Special Cable to The Toronto World. LONDON, May 13,--In the Verdun fighting the French repulsed the German attack made against Hill 204, and they frustrated and turned into complete failure an attempt by the enemy at a sudden attack on the slope northeast of Le Mort Homme. The Germans violently bombarded the Mort Homme position during Saturday night and Sunday morning, but they ventured on no infantry attack. The bombardment diminished in intensity on the eastern bank of the Meuse on Saturday and on Sunday there was intermittent cannonading in different sectors, but no infantry action.

The artillery on both sides showed quite intense activity in the regions of Prosnes and St. Hilaire le Grand, in the Champagne, South of Roye the French repulsed an infantry attack on one of their trenches in the Loges

Caretaker of Mine Found Women Dead on Return to House.

KENORA, Ont., May 14.—The mur-der of Mrs. Emil Huebner and Miss Erma Huebner, wife and daughter of Emil Huebner, caretaker of the Olym-pia mine, Lake of the Woods, has caused widespread excitement in this town and district. Coroner Kinney and party, who left here yesterday morning for the scene of the tragedy, returned today, bringing the bodies of the victims. An inquest will be held Monday

Little new light has been thrown on the tragedy, owing to the mental shock Mr. Huebner, who has become prostrated over the affair and is now at the Shoal Lake Settlement.

Huebner left home Thursday morning to do some work on a farm he has a short distance from the mine. On starting home Friday his cance was gone and an Indian's cance left in place

gone and an Indian's canoe left in place of it. Two Indians visited him where he was working Thursday and asked for bread. He told them he had not sufficient to last him, but that they might get some at his home. He started for home, arriving there about dusk. The house was in darkness, and on walking into the kitchen he was horrified to find the body of his daughter lying on the floor with a gunshot wound in her right eye, also a wound in the index finger of the right hand, which had severed the finger. Mrs. Huebner's body he found in a pool of blood not far from the door of the office at the Mikado mine. She had been shot thru the hip, the bullet penetrating the authorities. ing the abdomen.

CURRIE ATTACKS PRINTING BILLS

North Simcoe Member Points

By a Staff Reporter.

OTTAWA, May 13 .- At the opening of the house this afternoon, Col. John A. Currie, North Simcoe, called attention to the enormous increase in the cost of printing and distributing departmental publications, and the de-bates of parliament. The amount in a few years had risen from \$330,827 to \$1,807,390. He said this increase re-presented an utter waste of at least \$50,000. He therefore moved the ad-oution of cartain recommendations option of certain recommendations contained in the report of the joint committee on the printing of parliament and before the house on May 11. This report among other things recommended the distribution of all public documents from the government printing bureau, and the establishment of a branch postoffice in connection

At present the reports are carted from the bureau to the various depart-mental offices. There they are pre-pared for mailing and carted again to the city postoffice. Another recom-mendation was that the list of permendation was that the list of persons entitled to receive government publications be revised annually. Thousands of tons of printed matter

Thousands of tons of printed matter are sent out every year to people long since dead, and to institutions that have passed out of existence.

Enormous Duplication.

Col. Currie called attention to the enormous duplication going on in the matter of departmental reports. The trade reports of the trade and commerce department contained precisely the same figures as the trade and never the same figures as merce department contained precisely the same figures as the trade and navigation tables issued by the customs department. There was overlapping and duplication everywhere. If some editorial supervision were exercised and the various departments collaborated to cut down the size of publicarated to cut down the size of publica-tions and avoid duplication, the coun-try, Col. Currie said, would be saved at least \$500,000 a year. Finally attention was called to the

unnecessarily expensive paper used for the agricultural gazette and some other publications. It costs the government nearly \$50,000 a year to correct errors in proofs caused by the carelessness of officials in preparing copy for the printer. Col. Currie said, in conclusion, that at least \$500,000 and, possibly \$1,000,000 could be said by the sibly \$1,000,000, could be saved by the government if it exercised the economy and thrift-in printing and distributing publications which it was expecting the people to exercise in conduct of the private affairs,

Special to The Toronto World.

ST. THOMAS, Ont., May 14.—A large number of out-of-town visitors arrived Saturday for the tulip festival and, with glorious weather and the city looking at its best, they thoroly enjoyed the occasion. The exhibition was brought to a close Saturday with the presentation of the prizes by Mayor W. brought to a close Saturday with the presentation of the prizes by Mayor W. B. Burgoyne of St. Catharines who was a guest of honor. Brief addresses were given by the president of the St. Thomas Society, Dr. F. E. Bennett, Rev. Father West and Rev. Mr. Harvey. A pleasing incident of the flower show was the drawing of a lady's gold bracelet watch, conducted by the Women's Historical Society for Patriotic purposes, on which a goodly sum was purposes, on which a goodly sum was raised, and the winner was Mrs. Latham, who has a soldier son who was wounded at the front, while her husband is going overseas with the 91st battalion. The exhibits were disposed

SCORES LIBERALS FROM ONTARIO

Manitoba Free Press is Quite Outspoken on Bilingual Question.

WINNIPEG, Man., May 13 .- Under he heading "Consequences" the Manitoba Free Press today says the discussion in the commons on the Lapointe resolution will "encourage the minority in Ontario in their defiance of law and will harden the determination of the Ontario authorities to force

their educational program."

The editorial says there will be for a generation reverberations of the de-"In Quebec," it adds, "the French Liberal party will be confirmed in its

Liberal party will be confirmed in its predominance. The overwhelming strength of the French Liberals in that province during the last twenty years has not, however, been an unmixed benefit to the National Liberal party.

Showing its Weakness.

"Its strength in Quebec has been its weakness elsewhere, and the over-representation of one element in the party conferences has had at times an unfortunate effect on its policy. The last thing which the Liberal party needs at the present is something to make it more popular in the Province of Quebec."

In the maritime provinces, The Free Press predicts, the question will have little effect on political developments.

Disaster in Ontario.

"It is," continues the article, "when

we come to consider Ontario that the full extent of the disaster becomes apparent. With one exception, R. E. Truax of Bruce, Liberals of Ontario sup-ported the motion, Two Ontario Lib-erals who spoke, Hon, George P. Gra-ham and Fred Pardee, placed them-selves in an impossible position. The leadership which has reduced the Lib-

eral representation in the Dominion house from Ontario to 14 out of 86 seats is very strikingly revealed by the division list on the Lapointe resolution, and it will continue to work disaster unless drastic steps to right the situation are taken before the next Dominion election.'

Not Look to East. Not Look to East.

The honors of the division in the commons go to the Quebec Conservative members and the western Liberal members, says The Free Press, which continues: "Whatever may be the political consequences of this blunder to Liberalism in Canada at large, western Liberalism will not suffer if it adheres to the independence which its repre-Liberalism will not suffer if it adheres to the independence which its representatives have displayed at Ottawa this week. These developments at the capital must tend to strengthen the feeling which has been growing strongly for years that western Liberals need not look to the east at present for effective and progressive leadership.

Provide New Leaders.

"The time is ripe for western Liberals to decide that they will rely upon themselves, and thus do their own thinking, formulate their own policies, and provide their own leaders."

No Canadian Canoe Regatta This Year

OTTAWA. May 13.—The Canadian Canoe Association, at its annual meeting here Saturday, decided not to conduct a championship regatta this season. The Citawa and Carleton Place Clubs, forming the northern divisions, wished to hold one with a view to encouraging the younger paddlers, but delegates from the eastern and western divisions were opposed and the cancellation of the regatta was finally made unanimous.

of the regatta was finally made unanimous.

Resolutions of regret were passed in connection with the deaths of so many paddiers at the front, feeling reference being made to the late Alex. McKenzle, former single blade champion of Canada, whose death was reported recently, it was also decided to continue the memberships of the clubs, which were in good standing in 1915, and to present another cot to the Duchess of Connaught Hospital at Cliveden.

F. J. Mulligan of Montreal, representing the Grand Trunks, was chosen commodore, with Walter Lamb of Ottawa vice-commodore.

NEW YORK PARADE GREAT SPECTACLE

More Than One Hundred and Fifty Thousand Marchers in Line.

URGE "PREPAREDNESS"

Men of All Classes in Greatest Civic Parade Known to United States.

NEW YORK, May 13 .- New York expressed its attitude on the question of national preparedness today by holding the greatest civic parade in the history of the country. An almost countless host of men and women, estimated at more than 150,000, representing all walks of life in the nation's metropolis, marched for twelve hours, twenty abreast, behind bands playing patriotic airs thru flag-bedecked streets lined with hundreds of thousands of cheering spectators. All the professions and trades which make up the complex life of the city were represented. Two hundred bands furnished the music.

In one division were the street sweepers in their uniforms of white, while in aonther were the dignified justices of the supreme court of New York. There also were the clergy—nearly 200, representing every denomination in the nation's greatest city. Lawyers, physicians, trained muses, veterans of the Spanish-American wat—all were in line. But the most ropular division was made up of the city's 10,000 national guardsmen—infantry, cavalry and artillery—who brought up in the rear. of national preparedness today by

America has ever known in favor of preparedness against elements that are at present unknown."

The great civic army began marching at 9.30 and the last of them had not passed the reviewing stand in Madison Square until 9.40 o'clock in the evening. The mammoth pageant began auspiciously. Just as Mayor Mitchel and a party of municipal officials left the city hall at the head the first division an aeroplane appeared above lower Broadway and hovered around the great skyscrapers. Remarkable Demonstration.

The paraders marched rapidly, more than 10,000 passing a given point within an hour. When the first division disbanded, after walking the full length of lower Fifth avenue to 57th street, the mayor, accompanied by Gen. Wood and Read-Admiral Nathaniel Usher, in command of the New York Navy Yard, left their carriages and took seats in the reviewing stand. Gov. Whitman, who viewed the de-York Navy Yard, left their carriages and took seats in the reviewing stand.

Gov. Whitman, who viewed the demonstration from a flag-draped balcony of the Union League Club, declared it was the most remarkable example of patriotism and civic pride he ever had witnessed.

With few exceptions, the marchers carried small American flags and buttonhole emblems.

MRS. SMALL GIVES KISS FOR RECRUIT

Plants Saccharine "Smack" on Blushing Cheek of Irish Volunteer.

AT THE STAR THEATRE

Eloquent Appeal of Rev. G. R. Adams Brings Response -Must Do Duty.

Kisses for recruits! Conscription will not be needed now. Dr. Norman Allan announced at the Star Theatre last night that Mrs. Small would kiss the next recruit to go on the platform. Amid loud applicate up went a dashing young man, and after introductions to both Mrs. Small and Mrs. Lennox, the wife of the colonel of the fighting Irish, with protestations Mrs. Small paid the recruit with one large saccharine kiss upon his blushing theek.

.The offer was repeated, but the ladies present restrained their eager ladies present restrained their eager escorts, and none too willingly they were led away from the meeting. Should this offer continue there will be few vacant places in the 20%th Irish Pattalion, and many an anxious maiden will give up the effort to keep her boy in "civics."

He urged every man to join the forces, get within striking distance, and send the enemy back to the place he came from. He assured the men if they joined they would be well looked after.

Other speakers were Major Cockburn of the 114th, who will again in the near future leave a wife and four young children to see this war thru; Col. Lennox, Dr. Norman Allan and others. The meeting was held by the 208th Irish Fusiliers and was conducted by Sergt.-Major Donovan

Mr. and Mrs. Edward Birch, 284 Earlscourt avenue, whose eldest son, Pte. E. A. Birch, 2nd Pioneers, C.E.F., was recently killed in France, received the following letter of sympathy from Lieut. R. H. Bishop. "B" company. The letter reads:

"Allow me to express to you my sympathy, and also the sympathy of the men in the company, at the death of your son on the night of April 24-25. "He was a very fine soldier and a most reliable man, also a general favorite with all the men. Since com-ing to France he had been an excep-tionally keen worker and his enthusiasm an inspiration to the men in his section.

"His death was caused by a large shrapnel exploding just where he was working, a large piece entering into his back. He died on the way to the dressing station and was buried in Dicke-busch cemetery by our battalion chap-lain and the members of the company."

STARTS IN WEST TORONTO Two Hundred and Thirty-Fourth

Hope to Raise Four Hundred Men This Week.

The 234th Overseas Battalion, com manded by Lt.-Col, Wallace, which is distinguishable as "Peel Prides," has been given absolute control of the district of West Toronto, in which to recruit; all other battalion recruiting depots in this section have removed. This new battalion has already a strength of 110 men, exclusive of officers, and, judging by the vigorous style of recruiting, this number will increase rapidly.

This week the officers purpose rais ng 400 men from ward seven. A stand has been erected in a vacant field adjacent to their Dundas street recruiting office, from which appeals will be made every night this week, and in addition a thoro canvass will be made during the day, in order to bring their project to a successful conclusion.

Apart from my experience, let me tell the men here tonight, every man between the age of 18 and 45 who is physically fit, that there is a place for him in the ranks. He should be there, fighting, or preparing to fight. There are men, I regret to say, who have not made a single attempt to get into the army, who are dodsing the recruiting officers, but let me tell them this, that if they do not join they will regret it all their lives.

that a change for the better would be brought about. Mr. Asquith's pres-ence here has lent color to the belief that the prime minister had some pro-ject in mind and that this study of conditions on the spot would help him conditions on the spot would help him formulate a definite plan to place before parliament.

The view widely prevails that Mr. Asquith will propose to incorporate the Nationalist and Unionist forces of armed volunteers into the auxiliary troops of the imperial army, and thus troops of the imperial army, and thus avoid the admittedly perilous problem of disarming everybody in Ireland not belonging to the recognized military organizations. At the same time, the opinion grows apace in favor of a real Irish executive council formed of Irishmen entirely conversant with the people and their aspirations and needs. hest should be made out of the situation, and call for concessions by the extremists on both sides, who, they declare, do not represent the true feelings of the Irish people.

The vast majority of Irishmen, in conversing on the present position, avoid any wild talk and appear anxious to appease the differences existing between the various parties by agreeing on any plan which offers a fair chance of a stable government in which all could have confidence.

Deep sorrow prevails among the people of Dublin, many of whom lost relatives either among the rebels or

relatives either among the rebels or troops during the fighting, or among the civilians who suffered death from stray shots. Many reports are current concerning the alleged harshness of the troops, but so far as can be learned liese appear to have arisen from exaggerated stories passing from mouth mouth. The trials of the few remaining mer

accused as rebel ringleaders, who are to be dealt with in Dublin, are being proceeded with rapidly by the court-martial. It has been learned from the adjutant-general that several promi-nent men accused of complicity in the bellion were acquitted by mi judges because evidence of such com-plicity was not produced, altho the circumstantial testimony is said to have been of the strongest character.

Edwin Coombes, 67 Shuter street, died about noon yesterday while on his way to St. Michael's Hospital in the police ambulance, the police believe, from an overdose of medicine which he had ontained from Dr. Dickson. Shuter and Victoria streets, Saturday night.

Coombes was said to be suffering with pneumonia and the medicine prescribed was a teaspoonful every four hours. Calling at the house later, the doctor found the medicine bottle empty. It is thought that Coombes, feeling worse, took the contents of the bottle at once in the hope of getting speedy relief.

Semi-Annual Stocktaking Sale

Continuing Monday, May 15th

Our stock is very much larger than it usually is at this season of the year, caused by late deliveries. During the past few weeks import shipments have been the largest in our history.

Our policy is to clear out all lines we possibly can previous to our new season's business, and, therefore, we are now prepared to sell new seasonable goods for immediate shipment at prices greatly below market values.

> "Talk-Talk," the new Canadian musical comedy, which met with public approval on its first presentation here some weeks ago, will be the offering at the Grand Opera House all this week, with the same big cast of principals and chorus which was seen in the original production. The comedy is not a review, but contains an interesting story of western Canada, introducing a train hold-up and enabling the writer to present his chorus, who are traveling as the guests of a newspaper, who has sent the party west in fulfilment of a publicity campaign in which the young ladies have won out in a beauty contest. There are a number of pretty musical numbers interpolated, and the production is one that would compare favorably with American offerings seen here at a high scale of the display of that humor which is peculiarly his own. This is a really rollicking comedy. Then there will be genuine pictures of the German cruiser. "The Emden," as she lies battered and beached at Cocos Island, after her vivil be shown. their third week at the Alexandra The-aire tonight, in Catherine Chisholm Cushing's farce-comedy, "Widow By Proxy." The story has to do with Gloria Grey, a daring and fascinating young woman, who has been taking care of a friend, recently widowed. A legacy awaits this friend if she will call on her husband's relatives. But those relatives had been unpleasant to her during her husband's life. Under the circumstances, she will not call on them. Gloria then poses as the widow, and the fun is on. But we won't tell you all the story. Miss Frances Neilson will be seen as Gloria Grey. Mr. Robins will enact the role of Capt. Pennington, a stern middle-aged bachelor, who falls in love with the supposed widow. The amusement tax starts tonight. The tax levied on the Alexandra is as follows: On all 25c and 50c tickets the tax is 2c; on all 75c and \$1 tickets the tax is 5c. The regular matinees will be given on Wednesday and Saturday.

SEEDING IS DELAYED

Late Spring is Responsible for Slowness in Plant-

ing.

OTTAWA, May 14.—The census and statistics office has issued in the form of a press bulletin, the first crop report of the present season. It deals with the area and condition of the fall wheat crop, the condition of hay and clover meadows at the close of the winter and the progress of spring seeding up to the end of April.

Owing to the heavy fall of snow during the month of March, which protected the young plants from the spring frosts, the fall wheat is reported as being in exceptionally good condition at the end of April. In Ontario, where \$20,600 acres were sown, as estimated last fall, not more than 5.6 per cent. Is reported as winter builded, and in

5.6 per cent. is reported as winter killed, and in Alberta with 260,500 acres estimated as sown, the propor-tion winter killed is placed at 4.9 per cent. These proportions are lower than in any previous year on record, for these provinces. In 1914 the percentage winter killed was 19 in Ontario and 15.6 in Alberta, while last year it was 6.8 in Ontario and 6.2 in year it was 6.8 in Ontario and 6.2 in Alberta. The area winter killed this year was 45,800 acres in Ontario and 12,800 acres in Alberta, as against 71,000 acres in Ontario and 14,300 acres in Alberta last year. The area of fall wheat to be harvested this year is placed at 774,800 acres in Ontario, 247,700 acres in Alberta, 9400 acres in Manitoba, 4100 acres in Saskatchewan, and 6200 acres in British katchewan, and 6200 acres in British Columbia, being a total for the Do-minion of 1,042,200 acres, as against 1,208,700 acres in 1915 and 978,800 acres in 1914.

acres in 1914.

Large Yield Forecast.

The general condition of the crops on April 30, which, measured by the standard of 100 as representing a full crop, is 30 in Ontario, as compared with 93 last year, and 78 in Alberta, as compared with 88. For Ontario the figure was only surpassed last year and in 1910. The condition for the whole of Canada on April 30 was 88, figure was only surpassed last year and in 1910. The condition for the whole of Canada on April 30 was \$8, which converted into a standard of 100 as representing the average condition at the same period for the seven years, 1909 to 1915, indicated a condition of 108, or an anticipated yield per acre of 8 per cent. in excess of the seven years' average, provided that conditions between now and harvest time are not abnormal.

The proportion of hay and clover meadows winter killed proved to be unusually small, being only 3.5 per cent. for all Canada, as compared with 10 per cent. last year, 14 per cent. in 1914, and 22 per cent. in 1913. The average condition was 92 per cent. of the standard or full crop, as compared with 91 per cent. last year, 86.7 per cent. in 1914, 89.6 per cent. in 1913, and 74.6 per cent. in 1912.

Seeding Retarded.

It is as yet too soon to report on the maritime provinces. The spring is late, and the general conditions in Quebec and Ontario are not favorable for early planting. Last year on April 20 it was estimated that 68 per

for early planting. Last year on April 30, it was estimated that 68 per April 30, it was estimated that 68 per cent. of the planting was completed, as against 27 per cent, this year. Of spring wheat this year 1.8 per cent. of the estimated acreage was sown in Quebec, 4.3 per cent. in Ontario and from 26 to 80 per cent. in the middle west, being 26 per cent. in the middle west, being 26 per cent. in Manitoba, 36 per cent. in Alberta. In 1915 not more than 8 per cent. of the acreage under wheat remained to be sown after May first. The qualities of oats and barley sown at this date are also relatively small.

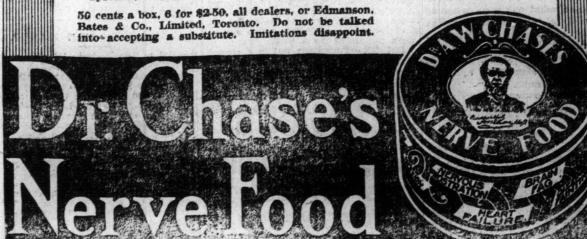

Nervous Prostration

Mrs. Conrad Schmidt, R.R. No. 1, Milverton, Ont., writes : "Two years ago last spring I was run down, had nervous prostration, and was in a terribly nervous condition. I could not sleep or eat, could scarcely count the nights that I passed without sleep, and if I did eat, had sick headaches and vomiting spells. My limbs would swell so badly that it hurt me to walk. I would jump up in bed, awakened by bad dreams. In fact, I was so bad, thought I could not live, and started to use Dr. Chase's Nerve Food without much hope. "It was not long before I began to improve under this treat-

ment, and I can truthfully say it has done me a world of good. It took some time to get the nervous system restored, but I kept right on using the Nerve Food regularly, and gradually gained in health and strength. I have a fine baby boy now. He weighed 12 lbs. at birth, and, though my friends were anxious after the condition I was in, I got over that fine, and now weigh 120 lbs. Before using the Nerve Food I was a mere skeleton."

The original of this testimonial is on file in our offices for your inspection, or you may write to Mrs. Schmidt for confirmation of her cure.

This cruiting, may be having its effect in means that Mr. Hannigan must have the proper quarters, but it is not rebeen the willing mouthpiece, or per- ceiving the amount of attention it haps the innocent mouthpiece, in the should from the people generally. He first place, of an idea which was evenbegan by considering the statistics of frid Laurier has decided to "appeal to letter sent to Mr. Hawkes last week Council. It is well-known where Mayor that as Col. The idea is too crude and absurd to stand alone, so it is wrapped up in an stack upon the Ontario Government that my purpose was not to discourage eyes of the English-speaking people measures for dealing with the economic s lamentation over the woes of the poor tax-payers, and other matters which serve to conceal the true object. We may let the political expect of the province the stand which he has taken on the school question. The date on which the address will be delivered has not yet been definitely devoung country. We may let the political aspect of it go, so far as it is concerned with Mayor Church's political aspirations, was thirty-eight and increasing daily. until they develop, when it will be time enough to deal with them.

The lamentation over the woes of the tax-payers is merely an attempt to conceal the true authors of these woes. We often hear it stated that the pacifists are the true authors of the war. and in the same way it is not difficult to show that the so-called economists are the true authors of high taxes. Now that this is becoming evident to everybody, the desperate measure of the repudiation of Ontario's share in the hundare of the partial classes of the population. the burdens of the war has originated on certain classes of the population in the brilliant brains behind Mayor and not on all. He has recommended Church as the next best method of the eyes of the voters.

We have not the slightest objection to Mayor Church entertaining any aspirations which he may think himself worthy to materialize. What we do object to, and what the great city of Toronto must and does object to, is his having taken the liberty to defame and disgrace the fair fame of the city by attempting to lead a revolt against the truest and purest impulses to which the country. We believe there are On his recruiting tour thru Quebec he the Province of Ontario has given expression

There are two points in this connection upon which we should like to lay stress. First of all is the fact that the people never objected to the war tax. In a year when the usual city taxes were higher than usual, for reasons upon which we complimented has given warning, the country must Mayor Church for having made an be prepared for a fourth year or war. have some legal or constitutional reason why they should keep it. It is not the average man who objects to the tax, but the curmudgeon, overburdened with wealth, who hates the idea of parting with a cent that he can avoid. The man with \$250,000 worth of real estate and reasonably assessed will find himself put to the necessity under the war tax of disgorging \$200 or \$250, or \$500 if he has a half million assessment, and while it is not so much to him as the \$8 from the man with his own small home. he is so immersed in the love of his wealth that the loss of a few hundred dollars, for however worthy a cause, gives him a heartache.

The Sunday of the Pos tributes in taxes nor in supecriptions a cent that he can avoid. The government tax is a fair and equitable tax. therefore, because it falls on all alike according to their means. The wealthy are the only squealers.

Mayor Church suggested that the government should collect its own tax. This showed just how much consideration he had for the poor taxpayer. It would cost as much as the tax itself to collect the war tax separately. It was a common sense plan to have the municipalities collect it, thus saving the expense of a second collection. But Mayor Church and his party have no true sense of economy. All they desire is to save their own money, and let the next generation pay for their shortcomings.

Speak to Men of Wealth.

While in the United States the French ambassador at Washington asked Madame O'Gorman to speak to several men of wealth, who were anxious to do something financially where it was most needed. One of these, after hearing her account, gave \$15,000 for the hospitals.

Tho Madame O'Gorman represents the French Wounded Emergency Fund, it is simply the needs of the hospitals that she wishes to emphasize. As the war goes on, the needs increase proportionately. When she speaks at Foresters' Hall, on Monday evening, under the Secours National, with the cooperation of other societies, the subject of her address will be the needs of the hospitals. Every detail is known to her, because the organization she represents has delegates who make frequent rounds of these institutions and report on the findings. 10.00 tion she represents has delegates who make frequent rounds of these institutions and report on the findings of their tour of investigation. ST. WM. SPARKS DROWNED IN BAY SUNDAY MORNING

Body Was Found by Two Young Men at Foot of York Street -Hold Inquest.

The body of William Sparks, 79 Hamilton street, 58 years of age, was found in the bay at the foot of York street about 11 o'clock Sunday morning, by Percy Dunk, 71 McPherson avenue, and Walter Birch, 15 Somerville Gardens.

The men immediately notified Mait

Aykroyd, who recovered the body and tried to resuscitate Sparks. The fact that Sparks' watch was still running when the body was pulled out of the water leads the police to believe that he was in the water only a short time. The body was removed to the morgue, where it was identified by Sparks' two sons. An inquest will likely be held.

HUGHES DEFENDS CARTRIDGES' SALES

Vigorous Exchange Thrusts at Saturday's Sitting of House.

STILL BACKS ALLISON

Retains Faith in Hughes Colonel Despite the Recent Disclosures.

By a Staff Renorter.
OTTAWA, Ont., May 13.--Maj.-General Sir Sam Hughes came down to the house of commons this afternoon in fighting mood and soon crossed swords with Sir Wilfrid Laurier upon the merits of Colonel J. Wesley Allison. Colonel Allison, he said, had been the bosom friend of Sir Wilfrid Laurier,

and this he insisted upon in spite of Sir Wilfrid's denials. "I am not one of those who go back on my friends," the minister declared vehemently, and added that Colonel Allison had more honor in his little

finger than the auditor-general had in his whole carcass. He also broadly intimated that Colonel Allison was held in higher esteem in this country than Sir Wilfrid Laurier.
Sale of Cartridges.
The subject in dispute was the sale of cartridges to the Vickers Company, Limited, which, by the way, is already under investigation by Sir Charles Davidson. Gen. Hughes said the sale of the condemned ammunition to the Vickers firm for use in testing ma-chine guns had released a large quantity of good English ammunition for use at the front. No commission or any rake-off had been paid. Col. Al-lison was the agent of the Vickers' firm, but the purchase price was paid by the Vickers people into a London bank to the credit of the receiver-gen-eral of Canada. The general then ad-ded significantly that no defective am-munition would ever be furnished Can-

munition would ever be furnished Canadian soldiers as long as he was minister of militia, and he was going to be the minister until he went out. In a clash which followed some re-mark by Mr. Carvell of Carleton, N.B.

Sir Sam brought down the house by saying, "I do not personate people in New York or hire dirty blackguards to steal papers."
Would Censure Hughes. Upon motion to go into supply Judge Mackenzie (North Cape Breton and Victoria) moved in amendment a motion censuring the minister of militia for selling 3,000,000 rounds of ammu-nition since the opening of the war to Col. J. Wesley Allison, without the senction of an order in council, and

called upon the government to have

the entire subject investigated by the Meredith-Duff commission.

Mr. Mackenzie said that the militia Mrs. George Dunstan. Brantford. has 5,000,000 rounds of cartridges, but returned from spending a few weeks in only 2,000,000 had been delivered. The but who was, after all, an officer di-Mrs. Tom Wood is leaving for Montreal to visit her parents, Mr. and Mrs. Raphael.

master-general, written in the fall of 1514, advising against the sale of any ammunition during the war. Mr. Mackenzie personally doubted if any ammunition should have been sold in war time in view of the possibility of an invasion. At any rate, no such sales should have been made except an invasion. At any rate, no such sales should have been made except by order in council.

No Order Made.

In the fall of 1915, according to letters read from the return table in the house, a correspondence began be-ween J. Wesley Allison and the militia department, which constituted the contract of sale. The first cartridges were shipped via the Corinthian to McVicker's House, Broadway, London. Cther shipments followed, until 3,000.-600 were delivered. Then the auditor-general asked for a copy of the order in council authorizing the sale. No such order apparently was ever made. An order in council had been prepared, but either it had never been presented to his royal highness, or, if it had, his royal highness had declined to sign it.

Challenge to Hughes.

It was up to the minister of finance in Mr. McKenzie's opinion to produce the order-in-council if it had ever been approved, and if it had not been approved it was up to the prime minister to deal with the minister militia and defence in acting illegally River. However, it had been sold for in making the sale. No one knew \$20, which was the cost price, and not it was reported that they had been resold at a profit to the imperial government by Col. J. Wesley Allison. The brittle thread of the government's existence, and it was indeed brittle, seemed to be in the hands of J. Wes-

Continuing, the prime minister said that he was glad to see that the Liberals were now satisfied with the Meredith-Duff commission. Personally he was satisfied with both commissions. But he had referred this particular subset to State Particular subset sub particular subject to Sir Charles Davidson because it was the duty of Sir

Charles to investigate the expenditures of Canada, while the Meredith-Duff commission was constituted to investigate certain expenditures made by the United Kingdom. There was no mystery involved in the transaction.

Should Have Been Burned.

The ammunition had been condemned, and under military regulations should have been burned or drowned Limited, however, had purchased the same for use in trying out their machine guns. The price \$20, was a fancy price due to the war. The government had tried to sell the ammunition before the war for \$12.50, but the liest price obtainable was \$10. The est price obtainable was \$10. The

Sir Wilfrid said that the governmen could not evade its responsibility. If the transaction was all right they should go ahead and get the order in council signed. If it was all wrong, they should disavow it. He said that

the charge ought to go to the Mere-dith-Duff commission instead of to Sir Charles Davidson. The only legal counrectly under the command of the minister of militia Need an Ambulance.
Sir Sam Hughes said he was delighted to see that Sir Wilfrid Laurier was able to be about. He would have trouble, in view of the political troubles lie has been passing thru that he would have to be brought from his home to the parliament building in an ambu-

lance. If he was really as strong as he looked, he had better go down to Que-bec and get some of his fellow-countrymen to enlist. Sir Wilfrid, he said, had been very eloquent in Quebec in 1836, when he told the French-Canadians to trust him because he was a Catholic and Tupper was a Protestan and at the same time was telling the people of Ontario that he favored Hands off Manitoba Hughes Throws Taunt. Every deal which the minister and Col. Allison w interested, he said, turned out to tricky, and every dirty trail led to lison. He practically charged that

government had been forced to appoint the Meredith-Duff commission by the governor-general, a statement that Sir Robert Borden at once indignantly repudiated. Promises Sensations.

Referring to the insinuation by the minister that he (Mr. Carvell) had personated people and stolen papers, Mr. Carvell said he would not be drawn aside from the main point by any per-sonal controversy, but added the minister would get his answer in a day or two. He admitted having gone to New York to look up the record of the minister and of J. Wesley Allison. He soon found that the minister was try-ing to load him up and get him on the wrong scent so he at once retained W. Travers Jerome and two other prominent lawyers. Thru detectives these firms obtained affidavits which

would make the minister of militia jump when they were published. Sir Sam Hughes: "When this is all cleared up I won't need to blush and if the member for Carleton doesn't blush it is because he has a rhinocero hide on him.' The debate was continued by Hon. C.

NEWFOUNDLAND FEARS CUT IN PRICE OF FISH

Portugal's Action in Fixing Maximum Food Prices Causes Uneasiness.

ST. JOHN'S. Nfld., May 14.-Uneasiness was felt in fish exporting circles here today upon the receipt of nformation that the Portuguese Government had intervened to fix maximum prices for food products in that country. The rates announced for fish are much less than the selling price of cod recently shipped to Portugal. Dealers claim that the stocks now held and intended for shipment to Portugal in the near future will have to be sold at a heavy loss, and that the effect of this situation, reacting on the general fishery prices, will tend to a reduction all around.

LEAFS WILL HAVE NEW MEN IN LINE UP TODAY

Red Murray and Catcher McKee Work Against Newark-Manager Promises a Winner.

The Leafs arrived home yesterday not the least downhearted after their disastrous opening trip. Manager Joe Birmingham declares he will give Toronto a winner and just asks the fans to watch them. Three rew men, Catcher McKee from Detroit, Red Murray, late of the Glants, and Pitcher Shocker or Piercy will be here today. McKee or Kelly will catch. McTigue or Herbert will pitch. Murray will be in right field and Birmingham himself in centre. Truesdale 2b., Elackburne s.s., Graham 1b., and Trout 3b. are the regulars left.

Pieh, Schacht or Enzmann will work for Newark. Play ball at 3,15.

Business Manager Arthur Irwin is also of the opinion that the Leafs will soon take a spurt upward like his famous Toronto team that went from eighth to second in two months, and then beat Syracuse for the Steinert Cup. Manager Birmingham is of the opinion that the Newark Indians are traveling past their gait, and are due for a drop soon.

Five bands will furnish music at the ball game at the Island Stadium this afternoon when the Newark Indians open the local season. The Royal Canacian Horse Artillery of Kingston will be the guests of the City of Toronto. They have brought along their regimental and bugle bands. The 180th Sportsmen's Battalion, with regimental and bugle bands, will also be on the job. The usual ceremonials attendant upon the opening game will be staged, and altogether it looks like the biggest inaugural ever attempted by the local management.

The Leaf management took a prominent part in the recruiting activities of the Sportsmen's Battalion, and Lieut.-Col. Greer, commanding officer, himself a former University of Toronto baseball star, will take part in the lid-prying process. The battalion will parade in the field before the game.

Leafs Scored Only One Run in Last at Richmond

RICHMOND, May 12 .- Richmond made the score of 7 to 1. McQuillan was hit at opportune times, while McKenery, recently secured from the Cincinnati Reds, was effectivethruout, three of the five hits off him being made in the seventh when one run was scored.

Toronto's only run came in the seventh when Graham tripled and Brackett singled.

Richmond took a lea din the second, scoring two runs on three singled.

ARGOS WILL HOLD REGATTAS AS USUAL

At least fifteen junior and five senior members joined the Argonauts last week and are indulging in daily iaunts on the water in fours and eights.

A number of new scullers are in prospect, the latest being Henri de Leeuw, who has purchased Putler's shell.

Present prospects point to a successful year at the Argonauts despite their 150 members away to the war.

Princeton Wins Eight-oared Race at American Henley -The Results.

PHILADELPHIA, Pa., May 13.—The Columbia University Varsity eight-oared shell crew was forced to take the wash of Princeton and the United States Naval Academy in the Childs Cup race, the feature event of the states of the stat feature event of the annual American Henley Regatta on the Schuylkill-River this afternoon, before a record-breaking throng of 50,000 spectators.

After holding a slight lead to the quarter-mile post, Columbia was passed by Princeton, with its snappy, high stroke, and the New Yorkers were never again in the hunt for first place, being forced to struggle in the closing half-mile with the Middies, only to fall back just at the finish, a length behind Uncle Sam's proteges. The time of the race was 7 minutes flat, a full 35 seconds slower than the record, but exceptional time, nevertheless, as the conditions of tide and wind were against record-breaking.

The Childs Cup race originated in 1879. tide and wind were against record-breaking.

The Childs Cup race originated in 1879, and has grown to such importance that it rivals the intercollegiate regatta at Poughkeepsie in significance. In addition to the Tigers, Navy and Columbia, Penn's crew, which a few weeks ago beat Yale, was also in the race, but was hopelessly beaten.

Pennsylvania, while rowing a high stroke, had fallen behind and was splashing badiy. The red and blue tried to brace and sprint, but the men could not get together.

NEW YORK, May 14.—The steamship Manchuria, which sailed from London May 2, docked at Pier 58, North River, of the Atlantic Transport Company early yesterday forencon. She brought over twenty-one thorobreds from August Belmont's French breeding establishs ment—eight 3-year-olds and thirteen yearlings—all bred by the chairman of the Jockey Club.

Peculiar interest is attached to this shipment because it included three yearlings by Mr. Belmont's famous racehorse Tracery, by Reck Sand out of Topiary. Three of the 3-year-olds are sons of Tracery's great sire, Rock Sand, and the other five are sons of the good racehorse lithelbert. The yearlings, og which eight are colts and five fillies, are by Tracery. Aleantara, Flint Rock, Ethelbert and Negofol.

Besides Mr. Belmont's lot, the Manchuria brought over four thorobreds for John Sanford and three for Thomas Hitchcock and five thorobred steeple-chasers for Edward Burke, who last season achieved an enviable racing record with his fest chaser. SALE OF THORNCLIFFE HORSES. The sale of the Thorncliffe Stable having been decided on by the executors of the estate of Mr. Robert Davies, a lot of valuable racing material will be offered at Woodbine on the morning of May 22, the second day of the Ontario Jockey Club meeting. Buyers will thus have an opportunity to utilize their purchases early as the stable is carried on as a going concern up to the sale, and Trainer McDaniel is preparing his charges just as if they were going to run in the old colors instead of in new. Among the twenty head to be offered are eight Caradian-bred two-year-olds, whose whole career is before them and who have to show their qualities in races to come. The opportunities for Canadian-breds are increasing at a rapid rate, and there should be keen competition for these well-bred and good-looking youngsters. Two of the older horses, Starcress and Matt H., have been schooled over the jumps, and look like good steeplechase material, for which there is plenty of demand.

Lemberg, Dead Racer, Was Leading in Last Lap—New Twenty Mile Record.

NEW YORK, May 13.—Carl Limbers, an automobile racer, and R. Pallotti, his mechanician, leading the field in the finish lap of the 150-mile race for the Metropolitan trophy, were killed when their machine crashed into a guard rail on the Sheepshead Bay track this afternoon. Limbers, who had been taking the turns near the very top of the high saucer track, apparently lost control of his car while rounding the bend at a speed of more than 100 miles an hour. Both men were catapulted 100 feet over the rail and crashed to the ground about 30 feet below. The driver was impaled on an upright piece of timber and was killed instantly. Pallotti died on the way to the Coney Island Hospital.

The machine, one of three French cars

impaled on an upright piece of timber and was killed instantly. Pallotti died on the way to the Coney Island Hospital.

The machine, one of three French cars imported for the race by Harry S. Harkness, crumpled up under the impact and burst into flames. The blazing carclung to the rail as the other drivers flashed past without slackening speed, ignorant of the fate of their fellow racer. A flash of flame and a cloud of black smoke told the spectators that an accident had happened, but as it occurred at the far turn of the two-mile saucer, few realized that it marked a tragedy.

Limberg's wife was in the grandstand. As the other cars dashed by she missed her husband's machine and realized that he was the victim of the accident. An attendant escorted her from the stand and an automobile carried her to the hospital, as she was told Limberg had been taken there. Not until she reached there did she learn that he was dead. Eddie Rickenbacher was an easy winner of the trophy in 1 hour 32 minutes and 31 seconds, an average of 96.23 miles an hour for the 150 miles. Jules Devigne finished second in 1 hour 35 minutes and 1 seconds, and Ira Vail third in 1 hour 38 minutes 44.68 seconds.

A new world's record was established in the 20 mile race by Johnny Alken, who won this event in 11 minutes 16 seconds. The previous record was established on the same track by Dario Resta in 11, 24.50.

WHEAT RISES THRU **DAMAGE TO CROPS**

Reports of Hessian Fly Ravages in Kansas Stimulate Chicago.

EXPORT SALES MADE

Purchases by Two European Governments Stiffen Up Values.

CHICAGO, May 14.—Anxiety in regard to Hessian fly damage, especially in Kansas, had a decidedly bullish effect Saturday on wheat. As a result the market closed firm at 1c to 1%c advance, with July \$1.17% and September \$1.17%. Corn finished 4c to 4c up. Oats unvisions with a gain of 7½c to 50c.

According to a well-known authority, the apparent sudden breakdown of the Kansas wheat crop promise was almost entirely due to Hessian fly, rather than to drought. This opinion seemed to have much greater influence on speculators than did showers in parts of Kansas and Nebraska, or did predictions of further moisture in sections where dry weather has been the subject of serious complaint. A moderate early decline in prices was accordingly of short duration, the market for the rest of the day showing unmistakable signs of strength. The fact that the rains had not fallen in the chief producing sections of Kansas acted as a palpable hindrance to the bears.

Evidence of liberal sales here for export, the first instance in a long while that such sales have been consummated, gave increased firmness to the wheat market late in the session. It was said in this connection that two foreign governments were after wheat at the seaboard, and that heavy clearances were expected next week.

Seaboard demand included corn, as well as wheat. The corn market was bullishly affected also by lightness of receipts and by rains, that caused delay to planting.

Good weather for the seeded oats, and entirely due to Hessian fly, rather than

and by rains, that caused delay to planting.

Good weather for the seeded oats, and the large acreage, were factors in the oats markets. Weakness, however, was not pronounced, and disappeared entirely before the close. There was some export enquiry, but little was worked.

Highest hog prices this season were mainly responsible for an advance in provisions. Lard received the bulk of attention, as there were reports of big purchases for Belgium. The week's shipments of lard and meats exceeded the corresponding totals of a year ago.

WEEK END MARKET

Toronto Exchange Broadens Out and Several New Features Appear in Trading.

There was a big market on the Toronto Stock Exchange Saturday morning, and the dealings showed continued buoyancy. The heavy transactions were in Smelters and Dominion Steel. These shares were strong and higher in the early business, but week-end profit-taking forced the prices down at the close. Barcelona, Bread, Russell common and General Electric were the new features, advances being made in each case. Cement, Steel, Mackay and Nova Scotia Steel were steady. In the mining section West Dome and McIntyre monopolized most of the business, both stocks selling at advanced prices. An exceptionally good undertone exists in the market, and trading promises to continue on broad lines.

STOCKS BOUGHT FREELY AND ON LARGE SCALE

Montreal Market Had Firm Tone Tho Prices Were Irregular.

MONTREAL, May 14.—Heavy profittaking sales induced by the week's rise save the local stock market an irregular appearance at the close on Saturday, but the undertone was decidedly strong through a large scale. Smelters were again the feature of the market, transactions being 6000 shares. The stock opened with an overnight rise of 1½, selling at 45, added ½ and then borke to 42½, rallying only ½ in the final trading.

Steel of Canada rose to 62½ and closed at 62½ with a net of gain of ½. Cedars advanced 1½ to 79½ and closed strong at 79½ bid, while the allied stocks, Montreal Power and Shawinigan, in quieter markets, each finished ½ higher at 24¼ bid and 132½ bid, respectively. Iron was mildly reactionary, selling off ½ to 55½, and Lyall, after a 3-point rise to 76, finished with only ½ point of the advance retained. General Electric was a stronger stock, rising 2¼ to 113½ closing at the best, but Car reacted 2 and Locomotive and Bridge were fractionally lower. C. P. R. sold 3½ higher at 176.

NEW YORK COTTON.

ST. LAWRENCE MARKET.

There was a big market on the St. Lawrence on Saturday, and like the previous week, it was quite brisk; most of the produce being sold by noon.

There were a few spring chickens brought in, and these proved a ready sale, as the retail merchants wanted them, and paid 60c per pound. Last year's chickens sold at from 25c to 30c per lb., while the boiling fowl brought 24c to 26c per lb., and turkey from 25c to 30c per lb.

DELAWARE POTATOES RISE

Cucumbers Were Late Arriving at Wholesale Saturday and

There were not any cucumbers on the market on Friday and Saturday morning, and as the demand was keen, they would have commanded higher prices, but the Saturday shipments did not arrive until noon, when most of the week-end trade is over, so they remained about stationary in price, at \$2 to \$2.25 per 11-quart basket.

ary in price, at \$2 to \$2.25 per 11-quart basket.

A large quantity of the asparagus was also lata in arriving, which affected the sale of it, also. The best quality sold at \$1.75 to \$2.25 per 11-quart basket, the bulk going at \$2, while some inferior grades went as low as \$1 per 11-quart basket.

The new arrivals of Texas Bermuda onions advarced in price, selling at \$2.50 per crate, but there is still quite a large quantity of the older arrivals on sale at \$2.25 per crate for the yellow variety and \$2.40 for the white.

New cabtage continues to be high-priced, selling at \$4 per case.

The choice strawberries on sale brought 18c to 20c per box, while the poor quality ranged from that price down.

New Brunswick Delaware potatoes again advanced slightly, selling at \$1.85 to \$1.90 per bag.

A. A. McKinnon had a car of New Brunswick Delaware potatoes, selling at \$1.85 to \$1.90 per bag.

McWilliam & Everist had a car of Porto Rico pineapples, selling at \$3 to \$1.25 per case; also a shipment of Spy and Baldwin apples from G. B. Baker of Georgetown, the Spys selling at \$1.25 to \$1.50 per box, and the Baldwins at \$1 to \$1.25 per box.

H. Peters had two cars of new cabbage, selling at \$4 per case; a car of strawberries selling at \$4 per case; a car of strawberries selling at \$4 per case; a car of strawberries selling at \$4 per case; a car of strawberries selling at \$4 per case; a car of strawberries selling at \$4 per case; a car of strawberries selling at \$4 per case; a car of strawberries selling at \$4 per case; a car of strawberries selling at \$4 per case; a car of strawberries selling at \$4 per case; a car of strawberries selling at \$4 per case; a car of strawberries selling at \$4 per case; a car of strawberries selling at \$6 per box, and a car of late Valencia oranges, selling at \$3.50 to \$5.75 per case (desirable sizes).

coursed at this end of the lake. The conglomerate in which good values nust be looked for, has proved much deeper than was believed possible, and an ore-shoot of from six to eight inches of very rich silver has been opened up, and milling rock added to the reserves reported on at the end of 1915. At that date Nipissing's oroserves were given as around 9,000,000 ounces, or 1,000,000 ounces less than at the close of the preceding year. Despite the heavy shipments consequent on the price of silver, it is now believed that at the close of 1916 a different story may be told.

Having regard to the lifetime of this end of the Cobalt camp, it must be remembered that Chambers-Ferland, City of Cobalt and Cobalt Lake have not the heavy shipments to their credit that some of their neighbors have. Their ore deposits were late in arriving and the geological work undertal results.

J. A. MacViohie was formerly mine coupsing at the Timiskaming and the A. Timiskaming and the hands of individuals, where

J. A. MacVichie was formerly mine of that property. When City of Co-balt was a discredited property, he took charge of it and was responsible for the discovery of some rich veins there; then he was asked to take charge of the Chambers-Ferland. He now has the satisfaction of knowing that one of the "unpleasant" surprises of the early Cobalt flotations is coming into its own under his superintend-

The Cobalt disappointment seemed to be the fate of Chambers-Ferland. Butting up against the wonderful riches of La Rose and O'Brien, and the productive Meyer vein system of the Big Nip, little Right of Way had always made Chambers-Ferland look as small as the promotion of the second as small as its name is big. Occasional shipments had been made, but, in ooking for values in the extensions of (none to big as happened in most early Cobalt flotations) never permitted of

However, a few weeks ago this property lcoked good to local speculators, and the block of C.-F. stock looks as if it might redeem the English company which has control.

After assuming charge, Mr. Mac-Vichie started the No. 4 shaft on the west corner of the property, and at a depth of 350 feet ran a crosscut for a distance of 1400 feet. At an upper level, viz, 275 feet, he had cut a strong six-inch vein, but practically no values. This is known as vein No. 15. Now, at a depth of 425 feet, this vein has a width of three to five and a half inches of enormously rich ore. The vein is in the

this vein in rich ore. Vein No. 14 is a 2-inch vein, on ed. The ore will average 1500 ounces to the ton, and one car has been shipped from it and another 20-ton car ready. This also was located on the 425-foot level, and a winze has been sunk to a depth of 460 feet, the point of contact.

Nipissing averaged 50 cents an ounce for its silver last year. The present price of the metal means that Chambers-Feeland got what it wanted, when it wanted it.

A jump from the north to the south end of Cobalt No. 1 takes us to Kerr Lake mine, a property which has paid

in dividends six and one-quarter million dollars, or at least six times more than there was any justification for the capitalization that its then owners gave it. Such, however, is the great part that chance plays in the early days of a mining camp. Kerr Lake has paid the six and a quarter million dollars, or one hundred thousand dollars more than its neighbor Crown Reserve, and unlike this neighbor, is still a great mine. Last year its production amounted to over two million ounces and cost of production is given in its last annual report as 10 cents and one-half million ounces. The dis-govery of several rich surface veins on the shores of Kerr Lake, and the taking over of the Drummond, have Increased the tonnage of mill rock that it is safe to prophecy that these Already been opened up by under- Miner,

Mining Notes

The Sovereign Porcupine Gold Mines, Limited, will start work on the claim which lies south of the undeveloped prospects of the Canadian Mining and l'inance Co, and between the Vipond and the Success. The claim was taken over from the old Crown Chartered Co., who had done some stripping and commenced to sink a shaft, but found nothing of importance.

The old Cochrane mine, adjoining the Timiskaming mine, in southeast Coleman, is under option to the Crown Reserve Mining Co. It is now being dewatered by that company in preparation for a thoro examination. A 30-day option for examination has been granted.

Some remarkable ore has been shot out of the vein on the Miller Independence, for treatment in their Nissen stamp mill. LONDON, May 13.—Money was in good supply and discount rates were quiet today. Treasury bills were freely purchased.

The stock market maintained a good tone, with the usual week-end business, mainly in Australian short-term bonds, home, rails and oil and rubber stocks. Peruvian issues advanced, and shipping shares were well maintained. In the American section, Canadian Pacific was strong and active, while the rest of the list ruled quiet, but firm.

Steel in comparison with other Canadian The West Dome Consolidated was steel stocks has recently forced an advance in the price to 55%, but this rise is regarded as insignificant and very much higher prices are thought to be warranted by the present position of the company. It is believed by many that concerted action has been in effect to hold the price down for some reasons not yet known and that when the pressure is relieved the advance will be rapid and material. The Dominion Steel Corporation is making all kinds of money, and the statement, which it is said will be issued next Saturday, the 20th, will reveal the results of the early portion of the prosperity which has come to this as well as the other steel companies. Owing to the fact that silver reacted ½, being quoted at 77½, the Cobalt stocks were rather neglected, for the Porcupines, Timiskaming was, of course, the exception. This stock was stronger, selling up to 75 again.

In the Porcupine list Dome Extension showed more activity than for a few days, opening at 35% and losing the fraction on the close. A small lot or two of Hollinger changed hands at \$29.90. Jupiter held steady at 24.

McIntyre was the feature, gaining strength on the reported strike on the property at the 700 ft. level. The stock sold up to 141, but reacted on profit, taking to 139 on the close. Vipond was active and a little stronger, selling from 53 up to 55 and closing at the top.

West Dome Consolidated was in strong demand and sold up to 28, closing slightly lower at 27%.

In the Cobalts Timiskaming showed strength early, going up to 75, but later eased off to 73½, closing at the latter price. Beaver held well around 47. Chambers Ferland went up to 30, closing at the top. An odd lot of Kerr Lake changed hands at \$5. McKinley was steady at 66. The function was held on the sloping lawn to the south of the horticultural building. One of the big new company mess tents, which the 134th will have at Niagara Camp, was used as the refreshment marquee. Flowers had been especially planted in the beds on the lawn by direction of Parks Commissioner Chambers, so that no detail was lacking to make the scene picturesque. During the afternoon the brass and pipe bands alternated in a continuous concert of Scotch selections.

The three battalions, brigaded under Fion. Col. W. K. McNaught, honorary colonel of the 109th Regiment, left the Pearl Street Armories at about 2.15, and paraded along King street to Jarvis, then north on Jarvis to Bloor, thence along Bloor to St. Paul's Anglican Church.

The salute was taken at the corner of Jarvis and Charles streets by Major-General W. E. Hodgins, adjutant-general, who was accompanied by Col. H. C. Osborne, D.A.A. and

jutant-general, who was accompanied by Col. H. C. Osborne, D.A.A. and Q.M.G.

They arrived at the church shortly after 3 o'clock, amidst a downpour of rain. Row upon row they filled the big church, only a few rows being filled by civilians. Many staff officers and officers of city regiments were present, and members of the city council.

There is an indescribable something about the Anglican Church and its service that makes it particularly appropriate for a military service. Led by the surpliced choir, and accompanied by the large pipe organ, it was wonderful and awe inspiring to hear the three thousand male voices raised in the old battle hymns that have been used by the British army in every age and every clime.

The opening hymn was "Onward, Christian Soldiers," and was appropriately followed by "Jesu, Lover of My Soul." The service was read by Hon. Capt. M. Gore Barron, chaplain of the \$4th. The general confession, said by all kneeling, was followed by a prayer for pardon, instead of thes usual obsolution. The Lord's Prayer, whichwas said by all, was followed by special prayers for the King and all in authority, for aid in this time of war, and for the troops on service.

The soldiers of the country, he said, were not alone the soldiers of the King, but also the soldiers of God. During the past year we had come to a better understanding of three main things—our enemy, our allies and ourselves. "England is awake, and by God's help she will not sleep until a righteous victory is won," he declared.

No crime was too sordid for the kaiser and his military agents, and the men before him, said the arch-deacon, were soon to do their full share in proving that frightfulness did not pay, but in its recoil destroyed those who used it.

A German victory would destroy civilization and make a mere figment of Christianity. He commended the men to God and urged them to fight their moral foes as they would the enemy.

If the woman who loves flowers has but little time to devote to them, I would advise her to confine her gardening to the hardy perennials, for the reason that these require the least attention of any class of plants in general cultivation, and can be depended on to do good work for an indefinite period if a small amount of care is given them each season. A collection of these plants constitutes the busy woman's garden.

The first thing to do in making a collection of this kind is to prepare the soil properly. Spade it up to the depth of a foot and a half, and manure it well. This is quite important, as good plants cannot be grown in a poor soil. Pulverize the earth until there are no lumps in it.

When you are ready to set out your plants, provide yourself with poilful of water and a spade. Make a hole in the soil a little larger than the ball of earth containing the plant you are to locate there and lower the plant into it without disturbing its roots, if possible. Then press the soil firmly about it, and appiy enough water to settle it solidly about the young plant.

Summer Millinery Opening Today

Today you will be introduced to all that is latest and most up-to-date in Summer Millinery. Every hat is a picture—one of the most notable features is the softness and pliability of the straw used. Even this season's severest sailor hat lacks the uncompromising stiffness of former years, while the exquisitely fine straws are woven into garden and sports hats that frame in lines of grace the face beneath.

Light in color and light in weight! White, pink and rose, blue, gold-these and many other colors appear in hats of leghorn, of real hair, of the finest milan, while the Oriental Straws, Bangkoks and Wenchaus vie with the Panamas in popularity.

Fur felts, striped hemp, striped linen and other fabrics fashion sports hats of charm and

New York and Paris, as well as our own workrooms, are represented by most artistic hats for special occasions.

You will enjoy seeing all these creations, and will be glad of the extensive choice that awaits
