized by, and not a party to it.

Errors, of course, in judgment may have been committed, and for them the penalty must be paid. It must be clearly under-stood that what we have done is altogether upon our own motion and our own responsibility and in the public interest alone. This withdrawal, of course, refers exclusively to the letters obtained from Piggott."

Commercial Union.

to-day, on motion of Anderson, of Iowa, a joint resolution was passed to promote commercial union with Canada. This joint resolution was introduced by Pitt, of Illinois, and reported unanimously from the committee on foreign affairs. It provides that whenever it shall be duly certified to the president that the govern certified to the president that the government of Canada has declared a desire to establish commercial union with the United States, having a uniform revenue system, like international taxes to be colsystem, like international taxes to be colsystem, like international taxes to be imposed lected, and like import duties to be imposed in the village of K., said village having upon articles brought into either country from other nations, with no duties upon trade between the United States and Canada he shall appoint three commission.

In the village of K., said village having both a post office and customs house, why is said parcel detained in the village of Bridgetown till duty is paid there?

5. Who fixes the amount of value? designated to represent the government of Canada to prepare a plan for the assimilation of the import duties and internal revenue taxes of the two countries, and an equitable division of recentles in a countries. equitable division of receipts in a commercial union, and the said commissioners shall report to the president, who shall lay a report before congress. In its report on the resolution the committee on oreign affairs says: "Our commercial -Remember that Ayer's Cherry Pectoral relations with Canada have recently awakened a deeper interest and received more thorough discussion than ever before on both sides of the lorder. The tendency of public opinion is plainly towards enlargement of trade between the two countries. In Canada the movement has advanced from the selections of the throat and lungs.

—Remember that Ayer's Cherry Pectoral has no equal as a specific for colds, coughs, and all affections of the throat and lungs.

For nearly half a century it has been in greater demand than any other remedy for pulmonary complaints. All druggists have it for sale. In Canada the movement has advanced from what it was a few years ago—an offer for partial reciprocity—to a wide expression in favor of unrestricted intercourse and com in favor of uncerticited intercourse and commercia and noton. fare of Aped Persons LIFT THEM OVER LIFE'S ROUGH

There appears good reason for considering old age 's second childhood." The development seen in childhood during the first five years is reversed, though more gradually in those who live to be user 30 years old. Among the most noticeable having a sariveled appearance of the aged abject is the result; the face becomes abject is the result; the face becomes deeply wrinkled, the hands bony and the limbs shrunken. Then the mucular limbs shrunken. Then the mucular lisance is lowly shorbed, and the process is accompanied by loss of strength, which however, is less noticeable by reason to help the power of the mental faculties are the power of the mental faculties are majority of cases they are more or early days, and the smajority of cases they are more or extra processing the fact of the previous reduction in weight. Occationally we note in very aged people that the powers of the mental faculties are reducted and the subjects become capticity of cases they are more or extra processing the fact of the previous reduction in weight. Occationally we note in very aged people that the powers of the mental faculties are reducted and the subjects become capticity of cases they are more or extra processing the powers of the mental faculties are reducted and the subjects become capticity of cases they are more or extra processing the processing the power of the mental faculties are reducted and the subjects become capticity of cases they are more or extra processing the processing of four score years.

POWERS OF DIGESTION.

sprinkle over one of them the pulveriged must be taken oftener and leas in amount at each feeding. After a person has at each feeding. After a person has take food four times a day until he is 80 years old; then, for the next fen years that he lives, five meals each day are none too many, and his food should be simple and easily digested. There are very few people near the age of 90 who have many sound teeth; therefore, during the years which follow their lose, unless false can which follow their lose, unless false can be worn, their diet should be liquid, and made largely of milk. Beet tea, and fluid extracts of beef, properly prepared, are of great assistance in feeding the sign.

After three recore years and ten have been reached, earlier if it appears necessary, it will be well to commence the use of stimulants. It cannot be denied that by the judicious administration of alcohol to the aged better lealth and longer life.

The properly in the sign of the part o

by the judicious administration of accounts to the aged better health and longer life are promoted. Of course, it must be wiseare promoted. Of course, it must be wisethis is a quick and easy method to ly given, or, instead of a benefit it will clean a kitchen stove : prove an injury. The question naturally arises, what quantity may be safely allowed a goodly portion of coal oil, rub off the prove an injury. The question naturally arises, what quantity may be safely allowed and only good tollow its use? No rule applicable alike in all cases can be given; each case must be studied, and the estimate made on individual needs. In a general way, it may be said that when decline in the vital powers, in consequence of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age of old age, is reached, be it at the age o strength fails, the quantity will need to be increased somewhat. The conservative reader will kindly understand us, that we advise alcohol in an old age as an accessory food. Not only would we discourage

with us, but has long been recognized and advised by able physicians. It is that of giving optum during declining lite. This agent may be used to promote sleep, and under certain conditions it can very properly be administered occasionally during the daytime. If the aged subject is wakeful and sufficient sleep is denied him, then the daytime. If the aged subject is wakeful and sufficient sleep is denied him, then the nor fifteen drops of laudanum on retiring will be found of bour fit in unarity all cases, and if its action is good, there can be no excuse for withholding it. Restlersnors and mental irritability, which tell sorely on the aged, may demand, as stated, its use at other times. It should be remembered that optim is not simply a quieting or what some call a "benumbina agent," it is a stimulant, and with nearly all exerces of the second well, and with nearly all very old people it acts well, and seems to help "lift them over the tough places" countered in the way down the decline of life.

The natural temptrature of the body is lowest in the aged. They cannot bear the cold well, and are easily made if the subject of the second well, and are easily made if the subject of the second well, and are restly made in the open after it if the the trace of the second well, and are restly made if the way down the decline of life.

The natural temptrature of the body is lowest in the aged. They cannot bear the cold well, and are easily made if the way down the decline of life.

The natural temptrature of the body is lowest in the aged. They cannot bear the cold well, and are easily made if the very cold well, when the temperature is below 50 degrees. In warm, pleasant weather they can be in this open after it if the trace of twenty-thousand a min and I showed that trace of twenty-thousand a min at the rate of twenty-thousand a min and I showed that trace of twenty-thousand a min and I bever made a cent out of it. advised by able physicians. It is that of giving opium during declining life. This

pleases them; in fact, the more they are out of doors, if the conditions are favorable, the better. But in very cold weather, those who are far advanced in life should be comfortably housed. As has been said, a very old person "ricks death from cold stroke by even walking out of doors when the temperature approaches zero." — Boston

Herald.

Notice of Assignment. White Earth, Minn., Feb. 22.- News

ber of boirs in bed must be progressively increased. Old people, as a rule, are more or less wakeful; few among them sleep so many hours continuously as those who are young. At least eight bours of the twenty-fonr should be passed in bed by every one who has reached his 60th year. After 70, nine hours should be passed in the same way; after 80, ten; and as go approaches at least half of the time should be spent in bed or reclining on conch.

The next measure of treatment which we shall recommend for the aged will doubtless be as strongly antagonized as the stimulant treatment already advocated. Here we will say it is by no means original with us, but has long been recognized and advised by able physicians. It is that of

THE FISH OF THE PACIFIC OCEAN — They will choose the favorite varieties of deep-sen food, which await man's enterprise to be made pacific over the fish resort to what is technically known as lanks for their food, which are to them what pastures are to here here to them what pastures are to here banks that the fish are obtained. The only fish ling banks yet discovered about forty-five miles with young men.

They reason, and because Tone Tone Work larks with by young men. They will choose the top of the favorite will choose the pacific Ocean abounds in nearly all of the favorite will choose the quiet, modest maiden for a wile quiet, modest maiden for a wile await man's enterprise to be made pacific or the future companion of our life, and mother of our children, is to be considered as 'great fun' and to be hardy in chaff or slang, in her maiden for a wile.

South are located about forty-five acres superior will lark with by young men. They will choose the quiet, modest maiden for a wile.

They do not really from that the quiet indications which are my store to be desired to the modest maiden for a wile.

They do not really from the favorite companion of our life, and mother of our children, is to be considered as 'great fun' and to be hardy in chaff or slang, in her maiden for a wile.

well, you wouldn't believe how I profited by it. It became a matter of the greatest interest to me, in the first place, to secure change that had no dimes in it. In the second place it became interesting and amusing to deny myself certain things I otherwise would buy without any thought of saving. Everything I denied myself became really a source of pleasure to me, and I would not only enjoy the saving of the money that would other.

It PROBABLY WAS.—I've got a notice here somewhere, he said, as he entered the water office—'a notice here to the effect that I'—

'Yes, sir,' said the clerk.

'I don't seem to find it,' said the man, as he fumbled around. 'I must have lost it. It was a notice to the effect—to the effect—to the effect.'—

'Yes, sir,' me, and I would not only enjoy the saving of the money that would otherwise have been spent, but I enjoyed teiling my wife about it. Furthermore, I felt the keenest interest in the pile of dimes that was constantly growing. I felt free to spend in some things, because I knew that I would get my return in dimes. The desire to add to my pile, however, kept me from buy. my pile, however, kept me from buy-ing many and many a thing I should such a notice, wouldn't it?"

have been as eager before to secure.

I know you will refuse to believe me now, when I tell you that I have saved in DRIVING LIGHT MACHINERY
