CANADIAN SEIZED AND WHISKED OVER BORDER

Dominion Government Asked to Put Pressure on U. S. Government for Release of New Brunswick Man Now Serving Long Term in Prison.

OTTAWA, March 16.—The house spent the greater part of the day upon F. B. Carvell's motion for the production of Kelley of New Brunswick. The house followed with great attention and interest Mr. Carvell's story of what appears to have been an unusual case. According to Mr. Carvell, Kelley was illegally arrested by American authorities while on Canadian territory, taken to the United States, tried on charges of smuggling and assault with intent to kill, and was sentenced to fourteen years in prison. Although representations were made time and again to the authorities at Washington no clemency was granted and the man is still in prison.

Introduced Politics.
Mr. Carvell somewhat spoiled the effect of the story upon the house by endeavoring to bring New Brunswick politics into the case. He charged that Premier Fleming of New Brunswick had not interested himself in the matter until shortly before the general provincial elections. According to Mr. Carvell, a telegram had been read at the funeral of Mrs. Kelley, who died two days before the elections, which stated that Kelley had been released.

Mr. Fleming's Charge.
The minister of justice and Hon. J. D. Hazen hotly repudiated Mr. Carvell's charges, and completely vindicated Mr. Fleming. A resolution proposed by Mr. Mackenzie, the Liberal member for North Cape Breton which asks that the International system be extended in the maritime provinces was, after some discussion, passed.

Kelley a Martyr.
Mr. Carvell, the Liberal member for Carleton, N. B., laid before the house the case of a former client of his, one William J. Kelley, a farmer of Carleton, N. B., who is now serving a 14-year sentence in the U. S. prison at Atlanta, Ga., for smuggling and assault with intent to kill.

MME. CAILLAUX KILLED EDITOR OF FIGARO

Maddened by Calmette's Attacks on Her Husband, French Minister of Finance, Woman Opened Fire With Pistol—Caillaux Tendered Resignation to Premier.

PARIS, March 16.—Gaston Calmette, editor of The Figaro, was shot today by Mme. Henriette Caillaux, wife of Joseph Caillaux, the French minister of finance. M. Calmette died tonight. Mme. Caillaux went to the office of The Figaro to carry out an act of vengeance against M. Calmette, who had been waging a campaign characterized by great bitterness against the minister of finance. She fired at least three times. M. Calmette being wounded in the chest, in the side, and in the abdomen.

While the editor was being transported to the hospital, he said repeatedly: "I have done my duty. I have done my duty." Having committed the deed, Mme. Caillaux submitted to arrest, and while employed in The Figaro office was taking the pistol from her hands she said:

Instrument of Justice.
"Since there is no justice in this country, I take upon myself an act of justice. Take me where you will." Mme. Caillaux was immediately removed to a police station, where she underwent a preliminary examination, the substance of which was communicated to the press at her desire. "I am sorry," she said, "for what I was obliged to do. I had no intention of killing M. Calmette, and I would be happy to know that he will recover. I desired only to teach him a lesson."

At the moment of the attack M. Calmette was preparing to leave his office in the company of Paul Bourget, the author. He excused himself to receive Mme. Caillaux, who fired almost immediately.

In her statement to the police Mme. Caillaux explained that the campaign against her husband had become intolerable and she determined to stop it. She consulted an eminent lawyer who advised her that legal proceedings would be futile—that they were often worse in the case of the innocent than in the case of the guilty. She decided then to take the law into her own hands.

HALF OF MONTREAL COUNCIL ARE IMPLICATED SAYS RUMOR IN UNLAWFUL TRANSACTIONS

Burns Detectives Said to Have Names and Facts Involving Two Commissioners and Fifteen Aldermen—Beck to Appear Soon in Role of a Cusper.

MONTREAL, March 16.—Out of a city council here composed of a mayor, four commissioners and thirty one aldermen, how many are honest? The question if well informed report is true will be answered unequivocally between now and the civic elections three weeks hence. Rumor says that the Burns detective agency and Mr. Edward Beck—who threw one bomb into the Quebec legislature and brought about the fall of one member besides two legislative councillors—have the names and the facts involving two of the present commissioners and fifteen of the present aldermen; altogether practically a majority of the whole council.

DETECTIVE AS REPORTER.
It was brought out during the recent grant revelations that the detective agency had one of its members working as a city hall reporter. "Mr. Randall," as he was known, got well in on his assignment, and it is said that practically all the men he tackled fell for his schemes, which included the obtaining of paving contracts and in other ways sharing out the citizens' money. Getting a whiff of the way the wind is blowing, some of the city representatives involved already have announced their retirement. Others will follow when the revelations start in Beck's Weekly, which is to be born this week-end.

FAMOUS CANADIAN SCIENTIST KILLED IN MOTOR ACCIDENT

Sir John Murray, Born at Cobourg, Met Tragic End Near Edinburgh—As Naturalist and Oceanographer He Took Part in Many Notable Expeditions.

EDINBURGH, Scotland, March 16.—Sir John Murray, the noted naturalist and oceanographer, was killed today near his home, Challenger Lodge, Wardie, Edinburgh, in a motor car accident, which occurred while his daughter Rhoda was driving. Sir John was returning from a visit to Glasgow, accompanied by his daughter and chauffeur. Miss Murray, who was at the wheel, took a road which was used as a short cut to the lodge. The car swerved, climbed a high bank and turned over. The occupants were thrown out and Sir John was instantly killed. The chauffeur was only slightly injured, but Miss Murray was conveyed to a hospital. An examination, however, showed that her injuries were less serious than at first feared.

A Distinguished Canadian.
Born at Cobourg, Ont., on March 3, 1841, John Murray received his early education in London, Ont., High School, and at Victoria University, Cobourg. Later he was graduated at Edinburgh University. At a comparatively early age he became famous as a scientist, and in 1865 visited the Arctic regions as a naturalist on board a whaling vessel. He was with the famous H.M.S. Challenger expedition of 1872-76, as a naturalist, and did valuable service in compiling reports of the great ocean voyage. He participated in numerous other important expeditions, including those in the Faroe Channel, and the Arctic region. He was knighted by the Prussian Order Pour le Merite. In the following year he was British delegate to the international hydrographic conference at Stockholm, and in the same year received the honorary LL.D. degree at Toronto University. He published numerous books and articles on subjects connected with geography, oceanography, marine biology, and limnology. Sir Sandford Fleming, chancellor of Queen's University, has referred to him as "one of the greatest men this continent has produced."

WILL PUT CURB ON INSURANCE COMPANIES

Union Life Collapse Moves Finance Minister to Propose More Stringent Regulations—Policyholders to Have First Claim on Assets of Insolvent Enterprises.

OTTAWA, March 16.—With the object of providing more stringent regulations for insurance companies, Hon. W. T. White, minister of finance, today introduced in the house a bill amending the present Insurance Act. Mr. White intimated that the recent smash of the Union Life had suggested the amendments which are now being introduced.

In introducing the bill, the finance minister stated that the primary purpose of it was to give the department of finance wider powers in dealing with insolvent companies. The new bill provides that the liquidator may either continue or terminate the contracts between an insolvent company and its agents, directors or officials. In this connection Mr. White pointed out that, under the present act, officials of the defunct Union Life would be able to collect damages for unexpired contracts with the company.

Policyholders First.
Perhaps one of the most important provisions of the bill is the one providing that policyholders shall have first claim upon the assets of defunct companies. The liquidator is also given authority to reinsure policyholders in other companies. Insurance companies are forbidden to hold stock, bonds or securities of other companies in the same line of business. Companies now holding such are given ten years in which to dispose of them. Fire insurance companies, whose capital becomes impaired by 25 per cent, shall at the department's order make such impairment good or suspend business.

GUELPH COUNCIL ASKS FOR A HYDRO-RADIAL
Wants Report on Cost of Line From Guelph to Orangeville.

GUELPH, March 16.—Realizing the advantages to be gained from hydro-electric radial railways, the city council, at its meeting tonight, passed a resolution which will be presented to the Hydro-Electric Commission, asking for an investigation into the cost of equipment and operation of a line from Guelph to Orangeville. It is proposed to run the line thru Hillsburg and Erin.

VENEZUELA IN THROES OF SERIOUS REVOLUTION
Rebels Raid Camp and Move on Village—Garrison in Danger.

GEORGETOWN, British Guiana, March 16.—Serious revolution has broken out on the Venezuelan frontier near Morawhenna, capital of the northwest district of British Guiana. Four hundred and fifty rebels, according to the reports have raided El Terror camp and are making preparations to attack the village of San Jose. The Venezuelan government official, Gen. Ornes, who commands the frontier stations, and sixty men are in a perilous position.

TO EXPLORE GRAHAM'S LAND.
STOCKHOLM, March 16.—A Swedish committee, formed and headed by Admiral Holm, is preparing to send an expedition to explore Graham's Land, a tract in the South Atlantic ocean, extending beyond the antarctic circle, and the surrounding seas.

NEW G.T.R. PUBLICITY MAN.
MONTREAL, March 16.—Walter S. Thompson, Montreal newspaper man, has been appointed chief literary writer in the Grand Trunk Railway publicity department.

FRACTURED HIS ANKLE.
While jumping off a moving street car, Harry Ferguson, aged 15, of 2 Markham street, fractured his right ankle at the corner of Shaw and King streets last evening. He was taken home in the police ambulance.

Laughing Epidemic Now On.
The performance of "Stop Thief" at the Princess Theatre last night started an epidemic of laughter which will not only last throughout the entire week's engagement, but for weeks to come. The play was constructed especially for laughter.

FIFTY THOUSAND DOLLAR LOSS LAIDLAW PLANNING MILL GUTTED IN SEVENTH BIG FIRE OF YEAR

Eighty-Six Men Put Out of Work by Conflagration Starting in Engine Room of Mill—Thousands Watched While Firemen Saved Costly Lumber Yards.

ALLEGED PAUPER HAD MONEY IN BANKS
Deposits of a Thousand Dollars Shown by Bank Books Found on Inmate of Mission Who Wore Four Coats and Two Pairs of Overalls, and Was a Bank Shareholder.

While on his way to St. Michaels Hospital where he intended taking medical treatment for his continued ill health, a roughly dressed man, believed to be Wm. Henry Moore, an inmate of the Victor Mission at 210 King street east, collapsed on the sidewalk at the corner of George and Duke streets at 8 o'clock last night. The police ambulance was summoned, but before it reached the hospital the man was dead.

Spread Three Buildings.
Next to the engine room, where the fire started, was a huge pile of shavings, and long before the firemen had water playing, the flames had reached these and leapt to the ceiling. The floors were of wood. Reaching thru to the upper story, the fire soon ate its way to the roof, and fanned by the draft which sucked up thru this opening, spread thru the entire building. So great was the heat at this time that the crowds lining the parapet of the Queen street bridge to the northeast could feel the warm breath on their faces. The firemen were unable to approach the walls and for several minutes each hose nozzle was held nearly perpendicular in an attempt to smother out the intense heat.

The wind was from the west, and somewhat southerly. The fire brigade, under direction of Chief Thompson, concentrated on the north and west faces of the building. While the light machinery inside the walls was mangled and warped out of shape, efforts were being made to save the piles of lumber and bark which flanked the mill. A yardful of tar barrels belonging to the city's asphalt plant were in danger for a few moments, but with three lines of hose plugging at the danger spot the blaze was kept under control.

RAILWAY ABLE TO GUARANTEE?
Pertinent Questions Asked in Regard to Floating of New Toronto Power Issue.

LONDON, Tuesday, March 17.—The Daily Telegraph today gives prominence to a letter from a correspondent who questions the accuracy of certain details in connection with the Toronto power issue. He enquires whether the Toronto Railway Company, who guaranteed the principal and interest of the present issue "up to 1914," is identical with that which the Toronto Railway Company, which has been endeavoring to sell out to Toronto ratepayers. "If so, will not the charter of the Toronto Railway Company expire in 1921?" he asks, "and if that is the case, how can the railway company guarantee anything after its charter expired and its assets are disposed of, is not the hydro-electric system, owned by the Ontario Government, a serious competitor to the Toronto Electric Light Company, and will it not supply motive power for the Toronto street railway when it reverts automatically in 1921 to the ratepayers of the city?"

It is as well, says The Telegraph, that intending subscribers to the present issue should understand the precise character of guarantee and possibility of adverse contingencies seven years hence.

It's St. Patrick's Day.

The performance of "Stop Thief" at the Princess Theatre last night started an epidemic of laughter which will not only last throughout the entire week's engagement, but for weeks to come. The play was constructed especially for laughter.

Dennis Kellagher, teamster, was arrested by the police of No. 4 division and taken to station No. 1. He had taken advantage of the excitement to appoint himself in charge of the office on Eastern avenue, and was dealing courses and threats at all who attempted to use the telephones. As he was obviously drunk, no one laid hands on him.

LONDON, Tuesday, March 17.—The Daily Telegraph today gives prominence to a letter from a correspondent who questions the accuracy of certain details in connection with the Toronto power issue. He enquires whether the Toronto Railway Company, who guaranteed the principal and interest of the present issue "up to 1914," is identical with that which the Toronto Railway Company, which has been endeavoring to sell out to Toronto ratepayers. "If so, will not the charter of the Toronto Railway Company expire in 1921?" he asks, "and if that is the case, how can the railway company guarantee anything after its charter expired and its assets are disposed of, is not the hydro-electric system, owned by the Ontario Government, a serious competitor to the Toronto Electric Light Company, and will it not supply motive power for the Toronto street railway when it reverts automatically in 1921 to the ratepayers of the city?"

It is as well, says The Telegraph, that intending subscribers to the present issue should understand the precise character of guarantee and possibility of adverse contingencies seven years

Hints on Beauty Culture

Mother Hands Can Mold Growing Child's Features

By MAGGIE TEYTE

Prima Donna of the Chicago-Philadelphia Opera Company.

A PHYSICIAN who makes a specialty of the diseases of children told me the other day that when he saw a child with an ill-shaped head he blamed the mother or the nurse. He said it was the right of every normal child to have a comparatively perfectly shaped head.

"A child's skull is but little more than putty in substance," said he, "and it is up to the mother to make it shape. Also in nine cases out of ten there is not the least excuse for any child having an ugly nose. That is like putty, too. If the women would pay half the attention to making their children beautiful they do to making over their own faces, the next generation would look better than this one."

Well, I think we are learning a great deal about child culture, for the schools are doing so much in that direction. But there is a lot to be done before the child reaches the school age.

One Mother's Success.
I know a dear little woman who is only an inch or so over five feet tall. She has a wonderful son who is as handsome as a Greek god. She has also three daughters, each of whom "divinely tall" and lovely in features. Their father is a man of ordinary height and most ordinary appearance.

The mother told me when her son was born she made up her mind he should be tall and broad shouldered and have the best features it was possible for him to possess. Like all young mothers, she was afraid of the little body, so she sought the advice of the family physician, who sympathized with her wishes and directed her.

When the baby was only a few weeks old his mother began with gentle and systematic exercises. She rubbed the little back and ever so gently she stretched the little legs and arms and rubbed the tiny chest. She gave frequent massage to the baby to keep him from bearing any weight on his legs till they were so strong there was not the least chance of their growing bowed. She never let him sit without support at his back. He had a young little snub nose and she massaged it till it became regular and straight.

She discouraged the slightest tendency to sucking the thumb. She knew that many hopelessly ugly mouths owe their being just to this habit. When the baby slept she saw his ears were not crumpled up, and every time she bathed him she pressed the ears into place.

The First Lessons.
When the baby girls made their appearance she nursed them in the same fashion. Only in addition to making the girls strong and straight and tall, she massaged the little arms and wrists so as to make them pliable. She made the little fingers tapering, she gently rounded the tiny throats. One of the girls had a very full and protruding upper lip. She persistently pressed it back till it became a regular cupid's bow, and now the young woman is noted for her lovely mouth.

As soon as the first teeth came and showed the need of care, the mother engaged the services of an expert dentist, and every one of the children has almost perfect teeth, firm and white and even.

The second girl had high shoulders. They might easily have become a real deformity. The doctor assured the mother there was no defective bone formation and the mother gently smoothed the shoulders downward and encouraged all the exercises of the little arms which would tend toward lowering the shoulders.

The first lesson she taught her children was how to breathe and proper filling of the lungs soon became a habit with them.

They were encouraged in all outdoor sports. Today they are all fine, splendid, healthy young persons. Their mother's system has been a perfect success. What she has done many other mothers can do, for she has been a busy woman with only ordinary means to do with.

Will Alone Needed.
A beauty specialist declares any mother can make her baby have curly hair by always brushing the hair backward when it is damp and washing it from the forehead instead of the way it grows.

She says ringlets and waves can be trained. Eyebrows can be gently pinched into the desired arched beauty line. The little legs and arms of the little face can be made perfect.

The tiny bodies are so plastic that it is only necessary to have the will and the determination to make them anything one wishes them to be. But it is a task which requires a well balanced trainer and one who understands the delicacy of the material upon which she is working. It is quite as easy to deform the baby body as to make it beautiful.

"KEYNOTE OF SUCCESS IS SYSTEM"

Lillian Gish

Movie Star Gives Practical Rules of Life

By Cecile Manning

REGULATE your days by the clock. "Hurry to live by a system. Hazardous methods never win in business. Life is the most important business."

"Eat only when you are hungry, and eat only enough to satisfy the hunger. It is the extra ounce of food which makes the superfluous pound of fat."

"Never drink anything stronger than tea and coffee. Let your indulgence of these be rare. Spring water and lemonade, alternated with milk and vichy, are the best beverages."

"Believe in yourself and don't borrow trouble. "Be interested in your work, and do your best under all circumstances."

These are the rules for success and health given by Lillian Gish, whom David Belasco calls the most beautiful blonde in the world. Such an opinion is super-praise, and the girl so complimented might be pardoned for resting herself on a pedestal.

But Lillian Gish has a very level head on her 15-year-old shoulders, and she values her beauty only as a business asset. She tells you quite simply and frankly that in her profession, that of a "movie" actress, "perfect health and steel nerves are much more important than perfect beauty."

"But I believe all women would be better in looks and health if they would adopt a regular system of life. The keynote of success is system."

"Being a 'movie' actress has one great advantage. She has the chance to see herself as others see her. If she has been eating enough to change the outlines of her figure the screen will show the added weight instantly. If she has been trying to burn the candle at both ends by cutting down her sleep allowance her dull, heavy eyes and the tired lines in her face will tell the story. The screen is more truthful than kind. It never flatters."

"The 'movie' actress lives through all the emotions and crises of the average lifetime in nearly every picture. She has to be true to the part, for she is going to face thousands of critics every hour of the day in all the four corners of the earth."

"I think the 'movie' girl who has a real interest in her work feels a certain responsibility in not disappointing one of her unknown friends. We are very real to thousands of people who never see us except on the screen, and who know us only by our work."

And then, when she leaves the "highest salaried job in town" to marry "her man," she wants to know that he's really going to be "her man" after all, and not every other woman's "man" who chooses to angle for him.

And she wants to know that he's going to be fit to take the right kind of care of her and her baby before she gives that job up and settles down with him for life.

When little Mary Smith married 25 years ago, she didn't know where her husband was when he left her to sit alone at home in the evening.

Little Mary Smith who marries today does know.

John Johnson told her about it himself, before he thought of asking her to marry him. "And when Mr. Johnson goes away from home too often to see her, she is likely to slip on her hat and coat and run over to Sally Smith's and telephone some of the other girls who used to be in the office with her before she gave up her job for 'her man,' and go out for a perfectly good time of her own."

Staying at home and wishing "your man" would come home is a habit.

The modern girl is entirely out of it, and she doesn't intend to get into it, if she can help it.

And the fact that she has a perfectly good job at a perfectly good salary is one of the things that is doing a great deal toward helping her to help it.

She's a good girl all right, is Mary Smith, the girl who works for a living; and she's normal, perfectly normal, just as normal as the men who "can't understand her point of view."

That's the trouble with her—she is normal; and she has a chance to be—for the first time in the history of the world; and she doesn't intend to give-up being normal and go back and be abnormal again for all the love making and love promising in the world.

She's out in the world, and she's going to stay out in it. You can't tie the veil over her head an hour longer—she's had it off too long. And she rather admires the feel of the fresh wind in her face.

She's normal, all right—that's why she wants a normal share in the doling of the normal world.

The man and the babies are a part of her life, the best part, the noblest part, the happiest part, the truest part; but only a part—and that is what is the matter with the marriage statistics.

Think it over—and see.

Secrets of Health and Happiness

Blindness May Result If You Neglect a Stye

By Dr. LEONARD KEENE HIRSHBERG

A. B. M. A., M. D. (Johns Hopkins).

Copyright, 1914, by L. K. Hirschberg.

YOU can never find out too much about your eyes. True eyes are the pure, honest pupils from which the shining soul speaks.

The bright-fleshed, black-irised eyelids droop across these melting blue or polished black orbs, as the petals of the pansy or the violet guard the flowery heart. A stye upon these fringed curtains distorts the outer world, makes you see a distant mountain where a smooth field spreads before you and causes serious annoyance to your peace and comfort.

These scarlet scourges, dotting singly or in crops the margins of your lids, send pain and poignant darts into your flesh. The divine touches of the most adorable eyes and the sweetest glimmers of matchless eyes are dulled and deranged in the presence of these little, swollen creatures of the lids. A stye is nothing more than a colony, or battlement, where the tissues unite have been assaulted by the little demons of inguicating bacteria. In brief, they are the semaphores which admonish you to clear the tracks, or suffer some approaching catastrophe.

Few there are who lack a personal, first-hand acquaintance with styes. Any one subject to carbuncles, whiteheads, blackheads or pimples is susceptible to them.

Amid the gloom of such an infected lid-margin, the chastened eye and changing vision looks tenderly forth through the darknesses of lashes. Usually, if a stye is not due to errors in the eye itself—as when you need glasses and not wear them—they may "die a-borning." That is to say, it may disappear with the application of ice compresses, or even hot boracic water stupes.

A stye blots your beauty as frostbite the Greenland meadows. And when a little yellow spot is seen upon the peak, it is more dangerous than ugly. These yellow, punctate craters contain the germs with microbes and dead tissue, which, if rubbed into the eyes, may jeopardize your vision.

Then the eye will have a bloom almost a mockery of the tomb, with gleams that may unglacially sink away "as a departing rainbow's ray."

The treatment then, depends upon many things. The ophthalmologist may nick the stye open, if cold compresses or boracic water does not abort the troublesome nuisance. Or, perchance, if you have granular eyelids and are subject to "crops" of styes, he may insist upon the use of a yellow unguent at night.

These ointments, applied to the edges of the lid, alloy the iron out of the stye, destroy the stye parasites and soothe the affected flesh.

On the whole, styes are not so malignant in themselves as they are pestiferous. Often they are Madam Nature's courtesies to bring you unpleasant news.

He will not undertake to prescribe or offer advice for individual cases. PETER'S ADVENTURES IN MATRIMONY

Woman's Greatest Experience
XLIII
"MOTHER," I said, "tell me—when you were young and perhaps a little foolish, did you want children?"

"Always!" said mother, simply. "The touch of a child's hand awoke in me some great thrill that I did not understand until I had a child of my own."

"Mary," I blurted, very white, "doesn't want children, and her mother doesn't want her to have them?"

"Mother put her arms around me and kissed me suddenly, and there were tears in her eyes. "Poor Peter!" she said, gently. "Poor Peter!"

It was the first time mother had made any reference to the shortcomings of my married life with Mary, and only a tragic sense of loyalty to my wife sealed my lips to the utterance of such a word that was better left unsaid.

"Mary will change, Peter," she added, hopefully. "There is a tremendous something in a woman's heart that is bound to cry out in the end. And a child is a link to the coming generation."

I thought every girl looked forward to having children of her own! I blurted.

"Mother sighed. "The old order changeth," she said. "Son, when the world is caught in a whirlpool of unrest, as it is now things change. And again, Peter, in a sweeping summary of results, you mustn't be too hard upon women. Men have been much the high-handed and domineering in the past. Now with the tremendous revolt of womanhood, some few must stray away into wrong paths blinded by the glare of unreal freedom."

"You mean—"

"Just this. Women have been too quiescent for generations, Peter; not in the bearing of the race—that is a duty women must fulfil to the end of time—but in many other ways.

"Charity is the very soul of a woman's existence. Therefore, she gave men a broad latitude of conduct and asked nothing for herself, accepting a protection that grew presently into an arrogant superiority, and men with head-

We are reformers in spring and summer. In autumn and winter we stand by the old. Reformers in the morning; conservatives at night.—Emerson.

The laws of nature are just, but terrible. There is no weak mercy in them. Care and consideration are inseparable and inevitable. The elements have no forbearance. The fire burns, the water drowns, the air consumes, the earth buries. And perhaps it would be well for our race if the punishment of crimes against the laws of man were as inevitable as the punishment of crimes against the laws of nature—were man as unerring in his judgments as nature.—Longfellow.

Some men think that the gratification of curiosity is the end of knowledge; some the love of fame; some the pleasure of conquest; some the necessity of supporting themselves by their knowledge; but the real use of all knowledge is this, that we should dedicate that reason which was given us by God to the use and advantage of man.—Bacon.

Laughter is a most healthful exertion; it is one of the greatest helps to the old. Reformers in the morning; conservatives at night.—Emerson.

Is Marriage Going Out of Date?

By WINIFRED BLACK

Copyright, 1914, by Newspaper Feature Service.

THEY'RE worrying about the marriage statistics again, the people who have time to worry about such things.

They say marriage is going out of the fashion. Men are afraid to marry, they declare; wages are low; work is scarce, and women are extravagant.

"The modern woman doesn't want to keep house," says one eminent authority, "she wants to do the tango."

"The up-to-date girl doesn't care for babies," says another, "she cares for fads."

"No man can support a woman and pay the kind of grocery bills that come in at the end of the month nowadays," declares the president of a well known Providence League.

"Raise the men's wages—and you'll keep the women out of the shops," announces the editor of a labor paper. "The men will marry and the girls won't have to work."

"The instincts of nature are eternal," so expounds the editorial writer in a large and influential paper, which lies before me at this moment. "There isn't a good girl in the world who would not rather be in a job for her man and her baby than to have the highest salaried job in town. That is just exactly the reason the good girls of the world are no longer in such a hurry to be married."

"The good girl of the world is in the world now. She isn't shut up out of it in some nook and corner where you and many other men think she ought to be; and she's been finding out a whole lot of things about this 'man' who would perhaps like to be 'hers,' and she isn't quite him quite so well."

She knows just how hard he works, and how hard he doesn't work. She knows just how clever he is, and how far, far from clever he sometimes appears to be.

She observes his passion for cigarettes and his weird and, to her, abnormal and mysterious thirst at all hours of the day. She finds out that she can work longer and harder and go without luncheon better than he can, and he doesn't look to her quite as much like a knight in armor as he did before she knew him so well.

Baseball Will Supplant Cricket in England—Never

Questioned by a representative of the Press Association in England as to whether the members of a Toronto baseball club, who are taking a great interest in the game, are really interested in it, Mr. A. W. Gamage, who is in charge of the club, has declared, "I am talking as if I had never seen baseball played in England before. A few years ago there was a very strong effort made to popularize the American game in London, and several of the American firms represented here took grounds in the suburbs, and there were weekly matches, but interest in the game faded out owing to the fact that it did not command the same interest in the nation for centuries, and although from a gate-drawing point of view baseball would be likely to catch on more readily than cricket, it would be impossible to draw away Englishmen from their national summer sport. Besides, cricket, from a temperamental point of view, is more suitable to Englishmen than baseball."

Basketball Final

WANT NEW HYDRO ROAD

LONDON, March 16.—A deputation from Belmont and vicinity waited on Hon. Adam Beck to press the claims of that district for a hydro-radial line from Aylmer to London, via Belmont, and for the distribution of hydro power thruout the section. The deputation represented petitions signed by several thousand persons in various municipalities asking that the Ontario Commission take steps towards building the desired road.

TO TEACH GRAIN BUSINESS.

FORT WILLIAM, March 16.—At a meeting of a committee of the Fort William School Board and several of the grain dealers of the city the advisability of forming a technical training class in connection with the public schools was considered, with a view to teaching the rudiments of the elevator and grain business to the younger men already employed in the elevators and to others who desire to become so employed.

HURT IN LEAP FROM TRAIN.

BROCKVILLE, March 16.—Nell Conn, a resident of Elizabethtown, is in the hospital suffering from painful injuries received when she attempted to jump from a train. She was carrying in her hand a large bag of home. She was found unconscious lying across the tracks in a pool of blood, and doctors dressed five deep gashes in her head. Her hand was badly crushed and lacerated. A pedestrian happened to find Conn shortly after she was employed in the yard, and a passenger train was due to pass.

PEG COMES BACK IRISH AS EVER

Bright, Happy Comedy at the Alexandra for Irish Week.

ELSA RYAN CHARMING

An Ingenious, Demure Personality With Sunshine-Shower Temperament.

There is a bright, clean, happy little comedy at the Alexandra this week. It is a quaint, girlish character in the making of it. At any time "Peg of My Heart" would find friends, but coming as it did on the very eve of St. Patrick's day, all hearts warmed more quickly to it. The Moscow presentation last night was very satisfying, and multiplied admirers with every scene.

"Peg of My Heart" is essentially a play with one principal. All the other figures of the cast are more or less of strolling horses, which parade about and merely attract enough attention to emphasize the little Irish girl, who centralizes all the mirth and nearly all the pathos of the aggregation.

Elsa Ryan makes a charming Irish Peg. There is a wealth of fine Irish which always adorn such tales, and the Irish flavor is not over-accentuated, which says a good deal. "Peg of My Heart," heard here once before, has now become a favorite.

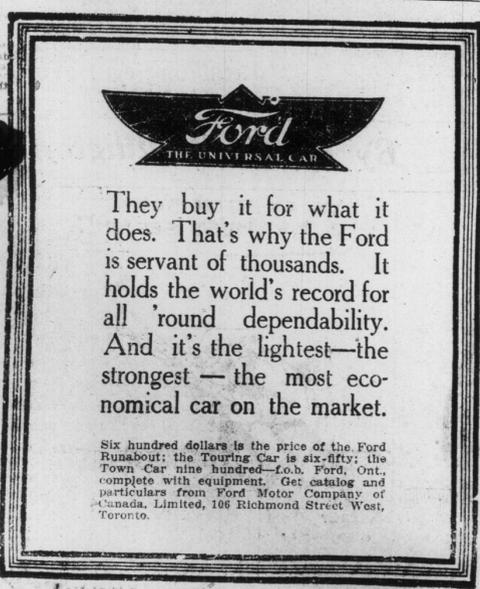

LAST DAYS OF POMPEII SHOWN AT THE STRAND

Lord Bulwer-Lytton, in his famous romantic novel, "The Last Days of Pompeii," immortalized the complete destruction of that city on the shore of the Bay of Naples, by a volcanic eruption, which buried not only the city but miles of the surrounding country under 28 feet of ashes, rock and lava. It was a tragedy of such magnitude that it has become known to the world for hundreds of years, when it was finally discovered by scientific men who were excavating in the vicinity. George Klein, with his photograph-dramatization of Lord Bulwer-Lytton's novel, will do even more to-day, bringing to the most dramatic event in the history of the world to the notice of the public. This photograph-drama is being presented at the Strand Theatre this week, and it was greatly appreciated by the first-nighters who filled the house last evening.

PARK THEATRE BILL IS WORTHY OF ATTENTION

The hesitation waltz and the tango are the feature attraction at the Park Theatre this week, by the "The Moths," in a singing and dancing act. The singing Indian girl, dons a number of attractive Indian costumes during her act. Adams and Peters present a sketch in which the stage-struck girl and her experiences play a prominent part. Joe Mole has a number of new stunts in bicycle riding. "Sophie Picks a Dead One," is the title of a mirth-provoking two-reel comedy motion picture. "The Ferret" is a thrilling detective drama, and "The Eyes of Love" is the photoplay shown.

Hamilton Choir Coming. On Thursday evening, in Dunn Avenue Methodist Church, a concert will be given by a choir of sixty voices. They are coming all the way from Hamilton to the Centenary Church there, under the conductorship of W. H. Hewlett, the organist. A varied program of choral music, from Henry Purcell to Healey Willan, including works of Coleridge-Taylor, Tschal-gowsky, Cherubini, Tertius Noble and others will be presented.

LOTS OF HUMOR IN "STOP THIEF"

Three Act Farce at the Princess Full of Laughs.

WELL KNOWN ACTORS AT SHEA'S THIS WEEK

Toronto Favorites Return for an Engagement of a Week.

Charles Dickens wrote about a mob of people who chased poor little Oliver Twist thru London streets shouting "Stop thief." That was an interesting story. Carlyle Moore has written about a house full of people who cry the same thing, but whose efforts to stop the thief are not so successful, but which are a deal more ludicrous and responsible for a myriad more laughs. That is the farce playing this week at the Princess Theatre—"Stop Thief."

This farce, in three acts, is presented by Cohan and Harris. It has to do with what happened to the Carr family, whose head on the paternal side was a kleptomaniac, whose son-in-law-to-be thinks he is, and whose ladies' maid and self-appointed detective guest are thieves of the highest order. It is when Nell the meek maid arrives, and after a cursory survey tips her pal—and lover—off to "a lead pipe cinch"—that the fun begins. The act started before their arrival for Father Carr had then started taking things "absent-mindedly." James Cloney imagines he is also a kleptomaniac, and the two real thieves do not make an attempt to discourage the fallacy. The rapid-fire humor, the grotesque situations, the exciting moments all have the expected effect; they hold the audience throat.

The farce is good, and deserves unstinted commendation. Best of all its good points, its humor is clean. In the cast two familiar faces are found. They are Frank Bacon, as William Carr, who appeared in "The Fortune Hunter," and Percy Ames, as James Cloney, who was with "Officer 888" when it first was played in Toronto. Both by their different styles of humor found merited recognition. As Jack Doogan, the thief, Sam Hardy was former cop and his lovely "pal" and sweetheart, Nell the maid, lost nothing in Mary Ryan's handling of the part. Edna Oshard, Ruth Chester, Scott, Elsie Glynn were well-matched members of the Carr family; J. K. Hutchison played Mr. Jamison, the ex-convict and the "Lucky" brother, Wm. Boyd, Dr. Willoughby, Jas. C. Marlowe, and Chas. Kaufman, Rev. Dr. Spelvin.

A FINE RECITAL AT THE VARSITY

Only Three Hundred People Were Present at Convocation Hall.

About 300 persons attended the exceedingly interesting and musically delightful recital in the Convocation Hall last night given by the University of Toronto Musical Association. Sir Edmund Osler, President Falconer, and Prof. Fernow were among those present, but it is to be regretted that a larger attendance of the general public did not enjoy the excellent program.

Luigi von Kunits was the conductor. Ernest MacMillan presided at the organ, and Miss Marie Southam and Milton Blankstein were the solo violinists. The orchestra consisted of about two dozen pieces. The program drew attention to the fact that little music had been written for the organ and orchestra in combination, but the effectiveness of the combination was fully demonstrated last night. Examples of three entirely different schools were given, Handel, Beethoven and Bossi. The first is a characteristic piece of writing including a larghetto and adagio movements, whose smooth melodic beauty was fully rendered by the solo violinist. Rheinberger's Concerto No. 2, G minor, op. 17, is of more modern spirit. The recital closes the season of the association, which has thus opened a new and enticing field.

OWEN M'GIVENEY PLAYS FIVE PARTS

In Dickens "Bill Sykes," He Has to Make Lightning Changes.

THOMAS V. EMORY BROADWAY JONES

George M. Cohan's Comedy the Attraction at the Grand.

A vaudeville bill to live up to the ideals of the most rabid show-gone must portray a portion of every kind of act, cut-out can. The show at Shea's this week has a repertoire of acts that all but reaches this ideal, and the merriest and pathos, acrobatics, songs and dance acts are varied, with something in nearly every one of them that should appeal to the average patron.

Owen McGiveney, and his one-act playlet gives his acting powers and his extraordinary versatility quick change actor finds him ample opportunities to display both while he makes a hit in any of the scenes, and presents a hilarious and dramatic episode from Dickens, in each of five parts, including one female opera singer, yet his Irish wit and humor and his difficulty in playing all these parts is keeping his audience interested and his lightning changes. He is to cover allows a hit in any of the scenes, and everyone of the characters is entirely different from the preceding one. The portrayal of Bill Sykes was a straight-forward good fellow and staunch pal, full of original ideas, his parodies and present epilog and epilog to his act that was original, although not quite as humorous as he expected it would be. His burlesquing of intervals killed many laughs. Edmond Haynes, Co.'s original satire, "The Plane Movers," is not new, but is just as funny as ever, and provokes many a good laugh. Cadets De Cascoque, singing operas in French, produce some nice harmonies, and the lady member of the quartet sings a clear voice of high range and quality. James Diamond and Sibyl Brennan, in "Nifty Nonsense," were good entertainers, the former especially with his comic dancing. The Metropolitan Minstrels sang some of the latest popular songs. Edna Oshard, Ruth Chester, and modern dancers, Cole and Denahy, Company, acrobats, concluded a good bill.

GIRLS FROM FOLLIES IN GOOD BURLESQUE

Strouse and Franklin's "Girls From Follies" burlesque, appearing at the Theatre this week, present a two-act musical burlesque, entitled "The Lady Pirates," in which Harry Stepp, Jewell Jones, has been offered anywhere at the Grand prices it should prove a success. The burlesque will be given as usual on Wednesday and Saturday.

BILLY WATSON HEADS SHOW AT GAYETY

The attraction at the Gayety Theatre this week needs no recommendation to Toronto burlesque patrons. The show is headed by Billy Watson, the merriest of comedians, and the renowned comedian Billy Watson, at the head of his own show, is sufficient as he is one of the most popular actors on the burlesque stage at the present time. "Krausmeyer's Alley," "The Basilisk Venus," two acts, were the featured comedies, which the talent of the company as a whole is displayed.

The chorus is large and beautifully gowned, while the scenic effects are good. The singing and dancing are especially deserving of note. Billy Watson is supported by a very strong cast, including such burlesque celebrities as Margaret Flavin, Eddie B. Collins and Margaret Newell.

ICE IS DISAPPEARING.

FORT WILLIAM, March 16.—Ice is rapidly disappearing in Lake Superior, according to this week's report. There is not nearly so much ice in the western and central portions as was reported last week, but the fields in the extreme eastern end and in Whitefish Bay have not changed materially.

AND THE WORST IS YET TO COME

SCOTT ACT IS POOR REMEDY

Opinion Expressed at Temperance Conference of Leeds and Grenville.

FOR LOCAL OPTION

Rev. B. H. Spence Said Provincial Law Must Be Better Enforced.

BROCKVILLE, March 16.—The annual convention of temperance workers for the United Counties of Leeds and Grenville, held here this afternoon, brought together fairly large representation from all parts of the jurisdiction. The principal addresses were delivered by Rev. B. H. Spence, secretary, and Frank W. Duggan, field secretary of the provincial temperance committee. The latter dealt with a comparison of the relative merits of local option and the Canada Temperance Act. Mr. Spence favored local option as against the other measure, on the ground that it was more far-reaching in its results, providing that the law was properly enforced.

AN EXCELLENT STORY

Individuality in the Interpretation of Characters is a Feature.

George M. Cohan's "Broadway Jones" was the offering at the Grand Opera House last night, and the excellent manner in which it was produced may be accounted for by the fact that its initial appearance in this city was under the direct supervision of Mr. Cohan, and to the fact that the different characters were portrayed by actors who have much ability. The play is constructed in such a manner that each member of the company has a chance to infuse individuality into their parts. Thomas V. Emory, a Toronto favorite, presented George Cohan's role, and not only was his acting perfect, but his handling of the comedy was excellent. Curtis Brenton as "Broadway's" friend "Wallace" gave a delightful performance, in which that left no room for criticism. As a straightforward good fellow and staunch pal, full of original ideas, his parodies and present epilog and epilog to his act that was original, although not quite as humorous as he expected it would be. His burlesquing of intervals killed many laughs. Edmond Haynes, Co.'s original satire, "The Plane Movers," is not new, but is just as funny as ever, and provokes many a good laugh. Woodstock Man Took Them for Samples in His New Factory.

FINED FORTY DOLLARS

Sentence Was Suspended on the Charge of Stealing Goods.

WOODSTOCK, March 16.—Harry Harrington, a trusted employe of the Oxford Knitting Company here, was arrested today, charged with the theft of over \$30 worth of ladies' underwear, which he had concealed in his room, and also several patterns which he had stolen from the pattern department. Harrington, who drew a salary of \$30 a week, was foreman of the finishing department, and as such had the opportunity of selecting the best grade of goods the factory made. When he appeared in court this morning he stated that he had taken the garments to use as samples for a factory which he intended to start near Buffalo, and for which he had already commenced selling stock in Buffalo and other American points. He was let off on suspended sentence, after being fined \$40 and costs and upon returning the stolen goods.

YORK COUNTY AND SUBURBS OF TORONTO

UNREGISTERED LOTS SOLD IN TOWNSHIP

Application for Sewer Reveals Bad Conditions on Arlington Ave.

YORK COUNCIL MEETS

Addition to Fairbank School Approved—Deputation to Ottawa.

When H. A. Clark, representing the highest level of the township council yesterday to ask that a sewer be put down along the street, the members were informed by the township clerk that owing to the fact that the property on one side of the street had not been registered, those who had sold the property were liable to prosecution.

A Smart Trick.—The council finally decided that nothing should be done regarding the sewer until they had been further into the matter.

Water Flooding.—The reason for the appearance of J. Harris, 219 Cedarvale avenue, is said to be owing to the fact that the water which had rushed into his cellar like a mill-race and flooded it to such an extent that he had to run a launch in it. His wife was very ill and he was afraid that the house would fall.

Mark of the Water.—He said, could be seen almost reaching the joists of the ceiling, and was absolutely impossible to enter the basement.

Roads Commissioner Snyder was instructed to give the matter his attention.

Guard Rail Needed.—C. E. Lacey protested against the state of the crossing on Ditching road and asked that something be done towards making the crossing suitable for traffic.

He brought to the attention of the council the fact that the crossing on Emmerdale road, where the water rushed into a stream on the roadside, and children were liable to fall in and get drowned, as the water was sometimes three feet deep.

The roads commissioner promised to give it his attention.

A petition was presented from the residents of Alpine, Glenville and Kennedy avenues to have hydro-electric lights installed in their streets.

The hydro-electric commission will be approached in the near future.

A bylaw will be passed to enable the trustees of Fairbank school to issue debentures for the purpose of grading the grounds and making an addition to the school.

Ottawa Deputation.—Reeve Syme, Deputy Reeve Griffiths and A. Clark, representing the township, were appointed to form part of the great waterways union and hydro-electric deputation to Ottawa on the 24th.

Owing to certain conditions in the petition the council had to refuse the request of the central ratepayers' committee to have the use of the council chamber for their meetings.

A bylaw was passed authorizing a grant of \$50 to the Firemen's Benefit Fund in recognition of the good work done by city firemen at the recent fires in York Township.

Special Legislation.—The special legislation required by the township to enable the council to cope with the requirements of the rapidly developing suburban sections, was discussed, and it was decided that the application should not embody a request for an amendment to the Municipal Act, but simply state the exact powers required by the township, which are briefly as follows:

Power to declare certain streets residential and fix the building line on any street; power to compel the City of Toronto to grant sewer connections and water supply where required; power to levy sewer rentals against the property benefited, and also the cost of garbage collection; power to compel owners to fence in vacant lots; power to regulate the location and erection of stables, barns, etc., and permission to grant a fixed assessment to the Canadian Kodak Company on their new factory at Mount Dennis.

SCHOOL BOARD VACANCIES FILLED AT NEW TORONTO

Perry Allis and A. E. Campbell were elected by acclamation last night to fill the vacancies in the New Toronto School Board caused by the resignation of two members.

Fred Shackleton, Thos. Fountain, Michael Hennessey and Mrs. Rice were also nominated, but they withdrew from the contest.

The two members who resigned did so in protest against the refusal of other members to grant an increase of \$50 per annum to Miss Beatin, one of the school teachers.

A grand concert will be given in the schoolhouse on March 21, under the auspices of West Point Lodge, I.O.O.F.

NAME HOTCH POTCH IN EARLSCOURT

Boundaries of Fairbank, Oakwood, Bracondale, Lakeview, Etc., Undefined.

MAZE FOR STRANGERS

A Number of Real Estate Sales—Meetings, Concerts—Other News.

An old resident of the township suggests that the boundaries of the districts known as Wychwood, North Earlscourt, Fairbank, Oakwood, Bracondale, West Earlscourt and Lakeview should be clearly defined. An evidence of the mix-up in connection with district names is the following: West Earlscourt section, which has been in the possession of Prospect Cemetery, is also known by the name of Prospect district or Caedonia Park. The Lakewood division is not clearly defined, as a portion of Oakwood to the north of St. Clair avenue is also known as Lakewood district. Mackay avenue, which is in the postal district of North York, is also said to be in Earlscourt, and many residents in what is known as Wychwood are really in Wychwood Park in the Bathurst hill division.

Bracondale is another division of which the boundaries are doubtful. The population in these districts daily makes an influx of new arrivals daily. It is important and one which should be promptly dealt with. He suggests that the whole section from Wychwood to the Grand Trunk Railway Tracks at Caedonia avenue might with advantage be divided into at most four districts, thus making it possible for any stranger to locate a resident without difficulty.

St. Clair Lodge, Dominion Elks, new lodge room at the corner of Bloor and St. Clair avenues, is being handsomely fitted up, and an excellent upright grand piano has been installed. One hundred and fifty guests were present during the evening, and several new members were initiated prior to the entertainment.

Real Estate Sales.—Following sales: Unfinished store, 1215 St. Clair avenue, property of G. F. Bailey, to William Linton, price \$4000.

Detached solid brick residence, No. 29 Wisnart, to J. Noon, price \$4300.

Brick store and dwelling, No. 1292 St. Clair, to Mrs. M. Deane, price \$3000.

Mr. Atkinson's price \$3000. Six-room solid brick residence, 43 Ravensden avenue, property of E. West, to Mrs. M. Deane, price \$3500.

Lots on Glenholme road, 100 feet deep, to W. A. Coon, price \$35 per foot.

Garage branch, Woodmen of the World, held a dance last evening in Little's Hall, Council Commander Williams presiding.

Today being St. Patrick's Day Mass was celebrated by Rev. Edward McCabe at 8 o'clock in St. Clare's Church, St. Clair avenue. This evening the ladies of the parish will hold a euchre party and social in the basement hall of the school.

Numbering Completed.—The districts of Wychwood, North Earlscourt and Fairbank are now practically numbered, making it much easier for the postal officials and those delivering in those localities to locate residents.

THORNHILL

The regular monthly meeting of the Thornhill branch of the East York Women's Institute will be held on March 19 at the home of Mrs. Carson, York Mills.

Members will respond to the roll call with a bright idea. The program will consist of music and a debate on "Should we Have the Franchise?"

The will of the late Miss Mary Louise Ludford of Thornhill, who died at Toronto on Jan. 5, 1914, is as follows: I bequeath to my aunt, Catherine Hopper, five hundred dollars; to my cousin, Jennie Cooper, one hundred dollars; to my niece, Bessie Ludford, one hundred dollars; and my nephew, Hugh Ludford, one hundred dollars. I direct the sum of one hundred to be a monument in my grandfather's lot, where I am to be buried, and provision made for perpetual care of the lot.

All the residue of my estate, real and personal, I give, devise and bequeath to my friend, Ada Maria Knox, her heirs, executors, administrators and assigns forever. I appoint the said Ada Maria Knox the executrix of this, my will, hereby revoking all former wills.

The estate, not including personalities, clothes, etc., consists of mortgages and interest, \$2028.83; money, and cash in bank, \$5.85, making a total of \$2034.68, up to time it was entered for probate, Jan. 15, 1914. The document was executed on Jan. 5, 1914.

NEW BRANCH OF W.C.T.U. INAUGURATED YESTERDAY

Mrs. Ward, president of the W.C.T.U., organized a branch of the union at the Danforth Avenue Methodist Church yesterday afternoon, but owing to the absence of members from other denominations only a president and vice-president were elected.

Mrs. H. J. Haywood was made president, and Mrs. Gamble first vice-president.

The next meeting will be held on the third Tuesday in April, when it is hoped that the organization will be completed.

day afternoon in a large pond just off the Kingston road near Armand avenue. The little fellow had been playing around the pond just before going to school yesterday afternoon and slipping on the frozen snow on the edge tumbled head first into the water. A little girl who was with him at the time ran to the nearest house and told the occupant, Mrs. Tryon, what had happened. She in turn ran to some buildings where Mr. Newton was working. He immediately rushed to the pond, threw off his hat and coat and plunged into the icy water. After a struggle with the floating ice Mr. Newton managed to get the boy back to the shore where willing hands had him hoisted up. The rescuer, however, had considered

STOUFFVILLE COUNCIL HELD SPECIAL MEETING

Stouffville council held a special meeting last night to consider the hydro-electric agreement submitted to municipal council on the 10th of the Toronto and Port Perry Road.

The members were generally well pleased with the terms of the agreement, but will decide definitely at a meeting to be held in Toronto.

Reeve Sangster's brother, Dr. Alec Sangster, is very seriously ill, and grave doubts are expressed as to his recovery.

SURFACE WATER PLAYED HAVOC IN EAST TORONTO

The beginning of the spring floods on Sunday caused a great deal of damage to the district in the immediate vicinity of Gerrard and Coxwell avenues.

The old drains and dangerous floods which have taken place in previous years, the steady thaw causing the ice to move slowly out early yesterday morning. Another lot came down about six o'clock last night, but no damage was done to the surrounding properties.

The drainage of the district is raising many complaints. The people claim that the ditches, not being cleared out properly last autumn is the cause of the flooding of many of the roads and sidewalks through the neighborhood.

In several places the sidewalks are impassable without the aid of rubber boots, and the mud on the Don Mills road is seriously impeding the traffic on the road.

NEWMARKET BUSINESS MEN OPPOSE TOBACCO LICENSE

A deputation of local business men attended the meeting of the Newmarket council last night and presented a petition requesting the council not to make a license necessary for the sale of cigars, cigarettes and tobacco.

The council had been considering a bylaw to make a license necessary, but they decided to hold it over for the present. Among those present on the deputation were W. A. Brunton, C. S. McCaulley, Geo. Knowles, and J. E. Walcott.

The light and water committee reported that the last well boring sunk on the Office Specialty property had been checked by rock at 80 feet and that another would be sunk in the neighborhood.

WESTON COUNCIL CHAMBER PACKED

People Out in Force to Help Council Dispose of Pool License.

NO DECISION RESULTED

Work on Library Excavation Started to Provide for Unemployed.

The large number of Weston citizens who filled the council chamber last night to hear the decision of the council in regard to the granting of pool licenses to Messrs. Farley, Burke and Witty were doomed to disappointment as the council did not discuss the applications.

Those who had expected some decision in the matter gave vent to their opinions vigorously.

Many Interjections.—Throughout the general business of the council there could be heard "get down the pool question" and so on, and patience, as the council had to take into consideration the opposing views of the people when the question of a pool license came up before them.

He said that he was aware that many of the ratepayers were absolutely against a pool room in the village, and the council had a right to respect their opinions. I respect the convictions of those in opposition to the pool, and these included well-known business men of Weston.

He assured them that Weston Council had the interests of the people at heart, and they were conscientiously working in the best interests of those who had trusted them.

It was the council's wish to go fully into the matter from both sides of the question.

Offer Increased.—The clerk was instructed to notify the Toronto Investments Company that the corporation would increase their offer of \$500 to \$600 for the right-of-way to lay this sewer.

Wm. Campbell, the village constable, was appointed plumbing and building inspector, in addition to his other duties.

A cheque for \$3000 was issued to Weston School as balance in full for the 1913 levy.

Work For Unemployed.—On the reeve's suggestion, it was decided to remove the earth from the proposed Carnegie library site, and incidentally give work to the unemployed.

Council's Master Plan.—The Council Masters was given power to sell \$2000 of debentures for water extension.

GOOD TIMES RETURN TO WEST TORONTO

Many Men Re-Engaged by C.P.R.—Factories Also Busy Again.

CARLTON OLD BOYS MET

Bell Will Be Cast Into Medals to Keep Old Memories Green.

A welcome sign of good times returning to West Toronto is the large number of men recently engaged by the C.P.R. for work in the yards, especially in the car department. Of the 300 men who were laid off early in the winter in this department, nearly 200 have been taken back, and the yards present every appearance of a busy season.

Many of the older residents of West Toronto are also beginning to take back their employees whom they had laid off earlier in the year.

CARLTON OLD BOYS MET

The old boys of Carlton Public School, nearly 100 strong, gathered in the old school building on Connelly street last night and made enthusiastic preparations for their first annual banquet and athletic meet on Wednesday evening, March 25, in the Masonic Temple, Annetta street.

Many of the older residents of West Toronto are also beginning to take back their employees whom they had laid off earlier in the year.

Request Granted.—Their request has been granted, owing to the interest on the behalf of the Ward Seven trustees, and the bell will be cast into medals, which will be suitably engraved and presented to members of the Old Boys' Association. In this way the memory of the old school will be kept alive among her former pupils long after the building itself is razed to the ground.

This will probably be done this summer, as a large, modern, new school is to be built in that district.

A grand Irish concert and lecture will be held this evening in St. Cecilia's Hall, West Toronto, when D'Arcy Hilda will lecture on "The Origin of the Celtic Race." A trained chorus of forty children will give a selection of Irish songs, and there will be solos, recitations and Irish dances. The accompanists will be Miss A. McEneaney, Mrs. James Lynch. The committee in charge of the arrangements are Ed. T. Henderson, chairman; J. J. Coleman, Miss Haydon, Miss A. McEneaney, J. J. Homan, Robert H. Brennan and Geo. A. O'Leary.

The Young People's Association of St. John's Church held the second of their regular meetings last night in the parish house. The address was illustrated with lantern views. The branch of the Young People's Association, which was addressed by H. M. Wadson on "Tragic Events in English Catholic History," which was a beautifully illustrated.

Pacific Lodge, W.O.W., and the Loyal Order of the Moose held their regular meetings last night in the rooms at St. James' Hall.

DON ICE MOVING OUT MORE FREELY THIS YEAR

The breaking up of the ice on the River Don was not attended this year with the usual pains and dangerous floods which have taken place in previous years, the steady thaw causing the ice to move slowly out early yesterday morning.

Another lot came down about six o'clock last night, but no damage was done to the surrounding properties.

Many of the Songs That Will Be Sung at the St. Patrick's Day Entertainment Tonight Are to Be Found in THE WORLD'S HEART SONG BOOK

Come Back to Erin
Come back to Erin, Mavourneen, Mavourneen,
Come back, Aroon, to the land of thy birth;
Come with the shamrocks and springtime, Mavourneen,
And its Killarney shall ring with our mirth.
Sure, when you left us, our beautiful darling,
Little we thought of the long winter days,
Little we thought of the hush of the starshine
Over the mountain, the bluffs and the brays!

Over the green sea, Mavourneen, Mavourneen,
Long shall the white sails that bore thee away;
Riding the white waves that fair summer mornin',
Just like a Mayflower afloat on the bay.
Oh, but my heart sank when clouds came between us,
Like a grey curtain the rain falling down;
Hid from my sad eyes the path o'er the ocean,
Far, far away, where my Colleen had flown.

The Wearing of the Green
O Paddy dear, and did you hear the news that's going round?
The Shamrock is forbid by law to grow on Irish ground;
Saint Patrick's Day no more we'll keep, his colors can't be seen,
For there's a cruel law agin' the wearin' of the green.
I met with Napper Tandy, and he took me by the hand,
And he said "How's dear old Ireland now, and how does she stand?"
She's the most distressful country that ever yet was seen,
They're hanging men and women there for wearin' of the green.

Then since the color we must wear is England's cruel red,
Sure Ireland's sons will ne'er forget the blood that they have shed.
You may take the Shamrock from your hat, and cast it on the sod,
But 'twill take root and flourish still, tho' under foot 'tis trod.
When law can stop the blades of grass from growing as they grow,
And when the leaves in summer time their verdure dare not show,
Then I will change the color I wear in my caubun;
But till that day, please God, I'll stick to wearin' of the green.

KARLUK MAY DRIFT ACROSS TO SIBERIA

Russian Government is So Notified by Officials at Ottawa.

SUPPLIES ARE REQUIRED
An organization meeting of the Seaman and Roadway Workers was held in the Labor Temple last night for the purpose of forming a union. A charter was applied for and a meeting will be held in two weeks, when the officers will be elected. Over 150 men have signified their intention of joining the union, which will embrace all men engaged in the construction of roadways and sewers. There are about 2000 men in Toronto in this kind of work, including civic employees, and all of these are eligible for membership.

STEFANSSON SENDS WORD THAT EXPLORATION IS PROCEEDING SATISFACTORILY.
OTTAWA, March 16.—The naval department has notified the Russian Government that there is a possibility of drifting in the ice right across the Arctic Ocean and landing in Siberia. The vessel might not be seen again for three or four years, if this happens, but the Karluk is provisioned for five years. On board are 25 men, including five or six scientists.

REICHSRATH NEEDS CLOSURE.
VIENNA, March 15.—The reichsrath was again prorogued to-day, the obstruction by the Czechs rendering business impossible. An official communication issued tonight hints at the necessity of having recourse to administrative decrees in order to carry on the public business.

CEDARVALE
A meeting of the Cedarvale Association Football Club will be held on Thursday night at 8 o'clock in McGillivray's real estate office. All players will be signed and final arrangements made for the opening of the season.

McONKEY APPEAL WAS DISMISSED

Judge Denton Says Conduct Was Disorderly on New Year's.

GOT BEYOND CONTROL

Mr. McConkey Planned It and Must Be Held Responsible.

"The whole affair was a revelry by night, an orgy, a disgrace for such a well-known establishment as McConkey's," said Judge Denton, in dismissing the appeal from the decision of the police magistrate in suspending the license of McConkey's Hotel, on account of the disorderly conduct which occurred there New Year's Eve and morning.

WELSH COAL BARON INTERESTED IN B.C.

Options on Rich Anthracite Fields Said to Have Been Secured.

VANCOUVER, March 16.—Options were reported today as having been taken by Mr. D. J. Thomas, the Welsh coal baron, now en route to Vancouver from the east, on claims of anthracite coal lands controlled by a British Columbia syndicate, syndicate and a company of prominent Quebec financiers, who hold charters from both Dominion and provincial governments for constructing a railway from the mouth of the Naas River into the Grouse Mountain fields, a distance of 140 miles.

TWO WORKMEN KILLED BY PREMATURE BLAST

SHERBROOKE, Que., March 16.—A R. McDougall was instantly killed and Ludger Lizee so seriously injured that he died some eight hours afterwards by a premature blast in the mine of the Weedon Mining Co. at Lake Wee-don, on Saturday afternoon. The explosion took place just a few minutes prior to the workmen quitting for the day. McDougall lived at St. Raphael, Ont., and Lizee at Fountains Mills, Que., and each leaves a widow and family.

SCHOOL BOARD SUED FOR GIRL'S INJURIES

A curious claim for damages has been made against the board of education by the parents of Bertha Taylor, a pupil at Rose avenue school. The girl was jumping from a spring-board over a "german hare" and fell breaking an arm. Principal Carr states that the girls were forbidden to jump in the way causing the accident. The claim has been sent to the board's solicitor.

ALIMONY WAS GRANTED

On the application of Mrs. E. A. P. Skeaff, wife of John S. Skeaff of the Bank of Toronto, interim alimony at the rate of \$20 a week, has been allowed by Master Chambers Cameron, at Osgoode Hall, Mr. Skeaff's income is given at \$5000 a year.

She Got So She Was Almost Insane And Then Found a Cure in Dodd's Kidney Pills.

That's Why Mrs. Wellington Dunlop Says Dodd's Kidney Pills Are the Best of All Medicines.

SOUTH WATERVILLE, York Co., N.B., March 16.—(Special.)—Mrs. Wellington Dunlop, an estimable resident of this place, has given an interview in which she states that she believes Dodd's Kidney Pills to be the best of all medicines. Mrs. Dunlop says: "When I commenced taking Dodd's Kidney Pills I was in a terrible condition. I had been sick for over a year and had paid out more than one hundred and thirty dollars for doctors and medicine. I would get some better and then get just as bad as ever. The doctor said my trouble came from my stomach. His medicine relieved me for only a few minutes after I had taken it, and I got so that I was nearly insane. I had not taken Dodd's Kidney Pills two days till I was some better. I took twelve boxes in all, and I can truly say they have done me more good than any medicine I have ever taken. Dodd's Kidney Pills are suffering woman's best friend. If you haven't tried them yourself, ask your neighbors."

Why we ask for your contribution this week

THE Convention of the Associated Advertising Clubs of America, to be held in Toronto June 21st to 25th, will be the greatest advertisement for Toronto the City has ever had. It will bring here between six and seven thousand men representing American Capital of \$1,600,000,000, and an immense amount of British capital as well. It is a Convention of business men representing big interests, and Toronto, most fortunate of all Canadian cities, has this opportunity to impress her advantages upon them.

DOUBLED NUMBER OF O. M. L. MEMBERS

Oliver Hezzelwood's Year as President Was Fruitful of Results. GIVEN A LOVING CUP Members Paid Tribute to Good Work of Retiring Executive Head.

Oliver Hezzelwood, retiring president of the Ontario Motor League, was presented with an illuminated address and a loving cup by his fellow directors, at a meeting held yesterday afternoon. William Stone presented the cup on behalf of the directors, and A. E. Chatterton presented the address. Mr. Hezzelwood replied in appropriate words. Mr. Hezzelwood's year at the head of the league was noteworthy for the work accomplished. During it the membership was increased from 2000 to 4000; the Canadian Automobile Federation was set under way, and now has 40 affiliated motor organizations; the examination for motor car drivers was instituted by the government, and much aid given the Ontario Safety League.

W. J. BRYAN ASKED TO PROTECT STANDARD OIL

WASHINGTON, March 16.—Texas and California oil producers have addressed a number of communications to the state department in regard to the bill pending in the German Parliament to establish a government monopoly and eliminate the Standard Oil Company from the German business. Secretary Bryan has referred all these to the bureau of trade relations without comment. Today, however, he said: "This government will not assume that the German Government intends to do injury to American property or interests there, or to discriminate against Americans in the purchase of oil, unless the language of the measure would, under reasonable construction, imply injustice. If the law is passed and under its operation any injury is done or threatened we will make such representations as the situation requires."

REV. FREDERICK GREUL TO MAKE HIS DEFENCE

"Democracy a Present Requirement of the Christian Church," will be the subject of a lecture by Rev. Frederick H. Greul, D.D., in the Parkdale Baptist Church, West Queen street, on Wednesday evening, March 18, at 8 o'clock. Mr. Greul has during the past few days been criticized by some Toronto Baptists for his action in speaking at the induction of Rev. H. A. Stammers to the only Unitarian pulpit in the city last Friday evening. His lecture will probably be in some measure a justification of his conduct.

SUFF. CAUGHT IN LOBBY CARRIED A DOG-WHIP

News From The Parliament Buildings

HYDRO SYSTEM HAS ADVANCED

Sixth Annual Report of the Commission Shows Good Results.

The sixth annual report of the Hydro-Electric Power Commission, issued yesterday, summarizes the work of the commission for the year 1913. During this period contracts were entered into with the municipalities of Windsor, Walkerville, resulting in the extension of the Niagara system and the construction of 195 miles of 110,000 volt transmission lines with new cross transformer stations. Owing to the rapid increase in the load in the Niagara district, increased capacity has been required. At the Cascades, Dundas, London, St. Thomas and Toronto stations. Contracts for power were entered into with the municipalities of the Beaverton-Camlington district, and after authorization by the government, contracts for a supply of power to be developed in Wasdale Falls, on the Severn River, were awarded, and the work allowed to proceed.

MUNICIPAL ACCOUNTS

Comparisons Made to Demonstrate the Improvements in Ontario.

Under the heading of municipal accounts, interesting comparisons are drawn, which demonstrate in figures the extent to which the hydro system has advanced in the province. This year there are 45 municipalities included in the report, as against 28 last year. Operating and maintenance expenses have increased from \$1,088,135 to \$1,511,048; total annual expense from \$1,877,188 to \$2,991,044; total revenues from \$1,617,674 to \$2,611,818; net surplus for the year from \$240,508 to \$626,875; net balance of profits in excess of depreciation, from \$60,819 to \$280,335. The net surplus from operation increased to \$451,054. The appropriation to the municipalities for light is now \$3,152,000, as against \$2,500,000 at the end of 1912, while the number of power consumers now totals 252 as against 1599 at the end of the preceding year.

GAME RULES SHOULD NOT BE ALTERED

New Brunswick Guides Ask Open Season for Moose to Be Kept.

NEW YORK, March 16.—At a special meeting of the New Brunswick Guides, held in the Grand Central Hotel, New York, the guides of New Brunswick placed themselves on record as being opposed to any change in the game laws of the Province of New Brunswick regarding the shortening of the open season. The reasons given were:—That owing to the large number of moose now in our forests we do not feel that such a change is necessary. That the amount of damage done to the property of farmers in outlying districts, is far more than is generally known. That a uniform resident license, as proposed by the chief game warden, would be the means of an increased slaughter of our big game animals, as it compels anyone wishing to hunt partridge, to buy a two dollar license for all kinds of game, both big and feathered game, and in that way put our moose on the same scale of value as a partridge that will sell in the market for about 25 cents.

QUINN CASE TODAY

The case of Thomas Quinn, a young man of 21, who appeared in the court of general sessions yesterday on a charge of stealing a suitcase from the T. Eaton Company and two overcoats from the Hubert Simpson Company, was adjourned by Judge Costenworth until this morning, when more witnesses will be heard.

HURON LICENSES SOON TO CEASE

Not Likely That Any Will Be Issued After First of May.

According to the statement of Hon. Mr. Hanna yesterday afternoon it is not likely that any licenses will be issued in the County of Huron after May 1, 1914. The minister, however, refused to bind himself to the course to be followed. It was a matter in which the local commissioners had much to say, and he would have to hear their recommendations before making a definite statement. Ordinarily three months were allowed for licensees to close up their business, but this had not followed in the case of Manitowlin. In answer to a question of Allan Studholme, Hon. J. C. Duff stated that in 1912-13, 2610 domestic servants had come into Ontario, and the majority of these had been placed in homes and were doing well. He also stated that the total cost to date of the Jordan experimental fruit station was \$128,000.

EDWARD B. BOYD IS APPOINTED

Toronto Solicitor Succeeds Mr. Starr as Juvenile Court Commissioner.

It was announced last evening at the attorney-general's office that Edward B. Boyd of the firm of Thurston & Boyd had been appointed as juvenile court commissioner. He will assume the duties vacated by the late Rev. J. E. Starr.

SPANISH WORKERS NOT AT BORDER

Immigration Department Has Officials on Look Out for Them.

OTTAWA, March 16.—The department of labor this morning gave out the following statement:—The attention of the department of labor was directed last week to newspaper despatches emanating from Toronto, to the effect that 400 Spanish laborers were being imported into Canada for employment on the Welland Canal.

HINDU MURDER MYSTERY IN PACIFIC COAST CITY

NEW WESTMINSTER, B. C., Mar. 16.—Matsqui Municipality apparently has a murder mystery on its hands somewhat similar to the Huslin murder case in British Columbia in 1912. A few weeks ago a Hindu who is said to have kept about \$9000 worth of gold disappeared. He was employed by the Ferridge Lumber Co. and lived in a shack at Ferridge.

MYSTERY CLEARED UP

NEW WESTMINSTER, B. The body was found by a half-breed named Felix McKay.

SINKING FUNDS TO BE GUARDED

J. W. Johnson's Bill Sent to Committee After Second Reading.

Three bills passed their second readings in the short half hour session of the legislature yesterday afternoon. The amendment to the Motor Vehicles Act, which would enable municipalities to forbid the use of their roads to motorists for 24 hours every week was withdrawn by the nominee, J. G. Anderson of Bruce, because of the unpopularity of the general idea. He explained that since suggesting the amendment he had shared in discussion about it and that he had been advised not to press it.

COLLECTION OF TAXES

Rural Communities May Handle Their Papers Thru the Mails.

The bill of J. W. Johnson of Belleville, which is not drawing the universal support of the government, was allowed to pass the second reading and go to committee. It was designed to safeguard the sinking funds of municipalities from officers who would use in the payment of town debentures, a method involving a vicious principle and destroyed any proper handling of current revenues. The sinking fund was actually a trust fund which should be kept intact.

NOT ALWAYS FEASIBLE

Hon. Mr. Hanna pointed out that the idea of earmarking sinking funds was not always feasible. It was questionable whether it paid better to have the sinking fund laid aside to accumulate at a low rate of interest or to use part of it to pay off the higher rates which were connected with other municipal undertakings. The present object had the financial advantages, as H. Musgrove of Centre Huron stated at the same time that his town had saved several thousands because of the enabling clauses of the present bill.

GET RID OF GOLD

DR. FISHER'S PLAN

He would Establish a Money Unit of Standard Buying Power.

JUST LIKE YARD STICK

His Standardized Dollar Would Be Uninflated by Market Changes.

Standardize the dollar. This, in three words, is the solution of the high cost of living offered by Dr. Irving Fisher, a United States expert on the question, before the Canadian Club at luncheon yesterday. How the dollar is to be made a standard he merely suggests, and does not maintain his plan to be the only one. The all-important thing is to make the dollar a standard just as a yard stick, a pound weight or a volt in measuring electricity.

HINDU MURDER MYSTERY IN PACIFIC COAST CITY

NEW WESTMINSTER, B. C., Mar. 16.—Matsqui Municipality apparently has a murder mystery on its hands somewhat similar to the Huslin murder case in British Columbia in 1912. A few weeks ago a Hindu who is said to have kept about \$9000 worth of gold disappeared. He was employed by the Ferridge Lumber Co. and lived in a shack at Ferridge.

MYSTERY CLEARED UP

NEW WESTMINSTER, B. C., Mar. 16.—The body of Dan McCaskill, well known in this city and up the Fraser River, who disappeared last December, and who was believed to have been drowned in the Fraser, was discovered yesterday close to the second pump station at Matsqui Prairie. The body was found by a half-breed named Felix McKay.

ANOTHER DOWNTURN IN LOCAL ISSUES

Point Losses Registered by All Active Speculative Stocks. TORONTO MARKET DULL BULLS ARE CAUTIOUS

Bread Common the Only Issue With Any Symptoms of Buoyancy. The Toronto stock market had another reactionary turn yesterday, and all the active issues declined a point without much opposition.

Bank shares and other investment issues were quiet, and a shade easier. In general, Monday's market left no new room for criticism, and a period of inactivity and listlessness is about the best that is expected.

LONDON MARKET WAS REACTIONARY

LONDON, March 16.—Money was dearer and discount rates were weak today. The stock market developed a reactionary tendency on realising in weak stock taken over during the settlement.

McKINLEY-DARRAGH ANNUAL STATEMENT

The annual report of the McKinley-Darragh-Savage mines for 1913 has reached shareholders. It shows that the total net profit for the year was \$171,877, as compared with \$116,843 in 1912, a decrease of \$55,034.

FOREIGN SELLING DEPRESSED STOCKS

Uncertainty Over Home Rule Prospects Had Effect on Market. NEW YORK, March 16.—Europe sold stocks here today, and the market sagged slowly. It was the attitude of foreign holders of stocks which was primarily responsible for the movement.

At home sentiment was uncertain. Outside interest was still at a low ebb, and the volume of orders which accumulated over the week-end was unusually small.

MONTREAL STOCKS DULL ON DECLINE

C. P. R. and Brazilian Among Weakest Spots—Changes Mostly Fractional. MONTREAL, March 16.—Hopes that the improvement which set in on Friday, the opening of a new week were disappointed this morning, when London's decline and business thru the day was little more than a non-event.

GOOD REPORT OF SENECA-SUPERIOR

The second annual report of the Seneca-Superior mines, to be presented to the shareholders at the annual meeting on the 24th, shows that the mine produced 1,987,744 ounces of silver during 1913, an increase of 2,210,000 ounces over the output of the previous year.

Random Notes on the Mining Stocks.

At a meeting of the Nipissing directors yesterday it was decided to only pay the 5 per cent. quarterly dividend, dropping the 2 1/2 per cent. bonus formerly paid for the time being.

F. H. Schumaker passed thru the city yesterday on his monthly visit to the Porcupine and Cobalt mines.

As an evidence of the widening interest in mining stocks one Standard Exchange broker received four wires yesterday morning from new clients over a very extended area.

HAILEYBURY, March 16.—(Special).—The Elliot claims, adjoining the Teck-Hughes on the west, have been sold to Toronto interests, who intend to form a company to develop them with as little delay as possible.

One of the leading brokers said that the Toronto market yesterday was a mining company that is being more talked of at the present time than any other.

Duplex was again strong. A despatch from Montreal says: "A rise in Duplex stock to 16 on Saturday was accompanied by reports that an important deal had been closed between the directors and outside interests whereby the money necessary for the resumption of operations at the mine has been secured."

On the rumor that a Nipissing vein had been struck on the property, Gold and Silver were strong, and went to 3 1/2.

McKinley-Darragh was weaker, selling down to 38. The dividend figures given out yesterday caused the decline.

NEW YORK CURB. Quotations and transactions on the New York Curb were reported by Erickson Perkins & Co. (J. G. Beatty).

TWIN CITY EARNINGS. For the first week of March the earnings of the Twin City Rapid Transit Co. were \$163,788, an increase over the corresponding period of last year of \$12,712, or 8.4 per cent.

THE DOMINION BANK. Banking Business in Foreign Lands. Business Houses, Corporations, Grain, Stock and Provision Dealers.

THERE ARE REASONS. The demand for mining stocks at a time when interest in other securities is abnormally apathetic can only have one meaning. We need not recite the reasons for this as they are no doubt well known.

WHEAT HIGHER ON DAMAGE REPORTS

Outlook in Large Section Said to Be for Light Crops.

CHICAGO, March 16.—Enough complaints of dry weather and of winter killing came in today to give wheat an upward jerk. Closing prices were nervous, varying from a shade off to 1/4 cent advance.

Corn made the market in wheat. Prospects of a week more without rain southwest brought about uneasiness on the part of shorts. It was pointed out that the western half of Kansas had not received more than a third of an inch of moisture since Jan. 1, and that the rest of the crop was seemingly gone.

Corn lost an advance which had been caused by active purchasing on the part of leading houses, and as a result of good feeding demand in the west and southwest. The slowest of enquiry from the east, however, and the fact that the visible supply was virtually no larger as a year ago, led to a reaction.

Improved demand for provisions manifested itself whenever the market showed a bearish effect from the more plentiful supply of hogs. Buyers, however, were not inclined to follow up any advance.

LIVE STOCK PRICES REMAIN STEADY

Sheep, Lambs and Calves Were Firm—Hogs Easier.

Receipts of live stock at the Union yards on the first day of the week were 50 cars, comprising 1251 cattle, 1144 hogs, 70 sheep and 65 calves.

Early in the day the market opened up quite brisk, and before the noon hour the bulk of the cattle had passed over the scales. Prices were strong compared with those prevailing at the close of last week.

The market for sheep, lambs and calves on account of light deliveries remained very firm.

Choice steers sold at \$8 to \$8.25; good, \$7.40 to \$7.80; medium, \$7 to \$7.25; common, \$6.50 to \$6.75.

APIA DISASTER WAS RECALLED

German Sailors Who Survived Great Hurricane, Held a Reunion.

KIEHL, March 16.—German survivors of the great hurricane which destroyed German and American war vessels and cost the lives of 146 officers and blue-jackets at Apia, Samoa, on March 15, 1888, met here today on the twenty-fifth anniversary of the disaster.

One hundred and thirty of the crews of the German warships Eber, Adler and Olga were present under the presidency of Baron von Eberhardt, who was commander of the Olga.

Several German warships, including the German merchant vessels and six warships were caught in Apia harbor by the storm, and most of them were found to matchlock on the rocks.

The catastrophe occurred during an international dispute over Samoa, which had called together American, British and German fleets.

DUKE'S TERM WILL END IN SEPTEMBER

Will Visit Yukon Before Leaving, Says Manchester Guardian.

LONDON, March 16.—The Manchester Guardian, which is generally judicious in what it publishes regarding exalted personages, gives prominence today to a despatch from its correspondent in London, who declares the Duke of Connaught will definitely close his term as Governor-General of Canada in September. The Duke, however, may not return to England immediately, seeing he is going to visit the Yukon.

His Royal Highness is likely to return home via the United States, taking leave of President Wilson at Washington and spending a few days in New York in private engagements. The Guardian's correspondent adds that the Duke will, on the close of his Canadian term of office, consider his long public career ended.

As his successor at Ottawa, this correspondent thinks the Duke of Teck will not likely accept, seeing he is due to command the First Life Guards.

SENTENCED FOR FORGERY.

ST. CATHARINES, March 16.—Gao-Juen was sentenced to three years in the penitentiary today for uttering a forged cheque. Although he denied on the stand repeatedly that he had written any other name on the cheque but his own, his writing was very similar when he was asked in court to inscribe the same names before the magistrate. A second charge of perjury was lodged against him, and he is elected to be tried by a jury, but the crown attorney was unprepared to go on with the hearing.

ROYAL MILITARY COLLEGE OF CANADA ENTRANCE EXAMINATION, 1914.

IT IS NOTIFIED for the information of all concerned that Squad and Company Drill (practical) is added to the list of entrance subjects for the Entrance Examination to the Royal Military College, 1914. Marks will be awarded as follows: Squad Drill, Maximum, Minimum, 100, 50.

NOTICE TO CREDITORS—IN THE MATTER OF ALEXANDER DRUMMOND, 305 DANFORTH AVENUE, TORONTO, INSOLVENT.

NOTICE is hereby given that the above named insolvent has made an assignment of his estate to me for the benefit of his creditors, by deed, dated March 3, 1914, and the creditors are notified to meet at my office, 15 West Wellington Street, Toronto, on Wednesday, the 18th day of March, 1914, at 2 o'clock p.m., for the purpose of receiving a statement of his affairs, appointing inspectors and fixing their remuneration, and for the ordering of the affairs of the estate generally.

All persons claiming to rank upon the estate of the said insolvent must file their claims with me on or before the 31st day of March, 1914, after which date I will proceed to distribute the assets thereof, having regard to those claims only of which I shall then have received notice.
