#### Always the Raw End for Public **FURNACE OVERHEATED** Ownership. CHURCH BURNED DOWN

Ten Thousand Dollars Damage Done to Roman Catholic Edifice at Hespeler.

GALT. March 18 .- At 5 o'clock this morning fire started in the Roman Catholic Church at Hespeler, and within an hour the stone edifice was com-pletely gutted. It is supposed the blaze originated in the furnace room in the basement. The building was valued at \$10,000, and the loss is fully covered by insurance. The congregation already had in view the erection of a new church, the plan being to use the building destroyed this morning for separate school purposes.

### STATEMENT OF RIBOT OF GREAT IMPORTANCE

Parliamentarians at Ottawa Consider it Most Significant.

SIR THOMAS WHITE, TOO

He Declares He Cannot Agree That War Will Last Two Years.

By a Staff Reporter. ber of deputies, that the end of the

as of the greatest significance. sion and without vain optimism, we now see the end of this horrible war."

Sir Thomas White, the Canadian minister of fine war. that the Germans on Tuesday had captured Le Mort Holling, as they had claimed in their official communiques. Heavy bombardments continued since Sunday on the front on the eastern banks of the Meuse and in the Woevre region.

Heavy bombardments over every available space the flags of the allies were conspicuous. Small flags were very much in evidence, especially among the school children, who appeared to have the time of their appeared to have the time of their lives waving their tiny flags and agree with the statements made that the correct and Varya village and the Mause and north of Verdun.

Heavy bombardments over every available space the flags of the allies were conspicuous. Small flags were very much in evidence, especially among the school children, who appeared to have the time of their ster of finance, was saying, in the Canadian parliament that he could not agree with the statements made that the war would not be over for two upon every opportunity.

years yet.

Thinks it Impossible. "For myself." he said, "I can scarcely see how that is possible. Rightly or wrongly, financial authoriies are credited with knowing more about the possibilities of the duration of the war than even the soldiery," and the words of Sir Thomas last created a good deal of satisfaction amongst the members here,

The coincidence that two of the finance ministers of ailied governments should almost at the same moment express the optimistic view that the end of the war was near at hand, is regarded as showing that the financial authorities are in possession of trustworthy information that the resources of Germany have at last been seriously crippled.

As the Dominion has the long lengths and parsely populated territory for public ownership of railways, so in Toronto the city is running a street car service in the outskirts at unprofitable fares and a consequent deficit. Why can't public ownership get a fair deal like it has in the power business in many parts of Ontario: have the good business with the lean, and in most places a mon-

opoly? We want a state-owned railway in old Ontario as well as across the wilds of new Ontario; on the fertile prairies as public ownership in Toronto with a monopoly of the street car business and the Toronto Railway and the Toronto Electric and the Hydro-Electric must get the radials in and out of Toronto in order to make a good showing. The people are wakening up to these unfair con-

"It is reasonable to expect that these bodies will not passively accept the adverse votes recently given as final, but will actively contrive some form of effort for what the great majority are convinced the majority are convinced to the convention. are convinced the present situation, and the future of our country demands.

Armstrong.

The appeal which forms a vote, made to the Rev. Dr. Chown says:

"Those favorable to organic union in the three negotiating of churches should unite immediately upon the basis of union. Such a union would embrace the Methodist and Congregational churches almost in their entirety and the great majority of the churches as well."

Sive action of the part of all time principles which she insists that parliament should follow in granting reforms. In the judgment of those who have had practical experience in places where the present organic union would be more easily accomplished and organization along democratic and nation the basis of the part of the

Post-bellum Problems. "Problems of such pressing interest

#### The Hohenzollerns Must Go Before Peace.

There never was so good an outlook for us in this war as there is today. There's a rift in the cloud; some sunlight is coming thru. But we do not see the kaise in the sun. Nor his son either, and yet whether sun or cloud we must bend to the task of carrying on the war with still greater perseverance.

But how can the war end without the most tremendous humiliation of Germany? That is the thing which seems to prevent its early closing. The allies have sworn, one to the other, that the well as in arctic Quebec. And we want kaiser and his works must first be smashed. Here is the only stall off in that situation in order to save the face power distribution. Toronto must buy out of the German nation; and that is for the German people to smash the kaiser and all his works themselves; by substituting democratic rule for military autocracy; put the landholding aristocracy as Heavy Troop Movements in well as the kaiser out of "ling. The allies might treat with a reorganized Germany on terms hat would never be en. tertained with the kaiser still on top. The first murmurs of such a revolution in Germany can now be heard.

To save the absolute humiliation that is in store, sooner or later, for Germany the kaiser must go out to the front on a battlefield and never come back; and on the same day send out his fleet to meet the British fleet in the North Sea. Then the German people may see a reasonable settlement in sight. If the kaiser will not go out in front then he must go to St. Helena in the certain nope that engagement between British and Turk- he'll never come back in a flag draped coffin as Napoleon came back to a national tomb in Paris.

. . . . Perhaps history will call this the Kaiser's War; he was the beginning as he will be the end of it and of his dynasty. The Hohenzollerns must go, root and branch as a ruling family. A possible peace is not a hard thing to grasp once you put the kaiser out of the sum-up.

That's where the United States made a big mistake. They should have declared war on kalserism as the denial of republicanism and liberty. Such a declaration would have cost them less in money than it has cost them in loss of prestige. And they'd have had all the German ships now in American ports as the first line of a great American merchant fleet! Mexico would not have defied an armed and fighting United States. And the weakness of the German-Americans was their failure to disown the kaiser and his works. They may live to see the people of the fatherland do it, and when is more pro-ally today than ever before. And they do not want ships for commerce so much! Perhaps they'll try and must -et used to the idea of a dead buy out Herr Ballin. Ballin has gotten Fair, with higher temperature. rid of Von Tirpitz and his Whickers. But before you think of peace.

No Infantry Action, and Even Artillery Fire is Intermittent.

#### **BALKANS ARE ACTIVE**

Bulgaria Are Reported From Bucharest.

LONDON, March 18 .- Since the nassed attacks of Thursday night against the Village and Fort of Vaux, northeast of Verdun, the Germans have not advanced at any point on the defences of the fortress, Paris announced today. Last night passed without in-fantry activity, and even the artillery action is described as intermittent The Paris war office reports that the Germans did not reply to a concentrated fire directed by the French guns against the German trenches in the Corbeaux Wood and in the direction of Hill 265, which is nortwest of Dead Man's Hill. On the other bank of the Meuse, there has been heavy work by the artillery, notably in the region of Vaux.

Balkans Are Active. Reports of developments of importance in the other war fields are lacking. There appears to be increasing military activities in the Balkans, however. Heavy troop movements in Bul-garia are reported from Bucharest, the railroads being given over to this traffic. In Roumania passenger traffic on a line from Bucharest to the Hungarian frontier has been suspend-

Recent rumors of the assassination of Enver Pasha, the Turkish minister of war, are followed today by an official statement from Constantinople that he has returned to Constantinople from a trip of inspection to Syria, Palestine and Arabia.

#### REQUEST GOVERNMENT TO RETURN TRAMWAYS

Toronto Company's Representatives Open Negotiations With the Mexican Authorities.

MEXICO CITY, March 18.-Repreentatives of the Mexican Tramways Co., a \$50,000,000 corporation whose eadquarters is Toronto, Canada, are treating with the Mexican Government for the return of the property of the company which was seized a year ago by the military authorities, and since

by the military authorities, and since then has been operated by them, in order to avert labor troubles.

Juan Serrabia, representative of the government in the negotiations, says the property will be neturned to the cwners this week. The company operates 400 cars and controls over 220 miles of trackage. Seventy-five percent of the capital of the company is owned in Belgium and France. The owned in Belgium and France. The foreign representatives of the company here are Judge Phippen of Toronto, E. D. Trowbridge of Detroit, and C. B. Graves of Marblehead, Mass.

#### HORRIBLE WAR'S END IS ALREADY IN SIGHT

French Minister of Finance Makes Notable Announcement to Chamber of Deputies.

PARIS, March 18 .- "We have reachd the decisive hour," said Alexandre Ribot, minister of finance, speaking in the chamber of deputies, last night on the financial and military situation. "We can say, without exaggeration, without illusion and without vain op-timism, that we now see the end of this horrible war."

M. Ribot's utterance is taken to be of the utmost importance, as indicating official opinion with regard to the result of the battle of Verdun. When ther peace is or is not appreciably nearer, it is unquestionable that the tension in France has relaxed, and that nen's thoughts are turned to the rapid development of events favorable to the

#### SUCCESS OF SAXON CAR IS NOW COMMON GOSSIP

The Saxon record of success in the U.S.A. has become common gossip among the motor-vise of Canada, and 1916 will see the Saxon motor cars represented in practically every important city of the Dominion.

The Saxon Sales Co., Limited, distributors of the Saxon motor cars thrustendaments.

out the greater portion of Ontario have secured a prominent location for their showrooms and service station at the northeast corner of Yonge and Wellesley, where all the Saxon 1916 Models will be on display after alterations to the premises have been completed. The 1916 Saxon styles and prices are as follows: Saxon "Six" five-passenger, \$1115; "Six" Roadster, \$1115; Saxon

Four" \$530. Manager Green says, "The Prospects for Saxon are plentiful. This is attribiable to the unexcelled value of the Saxon Models at their popular prices as well as to their reputation for unusual economic operations."

PAVLOWA UNSURPASSED AS A

For a dancing academy to cater only For a dancing academy to cate only to a select patronage conditions must be so that no fault can be found with said place in any way. Probably there is no place in North America that is better or more carefully conducted than Payor more carefully car wa or where the environments are so

To conduct a dancing school in a firstclass manner there are two essentials to
be considered first—the floor and the
music. Undoubtedly the floor at Pavlowa
cannot be improved upon. Special attention is given it each day, and a more
perfect dancing floor cannot be found.

Next in importance is the music. To
this end Pavlowa Academy has given
special attention in making the msic
there one of the big features. The management informed Director Boyle some
time past to spare no efforts in securing the very best musicians in this city,
and he certainly has done so, for the
music there is really delightful—to spectators as well as dancers.

On Tuesday evenings Mr. Boyle gives
an orchestra concert, which is a treat
to hear. He has engaged for the season on Tuesday evenings the very best
musicians Toronto can furnish, and the
music rendered by these men is well
worth hearing.

The large classes which receive in-To conduct a dancing school in a first-

music rendered by these men is well worth hearing.

The large classes which receive instruction in the modern dances each evening also speaks well for the manner in which the school at Pavlowa is conducted. Nowhere can a pupil learn the standard steps as thoroly and quickly as at the Cowan Avenue Academy. For those desiring private lessons the teachers have a special room. It rarely happens that a pupil at this school who take a private lesson finds it necessary to take more than one lesson in any of the modern dances, which certainly denotes thoroness in the teaching department.

#### WOMEN VOLUNTEERS **GIVE PATRIOTIC DANCE**

Thousand Sox Campaign Gets New Impetus From Event in St. George's Hall.

The Woman's Volunteer Corps gave patriotic drama and euchre last wening, at St. George's Hall. Lt.-Col. Galloway, assisted by Sgt.-Major Judge of the 92nd Battalion, acted as masters of ceremonies. The 92nd Bat talion Band supplied the music for the occasion. The following ladies received: Mrs. Galloway, Mrs. Waden, Mrs. mon. The prize for the best costumes were won by Miss Gilbert and Miss Margaret Fraser. Miss Simpson danc-ed in Highland costume to the music of Pipe-Major Macpherson. The 92nd Highlanders were specially prominent nong the guests. "The Thousand Sox" campaign will be greatly benefited.

JARDIN' DE DANSE HAS RECORD CROWD.

The attendance at the Jardin de Danse at the Cafe Royal was on Fri-day evening the largest in the history a son of W. F. McGiverin, Hamilton, those present thoroughly enjoyed the and was born in Toronto 40 years ago, music and the social intercourse.

CITY FACES CIVIC CAR LINE DEFICIT Three Hundred and Eighty Thou-sand Dollars Will Have to

Be Made Up.

One of the first things the civic transportation committee will have to deal with is the deficit on the civic car lines, which amounts to \$380,000 for the three and a half years the lines have been in operation. This deficit is due to the fact that the city council decided upon a two-cent fare, altho Commissioner Harris has always wanted to charge three cents.

keeping with these stirring times, the display at present is that of a military officer's uniform and complete outfit. On either side of this display are two main entrance doors, set back from the street line a sufficient distance to allow of there being two splendid show windows to the right and left of the entrance.

This change in the store-front design is right up-to-date in its character, and is in keeping with the progressive spirit of this immense men's talloring institution, that is catering to the trade from one end of the Dominion to the other.

Lower Coal Bills

When you put in your coal do you consider the heat value, also the waste in ash and moisture? Many coal users throughout Toronto now

#### NEW HOBBERLIN STORE FRONT DRAWS CROWDS

Novel Outside Showcases Latest Method of Displaying Fine Clothes.

An attractive and advantageous alteration has been made in the Yonge street entrance to the House of Hobberlin. The well-known centre doorway has been removed, and in its place there stands a built-in outside showcase, in which will be exhibited from time to time the special designs of men's clothing being manufactured by this large concern. In keeping with these stirring times, the

Hydro boasts that its reductions are not forced. Are they a matter

of caprice? Why have the taxpayers of Toronto to pay in the neighborhood of a quarter of a million dollars a vear more than the cost of the power for their street lights? The reason is that competition with the Telco forces Hydro to sell light and power cheap to private consumers. In order for Hydro to make any sort of showing it is necessary that it should take "all the traffic will stand" from the service it supplies the city. So the money is taken from the average taxpayer, who does not use electric current in his home, in order to permit the Hydro to sell cheaper to the minority of citizens, who do have a private use for the current. The money has to be found somewhere, and the City Treasury seems to be a good place

to find it.

#### LARGE TROOP MOVEMEN NOW ON IN BULGARIA

Reports Passenger Roumania Traffic Suspended for the Past Ten Days.

PARIS, March 18 .-- Movements of troops on a large scale in Bulgaria are reported by the Havas correspondent at Bucharest, Roumania, is a despatch filed on Wednesday. It is said these operations are so extensive that both passenger and freight traffic have been In Roumania, the correspondent says,

passenger travel has been stopped for ten days on the railroad running north from Bucharest to Predeal, on the Hun-garian frontier.

BIRTHS.

ARMSTRONG-On Wednesday, March 15, at Victoria Hospital, Lee avenue, to Mr. and Mrs. Thos. Armstrong, a daughter, both doing well. BURGER-On Saturday, March 18, at the

Bradgate Apartments, Avenue road, Remy Charles Burger, beloved husband of Elizabeth McKillop, (Swiss Consul). Funeral notice later. CASTON-On Saturday, March 18th Captain Frederick Albert Caston, R.O., 10th R.G.

Funeral from Church of the Holy Trinity at 10.30 Tuesday morning to St. James' Cemetery. IN MEMORIAM.

MILLER-In loving memory of our dear mother, Martha Miller, who died March 19, 1915:

'Tis just one year ago today
That God above called you away.
Wa'miss you and love you as mucl
today,
As at the time you passed away.
We often sit and think of you,
And miss your smiling face.
A mother that was kind and true,
None on earth can fill your place.
Husband, Sons and Daughter.

Mayor Bowlby, Brantford; Mayor Dickson, Dundas; Mayor Burgoyne. St. Catharines; Capt. (Mayor) Wal-

ters.
The parade started from the ar-Toronto's pre-eminence as one of the greatest recruiting centres in the British Empire is out-rivalled by the achievements of Toronto soldiers at a veritable field marshal.

The great advance.

"The parade started from the armories on James street exactly upon the stroke of 2 o'clock, when the command of Major Gordon J. Smith command

Covered 11 Miles.
In the route March thru the city the troops covered close to eleven miles and marched upon nine different streets. These streets were chosen so that the march would be approxithere were 25,000, making close to a total of 100,000 people who viewed

the event. Tre place of honor in parade was ac corded Hamilton's returned soldiers, who, under the command of Major Buchanan of the district training school here, marched 100 strong past and is returning to Porcupine. During the saluting base, where Sir John S. Hendrie brought himself to attention of the Hamilton Home Guard, under the city for its parade thru the east-the time in the fort he has been a sa homage to the men who have done as a homage to the men who have done had the men model prisoner, and was instrumental in having all the prisoners keep up I hysical exercise, and also had a library established for their use. No official

showed the ribbons of at least one campaign. The applause was deafening and many a child, too small to see the veterans, was held arm high by admiring parents.

The second unit to pass the saluting base was the Canadian Mounted Rifles, 600 strong, under the command of Major Gordon J. Smith. As the com-mand of "Eyes right" rang out and the officers' arms were raised sharply to the salute, thunderous applause arose from the thousands of citizens that packed the gore and canon and rifle salutes, fired from the buildings that overlooked the park, echoed and

re-echoed thru the air. The entry of the 173rd Highlandcommanded by ers of Hamilton, Lieut.-Col. Bruce, was the occasion for a still greater outburst of cheers. Led by their pipers, playing "The Campbells Ae Coming," the people gave way to a frenzy of excitement that only lessened when the strains of the pipes were far in the distance and their place opposite the saluting base was taken by the 205th Tigers' Battalion, under the command of Lieut.-Col. R. R. Mcodie. Their huge bulldog, "Tiger," that has accompanied their organization on many a victorious field, clothed in black and yellow, caused many

comment.

Much interest was occasioned by the 47th Battery of Toronto, which in command of Major Fields, took part in the parade. The parade strength of the battery was 135 men strength of the battery was 135 men out, while the Home Guards and the out, while the Home Guards and the course deciders were 500 strong.

The overseas battalions were followed by the local militia regilowed by the local militia regi-ments, the 13th Royal and the 91st Highlanders. which under the the command of Lieut.-Col. Robertson and Dalley respectively, totalled 500 men in uniform. A feature of the missioned and privates. The parade 13th participation was the fact that took one hour and a half to pass a Sir John M. Gibson, brigadier-general, given point. That in the course of who is honorary colonel of the 13th, its march thru the city it crossed marched with the unit to the saluting base, where he fe'll out and joined the The first time was 3.07. at the comstaff officers in the stand.

the crowds. Tere was no accident, the the St. John Ambulance Association was ready in case of emergency. DR. THOMAS W. SPARROW DIED AT HIS HOME

Veteran Physician Saw Service in American Civil War.

Dr. Thomas W. Sparrow, who pragticed medicine in this city for more than 35 years, died at his home, 44 Spencer avenue, on Friday. The late Points to be remembered about the Dr. Sparrow was a son of the late Thomas Sparrow, who was at one time city treasurer of Galt, and clerk of the division court, the family being well known in that section of the province. He was 83 years of age. At this time it is interesting to note that Dr. Spar-row acted as medical examiner during the American civil war for the northern forces. He is survived by the widow, three sons and two daughters.

ITALIAN LABORER KILLED BY TRAIN

Louis Trelli, aged 37, an Italian laborer on a C.P.R. construction camp at Swan-sea, was instantly killed by a C.P.R. passenger train from Hamilton while crossing the tracks on the lake shore

## SPORTING SECTION OF THE TORONTO SUNDAY WORLD

#### WILLARD WILL BE IN GOOD CONDITION FOR MORAN BOUT

Getting Rid of the Fat Easily, and is Increasing His

#### RIGHT NOT IMPROVED

Has Nice Left Jab, But Right-Hand Wallop Slow in Coming.

NEW YORK, March 18 .- Pound by pound Jess Willard is getting rid of the fat that he gathered about him. The hig fellow is down to real hard work, and his friends are breathing a little easier. Moran, on the other hand, being in wonderful condition this early, was forced to take a week's lay-off for fear of going stale before fight night. The big Pittsburger had rounded to so nicely at White Sulphur Springs that he feit a little too frisky when he moved down to Dal Hawkins' Camp. His first days in the camp convinced Trainer Willie Lewis that his charge was right on edge, so he called a halt. All this time Willard was plodding along in his quiet way, making a brave effort to reduce his waist to its original perfect 38 proportion. bound Jess Willard is getting rid of the

his waist to its original perfect 38 proportion.

One thing in Willard's work stands out. It is certain that he has not improved in the use of his right hand. He pops the left over with the regularity of a pendulum, and when it lands his opponent is jarred to his heels. Willard has tremendous arms. The biceps of his right arm are as big around as an ordinary man's leg. He can hit a terrific blow when he lands, but as a rule, his sparring partners have little difficulty in avoiding him, for Jess is miserably slow. After watching him for a couple of weeks to the punch on more than one occa-Jess is always good-natured when mix-

Jess is always good-natured when mixing it with the gloves. As a matter of fact, good-nature has been one of his greatest faults. He never did seem to get up his ire until some one cracked him good and hard on the chin. Recently the only time he seemed to be serious was when he boxed with Boer Rodel. The Boer was an old ring foe, having fought him three different times. On one occasion the Boer gave Jess a time hiding. After the fight was over from Jones told Jess that if he couldn't de any better he had betten go back to forming. Jess admitted that he had fought a wretched bout, and begged for one more crance. Tom did give him another chance—the one with Jack Johnson. The rest, is ring history. Jess

Little Jess is Grandest Baby in the ana also ran. World, is Father's Way of Thinking.

(By Iconoclast.) NEW YORK, March 18.—Jess Willard is human: I got the big fellow to talk the little fellow."

"Yes, said Manager Tom Jones. "He's and 1 to 3.

"Yes, said Manager Tom Jones. "He's 3. Seminol to 5 and 7

fighting for a living?" I mentioned casu-Ally.

"I am in a strange country here, and I can't get a peep at little Jess for over a week more. He's the darlingest kid in this breadth of land. He can't be beat,"

"Is the reply. It showed he heard the contaction wat.

wis the reply. It showed he heard the question—not.

'I'm in the fighting business for the money that's in it, but my family comes first," drawled the big fellow. "You should see the kid to appreciate good children and wonderful bringing up. I have three daughters. They are the best ever, too, but I'm strongest for little Jess. I can't help it."

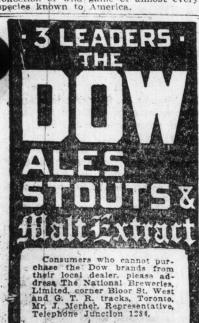

'Little Jess celebrated his second birthday three weeks ago. He is the strongest child living. He is getting so big that he has to wear clothes of a four-year-old child. He likes to paddle in water. He goes thru his boxing orders just as I give them."

Willard would not be interrupted:
"I thing it's in the little fellow to be-

"I thing it's in the little fellow to be-ome a boxer. But I guess he won't. ome a boxer. But I guess he won't.
One fighter is enough in any family. It's
natural with him to spar. And he likes
to slap me when I fool with him.
"But the
make-up is the fact that he never cries.
I've never heard him as much as make
a noise, let alone screech like other babies. Little Jess is the flower of my heart, and I will go right back home after my fight, grab him in my arms and kiss and hug him until I'm tired."

#### MAYOR CHURCH TO SEND CARIBOU TO JOHNSON

CHICAGO, March 18.—Ban Johnson, Aperican League chief, lest summer shipped \$750 worth of baseball parapher-pelia to Canadian soldiers fighting in Belgium. During spare moments the troops staged games. By way of reciprocating Mayor Church of Toronto consented to ship two live caribou from the Canadian wilds to Camp Jerone, Mercer County, Wisconsin, the hunting

up, mile and 70 yards:

on the job. St. Paul's goal had several
narrow escapes when scrimmages occurred in front of it. Freeman rushed niceity for the Beaches, only to see Ryan grab
his shot with one hand.

After a long series of Beach attacks,
they sent down a three-man combination
from which Flynn scored.

Kew Beach 2, St. Pauls 0.

O'Reilly went down single-handed for
the Saints, but was bottled up by the
defence. Freeman tricked the St. Paul
defence pair and bounced the puck off
Ryan's pads into the net. BOXER JESS WILLARD up, mile and 70 yards:
1. Allstone, 106 (Ambrose), 7 to 2, 2 to 1, 2 to 5.
2. Flitaway, 106 (Stearns), 17 to 5, 15 to 1, 2 to 5.
3. Harwood, 109 (Keleval)

#### Havana Results

HAVANA, March 18.—The races here today resulted as follows:
FIRST RACE—Two-year-olds, four 1. Cadillac, 110 (Troxler), 1 to 2, out. 2. Idolita, 102 (Ward), 7 to 2, 4 to inole, 117 (Connelly), 5 to 1, 8 Jones never said truer words.

"What does Mrs. Willard think of your shting for a living?" I mentioned casulty.

"I am in a strange country here, and oan't get a peep at little Jess for over can't get a peep at little get a peep at little get a peep at little Jess for over can't get a peep at little get a pee 5 and 2 to 5.
2. Carlton G., 109 (Connolly), 4 to 5, 1 to 3 and out. to 3 and out.
3. Cuttyhunk, 101 (Wolstenholm), 4 to
1, 6 to 5 and 1 to 2.
Time 1.42. Argentine, Dr. R. L.
Swarenger, Lady Rankin, Water Lad also ran. RACE—Selling, three-year-olds and up, six furlongs: 1. Lord Wells, 112 (Connolly), 8 to 1, 3 to 1 and 8 to 5. 2. Ford Mai, 112 (Ward), 7 to 1, 5 to 2 Play Dufferins, Western Chamand 6 to 5.

3. Snifty Allen, 115 (Troxler), 12 to 1, 5 to 1 and 5 to 2.

Time 1.14. Granado, Tie Pin, Regular, Montreal, Wavering, Captain Elliott and

Sordello also ran.

FOURTH RACE—Selling, 3-year-olds and up, 5½ furlongs:

1 Fulgar, 111 (Hinphy, 5 to 2, even and 1 to 2.

2. Massenet, 111 (Ward), 6 to 1, 2 to 1 and even. and even.
3. Tiger Jim, 111 (Watts), 5 to 1, 2 to and even.
Time 1.09. Sir Offenbach, Font, Jim
I. Electrician and Jim Mallady also ran.
FIFTH RACE—Selling, 3-year-olds
and up, 51/2 furlongs: and up,  $5\frac{1}{2}$  furlongs: 1. Daylight, 97 (Jenkins), 5 to 1, 2 2. Rustic Maid, 100 (Stoctt), 12 to 1, to 1, 5 to 2.
3. Ethan Allen, 97 (Wolstenholm), 3 to 1, even, 1 to 2. Time 1.09 1-5. Ajax, Inlan, Hester, Chance, Jane, King McDowell, also ran.

WHITMAN APPROVES. NEW YORK, March 18. Governor NEW YORK, March 18.—Governor Whitman unofficially placed the stamp of approval on the Willard-Moran bout, which is to be held at Madlson Square Garden on March 25, and Tex Rickard, the promoter, has been assured that there will be no interference with the management of the show corporation. The arrangements for the bout were completed yesterday, and Police Commissioner Arthur Woods and Fire Commissioner Robert Adamson have both assured the management that they will oner Robert Adamson have both red the management that they will

co-operate in every way possible handling the big crowd.

#### FORTY-FIVE THOUSAND HORSES WITH CANADIANS

Divisions in Northern France and Flanders Use That . Number.

Forty-five thousand horses are now eing used by the three Canadian divisions now in northern France and Flanders. A report received at the oronto recruiting depot of the Royal anadian Horse Artillery states that horses are divided into 15,000 for ach division. The horse are in use or officers, horse and field artillery nd transport service.

FALL OF A CELESTIAL

### ST. PAUL'S AND KEW BEACH IN SEMI-FINAL

Winner to Meet Gages, Western Champions, for Senior City Honors.

ARENA GARDENS, Merch 18 .- St. Pauls and Kew Beach seniors hooked up here this afternoon in the deciding game for the championship of the eastern section of the Senior Beaches League. The Gages, champions of the western section of the league, for the senior city honors

O'Reilley; left defence. Hayes; rover, Pitre: centre. Mogan; right wing O'Connor: left wing, Gibson. Kew Beach—Goal, French; right defence, Flynn; left defence, Freeman; rover, Collins; centre, Washborn; right wing, Mullett; left wing, Avery.

Referee—Case Curzon.

First Half.

Reaches got huse from the face-off and

First Half.

Beaches got busy from the face-off and started a siege on the Saints' goal, which remained intact, owing to wild shooting. Following several St. Paul raids to the Beaches' end, Washborn secured near the Saints' goal and scored with a shot from the side. Kew Beach 1, St. Paul 0.

Logan tried French: with a hard shot from well out, and found the goalkeeper on the job. St. Paul's goal had several narrow escapes when scrimmages occur-

Ryan's pads into the net.

The half time score: Kew Beach 3,
St. Pauls 0. The opening stages of the last half found Kew Beach on the defensive and St. Pauls pressing them hard. When the players were bunched on one side of the rink Freeman secured the puck and going down himself beat Ryan. Kew Beach 4, St. Fauls 0.

O'Connor delayed the game when he discovered his class looganed. Gibean discovered his skate loosened. Gibson took an open shot on the Beaches' goal which French stopped but could not clear. Pitre batted the rebound in for St. Paul's first goal. Kew Beach 4, St. Paul's

Mogan and O'Connor showed a nice combination rush for the Saints and it terminated in O'Connor scoring. Kew Beach 4, St. Pauls 2. Beach 4, St. Pauls 2.

Kew Beach showed two men on penalty bench when Gibson scored another for St. Pauls. Kew Beach 4, St. Pauls 3.

St. Pauls tried hard to even things up, and played desperately, but had not scored when time was called.

Final score: Kew Beach 4, St. Pauls 3.

pions, in Beaches League Final.

Dufferins and Kew Beach were the contestants to take the ice in the sec ond game here this afternoon. As both teams are champions of their groups this game was to decide the intermediate title. Line-up:

Kew Beach—

Dufferins—

Sands Clegg. . ..... Hall Doyle Centre

...R. Wing ..... Doyle Referee-Hewitson. First Half. First Half.

Kew Beach showed a decided advantage in weight, but were put on the defensive from the start. Pennock started a rush for the Beaches, but was stopped when he reached the defence. Dufferins resumed their siege of the east enders' goal. Finally Stanton secured the rebound from Doyle's shot and beat Sands from close in. Dufferins 1. Kew Sands from close in. Dufferins 1, Kew Eeach 0. Hall of the Dufferins went off the ice with a cut forehead and Beaches dropped a man to even up. Dufferins had Kew Beach trapped in their own end of the ice and rained shot after shot on Sands, who turned them all aside like a vet-

Hall resumed and the teams were at full strength again.
Half time, Dufferins 1, Kew Beach 0. Half time, Dufferins 1, Kew Beach 0.
The Beaches showed a lot more speed and snappy checking in the last half and their own better than in the first Beaches pressed Dufferins, but found Glynn in goal a regular mountain of defence. Finally R. Goldsmith beat Sands with another. The game ended, Dufferins 2, Kew Beach 0.

Mr. Musker's Melton Studs Breed More Thorobreds Than Any Other Establishment.

LONDON, March 18 .- Melton Studs. Gee Ching, 127 1-2 Queen street west, slipped on the pavement on the sidewalk at the corner of Queen and Elizabeth streets Saturday night and was knocked unconscious. He was taken to St. Michael's Hospital in the police ambulance and later taken home by two of his fellow-countrymen.

LONDON, March 18.—Melton Studs, a private establishment belonging to Mr. Musker, is the largest in the world devoted to the breeding and rearing of thorobreds Involved to the breeding and rearing of thorobreds in Norfolk it has 11,500 acres and in Kent 350 acres. At present there are now more than 270 thorobreds at the Melton Studs, Including the stallions, there are now more than 270 thorobreds at the two studs farms, and it is anticipated that by next June there will be, in all probability, about 400.

#### FREDDIE WELSH IS FAST APPROACHING BOXER'S AGE LIMIT

NEW YORK, March 18.— Freddie Welsh has celebrated Freddie Welsh has celebrated his 30th birthday. The clever Welshman is fast approaching the dead-line beyond which few fighters have traveled with any degree of success. Freddie seems to get better with age, however. Just now there are few men in the world who can outwit him in the ring. Abe Attell walked over to a table the tell walked over to a table the other night and declared before a number of scribes that Welsh could, and did, outguess him in

could, and did, outguess him in a fight.
"They'll never catch that fel-low sitting there," said Abe, as he pointed to Welsh. "He can think faster in the ring than any man I ever fought. I'll admit that out in Los Angeles he beat me to every move that I tried. I" give credit where it belongs. Freddie Welsh is a

#### JESS-MORAN GO COSTLIEST THING IN SPORT HISTORY

Ten-Round Bout in Gotham Sets New Record for Purses-Even Auto Race Drivers Are Not as Lucky as Big Jess

NEW YORK, March 18.—Considering that Jess Willard will get \$1583.33 more than twice that amount, his a minute for a ten-round set-to with Frank Moran on March 25, the bout rank is to get \$25,000, making the total grantont to the fighters \$70,000. is the most costly thing in the history of sports.

Not even daredevil auto racers, who win great sums in dashes over dangerous courses, have ever been paid Arm W at as high a rate as the heavyweight champion. One other fight purse was larger, but for an unlimited number of A record for ten-round no-decision

bouts was set when Packey McFarland and Mike Gibbons were given \$32,500 for a bout in New York seven months

But Willard alone is guaranteed

ran is to get \$25,000, making the total guarantee to the fighters \$70,000. Other costly things in sport are here named, each being the most costly of Arm—Walter Johnson's, \$50,000. Feet—Freddy Welsh's, \$100,000

Hands—Fred Snodgrass'; they cost the Giants \$30,000 world series money. Legs—Joe Stecher's, used in wrest-ling, \$100,000. Mouth-John Evers'; he talked the Boston Braves into

#### LOOK OUT! MR. WILLARD SEVENTH ROUND IS JINX

anything in the science of numbers Willard had best beware of the seventh round at Madison Square Garden on will not be 13 rounds in the coming the 25th. Albert A. Gamble, lightning light, so he started on a new lead. He calculator extraordinary and figure juggler supreme, has been working out the jinx numbers in Willard's career and seven stands out like a threealarm fire. Here is the way Gamble got the dope: He took all the dates of Willard's fights. Then he got the number of days elapsing between these fights. This accomplished, he took the

NEW YORK, March 18.—If there is the coming fight. In all these compathing in the science of numbers binations of numbers he wound that 12 predominated in some form or other. But Gamble knows that there worked out the number combinations in Moran's career and found that six is Frank's number. Then Gamble took into consideration the fact that Moran and Willard are, or will be, enemies, so he deducted Moran's six from Wil-lard's 13 and seven was the result. Hence Willard stands to lose the fight in the seventh round. Gamble is going up to Dal Hawkins' place to break the number of days between the date of goods news to Moran some time before the champion's birth and the date of the fight.

Pitcher and Great Hitter.

NEW YORK, March 18.-Louis Castro, who played with Joe Jackson down in the sportsmen have done their best, but Carlton G. ... 104 who played with Joe Jackson down in the sportsmen have done their best, but Ray o' Light. 108 the Southern Association, likes to tell the edict has gone out that there is to .....102 Manhattan College about fifteen years

"Jackson was always a terrific clouter," says Castro. "He was the terror of the found that the state would not permit Southern when he played there. I was public racing under any shape or form, playing second base for Atlanta one day, tried another tack. when Joe was with New Orleans. We

The first time Jackson came to bat the score was tied, with two out and a man on third. The pitcher called me over and asked me what to do. 'Hit him with the ball,' I said. 'Put him on and take a chance with the next man.' He did as I told him, and winged Jackson in the side. The next batter fouled out.

It proposed that, seeing the want of problem trials was a menace to the future of French stock, there might be private trials held, without public or betting, and that the winners should be paid premiums for the reserve funds of the racing associations. This, it was contended, would allow of classification and prevent the French thorobred from deseneating after the war into "a selling plater." the score was tied, with two out and a man on third. The pitcher called me over and asked me what to do. 'Hit him with the ball,' I said. 'Put him on and take a chance with the next man.' He did as I told him, and winged Jackson in the side. The next batter fouled out. 'Late in the game the score stood 6 to 2 against us, and Jackson came up again with nobody on and none out. 'What shall I do this time?' asked the pitcher. 'Let him hit it,' I said.

"He put the first ball over, and Joe cracked it against the right-field wall for three bases. As he pulled up at third the pitcher turned to me. 'Gee! It's a good thing I scared him the first time,' he said."

trials held, without public and that the winners shou premiums for the reserve fracing associations. This, it ended, would allow of classic prevent the French thorobre generating after the war int plater."

But the Superior Council of ing Stud—agovernment comn to the organization of these It makes the following however: "As a set-off it is with the consent of the mini the conditions of exportation of the said." the conditions of exportation of pure-blooded English horses should be en-larged as far as possible."

SHELBURNE, March 17 .- The Toronto Speed Skating Association held a to Speed Skating Association held a very successful skating meet at the Shelburne rink last night. All events were keenly contested; but, the rink being 17 laps to the mile, resulted in a spill or two in every event. Harry Cody and Lot Roe were always up at the finish, even if they did fall.

Quarter-nile—1, Lot Roe; 2, H. Cody. Dead heat for third between E. Roe and Erapk Tate. Dead heat for third between E. Roe and Frank Tate.

EASTERN ALL-STAR TEAM.

The team to represent the east in the annual All-Star junior O.H.A. game has been selected as follows:

Goal—Lieut. W. S. Nurse, Belleville. Right defence—Norman Millan, Kingston Frontenacs.
Left defence—J. (Mac) Sheldon, Aura

ee. Rover—Wilfred Wright, Aura Lee. Centre—Harry Watson, St. Andrew's College. Right wing—Alfred H. Graham, Peter-Left wing—Arthur W. Carew, Lindsay, Manager—Bill Marsden, Aura Lee. The West team will be announced on Monday. The game will be played Wed-nesday at the Arene nesday at the Arena

#### M'GRAW HAS HIS FENCES PATCHED UP READY FOR FRAY

Giants Are Expected to Land in Front or Close to the Top.

#### INFIELD IS THE SAME

Changes in Outfield and Battery Staff Are Expected to Help.

NEW YORK, March 18.-The Giants

The Glants finished last in 1915. It is not beyond a reasonable possibility that the Glants will win the pennant in the National League in 1916.

McGraw has apparently mended all his broken fences, and mended them well. Save at third base, where the condition of Hans Lobert is doubtful, the Giants look stronger than since 1913.

The infield will be the same as last year. Fred Merkle had one of the best seasons of his stormy career in 1915 and will again guard the initial sack. Fred hit .299 last year.

Larry Doyle led the National League in batting in 1915. Naturally he will be back at the keystone sack this year. Larry did not field very well last season, but will probably do better this summer.

son, but will probably do better this summer.

Fletcher and Lobert will take care of shortstop and third base respectively. Fletcher is just in his prime and a very clever shortstop. There is no question of his covering that position well. There is grave doubt of Lobert, however. If it were not for this doubt the Giants would be the favorites in the National League race.

be the favorites in the National League race.

The outfield of the club has been rebuilt. George Burns will play left field, but in centre will be the one and only Benjamin Kauff, and in right Eddie Rousch. Mac also has Jim Thorpe and young Babbington.

Kauff and Rousch were erstwhile prides of the defunct Federal League. Kauff led the outlaw organization for the two years of its existence in everything that pertains to offence. He was the best batter, haserunner and runscorer, and held his sway despite tetermined opposition from Steve Evans in 1914 and Lee Magee last season.

Rousch was obtained to replace Robinson in right, after news of the injury to Dave's leg drifted north. He did not hang up as formidable a record with the Edde as Multifully her to the season.

to Dave's leg drifted north. He did not hang up as formidable a record with the Feds as Kauff did, but is a fast youngster, who plays well in the field and will hit close to .300 in any company.

The club has not alone been strengthened in the outfield by players from the Federal League. Bill Rariden, the leading catcher of the defunct Gilmore circuit, replaces the late lamented (by Harry Stevens) Chief Meyers as first string backstop, and Fred Anderson, a pitcher of promise from the Buffeds, has been added to the hurling corps.

Rariden is not a great hitter, but is wonderful thrower. Anderson is a wonderful thrower. Anderson is a youngster who pitched very fair ball last

year.

The Giant problem is essentially one of pitchers. If Matty comes back, Tesreau shows good form, Perritt pitches the ball he is capable of, Benton does his hit and Anderson Street Pitches Stephen. bit and Anderson, Strough and Schauer show anything at all the team has an excellent chance to represent the National League in the world's series next October.

## SAFETY FIRST IS THE

Owner Britton Insures Players Against Accidents Off the Field.

ST. LOUIS, March 18.-If any of the ST. LOUIS, March 18.—If any of the Cards disregard safety first regulations, and walk into a moving street car, or try to drive their "flivvers" thru brick walls, Schuyler Britton, owner of the club, will collect \$25 a week. Britton has taken out an accident policy totaling \$140,000, which insures against all accidents off the field. In addition to the accident policy. Britton took out a document calling for \$20,000 on Miller Huggins' life.

AMERICAN BOXING HONORS.

DETROIT, Mich., March 18.—Ten Detroit boxers are among the sixteen who are to compete at the Detroit Athletic Club tonight in the final bouts for the Central A.A.U. championships. The wingers are to represent the Company of the contract o Central A.A.U. championships. The winners are to represent the Central District at the national championship tourname, at Boston next month. Chicago hathree entries tonight, Milwaukee one Indianapolis one, and Flint, Mich., one. The events are for eight classes, ranging from 108 pounds to heavyweights or boxers weighing more than 175 pounds.

QUALITY MAINTAINED FOR OVER 30 YEARS

THIRD SERIES GOES TO THE ATHENAEUMS

Nosed Out Gliddens and Voddens in Athenaeum "A" League -Standings.

When the Athenaeum team on Wednesday night beat the Glidden Varnish Co. three straight games, they landed in first place in the third and last series of the A League\* After leading up until the last few weeks with what looked like good, safe margin, the Firestones and Voddens started to make their run, but, as it proved, they were just a little late in starting, and were nosed out at the wire. These three teams are the ones wire. These three teams are the ones from whom the winner of the year will come, the Firestones winning the first series and the Vodden Cleaners the middle heat; so, when these three teams meet in the roll-off there is sure to be plenty of fireworks.

Herb Gillis leads the average men for high honors for the season, dueto his having a handicap over Sam Schliman, who, altho finishing second on the list, was much the best pin-getter in the league.

who, altho finishing second on the list, was much the best pin-getter in the league.

The Canadian Oil team suffered their first defeat of the third series, when the Adanacs took them into camp for the odd game on Thursday night. The Congascos and Diamonds are now running close up with the leaders, in second and third places. Kirkland still leads the average fist, closely followed by Bevis and Murphy.

The Afternoon Two-Man League is tightening up, the leaders dropping back ab bit and the rest of the teams closing up on them, making it look like there will be one grand sprint from now to the finish, and the teams look so evenly balanced that an error on either side means the game won or lost. Carson and Schliman and Ginn and Thompson have the edge in the percentage table, but the real leaders are Griffith and McMillan, who have won thirteen out of the last iffeen games played.

The Calves landed first place in the first series of the Union Stock Yards Fiveph League; with twelve wins and six losses to their credit.

The Alley Workers' are one game in the lead in the W. & S. Johnston Fivepin League over the Colts, with the other two teams still in the running.

Mehr NEW TORK, March 18.—John L. Hudson of Newark, N.J., has applied for a patent on a golf club which, it is claimed, will correct wild drives. The new club has what is called a biconcave face, the biconcaving being done both ways on driver and brassie to a dead centre. By this method, so it is asserted, more of the surface of the ball is covered by the club in making the stroke. Result: More impact, a longer ball and a straighter drive.

TOLEDO TOURNAMENT

Brunswick Club's Star Team Expected to Share in Prize Money.

B. C. tournament at Toledo. O., by three

five-man teams from the Brunswick Bowling Club. A. J. Hartmann's Bruns-wick star team are going intact, with the exception of Wilkes, who will be re-placed by Glendenning, and R. Stewart, who replaces Corrects who replaces Carruth
Dr. R. M. Carruth is captaining Brunswicks No. 2, and includes in his line-up the two Hamilton stars, Slatter and Whitty, and G. Albright, whose home town is Toledo. whitty, and G. Abright, which was town is Toledo.

Royal Edwards are picked five-headed by T. O'Connor, and include W. Vodden, L. Ryan, F. Currie and O. W. Hawward.

The Brunswick No. 1 are all well experienced at big tournaments, and are looked forward to bring home a slice of the money. the money.

The other two are well-balanced fives, and may hand out the unexpected, which often happens in events of this kind.

All the members are rolling in doubles and singles. The following are the and singles. The following are the teams:
Brunswicks No. 1—A. J. Hartmann (captain), Glendenning, Stewart, Schliman and Gillis.
Brunswicks No. 2—Dr. R. M. Carruth (captain), Whitty, Slatter, Balding and Albright.
Royal Edwards—T. O'Connor (captain), Ryan, Currie, Hayward and Vodden.
Doubles—Hartmann and Carruth, Gills and Schliman, Glendenning and Stewart, Whitty and Slatter, Albright and Balding, Ryan and Hayward, Vodden and O'Connor, Currie and Bigley.
The Brunswick Club has secured a special rate, and the players leave on a private car Friday night. HELPS ATHLETIC ASSOCIATION.

KINGSTON, Ont., March 18.—At a meeting of the athletic committee of Queen's University, it was reported that the newly-elected chancellor of the university, Dr. James Douglas of New York, had given the committee a cheque fer \$250 to help defray the expenses of the year. With this amount the committee with able to end the year with-

DAVIES, THE WINNERS, GRAB FINAL SERIES

Fooled Wise Ones in T. B. C. Business League—Standing of Clubs.

The dark horse, Wm. Davies Co., conceded only an outside chance a week ceded only an outside chance a week ago, with Boyd Storage, looked upon as the logical winners, came thru on the bit for the final series of the Business Men's League at the Toronto Bowling Club Thursday night when they took all three games from York Lumber Co. while Boyd Storage made possible the above result by losing two out of three games to MacLean Publishing Co. and tied with J. Curry Co., first series winners, finished only one game down on the Packers. It was the greatest race in the history of the league and made so by the sliding handicap system from week to week.

In the Matinee Two-Man League the week to week.

In the Matinee Two-Man League the
Advertisers put another rivet in the
series when they took all three games

series when they took all three games from Linotypes.

In the Rogers Coal Fivepin League the race further tightened when Rogers' Best won all three games from Anthracite, while Black Diamonds were taking the odd game from Al Hard, leaving the former pair tied for the top, while the latter are cnly two games down, and Scrantons, by taking the odd game from Quality First ,are also still in the race, only four games down on the leaders.

In the Balmy Beach Fivepin League it is still a battle only between the first pair, Kew Beach and the Kids, with the latter two games down. The Travelers featured the league with a 948 count, while Anchor Dave Lauder annexed high game for the season with a 232 count.

In the Hydro-Electric Fivepin League, A. C. Power is making a runaway race of it and lengthened their lead to six games when they took the odd game from D. C. Power.

In the Civic and Commercial Fivepin

of it and lengthened their lead of same games when they took the odd game from D. C. Power.

In the Civic and Commercial Fivepin League both City Hall squads still occupy the top and bottom rungs, Assessment leading by two games over Wm. Davies Co. A., while Works Dept. have a cinch hold on the cellar hours. Standing of all leagues:

Fight Returns Are To Be Announced

Following the regular performance at the Star Theatre next Saturday night, special ringside returns of the big Willard-Moran championship fight at Madison Square Garden, New York, will be received by direct wire on the stage of the Star. Operator, wire and announcer will be in full view of the audience, so that the fight fans will hear the round-by-round story of the battle ticked off from the telegraph instrument, just as it takes place in the ring. As there will be two six-round preliminaries before the big battle, the returns of the main bout will begin to come in about the time the burlesque performance is over. Arrangements are now complete for the installation of the wire, which will be exclusive. The entire lower floor of the theatre will be reserved at 50 cents, and these seats are now on sale at the box office. General admission will be 25 cents. Toronto will be represented at the A.

MOSS PARK ATHLETICS.

Moss Park Recreation Centre held its weekly tournaments Friday afternoon and evening, and some lively competition was the result.

In the senior billiards (doubles), Phillips and Block captured the first ribbons after a hard contest against Jobson and Duckworth. Saunders and Johnstone were the winners in the working boys'

Prohibition Creates Drug and "Dope" Fiends—Cheap Patent Medicine "Booze," Dives, "Bootleggers" and Illicit Stills. Prohibition Is an Octopus. This Province Is on the Verge of Oblivion

Are All the Philosophers Fools?

"That society exists for the benefit of its members, not its members for the benefit of society. The claims of the body politic become something only in so far as they embody the claims of the component individuals."—

"The essence of real liberty is that every adult and sane man should have the right to pursue his own life and gratify his own tastes without molestation, provided he does not injure his neighbors, and provided he fulfils the duties which the State exacts from its citizens."—W. E. H. Lecky.

"Prohibition:—A theory of 'social rights' which is nothing short of this—that is the absolute social right of every individual that every other individual shall act in every respect exactly as he ought; that whosoever fails thereof in the smallest particular violates my social rights and entitles me to demand from the Legislature the removal of the grievance. So monstrous a principle is far more dangerous than any single interference with liberty—there is no violation of liberty which it would not justify."—John Stuart Mill.

"Prohibition as a scheme to make men good by Act of Assembly is a pure fantasy. It does not promote either temperance or virtue. It arouses human passion to frenzy by invading private rights. It does not reduce drunkards. It multiplies Pharisees and malefactors. It has no just recognition or belonging in the economy of government or the autonomy of true religion. It is in its essence ignorant, tyrannous and dishonest. They who advance it as a political argument are either bigots or cheats. Laws to regulate the sale of intoxicants and increase the responsibility of liquor dealers, with a judicious and rational license system and a reasonable restriction, are wiser and inote effective, and more likely to be observed and enforced whenever public sentiment approves them than any prohibitory enactment."—Col. Henry Watterson.

"How can I, who have drunk good wine and bitter beer all my life.

"How can I, who have drunk good wine and bitter beer all my life. advise hard-working fellow-creatures to take the pledge."—Hon. W. E. Gladstone.

"It is not in the power of Parliament by an Act of Parliament to change the habits of the people."—The Rt. Hon. John Bright, M.P.

"Anything in the nature of compulsory prohibition of drinking is absolutely impossible."—The Right Hon. Joseph Chamberlain, M.P.

"The prohibition law in Canada and the United States is a gross and ludicrous imposture."—Justin McCarthy, M.P.

"The King will resume work with certain limitations. His Majesty has lost weight and it is essential that he avoid fatigue. A little stimulant is necessary daily during convalescence, (Signed), Frederick Treves, Bertrand Dawson."—Bulletin December 14, 1915.

"National prohibition is a most dangerous proposition. You now have 200,000 Government employes. How many do you think you will need to enforce prohibition?"—Ex-President Taft.

"Steubenville, Ohio, on January 4, 1916, voted for licensed saloons, and 52 saloons are in regular operation under State regulation, where for more than two years there have been no saloons, because the people of that county who live outside of Steubenville were able to say what the people of the city should do in the way of eating and drinking. When the Home Rule amendment went into effect it was determined to put the issue before the voters of the city as soon as possible, and the result was 2,462 'wet' to 2,191 'dry,' a majority of 271. Mingo Junction, between Martin's Ferry and East Livermool, which has nine saloons legally conducted, defeated an attempt of the 'drys' to close them by a majority of 38 in a total vote of about 600.

"The vote of nearly two to one by which the State of Vermont on March 7 defeated a proposed prohibitory law shows that the people of the Green Mountain State are thoroughly convinced that high license and strict regulation of the liquor traffic are better than the unregulated sale of liquor that goes on under prohibition. Vermont tried prohibition for fifty years, with the result that the people became disgusted with the failure of the law to prohibit, and in 1903 went back to the license system.

"Although this system was satisfactory to a majority of the people the pro-

and in 1903 went back to the license system.

"Although this system was satisfactory to a majority of the people the professional agitators of the Anti-Saloon League insisted on the question being again submitted to the voters, who rejected the prohibition scheme by a majority of 14,306, the vote being for prohibition 16,601, against 31,967.

"The prohibitionists cannot explain away this overwhelming defeat by their usual statement that the liquor interest is supported by the foreignborn voters. Only fourteen per cent. of the population of Vermont is foreignborn. Nor is it a question of city against country. Vermont has a larger rural than urban population. There is only one explanation, and it is all sufficient. The people of Vermont had tried prohibition for fifty years. It had miserably failed, and they did not want any further experimenting in that direction."

There isn't a "Dry" spot in Outerio—Local Option and the Scott Act are

There isn't a "Dry" spot in Ontario—Local Option and the Scott Act are swindles—Liquor can be shipped in anywhere—Prohibition, as applied everywhere, is a humbug—Manitoba no exception. The law-abiding licensee is the

All the flowery, silver-tongued orators, all the politicians, all the well-meaning and paid agitators cannot solve the social problem now in question. "Experience is the only teacher."

Great Britain Compensates.—Attention is called to the fact that one of the most important provisions of the Consolidation Act of 1910, embodying improved liquor legislation for Great Britain, assured to every saloon owner who had conformed to the laws compensation for the difference between the value of his property with a license and its value without a license. This Act value provided that "in the case of the holder of the license, regard shall be also provided that "in the case of the holder of the license, regard shall be also provided that the liquor interest in the premises or trade fixtures, but also to his conduct and to the length of time during which he has been holder of to his conduct and to the length of time during which he has been holder of the license; and the holder of a license, if a tenant (notwithstanding any the license; and the holder of a license, if a tenant (notwithstanding any would be entitled to as tenant from year to year of the licensed premises."

The Governments throughout the world, through inactivity regarding quality of intoxicants and law evasions, are responsible to a greater extent than the liquor men for the present agitation. Stiff restrictions, courageous than the scrutiny and action against deliberate transgressors, immediate Government scrutiny and action against deliberate transgressors, immediate closing, with instructions to sell out, will wake and shake them up. Put laws into the statutes that no "pull" can overcome—the wrong-doer paves the way into the statutes that no "pull" can overcome—the wrong-doer paves the way to destruction, and he ought to be weeded out without ceremony—he jector pardizes, ruins his fellow-merchant—it is not just nor fair—the innocent ought not to suffer for the guilty.

The soldier sobriety question became a dead issue when the Ministerial association investigated conditions at the Exhibition Camp and found them

Under prohibition the workingman will be unable to secure a much-needed beverage, while the wealthy man will be able to pay for and import iquor from points outside the Province.

Vodka is 65 over-proof. The strongest Canadian rye sold by me is 22 inder-proof. Vodka is a poison, the other a palatable, stimulating, strengthning beverage. Wholesalers in business in this city for over 60 years never aver a bottle of vodka until the temperance agitators brought it to life.

Absinthe was eliminated from the shops over a year ago. I sold not more than two bottles a year. "Comparisons are odious."

Born in and in love with this city, it grieves me to see the cloud Prohibition hovering over, threatening to darken the brightest spot in all Canada. The spirit of progress will be killed here forever. Regulate, restrict, co-operate in the highest sense, and the problem will be solved; no other course will be reposited in the highest sense, and the problem will be solved; no other course will be prohibition means oblivion for Ontario. Emigration will cease. Liberty is prohibition means oblivion for Ontario. Emigration will cease. Liberty is the magnet that populates. The people of this Province will as sure as the sun shines ever regret the day Prohibition goes into force. The people have gone temperance mad—the only mdicine is reason or bitter experience.

If the "shining lights" Prohibitionists will put zeal into a campaign for a manimum wage for women and girls and a betterment in the social vices' conmitted.

If the "shining lights" Prohibitionists will put zeal into a campaign for a minimum wage for women and girls and a betterment in the social vices conditions—of infinitely more worth than temperance crusading—they will be held in higher esteem. There can be no conflict of opinion.

"Life is a narrow vale. Between the cold and barren peaks of two eternities we strive in vain to look beyond the heights, we cry aloud, the only answer is the echo of our wailing cry."

A Suggestion:—Reduce the strength of all spirits, imported or domestic, for beverage purposes, to a maximum of 25 under-proof. This will lessen intextication and will not deprive the people of their spirit for beverage, tonic or textication and will not deprive the people of their spirit for beverage, tonic or stimulating purposes. I reduce spirits with distilled water to as low as 26 under-proof, which is one-half water.

## EXERCISE GREAT CARE

It is the Eye of the Room and a

Wonderful Embellish-

mirror is the eye of the room, the most expressive and responsive article of furniture that can be put room, responding to changes almost as a living thing. If properly hung it gives a sense of space to a room and

#### A SPLENDID WAY TO RE-DUCE ONE'S WEIGHT

There is, perhaps, no one thing that shows the passing of our youth so much as the horrible tendency of some of us to put too much weight after we have young our face may appear, our figures "mive us away."

The cause of this over-stoutness is that our stomachs convert the food we eat into fat because there is not enough oxygen in the blood to produce a proper combustion to destroy the fatty tissue. To reduce your weight go to a good druggist and get cil of orilene in capsule form, and take one after each meal. It is sold only in original sealed packages. Oil of orilene taken at meal-times gives you all the benefit of the food you eat, and at the same time dissolves the fatty tissue from any part of the body where there is excessive fat. In this way many have reduced their weight at the rate of about a lb. a day, and no fabbiness is left.

Any druggist can supply you or a large size box will be sent on receipt of \$1.00. Address D. J. Little Drug Co., Box 1240, Montreal, Can. The cause of this over-stoutness is that

adds a quality of richness that nothing

Because of the importance of the mirror great care should be taken in selecting it, especially if it is to be placed outside the bedroom. A large mirror when wisely used has the power of expressing sumptuousness more than any other one article of furniture. On the other hand, if overlarge for the hall, living room or drawing room, it gives one the feeling of being in a cheap restaurant or dance hall. A mirror can be disproportionately small as to make the dresser or piece WHEN selecting a mirror it ludicrous. The best way to make sure should be remembered that the mirror is the eye of the room, is intended is to try it. If it is not convenient to do this, a scaled sketch may be made of the mirror and the piece of furniture with which it is to be placed or the space in the wall in-tended to fill. A third way of course is to consult a reliable interior dec-

essential that the frame of the mirror should match the woodwork of the hall, dining or living room. The result was often far from pleasing. For-merly it was not unusual to find a wide, long mirror in a massive top Mr. Peter Austin, treasurer; Mr. Geo heavy frame of walnut built against the side wall of a narrow entrance bertson, Mr. Harold S. Kaplan, secrehall, the wainscoting, doors, door to put too much weight after we have frames and stair railings of which reached the age of 25 or 30. However were all of the same wood. Today in such a hall the mirror would framed in dull gold and would be oval

or square, perhaps, with just enough ornament at the top of the frame to break the severe simplicity of the Like the pictures in a room the mirror should bring into it freshness, brightness and variety. For this rea son the frame may often be of a style distinctly different from that of the other furniture.

The great secret in selecting a mirror, as in all furnishing, is proportion. Try to get the right balance-to have your chairs not so large as to look cumbersome nor so small as to appear emaciated; your pictures not too namerous and your mirror not too

Mrs. Duff Scott has returned from

Mrs. R. Tasker Steele, Hamilton, was the hostess of a small tea on Saturday

Mrs. Herbert Street Cowan, who was in St. John, N.B., last week for the marriage of her daughter, Miss Eva Hamilin Harrison, to Lieut. Col. J. B. McPhee, Barrie, Ont., has sailed for England, where she will see her son, Captain Douglas Adams. Mrs. Cowan's other son, Captain James F. Adams, will accompany her to England.

Among the Toronto people who traveled to Uxbridge to attend the dance given by Lieut. Col. Sam Sharpe, M.L.A., and the officers of the 116th Overseas Battalion, on Thursday last, were Mrs. Danford Harris, Miss Margo Thompson, Miss Jean Buckham, Miss Edna Bach, Major Harris, Mr. Charles Sparrow, Mr. Arthur Norwich, and Mr. W. Thompson.

The following members of the Chatcau-guay Chapter, I.O.D.E., Mrs. Wallace Nes-bitt, Mrs. W. R. Riddell, Mrs. Mulock, Mrs. Beatty, will be at 295 Yonge street all week to receive contributions towards the 'White Elephant' sale next week.

all week to receive contributions towards the 'White Elephant' sale next week.

At Knox Church, Brandon, the marriage of Emily, eldest daughter of Mr. and Mrs. J. W. Gordon Watson, Brandon, to Capt. Duncan Robinson, Army Service Corps, son of the late Mr. Christopher Robinson, K.C., Toronto, and Mrs. Robinson, was very quietly celebrated, the pastor of the church, Rev. J. Lowery, officiating. Both bride and bridegroom were unattended. The former, who was brought in and given away by her father, looked very pretty in a tailormade traveling costume of dark blue gabardine, the coat opening over a corsage of shell pink crepe de chine. Her hat, of Nubian brown lacquered straw was trimmed with two smartly tilted straw wings. She wore a corsage bouquet of pink roses and lilies of the valley. After the ceremony Capt. and Mrs. Robinson left by the eastbound train. After a short honeymoon in the east and south they will return to Winnipeg to reside until the bridegroom leaves with his regiment on overseas service.

Mrs. Ross Gooderham has given a beautiful gold chair to the Chateauguay Chapter, I.O.D.E., for their white elephant sale, and other people have given so many beautiful things that the room is hardly large enough to hold what had been received, even by Wednesday last. The cut glass is lovely.

Among the many distinguished patrons for the Kennedy-Kinghorn recital in Foresters' Hall, on Saturday evening, March 26, are Col. and Mrs. Gooderham, Mrs. Frederick Mercer, The Dean and Mrs. K. C. #### **BEAUTY DOCTOR** TELLS SECRET

Detroit Beauty Doctor Gives Simple Recipe to Darken Gray Hair and Promote Its Growth.

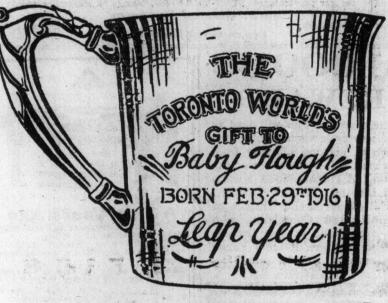

Miss Alice Whitney, a well-known beauty doctor of Detroit, Mich., rement: "Anyone can prepare a simple mixture at home, at very little cost, that will darken gray hair, promote its growth and make it soft and glossy. To a half pint of water add 1 oz. of bay rum, a small box of Orlex Com-pound and 1-4 oz. of glycerine. These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look 20 years younger. It is also fine to promote Ross, Mr. Gordon Quinn, Mr. Chas.
Ross, Mr. Howard Robson, Mr. C. Reynolds, Mr. G. A. Stewart, Mr. P. A.
Limited, at all stores, Toronto.

## LAST WEEK

The Sunday World was a welcome visitor in 101,000 homes. This week a larger number will be circulated. Every Sunday World reader resident in Ontario who was blessed with a visit from the stork on Feb. 29, 1916, should see that the new arrival obtains The Toronto World's Leap Year Birthday Gift.

### THIS HANDSOME

AWARDED TO LEAP YEAR BABIES, BORN FEB. 29TH, 1916

Produced and Engraved by Kents, Limited, Silversmiths

### The Gift of the Toronto World

and every physician who officiated should see that the little stranger

is not overlooked. The Publishers will send The Daily World for one year to the physician estimating the number, or nearest the number, of Leap Year babies that will be registered with The World for the mugs. A space is provided on the Mug Coupon for the estimate.

There are no entrance fees or restrictions connected with the award other than

- 1. Only babies born in Ontario are eligible.
- 2. Babies born between the hours of 12 o'clock midnight, Feb. 28, 1916, and midnight, Feb. 29, 1916.
- 8. The entry for the award must be made by filling out a coupon which will be published in The World (Daily and Sunday) from Feb. 29 until March 31, inclusive.
- 4. The date of each child's birth, together with the name, must be vouched for in the place indicated on the coupon
- by the attending physician. 5. Entries not made on printed coupon will not be considered.

#### Leap Year Birthday Mug Coupon.

For Mug awarded by The Toronto World for babies born on Feb. 29, 1916. Name of parents ..... Address of parents .....

Name and sex of baby ..... Date and hour of birth ..... I hereby declare the above facts are correct.

..... attending physician. Address.... .... .... .... .....

I estimate that ..... babies will be awarded The Toronto World's Birthday Mug. All coupons must reach The World office by March 31, 1916.

Watch The World and clip the coupon.

The World invites all Leap Year Babies that were born in 1912, 1908 and 1904, and who were awarded a World Leap Year mug, to send a recent photograph, which will be reproduced in The Sunday World Art Section at an early date.

Mrs. Frankford Rogers gave two very delightful luncheons on Wednes-day and Thursday last, when at each covers were laid for twelve guests.

Morris will act as accompanist.

### GERMANS ENDEAVORING THIS GUNNER LIKES TO SHIFT FROM BLAME

Disclaim Responsibility for Sink- Toronto Man Writing to His ing of Steamship to "Kick" About.

#### NOT BRITISH SUBMARINE

Official Denial Given by Admiralty to German Report.

BERLIN. March 18 .- (By Sayville report that the steamship Tubantia was sunk by a mine, German newspapers are discussing the origin of the mine," says the Overseas News Agency. "They state that the latest statistics indicate that it was not a German nine. Since the beginning of the war 918 mines have been washed up on the Dutch coast. Of these 484 were of British origin, 58 French, 201 unknown

LONDON, March 18.—Assertions aving been made from German sources that the Tubantia was sunk by a British torpedo, the admiralty today announced that no British sub-marines were nearby when the Dutch liner went down.

An Exchange Telegraph Company despatch from Copenhagen says the German Government has ordered the idmiralty to make an investigation

Chum, Says He Has Nothing

#### ARTILLERY IS BEST"

Tells Boys at Home Who Intend Going Overseas to Join This Branch.

This was written by a Canadian 'Gunner" to a chum in Toronto: Same address, France, 19-2-1916.

Dear Sam: Well, I have only one ex cuse for keeping you waiting a reply to two of your letters, dated the 9th and 23rd of January, that is (as you can imagine), we are very busy, you know, old boy, we must keep up with the good work, and I am pleased to say I have nothing to kick about; the more work I can do at the front the better I feel. I never thought I could stand so many hardships as what we have over here; but we must take it all with a good hearty-We are sure to win. I am pleased to hear that so many of the boys have joined lie many of the boys have joined Vice colors. Tell any of them any information they need re army life I would be only too pleased to give, as they will certainly be strange to real discipline. Tell them to try for artillery; it's the best branch; "nuff said." Now, old

#### that?) Well, we got the word to fire, so I kept yours till they replied. I tell you, S., they sounded better than LAST OF ALLEN CLAN KILLED FRIDAY NIGHT Do you know we have a dandy position and it's just like being at target practice. We get a report of our sighter; then the officer says "Go to it, boys!" I would like to tell you a lot about the fighting business, but—

Allen the Last to Fall in the Notorious Kentucky Feud.

and they are minus. I think it should be stopped; they should put someone to watch, as I am not the only one to to watch, as I am not the only one to lose anything; everyone is complaining. I will have to bring home souvenirs for you and the girl, or wait until I get leave; then I can reg. anything with safety. I will have to leave off for a while. We've got to "stand to."

Well, S., this is the third time I have tried to finish your letter. Since I left off last night there has been some good ROANOKE, Va., March 18.-Jack Allen, last of the noted Allen clan of Carroll County, was shot and killed last night in the home of Mrs. Roberta Martin, five miles from Mount Airy, N.C., by Will McCaw, a blockader. On his tried to finish your letter. Since I left off last night there has been some good fighting with us. The planes have also had a rough time. wish you could see a fight in the air; they do some good manoeuvring. You should see our fellows get after the Germans. way home, from Mount Airy, where he sold a wagon load of lumber, Allen stopped at Mrs. Martin's home to spend the night. After supper he and Mrs. Martin, and a neighbor, were sitting before good manoeuvring. You should see our fellows get after the Germans. When they are both the same height both machines spit out their shells at each other, but what gets my goat is the German always turns and beats it as hard as his plane can take him, and I must edmit the Germans have faster the open fire talking when McCaw came in and took part in the conversation. Discussion of the Allen trials of three years ago, took place, which led to a Officers are hunting for McCaw. He is believed to be hiding with friends in the mountain wilderness. must admit the Germans have faster

I must admit the Germans have faster planes, so it makes it harder for our pilots. There have been several fights today and I saw one of our pilots bring one of these cowardly blokes to earth. The Germans had just dropped a bornb on our left, and I think he was in the act of letting another go, when all at once one of our planes shot out OFFERED TO THE READERS OF THIS PAPER.

Centuries of History in Five Beautiful Volumes.

in the act or letting another go, when all at once one of our planes shot out of a cloud and brought him down with a vengeance. All we could see was a streak of fire, and then the German "loop the loop." Now, S., I am getting tired, so must quit. Good-bye. The name of Josephus Nelson Larned carries weight wherever English is spoken. He is known as one of the greatest historians of his time . His genius for grasping essentials and for picking up the right threads and weaving them into a fabric of clearly BURIED ON SATURDAY marked design has never been surpass-Was Due to Heart

LONDON. March 18, 5 p.m .- The steamship Patembang has been torpe-doed. All the members of the crew

There are two steamers of the name of Petambang, both Dutch. The larger is a vessel of 6674 tons grobb, owned by the Rotterdam Lloyd. long and was built in Rotterdam in 1911. She was last reported as having passed Gibraltar on Feb. 15, on the

way from Batavia, Java, for Rotter-Amsterdam oil company, and is 241 feet long, of 1856 tons gross. She was built in Amsterdam in 1905. The last report of her movements was on her arrival on March 10 at Kirkwall, Orkney Islands, on a voyage from Philadelphia, with a cargo of petroleum for Aelesung, Norway.

#### BRADSHAW APPOINTMENT COMES BEFORE COUNCIL

Some Aldermen Are Likely to Object to the Big Salary.

There is only one recommendation in the board of control's report to council for Monday's meeting that may be considered of city-wide interest, and that is the nomination of Thomas Bradshaw as commissioner of finance and city treasurer, at a salary of \$15,000 per year. While all of the aldermen seem to agree that Mr. Bradshaw is the right man, the salary is looked upon by some as being rather high, but despite this it would appear that the recommendation will carry with a good majority.

A bylaw for the regulating and licensing of ferries will be introduced.

### AMERICAN CAVALRYMEN | GUNS OF CAST IRON ARE PURSUING VILLA

Grandes Friday Night.

FIGHT IN PROGRESS

Clash Between Constitutionalists Many Regarded it as Dangerous and Rebels at Canon Chorritos.

EL PASO, March 18.—American calairymen pursuing Francisco Villa were camped at dawn today at Colonia Dublan, one of the environs of Casas Grandes. They arrived in the night, Thru Colonia Dublan runs the road to the Galeana district, 25 miles southeast of where Villa was last definitely reported.

Rebels in Battle.

TORREON, Mex., March 18.—Fighting has been in progress since early yesterday between Constitutionalists and Villistas at Canon Chorritos, near Noe, in the Torreon district. The Villa commander is said to be Juan Madrid, and Canuto Reyes is said to be with him. Reliable reports received here today stated that 26 men had been killed and 32 captured in a battle between Constitutionalists and so-called "Pacifists" somewhere in the region of Durango, Mex. The "Pacifists" were said to be under the leadership of Generals Banuelos and Miguel Hernandez.

"POP" BURGER DIED SUDDENLY AT HOME

Well-Known Clubman and Baseball Fan Passes Away.

Death came suddenly on Saturday morning to Remy Burger, Swiss consul, at his late home in Bradgate Apartments, Avenue road. Mr. Burger was born in Roschems, Switzerland, in 1862, and celebrated his birthday on Friday. Mr. Burger came to Canada in 1888, and from that time until his death conducted a confectionery business at 92 Yonge street. He was appointed Swiss consul for Ontario and Manitoba in 1906, holding the position until about three weeks before his death.

The late Mr. Burger was one of the best known club men in the city. His interest in sports endeared him to many friends, and baseball was his particular fancy. He helped in founding the present Toronto Ball Club, and held the position of vice-president until the time of his death.

INTRODUCTION OF STEEL

Experiment When First Tried.

(By SIR HIRAM MAXIM.)

LONDON, March 18.-I remember the time when guns were made of cast iron, and it was very dangerous to fire a large charge. Colonel Rodman, an American, was the first to take advantage of the system of shrinkagethe system by which the heated metal tube was water-cooled so as to en-sure uniformity of contraction and therefore uniformity of resisting power

to the charge. In England the first departure from the cast-iron gun was the wrought-iron gun. Naval experts imagined that they had reached finality, and the suggestion that steel was very much better than iron was strongly condemned by the know-alls. They claimed that steel was dangerous—that it could not be relied upon. Many of the great naval experts cried: "Clive a plenty of good wrought iron."

Many of the great naval experts cried:

"Give us plenty of good wrought iron."
Replaced by Steel.

Nevertheless wrought iron went completely out of use and steel took its place, and the steel gun is now in universal use.

There were a good many experts who did not believe in the "rifled" guns. A so-called expert artillerist said that the muzzle velocity of the spherical shot would be much greater than that of the long projectile with than that of the long projectile with the same powder pressure. That was, of course, true, but the spherical shot incurred a great deal more air resistance, and the penetrative and explosive powers of the elongated missile have proved to be very much more powerful.

more powerful.

A system of absorbing the recoil caused by the discharge of a gun—a system which in the present war has been very largely employed by the great military powers—was sneered at when it was first introduced:

Recoil Lost Guns.

I was in Austria having some very successful trials with a new automa-

successful trials with a new automatic gun, and the Archduke William, brother of the emperor, asked me to call upon the minister of war. The minister told me that they were in a difficulty, and, making some flattering references to my skill as a scientific engineer, told me that in discarding bronze and wrought iron and employing steel the guns had become lighter and the projectiles longer. When they fired their high-power field guns the recoil was so great that after firing they never know when the first they was the control of th

I saw at once that the recoil could be kept down by the use of an hydraulie buffer, and the gun could be returned to its firing position by means of a strong spiral spring. I promised to send a drawing of the device to the minister on my return to England. When on my return I consulted an artillery expert he said it would do us an infinite amount of harm in Austria if my design was sent, because in the first place my invention would make the gun look very ugly, and it would take six horses to pull the gun instead of four. The design was accordingly not sent. But the idea was eventually adopted, and I have not got any credit

When I first started to make automatic guns I was visited by an old expert, who said he had no doubt that I was a very able engineer, but he advised me very strongly not to waste any time or money on such a ridiculous scheme, and that hundreds of clever engineers had made the atempt and failed.

A year or two later, when he saw my one-and-a-half-inch "pom-pom," he said, "That is the gun." But when it was proposed to introduce this gun into the British services, the same great artillery expert was again consulted and he was strongly against it. He said that a whole battery of these "pom-poms" could be put out of action in a few minutes by a single piece of field artillery. The "pom-pom" is the same as the Maxim-gun,

only much larger.

Boers and Pom-Poms. But is so happened that the Boers, not being experts, thought a good deal of the apparatus and purchased a large number of them. Very much to our surprise and disgust it was found that half a dozen Boers with one "pom-pom" concealed in the brush was able to out a whole battery of artillery out of ction in a few minutes. Before it ould locate the "pom-pom" nearly Il the horses and men were down. I think it will be admitted by all hat the most notable departure in e invention of firearms has been the laxim, the gun that loads and fires tself. When it first appeared Norenfeldt, Hotchkiss, and Gardner, the mous gun constructors, said that and-worked guns worked quite fast nough and that there was no need r one that fired faster. Not many ears afterwards this automatic sys tem supplanted all others. At the be-ginning of the war Germany had 56,-00 of them, now they have 100,000.
At the time I brought out the Maxim suggested to the authorities that ney should keep it to themselves, but ey said they did not think it pos

FIGHTING LESS VIGOROUS

Little Doing on Western Front.

IS THE GERMAN REPORT

BERLIN, March 18.—(Via London, 3.35 p.m.).—The fighting activities of both the French and the German armies on the western front were less vigorous yesterday, according to the official statement issued today at the day of the conclusion to the official statement issued today at the day of grace. This is the conclusion to be drawn from a leading article in the semi-official Lokal Anzeiger, in which it is declared flatly the time has now come official statement issued today at the with Larned's writings is equivalent

## The Second or More Purchases of Tires---That's Where Dunlop

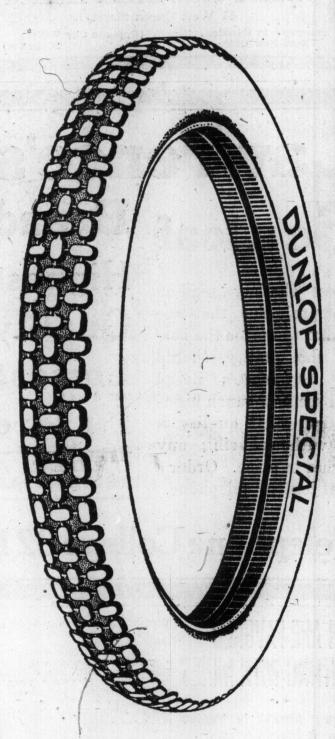

buying tires as the result of his own opinion and experience until he comes into the market to replace one or more of the tires originally found on his car, and that is just where the buyer comes face to face with "Dunlop Traction Tread" or "Dunlop Special." Dunlop Tires have no friends other

than those quality has made, and the repetition of that quality has retained. That is why when you come to consider the "sec-ond, third, and thereafter" purchases, Dunlop Tires are in the greatest evidence.

When you see that countless number of cars, large and small, equipped with either "Tractions" or "Specials," remember each and every one of those motorists bought those tires on merit---not because he did not have a measure of satisfaction with his original equipment, but because something told him he would not settle the tire question definitely until he got "Dunlop Traction Tread" or "Dunlop Special."

What is good for the "second, third, and thereafter" choices is necessarily good for the first choice. If, when purchasing a new car, you show an unalterable preference for Dunlop Tires, you will find that you can get them, no matter what tire equipment is on the car at the time.

When any opposition is shown to giving you Dunlop Tires you can at once distrust the argument, because the salesmanship which does not seek to please, surely cannot be regarded as seeking to satisfy.

"THE IRON CLAW" COMING
FILM SERIAL AT LOEW'S

Loew's Theatre is presenting as a weekly film feature the new serial, "The Iron Claw," produced by the Pathe Company, with the noted screen star, Pearl

Are you losing in love, social or business; affairs because of timidity or bashfulness? Do you lack aggressiveness, courage, or feel ill at ease in the presence of strangers? These are serious handicaps to all progress. But they may be overcome—easily—quickly—permanently. Illustrated Treatise, "The Mastery of Bashfulness," explains all about it. Write for it today. It's FREE. Address M. DeBetts, Sta. 182, Jackson, Michigan, 7777.

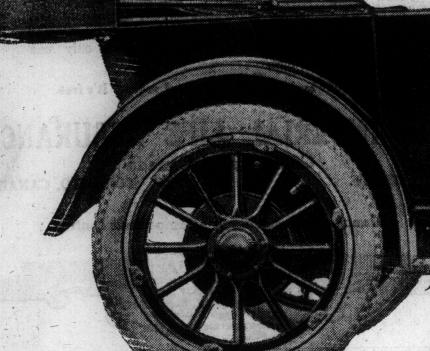

INDOUBTEDLY some makers of automobiles give much more of quality and value for the same money than others---not that the former are more munificent, nor that the cupidity of the latter is excessive. It isn't that.

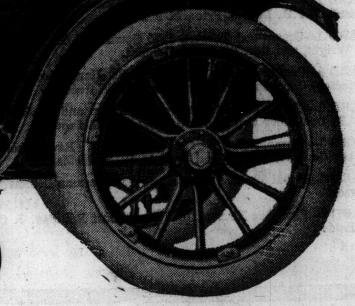

The big builder with his vast output---his thinly spread out overhead costs, his colossal buying of raw materials---his extensive plant, permitting the making of the car in its entirety under the one roof, and the consequent reduced manufacturing costs, bring about savings and economies of such pronounced proportions as to completely eclipse and overshadow the smaller maker with his esser facilities. A little consideration on your part will convince you conclusively as to this.

100,000 Overland Cars will be made and marketed during the 1916 Season And even this production will not satisfy the demand awaiting them. Business is brisk at every Overland stand throughout the land, despite the quietude elsewhere. All Overland dealers are clamoring for an additional allotment. Distribution is going on apace, which will develop into a stampede by spring.

It isn't a problem to pick out the best Car at a given price—It's Easy

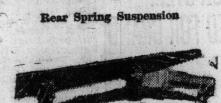

—easy as grading apples, as counting a dozen eggs, as determining whether 12 ounces or 16 ounces of the same tea is the bigger pound. COME NOW, IT'S EASY—it's a case of a few facts and figures. It's a case of a little computing, comparing, measuring, testing. Not a big job, but an important one, if you would get all you should get for your money—GET OUT YOUR PAD AND

## A BIG FACTOR IN NEW RECORDS

ttack on Auto Speed Marks Resumed in 1914 After an Uneventful Decade.

HE first auto race ever held was in Chicago in 1895. Two wheezy power buggies started a run to Waukegan and return on a cold November day over streets of crusted snow. The seventy miles were traveled in nine hours and twenty minutes, at the tremendous rate of 7.5 miles an hour. The startling fact was not the speed but that the power buggies would

run at all. That was the insignificant startbut from then until 1904 there was a rapid increase in the speed attained each year. A French race in 1895 developed speed of 14.9 miles an hour over a 740 mile course. The French kept ahead of the American inventors in perfecting the gasoline engine until 1909, Lancia in 1904 driving a Fiat in the Florio cup race at seventy-two miles an hour.

Then for ten years it seemed that motor racing had reached a dead level. Between 1904 and 1914 there was only an increase of six miles an hour, and not until Eddie Pullen urged his speedy Mercer over the Corona (Cal.) stubborn a case of freckles you have track in 1914 at the rate of 87.8 was there any perceptible development. len thick and fast. Ralph De Palma in banish the freckles. Money back if it his Mercedes started the ball rolling fails. Since that time records have fal-

at Indianapolis last Decoration Day by averaging 89.4 for 100 miles. Less than a month later Dario Resta, at Chicago, eclipsed that records by averaging 97.5 miles an hour, and on Labor Day Gill Anderson made the mark still better by driving 350 miles at 102.5. In a match race held early in October at sheepshead Bay Restagain raised the mark to 105.4 for 100 miles.
Eddie Pullen's Mercer, at Corona, was shod with a new type of tire, built

of two layers of rubber-impregnated, rubber covered cables. The new tire had been developed in Silvertown, England, as a type not only stronger, but so resilient that it would effect great economies in gasoline consumption and

One of the great features of racing, until the last two years, was the changing of tires. Swinging around a curve a tire would rip from its fastenings and if lucky enough to escape without accident, the driver would slow down and run to the pits on his rim. Terriffic speed heats the fabric

body, and heat is the worst enemy of auton It takes no time at all for an overheated tire to blow out, and it used to be a common sight to see a driver limp

into the pits with a smoking tire cut Last year, however, witnessed a complete reversal. Close followers of the drivers and their records were the first to notice that there were fewer accidents and far less tire changes.

Newster records jumped from 250 Nonstop records jumped from 250 miles to 500 miles. Considering the speed at which the cars were driven, the absence of accidents is remarkable.

## PITTSBURG SHOW TO HAVE SEVENTY

The twelfth automobile show of Pittsburg, to be conducted under the auspices of the Automobile Dealers' Association of Pittsburg, will be held in Motor Square Garden, Baum boulevard. Beatty street and Centre avenue, March 18 to 25, inclusive.

automobiles on exhibition when the doors of Motor Square Garden are thrown open to the public on Saturday, March 18. This is just 12 more than were shown at the big autumn show, when 59 manufacturers shipped their wares here for inspection. No expense wil be spared in making this the biggest and most successful auto show ever held yet. Motor Square Garden will be redecorated and thousands of additional electric lights will

#### Why Eyesight Fails

Poor sight and bad teeth are due to the same cause—neglect. We neglect our teeth and they decay; we neglect our eyes and our sight grows dim. Most people know how to preserve their teeth, DDD MAKES OF CARS

people know how to preserve their teeth, but few know what to do for their eyes. Some who carefully clean their teeth do nothing to help their eyes carry the awful strain put upon them by modern life. Our eyes need care, and if we refuse to give it to them we pay the penalty in suffering and poor eyesight. A soothing, cleansing, healing lotton for the eyes that 99 out of a hundred should use twice a day or oftener is made after this prescription: Dissolve 5 grains Bon-Opto in 2 ounces of water; use as an eye bath. It sharpens the vision, reliaves in 18 to 25, inclusive.

Many who use it find to their great.

March 18 to 25, inclusive.

This announcement was made yesterday by Manager John J. Bell, who together with the officials of the association, has been busily engaged for weeks in preparation for this affair, which is sure to surpass all previous auto shows ever held between New York and Chicago. Even at this early date all available space in Motor Square Garden one of the most spacious auditoriums in Western Pennyslvania, has been disposed of and Manager Bell is now racking his brain in an effort to find room for additional exhibits.

#### RUSSIA NOW PASSED ITS MUNITION CRISIS

Position of Army in May and June Last Year Extremely Harassing.

WHY RUSSIA RETREATED

Retrograde Movement Was Due Solely to a Lack of Shells.

By Rubino Bishkoff.

PETROGRAD, March 18 .- In an interview granted me, Gen. Polivanoff, minister of war, declared that the muntions crisis, which had made itself felt at the end of 1914, reached an

acute stage a year ago. In December, 1914, the minister said, he became convinced that this penury was already extremely harassing. In May and June, 1915, the position was tragic. The Russian army was forced to retreat solely from lack of shells The position was the more poignant because, from the point of view both of the bravery of the men and the me-thods of fighting, everything was in favor of the Russians winning.

Lack of Munitions.

"The lack of munitions paralyzed us," said Gen. Polivanoff, "and obliged us to yield ground to the enemy, but we did not cede victory, and, beating slow retreat, we gained time, only to prepare ourselves for fresh decisive efforts. Today the munitions crisis no longer exists. It is a thing of the past sinister memory, but only a memory "In September, 1915, the first results of our labors became evident. Our bat-eries began to make their action felt by the enemy, who had been accustomd to take no notice of them. Immen efforts and rigorous and inflexible measures were required. Almost everything had to be created, for we were used to receiving much from abroad, particularly from Germany. We got there. It has been an absolute revolution an absolute transformation of our ndustrial activity and almost of our

Prodigious Development.

The minister displayed diagrams showing the prodigious development of industrial establishments working for the national production, and with the enormous markets abroad dispensed with, we can, as regards munitions, look to the future with confidence. Many things were lacking, but now the graver gaps are filled. The moral of the

roops is excellent.
"Thanks to the mobilization of the great mass of men ordered some months ago, and the doubling of the number of our depots, we have now a permanent reserve of a million and a half young recruits, which will permit us to feed the various units without to the front men with insuffi-

## A Tale of Two Widows

One receives each month a cheque for \$100 from The Imperial Life. She lives comfortably in her own home, free from worry or anxiety over money matters.

Her husband, when alive, invested his savings in Imperial monthly income assurance, adding an extra policy every time he felt he could save another dollar a week.

The other woman is a janitress in a down-town office building. Her husband earned just as much as the first man. But he speculated with his savings, and at his death left his widow penniless-in fact, with family debts to pay.

Now what about your widow? Will she be the respected and welcome guest of your present neighbours and acquaintances? Or will she be forced to join the ranks of poorly paid female wage-earners? There's only one answer-if you care.

Write for our booklet "That Home of yours." It's free.

E. Henninger of Ohio, "my weight was only
185 pounds. Now I weigh 160 and am the
picture of health. I would not take a hundred dollars for what it has done. I am
stronger than I ever was before."
"When I began to take Sargoi" writes
R. T. Sivells, "I only weighed one hundred
and thirty-nine pounds. Now my weight
has increased to 151 lbs. Everybody says
that I am getting so fat."
"I nover, felt better in my life since I. "I never felt better in my life since I have been taking Sangot. The first two weeks I gained 10 bs, and am gaining every day. Sargol makes me eat and sleep and I don't get up with a tired feeling any more," writes J. C. Weaver, and N.D. Sanderson adds, "When I started Sargol I weighed 147 bs, and now I weigh 160 bs. Everybody is telling me 'how fat you have got in the last month.'"

Would 'you, 'too, like to quickly put from 10 to 30 bs. of good, solid, "stay-there", fleeh, fat and muscular tissue between your skin and bones? in and bones?
Don't say it can't be done. Try it. Let send you free a 50c package of Sargol

FREE SARGOL COUPON This coupon with 10c in silver to help per postage, packing, etc., and to show good faith, entitles holder to one 50c package of Sargol Free. Address The Sargol Co., 612-R Herald Bldg., Bing-hamston, N.Y.

MEXICANS CALLED HOME. New York, and a success of equal Boston and Philadelphia, comes to the an parts of the United

Grand Opera House next week. The cast includes Mrs. Vernon Castle, Frank Tinney, Bernard Granville, Elizabeth Brice. Charles King, Harry Kelly, Harry Ellis, Irving Carpenter, Sam Burbank, Edna Bates, Bunny Wendell, and Gertrude Rutland.

Charles Dilligham is the producer.

Wendell, and Gertrude Rutland.
Charles Dillingham is the producer
of "Watch Your Step," and in the
manager's record of successes it
stands well up towards the top. Irvin;
Berlin, whose songs are being sung
from one end of the country to the other, wrote the music and lyrics of "Watch Your Step," and the score contains a dozen "hits" of the typical Berlin type. Harry B. Smith wrote the book (what there is of the book) and Helen Bryden, probably Increases Weight and Helen Bryden, probably the best known fashion designer in the United States, is responsible for the costumes as well as the settings.

> "TWIN BEDS" WILL RETURN TO ALEXANDRA

Uproarious Apartment House Farce Comes Back March

Twenty-Seven. Selwyn and Company's production of "Twin Beds" will be the attraction at the Alexandra Theatre for the week commencing Monday, March 27. This irresistible laugh provoker is a farce in three acts by Salisbury Field and Margaret Mayo, the latter being also the author of the international success "Baby Mine." The play is a story of New York apartment life, the leading characters being a newly married couple, the husband engrossed in his business and caring little for social gatety, while the wife is more or less of a butterfly. She makes the ac-quaintance of other tenants in the house and her better-half is somewhat perturbed at the fact that their's is "open house." In particular he obects to the presence of an Italian tenor who has an American wife, who is very much up-to-date and proficient in the use of current slang. The tenor's wife is of a jealous disposition, and both she and the first mentioned young husband decide at the same time on seeking other quarters. They hit on the same apartment house, and this complicates matters. Each of the families are possessed of the new fangled idea of having twin beds, and the fact that their rooms are exactly similar in appearance is cause for the plot when the Italian tenor returns home late from his club and gets into the wrong apartment. In spite of the title of "Twin Beds," the play is one that is thoroly clean and without sug-

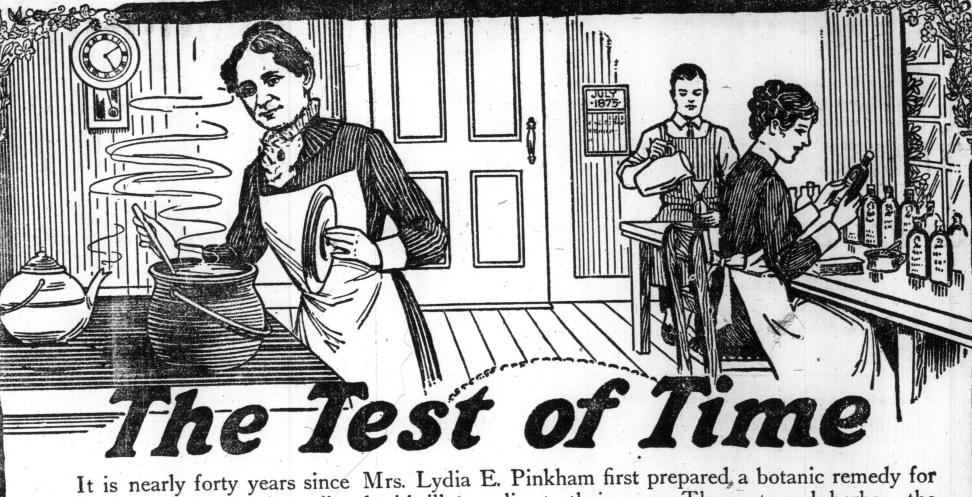

HARRY FIELDS, COMEDIAN HAS THE BASEBALL BUG

Funny Man With "Big Craze" at Star Plays on Semi-Professional Team.

Harry Fields, who will be seen at the Star Theatre with "The Big Craze" Burlesque Co. is a great admirer of the game of baseball. Mr. Fields has the distinction of being one of the most original comedians in burlesque, and he has ambitions to become a star in other directions. In the lay-off sea-son he plays baseball on a semi-professional team in his home town in the west, and says that he would like ting, etc.

> A wife usually doesn't care if her husband is not good-looking; a goodlooking man is liable to attract attention his wife doesn't want him to have

her women neighbors who suffered with ills peculiar to their sex. The roots and herbs—the same as are used today—she steeped on her kitchen stove.

Since which time the fame of this wonderful remedy has spread all over the world. There is barely a town or hamlet in the United States or Canada where you cannot find some woman who has been relieved of suffering by

Lydia E. Pinkham's Vegetable Compound

Thousands upon thousands of such letters as the three following tell why this famous medicine has stood the test of time.

Maryland Woman Testifies. Cambridge, Md.—"I wish all women who suffer from female troubles would take Lydia E. Pinkham's Vegetable Compound and be convinced of its worth as I have been. At one time I was a great sufferer and my husband bought me a bottle of Lydia E. Pinkham's Vegetable Compound and it helped me right away. Again, band bought me a bottle of Lydia E. Finkham's Vegetable Compound, so I decided to give it a fair trial, and it gave me relief from bearing down pains after my second child was born, it overcame a female weakness after everything else had failed. I know how Lydia E. Pinkham's Vegetable Compound has helped me, and I know it will help others."—Mrs. JAMES A. BEIDEL, 107 Maryland Avenue, Cambridge, Md.

ham's Vegetable Compound, so I decided to give it a fair trial, and it gave me relief from bearing down pains which had been so bad that I would have to lie down. I also used the Sanative Wash and it has done me a great deal of good, and I am not troubled with a weakness any more."—Mrs. P. L. Brill, 1299 Booth Street, Milwaukee, Wis.

Wisconsin Woman Testifies. Milwaukee, Wis. — "Before taking Lydia E. Pinkham's Vegetable Compound I was a physical wreck. I had been going to a doctor for several years but he did me no good. A friend told me about Lydia E. Pink-ham's Vegetable Compound, so I decided to give it a

Ohio Woman Testifies. Lima, Ohio.-"I was all broken down in health from me and she advised me to commence taking Lydia E. Pinkham's Vegetable Compound and to use Lydia E. Pinkham's Sanative Wash. I began taking your remedies and took \$5.00 worth and in two months was a well woman after three doctors said I never would stand up straight again. I have recommended Lydia E. Pinkham's Vegetable Compound to many women and it surely has proved a godsend to suffering women."—Mrs. Jennie Moyer, 342 E. North St., Lima, Ohio.

Every sick woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial, for it cannot harm her, and there is great reason to expect that it will completely restore her health. For special advice write The Lydia E. Pinkham Med. Co., Lynn, Mass.

THE WEEK'S EVENTS REVIEWED BY W. H. STEWART.

(Continued From Page 1.)

chines early in the week and brought down a considerable number of chines early in the week and brought down a considerable number of the declear points connected with the forcing of the second line of defence. Col. Feyler is a Swiss, and writes for the Journal de Geneve as follows:

British forces under General Smuts defeated a large force of provided that its capture be undertaken with adequate means. What British forces under General Smuts defeated a large force of has hitherto been lacking has been the has hitherto been lacking has been the possibility of converting the initial success into a decisive victory. Each retreat in great disorder, it was announced on Monday. A German retreat in great disorder, it was announced on Monday. A German retreat in great disorder, it was announced on Monday. A German success into a decisive victory. Each time it has been found impracticable to force at the foothills to the Northeast of Kilimanjaro was cut off from the main body of Germans and dispersed by one of the mounted britished by the second line, whether in Flanders, Artois, or Champagne. There is only one way of discussing this problem to any useful purpose, and that is concentrate on the methods of tackling the enemy's second line. As for the first line, there is no longer any retreat southward to the Usambara railway.

British forces have occupied Sollum on the Tripoli-Egyptian frontier after driving the invading Senussi out of Egypt. Bedouin chiefs who had been attracted to the Senussi by Turkish and German promises are very much discouraged and they have surrendered or left the scene of the fighting for their homes.

The Russians reported Sunday that they have occupied Kirind on the mountainous section of the road which lies between Kermanshah and Bagdad in Mesopotamia. They have penetrated fifty miles into the mountains and that as soon as they reach Kanikin their presence will be a grave menace to the Turks in Mesopotamia, they and the British, directing combined operations against Bagdad from three directions, south, east and north. The British force at Kutel-Amara is considered as a support.

The British reported on Wednesday that a flying column from the force under General Aylmer was sent out and dispersed a Turkish force which had entrenched itself on the bank of the Tigris River.

Upon the advent of better fighting weather, the Italians have resumed their offensive on the whole front, including the Isonzo lines. They captured Monday an important strategic position which formed the key of the Austrian defences in the San Martino zone by a sudden attack, as well as some other important redoubts and trenches, and Number of Reinforcements thereby they precipitated a fierce battle with the Austrians who have been attempting to retake these positions. They captured an important peak, 8000 feet in altitude, in the Tofano zone, it was announced Friday.

skin.

Pimples and eruptions of all kinds come from the inside. The blood casts out the impurities it contains, and thus pimples, boils, etc., appear. Cleanse the blood, stop the poison from developing in the blood tissues, and pimples will vanish as if by magic.

Stuart's Calcium Wafers contain in a natural manner the greatest blood purity.

Stuart's Calcium Wafers contain in a natural manner the greatest blood purifier—Calcium Sulphide.
Calcium Sulphide and the other ingredients of these remarkable little wafers are just what impure blood needs.
Tou must know that the blood is rushing through our veins very fast. It takes less than a minute for our blood to cover the entire body.

ou can thus readily see that Stuart's thum Wafers, when they enter the dy, have an almost instant effect upon mpurities, no matter where located, ther it he the tip of the nose or the

advance was checked on both banks of the Meuse when it had got thru the first line, and had arrived at the se-cond line of the French defence. It is the solving of the problem of forc-ing the second line that will enable the lines of trenches to be broken thru. I interesting to note what Col. Feyler of Geneva, the most authoritative among neutral military critics, thinks of the tactical points connected with

results, at the effect is bound to be disastrous in the long run. Second Line Formidable

It will be noted that the German

the first line, there is no longer any doubt that it can be carried, since the question has been solved by ex-perience."

Not Solved by Germans

This problem of forcing the second line of defence has not been solved by the Germans, for if they had solved it, they would have marched right on into

But it was not for lack of careful preparation, including the hand picking of the various German army corps in Flanders and France for the client Flanders and France, for the elite of the remaining German forces, that the Germans failed before Verdun. From various neutral quarters it was learned before they began their of-fensive they were expecting to reap startling results from some new faf-tillery inventions, such as a revolver macnine gun, capable of discharging 650 shots per minute, but also from a novel system of combined infantry novel system of combined infantry and artillery tactics, which specially selected units had been rehearsing assiduously for some time previously.
As a competent critic has pointed out, to what extent the Germans have been substituting machinery for man power may be gauged from the increasing role now being played by their mines, both in the east and the west, in Bukowina as in Artois and

From authoritative statistics re-Feb. 1, of which about half had been merely transferred from Russia.

Now, these forces concentrated on a Now, these forces concentrated on a single sector could not hope to turn the scale in really decisive fashion. To bring about their offensive against Verdun, the Germans brought up reinforcements of five army corps, or about 120 battalions, and added them to the two army corps regularly stathe defence has been so skilfully conducted that the Germans have not been given an opportunity to develop their attacks with the vigor that they displayed in the first week of the fighting. The Germans are still present in great force, but they are kept well under by the fire superiority that the French have secured in this part of the front. Not a little of the French ascendacy is due to the sucnighting must therefore taken from other parts of the front in

It is to be doubted whether the German high command was so sure after all that this attack on Verdun would succeed. It was the Swiss press that correctly forecast that the German bid would be for Verdun. The French press also inclined to the Swiss view, while the Dutch press believed that the bid would be made for Calais.

Why Not for Calais?

Now, the bid for Calais, if successful, would have had a more tremendous influence on English opinion than the success of the bid for Verdun, and the success of the bld for vertical, and the German high command was not in ignorance of this. Therefore, the question arises why the Germans did not attack Ypres and Calais, where the not attack tipres and Caiais, where the positions are more vulnerable, and so win the greater reward if the gamble proved successful. This can only be answered in one way, and that way is that the Company beging learned of answered in one way, and that way is that the Germans, having learned of the fighting quality of the British army and of the strength of the British armies, believed that they would be unable to win any success there with the forces at their comthere, with the forces at their command, and so they used the most men they could muster for an attack on Verdun, which they believed could be carried out with fewer troops, and the capture of this city would have suffiient weight on French public opinion o incline France to accept a peace.

May Cackle Riga

Failing in their drive on Verdun, the German general staff, taking advantage of the fact that the Russian flect is at present ice-bound, may feel tempted by Russky's absence from the Russian Baltic front, to essay a new and combined desperate naval and military coup against Riga and its gulf, in the hope of turning by means of a successful landing, the whole of Russia's northern army group. But it about ful whether the necessary men is doubtful whether the necessary men for so big a venture would be forthcoming, and the absence of an attempt to cross the Dwina at the most favorable time, that is, when its waters were frozen, is a further reason against the suggestion that Riga will be attacked.

But if the Germans endeavor to take action against the Russians in the spring, the western allies by naval action in the Baltic may shatter this attempt. The view that the combined of Prince are capfleets of Britain and France are capable of carrying out such a campaign able of carrying out such a campaign is daily growing among the sailors, and it is believed that if the allied fleets penetrated into the Baltic and commenced to bombard some of the German Baltic towns, the German fleet would have to emerge from the Kiel Canal, and give it battle. The placing of mine fields by the Germans in the Baltic may be inspired by fear of such an attempt by the navy. f such an attempt by the navy.

Turks Versus Germans Reports which have recently come aru from Greece assert that the Turkish and German officers are at loggerheads over the defence of Turkey, and that some blood was shed in a brawl betwen a Turco-German mission which went to Angora in Asia Minor, to inspect its defences. It is quite probable that the Turkish Jovernment floated a big loan in Germany, payable in gold, to construct defences at Angora, which is an imtant railway terminal, and pocketed

the money, leaving the defences to look after themselves.
No definite word has come thru as
to whether the Turks and the Germans No definite word has come thru as to whether the Turks and the German's are sending an army forward into the interior of Asia Minor to combat the Russians, but it is probable that they are. It would be surprising if the Germans did not send as powerful assistance as they can to the aid of the was advised to go to the hospital to

QUALITY

The Keynote of Scotland Woolen Mills Claims Upon the Patronage of the Public

> IGHT from the moment we started in business we have made it our steadfast aim to maintain our standard of quality no matter what it involved. We have never swerved, and today are offering the public of Canada the identical quality of woolens imported from the mills that has made our name pre-eminent on this continent for genuine cloth values and honest tailoring. We attribute our far-reaching success and our slogan:

## A Business Built on the Merits of Materials

entirely to this rigid rule on the score of quality. The man who has worn a Scotland Woolen Mills Suit or Overcoat will heartily endorse our assertions. If you are one who does not yet know the quality, accurate fit and snappy style of this great tailoring organization's garments, decide to put us to the test at your earliest convenient moment. If you are a regular patron, our message is, "Come in and make your choice from our ranges of smart Spring Suitings and Overcoatings while they are complete." THE SCOTLAND WOOLEN MILLS COMPANY are the pioneers of the fixed price in Men's Custom Tailoring, and, best of all, the consistent adherents of a fixed Standard of Quality.

## 139 YONGE ST., TORONTO

## BANKER FOR WORLD

Growth of "Accepting Business" in New York Increases

LONDON, March 18.-Will London cease to be the banker of the world? That question was again raised by gram from Teheran says that near Lord Ritchie at the last meeting of Keredje a patrol of Cossacks arrested the London and Liverpool Bank of four Europeans, who were identified as Commerce, Ltd. He referred to the the Turkish Ambassador to Persia, Assim Bey, the Austrian military at-

ternational banking business. Even as a tradesman in Dulwich will nearly always pay a warehouseman in Wood Street by means of a cheque payabble at a bank in Lombard Street, so will a merchant in Spain pay a manufac-turer in the United States by means of bill payable at an accepting house in

London has become the banker of the world because of its magic wealth, because of its financial facilities, because it is the capital of the country which is so rich that it lends. This is teing altered by the war, and the United States seems to be taking the position. This country, which has al-ways lent, has recently borrowed from

another great bank chairman, Sir Ed-ward Holden, expressed with great confidence, his opinion that if we practice good financial management, and if we economize, far from losing our position as banker of the world as a result of the war we shall strengthen

COMEDIE FRANCAISE SENT TO THE FRONT in the local newspaper:

#### REDMOND'S TRIBUTE TO IRISH BRIGADE

It Will Rank as Work of Real Historic Impor-

ASTONISHING COURAGE

Natural Military Genius Tenderness and Strength Characteristics, He Says.

DUBLIN, March 18 .- Mr. John Redmond has written for "The Irish at the Front." by Michael Macdonagh, a preface which, says The British Weekly. will rank with Mr. Lloyd George's famous introduction to "Thru Terror To Triumph" as a work of real historical importance. It will be quoted with his great speech at the outbreak of the war by every writer who attempts to pic-ture the manner in which a really United Kingdom met the Prussian chal-

It is, says Mr. Redmond, these soldiers of ours, with their astonishing courage and their beautiful faith, with their natural military genius with their ing with them their green flags and their Irish war-pipes, advancing to the charge, their fearless officers at their head, and followed by their beloved chaplains as great-hearted as them-selves, bringing with them a quality al their own to the sordid modern battle-field, exhibiting the character of the rishman at its noblest and greatestit is these soldiers of ours to whose Reeping the cause of Ireland has passed today.

Died With Smile. It was never in worthier, holier keeping than that of these boys offering up their supreme sacrifice of life with a smile on their lips because it was given for Ireland. May God bless them!

The Irish Guards at Mons, the Royal Irish Regiment at Ypres, the London Irish at Loos (dribbling a football before them as they charged, the boys in the trenches before the charge holding out the matches with which they had lit their cigarets to show each other that their hands were not shaking), the regular battalions at "V" Beach, the new "service" battalions of the Tenth Division at Suvia, I name

out of a long list.
To Gen. Mahon's Division, composed exclusively of new levies who were civilians when the war began—thou-sands of Nationalist families in Leinster. Munster, and Connaught represented in its ranks—the terrific open fighting at Suvla Bay (which began with the shelling of the lighters at the landing and the bursting of chains of contact mines as they set foot on shore) was their first experience of be-

Coolness Undisturbed Undismayed, their coolness undis turbed, they formed for attack as if

Capt. Thornhill, himself a repreentative of those magnificent Australians and New Zealand troops whose rowess has been another revelation of he war, wrote of the Irish: "Their anding at Suvla Bay was the greatest thing you will ever read of in books by highbrows. Those that witnessed the advance will never forget it. Bulhey never wavered. The way took that hill (now called Dublin Hill) was the kind of thing that would make you pinch yourself to prove that it was not a cheap wine aftermath. How they got there Heaven only knows. As the land lay, climbing into hell on an aeroplane seemed an easier proposition than taking that hill."

When it was decided to occupy Saloniki and to march to the aid of the Serbian army it was the Irish division, under their splendid Irish commander, Gen. Sir Bryan Mahon, that the place of honor for this desperate enterprise was given.

Acting as a rearguard against an army ten times their number, they did what was neither expected nor counted upon. But their instinctive military genius, as well as their courage and determination, came into play, and they held up the overwhelming enemy for so long and with such skill that the entire French and British forces were able to withdraw safely to their defensive positions without the loss of a single gun or a single transport

#### **ENLIST NOW**

Prove your love of country, home and What matter even if you fell

With face to foe, in your first fight,
While storming the gates of hell?
Why not risk death while your country Thru the war-darkened days that

are here? ENLIST: Know the joy that battle gives, When the blood runs red and clear. If fate permits, and you are of those

Who return home across the sea, After fighting bravely to the close And till our native land is free, You will retain in mem'ry's store The fights thru which you've passed

These lines are for you, who, holding back, And shivering, stand on the brink, Plunge right in now, be firm, not slack; You would, if you would only think

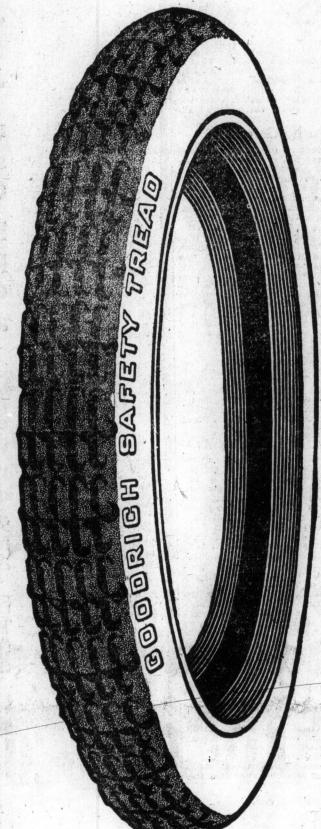

Of the priceless lives cut short by the Hun, Of the horrors and crimes they have wrought: Before there rises another sur.

Join our ranks, enlist as you ought.

A. J. Browning. One of the earliest varieties of beets in cultivation, which is suitable for forcing or growing in the open garden is the extra searly flat Egyptian. The color of the flesh is dark and the beets are tender.

Said the Critic-

## "Give us TRACTION,--without Friction!"

NOTICE.

HEN there arose, in the Tire Industry, a sound of Many Voices,—each clamoring that its Owner had the very best "Non-Skid" design that ever did happen on a Tire, our Professional Critic said, with much Chuckle,—"Give us Traction without Friction!"

We are glad to have met that "Poser" more than half-way.

Here's how and why.

Makers of "Non-Skid" Tires, in a mad effort to produce maximum Traction, have done the very natural thing of being too suc-

Too successful in gaining Traction, not merely through "Non-Skid" designs, but through providing a sandpapery texture in Tire Tread Rubber which grinds against the pavement, wearing out as it

Of course such Treads HAD to be made very thick, and the Tires very HEAVY, in order not to wear out too soon under such constant grinding, with such constant strain on the Rubber Adhesive between the many layers of Fabric in their necessarily cumbrous

Of course, such Tires were heavy in that part of the Car below the Springs where Engineers say that every pound of weight counts as more than twenty pounds placed above the springs.

But beyond all this, their great thickness, the many layers of Fabric, and the stout Tread of gritty, sandpapery, Rubber, made them naturally stiff, unyielding, hard to bend, and conform where obstacles were struck,—hard to drive with moderate power,—and slow to coast down hills (which proved all this) down hills (which proved all this).

The intention was good, but the result was a relatively hot, stiff, Tire, with a Traction-wave to overcome that went far toward boosting the Sales of Gasolene.

-Making the Silvertown Cord Tire, taught us a few lessons in the manufacture of lighter, cooler, more flexible and enduring FABRIC Tires.

HE "Silvertown" Tire, you know, gains its marvellous Speed (and the Coasting qualities that demonstrate its Speed) primarily through having only TWO layers of

Cords, laid transversely.

Of course, these TWO layers bend more readily than Five, Six, or Seven Layers of Fabric do (or of Cord would).

But, we found it necessary, in order to conserve that flexibility (in the Two-cord construction), to put a Rubber Tread over it which was equally flexible,—equally strong,—and elastic enough to act as a sort of spring between the Earth and the Tire-casing, when Brakes were thrown on at stopping, or clutch thrown in at starting.

So, we had to devise practically a new kind of Rubber,—for

this purpose TWO YEARS AGO. This new type of black "Barefoot Rubber" now does for GOODRICH Tires a work similar to that done by the wonderful Alloys of Steel and Bronze in modern Motor Car construction. It multiplies Rubber Efficiency, for Tire purposes, while decreasing its Weight, and without increasing its Bulk, or its Cost to you.

S we cannot yet supply half the demand for "Silvertown Cord Tires" (until enough manufacturing equipment can be constructed) we decided to use this wonderfully efficient black "Barefoot Rubber" in all Goodrich FABRIC Tires for

This makes them the most Resilient and Responsive-to-Power, —the most Long-Lived and Lively, of all FABRIC Tires, at ANY price,—without increasing their price to you.

We call this new Hyper-Rubber by the name and brand of "Barefoot Rubber."

Because it CLINGS to the pavement for the same sort of reason that your bare foot clings to a slippery floor, while being flex-

ible, stretchy, springy, and light. 6

TENACIOUS, resilient, enduring, this "Barefoot Rubber"
you today get in all black tread Goodrich Fabric Tires,—Goodrich Motor-Cycle Tires,—Goodrich Truck Tires,—Goodrich Bicycle Tires,—Goodrich Rubber Boots, Overshoes, Soles and Heels, and in none but GOODRICH products.

Get a Sliver of it from your nearest Goodrich Dealer's or Branch. Stretch it thousands of times, but break it you can't.

Then test out a pair of these very moderately priced black tread FABRIC Tires, and see!

for gold from certain neutral coun-Lose Half Alsace. "The German engineers at Home-court declare that Germany would

willingly give up half Alsace in exchange for the Briey minefields. Wheat is scarce in Germany, but potatoes are abundant. All productive ground in Belgium and the North of France is being utilized by the enemy. Vegetables are plentiful enough, but meat is scarce. If the Germans were vegetarians they would not suffer unduly by the blockade.

"Coal is plentiful and comparatively cheap. One hears everywhere in Ger-many that the war will be finished in August. The commercial and in-dustrial situation is lamentable. The smaller industries are ruined, but the large firms are accumulating stocks prepared to flood the world's markets nmediately hostilities are concluded.

Cures Pimples Blotches, Old

In this way Germany hopes after the war to obtain new capital Maintain Production.

Maintain Production.

"Many German factories are maintaining their production at a precisely normal level, despite the cessation of their sales. Contrary to the general opinion in France many of them ample reserve funds, and can weather the crisis.

"For the present it is not for economic reasons that Germany is succumbing, it is owing to her terrible losses. The morale of the nation has been gravely shaken by the awful sacrifice of human life, and by the crowd of helpless, mutilated beings the war has produced.

"The kaiser has maintained his authority and prestige, and the people are well disciplined. Everybody believes that the war was forced on "The first article in the treaty of peace ought to be an official confession by Germany that the war was desired,

premeditated, and declared by her. and other metals in shell manufacture it is merely a precautionary measure in view of the possibility of a prolonged struggle.

"They have stopped working the German iron mines to exploit the Trench mines at Briey, Confians, and Homecourt Joeuf. The minerals extracted from these mines represent ten years' intensive production compared with their output in peace time, and Germany exchanges the surplus

self and family thru choice. Alcura stops the craving for drink, builds up the system, steadies the nerves.

# I Want Every

Catarrh Sufferer to Know How I Cured Myself of Catarrh

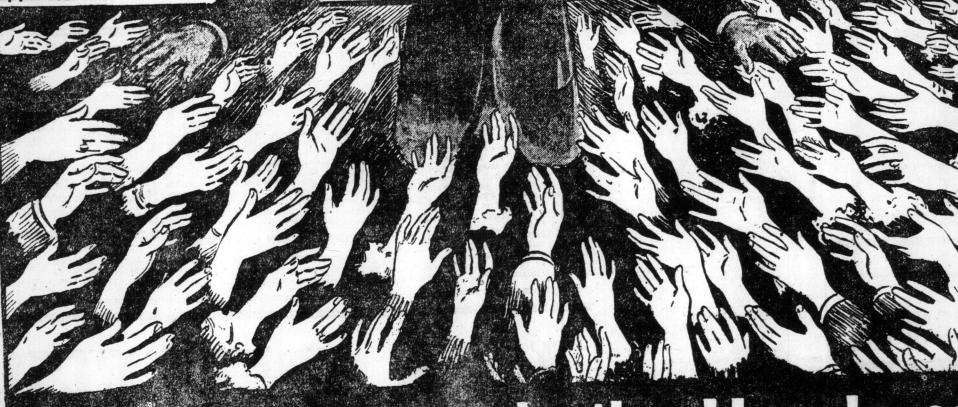

Are You Disgusted With Your Lack of Success in relieving Your Catarrh? If You Are, Send Me Your Name and I'll Tell You Absolutely FREE How I Conquered My Stubborn Case of Catarrh. You Will Thank Me All Your Living Days For This Offer I Am Making You. Don't Wait---Every Day Delays Your Happiness.

From Catarrh for Many Years, Now I Am a Well

The Sufferings, Physical and Mental, That I Endured in Those Years Were Horrible. Then I Learned How to Cure Myself. I Told My Friends and They Were Cured. You Can Conquer Your Catarrh The Same Way, and I'll tell You How Absolutely Free. I Want Every Catarrh Victim to Write to Me.

#### UNLIKE ANYTHING YOU EVER HEARD OF BEFORE

This secret treatment is different from anything you ever heard of before. No salves, lotions, jellies, ointgreases, pastes, sprays, atomizers, nebulizers; no masks, plasters, bandages, baths; no massage, electricity or vibratory treatments; no smoke to inhale; no surgery; no instruments, appliances or devices; no pain, no operation; none of the old, time-worn methods, but a simple, easy, pleasant, painless, invisible way that heals twenty-four hours a day, no matter where you are or what may be your occupation. A secret worth a fortune to you that I give you absolutely free.

Want to Place in the Hands of Every Catarrh Sufferer the Secret of How I Cured Myself of This Offensive Disease

#### AM THE LIVING PROOF CATARRH IS CURABLE

Some people say that catarrhi cannot be cured. I am a living, healthy proof that it can be cured, for I cured myself and have had no more trouble from this terrible and most objectionable disease.

I not only cured myself, but this treatment cured my friends and have told thousands, who testify that they are cured. I wish you could read with me the letters of gratitude I receive from those who thank me for having rescued them from the horrors of this disease. They are a glorious reward for my efforts to stamp out this loathsome disease. Write to me today and I'll tell you

Write to Me AT ONCE.

I Have Tried Dozens of Remedies, I Doctored for Years, I Fought to Rid Myself of Catarrh by All Means I Could Find, But Nothing Helped Me. Has This Been Your Experience? Then Write to Me AT ONCE.

One Happy Day I Tried This New Secret Method and in 24 Hours I Felt Relief. I Am Now Absolutely FREE of All Catarrh Trouble. You Can Conquer Your Catarrh As I Have. Let Me Tell You How,

One Happy Day I Tried This New

## Conquer-Catarrh Before It Conquers You

## Hawking, Spitting, Coughing and Foul Breath Due to Catarrhare Disgusting to All

The catarrh sufferer has my sympathy. He has much to suffer, physically and mentally.

The catarrh sufferer has my sympathy. He has much to suffer, physically and mentally. I have seen the loved ones of the catarrh sufferer turn away in disgust at his foul breath, his hawking, spitting, coughing, strangling. It creates repulsion. Strangers glare at him and avoid him. Socially he is an outcast—a thing so disgusting that even close friends turn their backs on him. Instead of sympathizing with the victim who is suffering from the effects of this horrible disease, they shun him as they would the plague, for they know that he is a scatterer of disease germs—a danger, a menace

It is bad enough to be a sufferer, but to be avoided, shunned by friends and strangers, adds a mental torture to the physical anguish. The terrible feature of catarrh is that it starts so mildly. When catarrh is that it starts so mildly. When catarrh first grips you it is only a trifling thing. You ignore it. It is merely annoying and you think it will pass away like a cold. That is when you should start treating it—RIGHT AWAY. But you don't You neglect it and every day it grows

don't. You neglect it, and every day it grows Pretty soon you wake up in the morning Pretty soon you wake up in the morning with head and throat filled with filthy mucous. You strangle, you cough and spit and hawk to clear head and throat. Then it begins to spread. You swallow the disgusting stuff and

your stomach becomes infected. The progress of the disease then becomes more marked. You begin to suffer from deafness; head noises manifest themselves; your ness; nead noises maintest themselves, your breath becomes tainted; the sense of smell and taste become less sensitive; headaches follow;

your digestion is impaired; your nerves are affected; your circulation becomes bad; the poison is all through your market. You are then a chronic catarrh victim, unfit to do your life work; weakened physically and mentally—suffering tortures; abhorred like a leper; a thing unfit to associate with your fellow-beings. Not even pitied!

Truly catarrh is a plague.

tering tortures; abnorred like a leper; a thing unit to associate to ignorance—an ignorance. Truly catarrh is a plague.

And the shame of it is that catarrh is curable. It is a miserable sacrifice to ignorance—an ignorance and the shame of it is that catarrh victim spreads the disease. The mother gives it to her children; the tis truly criminal, for the catarrh victim spreads the disease. The mother gives it to her children; the ghers, spitters, sneezers scatter broadcast the infectious germs. They don't mean to, but they do. And ghers, spitters, sneezers scatter broadcast the infectious germs. They don't mean to, but they do not not not contain the property of the catarrhy in the catarrhy is an endless chain of horror, clamping mankind in a horrible network of the catarrhy is an endless chain of horror, clamping mankind in a horrible network. work of disgusting infection.

I said ignorance caused it. It is true, for ignorance of this simple secret I hold makes it possible for catarrh to endure.

Why not banish this ignorance. Let me tell you this secret. Let me show you the simple, easy way to banish your catarrh as I cured mine, as I have taught thousands to cure their catarrh. I don't ask you to send me a cent. Just send me your name and I'll tell you all. I'll show you the quick road to recovered health. Quick road to recovered health.

Don't waste time and hard-earned money on worthless stuff that won't help you. Let me send you FREE this priceless secret that has already done so much for catarrh sufferers,

## Sam Katz's Cwn Story

What I suffered from catarrh only a chronic victim of this plague can understand. I could wish my worst enemy no worse

fate. Not only physical suffering but humiliation and mental distress were my lot for years. In that time I tried everything I heard of. I spent a small fortune for remedies, for medical treat-

ments, for so-called cures. I tried salves, jellies, lotions, sprays, atomizers, ointments, masks, massage, electricity, smoking, inhaling the fumes of burning chemicals, vibratory treatments, snuffing snuff, douches, appliances,

etc., etc. But nothing helped me. I had almost given up hope when I ran across a secret treatment that appealed to me. It was simple, easy, convenient, inexpensive and painless. I tried it, and in 24-hours I could notice a real improvement. In a week I was much better—in a short time I was completely cured.

I was so delighted I told my friends about it. They tried it and they were cured. I told others, strangers, and they were cured.

I will gladly tell you my secret if you are a catarrh sufferer. Don't send me a cent. Just fill out the coupon and I'll tell you how I cured myself.

I don't want you to think I am a doctor, or a chemist, or a scientist. I am not, I am just a plain business man. I have found that I can help others, so I make you this offer

I make you this offer. SAM KATZ Suite B 2515, 142 Mutual Street, Toronto, Ont.

#### CATARRH IS A MOST DANGEROUS DISEASE AFFECTING WHOLE HUMAN SYSTEM

Don't fool yourself with the idea that catarrh is a harmless disease. It isn't. It is a real danger and menace. Ask any doctor about it.

Catarrh in its early stages is not serious, but it is what it develops into that makes it dangerous. Catarrhal asthma, catarrhal deafness, catarrhal bronchitis, catarrh of the stomach, catarrh of the bowels and catarrh of other vital organs are only a few of the serious disorders that develop from it. But it is in the weakings of your system that lies catarrh's greatest danger.

Our body is the battleground of an endless struggle between evil disease germs and our blood. As long as the blood is clean, pure, vigorous, disease germs are fought and conquered. But once it poisons the well-springs of life, then disease germs win an easy victory over us.

over us.

That is the great, ever-menacing danger of catarrh—it unfits our body to fight off disease by weakening the powers of resistance. In case of an epidemic a catarrh victim is an easy victim.

Catarrh is a wasting disease. It pervades the digestive organs that they fail to digest the food we eat and the organs of assimisation so that we fail to get the nutriment from our food. That is lation so that we fail to get the nutriment from our what is equally why so many catarrh sufferers are weak, pale, thin, or what is equally why so many catarrh sufferers are weak, pale, thin, or what is equally why so many catarrh sufferers are weak, pale, thin, or what is equally muscle, short-winded, incapable of effort.

Don't neglect your catarrh, no matter how mild your case may be. Take it in time, before it has set its claws deep into your vital be.

organs.

Don't put off writing to me. Every day NOW is precious to you.

#### CANADIAN MISSIONS FACING NEW CRISIS

Thru Establishment of Hindu University.

Accordance With Dogmas of Hindu Religion.

ANADIAN missions in India are facing a new crisis. Word has been received by the Methodist foreign mission board that the mission problem in India will be more complex in future, owing to the foundation of a great Hindu university at Benares. Its theological course will be in accordance with the dogmas of the Hindu religion, but will have a the Hindu religion, but will have a liberal course in literature, arts and the sciences. It was opened with impressive ceremonies by the Viceroy of India and official and military staff.

The Hindu University project has been supported by contributions which have exceeded three million dollars.

And Parkigh woman Mrs. Annie An English woman, Mrs. Annie Besant, who spoke in Toronto under the auspices of the Toronto Theosophical Society, and rivais Mrs. l'ankhurst in the order of her advocacy of the issues she expounds, has been one of the most prominent movers in the estab-lishment of the new Hindu University

#### New Departure

Rev. Dr. Creighton in commenting on this great religious educational enterprise, said to the writer, "The movement marks a new departure of the procedure of t which promises to be of far-reaching importance. The new movement, if it means anything, must mean a reformed Hinduism. Hindu theosophy must necessarily cast aside its grosser superstitions, and it will probably approxinate somewhat to current Christian ethics.

"The movement marks a new departure which promises to be of far-reaching importance. It need hardly he said that the popular religion of India cannot exist in close alliance with western culture. India's millions

VENICE PUTS ASIDE HER JEWELED GARB

ROME, March 6.—Venice has put aside her finery and jeweled splendor and has covered up her art treasures against the bombardment of hostile aircraft, which have already attacked

Venice today is not the Venice of dreams and poetry, of magic and moonlight and black, silent gondolas. She is a city under naval jurisdiction, a strongly fortified naval base, which oreigners are not allowed to visit. A correspondent who obtained permission to visit the city went to the Plazza San Marco. He came upon a crowded square, but the people were joyless. The dazzling gold of former days was gone, for no one knows at what moment an enemy will appear in the sky, as the city is only an hour's distance from the enemy's air base. To guard her treasures against attack Venice has seen to it that layers of sandbags thirty feet high protect the Sansovino bronzes; that the Logetta of the Campanile looks like a dugout; that sandbags guard the pertal of St. Mark's; that the mosales

are covered over and the delicate marble arches supported yb brick columns three feet thick to prevent collapse in case the building is struck, and that the four gilded bronze horses have been led from their pedestals to a stable in the main entrance archway of the Doges Palace, walled in between thick brick walls The Vore ans say the horses have gone to fight Austria. In the Duomo sandbags are every-

where, tier upon tier. Statues are averthed in that cloths and the capitals of columns are encased in metal receptacles. The Palace of the Doges looks like a fortress with heavy pile of brick masonry between each arch and a brick tower at the corners. The loggia is supported by wooden re-enforcements. protected by sandbags while the work of entrenching still

now open the waiters bring in candles and the electric lights are turned out at 8.45 o'clock in the evening. One man was fine! \$30 for lighting a cig ret in the Piazza at night, and APT. D. A. CAMERON, pastor of pass in the streets black figures

Deprived of her evenings, Venice compensates by getting up early. A 4 in the morning the population be

## POPULACE OF BERLIN

Situation Takes on Complexity Residents of Capital City of Berlin Are Growing Weary of the War.

OCATED AT BENARES THOUSANDS ARE WORKLESS

Theological Course to Be in Municipalities Striving to Keep Enough Going to Fight Off Starvation.

> SOFIA, March 18.—Berlin's warweariness is described by M. Erno Garami, who has just returned from a visit to Germany after being a Socialist deputy at the Hague

> "The Berlin people are depressed und sad; they do not enjoy themselves," said M. Garami, who cannot be regarded as biased. "The music halls close at eleven, whether the performance is at an end or not. Dancing is prohibited, and as a matter of fact nobody thinks of dancing.

Many Out of Work. "The hundred thousand workers who ost their jobs in consequence of the total stoppage of German industry are given work by the communities, so as face speed of the M-1 will enable it to make their lot more endurable. In to be used more effectively than forto make their lot more endurable. In Berlin they are building under-ground railway lines many miles long, and in fact everywhere the work of building and reconstruction is going on, all at municipal or state expenses, for private enterprise is at a standstill.

"Another difference is also notice-able: Nobody is shouting victory, as they do in Vienna and Budapest, not even in the cafes. Everybody speaks they do in Vienna and Budapest, not even in the cafes. Everybody speaks softly, everybody would like to see the end of the war, but every Berliner knows that peace does not rest with the German Government, but with the Entente Powers, and in consequence they have resigned themselves to suffer to the end.

Allowed

suffer to the end.
Allowed to Read French. "In the cafes it is interesting to note the psychology of these people. They are allowed to read the French, Eng.

for these when they arrive in the afternoon is most significant. Everybody seems to understand the Entents languages, and they tear the English papers out of each other's hands in their eagerness to read the war news." LATEST UNDERWATER

ESTS which apparently proved very satisfactory, were recently made in Cape Cod Bay, off Provincetown, Mass., with the M-1, the latest and largest oceangoing submatures. rine so far completed for the United States navy. The boat has a guaranteed cruis ng radius of 3500 miles, and is said to be capable of covering a is said to be capable or covering to 500-mile course without stopping to rep enish either its fuel or supply stores. After one of its early trials, during which it spent four hours in a choppy sea, it was declared by its commander to be the best submersible fiving the American flag.

com nander to be the best submersible fiying the American flag.

The M-1 represents the first of a new type of craft. It has an over-all legth of 185 feet, is capable of maintaining a surface speed of slightly more than 18 miles an hour, is designed to dive 150 feet with safety, and

more than 18 miles an hour, is designed to dive 150 feet with safety, and can remain submerged for a period of 72 hours. It is armed with four torpedo tubes and a deck gun.

The engines are of the Diesel type, but have been developed in this country and modified in an attempt to overcome the faults found in those of similar design used in the European navies. The two engines together develop approximately 900 horsepower, while the electric motors which drive while the electric motors which drive the craft when it is submerged give about 700 horsepower. The arrange-nent of the boat differs somewhat. fro.n the "Holland" boats and embodie

a new form of hull construction. The cruising radius and high surmer models. In this connection the recent tests were watched with par-ticular interest, because the M-1 closeticular interest, because the M-1 closely resembles the fleet submarine Schley, which is now under construction. The latter craft is of a still more formidable pattern, for when completed it will have a length of about 265 feet, a displacement of approximately

Stands Alone

BRIEF explanation of chiropractic adjustment by Dr. Chattoe.

Do YOU know what the science of chiropractic is doing for the sick and afflicted?

Do YCU know that hundreds of years of superstition with drugs and germ theories have filled the people with skepticism and poiscned their bodies as well as their brains?

ALSO, is it not true that men have treated the effects of disease—even blaming Nature's great scavenger (the microbe and flies) for causing ill-health?

CHIROPRACTIC science teaches that the human body in health will assimilate nourishment and eliminate refuse, thru natural laws working thru tissues which have power to expand and contract.

tree.
THE competent chiropractor is one who has studied the human body and developed a highly sensitive touch to determine relative position of vertebra to analyze for subluxations (bones out of

place).

NO MACHINERY necessary.

THE PALMER graduate is a chiropractor who has fully prepared himself with thoro training to adjust the cause and leave nature to treat effects in the soft tissues.

THIS science is unlike all other great systems such as osteopathy, allopathy. THIS science is unlike all other great
systems, such as osteopathy, allopathy,
etc., and has saved thousands from
painful major operations.
MY LATEST booklet is now ready for
distribution and explains every question clearly.
THIS is a practical age and the world is tion clearly.

THIS is a practical age and the world is making big progress with man conquering his greatest foe—disease and the poisoned mind (insanity). the poisoned mind (insanity).

ALCOHOL is not the only drug producing misery in the home—there is a greater mockery in strychnine, morphine and lung tonics which stifle symptoms and lure the victim on in hopeful ignorance.

THROW off the bondage of the superstitious past and seek health thru chiropractic—backed up by material science.

PROVEN by ten thousand practitioners and half million daily patients in States and Canada. and Canada.

#### CARTOONISTS OF INDIA

One Represents India Bowing to Idol Praying for Allied Cause.

At the beginning of the war Germans entertained hopes of a revolt in couple of tariff changes, said by the not exactly threaten the existence of the British Empire, would at least, dispressed by the British Empire, would be a second by the British Empire, and the British Empire are any criterion, are doomed to disappointment. Representing the war from a new angle, from the viewpoint of the

By the testimony heard so far by the British possession, Cartoons Magazine reproduces this month a series of cartoons from Hindi Punch of Bombay. The drawings are by native artists, and reflect the very spirit of loyalty. One shows India on her knees before native idols, praying for the victory of the allies. In another Hind and Britannia are seen clasping hands over an altar on which is placed the "vagara" or thunderbolt of India. The British ion and the Indian tiger stand beside their respective mistresses. Hind says to Britannia: "This vagara is a conquering and never-failing weapon."
Britannia answers: "I have learnt its full value." Again, Mother Hind is represented on a balcony consoling her daughter India. "It's Kismet, daughter dear," she says; "your plain duty is to be true, loyal and faithful to your kingemperor according to the precepts of your heligion, and I am glad you have

cted your part so nobly." Such cartoons, the editor observes indoubtedly wield a tremendous in-

City ..... State .....

and not the government which determines the length of the session. To the government of the day parliament alouty ministers and civil servants are all glad to see the end of the session. Generally speaking, it is the opposition members who do the talking. The ministers have to answer them, but the private members, who support the gov-ernment are expected to be seen and not heard. Their principal duty is to MR. D. McLEAN

Orillia, Ont., Nov. 28th, 1914.

"For over two years, I was troubled with Constipation, Drowsiness, Lack of Appetite and Headaches. I tried several medicines, but got no results of coldly thanked if he is thanked at all

and now I led life. The state of the way up thru sheer ability, and and the Headaches are gone entirely. a disposition to be independent. Mr. Bennett of Calgary may arrive in the near future because the treasury enches are confessedly short on debating talent,

Up to date parliament has made so little progress with its real business that one might be inclined to think the followed gladly, and the bosses of Mr. session is to be prolonged indefinitely. Some Liberal members have seized every opportunity to impede progress it is hard to figure out any definite aim they have in view, or any particular plan they are working out. They seem to be playing for time, but what is to LOYAL TO THE EMPIRE to be playing for time, but what is to e gained by it?

Last Tuesday was condemned . by Hon. Robert Rogers as "a day wasted." He probably would have said the same thing about Monday. Wednesday was only a trifle better, because it took the entire day to pass thru committee a India of such proportions that, if it did such proportions that, if it did Thursday and Friday marked time tract John Bull, and hold his attention | no disposition on the part of the Libin the east. These hopes, however, it erals to hurry up. It is said that they the east. These hopes, however, it are prolonging the session to call pubthe cartoons by India's native artists lic attention to the fact that Col. J.

committee not much has been established. That Sir Sam ordered a special train at the public expense to take Col. Allison from Ottawa to his summer home on the St. Lawrence for the week-end may or may not be important. Private trains and private cars are so much a matter of course in Ottawa that nothing in that line would

surprise us.

If Colonel Allison has really served the cause of the allies with the ability and success ascribed to him by Gen. Hughes there is certainly nothing too good for him. We could afford to present a train or even a small railway 000, and after all the Liberals have not quite succeeded in putting any salt on the tail of this bird of passage, who is said to have winged his flight to the sub-tropical regions of Florida.

With the mercury 6 below zero and bitter wind blowing at thirty miles an hour, one shivering in the committee room of the public accounts com mittee last Friday could not greatly blame Colonel Allison for preferring to spend St. Patrick's Day in the morn-

Are the Liberals killing time to nake the session last because they lope to make something out of their demand for an investigation of the shells committee? Just now they have fallen back in a somewhat dazen condition. Mr. Carvell presented an astonishing indictment which seemed to be letter perfect. He had day and date for everything and it was generally believed that his information came from someone connected with the Imperial munitions board, but Solicitor General Meighen, who certainly got his information from the imperial muni-tions board, showed conclusively from records in his possession that almost every statement made by Carvell either acked foundation or was grotesquely

That Carvell presented his case in good faith none can doubt. He had documentary information, and the public would be amazed to learn how official and authentic it seemed to be. Knowing something about Mr. Carvell' rief, I am at a loss to understand the astounding errors and misstatements uncovered by the solicitor-general's

There is a screw loose somewhere in the case against the shells committee. Take Mr. Pugsley for example. A year ago he made a speech which startled the country respecting the operations of the shells committee, and especially the New York end of the munition business. It was a good speech, but he gave notice that he was not thru and that on the following day he would have a great deal more to say. Accordingly the floor and galleries of the house were crowded on the following afternoon. Mr. Pugsley began his speech amid thunders of applause from nis Liberal colleagues, while expectaion stood on tip-toe. Men held their oreath, not knowing what explosion vas to shake the building.

But what happened? Mr. Pugsley arose, made a few scattered observations, read a number of cwspaper clippings and then sat down. ither he could not or would not make promised revelations. A year later, to be more accurate, on uesday last, Mr. Pugsley, with great

olemnity, made his formal charge against the shells committee and the minister of militia. He then spoke at some length on the contracts for she's but admitted that he was only resuming the case already presented by Mr. Carvell. He led the bouse, however, to expect that at the evening session, when he got to the contracts on fuses, and the New York end of the

OTTAWA, March 16 .- A prominent | munitions business, that something Conservative member observed the other day that parliament would be prorogued on or before April 15. That is as it may be. It is the opposition end of his speech until after dinner than Mr. Speaker considerately called it 6 o'clock a quarter of an hour ahead

is apt to be exacting, inquisitive, and fault-finding so far as the opposition members are concerned. Ministers, deputy ministers and civil control of the c Then at 8 o'clock another big audipart of his afternoon's speech, barely then suddenly took his seat.

By the time Hon. Arthur Meighen who followed Mr. Pugsley, had finished his speech, the opposition were almost reduced to a panic. The Laurier resolution might have been voted down that night without a division, but the Liberals are liable to come back Tues-day. Personally, I am inclined to think that some of Mr. Carvell's apparently absurd misstatements will yet be re conciled with the facts. As for Dr. Pugsley, the impression lingers that he knows something, but that in some mysterious way he is restrained from telling it.

Up to date, however, the government has the best of the debate upon the Laurier resolution for an investigation of the shells committee.

With that appearance of aimlessness which has characterized the operations of the opposition so far, Mr. E. M. Macdonald of Pictou precipitated an old-fashioned party debate upon the dreadnought issue. Hon. J. D. Hazen Pugsley's buckler were scarcely stout enough to withstand his blows. Sir Robert Borden delivered a speech by rambling and discursive debate. Yet which to some extent made public a

from the British Government, thru the admiralty, was to some extent influenced by the very fact that the British Government knew more than they thought it discreet or prudent to reveal to the public of Great Britain, but which they did ment laid on the table of the house but in a certain other document which was made public to some other hon, gentlemen on the other side of the house and which said far more than the document which has been made public in this coun-

What was in this document? No one has asked, and probably Sir Robert Borden does not feel at liberty to reveal its contents. Just how far it is permissible to refer to a docu-ment whose contents cannot be made public is a question about which there has always been some disagreement. The prime minister also told the house in effect that he was maturing a permanent naval policy in 1914 and had arranged to work out the details with Sir John Jellicoe. With bitter sarsacm Sir Robert thus referred to

Mr. Pugsley: I do not purpose to follow the hon. gentleman (Mr. Pugsley) in his attack upon Mr. Churchill. That right hon, gentleman is emi-nently capable of speaking for himself, and his record of accomplishment for the naval defence of the empire will dwell in the memof men, long after the futile and inconsiderable efforts of my hon, friend from St. John shall have passed into oblivion. I would like to correct him however, in saying that the memorandum which was placed before this parliament in the autumn of 1912 was from Mr. Churchill. It was not from Mr. Churchill, but from the lords commissioners of the admiralty, and the lords commissioners of the admiralty consist of the first lord and at least four or five sea lords. They are technical men who are supposed to know, and who I have no doubt do know, probably as well as my hon. friend, the needs of naval defence thruout the empire, and the best course to be taken by any dominion of the empire for giving the assistance which was then suggested. My hon, friend has endeavored to pump up a little enthusiam about the course he and his friends took in 1912 and 1913. He found it very difficult indeed to create any enthusiasm in his own mind, and still more difficult to create even the semblance of enthusiasm among the hon, gen-tlemen who sit behind him. But l think this may at least be said for the hon, gentleman, that he is entitled, perhaps more than any other of them, to the glory, or other of them, to the glory, or whatever it may be, of preventing three Canadian dreadnoughts from flying the British flag today and

liament for a sum of money to be spent under the provisions of Canadian Naval Service Act of 1910, the money would have have been voted. They knew that but they did not do it. What did they do? They did nothing in 1913. Now, in 1916. we learn for the first time that the premier of this country asked Sir John Jellicoe, in 1914, to come out to Canada. Mark you,

"The efficiency of any drug" says Dr. C.P. Robbins, "is known to us by the results we obtain from its use. If we are able to control pain and disease by means of any preparation, we certainly are warranted in its use. One of the principal symptoms of all diseases is pain, and this is what the patient most often applies to us for, i.e. sometaing to relieve his pain. If we can arrest this promptly the patient is most liable to trust in us for the other remeales which will effect events were to follow in Balkan countries by which the war should Mr. Lemieux: They all knew it. Mr. Macdonald: Of course; they had heaven-born inspiration which save them knowledge of all these things.

But Mr. Macdonald quoted from Lloyd George to prove that the relations between England and Germany were apparently never so cordial as they were during the months preceding the war. Then after recalling the offer of the Liberal party to vote any money for naval defence the government might ask, provided it was placed in the estimates under the provisions of the Naval Service Act, the member for Pictou continued:

Had they in 1918 asked pargave them knowledge of all these

this gentleman who knew all about the war coming on, who was certain about it, was proceeding with such leisurely haste in regard to the matter, that, doing nothing at all of any kind in 1913, not buying or building submarines, not buying or building vessels in any way, he leisurely suggested to Sir John Jellicoe, on the eve of this war, which he knew was coming on, to come out to Canada and talk over the question of what? Of an emergency assistance? Not at all, but of the permanent naval

and lifeless, his stony fingers still gripping the weapon of destruction, the former editor of The Sun, and author of "A Street in Damascus," was found early this morning by his secretary as -

But why repeat all the sordid details? That was journalism the public is not kept waiting long for some new sensation to occupy its attention, when all the persons and places connected even in the remote

What the prying reporters did not discover, however, and what was known only to his closest friend and associate, Jackson, was the contents of a plain, unsealed envelope which had been placed in a private pigeon-hole of his desk, evidently but a short time before he had rung the curtain on the last act of his somewhat checkered existence. The manuscript endesed in that envelope was written on plain business bond and from its context indicated clearly that the act had been premeditated for some time, and showed the depths of despair into which the writer had

#### Letter Made Public At Last.

As it can have no injurious effect on the reputation er character of anyone now living, and as the events left for me to cover. which led up to the death of the once noted writer are almost entirely forgotten, the letter, which was ad-

"I was brought into this world of cares and sorrows, ups and downs, successes and failures," it began, "a physical weakling. Would to God that my mother had never given me birth, altho no one could possibly have been more tender and loving than she has been to me. I expect this act of mine will break her heart, if it hasn't been already broken by the vision of her many 'Castles in Spain,' her airy dreams of future greatness that she has always stored up in her some critics denouncing them, other lauding them, and heart for me, being shattered to ruins by the miserable everybody reading them. One, 'The Man Who Won't Fit inefficiency of the one child she raised to bear her name In,' possessed a peculiar fascination for me.

-but I cannot do otherwise. "Let me here set down, before I take the last 'leap into the dark'-for I am resolved to end it all-some few facts relative to my life hitherto, and then whoever finds and reads these lines may judge me fairly, pondering well the trials I've had, the disappointments

successes I've received. "During my early years I was the cause to my par-I invariably managed to outlast their onslaughts, and paged in two magaziness and King Edward VII., ap-I invariably managed to outlast their onslaughts, and peared in two magazines and seven big dailies. althought I had 'arrived' to stay. rallied sufficiently to take a fresh grip (and how slight a one it often was) on life. Our old family doctor told gave me up. Her unwavering loyalty thru the long my mother she would never raise me. She gave his and weary years; her firm assurance that I would word the lie, but now I can say from my heart, 'Would spots in my life hitherto. None of the few bright she had not'; she could have stood the loss then—since me, and who could blame her? I vividly remember the night she made known her decision. It comes betion of the grief I must cause her now.

\* \* \* \* \* \* The Contemplated Act is Cowardly. "It is a cowardly act-the one I contemplate-and how often have I in my works, reviled the coward, defollow in the footsteps of many whom I've exposed to even recall what she wore—a pale blue, shimmery sort ridicule. 'The Irony of Fate,' it seems, but I have not of gown with tiny shoulder straps and a few roses the courage to face the future. It looks too black, I which I had sent up that afternoon. A tiny pendant its possibilities of fire and brimstone that our grandfathers believed in, is preferable to the certainty of have cared after all; I would swear her hand faltered the continued failure of every plan to which—. But I as she gave me back the ring and her eye-lids glistened must hasten. The hour is late. Soon the great city as if with tears. "At school I was bright, extraordinarily bright, my a corner by myself, where in flights of imagination, I and cooing would soon grow monotonous, I fear, on an would roam the seas with Sinbad, the Sailor, or follow | empty larder. the miraculous adventures of Aladdin and his wonderful lamp. Whenever I took part in the games of my fellows, which was seldom, I was the weak spot in the line or the poor batter, who always 'fanned,' so that I received but little encouragement, usually getting the blame if we suffered a defeat, or else left off the team altogether. The result was I became more and more of a recluse, poring by the hour over tales of travel and adventure, of strange peoples and foreign lands, instead of getting out into the open and earning my share of brawn and bone which would have stood me in greater stead in the battles of life than the knowledge I so easily derived from my books.

KNIE

" In high school I headed my class, matriculating at an early age, and entering university with a medal or two to my credit, but here ends the records of brilliant scholastic achievements. My constitution, never of the best, could stand but poorly the heavy grind of an 'honors' course, and in my classes I was obliged to take second place to men whom in my prepschool days I had always left far in the rear. I managed to graduate in the alloted four years, but always attribute this to the kindness of some of my professors who believed in my abilities, and took into consideration the handicap under which I labored.

'During these years, altho always regarded among my fellows as 'perfectly straight,' I was often the prey to evil tendencies, to a desire to take one last wild fling at the world, and then end it all; but thanks to a faith instilled in me by my mother in my early years, a faith which has since been dulled by the material things of the world, I always managed to suppress

"Again, at the thought of my failures, I was often plunged into depths of deepest melancholy and gloom, and these recurrent moods have remained with me to the present, becoming more frequent as the evidences of my own inefficiency became more apparent.

be the lot of the average college graduate—a baseball ent holds no allurements; I'll risk the future, holding player or an office boy, I hadn't the physique for the former, and I happened to have sufficient influence to escape the latter. I had been headed for the bar since my boyhood days, and thanks to my father's friendsalso his money-got a good start with one of the leading firms in our home town. I worked hard, and at first-the usual procedure-I got along well. careful attention to detail and good honest effort, I

X-EDITOR SUICIDES!" So shouted all the me- began after a time to attract attention, and in a couple tropolitan dailies in glaring headlines. "Cold of years was pointed out as 'a rising young barrister

Physical Weakness Intrudes Itself. "Then, at inopportune moments, my cursed physical weakness began to intrude itself again. On one occasion the heads of the firm were absent in the capital, leaving me in charge of an important case. Th over a decade ago, and in these days of modern last afternoon of the trial found me completely 'all in.' Consequently my address to the jury, instead of being the masterly appeal I had dreamed of, was weak, ineffectual, and inconclusive. The result was we lost the case-also, a valued client. At that time it was redegree with one have been sought out and recited for garded as only an incident and was overlooked, but when a similar incident occurred a month or so later, the first occasion was recalled, the coincidence noted, and the firm began to lose custom. I saw that I was again 'the weak spot in the line,' offered my resignation, and after a few half-hearted objections, it was accepted. Thus ended the first round, and the honors

had not fallen to me. "My tutors in English had credited me with 'pleasing style' in essay-writing, and as newspaper work had been somewhat of a hobby with me while at college, I made it my next attempt. At first, I fairly burned with enthusiasm, and my work showed it. Words seemed to flow from my pen as readily as water from a spring in the mountain-side, and my ultimate success seemed assured. My 'write-up' of the big murder trial at Dartmouth, with its intimate little personal touches, its pathos, and yet its strict adherence to facts, stands out as a classic in the annals of great trials. My copy generally appeared word for word, and a great ber of the heavier and more important events were

"Then, after a time, the usual happened-I fell into one of my fits of melancholy, neglected to call for my assignment, and our paper lost an interview with dressed to nobody at all, is now made public for the the great English statesman who was then in our city. The rest is easily told; they didn't fire me; I never was kicked out of a job yet; I always had sense enough to quit. The sin, however, was an unpardonable one in the code of newspaperdom, and altho I expect they might have been willing to establish a precedent for me, I hadn't the courage to stay and attempt to 'face the music.

> "He's a Rolling Stone Won't Fit In." "About this time a book of poems by Service, appeared, which, for a time, caused a great sensation;

'He's a rolling stone, and it's bred in the bone-He's a man who won't fit in.'

"It certainly seemed to hit me straight-even to

the inbred part of it. "My next move was to enter 'freelancing.' To bea free-lancer is a pleasant way of intimating, in I've endured, and the preponderance of set-backs to the dialect of the newspaper man, that you are out of a job. It usually means eventually patronizing the free lunch counters, but with me it was a great success. No longer hampered by the dictates of the manents of many anxious moments. Blessed with anything aging editor or by the political persuasion of the ownbut a robust constitution, it would seem I was a prey ers, I could now give free scope to my powers of exto all the diseases, common to childhood, which at- pression and submit my productions to whatever jourtacked me, each in turn. Somehow or other, however, nal I thought would be most likely to accept them.

"Then came the hardest blow of all; my flancee fore me as clearly as if it were but an hour ago, and as I sit here alone at my desk with eternity distant but a matter of moments, I can picture the scene as if it

were happening again before my eyes. "It was the last dance of the evening, and we were sitting it out in a little alcove off the ball-room. I can The uncertainty of the hereafter, even with hung at her throat, and I can remember yet how it me a little longer, I might have won out at something, grind, and then a man will not be able to even die in might have been able to—but what am I saying? The fault was not yours; your way was clear. You had always been accustomed to the luxuries of life-luxurteachers used to say, but I was given to getting off in ies I would never have been able to give you, and billing

> Last Vision of Heaven is Closed. "Thus closed my last little vision of heaven. It

seems as if life has been for me a series of little visions of heaven, but the door always closes, leaving me standing on the outside. "All that night till morning, I walked the streets, hollow-eyed and grim; then back to my rooms, and with a sudden inspiration, born of my sufferings—they say you can't write a love story until you've experienced one of your own. I wrote the plot of my book, "A Street in Damascus." It made me famed for a while; it was 'different'; a minor strain thruout without one single relieving note of joy, and it happened to take the public fancy-but what's the use of keeping up the sorry tale? It's a constant repetition-like the serial stories in the magazines, only each instalment

Let's close the book. "The street lights are beginning to pale before the coming day. Above the house-tops, away across on the other bank of the Hudson, a ruddy glow is beginning to tinge the eastern horizon. Already I can hear a low rumbling as if the great city were yawning in its sleep previous to awakening to meet the struggles of another day. Another day. What possibilities it may have for some, but it holds none for me. A failure, a misfit, a weakling; what place is there for such as I in the scheme of our busy world?

is the same as the last-success at first, then failure.

#### \* \* \* \* "The Maker marred and evil-starred, I float along his tide.

only, unlike 'The Harpy,' I haven't even the courage to await his judgment. During my little round of earthly years, I've experienced full 'many a time and oft' the sensations of success and failure, joy and fear. either of the two occupations, traditionally supposed to Let me now try a new one—that of death. The preswith the old tent-maker that

> "Ne'er a peevish boy Would break the bowl from which he drank in joy And He that with His hand the vessel made, Will surely not in after wrath destroy."

And here it ended.

### ATTRACTIVE COIFFURE ADDS TO THE PICTURE

An Important Detail Which Is Perhaps Neglected, But Should Not Be Overlooked.

SOME BECOMING MODES

Choice Should Be a Pleasure This Year Because of Wide and Varied Scope.

(By H. M. BALL.) S TRANGE as it may seem, some of Dame Fashion's most devoted followers apparently fail to realize the importance of an at-tractively dressed coffure—a detail of "the picture," which should never be overlooked, and which merits all the time that the devotee desires to spend upon it. For what is more ugly than an untidy head of hair and that more captivating than luxuriant what more captivating than luxuriant waving tresses artistically massed upon a shapely head? Poets have "raved" about the latter for centuries and so have hair dressers for years. Nowadays with so many modern appliances at the devotee's disposal the care of the hair is not the task that it once was, and it is a posal the care of the hair is not the task that it once was, and it is a simple thing for the woman who frequents the hair dressing parlors or for the one who does her shampoos at home to keep her tresses beautiful.

Finding Becoming Modes.

After the subject of caring for the hair, which should be discussed in the beauty column, not by the fashion writer, comes the fascinating problem of finding becoming modes. This year the problem should be a pleasure rather than a source of worry, for never before this season of quaint and lovely modes has the scope been quite as wide, quite as varied, and quite as adaptable. There are modes in dress to suit the tall, handsome brunette, the sweet little blonde, or the attractive maiden with golden-brown hair and very dark eyes, and there are an equal number of very pretty ways in which any of these "types" may arrange their coiffures. There is, in short, no excuse in the world this spring for the devotee's costume to be spoiled simply because her hair was not becom-

The Victorian, empire and medieval influences which have affected so seri-

however, into low lines, resembling those adopted by the Grecian maidens of long ago. And her mode of introducing an ornament in the form of a simple band, is also favored by the young devotee, who draws her straight off her forehead-if it is a eyebrows.

Plenty of Other Modes. For those who consider this attractive mode a little too trying there are plenty of other modes equally pleasing, such as the low psyche, soft rolls and cluster curls.

With some of these new hair styles

shepherdess flower wreaths worn aslant are most effective, as are the jeweled pandeaux, with feelers rising from the "middle of her forehead" instead of the traditional curl. Then, of course, owing to Spanish and Watteau influences, there are the coiffures gradually increasing in height and accentuated with high ornamental combswhich perhaps, if you are lucky, you will find in the treasure chest carefully placed in the bottom of your cedar chest. For certainly your grandnamma, when she was "a dance thusiast," too, wore the combs, duplicated for you today.

It is amusing to note, too, that tulle and ribbon in flaring fan-shaped de-signs held by means of jewelled clasps, are to replace shell ornaments in many When on the street, the coiffure should be arranged, above everything else, in a simple becoming mode. No brilliants should be worn n day time, except for indoor functions when artificial lighting is used. The really fastidious woman will carry her hair ornaments in her handbag going to the "Patriotic Tea" this

#### The Reminder Chatelaine

"When I dress in the morning," remarked one busy woman, "I attach a tiny tablet and pencil to my belt by a good stout string. Then, as go about my work, I jot down the things I want to arrange about during the day, just as they occur to me. Often I found that some small need would be noted not be attended to at the moment and it lad slipped out of my mind by the time I got around to it. Now my 'reminder chatelaine,' which hangs at my side, is quickly nicked up and the item. as I went about the house, but it could not be attended to at the moment and time I got around to it. Now my 're-minder chatelaine,' which hangs at my side, is quickly picked up and the item brush for Jackie. My memorandum pad does away with the familiar phrase, 'I meant to do so-and-so today, but it entirely escaped by mind.'

Numbers of those who are now looked upon both in the home and in the school as chronically backward might be assisted to brightness by individual teaching. Many others considered helplessly, feeble-minded, and simply to be accepted as such, could be made in a measure self-supporting under proper guidance and training. Others — hopeless cases — should be protected with the loving care which the mother gives to her most delicate

child. How different are things in reality! Seven Thousand in Ontario. In Ontario alone there are approxi-mately 7000 feeble-minded. In the schools of Toronto, and the same average may for general purposes be accepted of other part of the province, there are between one and two per cent. feeble minded. In all houses of refuge, orphanages, homes for friendless and places of a similar class, there is always a higher percentage of feeble-minded seemingly, than in ordinary home life. For example in the Industrial School at Mimico one-third are feeble minded, that is out of the three hundred inmates one hundred fall into the grade of the class under discussion. And for all these there is only one institution in Ontario, that of Orillia, where hospital treatment is given and expert care extended to the 800 inmates sheltered beneath the roof.

To bring the need of responsibility on the part of the government both federal and local, before the eyes of the public and to awaken the consci-

where under the auspices of the Pub-lic Charities Association the venture proved highly successful, attracting numbers even far in advance of what tession and the National Council of had been anticipated and with results which will doubtless have great prac The matter of the Philadelphia dis play was brought home to Toronto most public-spirited women, Mrs. A M. Huestis, a member of the advisor committee for the care of the feeble

minded, who visited the exhibit, an thru it gained many ideas which she thought would be of use near home Imparting her ideas to others, sh found many who required but little persuasion to adopt the project. Ac

Dr. Helen MacMurchy

cordingly a meeting was called which Dr. Helen MacMurchy, who perhaps the best statistician on the minded in Canada, presided, and many men and women prominent in medcal, religious and social sorvice work attended. As a result the exhibit became a definite object to be enthusiastically worked for, and to

Quarters for the exhibi secured at 111-2 Queen street east, the premises formerly occupied by the Dominion Bank. Committees are now working on the various departments, which as arranged cannot fail but be informing. It will be something along a livelihood, and with no process the lines of the one in Philadelphia, against any in the community who might seek to take advantage of the dependence of their condition.

Schools and homes in which these is, what harm it does and what must is, what harm it does and what must also done about it. The exhibit was feeble-minded might be trained as far be done about it. The exhibit was as their various grades of mentality divided into two parts, the first con-

which constitute the problems of feeble-mindedness, the second division consisting of booths in which stitutions of those who are a menace to themselves or to the community. Defining the former—the problems—were descriptions and classifications of various grades of feelble-mindedness. A second booth indicated the prevalence of feeblemindedness in the community and the enormous and fruitless

expenditure of money and effort in charitable and correctional work which is necessitated by the presence of the feebleminded at large in the commuity. Still other booths displayed illustra-tions as to how the affliction may be discovered and measured by scientific methods, a demonstration of what is known as the "Binet-Simon Scale for known as the "Binet-Simon Scale for measuring intelligence" being given. The influence of heredity is spreading and perpetuating mental defects were shown thru a series of striking family histories, pointing out the tendency of feeblemindedness to appear in generation after generation of a single family. The case of the "defective delin-quent" and the futility of present efforts to control him outside of special institutions were also demonstrated. On the remedial side were exhibits devoted to a description of the purpose, scope and results of the work in special classes of the schools where the exhibit was held; other exhibits were form institutions original to the restrictions of the schools. from institutions existing in various parts of the State of Pennsylvania, their purpose being to show the results of institutional training and the happy, nealthful and useful life led by the inmates. In addition to all this was a statement of the program of legisla-tion for which the Public Charities and similar organizations were working, together with photographs and architects' drawings of a proposed village

Now, Toronto can scarcely hope to est is being shown by those who have the matter in hand and attempts are being made so that, even if not of great extent, the influence of the ex-hibit may be of somewhat a national character. Men and women standing at the top of the professional world of Canada, and particularly those at the heads of institutions or departments which touch in any way the class under discussion, have been invited to participate, either by attendance, con-tribution or advice. A letter was drafted and sent out to these, asking for co-operation, and in the majority of instances consent has been generously

Some of the Features. Among the things upon which in-formation is desired from outside sources and which will be featured in the exhibit are: "Terse sayings and telling facts," to be used as mottoes; then tests and histories of specific cases, the menace of heredity, the cost to Canada in crime thru what are known as "repeaters," the hindrances which feelblemindedness is presenting to recruiting, also its hindrance to injustries, its relation to social diseases, migration and deportation. the cost to education under present conditions, educational facilities to remedy the evil, suggestions as to farm colonies

J. O. McCarthy A. H. Burnett

Screens will be largely used to show the different phases of the problem as was done in the wonderful Child Wel-fare Ehibition, held some few years ago in Montreal, and which will be remembered by many who will visit the present endeavor along similar lines. On that occasion it will be recalled. demonstration was given daily by uni-formed nurses cfully equiped with the material which should be actually used by the mother in the home, and lectures and talks were contributed by men on the highest rung of the ladder of the medical professional men who spoke to the Yiddish woman in her own tongue and told the Italian mother of the best way to bring up her beautiful black-eyed baby, so that its cheeks might glow with the roses needed for their brightest setting, and doctors who spoke in the English and French tongues to the mass of those who visited. Hints from all these as well as from the psychological clinics of the great laboratories of the continent will be acted upon.

An interesting feature will be a play along parellel lines to the trend of the ehibits, which is now being prepared under the direction of Miss Mary Clark, head-worker at the Central Neighborhood House, with the co-operation of Mr. Roy Mitchell. Mr. Howie of the Canadian Pathescope will have charge of the moving pictures and will not only show definite phases of the problem, but also offer many this. the problem, but also offer many illus-trations of a broader educational value. The whole affair will be under the auspices of the Canadian Conference of Charitles and Correction, which will hold its meetings at the city hall while

the exhibit is in progress. Tuesday and Wednesday meetings open to the public. It is expected that there will also be a meeting of the Children's Aid and other organizations.

The members of the Advisory Committee for the Care of the Feebleminded, and who are appointed by the government and the City of Toronto are: Hon.. Featherstone Osler, chairman; Dr. Helen MacMurchy, secretary; Dr. C. J. Hastings, representing the Dr. C. J. Hastings, representing the city; Controller Thompson, city W. Hobson representing the board of education; Mrs. A. M. Huestis, president of the Local Council of Women and Mrs. Campbell Myers representing the council; Mr. Justice Osler and J. K. Macdonald representing the charities. These are all naturally interested in the movement and together with many from all parts of the country will give it their support and endorsation. It versal interest in the subject, Toronto for feebleminded women, guides were remains now for the public to give on hand to point out and explain, and on hand to point out and explain.

## GARDENING AND POULTRY RAISING FOR AMATEURS

#### EASY TO MAKE YOUR OWN GARDEN ATTRACTIVE AND A BEAUTY SPOT

Make a Study of Co-ditions, Then Set to Work With a Definite Object in View, and the Kesult Will Please.

> BY EBEN E. REXFORD. HOSE who set out to make

without the assistance of the professional gardener or landscape artist seldom make the most of the opportunity for doing good, honest work This, largely, because they undertake the beautifying of the home without studying its possibilities, or the material they have to work with. They begin without a plan. They go on without a definite idea, and the result is generally disappointing.

I would advise every owner of small home who does not feel able to afford the services of the professional to do nothing in the way of beautifying the place until he has given the subject considerable thought. Before beginning the work it would be well for him to look about among other homes and see what their owners lave lished in the way of improve ment. Let him make note of the feawhich appeal to him most strongly and analyze them as well as he can with a view to making use of the material that is used in them. Ob in forming a systematic plan for the development of the home grounds more than anything else he can avail him self of in the line of suggestion, for in them he sees what other home owner have accomplished and what they have accomplished it with

Overlook Many Features

We are quite likely to overlook or neglect some of the features which properly taken advantage of, can be made most effective. Take, for instance, paths and drives. Nine times out of ten they are straight and formal and in the majority of cases no effort is made to make them attractive. A straight path may make i possible to save a little time in going or coming, but without something to relieve its straightness it is not pleasant. But if we plant flowers and shrubs along it it is possible to make it an attractive feature of the hom

It is these little touches of beauty which constitute the charm of home more than anything else that can be

Is Your House Plain?

Is the house a plain one? Possibly it may be an ugly one. It can be use from the start and working to-made beautiful by planting about it ward a definite idea. Only by doing made beautiful by planting about it a quick growing, hardy vine, to be trained over its walls and about its improvements, such as results from improvements, such as results from improvements, such as results from the such as the such as results from the such as the such as results from the such as the suc eaves. Such a vine will hide all its! matter that will not be worth worrywho wants to make home beautiful ing about. Some of the most charming little homes I have ever seen were can be accomplished without careful when first built, so lacking in attractive features that one could not material. You must familiarize yourhelp pitying the owners of them. But self with what you have to work with when vines clambered over them all before you can hope to use it most efand that which had been positively all its features isn't a thing that re painful to the eye that is always look- sults from inspiration. It ing for beauty took on the charm careful thinking and should not be which perhaps would not have been undertaken until you know just what there had the house been more at-Do Not Understand

Most persons who make homes for themselves do not understand what to weeds. For two or three seasons material to make use of in attempting their improvement, and because of this lack of knowledge many mistakes are made. They plant shrubs that will be out of place on a small owned it and set about converting it lot when fully developed. They plant into a flower garden. kinds which are too tender for the climate, and are discouraged when Lot Large Enough spring comes and they find that those from which they had hoped so much planting is done from time to time, annuals were planted. A garden seat without any definite idea of what the was located at one end of it and bend end result of indiscriminate planting will of flowers were scattered here and be, the collections which are formed from the odds and ends of neighbors hood were invited to make it a playng. I would advise every man or cide from the study of the catalogs of reliable plant dealers just what material they will make use of. These catalogs of late years are treasure the amateur gardener and homehow large they will grow to be, and what the colors of their flowers are

My friend told me that they never meddled with the flowers. woman who sets out to beautify the Instead, they seemed to consider home to begin the good work by themselves as responsible to some demaking a plan to work to, and to degree for their care, and they kept the weeds out of the beds all thru the season and watered them when dry spells came along. I saw the garden that had been made out of a most unhouses of valuable information for sightly place in August and it was certainly a delightful spot. All along the border that ran around it sweet alysmaker. They tell you what plants border that ran around it sweet alysand shrubs\_are hardy. They tell you sum made a white edging, and beds of petunias and phlox were trying to outvie each other in brilliant coloring,

This garden showed how easy a matyou select. I would not advise attempting to do all the work that is to be done in one season.

Decide on Shrubs

This garden showed now easy a matter it is to make unsightly places attractive by the expenditure of a little labor, which, being a labor of love, is its own reward.

Pansy seed may still be sown for sum-

Early cabbage, lettuce and radishes may be grown in the hot bed. The seed of many early flowering annuals and perennials should be planted in March.

trench is left open to a depth of six inches, the seeds are planted in its bottom, and as the plants grow the earth is filled in around them till it is level with the surface. This is not necessary here, however, and an inch and a half is plenty deep enough here. If it gets dry during the summer, let the hose run into the trench for several hours, enough to give it a thoro soaking, and the blossoms will respond gratefully. Mulching with grass clippings to keep the moisture in is also helpful. "Sprinkling" that wets down about a guarter of an inch is worse than useless. When bloom starts, keep the flowers picked, as any plant allowed to go to seed will stop blooming, its business of the season being thereby concluded. It is not too late to put up bird-houses for the shelter of bird friends this summer. Try a few.

Go over the dahlia, gladiolus and other bulbs and see that none are shriveling because of being too dry, or starting in-to growth because of too much mois-

Asparagus seeds are slow to germinate, often requiring several weeks. Germination may be hastened by soaking in warm water for a day or two become

When hyacinths, tulips and other bulbs fail to produce good flowers at this time of year, it is usually because they were not well rooted before being brought into the sunlight.

Cuttings of coleus, geraniums, and many house plants may be rooted quite easily at this time of year. Some may be rooted in a glass of water in the kitchen or in a box of moist sand.

Feed the birds. Many birds are caught

in the sudden snow storms of early spring and perish before they can secure food. After a storm, bread crumbs should be scattered where the birds will The Richard Seddon is a new extra

early pea, as early, in fact, as the American Wonder, but a far more abundant bearer. The vines and pods are deep green, the latter crowded with seven to nine large peas of the finest flavor and color. It is a good canner and one of the best all-round early sorts.

Now is the time to make plans for one's garden, what flowers shall be planted and where, and what quaint properties shall be bought to add interest and distinction to the place. There is scarcely any end to the odd, pretty things which may be had to adorn the gaidens of this part summer.

Wayahead lettuce shows a remarkable combination of earliness, firm-heading character, handsome appearance and fine quality. Both in cold frames early in the spring and in the open ground it has proved to be not only the earliest and surest heading of early lettuce, but also of fine quality at all seasons. It stands a longer time before running to seed than any other early head variety. (See Bruce's catalog).

Carrots are among the most wholesome of garden roots. Chantenay is an excellent half-long variety and one of the best in quality for the home garden. Altho a medium early sort the roots are suitable for use nearly as early as any. The variety when small is used as a bunching carrot. Guerande or ox heart is desirable for soil so hard and stiff that longer-rooted sorts would not three in it. When young it is desirable for table use. Danvers is a half-long orange carrot grown largely on account of its carrot grown largely on account of its productiveness and adaptability to all classes of soil. It is a desirable second early carrot for the home garden. (See

Readers of this section are invited to make it theirs by contributing short articles on the subjects men-tioned. If there are any questions relating to either poultry or gardening submit them and they will be answered thru these

#### Why You Should Salt Your Garden

MANY times in midsummer we see ful supply of the salt on the edges of the paths will prevent the grass and weeds from growing in and making them unsupply of the salt on the edges of the paths will prevent the grass and weeds from growing in and making them unsupply of the salt on the edges of the paths will prevent the grass and weeds from growing in and making them unsupply of the salt on the edges of the paths will prevent the grass and weeds from growing in and making them unsupply of the salt on the edges of the paths will prevent the grass and weeds from growing in and making them unsupply of the salt on the edges of the paths will prevent the grass and weeds from growing in and making them unsupply of the salt on the edges of the paths will prevent the grass and weeds from growing in and making them unsupply of the salt on the edges of the paths will prevent the grass and weeds from growing in and making them unsupply of the salt of the paths will prevent the grass and weeds from growing in and making them unsupply of the salt of the paths will prevent the grass and weeds from growing in and making them unsupply of the salt of the paths will prevent the grass and weeds from growing in and making them unsupply of the salt of the paths will be an other will be appeared by the paths will be a salt of the paths will be a s marred and made unattractive because the foliage is covered with dust: Even the flowers seem to droop in shame of so much dust about them.

so much dust about them.

Watering at night and in the morning will wash most of this away, but not all of it. Again, during the middle of the day, when everything is hot and dusty, and when we like more than at any other time to see the garden in all its fresh greenness, the cool green effect is spoiled by another layer of dust.

All this may be avoided by the plentiful use of common salt, the coarse gran-

All this may be avoided by the pientful use of common salt, the coarse granulated sort. Sprinkle this salt over your
garden paths, taking care not to allow it
to fall unevenly along the borders. After
a few applications it will be found that
no dust can rise thru the salt. What
little moisture there is in the ground
will keep the salt moist enough to preyent dust from arising thru it. A plenti-

SWEET PEAS

It is none too soon to select a location

many more than one to the inch of row, and when well started if they are thinned out to two or more inches apart they will be the better for it.

The sweet pea trench is worth giving study to. The ideal trench is a foot and

its warmth will bring them on almost as fast as the others.

In places where a prolonged period of summer heat and drouth is to be feared the trenching method is used. The trench is left open to a depth of six

It is, as the opening paragraph kindly

It is, as the opening paragraph Analy reminds us, none too soon to select, a location for the sweet peas. It is certainly none too soon to buy your seeds. And whatever you do, be sure to have sweet peas this year, even if you have

only the tiniest space to grow them.

HENS PREFER DUSTING

WITH LITTLE MOISTURE

Few Lice Remain if Fowl Are

Another advantage is that the salt can be watered freely without injury as it.

be watered freely without injury, as it adheres to the soil, and only a very small quantity of it dissolves.

#### SEX CONTROL THEORIES ALL PROVE WORTHLESS

From Year to Year, However, Advocates of Methods of Mating Are Heard.

for the sweet peas.

A timely reminder.

Tho winter has not yet shown any serious sign of relaxing its grip, and will not for several weeks, still February passes, March is here, and in April, or early in May, you can plant sweet peaswhich can go into the ground earliest of all the seeds, except the annual popples which some people plant on the snow for early bloom.

Human ingenuity never created a Despite the well known fact that no way has ever been found to control the sex of the offspring of animals or birds, each year brings its advocates of various methods of mating poultry snow for early bloom.

Human ingenuity never created a braver show than the modern sweet pea —and nebody ever found a place where sweet peas grow more luxuriously than hereabouts. If you have no other bloom in your yard you should by all means have sweet peas; and now is the time to begin planning.

Pick out your location, if you haven't one picked already. Figure the length 67 your trench—ten feet will give you cut flowers for many weeks, fifty feet will give you a show worth going miles to see. Having determined that, buy your seeds accordingly. Get good seeds and pay the price for them. Buy separate colors, and buy only the best type, which has been developed to a wonderful state of form and color, with great beautiful blossoms three and four to each stem a foot or more long. You will plant not many more than one to the inch of row, and when well stated if they are thinto secure the much-desired large percentage of pullets. The majority of the theories brought forth are as old as stock raising itself, and have been tested so often that there is no doubt of their worthlessness.

Among the best known of these theories are the mating of old males to pullets; mating one male bird with an excessive number of hens; selecting of only round eggs, supposing the pointed ones to be producers of males; keeping records of the percentage of females produced by each male and using the males with the highest average of females to their credit. All these theories and many others have been tried time and time again without in the least reducing the number of males produced.

Hatches have frequently produced as high as seventy-five per cent. males; rarely are there less than fifty per cent., and the average is about sixty. The number of males or females that can be obtained from a given number of eggs would seem to be entirely in nature's hands, with very little reason to believe that such matters will ever be man-controlled.

Cold-Weather Hatching Eggs

overproportion of infertile eggs and those that are fertile appear to lack vitality. Naturally there is a cause for such results. Winter conditions are not suitable for the best results n the breeding pen, since it is more or less unnatural for birds to mate at this season. Again, normal temperatures at this time of the year make it somewhat difficult to keep the eggs from becoming chilled. The poultry keeper must guard against these conditions by giving a little extra at-

tention to details. The percentage of fertile eggs may often be increased by the judicious handling of the male birds. An excellent plan is to have two or more nales and use them on alternate days. When the extra males are not in service they can be confined in a small pen to themselves or in a slatted coop while with the hens and it is therefore essential to see that he is liberally supplied with feed and water while

As fertile eggs are often ruined thru chilling because of careless handling, special attention must be given point. Have the nests well bedded and protected from the air as much as possible. All eggs intended for hatching should be gathered several times daily and stored in a room where the temperature will not drop below fifty per cent. In addition to these precautions the eggs should be turned every day or so until they are placed in the machines.

HENS NEED MEAT.

Port Hope, March 13, 1916. Editor Sunday World: I have been reading your articles on chickens and ing that the dust would suffocate the lice when the hens used it. Working terial will finish the lice if the hens

> feed them a mash in the morning composed of three pints oats, shop and carnell mixed and three pints boiled oats. I mix the boiled oats, carnel! and oats chop all together and feed it warm. At night I feed them three pints of two-thirds cracked corn and one-third corn. At noon I give them cabbage and the leavings from the table.

I think they are doing very well under the conditions. For grit I just feed oyster shell and coal ashes and charcoal. I see lately that some of the eggs

bloody streak in them. Could you tell me what the cause is, and how to remedy it? Yours respectfully, O. H. Moffett, Box 451, Port Hope, Ont

Feed your hens beef scrap about three times a week. They need more meat. Being good layers they put forth all their efforts in laying the egg, and the fact that streaks shows that they have not had enough meat. Your hens are good layers, and you should not make them strain themselves to produce eggs.

The bulbs may be brought from the cellar as fast as wanted now. Keep in subdued light a few days.

Plant some of the Spencer varieties of sweet peas. They are a great improve-ment over the old sorts.

#### The Mottled Houdan

By W. H. Card

what would be an otherwise beautiful garden of flowers and shrubs d and made unattractive because of and making them unsightly.

Brick, cement and other artificially-towerd paths do not add beauty to a garden. Nothing is in better keeping with a garden than clean-bordered paths of semi-hard natural soil. The use of salt will keep such paths smooth and practically dustless.

In France salt has been found so valuable for this that it is even used on the when everything is hot and dusty, then we like more than at any other the when everything is hot and dusty, when everything is hot and dusty, when we have treed and the and making them unsightly.

Brick, cement and other artificially-towerd from the old French Houdan of unknown origin, which was imported into this country about the time of the civil war. The first mention in modern history of a fowl resembling the Houdan was in 1834, when a five-toed Polish fowl is spoken of. In 1853 record was made of a fowl remained to the civil war. The first mention in modern history of a fowl remained to the civil war. The first mention in modern history of a fowl remained to the civil war. The first mention in modern history of a fowl remained to the civil war. The first mention in modern history of a fowl remained to the civil war. The first mention in modern history of a fowl remained to the civil war. The first mention in modern history of a fowl remained to the civil war. The first mention in modern history of a fowl remained to the civil war. The first mention in modern history of a f Normandy, which was five-toed, well developed in breed characteristics, and description of color and type much like the present Houdan, except for comb and wattles, which are described as very large, with the head surmounted by a small crest.

The Dorking shape and five toes, with crest and beard, caused the belief that a cross between Polish and Dorking, or between Sultan and Dorking, produced the Houdan. There is no proof of their origin from any of these sources, however, tho it may fairly be supposed that they trace back to the aforementioned fowls of Normandy, with perhaps infusions of other crested blood, presumbably Polish, which have the cavernous nostrils so peculiar

to crested breeds. A peculiarity of many strains of

Houdans, which may indicate Sultan blood-the Sultan is a feather-legged five-toed breed with crest and beard-is the great tendency of tubs to appear on the legs and toes; this is a standard disqualification. No other clean-legged breed handled by the writer in 15 years' work as a judge develops so many specimens with this trouble as the Houdan, and it can be attributed solv to the infusion of Sulfan blood or only to the infusion of Sultan blood or blood of similar character.

Really Has "Hood-on"

The ancient Poland fowl is mention ed as far back as 1638, and was somewhat different from the fowl of 1834 Many beginners are disappointed and toes, the it had crest and beard. with the results obtained from the History records crested fowls similar neubator during the early part of in characteristics to the Houdan, but the season. There seems to be an makes no mention of the union of these bloods to produce another breed. So the origin of the Houdan is a matter for conjecture and deduction based upon breed traits seemingly apparent in the fowl of today.

The Houdan received its name from the Town of Houdan in France, about the time of its appearance in America. English authorities claim the bird was in England many years before it was brought to the United States, but was

not known as the Houdan. The name Houdan is peculiarly sug gestive of the bird's headdress of creatand beard—a "hood-on," altho to old time breeders this would not sound

applicable, as they pronounced the name "Howden." History chronicles the first exhibi-

S BRED today the Mottled Hou- tion of Houdans in 1867 at Worcester, Mass. These birds had the antier or leaf comb and the small crest of the real French fowl-quite different from the elegant fowl of American development as soon in our shows of today.

In place of the monstrous antier or leaf comb the American Houdan curries a V-shaped comb much like the Polish comb. The scanty French crest is replaced by a well-filled crest, which on the males rises in front and flows gracefully back on the neck. There is also a large, well-formed beard surrounding small wattles. The original Houdan had beefy and large wattles and scanty beard. These changes indicate the leaven of the fancier in

Often Bred Too Dark

The question of color markings has been and still is a most perplexing one, with personal preference much in evidence. The general description in the 1915 Standard signifies that plum-age should carry one black feather tipped with white in every five black ones, except on the back of the male, where there may be one white-tipped feather in ten, tho this is not imp tive. This resembles the description of the Normandy male, which was darker than the female. Most fowls have about 8000 feathers; one in five means that the Houdan plumage should have 1600 feathers tipped with white; hence it may be interred that white is somewhat in evidence even tho black predominates, and there must be even mottling thruout-nei-

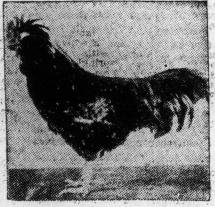

ther too dark nor too light. Many faciers persist in breeding the Houdan too dark, believing that a fowl of Standard description will produce progeny too light for show purposes. Such beliefs are not supported by actual practice in intelligent breeding and a strict adherence to natural laws tending to purity of blood. The solu-tion of the problem of producing progeny up to Standard requirements in color is to breed only from adult birds carrying the proper Standard

markings.

The V-shaped comb is strictly American and is much superior to the unsightly appendage of the first Houdans. Birds bred to standard weight must have deep, sloping, oblong bod-ics with a suggestion of squareness, typically French in its character and resembling Dorking type.

The utility qualities of the Houdan are beyond dispute. The flesh is white

and of a fine, tender grain, juicy and sweet, covering well the fine-boned sweet, covering well the line-boned carcass. The hens are fine natural layers of large, snow-white eggs and are non-sitters; they begin to lay at an early age. The writer kept record of two Houdan pullets that produced 110 eggs each within one year from hatching. They are prolific even to five years of age and generally hardy.

THE MALE IS DARKER THAN

#### built above the droppings board. A good male will often eat but very little INFLUENCE PRODUCTION?

Was constitution, while the second has body influences egg production or egg production influences her shape, or both, we cannot say, yet we do see that good egg producers have triangular shaped bodies in the form of a wedge, the back being one of the triangle, the breast another and the third side being the distance from the pelvic bones to the back point of the breast or keel bone.

Weak constitution, while the second has strong constitution and weak egg or-gans.

This method of selection is of value where the hens are trap-nested for only two or three months during the breeding season, or if a hen has been trap-nested during the breeding season and should get killed, the rhythm of egg production would give an idea of the value of the offspring.

It matters little whether shape influences egg production or egg production influences shape, for the fact remain that the hens which are producing large numbers of eggs usually conform to this wedge shape, and we believe that something can be told of pullets even before they begin to lay.

from Pennsylvania. Last year I in bred them. This year I kept 15 pullets. They were hatched on May 24 last year, and started to lay on the first of January this year. I have kept track of them, and during the last three weeks they have laid 205 eggs or an average of nearly 10 eggs a day, seven days a week.

I have them in a colony house 6 x 9 feet, and no litter to scratch in. I feed them a mash in the morning composed of three prints are the services are repeated tells whether the hen has a constitution which will stand up under the strain of heavy egg production. In other words, the number of eggs to the cycle tells the hen's breeding and repeating the cycles tells of the constitution. of the constitution.

of the constitution.

If a hen lays four or more eggs to the cycle and repeats the cycles with only one or two days missed, she is a good hen. If a hen lays three or less eggs to the cycle and misses two or more days between cycles, she is of little or no value as an egg producer.

The hen which lays twenty or thirty eggs in one cycle, then misses ten or fifteen days, should be classed with the hen which lays regularly but lays only

Value as an egg producer.

The hen which lays twenty or thirty eggs in one cycle, then misses ten or fifteen days, should be classed with the hen which lays regularly but lays only one or two eggs to the cycle. The first has well-developed egg organs with a place.

Asparagus plumosus (or fern as it is sometimes called) makes a very satisfactory house plant. It should be given a rest of six or eight weeks every year. Withold water and allow the foliage in the plant in a cool shady place.

There are many good breeds of poultry, tudy them all carefully before making the selection, and then select the one which you fancy most, and which will answer your particular purpose the best. TO STOP TOE PICKING.

When chicks start picking toes until they bleed and the ones picked die from hemorrhage or exhaustion, the only remedy is to remove each picked chick, dip the toe in tincture of iodine, and isolate until the smell of blood has lisappeared. Some years this habit is worse than others. If raw meat, ground bone or raw fish can be obtained it should be fed. The chick is usually injured in the first place by catching its foot in wire fencing.

An excellent forcing radish is the Norseman. It is rose-colored, with white tips, short-leaved and can, under favorable conditions, be got ready in three weeks. It will remain long in the hot-beds without becoming spongy if not kept

Stop that Torment of Mind and Body! Write Me!! You discouraged women, sufferers of physical torture and distress of mind, you ladies staggering under the burden of neverending doctors bills and all to no purpose—write me!

I have passed through and conquered all that you are now enduring. From my own experience. I can sympathize with you and realize your state as no doctor ever can. Because I have benefited and profited by the use of that wonderful "Orange Lily" treatment and have seen it perform the seemingly impossible for other sufferers, I want every alling woman to get a free trial of this greatest remedy of all ages.

Take courage, my sister! Relief is

Take courage, my sister! Relief is within your grasp. You may prove the effectiveness of "Orange Lily" without spending one cent. At the noon meal he is given a tablespoonful of thoroly cooked wheat—either cream of wheat or farina. To make the required small quantity take four ounces of milk and four ounces of water, add a pinch of salt and let come to the boiling point. Sprinkle in, while stirring, a table-poonful of the wheat, and stir consantly until the mixture thickens. Then cook in a double boiler for an hour. When baby has become accessomed to this food it may be given at noon. To jelly an egg, pour over it, boiling the first two years can venture with a certain degree of confidence upon a more general diet. Not that the mother can relax her vigilance. That is needed all thru childhood; but there is before her a choice of wholesome, palatable foods. Meat may be given once every day; scraped beef, broiled steak and lamb shops, roast beef, lamb and chicken.

Beef and lamb should never be over-cooked, rather a trifle rare; but chicken should be baked whenever possible. Cream and platter-gravy are better for moistening than butter. To jelly an egg, pour over it, boiling sater. Let it stand at the back of the stove for eight or ten minutes.

the stove for eight or ten innutes. The white will be set, but not tough The baby is taking pure undiluted milk by the end of the first year.

When preparing the day's meals measure out twenty-six ounces of milk (shaken well to mix the cream) lettuce and apples may be given raw. Olive oil and lemon juice is a good eight ounces into two bottles and five ounces into two bottles. om and put in a very cold place un-til needed. If the undiluted milk without sugar or lime water seems to strong for babe, add a tiny pinch of bicarbonate of soda (baking to the twenty-six ounces

milk. After a week or so this may be scontinued. The six ounces of milk also baked apples and cooked bananas. You will notice I say little of the raw banana. It is a splendid food; but it in the quart bottle will be used on the cereals, so that the baby gets the whole quart in 24 hours.

Preparing Foods.
I am going to add a few directions bout preparing some of these foods.
I omit any recipe that you would ke, please ask me for it.

Prunes that make a most delicious
dish are prepared this way: Wash the brunes in two or three waters, throw away any broken skins or mussy ones. Cover with water and let stand all night. In the morning put them on the stove in the water in which they

have soaked, and cook slowly for a long time. Cooked this way prunes are quite sweet without the addition of or zwineback is a thin

A WOMAN'S MESSAGE TO WOMEN. If you are troubled with weak, tired feelings, headache, backache, bearing down sensations, bladder weakness, cons tipation, catarrhal conditions, pain in the sides regularly or irregularly, bloating or unnatural enlargements, sense of falling or misplacement of internal organs, nervousness, desire to cry, palpitation, hot flashes, dark rings under the eyes, or a loss of interest in life, I invite you to write and ask for my simple method of home treatment, with ten days' trial entirely free and postpaid, also references to Canadian ladies who sladly tell how they have regained health, strength, and happiness by this

method. Write today. Address: Mrs. M.

**CONCERNING OUR** CHILDREN

BY ELINOR MURRAY.

O MOTHER can do her duty in her own home without genuine To prepare beef juice, take a piece of round steak, broil it slightly, put tenderness of heart, but, if she has only sentiment and tenderness to and squeeze out every bit of juice. Add a pinch of salt, and set the cup containing the juice in a dish of hot water until slightly warm. Never let it thicken or the food value is lost.

Another way is to cut the meat into the pieces cut it into a glass jar with offer, she may do more harm than another could thru harshness. With sentiment and tenderness of heart the mother must have firmness and encourage in herself that common sense fine pieces, put it into a glass jar with that will enable her to correct the tensix ounces of cold water and a little salt. Let stand in a cool place overderness when it becomes weakness. She must cultivate that which in the night. In the morning pour it into a coarse cloth and twist the cloth until long run counts for everything-charall the juice is out of the meat.

At 18 months scraped beef is added acter-the sum total of all the qualities which make up the strong, brave, to the diet. To prepare this: scrape a piece of round steak with a tablespoon, tender woman.

getting off the soft red meat, and leaving all the gristle. Put a table-spoonful in a saucer with a pinch of The mother cannot get along with a one-sided development. She, above all others needs a liberal education, a salt, and warm it over the steaming well-rounded character with all parts tea kettle. Do not let it entirely lose equally developed. It does not make way? Will watch for answer in Sunequally developed. It does not make any difference how intelligent a woman is if she develops only her intellect and looks upon her children only with intelligence, they are not going to lavish very much affection in her di-rection. For love comes first. That is the foundation of the home, but the heart needs the help of the intellect during the first two years can venture to keep the love from becoming a form of weakness. For love is a form of weakness when it does a child the injustice of not making him behave him-

Two Incidents.

A hard and unloving mother does infinite harm to her children; but, she does no more harm than the loving but weak mother, who does not train her children to behave with respect for the feelings of others, who per-Cream and platter-gravy mits them to be selfish or cruel or

thoughtless. All of which learned discourse is prompted by two incidents, so common that you will have seen similar ones many times. The first one occabbage chopped fine and boiled in salted water are good in winter when curred in a railway station waiting-room, where a worn-out looking woman of truce and apples may be given raw.

Olive oil and lemon juice is a good to keep track of a boy about five years old. He investigated every hole and corner of the station inside and corner of the station inside and out, in spite of his mother's frantic dition of milk and arrowroot, corn- calls to come back to her. At times he disappeared, and the poor woman, torn between fear of losing any of her numerous bundles, and of losing the boy entirely, made half-hearted ex-All fruits cooked with sugar should cursions in search of him. be avoided. Grapefruit and oranges

And every time she succeeded in getting him back to the bench with the bundles, she pleaded and coaxed s. getting him back to the bench with the bundles, she pleaded and coaxed him to remain, or threatened him with various punishments if he would not. And the occupants of the waiting-room, tormented by the boy's inquisitive staring and handling of their bags and belongings wished devoutly she would carry some, or even one of the threats into execution. But they all knew that she wouldn't, that she never had and couldn't, and, tho is so terribly abused that the safest thing for me to say is: Never give a banana to a young child.

As every mouthful of starchy food is, by digestion, converted into sugar, your child will be better if he seldom tastes sweets. Avoid letting him taste

they were cross with the child, they knew it was the fault of his mother.

The other incident was in the train.

A mother sat at the window, her boy at the aisle-end of the seat. After a time he whimpered and whined and tormented and complained until she moved away from the window and gave him her place.
Two Unfortunate Wives.

If one looks away into the future one sees two unfortunate wives who wonder constantly, "Why men are so inconsiderate and selfish?" Place the blame where it belongsupon the lack of strength of character. the lack of wisdom, the lack of genu-ine love on the part of those women in not bringing up their boys to be unselfish, and thoughtful of others, so that they might live decently in their

Questions and Answers. DEAR ELINOR MURRAY: but he says his right hand won't work. All his father's people are left-hand-ed, doing everything but write with the left hand. As I want to start him little red coat on, to keep him

own homes and in the world outside.

day World. It really does not make much difference which hand we use, does it? It is simply a matter of convenience that hand has been generally adopted as the "doer."

Since your boy has inherited a very strong tendency, and will evidently use the left hand in all his work and play, it seems only natural that he should write with the same hand. How would you like to be compelle o use your left hand for writing, if you have been trained to use the right

hand for everything else?

I only hope you can convince your little son's teacher that you are right in your request that he be allowed to use his left hand. You may have trouble, for there are many teachers who insist on the right hand being used in school even if the left is more important at home. That is probably the and for everything else? in school even if the left is more important at home. That is probably the reason why your husband's people use the right hand for writing.

It seems a little thing to the outsider, but it may mean great trouble and unhappiness for the little man.

And since the most important thing we mothers have to do is to keep our little ones well and happy, just see to it that your boy follows the line of happiness even in the matter of which hand he shall use.

I do not think I ever heard of this

inheritance before. I am very glad you wrote to me. Elinor Murray.

OH, PRETTY WELL, THANKS.

THE SMILING FACE CLUB DIRECTED BY

I PROMISE TO DO MY VERY BEST TO MAKE THIS SAD WORLD BRIGHTER.

Signed .....

Dear Smilers:-- I wish I could tel you how pretty it is from my window this morning. There are trees and little hills of snow under them and, best of all, the sun is sparkling over everything and I am just sure the trees are saying to each other: "My dears, what a bright, sunny, SMILING world it is

DEAR ELINOR MURKAI:

I have a boy five past, who is left-handed. We have tried everything a sled, climbing up the hill at the side of the park, and running behind as of the park, and running behind as they can go, (but not very they "I got up just now to have a closer view and there are three children, with fast as they can go, (but not very fast because he is such a little tiny mite), is the cutest little dog, with a to school, do you think it as well to warm. The little dog tumbled down let him write with his left, as it seems just now and all the children screamed once more, as fast as his little legs could scamper.

"Ho! What is this one of the children, a little boy, is about to do? He is starting to climb a tree. . . . Just wait a minute till I see how far he gets up; then I'll let you know . . . Dear me! Dear me! A big policeman is running up . . . How CAN he do such a thing on such a bright, suany SMIL-ING morning?.... Yes; he is pulling the little boy down BY ONE ANKLE. ... Oh, dear! I think he is cruel; yes, I do. . . . Now just wait again while I open the window to see what happens next. . . . Yes; he has pulled the little boy right down and I must look out once more to see if he is crying. Would ou believe it; the little boy is SMIL-NG; and the little dog is wagging his ail and barking and the two little girls are trying to make the little dog stop and, in all the confusion, the sled has are trying to make the little dog turned upside down and there they are, all in a muddle, with the policeman in the middle.

The policeman is shaking his finger and saying something pretty cros

that?

to be restored to freedom, or when parental displeasure is about to yield to forgiveness and reconciliation. The to understand that "promise" does

What is there to say nate to create a distaste for them This often happens if they are used every day for any length of time. Fat is an essential element in diet that? and cream is its most easily digested

You kiss and make up, and in few minutes the disagreeable interview is forgotten. You do your est to impress your child with the unwisdom or the wickedness of what he has done. You try to be impressive, but you do not feel sure that you have altogether purged the little soul of temptation. You wish, however, to make sure that the offence is A quart a day is not too much milk, not repeated, and you exact a promise. Another time it is something else assuming authority to punish the younger brother or taking something from the pantry without permission. In closing, let me warn you against few of the really undesirable things from the pantry without permission. And again there is an unpleasant conference, and again it ends with that may creep into the diet of the child. Pork in all forms, veal, corn beef, salt fish, goose, duck, game, kidney, liver, stew, hash, fried foods of all kinds, fresh bread, biscuits, muffins and pancakes, cake, rich puddings, pie, pastry, nuts, syrups, preserves, tea, coffee, soda water, pickles and cateur.

ing, but insist upon it always; and the teeth will be preserved and the general health kept up as is possible A dozen times your child has promised 'not to do it again.' "

not be repeated.

the promise that the evil deed would

A popular London clergyman was once spending a few days at a country house with some friends. On the Monday morning he was playing tennis with a young man he could usually beat, but for some reason or other the clergyman was not in form, and was faring badly.

Between games he remarked to his opponent: "I simply can't stand your service today!"

"Then we're quits!" was the cheeky reply: "I couldn't stand yours yesterday!" In the course of time your child—who is quite as intelligent as others of his years-learns that the last word in a disagreeable interview has to do with "promising" not to repeat the offence. And as he is anxious to terminate the applies. offence. And as he is anxious to terminate these conversations he applies his knowledge by offering his promise even before you get around to asking it. Not that the child reasons out the connection between the promise and the return of sunshine—there is no more reasoning involved here than in the case of the kitten that learns to come to the saucer of milk.

come to the saucer of milk. A dozen times—yes, twenty—your child has promised "not to do it again." And has he kept his promise Alas, no; for he is just like other children. Up to the present "promise" has men't to him only the ritual that peomeant to him only the ritual that peo-

been too young, too inexpericaced, to divine your more remote,

perionced, to divine your more remote, your more subtle thought.

Eut you have been patient. And every broken promise has been forgiven. Until one day it comes upon you suddenly that your child has acquired the habit of making perfunctory promises which neither he nor you expect to be least. And the fault has been entirely kept. And the fault has been entirely

yours.

The futility of asking a child to promise "not to be naughty again," or "to go to sleep at once," or "to come straight home "rom school", must be apparent to anyone who has given the matter a little thought. Is it not sufficient to request the child's immediate return from school? Is it not enough to urge the child to go to sleep at once? Is it not enough to arouse the child's Is it not enough to arouse the child's desire to avoid naughtiness? It would seem that we resort to promises in our desire to impress the child with the seriousness of what is expected of him, but in most cases we succeed only in impressing him with our own dis

If the child is too young to attach any meaning to "promising," there is of course, nothing wrong in his failure to keep his promises. But in the course of his mental development you expect him to know what a promise When this stage is reached the word and the associations should not have cheapened the performance for him. For this reason neither the word nor the act should be forced upon the young child. We should neither ex-

ton! But it is a dangerous advantage that the parent takes when he thus imposes upon the ignorance and ingenuousness of the child. For, however plausible your excuses may be, each experience with a parental promithat ends in disappointment drives home the thought that promises are intended only for immediate advan-

able probability of accomplishment. And in the meanwhile it is unfair to urge the making of promises that must be broken, in whole or in part. The

carry with it an obligation, we should be careful not to burden him with

promises that are too difficult to keep. Have him promise less and keep his word up to the 100 per cent., rather than get a larger total performance at the cost of a few broken promises.

The ability to look forward to gauge his strength and resources, to plan his

time, must not be too heavily strained.

It is only gradually that a child learns

what he may undertake with a reason-

Promising to hang up the outer wraps when coming into the house."

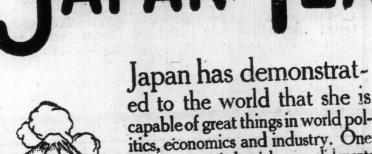

danger, of course, is not that the child

will fail in his undertakings, but that he will become indifferent to the safor restoring him to grace or as the cost of favors, nor should we label our promises to him.

It goes without saying that the parent's promise to the child should always be kept. But the temptation to yield to importunities or to distract the child's attention from immediate desires often makes us prophesy favors and indulations at the condition of the child's temptations should limits be found for the promises exacted. Don't ask Mabel to promise "never to chew gum"; it is enough to get a promise for a day at a time—never is too long a period, and carries more temptation. desires often makes us prophesy favors and indulgences that we do not fully intend to have realized. And it is so easy to concoct a plausible evasby a promise until promises are made unnecessary by suitable habits. Promises may be helpful instru-ments in the training of children, but they should be more convenient coins

#### **CURRENT COMMENT** ON WOMEN'S WORK

BY M. L. HART

tation for the purpose of discovering some means by which she could win over her opponents to the suffrage cause, she could never have come within even appreciable distance of the success, which has come turn the action of herself and her officers in legislating to note that here as in other legislating to not the legislating to not the legislating to not the legislating the legislating to not the legislating to not the legislating the legislatin given herself over to a month of medition of herself and her officers in adopting the attitude they did at the outbreak of the war. This has been evidenced during her late visit to Toronto and during the course of her tour thru the United States and Canada. Never before did she get audiences such as were accorded her during this visit. On former occasions, as far as Toronto was concerned, the gatherings which assembled to hear her were, for the most part, composed of women adherents of the cause she advocated. This time her hearers were largely men, and women of all shades of opinion were amongst those who filled Massey Hall with a capacity house which overflowed to the platform. It may be in the minds of some to won-der how this change was brought

by her lieutenants with the result that all the energies which before had been expended to bring about the franchise for women, are now directed to the all the energies which before had been expended to bring about the franchise for women, are now directed to the general channel of triumph for the empire and for the highest ideals of civilized life. One phase of this which particularly illustrates the bigness of which a well-balanced woman is capable, is that Mrs. Pankhurst and her associates are spending themselves in the interests of the very government which had been the biggest obstacle to the achievement of their purpose. It is true, as Mrs. Pankhurst stated while here, that the prime minister of England acknowledged that until two years ago he was not aware of the kind of women which England possesed, but, as the suffrage leader retorted, he would not allow the women to show him, so that the fault lay with him, because they, the women, were the same individuals before and since his illumination on this point. All this, however, has been forgiven if not average for the general channel of triumph for the many fit is worthy of comment that women in England who have gone into the patriotic service of acting as conductors on the different lines of tramscars of London County Council, and on the Metropolitan Electric lines, begin at the same rate of wages as the men whom they replace. A rate quoted is that the women begin at a daily salary of five shillings, with a war bonus of three shillings a week, which brings a week. Other figures state that a service of eighteen months will bring the weekly wage to thirty-seven and sixpence, and the maximum of six per day, will be reached at the end of two years. The women wear a smart gray uniform, and are giving excellent satisfaction, both in respect to the work done and to their relationship to the public. his illumination on this point. All this, however, has been forgiven if not exactly forgotten, and in the truce of world in the doing of it.

Mrs. Pankhurst is doing her part of war service by touring the country rousing sympathy and financial aid for the brave people of little Serbia. the brave people of little Serbia. The luncheon, which was the function with the social side, and at which Miss Constance Boulton presided, was attended by an altogether larger num-ber of guests than had been anticipated, and in this way some little inconveniences were experienced, which, however, were almost unavoidable under the circumstances. The work of this fell upon Mrs. Campbell Gunn, convener, and those associated with her, Mrs. W. R. Jackson, Mrs. John Parker, Miss Harrington, Mrs. McIvor and Mrs. Melville Bertram. At the big meeting in Massey Hall, Mrs. L. A. presided, and never did she fill the chair as gracefully, nor speak as earnestly, nor with more appro-priate tribute to the guest of the evening than on that occasion. On whole the visit of Mrs. Pankhurst has put the suffrage women in a better light than ever before, and there seems little doubt but that when hostilities are at an end, it will be with them as with the Home Rule Party, there will be no need for reminders on their part as to the things owing; they will be laid at their feet, the offering of justice to the doers of good deeds.

After eighteen months in the war zone, Miss Donna Burgar of Welland, has returned home, and in an interview with the Welland Telegraph tells of some of her experiences. During her stay abroad as a member of the American Red Cross she has visited Rotterdam, Gleiwitz, Berlin, Moscow. party with which she traveled went as ships at sea.

Probably if Mrs. Pankhurst had into Russia in September, and was diven herself over to a month of mediteresting to note that here as in other parts of Germany, she formed the parts of Germany, she formed the firm conviction that Germany was fighting a war of defence. Whatever classes there may have been in Germany in other days, there are only two larties now—the war party and the people, and the people know only what is told them. The American Red Cross with which Miss Burgar traveled, included in all 36 doctors and 140 nurses. with which Miss Burgar traveled, in-cluded in all 36 doctors and 140 nurses. Miss Burgar pays high tribute to the nature of the Russian retreat, the re-treating army stripping the country of everything, even the railways being pulled up and hauled off by the flying hordes.

DRUSILLA

annelle Bradel

Drusilla Doane was seventy years of age and an inmate of a "Home" for

old women. It was a very "respectable' home where all the old ladies paid for their "keep." There was one exception and that exception was Drusilla. She was the drudge of the institution, being both alone and penniless, and on count of it was compelled to pay her way, notwithstanding the fact that the "Home" itself was the gift of Elias Doane, a distant relative. For Dru-Doane, a distant relative. For Dru-silla, relations did not count for much, whether they were rich or poor, and until she was three score years and ten no one by the name of Doane had ver, by word or deed, given sign that they knew there was such a person. One day her ship came in. There was consternation in the "Home." Two foom, an object of charity; she left it worth a million. It all happened in twinkle. Elias Doane had died. He had many millions for which he had says the Virginian Pilot. It was in sacrificed love, wife, children and 1884 that M. Renard, the official in home. He saw his mistake and his written advice to Drusilla was, "En-joy my million! Don't make too big a fool of yourself, nor marry your tango teacher, but spend my million; spend it—and may God rest your soul." The very next day Drusilla took her place at Brookvale as mistress of the grand old mansion with its spacious grounds its luxurious appointments and servants, who, accustomed to all the polite form of a millionaire's establishment, had their patience and pride sorely pricked by the unconventional ways of their new mistress. Daphne Thornton, Dr. Eaton and John Brierly are delightful characters and figure somewhat prominently in the disposition of Drusilla's million. The old lady's experience with confidence men, making society calls, and the establishment of a home for children, a real home where each child may have the care of its own mother, are but a few of the things that give the reader a desire to finish the story at one sitting. "Drusilla With a Million" is by Elizabeth Cooper, author of "Living Up to Billy," and McClelland, Goodchild and Stewart are the publishers.

#### "THE PHANTOM HERD."

Luck Lindsay, former ranch hand and herd-rider, got a craze for the "movies." His one ambition was to put upon the "screen" a real story of the wild west, in order that the rapidly vanishing cattle industry and the cattleman's life from the day he finds the new-born calf to the time the fullgrown animal is shipped east, may live as a history of ranching in the west for future generations. Luck, like many another, wrote his story but looked in vain for a producer. The "Happy Famwhom we have met in other books by the same writer, comes to his rescue. They, too, are ranch people and they have faith in the venture. They pool their bottom dollar and move down to New Mexico, there to live in reality the story of "The Phantom Herd" while it is being registered on the films. Not only does the book give a thrilling picture of life on a ranch. with its many hardships and difficulties which are, nevertheless, happily set off against those splendid qualities that make life worth while, but it gives one an illuminating insight into the production of moving pictures, which has become one of the greatest indus-

tries of the day. "The Phantom Herd" is by B. M. Bower, and the publishers are Little-Brown & Company,

BAPTISM OF FIRE.

"My Fourteen Months At the Front," by William J. Robinson, is one of the most vivid accounts of the great war that has yet been written and is the experience of a twenty-two-yearod Boston boy who has recently re turned from France where as dragoon guardsman, dispatch rider and motor car driver he served under the British flag and visited every foot of the line the British are holding in France and Belgium. During these fourteen months he carried thousands of dispatches

along the allied' front on a motorcycle or on horseback, always exposed to German shell fire. He was engaged in both battles of Ypres, Neuve Chapelle, Hill 60, St. Julien, Potige, Hooge and Loos and the having many narrow escapes was only slightly wounded. He depicts the horrors of trench life and the grewsome aftermath of battles and says that at Ypres the motor cars were driven thru the streets with difficulty so choked were they with dead and dying. He gives the Canadians great praise for blocking the way to Calais and standing their ground until shot to pieces by the Germans. Even war has its touches of humor and here and there Mr. Robinson introduced bits to

#### MEANWHILE. With bookmakers as with everyone

Little-Brown & Company are the pub

lse, war is the only thing that matters these days. War is the dominant note and the great majority of writers, whether they be men or women, are writing upon the subject of war. "Meanwhile," by H. L. G., published by John Murray, is a packet of war letters. The writer is not a believer in force unless it is merely to settle which of two antagonists is the stronger. He believes in liberty, but if Germany were to set her heel upon all Europe he would not be converted to a belief in force. If liberty triumphs in this war, it will not be liberty that has prevailed, but force. Of the Germans says: "Every instinct of my mind and soul cries out that this is the Prince of Darkness; but, even so, I must recognize his virtues. He has strength valor, skill, determination, inventive-ness. These qualities are not the monopoly of good or of evil, and I am taught to use them all against him if I can." And of those who criticize England so harshly at the present time, he says: "They do not understand I will say this—that I bless with all my heart the fate which has made me an Englishman just at this very time, and has given me the profound happiness seeing my beloved and honored nation put out so quietly and modestly her enormous strength like a giant awakening from sleep, without either fear or braggadocio, not conscious of the inferiority of others, but just with the simple delight of health and strength." He "has a deep sense" too, "of some arraying of powers and marshalling of moral forces against the aggressor, in a way which seems al-most independent of, and external to, the human faculties employed. The outburst was so unexpected, the resistance so little organized."

#### THE LIMIT.

"Miss Brown told me that you paid her such a charming compliment the other evening," said Mrs. Coddington to her husband, "something about her being pretty. The poor girl was so pleased. I don't see how you men can be so untruthful."

"I should think you'd know by this time that I'm never untruthful," said Mr. Coddington reproachfully. "I said she was just as pretty as she could

#### Secrets of Health and Happiness

### How Science Hopes to Banish Superfluous Hair

By DR. LEONARD KEENE HIRSHBERG

A.B., M.A., M.D. (Johns Hopkins University).

HY are the faces of women, usually divested entirely of all capillary "disadornment," some times bedizened with hair?
Prof. Charles E. de M. Sajons points out the fact

that all glands of the living anatomy are not independent in action, but are an interlinked system. In this discovery lies the key to "hypertrichosis," or superfluous hair upon the chin, lips and cheeks of women.

The fluids formed in the different glands enter into the lymph channels and blood streams of veins, arteries and capillaries, just as water and moisture permeate the

soil and later become a babbling brook or sparkling spring. The fluids which leave the sex glands flow DR. HIRSHBERG into the thyroid gland at the neck or the pineal and pituitary grands below the brain. Which particular gland initiates the chain of glandular stimulation depends upon irritants from the outside

"Internal secretions" and "hormones" are the names given by punditis to the substances made by special glands. Human life depends in a large measure upon the impulses continuously generated and maintained

The sex glands are contradictory in power to the deeds of the thymus, pineal, pituitary and suprarenal glands. With overgrowth of one occurs a shrinkage of the other. Moreover, there is an equally intimate relationship between the thyroid and the pituitary gland, as well as between the other glands. the other glands. Removal of the thyroid may induce an overgrowth of the pituitary gland. Therefore, the human emotions of love, hatred and passion depend much upon the thyroid and the other glands. Other characteristics of a secondary nature and not necessarily concerned directly with racial propagation seem to hinge for the most part upon the suprarenal glands.

What has all this to do with superfluous hair on a woman's face?

Just this: Beards and moustaches and all hirsute adornment are secondary masculine characteristics. If any masculine characteristics appear even slightly in a woman, or vice versa, it means a missit of several glands. One gland alone cannot be responsible for misplaced characteristics. The combination of errors necessary to reverse these things demand antagonisms between several different types of glands.

It is now known that superfluous hair on the faces of women is traceable to disorders of normally balanced activities of the suprarenal, pineal, hypophosis, thymus, thyroid and other glands. These discoveries are destined to have valuable and helpful results. The day may be near when depilatories and razors will give way to a measured mixture of sheep

#### ANSWERS TO HEALTH QUESTIONS

"Daily Reader," Toronto.—Q.—I am troubled with blackheads in my face. Can you offer any suggestion?

you offer any suggestion?

A.—Avoid all oily, hot, greasy and rich foods, sweets, pastries, chocolates, and highly seasoned foods. Do not use soap or hot water on your face, but cleanse it with a good peroxide cream and ice-cold water instead. Dissolve the blackheads out with one teaspoonful each of glycerine and benzoln to a cupful of rose water. Take three drops of Fowler's arsenic solution in water after meals three times a day. Obtain lots of fresh air and sunlight. Keep away from the kitchen heat and grease.

J. Y. Toronto.—Q.—I am very much troubled with nits in the hair. Can you advise me what to do for this?

A.—Wash the hair in actetic acid and brush thoroly. The hair should afterwards be well ventilated each day by letting it hang down your back for about half an hour. Brush the hair about 100 dress when coming it. imes when coming it.

E. B., Toronto.—Q.—Will you kindly give me a remedy for blackheads? give me a remedy for blackheads?

A—Avold all oily, hot, greasy, rich, sterchy and highly easened foods, sweets, pastries, thick soups and gravies. Do not use soap or hot water on the face, but cleanse it with the following wash: Glycerine 1 oz., sulphur 1 dr., rose water 8 oz. Dissolve the blackheads out with a easpoonful of glycerine and benzoin to a cupful of rose water.

"Angelia," Toronto.—Q.—I am a married weman of 30, and have twins eighteen months old. I have never been real sick, but of late have suffered terribly with constipation. During the past five months I have felt very languid, and never seem to get enough sleep. My eyes have sunken in and have hollows round them. What do you advise? 2. Would ou advise massaging the face with olive oil?

A.—Take a tablespoonful of milk of magnesia about half an hour before meals. Take active exercise daily, eat nourishing foods, drink a glassful of distilled water every hour; obtain lots of fresh air and sunlight, and sleep ten hours in the twenty-four, never over-exert yourself, and massage the face each night with olive oil or cottonseed oil. 2. Yes, it is quite helpful.

B. T. S., Toronto.—Q.—Will you kindly tell me what to do for pimples and black-heads?

heads?

A.—Avoid all oily, hot, greasy, rich, starchy and highly seasoned foods, sweets, pastries, chocolates, thick graytes and soups. Take three drops of Fowler's arsenic solution in water after meals three times a day. Dissolve the blackheads out with a teaspoonful each of glycerine and benzoin to a cupful of rose water. Apply the following to the pimples each night: lodide of potash 1 dr, simple cerate 1 oz. Do not use soap or hot water on the face, but cleanse it with a good peroxide cream and ice-cold water.

W. F., Toronto.—Q.—A.—If you will kindly send a stamped, self-addressed enbe glad to give you the desired information.

M. F. A., Toronto.—A.—I do not discuss advertised remedies. They are usually made merely to sell.

Dr. Hirshberg will answer questions for readers of this paper on medical, hygienic and sanitation subjects that are of general interest. and girls, all following with in-tion from these teeth enters thru the tense interest the talk which is being spong-like jawbone into the blood given by ; man in a blue cloth suit. evidently understands children, for his little illustrative stories meant to strike home a deeper moral, are nicely chosen, with a due regard to the proper pride and ambitions of youthful hearts; moreover, he has a kindly manner and a winning smile,

how many of you would like to grow up into beautiful young ladies? Hands up all who wish to grow into handsome

There is a chuckle from the boys, and giggles and blushes from the girls at this, but no hand stirs, and then in a more serious tone the voice goes on, "Well, of course, every girl would like to grow up into a healthy, finelooking young lady; one whom every-one could like; a girl with a pleasant smile. But there is just one thing that is going to spoil it all, that can spoil the prettiest face, and that is bad boking after your teeth if you are tiful young ladies to do lots of good in the world."

It is the boys' turn next, and at the become soldiers, every hand shoots up

Good Teeth for Army

"Ah! of course you would. But do you know one of the things which often disqualifies a man for the army? A man who once tried to enlist and was rejected because his teeth were bad, said, 'But I don't want to bite the Germans, I want to shoot 'em'."

Then follows the application of the same moral, and the reasons why a soldier must, in order to keep healthy have a healthy mouth and sound teeth All of this talk is followed with earnest attention by both boys and girls. At the back of the room and around one side are seated a number of teachers with the principal, Mr. Richardson, equally interested, for the scene is laid n Park school on an afternoon of last week. What is the meaning of it all?

Seccombe, chief dental officer for the board of education, "especially the increase in learning power which schools, is a far more serious one than pointed out, and in an after talk with

stream, and is carried into the system, there to lodge either in the joints setting up rheumatism, or often in the heart or lungs where inflammation

"In the schools it has long been customary to ask children to show their hands, to see if they are clean, and the boots are examined in the same manmouth? We have abolished the common drinking cup, but why leave altogether untouched the far more essential question of a clean mouth that tial question of a clean mouth, that susceptable breeding trap where germs

are so easily propogated and spread?
"Surely we are commencing at the wrong end of things. A healthy mind is the outcome of a healthy body, and if we wish the children in our schools to get the highest benefit from their instruction, we must teach them first the care of their bodies, and help them to get into a condition of fitness." First Dental Clinic

Four years ago the first dental clinic in connection with the public schools was established thru the efforts of the Hygenic Committee of Toronto Dentists, and the Ontario Dental Society. At first there was only one dentist appointed, but gradually the work has developed, until today there are 16 centres with a dentist in charge of each,

and as showing the splendid results o the past year's work, it must be more than encouraging to the officials to note that the average percentage of dental defectives found in the schools has decreased from 95 per cent to 65; this latter figure out of 49,081 children examined; but the dental officers are anxious to go a step farther and launch a preventive campaign. To reach the children in the home

costly. The place where habits of regularity, and discipline are formed, is the school; so argued the chief dental officer, and he conceived a plan for the teachers to co-operate with the various clinics in arousing the interest of the childen in mouth health. Hence, the address of Dr. Seccomb

culmination of four years' work of to the pupils and teachers of Park dental clinics in the public schools.

"The question of defective teeth," significant part which good teeth play in making strong healthy bodies, and the children in our public comes with the latter gift was well many people realize. It is directly responsible for a large percentage of the ill-health of a later period, and if neglected becomes a source of infection, a keen interest in this important sub-

CLASSROOM with seventy-five animated intelligent faces, boys and street, all following with infects. The dental centres which ex-tend from Annette street in the westend to Eglinton, north of Yonge street cover all of the schools in the city. No less than 5640 children received com-pleted dental treatment during the past year. All schools have been carefully graded for the purpose of showing the importance of Oral Hygiene, as well as collecting of individual information and this, which is called Oral Hygiene Grade is represented by the following figures: Grade 1, mouth conditions ex-

This list, when made fully public will doubtless rouse the spirit of ambition among different schools, which is exactly what happened at Sackville two weeks ago, a school which happens to have a good rating for oral hygiene. The chief dental officer saw his opportunity and took it. Sackville wished to know how dental conditions improved, and after a conference, it was arranged that the school dentist would make a thoro examination of all teeth, clean up all defects and give a course of prophylatics to each child PROVIDED the teachers co-operating committees of the Oral would endeavor to see that the children kept their teeth clean afterwards. The promise was given with enthusiasm and the work of cleaning up has com-menced; but Sackville is not the only progressive school and Park was not long in getting wind of the new movement and claiming a share of the special attention too. It will be interesting to watch the development of these two pioneer schools in co-operation for prevention of oral defects.

Covers Every Class

In the matter of examination for dental defects the work has covered every class of scholar, rich as well as poor, and as one of the officers pointed by means of visits, pamphlets, etc., out, it is not only the poor child who would be more or less ineffective and is discovered with defective teeth. The boys and girls from rich homes are often found to have badly decayed teeth, of which the parents are utterly ignorant and they are grateful to have hese defects pointed out. This work is very largely an educational one. In the case of a poor child whose parents are unable to pay, all extractions and necessary work are done by the school dentist at the clinic, each case being vouched for by the school nurse. Each clinic is fitted with a dental chair and all necessary appliances. Any risk end this new movement will have a dieducation of parents, thru examination infection is carefully eliminated in the rect influence on the control of examination and care of the deciduous teeth:

no point of contact with germs can be HOW ONE LITTLE GIRL conveyed from one to another.

#### BACK BENCHER'S ROLE IN ONTARIO'S LEGISLATURE.

Much Underestimated Man, Who, After His First Year, Keeps His Eye on the Press Gallery and Times His Speeches for the Country Editions.

DERSONALITY may figure in municipal elections, but as

a rule it bulks very small in the larger field of provincial politics. Here, the member is swallowed up of his party. The organiza. tion nominates him, elects him, and ultimately honors or retires Candidates are chosen, stamped with the official seal of the executive, duly instructed and set up on the hustings. You with your ballot do not vote for the man, but for the creed he repre-Consequently, one finds in the legislature a score or so of nembers who share no place in the sunlight of popular attention. They are members of the honorabble society of "back-benchers." Like well-trained small boys their chief function is to be seen and not as freseen and not heard, and not as frequently as the small boy do they break

His First Peep

When plain John Brown, newly returned M.P.P., Locustville, P.O., first peeps, carpet bag in hand, into the chamber where he must take his seat as a duly qualified representative of the people, his honest knees suddenly grove slightly unstable. The mystery grows slightly unstable. The mystery of the place rises round him like an atmosphere. The dignity of the lawmaking precincts envelops him as a cloud. Thruout the whole of that first momentous day he steps about with something of the awe that held him on the occasion when his John, Jr., was ushered squalling into the world. Even sitting quietly in the farthest seat in the farthest corner he shrinks lest the spotlight of publicity from the gallery should turn its calcium glare upon his numble self. Good ingenuous soul, he need not fear. That spotlight never swings beyond a fixed orbit. He and his confreres sit in the mellow twilight undisturbed. The back-bencher in the legislature is rarely more an object of public interest, than the dixtures in the chamber. He is classed with the echoes and the acoustics. John Brown is soon a bencher, for there are no mysteries of initiation

into this august body. The mysteries occur in graduating from it. Kindly Folk

These humble members as th stranger views them from the gallery. inds here something typical of the ury room. For instance, there are eards of a distinctly agricultural cut, lothes of a back-township pattern, nd a look of plain honest integrity on nore than a sprinkling of plain honest aces. "So sustantial-looking," you nurmur, and you are right enough.
The rank and file of the legislature is ubstantial and reliable, sturdy and

estimated individual, and it is largely year a little more blind is own fault. He under-estimates fidelity dissolves. The

of the charge of egotism, but it also relieves him of much of a claim to recognition. He is coy, shy and retiring like a debutante of His hands and feet some seem out of place in a debate. his first couple of terms publicity em-barrasses him. He wants to be let alone. The fine convictions he brings down with him sit on a shelf in the back of his mind, grow must? and an orgotten. He votes as the man on hi eft votes, he applauds when he applauds, and jeers when he scores. When a stalwart of his party rises and unlimbers his guns, the sturdy bench, man to the rear keeps one good right hand ready for pounding the desk i approbbation.

The fault of the Mr. John Brown is,

that he has failed to develop with the times. Modesty is a virtue in the tender violet, and docility a pleasing characteristic of the lamb, but the ago has grown tired of these pastoral traits in parliamentary representa-tives. When is an original idea ever sprung from among the faithful re-tainers who help to carry the banner? Who in recent years has seen our John stand up and declare his idea of what should be the guiding policy? Who has seen him sit when his fellows stood, or bellow nay when they responded yea to the clerk of the house The nearest approach to such a re-

The nearest approach to such a refreshing condition in recent years, occurred a session or two ago, when the house divided on a big moral issue. Three good party men held individual convictions. When the vote came, one boited hastily from the chamber, one sat in his seat and voted neither way. The third answered the crack of the party whim at the last moment. answered the track of the party whip at the last moment.

But after all, the honorable member of the rear seat is a genuine whole-souled type. He smokes a pipe and tells a good story. He may not figure in the debates, but his figure is recognized in the committeroom and his in the decates, but his figure is recog-nized in the committeroom and his constituents are well looked after. He shares many characteristics with his superiors in the seats of Olympus whence the thunders are hurled. He likes to see his name in print. After the first year he keeps are ever upon the

the first year he keeps ar eye upon the press gallery, and times his speeches for the country editions. Sir James Whitney always cultivated the henchmen in his retinue. Missng his leonine face from the premier's hair, one would finally discover him far down the rows chatting amiably with the newest member, or discussing tile drainage with an audience of two or three, while the debate rolled or uninterrupted.

He held caucuses with individuals It merely emphasized the political sagacity of the old leader, as the province is beginning to realize. For the ordinary member is growing in significance. The little back seat is now too small for him. Party curb-chains are beginning to gall a bit. John Brown is demanding some exer-cise for his own gray matter. Every himself. This, of course, relieves him' is taking his place in the sun.

## A GENUINE RUPTURE CURE SENT ON TRIAL TO PROVE IT

Even Soldiers from the Trenches of Europe Write to Tell How the Wonderful Brooks Appliance Cured Their Ruptures, Sound and Well. Sent on Trial to Prove It.

DON'T WEAR A TRUSS ANY LONGER

From the battle front in Europe comes a letter written by Private John Carter, whose home address is No. 2 Shaw View, Flixton, telling of his complete cure of rupture from wearing the Brooks Appliance.

C. E. Brooks,

April 18th, 1915.

Dear Sir: I received your letter by first post this morning. I beg to thank you for your Appliance, which was instrumental in the way it cured me of my rupture. I have been in Kitchener's army seven months, and I have gone through all the training and I have never felt anything and not had the slightest trouble. remember when I passed the doctor he remarked, "There is nothing wrong with you, young man, you are in the best condition," and he sounded me all over, and I again thank you for the same and I give my consent to use my letter as a testimonial to anyone, as I have been cured. Hoping you and your firm much success. Yours truly,

#### Wouldn't Take \$100 for Appliance

Dear Mr. Brooks,-I am pleased to write you and let you know what your Appliance has done for me. I think I am all right now, as I have not seen the first sign of it since last Fall. I can now run, jump and lift all I like, and I would not take \$100 for it if I could not get another. I do not wear it except when at hard work. ance is just as good as ever. You can use this letter as you like for the benefit of others, Yours sincerely, GEO KENNEDY.

#### REMEMBER

I send my Appliance on trial to prove what I say is true. You are to be the judge. Fill out free coupon below and mail today.

The above is C. E. Brooks, inventor of the Appliance, who cured himself and who is now giving others the benefit of his experience. If ruptured. write him today at Marshall, Michigan.

#### TEN REASONS WHY

It is absolutely the only Appliance of the kind on the market today, and in it are embedied

the principles that inventors have sought after for years. The Appliance for retaining the rupture cannot be thrown out of position.

Being an air cushion of soft rubber it clings closely to the body, yet never blisters or causes

Unlike the ordinary so-called pads, used in other trusses, it is not cumbersome or ungainly.

It is small, soft and pliable, and positively cannot be detected through the clothing. The soft, pliable bands holding the Appliance do not give one the unpleasant sensation of wearing a harness.

There is nothing about it to get foul, and when it becomes soiled it can be washed without injurying it in the least.

All of the majorial of which the Appliances are made is of the very best that money can buy, making it a durable and safe Appliance to wear.
 My reputation for honesty and fair dealing is so thoroughly established by an experience of over thirty years of dealing with the public, and my prices are so reasonable, my terms so fair, that there certainly should be no hesitancy in sending free coupon today.

There are no metal springs in the Appliance to torture one by cutting and bruising the flex?

#### Rupture Thoroughly Healed

Ingersoll, Ont., Feb. 6, 1914. Mr. C. E. Brooks:

Perhaps you will be interested in hearing what your Appliance has done for me. I know without doubt that my rupture has thoroughly healed after a term of sixteen years' suffering. and I attribute my restored and heated condition to the wearing of your Appliance, which held the bowel firmly and painlessly during the healing process. I have not worn it for months—neither do I feel in need of it. Yours truly,

F. C. NOXON.

#### Ruptured 22 Years; Now Cured East Sherbrooke, Que., Jan. 27, 1914.

Mr. C. E. Brooks:

Dear Sir,--I am very glad to hear from you, and happy to be able to tell you that my rupture was cured some time ago, by your Appliance. I now need no truss after twentytwo years of torture.

> Yours truly, G. E. LEMAY.

#### Cured Me Completely

Perth Centre, N.B., April 26, 1914.

Mr. C. E. Brooks: Dear Sir,—I received your letter regarding the Appliance you sent me. It was a complete success, and now I don't know that I ever had a rup-It has cured me completely, and ! thank you very much for it.

Very truly yours,

REV. H. A. SISSON.

And here is a letter from a mother who is thankful because a Brooks Appliance cured her boy so he could go out and serve his country.

2 Orchard Road, Richmond, Surrey. April 11th, 1915.

Mr. C. E. Brooks, Dear Sir:

A line to thank you for what your Appliance has done for my son. After wearing it from December to the following September I can say he is quite cured and is now serving his country in France at his own trade, a shoeing smith. You can make what use you like of these, my

mr. E.H hette

#### Child Cured in Three Months

Brantford, Ont., Feb. 19, 1914. 11 Richardson St.

Mr. C. E. Brooks, Marshall, Mich. Dear Mr. Brooks-Just a line to let you know your Appliance has completely cured our little boy and we are very well pleased with it. We had it on him for about three months, and since he has had it off the rupture has not showed at all. Yours truly, MRS. G. SUDDABY.

FREE INFORMATION COUPON Mr. C. E. BROOKS,

2548C State St., Marshall, Michigan, U.S.A. Please send me by mail, in plain wrapper, your illustrated book and full information about your Appliance for the cure of rupture.

#### Atherton Furlong STRING QUARTET IN VERY FINE PROGRAM follege of Vocal Culture 159 College Street

Last Concert of Season Will Be Musical Feast.

The program of the last concert of the Toronto String Quartet, to be held in the conservatory hall, on Wednesday, March 22, is as follows: Quintet for Strings, Beethoven; Quartet Debussy; Quartet for Strings, Beethoven; Quartet for Strings, Beethove bussy; Quartet for Piano and Strings, Dvorak, Possibly the Beethoven Quintet and Dvorak Quartet may be new to teen years of age, but after a year's Toronto audiences, so a note concerning these may be of interest. Written approximately half-way between the first set of quartets, in which Beethoven is still in his early period, and the second known as the Rassonmoffsky works, in which he "passes beyond the horizon of singer and poet, and touches upon the domain of the seer and pro-phet," the quintet, perhaps, is a greater work than we expect from the early period, and yet a work which is still ssentially lyrical and easy to understand. The Dvorak Quartet, full of freshness and akin somewhat to the piano quintet, which has become popu-lar above all other quintets in the Toronto ensemble players, is a happy example of the Bohemian composer's spontaneity of thought. The quartet will have the assistance of Sydney B. Wright, viola, and Madeline O'Brian Mills at the pianoforte.

### MENDELSSOHN CHOIR HAS ANNUAL MEETING

The annual meeting of the executive of the Toronto Mendelssohn Choir was held on saturday evening last. The treasurer reported that notwithstanding large expenses attendant upon the production of the works presented, including outlays in connection with the engagement of the Russan Symphony Orchestra and the quartet of concert artists who assisted, the cost of music, rehearsal hall rentals, programs for the series, general printing, cierical work advertising, accompanists' work, advertising, accompanists' honorariums, etc., a subbstantial sur-GEORGE C. PHELPS plus resulted from the season's concerts. To the season's expenses must be added the necessarily large outlays in connection with the organization, training and mainte iary chorus of 250 children who assisted in the "Children's Crusade." The concerts yielded a net result of \$2011, which amount the treasurer was directed to divide equally between the lendelssohn Choir of Toronto Red Cross and Patriotic Funds. In addition to this sum, voluntary cash contributions of \$38.75, for the funds For information regarding concerts or embership in chorus, address: Mr. T. A. EED, 119 Markham St., Toronto ..... of the societies named, were received from members of the Children's Auxillary Choir. Special reference was made in the secretary's report to the fine esprit de corps shown by the members of the society during the sea-son just ended, and to the memorable experiences of the society at the concert tendered to our soldiers now training in Toronto, at which T. R. H. the Duke and Duchess of Connaught and Princess Patricia, Sir John and Lady Hendrie, and several members of the Royal Suite were present. Particularly gratifying to members of the society were the enthusiastic comments of H. R. H. the Duke, and other BLACHFORD members of the Royal party, concerning the artistic and patriotic features of this specially arranged concert. The officers for the coming season are as follows: Honorary patrons, H. R. H. The Duke of Connaught and His Honor

FLORA BELL-WATT

The Lieutenant-Governor of Ontario; honorary president, Sir Edmund Walker, C. V. O.; honorary vice-presi-

dents, W. E. Rundle and W. H. Elliott;

resident, G. H. Parkes; vice-presi

dents, Dr. Harold Clarke and R. G. Kirby; secretary, T. A. Reed; trea-

Kirby; secretary, T. A. Keed; treasurer, T. H. Mason; committee, F. R. Beatty, A. L. E. Davies, Dr. T. A. Davies, Robert Gorrie, C. J. Halford, Donald Linden, F. R. Mackelcan, J. Percy Milnes, F. L. Plant, J. R. S. Scott. and W. G. Self (on active service); conductor, Dr. A. S. Vogt.

The young soprano who is to be heard in recital next week.

Frank Converse Smith

AUDE SCRUBY, 'cellist, announces her first recital since coming to Toronto to take place on April 4 at the Canadian Academy of Music. Miss Scruby is well known in London, and the English provinces where she has played with conspicuous success. She has a charming style, and her playing is always vigorous and and her playing is always vigorous and interesting. She will be assisted by Josephine Scruby, soprano, and Eugenie Quehen, pianiste. The program will be made up of the Adagio and Allegro for 'cello and piano, Schumann; Sonata in A major, Boccherini; Concerto in A minor, Saint-Saens; Romance, MacDowell; Serenade, Frank Bridge; Elifentanz, David Popper:

Flora Bell-Watt, pupil of Atherton Furlong, is giving a recital at Foresters' Hall next Wednesday evening, March 22. Miss Bell-Watt is only fifteen years training gives evidence of quite ex-traordinary musical talent. Her voice is wonderfully flexible and rich in tone thruout its entire range. Her numbers include the "Spinning Wheel" scene and the "Jewel Song," from "Faust," in costume, and the "Caro Nome" from

"Rigoletto." On account of the bad storm last
Monday evening not many had the
pleasure of hearing the recital at the
Toronto College of Music by pupils of
Maxion Porter, A.T.C.M. Some of the
publis were unable to be present, but
the names of those who played are as
follows: Aileen Cruttenden. Lolita follows: Aileen Cruttenden, Henry, John Spence, Eva James, Laura James, Elleen Cotton, Frances Jackson, May Eastwood, Allan Cox, Florence Peacock, and Mary Jacobs. Some very pleasing songs were given by Evelyn Hall, a pupil of Dr. Torrington. The

performance thrucut the evening was uniformly good, each pupil showing the result of excellent tuition.

A young artiste who has rapidly come to the front in recent years as one of Toronto's most gifted and popular pianistes is Constance A. D. Martin, a pupil of Frank Welsman. She has lar pianistes is Constance A. D. Martin, a pupil of Frank Welsman. She has already won enviable successes in her playing at Mr. Welsman's recitals, and those who have heard her are looking forward with keen anticipation to her speaks are to be successed in the duet from Dubois' "Seven Last Words," and those who have heard her are looking forward with keen anticipation to her speaks very fatteringly of his voice and style comparing the former with that recital, which is to take place on April 6 in the conservatory hall. Miss Prest, who needs no introduction to Toronto audiences, is to assist her, and besides playing several solo numbers, will join Miss Martin in the Grieg Sonata in G

Mr. Norman Maudesly, a pupil of Mr.

Jas. Quarrington, has been appointed tenor soloist at Carlton Street Methodist Church.

Jan Sickesz, the Dutch planist, and applied to the committee has been organized in London with the object of turthering the propaganda for Russian music in the British Empire and British music in Russia, Among those representing Russia are Cesar Cui, Alexager Character and Character Character and Character and

Jan Sickesz, the Dutch planist, and Luigi von Kunits, the well-known violinist, will give a joint recital in Pittsburg next week, and will play the same program here in Foresters Hall, and March 30 on March 30.

Arthur Blight purposes varying his recital arrangements for this year, and weeks on account of the war are put instead of giving four or nive recitals to shame by the action of the Welsh as usual, will give one large recital in National Eisteddfod committee in decostume. The numbers will be most interesting, ranging from little plantation songs to operatic arias, each pupil appearing in costume suitable to the A similar recital was given selection. A similar recital was given by Mr. Blight's pupils at the Ontario Ladies' College, Whitby, on Thursday evening, March 2, and everyone was both interested and delighted. A oainty French maiden followed an old colored mainmy, a fisherman, a gingerbread man and other humorous character songs being deftly placed among the more serious vocal numbers to add a touch of variety. The date of the Toronto recital will be announced later, and the proceeds will be given to the Red Cross Fund. Marcia Boasi, solo soprano of Simp-

son Avenue Methodist Church, is pre-paring to give a recital shortly, when her program will comprise selections from opera, oratorio and songs,

The Patriotic Concert in aid of Field Hospitals in France, which was given at Foresters' Hall, under the auspices of the Army Medical Auxiliary, was of the Army Medical Auxiliary, was a splendid success. A lengthy program was provided by Toronto's most popular talent, and included Maud Ogilvie Dowsley, pianiste, who played the Liszt Rhapsodie Hongroise, No. 2, with good technic and musical intelligence; Percy Redferne Hollinshead, tenor, sang the well known "Johnston's Aria." from "The Girl of the Golden West," Une Notte de Venizio and "La Forza del Destino." his brother, Harold forza del Destino," his brother, Harold Forza del Destino," his brother, Harold Hollinshead, taking the baritone part, who also sang "I Miei Salute," both being in excellent voice. Lily Crossley, the possessor of a contraito voice of beautiful quality, sang Parson's "Thy Beaming Eyes," Willoughbby's "A Fairy Lullaby," and Luzzi's "Ave Maria." Zusman Caplan, one of our best known violinists, played the Grieg Sonata in C minor, and Tschai-Grieg Sonata in C minor, and Tschai-Grieg Sonata in C minor, and Tschai-kowsky's Melody. Olive Lloyd Casey, the well known soprano, was heard to advantage ir. Une Notte de Venizio and the "Mad Scene" from "Lucia. Aithur E. Semple, flautist, gave Demerseman's solo in F, and also played the obligato for Miss Casey, both being with mellow tone and fine expression. Clarine Spencer gave a patriotic recitation and the Quarrel Scene from "The School of Scandal." Scene from "The School of Scandal."
Miss Dowsley and Roland Johnston played the accompaniments.

There were two hundred and twelve applicants for the post of organist at Rochester Cathedral, England, when the vacancy occurred recently when Rochester Cathedral, England, when the vacancy occurred recently. It is said that the last fifteen organists of this old cathedral have held the post for an average of twenty-two years

An exceptionally interesting musicale was arranged for the Women's Art Galleries on Wednesday, March 15, by Mrs. H. M. Fletcher and Mrs. Hirschfelder. Dr. Harvey Robb opened the program by playing a concert sketch, "On the Highway," by W. O. Forsyth, its performance being characterized by facile technic and finished style, as were also other numbers by Mr. Robb Mrs. Bessie Bonsall Barron's songs were rendered charmingly, her flexible contralto being heard to great advantage in "Chant Hindon," three songs with distinction and charm, "Serenata" with violin obligato by Mrs. Hirschfelder, being especially enjoyable. Mrs. Miriam Fletcher Ellis' songs "Down in the Forest" and every evidence of having been faithful-Bemberg. Mrs. Howard Pirie sang "The Flower Girl," were given with perfect enunciation, the warmth and richness of her voice being heard with Studio at Nordheimer's, 220 Yonge Street and Dr. Robb were the sympathetic expressive playing. A very pleasing

#### **BELGIAN BARITONE** LOUIS GRAVEURE AT MASSEY HALI

Louis Graveure Has Been the Sensation of New York for Two Seasons.

Louis Graveure, the noted Belgian baritone, who will appear at Massey Hall, Thursday, March 23, has the advantage of possessing a rare voice that is rich, powerful and full of depth. His tone has an indescribable charm, and of a quality distinctly unlike other baritone singers of note that have been heard on concert occasions here. He possesses a pleasing personality and musical intelligence of the highest order. Altho the recipient of very flattering press notices from the New York musical critics, Graveure believes in judging his own worth by the attitude of his audience. In an interview with

The Sunday World he said:
"I have no desire to be judged by
my press notices, I want to be judged
by the kind of work I do in Toronto. I want to stand or fall on my merits as I appear here. No matter what I have ever done, no matter what I may hope to do, I ask for no judgment other than the judgment accorded to me, after I

Graveure has the face that one sees in picture, the face of a youthful King David by Rubens, or of a St. John by Van Dyck. He is of medium height and looks as if he had just stepped from a canvas. One rather wonders whether he is not a nobleman in disaccompanists. Mrs. W. D. Gregory was the tea hostess, and Mrs. Frederick Mercer, the president, and many mem-bers were among the listeners. guise, and not so very much disguised either, for there is nobility in his bearing and in his artistic appreciation of the great depths of the more classical

compositions.

It has been said that he electrifies an audience and he certainly seems cap-able of that; but what impresses one most about him is the reserve power that one feels is behind the quiet re-

began and I believe that no matter who is to blame it is better not discuss it.
Belgium has suffered, that is all."
Somehow one felt that this quiet

ed with interest by those who made up the immense audience on the occasion of his first appearance in that city. Belgian felt keenly the bitterness of the suffering, but that he was broad minded enough to recognize that each believes he is fighting a just war. Louis Graveure's forte is recital work and he just came to Toronto from New York, where he has been for some time, having been in this country for about three years. He has the fresh, healthy complexion of the man who lives much Chorus to Contribute Entire Pro-

in the open and wears a mustache and Van Dyck beard. He also wears an eyeglass and appeared yesterday street suit of grayish brown. He has the bluest of blue eyes and looks at once with a most boyish expression Festival centres in England that have cancelled their annual music that is half a question and half an ciding to hold their usual musical tion the unusually fine advantages he tournament this year, tho on a modihas had in the way of education. Mr. fied scale. In this action Lloyd George Graveure has long been a student of the modern French composers, and is one of their chief supporters. He is quoted as saying that "an Eisteddfod is not merely a frolic ; it is a serious is a conscientious student. He has a contribution to the best side of a nation's life. I quite realize that you cannot give the same prizes and you can

the piping times of peace. But the glorious days of the Eisteddfod were feature was the well developed style of each performer. Those taking part were: Eva Smith, Lola Spiegel, Fanny those in which audiences, were com-Witkin, Frances and Queenie Cohen, Jennie Papernick, Doris Moss, Minnie paratively small, and the menu re-stricted and substantial. It would be a good thing if the Eisteddfod led the simple life for a year or two." The British Government, some time ago, and Goldie Sigal, Rosa Ellis, Sarah Kolick, Rosie Shulman, Maurice and Eisie the conductorship of Barnaby Nelson, Weinstein, Ethel and Lily Hoffman, and they expect to raise a substantial Virginia Windt, Lily Goodman, Lillian made a sweeping elimination of its annual grants to the Royal Academy, the Royal College of Music and the Royal Anderson, Fanny Ziff, Becky Cohen and rish Academy of Music, but finally yielded, in deference to strong protests, in case of the Irish Academy in Dub-Fred Pollett.

Music lovers and vocal students especially will be glad to hear that the second of the illustrated song recitals of the eminent vocal teacher, Maestro Carboni, of the Hambourg Conserva-tory, will take place on Safurday, March 25, at the Foresters' Hall. The program will include solos, ensemb and sacred excerpts of Italian, French and English composers.

Otto James announces a piano redital at the Toronto Conservatory of Music, Saturday evening, April 1. W. Robinson Edwards, pupil of R

Gourlay McKenzie, has been appointed soloist of Westminster Presbyterian

Admirers of refined and finished musicianship will be delighed to learn of the combined recital to be given by Mme. Leonoro James-Kennedy, so-and Mme. Valberg, Zollnerpiano master, wishes to announce that he is prepared to accept an especially prano, and Mme. Valberg, Zollner-Kinghorn, pianiste, in Foresters' Hall, College street, on Saturday evening, March 25, when they will have the optalented boy of about thirteen or four-teen years of age. This privilege will be under the name of the "Mark Hambourg Scholarship," and will consist of three years' of free tuition from Professor Hambourg himself. Only portunity of hearing a program of exceptionally fine character. The Hambourg Conservatory has arranged to give a concert on March those who have had some training and

knowledge of the piano should apply. This scholarship is founded for the 30, in aid of the Free Consumption purpose of encouraging the develop-Hospital, at the Howard Park Methodist Church. A brilliant program, which is sure to attract a large attend-Friends of Kenneth Angus, pupil of ance, is now ready. The concert is un-der the patronage of Sir John and David Ross, will be pleased to know that it has been announced in The New Lady Hendrie and the mayor of To-York Telegraph that he has been; enronto.

A recital is announced by Olive and Marjorie Brush for Wednesday, March 29, at the conservatory music hall. Angus every success and while doing so we do not overlook his vocal teacher, who not only teaches but produces Miss Brush has studied with Viggo since his coming to Canada, while Marjorie Brush has received her what is recognized as "operatic voice entire training from Dr. Edward production" and stands himself as an Broome. The proceeds of the recital will be given to the Women's Auxiliary of the 97th American Legion. The interest being shown in the coming recital of Mona Bates on the even-ing of March 23 speaks well for the

## A Strange Romance of Adventure

BY ALBERT PAYSON TERHUNE Author of "The Fighter," "Caleb Conover," "Syria From the Saddle," Etc. Novelized from the Pathe Photoplay of the Same Name by (Copyright, 1915, by Albert Payson Terhune.)

"Circle Jim" Borden, named from a red birthmark on his hand, has served his third prison term. One in each Borden generation, always a criminal, has borne the Red Circle mark. Jim and his son, Ted. are the only known living of the Bordens. Max Lamar, a detective, is detailed to keep an eye on Jim. June Travis and her mother meet Jim as he is released. Jim and Ted are killed. Next day Lamar sees the Red Circle on a woman's hand outside a curtained automobile. June, marked with the Red Circle, robs Grant, a loan shark. Mary, June's nurse, discovers her theft, and tells her she is "Circle Jim's" daughter, tho Mrs. Travis does not know. Mary tricks Lamar. Lamar wisits "Smiling Sam," Jim's old crime partner. Sent to Surfton by Smiling Sam, Alma La Salle robs the guests at a ball. Mary points her out to Lamar, who follows her back to town, captures her with the jewels, and goes after Smiling Sam. On the edge of a cliff pursuer and pursued engage in deadly combat. Gordon, a fugitive, rescues Lamar, and June in turn saves Gordon from arrest. Smiling Sam sees the Red Circle on June's hand, tells her he knows her secret, and follows her to the city.

11th Instalment.

In Lamar's office Gordon stood with his back to the locked door; white-faced gasping. For the moment at least he was safe—and "Now," cried June under her

Gordon shook his head.
"I can't," he said. "I'm more grateful to you than I can ever make you know—you've saved my life; or rather, my liberty, that counts for more, but—honestly. I mustn't tell

more; but—honestly, I mustn't tell you why they're after me—not now. "But why not?" interrupted June.
"Every minute is precious. Mr.
Lamar is my friend—he calls me his 'first assistant.' I'm anxious to help you—I can help you—if you'll tell me everything; but how can I be of use at all when you keep me in the dark

like this?" Her earnest eyes were full of pleading and reluctantly Gordon found himself weakening.

"You're a brick," he said, "to be interested in me at all and I'm terribly grateful—"

Then do as I say-begin at the beginning to tell me."
"How do we know but that someone is in that next room? Do you know where the other door leads

"Wait a minute," said June quick-ly, "I'll look in the outer office, Mr. Lamar's confidential clerk may be there. Don't move till I come back." her way to the door June hurriedly laid her gloves and wrist bag on Lamar's desk, half-subcon-sciously noting at the same time a handcuffs that lay there. With a little shudder she passed them by, and slowly opening the cfdoor peered cautiously out.

Gage, the confidential clerk, busily writing and serenely unconscious that anyone was looking at him. June oftly closed and locked the door. Gorden gave a nervous glance ound, then began:
"The whole thing in a nutshell is

The Farwell Corporation retained that they might 'legally' defraud their employes of co-operative When I found what they were up

to I rebelled and tried to expose the crooked deal—so, of course, they've had it in for me ever since. ere was only one thing to do-

tell the workers about it-the who had expected to be profitsharers and were dupes instead. So got a crowd of them in the courtard one day and told them the whole Some of 'em believed me, most of

them didn't-or at least were doubtful. In the middle of it the watchman and a patrolman or two came to what it was all about, broke up the crowd with night sticks and pushed me off, threatening me with artest for 'starting a riot.' You see I was helpless. The corporation blocked me," muttered Gordon, bitterly.
"Then, not content with that, they ruined me financially.

"One day I was in my office when

"His Old Cunning, Sneaking Face Grinning at Me."

the receiver, get my hat and hurry the receiver, get my hat and hurry over to his office. There he was, the tle way up the street. Or, no, the park grinning hypocrite, greeting me as if I were a long lost friend. He waved me to a chair, and then took out a paper and placed it airily on a desk leaf, footsteps behind them, and so, had no back to rejoin Farwell, and the time to the sound of the soun per and placed it airly on a desk lear, and told me to read it. All the time he kept one hand on the thing, but I, like a fool, thought nothing of that—I was idiot enough to believe he was act—

The arrely on a desk lear, idea of June's approach until she came abreast of them as they reached the entrance door of Farwell's office building, gripped him by the arm and half-dragged him to the table of the inner

"This is what the hound told me read," went on Gordon: 'The Farwell corporation, thru its attorney, Charles Gordon, hereby rescinds its recent action of withholding co-operative pro-

"There was a blank space left for me to sign, and, like a dub, I signed it. Farwell picked it up and looked at it. Then the smiling mask dropped from his face. It grew all hard and cold.

"For a minute I didn't understand the change. Then I saw the trick. Farwell had two pieces of paper, cleverly fastened, one above the other, just leaving room at the foot of the under one for my signature. While I thought I was signing the upper one, it was really the lower paper I was pinning my name to-irrevocably!

Farwell crumpled the upper paperthe one I had thought I was signingput it in his ash tray; and set fire to it He held the other paper out for me to read and at the same time he demanded that I produce the 'securities entrusted to me!' This is what I had

signed my name to:
"'July 1. Received from the Farwe corporation this date, \$75,000 of said corporation's bonds, to be held in trust by the undersigned until called for by the said corporation. Signed Charles Gordon. Witnessed by Silas Farwell "For a minute I was too dazed to do anything. But Farwell wasn't. He rang his bell, and in came a plainclothes man and a policeman. "Farwell promptly ordered them to

arrest me, on an charge."
"I think I went mad. I snatched at the paper, but I couldn't get it for Farwell jammed it into the inside pocket of his coat. I grabbed him. I was bound I would get the paper or choke him. We had it hot and heavy for a few minutes. But of course I

hadn't a show—three against one—l was a rat in a trap, nothing more." "The miserable sneak!" said June. "I was facing a charge of embez-zlement thru that double-paper trick of Farwell's, and I knew it. But the police were decent enough to let me go to my office for a moment. Luckily they hadn't handcuffed me. I went to my desk, and the men stayed, at the back of the room.

"While I was fussing about my desk I hit upon an idea. With one eye on the men, I slowly unscrewed the incandescent globe from my desk lamp, and tossed it against the rear walltheir backs were toward it. It smashed, of course, and at the smash they both turned to see what caused the noise. In that instant I leaped stuck those in her dress also, and out of the open window, jammed it started back to her place. shut, and ran up the fire escape to the

"Great!" applauded June, her right

"In a second the men were after me, tho, firing their guns as they came.
"I cut across the roofs until I found an open scuttle door. I ran inside and closed it. From that on it was an easy matter to cover my tracks; until at last I got away clean and found a hiding place in the shack at Surfton. June said nothing, but her eyes, were uminous and thoughtful. Her fingers were toying with the pair of handcuffs on the desk, and suddenly she picked them up and looked at them. Then, as her gaze took in her own hand, her face was suffused with a rush of color. There was the dreaded Red Circle, burning all too clearly

At that moment someone turned the nandle of the door leading to the outer office.

against the white flesh.

At the sound Gordon raised his head and met the frightened look in June's

"I'm going to give myself up, any. way," he said indifferently.
"No! NO!" whispered June vehemently. "You mustn't give your up now! I'm going to help you!" "You mustn't give yourself Then the knock came a second time, followed by a little pause, and after that the sound of retreating footsteps. June moved quickly to the hall door and Gordon followed. June opened

-then suddenly drew back, shutting and locking the door. "It's Gage!" she whispered breath-lessly. "And he's making for this

the door and looked out into the hall

Before the words were fairly out of her mouth, the hall door was tried. A moment later there was a crash of splintered glass and Gage peered into the office thru the jagged opening his determined elbow had made. He saw no one, however, for the very good reason that June and Gordon were flattening themselves against the wall on the side nearest the door.

Gage then decided to reach thru the opening and unlock the door from the June, catching a glimpse of his entering arm, slipped quickly to the desk and picked up the handcuffs, then tiptoed hurriedly to the door as Gage's hand groped for the key. An instant nore and she had deftly snapped one of the handcuffs around Gage's wrist and with trembling fingers snapped

the other on the door knob.

June caught her wrist bag and gloves from the desk and, signaling to Gordon to follow her, unlocked the outer office, door and slipped into the cor-

As they hurried on-with Gordon a off in the rear-June nervously thrust her right hand into his glove; she didn't intend to have Gordon or anyone else see that throbbing Red Circle. Outside the office building June halt-ed and looked up and down the street in search of a taxicab. Presently one appeared and she held up her hand to clop it. As it drew alongside the curb she and Gordon got in and drove

"All right, so far." said June. "Now for our next move." "Look!" exclaimed Gordon, clutchits Red Circle. "Look! There's Farwell! Farwell, just ahead of us! Good

Lord! He's with Lamar!" "Don't worry," whispered June, returning the pressure of his hand reas- to you!" Farwell rang me up. 'I want to see you at once,' he said 'We are wrong couldn't have happened better! I'll get Lamar, 'Oh the said to see you at once,' he said 'We are wrong couldn't have happened better! I'll get Lamar, 'Oh the said to see you at once,' he said 'We are wrong couldn't have happened better! I'll get Lamar, 'Oh the said to see you at once,' he said 'We are wrong couldn't have happened better! I'll get Lamar, 'Oh the said to see you at once,' he said 'We are wrong couldn't have happened better! I'll get Lamar, 'Oh the said to see you at once,' he said 'We are wrong couldn't have happened better! I'll get Lamar, 'Chen the said to see you at once,' he said 'We are wrong couldn't have happened better! I'll get Lamar, 'Chen the said to see you at once,' he said 'We are wrong couldn't have happened better! I'll get Lamar, 'Chen the said to see you at once,' he said 'We are wrong couldn't have happened better! I'll get Lamar, 'Chen the said to see you at once,' he said 'We are wrong couldn't have happened better! I'll get Lamar, 'Chen the said to see you at once,' he said 'We are wrong couldn't have happened better! I'll get Lamar, 'Chen the said to see you at once,' he said 'We are wrong couldn't have happened better! I'll get lamar have happened better! I'll get lamar happened better the said to see you at once,' he said to see you at once, 'Chen the said to see you at once,' he said to see you at once, 'Chen the said "It didn't take me long to hang up out and join them, and I want you to htem both now! I'm going to jump

> is better. mar, who shook hands cagerly, his office.

face radiant. Then he turned to Farwell and introduced him to June.
"How do you do, Mr. Farwell?" said June, in her most innocent manner. "I wish you'd come in with us, Miss. Travis," Lamar said. "Farwell is going to show me the Gordon papers—I

Lamar turned to June. here for a few minutes?" he asked, offering a chair. "Farwell and I will go over the preliminaries ourselves, in the inner office-we won't bore you

with unnecessary details."

June was alone, save for a very young secretary who was seated at a desk stamping letters.
"If only that miserable secretary would go away!" she thought.

Presently he did that very thing.

June jumped up at once. Getting a chair from the corner of the room, she carried it to the door, jumped lightly chair from the door, jumped lightly up and applied a pair of very pretty but curious eyes to the transam.

Lamar and Farwell were seated at a who handcuffed him to the door; where he might still have been if two where he might still have been if two looks from other offices, hearing his securities receipt from the others and was just in the act of handing it to

"There's the receipt," June heard him say. "It means prison if we can capture him." Lamar let the paper drop to the table before him. He hated the busi-

ness in hand.
June, who loved him, read all this in his face. she said to herself. be done. Jumping lightly down, she landed on the floor on the tips of her toes and slipped out into the hallway.

With a quick look up and down, she tossed her wrist bag into the farthest corner on the hall floor. Then she hurried back to the anteroom, tore her hat off and pulled her hair away. Next she overturned two chairs, one after the other with a bang, and staggered wildly into the private office, gasping: "Mr. Lamar! Mr. Lamar! Quick!" "What is it?" cried Lamar and Far-

well in chorus, jumping up and running toward her. "A man came in," panted June. "He snatched my handbag—threw me off: He's gone!"

Farwell was already in full pursui of the imaginary thief, and at June's instance Lamar promptly joined him. This was just what June was waiting for. She ran to the paper-strewn desk, seized the coveted receipt, gave it a quick, keen glance, and hid it in Then her eyes on the door, she hur-

ried to the safe. Its door was open, as Farwell had left it, when he took out the Gordon papers to show to La-mar. With trembling fingers sho snatched up a bundle of bank notes, Then she was scourged on by

"The Gordon receipt's gone!" he

At the same moment Lamar saw the white circle—it startled him most unpleasantly. Then pushed him toward the safe. Then Farwell ng to show me the Gordon papers—I want your advice."

As they entered the office anteroom camer turned to June he pulled the printed circle off the "Can you make yourself comfortable safe knob and thrust it into Lamar's

What Lamar read was this:

"The money will be put to a good use by the Circle Lady."

He was speechless and could only stare, wide-eyed, at the paper. Speaking dazedly to himself, rather than to Farwell:

"Suspicion points to Miss Travis-but that's impossible! Impossible!" He sat down and pulled the telephone toward him. He gave the number of his own office.

clerks from other offices, hearing his cries for help, had not come running

"Wait a minute," called Lamar over his end of the wire. "Could you see who it was that snapped the cuffs on

"No," yelled Gage. "I couldn't see thing except a woman's hand—with Red Circle on the back of it." Lamar turned white. Then he asked

"Any other clue?"

Gage's voice came hesitatingly over "Well," he mumbled, "Miss Travis called. I showed her into your office to wait—and then she disappeared." Lamar slowly hung up the receiver. Just as slowly he got up. He stood thinking a moment, then turned to Farwell and said, curtly: "Keep this absolutely quiet until investigate. I'll do all I can-good

Meanwhile, June, oblivious to all the trouble she had caused, made her way to the park, the coveted receipt and the banknotes hugged tight to her Gordon was still there, tho the

chauffeur had wandered onto the grass somewhere. As she neared the cab, Gordon

eaned out eagerly.

"What luck?" he said uneasily.

"If I looked as happy as I feel, you wouldn't have to ask," smiled fune, holding out the receipt. "Hooray!" cried Gordon, opening the paper and reading it. Then he looked at June and tears came into his eyes.

"You are a wonder," he said in a low voice. "I can never repay you you marvelous girl! How did you ever get the paper? The bappy light died out of June's

"We Had It Hot and Heavy for a Few Minutes."

another mad impulse. Going to the table she picked up a couple of sheets of plain letter paper, folded them toof plain letter paper, folded them together and tore them into rude circles. Her eyes gleamed oddly as she picked up a pen and, sitting down, began to cept this little roll of money—it may print something on one of the circles.

Looking over her shoulder at every other letter, she finished her printing. Then she put the plain white circle on the dark blotting pad, got up, ran to the safe and hung the printed circle on the knob. With a sigh of satisfaction, she went back to the antercom and collapsed into a chair, resuming. her air of fright and exhaustion. During their wild-goose chase Lamar d Farwell met the returning secre-

ary and they all came down the hall gether, talking excitedly. While they were talking, Lamar, true his trade, was looking; so it was he sho found June's bag in the dark cor-

"Here's the bag, anyhow!" he ex-"The man must have dropped it when he ran! See what Santa Claus brought for a good little girl!" he called ng June's hand, unconsciously pressing to June, waving the bag before her as he entered the office.
"Oh thank you, Mr. Lamar! I knew

> could: I'm a million times grateful "Let me go home with you," pleaded "Oh, no, really—I'll be perfectly all right myself," answered June, "Anyway, I shall insist on taking

you would find it for me if any mortal

ou down to the door," " said June, reluctantly, good looking tenderly after "All right.

"Don't ask me how I got it," she murmured. "The only thanks I wish come in handy." As she spoke she opened her wrist bag, and handed him some bank notes—not those she had taken from the safe. "I can't take this," stammered Gor-

"You have done too much for me already!" "You can, and you must," answered

June firmly, "You don't know how much you may need it, nor how soon." "Since you insist, We'll call it a loan," said Gordon, reluctantly pocketing the money-"and thank you s million times. With a hurried handshake and good-

by June disappeared, Gordon looked about for his driver, who presently slouched into view, half asleep. Evidently he had found the grass very soothing and comfortable to his rheumatic old bones. "Time to drive on, my son," said

"All right, boss," yawned the driver. "Jes' soon's I crank 'er up."
Then he ambled around to the front of the cab and began to turn crank. As the engine started to buzz hopefully, Gordon, still nervous and on the lookout, saw and recognized a plainclothes detective, who was running toward the cab.

It took Gordon barely a second to leap to the steering wheel, knock the sleepy driver to one side and send the car forward. The plainciothes man was just foo quick for him, however, and managed

to leap onto the running board as the machine moved off. Gordon put the car at fullspeed, and thanked his stars that he was ambidexterous. Steering a bit wildly with his left hand, he suddenly leaned

out on the other side and struck the comfortable. I was so 'fraid he'd ror written in every scrambling policeman fiercely in the start a rumpus.' stomach. The officer doubled up, but "What about held on like a mountain goat. It was a more or less even fight, as

There was no chance for science; none for a clean, effective blow. The fighters beat at each other in futile,

Deftly Snapped on the Handcuffs.

The cab swirled and cavorted: but there were no park policemen to be seen, and the plainclothes man could not take time to draw out his whistle. But he did get out his revolver, oresently, and was about to level it at his quarry, when Gordon feinted and drove his clenched fist into his foe's throat just below the point of It was the first good blow of the

whole scrimmage. And it did its work.
The detective reeled backward, trod road, where he landed on his head and one shoulder.

There Gordon left him, with never

a look back. His whole thought was centred upon getting far enough away so that he might safely leave the cab without fear of being tracked Finally, nearing a park entrance, he slowed to a normal pace, and then stopped. No one seemed to notice

ing the park, made for the downtown district. He still had his hard-won "receipt," and he felt that as long as it was in existence, even the it was in his own possession, his liberty was more or

Just then he passed by a vacant lor, and he saw what he needed most a bonfire! Tearing the receipt into tiny pieces, ne threw them on the fire and watch-

ed them burn until every scrap had vanished into unrecognizable ashes. Then he gave a long sigh of relief squared his shoulders to the world and continued on his way. Is it strange that his thoughts

should turn to June, the girl who had done so much for him? He would have been less jubilant if he could have guessed the new complications in which she was just then entangled.

After leaving Gordon in the park,
June had gone straight home and upstairs to her boudoir. There were
still signs of the hurried return to town—an empty trunk, and some articles of clothing lying around; and she wondered idly what Mary had been about, not to put the room in bet-

ter shape,
June never liked a messy room, so
she went right on into her "den," be
fore taking off her hat,
"What awful man?" June's face went white. "You can't mean..."

"Yes," went on Mary huskily, "it's him! That 'Smiling Sam' Eagan we thought we was rid of for good'n' all!"

"Not here?" panted June in stark terror.

terror.
"He's right here in this house—we brought him with us! He made Yama put him into the big wardrobe trunk and when I started to unpack it, there he was, with his old cunning sneaking face grinning at me as sassy as

"What about mother," queried June

- THE RED CIRCLE

"Mrs. Travis don't known a thing, each man had but one arm free, and neither could use his legs to any advantage.

It was a more or less even light, as each man had but one arm free, and as yet. But it's only a question of time, unless we can get him away from here right off. He isn't dispersion of the service form here right off. posed to make things any easier us than he can help, either. I heard trouble."
a big noise up there just now. I guess he stumbled over something. bade the nurse. "and tell me all about Then I heard him moan-or, maybe,

"There! Hear that?" cried June and Mary simultaneously. Then they clung to each other, expecting, they knew not what.

With a sigh of relief, and a smile, with a sign of reflect, and a sinite, she took the package of bank notes out of her dress. A dreamy look—a very sweet look—came into her eyes as she thought how much good that money was going to do. In her mind when ne reached the house he someway a vivid nicture of the hard work. was a vivid picture of the hard-work- how found that he loved her too much ing men in Farwell's foundry, whose to put her to the test. "co-operative profits" had been taken "Oh, it can't be—it

End of 11th Instalment

#### TRAMPS OF OLD ENGLAND ARE ADVENTUROUS CHAPS

Many of Them Are Already Fighting the Battles of the Empire, Where the Shells Are Falling Thickest.

Now I come to think of it. Snowey day in January, I asked him if he had has not been seen in the countryside of late, and I have hardly seen for a whole year a single tramp of recruiting age pass my way who looked physically fit. Most tramps are possessed was no exception to the rule. Tho he did not own a foot of land, yet Fing-land—the England of green lanes dappled with primroses, and pheasant-baunted woods—was to him home and country; for did he not know them

more intimately than many a landed proprietor?

absence, on to his job? sobered alventurer turned up to resume his hedge-trimming, but, meeting him on the road some time after"There's Bill," he said with difference in the sound him on the road some time afterwards, I asked him if he still wished It don't do to have your name in the to measure me for a new suit of papers" (and he looked at me with wards, I asked him if he still wished to measure me for a new suit of papers" (and he looked at me with clothes. He expressed his sorrow for his language, which surprised me, for when Snowey, under the influence of drink, knocked down a man in the hayfield, and I advised him to apolotics had I advised him to apolotics had I advised him to apolotics. Look 'ere, Bill,' says I, Till hayfield, and I advised him to apolotics had a salar agin you any day' He set gise, he said that he had "never one, and I set one, and I'd a rabbit a apologised to no one" in his life. mine a couple of hours afore he ad a Uttering an untruth—for which Hea-flick in hisn."

they were in the wrong!
"Well, I ain't a-goin' to— Strewth!"
affirmed this owner of a brawny fist.
That was the summer when he turned up with his red pocket-hand of them." Possibly his sympathies kerchief with white spots, greeting were due to his predatory instincts, me with the statement that he was "Sufficient unto the day is the evil

nad refreshed himself with "arr-a pint' in the village."

"No, Snowey," I said, "Uncle John is building the rick."

"Uncle John be—— I tells you I'm a-goin' to build it same as I done afore."

"You're too late, Snowey; you can't,"

"You're too late, Snowey; you can't,"

"Tersword chartles."

"You're too late, Snowey; you can't,"

"You're too late, Snowey; you can't,"

"Tersword chartles."

"You're too late, Snowey; you can't,"

Wait till I've 'ad 'arf a pinti"

Like a boat in a choppy sea he crossed the hayfield en route for the village. At midday he returned to my field-gate, only to fall ingloriously behind the hedge to sleep the sleep of the unsteady for the rest of the day.

But I liked Snowey, in spite of his intemperance. Tho only a tramp, when sober he stood up for the dignity of labor. Upon the first occasion that he presented himself to me for work, to my astonishment, instead of the usual "I leave it to you, sir," coupled usual "I leave it to you, sir," coupled with a request for leave to doss in the

been to buy a license for his dog.
"I'm a-gwine to wait until I knows as she can 'arn her own livin'," answered in a confidential tone. Evidently she did 'arn her own livin', for Rosic became his faithful lurcher, a pal, he told me, he could always depend upon, for whenever Snowey took up "fresh lodgings for the night" (which meant sleeping on the roadside thru sheer inability to walk any further). "Rosie would so no copper ever touched him."

In a weak moment I had give "Snowey" (his hair, by the way, you will imagine was very fair) was of the fighting order. Of this I can give you proof; for did he not boast he would "take my measurement" one day, when, losing patience over his drinking habits, I put somebody else, in his present to his ich? his modesty broke down. It happened

over a snaring compe "he's got his name put in them papers.

ven forgive me—I told him that gentlemen always apologised when they were in the wrong!

"Well, I ain't a-goin' to— Strewth!"

The most amazing thing about Snowey was his political outlook. The as I have said, he did not own a foot of land and was an incorrigible poachor, in all political crises, he abetted the backwoodsman, possibly he felt "one me with the statement that he was "Sufficient unto the day is the evil going to build my hayrick—after he thereof" was, I think, Snowey's favorhad refreshed himself with ""arf-a ite, tho unspoken text. When, for in-

I answered, shortly.

"Carn't I? I know you—you, you put me into them blinking papers.

Wait till I've 'ad 'arf a pint!"

Well, perhaps Snowey is now doing the national debt. I says it ain't.
Bill says it 'as. Now, 'as it? That's

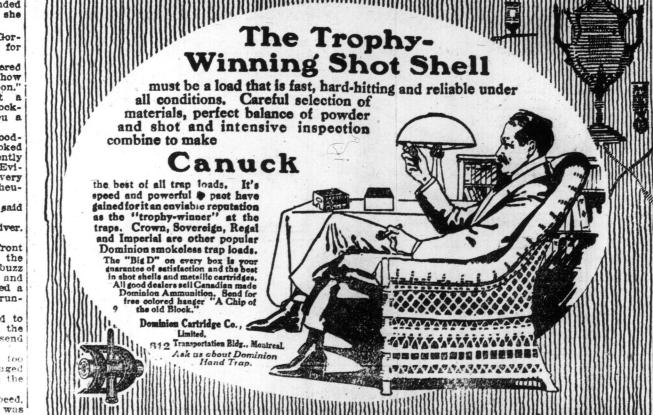

TO KEEP CHEESE FROM DRYING.

"Good heavens:" cried June, at her wits' end. "Will trouble never end? Where is he now?"

"Up in the attic," said Mary. "And I've had to feed him and make him

would continue to pass around the room until that poor woman was relieved from the possibility of want, until the head of the house had served his time. Do you mean to say that man, on coming out after doing six months would not have a different opinion of the police? Instead of thinking like Ishmael, that his hand was against every man, and every man's hand against him, he would know that beneath the uniform of most policement there is a heart that most policemen there is a heart that most policemen there is a heart that can beat in sympathy, and in his face an eyo that can, and many time does, shed a tear when he sees the wretchedness brought about by sin. Sometimes he stands with head bowed watching the final act in the great tragedy, 'Where the Wages of Sin is Death.'

and just then a covered wagon went by with "Police" painted in large letters upon it. Seated in the wagon was an officer that looked to me like a non-commissioned officer, who put his head out and waved his hand to my friend. I noticed that on his sleeved were three stripes. I thought he must be the sergeant-major, so I asked my friend to enlighten me.

"Faith, and he's no officer at all," was the response, "tho if there is a man on the force that should be, he's man on the force that should be, he's handcuffs to get a bit of silver to help a poor woman, or maybe a nickle to a poor woman, or maybe a nickle to pay a poor drunk's car fare home, instead of giving him a cheaper ride to the station in the wagon that has just gone by just gone by.

"But the one who has just passe in the wagon with the good conduct stripes—badges they are called—that have taken twenty years of irreproachable conduct to collect. Well, I'd rather retire with his record than wear black buttons that are given to some men after a very short service. It's a mystery how some get them. Perhaps it's the way they smile in their sleep, "I remember the case of a constable who was on a beat up in the north end, on Bathurst street, above Bloor.

the sergeant.
"The policeman acknowledged that it was not, but explained that he had been in and warned a poor sick woman, who was alone in the house.

"'Was she sick or just putting one over on you?' demanded the officer.

"The policeman replied that she said

#### BY A. MARIPOSA MANN. When I walked away from my policeman friend after he had told me of the member of the would be the first to pick up the helmet and put in his bit. The helmet would continue to pass around the would continue to pass around the room until that poor woman was rehe summoned, and the man on the lieat answered: 'All right sir.' Then they went over the rest of the beat and found it clean. They came back to the starting point and found the poor old woman trying to remove the snow with a small fire shovel. Instead of

with a small fire shovel. Instead of reprimanding her for not having the snow off the walk, the sergeant said: 'For God's sake missus! Go in the house, the sidewalk is clean enough.'

"Oh, that all officers, and even the magistrate could see things the same as the man on the beat sees them' Then there would be fewer summons-

"Another time the same man was doing duty on the corner of King and Dufferin' streets. at Exhibition time, when a young girl came to him and wanted to know the cheapest way to Buffalo. She had answered an ad in the papers, and came to line a theatre company, but was let out after a few rehearsals. He gave her all the information he could, but just then the sergeant came along with another sergeant came along with another man whom he 'eft on the corner, an i sent this policeman down to the Ex-hibition gate. When the men came in hibition gate. When the men came in at four a.m., the sergeant was making fun of the two policemen for having the same girl. Iwo nights afterwards. P. C. W., who has since passed away, came up to me and said: 'You know the other morning what the sergeant was making fun of us for?' I told him I had an idea. Then he told me what the girl had told him, and being a married man he had sent her home to his wife wid a note. When he went a married man he had sent her home to his wife wid a note. When he went home he and his wife, not only accompanied the girl to the boat in the norning, but paid her fare to Buffalo. Two weeks after he showed me a letter from the girl returning the

"The young fellow then introduced the speaker of the evening, who turned out to be the man ye just saw pass wid the stripes on. He explained that a few years ago he was known as one of the "gang," but he met this big policeman, who seemed so friendly that they got talking about everything, from sport to drinking, and from from sport to drinking, and from drinking to prohibition, and from prodrinking to prohibition, and Iron prohibition to salvation. 'While I didn't tell him then,' said the young man, I made up my mind to accept his Savior as mine. While the young man was telling his story I could see a tear about to fall. Then I thought of the story told me often when a boy by my mother's knee, in dear owld Waterford, mother's knee, in dear owld Waterford, there was more joy in heaven the scape, one of a dozen during the past the sea.

"Ye'd better be moving me bhoy, he jorularly remarked. "Come around tomorrow, and I'll tell ye a story that WITHIN forty-eight hours will dawn the zodiacal new year of most stupendous twelve most stupendous twelve the transfer of the will make ye laugh."

GERMANY'S BIG GUNS NOT SOURCE OF FEAR

Members of Crews of British Cannot Enlist As Combatants Watchdogs are Enjoying

Rigsby, Naval Engineer, Seriously, Selected for Observation Trip to Flanders Front.

IFE in Great Britain's grand fleet is now full of adventure. No fear of monster 17-inch on German warships is entertained by the officers and men of the

British navy. "Ted" Rigsby, a graduate of the Toronto School of Practical Science, now a naval engineer on H. M. S. Inconstant, has had a coveted honor conferred on him by the commander of his ship. In a letter to his father, Rev.

W. Rigsby, he says: "I have been selected from the ship to go to the front in Flanders on a few days' visit, to bring back with me the impressions I receive of defending the

empire on land. "To say I was keenly delighted is putting it very mildly. I am sure it is an opportunity of a lifetime and and omething I shall never forget. "You can well imagine my surprise or being picked to go. A kid with a

new red wagon isn't in it at all with me tonight.

"The routine as I have heard it is this: We go to the Union Jack Club in London and shift to khaki and take the night boat at Folkstone for Calais. in the morning we are taken to the base, somewhere in Flanders, and in due course of time, into the trenches

tor several days. "Some croakers say they are going o spring 17-inch guns on us some day before long, but if the Germans have

then. They are not asleep.

"There's plenty of fun on the high seas nowadays if you are inclined to

story told me often when the story told me of the story the weather side changes and a quick shift is necessary. We have lost two men this way so far."

### ORDINATION PLEDGES BROKEN BY FIGHTING

According to the Vows They Make.

TORONTONIAN HONORED MADE VIGOROUS PROTEST

Opposed Methodist A Ministers Taking Up Rifle of War.

S IT right for ministers to go to the firing line?" Ministers cannot enlist as com

batants without violating their ordination pledges, according to a leading To-ronto Methodist preacher, Rev. W. W. Sparling, who has made a vigorous protest against Methodist preachers shouldering the rifle. His protest has been given a semi-official by a general conference officer of the denomination. Rev. Mr. Sparling says in his protest to the Methodist Army and Navy Board:

"These are not times for carping criticism or fault-finding when thousands of homes are bathed in sorrow by the ravages of this awful war, and when every one who loves his king and country ought to be moved with a burning desire to do his bit. However, the proposal from some quarters to form a battalion of ministers only, together with the fact that many have joined the colors, raises the question, "Is it right for ministers to go to the firing line?" Not that ministers are better than other men or have a special dispensation to exempt them when sacifice is called for. No, every man is akin to every man in times like these. "And yet there is a difference. The

minister has a special call to a special work, and there is no call on earth so sacred and important.
"At his ordination a minister positively declares that he is called to preach the gospel.

"Enlisting as a chaplain is vitally different from that of a regular solthem they must also have ships that dier. In my opinion he is quite with-can stand the recoil, and mount them. Granted they have both, how about to minister to the spiritual needs of the men in the trenches. There is no greater sphere for doing good.

"Surely there can men be found en-ough to respond to the call without robbing the churches of their pastors, or weakening the moral forces so much needed at this particular time." The reply made to Rev. Mr. Sparling expressing the need of the Methodist

tion, what man dare say it is not good enough for him? While we do not believe that any special effort should be Six Hundred Cone nade to secure the enlistment of minsters, yet we are convinced that those been made of the idea that the minister is a man apart. Emphasis on that idea has tended to make walks will add to the corps that people look up to." idea has tended to make molly coddles. The minister is first of all a man, and the obligation to bear a man's part is

by an enterprising German and men on him just as it is on any other."

dressed as army officers. They had a motor and were traced, thanks to a students for the ministry is, how Enlisting of Methodist ministers and students for the ministry is, however, condemned by the army board, unless approved by the presiding officer of In Great Britain the Anglican bishops

have forbidden their clergy to join the fighting forces, except as stretcherbearers. The compulsory service act has cut off the supply of students in theology at the church colleges in England, Scotland and Wales, except for the medically unfit. This threatens a pronounced shortage of ministers in the near future. The call for chaplains for Kitchener's new big army, and the forces already at the front, has made a substantial demand on the active

clergy of Britain. TO MAKE HIM HAPPY.

Old Peterby is rich and stingy. In the event of his death his nephew is to inherit his property. A friend of the inherit his property. A friend of the family said to the old gentleman: hear your nephew is going to marry. on that occasion you ought to do something to make him happy." "I will," said Mr. Peterby, "I'll pretend that I am dangerously ill."

#### SIX HUNDRED DRAGOONS ALREADY AT THE FRONT

In the Meantime, Quartermaster Sergt. James Donovan Is Busy Training Another Two Hundred Fine Specimens of Humanity for Overseas Service.

BY WALTER G. FESSEY.

special course of physical culture as membered that the quartermaster-ser-strenuous as that of the new recruits geant had held a boxing championship strenuous as that of the new recruits in the ranks. Fortunately they have a coach of unsurpassed experience and tor for two months at the White House ability in Quartermaster-Sergt. James

Sixty men of the Royal Canadian Dragoons were receiving physical in- heimer's Canadian Dragoons are given struction when the writer was at Stan- hints on how to live for at least 50 ley Barracks the other afternoon. In years after the war by their physical shirtsleeves and slippers the Dragoons were lined up two deep in the gymnasium. This gym was last summer used as a big sleeping dormitory for who in the first instance has a perfect the men on guard duty. It is a large oblong room about 100 feet by 60, with solid board floor. It is absolutely clear of seats or benches. The only articles of furniture are two tall shaped stoves; one in the northeast and one in the southwest corner. gym runs north and south, and has a row of old-fashioned windows along the east and west sides. It has a high

Explains System

After a little preliminary marching drill the instructor brought the men to a halt and gave them an explanation of what physical culture is. He likened men to plants which only needed the expert training and cultivation of a gardener in order to attain perfection in form, and blossom.

whitewashed peak ceiling with exposed

"I am your gardener," Instructor Donovan said to the Dragoons. "You are turned over to me like a plant to be trained. After a while when I am thru with you, you will be finished soldiers. I want to make you feel how you should feel, good strong healthy

One of the telling points made by the instructor dealt with the street deportment of a soldier in uniform. They would notice that a man physically fit had his body in harmony with his mind. For instance, if a soldier was accosted on the street and asked a question he would prove his alertness by saluting smartly, answering promptly, enquiring if there was any further information cause is good enough to call for the utter devotion of thousands upon thousands of the heat man of the heat ma

"Remember," said Instructor Donos van, "that 200 Dragoons are in trainwho feel impelled to enlist are quite justified in doing so. Too much has been made of the idea that the minister at the front, and that you represent a standard form.

> upon the famous Grecian statue of "The Disk-Thrower" was given. The purpose was to give the carriage of a ldier, as "only one thing could look better, a good horseman mounted." The Dragoons marched around with hands on hips, at each step rising on tip-toe. The men formed a double square, and stood at attention while the instructor gave a representation of the attitude taken in the celebrated

the attitude taken in the celebrated statue. Another great exercise given the Dragoons was to broaden the chest and

deepen it, to make the lower part of the body as strong as the upper part, and to strengthen the arms, back and neck. The sixty Dragoons laid flat on the floor and raised and lowered them selves from the ground with extended arms. In connection with "the eyes front"

the Dragoons were told to dislocate their necks, but they showed sufficient "alertness' without this happening.

Champion of Army

Dragoons who, after a six-weeks' course upon attested efficiency become physical culture graduates, and will in future be awarded certificates. These they will be will be of special value as they will be

P. Donovan. They will be fac-simile of LL the young officers of the Royal the certificates which he issued as pro-Canadian Dragoons at Stanley York Athletic Club. The diplomas Barracks, Toronto, have to take a will have an added value when it is reof the whole British army and navy, and also was personel physical instruc when Roosevelt was president.

Much has been written in an endeavor to show how one may live to reach 100 years of age. Maj. V. Nordinstructor. He tells them that the consensus of opinion, both of health experts and leading medical men, is that this can only be reached by a person constitution, and who does not impair vitality and stamina power by an unnatural mode of living.

Need of Exercise.

To reach this age, one must, in & word, follow nature, and the first law of nature is exercise. But how many think of exercise during the day? Men at the end of the day often look tired. but are really only "brain tired." Their brain power has been in demand all day, and their physical powers practically lying dormant. It is easy to change that feeling thru exercise as shown at Stanley Barracks. The aim is to train both mental and physical powers so as to insure a sound mind n a sound body, for without the combination one can hardly expect to reach anywhere near 100 years of age. The R. C. D. recruits are told to make

Don't fret about tomorrow There's trouble 'round us all the time, What need is there to borrow? The wise man gets what joy he can, And leaves the fool his folly; He knows too much to waste his life In gloom and melancholy; Look on the bright side every time; Don't waste your days repining. When clouds look dark, laugh,

For if you have the grit (And you can only have that with health). You can bring out the silver lining. et your motto be "Cheer up,"
Your rule of life "Be jolly."

Simple Words

JES, I went to a hockey game last night, But till freedom's won, not again, It really was not an inspiring sight; It was simply a sickening shame.

Thousands of men sat there, medically fit, And their lungs all seemed strong and deep. None of them seemingly caring a bit,

While the game on the ice, really was And the lads who played it were There's a real game, I think, in France, Where puck chasers surely belong.

Some of the lads who were playing that game Laid Khaki aside for the night, But others, I'm told, had not done the

The seemingly brim full of fight. Strong men by the score, who sat thru

that game, Some day will wake up with a start, And find it too late to save their good They'll sit quite alone in the dark.

These few simple words as are given May not quite just appeal to you. But, boys, for the sake of home and Get into Khaki, do, please do.

—T. H. Litster.

BANTAM REGIMENT IS A POPULAR ONE

A quarter of this battalion is already in uniform and active recruiting does not open until today. The photo shows Col. Burton, Major Lewis and other officers of the Bantam Battalion, 206th Overseas and two hundred and fifty non-commissioned officers and men.

#### Referee Appointed

In order that The Sunday World's Motion Picture Popularity Contest may be conducted with absolute fairness to all parties concerned, E. A. Mc-ARDLE, manager of the Hippodrome, has been appointed the state of the policy of the referee. The official count each week in future will be under his

#### TO LETTER WRITERS

Pressure on space this week prevents the publication of answers to a host of questions asked by Sunday World readers regarding the Popularity Contest and the various candidates.

Wishing you every success in your For those who wish to write to their favorite candidates, the following list

favorite candidates, the following list of addresses is printed:
GRACE CUNARD, care the Canadian Universal Film Company, 106 West Richmond street, Toronto.
MARY PICKFORD, care Famous Players' Film Company of Canada, 12 East Queen street, Toronto.
PEARL WHITE, care Pathe Films, 56 West King street, Toronto.
HELEN HOLMES, care Mutual Film Corporation, 15 Wilton avenue, Toronto.

onto.
LOTTIE PICKFORD, care Mutual
Film Corporation, 15 Wilton avenue,

Grace Cunard is simply great. No other actress can hold a candle to her,

Reading a letter in your splendidly conducted contest, one person said that we should vote for Miss Pickford because she is a Toronto girl. I wish they would look up popularity in their they would look up popularity in their dictionary and see if nationality is included in the explanation. I do not think nationality matters unless the actor or actress were a German. Miss Cunard's father is a Frenchman and she was born in France and grew up in the United States. I do not see anything very Americany about that, and altho I am an American, if Miss Pickford equalled Miss Cunard. Pickford equalled Miss Cunard, my vote for Mary would be the first one in, but I think Miss Cunard is an allround, just splendid, actress.

Marguerite Clark in "Out of the Drifts" at the Madison.

For Grace Only.

MARY'S DRAWING POWER. 551 Markham street.

Motion Picture Editor, Toronto Vorld, City. Dear Sir: Last week you published a letter signed "A Hot-headed Canadian Girl." She has expressed the sentiments of hundreds of movie fans, who, as she says, are too lazy to vote. I cannot account for Grace Cunard's success in any other way.

For instance, we regularly patronize one of the leading (if not the leading) movie theatres in the city, i. e., the Madison. If the management is showing a Pickford release it is a hint for the patrons to come early if they wish a seat. Last week the attraction was "The Foundling," with Mary playing the lead. We arrived at the theatre at 7.10 to find people lined up. When we came out at 9.30, crowds were still in line, waiting for the second show. Does that speak for a certain little lady's popularity?

The Madison shows the best pictures and leading actresses and actors. Suffice it to say, we never yet have seen Miss Cunard play in that theatre. Here's wishing "Little Mary" all kinds of success.

A Movie Fiend. NEUTRALITY.

serves all the praise she is getting I think.

People should be fair in this contest

### Leading Male Candidate in Sunday World's Contest Coming to Toronto

Francis X. Bushman and Beverly Bayne Will Be Guests of Honor at Big Metro Ball at Arena Gardens in April.

Francis X. Bushman, the Metro star and idol of movie fans from coast to coast, who this week assumes the leadership of the male contingent in The Sunday World's Motion Picture Popularity Contest, is coming to Toronto early in April accompanied by his equally popular partner, Beverley
bayne, The couple will be seen on the
screen in a new Metro play and also
personally on the stage of one of the biggest local theatres. While they are here, the Metro management will give a huge ball in their honor at which the film fans of Toronto will be afforded the opportunity of meeting Mr. Bush man and Miss Bayne. Negotiations are in progress with the management of the Arena for a date to be announce

This stunt is the biggest that the Metro has ever planned for any city in America, as Bushman and Bayne are among the highest salaried stars of the screen world. Their combined salaries for their local appearance alone

will run into a small fortune. The Metro put over another big coup last week when a deal was consum-mated whereby, beginning March 27 Metro pictures will be shown in a chain of theatres controlled by the members of the Motion Picture Exhibitors' Association of Ontario, which has offi-cially endorsed the Metro and its productions.

Metro also announces the initial

showing at the Hippodrome during this week of "The Vampire," in which Mme. Olga Petrova is starred. This great picture, declared to be the finest in which the talented emotional star has appeared, will be followed the week March 27 in the same theatre by the noted American actor, Edmund Breese, in "The Lure of Heart's Desire."

and choose his or her favorite star, and not to be told by others to choose Mary Pickford. After all said and done, she is no better an actress than hundreds of others, and not as beautiful as some. My favorite is sweet little Ella Hall. I have seen no actress MARY'S FRIEND FOR FIFTEEN
YEARS.

Motion Picture Editor, Toronto Sunday World:
Dear Sir: What are the people of Toronto thinking about, to let a stranger come in and win the contest rooms away from one of our own? It is not often we get a chance to vote for way in which she cricans on the stage.

Motion Picture Editor, Toronto Sunday World:
Dear Sir: What are the people of Toronto thinking about, to let a stranger come in and win the contest calls for the most popular, and without a doubt, Mary Pickford is the best drawing card away from one of our own? It is not often we get a chance to vote for all canadian, as there are so many Americans on the stage.

Motion Picture Editor, Toronto Sunday with a seen no actress, and when you come away from the "movie," having seen her, you have been taught something; there is some people are so indignant because Grace is ahead of Mary in the Popularity Contest. It seems to me that some people want to go back again.

There is not a person in this city, truthfully speaking, who cannot say attraction of the stage of the "Broken Coin," when I came away I realized I did not show the story. It was her movements and her herself is contest calls for the most popular, and, without a doubt, Mary Pickford is not my favorite, neither is Carace but of the two I prefer Grace, for a she is a sensible actress, and when you come away from the "movie," having seen her, you have been taught something; there is some people are so indignant because Grace is ahead of Mary in the Popularity Contest. It seems to me that, some people want everyone to vote for Mary Pickford because she happens to be a Toronto-born girl. I think it all nonsense; merit of the star it all mosense; merit of the star it all nonsense; is alead of Mary in the Popularity Contest. It seems to indignant become a window of the contest is a sensible actress, some people are so indignant becomes to indignant becomes to indign and anyway if she loses she will not lose much of your time. Wishing Mary and Grace every success, should also like to give some praise to Pearl White, Violet Mersereau and Warren Kerrigan, three splendid

screen artists. I remain, Ella Hall Admirer, A. C. J. 11 Victor avenue, Toronto.

Motion Picture Editor: Dear Sir: I was quite surprised to see that Mary Pickford only stands second in the list of movie artists, by the number of votes in your latest issue of The Sunday World. Grace Cunard is not a good actress. So is the Ford a good car, but, to compare Grace Cunard with Mary Pickford is like comparing a Ford with a Rolls Royce or a Packard. Lots of people consider the selves entitled to be a personal friend of Mary Pickford aiter having seen her in one play, "The Foundling," for example. 1 enclose herewith coupon in favor of Mary

Norman Webster.

Motion Picture Editor, Toronto, Ont. Dear Sir: And why shouldn't every one in Toronto vote for Mary Pickford? They should be giad of a chance to show their appreciation of a girl from their own city, who has achieved such well merited success.

How many—with the chances she had—have done as well? There may be others who can act, perhaps as well in fine clothes, but there are none who can put on a ragged old calico dress and be as charming as she can. It is her sweet personality, no matter what the play is that has endeared her to so many people Better far to say Mary Pickford in a poor play than see a poor actress in a good play, for you'll enjoy seeing Mary whether you like the play or not.
Yours truly, K. W.

HOW IS THIS ROBERT ?

Fo Picture Editor:
Dear Sir:—I wish to record my vote in favor of Robert Leonard. I cannot understand why this talented actor has not received some measure of sup port from your readers. I hope other will follow my example in giving Mr Leonard their vote. Wishing him ever, success. O. M. L.

YES, WALLACE IS GOOD.

Dear Mr. Editor: I was very much pleased to find that Wallace Reid has the highest number of votes of the men. I think he is a splendid actor and I am sure if more people saw him in his-leading plays such as "Carmen" and "The Golden Chance" they would

and "The Golden agree with me. Sincerely, W. R. N. ONE FOR RUTH.

Editor of Motion Picture Contest. Enclosed you will find my coupon in favor of Ruth Roland. Altho I like Grace Cunard very much I think Miss Roland deserves a better standing. W. M. F.

STRUCK ON ANNA.

Cochrane. Ont.

#### Film Fans' Guide for This Week

#### THE PARK

Blanche Sweet, one of the most popular stars of the screen, will make her appearance in another Lasky production entitled "The Ragamuffin," by Wm. C. DeMille, at the Park Theatre for the first half of the week. This popular star, who has gradually risen to the top of the photo-dramatic profession as an artist of beauty and talent, will be seen in this elaborate production as a waif of the streets.

Cleo Ridgely and Wallace Reid, the distinguished Lasky, stars, who will appear together in "The Golden Chance," for the latter haif, will be seen, according to Cecil F. DeMille, chance," for the latter haif, will be seen, according to Cecil F. DeMille, the Lasky director general, in the first real love story ever seen on the screen. In the cast supporting Miss Ridgely and Mr. Reid are such well known artists as Horace B. Carpenter, Edythe Changan Raymond Hatten. Chapman, Raymond Hatton, Ernest Joy, Hazel Childers and other members of the Lasky all-star stock company.

#### GLOBE THEATRE

For the first half of the week the management of Globe Theatre will present the peerless William Farnum, the big handsome star, in the thrilling military masterplece "A Soldiers Oath." Few of the so-called war draws of present day possess.

3000 soldiers and peasants; showing strong scenes that impress and thrill.

For the last half of week, the much

Daily matinees are g

talked of photo-play, "The Devil's Daughter," with the "most beautifully wicked woman in the world," Theda Bara, will by special request play a return engagement Thursday, Friday and Saturday When this was played two weeks ago hundreds of people were turned away every night.

#### MADISON

Charming Marguerite Clark will be the attraction at the Madison for the first half of the week in "Out of the Drifts," in which her magnetic personality and acting talent will be seen in an Alpine setting. In this stirring tale of Toronto.

Miss Clark has an opportunity to do 2

It was to

Miss Clark has an opportunity to do 4 different sort of acting from anything the has done before.

For the latter half of the week Charlotte Walker, in "The Trail of the Lonesome Pine," will be offered. Based on the well known novel by John Fox. on the well known novel by John Fox. Jr., this picture drama tells the story of melodramatic incidents in the attempts of a United States revenue officer to stop the illegal manufacture of whiskey among the moonshiners.

#### DORIC THEATRE

management of Globe Theatre will present the peerless William Farnum, the big handsome star, in the thrilling military masterpiece "A Soldiers Oath." Few of the so-called war dramas of present day, possess as wide an appeal as "A Soldiers' Oath." which has been filled with unusual realism, in which real French and German soldiers are used.

In the photo-play will be shown the big prison fire, real convicts, the big 42 centimeter shells bursting amidst 3000 soldiers and peasants; showing the well known book.

Daily matinees are given at 2 p. m.

#### STRAND RETAINS "BATTLE CRY" PICTURE FOR A SECOND WEEK

Thrilling Preparedness Film Is Being Held Over in Response to Thousands of Requests-Toronto Endorses it as the Greatest of War Dramas.

That "The Battle Cry of Peace," |. which, in response to literally thouthe Strand Theatre will continue to and

present all this week, is the greatest war drama even seen, is the judgment It was to throw the fear of God into the hearts of those who would or could not understand the need of national preparedness that "The Battle

Cry of Peace" was produced.

To treat it as a moving picture play in the accustomed way would be to slight the deep meaning and intent or the event. As a prelude to the play itself, which was sketched out by Stuart Blackton and made into pictures by his associate, Wilfrid North Mayor Church is shown on the screen penning a warning to the people of

ness in time of war.

This is what those who visited the Strand Theatre last week saw:
They saw sixteen-inch shells crash sands of requests, the management of into the heart of Manhattan Island

. \_ 1.5 ----

They believe the capture of Greater New York would only be a matter of a few hours.

They saw the American fleet de-stroyed by a fleet of twice its size and many times its power, and—
They saw a foreign foe, efficient,
leadly—march with brutal and amazng power thru the streets of New York

They saw Americans lined against a wall like tenpins, and they saw a wivel gun make its sickening strike," and

They saw the hand of the invading mast at the throats of women, and
They hearkened to "the battle cry
of peace," and a shrill and terrible cry

## my opinion is disputed, just see the photoplay entitled, "Christmas Memories." Just because Grace Cunard

Plays in "The Black List" to Be Followed by Miss Pickford for Last Half.

That lessons may be taught from the screen as well as from the stage, pulpit, or school, is shown in the daring drama of social conditions, "The Black List," which will be seen at His Majesty's Theatre for the first three days both think there is no one who can of the week, with one of the most popular of the younger film stars, Blanche Sweet in the leading role. This drama was written especially for Miss Sweet, and graphically depicts labor conditions as they exist in some states, and shows how a little school teacher was able to change the destiny of a great corporation. "The Black List" is a check-up system used in many mines, which makes it practically impossible for a miner, who leaves, or is discharged, by one company to obtain work elsewhere. This brings about a matural, true-to-life acting appeals to a process will come to be a state of practical elevant.

state of practical slavery.
Of unusual interest is the announcement from His Majesty's Theatre, that on March 23, 24, 25, the three last days of the week, they will yield to numerous requests and book a return entinguished film successes ever released. It will be the appearance of the Torentonian and world favorite, Mary Pickford, in her outstanding characterization of "Tess of the Storm Country," the picture version of Thomas Hardy's well-known romance, "Tess of the D'Urbevilles." In the part of the Wessex maiden, Tess, Miss Pickford has won for herself the plaudits of the film patrons of all countries.

The latest episode of "The Girl and the Game," featuring Helen Holmes, will be seen for the entire week. Intense interest has been created by the previous episodes, and hundreds of people are following the outcome with he keenest curiosity.

your last issue.

I am manager of the Arlington Theatre in this town and have seen a number of different stars but think Cleo Madison is great and am going to doull in my power to bring her name nearer to the top.

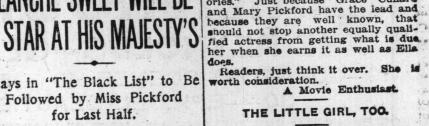

Yours truly, W. A.

VERY FOND OF ELLA.

Dear Mr. Editor: I have read many of the letters regarding this contest and have taken special notice to the ones speaking of Grace Cunard and Mary Pickford. No doubt they are almost perfection and carry an original personality, but there are many others just as capable. Owing to the fact that Mary Pickford was born in this city does not make her acting any better and I should think that would be

ter and I should think that would be the outstanding merit.

As for acting from every standpoint I think Ella Hall is exceeded by none. She can take the lead as a very young child and also as a child's mother equally as well. Talk of personality, she is the dearest little actress one could wish to see upon the screen. If

#### "THE GREAT PURSUIT" CREATED VERY NOVEL STAGE PRECEDENT

If "The Idler" Had Been Sixty Years Old Instead of Only Thirty, it Would Have Been Simply Revived and Not Open Engagement at Alexandra Re-written by its Author.

BY E. Y. WATSON. andra Theatre all last week to watch script, which I am keeping as a curhis one-time famous success, "The losity, because it is probably the only his one-time famous

Idler," reveal itself under the new title of "The Great Pursuit," with its characters modernized, its plot re-adplayed at the Alexandra last week, there was only one modern device in the present conditions and the present conditions are played at the Alexandra last week, there was only one modern device in the present conditions and the present conditions are played at the Alexandra last week, there was only one modern device in the present conditions and the present conditions and the present conditions and the present conditions are played at the Alexandra last week, there was only one modern device in the present conditions are played at the present conditions and the present conditions are played at the present justed to suit present conditions and the hundred and one changes made necessary by thirty years of hurrying cades ago weren't accustomed to. That

under such circumstances. Mr. Chambers during last Sunday of the 'eighties. It was changed to a night's rehearsal, "constitutes some-Probably thirty years from now, by which time 'The Idler' would be sixty years old, they would want to revive the lapse of thirty years for no other reason than that it possesses an extraordinary powerful theme."

Since Mr. Chambers wrote "The Idsears old, they would want to revive it as a costume play of the period and it wouldn't need to be changed a bit. Thirty years, you see is not let. Thirty years, you see, is not long enough for a play to become really old.

Altho, if you sat here and listance the control of the earliest and best successes, "The Tyranny of Tears" and "Control of the earliest and best successes, "The Tyranny of Tears" and "Control of the earliest and best successes, "The Tyranny of Tears" and "Control of the earliest and best successes, "The Tyranny of Tears" and "Control of the earliest and best successes, "The Tyranny of Tears" and "Control of the earliest and best successes, "The Tyranny of Tears" and "Control of the earliest and best successes, "The Tyranny of Tears" and "Control of the earliest and best successes, "The Tyranny of Tears" and "Control of the earliest and best successes, "The Tyranny of Tears" and "Control of the earliest and best successes, "The Tyranny of Tears" and "Control of the earliest and best successes, "The Tyranny of Tears" and "Control of the earliest and best successes, "The Tyranny of Tears" and "Control of the earliest and best successes, "The Tyranny of Tears" and "Control of the earliest and best successes, "The Tyranny of Tears" and "Control of the earliest and best successes, "The Tyranny of Tears" and "Control of the earliest and best successes, "The Tyranny of Tears" and "Control of the earliest and th Thirty years, you see, is not long chough for a play to become really old. Altho, if you sat here and listened to two people conversing in the manner of thirty years ago, you would be amazed at the difference in speech, in the colloquialisms and the idioms that folks used in those days in contrast with the ones in vogue now.

"When I began to re-write "The Idler" and put the 1916 manners, speech and fashions into it, I thought I might be able to just go thru the manuscript of his earliest and best successes, "The Tyranny of Tears" and "Captain Swift." It was in the former play that he coined the famous expression, "the long arm of coincidence," which originated in a soliloquy, and in what he thought to be one of the minor passages of the well-remembered piecc.

William Farnum, who has thousands of admirers, was once the boy cornetist of Buckport, Maine. Unquestionably cornet playing can be ranked as one of the vices—a quite common one, in fact.

C. Haddon Chambers, the dramatist, vas in and out of the Royal Alex-

Neilson Terry, as Lady Harding, didn't ous ever shown in the city. Special "This treatment of 'The Idler,'" said call for 'her carriage' in the manner lighting, equipment, unique scenic incar.

#### RUBY MORTON LEFT A CONVENT TO GO ON VAUDEVILLE STAGE

Soubrette to Be Seen at Shea's Likes Acting Better Than Being a Nun, But Still Clings to Her Religious Tendencies.

From the cloistered walls of a convent, and the guardianship of pious nuns to the bright, white lights of a musical comedy stage, is quite some long step, but Ruby Norton who with Sammy Lee will be a feature of the bill at Sheas 'this week, contemplated and carried into effect just such a step. Miss Norton, who will be re-membered here for her work with Emma Trentini in "The Firefly," had ambitions to become a nun, and even went so far as to enter a convent, pre-pared to devote her life to religious

Miss Norton hails from San Franmania. After finishing her ordinary schooling, she entered St. Mary's Convent in San Francisco, with tention of eventually taking the veil. little actress has in no way departed from her principles or from her re-ligious tendencies. Her talents were in that direction, and a stronger mag-net drew her from the course which she had plotted for herself into the channel of accomplishments. She believes, like most aspirants to theatrical honors, the desire came about first as a folly, and developed thru her participation in amateur theatricals, stage.

featured at Shca's this week.

of life, where theatricals are a profession. It may or may not be so, but Miss Norton nevertheless likes to believe that she is one of the innumerable links connecting church and

"The White Feather"

Once in a while there comes along a play so unmistakably clever and well

aldine Beckwith, Louise Muldener, Vira Rial, Justine Cutting and Clemence Ran-dolph.

The usual matinees will be given on Wednesday and Saturday.

Grand

Once in a while there comes along a play so unmistakably clever and well done in a legitimate way that it seizes and holds a place, in spite of the fact that it is clean and simply dramatic, without the aid of the fleshly or the sensational. This seems to be the case with "The White Feather." which, on Monday, comes to the Alexandra Theatre for another week's engagement, making it the third within the year, a record never before equaled by another dramatic offering in the history of Toronto theatricals. Since its engagement here last November, "The White Feather" has visited the Canadian Northwest, and its tour was one continual triumph. New box office records were everywhere established, and on the return engagements, which were played in all citics, the houses were completely sold out long before the arrival of the company.

To the brilliant acting of Albert Brown, a strong Toronto favorite, the play owes a great deal of its success. As Kit Brent, the British secret agent, who poses as a foolish chap and a slacker, he practically carries the burden on his shoulder. He has a natural style of acting and a finish that is charming. The English company returns to us in its entirety, and the various parts will be taken by the same excellent players who have won their way into the affections of local theatregoers. Thus, besides Mr. Brown, we shall again have with us Arthur Ellott, Stapleton Kent, John Burkell, Paget Hunter, Philip Hall, Olive Temple, Ger-

#### **AUTOMOBILE SHIPMENTS** INCREASE IN FEBRUARY

Over Twenty-one Thousand Freight Cars Used for Shipping Products of Detroit Factories in Month — Railways Take Steps to Relieve Shortage of Cars.

duct of the month. The number of but the heaviest months for shipping are at hand, and January and February, 1915, was 11,973, showing the most remarkable gain ary having broken records so decisively, Mr. Marvin fears for the future

J. S. Marvin, traffic manager of the National Automobile Chamber of Com-merce, gave the figures for February Wednesday night, and also gave a corrected statement of the number of cars used in January. The previous figures reports to 19,973, showing a gain in January over the same month in 1915 of 11,973 cars. In January and February a total of 41,089 cars were used. ary a total of 41,089 cars were used, as compared to 19,973 in the first two months of last year, a gain of 21,116 cars for the first two months of the

present year.
The American Railway Association held a meeting in Chicago Monday and quite the ordinary thing. Tourists thru Tuesday. Mr. Marvin attended this the country, not so very long ago, meeting. The Interstate Commerce nission held a meeting at Washington on the same days. Both meetings were called to devise ways and means to relieve the serious freight car congestion which is holding back shipments from the motor car factorles of the country, and also holding back shipments of other than motor cars, every class of business being the

All shipping interests of the country met with the officials of the American Railway Association, and it was decided that the only way in which the congestion could be stopped was to place an increased demurrage charge on unloaded freight cars. A rate of \$2 per day was discussed and decided upon, but the matter was not closed. Delegates from the Chicago convention left at once for Washington to meet with the Interstate Commerce Commission and take up the matter with that commission before action by the Am-

erican Railway Commissio Mr. Marvin said that he believed that the \$2 a day demurrage rate would be adopted. He said that something uld have to be done as the manubiles today owing to inability

field in the way of chassis building al-so applies to the motor truck field and said that some of the men working upon the mountain without guards were men who could quit when they pleased as their time was up and their discharge had been given. They rewith the work. All thru Colorado the convicts labored in the open, and in Denver a party of 50 without guards of any sort marched up the main street to the theatre, having been given a

manufacturing situation carefully has predicted to the writer that in the State after state has found that place ter the field a company with large has proven popular and profitable, and capital to supply the demands of the motorists of the country are the gainers in the thousands upon thouconvict, was in charge, and not a guard sands of miles of good roads that have is constructed of standard parts from wen known manufacturers and that this maker will score a big success

seen constructed in recent years. When the "missing links" in the road construction of America have been ompleted the motorists will live in a paradise of touring routes in every direction. Short links of main highway now make touring in many directions mpossible at certain times of the year and it is the avowed object of associations interested in seeing America first in roads, to work upon the governors of the various states to bring about the completion of the connecting links and so form main arteries of travel for the rapidly increasing motor popula-tion of the country.

Maine to Florida thern Maine to Miami, Florida, along an ideal road for much of the distance But down in Virginia are two counties which have been backward in road construction, too poor maybe to complete their part of the labor of making a national highway along the Atlantic coust. The condition of the roads to these two counties prevent a perfect tour at all seasons of the year.

Out on the Pacific coast it is possible

to start at Miami and tour northward thru California to the border of that immense state on the north, but in Oregon are stretches that prevent tourng into the delightful touring districts of Oregon and Washington, where mos pleasant touring routes are ready, but not to be reached by the Californians except under certain conditions.

In crossing America by any of the national highways there are certain sections that hold tourists back and rob their trip of much pleasure, and the Lincoln Highway, the Pike's Peak Ocean to Ocean Highway, the Pikes Feak Trails' route, and many others are making every effort to bring about successful road building to place the connecting links in good travelling

hape at any season. Where roads have been improved the esidents realize the value of the tour ists' trade and these people who live along roads which have been improved thru their foresight have naturally turned missionaries to work in other elds and so bring about, if possible by persuasion, if not possible in that way, by work with the state authorities, the pullding of the links so that tourists may be advised of their ability to travel at any time of the year.

It is believed that by the close of 1916 motorists will have several finished transcontinental routes, and also several from the northern border to farthest south, and the matter of feeders for the main arteries is a matter of course as feeders naturally follow the completion of a main line of high-

Rebuilding Cars

There is a field in the automobile business which has not been developed fully as yet but which is developing very rapidly and with considerable profit to those who have already entered it and that is the field of rebuilding old cars to bring them up to the last minute in appearance.
It is not the chassis of the present

day that change to any great extent but a car is made obsolete thru the alteration of the body designs and by widitions to the chassis of old-time construction. The addition of electric starters and lighting systems is one of the main additions while others in the cody appearance may include the lights carried on mud guards and so

The chassis does not deteriorate in value as might be supposed but in many instances the properly broken in chassis is far superior to a new one which must have the bugs worked out of it before it is finally perfect.

By taking off old bodies and mud guards and replacing these with modern bodies and by adding to the chastless of the chast

tound him.

The building of chassis only for the high-class carriage trade on which coach builders who have found that their horse carriage trade has gone back and back until entry into the automobile field is their only salvation. automobile field is their only salvation. These coach builders, carriage builders and wagon builders are in the market for chassis is without a name on which they may put the finishing touches in the way of a distinctive body and this field of manufacturing has only just opened to its full.

What applies to the pleasure car

Man Who Found Arctic Explorer Stefansson Fixes Choice on That Car.

The Model 83B Overland automobile received another very gratifying mark of endorsement several days ago when Captain Louis L. Lane, the man who found Vilhijalmar Stefansson, the Arctic explorer, last summer, purchased an Overland car of that type, after thoro investigation of its merits. Stefansson had been given up for jost when Lane, heading a searching party in a government vessel, discov- the high price of gasoline, but I do ered him quartered on Bank's Land, not believe the present level will be and was the first to bring back news

of the explorer's discoveries.

Captain Lane, by reason of his perilous calling, is an expert of mechanics, as well as a daring navigator, and that he should chose an Overland after a rigorous examination of its engines. equipment and construction, is good proof of its stability.

CAR CAN BE USED

New Feature of New Seventeen
Series Studebaker Car Attracting Attention.

If acture. If these conditions are continued many of the manufacturers will be obliged to increase their lists, the 1 knew of no general movement

Among the features of the new series 17 Studebaker cars that are attracting the interest of Canadian motorists are the divided front seats on both the four-cylinder and sixon both the four-cylinder and sixcylinder, 7-passenger models. According to J. E. Grady. Canadian saies
manager, this divided front seat feature has had its effect in the record
sales of the series 17 cars, which are
the product of the great Studebaker
factories in Walkerville, Ont.

Not only are these front seats divided and of the individual type, but
they are also adjustable fore and aft.
Another advantage is that the seats
may be removed if the driver desires,
an advantage that is particularly ap-

Dogskin coats are popular for cold night riding. The leather is soft and pliable and they are lined with heavy flannel. Skirts to match may be worn with them if desired.

TRIO OF PROBLEMS CONFRONTS THE MOTOR WORLD

Shortage of Gasoline, of Car Material and of Freight Cars for Transportation.

LFRED REEVES, general manager of the National Chamber of Commerce, says that three temporary problems face the automobile

"The first of these," he said, "is the high price of gasoline, but I do maintained very long. The present high figure means that more oil will be produced. New territory will be developed. When crude is low, new capital and energy are slow to push out into new fields, but the present returns are the greatest stimulus in that direction. The activity to discover a substitute for gasoline is also increased by this situation.

FOR CAMPING OUT the rising price and scarcity of the the raw materials of automobile manufacture. If these conditions are confor price raising at present.

"The third problem is the shortage of automobile freight cars. Our traffic department has been working on this for three weeks. Heretofore there has been a luli in the selling of care at this season, but owing to the great increase of cars in the winter dealers

Another advantage is that the seats ago, was one of the first to fly a Blermay be removed if the driver desires, an advantage that is particularly appreciated during the open touring season, when many motorists like to camp out in their cars over night. in an automobile. During his motor car service he had many narrow and miraculous escapes. Today he is hunting foe Germans who try to cross

TOMMY LEACH STILL ON THE JOB. nmy Leach, the veteran big league baseball star, whose home is in Avalon, Pa., is not thru with baseball as has been reported. This is the wonderful SERIES 17 Studebaker SIX at \$1450—the biggest VALUE that Canada has ever seen in 6-cylinder cars. And the most remarkable car ever "Made in Canada."

With its big 3%-inch bore x 5-inch stroke motor it develops FULL 50 horse power and has a most remarkable rango of operation, throttling down in high so slow that a man can walk round the car while it is in motion—and picking up to 50 miles an hour in a flash.

It has plenty of room for SEVEN—and for SEVEN full-grown people, too. It has beauty of design and luxury of finish that no car at any price excels. It has a 122-inch wheelbase—tank in rear with Stewart Vacuum Feed —upholstery of the finest straight-grain, semi-glazed leather—DIVIDED and adjustable front seats, overlapping, storm-proof windshield—and a score of other late refinements that make it not only the most up-todate car on the market, but the GREATEST 6-cylinder value that has ever been offered in Canada at so LOW a price as \$1450.

You know the quality that name of Studebaker and the GREAT Studebaker plants at Walkerville insure. You will find that you can not equal this SIX in POWER. size and quality unless you pay hundreds of dollars more.
And we urge you to see it, ride in it, have it demonstrated before you decide on any car. Know what this splendid

The C. M. A. is also urging the phylicial Governments to lower the age limit for motorcyclists, so that young men of fifteen, sixteen and seventeen years of age, may enjoy the use of lightweight motorcycles or power-propelled bicycles. The present age limit for motor-wheel riders is eighteen years, but, it is pointed out, that Harold Cole and other speed certusiasts were considerably below this limit when they started to make names for themselves on the racenames for themselves on the race-tracks, thus showing that the young fellows are quite capable of handling motorcycles, whereas an automob might be too much for them. The C.

The Canada Motorcyclists' Associa tion officers have drawn up a list of a few of the reasons why motorcycle riders should organize themselves into clubs and, incidentally, why memberthe receipt of your letter in which you ask that the regulations for the almission of tourists' automobiles under atenday permit be extended to notorcycles brought in by tourists. snip in the C. M. A. is worth while, as It is the most natural thing in the

world for human beings of like habits and hobbles to form a friendship among themselves.

Motorcycle tourists have far more fun when there is a crowd on a trip.

Club events never become mono tonous. Something new always crops up. A variety of unexpected inci-dents always occurs to make a meetessity of paying a deposit, or making tond to cover duty charges at time fenty. In all provinces, with the

ing, race-meet or tour an enjoyable Clannishness never did anybody any good. Every rider should join a club and become a booster. It makes for broad-mindedness.
An independent organization is

invariably more of a success than a body formed to boost or favor one make of machine. Many a pleasant evening can be spent among fellow club members when

the weather prevents actual riding. A club permits the rider to get 100 per cent. value for the money invested in a motorcycle
A club member has a far better

knowledge of mechanical matters than a selfish rider, because of the ideas exchanged among chums. The other fellow frequently knows a great deal about the routs for a nice trip.
Old motorcyclists invariably help
newcomers in a club in case of mechanical troubles, especially when you are with the bunch far from home. A rider is never lost when he goes for a ride with club friends. There is no worry about the right road, because somebody always knows the way.

A club or an association can always secure the correction of grievance if they go about it in the right way, if the members pull together. Team-work is invariably better than individual effort.

The individual motorcyclist may

soon run short of ideas for pleasant outings or social experiences. Co-operation brings the maximum of pleasure.
Club membership costs a fee,

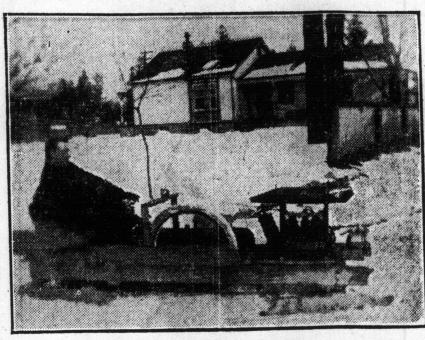

the price is cheap when compared with the fraternal benefits to be derived. No real club ever made a fortune out of the membership dues, but a club rider often saves or makes real dollars A knocker can be overlooked. He is found everywhere. #### FARMERS WHO OWN CARS ARE GOOD ROADS ADVOCATES

Motors Are Recruiting More and More Farmers for Good Roads Cause.

N a very short time an automobile mesmerizes a farmer into an ardent good roads advocate. The way farmers are buying cars is, therefore, of the utmost importance in the movement to build permanent thru roads. Already the increased ownership of automobiles by farmers in the middle western states has been commented upon. Now it develops that gains rivaling these are being made by the eastern states. The following from the monthly bulletin of the Automobile Club of Philadelphia shows the advance made by Pennsylvania in this

"The most interesting and promising feature is that a large proper-tion of the new automobiles is being bought by farmers. It has been found by actual figures that 160,000 automobiles were used on the Pennsylvania roads under Pennsylvania registration. Of the 160,000 automobiles, nearly 23,000 were owned by farmers.
This is 14 per cent. of the total. But
more significant still is the fact that the growth of automobile ownership among farmers during 1915 was 60 per cent. over the previous year, and that while in some of the poorer counties the farmers only own 10 per cent. of the automobiles in the county, in some of the richer and more influential counties they own as high as 18 per cent, Now these figures are very significant.

The farmers use the country roads more than any other class of citizens, The production of automobiles for 1915 was 892,000 cars in the United States. Three-quarters of the number were built in Detroit. The states the absolute necessity of getting good roads there is going to be a tremendous psychologic influence. ward getting adequate appropriations. Examination of the statistics shows given by Alfred Reeves, general man-ager of the National Automobile is that on an average an automobile is owned at one in every ten farms thru-

### \$50,000 a Month Increase In Wages—Staff Increased By 900 Men Since War Was Declared

Increase the prosperity of the individual and you increase the prosperity of the nation.

The influence thus exerted by the Ford Canadian Company towards upholding and upbuilding the prosperity of the Dominion in times when such an influence is intensely valuable forms a story of real human interest.

forms a story of real human interest.

This story is founded on three events:

1. An increase in wages of \$50,000 a month.

2. The reduction of working hours from nine to eight.

3. The addition of 900 men to the pay roll since war began.

3. The addition of 900 men to the pay roll since war began. In the Spring of 1915, Canadian manufacturing interests were in most cases being guided by a policy of retrenchment rather than of expansion. It was a time when caution seemed the better part of valor.

The Ford Canadian executives, however, preferred to look upon the situation with more optimism. At that time they were considering putting into effect a higher standard of wages for their employes. They saw no reason why they should ston

were considering putting into effect a higher standard of wages for their employes. They saw no reason why they should step the wheels of progress on account of the war, so in April 1915, the new Ford standard of wages was adopted.

Here was a war-time increase of from 15 to 60% for every eligible worker in the plant. The average laborer was at once presented with a \$38 a month raise.

It is estimated that this increase distributed among the It is estimated that this increase distributed among the

2,400 Canadian Ford employes amounts to about \$50,000 a month. And bear in mind that their previous rate of pay was considered good.
So, by April 16, 1916, the Ford Canadian Company will have given its employes \$600,000 in increased wages for one year.
Surely, this is increasing the prosperity of the individual with

Likewise it increases the prosperity of the merchants from whom these employes buy. And it increases the prosperity of the wholesaler from whom the merchants buy and so on down the list. The commission man, the jobber, the manufacturers in all parts of Canada share in it. And in the natural course of exercise the reliable parties benefits from this increased distribution. events the whole nation benefits from this increased distribu-

tion of money.

In the nine leading cities from St. John to Vancouver there are Ford Branch establishments that are also assisting in this

promotion of prosperity.

In the plant at Ford City there are about 2000 employes whose places of abode are in the four towns of Ford City, Walkerville, Windsor and Sandwich. There are 1000 more employes working in establishments in these four towns whose output either in its entirety or its greater part is taken by the

Ford plant. Thus 3,000 persons there are dependent upon the Ford factory.

Basing an estimate on the fact given in the last census report that there are five in the average family, this makes a total of 15,000 people that look to the Ford Plant for their support.

In other words half the people in these four towns whose combined population is about 30,000 are directly benefited by the prosperity of the Ford Canadian Company.

At the same time that they received this increase in wages, the Ford employes were further benefited by a reduction in working hours of from nine to eight per day.

Few firms, excepting those working on government contracts, have found it desirable to add to their number of employes to any great extent since war began. But so resultful has been the Ford Canadian policy of full speed ahead, war or no war, that it has been necessary to take on 900 additional employes since August 1914.

August 1914.

Has the Ford Company as a Canadian Plant with its own army of highly paid workers done "its bit" for Canada outside of boosting her prosperity? Again let us consult statistics.

In contributing to the Patriotic and Red Cross funds, the employes, officers and stockholders gave \$59,304.39 or an average of \$20.60. The factory workers alone gave \$30.410.04 or

age of \$29.60. The factory workers alone gave \$30,410.04 or an average of \$18.71 per man. Office employes gave \$6,168.60; everyone, almost without a single exception gave to the absolute limit. For instance, twenty-two girl office employes, steno-graphers and file clerks contributed a total of \$77.50 per month

The total contribution from the town of Ford with its 2,200 population was \$75,776.90 or an average of about \$34 per capita which is one of the largest per capita contributions of any city or town in the Dominion.

Ford employes are the highest paid automobile workers in the British Empire. They are paid 3 times as well as the average Canadian workmen—receiving \$1,200 a year as against the

average wage of \$435 as given by the last census reports.

The Ford Canadian executives have proved to their own satisfaction—and figures make this proof obvious—that the increased permanency of a man's employment, his increased skill gained through this longer time of service, and other factors, fully counterbalance this increased expenditure in

wages.

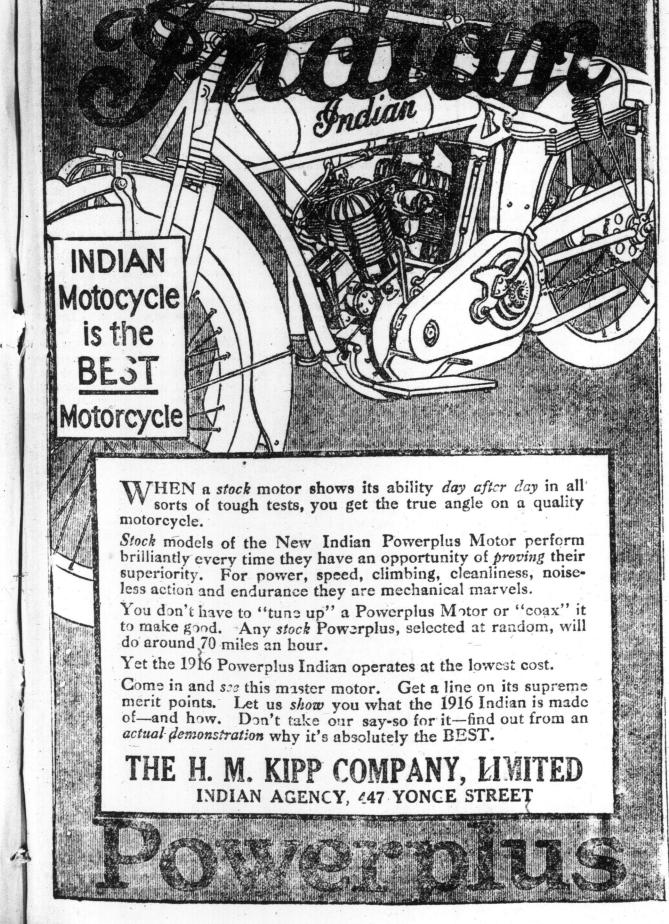

And so the owner of a Ford car receives a direct benefit from all this since it results in putting into his car a skilled workmanship that is most unusual and that goes far towards making the Ford car the wonderful mechanical production that it is today.

#### Undersea Campaign Conducted by Germany

Decidedly interesting is a review of a year of submarine warfare by the editor of "Syren and Shipping," of London, in a recent issue. He points out that while the campaign was scheduled by the Teutons to open on February 18 of last year, they pre-

ceded their advertized time of commencement by n.neteen days, sinking the liner Toko Maru, some thirteen miles off Havre, on January 30. The liner had deflected from her usual course from New Zealand to London to discharge a cargo of frozen meat at the French port for the government. The British steamer Ikaria was torpedoed on the same occasion in the same waters, but was able to get into port, only to sink on her arrival there. During the year the German submarine campaign which was started with the avowed intention of starving Britain out, succeeded only in reducing the total tonnage by about four per cent., which the editor of "Syren and Shipping" professes to consider a serious matter, but why he should do so seems hard to understand. that was the best that Germany could do in twelve months, when she was bending every effort to accomplish her object and Britain, taken unawares, had to first devise ways to meet the new menace, surely the losses can be reduced to a minimum with the methods which have since been found so effective against the underseas boats of the enemy. The tonnage sent to the bottom was but 800,000, while Lloyds give the entire tonnage of British merchant shipping, in a recent issue, as 19,236,000. The success that the Germans have achieved up to the present does not appear from this distance to constitute any serious menace to British shipping, altho the loss of innocent lives as a result of this disregard for the rights of anyone save themselves is deplorable.

It is notable that during the entire twelve

months only one Hun submarine was sunk One of Hun's Subs by an unarmed British steamer, the lucky Was Sunk by vessel in this instance being the little five-Collier

hundred-ton collier, Thordis, the commander of which, Capt. Bell, was decorated by King George as a reward- for his exploit, and in addition, received the \$2500 reward offered by the "Syren and Shipping" for himself and his crew. The editor comments on the fact that altho similar rewards were offered by other parties, there had been no other officer of an unarmed merchantman fortunate enough to lay claim to any of them. not be so remarkable as it would appear at first glance, however. The masters of most British merchantmen considered the safety of their ships, crew and passengers first of all, and it was right that they should Many a ship reported successfully dodging a sighted submarine and there is a possibility that if the captains had considered the reward for the sinking of them, paramount to the safety of the lives of those placed in their keeping, they, too, could have hazarded all and succeeded in sending the pursuer to the bottom. It will be remembered that one of the reasons given by the German government for the sinking of unarmed merchantmen with non-combatants aboard was that they feared they might be rammed and sent to the bottom. The claim was also set up that the British government had given instructions to the captains of merchant ships to ram all submarines sighted. This was afterwards denied by the British government.

Attacks Made at Intermittent Intervals

One peculiarity of the submarine warfare was that it had periods of accentuated activity, followed by a week, or even two, when it failed to secure a single victim. For this there is a two-fold explanation. The first was undoubtedly the activity of the British

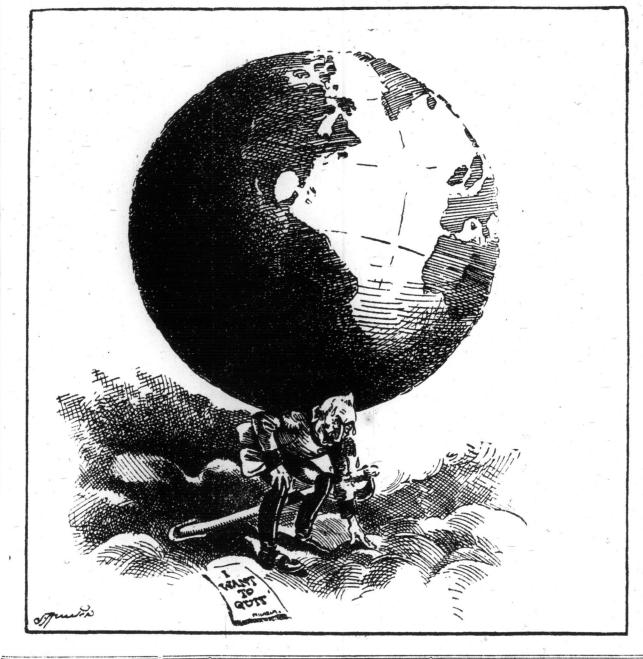

of the murderous craft that never returned to their base of supplies. In addition, the submarine's supply of torpedoes was necessarily limited and it could only operate for a short time without returning to its base. The most infested points on the British coast during the early stages of the campaign were the prominent headlands, especially Beachy Head, while Flamborough Head, the approaches to the Tyne, the southwest coast of Cornwall, and the entrances to the Bristol channel were also chosen as likely spots for successful operations. On at least two occasions the more intrepid of the submarine commanders of the enemy managed to strike in the Irish Sea. As the British became more expert In dealing with the menace, however, the sphere of operations gradually receded from the coast of England and extended along the southwest coast of Ireland. Here the activity for a time became as great as it had been upon the English channel in the vicinity of Beachy Head. It was in this field of operation that the act of piracy was committed, which has not its equal in the annals of the blackest sea rover of olden times, when the liner Lusitania, pursuing her usual course along the south coast of Ireland, was sent to the bottom by a German torpedo without warning, carrying with her to the depths eleven hundred and minety-eight innocent victims. This opened the correspondence course of warfare between Berlin and Washington, which was destined to be continued indefinitely, owing to the fact that there were several citizens of the United States among the victims.

Admiralty and this has in all probability accounted for a large number

Other important merchantmen with noncombatants on board, including United Limit Is Reached States citizens, have been victims of the submarine of the ruthless Hun. These inin These Acts cluded the Arabic, Falaba and Hesperian in

of Piracy Atlantic waters, while in activities in the Mediterranean, a little later, the Persia, with United States citizens also on board, was torpedoed. Vessels flying the United States flag have been sunk, unknowingly or otherwise, by German submarines, yet Germany, up to the present, instead of expressing contrition for her misdeeds has intimated her intention of sinking everything that is British, irrespective of what aliens, citizens of neutral nations, there may be either among the crew or passengers. This threat promises to be more horrible in its announcement than in its execution, however, because, in yiew of what piracy Germany has already done, it seems impossible that she can go to greater lengths than the crimes she has already perpetrated. It can safely be assumed that the measures taken by the British fleet for the suppression of the menace will sooner or later reduce the German submarine activity, if not to a negligible quan-Mity, at least to one approximating thereto. In fact the freedom from misasters of this sort during the current year would seem to indicate that the Admiralty already has the matter well in hand and that it will only be a matter of a short time until the policy that has served to render the German submarine activity in the Mediterranean a matter of little and diminishing moment will also scotch, if not kill, the same reptile in the home waters.

A WEARY ATLAS AND A DISAPPOINTING HOLD-UP

#### Agriculture Revival At End of the War

There is every indication that there will be a general movement back to the land at the end of the conflict that is at present devastating Europe. It is the general opinion of the various governments of the Empire that there will be large numbers of soldiers returning uninjured, or at least physically unimpaired from their wounds, previous to their enlistment city dwellers, who having had a taste of life in the open, even with the risks necessarily run in war, will be loath to return to indoor work To arrange for placing these in congenial surroundings due to their changed tastes will be one of the tasks of the administrations of the Motherland and her colonies and a movement is already well under way both in the homeland and overseas dominions to have everything in readiness when the men return from the front. It is not the intention so far as the British Government is concerned to turn men to farming who have had no previous experience without allowing them to get some practical knowledge, and this policy will doubtless be pursued by the colonies as well. Farm colonies and colleges for the training of those who have not had previous experience in farming, is proposed of some of those taking an interest in the work of providing suitable employment for the returned soldiers in England. and it will doubtless be a suggestion that the government will readily see the wisdom of.

### Soldiers' Families

Starve in Hungary Altho the food supply in Germany is far from satisfactory, notwithstanding the official protestations to the contrary, the conditions existing among the ivil population in Austria-Hungary is much worse. So serious has the situation become, that M. Vasonyi, member for Budapest in the Hungarian parliament, in a recent speech vehiclently attacked the government or the ever-increasing rise in food prices, pointing out that while Hungary was supplying Germany with cereals and vegetables, the prices in the home market were four times as high as in Berlin. One reason for this abnormal difference, he declared, was that while Hungarian products were shipped to Germany in large quantities, there was not a corresponding inportation of foodstuffs from Germany to take the place of what was "In Hungary the shipped out. government can do what it likes," he declared. "It can allow the people to starve and at the same time allow thousands of millions worth of foodstuffs to leave the country for the use of the allies who have much more than we have ourselves." The fact that meat prices and vegetable prices in Berlin should be so far below those prevailing in Austria-Hungary, an essentially agricultural country, he considered a disgrace to the government. He also made the startling statement that while the men of the land were away fighting for their country the government only allowed the wives and families of these men nine pencee a day, even in the

face of the abnormal prices which the necessities of life commanded. The entire debate on this topic is reported by the correspondent of The London Morning Post to have been most bitter, many of the members exclaiming that their German ally ought to be hanged. It was made quite clear that the German pressure on the Hungarian government was responsible for the food products being shipped out of the country to the detriment of the home population. many must be feeling the effectiveness of the British blockade more than she wishes to admit when she has to resort to practically robbing her ally to keep up her own food supply, and it is no wonder, if these are the methods she is pursuing, that reports are being circulated of serious dissatisfaction among the nations of the Central Powers.

#### Conclusive Proof of German Crimes

Decidedly interesting and most

convincing is the refutation of the claims made in the German White Book, issued on May last, by a pamphlet just compiled by E. Grimwood Mears, one of the secretaries on the joint committee on alleged German outrages. attempt was made in the White Book to either condone or justify the outrages committed by the German troops on the civilian population in the early days of the war. In his analysis of the alleged evidence submitted by the German authorities, the writer of the pamphlet discovered that the witnesses were almost invariably either German officers or soldiers most of whom were implicated in the charges of necessitating the investigation. Every massacre and every ruthless destruction of property is set down to the same ause, the firing on German troops by Belgian civilians. The report of the commission appointed by the Belgian Government, to which the White Book was issued as a reply, gave precise and definite details of names, places and dates, while the German attempt at justification conspicuously omit these. Most amazing, indeed, are the pretexts advanced by German witnesses for the burnings at Louvain, Dinant, Aerschot and In some cases, the pamphlet states, no attempt is even made to offer a pretext upon which the direst vengeance was wreaked upon a people whose gallant army succeeded, tho at a terrific sacrifice, in upsetting the German plan of conquest. While the Belgian commission's report emphasized the fact that drunkenness had permeated the German army during the first couple of months of the war, there is not a solitary reference to alcohol in The references the Hun reply. to German violation of women and systematic pillage are also ignored and the evidence of the German witnesses in most cases consist of vague allegations. No evidence is furnished of German soldiers losing their lives thru attacks from Belgian civilians, nor is there any evidence which would be accepted by a British jury that the populace fired on the German troops at all. Amazing the it is, there are admissions of German officers that they had ordered groups of civilians to be shot without instituting any form of enquiry at all. These officers are high in command in the Ger-

man forces.

#### Many War Heroes Who Are Unsung

While the man who takes his

life in his hands and bravely

of his country is deserving of the

greatest consideration, whether he is called upon to pay the supreme price of his devotion to the land of his nativity or not, there is still a vast army of heroes and heroines who are in danger of being overlooked in the hour of national sorrow and mourning over those who have fallen in battle that the Empire may live, and that freedom and justice may not be driven from the face of the earth by the champions of might over right. There is the aged father, too old to be of service in the armies of his country, the aged mother who, with him, has sent their hopes of of a lifetime forth in khaki-clad battalions to protect the lives and honor of the weak and the oppressed. There is the young wife with her little kiddles who has checked back the tears as, perhaps for the last time, she kissed her soldier-husband goodbye. But after all these, and a more pathetic figure than any. there is the budding woman who sees her dream castle of a home of her own, with the man she loves to untangle life's snarls and make smooth the rugged path, disappear with the departure of her sweetheart, as, with his battalion, in full marching order, he turns the distant corner on the way to the depot to entrain for overseas. She has not even the doubtful solace of public sympathy, for perhaps nobody but one other human being than herself can understand, and he but imperfectly, the torture she endures as the hot iron of disappointed hopes sears her soul. Yet she bears it without a murmur. All over Canada, from Halifax to Vancouver, from Niagara to the Yukon, she is carrying it bravely without even the excitement of battle to lighten the load. praise to the noble wives that were, who have given their husbands to the cause of the Empire, but while we are shedding a tear of sympathy for them, let us not overlook the deep, if less evident sorrow of the wives who might have been.

### Germans Are Buying

Contraband of War Articles of all sorts, and particularly fats and wool, are being bought up in Switzerland by German agents, most of whom are women, according to a recent dispatch to The London Morning Post from its Berne correspond-There is no possibility of their being shipped out at present, however, as these articles are classified as contraband of war. They are being stored, with the intention, it is claimed, that when a sufficient quantity has been acaccumulated the German government will request the Swiss government to permit them to be shipped out of the country. Should the request be refused, it will be transformed into a demand, Berlin refusing to permit Switzerland to receive coal, sugar and soda, three articles which she most needs of her imports from

Germany.
