If a Man Does Not Make a Will

Your Wife's Position

Ignorance of the laws of intestacy does not excuse a man from unwittingly working a cruel injustice on the person nearest and dearest to him.

When a man who has no children dies without a will the law declares, (1) that his widow receives the first \$1,000 in his estate, (2) that his widow receives one-half of what remains, (3) that his next of kin, no matter how remote, receives the other half of what remains.

Think this over. Sometimes the failure to make a will works out as criminal carelessness.

Our booklet entitled "Your Will" is a safe guide to making a will and we will gladly furnish a copy on

ST. JAMES' ANGLICAN.

That the operation of the modern radio can give folk a few lessons in preparedness for God's work was the theme of Rev. Leslie Armitage, M.A, rector of St James' Church, at his Sunday morning service He took as a text the 26th verse of the second chapter of the Gospel of St Luke: And it was revealed unto Him by the eath, before he had seen the Lord's

Christ."

The rector cited a happening in which a contractor had been trying to locate his foreman by the aid of a broadcasting station in order that an order for important work could be made known. The foreman couldn't be found, simply because he was so preoccupied that he wasn't listening for orders. He went on do-ing a minor task when the demand was for a more important duty.

A Menace To British Labor.

London, England, presents the spectacle of a serious strike not recognized or ordered by the regular labor unions. The stoppage of underground railways may be the result.

This strike was ordered by "an unofficial ommittee dominated by communist influences." It may with some degree of accuracy be interpreted as a split in the labor forces in England. there has been a noticeable change in the Wreck records seem to bear out the contention attitude of many of the Labor men in parlia- of the Blenheim paper. ment. They realize that they are engaged in The responsibility of office has had a sobering effect on many ideas and theories that called for major amputations where it has been found that a mustard plaster would do.

These communists desire to move by strikes and trouble. They chafe under the restraint of

these people. They are the greatest menace to the continued existence of the present government, and would wreck it in a day if they could find the weapon with which to strike the blow.

M. Millerand-"I am."

M. Herriot-"Then I will not form a cabinet." The president wanted Herriot to pursue a policy which the latter knew would not be acceptable to the socialists of the left wing to whom he owes his political existence.

The situation is not assuring. France needs stability of government and a union of her talents. She must know that there are plenty of forces on the outside ready to weaken the prestige of the government, without those on the inside turning their hand to this work.

He Was a Good Scout.

A Boy Scout in Chatham on March 8 saved another lad from being drowned in the river there, yet it was only this week that the father of the lad was able to find out who the rescuer of his son was.

That is a commendable attitude on the part of the scout. He was a "good scout" in every sense of the term. But is there not something wrong in the way we do things? When a deed becomes a larger matter than a good turn of one be sold the announcement was made that prices boy to another.

We are very quick to turn publicity and recognition on acts that are unworthy; in fact police to attend to this. Serving the Taxpayer.

Toronto Board of Education decided in favor of keeping a record of the use made of the publicly-owned cars placed at the disposal of the members

Toronto ratepayers would not object to furnishing transportation to members on business for the board. It is when private business or pleasure creeps in that the trouble comes.

Even at the danger of offending those who are very careful in such matters, cities-and Toronto, on account of its size, in particular-find it necessary to pull the reins a little tighter. The tendency is to keep on increasing-more departments, more staff, more cars, more drivers and more upkeep. None of these things in itself is great, but in the aggregate they do their full duty in making up a larger bill for the ratepayer to settle.

This checking-up process does not mean that Toronto wants to be niggardly or tight. It is a corrective step necessary in Toronto and elsewhere. If it were not applied the expense column in the public ledger would grow like a burdock in a vacant lot.

Potato Bugs Go Abroad.

And now they've got potato bugs in France, mething that never happened before. And the French peasant farmer is puzzled. He doesn't know what to do with them, whether to shoot them or whack them or poison them.

But he'll learn before long and the experience will do him good. The small boys in France have missed a great deal if they have never learned the gentle art of picking potato bugs, and keeping the dish so sloped that the captives do not get up over the edge, tumble out and

start work again. And the Germans have heard of the new pest in France, and are determined that the potato bugs shall stay in France, and the chances

are that they will. There's no need to worry. The potato bug works in the open where he can be picked or squirted, and the biggest potatoes and the biggest bugs often grow in the same field.

Flowers Can Be Killed When Worn by the Wrong Person.

BE DEFINITE

Have the Courage To Adopt Some Fancy and Stick To It.

By JULIA HOYT.

The choice of flowers for corsage uquets should be made with as uch consideration of the personality f the wearer as is given to perfumes or, perhaps, I should say as should e given to perfumes. To my mind, ust as flowers can be killed by being but in the wrong surroundings, they tan be killed when worn by the wrong person. Also, one's appearance tan be hurt if the wrong flowers are worn. I have often seen persons with a bunch of sweet peas, lilies-ofthe-valley, or violets, from whom I Instinctively wanted to remove them

and put in their place some more sophisticated flowers. And vice versa. The Latin races have a strong feeling on this subject and men in Euing on this subject and men in Europe are usually very particular to study carefully the personality of the lady to whom they are going to send their flowers. With them, however, it goes even further than in sending her the correct flowers for her wear.

sent to her for decorating her rooms. They are quite right in this, I think, for, as I have said, flowers are very sensitive to their surroundings and their wearers. They almost seem to hang their heads when out of place and to be proud and alive when congenially situated.

Naturally, we have to consider the color of our dress when wearing flowers, and also the style and shape, for flowers, and also the style and shape, for flowers may adorn some and my opinion, large corsage bouquest are never attractive. Breast plates, even though perhaps made up of the most beautiful flowers imaginable, are unbecoming and ugly, or I might even go so far as to say distort one's figure, as many bouquets do.

New Methods Removes

Wrinkles in 15 Minutes

A veritable wonder-worker for wrinkled and flabby faces is a simple, harmless application made by mixing a spoonful of powdered tarkroot with a spoonful of lemon juice. Not only does it quickly smoothe out the wrinkles and age lines—before one's very eyes—but it has a stimulating influence upon the weakened and relaxed underlying tissues. The mixture is spread over the face with the fingertips, and in less than fifteen minutes the mirror shows that a most marvelous transformation has taken place. When the substance is washed off the average face actually looks ten or fifteen years younger.

The results are far better than those obtainable from the most expert massaging—and the cost is less than three cents a treatment! Powdered tarkroot can be obtained from any druggist.—Advt.

Their Wives

A Man's Prosperity Depends Upon the Kind of Home-Maker His Wife Is, But That Depends Upon How Happy He Makes Her.

These few words are addressed to husbands only

If I could give you, Mr. Married Man, a reliable tip on a hundredo-one shot in the races, or if I could tell you how to turn the trick and make a killing on Wall street, you would call down blessings upon my

> Will you, then, listen to me when I put you next to a deadsure thing that will not only make you rich in happiness, but that will pay you 100 per cent profit on your investment in good, hard

> > For a man's prosperity is far more dependent upon his home conditions than he realizes. If he has a wife who is a spendthrift and a waster, it is virtually impossible for him to ever get ahead of the bill collector. If he is married to a woman who is a shiftless housekeeper and who feeds him on food that would poison an ostrich, she impairs his efficiency

ruining his digestion and bringing dyspepsia upon him. If his wife is nagging, fretting, whining, she takes the heart out of him and gives him that oh-what's-the-use, feeling that is death to all

It is the morale of the home that makes or breaks a man. Send a man o work of a morning fresh from a quarrel with his wife and filled with a soggy breakfast, and he is a foredoomed failure. It is the well-fed men, with happy homes and pleasant wives, who are the go-getters. You never hear of a man who has a cheerful, peaceful home and a jolly wife breaking Mr. and Mrs. C. B. Chapman and down with nervous prostration

> It is, therefore, to the interest of every husband to keep his wife in the proper frame of mind, to keep her bucked up and interested in her job. The simple secret of how to do this is just to give her a little amusement, and to realize that if all work and no play makes John a dull boy, all work and no play makes June not only a dull girl, but an exceedingly peevish companion.

During the course of a year I get at least 10,000 letters from disruntled wives, who say that they are married to men who are moral and upright, who are kind to them and good providers, but that their husbands never take them to any place of amusement, never give them any little treat, never try to bring any pleasure into their lives, and that they have Mr. and Mrs. Philip Pocock, Jun., were week-end visitors in Sarnia, guests with Mrs. Pocock's parents, Mr. and Mrs. T. H. Cook.

guests with Mrs. T. H. Cook.

Well, it doesn't take any Sheriock Holmes to tell what sort of a home got to the place where they feel they cannot stand this deadly monotony

Miss Mavis Soutter and Miss Acres a woman is making who has got into that mental condition, nor the kind of St. Catharines were visitors in of a wife she is. About as soothing to live with as a fretful porcupine. You can last week, guests with Miss can visualize the slap-dash meals she puts upon the table. You can see her

thing that they once loved, but simply that they are bored to ex tinction. Still less does it occur to the husbands that they could restore their wives to sanity and secure the peaceful, happy home they crave at the price of a few theatre and movie tickets, a restaurant dinner or two, or a short trip.

Yet this is absolutely true. If every wife knew that once a week her usband was going to take her out and give her a good time, as he used to do before they were married, it would work a revolution in domestic life. Cardinal Wolsey in "When Knight- slave she is, the woman would sing at her tasks, filled with pleasant rem hood Was in Flower," being pre-sented by the Garry McGarry Players pleasure. And most of all, she would be filled with love and gratitude toward the husband who was trying to bring what brightness he could into Mr. Edward Banks, East street, her life, for the thing that rankles like a festering sore in the hearts of has gone to Windsor to attend the Methodist Conference to which he a delegate. Mrs. Banks and daugh-

The main reason why women slack up in their housekeeping is because they have done the same things over and over, and over again, until they have lost interest in them. You can't cook meals three times a day for twenty years and put any punch into the last performance; but if once a week during all that time a housewife could have dinner at a restaurant she would come back to her gas range filled with new ideas and fresh enthusiasm

Change is the only reliable cure for nagging. Whenever a woman gets o the place where she slaps the baby, and frets at the older children, and badgers her husband because they can't live in a fine house, the diagnosis of her case calls for a week's vacation. Somewhere away from hus-

band and home and children. She will go away wondering how she ever came to marry the human shrimp she did, and thinking that a woman is a fool who ties herself down with brats, and loathing her house and home as a shack, and she will come back seeing her husband a fairy prince, believing her children are angels, and sure that home is the dearest place on earth

I beg you, gentlemen, to try the remedy that I offer you for the domestic ills that afflict you. Make it a rule of your life to give your wife some amusement every week and it will be money in pockets and happiness in your homes. DOROTHY DIX.

One big inning, in which five runs were counted, and in which Lefty Morten, erstwhile Wingham ace, was driven in disgrace to the showers, shattered topes of George Nethercott's Sthomas outfit at Queen's Park Saturlay. By virtue of an 8 to 2 win over he vigitors the Orients of London still est supremely at the top of the group standing, through registering heir third straight victory over the third straight victory

George Nethercott's tactical error in leaving his hefty southpaw in the box too long in the sixth permitted the homesters to bat right around the roster, break a tied count and put a hopelessly wide margin between them and St. Thomas. Up till the sixth it had been a rattling good game. There was no excuse this time that a Sahara-like diamond made good baseball impossible. The field was plentifully sprinkled just before the game, and there was scarcely a grain of sand stirring in the air when the pastime finished. Nethercott's tactical error

On Saturday afternoon St. Thomas Cricket Club was entertained at the Ontario Hospital grounds by the home team in their league fixture. The teams were on the field at 2:30, and the Hospital, winning the toss, decided to bat first. They compiled a score of 60 runs in one hour. St. Thomas put up a score of 49 runs. Their count at one time was very low, and the side looked like being put out for less than 20 runs, but a fine stand was made from the seventh to the last wicket, 34 runs being put on. As both innings were finished in good time, it was decided to bat again, and the Hospital put up a score of 76 for three wickets, retiring to let St. Thomas bat, and when the game was called at 6:30 the visiting team had scored only 14 runs for five wickets. Jones, for the visiting team, bowled well, as also did Dr. Chalk and J. May for the Hospital, the latter being in particularly good form. Ontario Hospital-First Inning.

TIGERS TURN TABLES

6 to 1. Canadian Press Despatch.

Hamilton, June 7.—Tigers turned the tables on St. Simons when they won their senior O. A. L. A. game here to-day, 6 to 1. There was little to choose between the two teams in the first period, but Tigers succeeded in holding the visitors scoreless and in tallying two goals. From attack in front of the Tiger goal Sergeant and Cooper worked at the ball down the field and Cooper scored. Just as the period was ending Cooper scored his second. In the second period from a mixup in front of the visitors' goal, the ball was scooped in.

Thom on a fine three-man combination scored St. Simons' goal thirty seconds later. Farr registered again for Tigers, and the half-time count was Tigers 4. St. Simons 1. There was no scoring in the third period. In the final frame the Tigers added two more.

BLUEBONNET RESULTS W. S. Kilmer's good old son of Mc-Gee added one more to his long list of winnings on Saturday at Montreal, when he disposed of the Ross candi-date (Golden Rule), and another good 5-year-old (Opperman) from the Triple Springs Farm. Exterminator covered the mile in 1:39 4-5, which is fast time for the Bluebonnet track. This per-formance upsets the contention of a great many racing critics, who have recently expressed their feelings in a very uncertain manner regarding the condition of the 9-year-old Extermin-ator's underpinning.

This is a new event in picnic sports and created a great deal of interest The big event of the day was a softball match between the softball match between the teams captained by Mrs. Leigh and Mrs. Mortin, the latter's nine winning 14 to 11, by a last inning rally. George McBride acted as umbire.

The drawing contest for the 100-pound bag of sugar was the other event, which caused a great deal of interest, and was won by Mrs. William Wannamaker of 236 East street, After the completion of the sport program a delightful picnic lunch was served. A large refreshment booth did a rushing business.

columns a brief history of the first event. The second event has been noted for the rapidity with which the trophies have been won permanently. The third trophy—the Nash trophy—was competed for last year for the first time. A new tr.phy always creates new interest, and it has been reported that the Nash trophy is sought almost as eagerly as that of the first event.

The history of the second event may be readily grasped from the following record:

Canadian Press Despatch.

Ottawa, June 7.—Clint Benedict, former goaltender of the Ottawa hockey team, has entered an action in court here against the Otawa Hockey Association. Limited, for \$800 which he claims is salary due him for his services during the past season when his contract called for a salary of \$2,300. He claims that he was paid only \$1,500.

After the Ottawa-Canadien matches in the play-off for the N. H. A. championship when Ottawa lost, it is alleged that Benedict was heavily fined by the Ottawa Hockey Association for his seemingly indifferent playing. He was not signed up for next season, but a contract was given to Joe Ironstone of Sudbury to play goal for Ottawa.

MRS 1.1 TYSON WIAPTON.

The broke out from what is believed to have been a lighted cigarette. The commissary department building, which holds stocks of bread and meat for the Niagara boats, was destroyed, and the steamer Chippawa had to be moved from her moorings.

The steamer Toronto had just cleared for her lake trip a few minutes before the flames took hold.

The fire boat did successful service, pouring in water under the burning wharf.

The loss is estimated at several thousand dollars.

When the Chippawa was being moved out several firemen had a narrow escape from being crushed against the side of the pier. They were on a raft trying to get the hose under the flooring, and had to jump to safety on the deal's.

Wiarton, June 28.—This community received a severe shock today by the death of Mrs. J. J. Tyson, wife of the senior member of the Geddes-Tyson Lumber Company, from a heart attack. She was a daughter of Mr. C. E. Whichen of Colpoys Bay, and was the mother of eleven children, ten of whom are living, the youngest being only seventeen months old. Mrs. Tyson had been a pioneer school teacher on the Bruce Peninsula and a prominent member of the Baptist Church.

Forest, June 8.—All members were present at the Bosanquet township council meeting when A. S. Code's engineer's report and the commission-signeer's report and the commission-were read and accepted. The contractors were paid \$3,935.20 in full of contract and \$1.544.20 for extra work and repairs. Orders were given to A. D. Donald and O. S. Weldon for \$245 commission on the Nesbit drain. The clerk was instructed to notify this drain and Forest and Plympton for the Coultis drain.
