CUTTING DELAYED WEEK BY COLD AND RAIN

Torrential Storms All Thru Saskatchewan Past Few Days — It Will Be Monday Before Manitoba Can Resume Harvesting — Alberta Also Held Back.

WINNIPEG, Aug. 29.—(Special.)—With the sky overcast and the barometer steadily falling, very little progress is being made with harvesting operations in the three prairie provinces.

Reports from Edmonton state that the harvesting of the biggest crop on record is at a standstill thru heavy rains. In this district, with about 15 per cent. of the crop cut, a feeling of uneasiness is occasioned this week by rains which began Monday night and only now show signs of abating.

General harvesting is delayed a week. No damage from frost or rust is reported in the Calgary district. Rain has interfered with operations for the past three days, but with 50 per cent. of the crop cut, little anxiety is felt.

Lethbridge reports cold weather for the past few days with no signs of frost, and harvesting going on apace. At High River, it is reported, both yesterday and to-day, but no damage has been done. The crop is a little on the green side, but harvesting is being proceeded with in places.

The whole Province of Saskatchewan appears to have been visited with almost torrential rains during the past few days, and harvesting is therefore at a standstill, the little that has been done today. In the Saskatoon district about 25 per cent. of the crop is out, with but a few favored farms being able to proceed with the harvesting.

Manitoba has fared no better than her sister provinces, rain being recorded all over the province, putting a stop to all harvesting. In some districts a few hours' sunshine will enable the farmers to begin again, but generally speaking it will be Monday before the bulk of farmers will be able to harvest.

Other Treaties Will Be Broken If U.S. Will Not Arbitrate

Americans Are Figuring Out Their Loopholes of Escape From Observance of Pledges Made Regarding Panama Canal Regulations—Take Some Time for Government To Develop Position.

WASHINGTON, Aug. 29.—(Can. Press.)—Although the state department will authorize no statement to that effect, it is understood here that the administration will decline to permit the question of the right of the United States to relieve its own shipping from tolls in the Panama Canal to go to arbitration. This position of the government, it is said, may not be developed fully for some time.

While the British protest delivered yesterday clearly intimated a purpose to demand an arbitral decision in the event that a more careful study of the Panama Canal Toll Act bore out the impression conveyed by the first reading, that it is in violation of the Hay-Pauncefote treaty if the usual course in diplomatic exchange is followed, there must be many arguments and counter-arguments submitted on both sides before the resources of diplomacy would be exhausted, this warning a demand for arbitration. The British demand for such rests upon the broad basis of two special treaties between America and Great Britain, in addition to the great general convention treating the Hague Tribunal, and binding all other parties to adjust their disputes by recourse to its methods.

The first of these treaties, the Hay-Pauncefote treaty, in its third article, declares that there shall be no discrimination against any of the nations obeying the rules of the canal, and in its fourth article asserts that no change of territorial sovereignty shall affect the obligations of America and Great Britain under the treaty. A second special treaty, that made between the then Secretary Root and Ambassador Bryce, four years ago, binds each country to submit to the Hague Tribunal any difference that may arise relating to the interpretation of treaties, provided that they do not affect the vital interests, the independence, or the honor of the parties. On its face, a British demand for arbitration on such a basis, is generally regarded as the sound and generally accepted position.

From the American viewpoint there are many loopholes for escape from the British contention, and these may be expected to develop in the negotiations. In the first place, it may be contended that admission of American coastwise traffic to free passage in the canal, constitutes no actual discrimination against British shipping. Exempting law permits no foreign boats to transport American coastwise commerce, and British vessels could not be employed to carry goods from New York to San Francisco thru the Panama Canal even if they were completely relieved from tolls, as will be the American coastwise trade. Thus, it is argued, it cannot be claimed that British commerce is affected one way or another by this favored treatment of American ships.

Another American argument is that owing to the acquisition by America of sovereignty over the canal zone, the Hay-Pauncefote treaty no longer applies to it, that convention being itself voidable under the well recognized principle of international law, which makes a treaty's life depend upon the continuance of the conditions upon which it is made. Back of this contention, however, lies the danger of the loss of the whole neutralization feature of the Hay-Pauncefote treaty. A third argument against arbitration in this case is found in the fact admitted in the senate debates, that nowhere would it be possible to secure unbiased arbitrators, because every maritime country finds its interests in opposition to the American contention of a right of discrimination in the use of the canal.

The avenue of escape, if the United States really desires to avoid arbitration, is to be found in the declaration in article two of the Root-Bryce arbitration treaty of 1908, which affords an opportunity to the United States to take a hand in the settlement of such disputes. That article makes it a prerequisite to actual arbitration that both sides "shall conclude a special agreement defining clearly the matter in dispute," and this must be approved by the senate. So that if that body takes the same view next winter of the presidential hand of America in the use of the canal, as it did last session, it may prevent arbitration by declining to accept any "special agreement" satisfactory to Great Britain.

Members of the government now in Ottawa are fully cognizant of the situation, and it is a practical certainty that the application will not be sanctioned if the company insists on giving its shareholders the customary advance. Everything indicates that the matter will be referred to parliament for full and free discussion. The government is not called upon to sanction the stock increase until the proposed meeting of the shareholders which is scheduled for October first. At that time the cabinet council will be busily engaged in evolving the government's naval bill and preparing work for the session. As the C. P. R. application is looked upon as a matter which should be given the full consideration which its grave importance demands, it is felt here that the cabinet will refuse to make any decision, but turn it over to parliament when the house meets, where it can be considered in all its aspects and a conclusion reached which will be fair to all the interests concerned and also to all the people of the west.

AMATEUR SLEUTH ON TRAIL OF CROOKS

New York Exhibition Visitor Thinks He Saw Gyp the Blood and Lefty Louis in Rotunda of Toronto Hotel, and Immediately Started After \$5000 Reward.

Are "Gyp the Blood" and "Lefty Louis" in Toronto. Yesterday afternoon a guest of a local hotel, who hails from New York, said that he was positive that he saw "Gyp" in a local hotel. This man is wise. He knows that there is a \$5000 reward offered for the capture of either of these men and consequently did not immediately go to detective headquarters and say that he had seen either of the men in the city. What he did was to go to a detective in the city, get full information and data relative to the two men and then hurry back to the hotel, where he saw the men that he thought were the two noted New York crooks. One of them was still about the rotunda of the hotel. He shadowed him for a short time, but the man evidently "got wise." In a half hour or so the man had disappeared. He notified a local detective agency and they immediately put out three of their best men on the case. But there was no sign of the wanted one or ones. Every sleuth is on the job live for the two.

Toronto detective headquarters have had more than one communication from New York to be on the lookout for Lefty and Gyp. It is said that the two are in this vicinity. If a local detective captures either man he will be a feather in his cap. The men are the connecting links in the great New York police scandal and Rosenthal murder.

CHAPLIN ESTATE SOON FOR SALE

Property in North Toronto is Now Being Surveyed, and Will Be Put on the Market. The Chaplin estate of about 12 acres is being surveyed and will be placed up for sale in about three weeks. A. C. Jennings & Co., whose office is situated immediately north of the C.P.R. tracks, have the sole handling of this valuable property, which affords special facilities as a residential district and will be known as the Avenue road annex. It will mean the development of the south side of Davisville, which hitherto has been at a standstill, owing to the locking up of this particular property.

Burglars Busy

A burglar attempted to break into the dwelling house of Chas. Birt on Merit street about 11 o'clock on Tuesday night, but on being disturbed he made his escape by way of the belt line. It is thought that he probably was connected with firing the house on the Gibe estate in the early hours of Wednesday evening. Fire Alarm System. The inadequacy of the fire alarm system was discussed at last night's meeting of the fire wardens and light committee. Councillor Lawrence presiding. Engineer James indicated that the cause of complaint would be remedied in a few days, when the new board was installed and in working order.

UNION OF CANADIAN CITIES IS AGAINST C.P.R. STOCK PROPOSAL

Government Might Lose Control of States If Increase Is Granted

Why the representatives of practically every municipality in Canada are opposed to the granting of the C.P.R. stock application: "The charter of the C.P.R. says that the government should retain and exercise control of the freight and passenger rates as soon as the profits reach 10 per cent. per annum on the common stock. This provision up to the present time has been of no benefit to the patrons, for the reason that the company has never admitted that their profits equaled that ten per cent. Now the profits have reached that point where it is impossible to deny it, the government is entitled to control the rates.

"Now in our opinion no permission should be given the C.P.R. to issue new stock or increase its present stock without retaining or securing more effectual control over these rates."

Attendance at Exhibition Yesterday Was 85,000, an Advance of 7000 Over Same Day Last Year — Men Prominent in Industry and Commerce Were Guests.

"We can't help but make that million mark," said Dr. Orr last night when the attendance yesterday was reckoned at about 85,000. In fact, there were so many "six-for-a-dollar" tickets to be tabulated that the counters at 12 o'clock last night had not completed their task. However, it was estimated that 85,000 people passed thru the turnstiles, an advance of 7000 on manufacturers' day last year.

Yesterday was the occasion of the visit of many big men in the industrial world, for it was their day of the exhibition. A number of captains of industries from every city in Canada were entertained by the directors at midday luncheon, after which they were escorted thru the various buildings, which have exhibits of products of every kind and from many countries. Today is press day. Only 60,000 attended on this occasion last year, and if the weather holds as fair as yesterday no doubt another record will be made.

HAD NOT EATEN FOR THREE DAYS

Charles Gallow Was Found Unconscious, Suffering From Starvation, But Recovered in Hospital.

Charles Gallow, 100 East Front street, was picked up at the corner of King and Church streets yesterday evening by Constable Third. Gallow was looking very ill when Third first saw him. By the time the constable had held of him, he was unconscious. He was taken to St. Michael's Hospital, where it was said that he was suffering from starvation. He became conscious about two hours after being taken into the hospital. He said that owing to a run of hard luck, he had not eaten for three days.

Ottawa Sells Four Per Cents at 94

OTTAWA, Aug. 29.—(Can. Press.)—The Bank of Ottawa was the successful tenderer for \$1,041,928.99 City of Ottawa four per cent. bonds, bids for which were opened by the board of control this afternoon, their price of 94 being the highest of four offers received. Other tenderers were the Merchants' Bank of Canada, 92.55; N. W. Harris and Co., Boston, 92.072; Dominion Securities Co., Toronto, 90.955. Last year the city secured 88.55 for its bonds, the drop in price being attributable to the present unsettled state of the money market.

Convention at Windsor Unanimously Passes Resolution

Condemning "Melon" Saying It Would Prevent the Lowering of Traffic Rates

WINDSOR, Aug. 29.—(Can. Press.)—The most important action taken by the Union of Canadian Municipalities at its final session here to-day was the adoption unanimously of the resolution offered by Alderman Joseph Clarke of Edmonton, opposing the application of the Canadian Pacific Railway for permission to increase its capital stock by \$60,000,000. The convention based its opposition to the proposed plan on the grounds that the scheme is for the sole purpose of keeping dividends of the company below the limit at which the Dominion Government would be entitled to exercise control over freight and passenger rates.

The resolution reads as follows: "Whereas upon the incorporation and issuing of a charter to the Canadian Pacific Railway Co. of Canada provision was made that the government should retain and exercise control of the freight and passenger rates as soon as the profits accruing to the said company reach the amount of 10 per cent. per annum on the common stock; and

"Whereas upon the present time this beneficial provision has been of no benefit to the patrons of the said railway company, especially in the western part of Canada, any reduction or contraction in the adjustment of its freight and passenger rates for the reason that the said company has never admitted that its profits equaled ten per cent. per annum on the common stock; and

"Whereas the said company has made application for permission to increase the common stock of the company without in any way retaining the safeguard and equitable provision stipulated by the government of Canada when the provision herein referred to was first inserted, and

"Whereas in the opinion of this convention it would be inequitable, unfair and lacking in sound public policy to give any way of increasing the amount of the company without retaining the provision first stipulated in regard to the control of freight and passenger rates."

"Now, therefore, this convention of the Union of Canadian Municipalities hereby resolves that in our opinion no permission should be given to the Canadian Pacific Railway Company to issue new stock or increase its present stock without retaining the same or more effectual control of freight and passenger rates as is now existing and that steps should be taken at this time to exercise the control retained by the government of Canada upon the issuing of the charter of the said company.

VALVE EXPLODED WORKMAN HURT

Wm. Craig Was Badly Scalded While Firing a Valve at the Consumers' Gas Works.

Wm. Craig of 503 Regent street, a steam fitter at the Consumers' Gas Company, was badly burned last night. He was firing a valve, when it exploded. He was badly burned about the head, neck, face and body. He was taken to the general hospital, and it was said there that his condition was very precarious. Although he is expected to recover, it is thought that he will be badly scarred for the rest of his life.

MUSICIANS BACK BY MONDAY NEXT

Theatre Orchestras and Managers Will Make New Agreement Today, and Men Will Go Back.

The representatives of the striking musicians and the management of Shea's, the Grand, the Star, and the Gayety, the four Toronto theatres now without orchestras, got together yesterday, and as a result of preliminary negotiations entered into, it is expected that a settlement will be arrived at today. The manager of one of these theatres stated to The World last night that should the expected agreement be arrived at the orchestras would start in again on Monday. It is said that these theatres are willing to pay three dollars a week of the five-dollar rise asked, but the present hitch in arrangements is over the demand of the musicians that a stated number, three more than is at present the case, be engaged on each of the orchestras.

LARGEST BANQUET YET FOR RETURNED PREMIER

Function of Conservative Club of Ottawa Will Be Well Attended.

OTTAWA, Aug. 29.—(Special.)—Elaborate preparations are being made here for the welcome to be extended to Premier Borden. The banquet which the Conservative Club will tender him at the Chateau Laurier is expected to be the largest gathering of its kind ever held in the capital. Invitations have been issued to prominent Canadians from the Atlantic to the Pacific, and it is expected that parties in private cars will come all the way from Halifax and Winnipeg. The officers of the club have had enquiries from practically every city and town in the eastern provinces asking that tickets be reserved.

"MELON" GOES TO PARLIAMENT

Cabinet Expected to Refuse to Consider C.P.R. Stock Proposal, and Leave Matter for House to Decide.

OTTAWA, Ont., Aug. 29.—The unmistakable and pronounced opposition of east and west to the proposal of the Canadian Pacific Railway to increase its capital stock by sixty million dollars, without definite assurance that a melon will not be cut, but the stock sold at its full value is having the desired effect.

Members of the government now in Ottawa are fully cognizant of the situation, and it is a practical certainty that the application will not be sanctioned if the company insists on giving its shareholders the customary advance. Everything indicates that the matter will be referred to parliament for full and free discussion. The government is not called upon to sanction the stock increase until the proposed meeting of the shareholders which is scheduled for October first. At that time the cabinet council will be busily engaged in evolving the government's naval bill and preparing work for the session. As the C. P. R. application is looked upon as a matter which should be given the full consideration which its grave importance demands, it is felt here that the cabinet will refuse to make any decision, but turn it over to parliament when the house meets, where it can be considered in all its aspects and a conclusion reached which will be fair to all the interests concerned and also to all the people of the west.

NORWICH NEARLY NORMAL

NORWICH, Eng., Aug. 29.—The weather cleared today and the flood rapidly receding. The electric light and traction systems have been restored, and the pumps in the waterworks are in operation. Business is being resumed, and unless there is a further rainfall normal conditions will soon be restored.

CANADIAN TEST TEAM

Edna Lambert of 157 Spadina avenue, 5 years old, was hit by a motor car yesterday evening on King street, near the corner of Yonge, and suffered such injuries as necessitated her removal to the Western Hospital. Her forehead and left knee were in bad shape. Although suffering much pain, she is getting better and will recover.

STRUCK BY MOTOR CAR

Edna Lambert of 157 Spadina avenue, 5 years old, was hit by a motor car yesterday evening on King street, near the corner of Yonge, and suffered such injuries as necessitated her removal to the Western Hospital. Her forehead and left knee were in bad shape. Although suffering much pain, she is getting better and will recover.

CONDUCTOR IS DEAD

John Lewis Succumbed to Injuries Sustained on Tuesday.

John Lewis, 772 Lansdowne avenue, the local street car conductor who fell from a car at the corner of Dupont and Lansdowne ave. last Tuesday morning, died in Western Hospital yesterday evening at 8 o'clock. An inquest will be opened on his body this afternoon at the morgue.

BOY SCOUTS BROKE CAMP

2000 Boys Scattered to Their Various Home Towns as Far Away as Haileybury, Kingston and Niagara.

Breaking camp yesterday nearly 2000 Boy Scouts have scattered to their various home towns. The tents were dropped simultaneously during the afternoon and the spectacle was witnessed by a large crowd. The scouts began to get things ready for their departure in the early morning and by late last night very few were to be seen on the grounds. All Ontario was represented, troops coming from as far north as Haileybury, east to Kingston, west to Windsor and Sarnia, and south to Niagara. None of the troops attempted to trek home. All boarded trains.

Admittedly the young fellows had the greatest outing of their lives. And every one of them learned something that will be valuable to him. Despite the fact of the three days' sojourn on the grounds of about 2700 of them there was not one case of sickness reported.

Real Canadian Fur Exhibit. After all, there is not anything better in the catalogue than the furs trapped in Canadian territory. Among the world's most popular lines you will find Canadian Mink, Hudson Bay Sable, Silver Fox, Arctic Fox, Marten, Fisher and Ermine. The Dineen Company have a special display of Canadian garments in selected pelts specially arranged for Exhibition visitors. Call at the showrooms, 140 Yonge street. Ask for a new catalogue and price list. Alaska Seal and Pereland Lamb coats in all the new Parisian designs.

Ideal Weather Helps To Swell Exhibition Crowds

MAGNIFICENT SHOW OF HORSES

Creditable Display of Hackneys Before Grand Stand—Many Unaware Harness Races Are Off This Year.

Judging of ponies and breeding classes was over today on the track in front of the grand stand. There was a creditable display of both hackneys and ponies.

In the pony classes, the fields are quite large and in nearly every case they are handled by experienced men.

Hard on the Novelist. The book monthly had the compliment paid her. She is a novelist.

Cornell's Murderer Professor. Cornell University once had a counterpart of the American professor who has confessed a series of burglaries.

A Laborer's Bill of Fare. The aged Sussex laborer of whom E. V. Lucas writes would hardly have been satisfied with one meal a day.

THE DEAF CAN HEAR. If you are deaf or hard of hearing do not fail to send for our new hearing aid.

F. E. LOKE Refracting Optician. Issuer of Marriage Licenses. 159 Yonge St., Toronto

Duke of Connaught Pleased With Fair

"Carry to President Kent, Manager Orr and the directors, my heartiest congratulations on the splendid fair which I have had the pleasure of visiting. It is magnificent."

The above was the farewell message the governor-general sent to the fair management just before he left for Ottawa.

Their royal highnesses thoroughly enjoyed the fair, which is accounted for by the fact that they took every opportunity of attending.

ARCHITECTS CAN BEAUTIFY CITIES

Picture Giving Graphic Idea of How Suburbs of Cities May Be Transformed is Hung at Applied Arts Building

A graphic idea of how picturesque the suburbs of a large city may become by the transforming aid of able landscape architects is shown by the picture in the applied arts building at the exhibition.

The picture so potent in its exposition of the artistic and utilitarian aspects of the new residential city is a model suburb designed by the architect.

BALMY BEACH BOWLING. The draw for the Balmy Beach Bowling tournament was made last evening.

At Balmy Beach Lawn 2 p.m. James Turnbull (K.B.) v. R. J. W. J. H. J. Love (H.P.) v. W. J. Sykes (H.P.)

At Kew Beach Lawn 3 p.m. P. Dawson (Lake) v. S. B. Duffett (H.P.) W. L. Edmonds (B.B.) v. W. Murray (H.P.)

Trade and Commerce Minister Speaks at Manufacturers' Lunch

SADDLE PONIES WERE POPULAR

Roy Nordheimer's Buckskin Was Awarded Silver Medal for Best Saddle Pony—Boy and Girl Riders.

Roy Nordheimer's Buckskin won the silver medal for the best saddle pony at the judging of horses and ponies at the exhibition yesterday afternoon.

Alex. Wilson, riding Major Kilgour's entry, won first prize for boy riders and Beulah Wilson first prize for girl riders.

Best hackney mare, any age—J. D. Dorf, Flint, Mich., Delmon Princess, silver medal.

General Purposes. Single geldings or mares—W. A. Wallace, Willowdale, Fannie; 2. W. A. Wallace, Willowdale, Della; 3. Chas. Galt, East York, Bonnie.

Best hackney mare, any age—J. D. Dorf, Flint, Mich., Delmon Princess, silver medal.

Menu Book. A menu book should be a part of every kitchen equipment. Make out the menu for a week ahead and so avoid the daily recurrence of "What shall we eat to-day?"

Music at the Fair

Members of the Barn Band. 11:30 to 12:30 p.m. Part I. March—Auntie's. Rimmer Overture—Lolly Robbers. Suppe Selection—Grand Duchess. Offenbach Overture—The Merry Widow.

Part II. March—Soldiers Chorus. Gounod Overture—Crown Diamonds. Aubert Selection—Cavalry. Reynolds Selection—Cavalry. Jones Selection—Cavalry. Arr. A. Owen.

Overture—Light Cavalry. Suppe From the Fourth Symphony (The Italian). Andante con moto. Cornet Solo—Goodbye. Tosti Reminiscence of Butterfly. Pizzoni Solo—Fugue. Arr. F. Godfrey.

CLEANLINESS IN THE KITCHEN. Many housekeepers seem to think, "Anything is good enough for the pot and pan," while they should receive the most scrupulous care.

Now, I am very busy about my kitchen. It has been used for frying, for boiling hot soaps, the last in both ways and so the same treatment. They have washed the kitchen dishes.

Anything which has been used for eggs should be washed with warm water. I never wash my eggs with the other kitchen utensils.

Stevenson's Luck. Admiring of Stevenson always remember the gallant struggle of the ship's crew against an incurable disease. Perhaps the most noted incident in his indomitable pluck is given in his life's observation from Hyeres.

WESTERN BOYS GREAT PRIZERS

Mounted Cadets in Musical Ride Before Large Crowds Acquired Themselves Remarkably Well.

Much praise should be heaped upon the mounted cadet corps of Grenfell, Sask., which performed before the grand stand yesterday afternoon.

The first stage in the competition among the imperial cadets in physical drill, general appearance and manual exercises began before the grand stand in the afternoon.

German Crown Prince Writes a Book. The Crown Prince of Germany is publishing a book entitled "My Hunting Diary."

Life in a Scottish country house appealed to the Crown Prince as ideal. "In such a house," he says, "every guest is looked after by the host in a delightful fashion."

Canoning Summer Vegetables. For the canning of string beans, peas, egg plant, squash, lima beans, carrots and parsnips no elaborate preparations are necessary.

Scalloped Squash. Take a good sized summer squash, wash it and cut into small pieces, removing the seeds.

The Vast Possibilities And Great Progress Of Canada's Industries

Commercial Prosperity of the Dominion, Emphasized by Hon. Geo. E. Foster—Question of Export Trade Dealt With by President of the C. M. A.

Canada's vast possibilities and the Dominion's unprecedented industrial progress were portrayed in graphic and colorful terms at the Manufacturers' luncheon at the administration building yesterday. In plain language, the minister of trade and commerce, Geo. E. Foster, Hon. A. E. Kemp and Hon. G. H. G. Foster, president of the Canadian Manufacturers' Association, described the strenuous and Herculean task Canadian captains of industry have in coping with the industrial demands created by the overwhelmingly rapid development of the west, and the natural resources of the Dominion at large.

Industrial Leaders. About 200 leaders of the industrial and commercial life of the Dominion were seated at the tables. President Kent had at his immediate right, Hon. Geo. E. Foster, Hon. A. E. Kemp and George H. G. Foster, M.L.A. To his left sat President Curry of the Canadian Manufacturers' Association, Hon. E. Duff, minister of agriculture for Ontario, Vice-President Gourlay, C.M.A., and W. K. McNaught, M.L.A. After the luncheon, the president of the C.M.A. gave a brief welcome to the guests.

Causes of Satisfaction. President Kent had three causes of satisfaction. First, that so many representative manufacturers were present; second, because of the pervasiveness of good times throughout Canada; and, third, at so many able speakers being among the guests at the luncheon.

As the farmers of the country were believed to hold the balance of electoral power, their vote in the last federal election did not indicate that they believed themselves to be unfairly dealt with by the present tariff, but that it was equitable and reasonable. In a few years, with the development of the west manufacturing centres would grow up, and with that there would be little further complaint made from there about the tariff.

An Optimistic People. "We Canadians," he said "are optimistic people, and we keep our optimism calmly within ourselves, and never explode in telling the rest of the world what we are going to do. We just begin and do it; and the consequence is that if we do not seem to move so fast as some other peoples, we move steadily and surely in the line of progress."

Duty to Country. As minister of trade and commerce, he would venture to make the suggestion that the manufacturers owed a duty, not only to their family, but also to the country, in it and out of it. No manufacturer had a right to go into his factory office and say to himself that he is in the local business and would make no effort to extend it. The steamship line subsidies and the protective system were established in the interests of both the producer and manufacturing interests, and the efforts of the government to secure wider markets, called for a corresponding effort on the part of the manufacturer to meet a foreign demand for Canadian manufactures.

Successful Institution. President Curry, the Canadian Manufacturers' Association considered Canada's national exhibition a wonderful success. He pointed out that the whole Dominion, from Toronto and the west coast to the Atlantic, showed many lines of "made in Canada" goods which were imported a few years ago.

Canada now had a large increase in immigration and was holding her natural increase. This was a fact of which the government should be proud.

At Brown's. At Brown's restaurant tent, at the west entrance of the grounds, the price of the best of the best of the fair grounds. The food is and all appointments are scrupulously clean. The restaurant is in a capacious tent, open to the cool breezes on every side. The price is 25c and 35c.

Entitles bearer to this \$5.00 Illustrated Bible. If presented at the office of this newspaper, together with the stated amount that covers the necessary EXPENSE items of this great distribution—including clerical, printing, packing, express from factory, etc., etc.

MAGNIFICENT ILLUSTRATED BIBLE. Holstein bull, 1-year-old—1. K. R. Marshall, Toronto, Sir Homewood Marsino; 2. Haly Bros., Springfield, Ont., Grace Fayne 2nd; 3. A. C. Hardy, Brockville, Prince of Wales; 4. Haly Bros., Springfield, Ont., Grace Fayne 2nd; 5. T. G. Mitchell, Ont., Logan Schilling.

Holstein bull, senior calf—1. Haly Bros., Springfield, Ont., Grace Fayne 2nd; 2. Haly Bros., Springfield, Ont., Grace Fayne 2nd; 3. Haly Bros., Springfield, Ont., Grace Fayne 2nd; 4. Haly Bros., Springfield, Ont., Grace Fayne 2nd; 5. T. G. Mitchell, Ont., Logan Schilling.

Holstein bull, junior calf—1. Haly Bros., Springfield, Ont., Grace Fayne 2nd; 2. Haly Bros., Springfield, Ont., Grace Fayne 2nd; 3. Haly Bros., Springfield, Ont., Grace Fayne 2nd; 4. Haly Bros., Springfield, Ont., Grace Fayne 2nd; 5. T. G. Mitchell, Ont., Logan Schilling.

The Duke Sends His Heartiest Congratulations on Big Fair

Chalmers

Newest and best motor car exhibit. At the Exhibition.

The picture shows only a table with a lot of automobile parts on it. The real thing is the newest and best motor car exhibit, direct from the Chalmers factory. It's the Chalmers factory brought to you.

You can't go to see the Chalmers factory, so we've brought the factory here. We want you to see it.

At the Fair this week in our exhibit. It's the chance of a lifetime to get behind the scenes and see just how a good motor car is built.

More than 100 of the working parts from a Chalmers car. An interesting and instructive talk by a factory expert.

A pictorial trip through the great Chalmers factory. A Chalmers self-starter in actual operation.

To see this great exhibition and learn—really learn—all about a motor car costs only a little of your time.

Come, whether you own a car or not. Come for your own information. The Chalmers cars are on exhibit at the Automobile & Supply Company's display at the National Fair. Don't fail to see them.

Automobile & Supply Company, Limited 24 Temperance Street, Toronto PHONE MAIN 6824

being eagerly purchased by ladies of refinement, who appreciate a delicate lasting perfume.

See the Glass Blowers. At the Canadian National Exhibition the Midway would not be the Midway without the glass blower's booth.

Onward Fort William. Nowhere on the grounds is there an exhibit which speaks more loudly of progress than that of Fort William.

An Exceptionally Fine Automobile Display. One of the most notable educational exhibits put out on the grounds at the Exhibition by the Automobile Supply Company of Toronto.

Good Meals. During the busiest parts of the day the Chalmers are always a treat to avoid delay in the serving of their patrons.

Empire Fish and Chips. Parkside residents will appreciate with gratification the news that H. B. Wade has opened an Empire Fish and Chip Pavilion at the Exhibition.

A Good Investment. "I feel confident that anyone who has invested in your course," writes one of our students, "should investigate the merits of a home study course in the Canadian Correspondence College, Limited. Call at their office, 15 Toronto street, for full information."

Something new. The Titanic Disaster at the Exhibition. See it on the Midway.

Corson's "Percy Haswell" perfume is being eagerly purchased by ladies of refinement, who appreciate a delicate lasting perfume.

The Siamese Twins

Ignorance and Prejudice are inseparable companions, as closely united as the Siamese Twins. Kill "IGNORANCE" and "PREJUDICE" will die a natural death.

DAVIS' "NOBLEMEN" CIGAR

has done more to remove smokers' Prejudice than any other tobacco discovery in the present Century. "NOBLEMEN" has enlightened the smoker to the fact that he can save 50 per cent., and still get choice Havana leaf and Cuban workmanship.

"NOBLEMEN" pays less duty, that is one reason. Another reason is that "NOBLEMEN" is produced by a firm of "practical cigar makers."

Good materials in the hands of a "master" can but one result, viz., "THE BEST."

"NOBLEMEN" size, 2-for-a-quarter. "FAVETELAS" size, 10c straight. "CONCHA FINA" size, 3 for 25c.

THE PRESS AND THE MELON.

Few newspapers in Canada openly favor the granting of a government license for another melon cutting by the Canadian Pacific Railway Company. The Toronto Mail, The Brockville Times and The Peterboro Times may be said to comprise the list. Some other newspapers are sitting in with the deal by avoiding all reference to it in their columns.

Two or three days after the official announcement about the melon was made, The World, which had from the time of the announcement opposed this \$60,000,000 take-off for the benefit of the English, German, French and American stockholders, at the expense of the Canadian people, already loaded down to the breaking point with extortionate freight rates, called attention to the fact that its five Toronto contemporaries were silent. Since then The Star has declared against the melon; so has The Telegram, and finally The Globe. The News is still under the bed.

The West of the great takes the press is a unit against the melon, including The Port Arthur Times, The Fort William Times-Journal, The Manitoba Free Press, The Winnipeg Tribune, The Winnipeg Telegram, The Winnipeg Post, The Regina Leader, The Regina Province, The Edmonton Bulletin and The Saskatchewan Phoenix. In the east there is a general disposition to urge the government not to do anything behind the back of parliament. And many papers are outspoken in condemning the melon. Principal among these is The Montreal Witness. The Ottawa Free Press and The Kingston Whig are against the melon, but mildly. Many of the Ontario newspapers commend The World and agree with The World's position on this subject. These anti-melon papers include among others The Hamilton Herald, The Sudbury Star, The Huron Expressor and The Berlin News-Record.

The Winnipeg Telegram, which is close to the government, does not seem to be so strong against the melon as the other western newspapers. The Telegram is busy these days telling the western farmers that the government was compelled by law to sanction the recent big bank merger. It condemns the merger but defends the government.

Will it take the position that the government cannot refuse the application of the railway company if certain formalities are complied with?

CIVIC PROGRESS IN THE WEST.

Calgary is about to consider a proposal to change its present system of commission government submitted by the Citizens Progressive League. A mass meeting has been called for Monday evening, September 3, when all citizens have been invited to attend and participate in the proceedings. While the new scheme was keenly debated in the executive committee of the league, it was finally decided to allow all the recommendations made to be voted upon by the mass meeting and whatever the result the discussion of the suggested reforms can hardly fail to stimulate interest in the future government of the city.

Hitherto the commissioners have been chosen by a plebiscite vote, but it is now proposed to conform strictly to the letter of the provincial law, which requires them to be appointed by the council. It is further recommended that the commissioners be increased to four, each to be head of one department, and that the mayor be a member ex-officio and exercise general supervision instead of undertaking the charge of any specific department. This proposal is very much in accord with the system repeatedly outlined and urged by The World as eminently desirable for Toronto.

Calgary is also recommended to adopt the recall, initiative and referendum, the three cardinal requirements for the exercise by the citizens of the democratic principle of direct government. Recall proceedings, it is suggested, should be instituted on a petition signed by 25 per cent. of the votes cast at the immediately preceding election, either for aldermen or for the mayor; the initiative shall become effective on a petition of five per cent. of the votes cast for the mayor; and if the proposed measure is approved by a majority vote it shall become law without reference to the action of the council; the referendum may be compelled by ten per cent. of the majority vote before any measure proposed in the council is fully enacted, and should that measure be negatived by a majority vote it shall not become law. Among other of the proposals are

that the majority term shall be three years, that the ward system be abolished in the election of aldermen and that their term be two years, one-half retiring each year; that broader legislative powers be given the city in purely local affairs, and that all taxes be levied on netted land values. Various other re-administrative reforms are recommended, and as many were opposed in the committee there is likely to be some lively debating over them at the mass meeting. In the main, however, the new scheme follows thoroughly progressive lines and the movement is another indication of the public spirit that animates the rising western communities. That this nothing could be of better augury for their protection from the errors and mistakes that have hampered and are hampering the older municipalities of the east.

PARCEL POST COMING.

On January 1, the United States Government will begin to give something in the way of a parcel post service. It will not be a great deal, but it will be a step in the right direction. The important thing is to get the parcel post service once established; in the nature of things, it must develop, extend and improve.

The compromise measure finally agreed upon by congress and approved by the president, bears the name of Senator Bourne. It materially reduces the domestic rates upon fourth class matter. Today in the United States, as in Canada, there is a flat rate of sixteen cents per pound; the Bourne amendment substitutes therefor a sliding scale of rates, based upon distance, rising from five cents to twelve cents per pound. The weight limit, now four pounds, is increased to eleven pounds.

We think the zone system of rates is a poor device and that the flat rate which has made the postal service so generally successful, should apply to the parcel post. The weight limit of eleven pounds is absurdly low, and should be increased at least tenfold. But, as we have said, the Bourne bill is a beginning and we believe that the parcel post system will rapidly develop in the United States. It may involve expropriating at high prices a good deal of junk now owned by the express companies, but the people of the country will not rest until they get as good a service as that which is found in Great Britain and Germany.

THE GENERAL'S FUNERAL.

Striking and impressive indeed have been the tributes paid to the late general of the Salvation Army. In a very real sense they may be called unparalleled, for they are attributable to nothing but the universal conviction that by the passing of William Booth the world has lost a man consumed with a burning fire for the salvation and temporal uplifting of the whole human race. Blessed more than some inspired of the same spirit, it was given to him to outlive the shadow of misunderstanding, misrepresentation and mistrust. Out of that night he gradually came into the clear light of recognition and appreciation. But the sunshine of popular approval in no way lessened his zeal, it rather quickened it to broader and more earnest activities.

All that was mortal of General Booth was committed to the dust amid the mourning of the mighty city where the army was founded and where centred its world-wide organization. That mourning was echoed wherever the Salvation Army banner flies and not alone by soldiers who own that flag allegiance, but also by all who have some understanding of the evangelist who first hatched it over the dark places of the earth. With General Booth it will not happen that the good he did is interred with his bones. That will remain when the earlier extravagances attending the initiation of his wonderful work become but interesting episodes. These, be it said, were at the most, trivial and yet not without real value. For the opposition they evoked served but to reveal the reality and consistency of the inspiration constraining the heralds of the army gospel. So let the standard-bearers of today keep their faith.

IMPERIAL INVESTMENTS.

Between The News that requires gratitude for the inflow of British capital into Canada, and The Star that denies any cause for gratitude, there may be an intermediate position, and one more reasonable than either. British investors naturally want security and satisfactory interest, and they have doubtless taken the whole world as their field. But it can hardly be denied that they have also recognized the claim of kinship by their free financing not only of Canada, but of all the states that fly the common flag. Canada has obtained advantage from her place within the British Empire, and from the fact that the motherland has been and is at once the banking and offering house of the nations. Even if it is unnecessary to assume a reverential or even grateful attitude toward British capital, ac-

knowledge is at least due British investors for the favor shown imperial securities.

THE BULLDOZING ATTITUDE.

The Brockville Times has lifted up its little voice to protest against the World and other papers attempting to bulldoze the people into accepting hydro-electric power willy-nilly. "People are getting a little rest beneath all this hysterical denunciation," remarks The Times. "We're glad to hear it, for we know the sort of people who are getting restive." The "bulldozing attitude," it avers, "is antagonizing the people." Very true also, but the bulldozing does not come from the friends of hydro-electric power.

It is rather amusing to listen to the "objective" complaints of The Times. The Peterboro Examiner and other anti-hydro papers, when the facts are that the people of Kingston, where all this trouble is centred, voted ten to one to have hydro power, and the council, as the Hamilton council and one or two others did, refused to carry out their wishes, hired a corporation expert, set him a hypothetical set of questions and on the strength of his answers decided to hang a million or \$5,000 worth of needless expenditure round the hydro neck, should the people ever succeed in having their wishes carried out.

A WARNING.

Editor World: If the directorate of the Canadian Pacific Railway wish to dispose of any part of the new issue of stock at a price less than the market price, let the government take it up for the people of Canada. If the government permits, directly or indirectly, this railway to make away with any part of this new issue without the consent of the people's representatives in parliament, thousands of Conservatives like the writer will each claim a lesson that will not be forgotten during this generation.

MONTREAL ASYLUM IS MEDIEVAL

Dr. Charles Noble, Notable Alienist, Who Was Incarcerated There Much Against His Will, Declares Treatment of Inmates is Outrageous and Disgraceful.

MONTREAL, Aug. 29.—(Can. Press.) Dr. Charles R. Noble, the eminent Philadelphia physician who on a technical error in his commitment papers recently secured his release from Vellore Asylum where he had been placed by his relatives, has issued a letter making serious allegations against the management of the institution.

The letter says in part: "Until the present time I have held little concern either the Protestant Hospital for the insane, the character of the treatment which it affords its patients in general, nor of the treatment of patients personally received while detained there. A close prisoner, as was the case in England prior to King John's day, when Magna Charta was wrested from him; and in France, prior to the French revolution, when the Bastille was torn down, I was astounded that in the twentieth century, in Canada, such medical treatment should be inflicted upon an American citizen by the legally appointed medical officer of an institution chartered under the laws of the Province of Quebec. Yet such was the case, and not only was this true, but I was beaten and otherwise assaulted, not once, but repeatedly. In due time this will be sworn to in the proper manner and in due time the proper redress will be sought for those guilty of what I consider to be the most outrageous and illegal mistreatment which has ever befallen a citizen of this country."

"In addition to being a surgeon and a general practitioner, I am a noted alienist. Having been in the institution for many years, I had opportunity to study carefully many individual cases of confined therein, and I saw that more than thirty of them are not insane, and, hence, illegally detained there. From what I saw of the other patients, I am convinced that a large percentage of them are sane. Whether this percentage be 30 per cent. or 35 per cent. is immaterial to me. The asylum, it is illegal to restrain them in their liberty, not to speak of the cruel and inhuman treatment to which they are subjected, which, within my observation, they have been, and doubtless still are, subjected to in my personal judgment."

GALT HORTICULTURAL SHOW WAS UNQUALIFIED SUCCESS

Record Attendance—Children's Gardens Contest Was Novel Feature.

GALT, Aug. 29.—(Special.)—Galt Horticultural Society tonight closed its most successful exhibition in its history with a record attendance and enhanced public interest shown in all its departments. Ever since the opening of the show, the products being sent for exhibition and awards made in accordance with the state of garden and quality of staff grown. The result of the exhibition was most gratifying, and a decided impetus was given to horticulture and agriculture among boys and girls of the town. Judges—W. H. Irving, Woodstock (flowers); F. C. Hart, O.A. (vegetables and fruit); Mrs. Gibson Deans, canned goods.

LOW RATES FOR LABOR DAY VIA CANADIAN PACIFIC RAILWAY.

On account of Labor Day, the Canadian Pacific Railway will issue return tickets at single first-class fare (minimum charge, 25c) between all stations in Canada, Fort Arthur and east, also to Niagara Falls and Buffalo, N.Y., Detroit and Sault Ste. Marie, Mich. Good going Aug. 29 and 30, Sept. 1 and 2. Return limit, Sept. 4, 1912. Full particulars from any C. P. R. agent.

Cruelty to Animals.

Dr. Harris will lecture in the auditorium of the women's building, under the auspices of the Humane Society at 3 o'clock this afternoon, with limelight illustrations, on "The Prevention of Cruelty to Animals." At 4 o'clock the Rosevale Art League will show a series of views.

At Osgoode Hall

Single Court. Before Hon. Sir Giesholme Falconbridge, C.J.

Leas v. Leas and Co., E. Jones for plaintiff; T. J. Agar for defendant. Motion by plaintiff for an injunction restraining the defendants until the trial of the action from using the names "Leas" or "Leas'" in their business or manufacturing pickles, sauces, etc. Stands until September 15. Injunction continued.

Fuller v. Carlick—E. P. Browne for plaintiff; B. H. Ardagh for defendant. Motion by plaintiff to continue the injunction granted by the chief justice, E. B. C. Cattnach, restraining the defendants from taking further proceedings by distress to recover rent. Stands for one week. Injunction continued.

Wright v. Bailey—J. A. Peterson, K.C., for plaintiff; A. Singer for defendant. Motion by plaintiff for an injunction restraining the defendants from carrying on business as retail fish dealers at 212 West Queen street or elsewhere in Toronto for ten years. Action having been settled, on consent, it was struck from the docket.

Prithard v. Clark—J. H. Godfrey for plaintiff. Moved to continue injunction restraining defendant until the trial of an action for carrying on a milk business contrary to agreement. Stands by consent for one week. Injunction continued.

Fuller v. Carlick—E. C. H. Cassels for plaintiff; no one for defendant. Motion by plaintiff for an injunction restraining the defendant from carrying on business as a quarry, known as the "Thames Quarry," in St. Mary's, contiguous to plaintiff's property. Injunction granted. Judgment reserved.

Bell Telephone Co. v. Avery—R. McKay, K.C., for plaintiff; G. H. Kilmer, K.C., for defendant. Motion by plaintiff for an injunction restraining the defendant from blasting in the streets of North Bay in close proximity to plaintiff's property. Motion argued and judgment reserved.

Re Robson—B. H. Ardagh for applicant; E. C. Cattnach for official guardian. Motion for payment out of moneys in court. Order made.

Lambton Realty v. Townsend—R. B. Henderson for plaintiff. Moved ex parte for an injunction restraining defendant from destroying the plateau of clay. Injunction granted until September 15. Leave to file additional material.

Judges' Chambers.

Re Margaret Kinley, a supposed lunatic—J. E. White moved for order unsealing Margaret Kinley a person of unsound mind. Order made.

Re Campbellford, Lake Ontario and Western Railway Co. and Wade, J. D. Spence for railway company; J. G. Smith for plaintiff. Motion for judgment in favor of the railway company. Order made.

Re Campbellford, Lake Ontario and Western Railway Co. and Robinson, J. D. Spence for the railway company; J. G. Smith for plaintiff. Motion for judgment in favor of the railway company. Order made.

CHURCH SELLS AT \$400 A FOOT

Northwest Corner of Bloor and Delaware Disposed of by Church of St. Mary's.

The churchwardens of St. Mary's Anglican Church, at a meeting held last night, made arrangements for the sale of 18 feet of the 100 feet occupied by the church at the northwest corner of Bloor street and Delaware avenue. This is to be used for the erection of a new church building at the corner of Northumberland and Westmoreland avenues. The present church building, which is in no way interfered with by the sale of part of the property, is to be used as a Sunday school and parish house after the new church is completed.

QUICK UNLOADING.

A Kissel-Kar three-ton truck rose to an emergency last week that fattened the purse and gladdened the heart of a Rochester contractor, who theretofore was a skeptic regarding motor haulage. The contractor in question had to unload 12 tons of cement within four hours, time or pay demurrage. At 5 o'clock in the afternoon the Kissel-Kar truck undertook the task and at 8:10 in the evening the work was completed. In accomplishing this feat the truck traveled 23 miles and carried an average of six and one-half tons a load.

Need 25,000 Harvesters

WINNIPEG, Aug. 29.—(Can. Press.)—"We are still short 25,000 harvesters to meet the requirements of the west," said J. Bruce Walker, Dominion commissioner of immigration, this morning, "and I am extremely anxious that every effort should be made to obtain them."

"I concede that the harvesters available have been filled to overflowing with a splendid class of workers; but I am afraid that our friends in Ontario have failed to appreciate the urgent needs of the western farmers for this year's crop."

The estimate of 50,000 is not in the slightest exaggerated, not more than 20,000 from Eastern Canada have reached Winnipeg to date. Deputy Minister Harcourt at Edmonton wires me to-day: "There are not enough men for harvest in this province as yet. Advisable get railway companies run more specials." Deputy Minister Mantle of Saskatchewan writes: "Saskatchewan has about one-half of the men required. Strongly advise supplementary excursions." Western farmers are paying \$2 and \$2.50 per day with board for good experienced harvesters. This is 50 per cent. of an increase over the wages of two or three years ago, while the harvesters' expenses have not increased."

An entire building is given over to the display of the proper and intelligent use of gas. The exhibit includes commercial and domestic illuminating, and the use of gas for fuel, industrial purposes, etc.

A look at the various exhibits affords a liberal education in the use of gas, and one that everyone will find worth while. Do not hesitate to enquire the use of appliances whose appearance you are not familiar with.

You will find the exhibit of the Consumers' Gas Company even better than last year. Our display of portable lamps is calling forth many words of admiration, and you may find it a good place to select one for your living-room. There are representatives there who will cheerfully give you any information about the price, terms, etc., of any fixture or appliance on the floor.

MANY CHANGES IN TEACHING STAFF

Principals Are Transferred and Assistants Appointed, While Numerous Other Changes Were Made—To Teach High School Subjects in Night Classes.

The teaching of high school subjects in night classes is to become an established fact. When the matter was taken up before the management committee of the school board yesterday afternoon, it was decided to appoint a committee who would make the necessary arrangements to bring this about.

Wants Accommodation. Trustees Wilcox of Fairbairn School district, No. 15, appeared before the committee with the request that a number of the children of that district be allowed to attend the new Hughes Toronto public school pending the completion of a new school building in the No. 15 district.

Teachers Needed. When the committee took up the matter of transference of teachers, it was brought out that the Toronto public school staff was woefully deficient in both male and female teachers who were qualified to take positions as assistant principals.

Principals Changed. This has led to a general shake-up among school principals. Miss MacKenzie is to be transferred to the principalship of Howard Park School, if the Joseph Workman School, if the recommendations are adopted by the board.

Other Transfers. A number of other transfers were also made as follows: Mr. J. C. Rutherford, teacher in Devon street school, is promoted to the position of principal of Borden street school.

Leave of Absence. Leave of absence was granted the following teachers: Miss Ethel Farrant, York street school, for one year, to attend Macdonald Institute; Miss M. Page, Cottingham street school, for one year, on account of illness.

Granites Defeat Kew Beach. The granites were all up in a game on the final day of the Argot rugby club and senior league for this season will be played at Varsity Stadium, Saturday afternoon.

Girl Was Injured. Kathleen Young Run Over by Team of Horses.

J. Newton is Elected Argo Honorary Coach

Jack Newton has been elected honorary coach of the Argot rugby club and senior league for this season will be played at Varsity Stadium, Saturday afternoon.

English Suffragists to Start Campaign Here

LONDON, Aug. 29.—(C. A. P. Cable.)—A vigorous campaign is promised in Canada on the part of the Women's Suffrage Political Union, which intends to take immediate steps to strengthen the existing organizations throughout the Dominion.

G.N. TO CONNECT WITH REGINA

ST. PAUL, Minn., Aug. 29.—(Can. Press.)—The construction of 22 miles of road from Niobe, N.D., to Portal, on the Canadian border, by the Great Northern Railway, is not for the benefit of the Grand Trunk Pacific, as has been stated, but to give the Great Northern connection into the Saskatchewan country, according to President Gray of the Great Northern, who today said: "The advantage to be gained by the Great Northern will be to give that line a direct connection so that it may extend its activities to Regina."

TORONTO REAL ESTATE RELIABLE INVESTMENTS

Our properties can be bought on easy terms of payment, in these high-class districts, that are building-up and increasing in value rapidly.

The High Cost of Living

THE high cost of living is no longer an academic discussion. It is a hard fact—to you, and me, and everyone of us.

PROPERTY is expensive, rents high, food way up, and practically every article we use costs more than it did a few years ago.

ONE notable exception to the prevailing rule of "more money for the same goods, or less goods for the same money," is due to the people's own progressiveness and public spirit. It proves that when the people set about it they can settle any question right.

THE cost of electricity in the city of Toronto has been cut in half. Hydro-Electric rates of to-day are 50 per cent. lower than the electric rates of a little over a year ago.

THE people own "Hydro"—in fee simple. They don't tax themselves to support it—nor does it have to pay private capital any dividends. It is a monument to the power of co-operation.

AND it is a positive factor in the reduction of the high cost of living. It has cut your light bills in half, and made cheap power available to the manufacturer. It will continue to lower the cost of living in exactly the same measure as it is supported by the users of current. Do your part now—by phoning "Hydro."

### MODEL CITY IS REMOVED

Robins, Limited, Were Forced to Vacate Large Tent Outside of the Exhibition Grounds.

It would seem that the Exhibition authorities and the city fathers are showing the fine pretty close in prohibiting Robins, Limited from exhibiting the Model City—a reproduction of the area of Toronto to date—which Robins, Limited, had prepared especially for the Exposition and recently displayed in a large tent outside the Exhibition gates on Dufferin street. Yesterday Colonel Denison ruled that the exhibit was contrary to a city ordinance and enjoined the Robins, Limited, from its further display.

It seems remarkable that a local company of the magnitude of Robins, Limited, which represents an investment in Toronto of at least \$15,000,000, should be prevented from making an educational exhibit which emphasizes to the greatest degree the importance of Toronto as the leading city of Canada and its remarkable growth in recent years.

When Robins, Limited, found it was impossible to make the exhibit within the confines of the Exhibition grounds, they made arrangements with what they considered the proper authorities for the Model City to be placed as near the Exhibition entrance as seemed practicable. This, in the face of many exhibits of American manufacturers that were given space without hesitation or controversy, within the grounds.

Robins, Limited, would probably have been justified in pursuing the case further and insisting upon recognition of their supposed rights, inasmuch as, before proceeding, they had—as they believe—received the necessary local authority. However, gracefully they accepted the decision of the court and have removed the exhibit and the same is now being shown in the basement of their present offices on Adelaide street.

### Production and the Uses of Arsenic

The production of white arsenic in the United States in 1911 was 3,132 tons, valued at \$2,200, in 1910, according to a report on arsenic by Frank L. Hess, just issued by the United States Geological Survey. The arsenic was obtained as a by-product of smelting operations. This output is much the largest ever made in this country, but owing to the low price and the distance of the smelters from New York, the freight charges absorbed a large proportion of the profit.

During the year, 4,996 tons of white arsenic in metallic arsenic and arsenic sulphides, valued at \$247,222, were imported. Of this amount, 1,821 tons were white arsenic with a value of \$118,348. In addition, 12,191 pounds of Paris green and London purple, valued at \$4,972, were imported. The total production and importation in 1911 of arsenic and all arsenic compounds amounted to 16,256,000 pounds.

The principal uses of arsenic are in glass-making, pigments and in insecticides. The use of Paris green, (ceto-arsenic of copper) in paint is somewhat limited on account of its poisonous quality. As an insecticide, it is used largely by gardeners, orchardists and farmers. If pure, it is comparatively harmless to plant life, owing to its insolubility, but the trioxide is often present in some quantity, and if Paris green is then used it is fatal to plants, especially in dry climates, where it is not soon washed off by rains. Experiments conducted by a number of the State agricultural experiment stations have demonstrated the value of arsenic when combined with lime as an effective spray against insect pests.

A number of arsenic salts and oxides are used medicinally, among them the bromide, iodide, triarsenite, trioxide, sodium arsenate and potassium arsenate. Diarsenide of arsenic, both natural and artificial, is used as a pigment; in calico printing and dyeing; in tanning; and, as it burns with an intense white light, in fireworks. Orpiment, the triarsenide, called also a king's yellow, is used as a paint pigment; as an anticorrosive and in dental work. The trioxide is used in paints; for preserving hides, both for taxidermists and in the leather industry; as an antiseptic and in killing animal pests. Sodium arsenate is used in dyeing with turkey red and in printing fabrics; the arsenate in making soaps for use on skins and hides. Potassium arsenite is used as a reducer for silver in the manufacture of mirrors.

### NEW MARKET MEN HELD FOR FRAUD

Attempted to Defraud C.N.R. by Claiming Compensation for Goods Supposed to Be Lost in Transit.

Charged with conspiring to defraud the Canadian Northern Railway Company, two brothers, Max and William Schellberg, of Pefferlaw and Newmarket, were yesterday committed to the sessions for trial by Magistrate Clay at the county police court. According to the evidence, Max advised Messrs. Suckling and Company, auctioneers of Toronto, that he was returning a quantity of silk bought from them at 20 cents a yard, and requesting them to sell the goods for what they would fetch. The defendants, however, adopted the strange course of enclosing the \$4 yards of silk in a bag of hides consigned to Messrs. Hallam and Co., and a page from that firm's notebooks was produced in court bearing in red ink the memorandum "enclosure, one case of dry goods, to be sent to Suckling and company."

The prosecution, for whom County Crown Attorney Greer appeared, stated that Max claimed compensation from the railway company for goods lost in transit, and signed an affidavit placing the value of the goods at more than four times their real value, even supposing they had been lost. The affidavit goes on to say that the \$4 yards of silk had been sold by defendant Max to his brother William at 24 cents a yard, and that they were lost on their way to the latter. William, the complainant, signed an affidavit corroborating his brother's statement, hence the alleged case of conspiracy.

William, the complainant, signed an affidavit corroborating his brother's statement, hence the alleged case of conspiracy.

Diet for Health in Elizabethan Days. Even as far back as Queen Elizabeth's time, the people of England held views on the subject of diet, remarks The London Lancet, at many vicands now discarded and based their opinions as to the best bills of fare on the writings of Galien, Cardanus and like authorities.

The Elizabethan at his food in an eclectic and philosophic spirit. In a little known work, Thomas Moffett's Health Improvement, the writer exclaims: "I affirm with Galien that a fat and young heifer, kept up a while with dry meat, will prove a convenient, temperate and good nourishment, especially if it be killed after the French fashion, as I saw the Norman butchers kill them in our camp while I lay there, and that flower of chivalry, the Earl of Essex."

The Normans, it appears, inflated the carcass of the cow with wind and then beat it till the meat grew tender, as is done now in the case of veal. But beef is said by this same writer to be a fit food for strong stomachs, but only after the bull has been basted and has died in battle.

"Mutton is generally condemned of all physicians. The flesh of the old hee is not to be eaten, till he hath been basted like a bull to death, and when he is dead you must beat the flesh in the skin after the French fashion, beating a cow." "No brawn, pork or bacon should be eaten without wine."

A certain prejudice seems to have existed against the flesh of red and fallow deer as being too dry and cold. In that age of humoralistic medical theory all food is, indeed, judged according to a fictitious standard. Some meats are held to be heating, others are watery, and the choleric must not eat of the former or the weakly of the latter.

The list of birds that came to table in those days of Shakespeare is enough to stagger the Wild Birds Preservation Society. Thus, Robin redbreasts are esteemed "a light and good meat, and all the little song birds are mentioned as edible. The jay has a bad name. He suffers from falling sickness and convey it to others. The sparrow has an aphrodisiac effect; the wagtail is conducive to the shaking palsy; the curlew is hot and improves."

Fishes, especially the fresh water kind, are recommended on much the same grounds as birds.

New Facts About the Peering of King Edward VII. The publication of a supplement to the dictionary of national biography, containing the first competent memoir of King Edward VII, deserves a place among the events of the year, writes a London correspondent of The New York Evening Post. Its importance depends largely on the fact that the biographer, Sir Sidney Lee, has been able to draw upon first hand information not previously accessible.

The education of a prince can never be an easy problem. But it is scarcely possible to imagine a more foolish than the attempt at its solution that the method actually adopted in the training of the late King, writes the biographer. The prince consort tried to bring up his eldest son as a hothouse plant. As a boy and as a youth the heir of the throne was not allowed the wholesome discipline of a free association with others of his own age. His meetings with companions carefully chosen for him were rigidly supervised. His that natural disinclination to study was further reduced by the narrowness of the curriculum. Its most prominent subject, history, was treated as a matter of mere facts and dates.

Residence at Oxford, so effective in widening the outlook of the average undergraduate, was made practically worthless to the Prince of Wales, owing to the restrictions with which it was fenced about.

Worst of all, the royal purpose to shelter the Prince of Wales from the world was perverted in after he had passed the period of adolescence. He was twenty years of age when his father died. Thereupon Queen Victoria's anxiety for his protection became still more intense. "Abounding in maternal solicitude, she never ceased to think of the Prince of Wales as a boy to whom she owned parental guidance, the more so because he was fatherless. A main effect of his father's death was consequently to place him, in his mother's view, almost in a state of tutelage. She claimed to regulate his actions in almost all relations of life."

### Fountain Pen Special

KEEP HOUSE COOL. Very early in the morning every door and window should be opened to the widest extent for two hours, and then, when the sun is hot, it is shut out by closing the doors and also the windows, except about three inches at the bottom and top.

TO CLEAN PAPER. To make a paste that will clean wall paper, mix a quart of flour with five cents' worth of ammonia and enough water to make a stiff dough, and knead until smooth. Then wipe the paper with the dough, working it so that a clean surface will be presented with every stroke, and the wall paper will look like new.

THE MODEL CITY OF ROBINS LIMITED

which has been one of the striking features of the Toronto Exhibition, while situated outside of the gates (Dufferin entrance), was yesterday decreed by the city authorities as conflicting with a city ordinance.

ESTHER WINS CLASSIC STAKE

Third Was the Best That Baden Could Do in Readville Feature - Grand Circuit Results.

READVILLE, Mass., Aug. 23.-Esther W. won the classic Massachusetts Stake for trotters, which were eligible to the All class last spring, in the Grand Circuit meeting here today, but not until the event had gone five heats.

Esther W. broke away in the third heat, and made every stride a winning one. Baden was hard driven in the home stretch, but was unable to get better than third place.

Baden was forced into third place. Little was thought of the chances of Dorach Medium, which finished second, Oakdale, which finished fourth, was picked before the race as the real opponent.

Borden Leaves Today Defence Detail Follows

LONDON, Aug. 29.-(Can. Press).-The Canadian premier, Robert L. Borden, will leave England tomorrow bound for home.

AMONG LOCAL BARBERS

Statement That Early Closing Bylaw Might Be Quashed on Account of Irregularities in Petition is Emphatically Contradicted by Master Barbers' Association.

War is imminent among the tonsorial artists of this city on account of the report that the barbers' early closing bylaw may be quashed on account of irregularities in the petition. It has been stated that many names of journeymen barbers appeared in it, and that there are some cases of duplication where the former and present proprietors of the same shops both signed.

They declare that the statement that four names on the list given by one of the age forgeries is a downright lie and was manufactured out of whole cloth.

Another point which demonstrates the unimpaired support given to the new legislation is the fact that only when signatures to the petition were being sought.

Another point which demonstrates the unimpaired support given to the new legislation is the fact that only when signatures to the petition were being sought.

"The House Electric" A Contrast in Household Methods

QUITE a difference between the days when grandmother slung the big black pot over the crane in the old-fashioned fireplace, and now, when the modern housewife does her cooking on an electric range.

Toronto Electric Light Co.'s Exhibit The House Electric Industrial Building

It is a fact that electricity owes much of its practical comfort and economy to its practicability for these very purposes. Our demonstration shows also how easy it is to prepare light refreshments, or even a meal, by the aid of the Electric Chafing Dish, Coffee Percolator, Samovar, Toaster, Disc Stove, Griddle or Waffle Iron.

See the Model Dining-Room

With its beautiful furnishings and handsome electrical appointments. Every woman will find something of interest to her in this Exhibit. Don't hesitate to ask questions. Courteous demonstrators will be pleased to show you anything you wish to see, or tell you anything you would like to know.

THE "MOUNTS" STAND FOR BIG, QUICK PROFITS FOR INVESTORS

In naming all our properties we use the word "Mount." In the real estate world it has come to mean high and honest achievement; it is synonymous with success quickly secured. Witness what we have accomplished:—

EASTMOUNT PARK, GLENMOUNT and KINGSMOUNT PARKS,

placed on the market last spring, have since had the Gerrard street car line (which will bring them within twenty-five minutes of Yonge street) almost completed past them. Water, sidewalks, roads, etc., have been promised by the city to be given at an early date.

Let us motor you but over these properties and show you the rapid growth of the East End on broad lines that mean the quick absorption of all good vacant land for high-class residences.

Our office facilities are at the command of our friends from out of town.

OWNERS OF SUCCESSFUL SUBDIVISIONS W. N. McEACHREN & SONS, LIMITED 63 Victoria Street, Toronto

Philosophy Of The Hangman Reminiscence Of Radclive Who Sent Nearly Two Hundred Souls Into Eternity.

In these days when capital punishment is so earnestly discussed, and when the press and pulpit of the land the philosophy of a hangman would doubtless be interesting to many of those who favor the abolition of the death penalty. Radclive was the public executioner for the Dominion of Canada for twenty-one years and during that time sent one hundred and ninety-two souls into eternity. Each one a second after the condemned person's spiritual adviser murmured the words "Deliver us from evil." Nine of these were murderers. He lived in the City of Toronto as a hermit, going to do his "damnable job" as he called it only when he was notified by the department of justice. He was known to few and he scarcely ever left the avenue where he lived. For fifteen years his only company was his aged mother and a dog, his wife having left him shortly after he obtained the title of public executioner. Then his mother left him. The "killer" himself was a finely built, big, burly Englishman who had traveled the world as a sailor, chef and dealer in all sorts of merchandise. He was the son of an English clergyman, well educated and had spent some time in medical college. He was fond of music and flowers and his garden was a noted one for rare specimens. Moreover he was tender hearted and kind to a degree and the children and babies of the neighborhood clung to him and up and down the street. Mothers who would not have it said that they had been seen talking to the "hangman" were glad to allow the children to go with him because they were always safe. He used to say, "I am crazy alright for children and dogs speak to me, but men and women won't."

TWELVE MILES OF LINE BUILT

Elk Lake Branch of T. & N. O. is Nearing Completion, and Will Soon Be Finished.

Announcement was made by the Timiskaming and Northern Ontario Railway yesterday that twelve miles of their Elk Lake branch have now been completed. This new section of the T. & N. O. is to run from Earlton to Elk City, a distance of thirty miles. Eighteen miles of the line is still to be constructed. The line is scheduled to be finished and the first train run over it on December 1. The chief obstacle to be met with is the building of a steel bridge over the Montreal River about ten miles from Elk City. The steel for this is now being shipped up there and an early start is to be made on its construction.

WINDSOR, Aug. 29.—(Can. Press).—William H. Baker, 64, of Picton, Ont., was found dead in his cell in Sandwich Jail last night. About a month ago he was sentenced by Magistrate Leggett to six months in the Central Prison. He was refused admission by Provincial Bailiff Ryan, who stated that Baker had been rejected at Ottawa and other places several times on account of ill health and being unable to work. A jury which was empaneled brought in a verdict of death due to natural causes. They also censured the authorities for sentencing the man to jail when in their opinion he was in ill health.

FLOWER IDEAS. A French combination evolved by a housewife was a basket of pink and blue hydrangeas, with red roses stuck amid them. The basket itself was painted light blue. The handles of baskets for wedding breakfasts, generally of white flowers—sweet peas, pink roses—have tiny bouquets of orange blossoms made of white satin ribbon, tied with many loops of baby ribbon. The flowers are very easily fashioned, or one can use the regular artificial blossoms. The idea is good for any basket centerpiece.

A most attractive centerpiece was a low basket with first a fringe of ferns, then a mass of white flowers and over this fern, like a green mushroom, maiden-hair fern. The white flowers peeping out from under the green cap was a pretty conceit. A hostess stired of one-color schemes flibbed her garden of all the brilliant, flaming flowers therein, and massed them in the center of the table loose, about an oriental brass lamp. She used yellow damask napery and white and gilt china, and called her party a haremlike luncheon. Snapping bonbons came were the favors. A sea-table set against a wall had a

WELLAND MR. EXHIBITION VISITOR

If you are desirous of investing a little money where it will bring you the largest profit, we would advise you to consider the purchase of real estate in the Town of WELLAND

WELLAND is growing more rapidly than any other town in Canada at present. It has nearly THIRTY Factories. It has Seven Railroads. It has the cheapest Electric power in Canada. It has cheap Natural Gas. WELLAND SOUTH is the only high-class residential district close to the Union Station and the large industries at Welland. WELLAND SOUTH lots should make you 100 per cent profit in a short time. Why not call at our office while in town and let us tell you about WELLAND and WELLAND SOUTH?

# Bank of England Rate Raised to 4 p.c.—Stock Markets Quiet

### Odd Amount Bonds

We are offering a number of odd amount bonds to pay the investor from \$500 to \$10,000. Complete particulars gladly furnished upon request.

**Wood, Gundy & Co.**  
Toronto, London, England

### C. P. R. ROSE TWO POINTS IN LONDON

LONDON, Aug. 29.—Money and discount rates were dearer today. The advance in the bank rate depressed British securities slightly on the stock exchange, but consols advanced a quarter of a point in the afternoon. The general settlement was concluded without trouble, but business slackened in the speculative sections. Mining shares showed irregular, and Rubber stocks, Grand Trunk and Mexican rails closed weak. Sao Paulo rails were flat, on the proposals to build a competing line.

American securities were quiet and featureless during the forenoon. Later Canadian Pacific jumped two points, but the rest of the list barely moved. The closing was dull, but steady.

### BANK OF ENGLAND RATE RAISED TO FOUR PER CENT.

LONDON, Aug. 29.—The Bank of England today raised its minimum discount rate to 4 per cent. as a protective measure against the influx of bills. Although the bank is in a strong position to meet the gold exports to Egypt, the increasing number of American and other finance bills being offered made the money market nervously raise its discount rates, thus forcing bills into the Bank of England. This necessitated the raising of the bank rate a month earlier than was the case last year. The independent market, however, brought attention back again to the recent heavy discounting is expected to enable the central institution to make its higher rate effective.

### Money Firmer in Wall Street

NEW YORK, Aug. 29.—The loaning of one million dollars on call at 3 1/2 per cent., the highest rate for some time, and renewal rate of 3 per cent., an advance over the recent level, brought attention back again to the currency situation. Interest in the forthcoming statement of the New York banks was naturally increased.

### CUTS A "MELON"

NEW YORK, Aug. 29.—The directors of the L. & N. at a meeting this afternoon, after the meeting of the stockholders at \$60,000,000 amount now authorized and outstanding and to offer the new stock to shareholders at par. Each stockholder will have the right to subscribe to the additional stock to the extent of 20 per cent. of his holdings. The stock increase is \$12,000,000. The rights will be worth 1/4 a share, based on present price.

### U. S. STEEL ORDERS SHOW GOOD INCREASE

NEW YORK, Aug. 29.—Since the first month orders of U. S. Steel Corporation exceeded production and it is likely that unfilled orders in August will show another increase. When the fact is taken into consideration that orders have been scrutinized very closely to eliminate speculative business and that August is usually a poor month in the matter of incoming business, the showing will be regarded as remarkable by the stock trade. One producer figures that U. S. Steel Corporation and independents now have on books more than ten million tons of unfilled orders.

### MONEY CONDITIONS

Charles Head & Co. to J. E. Osborne: Quiet conditions prevailed in the stock market, this being not at all surprising in view of the impending triennial holiday, which makes for curtailment of trading. The standard issues fluctuated within a narrow range and little in the way of feature developed. More attention is being paid to the money situation, the advance in the Bank of England rate, and both call and time funds are firmer. The banks are losing cash, but speculation is dormant in Wall Street and the enquiry consequently not pressing.

### GOLD COMES TO CANADA

NEW YORK, Aug. 29.—The sum of \$1,000,000 gold was yesterday withdrawn from the sub-treasury for shipment to Canada.

### WEATHER OUTLOOK RULES COTTON PIT

Erickson Perkins & Co. (J. G. Beatty) wired: The market rallied in the early session, but ran into heavy offerings for southern account, causing a net loss for the day. There has been considerable buying by reactionists and shorts during the past few days, which tends to weaken the technical position. The weather is the first bear across the board. Conditions are ideal and point more and more to a bumper crop. This in turn has resulted in a falling off in the spot demand and a large increase in hedge selling. Expect materially lower quotations and advise sales on all strong points.

### HOLIDAY MARKET

Erickson Perkins & Co. (J. G. Beatty) wired: Such selling pressure as there was in stocks ended this morning. In the afternoon there were numerous recoveries, but the trading was quiet and of a holiday sort. Steel was the firm. In anticipation of its selling ex-dividend. The market's action today was on the whole satisfactory. It will probably be of the same professional character tomorrow. The pending double holiday induces many to hold off, although we think that purchases of certain stocks on this morning's setback will turn out profitably.

## FIRMER TREND STRONGER TONE IN MONEY MARKET

### Banks Are Calling Loans in Some Instances, and Interest Rates Are Raised—Toronto Market Quiet

While there has been no evidence of any material stringency up to this time, the raising of rates on call loans during the last few days has plainly evidenced the firmer tendency in the local money market in view of the coming crop movement. Some of the smaller banks have been calling in loans, and local brokers have thereby been forced to seek accommodation elsewhere. Meanwhile, with the exception of one or two of the larger institutions, there is no money available under 6 per cent., and none offering even there. Only the fact that speculation in the Toronto market has been reduced to a very low ebb has prevented this being felt more severely during the last few days.

The Bank of England raised its discount rate to 4 per cent. yesterday and no incident was further reflected in Wall Street by higher call loan rates. The local situation as regards money remained unchanged but in financial circles the incident was regarded as rather significant, the not at all surprising. During the next two months there will be little money available for speculation in Canada and consequently the stock markets are likely to witness no activity of any moment.

The Toronto exchange yesterday price movements were few and far between, with no real features evolved. The traction stocks maintained their recent advance. Rio selling as high as 147 3/4 and closing at 148 bid, exactly on a par with the previous day. Sao Paulo held between 24 1/4 and 24 1/2, with the closing bids at the former figure, a shade off for the session. Toronto Railway held within a quarter of a point and reflected no change at all. The local recessions were shown in City Dairy Common and F. N. Burt. A broken lot of Bell Telephone sold at 150, 8 points below the previous transaction. Automotive Common was off half a point to 51 1/2.

### BELL TELEPHONE DOWN

A block of five shares of Bell Telephone Company sold on the Toronto stock market yesterday at 150, a loss of 8 points from the previous sale. The independent market, however, made the bid quotations were held steady at that level throughout. The shares reached their high price of the present year, 160 early in June, and have been working gradually lower ever since that time. At yesterday's decline they stood level with their record of last May. The high and low for the year to date are as follows: High, 165, June 8; low, 146, Jan. 12.

### STANDARD OIL EARNINGS AT NEW RECORD

There is every indication that the aggregate net earnings of the various Standard Oil Companies in the current year will run very close to \$110,000,000, or \$6,000,000 in excess of the previous high record. Of that amount, perhaps, \$20,000,000 will be used for the construction of refineries, vessels, pipe line extensions, development work, etc., which would leave a balance of \$90,000,000. It has always been the policy of the Standard Oil Companies to add a large percentage of its earnings annually to surplus, and in the current year is not expected that dividends in the aggregate will be anywhere near \$90,000,000 for the full year.

When the U. S. Supreme Court handed down its decree dissolving the Standard Oil Co. of New Jersey was selling in the neighborhood of \$600 a share, comparing with the present quotation of approximately \$110 a share. In other words, there has been an appreciation of \$530 a share. John D. Rockefeller is credited with owning 23 per cent. of the shares of the various Standard Oil Companies so that there has been an appreciation in his holdings alone since dissolution of \$130,000,000.

The dissolution of the Standard Oil Co. has benefited the shareholders in more ways than one, particularly shareholders who are familiar with the earnings and financial status of the various concerns. It has enabled them to market the stocks of the poorer companies, and invest the proceeds in oil shares selling below their respective intrinsic values.

### C. P. R. ASSETS

A C. P. R. circular has been issued by a New York brokerage house, entitled "Hidden Assets the Secret Behind Prolonged Movement in Canadian Pacific." This pamphlet figures the company has unutilized lands worth \$168,000,000, being 11,488,995 acres at \$14.69 per acre, the present average price of western farm lands.

### GOLD COMES TO CANADA

NEW YORK, Aug. 29.—The sum of \$1,000,000 gold was yesterday withdrawn from the sub-treasury for shipment to Canada.

### WEATHER OUTLOOK RULES COTTON PIT

Erickson Perkins & Co. (J. G. Beatty) wired: The market rallied in the early session, but ran into heavy offerings for southern account, causing a net loss for the day. ## NEW YORK LIST MAKES SMALL RECOVERY FROM RECENT DECLINE—MONEY CONDITIONS PARAMOUNT INFLUENCE.

NEW YORK, Aug. 29.—While causing no surprise in well-informed circles, today's advance in the British bank rate doubtless acted as a curb on any immediate resumption of bullish activity. Likewise it served to call attention to what is fast becoming a generally recognized fact, that the international monetary situation must be reckoned with in the developments of the next few months. The 4 per cent. rate is the highest posted since September of last year, but was deemed inevitable inasmuch as London private discounts were from 1-3 to 2-4 per cent. above the bank rate. It is most unusual for the great English institution to raise its discount rate at this particular period, the last previous occasion having been in the panic year of 1907, when the London rate was 4 1/2 per cent. and advanced 1/2 per cent. before the end of the year. In the local market, which was dull and often drooping, call money opened at 2 per cent., but soon rose a fraction to the highest figure in some weeks. Most loans, however, were made at the lower rate. Time accommodations, especially 60 and 90-day terms, were stiffer, with a slight increase of demand. The only time in the course of the session when the stock market showed any degree of animation was in the last hour, some of the standard issues manifesting a firmer tone in connection with the announcement that Louisville and Nashville directors had voted a 20 per cent. increase of stock to be offered at par. A two-point decline in the issue resulted, however, with renewed dullness elsewhere, but final prices in Steel, Union Pacific and Reading were at or near the day's best.

London's own market was slightly depressed by the higher bank rate, which was without effect in Paris and Berlin, where general betterment was reported.

Further irregularity and dullness were shown by the bond market with total sales, but value, of \$1,250,000. United States 7's registered advanced 1/4 per cent. and the coupon 2's declined 1-8 per cent. on call.

### OTAWA BANK CLEARINGS

OTAWA, Aug. 29.—Bank clearings for the week ended August 27th were \$1,615,525, as compared with \$3,609,590 for the corresponding week last year.

### C.P.R. July Net Profits Increase by \$750,000

MONTREAL, Aug. 28.—(Special.)—The gross earnings of the Canadian Pacific Railway for the month of July were \$15,962,359; the working expenses, \$7,904,222; and the net profits, \$4,417,448.

In July last year the net profits were \$3,704,928. The increase is therefore \$750,449.

# 5 Hours Saturday at Simpson's Fall Exhibition

## Men's Suits In a Half-Day Sale

Just before the holiday comes this special lot of handsome well-made suits for men at prices far below their usual cost. The opportunity is also excellent for Exhibition visitors, and will prove a ready introduction to the vast resources of the men's departments.

Suits made from fine English tweeds and worsteds, in fancy stripe designs. Cut single-breasted, three-button style; mohair linings, and tailored by expert workmen. These suits are samples and broken lines cleared from a leading manufacturer, and sold in the regular way at \$16.50, \$18.50, and \$20.00. Saturday Sale price, \$9.95

Men's New Fall Overcoats, marked, put into stock, and ready for your inspection.

For \$10.00—Fall Overcoat, made from a fine English cheviot cloth, in black and Oxford grey. Cut single-breasted, fly-front style. Beautifully tailored. Price \$10.00

For \$12.00—One of the finest Fall-weight Overcoats that we have ever offered at this price. The material is a fine English vicuña cloth in black

and medium shade plain grey; fly-front, single-breasted style; fine linings and silk facing; best workmanship. Price \$12.00

**SALE OF MEN'S WORSTED TROUSERS.** These are excellent English worsted trousers in narrow and wide stripe patterns, in good shade of grey. Best workmanship. Stylish trousers, worth \$3.00. Sale price \$1.89

The store closing at 1 p.m. Saturday, our regular hot dinner will not be served. Cold Lunch from 11 to 1 p.m. Cold Ham, Sliced Tomatoes, Bread and Butter, Ice Cream and Cake. Tea or Coffee. 30 CENTS

## New Fall Millinery

### White and Light Felt Hats for Young Women

A great variety of the best styles in New York Felt Hats will be sold at a price that will make Saturday morning a record day. These hats come in white, pearl, sky, pink, or champagne, and are chic, for the college girl or the young lady leaving town for the holiday. Big variety at \$2.25

## Last Day of the Black Silk Sale

Four wonderful values as a climax in bargain-giving:
