FINANCE DEPARTMENT,

OTTAWA, 22nd December, 1884.

To the Honorable

Sir S. L. TILLEY, C.B., K.C.M.G.,
Minister of Finance.

SIR,—I have the honour to present you herewith the Public Accounts of Canada for the fiscal year ended 30th June last, together with the usual comparative statements for all previous years since Confederation.

During the past fiscal year the Dominion has placed in the London market a loan for £5,000,000 sterling, bearing interest at $3\frac{1}{2}$ per cent., being the first loan floated by any Colony at that reduced rate of interest. This loan was called for on the 13th June last, and although not carried out fully during the fiscal year, I have thought it better, in order to show the position of the Dominion, that it should be taken into account during that time. This loan, as will be seen by the annexed statement, was tendered for at an average sum of nearly £91 ls. 8d. for each £100 sterling, and is for the term of fifty years from the date of issue, with the option of payment in twenty-five years, on the Government giving six months' notice to that effect.

Further indebtedness was created through the arrangements made with the Canadian Pacific Railway Company, whereby the Government guaranteed the payment of interest on the Company's stock; by this operation a sum of \$15,942,645.00 less \$7,380,912.00 was received, the payment of the latter sum under the Act of last Session being deferred until 1888.

I have to report that the Dominion has been called upon to make heavy expenditures on Capital Account, amounting to the large sum of \$16,945,964.57, distributed as follows:—

Intercolonial Railway.....	\$ 1,514,979 10
Eastern Extension Railway.....	1,284,311 97
Canadian Pacific Railway.....	11,217,262 27
Prince Edward Island Railway.....	130,663 38
Lachine Canal.....	189,034 41
Murray Canal.....	118,187 43
Ottawa Canals.....	549,424 57
River Tay Canal.....	50,878 12
St. Lawrence Canals.....	115,337 60
St. Peter's Canal.....	2,471 40
Welland Canal.....	432,952 88
Trent River.....	120,643 91
Public Buildings at Ottawa.....	45,684 22
Land and Cable Telegraph Lines.....	3,776 00
Esquimalt Graving Dock.....	441,915 98
Dominion Lands (Capital).....	728,441 33

The Government repaid to the Canadian Pacific Railway Company the balance of the Land Grant Bonds outstanding on the 30th June, 1883, amounting to the sum of \$2,694,186.15, and advanced to the company, on account of the loan guaranteed last Session, \$10,953,462. Further advances have also been made to:—

St. John Bridge and Railway Extension Co.....	\$143,600 00
Improvement of St. Lawrence River.....	110,000 00
Quebec Harbour.....	200,529 00
Graving Dock, Quebec.....	137,000 00
Minor Investments.....	29,000 00
	\$620,129 00

On account of subsidies granted by the Parliament of Canada to various railways, the Government paid during the last fiscal year the sum of \$208,000, as follows:—

International Railway.....	\$144,000 00
Quebec and Lake St. John Railway.....	32,000 00
Nipissing, Tamworth and Quebec Railway.....	32,000 00
	\$208,000 00

The total of the above mentioned payments is \$31,421,741.72.

I have to point out in connection with the payment of the above mentioned railway subsidies, amounting to the sum of \$208,000, that these sums have been charged direct to Consolidated Fund, and are not included in the current Income and Expenditure Account of the Dominion. These payments being for works over which the Dominion Government has no control, could not be treated as Capital expenditure in the same way as would be done in the case of expenditure for the construction of the Intercolonial Railway, the Lachine Canal, or similar works carried out by the Government. They could hardly be regarded as an ordinary expenditure of the Dominion, and being of an extraordinary character, they have been treated in the way mentioned. I may further add that I have deemed the cost of the Esquimalt Graving Dock to be chargeable against Capital, and I have so treated it in the Balance Sheet.

The receipts on account of Dominion Lands during the last fiscal year have been \$951,636.50; the surplus revenues have amounted to \$754,255.48; the investments for the several Sinking Funds to \$1,350,500; and the addition to the net debt, during the year, has been \$23,659,135.80. The total amount of debt paid off during the year was \$2,226,167.46. In addition to this must be added a decrease in the note circulation of \$660,770.00. On the other hand, the deposits in the several Government Savings Banks increased \$2,998,429.29, making the amount standing at the credit of depositors therein, on the 30th June last, \$29,217,536.84.

Although the net debt of the Dominion has been increased by the sum above mentioned, yet through the diminution of the rates of interest payable on the Dominion loans and the reduction of the higher interest-bearing debts, the rate of interest on the net debt has decreased during the year from 4·36 to 4·06, whilst the rate of interest on the debt payable in England was reduced from 4·37 to 4·22. The total reduction since Confederation on the rate payable on the net debt has been from 5·41 to 4·06.

The total amount of debt payable in England on the 30th June last stood at \$153,157,095.87, from which has to be deducted the investments in the several sinking Funds, amounting to \$14,292,158.37.

In addition to the liabilities above referred to, the several Provinces forming the Dominion, under the adjusting Act of last Session, were credited in their Debt Accounts with \$7,172,297.92, and liabilities were incurred as subsidies to the various railways, under the Act 47th Victoria, cap. 8, amounting to \$6,176,400.00, which amount does not include the two sums of \$170,000 and \$30,000 per annum for fifteen years, or a guarantee for the like sums for the same period as interest on bonds for the construction of lines of railway connecting Montreal with the harbours of St. John and Halifax, and for the construction of the line from Oxford Station, on the Intercolonial, to Sydney or Louisburg.

I am glad to be able to state that since my last report the Treasurers of the two Provinces of Ontario and Quebec, with their Assistants, met in Ottawa. The result of the two days' conference was, that the matters unsettled have virtually been reduced to two points, namely: claims made by the Dominion Government on behalf of certain bands of Indians, and the claim of Ontario to get credit for a sum of money under the Land Improvement Fund. When these two points are settled there will be no longer any delay, and I trust that at a very early day the final adjustment of the accounts will take place. I think it but right, however, to point out the nature of the claim in connection with the Land Improvement Fund, especially as it has formed the subject of an enquiry in Parliament. The claim of Ontario, in reference to this Fund, has been stated by the Treasurer of that Province, under date of the 4th June last, as follows:—

“With regard to the Land Improvement Fund, I am aware that you have given credit for the \$124,685.15, which the Award provides shall be credited to Ontario as being the amount payable to this Province on account of collections from *Common School Lands*, but my enquiry of 20th February was as to the Land Improvement Fund on *Crown Lands*. By 16 Vic., cap. 159, sec. 14, passed June 14th, 1853, the Governor in Council was authorized to reserve one-fourth of the proceeds of School Lands and one-fifth of the proceeds of Crown Lands, to be expended in public improvements within the municipalities in which the lands were situated. On the 7th December, 1855, Orders in Council were passed, setting apart these proportions of the collections as the Land Improvement Fund. On 6th March, 1861, an Order in Council was passed, rescinding the Order of 7th December, 1855; but all sales of land made between these dates, namely, June 14th, 1853, and 6th March, 1861, were subject to the reservation for this Fund, and the claims of the municipalities to

the expenditure of this Fund for improvements has by various Orders in Council been recognized. The one-fourth and one-fifth of the collections made from these lands, from 1853 to 6th March, 1861, were paid to the municipalities, but from the latter date to 1st July, 1867, no payments were made, but the whole proceeds of the Crown Lands sold were absorbed in the Consolidated Revenue, and the whole proceeds of the Common School Lands credited to the Common School Fund. The statements submitted to the arbitrators showed the Upper Canada Land Improvement Fund to consist of one-fourth of receipts from Common School Lands sold during the existence of the Upper Canada Improvement Fund, from the day of the abolition of that fund to 1st July, 1867, less cost of collection.....\$124,685 18

One-fifth of receipts from Crown Lands, so sold and money so received	101,771 68
Upper Canada Improvement Fund, prior to abolition of O.C. of 6th March, 1861.....	\$5,180 04
Less receipt in former year reversed.....	60 96
	5,119 08
	<u>\$231,575 94</u>

This Fund was, by section 5, number 6 of the Award, declared to be the property of Ontario. The \$124,685 is not mentioned in the Award as the amount of the Fund; but that sum is directed to be deducted from the Common School Fund in which Quebec was interested, and placed to the credit of the Upper Canada Improvement Fund, which was to be solely the property of Ontario. I claim, therefore, that Ontario should get credit for \$231,575.94 as the amount of that Fund, instead of only the \$124,685.18 which is credited.

"The one-fourth of the School Lands was treated by the Arbitrators as a debt due by the late Province to the municipalities, for which the faith of the Crown was pledged, and the one-fifth of the Crown Lands is exactly of the same character. The rule governing the one must govern the other also."

With regard to the items in the foregoing statement, I have to state as follows, viz. :—

1st. The first item, \$124,685.18, has been credited in the accounts to the Province of Ontario, in accordance with section 7 of the award of the Arbitrators.

2nd. I find, on inquiry, that the third item, \$5,119.08, is made up of certain payments to various municipalities in the Province of Ontario, and by the sum of \$1,913.17, which has been credited to Ontario as a balance for colonization roads.

3rd. With regard to the second item, \$101,771.68, I have made thorough search among the records of the Department, and I find that my predecessor in office, Mr. Langton, sets forth the facts relative to the same very clearly in the following report made by him to Sir Francis Hincks, the then Minister of Finance:—

"You already understand the principle upon which Mr. Wood bases his claim for the Improvement Fund. There is a great deal of force in the argument, but it should not be lost sight of, that the Government of the late Province of Canada did, in effect, twice decide against the claim now brought. In 1860 an Act was passed which was intended to repeal the clauses which established the Improvement Fund, and from the date of that Act all further apportionment of the receipts towards the Improvement Fund was stopped. It was afterwards discovered that the repealing Act had quoted the old Land Act repealed by its title in the Consolidated Statutes, whilst in that compilation the clauses establishing the Improvement Fund had been

inserted in another Act which remained in force. An Order in Council was then passed, in March, 1861, abolishing the Fund, and at the same time a fresh distribution was ordered of the proportion of the receipts from the date when the former distribution had been stopped to that of the Order in Council finally abolishing the Fund. In both these cases, therefore, the Governments of the day were guided by the date at which the payments on the lands were received, and not by the date at which the sales were made.

“Mr. Wood states that an Order in Council was passed referring the question to the decision of the Arbitrators, or at least you led him to believe that such an Order had been passed. Such, however, was not the case. I suggested this course in a report to you upon the subject, and I understood you to take a favorable view of my suggestion, but there was no action of the Government in the matter. I still think that if Quebec had been properly represented in the arbitration this would have been the best way of meeting the difficulty; but it is impossible to close our eyes to the fact that no arbitrator from Quebec was present when this question of great importance to it was decided. I express no opinion as to the effect which the absence of the Quebec arbitrator may have upon the validity of the Award in matters which, by the Act, were submitted to the Arbitrators; but I cannot think that the Government of the Dominion can be bound by a decision arrived at without the privity of Quebec in a matter over which the Arbitrators would clearly have had no jurisdiction, unless the Dominion authorities had, as was proposed, specially referred the subject to them. I think that, as matters now stand, this question must be decided on its merits, irrespective of the decision the Arbitrators have come to in an analogous case; and in arriving at that decision, the interpretations twice put upon the Statute by Governments of the Province of Canada, and the fact that the object of the Fund was for local improvements in Ontario, cannot be left out of account.

“The amount claimed is \$101,771.68. I have no means of verifying the figures, but assuming the returns of the Crown Lands Department to be correct, this amount would have to be added to the debt.”

I find, however, that this item of \$101,771.68 was included in the accounts submitted to the Arbitrators as forming a part of the Upper Canada Improvement Fund, as will appear by reference to the record of proceedings before the Arbitrators. I find further that the Arbitrators awarded to Ontario, amongst other Trust Funds, the Upper Canada Improvement Fund; and that another of Mr. Langton's reports states that the same principle should be applied both to the Crown Lands and School Lands. In view, however, of the report above quoted, and of the fact that the amount had not been so treated by Mr. Langton, and of the further fact that, on looking at the old correspondence, I found it was a ground of difference between the Treasurers of Ontario and Quebec before the arbitration was settled, and that Mr. Robertson, then and now Treasurer of Quebec, had written Sir Francis Hincks on the subject, I did not feel myself justified in placing the amount to the debit of the old Province of Canada and credit of Ontario. I trust, however, a settlement will soon be arrived at; but in the meantime the matter has been delayed at the request of the Treasurer of Quebec, in order that he might consult his colleagues on the subject.

No silver has been coined for the Department during the past fiscal year, but a further amount of bronze coin has been put in circulation, the profits on which amounted to \$16,502.19.

The business of the Department has again largely increased, and I annex a statement similar to that submitted last year, showing the increase in the work of some of the branches of the Department since 1878-9, and also the salaries of the staff for the same period. I also append a statement showing the amount of issues and redemptions of Dominion Notes from the 1st July, 1878, to 30th June, 1884; also a statement showing the amount of small notes (\$1's and \$2's) destroyed during the several quarters from that ending September, 1881, to that ending September, 1884, from which it will be seen that in that branch of the Department the work has quadrupled. I also annex a statement of the circulation of all classes of notes, month by month, for the two last fiscal years.

I am again glad to state, that through the efforts of the officers of the Department, the expansion of work has been met and no arrears have been allowed to accumulate.

All of which is respectfully submitted.

J. M. COURTNEY.
