More Stirring Scenes Anticipated—Government Disgraced and IS MR. GAMEY Discredited now Going to its Fall.

When the orders of the day were reached Mr. Whitney rose to protest against a misrepresentation in the Globe. He alluded to the heading in to-day's paper, "Mr Whitney declares that in choosing the Chief Justices of the High Court the Government is loading the dice." Everyone within the sound of his voice knew that that was absolutely false, as was proven by the report of what he did say on page 2 of the same issue of the Globe. He had spoken with the greatest respect of the judges and of the eminent character which they all bore.

THE DOCUMENTS. Premier Ross then asked whether Mr. Whitney was prepared to place the locuments handed to him by Mr. samey in the custody of Mr. Speaker. Mr. Whitney replied-I am not prepared to accede to my hon. friend's suggestion or to make any statement in regard to it at present.

He recalled that Jackson was some years ago charged at Ingersoll with perjury. Fourteen witnesses swore directly opposite to the evidence of Jackson, and he seemed to be in a masty hole, when, in some unaccountable manner, the papers that were filed with the Clerk of the Peace disappeared and the charge fell through. Mr. Sutherland resumed his seat amid loud Opposition applause.
DR. REAUME WAS OFFERED THE SPEAKERSHIP.

There was a pause for several ments. The House expected a Go. dation, perjury, subornation of perjury, and things too low to speak of. He spoke with personal knowledge, and as an instance, he referred to the character of the witnesses brought forward by the Liberals in the protest in South Oxford. The statement made by the Premier yesterday that "We will govern the country with characters unimpeached or we shall not govern it at all" was very pretty, but there was a pause for several member to reply, but no one it se from that side of the House, and Dr. Reaume, the French-Canadian member for North Essex, stepped into the breach. He was given a splendid reception, and his maiden effort was one of the features of the session. The Committee on Privileges and Elections was, Dr. Reaume declared, the proper body to hear the Gamey charges. It was the duty of the House to refer the matter to that committee, and it remained to be seen whether the Proremained to be seen whether the Pro-vincial Secretary would protest against this, the proper course, being

In concluding, Dr. Reaume said that the people of Ontario demanded that these charges of Mr. Gamey's be proven or shown to be untrue. The Opposition members would be intent on convicting the accused minister for party purposes, while the Government supporters would be equally anxious to clear him. Much Apprehension Felt by His Friends Concerning his Safety.

Many Anonymous Letters-Mid. night Intruder in his Room-Exposer of Liberal Bribery Conspiracy

Toronto, March 13. - The Evening Mail and Empire says:-"There is no concealing the fact that much prehension exists for the personal safety of Mr. Gamey, the member for Manitoulin, who made the revelations in the Legislature on Wednesday last. that Mr. Gamey's friends openly announce that his protection has become an absolute necessity. His brother has arrived from Gore Bay, a trip of 600 miles, expressly, he says, to guard him from possible assault. Mr. Gamey has received many anonymous letters within the last two days, which, if within the last two days, which, if not directly threatening violence, refer to him in most uncomplimentary language. One of these missives was a postcard dated Toronto, signed "John MacDonald," evidently a fictitious name. The postal informs Mr. Gamey that he had acted like a whiskey informer, and that he would not be able to prove his charges. Mr. Gamey says he would be pleased to meet this gentleman and talk the matter over with him."

A strange occurrence took place

He did not announce his mission nor apologize for his in-trusion as he walked out again. At-tempts at recognition of this man have been made, as a result of which it has been pretty well established that he was registered at the hotel that evening, and left the following morning. Friends of Mr. Gamey claim that there is no saying what violence might have fallen upon Mr. Gamey from his strange visitor had not Mr. Smith been in the room at the time. Mr. Smith, probably will bring time. Mr. Smith, probably will bring the matter before the house on Mon-

ernment seeks to go before another tribunal gives good ground for caution and suspicion.

In proposing to send the charges to a judicial tribunal, Mr. Ross den'es all the traditions of the Liberal party. The history of Liberal'sm at Ottawa furnishes one consistent record of hostility to the conduct of such investigations by judicial commissions. The fact that Governments in Canada have generally sought to escape the Committee on Privi 1 ges and Elections, when serious charges have been prered by their opponents, is in itself significant. There is something wrong when a Government with a Parliamical and the serious charges have been prered by their opponents, is in itself significant. There is something wrong when a Government with a Parliamical and the committee of its own nomination. There is ample condemnation of the resort to commissions in the fact that Oppositions have generally fared badly in such investigations. The charges in the Paclific Railway Scandal were referred to judges, and while some useful results were obtained, the enquiry under the law as it now is could have been more expeditiously and more advantageously presented before a Parliamentary committee. It was in Parliament that the Liberals finally made their grand assault and finally established their case against the Macdonald administration. Unlike Mr. Ross, the Liberals at Ottawa refused to go before the commission. Unlike Mr. Ross, the parliament.

To The Planet it seems to be utterly absurd to pretend that Stratton did his dirty work in secret, without the knowledge and consent, of his colleagues, and it seems, moreover, that in endeavoring to take the investigation out of the house, the Premier is seeking to dodge and shuffle with the desperate hope of escaping the disgrace and defeat which must result from a thorough searching and complete examination. In supporting Mr. Whitney's demand for a parliamentary inquiry, it is not necessary to cast suspicion upon the judges. But the rigid rules of the courts do not seem to make for the thoroughness of such investigations. Counsel for Governments undersuch circumstances are able to employ legal technicalities so as greatly to restrict the scope of enquiry. The judges are generally overwhelmed with work, and in performing these exceptional services, are too willing to make progress at the expense of patient, paingkaking investigations. The presentation of the charges is practically taken out of the hands of the Opposition and committed ito counsel appointed by the Administration under trial. Dear Sir,—The Eagle, who was king of the birds, hearing of a dust up among the feathered denizens in a distant corner of his kingdom, sent thither the Per-Falcon to put them to rights, for he had blind faith in the latter's capacity; that astute fowl having somehow managed to get, as the hawkes say, on the hooded side of his majesty, the Eagle.

Now, after a while, the Eagle dispatched the Carrier-pigeon to those same parts, to see how his favorite, the Per-Falcon, was getting on, and to bring him back word. So the Carrier-pigeon went, and in due course returned.

"Thank you, I'm sure," replied the Carrier-pigeon, disposing of a dozen grains or so in the twinkling of a bird's eye. "I'm happy to inform you that the Per-Falcon is surpassing even your majesty's best expectations. He—"

"Excellent. Take a little more of the Indian corn, I beg," replied the Eagle, in his blandest and most hospi-table manner.

The Carrier-pigeon, nothing loth, had another go at the Indian corn, mumbling at the same time his prais-

But a Swift, who had been out there himself and knew the facts, exclaimed, in astonishment:

"Oh, I say! You know perfectly well how the Per-Falcon is putting his claw into it. What in air, then makes you deceive his majesty with these fairy tales?"

"'Th? You fool," whispered the Carrier-pigeon. Can you not see in what a heavenly and hospitable humor it puts him in to hear good news of his favorite?"

No more the Indian dance and song Our savage hearts delight, No more our valiant warriors long The deathly foe to fight.

Each forest mound doth mark ou grave,
Trod by the gay and proud,
Beneath repose the silent brave,
The drifting snows their shroud.

Mrs. J. Wilson, Guelph, Tells How She and Her Little Ones Were Cured by the Infallible Remedy. Powley's Liquified Ozone.

The Mother Is Cured of Eczema, One Son of Consumption, Another of a Stubborn Stomach Trouble, and the Baby of Con-,

Mrs. Wilson Is Now an Ozone Enthusiast, and Unites With Other Mothers in Pronouncing Ozone the Greatest Household Remedy in the World To-day.

Guelph, Jan. 30, 1903.

Guelph, Jan. 30, 1903.

THE OZONE CO., Limited, Toronto, Ont.

Gentlemen,—I have intended writing you for a long time regarding your preparation, Powley's Liquified Ozone. I think it is a grand remedy, as I am certain it has been the means of preventing myself and children from having that dread disease, consumption. We first commenced using it when my dear daughter had consumption in a very advanced stage, but she was too far gone to save her life. How I wish we had known of Ozone earlier, for I am sure if we had she would have been alive to-day. She was much troubled with her stomach, being unable to digest her food, so rapidly became worse. She was sick nearly a year before we heard of Ozone and decided to try it. It helped her and I know prolonged her life, but the disease had reached her bowels and it was impossible to save her. When she was in pain Ozone would give her almost instant relief, and I shall ever feel grateful to it for alleviating my poor child's suffering.

At the time, through overwork in caring for her, I was in very poor health myself, but Ozone built me up and restored my health. Last winter my baby, always a delicate little thing, had congestion of the lungs, and I am sure that Ozone saved her life.

Later I had eozema, when my leg was much swollen and inflamed I took Ozone internally and applied it externally and in a short time all trace of the disease was gone. One of my boys showed every indication of being likely to have consumption, his symptoms being similar to those of his poor sister. Ozone restored him to health and also cured his brother of a bad stomach trouble which the doctors could not help.

I am an enthusiast regarding Ozone and have every reason to be for it did much to relieve the suffering of myself and little ones. As a family medicine it has no equal and I would not feel safe without it in the house at all times. In cases of grippe it is particularly good, giving prompt relief and effecting a speedy cure. I have recommended it to many others, who in turn are now so THE OZONE CO., Limited, Toronto, Ont.

12 Pearl Street, Guelph. Ozone Is a Great Household Remedy For Just One Reason, viz: "It Cures Disease by Destroying Disease Germs [Wherever Located."

"For a long time," writes one correspondent, "I was opposed to the use of Powley's Liquified Ozone because I regarded it as a cure-all. That was before I understood Ozone as well as I do now. I could not understand how one remedy could cure so many widely different diseases. I did not know then what I have since learned by experience, that is that Ozone cures disease by destroying the germs that cause it."

No extravagant claims are made for Ozone and Ozone will not work miracles, although some of the cures it effects may appear almost miraculous. The only claim made for it is that it destroys disease germs and that it does speedily and thoroughly.

speedily and thoroughly.

Doctors, Druggists and Clergymen Endorse Ozone.

The doctors, druggists and clergymen of the Dominion have long recognized the fact that Ozone possesses exceptional merit. The following are samples of the many letters we have received: DR. SHIER, LINDSAY, ONT.

Powley's Liquified Ozone is a preparation I respect and of which I have n good results.

D. W. SHIER, M.D., Lindsay, Ont.

A. BOYCE, SYDENHAM, ONT.

For a small place like this town the sales of Powley's Liquified Ozone are good and the prevailing opinion of its merits are such that in almost every case the customer comes back for more. One customer received great benefit in a case of lung trouble and gives it great praise. In my own family my wife and daughter, after suffering from a bad cough nearly all last winter, were cured of it early in the spring with one large bottle in a surprisingly short time.

REV. EDWARD SOFTLEY, GRIMSBY, ONT.

I have pleasure in giving my testimony to the value of Powley's Liquified Ozone, which cured my daughter of nervous debility with insomina when ordinary medical assistance failed to do so.

I consider it fully entitled to public confidence as a valuable remedy.

(Signed) REV. EDWARD SOFTLEY.

Recently a family moved here from Toronto. The children, a little boy and his sister, were playing on St. George street and got separated, one being on each side of the street. Having come from Toronto, where the streets are crossable, the little boy attempted to rejoin his sister on the other side the road. Half way over, the little fellow stuck in a mud puddle, sinking to his waist. The small lad was very much frightened. His cries of distress attracted Herbert Murray, who rescued the boy from his position of peril.

The case of the Sutherland-Innes Company vs. Shaver occupied the attention of Justice Falconbridge at the County Court all yesterday morning. At a quarter after two o'clock the evidence was completed and the case of Tedford vs. Tedford was commenced. This is a case where the executors of the estate of the late Mrs. Tedford, of Blenheim, are trying to recover possession of a house and lot from Miss Tedford, daughter of deceased, who claims that she cared for her mother with the verbal understanding that she should receive the house and lot as a recompense for her trouble. J. B. Rankin, K. C., appears for Miss Tedford, while R. L. Gosnell, of Blenheim, appears for the executors. Mr. Aylesworth, K. C., of Toronto, is acting as counsel for Mr. Rankin, while M. Wilson, K. C., is conducting the argument for Mr. Gosnell.

REMODEL CHURCH

It has been decided to remodel Park St. Methodist Church interior. A committee has been appointed and just what will be done is being decided. There has been some talk that the church is unsafe, but experts have been engaged and they say that is not so. It is cracked in places, as all brick buildings are.

The seats will likely be all new, interior of the church will be repainted

and the galleries and choir loft re-

risen in price, and prices would not hold good to-day.

Mr. Robertson was heard. He said that part of the lumber to be used in the basement had risen \$1 per thousand and part \$2 per thousand. He asked for an extra amoun to complete that part of the contract mentioned Schedule "A."

STAGE INMATES KILLED. Brutal Work of Mexican Bandits in

Sonora.

Los Angeles, Cal., March 14.— A despatch from Tucson, Ariz., to The Herald says :- Mexican bandits held up the stage which runs between Potam and Torin, on the Yaqui River, in Sonora, last Tuesday night, killing all of the six passengers. Among them was Filiberto Alverado, a wealthy Mexican, who owns a number of ranches along the Yaqui River. The authorities at Guvamas were at once notified that Alverado and his wife had taken the stage from Potam to Torin, and the bandits no doubt thought he carthe bandits no doubt thought he carried a large sum of money with him. The stage carries very little mail and rarely any money or valuables, so that Alverado must have been the mark for the bandits. The hold-up took place about half way between the two towns, but just how the stage was attacked will never be known, as all of the passengers and the driver were killed. They were picked up on the afternoon of the were picked up on the afternoon of the tragedy, and the circumstances give evidence that they put up a fight, else they would not have all been killed. Their bodies were rifled of everything of value on them. The traces had been cut and the horses had been allowed to run wild. The cover of the lowed to run wild. The cover of the stage and the body were both shot full of holes.

It is thought by the Guyamas authorities that the perpetrators of the deed were some of the bandits who have taken refuge in the mountains back of the Yaqui River and were expecting Alverado. Friends of the murdered rancher say that he had little money with him at the time. Alverado had been magried only two months. With him were Senorita Julia Bardo and Senorita C. H. De Gonzales, both of prominent families and both of whom were murdered. were murdered.

was found floating in open water near the western trance to Murray Canal yesterday by a fisherman, James Simple of this town. The man was well-develthis town. The man was well-develpped, about 55 years of age, six feet
aigh in his boots, between 180 and 190
pounds in weight, was partly bald, the
balance of the hair grey, with about
three weeks' growth of whiskers, and
round features. He was dressed in
a new suit of clothes, a double breasted coat, brown with a blue check, high
boots and blue shirt partly faded and
a woollen mitten on left hand. He voollen mitten on left han has every appearance of being a laboring man. Nothing was in his pockets but two handkerchiefs, one folded and unused, the other colored. He apparently had been in the water all winter, as the body was badly decayed. Cor-oner Sanford and Constable Arkinson were notified and took charge of the body. The remains are unidentified were notified and took charge of the body. The remains are unidentified. There is no one missing in this local-ity, and it is believed the man was lost off a boat and carried by the current into Presque Tale harbor to the mouth of the canal.

PIGEON COTE

The top of the new elevator of the Canada Flour Mills Company has been fitted up as a pigeon cote. It occupies the whole top of the elevator and has been partitioned off and fixed with boxes so that the birds have a large and roomy home. The making of this pigeon cote cost Mr. Stevens, president of the company, seventy dollars.

"Mr. Stevens' is a great lover of pigeons," said Chief Holmes this morning. "He likes to see them around. When I was at the elevator he used to always keep telling me to feed the pigeons. Mr. Stevens had quite a few around them. They mostly stayed in the barn. Every time there was a shooting match the boys used to come around and steal nearly all the pigeons. If guess Mr. Stevens put the new pigeon house at the top of the elevator to prevent the boys stealing the birds."

put with bitterness but force. The accused would nominate their tribunal. The Premier had styled it a State prosecution. It would mean that the prosecutors would prosecute, themselves. The whole Government stood accused. Mr. Whitney traversed Mr. Ross' argument as to the extreme, respect in which a finding of the judges would be received. Speaking with the high respect for the bench which every Canadian feels, he yet submitted that it would be well not to bring the judiciary into the case.

From the standpoint of sheer de-bating, Mr. Whitney's examination of the precedents quoted by Mr. Ross was the most effective stroke of the the precedents quoted by Mr. Ross was the most effective stroke of the day. He fairly shattered them. In the Caron case, the Liberal party had opposed a reference to a commission, and had urged that the charges be passed upon by the House. In this connection Mr. Whitney quoted from Sir Richard Cartwright a particularly effective statement of the argument that the House should not "account to the nominee of the Government" for its sayings and doings. At the time of the bribery plot, Mr. Whitney showed, the Committee on Privileges and Elections took the matter up, heard evidence, and recommended the appointment of a commission on the express ground that the session was so far advanced that they would not have time to finish the work. This session is beginning.

In the case of the Pacific Scandal, the original proposal was to refer Mr. Huntington's charges to a special committee, Owing to some legal complications, it was proposed to constitute the members of the special committee a commission. The Liberals opposed this with the uttermost vigor. Mr. Blake and Mr. Mackenzie criticised the reference to a commission with great force. Resolutions were passed by the Liberal members. One of these declared that "the House of Commons is the proper body to institute and prosecute an

REV. DR. TALMAGE PREACHES A VERY UNIQUE SERMON.

OBLIGATIONS OF THE NATIONS.

S. Owes Both the Modern Greeks and Barbarians-Other Debts Than Commercial and Financial Obligations Intellectual and Physical Strengt Borrowed From Athens and the East-Mother Country's Great Example.

ntered according to Act of Parliament of Can ada, in the year 1903, by William Baily, of To-ronto, at the Dep't of Agriculture, Ottawa.

Chicago, March 8 .- In this sermon the preacher shows that there are other than commercial and financial obligation between the nations and that Christian America ows a debt, both in the spiritual and philanthropic sense, to the modern Greeks and barbarians which she now has opportunity to pay. The text is Romans i, 14, "I am debtor both to the Greeks and to the barbarians."

ians."

A national debt! It is popularly understood to be a financial obligation which a Government has pledged itself to pay. Sometimes this is contracted in the interest of a single subject. About thirty years ago the English Government assumed a debt of over \$25,000,000 to liberate a single man, Captain Cameron, who had been unjustly endungeoned by the king of Abyssinia in the rocky fortress of Magdala. It took six months for the news of the outrage to travel to England, but in less than eleven days afterward a British army of 15,000 men, under General Napier, was on its way. It not only crossed the seas, but also marched a terrible journey of 400 miles under a tropical sun, until the troops reached Magdala and battered down the fortress and rescued their incarcerated countryman. A civilized country is usually ready to begin any undertaking, assume any financial responsibility, in order to protect its own from the tyrannical clutches of a foreign foe.

Sometimes an extra financial obligation is assumed by a Government in times of peace as well as in times of war. A depleted treasury during the financial panic of 1893 caused the president of the United States to issue \$200,000,000 worth of Government bonds. Some of these interest bearing bonds were purchased by foreign capitalists and others by American citizens. But there are still other forms and causes of international obligation. A Government A national debt! It is popularly

American citizens. But there are still other forms and causes of international obligation. A Government can owe to foreign lands more than money. Such delinitions as we have given are right as far as they go, but they are too circumscribed. When the Hebrew Paul wrote, "I am debtor both to the Greeks and to the barbarians," I do not believe he had any idea of a financial interpretation. Referring to Greece, he was alluding to the intellectual influence of the Athenian capital, which made itself felt throughout the world. That city swayed the scepter in the domain of intellectuality; it ruled the west of the west of the world. Itself felt throughout the world. That city swayed the scepter in the domain of intellectuality; it ruled the world of culture with the sculptor's chisel, the poet's pen and the Demosthenean oratory of a patriot rousing the people to wage war against King Philip. When Paul spoke of the barbarians, I believe he was alluding to the strength and the virility which the world had absorbed from the different provinces. As a man of learning he was indebted to those people to whom he was about to present Jesus Christ. So to-day I want to speak of America's national debt in a moral and spiritual sense as well as in a financial; I want to show what we should give back to the lands across the seas in return for what we have absorbed from them consciously or unconsciously. As we balance our national books the debt side of our ledger must be cleared off. If we are nationally honest, we are ready to pay for what we have received.

Has America no obligation to meet when she has taken from other lands such foreign born leaders as Alexander Hamilton to run her finances and Agassiz to read the records of her rocks and Ericsson to

Alexander Hamilton to run her finances and Agassiz to read the records of her rocks and Ericsson to save her navies and John Summerville and John Hall to preach in her pulpits and Andrew Carnegie to build her steel works and John W. Mackay to develop her mines and Thomas Moran to paint her pictures and Dr. Nicholas Senn to stand at her operating tables and Franz Sigel to fight her battles and Speaker Henderson to preside over her congress and Thomas Watson to plead at her bar? Shall the Goddess of Liberty feel no indebtedness to foreign countries when she has taken from their firesides their fairest daughters and their bravest and truest young men and clasped them truest young men and clasped them to her own heart until these adopted sons and daughters look up and call her mether?

to her own heart until these adopted sons and daughters look up and call her mother?

If we were to blot out from American history the deeds of its foreign born children, we would obliterate many of the best pages of our national heroics.

To supply this national demand foreign countries have been giving us for centuries their best treasures. They have given us their sturdiest men of mental and moral worth and their fairest daughters, whose virtues are, as King Solomon says, "above the price of rubles." Surely for such priceless gifts America must acknowledge she is a debtor "to the Greeks and to the barbarians."

Religious liberty's cradle also was built across the seas. True, it was floated across the Atlantic, and during its tempestuous voyage of many miles its infantile occupant grew and waxed stronger. But, after all, we should not forget that the cradle of civil and religious liberty was first hammered together on foreign shores.

In the astronomical world we find

also find that every great advance-ment of the human race, spiritually ment of the human race, spiritually or mentally, socially or economically, is in touch with other events, though they may be seen or unseen. The sweet voir distillage church tell of to-day is not entirely of American manufacture. It was cast in the hot fires of the Covenanter's persecutions; it was cast among the flames which wrapped their fiery tongues about the shriveing bodies of John Huss and Ridley and Letitongues about the shriveing bodies of John Huss and Ridley and Latimer abd Cranmer, it was cast among the burning logs heaped about the dying body of Savonarola when the Italian priest, Elijah-like, was about to go to heaven in a chariot of fire; it was cast centuries back among the Nerodian persecutions in the days of the apostolic martyrdoms. Can we ever reach the day when

Can we ever reach the day when we shall feel that our religious liberty is not a natural outgrowth of the Christian heroes and heroines who dared to defy "Bloody" Alva, the persecutor of the Netherlands, or Lord Clearhouse, the persecutor of who dared to defy "Bloody" Alva, the persecutor of the Netherlands, or Lord Claverhouse, the persecutor of old Scotland, or demoniac Catherine, the fiendish female instigator of the St. Bartholomew massacre, or the bloody Queen Mary of the English throne? When that grand old man. Hugh Latimer, then over eighty, stood among the burning logs that were cremating him, he turned to Bishop Ridley, his fellow martyrnear by, and said: "Be of good comfort, Master Ridley, and play the man. We shall this day light such a candle by God's grace in England as, I trust, shall never be put out." Aye, they did; they did! They not only lighted a gospel torch for England, but a torch which would blaze in America centuries afterward. We have religious liberty in America because the first great battles for the cause the first great battles for the enchalmment and decapitation of Satanic bigotry were fought upon the other side of the seas.

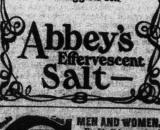

America is indebted to foreign ands in a commercial and an artis-ic sense as well as in a moral and piritual sense. Some political lands in a commercial and tic sense as well as in a moral and spiritual sense. Some political speakers love to boast that commercially we are independent of the world. They assert it would make

very little difference to us whether or no foreign countries held any trade relations with us at all. But this is not true. You are a wealthy man. You invite me to your home some night to a banquet. I accept. As I sit waiting for the other guests to arrive, I say: "Mr. So-and-so, this is a beautifully designed home. Where did your architect get the idea?" You answer: "The plans of this house are not his ideas. He merely worked them out in detail after I had described them. Some years ago, while I was in England, I came across a beautiful country home. I then said to myself that if I should ever have money enough I would build a house money enough I would build a house upon that plan. This home is the upon that plan. This home is the result of my resolve made at that time." Under my feet is a rug of exquisite workmanship. Where was it made? In the city of Damascus. It is an imported rug. When your wife comes in to greet me she is dressed in a beautiful costume. It came from the silkworms of France. That diamond glittering upon your finger was dug out of the African mines. rose to be masters by studying in foreign schools and sitting at the feet of the old masters of Europe. How, then, is America to cancel the national debt in a moral and spiritual sense which she owes to the modern Greeks and to the barbarians? "Well," answers some one, "I suppose the best way to repay the debt we owe to foreign lands is to make our goods better and cheaper and then go forward and capture their markets for our home industries." Ah, my brother, I am not here to fritter away my time answering these selfish propositions prompted by mere commercialism; I am here to-day to tell you how, in the language and the spirit of the Apostle Paul, we are to cancel the national debt we owe to foreign lands; I am here to-day to tell you how best we can pay the debt as individuals as well as a nation. We can repay our national debt first by conveying to foreign lands the sweet message of the Calvary cross. When many years ago five humble, consecrated students met behind a haystack in old Williamstown, where I used to go to college, and founded the first American foreign missionary society, one of the greatest purposes of American's future life was given practical form. Those five young men planned an evangelistic work which had the same worldwide scope that Paul's mission had for the Christian religion. If the religion of Jesus Christ is the beneficent thing that we profess to believe it, are we justified in keeping the knowledge of it to ourselves? Are we not bound as debtors to the whole world to repay our obligations by making it known far and wide?

The medical profession sets us an example in its performance of this duty. No sooner does a physician discover a means of alleviating physical suffering than he places it at the disposal of his professional brethren the world over. When Edward Jenner demonstrated the marvelous immunity of a human being who was vaccinated with cowpox, did he keep his discovery from the world? Did he refuse to advocate it lest he might be persecuted by such medical authorities as Dr. Ingenhousz and Dr. Pearson? Oh, no! As an intelligent man he deplored the awful destruction made by this terrible scourge of smallpox. He knew that whose countries had been almost depopulated by the pest. Mexico was not conquered so much by Cortes as it was made helpless by the invasion of this king of hor:file plagues called smallpox. When the pilgrim fathers landed upon the Massachusetts shores, they found that the Indian tribe which the year before had been inhabiting that part of the country had been entirely obliterated, with

the exception of one man by the fatal ravages of smallpox So, in the iace of derision and powecution, Jenner proclaimed the gospel of vaccination. Though he might, and to a great extent did, destroy his private practice, he kept crying to suffering humanity: "Here is a remedy for this dreadful and malignant disease. Take it and live!" What a lesson do these illustriess.

for this dreadful and malignant disease. Take it and live! Take it and live! Take it and live! Take it and live!"

What a lesson do these illustrious benefactors of the human race teach us! How they study and investigate and labor to alleviate suffering and increase the longevity of mankind! And when any of them discovers a remedy for disease or a means of removing deformity how eagerly he makes the discovery known that all the world may share in the benefit! In our hands we have a revelation of infinitely greater value. Their discoveries can at the best prolong life only a few years, while the gospel of Jesus Christ is the gospel of cternal life and the remedy for the universal malady of sin. Yet there are among us men calling themselves Christians who make no effort to publish the knowledge of that remedy. They say: "If the Chinese are not willing to receive our gospel missionaries, then let those missionaries stay at home. Let the Chinese hordes grovel and diel Let the human streams of heathen life become choked with moral vermin! It is their own lookout, not ours!" I tell you to-day that Christian America's foreign obligations can never be canceled until Jesus Christ is preached to all people. Where we have now one missionary in the dark continents we should send a thousand; where we have one gospel messenger now for a hundred thousand poople we should have so great a number that every foreign town and village, as well as every city, should be persuaded to receive the open Bible and to study the word of God. Christian America will not be free from responsibility until the gospel of the Lord Jesus is preached unto all peoples. If those peoples receive it not, then they, not we, must bear the responsibility.

ANAEMIA Poverty of the Blood

An allment that threatens the very life of many thousands of women, both young and old. They become pale, weak and languid and gradually, but certainly

Flesh and Tissue Wastes Away

When you cut a finger or get a scratch or tear on the skin, is the wound slow to heal? Are your gums, lips and eyelids pale, as though the blood had gone out of them? Then your

blood is thin and watery. It is lacking in red corpuscles—the life giving, tissue building element of the blood. You cannot endure much exertion without feeling weak and tired out. Your appetite is deficient and digestion impaired; your breathing is short and quick and you be-come nervous and irritable. Irregularities and weaknesses of the reproductive organs also frequently result from poorness of blood or

There is one way, and one only, in which anæmia can be cured, and that is by increasing the number of red corpuscles in the blood, or in other words, by instilling into the blood the vital energy which is required to build new cells, construct new tissues, and repair the waste ofliving. Dr. Chase's Nerve Food accomplishes this result as no other preparation, ancient or modern, was ever known to do. It is not claimed that this food cure will do any other thing than create new red corpuscles in the blood, but in doing this it is a positive, thorough and lasting cure for the most difficult diseases that have ever come to the attention of the physicians.

After all, it is the blood that carries life to the organs, repairs the waste and supplies the motive power for the machinery of the body, and when the blood gets pale, weak and watery, external assistance must be sought. The most potent restoratives of nature are happily combined in Dr. Chase's Nerve Food, so as to make it the greatest blood and nerve revitalizer that the world has ever known. You connot possibly be disappointed in this great modern treatment. Gradually and thoroughly it replenishes the shrivelled arteries and restores vigor, energy and health to weak, worn and sick bodies.

Miss Lizzle B. Carey, 15 Foster Street, Chatham, Ont., states:—"I was all run down in lealth, my blood seemed to be thin and watery, and at times I scarcely had strength enough to get around. Since sing Dr. Chase's Nerve Food my condition is altogether changed and my health very much improved. Though I was formerly quite pale I find the color is returning to my face. I am strong and healthy and in fact feel better than have for years."

Dr. Chase's Nerve Food

By noting your increase in weight while using this great treatment you can prove for a certainty that new firm flesh and tissue is being added. No restorative was ever put to a more severe test. 50c. a box, 6 boxes for \$2.50, at all dealers, or Edmanson, Bates & Co., Toronto.

we have the spirit of Christ, we shall not be unmindful of their material wants. He who "had compassion on the multitude because they had possible they had because they had possible they had because they had because they had because they had because they had becau shall not be unmindful of their material wants. He who "had compassion on the multitude because they had nothing to eat" would never have closed his ears to the cry of a famine stricken nation. If we would be like him, we, too, should feed the hingry and succor the homeless, the widow and the orphan. How better can we make known the grandeur and beauty of the Christian faith than by proving to other nations its beneficent influence? As the hand of Christian America is stretched out across the seas, bearing bread for the starving, they see Christ living again in us and beast of the starving, they see Christ living again in us and bless his dear name. Having accepted from us the bread that perishes, they will listen as we tell ihem of the Bread that came down from heaven, of which if a man eat he shall live forever. Were the welcoming doors of heathen India ever more widely opened for the gospel message than when the shiploads of American breadstuffs were floated across the Atlantic, through the Mediterranean, down the Red Sea and over the Indian Ocean until they were safely landed in the harbor of Bombay during the awful Indian famines of 1897 and 1900?

were safely landed in the harbor of Bombay during the awful Indian famines of 1897 and 1900?

Though the religious and daily newspapers have been for weeks filled with the accounts of Finland's sufferings, the horrors and agonies which those simple people of the north are going through will, probably never be fully toid. But as I try to describe it to you in part which Inspector Engberg, who knows that country well, gave to a representative of the American press: "I have seen much of the suffering," he says. "It has been awfully black and is so still, take my word for that. I have become through custom almost hardened to seeing women and children crying for food, that was common as recently as New Year's day. When I hear people talk about conditions being exagerated, I think of how I have seen human beings eating bran, of how an old woman, the wife of a formerly prosperous farmer, is in the habit of coming to my stable and begging permission to scrape the leavings in the bin of my hores for sustenance for her three cows, of how every mother in this community is delighted to get meat bones that have been discarded by more prosperous householders and boil them and re-boil them until they float in the hope of extracting particles of nourialment, You will be right in seving that we staved off starv-tion till now, but God help us if relied should now fall us." Oh, my brother and sister, could any plea for food be more pathetic, mo e urgent than that? Human beings compelled to eat bran-that food which to-day you would refuse to give to your dog. Eating bran and chopped rye straw and the bark of trees merely to stille the awful cravings of hunger, and yet not able to even get enough of that!

Starving Finland is stretching her

Starving Finland is stretching he

for bread from unristian auteria. Dare we, can we, refuse to heed the cry? Dare we, shall we, stop our ears to this gospel call? Remember that solemn question of the apostle, "He that hath this world's goods and seeth his brother have need and shutteth up his compassion from him how dwelleth the love of God in him?" As you love your children, think of those children,

how dwelleth the love of God in him?" As you love your children, think of those children that are starving; at you love your wife, think of those wives and mothers and sisters who are now tottering upon the brink of the grave because they have nothing to eat! May God lead you to see your duty in reference to this call which comes from across the seas! Then, to some extent at le.st, we may be able to cancel a part of the national debt which Christian America owes to the moders "Gree's and to the barbarians."

International Bible Lesson for To-Morrow-Riot of Ephesus - Acts 19,

Golden Text-"The Lord preserveth the faithful."

A great spiritual awakening is followed by a religious riot led by Demetrius and the craftsmen who manufactured silver shrines for the worship of their great image of the Goddess Diana, the patron deity of Ephesus. These men found the gospel Paul preached injured their business and they were losing money, for multitudes of people turned from dumbidols to serve the living God. Paul's companions were caught and hustled into the immense, roofless theatre, seating about 25,000. Paul, against whom the charge was made, bravely sought to rescue them, but his friends prevent him entering. The Jews must have a hand in to clear themselves, but make things worse, and the war cry of the mob for two hours drowned everything else. Well for the city it was under Roman law drowned everything else. Well for the city it was under Roman law — well for us we are under British rule —a chief officer brings the mob to their senses, reads the riot act—af-ter a fashion—and with wise words quells the uproar and dismisses then

quells the uproar and dismisses them from the theatre.

The religion of Jesus Christ is the foe of every wrong business and is opposed by selfish lovers of money who regard not God nor man, but the spirit and truth of God opens the blind eyes, ears and hearts of men putting them right with God and man. Can we say with the man whose eyes the Lord opened, "one thing I know, whereas once I was blind now I see," as regards our business persuits as well as our deceitful hearts.

The Ideas And Suggestions of the Great Scientists Secured in Malt Breakfast Food

The results which the great scientists so long desired have been secured in a practical form, and for the first time, by the production of Malt Breakfast Food. The virtues of this great health food are now universally recognized by physicians everywhere, who depend upon its building-up powers when other forms of nourishment fail. Malt Breakfast Food is now generally prescribed by physicians for those whose digestion is weak and uncertain; it is the one form of cereal food recommended for invalids and convalescents because of its easy digestion. Ask your Grocer for Malt Breakfast Food; one trial will make it your favorite morning dish.

A man may be able to fool himself as to his importance, but it is diffi-cult to fool his neighbors. The profit of a gold mine depends,

The profit of a gold mine depends, not on the amount of rock crushed under the stamps, but upon the amount of gold which can be extracted from the rock. In a similar way the value of the food which is eaten does not depend on the quantity which is taken into the stomach but upon the amount of nourishment extracted from it by the organs of nutrition. When these organs are diseased they fail to extract the nourishment in sufficient quantities to supply the needs of the several organs of the body, and these organs cannot work without nourishment. The result is heart "trouble." and many another allment. Dr. Pierce's Golden Medical Discovery, acting on every organ of the digestive and nutritive system, restores it to health and vigor. It cures diseases remote from the stomach through the stomach in which they originated. "Golden Medical Discovery" contains neither alcohol nor narcotics.

There are times in a man's life when he feels there has come to him the full measure of trouble.

****** BEAMS OF SUNSHINE

The Junior Circle of the Chatham Branch of the International Sunshine Society, held a sale of home-made cakes and candy, on Saturday last, despite the fearful weather they made quite a success financially, and the little people were a happy lot. Mrs. R. S. Wood kindly remembered them by sending a donation of money; they also had the honor of enrolling Mrs. Sandys as a member of their circle, who also gave them a nice remembrance. These little people deserve encouragement, as they have worked faithfully through the winter months, making clothing and quilts for the poor, visiting the sick and doing all in their little way to ease the burden of others, and it is a source of great satisfaction to them to receive the kind attention which has been given them.

THE VANCOUVER STRIKE. President Gompers Says Railway Offer is Fair.

Vaucouver, B.C., March 13.-In con nection with the C. P. R. proposal to refer matters in dispute with employees to the international unions recognized in the railway service, President Samuel Gompers of the American Fed-

Samuel Gompers of the American Federation of Labor this evening wired your correspondent from Washington:—'Offer to refer arbitration dispute between railway employees and railway company to the executive officers of railway brotherhoods, all differences existing between the classes of labor they cover, is manifestly fair."

Premier Prior will be here to-morrow, when the U. B. R. E. will present their troubles to him. Aside from these new suggestions of mediation, the strike interest locally centres in the position of the union teamsters, who last night by 38 to 1 rejected the merchants' ultimatum, which was to support the master draymen in using non-union labor if the unionless still refused to handle merchandise. Their argument was in brief that it is manifestly unfair to the upshipments started Vancouverward prior to the strike, or goods imported by lines competing with the C. P. R., but entering Pacific from Seates. There the canadian Pacific from Seates. There is the morning and this afternoon the master teamsiers themselves broke the freight blockade. The strikers offered no interference.

Meanwhile the strikers' positions here are very generally filled, and railway business is not especially embarrassed, although trouble is not unlikely in sending the Empress of India outward on her schedule time.

Charleston Motherdid so with Advantage to Herself and Children.

A mother living in Charleston,

A mother living in Charleston, Mass., the happy possessor of four children, writes: "Every fall and winter I have laid in a stock of cough remedies, croup mixtures and throat medicines for my children, for some-how or other they never seem to befree from colds, coughs or sore throat. This fall I made a change in the usual program. I had myself been been cured of an obstinate catarrh, from which I had suffered for years, by Stuart's Catarrh Tablets, and as they were pleasant to take I determined to try them with my children. Our family physician told me he knew them to be perfectly safe and nothing better could be used for catarrh, coughs and colds.

So I gave them to the children

thing better could be used for catarrh, coughs and colds.

So I gave them to the children and have continued to do so ever since, whenever there is the least sign of croup or sore throat and I no longer dread the approach of cold weather as I once did.

Stuart's Catarrh Tablets not only cured me of chronic, nasal and throat catarrh but they have saved me many an anxious night with my little ones. The children like the taste of them and it is really wonderful how quickly they will break up a croupy cold or an obstinate, deep seated cough."

People who have used sprays, inhalers, salves or washes, for catarrh and have found how useless they are, will be greatly surprised at the results following the use of a pleasant, convenient, interbal remedy in tablet form. Druggets everywhere admit that Stuart's Cutarrh Tablets which sell for 50 cents full sized package, is the safest, most effective and popular of catarrh medicines.

LIFE GUARDS.

The Life Guards are two regiments of cavalry forming part of the British household troops. They are gallant soldiers, and every loyal British heart is proud of them. (Not only the King's household, but yours, ours, everybody's should have its life guards. The need of them is especigreat when the greatest foes of life, diseases, find allies in the very elements, as colds, influenzs, catarrh, the grip and pneumonia do in the stormy month of, March. The best way that we know of to guard against these diseases is to strengthen the system with Hood's Sarsaparilla—the greatest of all life guards. It removes the conditions in which these diseases make their most successful tack, gives vigor and tone to all the vital organs and functions, and imparts a genial warmth to the blood. Remember, the weaker the system the greater the exposure to disease. Hood's Sarsaparilla makes the system strong.

THE ADDRESS CARRIED.

SHORT DEBATE IN THE COMMONS AT OTTAWA.

Sir Wilfrid Laurier Congratulated by Mr. Borden on Restored Health -The Alaska Boundary and the Redistribution Bill.

Ottawa, March 14.-The address in reply to the speech from the throne was carried at 10.30 o'clock last evening, after a debate of about five and a half hours, participated in by Lieut.—Col. Thompson, Haldimand, and Mr. Philippe Demers, St. John and Iberville, the mover and seconder; Mr. R. L. Borden, Sir Wilfrid Laurier, Mr. F. D. Monk, Mr. John Charlton and Mr. Hehri Bourassa. The chief feature of the debate was the general note of congratulation to the Premier, who in his speech of upwards of an hour's duration gave convincing evidence of restoration to vigorous health.

The leader of the Opposition, who preceded him, paid a graceful compliment to the leader of the House, but Mr. F. D. Monk, the lieutenant of the Opposition leader, who followed, hore eloquent testimony to the convincing proof which the Premier had afforded the House of his convalescence. Mr. Borden criticized the omissions which ing, after a debate of about five and a

omitted.

Sir Wilfrid Laurier replied fully to the criticism, and dealt at some length with the Alaskan boundary commission, pointing out that Canada has surrendered nothing, while the United States has receded from the untenable position which resulted in the adjournment of the Joint High Commission. He also questioned the wisdom of some of the nominations made by the United States.

The Premier explained that the object in appointing a commission to re-

The Premier explained that the object in appointing a commission to report on the subject of providing increased transportation facilities was to prepare a definite plan before calling upon Parliament and the country to assume further obligations. He intimated that the Government would introduce the redistribution bill as a matter of duty rather than of choice and duce the redistribution bill as a matter of duty rather than of choice, and emphasized the intention to perform that duty fairly, removing the existing abuses without creating new ones.

Dr. Desjardins, the newly-elected Liberal member for Terrebonne, was introduced amid applause from the Government benches by Sir Wilfrid Laurier and Hon. Chas. Fitzpatrick.

How To Make Baby Sleep

You can make baby sleep by giving him leudanum or the "soothing" stuffs which invariably contain opiates. But no sensible mother will do that. The way to make baby sleep happily and in comfort is to take away the cause of his wakefulness. This cause is located in his little 'inside—nowhere else. Babies seldom have anything the matter with them but their stomachs, and it is safe to say that the baby who cries unseasonably is complaining of his slomach. There is no ailment of a baby's stomach that Baby's Own Tablets will not cure right away. They make baby cherful and happy and give him sound, natural sleep—not the drugged sleep produced by soothing stuffs, Mrs. Wm. Smidt, Listowell, Ont., says: — "My baby used to be very restless and sleep-less, but since giving him Baby's Own Tablets, he is better natured, sleeps better and is better in every way." These Tablets cure all the minor ailments of little ones, and can be given to the very youngest can be given to the very youngest baby. You can get them from any druggist, or they will be sent post paid at 25 cents a box by writing direct to the Dr. Williams Medicine Co., Brockville, Out.

Mr. Wm. Munns gave a description
of the meeting. Upon the Chairman
leaving the chair he said there was a rush for the platform. He was shoved about and up against the wall. Sev-eral shook their fists at him, and threats were made. He was shoved off the platform, through the hall and into the street, where he was knocked down. On the way to the hotel he was knocked down several times. When he reached the hotel door someone jumpreached the hotel door someone jumped upon him and knocked him down the steps, and when he got up the same person had his back against the door to prevent his entering. Someone also threw something at him in the street. In the hall he had smelt a skunk odor, but he did not think anything with the odor on it was thrown at him until they were out in the street. The disturbance in the halls seemed to increase after the arrival of seemed to increase after the arrival of a load of people from Newmarket. He could not swear as to who were the ringleaders. The Magistrate found no evidence against Bond and Horsley, and they were discharged, as were also Ough and Norton. He then dismissed all were discharged, as were also Ough and Norton. He then dismissed all the charges, upon the ground that there was no unlawful assembly; that if anything had occurred that should be a subject for punishment it would be only a matter of assault or disorderbe only a matter of assault of disorder-ly conduct. There was no doubt, he thought, that if Fleury were proceeded against for common assault the evi-dence would bear out the charge. In Flicker's case he thought there was evidence of a cowardly assault, and those cases would be summarily pro-ceeded with.

ceeded with.

Mr. Munns was allowed to speak at the conclusion, and said that he had the conclusion, and said that he had no desire to prosecute anyone for assault. He had wished only to demonstrate that in a British country there should be British fair play. He had no hard feeling against any of the people of Aurora, and intended to come and see them again.
