1910 Armament Placed on the Nashville, Which Can Now Command Four Miles of Territory-The Rush-Bagot Treaty is Evidently a Dead

OTTAWA, Oct. 3.—(Special.)—A display story, in a Chicago Sunday paper, telling of big gun practice there for the first time by the men of the U.S.S. Nashville, a cruiser attached to the naval militia, revives the discussion concerning the usefulness that is served by the Rush-Bagot treaty that was supposed to prevent just such a sort of thing in the great lakes.

For the first time since the Nashville was brought inland from the Atlantic coast the Illinois naval reserves are, it seems, to have an opportunity to discharge regulation war shells from its batteries of four-inch guns and six pounders and three pounders. Until to-day the volunteer tars have had no real opportunity to test themselves and their weapons. Altho the trim and businesslike Nashville has been used by the reserves for two seasons efficient target practice on shipboard has not been a possibility. Expert "gun pointers" indeed have been developed among the Chicago ship divisions. They have had all their practice by means of "sub-targets" with which only 22 calibre rifles were discharged. Last fall the officers and crew attempted some real range work at sea, but met with hadfiling difficulties both on account

its official heart, came to the rescue. A regulation navy target, the kind used by marksmen on the men-of-war in smashing world records with thirteen inch devastation tutes, was shipped to Chicago last week.

the following:

Eight 4-inch guns, two 8 pounders, two 8 pounders, two 1 pounders, and two Colt automatics,

The 4-inch guns, which are all on deck, hurl a shell weighing thirty-two pounds, which will penetrate two inches of Harveyized steel at a distance of four miles, Its velocity is 2850 feet the first second out of the muzzle. The terrific striking force is augmented by the fact that the progregating nearly \$100,000, hundreds of jectiles contain three pounds of secret

policemen, detectives and private citizens in all Pacific Coast cities are searching for clues to the identity of the conspirators who blew up The Los Angeles Times building last Saturday, causing the death of more than a score of people, and attempted the destruction of the homes of Samuel Harrison Gray Otis, owner of The Times, and of F. J. Zeehandelaar, secretary of the Merchants' and Manufacturers' Association.

Explosives.

These members of the principal battery of the Nashville are practically of 1910 model. The tubes proper were part of the vessel's equipment when it was turned over to the State of Illinois. They had to be dismounted and entrained when the ship passed thru Canadian water to Lake Michigan. But the "mounts" and balance grar were shipped from United States mills last spring, and bear the significant date, "1910," on their brass labels. cant date, "1910," on their brass labels.
The total weight of each 4-inch gun
is about four tons. Of this the new
"mount" claims two tons, and the
barrel, "sleeve," and "top carriage
pivot," the rest. The difficult and pieces was done entirely by reserve men, who are able to perform every technical job required on board their trim fighting machine.

been in the position that, if the country were to go to war, the great lakes would be impassable by the Ameri-cans, and they would be obliged to invade eastern Canada by the land routes, which are few and disadvan-tageous. That is all changed now. The Americans are superior by water as well as by land.

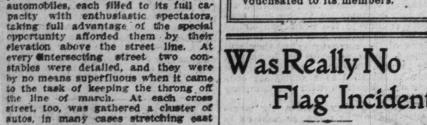

We've Been Easy. With the naval militia the Rush-Bagot agreement has nothing to do, but the agreement is concerned with the fact that since 1897 a steady process has gone on of giving war vessels of various sorts to these lake militla corps. In each case Canada has been asked to waive her legal objection, and in each case she has waived.

BOARD OF TRADE RESENT SERMON OF CANON WADE

Standard of Business Veracity High -Considering Benefit Fund For Firemen.

HAMILTON, Oct. 3 .- (Special.)-The the sermon preached on Sunday by Rev. Canon Wade in the Church of the Ascension, in which he reflected on the veracity of business men. George H. Lees introduced the subject because he thought the board should take official recognizance of it. He said that if the newspaper reports were true, and canon Wade said they were not to be relid upon, the canon had said that the average business man was a liar. He thought the canon's statement that any persons who believed that they read in the advertisements were incredulous fools, was a reflection on the big advertisers, who had made their money honestly. He believed that the standard of business veracity was higher to day then it ever had been in "From what Lives addressed by them."

An enthusiastic gathering was held in the evening at Association Hall, and was addressed by Archdeacon Madden and Dr. Hanson.

"With one united Protestant church in Canada you could sweep the country," said Dr. Hanson, after paying a compliment to the recent findings of the joint committee on church union. standard of business veracity was the joint committee on church union, sigher to-day than it ever had been in "From what I have noticed as I have

the history of the world.

John E. Brown also spoke in a similar strain, and said that the man who was not truthful in business to-day would not last very long. They wanted a resolution of resentment passed, but President Southam thought that the discussion, when reported in the newspapers, would serve to illustrate the feeling of the board in the matter.

High Insurance Rates.
There was a long discussion re theh high insurance rates, which several of the members said were due to the insufficient size of the water mains in the business part of the city. John E. Brown said they should be four foot instead of six inches, as at present. and the civic and insurance commit-tees were appointed to look into the

matter and report.

Representatives were appointed to attend the joint civic meeting to be held to-morrow night to arrange for the meeting of the technical education committee, and also to attend the meeting of the Dominion Railway Commission on Oct. 12, to protest against the Toronto, Niagara and Western Railway being given running rights along the north shore of the

The hottest council meeting in the letory of York Township within at Otherwise Church of Rome May

Iance Necessary.

The question of church union was the chief problem with which the two eloquent delegates from the British Evangelical Alliance wrestled yesterday afternoon, when, irritated by the ever-recurring question of the Jane-street crossing and the indiscreet utterances of one or two members of a big deputation, who attacked the motives of council, Reeve Henry was roused to anger and harsh terms were bandled about.

Whatever may be said regarding the suggested agreement between the York Township Council and the C. P. R. over the proposal to in a measure close Jane-street to vehicular traffic, the fact remains that Reeve Henry and the members of council have stubbornly contested every foot of the way in their fight with the big curporation, and any concessions made

corporation, and any concessions made have, in the judgment of the reeve, been with an eye single to the best interests of York Township. That he resented the uncomplimentary terms applied to council by Mr. Capewell followed as a logical sequence.

Briefly summarized the whole trouble resolves itself into these facts:

The C.P.R. have in contemptation

The C.P.R. have in contemplation an enormous expansion of their yards and switching grounds in West To-ronto, and immediately to the west of ronto, and immediately to the west of this again in York Township. It is proposed to put down at least 20 ad-ditional tracks, and in order to do away with the danger and annoyance of level crossings the company offer to put in 20 foot subways at Scarlet-road and Elizabeth-street, providing the township will consent to the sub-stitution of an 8 foot subway for predestrian traffic at Janestreet infected. Watch for posters. Special trains on last day of fair, pedestrian traffic at Jane-street stead of the present 66 foot road.

Deputations without number have invaded the council chamber from the D. D. Reid presented a petition for the widening of Montgomery-avenue at the westerly end, a distance of 320 feet, as a local improvement, and also to extend Smith and Montgomery-avenues to Gaynor-avenue, the town Scarlet-road, Jane and Elizabeth-streets districts, and yesterday's, composed of a number of representative property owners, including Ald. steps to have it widened to one numbered feet like Danforth-avenue. The first quarter of a mile (now in the city) could be widened at small cost if started now; and the people who own the next mile and a half in the township ought to be glad to give the land for the benefit it will confer on them. them. The road can be made a great thorofare, and of great value five years hence if an intelligent plan is adopted now.

I believe the section of the new

driveway that the park commissioner has laid out up the Don to the forks of the river ought to be secured and constructed now. Never will it be so easily done and it will give one of the best motor routes, say from the Rosedale ravine for two to three miles. I am convinced that the next extension of the city bounds in this direction will be all the country east of the belt line and south of the Canadian Northern's new line to Ottawa dian Northern's new line to Ottawa, over to the Scarboro town line. In the meantime I believe that as this section is completely cut off from the rest of the township it should organize itself into a town, independent of the

Society, who has put in a busy fail judging live stock at the Ontario small cost. And we would be able to have all our own taxes to spend our-selves as we desired. We've not been getting our own from the township council. Where is Mr. Robert Davies in this work, and Squire Patterson, and David Smith, and all the rest? Big things are coming our way and we ought to be getting ready for them. I do not want to lead my neighbors into expense and taxes, but I wish to see us keep in the procession. Look at things north and northwest of the city. Let us at least have a meeting to talk these things over some night and permanent coops have been erect-ed and a number of other changes efto talk these things over some night at Bater's Hall. We can at least form a local improvement association and thus get some kind of a start.

Note and Comment

Fred Killer, the obliging chairman of the Mann Cup trustees, stated last night that the challenge of the Eaton Lacrosse Club, intermediate champions of the C. L. A., had been accepted, and that they would play off with Maitlands, the winners to meet the Young Torontos in the final. An attempt was made to keep Vancouver in the series, but Mr. Killer was unwilling to have a joke made of the competition, and thus the coast champion

wyatt Lee bobbed up again on Sunday by finishing an exhibition game on the slab for Newark after the Philadelphia Athletics had pounded McGlmity and Waddell to the woods. Two errors in the seventh inning lost the game for Newark. They came when two men were out and resulted in six runners crossing the plate. The score was 9 to 8. Connie Mack had most of his regulars on the field. The Indians outbatted the Athletics and had the game apparently sewed up in the saixth, when they got three men across and the score stood 7 to 3. Lee's two base hit sent home the last run.

The dates are fixed and the Chicago Cubs and Philadelphia Athletics are waiting for the umpire to call play hall a week from next Monday. Who will win and why:

the senior series for defaulting their game Saturday without sufficient cause.

Waller, the Thistles' player, was up for rough play in the game with the Broadviews, and, being his first offence, he was let off with a censure.

The dissatisfaction over the fining of the Thistles for defaulting a game at Galt culminated in a motion to withdraw from the Western Association, but it was voted down by a large majority.

Two Goals Each.

The Scots and Grips played at Sunlight Park. After 20 minutes of play the Scots opened up the game by scoring from a low shot, which Leak certainly should have saved. Five minutes after Taylor, the Grips right wing, took the ball up the field and centred nicely, which Franklin secured, and scored the first goal for the Grips. The game was of a give and take nature up till haif-time. On resuming, the Grips took the ball into the Scots' half, which kept the Scots' goalkeeper on the jump for fully 15 minutes. Eventually the Scots cleared and from some nice play due to their forwards, scored their second goal. The Grips would not be denied, and made things very lively for the Scots. Hall of Grips secured the ball, and ran thru the whole of the Scots' defence, scoring the Grips' second goal, thus closing a very pleasant game with two goals each. Two Goals Each.

Talagoos in Tip Top Shape.

NEWMARKET, Oct. 3.—The Newmarket-Owen Sound lacrosse match at Toronto Island for the junior championship of Ontario is creating a whole lot of excitement in this district. The Talagoos, the they have not played any championship games for some time, are in tip-top shape. Manager Goodwin has given them jots of road work the past week. Special excursion cars will leave here at 12.45 and 1 p.m. Wednesday and a large crowd will accompany the boys. President Eby has appointed Allan Kinder of Preston as referee, which is an assurance that the game will be kept clean. All Newmarket old boys now resident in Toronto will be out in force to cheer for the Talagoos and the canal town.

R. C. B. C. League Opening.

The R.C.B.C. Tenpin League will open to-night with a blaze of glory. Jos. Russell, M.P., will roll against A. E. Walton, president of the Toronto City Bewling League, and Ald. T. N. Phelan will compete against Controller Foster. After the preliminaries A. E. Walton's Royal Eagles will play R. Dey's Royal Hawks, and Dan Logan's Royal Swans will compete against G. Logan's Royal Larks. There are about 100 bowlets belonging to this club, and ten teams are competing in the league, and no doubt there will be some very keen competitions, as the teams are about an equal strength.

Tommy Payne's League.

The organization meeting of Tommy Payne's League takes place to-night at the alleys, 6 and 8 Dundas street, when all old players and any new ones desirous of joining are asked to attend.

Lukeman to Represent Ottawa.

OTTAWA. Oct. 2.—Frank Lukeman will represent Ottawa at the American championships on Oct. 15. and, tho stories were published yesterday to the effect that he contemplated jumping back to Montreal. Lukeman's own statement, given last night, ought to correct any misapprehension in the matter. "I intended staying in Ottawa when I came here a week ago, and this is where I will reside for the future," was the answer the former M. A. A. A. flyer gave to the query as to his intentions. "I have received the best of treatment from the gentlemen who brought me here, and, as I start work. Tuesday morning, there need be little fear of my going back to Montreal." Lukeman to Represent Ottawa.

Jung Chung, a Chinaman, living at Jung Chung, a Chinaman, living at 177 McCaul-street, fell from a moving car at Spadina-avenue and Sussex-street at 8.30 last night. President McKay took the chair, with Mr. O'Connor on his left, chatting with J. A. Macdonald; Sir Aifred on his right with Sir Edmund Walker, Senator Jaffray, J. M. Clarke, K.C.; Father Burke, Castell Hopkins, president of the Empire Club; Robert Mond, a brother of Sir Alfred; P. A. O'Farrell, with Mr. O'Connor and A. Penlar.

Sir Alfred, who speaks with a de-cidedly Germant accent, but with great fluency and an effective com-mand of forcible English, made it quite clear that he had nothing to say about free trade for other countries, but confined himself to showing that protection for England was unthinkable. Possibly as head of the nickel and the chemical trusts, he can speak with the more authority on the advantage of free trade in building up local in-

Any Return Fatal.
The English system had developed along natural lines, and he was not pretending to lay down an infallible rule for other countries. Some countries by their tariffs had done harm to England and others had done good, but he was quite positive that "any return to the old protection policy in Britain would be fatal to its develop-ment and would lead to its decad-

Lancashire to keep the cotton trade of the world. I should like to hear it, and the Lancashire cotton spinners would be glad to know," was a point made

Sir Alfred paid considerable attention to the preference proposals. There was no longer in England an anti-colonial no longer in England an anti-colonial party. All that was as dead as the dodo. The relations of the colonies and the mother land depended upon affection. But he did not believe the affection would be increased by taking a slice off the loaf of the working man. A less quantity of bread on the breakfast table would not bind the empire closer. He was glad the western Canadian farmers saw this point and had no desire to make the lot of the working people of England harder. ing people of England harder.

He did not think Canadians realized

what the tariff reformers wished to de against Canada. "You will have to climb a wall to come into England that is not there to-day. There will be duties on flour, on cheese, on apples, on manufactured goods. It will not be easier to get an entrance into England than it is now. How can we give you more than no wall at all? There is an idea that you would be very grateful to us for making it more difficult for you to get into the English market." (Applause.)

Tariff Reform and Preference.

He quoted from the official program of the tariff reform league, and all of the tariff programs, he remarked, were very unofficial, to prove his contention. Harvesters would bear a duty of 15 per cent. The Canadian preference would be 21/2, leaving 121/2 where to-day here was nothing.

"And they call that giving you a reference! It is not my business to advise you, but if any business man proposed this to me, I would say thank you, but I prefer to keep the preference I have now. There will be three shillings a sack of 280 pounds of flour, and no doubt you will have a preference, just enough to have all your grain ground in England instead of

PAYMENT OF PRISONERS

The Question Raised in International Prison Congress.

WASHINGTON, Oct. 2.—Payment of prisoners, according to their industry to insure protection for their families and their own rehabilitation or re-lease, was raised in the International Prison Congress to-day by the section of the preventative means. The resolution provoked hot discussion in the congress, not because the principle of caring for prisoners' families was op posed, but because it was not worded out to fit adaption in several coun-tries, including the United States, where prisoners are unable under existing law to earn anything.

A resolution favoring the provision of productive work for prisoners was

adopted by the congress.

While not opposing the adoption of the resolution, Senator Pierentroni pointed out the difficulties in the way of providing productive employment for the prisoners without incurring the opposition of labor unions. He said that in Italy prison-made goods were used exclusively by the government, but that the union objected to it. The official newspapers of the kingdom were printed in prison, he said.

EXPLOITS OF THE QUEEN'S OWN

The Queen's Own left Toronto the night of Saturday, Aug. 13, 632 strong, under Lieut. Col. Sir Henry M. Pellatt, after a memorable send-off at the armories and by tens of thousands of citizens on the streets. On the following day they were entertained at Montreal by the 65th Carabiniers, arriving at Levis camp at night. Here they underwent for five days an exacting course in drill and lectures under Capt. W. P. Butcher of the

On Aug. 20 camp was broken and the regiment sailed from Quebec on the Megantic, arriving at Liverpool on Aug. 27. Here a notable reception was given, the lord mayor welcoming the Canadians, and Sir Henry Pellatt was given, the lord mayor welcoming the Canadians, and Sir Henry Pellatt responding. Staff-General Murray and Captain Clive of the war office were present. At night the regiment reached Aldershot, and were welcomed by 30,000 people lining the streets.

The regiment remained at Aldershot until Sept. 5. Features of the stay were a march past General Smith-Dorrien, and a 12-mile march with the East Kent Regiment (the Buffs). Sir Henry was the guest of the Empress Eugenie at luncheon on Sept. 2.

On Sept. 7 the Q. Q. R. was inspected by the Duke of Connaught at Avington Park, near Winchester. His Royal Highness congratulated the regiment on its efficiency, and read a message from King George, commanding Lieut.-Col. Peliatt, Lieut.-Col. Mason, two officers and twelve noncoms and men to visit Balmoral.

Participation in the important army manoeuvres began at Romsey, Hants, on Sept. 8. A whole division of the British army was encamped there and the Canadians were lustily cheered. The Q. O. R. "made good" at marching, even against the crack marching regiments.

Two days later, on Sept. 10, it became known that six Q. O. R. officers,

Two days later, on Sept. 10, it became known that six Q. O. R. officers, hitherto supposed to have influenza, were in reality typhoid victims. The sufferers were Capts. Reginald Pellatt, George, Kirkpatrick, Winnett and Lieuts. Gzowski and Massey. Subsequently Capt. Muntz was added to the

Mason were given Royal Victorian orders of the third-class, and Major Rennie and Capt. Higginbotham Royal Victorian orders of the fourth class, while the silver medal of the order was given Color-Sergt. Macdonald, the senior non-commissioned officer.

On Sept. 12, the Q. O. R. camp at Basingstoke, Hants, was visited by Hon. Mr. Haldane, secretary of war, and General French. The regiment's share in the divisional and command manoeuvres was finished on this day. Next day the regiment reached London, marching to Cheisea Barracks for a five days' stay. Here discipline was relaxed to permit plenty of sight-seeing, and the officers were guetsts at numerous brilliant functions. At a dinner given by King Edward's Horse Lord Strathcona and Sir G. H. Reid, Austrian high commissioner, were speakers.

The grand climax of the trip was reached on Sept. 16, when the regiment, after being addressed by Lord Roberts, the honorary colonel, and Hon. Mr. Haldane, marched from Cheisea Barracks to Guildhall. It is estimated that one million people viewed the parade. At Guildhall a welcome was given by the lord mayor, Sir John Knill, Sir Henry replying.

On Sept. 17 Col. Pellatt reviewed London's 6000 Boy Scouts, and three days later the regiment arrived at Whitechurch, Hants, to form part of the force under General Plummer. In the monoeuvres the Q. O. R. took part in several long marches and had a chance to see the modern machinery of warfare, including aeroplanes, in operation. The camp was again visited by Lord Roberts and the Duke of Connaught.

On the day the regiment sailed from Liverpool, Sept. 24, the sad news of the death of Lieut. Gzowski from typhoid fever was received.

"The Naked Truth." the experience of Edinburgh is days when the verdict of its theatregoers was accepted as a certifi-cation of metropolitan success. It is certainly a compliment to the critical capacity of this city that in recent years so many premieres have failento its lot and that the number will he considerably increased before the season so recently opened is brought to a close. The latest offering subjected to this test is "The Naked Truth," a farce comedy in three acts by George Paston and W. B. Maxwell, which has achieved remarkable success in London. This of itself is sufficient to warrant the inference that it carries strong popular appeal.

that it carries strong popular appeal, which even the fact that it is billed Farcical the the motive is, and still more farcical the episodes thru which the motive is revealed and enlarged, there is no decrying the fact that a there is no decrying the fact that a moral lesson is taught not by direct preaching, but by necessary implication. Social relationship to-day is largely built on fiction. Conventionalities are supreme, and the veneer of politeness in which they are presented does not conceal but simply palliates their essential quality. When the mask is removed and real opinions are set forth in all the baidness of "naked truth" even those who deceive themselves into calling for it resent its presentment.

This provides the essential humor the comedy. Its motive is not alto-gether novel, but the environment thru which the motive is elucidated is distinctly original. There is much is distinctly original. There is much of the satirical in the episodical byplay. The best humor has always an element of satire and in the satire lies the moral lesson, which, by the way, has a double-edged quality. Thru all the heartbreak and tears, thru all the agony and anguish, clear and serene moves the wonderful figure of a Roman Catholic priest, whose life has been devoted to God and the service of his fellow-men. It is his clear spiritual vision that sees thru the woh that has been woven about the two people whom he loves, and it is his faith and God-given power that sets them free. The story, strong in its simplicity, is interwoven with the higher threads of humor, the sort that one loves to, take away from the theatre and muse over in idle moments.

The cast presenting "The Rosary" is an exceptionally good one. Smith Davies, as the priest, gives a splendid characterization of the role, and to his work is due most of the success of the production. Claude Norrie, a Toronio bey, has a part that does not appeal to the auditor, but he gives it an interesting interpretation. The company sil the way thru is well cast and the production is given a pretty scenic equipment. "The Rosary" will no doubt attract large audiences all week at the Grand, especially at the Wednesday and Saturday matinees.

INTERCEPTED MESSAGES

ival Wireless Company Prevented Their Transmission. BUFFALO, Oct. 3.-The suprem

court was asked to-day to decide whether it is unlawful for one wireless company to prevent the transmis of messages by an opposition concern.
The steamer Western States had an accident off Long Point on Sept. 21 and tried to get in communication with the stations here and at Dunkirk.

the stations here and at Dunkirk.

Every effort was frustrated, it is said, by the operators of a rival wireless company. Ernest Godwin and Nelson Holt, the operators alleged to be responsible for the interference, were arrested on a charge of violating the penal code. Godwin was committhe penal code. Godwin was committed to jail, but was released to-day on a writ of habeas corpus. After hearing the evidence Justice Hooker, in special term, reserved decision.

Evidence was given to show that the operators acted under instructions from their superiors.

MURDER CASE IN DOCKET Robert Parker Case Is Now With th

Grand Jury. BELLEVILLE, Oct. 3.—The fall assizes opened here this afternoon before Hon. Sir Wm. Mulock, chief justice. The only criminal case is that of Robert Parker, who is accused of murdering Wm. Masters in Hunger-ford Township on April 8. The grand jury are now considering the case, and will not return a bill until to-morrow morning. Forty witnesses have been summoned by the crown. Peter White, K.C., of Pembroke, is crown prosecu-tor, and E. G. Porter, K.C., M.P., has been retained to defend the accused.

DIDN'T KNOW IT WAS LOADED. BELLEVILLE, Oct. 3.-A shooting accident occurred here this atternoon as the result of not knowing a re-volver was loaded. S. Solomon, a merchant, was exhibiting the weapon, when it exploded, the ball inflicting a flesh wound on Solomon, and embedding itself in the right hand of J.

Barnhart, who was standing near by. News Dealers Summoned.

F. Waldock, Imperial Hotel; Charles
Dean, Walker House; Melvin Lutterall, Iroquois; Thomas White, King Edward, newsdealers at the respective notels, were called in police court yesterday morning to answer charges of illegal sale of New York and Chicago papers containing racing information, in contravention of the Miller Act. Their cases were adjourned till Oct. 10.

First Sight of Grain Fields of the West Impresses One Like the Glimpse of the Ocean.

Assistant Secretary Hugh Soully said last night to The World: "We have had a perfectly delightful time, with splendid weather right along, with no rain during the daytime. Bright sunshine prevailed during the whole of our five days' sojourn in Vancouver, and altogether the weatherman could not have been more kind.

ments en route was a success, and went off without a hitch. Our two trains were not once held up to make way for the regular traffic, and con-sequently we were always well up to schedule, and nothing had to be cut

Westerners Did Well.

"The people of the west gave us an ye-opener in a very practical way, and we saw everything under the eye-opener in a very practical way, and we saw everything under the most ideal conditions, as the local boards of trade took, care to show us the principal features in each of their towns. Indeed, the different cities and towns excelled themselves, tho in many places they had never had to entertain such a large party at one time, numbering, as we did, 250 on the way out and 220 on the way home.

"In nearly every place they were able to provide enough autos to take the whole party out into the wheat fields and over the different points of interest. It seemed marvelous to us, the number of autos they could produce in each town, and we were strong-

duce in each town, and we were strong-ly impressed with the field for the auto industry in the west.

"Tho I had plenty of hard work or-

ganizing and arranging, I enjoyed every moment of the trip."

Impressed by Wheat Fields.
Atwell Fleming is also delighted with his holiday. He said last night:
"Everywhere along the line we were entertained most hospitably, and the scenery was simply superb, but what impressed me more than anything was wheat fields at Regina, where we had the most advantageous opportunity of seeing them. To one who has never seen them before it was a revelation; I can only compare the sight to a first glimpse of the ocean, when you gaze out over the boundless prairie with the waving fields of wheat stretching as far as the eye can see

every direction.
"Another noticeable feature was the It is astounding to think that where, six or seven years ago, there was a scant population of a few hundred, we now see cities of thousands of inhabitants. They have great buildings, banks, and hotels—every-The streets are all wide, and It is easy to see that they are looking far ahead and building for the future.

Optimism That Counte "The wisdom of this may appear problematical, as other towns may spring up, more convenient to the new railroad lines, which will give these a setback, but the western optimism is protably enough to carry them over any obstacle. It is cer-tainly different from conditions here in Ontario, where many towns are smaller, or at any rate no larger, than

hey were 45 or 50 years ago. "The whole trip was well worth the while of anyone and I wouldn't have missed it for a good deal. Everything seems to work like clockwork, and we could not possibly have had better treatment than we received at the hands of the various railroad officials, who spared neither time nor expense to make the trip comfortable and enjoyable.

"From Edmonton back to Winnipeg we traveled over the new Grand Trunk. Pacific line, and we found it to be a superb road, considering that it is only two years old. Of course so new a railroad could not be expected to be quite as smooth as the C.P.R., but the trains run just as fast, and the equipment is perfect."

Autos Are Numerous. "One thing that struck me," said Mr. Meighan of Industrial Canada, "is in the west. Saskatoon, with 12,000 o a population, has 350 automobiles, while Vancouver has over 800. Everywhere we went there were sufficient motors at our disposal to take all the party which usually numbered around 200,

to 4000 ounce ore and averages two to four inches, bulging, out wider in places. Within the last three days, an eight inch calcite vein has been found near Spawning Lake, and has been traced 1400 feet with silver all the way. The La Hoop, after working three years without finding anything, were closing down thoroly discouraged, when last week a five inch calcite lead

and rich ore came in. They have opened it up along 300 feet.

The Moose Horn has struck a pocket of ore from which they will be able to make a shipment, and the Devitn struck a rich chute in the shaft at 198 feet which is not in the shaft at which they were not anticipating.
The Murray Silver Mines at Hubert

Lake have recently discovered a seven inch calcite lead carrying wire silver for several hundred feet, which is shot

being got out. It takes money to get out ore and this will take time to get. After sinking twenty feet, the prospector cannot haul his rock up without a hoist and machinery, and every

Montreal Live Stock.

MONTREAL, Oct. 2.—(Special.)—At the Montreal Stock Yards West End Market receipts were 2500 cattle, 2270 sheep and lambs, 2000 hogs and 250 calves. The supply this morning amounted to 1200 cattle, 1325 sheep and lambs, 1330 hogs and 250 calves. Owing to the continued liberal complete of particularly and particle complete. calves. Owing to the continued liberal supplies of northwest ranch cattle.coupled with fair receipts from Ontario and Quebec points, prices show a dec ine of 4c to 14c per pound. The demand was fairly good on account of favorable weather for keeping stock. A few very choice Ontariosteers sold at 6c to 54c, but the bulk of the trade in choice stock was done at 55c to 54c; good at 5c to 54c; fairly good at 44c to 44c, and common at 34c to 34c per pound. There were quite a number of bulls on the market, which sold at 34c to 34c per pound. Another feature was the weaker feeling for hogs, and prices show a decline of 30c to 25c per cwt., attributed to more liberal offerings, and in sympathy with a recent offerings, and in sympathy with a recent decline in Toronto market. A fairly ac-tive trade was done, and sales of selected lots were made at \$9 to \$9.15.

Supplies of sheep and lambs were fairly large, and demand good. Sheep sold at \$40 to 4c, and lambs at 5½c to 6c per pound. Calves were scarce, and prices are steadily tending towards a higher level. Sales of good to choice stock were

Right of Way the Strong Point In a Big Upward Movement

Scarcity of Mining Stocks Responsible For an Extended Advance - Undertone is Strong

> World Office, Monday Evening, Oct. 3.

There was an apparent scarcity of stocks on offer in the mining markets to-day, and rapid advances were made in various instances in the securities most favored in the dealings. Trading was on a large scale, the markets being more active than for some little time, the day's sales running over 200,000 shares on the Standard Exchange alone.

The undertone thruout was remarkably strong, and as the floating suppty of securities was limited, purchasers had to bid up prices to pick up what they wanted. Brokers held large orders for most of the active issues, and as little disposition to realize developed, the gains were held right up to the close.

Little Nipissing was the most heavily traded in stock, and the price for the shares was up two points at the high figures, while at the close the bid quotations were only fractionally below the top.

Right of Way demonstrated a re-Right of Way demonstrated a remarkably huoyant tendency, registering a net advance of four points at 30. There was only a scant supply of the shares in the market, however, and the price jumped rapidly when traders tried to fill their orders.

Gains were also recorded by such stocks as Hargrave, which advanced a point, and by Cobalt Lake, Chambers-Ferland and Peterson Lake. Beaver and Timiskaming were strong, but

The market thruout was in the throes of a strenuous bull movement, while speculation showed signs of running wild at certain intervals. A broad public interest was taken in transactions, while the buying which light the archange shawed no perflooded the exchanges showed no per-ceptible signs of diminution at any Toronto Stock Exchange Unlisted Se-

nection with any of the mining proper-ties to account for the bidding-up of prices. The public have evidently be-come seized with the idea that values of Cobalt stocks are still ridiculously day's heavy buying was done.

RIGHT OF WAY ADVANCES.

The advance in Right of Way in pany has been a consistent dividend payer for several years, and even at the present prices still yields over 25 per cent. to shareholders. The company in addition to their old mine, now control a large acreage adjoining the Hargrave, and on which a good strike of ore has been made within the past few days.

The former level, 200 feet, showed silver values running from a trace up to 2600 ounces, the largest body of ore running about 500 ounces. No ore of importance has been saved, however, as everything was thrown on the dump. About 1200 feet of drifting and cross-cutting was done on the 200 foot level, and the principal veins were located. long to complete now and it will be pushed as fast as possible. During the sinking of the shaft for the first 180 feet we struck a great many rich specimens of ore running from 500 to 5000 ounces to the ton. Our consulting engineer would not waste the money necessary to develop these "pockets," claiming that we could not expect to find permanent values until we got below the 250 foot level. Accordingly, we have just completed sinking the shaft to the 300 foot level, as stated above, and will now go after the

Speaking generally, it can be said that we have the best surface showing For two months we have consistently advised the buying of Cobalt stocks. Many clients followed our advices and now have substatulal profits to their countries. We have not changed our views on the market, and are still advising in Southeast Coleman, and all precedents show that we should get large amounts of high grade ore. This, I confidently expect, we will do shortly. As to the effect of a "strike" in Ophir stock, all Toronto brokers know very strongly the stock is held, and the strike at the 85 foot level of 6900 ounce ore put the stock to \$1.75.

World Office, Monday Evening, Oct. 3. While a certain amount of lassitude pervaded the Toronto Stock Exchange to-day, there was a feeling among traders that the settlement in prices, which started a week ago, is drawing

near a conclusion.

The downfall in prices on the Montreal exchange has had a reflex action on dealings in this market which has brought about a period of caution.

CHICAGO, Oct. 2.-Railroad managers, especially representatives of eastern roads, find much encouragement in the open declaration of President Shedd of Marshall Field & Co.. that general prosperity awaits reasonable rate concessions to carriers. Mr. Shedd's statement follows:

"Things which usually bring prosperity are in excellent condition, with one qualification, which is whether railroads are going to be allowed to earn remunerative rates of If commerce commission is wise enough to let the great common carriers do this, there will be a great general prosperity to all people."

urday, but soon settled down into its regular gait and proceeded to? advane thruout the list. The announcement that the railroad rate increase would again be deferred until Jan. I had a depressing effect in the afternoon trading, causing a shading of prices of 1-2 a point or so. General business thruout the country is in ratisfactory condition and volume, outside of a few lines, but everywhere there is an absence of speculation both in merchandise as well as in securities. REST CURE HAS BEEN BENEFICIAL.

World Office

Monday Evening, Oct. 3.

A short rest cure is proving beneficial to the Toronto stock market.

If anything has been demonstrated the last few days, it is that the If anything has been demonstrated the last few days, it is that the supply of stocks is sparse at present prices. Speculation took fright when Montreal promised developments, and it has taken a short while to restore confidence. Wall-street buoyancy to-day drew attention to the local market, and its possibilities, and there is likely to be another influx of both investment and speculative buying. The position is such that the volume of floating securities can be much increased without danger or difficulty, and with this facility it will be unusual if advantage is not taken of this knowledge.

COTTON GOSSIP.

Erickson Perkins & Co. had the follow-Notice is hereby given that a dividend of one and three-quarters per cent, being at the close;

New high levels were established during to-day's session, the highest point being 14.44 for the May option, reached on a spurt of bullish activity, following the publication of the October condition report. Outside interests continued to add to their lines, and, altho there was very heavy realizing after the report, selling was well absorbed at a concession, and the closing tone was firm. Statisticians vary materially in their estimates of the season's yield, some figuring a fair-sized crop, owing to the acreage increase and 7.7 percent, improvement in condition, as compared with last year, while others base their low estimates on a yield per acrelittle better than that of 1939. There is little doubt but that the general public are re-entering the market on a large scale, ng at the close; New high levels were established during
