## STIRRING BEGINNING FOR AN EXPECTED MOMENTOUS SESSION FEATURED PARLIAMENT MONDAY

**Militant Speech by Mackenzie King, Who Declared the People Had No Faith in the Gov't and the Gov't No Faith in the People, Moving An Amendment Calling for General Election, and a Long and Brilliant Defense of the Gov't and Its Policies by the Veteran Parliamentarian, Sir George Foster, Set the Members on High Pitch.**

Special to The Standard.

Ottawa, Ont., Mar. 1.—A militant speech by Mackenzie King, leader of the Opposition, who, after declaring that the people had no faith in the government and the government no faith in the people, moved an amendment to the address calling for a general election as soon as a franchise act could be rushed through the House, and a long and brilliant defence of the policies and record of the government by the veteran parliamentarian, Sir George Foster, made a stirring beginning for an expected momentous session.

Mr. King's amendment, which aimed at a direct blow at the solidarity of Union which, when submitted to a vote, will test the government's ascendancy in the House, came at the close of a speech notable for its aggressiveness and keenness from beginning to end in a high pitch of denunciation and criticism. To Mr. King the world was out of joint and only the destruction of the Government and the triumph of himself and his party could put it right.

King Sees Only Gloom.

Where Mr. Crony and Mr. McGregor, the mover and seconder of the resolution, were full of hope and brightness and optimism, Mr. King saw nothing but despair and catastrophe and gloom. At home and abroad there was stagnation, dislocation and chaos. The Government was leaderless and drifting. The Cabinet was divided and bound by no common aim. Parliamentary Government was being flouted and the Government threatened. The Ministry held office through virtue of a nefarious franchise. It had no policies nor remedies for the unrest and discontent that were threatening the peace of the nation, and only a general election that would put Borden and Unionism out, and Mr. King and his Liberalism in would avert disaster and ruin.

King Falls.

It is the duty of an opposition to oppose, and the business of an opposition leader is to find fault with the Government, but as Mr. King's message after passage into one long procession of fault finding and pessimism and criticism, making no allowance for the obvious conditions of the war or its results, with no trace of generous impulse toward his foes, with no regard for what has been achieved, the House, with the exception of a few thinking partisans who admit a difference of opinion as a cause for hatred, will cheer any declamation, no matter how unjust, was not impressed. If Mr. King's object was to undermine the foundation of Union, to impress the House with the conviction that its mandate had expired and that the time for a new deal had come, then he clearly and unmistakably failed.

Sir George Replies.

Nor was Sir George Foster, the venerable Acting Government Head, who followed, slow to take advantage of the situation. In a speech delivered with all the power and passion which for more than one generation have made him one of the foremost orators of the time, Sir George had little difficulty in smashing the pedestal upon which Mr. King's indictment was based, and in convincing the House that after all is said and done, despite all the criticism and vilification and innuendo that have been hurled against the Administration, its record of achievement both in War and Peace, stand out as the most inspiring and creditable in the history of Confederation. It was a speech for which, as one listened to it, there could be only regret that for the sake of political stability and freedom from mere jazz criticism and ignorant clamor, it had not been delivered earlier and often from many platforms throughout the country. Step by step, policy by policy, achievement by achievement, Sir George traced the record of Union Government through the testing days of War, "through terror to triumph." Through the days when many would have faltered and fled the stricken field, down through Victory and Peace and on through the scarce less difficult problems of Peace; and when, at the end, when the case for the Government had been closed, the cheer which rolled from the Unionist benches told that the veteran had scored a fine parliamentary triumph, and that Unionism, when it knows and makes allowances for all the difficulties and (Continued on page 2)

## THE PRESBYTERIANS SET HIGH MARK

Expect to Reach Million Over Their Objective in Forward Movement Campaign.

Toronto, March 1.—The Presbyterian National Congress contribution for the Dominion now is \$4,340,481, according to the report given out at headquarters here. This is \$100,000 in advance of the last figures given out. Four million was the original objective of the Presbyterians. The objective has now been raised to five million.

## Conferences Between Premier Nitti And Jugo-Slav Representatives End Suddenly

London, March 1.—The conversations between Premier Nitti, of Italy, and the Jugo Slavs, in which Foreign Minister Trabucchi and Former Premier Pechitch participated, were suddenly broken off today. It is not expected that they will be resumed in London during the present week.

The entire Adriatic question remains in suspense, and it seems fairly certain that no solution of it will be reached while the Supreme Council is sitting in London, but that the question will be reopened when the Peace Conference reassembles in Rome toward the end of the month.

No confirmation is obtainable in Italian circles here with regard to a report printed in Le Jugo of Paris from Rome that Signor Nitti has offered concessions to the Jugo Slavs.

## PREMIER BORDEN IN CONFERENCE WITH MINISTERS

Arrived at New York Yesterday Where He Was Met by Hon. J. A. Reid and Hon. J. K. Calder.

## SIR ROBERT WAS NON-COMMUNICATIVE

While in London it is Believed He Laid Before Cabinet Matter of Canada's Representation at Washington.

New York, March 1.—(Canadian Press.)—After spending the afternoon in conference with the Hon. J. D. Reid and the Hon. J. K. Calder, who were here to meet him on his arrival from England on the Carmania today, Sir Robert Borden is resting tonight at the Hotel Pennsylvania. At 2.15 tomorrow afternoon the Premier will leave for White Sulphur Springs, with Lady Borden, who met him in New York today. Sir Robert was somewhat non-communicative, having nothing to say to Canadian and American newspaper representatives who were waiting for him when the Carmania docked. The only "interview" given by the Premier was a statement, containing extracts from an address which he gave on the ship coming over. In this Sir Robert declared that one of the greatest results the world could expect from the war was a full understanding between the various Commonwealths of the British Empire and the American people. These two nations, said the Premier Minister, could, by united action, have prevented the war in 1914, and continued effort in the future could prevent other conflicts.

Following his conference with his two colleagues at his hotel, Sir Robert pleaded fatigue and would see no interviews.

Messrs. Reid and Calder, who left at 7.45 for Ottawa, said they had nothing to report out as a result of the conference. It is understood, however, that important matters of policy are to be placed before Parliament now.

While nothing official, or even definite, was obtainable here tonight, it is fairly well understood that the visit of Sir Robert to Britain was not altogether in the nature of a holiday trip. It is reported that, while in London, the Premier Minister took occasion to lay before the British Cabinet one or more subjects that are interesting to Canadians at the present time. One of these, the story runs, was the matter of obtaining for Canada her own diplomatic representation in the United States.

## FEAR PRESENCE OF BELA KUN IN HUNGARY

Reported That He and Several of His Henchmen Have Escaped From Austria

London, March 1.—Official advices received here this afternoon that Bela Kun, the former Communist Dictator of Hungary, and several of his henchmen, who have escaped from Austria, to which country they fled when the Hungarian counter-revolution became successful last summer. They are reported as having returned to Hungary and it is feared in official quarters that they will attempt to regain power. Their presence in Hungary, at any rate, is considered a menace to the present regime in that country.

## HIGH TRIBUTE TO CANADA'S OFFICERS

Maj. General MacDonnell Says That Man for Man He Would Not Have Changed Them for Any Others "Over There"

Toronto, March 1.—Major General Sir Archibald Cameron MacDonnell, C. B., C. M. G., former Commander of the First Canadian Division at the front, was the guest of the City of Toronto at luncheon in the King Edward Hotel today, prior to his assuming command of the Royal Military College, Kingston, Ontario. Sir Archibald paid high tribute to the Canadian officers and men who took part in the war. "I will say this of the Canadian officers who fought at the front," he said, "that, man for man, I would not have changed them for any other of their kind."

## PETITIONERS ASK FOR RELEASE OF JOHN PARNELL

Winnipeg, March 1.—Petitions for release of John Parnell, who is now serving a sentence of nine months for seditious utterances, will be circulated through the Dominion and Return of Soldiers organizations. The petition is based on compassionate and patriotic grounds.

## SUPREME COURT OF THE U. S. DECREES STEEL CORP'N NOT IN RESTRAINT OF TRADE

While Admitting it Controlled Half of the American Iron and Steel Trade, Majority Report Affirms Monopoly is Not Achieved.

## MINORITY REPORT FAVORS DISSOLUTION

Claim the Corporation Violated Law in Its Formation and Its Practices, and Was Over-Capitalized With Watered Stock.

Washington, March 1.—Although today's decree of the Supreme Court relative to dissolving the United States Steel Corporation and its numerous subsidiaries leaves the Government free to bring new proceedings against the Corporation for specific and present practices deemed in conflict with the anti-trust development, Department of Justice officials declared no thought had been given to future action. Pending the study of the opinions, Attorney General Palmer and other Department officials withheld comment.

To sustain its decree that the steel concern is "good" combination, the majority of the Court today found that it controls about half of the American iron and steel trade, including mines, mills, railroads, ships and ore fields. Monopoly it declared has not been achieved.

"Good conduct" of the Corporation toward its competitors and customers was emphasized by the majority, who held it did not dictate prices. In its application of law regarding the public in each case the Court said:

"It is clear in its denunciation of monopolies, and equally clear in its direction that the Courts shall prevent and restrain them, but the conditions which may exist and the resulting powers of a Court of Equity to adopt its rules to conditions."

In conclusion the majority said they were "unable to see that the public interest is served by yielding to the contentions of the Government respecting isolation. And we do not risk public injury, including a material detriment, following trade."

In reply, the three dissenting justices declared that the Corporation violated the law in its formation and its "immediate practices," and, being formed illegally, should be dissolved into competitive units. The lower Court, the minority declared, could fix the details, it had been demonstrated, the minority held, that the Corporation was over-capitalized with "watered stock."

"If the Sherman law is to be given efficacy," the minority declared, "there must be a decree going as far as possible that will achieve it in the open."

## OV. GENERAL TO BE IN CITY ABOUT MAR. 13TH

Special to The Standard.

Ottawa, Mar. 1.—The Duke of Devonshire will sail for England from St. John on March 13th to attend the marriage of Lady Dorothy Cavendish to Captain McMillan, it is announced.

## PRINCE CHARLES WILL DISSOLVE HIS MORGANATIC TIES

By So Doing He Becomes Reconciled to King and Queen of Rumania and Revives Claim to Succession.

Berlin, March 1.—Crown Prince Charles, of Rumania, intends to dissolve the morganatic marriage he contracted in 1918 with Mlle. Zylis Lambrino, a young and beautiful Rumanian woman, according to a despatch from Bucharest, quoting the newspaper Epoca. The Crown Prince, consequently, has effected a reconciliation with King Ferdinand and Queen Marie, the newspaper adds, reviving his claim to the succession.

## STMR. BEAR RIVER CLEARS THE ICE

Special to The Standard. Digby, N. S., March 1.—It was a safe harbinger of Spring today when the steamer Bear River, which has been frozen in at her home port all winter, succeeded in getting clear of the ice and in reaching Digby, sailing later for St. John. Bear River is probably the first river in the province to shake off its icy fetters.

## Reported That Minister of Railways Is To Be President of National System

Ottawa, Mar. 1.—The Citizen says today: An interesting report in circulation here is that Hon. J. D. Reid, minister of railways, will be president of the national system as enlarged as the railway department, whose functions have been reduced somewhat by the wide powers given the railway management, will be merged with the department of public works, the two to be administered by Hon. J. A. Calder.

## Rhode Island Attacks International Waterways Proposition

In a Brief Filed the State Claims the Gov't Has Usurped State's Rights in Its Prohibition Measure.

Washington, Mar. 1.—The United States Supreme Court must pass on the validity of the eighteenth amendment of the "cherished principles of free government" thereon are to be maintained, the State of Rhode Island declares in its brief filed in the United States Supreme Court today in reply to the government's motion for the dismissal of its action to obtain injunctive relief from prohibition amendment. The brief asserts that the amendment "is a direct invasion of the union powers of the state and rights of its people," and the government's view that it is unassailable, can "only lead to anarchy and oppression."

It contends that it is the duty of the court to keep Congress in its amendments to the legislation "within the scope and jurisdiction of federal authority" and maintain that line of division between federal and state powers, which, for so many years, insured the harmonious operation of our dual system of government—defined and established as proposed.

"We are in favor of it," he declared. "The next generation will need as the waterways possible to handle the developing commerce and industry of America. Development of Canada will help the United States just as development of the United States has helped Canada. I cannot agree with the opposition that development of the United States would be injured by development of the St. Lawrence."

## COURT OF APPEAL RESCRIPT AGAINST R. B. RUSSELL

Find That Jury Hearing the Case Could Not Possibly Have Returned a Verdict, Based on the Evidence, Different Than One Returned.

Winnipeg, March 1.—The written judgments of the Courts of Appeals upon all the counts set forth in the indictment, now serving a two year term of imprisonment, have now been filed. Chief Justice Perdue says:

"The accused has been found guilty upon all the counts set forth in the indictment. There was sufficient evidence to justify the jury in making their findings. In fact, they could not have honestly arrived at any other conclusion. So far from being a legitimate strike, the combination was in fact, as the jury has found, a seditious conspiracy. To aid a brother trade union in its strike for higher wages, or to obtain a higher wage for all, was not the real object of the combination. What took place before the strike shows that the accused and his associate Red Society aimed at something much more drastic. Their ultimate purpose, as declared in their public speeches, was the overthrow of constitutional government in Canada, and the introduction of a form of socialistic or Soviet rule in its place. This was to be accomplished by general strikes, force and terror, and, if necessary, by bloodshed."

## MASSACHUSETTS TOWNS VOTE WET IN ELECTIONS

Boston, March 1.—Among the Massachusetts towns which held town meetings today a large number followed the lead of the majority of the cities at their elections last December in "voting yes" on the liquor license question. In many cases it was the first time the towns ever had voted "wet." Because of the threat of the advent of prohibition the voters are of any sentimental effect. A few of the towns voted against license, mostly by majorities, largely reduced from last year.

## SUIT CASE MAKERS GO ON STRIKE

New York, March 1.—The two thousand members of the suit case and bag makers' union here went on strike today for a minimum salary of \$50 a week for first-class mechanics and a 25 per cent increase for all others. The employers favor a piece work scale.

## NOVA SCOTIA MEMBERS ASK INFORMATION

Mr. Duff Enquires Into Strength and Disposition of Canadian Naval Forces and Expenditures from March 1919.

## CAN. SECURITIES SUBJECT OF ENQUIRY

Member Desirous of Finding Out the Amount Transferred from Britain to Holders in United States.

Ottawa, March 1.—Mr. Wm. Duff, Linnenburg, has proposed to ask in the Commons for a return showing the strength and disposition of the Canadian naval forces. Mr. Duff also wants details as to the total expenditures from March 1, 1919, to the end of last month. He asks how many naval ratings and officers there on the strength, and also how many cadets are being trained. Another question of which notice has been given by Mr. Duff has reference to the International Fisheries Commission, about which he is anxious to secure information, particularly in regard to the recent decisions as to the export of live lobsters from Canada. Mr. Duff asks if the International Fisheries Commission has caused to function.

The ports through which Canadian goods are being sent to Roumania should be Canadian ports, in Mr. Duff's opinion. Therefore, he proposes to ask the Government if these goods will go from Canadian ports.

Mr. J. S. Sinclair, Guysboro, N. S., will interview the Government as to the agreement by the Civil Service Commission since the signing of the armistice.

E. B. Devlin, member for Wright, will move in the Commons for the publication of all correspondence between the Government and all members.

Mr. Devlin will also ask in the Commons for a return showing the amount of Canadian securities, previously held in Britain, which have been transferred to holders in the United States, with the amount of interest now payable because of the sales of those securities against the amount which would have been payable in Great Britain. He also asks for copies of all correspondence of the matter.

Hon. Charles Murphy is anxious to know the details about the construction of the new Parliament buildings, particularly as far as the cost of the buildings is concerned.

## CANADA THIRD IN PRODUCTION OF SHIPS IN 1918

Dominion Turned Out 148 Ships to Japanese 116 — Fourth in Tonnage With 225,264 Gross Tons.

Ottawa, March 1.—(By the Canadian Press)—Hon. C. C. Ballantyne, Minister of the Naval Service, tabled in the House today the report of the Department of Naval Service and Fisheries Branch, the Department of Marine and Fisheries, and the report on steam boat inspection for the fiscal year 1918-1919.

The Minister's preamble to his report, pointed out with satisfaction that in 1918 Canada stood third in the number of ships built. Canada turned out 148 ships to Japan's 116 and stood fourth in tonnage with 225,264 gross tons. This he considered, a notable showing.

The other British dominions in the same fiscal year built nine steel and ten wooden ships, steam or motor driven, of a total tonnage of 40,492, and 4,888 respectively and 28 wooden sailing vessels of 8,187 gross tons.

## GOVERNOR GENERAL IS INDISPOSED

Ottawa, March 1.—His Excellency, the Governor General, is indisposed with a slight cold. It is stated at Government House that it is not thought to be "flu" but for precautionary purposes he is remaining indoors.

## Allied Supreme Council Takes Into Consideration Economic Questions

London, March 1.—Indications were given for the first time, today, as to what the Allied Supreme Council expects to do as a result of its investigations of high prices, exchange and other economic situations when it decided to embody the Council's ideas in resolutions. So far as it is known, nothing more will be announced regarding the outcome of the Council's investigations. The Council reached an agreement, today, on general lines and the data in hand was turned over to a drafting committee to draw up the resolutions. Baron Moncheur, the Belgian Ambassador in London, joined the Council this morning.

While the economic discussions were going on at number 16 Downing Street, the Foreign Minister, with Viscount Chinda, the Japanese Ambassador, continued work on the Turkish Treaty at the Foreign Office.

# NOVA SCOTIA AND, IF POSSIBLE, MARITIME OLD HOME SUMMER

### At Joint Meeting and Luncheon of Board of Trade and Rotary Club Last Evening Horatio Crowell of Halifax Told of Plans—Movement to Bring All Maritime Province People from States and Upper Canada in 1924.

The need, the history of the movement, and the plans being developed to secure a Nova Scotia, and if possible, a Maritime Old Home Summer for 1924, was the subject of an interesting and enlightening address by Horatio Crowell of Halifax, the guest of the St. John Board of Trade and the Rotary Club at a supper held at Bond's last evening.

In beginning his remarks, Mr. Crowell said that he wished to address those present, not as a Nova Scotian to a Nova Brunswick, but rather as one Maritime Province man addressing fellow Maritime Province men, all imbued with the same idea, that of the betterment and development of the three sister provinces. He was present, he said, with the full approval and support of the directors of the Nova Scotia Old Home Summer.

The movement in which he was interested was the re-planting of as many native born Maritime Province people living abroad as was possible in the interests of this project he had traveled all the New England States, and had gone as far west as Toronto, White Oresca at the beginning of the year, and as a journalist, and later as an officer, he said he was astounded by the ignorance displayed concerning the Maritime Provinces. It was a prevalent idea there that Canada began at Quebec and Montreal and extended westward, nor was this idea confined to the Old Country alone, even in the United States, many were entirely oblivious to our existence.

There are three ways by which the Maritime Provinces could be put in their proper place in the opinion of the British public, he said, they were by the Federal Government; the railways and by the offices maintained by the provinces in London.

As regards the Federal Government nothing could be expected, their officers not only do not advertise the Maritime Provinces but are even opposed to them to a large extent. The railways naturally favored the West as it was in their interest to do so, in regards to the provincial offices, that of New Brunswick was situated in a central portion of the city, while the Nova Scotia office was entirely inadequate, not to mention that the latter considered were fulfilling the purpose for which they were intended.

Today the balance of political power in the Dominion lay in the West, the financial in Montreal, and the population was also centered in the West. Since the war there has been a large exodus of returned men from the Maritime Provinces, largely to the American West, and yet in Nova Scotia in two counties alone, there were 2,000 square miles of undeveloped land, possessing good wealth, and the situation was similar in New Brunswick.

If the three provinces are to prosper they must be developed, to do this the people must be aroused from their existing condition of affairs. A larger population is needed to develop the country and no people are better suited to do this than our own people, for they are naturally most interested in our progress, one native born is the equal of at least two immigrants.

Plans were being projected for the development of a Canadian Merchant Marine, trade was necessary to ensure its success, and the Maritime Provinces should see to it that they take a fair share in that trade.

Mr. Crowell said he had first proposed his scheme to the Halifax Board of Trade, and under their auspices he had toured all Nova Scotia, addressing every town council and every club or society interested in the welfare and betterment of the province. At the conclusion of the tour a conference had been held at Halifax, thirty-five delegates were expected to attend two hundred came, and on the whole, as strongly in favor of the holding of a Nova Scotia Old Home Summer, and ready to assist in every way the plans necessary for the holding thereof, that the native born of the province and their children might return to the land of their birth; might see what was being done; what might further be done, and finally might be induced to remain in the province in preference to the land of their adoption.

Mr. Crowell referred to the fact that for every Nova Scotian in his own province there was another living in the United States today, in Massachusetts there were 79,000, in New York state 79,000. The figures he said were appalling and humiliating.

Mr. Crowell took occasion to say that while his remarks were confined to his own province in regards to figures and other data he left it to his hearers to judge as to how far they might be applied to the other two provinces.

We might boast of our unlimited resources but as long as they remained undeveloped and as long as no action was taken to use them they were developed and utilized, it was no much piffle.

That the Nova Scotia Old Home

# VETS TO DISCUSS ITS POSITION IN FEDERAL POLITICS

### At the Convention to be Held in Montreal March 22nd the Political Question to be An Important One.

Montreal, March 1.—(Canadian Press)—At the Dominion convention of the Great War Veterans' Association, which meets in Montreal for the week of March 22, and at which it is thought, 500 delegates will attend, one of the most important subjects to be considered will be whether the association is to take an active part in Federal politics.

This course is advocated by certain Ontario and Western branches, but is not at present regarded seriously by many of the members in Montreal. The convention will include land settlement for soldiers; pensions; annuities; insurance; civil re-establishment of returned soldiers and the burial of veterans.

### Upper Canadian Hockey Matches

Ottawa, March 1.—(Canadian Press)—Playing a brilliant hockey and outplaying the Brockville team in every department, the Marlinton team, winners of the city league and conquerors of the Wanderers, practically clinched tonight the championship of the Ottawa district, when they defeated the Island city sextette at the Rideau rink by a score of 18 to 2.

### Wen Championship.

Montreal, March 1.—In the second of home-and-home series games, played at St. Charles, Montreal defeated Star 3 to 2 which with the goals from the first game make up a total of 18 to 2, thus winning the championship of the Montreal hockey league.

### Military College Won.

Toronto, March 1.—Royal Military College defeated University of Toronto seconds here this evening, eight to five in the first of the home-and-home interscholastic intermediate hockey games.

### Game in Boston.

Boston, March 1.—The Boston All Stars defeated the New Edinburgh team of Ottawa at hockey tonight by a score of four to one.

### J. A. REID MAYOR OF FREDERICTON BY ACCLAMATION

Several Aldermen Returned by Same Route—Contest Predicted in Kings Ward—Potato Flour Mill for New Brunswick.

Fredericton, March 1.—W. P. Hartman, of Pittsburg, Pa., has been for a conference with Hon. J. F. Tweeddale, Minister of Agriculture, with regard to the establishment of a potato flour mill in New Brunswick.

Nomination proceedings in the civic elections at City Hall this afternoon were of a rather perfunctory nature, but nevertheless, there is an interesting phase to the situation in so far as Kings ward representatives are concerned.

Ald. William McKay's term of two years expires as representative for that ward, and J. Stewart Neil was nominated as a member of the ticket which was gotten up to contest various wards, while Thomas D. Blumenthal, who conducts a wood business at Victoria Mills, and is a member of the Labor Councils, was nominated as a protest, and the residents of the Mills some weeks ago.

Ald. Reid, the other member for Kings ward of the present Council, has been elected Mayor by acclamation, and the question seems to be whether Mr. Neill or Mr. Blumenthal will replace Ald. McKay and sit for two years. Mr. Blumenthal, so far, does not seem to have any opposition, as candidates for civic honors are evidently hard to find.

In addition to Mayor-Elect Reid and the following have been returned by acclamation for a term of two years: Wellington—Walter L. Jennings. St. Ann's ward—Ald. F. L. Cooper (re-elected).

Why is it, when our artists make cartoons of the ex-Kaiser in Holland, they always insist upon putting another wind-mill in the picture?

Summed up, and viewed solely from the standpoint of its political effect, it was a good opening for the Government. Mr. King's attack, while it immensely pleased his followers, was too general in its character to be effective, while on the other hand, Sir George's reply put the Unionists in good stead and unquestionably saved them a new and better opinion of the Ministry.

## WAY TO RESTORE EXCHANGE RATE

Give up Your Gold and Serve Your Country.  
"This country needs one more service from all of us. It needs our gold—the actual metal that adorns us or ornaments our home," says the London Daily Express, which makes the following remarkable suggestion, based on the Germans' war precedent:— Great Britain owes to America a large debt contracted in and for the war. In round figures that debt now stands at \$850,000,000. Not so very far from a thousand millions.

It is not suggested that all these gold trinkets and gewgaws should be surrendered to the State without equivalent. Such a plan would mean that the burden of sacrifice would fall unequal on the shoulders of the nation. What is proposed is that everyone should be encouraged to surrender gold in exchange for its equivalent value in Government securities. You would receive bonds bearing interest. You would give up a personal quantity of gold. In exchange you would receive bonds bearing interest. You would give up a personal quantity of gold. In exchange you would receive bonds bearing interest.

## POINCARÉ TO HEAD REPARATIONS BODY

Acceptance Shows Germany Will Not be Permitted to Evade Treaty.

Paris, Feb. 24.—Acceptance by Raymond Poincaré, formerly President of France, of the post as president of the Interallied Reparations Commission, is interpreted everywhere in Paris as a sure sign that Germany will not be permitted to evade, as she is planning to do, the terms of the Treaty of Versailles.

It is known here that the Germans hoped for the appointment of a man of less forcible character than M. Poincaré. The news that he had been named to head the commission and had accepted the appointment came as a distinct shock to the Germans. M. Poincaré decided several days ago that he would accept the post. When his name was first mentioned in connection with a probable appointment it caused surprise and some persons refused to consider it seriously. However, everywhere here it was known that he had accepted the post. It may be authoritatively said that he goes to his new task with determination to extract from Germany every bit of the reparation due to France, even to the last brick.

Work on Documents Contains Charges by the French Against Germany.  
The documents which are to be filed before the Leipzig court are expected to be finished March 15 and the documents delivered to the Leipzig court in Leipzig, so that the necessary court records may be made. A commission under the chairmanship of Jules Camille, of the Leipzig court, is expected to be formed to examine the documents. It is expected that the actual work of treaty enforcement in connection with reparations will begin immediately. The commission will meet three times a week.

## FEMALE PHYSICIANS NOW ADMITTED

Two women physicians, Dr. Anna Weld, of Rockford, Illinois, and Professor Lella Andrews, of the University of Oklahoma, were admitted to membership in the American College of Physicians, the first women to be so honored by that body, which is meeting in conjunction with the Congress of International Medicine.

Dr. Weld was admitted because of her studies in the proper feeding of premature and under-nourished children. Prof. Andrews gained recognition through her work on blood diseases of children.

FEEL THE SURGE OF ABUNDANT YOUTH  
Age is sickness—gradual disintegration of the tissues which comprise your vital organs—your nerves, heart, liver, kidneys, brain. Each of these organs depend on the internal secretion of fluids of certain glands. When such glands become lax in their functioning, through under or over-secretion, you are sick. Unless these glands are aided to resume proper function, the tissues of the vital organs gradually wear and crumble away. You are old in health, if not in years, and fashioned methods of treating sickness are admittedly helpless. Your days are numbered unless you set at the seat of the trouble by direct action, and that is by revitalizing and restoring the glands to their proper functioning.

ST. JOHN, N. B., TUESDAY, MARCH 2, 1920

### TRADE WITH THE TROPICS.

Canada imported \$108,000,000 worth of tropical produce last year, mostly from the United States. Our imports direct from the West Indies were placed at only \$22,000,000. In view of the exchange rate and the development of the Canadian Government Merchant Marine there has already been an increase in the direct trade with the West Indies, and the increase this year should be large. Government ships are now running to Brazil, and about ten are now engaged in the West Indian and Caribbean trade. Before next June the Government will have available for service about twenty new ships, and some may perhaps be used to advantage in opening new trade with American countries where the exchange rate is not against us.

One drawback at present is that there are no great amounts of manufactured goods available for trade with the West Indies, or tropical countries generally. However, there are two million people in the British West Indies, who might supply a large quantity of the commodities we now secure from the States, and who may become greater customers for cereals, flour, fish, dairy products, etc.

Some fear was expressed at a recent meeting of the St. John Board of Trade that the competition of the Government boats would interfere with the very good service to the British West Indies now operated by the Royal Mail Steam Packet Company under subsidy. That is a consideration which should receive attention, but it does not affect the possible use of Government boats to develop trade with Mexico and Latin American countries. Canada already does a considerable trade with Brazil and Argentina, and trade with South America generally should be capable of expansion. The Latin American republics have a population of over 100,000,000 people, and their foreign commerce rose from \$3,000,000,000 in 1913 to nearly \$5,000,000,000 in 1919. These figures show a big and increasing market.

### IN THE WILD EAST.

Japan has been for some time in the throes of an agitation for manhood suffrage. Out of 20,000,000 males in that country, only 1,500,000 have the right to vote for candidates for the House of Representatives. Leading newspapers have joined in the demand for universal suffrage, "as a means of limiting to a minimum the evil effects of the general tendency of the disaffected classes to Lenin's gospel, and as a safety-valve for dangerous ideas." Prominent members of the ruling caste have also expressed themselves in favor of universal manhood suffrage, adding, as is the way of ruling castes, that the great reform must only be brought about in the due course of things. Labor organizations have been particularly active in the agitation, and it is probable that the reports that serious labor disturbances have broken out in the flower kingdom are connected with a crisis in this movement, though Japanese labor has since the war been growing restless under the pressure of the cost of living. In the past, labor disturbances in Japan have also been marked by a good deal of violence and bloodshed.

If there be truth in the reports that some Japanese troops in Siberia have gone over to Bolshevism, and that the Koreans have revolted and are driving the Japanese garrisons before them, Japan has other troubles at hand likely to cause her rulers to repent that they did not help the Allies in their efforts to stamp out Bolshevism some time ago. Press reports attribute the Korean uprising to Bolshevite influence, but conditions had reached a pitch in that country where an outbreak of the national spirit might be expected to arise more or less spontaneously. The Bolshevists may have stimulated the uprising; in any case the Koreans probably secured arms from the Bolshevists or the Chinese.

With a revolutionary movement in progress at home, the Mikado and his friends will probably be not averse to a foreign war as a means of uniting the nation and holding on to power. Korea may be the Serbia of the East.

### BRITAIN AND AMERICA.

Insinuations of the Hearst papers and pro-German propaganda have sought to create the impression that Great Britain was on the verge of bankruptcy, or at any rate needed a big loan from the United States to help her pull her European chestnuts out of the fire. The statement issued by the American Chamber of Commerce affirming the financial and commercial power of Britain, and declaring that London is still the monetary centre of Europe should have a good effect on real American opinion, though it may not disabuse the minds of Hearst readers.

Britain owes the United States a lot of money, about \$4,210,000,000. On the other hand, Britain loaned her allies \$2,700,000,000—loans absolutely necessary to the prosecution of the war, in which the United States had

large interest, and out of which her profiteers made great fortunes. Britain is frankly worried about the plight of Europe. She has expected and would welcome American assistance to help Europe to her feet, and it is not only a selfish concern for her loans to Europe that worries her. Britain is preparing to write off half the amount owed her by European countries as a dead loss, in order to give them a better chance for recovery. She is not asking America to forgive her any debts, though she doubtless does not want to repay her loans at the extravagant premium of the present exchange rate, which, as the American Chamber of Commerce points out, is due to conditions in Europe, not to any danger of the bankruptcy of Britain.

Britain is probably less concerned about her loans to Europe than the danger of Bolshevism overwhelming Western Europe. When prominent British financiers soberly discuss the advisability of cancelling all war loans, it shows they have a very lively apprehension regarding the situation in Europe, and are willing to make tremendous sacrifices to save what can be saved from the situation. Political conditions all over Europe are none too stable, and governments as well as industry and commerce will need financial assistance or credits on a large scale. If Bolshevism overwhelms Western Europe, neither Britain nor the United States will stand much chance of collecting their loans.

### ADVERTISING.

There is some talk on the need of propaganda on behalf of the port of St. John. Regarding the general value of propaganda for trade and other purposes, The Empire Mail of London, England, says:

"Until the great war came we were not only lamentably short of any properly organized scheme of national publicity, but it must be painfully admitted that those who argued for the establishment of such a scheme were treated with scant attention. The years of war taught us all, from the government to the humblest citizen, that propaganda of the right kind is a weapon which no country can afford to neglect as a means of achieving its end, whether military or otherwise. Those who doubt the value of publicity may be recommended to read the memoirs of General Ludendorff, in whose hands the military destinies of Germany were placed during the most critical period of the great struggle. The plan that Germany was not beaten by the Allied armies but by the Allied propaganda, which, like the blockade, was slow but sure in its relentless effect."

A New York chef is quoted as saying that the day, or rather the night, of the lobster is done, for since prohibition threw its glamor over the United States the delicious crustaceans have not been served to any extent in hotels and restaurants. This authority is of opinion that the lobster without its logical condiment whiskey will never assume its former importance as an attraction for chorus girls to late suppers. Nevertheless there will be those who will be grateful that nature in her wisdom did not extinguish the lobster before prohibition arrived on the scene.

St. John and Montreal are not the only cities having port troubles. The Quebec Telegraph says: "The public would like to know what pull is responsible for consistent discrimination against the Port of Quebec?" He has a Bay, may be! St. John is too busy pulling the wool over its eyes to pull chestnuts out of the fire for itself.

If that committee appointed at a recent meeting of the business men of the town would bring in a report, it might assist the discussion. If the committee is not unanimous it is in order to bring in a minority report, too.

The Times: "How much longer will we fiddle at St. John when we ought to be beating that path to Ottawa?" If Premier Foster would only complete the Valley Railway the whole population might sell its Courtney Bay lots and move to Ottawa.

### NOVA SCOTIA'S WAY.

The following letter has been published in the Halifax papers:

We regret to see comments in the press, originating in New Brunswick in reference to the up-to-date Myers History, which shows in its supplement how the "Americans" won the world war.

The School Book Bureau promptly received a parcel of the new edition at the opening of the school year in September, but the books were as promptly and quietly returned to the publishers.

(Signed) EDUCATION OFFICE.

### IN THE EDITOR'S MAIL

To The Editor, St. John Standard. Sir:—In a recent issue of the Daily Telegraph, in the course of an article on a politicians' convention in Westmorland County, there was given a summary of the legislation introduced and placed on the statute books by the present local government since its coming into office. Amongst other things for which credit was given the administration, was an arrangement for an increase in teachers' salaries. The impression being given that the reference was to the teachers in the public schools. The writer is not in a position to vouch for the correctness of the remainder of the summary, but wishes to point out that in so far as public school teachers are concerned the statement belongs to the realm of fiction, or possibly prophecy. The fact is that the present government has taken no action which has resulted in increases for teachers in public schools. Moreover, the teachers of this province are well aware that the only direct move for increasing government grants to school teachers within the last three years, was in the form of a private bill, which, not being carried, is now a dead letter. Such increases in salary as the members of the teaching profession have received, have been the result of energetic action on the part of the teachers themselves, and have been granted by the local school boards. The writer is not overlooking the fact that a commission has been appointed to look into the matter of teachers' salaries, but the report of this commission has not yet been made public, and whatever action the government is contemplating on the receipt of its report can scarcely be placed to its credit.

Thanking you for your valuable space, I am, Yours respectfully, PAIR PLAY.

### WHAT THEY SAY

#### Pickwickian Reservations.

(Toronto Star.) "No Americans, we think can fail to feel the force of the simple and straightforward statement of the position of Canada on the so-called 'voluntary power' reservation proposed in the Senate, as made by N. W. Rowell, the Canadian Acting Secretary of State for External Affairs," says the Fort Worth (Texas) Star-Telegram. The opinion it is that the reservation, if adopted, would never have practical effect, and it wishes Canada would regard it in that light. But why should Uncle Sam make Pickwickian reservations?

#### Have Their Chance.

(Toronto Star.) If the Farmer-Labor Coalition fails it will be because of its own weakness; not because the people of the province did not insist that it be given a fair trial. Place-seeking politicians are learning that, if they respect even on the part of their followers they must dissemble their desire to embarrass the administration at every turn.

#### The Strike Trials.

(Toronto Globe.) It is estimated that the aggregate cost of the Winnipeg strike trials will be \$1,000,000. That is a big amount for a State to lose because of lack of common-sense and a resort to arbitration.

### A BIT OF VERSE

#### THE BUSINESS GIRL.

(Lillian Lovridge.) With steady, pausative pace she hastes Along the crowded street, That echoes moans and wails and sobs, Of grinding wheels and vendors cries, And tramp of hurrying feet.

Her eyes are bright, her step alert, Her spirit joys to know Herself a wave of this life-tide That surges to and fro; Her own allotted task to work No hand but hers may do.

The flaming shows of wealth and pride Are passed unheeded by; No art is there to avert her steps Or win one envious sigh, But lo! a window full of flowers Has caught her ardent eye.

Today wild asters of the wood The place of honor hold, They bring a glimpse of heaven's own bliss, And sunlight's peerless gold; And memories of far-off things Their petals fair unfold.

Of wind-swept hills and perfumes wafted Where dreaming sunbeams lie Upon a myriad swaying blooms That almost seem to vie In color and in loveliness With yon low-bending sky.

Of forest stillness that enfolds In warm and close embrace A thousand little loves that know The smile on Nature's face, And find within her sheltering arms A best abiding place.

The business girl amid the toil, The hurry and the din, Feels that the wild has opened wide Its arms to take her in; She knows that all true things and sweet Are still her own to win.

### Benny's Note Book

BY LEE PAPE

Yesterday afternoon my nose itched like anything and I had to keep on twisting it around to make it stop as if I was making fierce faces at somebody, and I was sitting on the floor in my room looking over my stamp album and asking me different questions about different things, and suddenly all of a sudden she said: "For goodness sake, Benny, if you can't speak to me without making those dreadful faces at me, why you don't need to speak to me at all."

They ain't faces, ma, my nose is itchy, I sed. I don't care whether it is or not, they're faces, sed ma. Well G, ma, there's nothing personal about them, I sed, and ma sed, Well I'd rather not have them pointed at me, I have a slight headache today and they make it worse—there, you've just made another one, for mersey sakes cant you think of some way else to go for a little while?

Can I go down and ask Nora for a cruller, I smell her frying them, I sed, Yes, by all means, by all means, yes, Meaning I could, and I went down and stuck my head in the kitchen door, saying, Nora, ma sed I could ask you for a cruller.

And did she say you could make a munny face at me too? sed Nora. Aw G, gosh, Nora, my nose itches, I sed. And if I get a couple of good cracks at you you'll itch in some more places, bleese me, sed Nora.

Wich jest then my nose gave a fierce itch and I twisted my hole face and Nora ran and made a grab for me and I tumbled by ducking under the dining room table and out the dining room door, saying, Aw G, dont you know a itchy nose wen you see one, aint you got any education?

And I put on my hat and coat and went out with the fellows, none of them thinking I was making faces at them on account of having itchy noses themselves sumtimes.

#### A PLEASURE TO WEAR GLASSES

Many people put off wearing glasses thinking that they will be an annoyance. Sharp's glasses are so skillfully fitted that one forgets they are being worn. Frames are adapted to the features so there is no sense of weight or pressure. Lenses are so accurately ground that the eyes are rested and refreshed, and light improved and preserved. It is a pleasure to wear Sharp's glasses. They are so comfortable and restful and an asset to one's appearance.

**Geo. Capson Has Gained 18 Pounds**

Was So Run Down He Could Hardly Get About—Tanlac Put Him on Feet.

"Since taking Tanlac I have gained eighteen pounds in weight, and because I am so thankful for what it has done for me I want to tell everybody about it," said George Capson, Salisbury Road, Moncton, New Brunswick, who is employed as a carpenter and joiner by the Canadian National Railway workshops.

"For the past five years I had suffered from a severe stomach trouble, and during that time I gradually grew worse and was in a badly run-down condition when I started taking Tanlac. My appetite was extremely poor, and many a time I brought my dinner home from the shops untouched. The little I did manage to eat caused me a great deal of suffering, for after every meal what I ate began to sour almost at once. Gas would form and fill my chest until I could hardly get my breath and I would have a terrible choking sensation. My stomach was so badly upset I could hardly retain a dinner and often while eating I would become so badly nauseated I simply had to get up and leave the table. Why, actually I was ashamed to be in company at times as I was constantly belching. It was almost impossible for me to get a good night's sleep on account of my stomach, I had lost weight until I was scarcely more than a frame, and was so weak it was just about all I could do to get around."

**Faint And Dizzy Spells**

**Weakness and Shortness of Breath.**

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, throbbing, irregular beating, smothering sensations, weak, sinking, all-gone feeling, choking sensation, etc.

Many men and women become run-down and worn out when otherwise they could be strong and healthy if they would only pay some attention to the first sign of heart weakness.

No remedy will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy and normal condition as Milburn's Heart and Nerve Pills.

Mrs. C. A. S. Drake, Paris, Ont., writes:—"I have used on towards the second box of Milburn's Heart and Nerve Pills and find they have done me good. I had those fainting, dizzy spells, once in a while, and also weakness and shortness of breath, and would become so choked up at times I could hardly sleep without sitting up in bed. When walking too fast I would have to stop and try to catch my breath. I feel a lot better since I have used your pills and know that they have helped me wonderfully as I have improved very much."

Price 50c a box. Dealers at mail order receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## Moncton Hockey Team At Capital

### Will Play Tonight Against Combination Team of Fredericton and Marysville—Deadline in Play-off Between Acadia and U. N. B.

Special to The Standard  
Fredericton, N. B., March 1.—Arrangements have been completed for the Moncton team to play in Fredericton this week and what is said to be the fastest team that can be produced in the railway city will be here tomorrow morning to play a combination team of Fredericton and Marysville players at the Arctic Rink tomorrow night.

"Tart" Titus, Captain of the Fredericton Club, is in charge of the local team and announced this morning as follows: Goal, Titus; point, Jarvis and M. Wade; cover-point, Edgar Wade; forwards, Clarence Wade, Williams and Hall. Stanley Staples is expected to referee the game and it looks as if one of the best games of the season was in prospect.

The athletic authorities at U. N. B. have been informed that King's College and St. Francis Xavier are to play off Tuesday night at Stouffville, N. S. for the championship of the Eastern Inter-Collegiate Hockey League.

There is a deadlock so far in the matter of a play-off between Acadia and U. N. B. in the Western Inter-Collegiate League. Acadia wants to play off to take place Wednesday night at Moncton.

Referees suggested by Acadia are Brundage of Sackville, Twaddle, of Amherst or Jack Carroll of Moncton. U. N. B. suggested McDonald of Halifax but he has gone to Newfoundland.

## Great Racing Expected Tonight

### World's Champion Hurdler, Edward Horton, Arrived Yesterday—Moncton Skater Also Entered—Very Large List of Entries.

Everything is set for the City Championships at the Victoria Rink tonight, and with a large entry list of the best skaters performing, along with the fact that the proceeds are for the local orphanages, there should be a record-breaking crowd present.

Edward Horton, champion hurdler of the world in ice skating, arrived in the city yesterday and will be seen in action tonight, and will perhaps make a record for the Old Victoria Rink.

Henry of Moncton, who entered in the speed events, and Allan Logan will be on hand to skate a match race with Frank Garnett, who made a good showing at Lake Placid Championships last year. Charles German, another St. John representative who did well at Lake Placid and who got in the finals of the 200 yards race, will also be seen in the races.

Moncton's programme is certainly one grand wind-up of the season's racing, and Frank White and those who have assisted him in promoting tonight's sports for such a worthy cause are assured of a real success.

## AMHERST RAMBLERS BEAT SPRINGHILL

Special to The Standard  
Amherst, N. S., March 1.—Amherst Ramblers won from Springhill this evening in a remarkably close combination game. The score in the first period was 1 to 1; 2nd period 2 to 3, and third period the Ramblers forged ahead and won by a margin of two goals.

Tracy, the Springhill net minder, saved the day time and time again, some of the stops were miraculous.

Leslie Lowther and George Stewart were the Ramblers stars while James and Blundy Burden did stellar work for Springhill. Frank Brown handled the game satisfactorily to all.

A SUPPER MATCH  
A match for the supper moneys was played last night on the St. Andrews curling ice by a Thistle and St. Andrews rink. The former rink won by thirteen points, the score being nine to six. Following is the score by the rink:

## LIPTON'S CHALLENGERS HAVE ALWAYS HAD HARDEST LUCK

### Shamrock I. Was Probably the Unluckiest of the Lot—Stuck in the Mud When Launched and Nearly Smashed by Barge—Shamrock II. Dismasted—Shamrock IV. Nearly Destroyed by Fire Last Week.

Think of the complications which would have developed if the Shamrock IV. had not escaped the flames at Jacob's yard at City Island last week! It was mighty fortunate that the challenger for the America's Cup was saved, for serious injury to the yacht might have forced the postponement of the races for another year. Sir Thomas Lipton's other Shamrocks also had some close shaves. Shamrock I. probably was the unluckiest of the lot. First she stuck in the mud as she came off the yard at Erie Basin. Three days later, during a heavy blow, a cement barge which had dragged its anchor drifted down on the challenger and it looked as if the yacht would be smashed. But the Erie came to the rescue in time and towed the challenger out of harm's way.

## Miracle Man A Great Picture

The absorbing story of "The Miracle Man," which was staged by George M. Cohan at the delight of thousands of New York theatre-goers, has been adapted to the screen and opened at the Unicorn yesterday. It is a Paramount-Artcraft picture of the first class.

## Champion O'Dowd Stopped McCarren

Philadelphia, March 1.—Mike O'Dowd, middleweight champion, stopped Jack McCarren, Allentown, Pa., in the second round of a scheduled six-round bout here tonight.

The central figure in the story is a patriarch in a little village who possesses the power to heal the sick and maimed. Tom Burke, a New York gangster, and his pals scheme to use him as a means of enriching themselves. With this view, they risk him and are astounded to discover that his power to heal is absolutely bonafide. How the good that lies latent in the crooks is brought out, is the theme of the drama, which is one of the most striking yet produced. Prominent in the strong cast are Thomas Meighan, Elmer Fair, Joseph J. Dowling and Betty Compson.

### One of the Largest Sums Ever Paid for a Horse and Low Exchange Rate Keeps Price from Reaching World's Record.

London, Feb. 28.—August Belmont, of New York, has sold Tracery for \$253,000, or \$179,670. This is one of the largest prices ever paid for a horse, and if the rate of exchange were normal it would be a world's record price. Senor S. J. Uzuu, of Buenos Aires, bought the noted stallion through a broker. He will be shipped to South America this spring. He is now standing at South Court Stud Farm.

### Common Council Met In Committee

#### Annual Report of Water and Sewerage Department Submitted — Joint Report of Engineer and Superintendent Also Received—Other Matters Dealt With.

Commissioner Bullock in the absence of the Mayor presided at the committee meeting of the Common Council yesterday morning.

Commissioner Jones submitted the annual report of the water and sewerage department, which says in part: An examination of the following financial statement will show that our receipts from all sources were \$8,082.02 greater than in 1919, although there was no increase in rates. Our expenditures for ordinary maintenance and repairs were \$3,808.30 less. Besides paying \$2,000.00 for the over-expenditure of 1919, \$18,544.57 on account of the completion of the work at Lake Fitzgerald and \$7,807.64 for additional interest and sinking fund charges we have an unexpended balance of \$4,481.36, notwithstanding the increased cost of both labor and material.

It shall be my endeavor during the spring and summer of next year to, if possible, provide a means of relief for those citizens who reside on the higher levels of the city and who, during the rigors of winter, suffer from water because of the carelessness, indifference or wilfulness of many persons residing on the lower levels permitting their water taps to run freely, thus reducing the pressure and in many cases absolutely depriving others of water for days and weeks at a time. To overcome this undesirable state of things several suggestions have been made to me from those whose advice, training and experience should prove valuable to one occupying this position.

I am reminded that in many cities where like conditions prevail the installation of meters have proved an efficient remedy for this wastage. I have no doubt that if a complete meter system were adopted here equally good results would follow. At the present time, however, I do not feel like recommending the indiscriminate adoption of meters until other plans have been tried out.

The faulty plumbing more than any other cause is attributed to the annoyance and inconvenience so many of our people experience during the winter season, and as far as it may be possible for me to do so steps will be taken to remedy these defects so that in future the grievances complained of may be to some extent at least checked in all residences will be inspected by members of the staff of this department and where defects appear and pipes are not protected from freezing a paid team will be given to those responsible to make the necessary changes and repairs, and if this work is not completed within the time allowed the water will be shut off the premises in question and will not be turned on again until the orders of the department have been respected and obeyed.

The following is a statement of the receipts from water revenue and on the expenditures on account of the maintenance of the water service:

Assessment 1919	\$123,429.83
Assessment arrears	15,223.71
Meters and agreements	60,488.97
Steamship supply	8,936.65
Ferry steamers supply	270.00
West Side Fisheries	4,915.74
Sale of material and labor	652.17
Sale of scrap iron, etc.	2,101.02
Rentals	546.00
Sundry	441.97
<b>Total</b>	<b>\$231,986.11</b>
Expenditures	\$48,808.11
Labor and salaries	1,176.63
Taxes	501.50
Street repairs	1,090.00
Workmen's Compensation Bd.	1,652.20
New motor truck	2,000.00
Sundry expenses and equipment	9,277.48
Material (castings, etc.)	22,849.15
Interest	80,780.85
Sinking fund	25,200.20
Lake Fitzgerald main	18,544.57
Over-contracture, 1918	25,703.30
Unexpended balance	4,481.36
<b>Total</b>	<b>\$231,986.11</b>

Acting-mayor Bullock moved that William Chambers, ferry employee who was injured while on duty, be paid \$65.23, the difference between his wages for the period he was unable to work and the amount received under the Workmen's Compensation Act. The motion was laid over for decision by a full board, as a question of policy is concerned.

Commissioner Jones then presented a joint report of the city engineer and superintendent of water and sewerage, and also the commissioner's report. Both were received and laid over for discussion by committee.

Features of the joint report are: Seventeen leaks occurred on the West

Side leading mains. They emphasized the necessity of a new main to Spruce Lake to replace the 12 inch cast-iron pipe which has outlived its usefulness and is entirely too small.

A new touring car or stronger build is required to replace the Ford used for emergency calls at times of breaks. A new 3-ton truck should be procured for the East Side and the one-ton truck at present in use be sent to the West Side.

The report recommended that consideration should be given the question of extending the 36 inch main from the end of the 24 inch main at Manchester's corner to Spruce Lake. This seems to be the best means of improving the West Side supply. Later to relay the 12 inch cast-iron pipe from Barahill's Corner to Tilton's with a 24 inch main; from Tilton's Corner to Watson street, with a 20 inch main, and from Watson to Ludlow with a 16 inch main. This would replace all the old cast-iron pipe.

It is recommended that the 4 and 4 inch pipes in Rotheray Avenue be replaced this year by 8 inch mains. Consideration should be given paralleling the 24 inch wood stave pipe from Phinney's Hill to Little River Reservoir and the extension of No. 2 (36 inch) from the One Mile House to Little River, so as to avoid Fernhill cemetery.

Metering all services is recommended to conserve supply. Water power possibilities on the Mispic are referred to. Daily readings are being taken and forwarded to H. H. Smith, Dominion expert. The work must continue another year to have sufficient data to determine the possibilities.

The city should acquire and control all the water-shed areas at Loch Lomond and Spruce Lake.

As a result of a partial survey of city lands at Loch Lomond and Spruce Lake, it was found that trespassing had occurred and that lumber had been cut.

Adjourned.

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada.

Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocrotolone of Elberfeld. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

### Springtime Millinery

#### Presenting An Exhibit of Exquisite Modes Bewildering in Their Beauty.

Fashion's favorites, as expressed in Millinery for Spring, 1920, made their debut at the St. John Modes in the showrooms of the Marr Millinery Co., Limited, yesterday.

It is needless to go back over the record of "The House Panned for Millinery." You all know of its sixty years of consistent achievement and unusual service. How each season they have brought forward new surprises; on exhibition are the result of combined youthful vision and enthusiasm and ripe, matured experience.

They are showing many charming and exclusive Models from Gage, Fink and other foremost style producers and such a large variety; while we did not attempt to count them, still there must be hundreds shown.

Two of the main things that impress you as you view this showing is the many bright colors displayed and the number of decidedly new millinery novelties they have brought to the St. John ladies, such as Sipper Straw, Raffia Straw, Silk Hair Cloth, Colloplane in its many different forms, Gulafine Plats and many other uncommonly smart innovations.

It will prove a treat indeed just to visit their showrooms, where such a wealth of beauty is displayed, and you know that every model is correct in style, of dependable materials and faultless in workmanship.
