JAPANESE CONDITIONS OF PEACE STAGGER CZAR'S PLENIPOTENTIARY

BOSTON MAN KILLED; WIDOW PRAYS OVER BODY WITH "HEALERS"

Frederick C. Moseley Struck by Train and Died Instantly--- Christian Science Doctors and Mrs. Moseley Held Two Hours' Service in Railway Station, Declaring Man Was Alive--Prayers Resumed Later at Home, and Undertaker Was Not Called.

Boston, Aug. 10--Refusing absolutely to credit the statement of the doctor that her husband, Frederick C. Moseley, a prominent and wealthy Boston lumberman and one of the best-known residents of Dorchester, who was struck and instantly killed by an express train at Neponset yesterday afternoon, was dead, Mrs. Moseley, the wife of the dead man, with a Christian Science healer and a number of friends of the same faith, held a Christian Science meeting lasting more than two hours in the baggage room of the railroad station at Neponset last evening, vainly trying to bring back the departed spirit of the dead man. The services in the station and the death of Mr. Moseley created more excitement in the town than has been seen for a number of years, and it took a sergeant and a squad of police from station 11 to keep back the curious crowd of nearly 500 people who surrounded the station.

divided as to just what occurred. Some say he was reading a letter and held the umbrella over this, while others say it is not so, but that he carried the open umbrella in his right hand and a small bag under his arm. A passenger who was waiting on the platform, and also the crossing tender A. G. Bayard, another employe, ran to where he had fallen, and Mr. Merritt told the Herald later that he gave one groan and stiffened out, dead. The body was placed on a stretcher and carried to the baggage room, where Dr. William E. Kernan examined it and pronounced Mr. Moseley dead, saying that death was practically instantaneous, the skull having been crushed in. Word was at once sent to the home of Mr. Moseley, at 14 Westmorland avenue, Dorchester, but Mrs. Moseley was in Boston, and Russell Moseley, one of the couple, was out on a boating trip. Mrs. Moseley was finally reached by telephone and told that her husband had met with an accident, and drove at once to the Neponset station from Boston in a closed carriage. It was not until she reached the station in company with a lady friend that she was told of her husband's death and she hurried every one by the calmness with which she took the news. "It is a great mistake," she announced calmly. "I shall send for my own physician, and she dismissed with a wave of her hand the official who tried to tell her that a regular physician had pronounced her husband dead. To Miss Parks, a book-keeper employed by the Stearns Company, who was at the station, Mrs. Moseley confided the task of sending for her doctor, who turned out later to be a Christian Science healer. Miss Parks and her mother, also Christian Scientists, then joined Mrs. Moseley and her friend in the baggage room. Shortly after 6 o'clock the "doctors" arrived and the service began at once. The greatest secrecy was maintained regarding the identity of the station Science healer, no one at the station would tell his name, and the information was later denied at Mrs. Moseley's home. Miss Parks, when asked his name, replied that she supposed the papers would print something anyway, and they might as well print it, Jones, Smith or Robinson. The news of the death of Mr. Moseley and the fact that Mrs. Moseley and other Christian Scientists insisted he was alive and were praying for him at the station, spread like wildfire through the town, and it seemed as if everyone hurried to the depot. Still Praying for Recovery. When a Herald reporter called at the home later in the evening he was denied admittance or speech with Mrs. Moseley, her son, Russell, or the doctor. Miss Parks said Mrs. Moseley still refused all other information. At a late hour last night, hope had not been given up. (Continued on page 4, seventh column.)

Komura Demands Expenses of the War; Sakhalin Island; Interned War Vessels; Railway to Harbin; Limiting of Russia's Naval Power in the East, and Many Other Things---Witte Cables Czar for Instructions.

WHERE THE PEACE BATTLE IS BEING FOUGHT

Portsmouth, N. H., Aug. 10--Retribution for the expense of the war and the victories they have achieved on land and sea, their sole purpose being to attain the objects for which they have fought, the spoils claimed being only such as they are legitimately entitled to as the result of their military and naval successes. Terms Cabled to Czar. The Russian plenipotentiaries as soon as the Japanese terms were in their hands, called in the five expert delegates attached to the mission and spent the whole afternoon in the consideration of the terms. Meantime the conditions had been placed in cipher and cabled to the Czar, with Mr. Witte's personal recommendations. It is hoped that a reply will be received from the emperor tomorrow, in which case Mr. Witte expects to have the Russian response ready by Saturday, but it is not unlikely that Saturday being the first anniversary of the birth of the Tsar, the presentation of the reply will be deferred until Monday. Meantime the plenipotentiaries will not meet unless some unexpected necessity for a conference should arise. The Japanese plenipotentiaries manifest not the slightest annoyance at the prospect of a few days' delay. They realize how serious the issue is, and are perfectly willing to give their Russian colleagues ample time for consideration. Mr. Witte and Baron Rosen had yesterday accepted an invitation to dine with the Russian Secretary of State Peierov, and in spite of their arduous labors at the navy yard today, they kept the engagement. At 9 o'clock, upon their return to their quarters in the hotel, they plunged again into their work and the lights in their rooms burned until long after midnight. Much excitement prevailed about the hotels, the corridors of which were thronged with summer guests and newspaper correspondents, all discussing and speculating upon the terms, while in the corridors dozens of telegraph instruments were clicking off despatches to all quarters of the globe. The Russian and Japanese plenipotentiaries denied themselves to callers, no statements were issued, and only to a few were the substance of the Japanese conditions known. Later it was ascertained that an agreement was reached today by which the next meeting of the conference was formally adjourned until Monday. Mr. Witte in the course of his remarks at the meeting of the plenipotentiaries this morning reviewed at length the events leading up to the war.

AUSTRALIA SORE AT CANADA'S ACTION

Minister of Trade and Commerce Declares That Dominion Government is Unwilling to Help Them in Getting at Value of Exports from This Country. Montreal, Aug. 10--(Special)--A special London cable says: A Melbourne despatch states that antagonism between Australia and Canada has been rapidly developing during the last few months. During an acrimonious debate in the house of representatives last night, Sir William Lyne, minister of trade and commerce, referring to his reassessment of value of Canadian harvests, caused a sensation by producing a letter from the dominion customs department flatly refusing to allow Canadian officers to make inquiries enabling the commission to ascertain, for the purpose of taxation, the real value of articles sent from Canada to Australia. Sir William Lyne hinted that the dominion was unwilling to give any assistance in establishing the fair customs revenue. The Australia press is continually publishing articles depreciating Canada's progress and asserting that Australian development is on a sounder basis commercially and against any form of preference which will strengthen the position of their Canadian rivals.

DALHOUSIE TO OPEN EXTENSION CLASSES AT SYDNEY, C. B.

Sydney, N. S., Aug. 10--(Special)--Dalhousie University has completed arrangements for the establishment at Sydney of university extension classes in drawing, English, science, classics, modern languages and mining and civil engineering. Only the elementary principles will be taught, and classes will open in September. A special series of lectures will be given by Dr. MacMechan, of the university, in Shakespeare and Tennyson, and by Prof. Sexton, also of the university, in metallurgy.

HALIFAX BOY INSTANTLY KILLED

Halifax, Aug. 10--(Special)--Shortly before 3 o'clock this afternoon, Bernard Cunningham, aged 16 years, was killed in the elevator car in St. Paul building. The elevator was at the bottom of the floor and the janitor of the building was changing the cable. He told the boy he was doing so and supposed Cunningham, whose duty it was to control the elevator car, would take the brake to it. But the boy who had his head outside the car had not done so and the cable was taken off. The barrel of the car shot upward and the boy's head was jammed against the ceiling, breaking his neck and causing immediate death.

NO BOUNTY ON STEEL RAILS

Dominion Government Passes an Order in Council to That Effect. Grain Rates Reduced. Railway Commission Orders Grand Trunk and Canadian Pacific to Reduce Them From Ontario Points to Montreal, But Not to Portland, Me. and St. John. Ottawa, Aug. 10--(Special)--The government have passed an order-in-council providing that the bounty on steel manufactured in Canada shall not apply to steel rails. This action was taken because industries at the Soo made, and successful in the past, the contention that under a previous regulation they were entitled to a bounty on steel rails they manufactured, as well as on structural steel. The railway commission today issued an order which requires the Grand Trunk and Canadian Pacific railways to make a general reduction in rates from Ontario points to Montreal on grain and grain products for export. This action has been taken as a result of a complaint of the Dominion Millers' Association, supported by the Canadian Manufacturers' Association. It seems that from western states to Montreal for export what is known as the Philadelphia rate has been charged, whereas from Ontario to Montreal the New York rate has been enforced which latter, speaking generally, is of no cents higher percentage charges from Ontario to be reduced so as to bring them more into line with the percentage groups in the United States. No Out to St. John. In addition the board has ordered that the grain rates from Ontario to Montreal for export must be on the same basis as from the western states to Montreal via the Philadelphia basis, the New York basis still applying to Portland (Me.) and St. John (N. B.). The effect of the order is to place the Canadian miller on an equal footing as respects railway rates with the millers in the western states who are competing with him in the European market. Dr. Robert Bell, acting director of the geological survey, has had placed under his care for training a young Hindu named N. D. Daru, who recently graduated from the Royal School of Mines, London. The Indian government wishes Mr. Daru to study the methods of the Canadian geological survey, and as a start off he has been sent with a party to the gold fields of Nova Scotia. A young son of W. J. Eastcott, grocer, of Bank street, while turning comersault, swallowed a copper coin he held between his teeth. The doctors located the coin in the stomach by means of X-rays, but have not yet removed it.

BRITISH SQUADRON DUE AT QUEBEC THIS AFTERNOON

Quebec, Aug. 10--(Special)--The British warships passed Fame Point at 7:30 a. m. today, and are expected to reach Quebec at 4 p. m. Friday afternoon. The squadron includes his majesty's ships Drake, Cornwall, Bedford, Essex, Berwick and Cumberland. Fame Point is 324 miles below Quebec. Locomotive Firemen Finish Business. Toronto, Aug. 10--(Special)--The Brotherhood of Canadian Locomotive Firemen concluded their convention tonight and selected Ottawa as the next place of meeting.

FOUR BURNED TO DEATH IN NELSON B. C. HOTEL FIRE

Nelson, B. C., Aug. 10--(Special)--The Grand hotel, a three story building in this city, was destroyed by fire which broke out early this morning while the inmates slept. The absence of fire ladders caused the death of four persons, who were unable to reach the ground from the top story. The other inmates barely escaped with lives, and four of them were terribly burned. The fire broke out at 11:30 p. m. and the fire department arrived at 12:15 a. m. The cause of the fire is not yet known.

BRITISH SQUADRON DUE AT QUEBEC THIS AFTERNOON

Quebec, Aug. 10--(Special)--The British warships passed Fame Point at 7:30 a. m. today, and are expected to reach Quebec at 4 p. m. Friday afternoon. The squadron includes his majesty's ships Drake, Cornwall, Bedford, Essex, Berwick and Cumberland. Fame Point is 324 miles below Quebec. Locomotive Firemen Finish Business. Toronto, Aug. 10--(Special)--The Brotherhood of Canadian Locomotive Firemen concluded their convention tonight and selected Ottawa as the next place of meeting.

YELLOW FEVER SHOWS NO ABATEMENT AT NEW ORLEANS

Sixty-eight New Patients Thursday, With Five Deaths, Making Total Number 124--There Have Been 747 Cases So Far--Funeral of Archbishop Chapelle to Be Private, Although Doctors Claim Disease Cannot Be Transmitted by a Corpse. New Orleans, Aug. 10--The official record of the yellow fever situation up to 6 p. m. tonight is as follows: New cases today, 68; total cases to date, 747. Deaths today, five; total deaths to date, 124. New disease centres today, 21; total disease centres, 151. Cases under treatment, 268. The situation does not look so favorable in the face of such a steady increase in the number of new cases and new disease centres. The discouraging feature of today's report is that only nineteen of the sixty-eight names are those of Italians. Quite a number of new cases appear to be secondary infection in disease centres. An exceedingly ugly centre of infection was unearthed in St. Charles parish today by Dr. Corbett, of the Marine Hospital service. Two days ago he unearthed six cases on the Diamond plantation, and today he found two more cases on that place and eleven cases on the Reserve plantation, on the Sarry plantation. It is believed that more than thirty Italians have left this group in the last week. Five more cases have developed at Patterson, in St. Marys parish, making thirty cases in all there. In order that no unnecessary risks of spreading yellow fever be taken, it was announced today by Surgeon White that the funeral of Archbishop Chapelle, on Saturday at 9 o'clock in the morning, would be private. Dr. White said it was a fact accepted by the scientists that yellow fever could not be transmitted by a corpse, but he thought there would be some element of danger in attracting to the cathedral an immense assemblage of people from all parts of the city. The cathedral is situated in the originally infected quarter. Today a solemn requiem mass was said in memory of the archbishop.

\$30,000 MONCTON COMPANY SEEKS INCORPORATION

Westmorland County Rifle Match Friday--Bank Clerk Resigns-- Baseball. Moncton, N. B., Aug. 10--(Special)--R. G. Allen, son of E. H. Allen, I. C. R. claims agent, has resigned his position in the Bank of Nova Scotia at Parrsboro and intends leaving in a week's time for the Canadian west. The Bloomer Girls played a team composed of players selected from the local league teams this afternoon before 500 or 600 people. The game was more of a baroque than an exhibition of base ball, and the crowd was disappointed. The girls were allowed to win, the score being twelve to five. In the local league game this evening between the Trojans and Franklins, the latter were shut out; score six to nothing. The Westmorland county rifle match will be shot on the Moncton range tomorrow. Application has been made for the incorporation of the Electro Supply Company, Ltd., with head office at Moncton. The capitalization is \$30,000. The incorporators are J. S. MacGee, G. R. Jones, Dr. McChang, Geo. McSweeney and others.

C.P.R. CHANGES NAMES OF NEW STEAMERS

Instead of Empress of Germany and Austria They Will Be Empress of Britain and Ireland. Montreal, Aug. 10--(Special)--The names of the two C. P. R. steamers which will be launched in October and November have been changed. It was announced upon the return of Mr. Piers, the manager of the steamship lines, that the liners would be the Empress of Austria and Empress of Germany. Now it has been decided to call them the Empress of Britain and the Empress of Ireland. The change forethelows the policy which will be followed in naming any future additions to the company's fleet. All passenger vessels will be empress and each will have as its distinctive title the name of some colony or dependency of the empire. A cablegram was despatched to the builders this morning.

BRITISH SQUADRON DUE AT QUEBEC THIS AFTERNOON

Quebec, Aug. 10--(Special)--The British warships passed Fame Point at 7:30 a. m. today, and are expected to reach Quebec at 4 p. m. Friday afternoon. The squadron includes his majesty's ships Drake, Cornwall, Bedford, Essex, Berwick and Cumberland. Fame Point is 324 miles below Quebec. Locomotive Firemen Finish Business. Toronto, Aug. 10--(Special)--The Brotherhood of Canadian Locomotive Firemen concluded their convention tonight and selected Ottawa as the next place of meeting.

MAYOR PARENT HAS DUAL POSITION

Drops Railway Commission Work to Go to Quebec to Receive British Squadron--To Inquire Into Zinc Deposits of Canada. Ottawa, Aug. 10--(Special)--Mr. Parent, chairman of the railway commission, left this afternoon for Quebec. As mayor of that city he will participate in the welcome to Prince Louis of Battenberg, and the official duties of the commission. Mr. Parent received a telegram stating that the squadron had been sighted from Fame Point, and would arrive at Quebec at 3 o'clock tomorrow afternoon. Acting upon the recommendations of Dr. Haanel, superintendent of mines, Minister of the Interior Hon. Frank Oliver has decided to have an expert investigation made into the character and extent of the zinc deposits of British Columbia. It is not yet known who the expert to have charge of the investigation will be, but the thorough manner in which the inquiry into the matter of electric smelting in Europe was carried on by Dr. Haanel is a guarantee that the highest talent will be employed.

VIRGINIAN BREAKS HER BEST RECORD

Allan Liner Lost Seven Hours, But Still Made Her Remarkable Run. Montreal, Aug. 10--(Special)--The Allan liner Virginian, which passed Father Point toward this morning at 8:42, has broken her previous record by two hours, and the English mails will be delivered here tonight and in Toronto tomorrow. Her time from Monville to Father Point was five days and twenty-two hours and twenty minutes, allowing five hours added for westward passage. This is the fastest time ever made in delivery of mails to Toronto, and only by an all Canadian route but by the American route as well. The Allan office has been informed by Virginian's captain that seven hours were lost by fog near Straits of Belle Isle, so it is evident that with fair weather throughout the voyage it is possible, with the Virginian, to land mails in Montreal in the forenoon of Thursday in place of evening, making the entire run of passengers and mail bags from Monville to Montreal in six days and a few hours. The Canadian postal authorities stated today that they were making every endeavor to land mails here and in the west with all dispatch.

FOUR BURNED TO DEATH IN NELSON B. C. HOTEL FIRE

Nelson, B. C., Aug. 10--(Special)--The Grand hotel, a three story building in this city, was destroyed by fire which broke out early this morning while the inmates slept. The absence of fire ladders caused the death of four persons, who were unable to reach the ground from the top story. The other inmates barely escaped with lives, and four of them were terribly burned. The fire broke out at 11:30 p. m. and the fire department arrived at 12:15 a. m. The cause of the fire is not yet known.
