The copy filmed here has been reproduced thanks to the generosity of:

Thomas Fisher Rare Book Library,
University of Toronto Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Thomas Fisher Rare Book Library,
University of Toronto Library

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Explanation of the Articles of the Calendar.

These pages are calculated for Toronto, Quebec, Fredericton and Halifax, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada.

MOON'S PHASES.—This Table gives the times for the four meridians when the moon passes the geocentric longitudes of 0°, 90°, 180° and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this table are given the times at which twilight begins in the morning and ends in the evening, i. e., the time when the sun's centre is 18° below the horizon.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following table.

Degrees of Latitude.....	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees.....	-5' 56"	-4' 5"	-2' 5"	0' 0"	+2' 12"	+4' 32"	+6' 59"	+9' 34"	+12' 18"
2nd Correction for each minute of latitude.....	+ 1.9"	+ 2.0"	+ 2.1"	+ 2.2"	+ 2.3"	+ 2.5"	+ 2.6"	+ 2.7"	

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar, or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the table by the number of minutes in the latitude.

Thus for latitude 43° 20'...1st correction = - 4' 5"	2nd correction + 2.0 × 20 = + 40"
" " 47° 40'... " = + 4' 32"	" " + 2.5 × 40 = + 1' 40"
" " 45° 10'... " = 0' 0"	" " + 2.2 × 10 = + 0' 22"

THE PLANETS.—The times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of 45°.

When the planetary day is shorter than the mean solar day, and commences soon after the midnight of the preceding day, the planet will sometimes arrive a second time on the meridian before the expiration of the actual civil day. From analogous causes a planet will sometimes rise twice or set twice in the same civil day. When two culminations occur in the same day, or two risings or settings, the times of both are registered.

The times of the **SUN'S RISING AND SETTING** are given for the upper limb, and are corrected for refraction for Toronto, Quebec, Fredericton and Halifax.

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec, Fredericton and Halifax.

The column **SUN ON MERIDIAN** gives the time that a watch should shew when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shews to the nearest tenth of a day the Moon's age at Toronto Noon.

The column, **MOON ON THE MERIDIAN**, gives the mean time at which the moon's centre passes the meridian of longitude 4 h. 46 m. W. When in the column headed Moon's rising or setting or Moon on meridian the letters A.M. occur, unaccompanied by any number, they denote that the numbers given for the succeeding days relate to the morning, and those for the preceding days to the afternoon, but that the Moon does not rise or set or cross the meridian (as the case may be) on that day.

The **MOON'S MERIDIAN ZENITH DISTANCES** are given to the nearest tenth of a degree for a point in latitude 45° and longitude 4 h. 46 m. W. They are not corrected for parallax or refraction.

The column, **UPPER TRANSIT OF POLE STAR** shews for every day the mean time at which the Pole Star makes its upper transit across the meridian of longitude 4 h. 46 m. W. It passes in the morning from April 9 to October 6, and in the afternoon for the rest of the year. On October 9 there will be a second transit, occurring at 11h. 56m. 52s. p.m.

The six last columns will serve with sufficient accuracy for the whole of Canada.

The times at which the lower transit of the Pole Star occurs may be found by adding 11 h. 58 m. 2 s. to the time of its preceding upper transit.

From the time of the upper transit of the pole star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Latitude.....	42°	43°	44°	45°	46°	47°	48°	49°	50°

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting of a star, add the same number to the time of its meridian passage. Those stars marked (.....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

MATHEMATICAL DEPARTMENT.

The Publishers of the *Canadian Almanac*, desirous of encouraging the study of Mathematics in Canada, have resolved to re-open this department and devote a reasonable space to the advancement of this important branch of education. As the Problems in this issue are all original, having been constructed expressly for this publication, it is believed that their highly practical character will command the attention of an intelligent public.

Correspondents are invited to forward *original* Problems for insertion. All communications to this Department must be in the hands of the publishers, Messrs. Chawett & Co., on or before the 1st of July, 1869.

MATHEMATICAL PROBLEMS.

- (1) A. can mow a field in 15 days by getting 7 days' help from B. and B. can mow it in 24 days by getting 2 6-7ths days' help from A. In what time would both working together mow it?
- (2) What must a man ask for his farm which cost him \$3,520, so that after deducting $11\frac{1}{4}$ per cent. he may still gain $11\frac{1}{4}$ per cent on the cost?
- (3) Required the area of a square field which is known to contain as many acres as there are rails in the fence enclosing it; the fence being eight rails high and having 16 rails to every rod in length?
- (4) A. owes B. \$2,869, payable in 17 months. At the expiration of 5 months, A. wishes to make a payment so as to extend the time of the balance to 2 years. What amount must he pay?
- (5) Two men purchase a circular race course one mile in diameter, and divide it by a line parallel to the diameter. Required the length of the dividing fence, so that one may have $\frac{3}{4}$ of the area, the other $\frac{1}{4}$?
- (6) A Toronto merchant left to his five sons, whose ages are respectively 19, 17, 15, 11, and 5 years, \$179,497; to be so divided that the respective parts, being placed out at 5 per cent. simple interest, shall amount to equal sums when they become 21 years of age. Find each son's share.
- (7) Find the side of the largest cube that can be cut out of a sphere 11 feet in diameter.
- (8) Solve the equations (I.) $\sqrt{x} + \sqrt{b-x} = 2 \left\{ \sqrt{x} - \sqrt{b-x} \right\}$;
(II.) $\left(\frac{x}{x+1}\right)^2 + \left(\frac{x}{x-1}\right)^2 = h(h-1)$; (III.) $\sqrt{\frac{n}{x}} = \sqrt{x} - \sqrt{n+x}$.
- (9) Through how many feet must a body fall in order to acquire a velocity of 291 feet per second?
- (10) To what height must a person rise vertically in a balloon from Toronto so that he may see Rochester, 62 miles distant—supposing the earth spherical and 8,000 miles in diameter?
- (11) A promissory note is offered for sale on which is due \$24,3225 interest for one year at P per cent. simple interest. The owner of the note agrees to cancel the interest and sell it for \$23 less than the principal, which is at a discount of the above per cent. Required the amount of the note?
- (12) Required the side of an equilateral triangle equal in area to a square whose side is 30 feet?
- (13) A building lot is sold on the condition that \$1 50 shall be paid for every yard in length and \$1 25 for every yard in breadth. Find the dimensions, so that the purchaser may have the greatest amount of land possible for \$426?
- (14) Divide \$208 among A. B. C. D. and E. so that A. may have one-third as much again as B. and one-seventh as much again as B. and C. together and one-eleventh as much again as C. D. and E. together?
- (15) To what depth may an empty glass vessel capable of bearing a pressure of 216 lbs. to the square inch be sunk in water before it breaks?
- (16) If a traction power of 97 lbs. is required to draw the forewheel of a carriage over an obstacle six inches high, what power will be required to draw the hind wheel over it—the diameters of the wheels being $3\frac{1}{2}$ and $4\frac{1}{2}$ feet respectively?
- (17) Two men bought a farm in the shape of an isosceles triangle the base of which is 300 yards and each side 500. Required the area of each man's portion when it is divided by the shortest possible right line which can be drawn from one of the angles at the base to the opposite side?
- (18) A boatman rows $6\frac{1}{2}$ miles down a river and up again in 182 minutes, the stream having a uniform current of $2\frac{1}{4}$ miles an hour. Find at what speed he can row in still water?
- (19) A stone is weighed in a pair of scales which are known to be incorrect—when placed in one scale it weighs 71 3-7ths lbs., but being put into the other it only weighs 37 4-5ths lbs. Required its true weight!
- (20) If a beam be 19 inches broad and 7 inches thick, how much more weight will it bear edgeway than broadway?
- (21) A piece of square timber is 12 feet long, each side of the greater base is 11 inches, and each side of the lesser 5 inches. What length must be cut off from the lesser end to contain a solid foot?
- (22) A. and B. are candidates at an election when 680 persons vote, and A. is defeated. The same electors vote the following year when A. and B. are again candidates, and A. is successful, having carried his election by 1 4-5th times as many votes as he before lost by, and his majority is to B.'s the year before as 5 is to 6 8-19ths. How many electors changed their minds during the year?
- (23) A speculator borrows money at $3\frac{1}{4}$ per cent. interest payable yearly; he lends it at 5 per cent. interest payable quarterly, and gains thus \$160 65 in a year. How much does he borrow?

COUNTRY.	
France - - -	
Italy - - -	
German States	
Netherlands -	

These rates from Canada, glass or in case Great Britain, Packets addressed on payment 8 cents in addition.

covers may be enclosed in bags of linen or other material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

The packet may bear on the outside the address of the sender, in addition to the address of the person for whom it may be intended; also a trade mark and numbers, and the price of the article enclosed; *inside*, there must be no enclosure but the samples or patterns themselves; the particulars however of the trade marks, numbers and price, may be marked on the articles themselves, instead of on the outside of the Packet, at the option of the sender.

Any sample or pattern Packet containing a letter, or otherwise violating the conditions of the preceding rules, will be rated and treated as a letter.

The rate of one cent. per ounce is to be pre paid by postage stamp, and, if such rate be not fully pre-paid, by the stamps affixed, the Packet is to be rated with the deficient postage and a fine of five cents in addition.

Packets of samples and patterns may be registered on pre-payment by postage stamp of a registration fee of 5 cents in addition to the postage rate, and provided such Packets be duly handed in to the post office for registration.

No Packet of samples or patterns must exceed 24 oz.

These regulations apply only to the transmission of Packets of samples and patterns within the Dominion of Canada, and will not in any manner interfere with the regulations governing the exchange of samples and patterns with the United Kingdom, or with the foreign countries to which the same advantage extends, namely, France, Belgium, Italy, German States, Netherlands, Portugal, Switzerland, and Denmark.

No provision as yet exists for the exchange of such matter with the other British Colonies, with the U. S. or with other foreign countries than those above named.

Book and newspaper manuscript, and printers' proof-sheets (whether corrected or not), maps, prints, drawings, engravings, photographs when not on glass or in cases containing glass, and sheet music (whether printed or written), may pass in covers open at the ends or sides, and provided that no letter, or other communication intended to serve the purpose of a letter, be enclosed therein, on pre-payment, when posted in Canada, by postage stamp of the ordinary printed matter rate of one cent. per ounce; or upon payment of that rate on delivery of such matter when received in the mails from the United States.

POSTAGE OF BOOKS, PATTERNS AND SAMPLES.

Patterns of merchandise, and samples, may be forwarded between Canada and the United Kingdom, France, Italy, German States, Netherlands, Portugal, Switzerland, and Denmark, by the Canadian Packet mails, at book post rates, and subject to the following conditions:

There must be no writing or printing other than the address of the person for whom the packet is intended, the manufacturer's or trade mark and number, and price of the article.

Any infringement of the above regulations will render the packet liable to be treated and charged as a letter.

Samples of seeds, drugs, and similar articles intended for delivery within the United Kingdom, are now allowed to be sent in bags entirely closed, provided such bags be transparent, so that the officers of the Post Office may be able to satisfy themselves of the contents.

The rule which prohibited the transmission through the Post, as patterns, of articles of cutlery, &c., has been rescinded; and scissors, knives, razors, steel pens, nails, keys, watch machinery, metal tubing, pieces of metal or ore, and such like articles, are now allowed to be forwarded by the Post as samples, provided they be packed and guarded in so secure a manner as to afford complete protection to the contents of the mail bags, and to the persons of the officers of the Post Office. Such articles, however, must be so packed that they may be easily examined; and it is made a rule that any packet containing such articles, which may be found to be insufficiently guarded, shall not be forwarded through the Post.

None of the articles named in the next preceding paragraph may be sent as patterns or samples to any place abroad, except Germany, Belgium, and the British Colonies, and not to these places when addressed via France.

PATTERNS, LIMIT OF SIZE AND WEIGHT.

The limits of weight and size are as follows:—

The Post Office Savings Banks, established by statute in the last session of Parliament, commenced operations in Ontario and Quebec on the 1st April, 1868.

The direct security of the Dominion is given by the statute for all deposits made.

At each Savings Bank Post Office the regulations may be read by the public, giving full information with respect to the mode of depositing and withdrawing money, and these regulations are printed on the cover of the Pass Book supplied to each depositor.

The Postmasters of Savings Banks will act as agents for the receipt of the money deposited for transmission to the Postmaster General, and for the payment by the Postmaster General of money withdrawn by depositors.

Each depositor is supplied with a pass book, and the sums paid in, or withdrawn, are entered therein by the

Every depositor's account is thus kept with the Postmaster General, and a depositor may pay into his or her account with the Post Office Savings Bank, at any of the Savings Bank Post Offices which at the time may best suit his convenience, and may exercise the same choice in drawing out money, subject only to the obligation of producing the pass book, in proof of identity—whenever paying in or drawing out money.

Interest at the rate of 4 per cent. per annum is allowed on deposits lying in the ordinary deposit accounts, but when a depositor has \$100 deposited, he or she may request the Postmaster General to transfer this sum to a special account, and will then receive a certificate of such special \$100 deposit, bearing interest at 5 per cent. per annum.

Postmasters are forbidden by law to disclose the name of any depositor, or the amount of any sum deposited or withdrawn.

No charge will be made to depositors on paying in, or drawing out money, nor for postage on communications with the Postmaster General in relation thereto.

The Postmaster General will be always ready to receive and attend to all applications, complaints, or other communications addressed to him by depositors or others, relative to Post Office Savings Bank matters.

Additional Post Offices will from time to time be authorized to act as Savings Bank agencies.

PRACTICE COURT AND CHAMBERS.—One of the Common Law Judges holds a Court during each Term, called the "Practice Court," for hearing matters relating to the adding or justifying bail, discharging insolvent debtors, administering oaths, hearing and determining matters on motion, and making rules and orders in causes and business depending in either of said law courts. Chambers are held each day in Common Law and Chancery by one of the Judges of the said courts, for such business relating to suits therein as may be transacted by a single Judge out of court. Routine business in Chancery Chambers, by a recent order, is also taken before T. W. Taylor, the Judges' Secretary. *Clerk, Common Law Chambers*—W. B. Heward. *Reporter Common Law Chambers*—Henry O'Brien. *Reporter Chancery Chambers*—Charles W. Cooper.

HEIR AND DEVISEE COURT.—Commissioners, the Judges of the Superior Courts, and such other persons as may be appointed by commission under the Great Seal. Their duties are to determine claims to lands in Upper Canada, for which no patent has issued from the Crown in favour of the proper claimants, whether as heirs, devisees or assignees. Sittings at Toronto, first Monday in January and July in each year. *Clerk of Commissioners*, W. B. Heward.

COUNTY COURTS.—Presided over by a resident Judge in each county. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed £50; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to £100; and to all

ball bonds and recognizances of ball given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to either of the Superior Courts of Law. These Courts also possess equity powers, to the amount of £50, subject to an appeal to Chancery.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting or revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effects in Upper Canada, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Court of Chancery. The County Judges are also Judges of the Surrogate Courts. *Surrogate Clerk, Sir J. L. Robinson, Bart.*

COURTS OF QUARTER SESSIONS.—Chairman, the County Judge in each county, who, with one or more Justices of the Peace, holds a Court of Quarter Sessions in his county four times a year for trials by jury in cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction.

RECORDERS' COURTS.—In the Cities of Toronto, Hamilton, London, Kingston, and Ottawa, the Recorders' Court takes the place of the County Sessions, the Justices for Counties having no jurisdiction in the Cities—the care of which is confided to the Recorder, Mayor, Aldermen and Police Magistrate of each. Sessions held first Monday in March, June and September, and third Monday in December. *Recorders*—George Duggan, Toronto; James O'Reilly, Kingston; John E. Start, Hamilton; William Horton, London; J. B. Lewis, Ottawa.

INSOLVENT DEBTORS' COURTS.—By the "Insolvent Acts of 1864 and 1865," 27 & 28 Victoria, cap. 57, and 29 Vic. cap. 18, provision is made "for the settlement of the estates of insolvent debtors, for giving effect to arrangements between them and their creditors, and for the punishment of fraud." In the Province of Quebec, this enactment applies to traders only. In the Province of Ontario, to all persons whether traders or non-traders. In these courts, the county court judge in each county presides—the only appointments made in pursuance of this statute being those of "official assignees" who are to be nominated "by the Board of Trade at any place, or the council thereof, within the county or district in which such Board of Trade exists, or in any county or district adjacent thereto in which there is no Board of Trade."

DIVISION COURTS.—For the summary disposal of cases by a Judge; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract amounting to £20; injuries or torts to personal chattels amounting to £10; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each judicial district is divided into court divisions, and courts are held once in two months in each division, or oftener, at the discretion of the Judge. The Divisions are established by the Courts of Quarter Sessions.

The same act which established the Medical Council authorized the publication of a list of the persons who were legally entitled to practice medicine in the Province of Ontario. This list is called the Medical Register for Ontario; and no person, whose name does not appear in that Register, is entitled to charge for any advice, or for any medicine which he shall have both prescribed and supplied. No one can collect fees in court for advice in either medicine, surgery, or midwifery, unless he be registered according to law, and his name be in the "list" of the current year. Nor can any unregistered person be appointed as medical officer, physician or surgeon in any branch of the public service, militia or otherwise, or to any hospital or other charitable institution not supported wholly by voluntary contributions; neither can any unregistered person give evidence (of a professional nature) before any coroner or other court; nor is a certificate of lunacy valid from an unregistered person, nor any other certificate which the law requires from a physician or surgeon. Any person can obtain the "list" or "register" referred to by applying to the Registrar of the Medical Council—Dr. Strange of Hamilton—who will also give information upon the necessary steps to be taken to secure the registration of diplomas, and send forms for certificates, upon application.

WITH WHICH IS NOW UNITED

## THE COLONIAL LIFE ASSURANCE COMPANY.

HEAD OFFICE—EDINBURGH, SCOTLAND.

### CANADA HEAD OFFICE—MONTREAL.

Manager—W. M. RAMSAY.

Inspector of Agencies—RICHARD BULL.

THIS Company was established in 1825, and is one of the largest and most successful of the Life Assurance Institutions of Great Britain. Its income exceeds £700,000 Sterling per annum, and its Accumulated and Invested Funds amount to upwards of Four Millions Sterling. Its profits have been very large, and persons assured have derived very valuable benefits from their connection with the Company. The STANDARD has also acquired a marked character for liberal management, being the first Institution which relieved Policies of Assurance from restrictive and unnecessary conditions, and gave such contracts increased value and stability in other ways.

### THE RATES OF THE COMPANY

which have been calculated on data derived from the most authentic sources, will be found moderate, and, looking to the facilities and advantages afforded, they are undoubtedly more advantageous and less expensive than those of any other Office transacting the same class of business.

Every information as to Life Assurance, with Tables of Rates, will be furnished at the Head Office, or at any of the Agencies of the Company.

# British & Foreign Importing House,

48 & 50 YONGE STREET, TORONTO.

455 St. PAUL STREET, MONTREAL.

We are frequently asked for "a Comprehensive Catalogue" of our stock by merchants who have but a faint idea of the immense variety of which our stock consists, and the perpetual changes to which it is subject by additions of the newest designs in all articles of taste or utility, from all parts of the world. A catalogue would be no sooner issued than the arrival of the first steamer would make it incomplete. We therefore issue no complete catalogue, it would be an absolute impossibility; but we say to all our business friends in the Dominion, take a day or two among our samples, either in Toronto or Montreal, and if you can't make it pay, we shall make good the loss. We shall endeavour to mention some of the articles which we supply that are suitable to the general trade, and from which merchants in any part of the Dominion may select with the certainty of a ready sale, if the fault be not their own.

1st. We are directly interested in manufacturing the following:—

**SOLID STERLING SILVER PLATE**, viz.: Spoons, Forks, Cups, Napkin-Rings, Tea Sets, Trays, or any other article to order.

**PLAIN GOLD JEWELLERY**, viz.: Wedding Rings, Keepers, Diamond Rings, or any articles of solid gold Jewellery, to order.

**SILVER JEWELLERY**, viz.: Silver Rings, plain or fancy, Thimbles, Masonic Jewels, Badges, or other articles, to order.

**GOLD PENS AND CASES**, all stamped "Canada Pen Company," including the new perpetual fountain pen—these are better and cheaper than any imported.

2nd. We are Sole Manufacturers' Agents, and Supply at Factory Prices, the following (charges added):—

**SHEFFIELD ELECTRO-PLATE WARE**, viz.:—Spoons, Forks, Knives, Cruets, Baskets, Cups, Trays, Waiters, Tea-Sets, Kettles, Table Bells, Patent Butter-Coolers, Wine-Coolers, Pitchers, Liqueurs, and all articles in this line.

**SHEFFIELD CUTLERY**, viz.:—Ivory Table Knives, Bone do., usual Scale-tang Knives, and Forks, Carvers, Steels, Moites (for children), Butter Knives and Pocket Cutlery of every possible style and price.

**NICKLE SILVER SPOONS AND FORKS**—These now well-known goods, stamped R. W. & Co., are superior to anything imported, and lower in price.

**CONNECTICUT CLOCKS**, viz.:—Seth Thomas, Waterbury, Gilbert, Ansonia, Welsh and Newhaven, these we supply in One Hundred Styles, and hold the largest consignments west of New York city. (Prices and Catalogues supplied).

**AMERICAN WALTHAM WATCHES**—These we supply to the Trade in Canada at the absolute gold value of the Factory Prices, the Company paying the duty; they are in great variety of prices and styles, from two to five ounce cases in silver, and from two to four ounce in gold, any Merchant who will buy a dozen can deal in these Watches, for they are all in running order, and all warranted.

**ENGLISH WATCHES**, of none but the best grades in Gold and Silver Cases, all marked "Canada Watch Co., London;" those who want genuine London Watches can depend on these.

**ENAMELED LOOKING-GLASS PLATES**—This Plate is very much superior to the old style, and the glass is white and clear, and no breakage usually.

3rd. We import largely, and direct from the several markets of Europe or elsewhere, thereby commanding the greatest advantages, the following partial list:—

ALBUMS, BEADS, BUTTONS, BELTS, BRIAR ROOT PIPES, BAROMETERS, BASKETS, BALLS, BIRD CAGES, BRUSHES, BRITANNIA METAL WARE, BRONZES, BREAD-PLATERS, FRENCH CLOCKS, in Gilt, Marble, Alabaster and Ebony, RODGERS' CUTLERY, Table and Pocket, CABINET GOODS, CARD-CASES, COMBS, CHINESE LANTERNS, CRICKET GOODS, CHILDRENS' SLEIGHS and CARRIAGES, CHINA MOTTO MUGS, and CUPS and SAUCERS, CHINA TOY SETS, CONCERTINAS, CUCKOO CLOCKS, COMBS, in Rubber, Horn, Ivory, &c. # The Watch Factory at Waltham, Mass.

**E**VERY SIXTH MINUTE in the working day a FINISHED WATCH MOVEMENT is the average production of the above Factory. Yet, at this enormous rate of manufacture, the Company can but barely supply the demand. They have already produced almost

## HALF A MILLION OF WATCHES,

Most of which are now in the pockets of the people, testifying to their superior merits as time-keepers. They are now almost exclusively used on

## ALL THE LEADING RAILWAYS,

Where they are found to run with perfect accuracy, in spite of the constant jar, which so much afflicts ordinary watches.

## SHIP CAPTAINS AND OTHER OFFICERS,

Who are frequently absent on long voyages, prefer *The American Watch* to any other, as they are not perceptibly affected by change of climate, and do not require frequent regulating. The story of the twenty-five dollar "Ellery" watch that was carried five years by a soldier in the Army of the Potomac, and that varied **One Minute and a half in that time, without Care or Cleaning**, could hardly be told of any other watch of the price that ever was made. **TO LUMBERMEN, these Watches are of Great Value**, not being liable to stop or get out of repair during their months of absence in the woods.

## THEY ARE ADMIRABLY ADAPTED FOR PRESENTATION,

as the movements are not only reliable, but the cases in gold are rich and handsome and of guaranteed fineness. Thousands of these watches are now worn in Canada—every day they are becoming more popular. Very soon they will be **the only watches sold in any quantity in the Dominion**. Buyers should always require the **Guarantee of the Company** with each watch, to *avoid being imposed upon by spurious Swiss imitations*. These watches may be ordered through any Jeweller in the Dominion in gold or silver cases, for Ladies or Gentlemen; or, in districts where there are no watchmakers, we supply them to general merchants by the dozen. To the wearer they are the cheapest watches in the world!!
