NOW, WILL YOU BACK DOWN?

Salisbury Has Taken a Position and Closed the Gate Behind Him as Regards the Occupation of Fashoda—Marchand and His Contingent Must Get Out or There Will Be Trouble—British Press and Public Support Salisbury—Cable News.

Britain is said to have sent an ultimatum to France. The ultimatum is the climax of the occupation of Fashoda in the Upper Nile Valley by a French expedition, Major Marchand, who set out from French West Africa two years ago on an exploring expedition. He turned up a few days ago on the Nile and planted the French flag there. The commander of the Anglo-Egyptian army marched to Fashoda after capturing Khartoum and told Marchand to get out. Marchand refused to go, saying he had orders from the French Government to stay. The Sirdar reported to the British Government, which promptly notified the French Government that no European power except England will be tolerated anywhere in the Nile Valley. France so far has refused to budge. Neither Government can back down now without humiliation. The question of war or peace between Britain and France must now be decided by the French Government, and it is believed that it will be decided within forty-eight hours. The gravest view is taken in London of the developments of the Fashoda incident. The issuing by Lord Salisbury of the correspondence over the affair is taken as intended to prepare the public mind for the possibility of war. It has caused the profoundest sensation in the political clubs. Lord Salisbury has taken a position from which he cannot recede. He has explicitly refused to compromise. Public sentiment in England backs up this attitude. The English people are out of patience with France, whose empty has found expression in a hundred exasperating ways within the past few years. Besides, the conviction prevails here that the British fleet could easily dispose of the French navy and that a blockade could be established which would reduce France to impotence.

THE CRISIS IS ACUTE.

Undentable That the Situation Between England and France Has Assumed a Serious Phase. New York, Oct. 10.—The Journal's London correspondent writes: "I am averse to exciting a war scare, but it is undeniable that the crisis between Great Britain and France over Fashoda is terribly acute. The issue to-night of a blue book or paper of the official negotiations by Lord Salisbury with Delcasse and Hanotaux shows that he has taken up a position from which he cannot possibly recede. Salisbury gives in almost the closing words of the official correspondence a declaration that he makes an appeal to the great mass of the British public, which is solidly on his side. He says, in writing to Ambassador Monson at Paris: "Your Excellency should further explain that much uneasiness will be created here by any prolongation of the existing state of affairs, and it will become necessary for Her Majesty's Government to take the publication of the facts without delay." Marchand an Explorer. People and papers of all shades of opinion will back up Salisbury to-day in a way which will echo throughout Europe. There is hardly a single person but entertains the official view that Marchand is a mere explorer, and has not the least right to Fashoda, which must be eradicated forthwith. You doubtless recollect that Joseph Chamberlain spoke of the Cape-to-Cairo scheme on your side, and every member of the Cabinet is pledged to the fundamental principle underlying the scheme, namely, that the Nile must be in control of any foreign power save Britain. Do not let anyone believe this is a mere newspaper polemic, or he will be sadly mistaken. It is Lord Salisbury who hurled forward with positively unparalleled official clarity the publication of this blue book, insisting that the French must promptly clear out of Fashoda. Does it mean war? Possibly. Either France must climb down or fight. War would please the French general staff, if only there were a chance of the French army distinguishing itself, which, however, is not the case, since hostilities would be on the sea. A war would distract attention from the Dreyfus affair, from the internal labor war, from the internecine polemics which are eating out the vitals of the country. Rushing Work on Warships. I was assured to-night on authority I cannot doubt that work is being rushed forward in the British dockyards and arsenals in order to guard against eventualities. The era of graceful concessions is past. Perhaps France had not imagined it and thought Lord Salisbury would yield, as in the case of West Africa, but it is impossible now. The documents now published have, so to speak, nailed the flag to the mast. There is an ominous ring in newspaper articles to-day. Meaningless abuse has ceased, but there is an earnest note of warning to France of the risks which it is running. I have never seen such unanimity of opinion in this country, inasmuch as there is an overwhelming desire for a stronger foreign policy than hitherto, and a feeling that a principle is at stake. Probably the French Government will climb down, but it will mean the overthrow of the Cabinet. It will be worth while to watch the progress of this struggle, because Britain means to settle the question of the Sudan once and for all.

AN AMICABLE SETTLEMENT, WE CANNOT BEHOLD.

of an amicable settlement, we cannot behold the situation extremely grave. Lord Salisbury has taken up a position from which retreat is impossible after the publication of the blue book. The Daily Chronicle thinks the situation only "grave on paper and not in reality." The Daily News says: "We hope Lord Salisbury will be able to provide a golden bridge for M. Delcasse." A Most Agreeable Relief. The comments in public and in the newspapers show that the Marquis of Salisbury's determined stand on the question of the occupation of Fashoda has come as a most agreeable relief, and as disposing of all the stories of a peaceable compromise. No whisper of dissent is heard anywhere. Both friends and opponents of the Premier are rejoicing at the fact that, in pushing the blue book on the Fashoda question, he has burned the bridges behind him. While it is recognized that the situation, by its publication, has become more difficult for France, there is almost an entire absence of disposition anywhere to believe that France proposes to press her claims to the point of danger. This confidence is demonstrated by the tone of the London Stock Exchange after a momentary scare, and such comment as comes from Paris also tends to abate alarm. The Paris Matin, which is directly inspired by the French Foreign Office, says: "We should probably not risk a war with Great Britain for the nominal sovereignty over territories at an immense distance from our possessions on the Atlantic. They are inaccessible from our coast annexations as the mountains in the moon. But we can retain our honor with out retaining Fashoda. The newspapers of Paris this evening take a calm view of the situation, and plead for moderation. They express a sincere desire for a friendly settlement of the question, when Major Marchand's report arrives. The prevailing view of political men is that the French Cabinet will find a way out of the difficulty in the report asked from Major Marchand, although it is expected, in response to a hint from the French Foreign Office, will declare that his position at Fashoda is untenable. The publication of such a report, it is held, would fully justify the French Government in recalling him. A Frenchman's View. London, Oct. 10.—A prominent member of the French Embassy in London expressed the following views on the situation this evening: "The advent of the French and British on the Upper Nile ought not to be regarded as the meeting of opposing policies, which necessarily exclude one another, but as the clash of commercial interests, which should be carefully defined and embodied in a permanent agreement. War, which has not been provoked by the question of Egypt, will certainly not break out over the Upper Nile question. The issues at Fashoda will be settled in a friendly manner, to the general satisfaction; and an agreement will be much more easily reached when the newspapers of the two countries cease exciting public opinion."

CHAMBERLAIN'S IDEAS.

The Colonial Secretary Says the U. S. Has Big Interests at Stake in the Present Situation. Paris, Oct. 10.—The Evrement to-day publishes the substance of an interview with Mr. Joseph Chamberlain, the British Secretary of State for the Colonies, who is now in America, in which the English statesman is quoted as saying he considers the United States, owing to the recent war, to be in the same position as Great Britain

EVA SMITH, THE HEROINE.

Little Eva Allows Her Skin to Be Grated—Brother Charlie Was Badly Burned. Several weeks ago The World published an account of how little Charlie, the 8-year-old son of Mr. Hugh Smith of the Custom House, was nearly burnt to death. It was the old story of little boys, matches, a bonfire, clothes on fire and frightful burns. Charlie was in pain. For weeks after the accident Charlie lay on a bed of pain. His left side, back and arm were so badly burned that the physicians in attendance almost gave up hope for his life. A consultation was held, at which it was concluded that the only way to heal the burns and save the use of the muscles to the boy was to graft skin on them. The doctors looked in vain for someone who would permit the skin to be cut from his body, to graft on to Charlie. Eva to the Rescue. At last Charlie's little sister, Eva, who is but 12 years old, and who had heard her parents talking the matter over, went to the family doctor, and said in her childish way: "If I'll make brother better, you can cut my skin off."

THE KHALIFA HEARD FROM.

He is Concealed in the Forest With His Lieutenant, Osman Digna. Cairo Oct. 10.—The Khalifa, who fled from Omdurman when that place was captured by Gen. Kitchener, has at last been heard from. He is at Bahra, three days' march west of Abba Island, where he is concealed in the forest, with his lieutenant, Osman Digna, and a small following. It is reported that the mountaineers in the neighborhood have refused to have any dealings with him. The Arab tribes are all hostile to him. Troops Dying Like Flies. London, Oct. 10.—A despatch to The Daily Chronicle from Alexandria says: "The troops who have returned from Khartoum are dying like flies from enteric fever, supposed to be due to canned beef and indulgence in cheap spirits. Only a drop in the bucket your individual patronage, but you and your friends make up the sum total of our ever increasing business in dyeing and cleaning. Do you see the importance of pleasing you? Denouncing Anglo-Americanism.

Dublin, Oct. 10.—The following is the text of the resolution denouncing the proposal of an Anglo-American alliance: "This convention denounces the project of an alliance between Great Britain and the United States as a selfish attempt on the part of England to drag the American people to aid in its struggles with the powers of Europe, among whom it now stands by reason of its bad faith, absolutely isolated. "Consequently, as friends of America, we, the members of this conference, hope that the republic will not allow itself to be embroiled in European squabbles, from which, however these may result, it cannot derive any corresponding advantage for American interests."

THE SITUATION AS REGARDS CHINA

Retrograde Movement Extending—Suppression of the Native Press Ordered, Along With Punishment of Editors—All Officials Favoring Reforms Have Been Dismissed—Niu Chwang Railway Loan Signed by the Bank—Reign of Terror.

London, Oct. 11.—The Pekin correspondent of The Times says: "The retrograde movement spreads. An Imperial edict orders the suppression of the native press and the punishment of the editors. It also cancels all the new methods of examination promulgated during the last twelve months. The latter step must give general satisfaction, since the proposed changes were too radical for the people. "All officials who have signed memorials in favor of reform have been dismissed from office. The Board of Agriculture is abolished, its president, Wu Mao Ting, commander of the Hong Kong and Shanghai Bank, being deprived of his rank. A memorial impeaches him as a slave of foreign devils. "The contract of the Niu Chwang Railway extension loan has been signed by the Hong Kong and Shanghai Bank."

Reign of Terror.

London, Oct. 11.—The Shanghai correspondent of The Times says: "Huang, former consul at Singapore, and lately Minister-designate of China to Japan, was arrested here yesterday, by order of the Emperor Dowager, in connection with the reform movement. Her general proscription of the progressives constitutes a reign of terror."

DON'T EXPECT WAR.

London Morning Papers Think France Will Recede. London, Oct. 11.—The morning papers all renew their comments upon the Fashoda situation, but on neither side of the Channel is any idea given expression that the affair is likely to lead to war. The worst that can happen is the resignation of M. Delcasse, the French Foreign Minister, or perhaps the whole Ministry, but, were it not for the delicate internal situation in France, arising out of the Dreyfus affair

A GENERAL ELECTION SOON

The Government Will Bring It on Within a Year. This is Hon. N. Clarke Wallace's Opinion—What He Says About the Quebec Conference — Molsons Bank Annual Report — A Bold, Bad Man From Santiago. Montreal, Que., Oct. 10.—(Special.)—"I believe the Government will bring on a general election within a year." This is the important statement made to your correspondent this evening by Hon. N. Clarke Wallace, who arrived from Quebec to-day en route for home, and who no doubt has kept his eyes open during his sojourn in the Ancient Capital. Being questioned regarding the probable outcome of the international gathering at Quebec, Mr. Wallace said he might say would be more exact, but he added: "Lord Herschell and the American commissioners have stated that they were agreed on some questions, but the great question of all is reciprocity, and they have done very little in that direction."

TOY "LOOKING FOR TROUBLE"

Just for Fun—It is Running at the Toronto This Week.

Joe Ott Appears With an Abundant List of Clever Artists—The Other Theatres Also Play to Crowded Houses—The Cummings Stock Company Put on a Clever Production of "Trilby" — At the Grand "The Girl From Paris" Returns and Repeats the Previous Sensation.

If you're looking for fun, try "Looking for Trouble." You will find both at the Toronto Opera House this week. Although it can scarcely be said to be irresistible, yet there is a quiet humor about "Joe" Ott's grievances and contentions. He bears forth as a newly discovered comedy, tolerably well. The "trouble" in the show is not very serious, for it is personified in Abbott Davidson, who as alias "Mr. Trouble" is not supposed to be serious.

The "Only 'Paast." Year by year the number of representative American actors are gradually diminishing, until now there are but a few left. One of the most talented actors of this generation, announces this season his last in the arduous task of the early "Paast," a creation made by him many years ago, and one which stands to-day without an equal in theatrical history.

The Tripp-Huston Concert. The piano and song recital last night in the association hall was one of the early ones of the season, and forced one fact on the listener, that in all probability coming artists will be compelled to strain overworked nerves to satisfy the exorbitant fancy of this aptly termed individual, the "encore fiend."

THE TORONTO WORLD ONE CENT MORNING PAPER. NO. 55 YONGE STREET, TORONTO.

WHO WILL REPLACE SIFTON?

We are not surprised that the Government finds itself compelled to make sweeping changes in the Yukon officials. The Government set a bad example to start with, and we are not surprised to learn that its officials have followed in their footsteps. The Government's first proposition to open up the Yukon country was a scandalous proposal. In neglecting to advertise for tenders for the construction of the railway from Telegraph Creek to Glenora, it violated a well-established principle of responsible government. The Government started in to give the cream of the Yukon country to a few favored individuals. With such a bad example before them it would not be surprising if it turned out that the officials appointed by the Government were no more honest in the administration of the public business than the Government showed itself to be. The recent changes in the administrative officers of the Yukon is pretty conclusive evidence that the charges of mal-administration which have been made will be more or less sustained. Major Walsh has been replaced by Mr. Ogilvie. Mr. Fawcett, the gold commissioner, has been replaced by Gordon Hunter. Mr. Wade, legal adviser to the commissioner, has been replaced by W. H. P. Clement. Who is going to replace Clifford Sifton? That is what the people are anxious to learn. Instead of discharging minor officials, the Government should centre its attention on the individual who is primarily responsible for the appointment of the incapables who have just been dismissed.

HOW ONTARIO IS HANDICAPPED.

Contracts have been let for the installation of a plant for developing electricity at the Shawinigan Falls on the St. Maurice River, Quebec. It is said that 30,000 horse power will be generated at this point and utilized by the manufacturing industries of Eastern Canada. The Hamilton Times refers to the matter, stating that enterprises of this kind mean a great deal to Canada. Our country derives the benefits to be derived from the utilization of water power so well that we take pleasure in quoting from its article: "The electricity developed by the fall of the water can be converted into motion and light and heat. It can turn wood into paper, wool or cotton into cloth, and iron into metal. With such cheap and unlimited power, there will be an increase in manufacturing and an enlarged home market for the agricultural and horticultural products of the Dominion. Quebec has been supplying the factory towns of New England with workmen for many years. The birth-rate among the French Canadians is large, but emigration has kept the population down. But things have taken a turn. The despised Galties and non-combatant Russians who are flocking into the Northwest Territory, in spite of the opposition of Hon. Mr. Sifton's critics, will produce wheat and meat, but demand cheese, bread they will want to exchange for clothing and furniture, tools and boots. With cheap power and light, and heat, supplemented by cheap labor, eastern Canada will be able to satisfy the wants of the Western population. All this means business for the railways, and the spending of the money means more employment for the farmer, the manufacturer and the merchant."

PRICE OF ICE TO GO UP.

Great Scarcity of Ice—Hot Weather and Inferior Crop the Cause. For some time past throughout the western world there has been a great scarcity of ice. The famine, for it really amounts to that, is accounted for by the extremely hot weather of this summer, and also by the inferior crop of the season. The ice harvest of the last winter was the best in many years, and the local ice companies have received scores of orders for ice to supply the present trade. The scarcity will prove a very serious thing to business and those who use a large quantity of ice, as there is a probability of it going up as high as \$10 per ton.

TRUTH, BUT NO PEOPLE.

Trinity Church, Thornhill, Congregation Refuse to Hear Their Rector.

A Pack of Trouble Brewed—Strong Resolution Passed at a Vestry Meeting—The Bishop to Hold an Investigation—The World Interviews Prominent Members.

The Episcopalians of Thornhill are, to put it mildly, somewhat enraged over a trouble that has existed between them and their present rector, Rev. W. W. Bates, the origin of which dates back some time.

The present rector, Rev. W. W. Bates, has had charge here some fifteen years, and while it is admitted on all hands that he is a learned divine, the fact remains that from an original congregation of about 30 families, the attendance today is limited to three at most.

The congregation includes many of the oldest families in the neighborhood, who claim that they have done all possible to obtain a pastor more suitable to their tastes, but the government of the Episcopal Church is such that grave charges must be laid to place the machinery of the church government in work.

That we, as members of Trinity Church, Thornhill, in the vestry assembled June 9, 1888, hereby declare that our rector, Rev. W. W. Bates, is not fit or suitable person to hold the rectorship of this parish.

That the parish has been declining year by year since he became rector; that fact, which is universally known, speaks for itself.

That Mr. Bates is a mischief-maker and does not try to promote harmony among his parishioners.

That Mr. Bates is a mischief-maker and does not try to promote harmony among his parishioners.

That Mr. Bates is a mischief-maker and does not try to promote harmony among his parishioners.

That he is under the influence of some drug. 4. That Mr. Bates preaches questionable doctrine, and "all his doctrine can be traced to either of two sins, namely, neglect of the sacrament or taking it unworthily."

5. That Mr. Bates slanders members of his congregation. 6. That the rector misrepresents the true condition of his parish to the Bishop, and that he is a "liar."

7. That Mr. Bates, against the wishes of the people and without consulting the warden, removed and partially destroyed church property, viz., the altar rails, sacred to many families.

8. That owing to Mr. Bates' unclerical words, actions and deeds, fully 90 per cent. of the congregation have no respect for him or for any of his clergy, and that after 15 years' trial he has proved himself to be an absolute failure as a rector.

A Communication. Representations of the above statements have been made frequently to Bishop Swainman, and the following communication was received, dated July 30 last, and addressed to the rector.

"My Dear Sir, you study the enclosed list of my confirmation engagements you will understand how little time I have had for anything else, and in August I take the holiday, which I need. I am writing Mr. Bates by this post, requesting him to get in a report on the present state of the church during the holidays. In the meantime, it must be understood, that for any person to conduct a service in the parish, whether in private house or public hall without the sanction of the rector, is quite illegal. It is plain that I shall have to institute a full investigation of the affairs of Thornhill immediately after the holidays.

"(Signed) Arthur Toronto." Chas. W. Langstaff. Several of the congregation were visited by the World yesterday, among them Mr. John Drury, the people's warden, who said that the trouble had originated ten years ago, and during the first year had been unable to get the church books from the rector. Under a new minister, Mr. Drury said, he had no doubt that the church would draw a good congregation and keep itself in good financial condition.

Mr. E. Langstaff, the rector's warden, felt more kindly towards the rector, and thought it better to be investigated by the Bishop, did not believe in degrading Mr. Bates until the charges were proved. "I think, however, that a change is necessary, as many of the people who have left the church will never come back under him," said Mr. Langstaff.

County and Suburban. Toronto Junction, Oct. 10.—(Special.)—Work commenced to-day on a \$100,000 extension to the Cleveland bicycle factory.

Harvest Home services were held in Davenport Methodist Church yesterday, Rev. J. W. Has and Rev. Mr. Bates officiating at the respective services. The church was appropriately decorated.

This evening St. John's school house presented a very pretty appearance with harvest decorations, the event being the annual social of the church members. A program of music was rendered by the choir, and solos were given by Dr. Richardson, Mr. Constantine and Miss Charlton.

Toronto Junction, Oct. 10.—(Special.)—Mr. W. J. Thorold, the well-known dramatist and author, formerly pastor of the Annet-street Baptist Church here, is still with the Julia Arthur company and plays in "A Lady of Quality" at the Grand Opera House to-night.

Alexander Hall, str., a man 82 years of age, was Saturday found in an unconscious condition in his back yard at the corner of Edmund and Pelham-streets. He had been trapped upon by a two-year-old bull, which is usually fed in the yard; but which had got loose. His injuries consisted of a broken rib and cuts about the head.

The Young Men's Conservative Club of West York, met in their rooms in the Thompson block Saturday, and debated the question of "Women Franchise." Speeches were given by Messrs. Baylis, Fawcett and Shipman, and an address was delivered by Mr. J. W. St. John. It was decided to hold their at home in two weeks time.

St. John's Church was prettily decorated Sunday with the products of the harvest field, the orchard, the farm and the vineyard, together with pretty flowers from the conservatory. Dis. A. O. M. O'Connell of Trinity Church, King-street east, preached a telling sermon from the words "Now thanks be unto God, who always causeth us to triumph in Christ." He illustrated the power of God as seen in nature, in the little grain and the fruit around him, and showed how triumphant the lives of men were whose good deeds sprang from the Giver of all good gifts.

A burning sidewalk on High Park-avenue gave the firemen a run Sunday afternoon. The only contested case at the Division Court held here by Judge Morgan, was that of Confederated Life v. Dopfer of Lambton Mills. The plaintiffs sued on a policy given by Dopfer to his company, a premium on a life insurance policy. The company gave him a species of 20 years' pay-life policy, and Dopfer understood it was to receive a 20 years' endowment policy. The evidence of Mr. Oxley, chief agent of the company, and Mr. Evans established that they represented the policy as it was. Mr. and Mrs. Dopfer gave evidence to the contrary, and the judge held in favor of the company, in which they understood a policy with payment at the end of 20 years would be issued. The judge held that plaintiff and defendant were not of one mind as to the subject matter of the contract, and the contract was void ab initio. He reserved decision on whether the giving of the note was such an execution of the contract as to bar the claims of defendant. Mr. Nasmith of Beattie, Snow & Smith for plaintiffs, Mr. A. J. Anderson for defendant.

East Toronto. All members of the East Toronto Gun Club are reminded that the annual meeting of the club will be held this evening at the Ontario House, Kingston-road. Robert McClure, a young man living with his parents on Lyall-avenue, was seriously hurt on Saturday evening while returning from the city. He was wheeling up the Kingston-road cinder path, when he was run into by two scorchers going in an opposite direction, and in falling broke his head. He was unconscious for some time, but managed to get to his home, and is now in the care of Dr. Brown, who hopes to pull him through all right.

Daniel Collins was up before G. W. Ormerod, J.P., yesterday afternoon, charged with being drunk. He was fined \$5 and costs.

S. Ackerman, commercial traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Electric Oil for Indigestion, Rheumatism, and three bottles effected a complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pain, and now out on the road and exposed to all kinds of weather, but have never been troubled with Rheumatism since I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others as it did so much for me."

TRUTH, BUT NO PEOPLE.

Trinity Church, Thornhill, Congregation Refuse to Hear Their Rector.

A Pack of Trouble Brewed—Strong Resolution Passed at a Vestry Meeting—The Bishop to Hold an Investigation—The World Interviews Prominent Members.

The Episcopalians of Thornhill are, to put it mildly, somewhat enraged over a trouble that has existed between them and their present rector, Rev. W. W. Bates, the origin of which dates back some time.

The present rector, Rev. W. W. Bates, has had charge here some fifteen years, and while it is admitted on all hands that he is a learned divine, the fact remains that from an original congregation of about 30 families, the attendance today is limited to three at most.

The congregation includes many of the oldest families in the neighborhood, who claim that they have done all possible to obtain a pastor more suitable to their tastes, but the government of the Episcopal Church is such that grave charges must be laid to place the machinery of the church government in work.

That we, as members of Trinity Church, Thornhill, in the vestry assembled June 9, 1888, hereby declare that our rector, Rev. W. W. Bates, is not fit or suitable person to hold the rectorship of this parish.

That the parish has been declining year by year since he became rector; that fact, which is universally known, speaks for itself.

That Mr. Bates is a mischief-maker and does not try to promote harmony among his parishioners.

That Mr. Bates is a mischief-maker and does not try to promote harmony among his parishioners.

That he is under the influence of some drug. 4. That Mr. Bates preaches questionable doctrine, and "all his doctrine can be traced to either of two sins, namely, neglect of the sacrament or taking it unworthily."

5. That Mr. Bates slanders members of his congregation. 6. That the rector misrepresents the true condition of his parish to the Bishop, and that he is a "liar."

7. That Mr. Bates, against the wishes of the people and without consulting the warden, removed and partially destroyed church property, viz., the altar rails, sacred to many families.

8. That owing to Mr. Bates' unclerical words, actions and deeds, fully 90 per cent. of the congregation have no respect for him or for any of his clergy, and that after 15 years' trial he has proved himself to be an absolute failure as a rector.

A Communication. Representations of the above statements have been made frequently to Bishop Swainman, and the following communication was received, dated July 30 last, and addressed to the rector.

"My Dear Sir, you study the enclosed list of my confirmation engagements you will understand how little time I have had for anything else, and in August I take the holiday, which I need. I am writing Mr. Bates by this post, requesting him to get in a report on the present state of the church during the holidays. In the meantime, it must be understood, that for any person to conduct a service in the parish, whether in private house or public hall without the sanction of the rector, is quite illegal. It is plain that I shall have to institute a full investigation of the affairs of Thornhill immediately after the holidays.

"(Signed) Arthur Toronto." Chas. W. Langstaff. Several of the congregation were visited by the World yesterday, among them Mr. John Drury, the people's warden, who said that the trouble had originated ten years ago, and during the first year had been unable to get the church books from the rector. Under a new minister, Mr. Drury said, he had no doubt that the church would draw a good congregation and keep itself in good financial condition.

Mr. E. Langstaff, the rector's warden, felt more kindly towards the rector, and thought it better to be investigated by the Bishop, did not believe in degrading Mr. Bates until the charges were proved. "I think, however, that a change is necessary, as many of the people who have left the church will never come back under him," said Mr. Langstaff.
