PROVINCIAL PUBLIC WORKS DEPARTMENT SPENDS \$2,793,577.26

Increase For Year Ending Oct. 31, 1925, Totals \$261,977.84, Report Reveals; \$667,148.86 Disbursed For Permanent Main Trunk Highways

FREDERICTON, March 12—New Brunswick's Department of Public Works expended \$2,793,577.26 during the fiscal year ending October 31, 1925, an increase of \$261,977.84 over the previous year, according to the annual report of the department tabled in the House this afternoon by Hon. D. A. Stewart, Minister of Public Works.

The largest item in this total was for permanent main trunk highways, the province expending \$667,148.86 on this item as compared with \$584,893.34, an increase of \$82,255.52. The second highest item was for secondary trunk and farmers' roads of a permanent nature on which \$543,619.04 was expended, as compared with \$376,335.20 for last year, an increase of \$166,783.84.

OUTLAY ON BRIDGES.

Running it closely in third place was an expenditure of \$543,572.20 on permanent bridges. This shows a decrease of \$25,163.61 as compared with last year. The detailed comparative summary for 1924 and 1925 is as follows:

A comparative summary statement of expenditure for the years 1924 and 1925 for the Public Works Department is as follows:

Table with columns for Year, Salaries, Travel Expenses, Contingencies, etc. Total Expenditure of Department: 1924: \$2,821,009.49; 1925: \$2,793,577.26.

Note.—The two items under Salaries and Contingencies cover the cost of administration of the Minister, Deputy Minister and Bridge Engineers' Offices paid out of ordinary revenue, namely, salaries of permanent officials, wages of extra help when required, and office supplies, etc., and should be considered collectively. The actual amount paid for salaries was \$25,738.99 in 1924 and \$26,918.05 in 1925, a small increase of \$1,179.06 over the previous Fiscal Year, but shows a smaller cost as compared with the increase of business carried on over the previous year of \$20,197.84.

Detailed expenditure in the department by counties is as follows:

Table showing expenditure by county: Kings County, 65.73; Restigouche County, 118.26; etc.

DR. E. A. SMITH IS MENTIONED FOR FEDERAL SEAT

Former Power Commission Head Summoned To Ottawa For Parley

SHEDIAC, N. B., March 12—A report that Dr. Ernest A. Smith of Shediac, former minister of lands and mines, may be appointed to the Dominion Cabinet within a short time was circulated on good authority among party leaders in this county today, although none of them in Shediac would comment on it.

Hon. Dr. Smith was summoned to Ottawa last week to see Premier King as was Hon. Dr. Walter E. Foster of Saint John formerly secretary of state. Because of business pressure Hon. Dr. Foster is said to be averse to reentering federal politics. It is understood that both he and Hon. Senator Clifford W. Robinson of Moncton are favorable to the appointment of Dr. Smith.

Dr. Smith was the Liberal candidate in Westmorland in the last federal election and previously had been Minister of Lands and Mines in the New Brunswick government and later chairman of the New Brunswick Electric Power Commission. Should Dr. Smith be appointed to the King cabinet he would be obliged to seek re-election.

John George Robichaud, of Shippeagan, M. P. for Gloucester, was in conference with the Prime Minister, Hon. Dr. Smith, Hon. Mr. Robinson and Hon. Dr. Foster at Ottawa yesterday. It has been suggested that should Dr. Smith be named, Mr. Robichaud might resign his seat in order to provide one for the Shediac man. Another report based on apparently firm ground is that in the event of Hon. Dr. Smith not taking a position in the cabinet, Hon. Senator Robinson will be appointed as New Brunswick's cabinet representative, he continuing to hold his seat in the Senate. Dr. Smith is not expected home before five or six days. Eventually, it is thought, a New Brunswick man may be Minister of Railways.

THE MARITIME CASE

Premier Rhodes is putting the Nova Scotia Government squarely behind the Maritime demand for justice from Ottawa. Where do the other Maritime governments stand in the matter?

Mr. Rhodes has given notice of a resolution, the object of which is to commit the Legislature, publicly and officially, to the support of his administration's course in asking federal redress for the disabilities under which Nova Scotia labors as one of the partners in Confederation.

That by entering Confederation Nova Scotia made possible the creation of a British Dominion on this continent; That, at Confederation, certain pledges were given that such measures would be undertaken and such policies pursued as would ensure for the future a satisfactory economic position for Nova Scotia;

That the pledges so given have been disregarded, and as a result Nova Scotia has not shared in equal measure the prosperity enjoyed by the Dominion as a whole;

That the Nova Scotia Government is now preparing a statement setting out in detail the claims of the province, with the object of seeking such adequate redress as will ensure a return of contentment and prosperity to the people of the province.

The Government is asking the Legislature to approve of its action in this respect, and to declare that the people of Nova Scotia not only believe that adequate remedies for their disabilities exist, but that these must be applied. It may be safely assumed, therefore, that the New Brunswick and Prince Edward Island Governments will take similar action.

The Maritime should present a united front at Ottawa. If they should be divided, the outlook for redress would be darkened. There should be the closest co-operation and understanding between the three governments. There is no more important question than this before any of them.

And now is the time for united action. Settlement throughout Canada is favorable to the Maritimes, largely owing to the fact that our case has been presented to the people in the other provinces. That favorable sentiment will have its effect upon Parliament. The federal Government, we must suppose, is at last awake to the extent and significance of the public feeling prevailing in the Atlantic Provinces. So far as Ottawa is concerned, the Maritimes must know just where they stand, and without undue delay.

INCOME TAXES

A delegation which waited upon the Prime Minister at Ottawa on Thursday, representing the Retail Trade Bureau of Canada, and the abolition of the income tax, and while that is not to be expected at present, or even for a long time to come, the statements presented by the delegation should help to bring about a downward revision of this tax.

The chief spokesman of the delegation said that out of a population of \$7,785,000, that of Canada according to the 1921 census, only 244,603 persons paid federal income tax, and of that number 178,089 were "employers." This would leave only some 68,000 income payers who are outside the employe class.

It is asserted by the delegation that after extensive inquiry in all parts of Canada the conclusion has been reached that one of the chief causes of trade inactivity "is the fact that our present Dominion income tax is not only confiscating the capital but is required to extend our industries, but is fighting capital out of industry and preventing new industries." It was shown, also, by official figures, that the amount collected in income tax has been decreasing each year, instead of increasing as was expected.

It may be said that this falling off has been due to business depression, but it is undoubtedly due in part to increased evasion of the tax. A very great proportion of the 178,089 employes, constituting about three-fourths of all those who pay this tax, are people whose incomes are made known through employers' returns, and they are taxed to the limit. Most of them have comparatively small or moderate earnings, and in many cases the federal tax is piled on top of a municipal or provincial income tax, and the two together constitute a heavy burden.

These employes are frequently reminded that our federal tax, particularly on small incomes, is immensely heavier than the American impost, and they derive little comfort from the knowledge that municipal taxation is heavier across the line than it is here, because little of the American municipal taxation is collected directly from the salaried classes.

The income tax is popular in Canada among those who do not pay it. They would like to see it continued, knowing that if it were abolished the money would have to be secured through some other form of taxation unless increasing business prosperity swells the Government's revenue from ordinary sources. No government very readily abandons

any tax, so constant is the need for increasing revenue, but governments are sensitive to the pressure of public opinion. It frequently has been intimated at Ottawa that there is to be a cut in both the income and the sales tax, and recent revenue figures justify the belief that some relief will be afforded.

CANADA'S COAL IMPORTS. The mine operators in Pennsylvania lost no time in getting after Canadian business when the anthracite mines were reopened. Three hundred carloads had passed through the Buffalo gateway during a few days prior to March 2, en route to Central Canada. In the meantime Alberta coal has arrived in considerable quantity in Ontario, and more will be accepted if the \$7 rate for transportation is granted. Canada has also imported much Welsh and Scotch coal, and of this the Americans take due note.

The American assistant trade commissioner in Montreal has informed the United States Department of Commerce that Canada's imports of Welsh and Scotch anthracite from the United Kingdom increased from 275,277 short tons, valued at \$2,472,737, in 1924 to 500,084 tons, valued at \$5,198,942, in 1925. He adds the interesting information that the figures for the latter year include the tonnage imported through Portland, Me., and transhipped to Canada after the close of navigation on the St. Lawrence. While the largest imports came to Quebec, some came also to Ontario, the Maritime Provinces and Newfoundland. Our neighbors keep themselves well-informed regarding the trade of Canada.

A cablegram announcing that Lloyd George has taken up golf again says that "while he has considerable enthusiasm for the game, he never makes a good score and treats it as if it were merely incidental to a pleasant stroll in the country." Which is one way of saying that as a golf player the former British premier is a fairly good polli-tician. It has been said in some papers that Lloyd George is likely to rise again to political supremacy, but that must now be doubted. If his attitude toward golf is as alleged in this cablegram, the man is done.

Odts and Ends "Wulluum" and the Marquis (Bylander in Toronto Globe). A story recorded in the Notes and Comments column of The Globe regarding an old Scottish lady who said that Queen Victoria must have been a proud woman the day her daughter, the Princess Louise was married to the Marquis of Lorne reminds "J. S. G." of Smith's Falls of an incident which happened in his boyhood days, in the early eighties, at Smith's Falls. Let "J. S. G." tell the yarn in his own words:

The Marquis of Lorne, then Governor-General of Canada, made a trip from Ottawa, via the Rideau waterway, on a trim steam yacht, for a few days' fishing on the Rideau Lakes. On the return he disembarked at Smith's Falls on a Saturday, and he remained there until Monday, returning to the capital by train.

As he sat after tea at a window in the sitting-room of the hotel perusing the columns of a newspaper—probably The Globe—he was approached by an old Scottish gentleman of local importance (none other than the mail-carrier), who, with a profound bow and a "good-evening, sir—" extended his hand. The Marquis promptly arose, shook the man's hand, and asked his name. "My name is Wulluum" (As some of his descendants still live in Ontario, "without the name.") "And what is your occupation?" "Sir—r-r—r. I have been carrying the mail here for your mother-in-law for the past twenty years."

The Marquis laughed very heartily, and remarked that he was sure the work had been well performed, as, indeed, it had, because it was "Wulluum's" proud boast that, in all the years he had sauntered up and down from the little post office to the old Brockville and Ottawa Depot with the leather bag hung in the crook of the cane over his shoulder, he had never missed a train, of which there were at that time two per day. Now here are twenty-seven.

Descriptive Poem. (Vancouver Province.) During the course of a case in one of the English courts the learned judge found occasion to ask counsel what a saxophone is. The counsel replied that he was told it resembled a cornet and was used in what he understood were called "The dancing bands." The description hardly seems adequate, and I have compiled the following poem to amplify the words of distinguished counsel: If you hear a noise suggesting: An byena with the mumps, A convive with a singing Jagg (And verging on the jumps), A caterwauling feline, A dissipated loon, An intoxicated chimpanzee Blowing the bassoon, A very leaky steamship, A man inhaling soup, The noise there'll be when someone Knocks Dempsey for a loop, The hissing of a thousand snakes, A cornet full of cracks, When you hear all these at once, My Lord, You'll know you've heard a sax.

Dinner Stories GEORGE Ely Crosby, the champion fly-caster, said at a banquet: "I'll conclude my remarks, gentlemen, without any mention of the fall of the fraic or other questions of international finance, for I don't know any more about international finance than my new housekeeper knows about fishing."

"I was getting ready for a week's trout fishing last June when my housekeeper bustled into my bedroom with a big bundle of sticky, black-speckled trout that she began to shove into my grip. "Hold on, I said. 'What are you doing with those Bywaters?" "I've been saving them for you ever since the hot spell," said the ignorant old dame. "You know, you told me, Mr. Crosby, that you always had to buy flies when you went fishing."

"Large or small game?" inquired the Britisher, who had hunted in every other quarter of the globe. "You don't expect to find lions and Ggers on Long Island, do you?" queried the New Yorker. "Hardly," responded the Briton, "but I like a spice of danger in my hunting."

"If that's the case," answered the other with a grin, "I'm your man, all right. The last time I went out I shot my brother-in-law in the leg."

POEMS THAT LIVE THE ARCHITECTURE OF HUMAN LIFE IT WAS observed by Schopenhauer that just as the traveler, on reaching a height gets a connected view over the road he has taken, with its many turns and windings; so it is only years of life that furnish the text, while the remaining thirty or forty supply the commentary, and that without the connection between all our actions—that it is we have achieved, what we have done. The same truth may be more broadly expressed by saying that the first forty years of life furnish the text, while the remaining thirty or forty supply the commentary, and that without the connection between all our actions—that it is we have achieved, what we have done.

IT IS ONLY when we are at the summit of life that we see the precise chain of cause and effect, the exact value of all our efforts. For it is an old truth that as long as we are actually engaged in the work of life, we always act in accordance with the nature of our character, under the influence of motive and with-in the limits of our capacity—in a word, from beginning to end, under a law of necessity.

THE BEST OF ADVICE BY CLARK KINNAIRD THE ARCHITECTURE OF HUMAN LIFE IT WAS observed by Schopenhauer that just as the traveler, on reaching a height gets a connected view over the road he has taken, with its many turns and windings; so it is only years of life that furnish the text, while the remaining thirty or forty supply the commentary, and that without the connection between all our actions—that it is we have achieved, what we have done.

Investments as well as Protection Some Results from Mutual Endowments The figures opposite reveal the gratifying profits from Mutual Life endowment policies. These investments were made in small sums in the form of premiums, and caused their owners no concern. In addition the policy holders had protection to the full amount of the policy from the moment it was taken out.

There are Mutual Life of Canada policies in force to-day in which the annual profits exceed the amount of yearly premiums. The policy holders receive the difference in the form of annuities. The reasons for such profits are economical management, low mortality rate and careful investment of assets and mutualities.

Policy holders in The Mutual Life of Canada share in the Company's prosperity. Mutual Endowments are Issued in Terms of 10-15-20-25-30-35-40 Years The Mutual Life of Canada issues endowments payable at the end of any one of the above periods if the assured be then living or at a specified age. These policies may be said to combine savings, protection and investment.

SCHOOLBOOKS AND WAR. (Winnipeg Tribune.) There must be a happy medium in the teaching of subjects in the schools in which war comes up. War must never be glorified; and war of aggression must always be condemned. But it is going too far astray to insist, as has lately been insisted in some quarters in Alberta, that there should be no mention in school text-books of valiant deeds performed in defence of one's country for the sole reason that they were performed on the field of battle.

commentary we are unable to understand aright the true sense of the text. THE STEELWORKER or the mason or the carpenter employed in erecting a building may be quite ignorant of its general design; or at any rate, he may not keep it constantly in mind. So it is with the man in working through the days of his life, he takes little thought of its character as a whole.

If there is any importance attaching to a man's career, if he lays himself out carefully for some special work, it should be apparent that it is all the more for him to turn his attention now and then to its plan, its general outlines.

OF COURSE, to do that, he must have made some progress in the art of understanding himself. He must know what is his real, chief and foremost object in life—what it is that he most wants in order to be happy? He must find out what his vocation really is—the part he has to play, his general relation to the world.

It has been observed before that if a man maps out important work for himself on great lines, a glance at this miniature plan of his life will more than anything else stimulate and rouse him, urge him on to action and keep him from false paths. We all need a goal.

IT IS ONLY when we are at the summit of life that we see the precise chain of cause and effect, the exact value of all our efforts. For it is an old truth that as long as we are actually engaged in the work of life, we always act in accordance with the nature of our character, under the influence of motive and with-in the limits of our capacity—in a word, from beginning to end, under a law of necessity.

The Very Idea!

By Hall Coburn FRIENDSHIP THE EAST is east and the west is west and some like this, or the other best. When in the east, the west is far, and the east's the same when it's west you are.

A man may hail from a far off coast, move some place else, in his work engrossed, but he never forgets it, after all—that deep desire, and that far-off call. As Burns once said, a man's a man who can make real friends like a real man. He can set right in where there are no breaks in the friendship song when he pulls up stakes.

He can go back home; leave his friends behind. He can settle down in his peace of mind, 'cause he knows what friendship really gains. Though he's gone, his spirit still remains. There ain't no word like the word "goodby" when you shout it out to a tip-top guy. He can shake your hand and be on his way, but the good old feeling sticks for aye.

When a man is suffering from overwork, the rest of the family hopes it isn't contagious. We always think the stork has a big bill, but when he leaves and the doctor comes, we find out how small it is in comparison. She aimed to cut her weight a bit With exercise alone. Instead of eating lunch, she took A roll upon the floor.

There are more than 500 broadcasting stations in this country, not counting gossip. NOW, HONESTLY Consider the friendly waitress. She's the girl who walks a million miles a day, totting a million dishes a day, and attempts to satisfy a million odd appetites a day. We all get peeved at her—maybe because she neglects to bring more butter—or because she makes a slight mistake in our order. And we persist in forgetting that she's just a human being. It's pretty soft for the rest of us to simply walk in and order her around. Let's make it a bit softer for her by returning the friendliness and the patience she gives us.

TRY THIS ON YOUR MANDOLIN: He was a good judge of drum music 'cause he always heard both sides. You can't live without your income, and most of us can't live within it! DREAMER: What would you do if you inherited a million. LOAFER: Nothing! Just live on the interest.

POWER COMMISSION REPORTS \$43,614 MUSQUASH DEFICIT

Board's Deficiency Account Since It Started Operation Totals \$163,369.74 Up Till October 31, 1925

FREDERICTON, March 12.—The report of the New Brunswick Electric Power Commission, tabled in the Legislature this afternoon, shows a book deficit on the Musquash system of \$43,614.81 and on the Bathurst system of \$11,890.29.

The deficit account of the Commission, since it has been in operation, totals \$163,369.74, of which \$35,505.10 is the loss for the year ending Oct. 31, 1925.

The commission report in part follows: "In presenting the following report for the year ending October 31, 1925, the commission has been limited by the fact that the complete personnel was appointed only 23 days before the close of the year, so that no act of theirs could in any way affect the operations and results herein reported."

ITEMS PRESENTED. "This report being, therefore, the record of transactions and administration for the year by the preceding commission we have presented section by section, statements on operation and maintenance, general construction, the construction, surveys and reports on proposed rural power districts, details of plant and equipment and operating results, and, in view of the large expenditure incurred in surveys and investigations of the Grand Falls power site we have in some detail in the last two sections, presented the technical results of this work."

AGREEMENTS EXAMINED. "A thorough examination of all contract agreements entered into between the former commission and private parties interested in Grand Falls power site revealed the economic impossibility of proceeding with the construction of that plant in consequence of the disabilities incorporated into some of the agreements. Your commission has been and are giving closest attention to this problem with a view to overcoming these difficulties and are with most sincere purpose examining all features of the water powers of New Brunswick, including Grand Falls, together with power markets, so that at the earliest possible date a practicable policy for their best utilization can be recommended to your government."

PLANT MAINTENANCE. The report first deals with plant maintenance. "Service efficiency has greatly improved as compared with the preceding year, there having been only 19 accidental interruptions to high tension stations. The total duration of these was: 'Forty-three minutes to Saint John. 'Eleven hours, 25 minutes to Moncton. 'In the latter case a single interruption due to lightning accounted for 10 hours and 5 minutes. 'Last year there was generated at the Musquash plant 15,839,300 k.w.h. of which 8,026,400 was generated by the east branch plant and 7,812,900 by the west branch plant. During the year the average flow of the east branch was 155 c.f.s. and on the west branch 147 c.f.s. and precipitation for the year totalled 49.99 inches. 'Complying with the request of the committee from Nauyasewick the original estimate for this district was revised and the committee is now working on a scheme to supply Nauyasewick, Hammond River and Dickson's Neck by a line from Hampton to Hammond River Bridge. The estimated cost of the line is \$9,750, the estimated annual revenue is \$1,500 with annual operating cost of \$1,464. 'Extensions which are now under consideration are Havelock, at an estimated cost of \$14,000; Salisbury to Colpitts, estimated expenditure, \$10,400; village of Musquash, estimated expenditure, \$3,785; Albert county, with an estimated expenditure of \$118,760. 'The report of the auditors, P. S. Ross and Sons, Montreal, dealt with the operations of the Musquash and Bathurst systems showed a book deficit on both systems."

OPERATING ACCOUNTS. The balance sheet and operating accounts for Musquash are as follows: MUSQUASH SYSTEM Year Ending October 31, 1925. REVENUE. City of Saint John \$120,000.00 Westfield Rural Power District 17,105.06

EXPENDITURE. Power purchased \$2,606.03 General operating 21,648.30 Administration 5,957.86 Actual maintenance 10,800.29 Interest on capital 187,096.70 Gross surplus 62,482.46

EXPENSES. Surplus after providing for sinking fund \$2,887.40 Maintenance and renewals reserve 46,202.31 Book deficit 848,614.81 BALANCE SHEET, OCTOBER 31, 1925. ASSETS. Plant and Equipment: Musquash power development, transmission lines and rural power districts \$3,359,130.46 Bathurst-Miramichi transmission line 128,619.41 Grand Falls power development 297,712.98

LIABILITIES. Government of the Province of New Brunswick: On capital account \$3,556,015.84 On current account 60,838.88 Accounts Payable: Power purchased 3,583.63 Interest accrued on bonds 58,742.47 Estimated liability for lands expropriated, including accrued interest 102,690.32 Contractors' and service bills 2,062.12 Miscellaneous accounts 9,233.32 Reserves: Sinking fund balance, Oct. 31, 1924 80,430.92 Add provisions for the year 62,069.11 142,500.03 Maintenance and Renewals: Balance at Oct. 31, 1924 867,877.96 Add provision for year less expenditure 46,617.94

for the personal courtesy shown himself while in the city. EXPLAINS DEGREE. He explained the importance and significance of the degree "Chartered Life Underwriter," awarded to members of approved standing who had passed the required examination. Mr. Petty dwelt on the importance of institutional advertising which, he said, had been largely developed through the instrumentality of the association. This means opened up avenues of approach through which the agent could reach the mind of the client. He told of an instance in which he himself had placed a \$20,000 policy without effort on his own part because of the prospect had already been made up.

DEAR MISS DIX—Why is it that some men of intelligence and high moral character are so hopelessly ignorant of the code of good manners? I have a friend who is very clever and who holds a fine position, which he could not possibly hold unless he had plenty of brains. He has traveled extensively, can talk well, but his manners are just unbearable. He often subjects me to great humiliation because of his lack of courtesy to me. This is not because he does not respect me, but because he just doesn't know the little things that count with a lady. What can I do? This matter is something like halitosis. You can't tell a man he has got it. Please tell me, and other girls, what you think of such a man.

ANSWER: I agree with you that a man who has the sort of ill manners that spring from ignorance is in the halitosis class. You haven't the courage to tell him that he needs treatment, and thus mortify him, and yet you know that if you were a real friend you could not do him a kinder act than to call his attention to his defect, and give him a chance to correct it.

Not long ago, my vis-a-vis at breakfast on a dining-car was a handsome, wide-awake young chap, dressed to perfection. But he ate with his knife and smashed every other rule of table etiquette. Evidently this youth was one of the gangster type of young Americans who, beginning at the bottom simply shins up the ladder of success. He had had wit enough to copy the clothes of the gentlemen with whom he was associated in business, but he had not thought on him that it was even more important for him to copy their manners.

All during the meal, I kept thinking that I might be a real Fairy Godmother to him if I had the nerve to leave across the table and say to him: "Son, you are on your way, and you have it in you to go far, if you will learn how to eat as a gentleman does. But if you don't, you will find your progress barred by your fork and spoon. No sword swallower need apply for the big places."

And then I might have told him of a case I knew in which just such a clever young fellow as himself had been chosen to be the head of a new branch which a bank was opening. This young man was clever, had unusual talents, knew the business from the ground up, had every qualification for the job. And the president of the bank took him out to luncheon to offer him the place. But after the first course had been served, he began to glimmer. "We couldn't be represented by a man who didn't know how to eat," the president said in disgust.

But I said none of these things to the young man, just as you will never tell your young man his lack of manners. All we can do is just get out of their way.

Of course, lack of good manners is the result of lack of proper training in one's youth. Sometimes a woman does not know how to train her children. Sometimes she is too busy to do it. But it is a pity, because manners make the man, as the old proverb puts it, and nothing else on earth will carry one so far.

Good manners are a letter of introduction that the world honors at sight. They open every door. They make opportunity. That is why villains are always represented as having suave and polished manners.

And man who is conscious that he did not have early advantages in acquiring the manners of a gentleman as a child should make good his defect by mastering the book of etiquette, and taking for a model the finest gentleman he knows.

DEAR DOROTHY DIX—Will you give your opinion as to whether it is proper for a girl to keep company with more than one young man at a time, provided she is not engaged to any one of them? J. L. F.

ANSWER: Certainly a girl should go about with as many young men as she can until she is definitely engaged to one. Before a girl makes up her mind to take one man for better or worse, she should have known a large number of men, because only in that way can she be sure that she is getting a husband who suits her, and of whom she will never tire.

When a young woman goes to buy a dress, she doesn't snap up the first garment that is offered to her. On the contrary, if it is a handsome dress in which she is investing her whole allowance of pocket money, she goes from store to store, trying different fashions, looking them over, considering which fits her fancy, and has the best wearing qualities. Certainly it is only the part of wisdom for her to shop as carefully for a husband as she does for her spring suit.

How girls were ever silly enough to let men put over on them the custom of "keeping company" is something I have never been able to understand. It is the greatest folly of which they could possibly be capable, because it gives all of the advantages to the man.

A girl lets one boy monopolize her for two or three years. He drives all the other suitors away. He deprives her, perhaps, of making a better match than he is, and then—bloop—it is all off. He has committed himself to nothing. He isn't engaged to the girl. Probably he never intended to ask her to marry him, and has only been amusing himself with her. But her chances are ruined. She is deserted, with nobody to take her out, or pay her any attention.

If girls had any appreciation of their own interest, they would combine and break up the "Keeping Company" Masculine Monopoly. And they wouldn't think of marrying themselves down to one man until he popped the question and named the wedding day.

DEAR MISS DIX—Which do you think is the silliest—the old man of 60 or the girl of 16 who get married? PERPLEXED.

ANSWER: If they marry each other, I should say that it was a stand-off, and that one was about as foolish as the other, because one will be as miserable as the other. No match of that kind can possibly result in any happiness, because December and May have nothing in common. If you mean whether it is sillier for a man of 60 to get married, or a girl of 16, sweet 16 takes the cake.

It isn't silly at all for a man of 60 to get married. It is a sensible thing for him to do, provided he marries a woman who is in his own age class. But it is a tragedy for a girl of 16 to wreck her life, as the silly girl in the story does, by marrying at an age when she has not enough intelligence to pick out a husband, or to deal with the problems of wisdom and motherhood. A girl of 16 who even thinks of marrying should have a guardian appointed to save her from her folly.

Carefully Fitted Shoes Essential To Beauty, Style

HOW many women consider their shoes in relation to the really smart effect of their costumes? A hat must be just right, milady declares, or her suit will be ruined, but does she give the same thought to her shoes? To the correctness of the style of them in connection with the rest of her costume? Shoe salesmen in these modern shops must know more about fitting shoes than did their predecessors. They must recognize types in feet as the dress saleswoman recognizes figures and the milliner faces. The long, narrow foot cannot be fitted comfortably or smartly into a short, stubby shoe, and the short fat foot will not look its best in a long, narrow pump.

TWO visiting buyers from Kansas City were pleading for seats at the box office of Broadway's most stamped musical show. "No—nothing downstairs in the \$2.50—and nothing in the balcony in the \$3.50—but there's something good in the gallery for \$1.50," called the box-office man.

Where Tea is "Coin of the Realm"

TEA, pressed into small bricks, passes for money in Siberia, Mongolia and Persia. The custom is at least 1000 years old and is a sign of the great value these people place on their tea. Canadians value their tea in another way. To an Oriental it depends on the size of the brick—with us the standard is quality.

To be worth what you pay for it your tea must have fine flavor and richness. Such is RED ROSE TEA—a standard of very high quality for over 30 years. The finest grade is RED ROSE ORANGE PEKOE TEA—made from the youngest, juiciest leaves of the bush. Yet it costs very little more than ordinary tea and goes much farther. You will be delighted with it, and like very many others whose judgment and taste is unquestioned will praise its choice quality even more than we do. It is only sold in sealed packages, and you should always ask for it by the full name—RED ROSE ORANGE PEKOE TEA—as the name is your guarantee.

HOSPITAL HAS RECORD NUMBER

Average Daily Patients 160.6 During February, Highest Figure

Dentists Request Use of Hospital When General Anaesthetic Has to Be Administered

The superintendent's report submitted to a meeting of the Board of Commissioners of the General Public Hospital yesterday afternoon, among other things, showed that there was an average daily attendance of 160.6 patients at the hospital during the month of February, the highest in the history of the institution. On March 3, it was stated, that the attendance reached 187, the largest number at one time ever to have been attended to at the local hospital.

TO CONSIDER REQUEST.

A sympathetic hearing was given by the Commissioners and the delegation was assured that the matter would be taken into careful consideration. At the same time it was pointed out that the question of accommodation entered into the matter and the hospital accommodation has been taxed to the utmost during the last month and the present month.

special committee to bring in a report. In the correspondence received was a letter from the county secretary announcing that the sum of \$103,000 would be assessed for the hospital this year. This amount was more than \$4,000 less than the estimates and since it was thought more than probable that the full amount of the assessment would not be paid in taxes the matter of finances was subject of serious discussion.

The relatives of the late H. E. Gould wrote to thank the board for a letter of sympathy and an expression of appreciation of Mr. Gould's work and ability. Lt.-Col. Alexander, McMillan presided in the absence of M. E. Agar, M.L.A. Others present were Mrs. J. V. McEllan, Dr. W. W. White, J. King Kelley, W. E. Emerson and H. H. Gale, superintendent.

MONTH'S STATISTICS.

The superintendent's report for February showed statistics as follows: Patients under care, 385; remaining at the end of the month, 173; died, 9; operations in the operating room, 89; in the out-patient department, 75; treatments in the O.P.D., 678; average of patients a day, 160.6, the highest in the history of the hospital. On March 3 there were the largest number at one time, 187, and patients were turned away.

THE RECEIPTS.

Receipts totalled \$12,610.50 and included: City grant, \$5,500; pay patients, \$8,810; X-rays, \$1,400; Women's Hospital Aid, \$64.48 for a basinette and \$100 for the social service worker's salary. The balance of March 1 was \$1,753.12 and unpaid accounts totalled \$8,894.57. Miss M. Murdoch, superintendent of nurses, reported 8 graduates and 6

TILLEY'S SPEECH IN SAINT JOHN FORMS SUBJECT OF INQUIRY

Dr. Baxter or Government Questioned on Alleged Visit to Commission

FORMER PREMIER TO SPEAK TUESDAY

Prime Minister Will Be Heard Next Week in Provincial Legislature

FREDERICTON, March 12—The House will not sit on Monday evening and the debate on the address in reply to the Speech from the Throne will be commenced on Tuesday afternoon by former Premier Veniot.

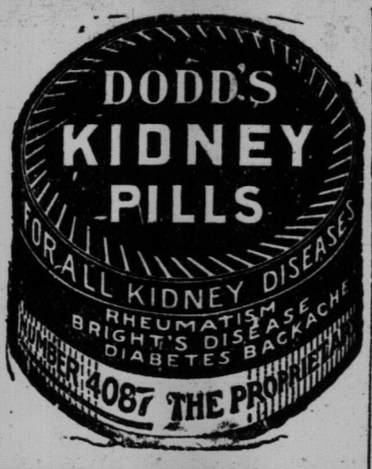

This arrangement Premier Baxter consented. A large number of notices of inquiry for Tuesday next were presented by Opposition members, including Hon. Mr. Veniot, A. A. Dymart, J. E. Michaud and J. A. Doucett. Hon. Mr. Veniot raised a laugh when he asked for official information on the following points:

TILLEY'S SPEECH NOTED

1. When the Hon. L. P. D. Tilley, president of the Executive Council, made a pronouncement before the Rotary Club in Saint John a short time ago, favoring a change in the liquor license law, 1916, did he do so with the consent or knowledge of the Premier?

2. Is the Government, or the Premier aware that the President of the Executive Council paid a visit to the Liquor Commission of the Province of Quebec, or interviewed any member of the Government of that province, for the purpose of obtaining information relating to the work of the Quebec liquor law?

3. Has the President of the Council submitted any report to the Premier or Executive Council touching the operation of the Quebec liquor law. If so, what was the nature of such report? Hon. Mr. Veniot had other inquiries.

relative to stimpage rates, dismissal from office of government employees last fall, and expenditures on ordinary bridges and highways, and the Workmen's Compensation Board.

PRIME MINISTER TO SPEAK

Following the session, the members caught early trains for their homes during the week-end. Next week will be a heavy one with speeches by Premier Baxter, Hon. Mr. Veniot and others on the debate. Practically all of the annual Government reports have been tabled with the laying on the table today of the Public Works, Agriculture, Power Commission, Provincial Hospital and Workmen's Compensation Board reports.

A heavy batch of bills were presented for first reading by the Government, none being of a contentious nature and they were quickly disposed of. A bill to amend an Act to Establish Electoral districts and sub-districts in the province was read a second time.

VENIOT SEEKS DATA

Mr. Veniot gave notice of inquiry for Tuesday next regarding the Workmen's Compensation Board, regarding the financial statements of the province, regarding road expenditures since the end of the fiscal year, regarding road expenditures chargeable to the auto fund.

Mr. Dymart gave notice of inquiry for Tuesday next regarding outstanding stimpage accounts.

Mr. Davis gave notice of inquiry for Tuesday next regarding Musquash power.

Mr. Doucett gave notice of inquiry for Tuesday next regarding vendors' licenses in Gloucester county and regarding the expenses of J. Musserolle.

Mr. Leger gave notice of inquiry for Tuesday next regarding vendors' licenses.

Mr. Veniot gave notice of inquiry for Tuesday next regarding highway expenditure since October 31; regarding bridge expenditure since October 31; regarding Hon. Mr. Tilley's pronouncement of prohibition and his visit to the Quebec Liquor Commission, and regarding the dismissal of officials from office.

SAINT JOHN MEASURE

Mr. Agar introduced a bill regarding the government of Saint John by a selective commission.

Mr. Peck introduced a bill regarding the legalizing of certain lists in Albert County.

Mr. McKenna introduced a bill to incorporate the Saint Croix Water Power Company.

PREMIER'S MEASURES

Hon. Mr. Baxter introduced bills as follows: An act to amend the evidence act; an act respecting the assignment of book debts; and an act regarding disputes of the estates of intestates; an act regarding the maintenance of deserted wives and children; an act to amend the act providing for the payment of pensions and to provide for disability allowances to school teachers; an act regarding the Executive Council; an

Deaths

Mrs. George Murray. News of the death of Mrs. George Murray, which reached the city yesterday, was learned of with much regret by the many who had known her in the days of her residence in Saint John.

She passed away on Thursday at the home of her daughter, Mrs. William Jarvis, in London, Ont. Besides the daughter, there survive two sons, Hugh, in St. Thomas, Ont., and Kenneth, in London.

Mrs. Murray's husband was formerly a merchant in Benton, Carleton County, N. B., and later the family lived in Saint John, when Mr. Murray was with S. Arcott & Company. They made many friends here and to all the news of Mrs. Murray's death came with a large measure of sorrow.

The message telling of her death came to the household of Rev. G. B. McDonald, pastor of the Victoria street Baptist church. Mrs. McDonald is a niece and Mrs. Margaret Marsten, a sister of Mrs. Murray.

It is the second time within a few days that Mrs. Marsten has had to bear the sorrow of news of the death of a sister far away from her, as Mrs. David Porter died in Detroit only a short time ago. E. H. Teed, of Woodstock, is a nephew of Mrs. Murray, and there are many other relatives in Saint John and other parts of New Brunswick. Mrs. Murray, who was about 75 years old, will be buried at

DEFICIT OF \$61,338.68 RECKONED FOR 1925

Cost of Administration is 9 1-2 Per Cent., Document Reveals

FREDERICTON, March 12.—The Workmen's Compensation Board of New Brunswick disbursed \$673,047.74 for the calendar year of 1924 while for 1925 it is estimated that expenditure will amount to \$615,144.78, according to the seventh annual report made up on Dec. 31, 1925, as tabled in the House here this afternoon by Hon. Antoine J. Leger, provincial secretary-treasurer.

The report says that the income shown in the provisional financial statement for the year 1924 is \$607,202.97, while the total actual income amounted to \$615,929.66, made up by an actual income from assessments for 1925 of \$556,240.00 plus a balance of \$59,689.66 from 1923.

ESTIMATED OUTLAY. The estimated expenditure in the 1924 report was placed at \$649,642.89, whereas the actual expenditure amounted to \$673,047.74, or an increase over the estimate of \$23,404.85. Subtracting from this the increase over estimated income of \$8,726.69, leaves a deficit balance of \$14,678.15, thus increasing the provisional deficit of 1924 from \$42,439.92 to an actual deficit of \$57,118.08 for 1924.

DETAILS OF EXPENSES. Details of administration expenses are as follows: Commission salaries, \$11,800; staff salaries, \$24,923.27; traveling expenses of board and staff, \$2,974.82; printing and supplies, \$8,862.20; workmen's and witnesses' traveling expenses, \$2,870.30; postage, \$2,829.70; war tax stamps, \$65.50; machine car expense, \$3,121.61; equipment of motor cars, \$700; permanent equipment at office, \$1,000; janitary services, \$216; premium on fidelity bonds, \$170; telephones, \$855.88; general expense, \$817.70; rent, \$1,900; lighting,

insurance, \$90.40, auditors' fees appointed by N. B. Government, \$800; making a total of \$56,610.38, less \$71,900.00, the proportion of Federal and Provincial Governments, leaving a net total of \$49,419.78. The balance sheet as at December 31, 1925, shows assets as follows: Cash on hand, \$7,190.60; sundry, \$1,988,340.95; bonds at par value, \$967,166.66; balance to debit of classes, \$61,338.68; making a grand total of \$1,234,036.89. Liabilities include bank overdraft credits on assessments, and compensation for unreported claims and for estimated reported claims, totalling \$249,483.66. The reserve for pensions totals \$884,603.23.

As in the past, lumbering is the chief contributor. This is known as class 2 and in 1924, this class paid in \$318,184.01 of the grand total of \$556,240.00. The administration cost apportioned to the class was \$27,023.10, while the total expenditure against it was \$427,483.84. Of this amount, fatal accidents are charged with \$104,266.81 and permanent partial disability, \$71,906.81. Doctors' fees and transportation for this class cost \$53,408.76 and hospital and nursing services, \$28,881.17.

Traffic Cop Traps Automobile Thieves. NEW YORK, March 12.—Patrolman Clarence Allen, on traffic duty at Rockaway Boulevard and Jerome Avenue, Richmond Hill, recognized a stolen automobile when it passed him. Allen thought that if he tried to stop the car it would speed away. He believed it would return soon, so he called two other policemen, who hid nearby. In a half hour the car came back. Allen halted traffic and his aids, with drawn revolvers, arrested the three men in the car.

CONSTANT CURLING, WAVING DRIES LIFE FROM HAIR

Girls just must curl and wave bobbed hair to appear their prettiest. But constant curling and waving burn and dry the hair, vitality and very life from the hair. To offset these bad effects, just get a Scent bottle of delightful, refreshing "Danderine" at any drug store or toilet counter and just see for yourself how quickly it revives dry, brittle, lifeless and falling hair.

"Danderine" is a dependable tonic and will do wonders for any girl's hair. It nourishes, stimulates and strengthens each single hair, bringing back that youthful gleam, glint and vigorous luxuriance. Falling hair stops and dandruff disappears. "Danderine" is pleasant and easy to use.

ACCIDENT CASES IN STREETS MANY

Commissioner Frink Speaks of Complaints of Sighting Being Insufficient. The city streets generally are in a rather slippery condition with hard frost having set in after the recent

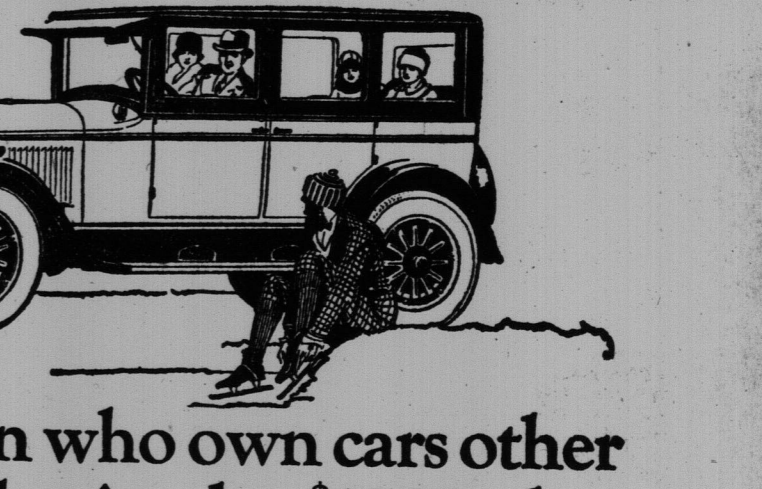

thaw and accidents, some of a minor character and others involving broken limbs, have been quite frequent. It was reported by the General Public Hospital authorities last evening that a number of cases had been treated there during the season. They were under the impression that the number was considerably greater than in previous years but could make no definite announcement as to numbers without making a careful check of the records.

The infirmary reported only an average number of cases by falls, with only one in the institution at present. Complaints have been frequent that the city streets are not so well sanded as in former years. Commissioner Frink said that the heavy storms had compelled a large expenditure for snow removal, and that further work on the streets would mean an additional burden on the taxpayers. One snowfall on top of another is

To all men who own cars other than Chrysler in the \$1200 class— If you have bought any car but Chrysler "58" within the past half year, we believe you did so for one of two reasons— Either you could not get Chrysler delivery at once; or— you were not fully informed on Chrysler performance, quality and value. In either case, the result is the same. You have been deprived of Chrysler's superior value and performance, and of the other superlatives which are distinctive Chrysler.

Let these Chrysler "58" facts confirm what we say— 58 miles per hour— 30 miles to the gallon— 5 to 25 miles in 8 seconds— Finest of alloy steels— Chrysler advanced engineering— Finest of precision manufacture— Closed bodies by Fisher— Insulated power plant— Finest equipment— Exclusive Chrysler beauty of design— Hydraulic four-wheel brakes at slight extra cost— Balloon tires— Beautiful new color combinations. We are eager for the opportunity to demonstrate all the Chrysler "58" superlatives to you. Select the body style you like best. Ride in it and drive it yourself in a demonstration of your own making.

Let these 100,000-Mile Studebakers tell you what Unit-Built means

Listed below are a few of the Studebaker owners who have driven their cars from 100,000 to more than 300,000 miles. All Studebaker models are included in these records. The list is by no means complete—there are hundreds more throughout the world. You hear and read of stamina—do you know of greater stamina than this? You listen to talk of dependability—do you judge the dependability of the car you buy from records like these? We have been telling you in Studebaker advertising of the scores of thousands of miles of excess transportation built into every Studebaker. Here is the proof!

Eczema On Hands For Two Years Cuticura Healed

"For about two years I suffered with eczema on my hands. It started with small scales and then turned to a rash and was very sore and red. It itched terribly at times and kept spreading until my fingers were covered with it. I could not put my hands in water nor do any work. I did not get much sleep at night on account of the irritation. I used other remedies without much success. I saw Cuticura Soap and Ointment advertised and sent for a free sample. After using it I purchased more and in a month's time I was completely healed." (Signed) Lawrence Cheung, West Chazy, N. Y., Sept. 27, 1924.

Make Cuticura Soap and Ointment your every-day toilet preparations and have a clear, sweet skin, soft smooth hands, and a healthy scalp with good hair. Cuticura Talcum is unexcelled in purity.

DOCTOR ADVISED OPERATION FOR MRS. PENN

She Escaped It by Taking Lydia E. Pinkham's Vegetable Compound. Windsor, Ont.—"After the birth of my first baby I was very much run-down in health and the doctor said I must have an operation as I was suffering from a displacement. A friend wanted me to try your medicine—Lydia E. Pinkham's Vegetable Compound—and I took it steadily for a year. During this time I was carrying my second baby and I felt real well all the time and did not have a hard confinement. I feel sure the Vegetable Compound did me a lot of good, and all my people do, too. One sister in Lexington, Ontario, takes it, and both sisters praise it as a good medicine. I am more than pleased with the result."—Mrs. W. F. F. Windsor, Ontario.

Mrs. Corbin Relieved from Pain Stewiacke, N. S.—"I had pains across my back and in my side for two years after my first baby was born. My mother had taken Lydia E. Pinkham's Vegetable Compound and I read about it in the papers, so I tried it and the pains all left me. I have a family of three children now, and the medicine helped me during the months before they were born. I recommend it to my friends."—Mrs. CARY W. CORBIN, Main Street, Stewiacke, Nova Scotia.

WALL BETWEEN PROVINCES NOT THOUGHT GOOD

Hon. Mr. Mercier Deprecates Suggestion in Quebec House

CROWN LAND TIMBER TO MILLS IN N. B.

Hear A. L. Petty in Interest Member, Objects and Wants Correspondence Motion

QUEBEC, March 12—No Chinese wall must be erected between the provinces of Canada, declared Hon. Honors Mercier, Minister of Lands and Forests, in the Legislative Assembly, when the question of wood cut in Quebec and New Brunswick with respect to the manufacturing of wood cut in Quebec.

Mr. Langlais' contention was by no means new, as the minister reminded him, since it was brought into the House by Fabien Bugeaud, then M. L. A. for Bonaventure, and now banking in the sunshine which surrounds the judicial bench, for Mr. Bugeaud is a magistrate.

Manufactured in N. B. Mr. Langlais said that most of the wood cut in Bonaventure county, and much of the wood cut in Temiscouata county, went across the Bale de Chaloutra to be manufactured in New Brunswick, and he wondered whether something could not be done in the matter.

Says Barrier Bad. It was not well, said Mr. Mercier, that there should be raised a barrier between the provinces, since this would constitute discrimination in trade between the provinces. It happened at times that certain manufacturers had raw materials in one province and manufactured them in another province, and, in addition to the case cited, there was also the Ottawa River case where were companies which held forest limits in this province and manufactured their wood in Ontario.

H.P. SAUCE Very nice with cheese.

legislation to prevent the wood going into New Brunswick. Transportation The matter as regards the Gaspé peninsula, said the minister, was one largely of transportation, and he hoped the transportation facilities of that section of the province would soon be bettered, so that it would pay to manufacture the wood cut in the peninsula at home, instead of sending the wood to New Brunswick. Hon. Mr. Mercier added a few words to the effect that industry in this province depended a good deal on the forests of the province, and also that much of the industrial life of the province was tied up in such industries. Hence, he said, it was well to be careful in the matter of legislation, so that harm would not result. "We are working for a solution, and hope in the near future it will be possible to arrive at this solution," said Mr. Mercier. "We would like to have all the wood cut in the province manufactured in the province and hope this will be possible in the near future." It was necessary, he said, that in matters between the provinces a happy medium should be established, and of late years, and, in fact, for many years, the representatives of the various provinces had been in the habit of consulting each other.

DIGBY MAN, CORONER 42 YEARS, RESIGNS

DIGBY, March 12—Last week Major John Daley tendered his resignation as coroner to the Provincial Government, which has been accepted. Forty-two years ago Major Daley received the appointment of coroner for Digby county, succeeding the late Dr. Stephens. During that time he has conducted 74 inquests. Major Daley is also game warden for the county, and is one of the oldest game wardens in Nova Scotia. This appointment was given him in February, 1870, and for 46 years he has conducted this office. Mr. Daley is 85 years of age and still takes an important part in helping to bring violators of the law to justice.

able to arrive at this solution," said Mr. Mercier. "We would like to have all the wood cut in the province manufactured in the province and hope this will be possible in the near future." It was necessary, he said, that in matters between the provinces a happy medium should be established, and of late years, and, in fact, for many years, the representatives of the various provinces had been in the habit of consulting each other.

Mr. Langlais said that the prohibition of the export to the United States of wood cut on crown lands had not resulted in trouble, and perhaps a similar measure would not do harm.

While several kinds of coal can properly be called original Miller's Creek coal, only ONE holds right to the title—

**CONSOLIDATION MILLER'S CREEK COAL**

In CONSOLIDATION Miller's Creek coal you won't find in any of the others; it lights quickly, burns free, and clean, all but no ash, makes a hot, solid, lasting fire like anthracite, cheaper than hard coal and spreads further.

Look for the word CONSOLIDATION—as well as Miller's Creek, on your coal bill, to be sure of the genuine.

Consolidated Smelters Buying Features Early Trading in Montreal

**NEW YORK, March 13**—(Wall Street opening)—Stock prices moved irregularly lower at the opening of today's market. Heavy week-end profit taking was accompanied by short selling, apparently based on the belief that the market was entitled to a technical reaction after the sustained recovery which took place early in the week. Chesapeake and Ohio and Dupont each opened a point lower, and U. S. Steel common, Mack Trucks and several other industrial favorites yielded fractionally on initial transactions.

**THE STORY OF JOSEPH MARTIN**

FEELS LIKE A NEW MAN SINCE TAKING "FRUIT-A-TIVES"

**THE STORY OF JOSEPH MARTIN**

The story of Mr. Joseph Martin of St. Ursule, P.Q., reads like a modern miracle. He was an unusually bad case of indigestion. In his own words he writes, "For about ten years I could not digest my food. For a year I could not work. I had no strength and I could hardly eat. I was like dead. Now I work and eat as much as I used and feel like a new man. Your 'Fruit-a-tives' have relieved me completely, and I would have died without your remedy. I was under the care of a doctor for a year without getting any relief. I am thankful to you, as you have saved a martyr of dyspepsia." (Signed) Joseph Martin.

"Fruit-a-tives" are different from any other medicine, being made of the intensified juices of fresh apples, oranges, figs and prunes combined with tonics. They will give you prompt relief. 25c, and 50c a box—at all dealers.

**Letters to the Editor**

**A LETTER FROM MR. WILCOX.**

To the Editor of the Times-Star:—Sir,—Allow me to correct a statement in the Times-Star of March 11, that he was the first to enter the home of Mrs. Anderson. I think he must have been dreaming, for he says he searched hurriedly through the room for the baby. I had no trouble finding Mrs. Anderson and the baby, for she was holding the baby in her arms when I entered the room, where all the lady, with the baby in her arms, was standing in the middle of the room, with the blood streaming from her face. When I spoke to her she said for me to take the baby, "for I am stone blind." By that time there were quite a few at the door, and the lady was taken by someone, and the lady returned to another room, where all that could be done was done till the ambulance arrived.

J. T. WILCOX.

Saint John, March 11, 1926.

**PROHIBITION ENFORCEMENT.**

To the Editor of the Times-Star:—Sir,—In your issue of March 11 you have a report in which you say Chief Inspector W. W. McFarlane has instructed the inspectors here to enforce prohibition without "fear or favor." If such is the case, why did he take away the licenses from two beer shop proprietors and allow 50 others to run full blast? Why does he also allow some of the vendors to sell liquor by the glass and bottle, without a doctor's prescription?

If we are going to have prohibition now, why don't we have it? If Mr. McFarlane is sincere in his statement, why does he not enforce the law? Furthermore, there are two breweries in full blast, making intoxicating alcohol, and terms circulating the city delivering to the beer shops.

Yours truly,

ROBERT CRAWFORD.

**CRAZE HAS PASSED CLIMAX NEW YORK CONVENTION TOLD BY PRESIDENT**

**NEW YORK, March 12**—The Master Hairdressers' Association, at its annual convention at the Hotel Commodore, announced that the bob had passed its crest and that long hair was on the way back to favor. The association has a desire to lead public opinion back to long hair.

"There are many things which indicate that the craze for the bob has passed its climax," said Charles Nessler, president of the association. "Chief among these is the fact that her personal vanity. Our women would far rather be beautiful than masculine. They have claimed that they desire comfort, convenience and attractiveness of the bob, but on those occasions when they desire to look their best they come to the hairdresser for a 'bob cover' to conceal their shorn locks."

Dr. Frank Parker denounced the bob as a cause of falling hair, but Dr. W. A. Pratt, plastic surgeon, declared that the bob had come to stay because women preferred to resort to plastic surgery to keep their faces as young as their coiffures.

Mr. Nessler announced that the association is supporting a bill at Albany which requires that the operator of a beauty parlor have three years of practical experience before opening up a business.

**GARDINER PLEADS FOR LIBERAL UNITY**

Saskatchewan Premier Declares Party is Neither Federal or Provincial

**Canadian Press**

MOOSEJAW, Sask., March 13.—Speaking at the annual meeting of the Liberal Association of the Federal constituency of Moosejaw, Hon. J. G. Gardiner, Premier of Saskatchewan, stated that there was one Liberal party in the Province of Saskatchewan and that it is neither provincial nor federal, but a united party. Only by maintaining the Liberal party would this province become the arbitration in the future of those questions which in the past had been decided in the east.

**IMPEACHMENT OF JUDGE IS FAVORED**

Recommendation of U. S. Judiciary Committee Goes to House Soon

**WASHINGTON, March 13**—By a vote of 15 to 6 the House Judiciary Committee agreed to report a resolution recommending impeachment of Federal Judge George W. English of the Eastern District of Illinois on charges of high crimes and misdemeanors.

The case against Judge English will go to the House in a few days. If the House votes to impeach, Judge English will be tried before the bar of the Senate, sitting at a high court, for trial. If the House rejects the resolution it will be the end of the proceeding.

**CASE PENDING SINCE JANUARY.**

The offences charged against Judge English include alleged corruption and tyranny in office and misbehavior on the bench. The case was formally brought to the attention of the House in January, 1925, when a resolution was introduced by Representative Harry B. Hawes, of Missouri, a Democrat, providing for an investigation of the Eastern District of Illinois, and setting forth charges publicly made against him by The St. Louis Post-Dispatch.

The Hawes resolution outlined the charges preferred by The Post-Dispatch, as follows:—

"First.—Tyrannical and unjust dismissal of attorneys-at-law;

"Second.—Unlawful permission to his private secretary to receive and return in bankruptcy, to practice as attorney in bankruptcy cases;

"Third.—The deposit of funds and assets controlled by the Court in designated banks in which the Judge and referee were stockholders;

"Fourth.—The continued designation of the Government Sales Corporation, in which the relatives of Judge English and Referee Thomas are financially interested, as the agency for the disposal of assets of bankrupts;

"Fifth.—The appropriation and irregularities which thwart justice and prevent its administration."

**For Rheumatic Sufferers.**

Sufferers from rheumatism who have found their condition unrelieved or actually growing worse while using other remedies, would do well to try Dr. Williams' Pink Pills. The tonic treatment with this medicine has proved in thousands of cases that it builds up the blood to a point that enable it to cast out the rheumatic poisons through the regular channels, the bowels, kidneys and skin. When this is done rheumatism is banished, and as long as the blood is kept pure and rich the patient will be immune from attack. This is fully proved by the case of E. E. Davis, J.P., of Danvers, Mass., who says: "I feel it my duty to sufferers from rheumatism to recommend Dr. Williams' Pink Pills. Some years ago I was a great sufferer from this trouble and was confined to my room. I tried two doctors without relief and had become despondent. Then I saw Dr. Williams' Pink Pills recommended for this trouble and got six boxes. Before they were all gone I was able to get about my usual crutches, and when I was on the eleventh box I started to work. I have

GOLDEN HARVEST FOR MARITIMES; WORK NEEDED

T. Moffett Bell Draws Lesson For Provincers. From Florida Visit

MAINE SENDS DOWN TO GET BUSINESS

New Brunswick Has Great Opportunity, Says Saint John Man

T. Moffett Bell of the Saint John brokerage firm of Thomas, Armstrong & Bell, who has just returned after a visit to Florida, where he saw the surprising things being done to exploit the country as a winter playground resort, came home deeply impressed with the opinion that New Brunswick and the other two Maritime Provinces may have a golden harvest to reap if progressive methods are adopted to bring summer tourists out of the sweltering cities of the U. S. and Upper Canada to the cool and restful Maritimes, with their wealth of natural attractions.

PURELY ENTERTAINMENT. Most of the Saint John men's time away was spent in Miami, one of the numerous centres of intensified development in Florida. Mr. Bell agrees with several other prominent Saint John citizens who recently returned from that area, in the opinion that the development is almost purely residential. Industrial activity had not begun and it was doubtful if the country admitted of much else but winter housing schemes, food supply through agriculture and manufacture, and the lines of endeavor designed purely for entertainment. Florida, as it appeared today, did not seem to be worrying about money-making along industrial lines. It seemed to have set its mind to being purely and simply a cold weather resort for the people of the northern part of the continent and appeared to be progressing as such.

MAINE DELEGATES. This prompted Mr. Bell, as well as other New Brunswick visitors to Florida, to assume that, with proper exploitation, the supplying of living quarters, recreational facilities—which in turn would be naturally followed by transportation arrangements—the Province of New Brunswick might step into the very same sunlight as Florida during the U. S. hot weather period of June, July, August and September. State of Maine business men, official men and producers are already wise to the situation and while Mr. Bell was in the south an imposing delegation headed by the Hon. J. B. Macdonald, minister of the Interior, visited the southern boom country and preached the gospel of the Pine Tree state, which adjoins New Brunswick.

WHERE WE EXCEL. One of the chief slogans employed by the Florida boosters was that the country was only 36 hours from 40 million of northern people. In this regard New Brunswick and the Maritime Provinces had Florida beaten by at least 12 hours. Moreover, this part of the world offered many advantages not possible in the south. Besides our cool summer daylight, New Brunswick and the Maritimes boast exhilarating night-time when sleep was not fretful because of the heat as in the south. Down south they concentrated their activities on January, February and March, but up here we offered an extra month for the vacation period. In Florida horse racing, swimming pools, dog-racing, automobile golf, tennis, baseball, etc., were the chief diversions, while the northern playground enlarged this list and had the added advantage of inexpensiveness as so many of the sporting haunts were gratis.

GOLDEN HARVEST. Although Mr. Bell, while deeply impressed with the substantial methods employed by the realtors and playground promoters of the south, many of whom had become well-to-do since the boom started, and not discounting in the least the actual development of the country as a winter resort, could not escape the conviction that New Brunswick, Nova Scotia and Prince Edward Island had an even better opportunity to cash in on their beautiful and wonderful summer climate if the proper public-spirited action was taken to supply accommodations for the many who could come from the crowded cities of Eastern United States and Upper Canada. A golden harvest was ready for the Maritimes, was Mr. Bell's belief.

MARITIME SCENIC VIEWS TO BE SHOWN

Dr. P. E. Doolittle to Lecture in Beatty Hotel Saturday Evening

Saint John citizens interested in the roads and scenery of the Maritimes will have an opportunity tomorrow evening to hear something about them and see views of the highways and scenic beauties of these provinces and northern Quebec. At 9 o'clock tomorrow evening in the Georgian hall room of the Admiral Beatty hotel Dr. P. E. Doolittle, president of the Canadian Automobile Association, will give an illustrated talk on this subject. This will be, with some additions, the same lecture as he delivered recently before the members of the New Brunswick Automobile Association. The lecture is free and all interested are invited to attend.

Local News

BISHOP IN CITY. His Lordship Bishop Richardson, of Fredericton, arrived in the city noon today and will preach at Trinity church on Sunday at the 11 o'clock service.

DOKAY CEREMONIAL. At a meeting of Adila Temple, No. 187, D. O. K. K., in Castle Hall, Union street, a good class of candidates traveled the burning sands of the desert, en route to the oasis. After the business session a delicious banquet was served. Plans were discussed for the big ceremonial to be held in the city on the 20th of next month.

CLUB ENTERTAINED. Twenty members of the Fireside Club of the Victoria street Baptist church entertained by Mrs. C. M. Culver, 19 Westworth street, a delightful supper at which the hostess was assisted in serving by her sister, Mrs. Willard B. Mahoney, and Miss Daisy Driscoll. Rev. G. B. Macdonald, on behalf of those present, extended a hearty vote of thanks to Mrs. Culver for her hospitality.

MISSIONARY PAGEANT. A large audience greeted the presentation of two missionary pageants last evening at the Tabernacle Baptist church, under the direction of Mrs. L. A. Tedford. The first was "The Challenge of the Cross" and the second "Little Maid Who Went Into All the World" solo, sung by Rev. A. L. Tedford; vocal duet, by the Misses Georgia and Evangeline McKay; violin duet, given by W. Green and Arthur Chittick and candy was sold. A good sum was realized for mission work in India.

BRIDGE ENJOYED. Mr. and Mrs. Herbert N. Hamilton, 173 Westworth street, gave a delightful bridge of six tables last evening at their home. The prize winners were Miss Alice Curtis, Mrs. J. E. Byrne, H. H. Bell and W. H. Bryden. Those present were Mr. and Mrs. H. H. Bell, Mr. and Mrs. W. H. Bryden, Mr. and Mrs. J. E. Byrne, Mr. and Mrs. J. E. Sullivan, Mrs. Annie Bell, Ida M. Hamilton, Hazel Clark, Alice Curtis, Olive Walker, Misses E. J. Hilyard, E. M. Smith, H. D. Coleman, Y. H. Adams and H. Clark.

"DANNY" IS DEAD. "Danny," a som de plume known throughout the moving picture exhibiting world as that of the best beloved and most infatigable, died suddenly this week in New York. His daily paper, The Film Daily, known as Bradstreet's, was published by Saint John exhibitors today brings the sad news and was read with much surprise and regret. "Danny" was a former newspaper man from Baltimore who constituted himself a confidential expert in judgment film productions and singularly enough his judgment satisfied buyer and seller alike.

AWAY ON MONTCALEM. After bringing a record number of passengers to Saint John on her westward voyage last week, the Canadian Pacific steamship Montcalm sailed yesterday for Liverpool under Commander C. J. Potter, 63 St. James street. He had been in falling health for a considerable time but was able to be aboard and was out to sea at 10 o'clock last night and he passed away an hour later.

Mr. Cairns was a son of the late Mr. and Mrs. Alex Cairns. He took up the calling of a machanic and became a very expert man at his profession. Following the occupation in his home city for years, he then went to Vancouver where he was with the Ford Company. Returning home he continued with the Ford Company for a while and then went to business for himself as a repairer of automobiles. This he continued until falling health caused him to give up his activities. In earlier years he had been mechanical superintendent of the Cornwall cotton factory and of the Nashua pulp mill.

Mr. Cairns' death follows but a few months upon that of his wife, who was Miss Elizabeth Johnstone, of Upper Loch Lomond. She passed away on October 27. Since then Mr. Cairns had spent part of the time at Loch Lomond and then took up residence with his sister. He is survived by two brothers, DeWitt of Saint John and Joseph of Concord Junction, Mass., and five sisters—Mrs. R. B. Emerson and Mrs. A. G. Potter of this city; Mrs. E. Harding of Saint John; Mrs. B. Robison and Miss Frances Cairns, both of New York.

The funeral will be held on Monday afternoon at 3:30 o'clock from the residence of his sister, Mrs. Potter, 63 St. James street. Interment will be made in Fernhill.

STUDIES AT NIGHT AND DOUBLES PAY

Hugh Case, Former Times-Star Newsboy, Sets Example in California

In a recent issue of a California newspaper reference was made to Hugh Case, a former Evening Times-Star newsboy. This youth left Saint John three years ago to make his home with his grandparents, Mr. and Mrs. Frank Cogswell, at Torrance, Calif. The paper says: "Hugh Case, who attends the Torrance Part-Times High School, has demonstrated what studying can do to improve one's job. He started working in the Kern Dairy at \$60 a month with room and board. He joined the Dairyman's School in Los Angeles and studied two and a half hours each night, three nights a week for eleven months. His studies were: milkhouse work, care of milk, testing and milk culture. Hugh has a diploma showing he is an experienced dairyman and entitled to top salary for dairy work. "Besides this he has doubled his salary since he started as a helper. The salaries for experienced milk house men range from \$120 to \$140 a month with room and board. There is a demand for experienced dairymen. Moreover, Hugh says it is a very healthy occupation."

As Hiram Sees It

"Well, sir," said Hiram Hornbeam to the Times-Star reporter, "me an' Judge Henderson an' Steve Matthews an' Walter Pearce an' Will Cross an' Rev. Mr. Fulton and Commissioner Wigmore an' a hull lot more went to that there Dad an' Daughter banquet up to the Y. W. C. A. last night an' we had a good time. You got a lot o' smart gals in this town—an' I callate some o' 'em 'll show the young fellers how to make speeches when they git some more practice. I hain't laughed as much for a long spell as I did when I seen some o' 'em trim their daddies good an' plenty in a relay race. Well, sir—one woman told us how they got 'round 'the world. The's a lot o' things gals is doin' now that they didn't do when you an' me was young—an' we ain't never goin' back to the old times, nuther. That's why we need places where they kin hev a good time an' keep away from what ain't good fer the mothers of our gran'. I see 'em 'n' nobody says is more when they hev places that's more like when times gits good in Saint John that there Y. W. o' towns out west—yes, sir."
