Several More Towns and Villages Occupied in the Murmansk Region.

#### MUCH BOOTY TAKEN

London, Feb. 27.—A Bolshevik communication received early today records the unchecked progress of the Red forces in the Murmansk region, and announces the occupation of the stations Kageselga and Madvelzhagura and several villages. The communication says an armored train, eight airplanes and a large quantity of war material have been taken.

On the southern front, in the region of Tiraspol and Odessa, the communication announces that the captures between January 24 and February 17 included 12,700 prisoners, 342 guns, 23 armored trains, 5,500 rifles, 15 airplanes and 800 motor cars.

On the Caucasian front, the Bolshevik claims the occupation of a number of localities between the sea and Rostov.

#### TO LOWER VOTING AGE FOR WOMEN

British Labor Party's Bill Passes Second Reading in Commons.

London, Feb. 27.—The Labor party's bill extending the franchise to women exactly the same terms as applied to men, passed the second reading of the house of commons unanimously today. This means it will go to committee for possible amendments and again come before the house.

The bill, which provides that the present voting age for women—thirty years—be lowered to 21, making it the same as the men's voting age. This would add 5,000,000 voters to the register.

Christopher Addison, in his speech on the subject, asserted that the number of the bill would make the total of women voters over 13,000,000, or a half million more women voters than men voters.

Lady Astor made her second speech of the week. She announced herself in favor of the bill, declaring it was not for the sake of the women that she wanted the bill, but for the sake of the country.

"Everyone knows a woman of 18 is far older and wiser in many ways than a man of 25," said Lady Astor.

#### BRITISH COLUMBIA INVITES SETTLERS

Montreal, Feb. 27.—W. R. Hinton, vice-president and general manager of the Grand Trunk Pacific, interviewed here today, stated that the government of British Columbia is now about to throw open the new land settlement areas adjacent to the Grand Trunk Pacific.

Each of these areas will be approximately 50,000 acres and are situated in the Nechako and Bulkley valleys. It is estimated that these new districts will receive 20,000 new settlers during the present year, the bulk from the United States, with a proportion from southern Alberta. The British Columbia government is also selling on easy terms some 3,800 head of cattle to new settlers along the Grand Trunk Pacific this year.

General business conditions in western Canada are excellent, Mr. Hinton said. There is every indication of a good crop, in view of the heavy blanket of snow covering the land, he concluded.

#### HAMILTON

Hamilton, Feb. 27.—Replying to the accusations of counterfeit to fix prices, Hamilton grocers and allied firms denied such proceedings in a written statement.

### YORK COUNTY AND SUBURBS WOOD AND LUMBER NOW TO BE SOLD

Defunct Company Announces That It Will Go Into Liquidation.

The Muskoka Cordwood & Lumber Co., now in liquidation, announces the sale of lumber on their Southwood estate to the Standard Chemical Company and to J. Goerk. There is still a considerable amount of lumber to be sold, and Alex MacGregor, 614 Confederation Life Building, the solicitor appointed by the creditors, is open to receive tenders, neither the highest nor the lowest tender to be accepted. There are about two hundred creditors in the Muskoka district who have paid deposits on their wood, but have not all received delivery.

The Earlscourt Branch, S.O.E.B.S., held a social and dance last night in the Somme Hall, Nairn avenue. An amusing sketch, "Mr. Raffles," was a special feature of the evening, the members trying to find this mysterious personage. He was finally discovered by Mrs. Wm. Birch of Nairn avenue, who received a reward of a pound of Smitherman's Special Tea. During the evening Past President Bro. W. Hodgson was presented with a jewel for his active services by Secretary W. B. Holmes, who also welcomed the visitors on behalf of the lodge.

In aid of the distress fund of the Earlscourt G.W.V.A., the Ladies' auxiliary of this branch have arranged to give a movie picture matinee entertainment in the Belmont Hall this morning to the boys and girls of the district. The theatre has been donated by Manager Pete Derbyshire, who will throw some Charlie Chaplin pictures and other comic features on the screen for the youngsters. There is also to be a musical accompaniment, and the entertainment begins at 10 a.m.

Another poultry association is to be formed in the Earlscourt district, some of the poultry fanciers around here desiring a wider activity in the breeding and exhibitions. The name of the new club is to be the Devonport Poultry Association, with membership fees of \$1 a year. Local poultrymen are somewhat alarmed at the suggested increase of shaves from 15c to 25c, and half-cuts from 35c to 50c. In a working-class district like Earlscourt, it is thought that these increases will make a big reduction in patronage, and that residents will now begin seriously to consider using their own razors rather than pay 25c in the barber shops. To the World, leader of Earlscourt barbers say they were perfectly contented to let prices remain as they were for half-cuts and shaves, but they think that such extras, as shampoos, singeing and head tonics, which are only luxuries, could be made to pay the price of 50c. Many of the barbers who also run shoe shining parlors with their businesses are wondering if shoe shines will not be raised to 15c and 20c, instead of 10c.

### INVITES PRESIDENT TO ASSIST ALLIES

(Continued From Page 1).

There is little reason why the note should not have been published as written and received. A delicate situation between the allies and the United States has arisen, but it cannot be made worse by open discussion.

The newspaper declares that President Wilson is right in his aspect of the Adriatic question. It asserts that the difficulty between the allies and the United States is that "Mr. Wilson accepts no responsibility for the treaty of London, which was rendered out of date owing to the break-up of Austria-Hungary, and to which he was not a party."

"The treaty of Versailles and the French alliance treaty," the newspaper continues "would involve America, in an obligation to maintain frontier settlements which the President Wilson considers in this case to be inequitable. That is his difficulty. The difficulty of the allies is that they do not know whether America in any case will accept any obligation of this kind at all. The deadlock is quite as much due to the holding up of the treaty in the senate as to any inherent difficulty on the Adriatic question itself."

#### WILL UNITED STATES ACCEPT OBLIGATION?

That is the Difficulty in Dealing With the Adriatic Question.

London, Feb. 27.—The Westminster Gazette this afternoon, discussing the Adriatic situation, says: "There is little reason why the note should not have been published as written and received. A delicate situation between the allies and the United States has arisen, but it cannot be made worse by open discussion."

The newspaper declares that President Wilson is right in his aspect of the Adriatic question. It asserts that the difficulty between the allies and the United States is that "Mr. Wilson accepts no responsibility for the treaty of London, which was rendered out of date owing to the break-up of Austria-Hungary, and to which he was not a party."

#### MAY TAKE MONTHS

Mutual Agreement Between Italy and Jugo-Slavia is Difficult.

Washington, Feb. 27.—The invitation of the British and French premiers to President Wilson to join them in a formal proposal to the Italian and Jugo-Slav governments to negotiate a new Adriatic settlement on the basis of the withdrawal of all previous agreements caused no surprise in official Washington.

The note, which was received today at the state department, is now before Victor Kirk, and his reply is expected to be made within a few days. Meanwhile, officials are refraining from any discussion of the president's probable course.

It was pointed out, however, that while adhering to the agreement of December 9, the president, in his last reply to the premiers, had said that he would, of course, make no objection to a settlement mutually agreeable to Italy and Jugo-Slavia. . . . provided that such an agreement be made in the presence of the nationals of a third power.

If the premiers' proposal is accepted by the president, Italy and Jugo-Slavia will have their first opportunity to undertake a settlement between themselves.

There is such a wide divergence between the territorial aspirations of the two countries, however, that it was regarded as almost certain that such negotiations, if successful, would consume many months.

#### TRAITORS TO FRANCE RECEIVE SENTENCES

Lieut. Herve and Laverne originally were sentenced to pay the death penalty.

### FELL FIVE MILES AND STILL LIVES

Aviator Had Previously Made World's Record for Altitude of 37,000 Feet.

Dayton, Ohio, Feb. 27.—An airplane carrying Major R. W. Schroeder, chief test pilot at McCook field, fell over five miles today after reaching an altitude of 36,020 feet, said to be 500 feet higher than the world's record.

Tonight the officer is in hospital suffering from shock and temporary partial blindness. Instruments on the machine indicated that it fell more than five miles in two minutes. While still 2,000 feet above the earth the plane righted itself and glided to a graceful landing. The pilot was discovered sitting erect and apparently lifeless.

The plunge was witnessed by thousands of people and for a brief time spectators thought a comet had appeared in the sky. The trail of vapor in the wake of the plane gave rise to this belief.

Instruments on his machine told the story of the aviator's experience. The thermometer registered a temperature of 55 degrees below zero centigrade, or 67 degrees below zero Fahrenheit. Altitude figures from the barograph reading indicated a height of 37,000 feet and showed an official altitude of 36,020 feet, a new world's record.

Leaving the field at 10:45 this morning, Major Schroeder battled for two hours and five minutes against changing air currents and bitter cold atmosphere. Finally he lost consciousness and the plane dropped. Officers of the field say it must have fallen into a tail spin, otherwise it would have collapsed when he regained consciousness and righted it, after a descent of more than five miles.

The sudden change in air pressure from less than three pounds at 36,000 feet to 17.7 pounds at sea level, crushed the gasoline tanks on the plane and caused them to collapse, besides jolting the pilot to his senses.

### CHANGE RED ARMY FROM FIGHTING BODY

(Continued From Page 1).

help in the laying down of railway lines for the transport of crude oil. A third labor army will be used to repair agricultural implements and machines and in the spring will take part in the working of the land.

"At the present time among the working masses there must be the greatest exactitude and conscientiousness, together with responsibility to the end, and there must be the utmost strictness and severity both in amassing and great matters. If the most advanced workers of the country will devote their thoughts, all their will and all their revolutionary duty to the cause of regulating economic affairs, then I have no doubt that we shall lead Russia on a new free road, to the confounding of our enemies and the joy of our friends."

Trotsky for Compulsory Service. Trotsky pointed out in his speech that the economic situation in Russia today is not unlike that existing throughout Europe, only the problems are more acute.

"We were cut off from our coal supply, crude oil and cotton," said Trotsky. "Under these conditions, can the soviet regime be blamed? It is the source of evil; a factory may be run on capitalistic lines; it may be long to one person or a company; it may be socialized, or may form part of a complete communist state, but if it lacks raw materials it cannot work. The Russian proletariat already feels responsible for the welfare of its country, and for its economic life. The hardships and poverty we are suffering are educating the workers of the proletariat. Under those conditions, every workman and every workwoman is beginning to realize what economic life means to the country. This makes us confident that we will overcome our economic disorganization."

"We shall succeed if qualified and trained workers take part in productive labor. Trade unions must register qualified workmen in the villages. Only in those localities where trade union methods are inadequate, other methods must be introduced, in particular that of compulsion, because

labor conscription gives the state the right to call the qualified workman who is employed on some unimportant work in his village: 'You are obliged to leave your present employment and go to Sormovo or Kolomna, because there your work is required.' "Labor conscription means that the qualified workmen who leave the army must take their work books and proceed to places where they are required, where their presence is necessary to the economic system of the country. We must feed these workmen and guarantee them the minimum food ration."

#### FRENCH STRIKE EXTENDS; FEW GROUPS LOYAL

Paris, Feb. 27.—The executive committee of the National Federation of Railway Men issued the following statement tonight: "The committee leaves to the federal council of the General Labor Federation, which meets in extraordinary session tomorrow, the task of examining the situation, and deciding what steps are necessary."

Some extension of the strike today, the company officials believe, is offset by declarations of loyalty by a few groups in the provinces and a number of individuals, some of whom have anticipated the government's mobilization orders, which have not yet been delivered.

The situation on the lines of the Paris, Lyons and Mediterranean Railway is virtually unchanged since the employees of the sleeping car company joined the strike today because the secretary of their union was discharged for absence on union business.

### WERE PROMISES REALLY FULFILLED?

Carpet Company Manager Replies to Critics Regarding Settlers.

Mrs. Irene Hodson, secretary of the Women's Labor League of Ontario, stated in an interview with The Toronto World yesterday afternoon that a carpet manufacturing company in the city, which had a representative in Britain, had brought out women from both Assiniboia and Halifax to work as Assiniboia settlers and weavers and had promised them a wage of between \$20 and \$25 a week. The passage of the women had been paid to Canada, but many of the women when they arrived found no looms for them to work at, and the wages turned out to be twelve and fourteen dollars a week instead of the expected twenty or twenty-five dollars a week. Up to date the firm had brought out 32 women for this work. Mrs. Hodson stated that she had names, dates and facts all prepared for protest, and that the league was talking the matter up with vigor.

The general superintendent of the company in an interview with The World stated that Mrs. Hodson had only part of the facts, which were that only part of the skilled workers had been promised \$20 and \$25 a week, and that the others had been accepted as learners. These, it was true, were getting much less than \$20 a week, \$14 and \$16 to be correct. There were perhaps six of the thirty-two women sent over to Toronto from Assiniboia and Halifax, who were receiving the lower wages. These were the facts.

### I.L.P. OPPOSES ALL OUTSIDE COMMISSIONS

There is a decided feeling in labor circles against the appointment of outside (non-government) commissions to investigate various matters in the province, subject to criticism. It has been quite a custom of late, said James W. Buckley, secretary of the Toronto Independent Labor Party, yesterday afternoon to The World, to evade the important matters of education, and doubtless the projected Massey Foundation scheme to investigate education in the Province of Ontario, led the I.L.P. to take a strong stand in the matter. The party at its open session, held at the Labor Temple on Thursday night, recommended to the provincial convention, which is to be

### A HOME MADE GRAY HAIR-REMEDY

You Can Make a Better Gray Hair Remedy Than You Can Buy.

Gray, streaked or faded hair is not only unbecoming, but unnecessary. Anyone can prepare a simple mixture at home that will darken gray hair and make it soft and glossy. To a half-pint of water add 1 ounce of bay rum, a small box of Olex Compound and 1/4 ounce of glycerine. These ingredients can be bought at any drug store at very little cost, or the druggist will put it up for you. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It is easy to use, does not color the scalp, is not sticky or greasy, and does not rub off.

### IRONWORKERS ARE PROGRESSING.

Local No. 1, Structural Ironworkers, Chicago, have been granted an increase of 25 cents as a result of conferences dealing with the new agreement. Their new wage is \$1.25 an hour.

An interesting note is the fact that structural workers with the Dominion Bridge Company in Montreal have effected new agreements with the company, while in Toronto the firm has apparently refused conferences upon the matters at all. There are five locals in Montreal.

Ornamental ironworkers in Montreal have received an increase of 7 1/2 cents an hour, that is to say, their wages have been increased from 67 1/2 cents to 75 cents an hour. All these men are inside workers, and work the whole year-round.

### OUTLOOK IS GOOD.

Local 125 has commenced discussions of the new agreement which is to be presented to employers on April 1. This refers mostly to piece-work wages, and Business Manager Herbert Wright of the local stated yesterday afternoon to The World that so far as Toronto was concerned there was no indication of any trouble in mutual harmony between the union and the employers. There are several yards at Welland, Port Arthur, Collingswood, Toronto and the Soo.

### WHICH WILL IT BE, SPARTA OR ATHENS?

Century's Alternative, Autocracy or Democracy, Says John Collier.

The last of a series of four lectures, under the auspices of the department of social service was given yesterday to an audience that packed the university physics building auditorium. The speaker was John Collier of the People's Institute, New York, who took as his subject "The Twentieth Century Alternative, Autocracy or Community Organization."

"Let us try to get a picture of the world today," began Mr. Collier. "We are only beginning to get a conception of the world's bankruptcy, both material and moral. Only one nation

### TEACHERS DOOMED TO DISAPPOINTMENT

No Immediate Chance of Raise, Despite Board's Action.

A curious situation has developed with regard to the schools and the payment of teachers' salaries. At the last general board meeting it was announced that the increase would be given and the estimate was passed on to the city council. The teachers felt that the matter was as good as settled. Here they reckoned without their host.

The mayor has refused to endorse the raise until the tax, which must be levied to support the increase, has been decided upon. At the same time the finance committee, of which P. M. Douglas is chairman, are firm in their determination not to delay the increase if a possible way can be found to pay it. Meantime, there is a blockade as far as present action is concerned, and unless settlement is made the teachers will soon be two months behind in their salaries. According to Mr. Douglas, the pay cheques fall due on the first of the month. February is due now, and the estimates cannot be presented until the first of March, when another month will be due.

"It looks like adding insult to injury," said one principal. "First the teachers have been underpaid for years, then they are buoyed up with the hope and promise that they are to get a much-needed and much-deserved increase, and instead of any surety of this materializing, there is every probability at present that they will not only see no increase for some time, but that they will have to wait two months before they see any pay cheques."

### PRICE OF SUGAR

There will be no immediate advance in the price of sugar as a result of the abandonment of price-fixing by the board of commerce, Toronto representatives of refiners announced yesterday, altho they predict higher prices as soon as the supply of raw sugar now in the refineries is disposed of.

METHODIST DRIVE ADDS THOUSANDS Total Last Night \$4,420,820 \$150,000 Collected in Ten Days.

Slowly but steadily, as circuits undertake and complete their drives, the Methodist campaign adds thousands to the great total achieved in the national drive. Yesterday the national total stood at \$4,420,820, or \$150,000 more than ten days ago, when the last complete report by conference was received at Toronto headquarters.

CITY HALL NOTES

Property Commissioner Dan Chisholm is of the opinion that the members of the board of control would make good surgeons. However that may be, it is a fact that they certainly did a lot of amputating to his 1920 estimates.

Controller Cameron protested against an expenditure of \$50,000 for new lavatories at College and Spadina, and Bloor and Yonge streets. On the advice of Finance Commissioner Bradshaw, this amount was struck out.

Some discussion arose over the decision to place a teacher for boys at the Jail Farm. Controller Cameron thought that there were not enough boys there to make it necessary, and that those that were there only stayed for such short periods that he did not think the schooling they received would benefit them much.

An item for an expenditure of \$18,000 for a new barn at the Jail Farm was questioned, but finally left untouched.

Controller Cameron moved that the civic employment bureau be closed, but the board decided otherwise. The estimated cost for this is \$2956.

The sum of \$99,424 set down in the fire department estimates as necessary for the granting of one full day off duty each week for the firemen was questioned, and it was decided to let the matter stand over until the whole question of salaries came up.

"We put the two-plant system in force last year," commented Controller Cameron. "The men are suffering no hardship."

"I favor the idea of a day off," said the mayor. "The firemen are entitled to it just the same as the police, but the taxpayers can't afford it this year."

At last there is tangible evidence that the waterfront railway viaduct is to be built. A conference on the matter took place recently in the harbor offices, at which the board of control, harbor commission and board of trade were represented.

It was decided that the viaduct order should be carried out, and that no delay or deviation should ensue. A committee is to be appointed from the above-mentioned bodies to take steps in securing an early commencement of the work.

The government is now a party to the viaduct, inasmuch as it has acquired the G.T.R. The other party is the C. P. R. It is probable that the harbor commission will consent to allowing the use of the new Union Station.

The city's share of the cost of the viaduct will be between four and five millions.

The harbor commission at a conference with the board of control, parks commissioner, and Ald. Baker, reported...

Advice to assess the richer residential areas of Toronto considerably higher than they are now assessed, was given by Mayor Church to the 20 civic assessors yesterday, previous to their annual tour of the city.

The urgent need for a new detention home in connection with the juvenile court was stressed yesterday at the meeting of the special committee of the city council. It was expected that a report would be presented as to the possibility of securing the old Technical school building, which it is rumored, the military are vacating in the near future, but this report was not forthcoming.

This need arises out of the mandate of the Children's Aid Society that they will not undertake this work after March 1. Aid Risk was opposed to the plan for securing the old Technical, which he stated was unsuitable.

It was finally decided that Judge Moss and Ald. (Mrs.) Hamilton should see what quarters with or without offices for the puvnicte court, could be obtained.

mittee make a general cut and leave it to the parks commissioner to decide what items should be cut down. This, the commissioner flatly declined to do, stating that he would not take the responsibility. This motion was lost.

A short meeting was held by the works committee, and many local improvements were discussed. The necessity for increased lavatory accommodation was pointed out, several members making the statement that Toronto was woefully behind American cities in this respect. The committee were of the opinion that a comprehensive scheme for more lavatories should be outlined.

The parks and exhibition committee yesterday afternoon considered the estimates of Parks Commissioner Chambers, and the outcome of that consideration was that \$2,475 was cut from his total request of \$1,289,880. This is compared with an expenditure of \$552,169 last year. Ald. Sykes suggested that the com-

The Importance of Being Ernest.

Nobody desires to be harsh with Mr. Drury in connection with the absurd but dangerous episode of the strangled Massey Foundation Schools Commission.

Premier Drury's earlier communications to the public were distinguished by longwindedness. His statements on the M.F.C. have been remarkable for latitude. He began by describing the World's disclosure of the scheme for the committee as a pipe dream.

Mr. Grant's letter of Feb. 2 to Col. Vincent Massey shows that the minister of education was very much alive to the danger of an abdication of the proper functions of his department. The statement handed out by Colonel Massey on Thursday night deserves to go into the archives as a perfect example of the ingenuousness of excellent persons who, without any electoral mandate, are prepared to run a government without the initial qualifications for political business.

It may be too early to say that the outcome of the crisis has restored to Mr. Drury his freedom as head of the government, but it has shown that there is distinct danger in the importance of being Ernest. Mr. Grant's determination to resign was the attitude of a statesman who instinctively understood that a great constitutional principle was at stake.

Roads for Road Users. Fifteen hundred miles of trunk roads that are to become provincial highways under the federal provincial arrangements, will soon be designated. There is every reason to expect that truly religious. That the Methodist

the scheme will be comprehensive, equitable and efficiently carried out. There is considerable demand in some quarters for concreted highways to which, it is believed, the minister of public works will remain opposed.

The towns and municipalities that want the Kingston road treated like the Hamilton highway are likely to be disappointed. If they get first-class macadam, with assurance of adequate maintenance, they will enjoy an immense improvement, with the possibility of asphalt being imposed upon in due course.

In the United States asphalt macadam has been coming into favor because of its durability, smoothness and economy. The Drury government is wisely planning to give a maximum mileage of good roads to those who need them most, rather than the luxury of speeding to those who want to enjoy them most.

Catch Up to Montreal. Next Thursday the board of railway commissioners will hear the case for granting commutation tickets to Toronto extra-suburban areas. The principal demand will come from Weston, and there are other cases of minor interest.

John Wesley Up to Date. "Very laughable and uplifting" is the description applied by an unimpeachable Methodist lady critic to "The Minister's Bride" and "Aunt Susan's Visit," as the two plays most in favor with the religious public, from whom the General Conference has lifted the venerable ban upon the ballroom and theatre.

Conference has found this out is an immense public gain. There may soon be a theatrical department of General Conference without a censor, but with a doctor of divinity as stage expert of The Christian Guardian. John Wesley used to say he didn't see why the devil should have a monopoly of the best tunes.

There is no end to the possibilities of the newest modern drama promoted by the Methodist publications under the aegis of Mr. president, fathers and brethren. Here's to 'em!

THE GIRL WHO SMILED THRU BY MARION RUBINCAM.

THE REAL GIRL. CHAPTER 18.

Alice woke up with a start next morning and a feeling that she had over slept. She dressed quickly, as she always did, putting on one of the plain house dresses she wore during the day, and doing up her hair in a hasty knot on her head.

The clock in the kitchen was five minutes after seven when she came downstairs, and began piling wood on the fire to get it ready for breakfast. Usually, these summer mornings, she was up by half past six.

"Did I wake you, going thru the room?" she said, when her mother appeared at the kitchen door. "That's the worst of a house as small as this. I suppose I might ask Lois to share my room, and you could keep yours— you'd better sleep upstairs and I'll sleep in the living room."

"No, I'm all right, and I like sleeping down here," Mrs. Fairbanks protested. "Lois has probably been used to a room of her own and I'm glad we can give her that much at least."

At 10 o'clock Lois appeared, her eyes round and blinking from sleep, her cheeks a little pink. "I'm sorry if I kept you, you shouldn't wait for me," she apologized, as she took the third place at the table.

"Dear me, you look as though you'd been up hours," she remarked lazily, watching Alice stir the cereal. "Seven-thirty," Alice announced cheerfully. "Imagine such an hour!" Lois yawned a little behind her hand.

"I'm afraid I'd never get done," Alice of this young girl, her well-cared-for hair, her simple black suit and a thin black waist with a chain of jet looped about her neck. The plain little toque of black feathers had looked very well against her shimmering hair, but the dead black of the outfit was not becoming.

But this morning Lois had come down in a negligee, a silky blue gown that draped itself from her shoulders and fell away, showing her arms and elbows delicately white and rounded. Lois had small hands, her nails were pointed and highly polished and almost too perfect. Alice was lost in admiration of this young girl, her well-cared-for hands—Alice did not know enough to see that they were too weak and too soft to possess any real character.

"The silken negligee with its lace ruffles and the bouclé cap under which

How the President Has "Come Back"

President Wilson "knows that he is now quite up to his fighting weight. As to his mental vigor, it is simply prodigious. He is giving splendid attention to the affairs of state, and we have every assurance that he will become progressively more active in these matters with the advent of spring and sunshine."

In THE LITERARY DIGEST for February 28th, there is an illuminating article, illustrated with striking cartoons, upon the return of President Wilson to his official duties. It presents the editorial opinion of American newspapers upon the President's recent activities and gives various reasons why Secretary Lansing was asked to resign.

### BIGGS DENIES REPORT ABOUT THE HIGHWAY

Declares Statement of Designation of Southern Route West of London Unfounded.

Chatham, Ont., Feb. 27.—(Special).—Absolute denial of the report that the principal highway had been designated over the southern route was given today by Hon. F. C. Biggs, minister of highways, in a telegram to Mayor F. H. Briscoe. He states that the morning press of Toronto had no instructions from him nor had any authority to publish the statement regarding the highway west of London to the border cities. His mind had not been changed in the matter. "Kindly do not take this matter seriously, as I surely hope you have more confidence in my department than to be misled by erroneous newspaper report," read the wire.  
Mayor Briscoe also received word that the delegation from western Ontario will wait upon the premier and members of the cabinet on the highway matter on Tuesday next instead of Wednesday. A large representation will join the delegation from this city and county.

## JUST FOUR GOALS IN T.C.C. MARGIN

### Ten to Six Score in Return Game With Kingston Soldiers.

Toronto Canoe Club came thru their semi-final round on the bit by downing R.M.C. at the arena last night by 10 to 6. This gave them the round, 15 to 3, on by seven goals.

Last night's fixture was supposed to be the real trial before the final next week. Everything on the card was expected by the fans. The local ones thought the paddlers would brush up on their team play, try a bag of tricks, and have a general run-out for the big doings next week. About the only thing that the crowd was treated to was a demonstration of the "passing" which was supposed to be "should not be made" when passinging distance. This stuff cropped up every time the puck was in play.

Four goals seemed more than enough to T.C.C. who were looking for a margin on the night. Just why, nobody seems to know. Rumors were afloat of things not according to the book, and the style of play that developed heated coals on the fires of suspicion.

Royal Military College got six goals. Close checking and solid bumping when close in would cut this down. The visitors are a nice team, but not in the Canoe Club's class. The soldiers showed pretty stick-handling, checked skilfully, but their defence opened like a sieve, and headwork was rolled up a big score. Perhaps the fans were wrong. They expected the T.C.C. to do a lot better, and it is hard to knock this idea out of their heads.

Canoe Club did not seem to get into ecstasy with their passing. In spots it was bright; in others away below par. It will need to be taken into account per cent. If it is to be taken into camp. The defence was good. Workers cool and collected, and the work of the forwards smooth when the occasion called for it. It is a sixty-minute job next, and the little preparation last night may work harm for the Toronto team.

Individually, Toronto Canoe Club were great. The fusties of combination were all that could be asked, and the question now is, Can the paddlers step up on the ice and stick to combination for a full hour? Toronto fans hope so, and would be disappointed that it was not attempted all the way last night.

Burch, Conacher and McCurry showed nice work against the defence, and when the paddlers swept into the passing game they looked good enough for anybody's money. It was that third period's careless work around the net that spoiled the whole affair.

Walker and Conacher were the heat of the soldier forwards. Both were clever stick-handlers, and Walker had an accurate shot from very little effort with the wrist. MacDougall was a strong rusher, and the Kingston goalie showed a nice performance.

The first period score was 3 to 2 for T.C.C.; the second 7 to 4, and the final 10 to 6. The teams:

T.C.C.—Goal, Wagers; defence, Conacher and Applegarth; centre, Burch; right, White; left, McCurry; subs, Hurston, McLaughlin, MacKenzie, MacNeil, and McPherson.

Referee—Dr. J. W. Laflamme.

## TORONTO FANS WILL HAVE AN OPPORTUNITY

Monday night, when they play their return game with U.F.S. at the arena. The hockey fans have a very good chance of seeing the Senators' hopes of overcoming the six-goal lead against them, the battle should prove a merry one. Tickets will go on sale at the arena box office at 10 o'clock Monday morning.

## AURORA BEAT NEWMARKET

Aurora, Feb. 27.—The game between Aurora and Newmarket played here last night, in the Metropolitan League, resulted 4-2 in favor of Aurora. Line-up:

## VARSAITY SECONDS ARE NOW READY FOR QUEEN'S

Varsity II defeated St. Michael's 4 to 1 in an intercollegiate intermediate playoff at the arena last night. The hockey was of a poor class, and only the brilliant goal tending of Thomson, who carried Varsity from defeat to victory, saved them from a 5-0 defeat. The Saints outplayed Varsity all thru the game, and Kilian put in some dangerous shots which Thomson nicely cleared.

Smythe commenced the scoring early in the first period, but a few minutes later McCurney evaded the score. At the end of the period Armstrong tallied, giving Varsity the lead by 2 goals to 1. No goals were scored in the second period, but Carey registered twice in the final section. The teams:

Varsity—Goal, Thomson; defence, Wallis and Carey; centre, Smythe; right, Armstrong; left, Woodford; subs, Douglas and Gordon.

St. Michael's—Goal, Lorange; defence, Munroe and Milan; centre, Lynch; right, Kilian; left, Lowery; subs, McCurney and O'Connor.

Referee—Fred Waghorne.

## BRAMPTON BEAT KINGSTON

Brampton, Feb. 27.—The game here tonight between Brampton and Kingston resulted in favor of Brampton, 7 to 4. The result of the home team got a very severe blow on the nose, which delayed the game somewhat. Teams:

Brampton—Goal, Tolson; left defence, Elmer; right defence, Brown; centre, Stewart; right wing, Cook; left wing, Smith; subs, St. Laurent and St. Laurent.

Kingston—Goal, Core; left defence, Reeham; right defence, Duggan; centre, Hill; right wing, Hines; left wing, Anderson; subs, Blain and Cardge.

Referee: Percy Leauaur.

## Varsity Easily Defeats Queen's And Are Now Tied With McGill for College Hockey Honors.

Kitchener, Feb. 27.—In the final game of the senior intercollegiate hockey series, played here last evening, Varsity won from Queen's by a score of 4 to 1. The first period ended 2 to 1 in favor of Varsity, and in the second period they added two more goals, making the final 4 to 1. In the third period neither team scored, although there were many that looked like sure ones, but luck on the part of the net guardians saved the winner from a second period rout. In the third period it looked as though there was going to be some trouble, as both teams started in a hot, fast, and furious manner. Steve Vair saw what the players were up to and lashed a couple of spears, but they were not enough. The winners were entitled to the game. The Varsity defence was real good and prevented Queen's from getting in around the net. Queen's were some what handicapped in the fact that Taylor, their regular net guardian, was absent from the line-up.

## The Fight Fans Bump Into Another Bloomer

The fight fans bumped into another bloomer last night at Massey Hall when Mike Paulson, of Minneapolis, and Mel Stevenson, of Pittsburgh, started their ten-round bout. Neither man showed very much and the small crowd got after them in the third. The referee warned them to get busy, but as this didn't have the desired effect and the crowd started to leave, he called it off in the seventh. The spectators, however, got the best of the fight, and all the other bouts were rain battles.

Pee Wee Adams, an old amateur champion, and Benny Gold, in the first bout, put up a great argument. Gold had height, weight and reach on Adams, but the little fellow was a real fighter, with science and more than held his own, but the decision was a draw.

Yank Lewis, amateur and Battling Red Connolly, of Detroit, were the next pair to show their wares for eight rounds. Lewis was the better fighter, but in every way, except at fighting, where the latter showed to advantage. The decision was a draw.

Scotty Lisner landed on a hard one when he hitched up with Frankie Engle, of Detroit. Engle was a real fighter, with height and reach over Lisner. He is a clever boy and jabbed and cut, but Lisner was a real fighter, and he threw in a wicked right, but "Scotty" is as same as they make them, and put his usual hard punch into the fight. The evening was between Joe Burns, of Montreal, and Eddie Franklin, of Detroit. Burns was the better fighter, but in the third Burns got into his own head, and he was a real fighter, with height and reach over Franklin. Both boys are clever and they battled from noon to go to bed. Burns had the eight rounds, with Burns having a shade in all but the first two.

## BASKETBALL

### Fight Champion and His Manager Indicted as Draft Dodgers.

The Hamilton Tigers wired that they would be in town bright and early tomorrow for their basketball game with West End M.C.A. tonight, and to look out for fireworks.

This is the real test of the strength of the Hamilton team, and should they be defeated in Hamilton when they are away from home, it would be a phenomenal chance come true, then nothing can stop them in their mad rush to the championship. But the followers of the local team consider this practical impossibility, and from where we stand they look to be about right.

West End are great favorites for this game and are out to redeem themselves for their defeat in Hamilton when they were barely noted out in the final stages of the contest.

A fast junior game will be played between West End and St. Christopher at 8 o'clock. The senior game will commence at 9 o'clock.

Baracas defeated Dom. Orth. Hospital 22 to 23 on Baraca's floor. Duckworth of Banks played a fine game in the offensive. Andrews starred for the losers, scoring 13 points.

### URGE DISUSE OF AMERICAN GOODS

#### Army and Navy Veterans Dislike Present Exchange Rate.

The Army and Navy Veterans' Association of Ontario, which was organized on Thursday and Friday, elected their officers for 1920 yesterday afternoon. The result of the elections was as follows: President, Major R. Cockburn of Toronto; hon. president, Brig.-Gen. Henry; first vice-president, W. Caspary, London; second vice-president, Comdrant J. G. Evans, Kingston; secretary-treasurer, Major W. H. Cooper, Toronto. In addition to the above, two members from each unit in the province have yet to be elected to form a provincial executive.

A resolution was passed making Toronto the official headquarters for the provincial command. A committee was appointed to wait on Premier E. C. Drury next Tuesday regarding matters of concern. They will urge that the attention be from the province without making it contingent upon its acceptance by municipalities.

At the morning session the following resolutions were passed: "That as long as there is a discrimination in value against the Canadian dollar in favor of the American dollar, this committee recommends and urges as the duty of all Canadians, to abstain from purchasing American goods, as far as possible."

Hearst Publications. "That the Hearst publications are in tone unfriendly to the British Empire and therefore to Canada, and constitute a grave menace to the continuance of the friendly spirit that exists between the people of two great and friendly nations. Resolved, that a convention be called upon all Canadians to sign such publications while such a hostile tone exists; that the federal government be asked to draw attention to the American government, thru the usual channels, to such and to debar such publications from entry into Canada."

Resolved also, that whereas Canadian paper wood is used, in whole or in part, by the Hearst publications, at the same time that Canadian paper is available to obtain enough paper for their own needs, this convention urges the federal government to bring an end to such exploitation of the resources of Canada at the expense of our own people, by prohibiting the export of such pulp for use by said Hearst publications.

The convention memorialize the municipalities the privilege of exempting from taxation all bona-fide chartered associations of veterans.

Following the afternoon session, the convention adjourned.

### INFLUENZA HAS LATER DANGERS

#### Particular Care Needed When Patient is Convalescent, Says Expert.

The influenza convalescent who has apparently recovered from the disease is yet in a strangely weak and debilitated condition, according to Dr. Louis I. Harris, director of the Bureau of Preventable Diseases of the New York Health Department. In the opinion of Dr. Harris the after care of the influenza patient is of the most important. The co-operation of the patient, coupled with the willingness to accept that the weakness and depression are a part of the disease itself, though common after the disease itself, is a big factor in effecting a complete return to full health. On the other hand, the determination to ignore this debilitated condition and to fight against it, will, Dr. Harris says, frequently bring serious consequences upon the patient.

After Effects Bad. "The subject of the after effects of influenza," said Dr. Harris, "is one of particular interest to the scientist at the present time. "First, and perhaps the most important condition to be considered is the striking depression, mental, nervous, and physical, complained of by those attacked by this disease with moderate severity are almost always afflicted with this depression, which should be recognized and dealt with. Those who have had mild cases of the disease are little affected by depression, and their quick return to health and strength gives rise to the belief that influenza is trivial. On the contrary, influenza in its after effects is anything but trivial, and calls for the application of the rules of common sense and sanitation which are the fruit of years of experience.

"Tonic treatment, well chosen diet and great care in not becoming over-tired or allowing the body to be chilled are necessary. Eggs may be eaten, but not more than two a day, for the average adult. Of course, it must be remembered that in many cases this disease tends to direct its force against the kidneys, and therefore we instruct patients to abstain from a great amount of meat, eggs, or beef extracts. Eggs, soft boiled, poached, or beaten, raw, are advisable in limited number. The raw eggs should always be well agitated before taking.

When Good Food is Bad. "With some cases a combination of the above mentioned conditions, such as indigestion, flatulence, constipation, and the use of simple purgatives, may be necessary. In such cases, for instance, is out of the question. Good food prepared in an unassimilable manner becomes too heavy, especially as this is the case in cases of convalescence from influenza, for the disease often manifests itself in vomiting, and in intestinal and gastric disturbances, and it is important not to weaken the digestive function by the eating of poorly prepared food, or even the best of food in unadvised quantities. The quantitative distribution of foodstuffs should be so adjusted as not to overtax the system, but the patient should eat generously and frequently."

As a tonic to build up the blood and stimulate the shattered nerves, Dr. Williams' Pink Pills are unsurpassed. These pills actually make up the red blood, which reaches every organ and every nerve in the body, improves the appetite, strengthens digestion and drives away the feeling of weariness and depression always following an attack of a gripe or influenza. The pills will be amply repaid by the new health and strength this tonic medicine always gives.

PLAYS, PICTURES AND MUSIC

**"Nothing But Love."**  
 "Nothing But Love," with Andrew Tombes, will be the attraction at the Royal Alexandra Theatre all next week commencing Monday evening with matinees on Wednesday and Saturday. This is the smart, hilarious hitting musical comedy that Maddock and Hart produced this season, and which created a furore in New York when presented at the Lyric and later at the 4th street theatres, where for three solid months it enjoyed a capacity run.

The story is quite novel. The heroine thanks the comedian for saving her from a watery grave, but he cannot swim a stroke. How did he do it? The complications that ensue are fast and furious. It will keep you laughing from 8.15 until 11 p.m. as a comedy without music it would be a tremendous laughing hit, but when you have the haunting melodies of Oriol, it is simply irresistible, besides there is the somewhat different comedian, Andrew Tombes, who turned "Flo-Flo" from a failure into a triumphant success. And there is petite and winsome Ruby Norton and (same adjectives) Betty Pierce. Among the many others whose names are well known in the musical comedy field will be seen Sanzmy Lee, Florence Enright, Clarence Nordstrom, Stanley Fordie, Arline Fredericks, Jack Leslie, Philip Bishop, Francis Pierlot, Easton Yonge, Mignon Reed and a real prize package direct from home of love, Millicent Greenman. The matinees will be as usual on Wednesday and Saturday.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair's your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application of two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture. You can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally, and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

**Otis Skinner in a New Play.**  
 News that Otis Skinner is imminent upon the local boards is always glad tidings to local theatregoers, and when the announcement includes the additional information that the popular Charles Frohman star is to appear in a brand new play anticipated joy is twofold. Mr. Skinner comes to the Princess next week after a ten weeks' run in New York city, and he will be seen in a new comedy written for him by Maud Skinner and Jules Bokert Goodman and entitled "Pietro".

For the proper display of his art Mr. Skinner ought to have a character that he can paint with bold, broad strokes and with vivid contrasting colors. Swaggering, swashbuckling Oot, Philippe Bridau, the shady hero of "The Honor of the Family"; Hajj, the conscienceless beggar of "Kismet"; Mister Antonio, the "good Samaritan" organ grinder of Booth Tarkington's comedy—these are just a few of the "rogues" whose pictures Mr. Skinner has drawn so true to life that they will always keep their places "on the line" in the gallery of American stage portraits. "Pietro" not only gives the star just such another picturesque figure to depict, but also holds interesting promise because it tells an intensely dramatic story of an Italian father's passionate love and self-sacrificing devotion to his daughter.

Prominent in the cast of the new play with Otis Skinner will be Mary Shaw, O. B. Clarence, Ruth Rose, Thurlow Bergen, Robert Ames, William Bonelli and Walter F. Scott.

"Owing to the phenomenal success achieved by Mr. Tyrone Power and his excellent company at the Grand Opera House in "The Servant in the House," the engagement has been extended for another week, when the talented actor will be seen in another of his great successes, "The Little Brother," a striking play of love and power, by Milton Goldsmith and Benedict James. This drama, which has received the endorsement not only of the most prominent dramatic critics of the United States, but also of many of the leading clergy of all denominations, is a vivid lesson in religious tolerance and in the need for universal brotherhood to overcome the limitations of creed bigotry. Mr. Power plays the title part—that of a Jew who has become separated from his brother in childhood during a pogrom in a Polish town. The former, educated by Christians, becomes a Russian priest, the brother brought up by kinsmen, becomes a Jewish rabbi. When the two meet, many years later, in New York, the rabbi's daughter has won the love of the priest's ward. Both priest and rabbi are bitterly opposed to any such mixed marriage, but despite their joint protest—actuated by very different motives—the lovers decide to marry.

**Fluke O'Hara Coming.**  
 Announcement of the coming of Fluke O'Hara, the popular Irish actor-singer, in a new, romantic comedy, "Down Linnick Way," by Anna Nichols, at the Grand Opera House, on March 8, will bring joyful anticipation to the hearts of the many friends Mr. O'Hara has made in this city. Au-

**WINTER WEATHER HARD ON LITTLE ONES**  
 Our Canadian winters are exceedingly hard on the health of little ones. The weather is often so severe that the mother cannot take the little one out for an airing. The consequences are the baby is confined to overheated, badly ventilated rooms, takes cold and becomes cross and peevish. Baby's Own Tablets should be given to keep the little one healthy. They are a mild laxative which regulate the stomach and bowels and thus prevent colds. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

gustus. Fittin' had provided this meet of Irish favorites, with a sparkling comedy, which has all the glamor and gaiety of the Emerald Isle. There is a pretty love story, which will captivate all tastes, and a plot that keeps the interest of the audience happily engaged. Mr. O'Hara, who comes with a selection of new hitting songs ballads never before rendered, is supported by a splendid company and a special orchestra en tour.

**At Loew's Next Week.**  
 The rise of a show girl to stardom, who afterwards renounces the stage for home life, is the theme of "Two Weeks," featuring Constance Talmadge next week at Loew's Yonge Street Theatre and Winter Garden. Miss Talmadge takes the part of a chorus girl, who is in her tiny flat trying to escape from a bill collector, when a wealthy young clubman calls. She knows this means a good dinner, and she is hungry. But the bill collector is camping on the trail. So she climbs on the fire escape and slides down four stories to the basement, where she tells the young man she just got back from Newport. But alas, she has forgotten her kitchen apron and it is discovered under her coat. However, she is not a bit daunted, and she gets a square meal. An all-star vaudeville program presents Jack Levy and his symphony girls in "A Study in Melody"; Tilyon and Rogers, comedians; Arthur DeVoy and Players, orienting, "The Peace-maker"; Taylor and Francis, "The Two Kokonuts"; McLaughlin and Evans, in "A Courtship on the Bowery"; and the Three Gregorys, boomerang throwers and jugglers. Loew's Pictorial Review and the "Mutt and Jeff" cartoons will also be shown.

**"In Old Kentucky"—Regent.**  
 An unusually realistic tumble over a cliff is shown in the new picture starring Anita Stewart in "Old Kentucky," which will be the feature attraction at the Regent Theatre next week. The villain, chased by night riders, is hurled from the saddle when his horse stumbles and is thrown over its head. There are many tremendous scenes, one of the finest of which is a real horse race. It is an exceptional scene and realistic in the extreme. Everyone who sees it can feel its gripping intensity just as he were at the race court. Then there is the fox hunt, the feudist battles between the moonshiners and revenue officers. Best of all, there is a splendid love story, a beautiful romance. It holds the interest and makes the

story extremely attractive. The rough and rugged mountains, the deep ravines, the crystal clear mountain streams gushing and tumbling down the steep gullies, the beautiful scenery to this thrilling picture of a mountain girl. A special added feature will be the presentation of a musical tabloid entitled "In Old Kentucky," presented by twelve people, assisted by the famous Regent Orchestra.

**Next Week at Gayety.**  
 An attraction calculated to make an exciting and up-to-date audience take immediate notice is underlined to hold the boards at the Gayety Theatre, commencing Monday, with the customary matinee. It is known as "The Butterflies of Broadway," a smart, rollicking and highly mirthful musical comedy in two acts and five scenes, and presented by Sam Howe's Big Show, with Harry Cooper, Sam Howard, brother-of-Willie and Eugene Howard; Helen Tarr, Hattie Beal, Matthew Kennedy, Florence Mascott, Gus Flaig and a chorus of 30 that compose a cast of wonderful and uncommon excellence.

**At the Star.**  
 Pat White, the whirlwind Irish comedian, who once seen, is always remembered, will be the attraction all next week at the Star Theatre, with his "All New Gaiety Girls." The cast this season includes such well-known burlesquers as Beulah Baker, Jack Kammerman, Alva Grievess, Lillian Coe, Marty Pudig and Coe and Nelson. The organization is completed by a chorus of surpassing beauty, pep and personality. The uproar, laugh vehicle is "Casey's Nightmare," an original scene, and the burlesque public all along the line of the American circuit is pronouncing this production the best of any show White has ever presented.

**Dorothy Dalton at Strand.**  
 Do you like a mystery play? Of course, you do. Well, Dorothy Dalton's latest picture, "His Wife's Friend," which will be shown at the Strand Theatre all the coming week, is a mystery story of the most thrilling kind. It holds a breathless suspense as the remarkable plot is unfolded. The husband of an unhappy wife comes to a sudden mysterious death. Suspicion points to the wife's friend, but the police are baffled at every turn, and the sinister Chinese eavesdropper behind the tragedy is long in having his deadly purpose and its amazing personality. The uproar, laugh vehicle is "Casey's Nightmare," an original scene, and the burlesque public all along the line of the American circuit is pronouncing this production the best of any show White has ever presented.

**The Paulist Chorists.**  
 The Paulist Chorists are making their annual concert tour and Toronto is honored by having one of the open dates arranged for at Massey Hall. The splendid reception they got here a year ago, and their very successful performance will no doubt assure a full house on April 9. Details of the program will be announced in due time.

**"The Unknown Purple."**  
 With credit of a year's run in the Lyric Theatre, New York, and a three months' engagement at the Majestic Theatre, Boston, Roland West's tremendously thrilling mystery play, "The Unknown Purple," comes to the Royal Alexandra, Monday, March 8.

It is doubtful if there has been a play written in a decade which has enjoyed the distinction of "The Unknown Purple." Little or nothing was known of the play previous to its New York premier. It came to the metropolitan practical unheralded, but the news that a thriller or thriller had come to town, spread like wildfire. The piece continued to run in New York for an entire year. Seats will be placed on sale Thursday.

**At the Allen Next Week.**  
 Toronto has seen more than photoplay dealing with Chinese and Japanese life in America, and vice versa, buff "Mr. Wu," the offering which opens

at the Allen Monday, is the first presentation of an Anglo-Chinese drama, played by English critics and produced by an English firm. The photoplay is the screen version of Matheson Lang's wonderful stage success of the same name, which played for many months in London, and in which Mr. Lang, who is one of the best known character actors of the English stage, had the title role. The London performances of "Mr. Wu" were seen by quite a number of Canadians, who at the time were of service overseas, and are now home.

Matheson Lang's interpretation of the role of "Mr. Wu," the Chinese trader of Kowloon, is amazing. His features are somewhat in his favor, but it is in walk and facial expression that he achieves the unexpected. It is no easy role, that of a high caste, oriental gentleman, implacable in his anger, polite and bland at every time, and capable of every extreme in emotion.

**MALE CHORUS CONCERT.**  
 The Toronto Male Chorus, under the leadership of Mr. E. R. Bowles, have prepared a fine program of male voice music for their fourth annual concert at Massey Hall on March 4. Compositions by Dard-Jenin, Bullard, Burleigh, Cyril Jenkins and Friml, will be presented, and the "Italian Salad" by Genes, which made such a hit last season, will be repeated by special request. Max Rosen, the wonderful young American violinist, is the assisting artist, making his first appearance in Toronto.

**ALDERMAN SINGER UPHOLDS CHARGE**  
 Says Prisoner Not Allowed to Give Evidence Until Convicted.

That Colonel Denison was absolutely wrong in his contentions relative to the police court administration, and also that he would still stand by every statement he had himself made relative to this administration, was Ald. Singer's statement last night to The World, in response to a query re Col. Denison. The alderman further stated that, in the special case quoted both by himself and the colonel, the prisoner was not permitted to give evidence until he had been sent down to the cells, and, after making a great rumus, had managed to get back to the court, where finally he was permitted to speak on his own behalf.

The trouble arose out of a letter addressed to members of the city council, in which the charge was made that Col. Denison had threatened to increase the fine of a man charged with infraction of the O.T.A. if he gave evidence on his own behalf, and that he was refused the chance to give evidence until he had been sent down to the cells. Both the colonel and Crown Attorney Corley, denied the charges.

Crown Attorney Corley has written to the license board, suggesting that a fine of \$200 is too severe for a man who merely has a bottle in his hand.

**TORONTO FEATHER FANCIERS.**  
 He most ethically worded charter issued in Queen's Park for some time

is that of the Toronto Feather Fanclub, of which J. C. Whitney and others are provincial directors. It embraces practically all the obsolete and modern principles of the code of honor, as well as sporting ideals of old and new schools. The club will specialize in fancy poultry and prize pigeon development.

**McKinley Orange Lodge Holds Ladies' Night**  
 McKinley Lodge of Orangemen held its annual "ladies' night" last evening in Victoria Hall. A large gathering of members and their friends and relatives enjoyed a delightful evening of progressive euchre and dancing, followed by refreshments served buffet style. The feature of the evening was the presentation of two magnificent bouquets of American Beauty roses to Mrs. E. L. Dyer, the retiring master's wife, and to Mrs. A. J. Fenner, who gave a dinner recently to the lodge executive. The presentations were made by Mr. Ernest Flowers, master of the lodge, after which the ladies replied in a fitting manner. The prizes for the progressive euchre were given out by David Gould, financial secretary of McKinley Lodge. Credit for the success of the evening goes to Mr. Flowers and his committee of management, A. Crittel and Gordon Jamieson.

IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally if You Eat Meat Regularly.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid, which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and does not injure; makes a delightful effervescent lithia-water drink, which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

Apart from an upward tendency in Porcupine Crown and Schumacher, and a movement in the contrary direction by Lake Shore and Dome Lake, the mining market was pretty much at a standstill yesterday.

Traders are showing an apathy which is disappointing after the burst of promise with which the year opened, but it must be remembered that the financial situation, world-wide, is approaching the chaotic, that Wall Street is filled with rumors of gloomy portents, and that a period of greater disposal to the clouds roll over the northern mines can face whatever the future has in store.

What Will the Stock Market Do Next—Up or Down? THE drastic declines of the past few days have left many investors and traders in a bewildered state of mind, wondering whether the liquidation is about over or if stocks are a purchase and if so, what stocks to buy?

In critical market stages such as we are now passing through, it requires a close study of underlying conditions in order to arrive at sound conclusions as to the real market position; to separate the wheat from the chaff, and to determine which stocks are a purchase and which a sale.
