STATE TO FIGHT FOR LOWER FARES

Governor of North Carolina Declines to Submit to Federal Interference With Law.

ASHEVILLE, N. C., July 25.—Those who have been closely following the developments in the clash between the state and federal authorities over the enforcement of the new 2-1-4 cents a mile railroad passenger rate law in this state, regard the situation as being more serious than averted. If one side or the other does not yield, they do not see how a resort to force can much longer be avoided.

In the event that further prosecutions are instituted in the state courts, as Gov. Glenn has said there will be, further writs of habeas corpus will be issued and prisoners discharged by the federal court, as in the case of Wood and Wilson, the two officials of the Southern Railway, United States District Attorney Hollister, who was fined for selling tickets at the old rate and disregarding the new law. Then when the state goes to request these prisoners, with the United States marshal acting under instructions from the federal court to return them, a conflict between armed forces will take place.

Judge Lyon, who is presiding over a term of court in McDowell county, has directed that the grand jury should find more indictments against the Southern Railway, United States District Attorney Hollister, and there is talk of a special term of the United States Court and contempt proceedings against the state authorities.

State to Pile Up Fines.—The state has ready a plan of procedure intended to balk any effort of the United States Court forbidding the enforcement of the railroad rate law. It will proceed in many cases, and in such cases so enormous will be the total of these fines that the railway would find it more profitable to pay than to fight. In the event that the railway should be found guilty, the United States Supreme Court.

FALLS 5 FLATS AND ISN'T HURT

Little Boy Struck Seyerall Clothes Lines on Way Down and Escapes With a Scratch.

NEW YORK, July 25.—After falling from the roof of the five-story building, No. 10 Pitt-street, last evening, Harry Nicholas, nine years old, picked himself up and ran upstairs shouting: "Don't cry, mamma, I'm all right—I'm all right." He had only one scratch.

With others the boy was playing on the roof, where his mother was hanging out clothes. A three-foot awning separates the house No. 10 from No. 12. Against the protest of their parents, the boys jumped this many times.

It was while trying to make one of these leaps that the child fell. At the third floor he hit a clothesline, which broke, but also broke his fall. On the first floor another line was in the path of the boy and retarded his descent. He dropped into the yard of No. 12.

Women on the roof restrained the mother from throwing herself off. Shrieking she ran downstairs. On the way she heard her little son's reassuring voice. She glanced over the banister, saw that he was all right and fainted.

The boy was taken to Dr. Masterband, 44 No. 6 Pitt-street, who said beyond a slight abrasion above the eye, he appeared to be all right.

COULD NOT OBTAIN HIS FATHER'S REMAINS

Doctor's Mistake Causes John Collins to Wait 34 Hours for Father's Body

By a lapse on the part of the house physician at the General Hospital, John Collins, G.T.R. watchman at the Pape-avenue crossing, was forced to wait 34 hours for possession of the remains of his father, W. H. Collins, who died in the hospital as a result of injuries received at the Carlaw-avenue subway Tuesday.

The doctor, upon learning of the death, which occurred Wednesday morning at 4:50, was not aware that it was a case for the chief coroner, and, therefore, made no effort to notify the chief official or the police until in conversation with another doctor at the hospital Wednesday afternoon he learned that such action should be taken. He immediately notified the chief coroner's office, but it was then 3:30 o'clock in the afternoon.

C.N.R. 'COMMON' SOON TO GO ON MARKET

Montreal Financials Understand Mackenzie and Mann Will Part With Holdings.

MONTREAL, July 25.—(Special).—It was stated in financial circles today that the common stock of the Canadian Northern Railway Company amounting to \$40,000,000, will be placed on the market at a very early day of whenever the different stock exchanges of the world are in a better condition to absorb new issues.

In the opinion of railway men and financiers the world over the promoters of the C.N.R.—William Mackenzie and D. D. Mann, president and vice-president respectively—have performed wonders in being able to construct their already large system in both Eastern and Western Canada without the issue of any portion of the company's common stock, hence the interest to-day when it was learned that the security was at length to be offered to the public.

It is known that up to the present day Mackenzie and Mann have been the exclusive holders of the Canadian Northern's common stock, and it is not yet known how great a portion of it will now be issued.

It is stated that J. H. Dunn will have charge of the issue in London, and that it will also be listed on the Montreal and Toronto Stock Exchanges in the near future.

NO GARB FOR THE CHILD UNTIL THE 10TH YEAR

Chicago Professor Makes a Somewhat Startling Proposal.

CHICAGO, July 25.—A presentation of the National Child Welfare Society to-day at an international congress was arranged for and the governor-general of the Province of Ontario, President Roosevelt and the governors of the various states bordering on the Great Lakes will be requested to send delegates.

The congress is to make a binding agreement between the United States and the Dominion of Canada regulating the catch of fish in the Great Lakes.

A resolution was passed authorizing such a congress and the sentiment was unanimous that some steps ought to be taken immediately to bring about more cordial and fairer relations between the two governments relative to the fishing industry.

A paper bearing directly on the subject was read this afternoon by A. Kelly Evans of Toronto, who maintained that it was absolutely necessary to regulate the size of commercial fish to prevent a possible prohibition of exports of the food varieties.

Canada is now contributing 85 per cent of the lake fish consumed in London, which is a considerable amount.

There was much speculation as to how far Prof. Starr's theories would be employed in the residential district which will be built upon a cost of more than \$50,000 in the exclusive south side neighborhood.

The agreement aggregates the advisor system, especially affecting the finance department, under Adviser Metaga, who now becomes a Korean official.

It is felt among the well-informed that Japan might have been more exacting in her terms, curtailing even the Korean imperial authority by suggesting the receipt, subject to the approval of the Japanese resident-general, of the avoidance of such a demand, it is believed, was purely out of consideration for the prestige of the Korean court.

The extension of the power of the resident-general so that he may appoint his nominees to responsible positions in the Korean Government is especially welcomed in Japan as it is the surest means of preventing the adoption of any measure hostile to the Japanese or detrimental to the interests of Korea.

LABOR TROUBLES IN JUNE. 41 Existed, an Increase of Eleven Over a Year Ago. OTTAWA, July 25.—(Special).—The total number of trade disputes reported to have been in existence in Canada during June, says The Labor Gazette, was 41, a decrease of eight compared with the previous month, but an increase of 11 compared with June, 1906.

THE LAY OF THE DAY.

FISHERIES CONGRESS TO MAKE AGREEMENT

Earl Grey and President Roosevelt Will Be Asked to Attend.

ERIE, Pa., July 25.—At the closing session of the National Fisheries Society to-day an international congress was arranged for and the governor-general of the Province of Ontario, President Roosevelt and the governors of the various states bordering on the Great Lakes will be requested to send delegates.

RECTOR FORGIVES WIFE WHO ELOPED WITH JAP

Rev. H. C. Robinson Takes Back Woman Whom Slant-Eyed Chesterfield Lured.

SEATTLE, July 25.—Despite the fact that his wife eloped with Y. Sacameta, their Japanese servant, and was arrested in his company in the Japanese quarter, the Rev. H. C. Robinson, rector of St. John's Episcopal Church, has forgiven her. He has signed her bail bond, secured her release from prison and taken her back to his home.

The scandal has almost wrecked the church, in which she was a leading worker. Sacameta was of even more than usual Japanese politeness. It is said it was the manner of the slant-eyed Chesterfield which won Mrs. Robinson's heart and caused her to desert her home.

BIG BLAZE AT OTTAWA LUMBER MILLS IN FLAMES

\$300,000 Loss in Early Morning Conflagration Caused by Lightning.

OTTAWA, July 25.—W. C. Edwards' Planing Mill and Sash and Door Factory in the New Edinburgh section, the factor of the Library Bureau alongside, a mica warehouse owned by the Messrs. Blackburn, No. 6 Fire Hall, the club rooms of W. E. Edwards Company's staff, a large stock of lumber, and several small residences were destroyed by fire, which started by lightning at 5:30 this morning, with a loss of \$300,000, of which \$250,000 falls upon the W. C. Edwards Company.

PLEADING FOR BILL HAYWOOD

Lawyer Darrow Explains Simkins' Hasty Flight and Adams' Silence.

BOISE, Idaho, July 25.—In resuming his address to the Haywood jury to-day, Clarence Darrow, who is having the last word for the defendant, took up a defence of Jack Simkins' flight after the arrest of Orchard. Mr. Darrow was very hoarse, the result of his five hours and forty minutes of speaking yesterday, and he spoke to-day only with the greatest effort.

Mills Forced to Close—Police Complaint of Extra Work. BELFAST, July 25.—Unable to obtain coal as a consequence of the continued strike of the dock laborers here, one of the largest spinning mills in this city shut down to-day.

PROBABLY WHERE THE HIRER MAN WASHED HIS FEET.

A Lindsay correspondent writes: In a small stream a short distance from here the fish perch, bullheads and sunfish have all died and are strewn along the shore. There don't seem to be a fish in the stream. The water is in a peculiar condition. Can you tell me what is the cause?

FRENCH PUBLIC INSISTS THAT MAN BE EXECUTED.

PARIS, July 25.—There is a great and increasing popular clamor for the carrying out of the death sentence imposed last Tuesday upon a man named Sollephant for the murder of a little girl under particularly atrocious circumstances, especially as it has been discovered that the chamber of deputies has passed an appropriation of \$500 for public executions.

At Hanlan's Point.

Acrobatic acts that are new and novel are hard to procure. The Hanlan's Point management certainly is under particular credit in being able to present such feature performers as De Renzo and Ladis, the celebrated European comedy gymnasts. Their performance last night not only made a hit with the children, but amused the grown-up people as well.

Creeds Winding Up.

MONTREAL, July 25.—A judicial order for the liquidation of the Standard Coal Company, of which P. M. Dixon is president, has been granted. The chief item of liability is a note for \$25,000, which has been transferred to S. J. Lehouby by the Sovereign Bank of Canada.

The Toronto World CHILDREN'S HUMANE LEAGUE

The competition on the subject "Canadian Wild Flowers," closes on Saturday July 27. Letters must not be longer than 200 words, and must be plainly signed with name and address of writer.

I wish to become a member of The Toronto World Humane League. Name: Address:

THE WORLD'S HOME MAGAZINE FOR WOMEN Edited by LAURA E. McCULLY, B.A.

New Antiques.

Why is it that so many newly-married couples make the tremendous mistake of adding to a new set of furniture in a brand new house, some piece of dingy mechanism falsely called an heirloom, which is absolutely out of place?

WHAT TO WEAR

One of the most distinguished looking hats seen this year was worn by an American lady staying at a large Toronto hotel. The essential parts were of a perfectly flat, crownless piece of double straw, called by courtesy a hat, but in reality a very different thing.

World Pattern Department

1907—Ladies' Jumper. Slipped on Over the Head. Paris Pattern No. 1901. All Seams Allowed.

This pretty over-sevent appears to be a glorified suspender belt, but it is certainly one of the prettiest of the new jumpers. Equally appropriate for taffetas, pongee, rajah or habutai, it develops beautifully in plaid gingham or in linen or other tub goods.

PERSONAL

On Saturday, July 20, at 9 a.m. in St. Peter's church, Eglar-street, the marriage took place, very quietly, of Mr. Percy Gerard, son of James Gerard, to Miss Nellie McCarton, both of Toronto. Owing to a very recent death in the bride's family there was no reception.

At Toronto Junction, in St. John's Church, the wedding and picnic on Wednesday of Miss Laura A. Aves, second daughter of Mr. and Mrs. A. A. Aves, to Mr. J. A. Aves, senior lieutenant in the 4th regiment, Hamilton, Ont. The ceremony was performed by Rev. C. Laker at the summer home of Mr. and Mrs. A. A. Aves, near the falls of the Niagara.

At Lorne Park on Wednesday afternoon, the marriage took place of Miss Lillie C. Moore, daughter of Mr. Isaac Moore, of Toronto, to Mr. J. C. Moore, of Toronto. The ceremony was performed by Rev. C. Laker at the summer home of Mr. and Mrs. Isaac Moore, near the falls of the Niagara.

The marriage of Miss Ena McCosh and Mr. Arthur Milligan of Toronto was quietly solemnized at the home of the bride's mother, in Amherst, Mich. The ceremony was performed on Wednesday, July 24, at 2 o'clock, by Rev. G. F. Wilson of Amherst, Mich., and Mrs. Milligan left for a trip to California and the Pacific coast.

"Chicago May's" Penalty. LONDON, July 25.—A woman known as "Chicago May" Churchill and a man named Smith were found guilty to-day of having attempted to murder "Eddie" Guerrin in this city on June 15. Smith was sentenced to penal servitude for life, and the Churchill woman was given fifteen years penal servitude.

Wagon Road to Larder. A. W. Campbell, deputy minister of public works, left last night for Larder Lake, to inspect the wagon road being built from Boston, a distance of 25 miles.

Fletcher's Body Found. The body of Thomas Fletcher of Springfield, who was drowned recently in the Abitibi River, was buried at McDougall's Chutes.

Make the Children Happy.

Orison Sweet Marden in Success Magazines: We have all seen children who have had no childhood. The fun-loving element has been crushed out of them. They have become morose and forbidden to do this and that so long that they have lost the faculty of having a good time.

The Modern Gladiator.

Two young people had just boarded the car for Scarborough Beach park. Their talk fell naturally on Oscar Babcock, who had been in the business of the young couple left immediately for a honeymoon trip to Julian Park, Stony Lake, which was his idea. His bride and groom returned they will reside at 243 Albany-avenue.

Children should be kept children just as long as possible. What has responsibility, seriousness, or sadness to do with childhood? We always feel indignant, as well as sad, when we see evidences of maturity, over-education, or anxiety, in a child's face, for we know some one has sinned somewhere.

At Toronto Junction, in St. John's Church, the wedding and picnic on Wednesday of Miss Laura A. Aves, second daughter of Mr. and Mrs. A. A. Aves, to Mr. J. A. Aves, senior lieutenant in the 4th regiment, Hamilton, Ont. The ceremony was performed by Rev. C. Laker at the summer home of Mr. and Mrs. A. A. Aves, near the falls of the Niagara.

One of the most unfortunate things which befall a child is to be over-protected, and to be kept in a sort of a glass case, where he is shielded from all the vicissitudes of life. The child should be encouraged to laugh and to play and to romp to their hearts' content. The serious and the solemn should only come into play when we may to prolong childhood.

At Lorne Park on Wednesday afternoon, the marriage took place of Miss Lillie C. Moore, daughter of Mr. Isaac Moore, of Toronto, to Mr. J. C. Moore, of Toronto. The ceremony was performed by Rev. C. Laker at the summer home of Mr. and Mrs. Isaac Moore, near the falls of the Niagara.

Recipes.

A New Sandwich.

In the August Woman's Home Companion Fannie Merritt Farnham, an authority on cooking, gives the following recipe for a new sandwich.

Summer Complaint.

One of the Commonest and Most Dangerous of Diseases.

Everyone Should be Prepared for it with a Bottle of Dr. Fowler's Extract of Wild Strawberry.

Very few people escape an attack of Summer Complaint. It may be slight, or it may be severe, but nearly everyone is liable to it.

Let it go for a day or two only, and see how weak and prostrated it will leave you.

There is only one safe way to cure it, and that is by Dr. Fowler's Extract of Wild Strawberry. It has been proved and tried so you are not experimenting when you buy it.

Do not accept a substitute or imitation, as many of these are positively dangerous to life and health. Insist on having Dr. Fowler's.

Mrs. Norman H. Eisau, Ship Harbor, N.S., writes: "Last summer my baby was very bad with Summer Complaint. I tried most everything for him, but nothing seemed to help. One day a light came in and told me to try Dr. Fowler's Extract of Wild Strawberry, so I got a bottle and after a few doses my baby was cured. I shall always keep it in the house."

Divorced in Detroit. On July 24 a decree of divorce was granted Mrs. Margaret E. Patrick from her husband, Alexander Patrick, by a Wayne circuit court in chancery.

For Freckles. A lotion of one part Jamaica rum to two parts lemon juice and a little glycerine is said to be good.

ARE YOU IN THE RUT?

IF YOU ARE NOT, WE HAVE A GOOD JOB OPEN FOR YOU

What kind of a man are you? Has your teaching been at fault or are you familiar with all the new loose leaf systems and modern office devices which are used by up-to-date business houses?

The directors of Business Systems, Limited, who are closely in touch with business houses all over the country where modern methods have been installed, are continually being asked to recommend competent office men.

This gave them an idea, and the result is that arrangements were made for the opening of Business Systems Commercial School.

Business Systems Commercial School teaches practical methods such as are actually in use in commercial houses, instructing only by expert teachers who have had practical business experience and aiming at the highest standards of education.

Business Systems Commercial School teaches retail as well as wholesale business methods, and for those now occupying positions and who desire to improve themselves, there are special night courses.

Inasmuch as the directors of the school are now in demand by the largest business houses in the country, to devise new systems and improve present accounting methods, every student has an opportunity to thoroughly acquaint himself with the latest improved systems and most modern office devices.

By this it is not meant that the work of Business Systems Commercial School is confined to the forms manufactured by Business Systems, Limited. The course includes all modern accounting ideas, going into the matter so thoroughly that every graduate is capable of filling the best positions.

And the men who fill the best positions are the men who draw the largest salaries. Is that the kind of a position you want to fit yourself for, and is that the kind of salary you want to draw? If so, write for further particulars and booklet on the courses. Fall term begins Tuesday, September 3rd.

BUSINESS SYSTEMS COMMERCIAL SCHOOL

SECOND BROTHER HANGS.

Had Murdered Wife and Niece to Save \$6 a Week.

TOWANDA, Pa., July 25.—Charles Johnson, convicted of the murder of his sister-in-law, Mrs. Bigler Johnson, and her niece, Anna Benjamin, nearly three years ago, was hanged in the jail here to-day. The drop fell almost at the same minute his brother Bigler was executed for the same crime two years ago to-day.

VOLCANOES FORM ISLAND.

Two Weeks Ago a Disturbance in the South Seas, and the Result.

SYDNEY, N.S.W., July 25.—Reports from the Tonga island, in the Fiji group, say that seven columns of volcanic eruptions were visible at sea for two weeks recently from the island of Tongatabu, within an area of two miles. The eruptions have been accompanied by a continuous roaring noise and frequent explosions. Black pumice stones in large quantities were thrown as far as Nukualofa, the capital of Tongatabu, a distance of 30 miles.

WILL BE BIG HARVEST.

Gratifying Message From Indian Head Received in Toronto.

"Prospects fine for a big harvest." This was the gratifying message received yesterday by H. S. Pooler, Toronto from R. Taylor & Co., a prominent business firm of Indian Head.

New Books at the Library.

Harcourt, His Grace the Steward and Trial of Peers; Novel inquiry into a Special Branch of Constitutional Government; Gamon, The London Police Court, To-day and To-morrow; Macpherson, Charles James Fox, Commentaries on His Life and Character; by Walter Savage Landor; Sir James Stephen, Essays in Ecclesiastical Biography; 2 Vols.; Countess of Huntingdon and Her Circle, by Sarah Tylter; Howells, Thru the Eye of the Needle; Mott, To the Credit of the Sea; Gorky, Mother; Gibbons, Those Black Diamond Men; Adams, Harper's Outdoor Book for Boys.

Mr. Norris's Thanks.

E. J. C. Norris of 9 Oriole-avenue, Centre Island, takes this means of thanking all those who volunteered their assistance to the island fire chief and the Goodwins of the first tug Nellie. By extinguishing the fire on his premises on Saturday last, Mr. Norris cannot speak too highly of the efficient manner in which the fire was handled by the Goodwins and the firemen stationed at the island.

Uprising in the Congo.

BRUSSELS, July 25.—Mail advices from the Congo state that an officer and nine native militiamen have been killed by the natives, and that in French Congo a missionary has been slain in the interior, where the native soldiers are rising against the whites.

Desperate Coughs. Dangerous coughs. Extremely perilous coughs. Coughs that rasp and tear the throat and lungs. Coughs that shake the whole body. You need a regular medicine, a doctor's medicine, for such a cough. Ask your doctor about Ayer's Cherry Pectoral for these severe cases.

DREAMER AT 15 TO 1 WINS TEST HANDICAP

Ben Bao Beats Roseben—Only Two Favorites in Front at Brighton Beach.

NEW YORK, July 25.—Horses belonging to H. B. Dugan won two races at Brighton Beach today, and in each was at a long price. Ben Bao took the third at 7 to 1, and Dreamer the Test handicap at 15 to 1, two favorites won. Summary:

First race, 5 1/2 furlongs—Uncle, 122 (E. Dugan), 3 to 1; 2; Woodlane, 114 (Knapp), 3 to 1; 2; Woodlane, 114 (Nico), 12 to 1; 3. Time 1:06 1/2. Falcade, Emma Carus, 2. Time 1:45 3/4. Falcade, Emma Carus, 2. Time 1:45 3/4. Falcade, Emma Carus, 2. Time 1:45 3/4.

To-Day's Selections.

Sale of Pine Timber

Notice is hereby given that pursuant to authority of Order-in-Council, tenders will be received by the undersigned for the sale of pine timber on the Township of D'Arcy, McGee, Chevet, Ochrane, Borden and Ganney, near the Town of Chapleau, on the Canadian Pacific Railway, Route No. 12, 2 west of Woman River Station, on Lake Algonquin, south of Windermere Station, all in the District of Algoma, north of Lake Temiskaming, and 6th concessions of the Township of Henwood, in the Georgian Bay of Lake Huron, north of the Town of Parry Sound, in the District of Parry Sound. For conditions, further particulars, maps, etc., apply to the undersigned.

Muskoka Lakes.

The brain-fagged and tired business man, or the man who likes a boat or canoe, goes to the Muskoka region. It is an ideal place for a vacation, and it is just the out-of-the-way sort of a spot which the great mass of hurried summer excursionists like. It is far enough north to be cool in the hottest days of summer, and yet is not too far to be difficult of access. The Grand Trunk express leaves Toronto 11:20 a. m., buffet and dining parlor cars meeting Toronto 2:40 a. m. (sleeper open at 10 p. m.), arriving Muskoka Wharf at 6:25 a. m., connecting with the new steamer Sagamo for points on Muskoka Lakes.

U. of P. Made it a Draw.

DUBLIN, July 25.—A cricket match of two days' duration between the visiting eleven of the University of Pennsylvania and the Dublin University team resulted this afternoon in a draw. Dublin scored 161 runs in the first innings and 158 in the second. Pennsylvania scored 125 runs in the first and 141 in the second for seven wickets.

Irish-Canadians Going to Ottawa.

T. J. Flanagan wired yesterday to William Foran of Ottawa notifying him that he could not send Tom O'Leary, Hilton Green and Lou Marsh down to run Tom O'Leary's team in the Amateur League. O'Leary has been in the city for a week and a half, and would have been seen in action at the Irish-Canadian regatta last night, but he has decided to go to Ottawa late in being forwarded for at least a month.

Toronto People's Train.

The Canadian Northern runs the "Lake Shore Express" for Toronto people. No waiting for American connections. No delay, leaving 10 a. m. and going straight through to the Muskoka Lakes. No delay at Barre, Park and Lake Joseph, arriving hours earlier than other routes. Beaumaris 2:15 p. m., Port Sandfield 3:30 p. m., Royal Muskoka 4:30 p. m., and other points in proportion.

AMERICAN STOCK

THE APPLE SALES
The selling of one's products from the farm is half the battle. A man may raise the good short-horn as ever stood on feet; he may have exact duplicates of Baron's Pride, King Bird or Hamiltonian, yet fail to get a figure for him. Many a breeder has failed in the race because he was a poor salesman.

It is one thing to produce, another thing to prepare or manufacture, and still another proposition to get the consumer to purchase. In mercantile life these different phases of business are entrusted to separate men with their special facilities for work. But on the farm production, manufacture and sale must be conducted by the farmer himself. Thus the successful farmer is, at once, an intelligent producer, a skilful manufacturer and a strenuous salesman.

It is thus that our farm lands are nurtured in the cradle of greatness. They take to all the forms of business as a duck does to water. But the hard knocks they get when up against the astute, polished world make many suspicious and small-minded.

To offset this the farmer must be continually alert to the possibilities of his position and the capabilities of his fertile and healthy brain. Let him not take stones for bread nor sell his blight for a mess of pottage.

In the selling of the apple crop, there is much to learn, and all to gain. Our orchards do not pay us enough, not because they are unproductive, nor we have the apples and the quality. We do not know how to present our product so as to tempt the consumer to pay us a higher price. We are largely hearted enough to let the townsman sell our apples, reap our gold and enjoy himself in his wealth, while we go scratching for a pittance.

Our co-operative societies are doing good work. They are 100 per cent. stronger than last year, and they have produced results that are unanswerable. The case in point on this page shows how one man made \$1 per barrel for his good on his apples last year, in the Oshawa Association. He easily pocketed \$100 that otherwise would have gone into the dealer's pouch. Who deserves that \$100? Is it not the farmer and producer? Let our farmers get into the bandwagon now.

THE FARMSTEAD
Good crops generally.
Keep your apples for the Co-operative.
Harvest comes on apace.
A windbag is useless at the hoe handle.

We are waiting for Ontario women farmers to talk.

Now is the farm advertiser's time to get his work in.

The fall fairs are looming up now in the distance.

It is not too late yet to sow some Hungarian grass for hay purposes.

Read D. A. Graham's ad. from Wanstead. He believes in staying with the game.

Let the farmer recognize his own ability, and promote a healthful spirit for labor and enterprise in the boy.

Congratulations to Mr. C. E. Bain of Taunton, upon his recent enterprise. Long life among your farm peers, sir.

One summer does not make a swallow, nor one farmer with the liver complaint a whole nation of trouble.

D. C. Flett & Son of Millgrove shipped some pure-bred Yorkshires to Pickering.

Persons who know in Ottawa, state that the prices of horses which were ten years ago, are not likely to go down for a very long time to come. The demand for horses during the Boer war and the growing needs of the army were the cause of the rise in values. The continued demand for horses for the Northwest has reduced the number of animals kept for breeding purposes and this has stimulated prices.

There is a meeting of the shareholders of the Markham and Pickering Telephone Co., at Whitevale on Saturday next.

Harvesting barley and wheat has begun in Western Ontario, and the district east of Toronto is coming in fast.

The C. N. R. crop reports look like a good thing for the west again this year.

William Thompson of Lachine Locks, Que., bought a Yorkshire sow from Grasmere Grange, Pickering, this week.

An orchard badly infested with the star shell bark louse stands a poor chance to fight off other pests.

sep a scuffer in the cornfield still. Your corn crop depends on your scuffer.

Hand-picking of the potato bug is a slow business, but it is a sure one, all the same.

The man who does not realize the importance of pure-bred sires and the man that is sure farming does not pay, are a harmonious couple.

The old Scotch adage is timely: "To secure the best success in farming, feed the land before it is sown, and before it is hungry and rest it before it is weary."

Plan to purchase a pure-bred bull and bear of the kind of your choice. There is no surer or quicker way to increase the earning capacity of your farm.

The hired man who has no interest in the farm or the stock he cares for is the poorest piece of machinery on the city man does, and should be sent to the scrap pile without delay.

A light plowing of that old timothy meadow and sowing to buckwheat will break up the sod and afford a green manure well worth the cost.

The World is certainly putting a premium on farm news. The farmer needs his daily paper as much as the city man does, and he should have his news given him.

The emigrant who is honest, capable and wants a chance to grow, might consider the advertisement of the Kinsale Blacksmith & Machine Shop. The farmers there want a live man and will heartily support one.

The farmers are fast getting over the idea that they can make a success by going at everything haphazard. It seems strange that ideas of this nature have only recently found a place in farming pursuits. The most successful farmers in the community are those who do nothing by guesswork. They plan and then work out according to specifications. If they have made a mistake in planning they can improve upon their first efforts while the hit or miss farmer does not know where he began or where he left off, and therefore has to begin all over, and more likely he will make another mistake.

There is a great future ahead for Canadian breeders of pure-bred dairy cattle, says The Dairyman. Already breeders from other countries are coming to Canada to make purchases. The extensive sales of Ayrshire cattle made recently by three representatives of the Japanese Government are a case in point, and it is the case with all breeds of live stock.

Steam plowing in Ontario will yet be an accomplished fact, for many farmers in Central Ontario are beginning to equip as to the cost of operation and the machinery for such.

The oranges in New England have been encouraging the planting of trees along the public highways; while there are objections made to this because of the shading of the adjacent land, many incline to the opinion that the advantages far exceed this. Any farm with a good row of trees along the roadside, and a good grove about the house and other farm buildings, would not only make the place a more desirable home, but would add at least five hundred dollars to the value of the farm.

Are Apple Growers Blind?

Farmers Are Losing Money by Bulk-Selling of Orchards - Co-Operative Societies Are Doubling the Farmers' Returns - Proven by Example.

Reports of the Ontario apple crop are generally good. Nova Scotia also looks to have a bigger yield of her celebrated fruit than for some time. British Columbia, which place has grown in the production of fruit at a marvelous rate, is preparing to send out a good supply of well-packed fruit. The Niagara Peninsula is abandoning the growing of apples for the more profitable work among the smaller fruits.

The Leamington and other Lake Erie districts have lost a valuable chance to market their fruit by lack of attention to the trees, and by carelessness in packing varieties which had to be on the market with despatch and care. The Collingwood district has a little paradise for apple culture and is taking good precaution to ensure the growth of their trees and the packing of the fruit.

Gervais Cornell conceived the idea of apple raising some 20 years ago and planted out a fine orchard that he has kept well cultivated, pruned, sprayed and mulched. He joined the Co-operative Society at Oshawa last year, and he made no more mistakes than his neighbors; his case, then, might be fairly judged as typical.

In 1907 he sold his apples in a lump sum for the orchard to the buyers who came thru from Whitby. Result was \$100 per barrel.

In 1906, he sold by the barrel and got an average of 82 cents from these buyers.

In 1905, he sold them by the "lump" and realized \$1.09 per barrel from these buyers.

In 1904, he entered the Oshawa shipping co-operation. Results were \$1.82 per barrel with a clean up and no apples left on his hands.

In 1907, he expects that the returns will be greater of 1906 and better.

A Worse Experience.

A neighbor has a worse experience at the farm. In 1905, he sold his man's orchard and gave their estimate at 200 barrels. The farmer was no judge and sold for \$175. There were taken by the men, hauling the apples, twelve snow trees were left untouched, numerous piles of refused fruit remaining at home, and an abundance went to neighbors' cellars. No wonder money is being made by the apple men.

The farmer has had the burden of boarding the men, hauling the apples and taking the abuse. No wonder some men are saying that our farmers are fools. It is strong language, but cases in point show some reason for the cognomen.

There is money to be made out of apples, there are hundreds of barrels wasted, while thousands of people are apple hungry.

THE GREEN BUG

May eat up the farmer's oats. Pestilence may walk in darkness and mosquitoes eat up the fisher-folk who patiently sit on the bank of the marshy stream. But—yes that but—well what is it?

But no green bugs suck the sap from the farming pages' want ads. No humming mosquitoes drive the reader from the wants here mentioned. You see wanting stock now; or you want to sell some. Put an ad on these pages at our special cheap rate and see what it will do.

All people who answer these ads should mention The World. Our ads do move, and we want them to send YOU, or we will not ask you to send in your ads. Now sling on the ink please!

FARMS FOR SALE.

ABOUT 100 ACRES, WITHIN EIGHT MILES OF TORONTO, VERY CLOSE TO YONGE STREET. This is a very fine property, and we are offering it at a low price. Rice, Kidney & Co., 16 Victoria-street, Toronto.

Windsor Cheese Salt

—acknowledged by cheese-makers throughout the length and breadth of Canada to be the very best obtainable.

At all grocers—and costs no more than other brands. 100

THE ONTARIO HOG.
The government has been making the dairy industry of ultra-importance for some time. Money, time, energy and science are being spent to build up a dairy herd of profitable cows; milk is being marketed, cheese and butter prepared in first rate condition. The government has encouraged the business, as George Putnam in a recent article in The World has shown.

It is now time to help the hog. The farmer wants information on summer feeding. He wants cheap devices, good summer crops, and better ideas. What is our government doing about the hog?

THE OAT SEED.
The oat crop has proven another failure. It was not the fault of the seed-bred, nor of the cultivation. Weather cannot be blamed. It is true that the green-bug has made its appearance, but there is something else wrong. We want strong, cleaner, more prepotent seed. There is too much mud in the grain. The sticky plant has had a hard siege of it, and the big grain-blowers will carry most of the grain out on to the straw stack if the wind slides are opened up.

The crop has a large place in our farm feeding operations. When we mean business in our seed selection, soil preparation and plant-breeding we will have good oats.

PREPARE FOR PASTURE.
Dwarf Essex rape makes a good fall pasture for sheep, lambs, hogs or young cattle. Many a farmer is short of fall feeding, and a few acres sown to rape, millet, etc. will prove valuable to him this year.

A man often sees a chance to bring in a few sheep, cattle, pigs or horses, upon which he could turn over a nice penny in a short while, but he has no pasture. Sow four pounds to the acre of rape and you can make a profitable return in pork or mutton. The farmer nowadays has to turn his hand to many things. The hustler-leaves the man, who says farming does not pay, away in the rear.

CANADIAN BLUE GRASS.
While the South Ontario Farmers' Institute farm was in session at Arthur Johnson's at Greenwood recently, John D. Howland of Whitby remarked that the Canadian blue grass and the Kentucky blue grass were one and the same specimen, or at least that is what his remarks appeared to us. The grass after a rain, said he, shows up that peculiar blue at its roots.

In answer to a correspondent, The Breeders' Gazette says that the sample enclosed was the "Poa compressa" of the botanist known in the markets as Canadian blue grass. It is quite a near relative of Kentucky blue grass (Poa pratensis), from which it differs in being smaller and more inclined to grow along the ground instead of growing upright. Canadian blue grass is of a lighter green color, often being a bluish-green, instead of a clear green. Moreover, it has a flattened stem instead of a round one. To see this difference cut the stem across squarely and look at the cut end. The difference is greatest in the lower joints, which are usually quite flat in Canadian blue grass and almost exactly round in Kentucky blue grass. As far as the heads are concerned, those of the Canadian blue grass are smaller and narrower than in well grown specimens of the other species. The seed itself is the same in both, being perhaps a little more hairy in the Kentucky blue grass.

This Canadian blue grass is generally regarded as of much less value than the other species on account of its incumbent habit, still it is difficult to cut it for hay. For pasture it is nearly as good, but still it must be regarded as ranking below the famous Kentucky grass.

Canadian blue grass is more hardy when young, and so it is easier to get a good stand of it.

It is always interesting to listen to the discussions of the Canadian natural verdure. Farmers ought to know more about these things.

ONTARIO CROPS
Smut is Bad Near Dunsford—Good Yields Generally.
The Ontario crop situation is good. Hay is turning out better than was expected. It is a good two-thirds crop. The lake shore region from Toronto east is looking fine. Here barley and goose wheat are remarkably heavy, but oats are bad.

Corn is doing well all over the province. The hot weather just what the corn lover wants. Roots are vigorous looking, with no evil in sight.

J. J. Robertson of Dunsford, near Sturgeon Lake, writes The World that the hay is light on old meadows.

"Oats are all right here," says he, "as no green bug has as yet appeared, but in some parts. Our great pest are the grasshoppers, which destroyed many fields last year and are very thick in the meadows now. Some people here say that they are already attacking the oats. Barley is good. Spring wheat is badly affected with smut. Peas are a good crop in prospective."

"The barley in our section," writes Levi Moyer of Springfield, Elgin County, "appears to be free from blight, but oats have suffered badly, more especially in the late sown. The farmers lay the cause to so much frost in June and an over-abundance of rain then followed by the dry, hot weather of this month. Oats, which were sown early, are a good average length in straw, and I believe will be good weight, but late oats are only in the majority of cases, about a foot in length and as red as a fox's tail, and in all probability will be very light in weight. I had occasion on 20th to drive about twenty miles thru the country over various soils, and I noticed that oats on low land are very poor, being hardly worth harvesting, but barley looked fine and will compare favorably with the past two years. Hay is also better than was expected. Wheat, although the Scotch crops are looking fine, well headed and the yield will be good." Scarborough Good.

Mr. Alex. McGowan, M.L.A., reports that Scotch crops are looking fine, with the exception of oats, which are affected with the green bug, and in some cases will not be over half a crop. Goose wheat, barley and roots promise to be very heavy.

INFORMATION FOR FARMERS
Government Will Establish Offices at Several Points.

The Ontario department of agriculture will establish at Galt, Morrisburg, Collingwood, Perth, Essex and Lindsay, in connection with the high school say, at those places, offices in charge of agricultural teachers, where farmers may meet for consultation. The reports and bulletins of the department will be procurable at these offices. Local agricultural societies, horticultural societies, farmers' institutes, women's institutes, and other organizations will be permitted to use them for business purposes. The government has made a special appropriation to meet the expenses of these representatives.

BRITISH FARMERS TO CONFER IN CANADA
The Canadian Associated Press learns that the British Dairy Farmers' Association, which has recently held its conference, will probably hold its next meeting in Canada.

MAJOR CURRIE NOMINATED.
Major J. A. Currie was nominated by North Simcoe Conservatives to contest that riding for the house of commons in opposition to Leighton McCarthy, M.P.

CONCLUSIVE EVIDENCE.
In 1907 he sold his apples in a lump sum for the orchard to the buyers who came thru from Whitby. Result was \$100 per barrel.

In 1906, he sold by the barrel and got an average of 82 cents from these buyers.

In 1905, he sold them by the "lump" and realized \$1.09 per barrel from these buyers.

In 1904, he entered the Oshawa shipping co-operation. Results were \$1.82 per barrel with a clean up and no apples left on his hands.

In 1907, he expects that the returns will be greater of 1906 and better.

A Worse Experience.

A neighbor has a worse experience at the farm. In 1905, he sold his man's orchard and gave their estimate at 200 barrels. The farmer was no judge and sold for \$175. There were taken by the men, hauling the apples, twelve snow trees were left untouched, numerous piles of refused fruit remaining at home, and an abundance went to neighbors' cellars. No wonder money is being made by the apple men.

The farmer has had the burden of boarding the men, hauling the apples and taking the abuse. No wonder some men are saying that our farmers are fools. It is strong language, but cases in point show some reason for the cognomen.

There is money to be made out of apples, there are hundreds of barrels wasted, while thousands of people are apple hungry.

THE CO-OPERATIVE SOCIETIES.
The Co-operative societies are doing a great work and are awakening the farmers to the extent of their yearly losses from poor sales. Individual dealers are doing all they can to discount the work of the association. They tell the farmers that they are throwing their money away by joining such schemes and are at work in other ways to weaken the good work. Yet these same men recognize that the movement is educating the farmer to demand his own. They see their rosy made thousands fading before their eyes, and they are trying to meet the work other ways, by chasing orchards which several buyers have already done, another is to buy the output of the orchard early in the season at a lump sum with money down, so that the farmer bites, thinking he has made a clever sale.

Farmer is Generally Bitten.
But the farmer is generally the loser on the point of estimating yearly his crop, and if keeping the yearly records, has a poor judgment indeed. The apple buyer is out to make money, his estimate is always on the right side, for him.

Rarely does he ever estimate, and treats the farmers' estimate with severity.

Many Orchards Sold.
Many orchards thru Pickering and Whitby townships are reported as already sold to individual professional apple dealers. Prominent farmers "dicker" for a lump sale or a barrel sale. They are getting a very limited way of knowing the situation.

ONTARIO CROPS
Smut is Bad Near Dunsford—Good Yields Generally.
The Ontario crop situation is good. Hay is turning out better than was expected. It is a good two-thirds crop. The lake shore region from Toronto east is looking fine. Here barley and goose wheat are remarkably heavy, but oats are bad.

Corn is doing well all over the province. The hot weather just what the corn lover wants. Roots are vigorous looking, with no evil in sight.

J. J. Robertson of Dunsford, near Sturgeon Lake, writes The World that the hay is light on old meadows.

"Oats are all right here," says he, "as no green bug has as yet appeared, but in some parts. Our great pest are the grasshoppers, which destroyed many fields last year and are very thick in the meadows now. Some people here say that they are already attacking the oats. Barley is good. Spring wheat is badly affected with smut. Peas are a good crop in prospective."

"The barley in our section," writes Levi Moyer of Springfield, Elgin County, "appears to be free from blight, but oats have suffered badly, more especially in the late sown. The farmers lay the cause to so much frost in June and an over-abundance of rain then followed by the dry, hot weather of this month. Oats, which were sown early, are a good average length in straw, and I believe will be good weight, but late oats are only in the majority of cases, about a foot in length and as red as a fox's tail, and in all probability will be very light in weight. I had occasion on 20th to drive about twenty miles thru the country over various soils, and I noticed that oats on low land are very poor, being hardly worth harvesting, but barley looked fine and will compare favorably

INFORMATION FOR FARMERS
Government Will Establish Offices at Several Points.

The Ontario department of agriculture will establish at Galt, Morrisburg, Collingwood, Perth, Essex and Lindsay, in connection with the high school say, at those places, offices in charge of agricultural teachers, where farmers may meet for consultation. The reports and bulletins of the department will be procurable at these offices. Local agricultural societies, horticultural societies, farmers' institutes, women's institutes, and other organizations will be permitted to use them for business purposes. The government has made a special appropriation to meet the expenses of these representatives.

BRITISH FARMERS TO CONFER IN CANADA
The Canadian Associated Press learns that the British Dairy Farmers' Association, which has recently held its conference, will probably hold its next meeting in Canada.

MAJOR CURRIE NOMINATED.
Major J. A. Currie was nominated by North Simcoe Conservatives to contest that riding for the house of commons in opposition to Leighton McCarthy, M.P.

CONCLUSIVE EVIDENCE.
In 1907 he sold his apples in a lump sum for the orchard to the buyers who came thru from Whitby. Result was \$100 per barrel.

In 1906, he sold by the barrel and got an average of 82 cents from these buyers.

In 1905, he sold them by the "lump" and realized \$1.09 per barrel from these buyers.

In 1904, he entered the Oshawa shipping co-operation. Results were \$1.82 per barrel with a clean up and no apples left on his hands.

In 1907, he expects that the returns will be greater of 1906 and better.

A Worse Experience.

A neighbor has a worse experience at the farm. In 1905, he sold his man's orchard and gave their estimate at 200 barrels. The farmer was no judge and sold for \$175. There were taken by the men, hauling the apples, twelve snow trees were left untouched, numerous piles of refused fruit remaining at home, and an abundance went to neighbors' cellars. No wonder money is being made by the apple men.

The farmer has had the burden of boarding the men, hauling the apples and taking the abuse. No wonder some men are saying that our farmers are fools. It is strong language, but cases in point show some reason for the cognomen.

There is money to be made out of apples, there are hundreds of barrels wasted, while thousands of people are apple hungry.

SHORTHORN OR LONGHORN?
The accompanying cut on this page is that of a longhorn cow at the English Royal Show. It does not take much of an admirer to tell a favorable difference between this animal and the short-horn cow so familiar to our readers. As a matter of fact, aesthetes alone breeders have done a good service in propagating the short-horn.

HARRIMANS THE LEADERS ON THE NEW YORK MARKET

Southern and Union Pacific Wall St. Speculative Features—Canadian Stocks Are Dull.

World Office, Thursday Evening, July 25. Dealings in local securities continue to be circumscribed by impossible speculative conditions. Only those who have control of sufficient free funds are at present able to deal; there is therefore but a small percentage of the transactions for immediate speculative purposes. The London money market showed a firmer tendency to-day, despite an improvement in the condition of the Bank of England's reserve, but this was caused by the nearness of the month-end settlement. Such dealings as transpired to-day presented an irregular market. Twin City, whose statement of earnings for the second week of July was exceptionally good, received substantial support at the advanced price, while Southern Pacific, further depressed because of another decrease in the monthly net earnings. The weakness in this stock was carried into Rio, which fell to 45 1/2 on sales of fifty shares. In the other speculative issues represented in the dealings, varying fluctuations prevented any estimate of the actual state of the market. In the banks Dominion dropped a point, but others were dull and steady.

Pressed Steel Car directors met Wednesday, but took no action on the common dividend.

The estate of the late W. C. Whitcomb, \$24,000,000, largely American, Tobacco Company and Standard Oil stock.

City bond bill permitting controller to sell bonds by private sale passed the senate at Albany.

Steel corporation still supplied with ore, and is not alarmed at threatened miners' strike.

Light demand for stocks in the loan crowd.

Fiscal year of all the Gould roads the most prosperous in their history.

Sub-treasury lost since Friday to banks, \$57,000,000.

The meeting of the board of directors of the St. Paul Railway Company, which was scheduled for to-day for action on the company's dividends, was not held owing to the absence of a quorum.

New York: While no official figures as to report steel earnings for year ended June 30 have been issued, it is expected that net profits available for dividends will be around \$4,500,000, largest in company's history. This would be equal to over 21 per cent. of preferred stock.

New York: It is understood that the directors of the Erie Railroad Co. will act on the dividend question about the middle of next week, and an excellent source of information states that the regular semi-annual rate of two per cent. on both the first and second preferred stock will be declared.

It is officially stated that Westinghouse Electric Manufacturing Co. has made no offer for stock of New York Air Brake Co. There are no negotiations under way for control of New York Air Brake by Westinghouse Co. A controlling interest in the New York Air Brake Co. was offered the Westinghouse interest in January of this year, but the offer was declined.

London: A sharp reaction occurred in all American securities due to selling from New York. Union Pacific fell 1-4, and Southern Pacific 1-4 points over the best prices of the day. Local realizing was also in evidence. Canadian Pacific was weak and the rest of the list closed easier. Domestic securities were showing a disposition to crumble on sales preparatory to the next fortnightly settlement. Rio Tinto's continued weak, off 3-4 to \$1-15.

New York: E. H. Harriman stated that he was contemplating an extended trip to coast within a short time. He said that he had not fixed upon the date of his departure. Mr. Harriman intimated that definite action would be taken on the Southern Pacific quarterly dividend at the adjourned meeting Thursday. When asked if he would say what rate of dividend would be, he said: "I prefer to make no predictions." He added, however, that in the event the dividend be more than 6 per cent. per annum.

Joseph says: Gradually but none the less surely the market will broaden and the result will be considerably

Sterling Bank of Canada.

Notice is hereby given that a dividend of one and one-quarter per cent. (1 1/4 per cent.) for the quarter ending 31st July instant (being at the rate of five per cent. (5 per cent.) per annum), on the paid-up Capital Stock of this Bank has been declared, and that the same will be payable at the Head Office and Branches of the Bank on and after the 15th day of August next, to shareholders of record of July 31st. The Transfer Books will be closed from the 1st August to the 15th August, both days inclusive. By order of the Board.

F. W. BROUGHALL, General Manager. Toronto, 9th July, 1907.

clie holders should receive 6 per cent, and it is expected that this rate will be established at the meeting postponed to next Thursday for both Dominion and Rio Tinto. It is expected to set the pace for Southern Pacific by an advance in Atchison as a 6 per cent. issue. The market is being established at higher levels.

A. O. Brown & Co. to J. Lorne Campbell. There was some reaction in Southern Pacific after the announcement of no decision on the dividend rate to-day, but this was followed by a fair rally. The statement accredited to Mr. Harriman that the dividend rate would in no event exceed 6 per cent. per annum is generally regarded as implying that this will be the rate decided upon at the meeting next week. In anticipation of such definite announcement later it seems probable that the demand for both Southern Pacific and Union Pacific will continue very active for some days, and prices of both will be put substantially higher, while the rest of the market undoubtedly will participate in the advance.

Money Markets. Bank of Canada, 2 1/2 per cent. 100 to 105. Money, 2 to 2 1/2 per cent. 100 to 105. Three months bills, 2 1/2 to 3 per cent. New York call money, highest 1/2 per cent. lowest 1/4 per cent. Call money at Toronto 6 to 7 per cent.

Foreign Exchange. A. J. Glick of such definite announcement later it seems probable that the demand for both Southern Pacific and Union Pacific will continue very active for some days, and prices of both will be put substantially higher, while the rest of the market undoubtedly will participate in the advance.

Price of Silver. Bar silver in London, 89 1/2 per oz. Mexican dollars, 53 1/2.

Toronto Stocks. July 24. July 25. Bell Telephone, 117 1/2, 117 1/2. Canadian Pacific, 117 1/2, 117 1/2. Dominion, 117 1/2, 117 1/2. Erie, 117 1/2, 117 1/2. Hamilton, 117 1/2, 117 1/2. Montreal, 117 1/2, 117 1/2. National Trust, 117 1/2, 117 1/2. Ontario, 117 1/2, 117 1/2. Toronto, 117 1/2, 117 1/2. Union Pacific, 117 1/2, 117 1/2.

On Wall Street. Charles Head & Co. to R. R. Bond. The strength of yesterday's closing was further reflected to-day in a much higher market in London, especially for the so-called Harriman stocks, Union Pacific and Southern Pacific, and the opening price for the latter was strong, accompanied by great activity. The whole market centered in these shares and all interest was given over to the announcement regarding the dividend which was expected from the meeting of the directors of the Union Pacific shortly after noon. No action was taken, however, and Mr. Bond stated later that he favored a six per cent. dividend rate for Southern Pacific, but sadly missed the mark. A week from to-day, as usual the Hill stocks were quiescent and, in fact, outstaid for some time. Reading, 107 1/4 and later reacting to 105 3/4, there was little of interest to-day, but sadly missed the mark. The iron ore handlers' strike is resting until the return of Gov. Johnson, who has gone to the mining personally investigate the matter. Missouri, Kansas and Texas is looking well, and the increased earnings, due to the large increase in the price of iron ore, is expected to be around \$4,500,000, largest in company's history. This would be equal to over 21 per cent. of preferred stock.

New York: It is understood that the directors of the Erie Railroad Co. will act on the dividend question about the middle of next week, and an excellent source of information states that the regular semi-annual rate of two per cent. on both the first and second preferred stock will be declared.

It is officially stated that Westinghouse Electric Manufacturing Co. has made no offer for stock of New York Air Brake Co. There are no negotiations under way for control of New York Air Brake by Westinghouse Co. Imperial Bank of Canada

Dividend No. 68. NOTICE IS HEREBY GIVEN That a Dividend at the rate of Eleven Per Cent. (11 per cent.) per annum upon the Paid-up Capital Stock of this Institution has been declared for the quarter ending July 31, 1907, and that the same will be payable at the Head Office and Branches on and after

Thursday, the 1st of August Next. The Transfer Books will be closed from the 15th to the 31st July, both days inclusive. By order of the Board. D. R. WILKIE, General Manager. Toronto, Ont., June 26, 1907.

Toronto, 9th July, 1907.

TO ENCIRCLE CITY HALL EXHIBITION AIR SHIP

Three Quarters of a Million Dollars Spent in Buildings in Five Years.

The engagement of Knabenshue's flying machine by the management of the Canadian National Exhibition promises to prove a source of great attraction. Capt. Knabenshue claims to be in advance of all his rivals in attempts on navigating the air. Not only will Capt. Knabenshue's famous airship make flights each day, but it will also make a down-town flight from the exhibition into the city, encircling the city hall and returning back to the grounds. This down-town flight will be made the first week of the exhibition.

The airship will be housed in a tent which free access will be granted to all and an expert will always be present to explain the mechanism and to give details of the progress of aerial navigation. Nothing but the most violent storm will prevent Capt. Knabenshue making a flight each day.

MORE CONTAGIOUS CASES. Record for June Shows Fewer Deaths Than Last Year.

The report of the provincial board of health for June was issued yesterday. There were 1023 cases of contagious diseases, with 240 deaths, as compared with 823 cases and 262 deaths in the same month last year.

Smallpox shows an increase, the number of cases reported being 55, as against 30 cases a year ago and 40 other infectious diseases reported.

Other infectious diseases reported were: Scarlet fever, 195, 10 deaths; diphtheria, 125, 20 deaths; a decrease of 65 cases; measles, 376 cases, with 25 deaths, against 206 cases and 17 deaths, against 75 cases and seven deaths; consumption, 171 deaths, against 145.

STATED CASE ON SUNDAY

Questions Prepared by Magistrate Kingford for High Court.

A stated case has been prepared by Police Magistrate Kingford, by direction of the attorney-general, to secure the opinion of the high court on the Lord's Day Act, in view of Judge Morson's decision in the Devine case. The stated case is based on the trial of Henry Weatheral, for selling candies, popcorn and soft drinks on Sunday, June 9.

The following questions are submitted for the consideration of the court: 1. Does the mere fact that Weatheral holds a license as a restaurant keeper, or as a grain producer, entitle him to sell on the Lord's Day, candies, popcorn, peanuts and soft drinks, notwithstanding that he is not a dealer in such commodities?

2. Can a bona fide restaurant keeper sell candies, popcorn, peanuts or other commodities not in connection with a grain producing enterprise, but done up so as to be taken away by the purchaser, on the Lord's Day?

3. Can Weatheral justify selling commodities as aforesaid, on the Lord's Day, notwithstanding the prohibition contained in the bylaw under which the license in question is issued?

4. Does the fact that Weatheral holds a license as a restaurant keeper, or as a grain producer, entitle him to sell on the Lord's Day, candies, popcorn, peanuts and soft drinks, notwithstanding that he is not a dealer in such commodities?

5. Can a bona fide restaurant keeper sell candies, popcorn, peanuts or other commodities not in connection with a grain producing enterprise, but done up so as to be taken away by the purchaser, on the Lord's Day?

6. Can Weatheral justify selling commodities as aforesaid, on the Lord's Day, notwithstanding the prohibition contained in the bylaw under which the license in question is issued?

7. Does the mere fact that Weatheral holds a license as a restaurant keeper, or as a grain producer, entitle him to sell on the Lord's Day, candies, popcorn, peanuts and soft drinks, notwithstanding that he is not a dealer in such commodities?

8. Can a bona fide restaurant keeper sell candies, popcorn, peanuts or other commodities not in connection with a grain producing enterprise, but done up so as to be taken away by the purchaser, on the Lord's Day?

9. Can Weatheral justify selling commodities as aforesaid, on the Lord's Day, notwithstanding the prohibition contained in the bylaw under which the license in question is issued?

THE GRAIN COMMISSION. Work Being Done by Them at English Ports.

The Canadian Royal Commission on the grain question were in Manchester recently and held a conference in the town hall there with representative millers and grain importers in Manchester and surrounding towns.

The commissioners are: J. Millar (chairman), L. W. McNair and G. E. Goldie. They are accompanied by E. Nield, secretary, and R. C. Dunbar, stenographer. They were appointed by the Dominion government to investigate all matters connected with the grain trade between Canada and the United Kingdom largely in response to complaints of producers in Western Canada.

The commissioners have been at work for several months. They have visited the grain producing districts and the principal ports of Eastern Canada and of the United States, and are now investigating matters here in England with the object of remedying defects, removing grievances and helping the grain trade forward.

In welcoming the commissioners to Manchester the Lord Mayor said that their object was to study the requirements of the English grain market with a view of increasing the trade between Canada and this country, and an excellent market there for the desired to meet gentlemen connected with the grain trade, both importers and millers, in order to get all the information possible and to hear any suggestions that might be made. They had already visited Liverpool, London, Bristol, Cardiff, Glasgow, Leith and Hull and they now came to Manchester recognizing that although a new port it had already a large grain trade.

During the half year just ended at the Manchester docks, within ten miles of Manchester, there was a population of two millions, and within 35 miles (excluding Liverpool) eight million. These figures showed that there was an excellent market there for the sale of grain, and especially of wheat.

It was hoped that as a result of the commissioners' visit the larger portion of imported wheat from Canada instead of from other foreign countries. These gentlemen had been cordially received and the Manchester corporation had done in the past that Canada was loyal to Great Britain, and the time might come again when Canadians would be able to show their loyalty to this country in more ways than one.

The commission had been cordially received and the Manchester corporation had done in the past that Canada was loyal to Great Britain, and the time might come again when Canadians would be able to show their loyalty to this country in more ways than one.

At a conference held later in the Lord Mayor's parlour, Mr. Millar stated the objects of the commission, and invited a full expression of opinion as to how, in the judgment of the people on this side of the Atlantic, the Canadian grain trade might be benefited. Progress in Western Canada was complained of the way in which their grain was handled on its way to the consumers in this country, and it was the wish of the commission to find out the weak spots in the trade and how best to remove them. They had gathered a great deal of information and hoped that it would conduce to the good not only of Canada but of England, and Manchester in particular.

Mr. McNair showed by reference to the Lord Mayor's parlour, Mr. Millar stated the objects of the commission, and invited a full expression of opinion as to how, in the judgment of the people on this side of the Atlantic, the Canadian grain trade might be benefited. They had gathered a great deal of information and hoped that it would conduce to the good not only of Canada but of England, and Manchester in particular.

Mr. McNair showed by reference to the Lord Mayor's parlour, Mr. Millar stated the objects of the commission, and invited a full expression of opinion as to how, in the judgment of the people on this side of the Atlantic, the Canadian grain trade might be benefited. Progress in Western Canada was complained of the way in which their grain was handled on its way to the consumers in this country, and it was the wish of the commission to find out the weak spots in the trade and how best to remove them. They had gathered a great deal of information and hoped that it would conduce to the good not only of Canada but of England, and Manchester in particular.

THE GRAIN COMMISSION. Work Being Done by Them at English Ports.

The Canadian Royal Commission on the grain question were in Manchester recently and held a conference in the town hall there with representative millers and grain importers in Manchester and surrounding towns.

The commissioners are: J. Millar (chairman), L. W. McNair and G. E. Goldie. They are accompanied by E. Nield, secretary, and R. C. Dunbar, stenographer. They were appointed by the Dominion government to investigate all matters connected with the grain trade between Canada and the United Kingdom largely in response to complaints of producers in Western Canada.

The commissioners have been at work for several months. They have visited the grain producing districts and the principal ports of Eastern Canada and of the United States, and are now investigating matters here in England with the object of remedying defects, removing grievances and helping the grain trade forward.

In welcoming the commissioners to Manchester the Lord Mayor said that their object was to study the requirements of the English grain market with a view of increasing the trade between Canada and this country, and an excellent market there for the desired to meet gentlemen connected with the grain trade, both importers and millers, in order to get all the information possible and to hear any suggestions that might be made. They had already visited Liverpool, London, Bristol, Cardiff, Glasgow, Leith and Hull and they now came to Manchester recognizing that although a new port it had already a large grain trade.

During the half year just ended at the Manchester docks, within ten miles of Manchester, there was a population of two millions, and within 35 miles (excluding Liverpool) eight million. These figures showed that there was an excellent market there for the sale of grain, and especially of wheat.

It was hoped that as a result of the commissioners' visit the larger portion of imported wheat from Canada instead of from other foreign countries. These gentlemen had been cordially received and the Manchester corporation had done in the past that Canada was loyal to Great Britain, and the time might come again when Canadians would be able to show their loyalty to this country in more ways than one.

The commission had been cordially received and the Manchester corporation had done in the past that Canada was loyal to Great Britain, and the time might come again when Canadians would be able to show their loyalty to this country in more ways than one.

At a conference held later in the Lord Mayor's parlour, Mr. Millar stated the objects of the commission, and invited a full expression of opinion as to how, in the judgment of the people on this side of the Atlantic, the Canadian grain trade might be benefited. Progress in Western Canada was complained of the way in which their grain was handled on its way to the consumers in this country, and it was the wish of the commission to find out the weak spots in the trade and how best to remove them. They had gathered a great deal of information and hoped that it would conduce to the good not only of Canada but of England, and Manchester in particular.

All the Water Comes Through the Nozzle. The hose you buy from us has no wearing or lasting qualities.</

York County and Suburbs

YOUNG MEN'S CLUB HOLD OPEN MEETING

North Toronto Real Estate Sells Well—Junction Lady Meets Loss—Items.

TORONTO JUNCTION, July 25.—Henry Cook of York Township appeared in police court today on a charge of non-support, brought against him by his wife. He was allowed to go on bail to appear on Tuesday next.

There have been at the Junction lately a number of petty thefts of articles such as purses, carpenter's tools, etc.

A fire alarm was sent in from box 14 about 2:40 p.m. today. A slight blaze occurred in Martin's grocery store, corner Dundas-street and Hoskell-avenue, but was extinguished before any damage was done.

A boy named George Howard, a former resident of Toronto, but late of Sudbury, who had been sentenced to the Mimico Industrial School a few days ago, escaped from that institution yesterday and as yet no trace of him has been seen.

An employe of Billy Duncan of the Humberside news room, was out driving with a lady friend in Gore Vale yesterday afternoon. She dropped her umbrella and the horse got frightened and bolted.

Bertie Simpson, 13 years old, of 168 Maria-street, was dropped about ten weeks ago and has not been seen or heard from since.

Mrs. Kipping, wife of School Trustee Albert Kipping, left last week for a two months' visit to her mother's home in Bay des Chaleurs, Province of Quebec, for the benefit of her health.

Harry, son of Rev. Dr. Hazelwood, arrived home to-night after a two weeks' vacation in Boston and Brockville and a short stay at Athens with his uncle, Dr. Purvis.

RICHMOND HILL. Many Townspeople Absent on Their Holidays.

RICHMOND HILL, July 25.—M. C. Smith, the new pastor of the C. N. R., is getting things in good shape. Quarterly meeting services will be held on Sunday at 10:30 a.m. There will, therefore, be no service in the village church in the morning.

Rev. Mr. Anderson, who has been taking charge of Rev. Mr. Grant's work here, after recuperating some time in Muskoka, left yesterday for Scotland. W. Bro. T. A. Lamont reports a royal time at Ottawa at the grand lodge A. F. and M. M.

Rev. (Dr.) and Mrs. W. B. Booth and their daughter have been spending a few days at the home of Mrs. P. Patterson.

Scarlet fever has appeared at Elgin. One death has occurred. Great care is being taken to prevent the spread of the disease.

Mrs. J. Brownlee is spending her holidays at Arthur and other western points.

We are glad to report that Mrs. Michael Naughton, who has been so seriously ill, is improving.

C. Soules is to-night again down to business after his holiday at Jackson's Point.

Verne Walker, who fell last week and broke his leg, is progressing very favorably.

Dr. Langstaff and family have returned from their holidays at Stony Lake, and he has been kept busy since catching up.

Mr. and Mrs. Paulin have sold their beautiful farm and home. They have returned to their home in Yorkville, where they have purchased the place after busy getting settled.

Miss Edna Barker and Miss Harrison are visiting in the city.

NORTH TORONTO. Venerable Resident of the Town Dies After Long Illness.

NORTH TORONTO, July 25.—One of Davisville's oldest residents died this morning, in the person of Mrs. Mary Case Laurence, wife of the late Robert Laurence, of Davisville-avenue. She deceased was 82 years old and her husband predeceased her 11 years. She

MEN'S SUMMER Furnishings and Underwear AT HALF-PRICE

At least once every season the head of our Furnishings Department gets a chance to clear up his stock. This naturally means old sizes and broken lots in every line of goods.

Today our special sale begins. And as the list below shows, many of our best and most desirable lines in Men's Furnishings and Underwear are to be sold at

Half-Price

Considering the Fairweather Quality this means genuine bargains. For our Furnishings stock represents the choicest goods of the most noted and best manufacturers in the world. This applies particularly to our Shirts and Underwear.

Comparison is the best means of judging value. We want you to see our goods.

- 10 dozen Imported Men's Half-Bright Underwear, silk finish, all sizes, regular \$1.00 each piece, for 50
15 dozen Imported Lisle and Silk Underwear, all sizes, regular \$1.00 quality, for 50
Any Colored Shirt in the store, new style, regular \$1.00, for 1.65
Any Necktie Shirt in the store, worth up to \$1.50 and \$2.00, for 1.15
All Washable Four-in-Hand Neckties, worth regularly 50c and 75c, for each, or three for a dollar.

J. W. T. Fairweather & Co. 84-86 YONGE STREET

came to Canada with her husband from Gloucestershire, England, 22 years ago. They settled at Leaside, in which neighborhood they have resided continuously ever since. Mrs. Laurence is a family of six, one son and five daughters. The family are Henry Laurence, Davisville; Mrs. Henry Donley, Lansing; Mrs. John Donley, Toronto; Mrs. Elias Hill, Lansing; and Mrs. William White, Wexford, and Miss Sarah at home. Deceased was a highly respected member of Christ Church, Deer Park. The funeral will take place to Mount Pleasant Cemetery on Saturday next.

The renovation of the Davisville Methodist Church under way. A bee was held to-day to raise the driving shed. Councillor Murphy had charge of the work, while the Ladies' Aid Society provided luncheon. A concrete sidewalk will be laid under the superintendence of W. Cordingley, and the exterior of the church will be painted.

Real estate is on the move these days. James Childs sold a lot of 109 feet frontage on Roxhampton-avenue, for \$2500. He also sold the lot on Waddington and Grundy, a lot of 136 feet frontage on Yonge-street, with 175 feet frontage on Castlefield-avenue, for \$1000. The price realized is \$23 a foot Yonge-street frontage.

The Bank of Montreal secured an option from James Childs for the southwest corner of Yonge-street and Kensington-avenue.

Fred Grundy sold 100 feet frontage on Castledale-avenue, for \$1000. Commissioner Wainwright gives it as his firm belief that the new spring which is being drained into the main sewer at the pumping station, will double the town's water supply.

Mrs. Munns of St. Thomas is visiting her sister, Mrs. A. J. Davis of Frederick-street.

The recently organized Young Men's Club of Eglington held a literary and musical evening in the school room of the Methodist Church here to-night.

R. G. Kirby presided. William Farko of Glen Grove-avenue read a very interesting paper on Canada, dealing briefly with its discovery and boundaries. He dealt with the question of the nation's progress since confederation, paying a high tribute to the farming industry and the educational and religious progress. The mandolin solos of W. H. Stevens and the work of Messrs. E. G. Kirby, W. J. Lawrence and Mr. Stevens in "Oh, Canada," brought down the house. R. Boulden very acceptably presided at the piano. Messrs. McKenry, Duke and Wilson spoke briefly. The concert was an excellent one and merited a larger attendance.

MILLIKEN'S CORNERS. MILLIKEN'S CORNERS, July 25.—Mr. and Mrs. W. B. Milliken and family of Parkdale spent the greater part of the month at Fairview, the beautiful home of the former's aunt, Miss Eleanor Hooper.

Mr. Milliken is an old Markham boy, and all the members of the family enjoyed the delightful surroundings to the full.

DOVERCOURT. Will Organize New Choir in the Very Near Future.

DOVERCOURT, July 25.—Rev. Dr. Abraham, pastor of the Davenport-road Presbyterian Church, is summing up at Bala, Muskoka.

The choir of the Davenport-road Presbyterian Church is being reorganized and a new musical director appointed. He will assume his duties about the middle of next month.

TODMORDEN. Magistrate Declares He Will Stop Rowdiness in the Suburbs.

TODMORDEN, July 25.—At today's county police court three Todmorden boys were called to answer to a charge of disorderly conduct, preferred by Fred Hollier, who keeps a general store on Don Mills-road. After the evidence was heard Magistrate Ellis declared that a stop must be put to annoying people, and fined Louis Wilton \$7 and Curtis or 15 days in the shelter; Fred Hollier and Bert Hamilton were allowed to go on suspended sentence. Imposing the fine, Magistrate Ellis said: "Just here I want to say

that if this business is not stopped there'll be someone paying a fine of \$5 or \$10 and costs, and if the thing continues after that, some one will go to Mimico Reformatory."

The case of James Dymont, who was charged with maliciously throwing a stone thru the window of G. Hammond's house, in the second concession York Township, was remanded for a week. Dymont had several quarrels with Hammond and was bound over to keep the peace.

THIS MINISTER FORGOT FASHIONABLE FUNERAL. Another Clergyman Had to Be Secured—May Lose Him His Pulpit.

NEWPORT, Long Island, July 25.—When the hour came for the funeral services for Col. Edward M. Neill, a pioneer cottager and president of the Newport Reading-room, in Trinity Church; this morning, several hundred society folk looked up from their pews in expectation of seeing Rev. S. C. Hughes appear in the chancel and begin prayer. The pall-bearers and mourners were all in place; the bell had ceased tolling.

But 5 minutes passed, and no minister. Another 5 minutes, and the fashionable congregation began to look at one another uneasily. Then, while the situation grew more and more embarrassing, the great wall lengthened into 20, 25, 30 minutes. And still not a sign of the missing pastor.

Friends of the Neill family then slipped out of the rear of the church, and after a lively search about town for a quarter of an hour, succeeded in getting another clergyman to hasten to the church and conduct curtailed services. Several hours later Rev. Mr. Hughes strolled along in front of the church.

"Goodness!" he exclaimed when an excited parishioner asked where he had been. "I thought this was Tuesday instead of Wednesday, and I went out driving with Bishop Talbot of Pennsylvania."

It is feared the mortifying error may cost Mr. Hughes his pastorate, which carries with it a \$3500 salary and a pretty cottage. He was appointed only a short time ago, and his misfortune in keeping some of his most powerful parishioners waiting almost an hour may not easily be overlooked. He called, with Bishop Talbot, on the Neill family later in the day and apologized.

PILGRIMAGE TO ST. ANNE'S. QUEBEC, July 25.—Pilgrims to the number of 2000, from the diocese of Kingston, 800 of whom arrived by the Grand Trunk Railway, and 1200 by the C. P. R., returned to-day from St. Anne, where they had gone yesterday. Another pilgrimage, consisting of 450 people from Duluth, Minn., also returned from the shrine at St. Anne.

Turbine Steamer Virginian's Fast Passage. Liverpool to Quebec in Six Days. The Allan Line's turbine steamer Virginian, which sailed from Liverpool at 7 o'clock Friday evening, July 19, passed Martha's Vineyard, and arrived at Quebec Thursday morning, arriving at Quebec Thursday night. The Virginian has on board 67 cabin passengers (first and second), and a large number of third-class. The steamer is expected to dock at Montreal 6 p.m. to-day.

This passage constitutes a record trip for the Allan line. The Virginian will sail from Montreal on her return voyage to Liverpool, at 7 a.m. on Aug. 2.

Cheesemen Must Work. KINGSTON, July 25.—The Whitney government gave the cheese makers permission to work till 5 o'clock on Sunday morning for this year only, but the cheese board here intend trying to get permission to do so all along.

SEEKING WATER POWER TO FERTILIZE FIELDS

Danger of Ultimate Universal Starvation is Heralded by Scientists.

SEATTLE, Wash., July 25.—Is the human race in danger of starvation? Can human ingenuity prevent such a calamity thru advanced scientific research?

Are the State of Wisconsin and British Columbia destined to be powerful factors in the solution of such stupendous and vital matters?

Yes, is the correct answer to these three questions. The queries are not idle and fruitless thoughts from the minds of dreamers. They are the essence of ideas with which scientific men the world over are struggling. The problem is solved. The water power of Washington and British Columbia is the one factor. The story of its solution, with its grey villain and the usual cast of characters. Here it is:

At the Ranier Grand Hotel the register showed two modest and ordinary names—James Fullerton and Henry Avery, both hailing from Niagara Falls, N. Y. No reception committee met them at the station with luxurious autos and glad handshakes. They carried their own grips into the hotel lobby, wrote their names, and then ate like hungry men.

Scientists in City. Fullerton and Avery are here on a tour of exploration. They are looking for water power—millions of horse-power is not too great for their plans.

Both are advanced students in the school of electro-chemical research, which is responsible for artificial tobacco, camphor, and scores of other substances. They juggle electricity in millions of volts, in tens of thousands of amperes. They compress air by the hundred thousand cubic yards till it runs like water. They draw off the liquid oxygen and store it in tanks. They draw off the liquid nitrogen, shoot it into an electric furnace, the thermometer of which shows over 3000 degrees Fahrenheit, where it hisses against a mass of prepared lime. When the process is complete, out comes a white fertilizer—and it is six times more effective and costs three times less than the crude fertilizers of common today. Here is what Avery declares:

"Fifty years ago we imported 50,000 tons of Peruvian guano for our farm needs. To-day none is left. The animal refuse is pitifully insufficient. Exhausted soil must have renewed nitrogen. We have two sources, the ammonium by-products from the Pennsylvania coke ovens, and the salt-petre beds of Chile. The first is a drop in a bucket. At the rate we are going in 1915 the Chile beds will be dug out. What will we do then? We will raise its crops of cereals, its grasses, its grains and fruits for man and beast?"

Avery handed a reporter a small, white cylinder. It looked like the lines used in magic lanterns. There was the salutation—nitrogen fixed in time.

"The air contains billions of tons of nitrogen," said Fullerton. "The problem is to melt it down, so to speak, and then the soil will absorb it as it can be put in the soil, and come forth again as the nitrogenous food we must have in order to live. At Niagara Falls we are now experimenting to supply the nitrogen with the proper union of elements to make the proper fertilizer needed for the world. We must have more, and in order to operate we need a power of 100,000 horse-power. It is into additional power that we are seeking in your state at this time."

It was suggested that the chamber of commerce might be secured for the searchers, but this brought a smile from the men.

"Young man, we know power when we see it," said Mr. Fullerton. "We are going out into these mountains and hills, and then we will buy it, if it meets our needs. No need for help just now; but maybe we will put up a factory here. Who knows?"

MASTER PLUMBERS AGREE TO TREAT WITH MEN

Prospects That Strike May Be Settled—Union Discusses Offer of Bosses.

The plumbers' strike may soon be a thing of the past. Many of the men on strike have gone to places outside the city, and it is said, the masters, fearing the exodus will continue, are now in a more conciliatory mood.

In a letter addressed to the secretary of the men's committee yesterday morning, they expressed willingness to meet the committee of the union in conference.

This letter was considered at a meeting of plumbers last night, and a reply was drafted, to be sent to the bosses. This should facilitate matters to such an extent that a conference will be held immediately and an amicable arrangement reached.

A \$5000 plumbing and steam fitting contract has been taken out of the hands of a well-known firm who have been fighting the union and given to another, which has pledged itself to employ the strikers.

This will provide work for a considerable number, and as strenuous efforts are being made by the union to secure other contracts, there is every reason to believe the bosses will endeavor to reach a settlement without further delay.

PRESENTS A FOUNTAIN. Gait Citizen Makes Offer to Adorn High Park.

GALT, July 25.—(Special.)—Alex. Buchanan, a retired citizen, to-day made an offer of a fountain for High Park, to mark the tricentennial celebration of the incorporation of the town.

It will stand 15 feet high, the top being graced with a statue of Hebe, the whole in bronze and will cost \$1000.

GEORGIA PROHIBITION LAW STILL STRANDED

ATLANTA, Ga., July 25.—Rarely have such scenes of excitement been witnessed in legislative halls as has marked the efforts to pass the state prohibition bill by the lower branch of the legislature. All day the fight was waged, and a filibustering minority prevented action on the bill which was adopted by the senate more than a week ago.

Hundreds of men, women and children thronged the galleries. Women, singing and waving flags, added to the excitement. Those of several Atlanta churches prepared luncheons for the legislators and served them in the capitol. Late to-night the prohibition bill had not been reported.

INDIANS AT BUCKINGHAM. Will Try to Loop To-Day.

O. V. Babcock was too sore after his fall at Scarborough Beach on Tuesday night to perform his act of looping the loop and flying the flame last night. This afternoon, however, he hopes to go around the loop, and if his nerve is right he will probably put on the complete show in the evening.

Buffalo Moths. Toronto is infested with that destructive pest known as the Buffalo moth. Cooperford's Buffalo Moth Exterminator will absolutely rid the home of this destructive insect. Ask your druggist for it.

GOLD SAFETY PINS WANLES & CO. 168 YONGE STREET.
