ROWBOAT NOW
USED AS FERRY

The E. Ross Goes to the
Blocks and Effort Is Made
to Give Some Service.

Another mishap has occurred to the ferry steamer E. Ross, serving between Indiantown and Pleasant Point. She was taken through the falls leading on Saturday in tow of the tugboat Wasson, and is now on Hillyard's blocks, while a large rowboat has been put in operation as a ferry. The steamer was inspected today at noon by Heber Vroom, chairman of the Lancaster ferry commission, and councillor John O'Brien, one of the members, and was decided to enter into an arrangement with Captain Gilchrist, who has been in charge of the ferry, for a rowboat service until something better might be arranged. Councillor O'Brien on Saturday, so on as he heard of the trouble with the steamer, engaged Daniel Hurley to ferry people across by rowboat. It was figured today that it would hardly be possible to put the E. Ross on the route again, and with the use of the rowboat much more could be done. It was decided to put the E. Ross on the route again, and with the use of the rowboat much more could be done. It was decided to put the E. Ross on the route again, and with the use of the rowboat much more could be done.

Bohemian On
Ledges Today Near
Halifax Harbor

Steamship Strikes on 'Blind Sisters' at Sambro
in Thick Weather

Agents Think She May be Saved, as Sea is Not
Rough—Passengers Spend Four Hours in Boats,
With Lines to Vessel, Till Rescued by Tug From
Halifax.

Halifax, N. S., March 1.—The Leyland liner Bohemian went ashore at Sambro Ledges off Halifax harbor early this morning in a snowstorm. The sixty-four passengers on the steamer were brought to Halifax by the tug Roebing. The ship grounded on the sinister rock ledge known as "The Blind Sisters." Some tugs are standing by the wrecked steamer. It is not particularly rough, but the weather is exceptionally thick in Early Morning. The first word of the ship's plight came to C. H. Harvey, marine department agent, this morning at 8.30 o'clock. It was that the Bohemian was on the rocks south forty minutes east from Sambro Light, and that immediate assistance was needed for taking off the passengers and crew. Mr. Harvey replied that assistance would be sent immediately. He ordered the tug Roebing to get underway at once, and to put to sea at once, and notified the various Halifax tug-owners of the Bohemian's distress. The ship's agent was arranged with G. S. Campbell & Company to dispatch the tugs Roebing and O'Leary, and Hendry, Ltd., the Islander. The marine department agents sent a radio to the captain of the Bohemian, asking for further particulars, and was informed that the steamer was sounding on the rocks. He said there were thirty-four passengers and 120 of a crew on the steamer. The first ship to reach the scene was the tugboat Mackay, which sighted the Bohemian's lights before dawn. The captain of the Bohemian advised the Mackay to stand by until daylight before attempting to launch a lifeboat to attempt rescue of the passengers. Later, however, he informed the Mackay more that the tugs from Halifax had arrived and that he would transfer his passengers to them. By eight o'clock the passengers were safe on board the tug Roebing and speeding to port. Boston, March 1.—The steamship Bohemian left here on last Saturday with sixty-four cabin passengers and a crew of 200 men and a valuable cargo. She had been expected to dock at Halifax for a few hours today to take on more cargo and coal. Sydney, N. S., March 1.—Cape Race this morning that the American shipping board steamer Davidon County was being towed to S.O.S. cals. The steamer was reported in a disabled condition in latitude 36-20 north and longitude 53-30 west. The Davidson County sailed from Fayal. FOUR HOURS IN BOATS AS SHIP.

Halifax, N. S., March 1.—The passengers of the Bohemian were landed for a little after nine o'clock this morning from the tug Roebing, which had delivered them from open boats, in which they spent four chilly and somewhat anxious hours. However, these boats were safely anchored and the men here as she nestled upon the "blind" but certainly dead "Sisters" as this section of the ledges is known. The Bohemian struck about two o'clock this morning. Thick weather and a heavy snowfall were responsible for the disaster, but there was practically no sea running. The Bohemian struck on the rocks and the vessel is sitting evenly. If the weather holds, the ship's agents in Halifax, A. G. Jones & Company, say that there is every possibility of salvaging her. There was no panic when she struck. The passengers, who flocked to the deck in alarm, were told to go below and lie there, themselves warmly. Then the lifeboats were lowered. The traditional rule of women and children first held, but husbands were permitted to accompany their wives into the boats. Blankets were also thrown in for warmth. The boats—there were seven of them—were made fast to the Bohemian with lines. This was about three o'clock. All seven tugs sent out from this city put in their appearance, picking up all the passengers and some of the crew. The four intervening hours, though not fraught with danger, were far from pleasant ones. The captain and a portion of the crew are remaining on the Bohemian. The rescued ones made a motley assemblage, but merry, clad in impromptu wraps, nightgowns in almost every instance replacing underwear and a few clutching pieces of hand luggage which they had hastily seized. Women seemed to be in the majority and there were several babies, so swathed in blankets that not even the tips of their tiny noses were visible. The passengers were conveyed to city hotels with a minimum of delay. "We did not expect to see Halifax," remarked one man, genial though colorless. "We knew we would coal here, but they told us that the immigration officials would not let us land. Well, we've landed all right, but there was no bit of panic on board and the women were splendid." "It was some cold on those boats," observed another. "I almost froze to the gunwale and though we were tied to the ship, we had to row hard to keep away from it. There were only two sailors in my boat. I don't think I ever worked so hard, and the snow did not add to the joy of the circumstances. The thing that saved us was that they made us on the Bohemian and lowered it to us on a cord."

As Hiram Sees It

"Hiram," said the Times reporter, "you are being criticized for your apparent opposition to harbor commission. Why, even Shakespeare gave criticism." "Was it Shakespeare?" queried Hiram. "I said: 'What fools these mortals be?'" "You are hopeless," said the reporter. "I don't see it isn't politics that influences you?" "Mister," said Hiram, "I heard one time about a fellow that went into a crowd and he was pickpocketed around; an' when some of 'em slapped their hands on their money-pockets he knowed where to go after it. When you hear a man accusin' somebody else of playin' politics, you keep an eye on that man. He'll be watchin' himself!" "But," said the reporter, "it is harbor commission or nothing—'isn't it?'" "Look here, mister," said Hiram, "couldn't get our stables market without puttin' a bridge over the creek. Wouldn't we?" "I suppose you would," said the reporter. "Yes, sir, we would," said Hiram. "An' the government of Canada can't get freight from its trains into its steamers unless it has wharves at St. John. It built wharves for the C. P. R. Why not build wharves for itself? What that man Gaudet gets on about—'just for fun?'" "But," said the reporter, "you want to hold on to that wharf?" "I don't see how it can be done," said Hiram. "I don't see how it can be done," said Hiram. "I don't see how it can be done," said Hiram.

Blockade Is Begun

Critical Situation in City Where D'Annunzio
Gained Notoriety—Call for Occupation by British
or Americans.

(Associated Press.) Fiume March 1.—A siege of Fiume has begun with a stringent blockade against commodities, including foodstuffs. "Perhaps we may appear to be lenient toward those occupying Fiume," said Gen. Cavaglia, of the government forces, "but it is not against the forces of iron blockade we are prepared to contend. D'Annunzio, I am not offering them the slightest atom, but the children must be cared for. That is why I allowed 300 children to come out of Fiume and procure foodstuffs." The correspondent has gleaned opinions of all sorts in Fiume. Those of the citizens with whom he has talked seemed and that the city now is in the deepest of despair, financially and commercially. "We are starving," said a prominent banker, who previously had been a strong supporter of Italian annexation. "We are unable to go further. We now are ready for an international city. We want our port re-opened to commerce. We want the city occupied either by British or an American garrison. The present state is impossible." The labor federation issued the following communication: "The news reaching us from different points of the country, the federal council observes that the general strike movement is carried out in perfect calm."

ST. JOHN AND CANADA.

St. John's business in relation to its harbor is not with a government at Ottawa, but with the Dominion of Canada. Let the distinction be clearly made.

In Nova Scotia there is much discussion on the subject of amateur sport. It has been found necessary to suspend a number of hockey players because they had made themselves professional.

Why then get into a panic and sacrifice the harbor as proposed under the present commission? There is no danger that the government will not develop the port as it should be developed.

Let it be clearly understood, however, that the appeal is not made to a government but to the people of Canada. They must be enlightened and convinced.

February maintained to the last its record as a winter month of exceptional severity. We step into March with a sigh of relief, and yet with a doubt born of a hard winter's experience.

AT OTTAWA. The Ottawa puzzle is still unsolved. There is an impression that Sir Robert Borden will not resume the active leadership of the Unionist party, and that from New York, it is apparently settling that Sir Robert will not be in the house this session, even if he should not at present formally resign the leadership.

SOLD FOR A DOLLAR. A woman who bought for a dollar a child that is now in the Home of the Children's Aid Society, says such agreements are not infrequent, and that the lawyer's fee is usually five dollars.

ASSESSMENT COMMISSION FOR MANITOBA COMING. Winnipeg, March 1.—Manitoba will be the first province in Canada to have an assessment commission. It will be set up by the provincial government.

LANE ROUGH ON WASHINGTON. Retiring Secretary of Interior, F. B. Lane Says Poorly Organized for Its Task.

Washington, March 1.—Official Washington, a combination of political causes, drawing room and civil service bureau, containing statesmen who are not politicians and politicians who are not statesmen, is poorly organized for its task, which fewer men of larger capacity would do better.

REFUSES MILLION FOR LIQUOR WATCH ON U. S. BORDER LINES. Washington, March 1.—Congress has unanimously refused appropriation of a million dollars to patrol Canadian and Mexican borders to prevent liquor smuggling.

SCARED. My neighbor, J. Whangloodic Brown, came up to me and cried, "The Spanish flu has struck the town, and two or three have died! I know I'll have the blamed disease, such ails don't pass me by; I feel the symptoms in my knees, and also in my eye."

CANADA—EAST AND WEST

EDWARD BLAKE. On the first day of March, 1912, in the city of Toronto, Edward Blake, one of the foremost political leaders of Canada, died at the age of seventy-nine years.

IN LIGHTER VEIN. Jeweler—Why do you want the diamond removed from this ring? The diamond is a poor thing, and it is better to have a ring without it than to have a ring with a poor diamond.

WOMEN WHO NEED STRENGTH

should Take Advantage of Their Druggist's Guarantee

That Vinol Will Enrich the Blood, Create Strength, Restore Vitality and the Bloom of Health, or Will Return Your Money.

Why will women continue to drag around sickly, ailing, tired all the time, nervous, and no energy or ambition to do anything, when we guarantee our non-sectarian cod liver and iron tonic, VINOL, to make rich, red blood, quicken the circulation and restore strength, vitality and energy to every organ and muscle of the body and impart the bloom of health to the countenance.

If women would just stop and consider that their weakness, sickly, ailing condition is almost always caused by poor, thin, watery blood and sluggish circulation, and how quickly VINOL enriches the blood, increases red corpuscles and restores old time Vin energy and vitality, they would not be able to get enough to supply the demand.

Druggists know what VINOL contains, and that it is a combination of the most successful tonics known to medicine, iron, Cod Liver and Beef Peptides and Glycophosphates. That is why they are so willing to guarantee it to help you or return your money.

HOBOKEN TEAM OF BOWLERS WINS THE TOURNAMENT

The Tietjen-Lang Dry Dock Company of Hoboken, N. J., with a grand total of 9035, clinched first honors in the first annual international industrial telegraphic bowling tournament, here by winning a handsome championship trophy donated by the Brunswick-Balke-Collerander Company of Chicago, as well as five beautiful wrist watches contributed by the T. Eston Company, Ltd., of Winnipeg. Their big score came in the last game when they tumbled 1073 pins, H. Borchers, the anchor, being the big pin getter with a 286 game.

The Goodyear Tire & Rubber Company team of Akron, Ohio, through the consistent rolling of E. Tietjen, the best individual pin toppler of the tournament, marked up a 2009 score, netting then second honors, and five Keen Kutter safety razor sets donated by the Simmons Hardware Company of St. Louis, Mo. The Nash Motors of Kenosha, Wisconsin, with 2972 after an 1101 start, finished third, thereby winning the set of "Greyhound" tires given by the Ideal Tire & Rubber Co. of Cleveland, Ohio.

The 2961 score registered by the International Harvester Company, while rolling at the Illinois Athletic Club of Chicago, Saturday night, was the next best total, and although these boys finished fourth, they were really the only ones to bring home the "bacon," as the five

one-pound boxes of bacon, donated by the George A. Hornum company of Austin, Minnesota, which they won will verify.

The 101st game of the Nash Motors team will net its members a suitable prize for their "better-halves" in the way of six one-gallon cans of Liquid Gloss Furniture Polish, given by the Standard Oil Co. of Chicago, for high game. The Goodyear five will win the five boxes of Wrigley's chewing gum with their 1000 score. The N. K. Fairbank's donation of one box of Corvo will go to the Carroll Engineering team of Dayton, Ohio, as their 1090 total was the next best.

E. Tietjen of the Goodyear team will be the recipient of the handsome championship gold medal donated by the Brunswick Balke Collender Co., of Chicago, proclaiming him the individual champion, his 666 total being the best individual mark of the tournament. Fiske of the Standard Oil team of Chicago with 656, and E. Ruck and Borchers will each receive a gold fob donated by the Savage Arms Corporation of Utica, N. Y. Rank of the Continental Can Company of Chicago and Borchers of the champion Tietjen team were tied for third place with 650 apiece.

CROSS-BENCHERS ARE GROUPED IN THE COMMONS

Seats at Lower End of Opposition Side of House, Farthest Away From the Speaker.

Ottawa, March 1.—When the House resumed this afternoon the cross-benchers are not going to be lost in any shuffle of seats scattered here and there around sides of the speaker. That much has become evident, with the placing of name cards on the desks. A way down the lower end on the opposition side, farthest away from the speaker, are about a dozen seats where several who formerly sat with the government supporters, including Michael Clark, J. Maharg and Hon. Mr. Crear will find their places. From among this dozen seats the new members—R. H. Helbert, North Ontario, and O. H. CUT PASSENGER SERVICES TO MOVE FREIGHT

This Marks Return of N. E. Roads to Private Ownership—Digging Out Branch Lines.

Boston, March 1.—The return of New England railroads to private ownership was accompanied by curtailment of passenger train service on several lines as a means of expediting needed food and fuel deliveries, which were held up by the recent storms and freeze-ups. Fifty-one trains were removed from the schedule of the New York, New Haven & Hartford railroad and other roads which changed their schedules to give freight transportation the preference. Thousands of railway employees and volunteers dug out snow covered freight yards and junction points on Saturday and Sunday. As a result of the curtailment several branch lines were operated today for the first time since last Wednesday, and it was announced that with a continuation of favorable weather normal conditions would be possible before the end of the week.

Cherished Furniture— You can Preserve its Beauty

The finer your furniture, the greater the need of giving it that attention which will preserve the charm of its beautiful finish.

YOU should not use ordinary polish—you want a polish you can trust. You can trust O-Cedar. Those who use it regularly will ensure you it may even be used on your piano or motor car—and that it will renew the brilliance of any fine piece of furniture or woodwork.

O-Cedar Polish thoroughly cleans the wood. It does not merely cover up the grime with a surface polish. It gets right down to the grain, removes the blue cloudiness and every particle of dust—after which a light rubbing with a dry cloth leaves the surface dry with a hard, brilliant lustre that lasts—the blended grain-beauty of the wood showing up in all its original richness.

How to make floors gleam as they never gleamed before.

A DAILY light rubbing with the O-Cedar Polish Mop is the answer to your floor problem. Thus you may keep either varnished hard wood or painted soft wood permanently beautiful. Use on linoleum too—it prevents it from cracking and preserves the coloring. If you are looking for an easier, better way of dusting than the old back-breaking method, use the Mop on the woodwork as well as the floors. It does away with stooping, climbing and furniture-moving. Reaches all hard-to-get-at places.

O-Cedar Polish Mop (round or triangle) price \$1.50. The handle—34 inches long—is 2c. extra. O-Cedar Polish 25c. to \$3.00 sizes. Both at your Hardware or Grocery Shop.

BEGIN WORK TRAINING FOR BALL SEASON
Some of the Teams Have Arrived in Florida and Others Are On the Way.

Jacksonville, Fla., March 1—The New York delegation of Yankee ball players, minus their manager, Miller Huggins, who was kept in New York by illness, arrived in Jacksonville last night. Herbert Thormahlen, a southpaw, is in much better trim than a year ago. He was just over the "hip" then, but he is real stalwart now. He has been playing basketball. Bob Shawkey, with his pretense, Rex, a young third baseman, got aboard at Philadelphia. Rice is a rock-checked lad, who looks as if he is just from prep school. "A coming star," says Shawkey of him.
Marie De Vitale, a former Brown star, Benny Geier, an outfielder, Dick Murphy, catcher, and John Bienville, a pitcher, were the other recruits in the party. Geier is a powerful looking youngster.
Pitchers McGraw and Murphy and infielder Ward were the first arrivals in camp, all three reaching here yesterday afternoon.
Jacksonville, Fla., March 1—Well weather greeted the Dodgers who arrived here yesterday from New York to start their preliminary practice. The party consisted of Pitchers Mitchell, Mannaux and Helman and infielder Chuck Ward.

Knuff and Jess Barnes, right-hand pitcher, who won twenty-five games for the Giants last season, are known to weight and anxious to start tossing the ball around.

JENNINGS FANCIES KILTIES' CHANCES
"Thinks Cleveland Is Only Team Likely to Beat Them."
Detroit, Mich., Feb. 25—A Scranton special to The Detroit Press tonight says—
"Just back from the meeting of big leagues in Chicago, Hugh Jennings, founder of Detroit Americans, found time to discuss developments at the conference of the National League. Jennings was particularly impressed at the deal made by New York in landing Babe Ruth. Hugh said the owners virtually assured Gotham of the 1920 pennant by buying the demon swatter from Boston.
"If the Kilties don't win the pennant this year I am a very bad guesser, and Captain Huston is even a worse one. With Ruth and the others, New York appears to have the strongest team in the league," said Hughie.

"A great deal depends upon Ruth and also a good deal on the start the Kilties get. It was said by Franz that Ruth was inclined to kick over the traces. There are several other temperamental chaps on the New York team, and if things do not start off right there will be disputes that will tend to form the club into cliques.
"If, however, the team starts off by winning the first six or seven games, chances are that these petty jealousies will be reduced to the minimum and the Kilties will probably sail along nicely.
"The Kilties on paper appear to me to be a better team than the White Sox, and right now Cleveland seems to be the only team likely to beat them.
"Detroit is in good shape, however, and will be heard from right from the start."
Jennings said, in his opinion, it was about a 90-20 split for the warring factions of the American League, but the

STECHER IS NOT WORLD CHAMPION

There is Nothing International About His Wrestling Successes—Some Noted Grapplers.

There are persons who steadfastly refuse to believe that any wrestling match can be in the language of Charles "Hard-luck" Haughton, "on the up and up." The mere mention of a mat championship brings sly twinkles to the eye and sniggering or blant skepticism to the peasant's lip, writes John E. Gray in the St. Louis Post-Dispatch.

This is the heritage of a tainted game. It probably will be handed down into the third and fourth generation. It explains why even the Joe Stecher-Earl Caddock championship contest (accounts of which indicate it was an honestly-fought event), is being subjected to innuendoes concerning its integrity.

If a mat contest for \$40,000 and the world's championship, one which drew \$80,000 in receipts, failed to tempt wrestlers to play fair, the sport and the world itself would indeed have arrived at a most unfortunate pass. As a matter of fact, the defeat of the champion seemed to be an outcome entirely justified by the greater strength and skill and weight of the victor.

Stecher is legitimate U. S. champion at present and is likely to remain so. Zbyzsko or Lewis Next.

The only opposition immediately in view for Stecher is an encounter with either Strangler Lewis, who seems to have slipped backward, or Zbyzsko. There is also Macie Flatau, who is in the bad graces of the promoters.

Stecher is popularly labeled world's champion, but many have questioned the right of America to arrogate world honors to itself. There is nothing international about Stecher's success, for only a handful of Europe's wrestlers figured in the elimination matches.

There was when the invasion of European wrestlers sent the Americans scuttling to the bushes where they awaited the departure of the beef-trust visitors. This was especially noteworthy in the case of the various "Terrible Turks" who visited the country at intervals.

The first of these was Yousoff, the original "Terrible." He fopped American opponents so fast they didn't know what hold he used. Yousoff went to the bottom of the sea like a plummet, one day, when the vessel carrying him back to Europe, La Bretagne, sank in the result of a collision. It was said that Yousoff was rendered helpless in the water by a weighty money belt, had insisted on taking as much of his wealth home in gold. "The greatest wrestler that ever visited America," was the prevailing expert opinion of Yousoff.

The giant Noroulah was the next "Terrible," a grotesque, fat giant with the parvoles of a head and the power of a steam crane. He looked like a moose or a tub of animated fat, but he was as vicious as Champion Tom Jenkins found out in a very few minutes.

Noroulah wrestled George Wittmer, of Cincinnati, in the exposition coliseum in St. Louis. His method was unique. He used what might be called the "Lago hold," locked his arms and legs partly and then smothered his opponent with his fat stomach as with a pillow. Wittmer had to "resign" or suffocate. Noroulah left these shores unbroken and richer by many thousands.

Strange Case of Mahmoud. The last "Terrible Turk," a Bulgarian, named Yussif Mahmoud, did not accomplish so much. For several seasons he hung around Chicago trying to get matches enough to feed himself. Each month he drew in his belt another notch, while his manager raved and ranted that the wrestling trust—Coffey and Carley—would not give him a match unless he "laid down."

Mahmout held out over two years. Then his manager, failing to dent the opposition, quit in disgust. It is said that to this day he has maintained, despite Coffey's victory later, there was no wrestler who could stand before the Terrible Bulgarian when he was defended.

Mahmout at last was taken in out of the cold by the trust, threw a few seconds after an hour or so. There was some comment at the time that Mahmoud did not wrestle as he should. At any rate, he seemed thoroughly tanned. After the Bulgarian's defeat, Frank Gotch immediately signed him as a training partner and proceeded to hide his title behind the big fellow.

"Whoever wants a match with me," Gotch declared from back of the hum-

ATHLETIC STANDING IS INVOLVED
Some Definite Stand Should Be Taken to Uphold Status of Players—Evidence Given That Dalhousie Players Are Professional Hockey-ists.

(Halifax Chronicle.)
Throwing mud in the athletic line seems to have become a popular pastime, and the throwing has smothered the uniforms of three of the players on the Dalhousie hockey lineup and practically rendered the proposed trip to Cambridge, Mass., impossible—at least for a university.

We have no case to offer for the men of the squad referred to but it would have been better for all concerned if the matter had been taken up at an earlier date and properly threshed out.

The evidence in the case of the Dalhousie men has come from Cape Breton and has been given prominence by Mr. Dolan of the Sydney Post. He has been for some time in close touch with conditions there and states plainly and without any malice that the members of the local university are professionals.

His statements bear weight and practically have been considered by the members of the local university are professionals. His statements bear weight and practically have been considered by the members of the local university are professionals.

Our attitude is and has been that of a good pro and a good amateur are on an equal footing but that so long as they are segregated by name it is wiser to keep them segregated in their athletic endeavors.

If there is a common desire to have everything athletic in the professional line, let us start it as such, or the other way about, but it seems that the present condition is becoming more involved daily.

Upper Canada has frowned upon the wholesale "whitewashing" of all players and making a fresh start as advocated here at first; but it is not of the nature of a certain man stand the brunt of the cure matter if this cannot be done.

The proposal made recently by P. C. Neville to suspend all players for a given time appears to be reasonable and rather easy of accomplishment but has not as yet received the sanction of maritime headquarters.

The position of A. W. Corvay as president of the M. P. B. A. U., cannot be considered an enviable one; but if athletes, from the lower positions are to compete in regular games with those from outside points they must be able to prove their standing.

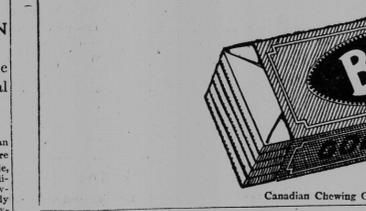

"PALS"
"Pals" is charged with happier meaning than "friends." It is really the masculine of "sweethearts."

A man and his son—a boy and his dog—they're "pals."

And many, many folks make "pals" with Adams Black Jack Gum—
—because of the friendly licorice flavor.
—because it eases nerve strain.
—because it relieves throat-huskiness and thirst.

PRES. PETTIPAS WILL STAND FIRM
If League Hockey is to Be Amateur He Will Not Allow Players Under Suspension to Participate.

(Halifax Echo.)
Regarding his declaring the game between Imperial and All-Dartmouth an exhibition contest last night, President Pettipas of the Halifax and Dartmouth Hockey League, said to an Evening Echo reporter:

It must be distinctly understood that the hockey league here is an amateur one and that the games are being played under sanction of the M. P. B. A. U. In my present position I can do nothing except refuse to permit players of a questionable or disputed standing to play as regular members of a scheduled contest. There seems to be a little misapprehension as to the situation; as many of the supporters of the teams believe I am too drastic in my actions.

"To these I can simply say that my idea is to protect the standing of the large majority of the players who are amateurs and wish to continue to play in that class. Another point is that hockey will soon be over for the season and many of these men will be putting on their baseball uniforms. I believe by then the present involved situation will be cleared up and I want to see all the boys in the game here this coming season. Personally, I do not wish to enter into discussions over to serve the best interests of all. I believe in good amateur sport and as the league is amateur and I am president of the league I cannot see that it is possible for me to take any other stand in the matter than to keep the games clear of all possibility of dispute.

"I have," said Mr. Pettipas, "an idea that the task of getting things on the feet is great, especially after a long period of inaction on the part of the asso-

The defeat of Howick by such a large margin in the finals came as a big surprise, as it was thought after Howick's showing in the morning they would give Brown's rink a hard run. At the inclusion of fifteen ends, when Brown was leading by 18 shots, it was agreed between the match finished.

"THE PUBLIC BE FLEECE" was the motto of the profiteers who took advantage of America's pre-occupation with a civil war. They "cornered" the food markets; stole, plundered and pilfered; bought immunity when possible; fought with under-handed, back-door, reptilian methods and aids when "graft" failed; "framed up" innocent women in order to "get back at" their husbands; greedily, selfishly and criminally swelled their bank accounts at the expense of patriotic Americans.
"The Profiteers" exposes the whole "bag of tricks" in a vastly entertaining and thrilling manner, and gives Miss Fannie Ward opportunity for display of her most intense emotional histrionic gifts.

attention to the dish washing problem in the home. Machines are available for washing the dishes, but they are separate from the sink, where dishes have always been washed.
Now comes a clever combination of electric dish washer and sink, in which the dish washer has been incorporated as part of the sink and placed on the market by a Chicago company. Two perpendicular revolving paddles throw the water between the dishes, which remain stationary, thus eliminating breakage.
This domestic size outfit is operated by a one-quarter h. p. motor, with an attachment cord that fits any lamp socket. The motor can be used for making ice cream by replacing the dish frame with a special freezing can. This combination is also made in large size for use in hotels, restaurants and hospitals.

It was postmarked from some point in Ontario which could not be deciphered and was addressed to the secretary of the board of trade, St. John's, New Brunswick, Nova Scotia. RECOMMENDS A 36-INCH MAIN TO SPRUCE LAKE

Report of Engineer and Water Superintendent — More Equipment Required — Other Recommendations — Compensation Matters.

Commissioner Jones presented the sixty-fourth annual report of the water and sewerage department at this morning's committee meeting of the common council. The annual joint report of the city engineer and superintendent of the department was also read and both were referred to the committee for inclusion in the city's annual report. Commissioner Bullock presided in the absence of the mayor, and Commissioner Jones and Thornton were present. Commissioner Fisher is still confined to his home through Commissioner Jones is printed in full elsewhere in this issue.

Amongst other features, the report of the city engineer and superintendent is summarized as follows: That the Ford touring car at present in the possession of the department be converted into a light truck and a new and stronger touring car be purchased; that a new three-ton and a new three-quarter ton truck be purchased and the one ton truck now with the department be sent to the west side for service.

That the most important piece of work to be done during the year should be the laying of thirty-six inch main from the end of the twenty four inch main from the Manoirer farm to Spruce Lake and to relay the twelve-inch cement from Barnhill's corner to Dillon's corner with a twenty-four-inch twenty-inch and sixteen-inch main.—The cement pipe is too small and thoroughly unsatisfactory.

That the six-inch and four-inch pipes in Robey's avenue from the One Mile House eastward be replaced with an eight-inch cast iron main.—This pipe is said now to be in bad condition.

That the thirty-three-inch wood stave pipe from Phinney's Hill to Little River reservoir be paralleled; also that the pipe of the thirty-six-inch main from One Mile House to Little River, following a route which will avoid Fernhill, be replaced with a pipe of sufficient size to prevent waste of water.

The report said that daily readings are taken by an observer at Mispec and forwarded to K. H. Smith at Halifax. This work must continue for another year, when the question of the possibility of power from the Mispec river will be settled.

The report recommended that the city acquire and control all the water shed areas at Loch Lomond and Spruce Lake.

As a result of a survey of city lands at Loch Lomond and Spruce Lake it was found that there had been trespassing and timber had been cut.

Commissioner Bullock moved that an amount of \$69,829 be paid to William Chambers, being the difference between his regular pay and the amount paid by the Workers' Compensation Board during the time he was disabled between January 6 and February 20 on account of injury. After discussion, it was decided to leave the matter over to a full meeting of the committee, when the matter of compensation on account of sickness will also be taken up.
