The forty-third annual meeting of the shareholders of the Merchants' Bank of Canada was held in the board room of that institution on Thursday at noon, when there were present: Sir H. Montagu Allan, Messrs. Jonathan Hodgson, Thomas Long, C. R. Hosmer, C. F. Smith, Hugh A. Allan, Alex. Barnet (Renfrew), John Patterson, Michael Burke, George Hague, E. F. Hebden, M. S. Poley, C. R. Black, John Beattle, George Smith, and M. T. Burke.

The proceedings were opened by Sir H. Montagu Allan, president, taking the chair, and requesting Mr. C. N. Read, secretary of the bank, to act as secretary of the meeting.

THE ANNUAL REPORT.

The president submitted the following report of the directors: The directors beg to present to the shareholders the annual statement of the affairs of the bank as at May 31 last:

The net profits are larger than last year, due to favorable trade conditions continuing to prevail, which have had a tendency to further stimulate business activity, bringing about more or less money pressure, with the usual corollary—somewhat higher money rates. Your directors have this wear been enabled to bring the reserve fund of the bank up to the round sum of \$4,000,000, in addition to writing \$100,000 off bank premes account, as well as contributing \$22,000 to the officers' pension fund. It will be noted that the paid-up capital and reserve fund of the

bank have now reached the important figure of \$10,000,000. The various branches of the bank have been duly inspected during the

past twelve months. It is with sincere regret that we have to record the death a few days since of our esteemed colleague, Mr. James P. Dawes, whose counsels and advice at the board were, during the lengthy period of twenty-one years as highly valued as he himself was personally esteemed by his co-directors. The president congratulated the shareholders and management of the bank on the very satisfactory showing made during the year. "I think," said he, "it is the best statement the bank has ever shown." He then moved, seconded by Mr. Jonathan Hodgson: "That the report of the directors as submitted, be, and the same is,

He intimated that, before putting the motion, he would be pleased to answer any questions that any of those present might desire to ask. Mr. C. R. Black inquired respecting the bank premises and furniture, and the president suitably replied. The motion for the adoption of the report was then carried unani-

mously. The general manager, Mr. E. F. Hebden, said he was very glad that so satisfactory a report could be presented, and went on to remark that conditions had been unusual during the past year, favoring average higher rates, not only in Canada, but in the country to the south. These might not prevail another year, and he asked the shareholders not necessarily to expect a repetition of the present, but to be prepared, if necessary, to ac-

cept something a little less favorable. The President-There is a resolution to come before the meeting. asking the shareholders to agree to changing the date of the annual meeting from June to December. Nearly all the banks nowadays are ending the year on Nov. 30, or Dec. 31, and are holding their meetings in December or January, which is a good deal more convenient, because many people want to get out of town in June, and particularly so if they are going across the Atlantic, as this month is the best time. If the proposed change in the bylaw is approved, the directors elected at this meeting will only hold office until the annual general meeting in December next, and after that the annual meetings will be held on the third Wednesday in December, instead of the third Wednesday in June, as at

It was then moved by Mr. C. R. Hosmer, seconded by Mr. Hugh A.

"That it be resolved that bylaw No. 1 be, and the same is, hereby amended by striking out the word 'June' in said bylaw, and substituting therefor the word 'December.' " The resolution was unanimously concurred in.

Messrs. C. R. Black and John Patterson having been appointed scrutineers, a ballot was taken ..

Mr. Thomas Long spoke of the pleasure they all felt at seeing their esteemed friend, Mr. George Hague, the late general manager of the bank, present at the meeting, and seeing him hale and hearty. Mr. Hague expressed his thanks and complimented the directors and

management on the excellent standing attained by the bank. The president remarked that much of the success of the bank was due to its officers, the men who had the executive part of the work in hand. The directors might advise them, but they had to carry out the work. A vote of thanks was tendered the president for his conduct of the

ousiness of the meeting. The scrutineers then reported that the following gentlemen had been Sir H. Montagu Allan, Mr. Jonathan Hodgson, Mr. Thomas Long, Mr.

C. R. Hosmer, Mr. C. F. Smith, Mr. Hugh A. Allan, Mr. C. M. Hays, Mr. Alex. Barnet and Mr. Bryce J. Allan.

The new board of directors met immediately afterwards, and Sir H. Montagu Allan was re-elected president and Mr. Jonathan Hodgson, vice-

SWINDELL-LING

Wedding of Two Well-Known Young Residents of Westminster.

A very happy event took place on Wednesday evening at the home of gradually coming more and more in Mr. and Mrs. W. D. Ling, Township of Westminster and Southwold, when their daughter, Miss Bertha, was united in marriage to Mr. William Swindell, of Tempo.

The ceremony was performed by Rev. J. G. Jewett, of Lambeth, under an arch.

The bride was attired in a beautiful gown of white silk eolienne. She wore the conventional veil and orange blossoms, carrying a bouquet of white roses. She was assisted by her sister, Miss Leah, who was gowned in blue silk mull. Little May Jackson, niece of the groom, made a charming maid of honor. The groom was supported by Mr. Adams.

After congratulations, over seventy guests sat down to a dainty wedding breakfast. The happy couple left for eastern points to spend their honey.

The numerous and valuable presents testify to the esteem in which Mr. and Mrs. Swindell are held. Among the guests were friends from

Left Without Waiting for Court's Decision.

Montreal, June 23.—Hon. Wm. Pugsley arrived here Saturday, and will not appear as crown counsel in the Emmerson case on Monday morning, when Judge Landry gives his decision as to referring the defense plea to a full Surt.

J. H. Barry, K.C., his associate, will

act in his stead. Mr. Pugsley's departure emphasizes the determination of the crown to go no further into the evidence for the PRIVATE SALE OF ALL HOUSEHOLD present. It is understood that in the event of a reference being refused, Mr. Barry has been instructed to ask for a reserve case. The law in espect to this is somewhat doubtful. There is provision for a reserve case in regard to matters prior to and during the trial, but the general construction seems to be that this cannot be anplied for successfully until after the trial has commenced. But what is a trial? Does it commence before the jury is sworn or does it not? This is one of the interesting questions to be

decided.

If a reserve case is refused the crown will try other means, perhaps. in the form of an appeal to have the judge's ruling set aside. There is a third possible procedure, and this is to proceed under a writ of error, are shown by independent witnesses though that is supposedly abolished. It is contended in some quarters that the abolition applied only to those cases in which a reserve case could be since the abolition of this form of procedure, instructed counsel that they error in a certain case. The whole situation apparently bristles with technicalities, and the crown has by no neans throw up its fight.

Pittsburg Millionaires the Shining Mark for the Tenderloin.

New York, June 23.-J. I. C. Clarke playwright, author and manager of the Standard Oil's publicity bureau. made the bald statement the other day that \$150,000 is wasted every night in the pleasure zone between Fourteenth and Fifty-ninth streets on things that people really do not want and would be better off without.

Today he was induced to submit bill of particulars. Under the peculiar influence of wastefulness that seizes people in the glare of the electric light, he says, business men who are tightfisted by day become open-handed; a man who reproaches himself for paying 55 cents for lunch, instead of keeping his check down to 50 cents, think: nothing at night of his throwing away a \$50 bill for something he does not need and really does not want.

It's mainly because he wants to be known as a "good fellow," he says. These are the many things, he says. in which money is frittered away: After-the-theater suppers, cab fares

and gifts. "It is a peculiar fact," says Mr. Clarke, "that the man from out of town who rakes and scrapes at home, comes here, and goes about with his pocketbook wide open. One of the greatest contributors to the night fund of New York is the Pittsburg millionaire. He doesn't think that he is having a good time unless he spends from \$100 to \$500 a night when he strikes Broadway. The Pittsburg millionaire is the shining mark of the night life in New York."

said he took into consideration was "predatory class," concerning which he said: "Any ordinarily sensi ble man thinks nothing of spend-"Very good. The Pure Food Movement

is very strong in Canada today. In no article of diet is purity so important as in flour, for flour is the basis of more than half your food. It is your duty, therefore, to see to it that the flour you use is pure.

"FIVE ROSES" FLOUR is made by a process which insures absolute purity, in so far as it can be secured by the most scientific milling methods. From the time the wheat enters the mill until the flour reaches the cook it is untouched by human hands. The grain itself is thoroughly cleansed before grinding, whilst the flour is sifted, time after time, through the finest silk cloth, in order to remove the smallest impurities.

These processes render "FIVE ROSES" an easy and satisfactory flour to use, and to insure better results on baking day than can be obtained with any ordinary brands.

Mélbourne, June 24.—The romance of the young actress who has been kidnapped several times by each of her parents in turn is carried a step fur-

The little heiress is Miss Muriel Dorothy Knipe. She is 8 years old, and when she comes of age she will inherit \$290,000 and an interest in the wholesale grocery business of the late James Service, who was treasurer and pre-

mier of Victoria for many years. The child's parents are separated and for several years they have been contending for the possession of their daughter. First she was kidnapped by one, and then by the other. She has made four journeys between England and Australia, and the latest information is that she is now in Vancouver with her father, who kidnapped her in London on Jan. 23 last.

Mr. and Mrs. Knipe and their daughter went to London in December, 1904 but disagreements arose there, and in the following month Mr. Knipe disappeared with the child. Mrs. Knipe remained in England almost a year, searching for them, and she took prosailed for Melbourne with the child.

IS FALLING DOWN

and Metal Rotting by Electrolysis

New York, June 23. - Now comes Brooklynites the fear that the

tan may fall. Prof. Sabin has warned the bridge engineers that if some measure is not taken to insulate the Williamsburg and Brooklyn spans they will

Ever since the Williamsburg bridge was completed leaking currents of electricity sent out by the great Edison Company's plant on Pearl street, in Brooklyn, have traveled to this city by way of the Brooklyn bridge, thence up the Bowery and back to Brooklyn by way of the

Williamsburg bridge. Only lately has it been realized that a vast amount of wasted current has been making this loop of the East River and rotting and corroding steel and metal in its course. The "juice," as it is called, leaks from the trolley wires in Brooklyn, uting plant, from the third rails that cross the bridge, and the supply current to the Brooklyn rapid transit elevated and surface lines and from the subway in this city.

Paint of No Service. Prof. Sabin, who is an expert on electrolysis, declares that the colored paint with which the metal has been coated is not only of no service, whatever, but an added menace, because it prevents a proper investivation of just how far gone the metal

Under its opaque surface cables and framework of steel decay to an alarming extent before any knowledge is obtainable of thier insecure condi-

tion, he says. Engineers have figured that 40 per cent of the water that comes to this city is wasted through leaky mains that have been corroded through the action of electric current, and now it is said the same dangerous conditions are obtaining on the great East River spans.

The nuts and bolts are noticeably stanchions are also affected. Wherevagrant currents of electricity

The menace to the two bridges is said to be so great now that Bridg Commissioner Stevenson will urged to make a thorough investigation. This will be no small task, and it may prove that the traction and lightning companies are woefully negligent in not using a proper insulation to prevent waste.

As a result of the aforesaid admixture trusty bat. of incidents, Umpire Bill Reid and the various members of the fallen Stars don't gush over one another when they meet. In fact, the atmosphere dividing the two parties resembles nothing so much as a blast from the Arctic regions. But of that later.

The Bakers corralled the bout be fore the fifth milestone had been passed, but just for good measure they rolled up a snug margin of six good ones in the next five sessions, making altogether a total of ten runs out of eleven hits and three errors.

Two hits and two misplays enabled the Rockets to register one lonesome tally in the opening session, after which they laid on their oars (out of necessity) for five innings, while the boys from the doughnut factory worked away with a vengeance and rang the bullseye in the second, fourth and fifth

Round two was a veritable Perrinsgo-round, and if Gregory hadn't fizzled out there is no saying where the Bakers would have stopped. The opening of the session was not very promising inasmuch as Wanless poked almost

Ramblers Lose the Lead

For the first time this season, the champion Somerville nine are leading the East End League. Until Saturday, the Ramblers had been perched on the top rung of the ladder, but their clash with the chewing gum crew resulted in their taking a tumble into second place, which, by the way, they do not hold by any too secure a margin. The Oriens are coming strong, and should they win their next and the Rambiers lose, they (the Oriens), will squeeze into second. By their double victory over the hoodoo nine on Saturday, the Oriens took a big jump in the percentage column, going from

.400 to .571, and getting a long lead over the Stars. The right of the Wortman & Ward nine to the full possession of the cellar is not being challenged, and will not be, if the team do not shake the hoodoo and the other nines continue to

#### SNAPSHOTS AT VARIOUS SPORTS

It's just about time for certain local ballplayers to realize that an umpire is, and should be, the boss during a ball game. Notwithstanding certain remarks to the contrary, by a few soreheaded individuals, the writer desires every team in the league to receive fair play, and inasmuch as he is practically unacquainted with the members of all of the teams, the charge of prejudice is unjust and without foundation. We might remark that Umpire

Umpire-baiting has gone on in the big leagues-and in the City League .....0 1 2 0 0 0 1 0 8-12 15 2 Under no circumstances snan a captain of player dispute the complex shall be under no circumstances snan a captain of player dispute the unpire is the umpire's judgment and decision on a play. Rule 60 says: The umpire is captain or manager to do or omit to do any act which, in his judgment, is necessary to give force and effect to one or all of these rules, and to inflict

> Rule 61 says: There shall be no appeal from any decision of the umpire on the ground that he was not correct in his conclusion as to whether a batted ball was fair or foul, a base-runner safe or out, a pitched ball a strike or ball, or on any other play involving accuracy of judgment, and NO DECI-SION SHALL BE REVERSED, except that he be convinced that it IS IN VIOLATION OF THESE RULES. The captain ALONE shall have the right to protest against a decision, and seek its reverse on a claim that it is in conflict with a section of these rules.

A strict interpretation of the above rules means that Sippi, Bell, Graham, Jeffries, or any other player or captain has no right to dispute a play involving accuracy of judgment.

Umpire Reid was perfectly within his rights in ordering Jeffries from the field, and although it was a trifle hard on the Stars, the action should have a salutary effect on would-be future kickers. It was pleasing, too, to note that the City League officials upheld the umpire in his action.

It's bad enough for an umpire to be obliged to take gibes and jeers from the uncouth element in the stands, without getting the same dose from Reid is only human, and is liable to err, but he took the proper stand on

Saturday, even if Jeffries made a remark only one-half as caustic as he is credited with doing. It wouldn't hurt a few of the kickers in the big local league to take a fourney out to Queen's Park some Saturday. An umpire in that locality,

if at all competent, is respected. The writer has seen two umpires officiating in the City League, and there was a kick coming from some corner every moment. It will be recalled, perhaps, that even though Davis, of Strathrov, umpired all last season in the league, the Stars entered a protest against his work at the conclusion of the first game of the season, and threatened to withdraw if he was not let go. Davis remained until he was ready to leave, and the bulk of the

NOTABLE CAREER ENDS.

The tragic death at Belleville yesterday of Hod Stuart, the famous coverpoint of the Montreal Wanderers, removes from Canadian sports one of the Dominion's foremost athletes. Many competent critics claim that Stuart was the greatest hockey player of the past decade, if not the greatest the game has produced. His work last winter with the Champion Montreal septette was a marvelous display of the finesse to which hockey has been reduced. But Stuart was not a one-game man. He was an all around athlete after the pattern of Harvey Pulford, his fellow-Ottawan, being an expert oarsman and football player, and fairly fast at lacrosse.

Emotional Insanity Plea of Judge Who Murdered Daughter's Escort.

Houston, June 24. - The trial of formed Judge W. G. Loving, of Nelson County, for the murder of Theodore Estes, son of Sheriff M. K. Estes, of Nelson County, began in the circuit court here today. Judge Barskdale presided. The trial promises to eclipse in interest and sensation the McCue and the Strother-Bywaters cases in Culpepper. It will again put to test

the unwritten law. Judge Loving, armed with a doublebarreled shotgun, instantly killed young Estes, while he was unloading a car of fertilizer in Oak Ridge on April 22. The shooting was the sequel to the buggyride taken on the evening prior to the homicide by young Estes with Miss Elizabeth Loving, the 19-year-old daughter of Judge Loving. The girl, when brought home, had been drinking, and it is alleged that her escort had maltreated her. Acting under the impulse that his daughter had been drugged and assaulted, Judge Loving immediately went in search of Estes. After the shooting, he said: "I shot to kill. Every drop of blood

# Allow Us To Repholster "The Old Arm Chair"

"I love it, I love it, and who shall dare To chide me for loving the old arm chair? I've treasured it long as a sainted prize, I've bedewed it with tears and embalmed it with sighs .. .. ..

In nearly every home there are a few pieces of furniture, which, like "the old arm chair," are worth a hundred times their intrinsic value, due to the fact that they are bound to their owners by the ties of sentiment.

Perhaps, these old pieces of furniture have stood the test of wear and time so long that they have become a trifle unsteady or a little shabby.

But that can be easily remedied, if you will allow us the privilege of saying so, for the old style frames were so honestly, solidly, and substantially built that they will practically never wear out.

What these pieces need is the services of our upholsterers. We are specialists in the art of repairing and upholstering old and antique pieces of furniture. We have this class of work down to the fine point. We will renew the strength and vigor of the frames, upholster them firmly and solidlymake them as good, from the appearance and comfort standpoint, as in the days of long ago.

We will be pleased to have our foreman of the Upholstery Dept. call at your home and furnish you with estimates of the cost of renewing the life and looks of any odd pieces of furniture. Call or 'phone us.

While we have your attention we might remind you that we carry a large and complete stock of furniture coverings, including the popular and handsome Florentines, Moires and Brocades, as well as the more elegant and less familiar lines of fabrics.
