CRIPPLE CREEK NEWS.

CRIPPLE CREEK DIVIDENDS IN 1899.

Cripple Creek, Dec. 27.

By December 31st twenty-seven Cripple Creek companies will have paid dividends for the year aggregating \$4,674,790.86. Of this amount \$1,011,000.16 will be paid during the current month. The record is an astounding one, but the figures prove it. The list is as follows:

- Alliance, \$82,000; Anchoria-Loland, \$18,000; Associated, \$20,000; Black Belle \$2,000; Consolidated Gold Mines, \$10,000; Creston Leasing, \$472,741.70; Elkton, \$66,744; Garfield Consolidated, \$12,000; Gold Coin, \$210,000; Golden Cycle, \$90,000; Gold King, \$100,000; Grafton, \$10,000; Jack Pot, \$150,000; Last Dollar, \$30,000; Isabella, \$270,000; Monument, \$7,500; Lilly, \$136,406.16; Mary McKinney, \$60,000; Morse, \$213,150; Modoc, \$40,000; Mount Rosa, \$40,000; Orphan Belle, \$198,124; Portland, \$720,000; Raven, \$59,500; Stratton's Independence, \$970,000; Strong \$835,000; T. F. T., \$35,000; Viridicator, \$77,625.

The dividends paid this month will be: Alliance, \$82,500; Consolidated Gold Mines \$10,000; Creston, \$50,000; Elkton, \$33,750; Gold Coin, \$100,000; Golden Cycle, \$10,000; Lilly, \$11,367; Mt. Rosa, \$40,000; Isabella, \$67,500; Orphan Belle, \$82,899; Mary McKinney, \$30,000; Modoc, \$10,000; Raven, \$10,000; Strong, \$25,000; Stratton's Independence, \$488,000; Squaw Mountain, \$10,000.

RAVEN'S RICH SHIPMENT.

The Raven mine sent out yesterday one of the richest shipments made in its history. It consisted of two cars of ore that ran twenty ounces or \$400 a ton. In addition to this assignment there will be 106 tons of three-ounce ore sent out tomorrow. The rich stuff is coming from the big ore shoot disclosed in the workings run off from what is known as the tunnel level. The rich ore chute is three feet wide and is in the old Raven vein, which has been a producer for years. The present developments are the best showing, better than anything ever disclosed in the mine, and have been made at 200 feet deeper than any former discovery. This augurs

well for the future of this mine and carries out the theory that the deeper the Cripple Creek mines are put the richer their ore deposit becomes. This chute is being exploited, and as the vein runs the full length of the Raven property, there is much to be expected here. The ore body lies 300 feet from the old Raven shaft and 600 feet from the Gregory shaft. This is the most important discovery of the year.

There is no production being made from the ore body which lies between the fifth and sixth levels, which was opened up some time ago. This is because the work of timbering the main shaft is going on so that it completely stops the taking out of ore from that point. There will be 200 feet of the lower end of the Gregory shaft timbered up so that the shaft can be used for mining purposes. Hereafter all ore will be sent out from the Raven tunnel and therefore the Gregory shaft will be used to reach the tunnel. As soon as this work is completed the production from the Raven will be materially increased.

The treasury of this company is steadily growing, and when the rich December shipments are settled for there will be in the neighborhood of \$90,000, according to the statement of an officer of the company.

The mine will make a production of between \$30,000 and \$40,000 for the month of December. Last month the mine produced \$83,000 worth of ore.

ISABELLA.

Cripple Creek, Dec. 27.

While the actual returns of the much talked of Isabella shipment are not yet in, in a circular which was mailed Friday to the stockholders of the company, President Williams places the value of one 27-ton car load of the bonanza mineral at \$210,000, or \$8,000 per ton. There seems to be no doubt that this is the richest car load shipment ever made from any mine in the world.

Considering these facts it is not at all surprising that the shipment has been much talked of. It is a record shipment for the Isabella company; it is a record shipment for the Cripple Creek district; nothing like it has ever been sent out from any mine in the United States, and for richness of ore sent out in bulk—that is, in carload lots—it is undoubtedly a record for both the eastern and western hemispheres.

A great many people are glad that the rich shipment has been made. Nearly every one likes to see the accomplishments of the past excelled and would see the record in ore shipments beaten, with as much satisfaction as anything else. To those in any way connected with the mining world this matter will take precedence in interest above the beating of all other records. The management of the Isabella company is undoubtedly very well satisfied that the shipment was made and that the returns are in, and there is considerable consolation in the thought that this big amount of money has not been made out of Tom, Dick or Harry, but has been gleaned from an infinitesimal portion of mother earth.

We gathered from a director of the Isabella company that not only is the management very well satisfied with the shipment made, but it is considerably relieved that the rich ore is out of the mine; that it has traveled in safety from Cripple Creek to the smelter at Denver, and that the returns have been computed and settled upon. In handling this rich shipment of ore a very great number of difficulties were met with. The sampling company refused to sample the ore, the railroad companies were afraid to handle it, and it was in the end only possible to get a guarantee of \$500 per ton on the ore from the railroads and samplers. The ore was eventually very much at the company's risk, and with a force of armed guards, and fortunately everything went well. Considering all these things it is hardly surprising to learn that the management of the Isabella Company will, in future, not attempt to ship out any more such rich ore in bulk, but will mix the rich stuff with that of lower grade and in that way materially reduce the average value as well as eliminating a good many of the difficulties and risks which have been encountered.

A very important statement which was made by a director of the company was to the effect that the ore shoot which is yielding such rich ore on the tenth level, and from which some very rich stuff was taken on the ninth level, is well defined and permanent to the surface. He by no means implied, of course, that the high grade values were permanent to the surface, but only the ore shoot itself. In February last the workings on the ninth, seventh and fifth levels on this vein were examined by your correspondent, and the

continuation of this ore shoot toward the surface as shown in these levels was then noticed and commented upon. Further development work since then has gone only to prove the correctness of the conclusions then arrived at.

President Williams' circular letter to the stockholders, which was sent out with the dividend checks, and was mailed Friday evening, reads as follows.

"The Isabella Company has distinguished itself since my last circular to you of December 12, 1899.

"We have since then partially agreed with the reduction works as to the value of twenty-seven tons of ore which will run approximately \$8,000 gold per net ton. The cash for this shipment has not yet been received, but when the final settlement is made it will be near above figures. So far as I am able to learn this is the richest ore ever mined in the world in car lots, and is far richer than the forty-seven tons of \$3,200 gold per ton of ore sent out last month by the Isabella company. In this respect our favorite may be properly crowned. In my circular to you of January 17 and February 25, 1899, I minutely described the new vein first found upon the seventh level and related that the ore seemed to be of ordinary grade as we stopped upward to the surface, while upon the ninth level we found ore in car lots as high in values as \$1,000 gold to the ton, which was at the time considered a favorable indication as to what might be hoped for on the tenth level.

"The shipments now reported came from the tenth level.

"From the circulars and financial statements which have been mailed to you from this office regularly during the year it will be noticed how great has been our progress.

"The yearly report which will be submitted to the annual meeting of January 16, 1900, will be mailed as soon as possible thereafter to all stockholders of record on that date.

"NELSON B. WILLIAMS,
President."

NEW YORK EXCHANGE.

DEPRESSING INFLUENCE OF BERLIN STILL CONTINUES — NEWS FROM NATAL IS BEARISH — BANK STATEMENT SATISFACTORY — STOCKS SELLING DOWN GENERALLY.

New York, Jan. 6.

The London markets are heavy, Americans showing declines ranging from 1/4 to 1 1/2. The cause of the declines is said to be rumors that Russians were moving on Tiflis.

It is curious to note, however, that Consols which should be affected by any unfavorable foreign developments show advance of 1/8. As a matter of fact the foreign situation both in Berlin and London is not quite satisfactory, many small men having been carried over by larger houses and these larger houses will no doubt seize every opportunity for liquidation. Until this liquidation is accomplished not much support to our market can be looked for either from London or Berlin.

There continues to be a dearth of news from the Transvaal.

Yesterday's market was more professional than for some time. One of the leading traders on the floor is bearish, and it was he and his contingent which were largely the cause of the depression in the later market prices.

New York, Jan. 6, 1900.

It is rumored that Buller is going down that he would rather be court-martialed than move against the Boers again. He said it was no use slaughtering the men.

CURB VS. MARKET.

So far the only result of the campaign begun in Chicago some weeks ago against bucket shops and trading outside the boards of established markets have been limited to the repression of curb quotations. Nor is this suppression common to all financial papers which indicates that the evil, if evil it was, of outside trading, is as lively as ever in spite of the raid that was made upon it. Perhaps the strongest daily on stock, money and commercial affairs, gives curb quotations now as regularly as before and has in no form indicated that the campaign has had any material issue. It has had one effect in turning public attention to the whole system of trading in securities as well as in produce, and has in its fruitlessness proved one of two things, either that the trading is good or cannot be corrected at the present time. The frequency of ruinous loss in the case of panic slumps in stock price brings back to view those failures in bank and business companies which produced the limited liability idea and the legislation connected with it. The Exchange News is of opinion that if legislation is right in enforcing a distinction between two classes of enterprise, those

which like the war our Canadian lads have gone to, in which liability is necessarily unlimited, and others like ordinary business partnerships where liability can be limited arbitrarily, then legislation could be quite justified in carrying the principle into further detail. Not curb trading alone, but market trading might be legislated on as circumstances seemed to require—that is, supposing for the sake of argument, that such law interference has been warranted in the past. Speaking generally and without reference to special cases, business is most natural and best when untouched by law, but markets which have done much to correct the evils of curb trading would work better to this end with some legal assistance. Internal defects in the markets themselves are not denied by the broker; most desirous to keep intact the general usefulness of the market's. One of these defects is the 50 point break in prices. Market implies involving such a loss as this implies are nearly as objectionable as certain curb dealings campaigned against.

BOGUS MINING EXPERTS.

There are at present in the mining field men who, without qualification, by either education or experience, are "reporting on mines," and signing E.M., or M.E., after their names. In most cases a report from such source upon falling into the hands of a mining engineer, is at once detected by its absurd use of technical and scientific terms, and not infrequently by poor orthography and worse grammar. The chief evils of these reports is usually that they do not recite facts and are calculated to mislead those unfamiliar with the subjects of mining. Private letters often accompany these reports of pseudo-experts, endorsing them in the highest terms, thereby making the person writing such letter a party to the fraudulent transaction. Not long since one of these would be "E.M.'s" addressed a letter to a San Francisco mining engineer, asking endorsement in the form of a letter, which would state that he was an experienced and competent mining engineer and metallurgist, explaining that by so doing he (the bogus expert) would be enabled to "earn a good fee." As he was only known to be an expert "consortial artist," the letter was not written. Unfortunately, this is not a single instance of this kind.—Mining and Scientific Press.

DANTE.

According to a gentleman who is close to the facts, one of the best showings in the camp at present is being made by the Dante. This property which adjoins the John A. Logan on Bull Hill is taking out some rich ore. A specimen which was seen by the investor representative yesterday shows cubes of free gold all over it. The present depth of the shaft is 700 feet and at a depth of 175 feet some good ore is broken. The vein in the stope at this level is four feet in width and an average sample, taken across the width of the vein recently returned an assay value of 42 ounces per ton.

Both of the Logan veins have been opened up on the Dante and it is thought that the latter property will catch the bonanza ore bodies which have recently been opened up in the Logan. It is stated that the ore body in the Logan at the bottom of the shaft which is now down 1300 feet, is 25 feet in width and that it will run six ounces clear across. The Logan shaft passed through a barren zone between the 300 and 850 levels, but the ore has come in bigger than ever in the bottom of the shaft. The property is owned by W. S. Stratton and it was the intention of the owner to make the present depth of 1,300 feet the bottom level, but it is understood that the shaft is now to be sunk to a depth of 1500 feet for the purpose of connecting with the Bush-Moffatt tunnel, which will pass through the Logan territory at that depth.

STRAWS.

Directors of Delaware & Lackawana have declared the regular quarterly dividend of ¼ p.c.

• • •

Britain's war bill, the London "Economist" says, will amount to £50,000,000. The Crimean war bill was £70,000,000.

• • •

N. Y.—Thursday's money was high 6 p.c. Low, 4 p.c.; later 2 p.c. Money has ceased to cause any anxiety and was almost nominal at 4 p.c.

• • •

Chicago—Tin Plate (com.) 32; (pfd) 82½. Money here cannot be obtained less than 6 p.c. on call and time. Trust companies report rates 6½ to 7 p.c. and claim to be getting it on time loans.

• • •

People's Gas—General opinion is that 6 p.c. gas stock in Chicago cannot be considered dear at present prices. The stock has been taken steadily ever since the break and has shown sharp recovery.

• • •

American Tin Plate Co. has filled all the unremunerative orders taken over from constituent companies when the company was formed and yet its net earnings will be around \$4,000,000. Earnings next year will be enormous.

• • •

On Thursday Mr. George W. Doane, treasurer of the Consolidated Gas Co. said "It is true that the Consol. Gas Co. has acquired a controlling interest in the N. Y. Gas & Electric Light, Heat & Power Co. The deal was completed yesterday afternoon. That is all that I can say on the matter at present."

CHICAGO MARKET.

CHICAGO MARKET—January 6, 1900

From the Bartlett Frasier Co., Chicago. H. J. Coon, Manager, 319 St. Sacramento St.

MARKET BEARISH IN WHEAT — PORK
DULL AND A BUY ON WEAK SPOTS
—CORN STEADY.

Chicago, Jan. 6.

The closings of wheat at Liverpool were 3/4 lower than the previous close, while corn was 1/4 lower.

At New York March wheat at 75 1/2 is 3/4 lower, May wheat at 74 1/2 is 1/4 lower, and July wheat at 74 1/2 is 1/4 lower.

Chicago openings were unchanged from the previous close and were followed by transactions tending slowly downwards. It seemed that wheat was bound to go lower. Advice was to sell it when bulges appeared.

Provisions also, though not sinking much below their high prices of late, showed no tendency to advance.

Receipts to-day were 26,000 hogs.

Car lots wheat 42, shipments 50,421.

Car lots corn 446, shipments, 171,117.

Car lots oats 158, shipments 7,510.

Primary receipts :

Last week 156,400, shipments 182,500.

Last year 775,558, shipments 221,641.

Your ports, 562,108, shipments 126,078.

Exports flour, 77,374 barrels.

Last week's primary receipts, it will be noticed from the above, are only 1-5 of what they were last year.

The following quarterly returns of stocks in Great Britain will show that British supplies are by no means superabundant.
