A HAT FASHIONED UNDER ITALIAN SKIES

Far across the seas in romantic Alexandria, delft, sunny-tempered Italian workmen work into Borsalino Hats the characteristic style and personality redolent with continental flavor.

BORSALINO HATS

They curl the brims to retain their stylish sweep for ever and ever.

They dye the felt with fast dyes in every beautiful hue. They make the World's Best Hat.

Here, in this store, you can now get Borsalino Hats, the very tip-top of style, for less than we can buy them again.

They're \$7.50.

So is the Kearney Special! The window tells the story—and shows the Hats.

Kearney's.

Would any man or woman in this city refuse to give some small help to a little orphan child who has neither father or mother to provide for him? Not One!

On SUNDAY NEXT the unselfish Sisters of Belvidere Orphanage are asking the Catholic people of St. John's to help a little in the upkeep of

160 FATHERLESS INNOCENTS,

who must have food to eat and clothes to wear--the bare necessities of life. But a few close friends of the Institution who know of the reticence of those good ladies and their dislike of publicity, have jointly arranged to extend this appeal to

All Charitably Disposed Citizens

no matter what class or creed, who would deem it a pleasure to do something for those helpless little orphans!

Could any father or mother, remembering the sheltering care given to their own dear ones, refuse to give an extra dollar to the upkeep of these little ones?

If he who "gives to the poor, lends to the Lord," won't you fathers and mothers who love your own dear little tots, please remember kindly the BELVIDERE ORPHANS on Sunday next.

Please Give Them All That You Can Spare!

THE PRAYER OF LISPING LITTLE LIPS WILL BE YOUR REWARD.

"Friends of Belvidere Orphans," P. O. Box, 263.

At the City Hall.

The regular weekly meeting of the Council was held last evening; Mayor Morris presided and Councillors Vialouche, Peck, Jackson, Collins and Hallett were present.

Communications were read from the Deputy Colonial Secretary as follows: (1) That the Government had received the resignation of Mr. J. J. Mallory as Member of the Board of Commissioners; (2) that at the request of the Municipal Council the Gas Co. would be relieved from the tax on gas coal for manufacturing purposes for two years.

Supt. Morris, of the Reid Mfg. Co's Electrical Department, submitted an estimate of cost of moving poles back to new street line, Golf Avenue.

F. Fitzpatrick asked that a new road be opened through his property from Prince of Wales St. to Pennywell Road. The Council will visit this site.

G. Gillingham applied for a share of iron work. The City Engineer was instructed to give Mr. Gillingham a share of orders.

Applications were received from A. Rice, South Side, and Mr. McNeill, Golf Avenue, for lights in these localities. The matter will be considered.

G. Bell drew attention to the present condition of Field Street, which, he stated, has not been repaired for some years. The Engineer is to look into this matter.

A communication was read from D. Barron and G. Volsey in reference to the installation of water and sewerage in their dwellings. The Plumbing Inspector was ordered to see that the regulations are carried out in this respect.

F. Smeaton applied for permission to build extension to his dwelling, McKay St. Investigation is to be made by the Engineer.

The following plans were passed, subject to the approval of the Engineer: H. J. Bishop (dwelling), New Gower St.; R. J. Greese (extension), Pennywell Road; John Whelan (extension), Carnell St.; J. C. Tucker (extension), Pennywell Road; A. Faulkner (dwelling), LeMarchant Road.

It has been reported that Mr. J. Burnstein is erecting a small building on Springdale St. for which no permit has been issued. The City Engineer is to visit the place, and if Mr. Burnstein proceeds further with the structure, the Solicitor will take action for its removal.

Tender for plumbing was awarded Messrs. Hunt Bros.

It was ordered that certain repairs be made to McBride's Hill wall.

The report of the City Health Officer for the week showed nine cases of diphtheria and two of typhoid fever.

The City Engineer submitted the names of several property owners, Water Street, who had the block pavement removed to make repairs to house drains, and who at the time guaranteed to replace same, but now refused to carry out their agreement. The Solicitor will be instructed to take action.

After reading the various departmental reports and the passing of pay rolls and bills, the meeting adjourned.

Dyed Her Sweater and Silk Stockings.

Each package of "Diamond Dyes" contains directions so simple that any woman can dye or tint faded, shabby skirts, dresses, waists, coats, sweaters, stockings, hangings, draperies, everything like new. Buy "Diamond Dyes"--no other kind--then perfect home dyeing is guaranteed, even if you have never dyed before. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

C. C. C. Notes.

The C.C.C. under Major J. J. O'Grady held a route march last night. About 300 turned out and headed by the Bugle Squad they presented a fine appearance. The Band was to have accompanied them but through not having sufficient lights to play by, this plan had to be given up and they paraded at the Armoury instead. After a short while it is expected to have the Corps up to full strength as latterly a large number of recruits have joined up. The dance held by No. 1 Company, senior, on Tuesday night, was a decided success socially and financially, over seventy couples were present and enjoyed themselves immensely. The C.C.C. Band supplied the music. The Athletic Association meets on Sunday morning when arrangements for the fall and winter games will be made.

Ministers Leave Gairloch.

Prospects of Early Conference Less Hopeful--Leaving it to Winston--850 Bodies Recovered From Oppau Ruins--Moplas Defeated by British.

Prospects of a Conference between the Sinn Fein representatives and members of the British Cabinet at an early date were declared today to be less hopeful as the result of yesterday's consultation between Lloyd George and several of his Ministers at Gairloch. Several of this morning's newspapers reflected this view, and reports from political correspondents at Gairloch generally agreed that Ministers adopted a more rigid attitude toward Sinn Fein. It is declared there is a tendency on the part of cabinet members, who talked with the Premier, to insist that Sinn Fein formally withdraw his claim that Sinn Fein delegates would enter Conference as representatives of a sovereign state. They are said to urge that the Irish withdrawal be made before the Government agrees to meet the Irish delegation, while some are declared to have urged that assurances be given by Sinn Fein that if the Conference meets, Sinn Fein shall not be raised. Premier Lloyd George, according to the Daily Mail, is taking an unbending attitude in face of the latest Irish communication and is supported by his colleagues. The Times, however, remarks that yesterday's meeting scarcely represented all shades of opinion in the Government, and it expresses the opinion that for this reason the Premier desires to consult all the members of his Cabinet before replying to De Valera.

LEAVING GAIRLOCH.

GAIRLOCH, Sept. 22. Viscount Fitzalan, Viceroy of Ireland, Winston Spencer Churchill, Secretary of State for the Colonies, and Edwin S. Montague, Secretary for India, who have met here with Premier Lloyd George, left Gairloch today, Secretary Churchill proceeding to Dundee, where he is expected to make an important speech on Saturday. The departure of Viscount Fitzalan is taken here to indicate that the British reply to the latest telegram of Eamonn De Valera may have been decided upon and one report says it is to be dispatched to-night.

THE OPPAU HORRORS.

MANNHEIM, Sept. 22. Destruction and ruins alone remain of what was once the flourishing town of Oppau. The town had 6,500 residents, of which the majority of men engaged in the Chemical Works, were killed or wounded. Soldiers in French uniforms are clearing away the wreckage, picking up the dead and injured as after a battle. Eleven hundred dead are the latest estimated casualties. The desolation around Oppau equals anything seen at Verdun or in Flanders over a similar area. Hundreds of persons are digging in the ruins for bodies of relatives or friends, nearly a thousand of which have been recovered thus far. Thirty-six hours after the explosion from the gaping funnel-like hole where the Badische Works formerly stood, there are still to be heard moaning and the cries of wounded, while soldiers are searching for possible survivors. Twenty-five hundred of the injured are reported to have passed through the hospitals of the surrounding cities. The vast crater is slowly filling with water, and it may never be known how many victims found a grave there. All mutilated, but still living animals, crawling amidst the twisted girders and blocks of concrete, are being put out of their misery.

850 BODIES RECOVERED.

PARIS, Sept. 22. Up to this morning 850 bodies had been recovered from the ruins at Oppau, where the plant of the Badische Anilin Company blew up yesterday. It was announced in a Mayence despatch received here. Injured persons to the number of twenty-five hundred had been attended. It is reported in advices that the explosion occurred during experiments for the compression of a new gas, qualities of which had not been fully ascertained. The total damage is estimated at 150,000,000 francs.

REBELS DEFEATED.

CALICUT, Sept. 22. A British column inflicted a severe defeat on rebellious Indians at Hullo-male, says an official statement issued today. The rebels were dispersed and are being pursued by the British, the statement adds.

FOUR NEW SENATORS.

OTTAWA, Sept. 22. Four appointments to the Senate were made this afternoon. They are Sir George Foster, formerly Minister of Trade and Commerce; Hon. J. A. Calder, formerly Minister of Immigration and Colonization; Hon. J. D. Reid, formerly Minister of Railways; and John McCormack, of Sydney Mines, N.S.

ANOTHER CHANNEL FAILURE.

DOVER, Sept. 22. Henry Sullivan of Lowell, Mass., who yesterday afternoon made a fifth attempt to swim across the English Channel, was obliged to abandon his effort before reaching the French coast. When he decided to give up the attempt he had reached a point twelve miles off this city. Sullivan was forced to abandon the swim because of the coldness of the water after swimming nine hours.

AUSTRIAN RAILWAY STRIKE.

VIENNA, Sept. 22. Railroad traffic throughout Austria has been completely tied up by a strike, and thousands of visitors in this city from all parts of Europe are marooned here. The walk-out was called because of objections by workmen to the Government's graduated increase in their September allowances. They demanded a uniform amount regardless of their grades.

Knights of Columbus.

TERRA NOVA COUNCIL NO. 1452 ELECTS OFFICERS. The annual election of officers of Terra Nova Council No. 1452 took place at Columbus Hall during the regular meeting on Tuesday night last, the 20th inst., with the following result:--

No Harmless Shakes.

All reptiles are venomous—even the so-called harmless snakes. The bite of a common grass snake is poisonous even though it may not prove fatal. For the snakes which have no poison fangs have venom in their blood and saliva, and this is once penetrates the minute wounds made with their teeth.

Frogs, toads and lizards are poisonous. The poison they secrete varies greatly in odour. Some smells like garlic; that of certain kinds of toad smells like gunpowder; but the common toad produces a poison with the fragrance of vanilla.

Most fishes contain small quantities of poison, as many fishermen know to their cost.

Dogs and cats with their fangs. These fangs are actually poison fangs. On the fangs are thin spines which have poison glands at their base. When irritated or alarmed the fish erects the spines and the movement draws a drop of poison up through a groove in them—hence when a fisherman's hand is scratched by a dogfish a drop of poison goes into the wound.

Strangely enough, the venom of snakes, toads and fishes acts upon man and the lower animals only when it is introduced into the circulation, as by a bite or an injection into the veins. Such poisons could be swallowed with impunity.

In stock "NUTS" and "PINTS", also ICE CREAM FRUITS.

The Romance of Bowls.

Bowls has a history more ancient and splendid than that of either cricket or football.

You may see it pictured on old manuscripts, the ink on which was dry seven centuries ago. So popular had it become in the time of Richard II. that it was forbidden by law because it interfered with the practice of archery, while in Henry VIII's reign it was associated with so much gambling and dissipation that the law stepped in again.

But in spite of such difficulties it flourished through the centuries. Every village had its bowling-green, and there was one attached to every country-house. The greatest in the land, vied with the humblest in their enthusiasm.

Henry VIII. spent hundreds of happy hours in his Whitehall bowling-alley. James I. was passionately addicted to the game; and Charles I. "had a great love for it."

Hints to Players.

Shakespeare sang its praises in several of his plays; and it was from a game of bowls on Plymouth Hoe that Drake went to scatter the proud Spanish Armada.

The game is played with heavy bowls on a very smooth green from thirty to fifty yards wide. The bowls, which are of wood, are from six to seven inches in diameter. They are turned more or less oval, with one side a little rounder than the other. This gives a bias to the bowl, which runs in a curved direction instead of straight.

Any number within reason can play the game, but usually the players are arranged into opposing teams of four each, each man playing two bowls. A small white ball without bias, known as the jack, is thrown to a distance of not less than twenty yards from one end of the green; and the object of each player is to roll his bowl, with an underhand throw, so that it lies as near the jack as possible.

LABRADOR ARRIVALS.—The following schooners have arrived at Westleyville from Labrador: Centennial 700; Mabel H., 650; Tasso, 300; Pretoria, 350; Coronet, 700; Harold R., 600; Emily Bell, 350.

Our eight players follow in turn till all the sixteen bowls are on the green, when a point is counted for every bowl belonging to one side which is nearer the jack than the nearest bowl of the other side. In the next round the player whose bowl was nearest the jack in the previous round leads off from the other end of the green, and so on until one side has scored game, which may be any number of points mutually agreed on—usually twenty-one or thirty-one.

The great interest in the game consists in either knocking an opponent's bowl away from the jack, or taking the jack away from his bowl and bowling your own as near to it as possible. In aiming, you have to allow for its curious bias, which makes the bowl curve in either from the right or the left.

The next thing to observe is pitch. In regulating this you must study your green for all greens are by no means "like a billiard table." You must adjust your pitch to the ground you are playing on. As for pace, the player's eye should aid him; and he must vary it according to whether he intends to hit up by the jack or drive away an opponent's bowl.

In placing the players, the last should go second, because he can then do least harm; the "ride" should be able to "take" or "ride" while the "skip" or captain of the side should be the most experienced performer. To "ride" is to play with such force as to strike out an opponent's bowl, or send the jack off the edge of the green—a risky game; for if the object is missed, the bowl is lost or it may displace one of the best bowls of its own side. "Baking" which generally is better than "riding" because its results can be foreseen more clearly, affords more scope for tactics—such as displacing and playing in place of a bowl; driving a short bowl up to the jack; or throwing out your opponent's nearest bowl when it is jack high.

Tricks Played by Our "Elastic" Earth.

The appearance recently of the Scroby Sands, off Yarmouth, is one instance of the peculiar ways in which islands come into being.

In this case it was due to drought, but there are many other causes.

New islands are born generally as a result of volcanic action or the work of coral insects. But the whole elastic and subject to changes of level.

The growth of coral islands in the Pacific is very rapid. In some places they are estimated to have risen almost eight inches a year, but this is exceptional.

At one time Great Britain and Ireland, as well as the Orkney and Shetland Islands, were all part of the Continent of Europe. A rise of six hundred feet would produce this condition again.

Town Beneath the Sea.

On the island of Crete vast changes have taken place. Its western extremity has been raised twenty-five feet, while the eastern end has sunk considerably. The result is that ancient ports are now high and dry, and the ruins of other old-time towns may be seen under the water.

In regions where volcanic action is more powerful, islands appear and disappear most unexpectedly. Not long ago one came to light off the Arakan coast of Burma. It was inspected by the Marine Survey, but by the time the report had been prepared the island had disappeared again.

Carpeting the World With Salt.

Salt is the one thing of which we are never likely to run short. Every pint of sea water contains about half an ounce of salt; while there is enough salt in the sea to cover the surface of all the countries in the world to a depth of over sixty feet.

The Germans eat 12lb. of salt per head every year; Americans use 11lb. English people 10lb., and the French about 6lb.

The greatest salt-eaters in Europe are the Scandinavians and the Norths

Western Notes.

Mr. Philip Read, brother of Rev. H. J. Read, Rector of Channel Parish, passed away at this place on Tuesday, Sept. 20th, after a lingering illness. Deceased was for many years voyage master at LaSalle, coming to Channel to reside. Death resulted from an incurable internal disease. The bereaved family has the sympathy of the whole community.

Capt. John Pike of Channel who had been ailing for some time is still able to get about when the weather is fine.

Flour and coal have dropped considerably in price (owing to the Sales Tax on both commodities) at Channel, the former selling for \$11.90 per barrel and the latter \$12.50 per cent home.

The fishery about Channel and vicinity is very good and with a plentiful supply of squid bait, the few fishermen engaged are making fair daily catches. The price, unfortunately, is not encouraging, being but one dollar per hundredweight from the knife. Dry fish is being bought on account and for trade at \$5 per quintal.

Rheumatism and Rain.

Persons who suffer from rheumatism maintain that they can foretell an approaching storm by the increasing frequency of their pains and the sharpness with which these dart through their body.

Often predictions of this sort are attributed to imagination, but they have a very solid foundation of truth.

The human body reacts quickly to changes of air pressure, because of the air in the spaces between the cells beneath the skin. When the air pressure on the outside of the body decreases—as it does before a storm—the outward pressure in these cells increases, and in the case of persons suffering from rheumatism or gout, causes additional pain.

An old couple describes the process quite accurately by saying:—
"A coming storm your shooting comes pressure;—
Your aches will thro, your hollow tooth will rage."

Personal.

Mr. Dolph Curtis, who spent a very enjoyable holiday with his parents and friends, leaves by the Rosalind tomorrow for New York, where he will resume his studies.

Mr. Wilson Vardy of Channel, his friends will be pleased to know, is improving considerably since entering the General Hospital.

Mrs. Edward Martin and child left by Monday's express for Grand Falls on a short visit.

Mr. George R. Rowe of Ayre & Sons Jewellery Department, who underwent a somewhat serious operation at the General Hospital on Thursday last, is rapidly recovering, and in the course of a couple of weeks will be able to leave the institution.

Mr. H. P. Winter and son, of New York, arrived yesterday by s.s. Rosalind on a visit to Hon. M. G. Winter.

Mr. M. L. Farrell, who has been exploiting the properties of the Newfoundland Cement Co., at Heart's Delight, and looking over the areas of the Company, went out by train this morning to complete a survey of the entire property, which will be conducted by regularly constituted surveyors, Mr. Allan Long being in charge. So soon as the definitions are made the Company intend to start operations, when numbers of men will be employed.

Among those making the round trip by s.s. Rosalind are Misses Annie Reid and Lillian Donnelly. Miss Reid is a daughter of Mr. John Reid of Byrne, N.E., well known here, being a former citizen of ours. Both young ladies are guests of Mrs. John Curtis, Hayward Avenue.

A mother's problem—what food gives back the energy a child uses up daily?

CHILDREN use up a tremendous amount of energy every day. Every mother of a healthy, sturdy youngster will testify to this. Children need richly nourishing food to supply this energy, and also to supply food for growth.

The selection of this food is your most important duty. You cannot give too much care to this matter. Grape-Nuts, the rich, wholesome cereal, made from whole wheat, flour and malted barley, with milk or cream, supplies very necessary requirements for the growing child.

If you want to help your children to be rosy, sturdy, full of vitality and vigor, give them plenty of delicious Grape-Nuts, crisp, sweet and satisfying.

Go to your grocer today and get a package of health-building Grape-Nuts. Give the youngsters the strengthening food with milk or cream, and see how they will thrive on it and grow strong, robust and sturdy.

OVERCOATS For Men & Boys

Should you buy new Fall or Winter Overcoats before seeing the values we offer, you will do yourself a great injustice.

Just Folks

THE THING ACCOMPLISHED.
If you would know the depth of satisfaction
Or come to feel a sense of proper pride,
You must be watchful of your every action,
And all the task be done not turn aside.

Though humble be your duty and your station
Gild it with credit, not with sham or bluff;
Give it your best and spurn the explanation
That poor endeavor may be good enough.

Seek not in words of praise from men who flatter
For true contentment—it is never there;
Be your own judge and let the thoughtless chatter,
You know your work and its its false or fair.

Remember this, and be no vain regretter:
In little things man meets his sternest test;
Be not content with work that you could better,
The humblest task's deserving of your best.

You need not fear the future. Men shall find you,
No matter where you toil or where you dwell,
If every time you leave a task behind you,
You know yourself that you have done it well.

Every Woman Should Know

That Lantic Sugar in yellow packages is cleaner and finer than sugar exposed to dust and germs in an open barrel.

That Lantic Sugar in 2 lb. and 5 lb. dust-proof yellow packages is finer than sugar in barrels.

That fine sugar is, bulk for bulk, sweeter than coarse sugar.

That Lantic Sugar, in the yellow package, is therefore sweeter sugar.

That Lantic Sugar is therefore more economical than coarse sugar.

That Lantic Sugar is purest cane sugar, absolutely unadulterated.

That this best of all sugar, Lantic in packages, is sold at the same price as sugar out of a barrel.

That intelligent women prefer Lantic and that the best shops sell Lantic. IT'S CLEANER AND SWEETER.

COLIN CAMPBELL, LTD.,
sep19, Distributors of Lantic Sugar.

Finalists Entertained.

The Star Athletic Association entertained their football team, who were the cup finalists in this year's League series, to a dinner at Wood's Restaurant, last night. Chairman Wall presided and in congratulating the team on its excellent work—only one game having been lost during the season—he also extended the Association's best wishes to the B.I.S. who for the second successive year, are the League Champions. Speeches of a high order were made and several songs were sung, the National Anthem bringing the affair to a conclusion sometime before midnight.

Household Notes.

Fish and meat can be combined with cereals and vegetables for making meat or fish pies or meat cakes.

Oranges are good baked like apples. Cut a slice off the top for a lid and insert a little lemon juice and sugar.

Save the paper from bolts of ribbon. It is just the thing to put under oranges to prevent puckering when you sew it.

Very small round potatoes are attractive fried in deep fat, drained and served pyramid fashion. Garnish with parsley.

If mushrooms are dried until crisp, they can be rubbed through a sieve and used in soups and gravies during the winter.

Bake alternate layers of stale cake crumbs with layers of mixed quinces and apples. Sprinkle with sugar and cinnamon.

If you are looking for comfort see the Hug-Me-Tights at I. LEVITZ. Black only. Worth \$2.00. Clearing for 79 cents. 252 Water Street, opp. Dicks & Co.—sep16,61

J. M. DEVINE, Importer & Exporter, 29 Broadway, New York City.

Write for our buyer's Guide which shows you how to buy at the lowest figure.

Let us increase your profits.

WORDS OF WISDOM.

Before you venture forth in style, in your new bus or motor, just paste this maxim in your title: "Play safe, or you'll be sorry." Because the reckless so their way, in motor cars bespangled, a hundred cents, each passing day, are badly killed or mangled. Because the reckless rip and roar where wiser ones have tarried, a hundred cents, or maybe more, are to the boneyard carried. Oh, bear in mind the traffic rules, as your large bus advances, for only murderers or fools will speed and take the chance. With care propel your costly dray, all signs and signals seeing; it is an awful thing to slay a useful human being. It is an awful thing to know that by your careless driving you've laid a fellow mortal low, and kept him from surviving. When once some fatal accident is charged up to your speeding, you'll fill the skies with your lament, your heartstrings will be bleeding; but that won't help you worth a dime, no comfort can you borrow; you didn't make your choice in time to wit safety and grim sorrow. Avoid the sorrow and heart-bleeds, the useless walls and curses, and bear in mind the stricken gents who ride away in hearse. All day the deadly autos roll; the death lists I keep reading; don't add another to the toll of victims killed by speeding.

Brick's Tasteless can be purchased at Jas. Wiseman's, Top Carter's Hill. Price \$1.20 btl. Postage 20c. extra.—sep15,61

Side Talks by Ruth Cameron

JUST NERVES AGAIN.

A Letter Friend writes to me in a picture of the miseries that come from what is called "nervousness" or "just nerves." She thinks I should not suggest such a thing lest I help to cause the very unhappiness I am deploring.

RUTH CAMERON.

Would she advise, I wonder, that no sign of warning be placed where the road has crumbled at the edge of the cliff lest someone be lured into stamming it too closely and thereby get into greater danger?

Can easily be avoided.

Sick nerves are a wretched thing. I cannot and will not go back on that.

But one can keep away from them just as surely as one can keep away from the crumbling road at the edge of the cliff, if one only realises how bad they are and how to avoid them.

Some weeks ago I wrote offering to send the names of certain books which keep one in the right mental state to those who felt they needed them. The response was immediate and surprising. To those who did not see that offer, I make it again.

The reason I was so vigorous in my wording was because I wanted to make people determine that they would never make the mistake of getting into a condition of nerves.

Anyone who follows the simple rules for physical health, and on top of that gives himself the prophylaxis of right mental habits, is perfectly safe.

Some of the rules I should suggest are these:

Do You Do These Things?
Get enough sleep.

Get enough outdoor exercise, chew your food properly, breathe deeply, drink enough water, and see that the bodily elimination is satisfactory?

Make these things matter-of-course habits and then forget about the whole matter.
Don't worry about your health. If you give your body anything like a fair chance it is going to look out for itself. Nature tends toward health and even when her laws are transgressed often manages to bring things back to a balance. Remember this if you have a tendency to fret about yourself.

Don't Be Tense—Don't Fret.

Learn to relax. Avoid the tenseness that comes with mental habits of hurry and impatience.
Don't backtrack over decisions. Make them carefully and then put them out of your mind. Fretting over a decision is poison to the nervous system.

And last, but to my mind most important, all avoid self-pity and cultivate courage.

If you do all these things, and there is no one of us who cannot do them, you will never need to see a doctor because of nerves.

State-Owned Steamships.

To every rule there is the exception, and to judge by the evidence of Mr. Hughes, the Prime Minister of Australia, and of Mr. Ballantyne, the Canadian Minister of Marine, it would appear that some State enterprises can be run at a profit. In an interview with a representative of "Canada," Mr. Ballantyne said that the Canadian Government's Merchant Marine in 1920 earned all its operating charges, and at the end of the year contributed 5½ per cent. to the Dominion Treasury for interest. Its services embrace the United Kingdom, Australia, New Zealand, South America, and the West Indies, and the conclusion of the reciprocity treaty with the last-mentioned was doubtless influenced by the existence of the services.

As regards Australia, Mr. Hughes has emphatically denied the report that the sale of the Commonwealth Government Line of Steamers was contemplated, and here again results are said to have proved satisfactory from a financial point of view. With so much shipping lying idle and with so many instances of financial difficulty in maintaining services evidenced in recent steamship companies' reports, it is gratifying to record these successes in State enterprise. It is understood that New Zealand is seriously contemplating the inauguration of similar services to enable that Dominion to maintain and foster its export trade—United Empire.

London Has Its Treasures.

Which Gold of the World Could Not Begin to Buy.

"What a city to sack!" exclaimed Blucher, the great German soldier, as he rode through London. If he had realized that the time would come when half-a-dozen objects in it would be worth more than all the gold in the world, he might have been even more emphatic.

These objects, the envy of every civilized country, are in the British Museum.

First and foremost are the Elgin Marbles, which Shelley called the "despair of modern art." They consist of remains of the most glorious building of antiquity, the Parthenon, at Athens. Though they were bought from Thomas Bruce, seventh Earl of Elgin (after whom they are named), for £235,000, they are now beyond price.

One of the marbles, the Theseus, is by common consent the finest representation in existence of a man's figure. Though it was worked when the world was comparatively young—for it dates to the fifth century before Christ—it forms a class of its own.

Next, perhaps, to the Elgin Marbles comes the Demeter, by far the most beautiful statue of a draped woman in the world. It belongs to the third century before Christ, and

was found in a rock sanctuary at Cnidus in 1858.

Another priceless gem is the Portland Vase, which was found in a sepulchral chamber near Rome in the sixteenth century. Belonging to the beginning of the Roman Empire, it is unique in craftsmanship, as it is made of two layers of glass, white on top and blue beneath. Copies of it—much inferior, of course, to the original, and yet beautiful—were manufactured by Josiah Wedgwood and sold at fifty guineas each.

Of almost unrivalled interest and value, too, is the Rosetta Stone, which solved one of the world's greatest mysteries—the meaning of the hieroglyphics on Cleopatra's Needle. For thirteen hundred years nobody could decipher those inscriptions. Then, at Rosetta, near Alexandria, was found a slab of black basalt, on which was an inscription in three scripts—hieroglyphics, demotic, (otherwise known as people's writing), and Greek, and this stone was the means of reconstructing the dead language and solving the problem that had baffled mankind for ages.

The key was the Greek, which was used to decipher the pictorial script, and when that was done scholars were able to read the hieroglyphics on the Pyramids and the myriad other relics of ancient Egypt. It took twenty years of close study to discover the great secret.

A flood of light was thrown on some of the fifty thousand or so ob-

jects from ancient Egypt which are in the British Museum, notably "The Book of the dead," another wonder of the nation's treasure-house. This was in use before the Bible was written, and took four thousand years to complete.

Connected with these marvels are the Assyrian tablets setting forth the Babylonian story of the Creation and of the Flood.

These wonderful tablets were discovered in the library of Assurbanipal, who reigned over Assyria seven years before Christ. They were among thousands of clay tablets containing rare and ancient works.

Another object in the British Museum that is too valuable for money to buy is the Magna Charta, the great Charter of our liberties, which is supposed to have been signed by King John. As a matter of fact, the King did not sign it. According to the Charter itself, it was "given by our hand," which in this case means that the Great Seal was attached.

Protect Your Negatives and Prints

By using proper Albums in which to keep them. We have a fine stock suitable for both prints and negatives, those for the latter being fitted with leaf-pockets into which the negatives may be easily slipped.

Don't stick your prints and negatives away in envelopes and then forget all about them, keep them neatly where you can easily get at them.

Call at the Kodak Store and see their print and negative Albums for yourself.

Waifs and Strays.

It was not so very long ago since the work accomplished by the Dr. Barnardo Homes was lauded in this column. Nor is it our intention now to retract anything said on that occasion. There can be none, not even those possessed of the most limited intelligence, who will attempt to deny that the Barnardo Homes have proved themselves institutions which confer an invaluable benefit on the communities in which they exist. But when we are in a philanthropic mood we must not lose sight of the fact that "charity begins at home." There is a proverb, the logic and truth of which defy refutation. It matters little how many deserving causes there are in the outside world! If there be one at home, it has or should have a stronger claim for our support. And who will say that there are no deserving causes here in Newfoundland, and more especially in St. John's? Rather are there too many such! Only a few days ago we heard of a young girl, but fifteen years of age, appearing before the Magistrate's Court like any common felon. Would not the erection of a home in which girls of this class could be weaned from the habits to which they are accustomed, and where they could be taught a purer code of morals, be more to the purpose? Why should we remain without such a home, a place where these unfortunate girls of the street, reared under nauseating conditions by parents to whom morality is unknown, could receive a thorough practical and religious training, and yet give freely to all who come to us and solicit subscriptions for similar institutions abroad?

Burglar Gets 12 Months.

A youth named Woodland, who had been down on remand, and who had pleaded guilty to the charge of stealing a quantity of goods from the U.S.P. Co. and a cash box from the schooner "Flora" appeared before Judge Morris in the Police Court this morning. He pleaded guilty. Head Constable Byrne said that on the day of the robbery the goods were found in two valleys on the Southside Hills. Several receipts and other papers belonging to the captain of the "Flora" were also found. Woodland, when arrested, admitted taking the cash box and spending the money. He had falsely implicated two others when arrested, one of these being the man Smith who was discharged yesterday. A considerable amount of goods were destroyed including a large roll of cloth, which had been cut with a razor. The total value including the goods stolen and damaged was over \$500. His Honor said the prisoner was an incorrigible and he sentenced him to twelve months imprisonment, six months on each charge.

Since the above was written, the unfortunate girl referred to has again appeared in Court, and were it not for the generosity of a well-known barrister, would now be an inmate of the penitentiary. To send a girl of fifteen years to the common gaol, even if she be incorrigible, is too terrible to contemplate, but with what other alternative is the Magistrate faced? If we cannot have a reformatory, then let the Industrial Home be enlarged and disciplined as suggested. How much longer are our people to maintain their present state of apathy while such conditions exist under their very noses. We have done our part; it now rests with the authorities and the public to do theirs.

Name Omitted.

In our report of the Masonic ceremonies attendant upon the consecration of Lodge Heart's Content, No. 1275, S.C. in yesterday's Telegram, the name of Bro. P. G. Legingham, W. Substitute Master, was inadvertently omitted from the list of officers. Another error for which we crave the pardon of the craft was the printing of A. B. Anderson for A. R. Anderson, as R.W.M. in the same list.

"Breeches" Bible Used at Heart's Content.

A unique feature at the ceremony of the consecration of Lodge Heart's Content, No. 1275, A.P. and A.M., S.C., on Wednesday last, was the use of a volume of the Sacred Law, 300 years old, known as the "Breeches" Bible, from the fact that the 7th verse of the 3rd Chapter of Genesis, in this edition reads as follows: "And they (Adam and Eve) sewed figleaves together and made themselves 'breeches.'" In the Authorized and Revised versions the word is "aprons."

Millions Now Living Will Never Die.

Our esteemed Trinity Correspondent has given us a holiday, which will be spent with friends in Nova Scotia, consequently those interested in his weekly budget will have to possess their souls in patience until his return, when we trust that he will come back like a giant refreshed after having enjoyed his vacation.

McMurdo's Store News.

FRIDAY, Sept. 23.
In this damp muggy weather, when coughs and colds are becoming common it is convenient to have in the pocket a box of Nyal's Huskies, a famous throat pastille. A few of these sucked at the first sign of a cold sometimes avail to stop it, and prevent it from becoming annoying, if not serious. Pleasant to take and do not affect digestion or appetite. Price 25 cents.
We have lately received from England, a full stock of Keplers Meat and Cod Liver Oil. Price \$1.35 a bottle.

Argyle arrived at Piacentia at noon yesterday.
Clyde left Lewisport at 7 a.m. Glencoe at Piacentia.
Home no report.
Kyle at Port aux Basques.
Melie no report.
Malkoff left Port Union Wednesday.

All Men Discharged.

NO ROAD CONTRACTS UNTIL PRIMER RETURNS.
No contracts for the completion of the Badger and Deer Lake roads will be awarded until the arrival of the Prime Minister, who will probably reach home about the end of next week. In the meantime, all work has been suspended on both roads, and only the storekeepers and other necessary officials are employed. Several tenders have been received for the completion of the Badger Road, of which there remain over seven miles to be made. Only one of these is satisfactory, but it is awaiting the Prime Minister's approval. Deputy Minister of Public Works Harris is at present at Deer Lake in connection with the contract for the building of the ten or twelve miles which will complete this road.

Operations Suspended.

Work Stopped on Annex to G. P. O.
Operations have been temporarily suspended on the new wing which is being added to the General Post Office. How long this cessation of work continues will depend on Mr. Bowring, the contractor. In 1920, the sum of \$50,000 was voted for the building of the new wing. A contract was made with Mr. Bowring, who undertook to do the work, exclusive of heating and lighting, for \$77,000. This year, however, owing to financial stringency, the Government could not vote the \$37,000 necessary for the completion of the work, and asked that after the first vote of \$50,000 is worked out, operations should be temporarily suspended. The contractor is still considering this matter. The total cost of the new wing, inclusive of heating and lighting, will be in the neighbourhood of \$115,000.

Fisherman Drowned.

The Deputy Minister of Justice received a message this morning from Magistrate O'Reilly of Piacentia conveying the intelligence that two young men Warren Lockyer, aged 21 and John Howlett, aged 19, were drowned at the "Virgins" yesterday morning by the upsetting of their dory, while they were fishing. Both men belonged to Woody Island.

Men's American Wool Underwear that sold last year for four dollars and sixty cents, a suit is only two dollars and fifty this week at BISHOP'S. This is a great bargain at a most appropriate time when men are changing to warmer clothing.

Tidewater Drowned.

The Collector of Customs received a message to-day stating that James Young, Tidewater, at St. Jacques, while boarding the schooner Ellen Lake was seized with a paralytic stroke, and falling out of his dory was drowned.

War Memorial in Turkey

A late English paper contains an item to the effect that Lieut. General Sir A. Hunter-Weston, who visited the Dardanelles for the National Battlefield Memorial Committee, has recommended that the national memorial should be placed on Guezli Baba, (called on Turkish maps Kurgi Baba), 500 yards northeast of the Helles lighthouse and the highest point on the northern end of the peninsula.

THE WEST END BAZAAR, sept23.11 51 Water St. West.

Stevedore Assaulted.

A man was charged before Judge Morris this morning with assaulting Mr. Bartlett, stevedore of Harvey's premises. The prisoner, who was drunk at the time, went to Mr. Bartlett on the arrival of the Rosalind and asked for work. As there were nearly 250 men looking for work and only 70 could be employed, Bartlett was unable to accede to the request. The defendant then threatened him with a knife and was later ordered off the premises by a police sergeant, but returned and again interfered with Bartlett. Through his counsel, M. P. Gibbs, K.C., Bartlett asked that the defendant be placed under bonds. He did not wish to prosecute the man as he had a wife and family dependent on him. The accused was bound over in \$100 to keep the peace.

Short of Water.

Yesterday the Furness Withy Co. received a wireless from S.S. Isanti stating that the ship was making port short of water. She is expected to arrive here during the evening. The Isanti belongs to the American Shipping Co. and was in here last year for repairs to her machinery.
Arrived by last steamer, a new shipment of Ladies' Coats in assorted Tweeds, from \$6.50 up. Also a few manufacturer's samples of Ladies' Coats, worth \$40.00. Sale Price \$14.00 to \$19.50. E. LEVITZ, 252 Water St., opp. Dicks & Co., sept23.11

Enumerator Take Notice.

Editor, the Telegram.
Dear Sir—If the person who yesterday rushed into print over the "nom de guerre" of Enumerator, is really a census enumerator, then he evidently lacks a very necessary qualification for that post, namely, a sense of humor. Unfortunately, "Enumerator" is rather hot headed, which is most unusual under present weather conditions. If he took the census item which appeared in Wednesday's Telegram and went into a freezing room of the Cold Storage Plant to read it, he might discover that he was one of those who "step in where angels fear to tread."

Two Kinds of Trading.

During the past four to six months, margin trading has been largely professional, that is by brokers, pool operators or syndicates, who simply "make" prices in a great many cases, but just now the tide is turning—the price trend is upward and the big buying is being done by investors—the general public.

Are YOU getting your share of the good dividend-paying stocks that are selling low? We are properly equipped to execute your marginal instructions.

Bail Allowed.

The man Hiscock who stands charged with making an entrance to the King Cafe, was yesterday allowed bail on his own personal bonds of \$1000 and two sureties of \$500 each. The enquiry into the case was continued before Judge Morris yesterday afternoon, and witnesses were examined by the Deputy Minister of Justice, representing the Crown, Mr. G. V. E. Ayle, who is acting for Hiscock, cross-examined. The enquiry will be continued to-morrow morning.

**I. S. Retain
Championship**

Star Defeated in Play-off Game.
The B.I.S. have gained top place in the League Football series, and the trophy for another year, will remain in their possession. The Star put up a blacky fight last evening, but were outclassed from the beginning, and were beaten by a score of 10 to 0. The ground was in a very slippery condition, and with the strong South wind which was blowing, conditions were not conducive to a good exhibition of football. Despite all this, however, some very fine play was seen during the first half, but although continually pressed their opponents, the Irish defence proved impenetrable and, occasionally, their forwards would break through in face of a defence which greatly hampered their progress. Combination, the key-note of success in football, was the forte of their play. Shortly before time, the B.I.S. got clean through in a mix-up in front of the Star goal, H. Phelan netted the ball for the only score of the half. In the second half the B.I.S. managed to prevent the Star from getting through, whilst they, on the other hand, contrived to penetrate their opponent's defence, after ten minutes play, H. Phelan scoring a pass by Callahan. When the whistle went the score remained in the favour of the Irish. The B.I.S. have well deserved the championship for their consistently good, clean play throughout the season, and Capt. Phelan and his merry mes deserve every congratulation. The longest and most successful season in the history of the Football League has now come to an end, but whilst it is good, indeed, to see such interest rekindled in the old game, it would be well to have some arrangements whereby all the games will be made interesting and a weak team will not have to play to be walked over by a stronger team. The only way to avoid monotony in games such as these, is to divide the League into two divisions, comprising the stronger teams and the weaker teams respectively. By this means, the weaker teams will receive some encouragement, all the games will become more interesting, and a greater number of players will be given an opportunity to try out in some football. The least that the Football League could do would be to discuss the matter at a meeting especially called for the purpose. In the meantime, to all the League of Irish and to Mr. Ern Churchill, the official Referee, who carried out his duties in a most satisfactory manner, the Telegram extends its congratulations, and no matter under whatever system the games will be played under next year, it is to be hoped that the season will not be any less successful than this one has been.

Suspects Discharged.

ROBBERY STILL UNSOLVED.
The young lads, Smith and Maher, who had been on remand several days, charged with the robbery of a box from the Treasury Dept. of the Old N.B. Co., yesterday afternoon appeared before Judge Morris and were discharged. There was insufficient evidence to convict the accused who seem to have been victims of circumstance. The two boys had met on the South Side Hills during the morning of the safe robbery, and on making their way towards the Bank Bridge, they discovered the large box near St. Mary's Church. They examined the contents, and then took two of the company's receipt books, whilst Maher took a box which was in the box. Later in the morning, they volunteered the information which led to the finding of the safe. The description of the boys, as given by Watchman Harvey, did not coincide with that of the accused.

Sebastopol From Labrador.

S.S. Sebastopol, Capt. W. H. Bartlett, arrived in port at 5.30 p.m. yesterday from Labrador. The ship met the weather on the round trip and made all ports of call, one of these being St. John's, where supplies for the recent fire there, the church, school house and stores were completely destroyed, but the residents were not short of food, and have sufficient to tide them over the winter. An inquiry into the cause of the fire has been held, but its origin is unknown. It is understood the property was partly covered by insurance with the English firms. The Sebastopol returned from a few places, and are still being caught. The weather for making has not been very favorable and a number of schooners are being sent for their cargoes to be made up.

SCHOLARSHIP 1922 (Continued)

Bertram Butts—Math. Sup. Musgrave Harbor; \$10.00. Outport Scholarships: \$2.00, \$4.00 and \$5.00.

**Where to Buy With Economy
The Royal Stores is the Recognized Economy Centre**

- Eversnap Cuff Links**
The kind you will eventually buy. Try a pair of these and see how easy they make your cuff link work. Special, per pair 23c.

The ROYAL STORES, Ltd.

Taking Deck Passages

OPEN AIR SALOON ON HOME
The s.s. Home arrived from the Straits of Belle Isle early Monday morning, says the Western Star of Wednesday, 21st inst. She reports her trip very pleasant at Herby's and Fleasure's, but none at Bradors or vicinity. The fishermen have most of their cod cured and sold and many of them have left for their homes. Whitley has shipped one cargo of cod from Bonne Esperance and has another to go forward. On the Newfoundland side there was a sign of herring at Cow Head and Parson's Pond, when the Home was coming south but the fish were well off shore. The Home was crowded with passengers, there being from two to three in every berth and about fifty on deck. The ship sails north again after the arrival of to-day's express trains.

New Currants

We are indebted to a friend for information relating to the 1921 currant crop in Greece, and importers will do well to note the contents of this item. The new crop was originally estimated to yield about 115 to 200,000 tons, but in consequence of intense heat was damaged by rot, and this same heat caused the berries to fall from their stalks, and prevented them from obtaining the maximum amount of juice, thus diminishing the crop to the extent of 15 per cent. Additionally the Greek Government has fixed the fraction of the export tax to be retained in Retention Bills, at 18 per cent, as against 8 per cent. last season. These factors have reduced the new offerings to such an extent that the quantity available for export will be just sufficient to cover the world's consumption for the coming season 1921-22.

To Attend Ceremony.

Fortune Will Unveil War Memorial Sunday.
On Sunday next, the Fortune War Memorial will be unveiled, and Capt. Whitley, Dominion Secretary of the G.W.V.A., accompanied by a bugler, left by this morning's train to attend the ceremony. His Excellency the Governor had originally intended to attend in person and perform the unveiling ceremony, but unfortunately this welcome visit could not materialize. He, however, has kindly forwarded a message of greeting to the citizens of Fortune pointing out that the duties of the Governor at the present moment combined with the difficulty of effecting rapid transportation make it necessary to forego this pleasure. His message, we understand, is a very timely one as well as a tribute to the people of Fortune who have subscribed so generously to the erection of their splendid memorial. The Fortune Branch of the G.W.V.A. have reason to be congratulated upon their achievement in erecting such an excellent monument as that which will be unveiled on Sunday.

Mr. Ayre Replies.

Editor Evening Telegram.
Dear Sir—Two wrongs do not make a right. Ever since my acquaintance with Mr. Whitley, which began with the Unemployed Workers' Demonstration, I recognized his outstanding ability as a leader. That was shown in the mastery way he marshalled his men, kept them together, so eloquently addressed them and the House of Assembly. Now he looms forth in a new character, as a historian, and despite the fact that, in my opinion, he is all wrong, he would almost convince anyone that he is right. He instances many occasions when the pink, white and green colours were used and quotes poetry to uphold his contention, but all these instances do not, in any way prove the fact for which he is contending, namely, that pink, white and green are the colours of Newfoundland.

There were many poets, writers and speakers who, in days gone by, eloquently maintained that the world was flat. We now know that it is not. There were many, even clergymen, who contended that slavery was right. We now believe they were wrong. So with the pink, white and green. Many contend they are the colours of Newfoundland. Are they right? What authority have they for such an assertion. When John Cabot, on the 24th of June, 1497, discovered Newfoundland, he certainly did not have the pink, white and green flag. That flag must have had a beginning. Possibly Mr. Whitley could give us the date and the circumstances of its origin. Has this flag ever been accepted by the people as a whole? Do the people of the north recognize it as their flag? If not, who does? Having waded our curiosity, I hope my friend, Mr. Whitley, will not lay down the pen he uses so fluently. He must be acquainted with the facts. Let him tell us them.

As regards Bell running under the pink, white and green colours, it is only natural that Bell will take his instructions from where he takes his money, namely The National Sports Committee. Yours sincerely,
GEO. W. E. AYRE

Record Single Fish.

Captain Irving King of the schooner "Higo," according to an item in the New York Fishing Gazette, recently landed a swordfish on the Boston fish pier which weighed 915 pounds when dressed. It is estimated that the monster, which was harpooned on George's Bank, weighed 1100 pounds when caught. Its sword measured over five feet in length, and it required a nine hour battle to kill the giant.

A big sturgeon weighing 1261 pounds and measuring eleven feet, nine inches from snout to tail, was recently caught in a drift net on the Pitt River, British Columbia.

A horse mackerel tipping the scales at 800 pounds was taken by Capt. Mike Gully of Provincetown, Mass., after a three hour fight.

Baird's Liniment for Burns, Etc.

Robberies Continue.

SEVERAL HOUSES ENTERED.

The epidemic of burglaries still continues throughout the city, and several houses were entered during the past week. On Monday night a quantity of silverware was taken from a house near Cochrans Street. Several pipes and a quantity of tobacco were also taken from the same house. The thief, in this case, gained an entrance through a back window. On the same night, a house on Gower Street was entered and the larder raided, and everything in it, including a leg of veal, was either demolished or taken away. This house was entered by means of the door leading into the basement kitchen. A sneak thief recently entered the garden of an insurance agent on the Waterford Bridge Road and got away with all

B. I. S. Entertained.

After last evening's football game, the B.I.S., the 1921 Champions, were entertained by their friends and supporters in their Club Rooms, Mr. W. J. Higgins, E.C., M.H.A., presiding over the festive gathering. Several toasts were honored and a thoroughly enjoyable time was spent by all. The B.I.S. will celebrate their victory with a dinner next month.

Crope shawls and scarfs are heavily fringed and embroidered.

A Slight Blaze.

The Central and West End fire companies were called out at 8.20 p.m. yesterday in response to an alarm from New Gower Street. They found a slight blaze in the butcher's store of M. Blackler, caused by some coal dropping from a stove on to the floor of the shop. With the aid of chemicals the blaze was subdued and very little damage was done.

Y.M.L.C. Wesley Church

The first meeting for the 1921 season of the Young Men's Literary Class of Wesley Church was held last evening, a large number of members being present, and a most enjoyable evening spent. During the evening a very pleasing presentation was made, when Mr. Ray Gushko, a popular member of the Class, was presented with an address and a small purse of gold. The Rev. W. B. Duggan making the presentation on behalf of the class. Ray, who has just closed a very successful year at the Methodist College, will leave within a few days for Canada, where he will enter Dalhousie University to begin studying Law, and his many friends bespeak for him a successful future.—A.E.P.

MINARD'S LINIMENT. LUNBEERMAN'S FRIEND.

Letter From Truro.

The following is an extract from a letter written to Mr. P. J. Grace by Mr. A. H. Thomas, manager of our Halifax team.

"We are having excellent weather, like June or July at home, and the evenings are quite warm. We were down in Halifax yesterday for the first time and Mr. Frank Rice was an ideal host. After lunching with him he took us in his car over the route of the Road Race, and also told us that the car was at our disposal any time we go down to Halifax. Mr. Rice also took us over to the Wanderers' Grounds, and although the track was open to Club members only during the afternoon, Rice interviewed Mr. Strudd, who was in charge and received permission to allow Bell to use the track. We were introduced to Strudd and he felt happy in giving us and said he would do everything possible for us and gave us permission to use the grounds and showers whenever we go desired. Bell did one and three quarter miles, laid down 95 paces to the minute, and finished in 9.16 which was great going for his second spin. Rice declares Bell looks much better than he did last year and his action is free and more natural. In fact one of the Wanderers declares "he runs as fast as a moose." After going over the Marathon course I must confess there is nothing in it that is difficult for Bell. On the contrary it should be in his favor, as should be having strong competitors up to the seventh mile this is where he will bid them adieu as a lengthy climb is here to be made, something similar to the King's Bridge Road only several degrees steeper. This is where Jack will show his worth should he be still in the hunt. They tell me here that this part of the course is where nearly all the contestants fall down, either by dropping out or taking it in a walk. I feel that should everything be going well up to this distance that Bell will mount above grade like a bird. In view of the data set down for the Road Race being practically three weeks to go, I have decided to request the National Sports Committee to let me enter Bell in the 5 mile race here at the Wanderers Sports on next Saturday and I hope to get permission wired back promptly. I am sure Jack can turn this trick quite easily. Talking about the team: I think Skirving is our best bet as he can do the mile in 4.50, which is sufficient for him to win. We met Grant Holmes who won the A.A.A. mile in the Province Sports at St. John and he is very much impressed by Skirving. The race will I think be virtually between them. Butler and Phelan will not have a snap as there's a flock of short distance artists here repected for speed, but they have a fighting chance of breaking through."

Truro, Sept. 18th, 1921.

Rally Sunday at the Kirk

Next Sunday will be known as Rally Sunday at the Kirk and special services will be held. The morning service begins at the usual hour, and the Pastor will have an interesting sermon to deliver. In the evening a special service to young people "Youth's Present Perils" will be given. Rally Sunday anticipates 100 per cent. attendance at both services at every member in the choir, every officer, teacher, scholar in the Sunday Schools. A message from the Pastor to his congregation in reference to next Sunday is as follows:

Dear Friends, I wish to greet you all after a wonderfully refreshing vacation. I am thankful for the opportunity the rest has given me of quietly viewing our task from a distance. I am deeply convinced and enthusiastic regarding the future of our church. The church is the custodian of the Gospel of Jesus Christ, and thoughtful men everywhere are coming to see that in the Gospel is to be found the solution of all our vexing problems. I will do my utmost to see that our beloved church shall make an adequate contribution to the development of the higher life of the individual, the city and the world. In return I ask for a continuance of your interest and support. The theme for "Rally Sunday" is **Loyalty**. As your minister you will give me that—Loyalty, Loyalty to myself, Loyalty to our services, Loyalty to our organizations, Loyalty to Jesus Christ. We want this season to be a fruitful one. Next Sunday is "Rally Sunday." We are anxious that it be a real rallying day, and so we ask you to make a special effort to be present, yourself, your family, your friends. Please co-operate with us in this and in every other effort that shall be made to make our church a power in this community. One other thing Paul said to one of his congregations: "Brethren, pray for me." I ask the same. Your Minister.

ROBERT J. POWER.

It is expected that the Minister's appeal will have the desired effect, and that the services will see record attendances.

Halifax Races

To-Morrow.

The Wanderers' sports will be run off at Halifax to-morrow and the A.A.A. champions will compete. Tom Butler and Fred Phelan will represent Newfoundland in the short distance events, while great things are expected of Harvey Skirving in the mile. Jack Bell will also compete in the 5 mile race, and his friends feel confident he will be successful. Reports of the meet will be awaited with great interest to-morrow night, as Manager Goodland has been asked by the National Sports Committee to wire promptly the positions obtained by our athletes with various events.

WORKOUT AT WANDERERS.

The St. John's Newfoundland runners who are in Halifax to compete in Saturday's sports, worked out at the Wanderers yesterday. Skirving and Phelan are two fast men, and it is predicted that the runner who defeats Fred Phelan will have to step the century better than ten and three. Bell, the marathoner, who competed in the Herald race last year, took matters easy yesterday, but he has the goods and should be a winner Saturday. Halifax Herald, Sept. 17.

NEWFOUNDLAND RUNNERS ARE IN HALIFAX.

John Bell, Harvey Skirving, Fred Phelan and Tom Butler, St. John's Newfoundland runners, accompanied by Ernest Goodland and A. H. Thomas, managers, arrived in Halifax Saturday night and are located at the Y.M.C.A. All four runners will start in the Wanderers' sports Saturday next and Bell will remain in Halifax for the Herald marathon race next month. He has been training at Truro the past few days and should enter the Wanderers five-mile run in perfect condition. Phelan and Butler will compete in the sprint event and Skirving will compete in the one-mile race. The Newfoundlanders are a husky lot and should be able to stand the gruelling events. Skirving is a former Montrealer and is employed with the Royal Bank of Canada at St. John's. He is credited with miles under 4.50. Bell and Skirving worked out at the Wanderers Saturday and looked good to the large number of spectators who had assembled to watch the football practice. Halifax Herald, Sept. 17.

Relief Required.

NEW YORK WILL HAVE HALF A MILLION UNEMPLOYED.

NEW YORK—Half a million men will be idle in New York this winter, in the opinion of reliable investigators and the city has set machinery in motion to meet the situation.

In addition to relief measures planned by a special city committee named by Mayor Hylan, 53 charity organizations have decided to pool their resources and establish a general clearing house in order to avoid duplication of effort and handle the problem efficiently.

The Merchants Association of New York and the Brooklyn Chamber of Commerce have joined hands with the Central Trades and Labor Council and the Building Trade Council to formulate a practical programme. These organizations believe the situation can be met partly by pushing building projects, thus giving employment to thousands.

The problem of the ex-service men is at the heart of the current situation, said Major William P. Deegan, of the American Legion, one of the members of the Mayor's committee. He said 75,000 former soldiers were out of work during the summer and he fears the number will be increased to between 100,000 and 125,000 by mid-winter.

"We have no funds to help them," he said, "but we never lets man go away without help, even if it has to dig in our own pockets to help them."

Down on the crowded East side, the Bowers' leading houses are already filled to capacity every night. Men out of work are sleeping everywhere in the open, in every park, on every pier, in alleys, in storeyards and any place they can huddle out of the way and rest." said Major Underwood of the Salvation Army. "They cannot do so when it becomes cold."

Five Dollar Boots FOR WOMEN.

When we say FIVE DOLLAR BOOTS for women it brings one's thoughts back to 1914 days and prices. We are doing our level best to get back to 1914 prices for Boots and Shoes, hence this unusual offering of

The Cuckoo Bee.

People talk of the "bumble" or "bumble bee" as though there was but one sort. There are, of course, many kinds of bumble bee. One of those has a cuckoo, a most curious insect. The latter in appearance, precisely resembles a bee, but there the likeness ends. While the bumble bee is busy making cells, procuring food for

the grub, the false or cuckoo bee merely mimics its industry, and the time the latter is waiting for the moment when the true bee shall lay her egg, when she at the same time, and in the same cell, also lays her own. Both eggs hatch together, and both the pupae on the food laboriously collected by the true bee.

Talking of the cuckoo bee brings to mind the curious creature commonly

called the "cuckoo-spit." This creature is the larva of a small cricket, and its curious life is made out of sap sucked from the plant on which it lives, and which it blows with its call. One of these insects out of its hole at home, and you may watch for yourself the curious process by which at once proceeds to form a new cell. Baird's Liniment For Croup, etc.

Pink, White and Green.

Editor Evening Telegram.
Dear Sir.—With your permission I would like to reply to my learned friend, and gentlemanly opponent, Mr. G. W. B. Ayre, B.A., President of the Newfoundland A.A.A. I wish to thank him for his complimentary remarks to myself. But, Sir, I want to come to the point of my contention regarding the colours of Newfoundland, and its make-up of pink, white and green. In my last letter, I stated some cold facts to prove that our men should wear these colours and now, Sir, I am going to give some more which can be proven. When His Gracious Majesty King George V. and Her Gracious Majesty Queen Mary visited our Island home as Duke and Duchess of Cornwall and York, the children from all the schools sang "The Flag of Newfoundland" and waved the Pink, White and Green in the Prince of Wales Park in 1907. If you will make inquiries you will find that on another occasion a gallant son of Newfoundland, who was born at Brigus, was given a dinner in his honor at New York by some ladies and gentlemen of the land of their birth—Newfoundland—and he was presented with a silk flag by the daughter of a Newfoundlander. The colour of the flag was pink, white and green. This took place previous to the sailing of the S.S. Roosevelt with Admiral Peary and he was asked to plant it in the Far North.
And still more. If you remember the home-coming of the great U.S. Admiral Dewey, there was in that parade another Newfoundlander. His name was Mr. McGinn, brother of Mr. Patrick McGinn of the East End Fire Station, this city. He too, was presented with a silk handkerchief of pink, white and green by the Newfoundlanders of New York, as a token of their esteem for him as a Newfoundlander. Now, Sir, when the Old Home Weekers made their visit to the land of their birth in 1904, they, too, wore the colours of Newfoundland, Pink, White and Green. Mr. Ayre says that black and white is typical of our race and I say it is not, and it is illogical of him to contend that it is. When I am speaking of Newfoundland I do not mention either Orange or Irish. It is not that, it is Newfoundland Colours. I shall now treat you to a Poem that was written by the late lamented M. A. Devine, and on the cover of the Cabot Number you will find it.

OUR FLAG.

In ancient days, so hoary legends run,
The spirit of the Mighty Deep arose
And gazed upon our island in repose,
'Neath the first kisses of the morning sun.
Here shall in after years brave deeds be done,
When men shall have the billows for their foes,
And go to battle with the icy seas,
And here 'ere yet their history has begun,
I'll weave their banner from the morning scene,
The pink foreground by the sunlight made
Shall join the background of the hill-side green.
Then pure snow shall be the center shade
And thus he spoke and vanished from the scene—
Long wave our banner of Pink, White and Green.

And if those Newfoundlanders who reside in foreign lands thought so much of their Native colours, then surely we, of our Island Home, should also think the same and see to it that when going to compete in Halifax or anywhere else it is not black and white to wear, but for Newfoundlanders the pink, white and green. As a native of the country my colors are pink, white and green, no matter what others say or think, I shall always uphold it. I shall now close my discussion on this subject and leave it to the general public to judge between black and white or pink, white and green. Hoping that my fellowcountryman will return victorious, and that our champion runner, Jack Bell will honour his native country by wearing Pink, White and Green. I now leave the subject to some able pen than mine. Thanking you for so much space, I remain, Mr. Editor,
Yours truly,
E. J. WHITTY.

Sept. 22, 1921.

What is a Spudget?

Many curious words are in common use in this country, particularly in the outports. In Bonaville Bay especially the word "spudget" is used, and many are inclined to think it is of local origin. In Cartwright's Diary, published in 3 volumes, about the year 1790, and now very rare, the word occurs frequently, and is used to indicate the long handled scoop used in hauling out a boat. "Tailing a trap" is an expression much in local parlance. This expression is also used many times by Cartwright in his Diary, and probably originated amongst the men from the West of England, or Ireland, who in those far off days came out to fish or hunt on Labrador. The word means to set or bait a trap.

...edotes of Henry Ward Beecher
Beecher's Retort.
Beecher once received the following letter:
Dear Sir,—I journeyed over from New York hotel yesterday morning to hear you preach, expecting of course to hear an exposition of the life of Jesus Christ. Instead, I heard a political harangue, with no more cohesion in it, than made of yourself.
"That's to the point," commented Beecher with a smile; and then, turning himself at his desk, he turned the sheet over and wrote:
Dear Sir,—I am sorry you

...d have taken so long a journey to hear Christ preached, and then heard that you are polite enough to call a political harangue. I am sorry, too; that you think I made an ass of myself. In this connection I have but one consolation: that you didn't make an ass of yourself. The Lord did that.
A Temperance Story.
Beecher was attacked for preaching temperance and drinking beer at his own table. He did not mind, but his friends urged him to answer the charge. He refused. "Friend," said a good fellow, "he said."
"But he ought to be broadened," persisted the friends.
"Well, now," said Mr. Beecher, "that isn't always possible. For instance," he continued, "as that intemperate merry twinkle came into his eyes, "some time ago Friend—criticized me for something I had said. I thought he ought not to have done so. He persisted, and I felt the only way to treat him was as I would an unruly child. So I just took hold of him, laid him face down over my knee, and proceeded to impress him as our fathers used to do of old. And do you know, I found that the Lord had not made a place on him for me to lay my hand upon." And in the laughter, which met this rally, Mr. Beecher ended with, "You see, it isn't always possible to broaden a man."
There is going to be a big sale of Cotton and Wool Blankets this week at BISHOP'S. Keep your eye on their Dry Goods Department windows for quality and prices.

Two Children Awarded the Albert Medal.

Two children, a boy only eight years old, named Anthony Farve, and a girl eleven, named Doreen Ashburnham, left their homes at Cowichan Lake, Vancouver, on September 23, 1916, for the purpose of catching their ponies, when about half a mile from home they were attacked by a cougar, which they had approached before they saw it crouching in a path at a corner. It first attacked the little girl, springing upon her and knocking her face to the ground. The animal was on her back, but the boy at once attacked the cougar with his fists and riding bridle, and succeeded in driving him off. It then attacked him, and his companion, getting to her feet, came to his rescue, fighting with her clenched hands and bridle, and even putting her arm in front of the cougar's mouth to prevent it from biting Anthony. She

succeeded in getting it off the boy, and it stood on its hind legs and fought again with her, but evidently it was disturbed by some sound, for presently it slunk away and ran under a log, where it was afterwards killed. Both the children were badly injured but were able to make their way home. The cougar measured over seven feet from nose to tip of tail. (The cougar is the Brazilian name for the puma, one of the largest and fiercest members of the great cat family). The two children were awarded the Albert Medal.

Proceeding to England.

Capt. Neil Nielsen late master of the ill-fated S.S. Lady of Gaspe was a passenger by the Digby from Halifax en route to Liverpool. Capt. Nielsen had his certificate suspended for 12 months, over the stranding of the Gaspe and it is reported he is proceeding to England to lay his case before the British Board of Trade from whom he holds his ticket.

Emigrants Must Each Have \$250.

Ottawa, Sept. 20.—Regulations governing the admission to Canada of immigrants, and published in this week's Canada Gazette, provide that each immigrant over the age of 18 years, must have at least \$250 in his possession, in addition to a sum sufficient to cover land transportation charges. In the case of immigrants under the age of 18 years, the sum of \$125 is required, while parents must possess \$50 for each child under the age of five years.

These regulations are waived in favor of farm laborers, and domestic servants and in favor of persons travelling to join their families. The entry into Canada is prohibited of persons not in possession of a valid passport issued by the governments of their respective countries. These passports must be presented within one year of their issue, and, if

not British passports, must be issued by British diplomatic or consular officers. This regulation is not intended to apply to British subjects coming to Canada either directly or indirectly from the United Kingdom, the United States or any of the self-governing Dominions, or to citizens of the United States or to persons who have been resident in the United States for at least one year.

Steamer Connection.

Passengers leaving by to-morrow morning's train will connect with S.S. Glencoe at Placentia, for the West Coast route. The ship is undergoing some repairs which has caused more delay than was anticipated.

Sir Walter Scott's favourite walking-stick has been presented by Lord Knutsford to the Scottish Museum of Antiquaries, Edinburgh. It bears an inscribed silver plate with the inscription: "Sir Walter Scott, Abbotsford." Round it is still tied a faded silk cord and tassels.

Rise and Progress of the Sennusi.

Threatened by western pressure, the Moslem world has been fashioning new weapons for its defence.

The most remarkable of these are the new type religious fraternities, best exemplified by the Sennusiyah. The story of the Sennusiyah is one of the most picturesque in modern annals. Its rise and progress well illustrate the great vitality of Pan-Islamism.

With nearly eighty years of successful activity behind it, the Sennusiyah order is today one of the vital factors in Islam. It counts its adherents in every quarter of the Moslem world. In Arabia its followers are very numerous, and it profoundly influences the spiritual life of the holy cities, Mecca and Medina.

North Africa, however, still remains the focus of Sennusism. The whole of Northern Africa, from Morocco to Somaliland, is dotted with its Zawias or lodges, all absolutely dependent upon the grand lodge, headed by the master, El Sennusi.

The Sennusi stronghold of Jowf lies in the very heart of the Libyan Sahara. Only one European eye has ever seen this mysterious spot. Surrounded by absolute desert, with wells many leagues apart and the routes of approach known only to experienced Sennusi guides, every one of whom suffer a thousand deaths rather than betray him, El Sennusi, the master, sits solemnly apart, sending his orders throughout North Africa.

Always listened to and obeyed. The influence exerted by the Sennusiyah is profound. The local Zawias are more than mere "lodges." Besides the Mokaddem, or master, there is also a "Wakil," or civil governor, and these officers have discretionary authority not merely over the Zawia members, but also over the community at large—at least, so great is the awe inspired by the Sennusiyah throughout North Africa that a word from Wakil or Mokaddem is always listened to and obeyed. Thus, besides the various European colonial authorities, British, French or Italian, as the case may be, there exists an occult government with which the colonies authorities are careful not to come into conflict.

On their part the Sennusiyah are equally careful to avoid a downright breach with the European powers. Their long-headed cautious policy is truly astonishing. For more than half a century the order has been a great force, yet it has never risked the supreme adventure. In many of the fanatic risings which have occurred in various parts of Africa, local Sennusiyah have undoubtedly taken part, and the same was true during the Italian campaign in Tripoli and in the late war, but the order itself has never officially entered the lists.

In fact, this attitude of mingled cautious reserve and haughty aloofness is maintained not only toward Christians, but also toward the other powers that be in Islam. The Sennusiyah has always kept its absolute freedom of action. Its relations with the Turks have never been cordial.

An Elaborate Programme.
The Sennusiyah programme is the welding, first of Moslem Africa, and later of the whole Moslem world, into the revived "Imamat" of Islam's early days,—into a great theocracy, embracing all true believers—in other words, Pan-Islamism. But the Sennusi believe that the political liberation of Islam from Christian domination must be preceded by a profound spiritual regeneration. Toward this end they strive ceaselessly to improve the manners and morals of the population under their influence while they also strive to improve material conditions by encouraging the better cultivation of oases, digging new wells, building rest houses along the caravan routes, and promoting trade.

More fighting for fighting's sake is no part of their programme. The slaughter and rapine practised by the Soudanese Mahdists disgusted the Sennusiyah and drew from their chief words of scathing condemnation.

Meanwhile they are covering North Africa with their lodges and schools, disciplining the people to the voice of their Mokaddem and Wakil; and, to the southward, converting millions of pagan negroes to the faith of Islam.—Family Herald.

Big Fish Shipments.

S.S. Digby, when she left for Liverpool on Wednesday, took nearly 4,000 casks of fish, most of which was for the Italian market, but some will be consumed in England where our Labrador fish is now in demand. The Digby was unable to take all the fish offering. The Rosalind will also take a big fish cargo for transshipment to the Italian market. It is reported that within the next few days a Princess Wilby steamer will load fish for the Mediterranean, direct.

A man called upon Dr. Oliver Wendell Holmes and said: "I see that fish is good for the brain. How much would you advise me to take daily?" The doctor looked at him with a critical eye and remarked: "Well, in your case I think one whole on least every morning would suffice."

Milley's.

SWEET, PURE MILK—always on hand when you want it!

If you have never used Libby's Evaporated Milk, you will be amazed to find how good, how convenient and economical it is. Many women who first tried it in some emergency now use it always—they find it gives such satisfactory results.

There's no waiting for the milkman—you can always keep several cans on the shelf and in summer there's no bothering with ice, and in winter the milk wagon can get stuck in a heavy drift of snow as often as it wants to!

And there's less waste—a can of Libby's Evaporated Milk will keep indefinitely before being opened—and after you have opened a can you can use just what you need; the rest, put in a cool place, will keep several days.

Libby's Milk comes from the finest dairying section of America and is processed in our own sanitary condensaries—it is not the "distributed" product of an unknown and nameless plant.

Order a tin from your grocer to-day.

Libby, McNeill & Libby

SAYS HER RECOVERY IS ALMOST LIKE A MIRACLE

From Helpless Invalid to Complete Restoration of Health, Strength and Happiness is Wonderful Change Mrs. Root Experienced in Three Weeks—Statement One of Most Remarkable On Record.

Just a week before I started taking Tanlac I was down in bed so completely that I could not move without help. My son had been good, so one day he brought me a bottle and said, "Mother, I want you to take this. When I had washed that bottle, I felt like a different woman, and the day after I had washed my second bottle, I was out in the garden hoeing." Tanlac has simply done wonders for me. It almost seems like a miracle. This is the remarkable statement made recently by Mrs. Jennie Root, residing at 1408, Powers Street, Portland, Oregon, and is only one of thousands from well-known men and women who are daily testifying to the powers of Tanlac. Continuing her wonderful statement, Mrs. Root said: "For years I suffered terribly with rheumatism, and would often be down in bed for days at a time. At the last time I was not a time that I didn't feel those rheumatic pains all through my body. About two months ago I felt very much worse and my arms and legs were so bad I was almost helpless and couldn't even hold a pen to sign my name. I was so weak I could not do any housework. I couldn't even sleep, and had no rest day or night. Even to walk a few steps would tire me out completely. When I tried to walk I would stagger and when I did walk a little way and get down I could not get up without some one helping me. I had no appetite and hardly any sleep. I kept on like this until I had been in bed for a month. I was treated by four doctors, and took all kinds of medicine.

MRS. JENNIE ROOT.

Nothing ever did me any good. I am just like a different person now. All those terrible aches and pains have left me, and only the other day I was able to walk up four flights of stairs in an office building when the elevator was out of order. "My appetite is just splendid now, and just to-day for the first time in years, I felt so hungry that I had to go and eat a piece of pie between meals. In fact, I can't remember the time that I have felt as well as I do now. I have not only regained my health and strength, but I have gained fourteen pounds in weight. To tell you the truth, I wouldn't exchange the benefit I have received from Tanlac for the best ranch in Oregon, and I will praise it as long as I live." Tanlac is sold by leading druggists everywhere.

C. L. B. Cadets.

The Battalion was going strong that night with the Colonel in charge of the main floor, The Brass Band under Capt. Morris was playing extra choice selections for the physical drill and musical. The following officers were present:—Lieuts. Ash, Hunt, Moty, Harold Hayward, Reeves, Major Williams, Lt. A. B. Perlin, (Acting Adjutant). Lieut. P. B. Rendell is on leave until October 6th, and the following staff transferred to the Bugle Band under Lieut. Bandmaster, Serjt. Hennebury, who has volunteered to make his new Bugle Band music "better than the best." Privates H. Wiseman, G. Keats, W. Williams, W. Farmer, H. Oakley, W. Whitten, Lance Corporal Barst.

The Quartermaster has had a report that the Brigade Armoury building needs two thousand dollars' repairs, painting, glass, wire screens and chimneys for heating. Arrangements have been made to start repairs promptly when the winter weather comes along. The finance committee are working out plans to try and raise the money badly needed to keep the premises in repair. They are prepared to have a series of concerts, dances, etc., on Brigade Anniversary week in November and make an urgent need an objective to try and raise the cash. The Brigade has passed around the hat since the war and does not want to unless as a resource, but voluntary contributions towards the maintenance of the Armoury would be welcomed. Paymaster Lewis, Captain O'Leary and Sergeant Goodridge have the matter in hand and Major Williams has started with the work that is absolutely necessary.

The Battalion school re-opens next Tuesday with Lieut. R. G. Ash as Brigade Schoolmaster in command. All pupils will please apply for enrollment. Serjt. Major Rendell, in charge of the swimming class reports that he has forty paying members to date and an aggregation will be known in the future as "Rendell's Bathing Recruits." They will have a bathing party on Friday, Wednesday and Thursday nights in the King George Institute, from 9.30 o'clock. Serjt. Major hopes to give an exhibition of water polo, etc., in a short time. The Brigade will have a social on Sunday morning the 27th inst. at the Old Comrades will parade at 10 o'clock sharp for Divine Service at St. John's Church. The Old Comrades will be under command of their newly elected Commanding Officer, President C. G. G. and we expect to see the boys' gather in great numbers. "Old Guides" will be on duty next Sunday as the Corps has not sufficient drill lately, since the

Society of United Fishermen.

Some of its Principles and Practices—Flag Will Soon be Flying Over Dominion of Canada.

ARTICLE II.

(Special Correspondence Sydney Post)

St. John's, Nfld., Sept. 23.—The Society of United Fishermen, as at present constituted, had its origin in the Cable Town of Heart's Content, Trinity Bay, and grew out of a smaller organization known as the Fishermen's Benefit Club, the which, however, did not appear to meet with the desires of the promoters, nor yet respond to their ambitions for a wider local scope. Hence in the year 1873, Rev. George Gardner, a Church of England clergyman, and one of the principal members of the club, drew up a form of Constitution followed by an initial Ritual, and submitted both to those clerical and lay associates of his who were willing to form a greater fraternal structure along the lines of a Secret Society, in which every man, before being admitted to its fellowship, had to take an obligation promising to respect its principles and pledge himself to the virtues of and duties of Religion, Loyalty and Benevolence. Subsequently an enlargement was made to the original Ritual, and three degrees were elaborated, Red, White and Blue each with its distinct form of ceremonial and obligation, those of the White and Blue degrees, whilst amplifying the Red, not however interfering with or eliminating any of the basic principles of its character, but rather, as it were, becoming the stepping stones by which the brother of the first degree—the neophyte—gradually came to the full light and knowledge of a Master of his craft.

We are giving away no secrets in furnishing this information, as will be readily recognized by every "fisherman" who has travelled via the Triangle.

Why the Triangle?

As every Secret Association has its own distinctive, recognizable and symbolic emblem, so that of the Society of United Fishermen is the Triangle. Any student of geography or any other student, for that matter, will at first glance at a map of British North America, immediately note that in shape Newfoundland roughly resembles an irregular triangle. Its three chief points being Cape Baid, Cape Ray and Cape Race, each of these three being almost equidistant from the other. Hence an equilateral triangle was adopted as the main outward symbol of the Order, but in order to relieve it of its bareness and nakedness, a minor symbol was necessary as an adjunct. This was created by the adoption of the Cross of the Knights of Malta—the Maltese Cross, formed by the junction of four arrow heads meeting at their sharp points, the eight points of the cross being symbolised by the eight beatitudes, which all Fishermen are taught in their progression through the various degrees to learn and observe. (And might it be said here that these eight makes the only number not divisible by three in the internal working of the Order). Now having found the main outward symbol, it was necessary to arrange an appropriate motto, of not less than three words, typifying certain principles for which the order stood. These were found in the triad, LOVE, PURITY, FIDELITY, as has been explained in a former article. Thus the Triangle, enclosing the Maltese Cross, and with both sides and base containing the three emblematical words, naming the three principal degrees, found acceptance as the outward and visible emblem of the Society of United Fishermen. The Color scheme of the Order is National, and true to the principle of heraldry. On a Red background a Blue Triangle enclosing a White Maltese Cross. One might give this definition in the quaint and archaic language of Heraldry itself, but to do so would be perhaps to bring upon the prescribers of the Herald's College which had no part whatever in the making of the design described above.

Neat Tea Aprons

Very pretty and low priced is this little Tea Apron of White Lawn, trimmed with wide hem, stitched pointed tucks and showing a deep hem all around; waistband extends into ties at back.

The Horseless Carriage.

(A Weekly Column devoted to the interests of the Motoring Public.)

On several occasions since this column has appeared we have taken the opportunity of congratulating the Police Department on the tact with which they have handled several matters to do with motoring. This week, however, we are going to criticize them on a certain matter. About four weeks ago a full account was given in the Telegram of how a motor car crashed into the pony delivery of Mr. W. J. Whelan, Grocer, Colonial Street. The carriage at the time contained Mr. Whelan's two young boys and the whole outfit was very nearly being sent to Kingsdown. The driver of the motor, instead of stopping to find out what damage he had done, called out "What the H— are you in the way for?" and carried on. Now, Mr. Whelan did not get the number of the car, but he is sure of one thing and that is that the car had yellow spokes. There are not so many cars in the city with yellow spokes that the Police department couldn't locate the special car and, to quote the driver's own expression, find out "what the H— was driving like that for. It is this sort of driver and that sort of incident that does more damage to the motoring public than any amount of unavoidable mishaps.

Talking about the police using tact, Dave, did you ever hear the story of the man who described what "tact" was. I will tell it in his own words: "I opened, by error, a door which turned out to be that of a bath room in which a lady was taking a bath. Now, she said 'I beg your pardon, Miss,' that would have been common politeness but I said, 'I beg your pardon, Sir.'" That was "tact."

And what was the one you were going to tell us that began "She knew that I knew that she knew I knew?"

A very "big" man in this town had a motor smash this week. It was a matter of running over a kid or charging a stone wall and he took the stone wall with considerable damage to his car, but fortunately, without much to himself and passengers. We congratulate him on his luck and nerve. At the same time, perhaps he will excuse us if we take this opportunity of saying that we have heard some hints this season of him (or possibly his chauffeur) being inclined to speed and also of passing other cars when going around a "blind" corner. We are sure we have only to draw the attention of this gentleman, who is most considerate, to these matters to prevent a recurrence, and if he is "nerved" on our part to make this slight reference, we must plead, as our excuse that this column is conducted "in the interests of the Motoring (and general) public."

Our attention has recently been called to several large boulders on the side of the Petty Harbor Road, which have been utilized for advertising purposes and which bear the inscription: "Use— Oil." The Petty Harbor road is one of the prettiest drives we have around St. John's, and it is going to be a pity if the natural scenery of the route is going to be disfigured by this hideous form of advertising. In America this sort of thing became so prevalent that a large number of public spirited Americans banded themselves into a society known as the "Beautiful America Society" to prevent it. The way they dealt with a case like the above was to go out on a dark night and paint in large letters the word "Don't" at the top of the advertisement. The advertiser usually took the hint and had the objectionable advertisement removed. When Bowring Park was opened first it was the immediate one for some misguided firm of painters to erect a large and

hideous advertising sign board along the road leading to the entrance of the Park but eventually, through the efforts of Sir Edgar Bowring, they were induced to remove same. Since then, with the exception we have been told of above, we have been fairly free of this objectionable form of advertising. If you want to advertise your goods, use the newspapers. That's what newspapers are intended for, and it is decidedly not the use natural scenery is intended to be put to.

We understand that a certain member of the original Executive of the Motor Association, who was so awfully anxious to know why a certain other member remained a bachelor, is not likely to put the question again after the exceedingly trite reply he received one evening last week. We have never quite understood why your married man is always so anxious to get his bachelor brother linked up in part to make this slight reference, we must plead, as our excuse that this column is conducted "in the interests of the Motoring (and general) public."

"The single man, it said, all wish that they were wed. And those who are, wish they were dead. So what's the use?"

As it will be advertised in the Telegram in due course, we guess the Editor will let us say that the Annual dinner of the Newfoundland Motor Association will be held at Donovan's on October 6th. It is going to be a mighty good effort and you, Mr. Motorist, don't want to miss it.

A motor car which met with a mishap to its lighting equipment was left outside a residence on Forest Road the whole of one night last week. In the morning, wonderful to relate, the rags, tools, etc., left in the car were still found to be there. Wasn't the "master mind" that is said to be staging all the petty thefts that have happened in St. John's recently, on the job that night, or was it carelessness on the part of the manager of his motoring department?

"May all your troubles be little ones."

said the Road Commission as they left the tents their workers had been occupying along the side of the road for the benefit of any chance occupiers that might happen along.

The M— property at Fossil is on the market (see advertising column) and has been offered to the Motor Association as a Club House. Unfortunately the Motor Association can't run to the price required, as it certainly would make a splendid Club property. In addition to a well built house containing a fair number of rooms, the grounds contain two tennis courts, one of which is the best in Newfoundland. (Sure it is, we know a boy who was made roll the darn thing by the hour when he was young!)—and the whole outfit is so well set back from the road that the utmost privacy is ensured. Some few years ago in the days of Harold Harvey, "Smiff Boy" and poor Alec Bryden and others, a very successful dance was held at this place under the auspices of the now defunct Motor Cycle Club. We are thinking this is the chance that Andy Carnegie, John D., Henry Ford or the head of the St. George's Society may see same and decide to present the property to the Motor Association.

Thanks ever so much, Mrs. R., for your kind remarks last week re this column, which reached us indirectly. We are glad it meets with your approval, but we think it could be livelier if a little with contributions from some of the lady motorists of whom there are quite a number now. Couldn't you help us out a little in this respect?

Regarding this column, it is a little difficult at times to know exactly what to put in it. We have one set of readers (headed by our friend Dave) who want it spiced every week. Others want it kept strictly to business. "Strictly business" as far as motoring goes is apt to be pretty dry reading and, after all, by subscribing to one of the English, Canadian or American motor journals of which there are legion, one can obtain much more "technical" data than we could possibly squeeze into a weekly column. We have, therefore, decided that, while we will endeavor to include technical items that are likely to be of interest as well as "spicy" bits, we will try to make the column of as much local interest as possible. Suggestions from readers are always welcome, however, and short contributions of interest will be received with outstretched arms.

We endorse the remarks contained in the Evening Telegram of Tuesday evening in reference to the desirability of motors and trucks on Water Street taking the utmost care to avoid splashing pedestrians on the sidewalks. This is a very common source of annoyance this time of year and in the spring, but really the blame, in many instances, is not due to the motor driver. Immediately after every rain, water forms and remains in a long river up Water Street at the sides of each of the street car rails as well as in the numerous pot holes along that thoroughfare, while in several places (opposite Smallwood's, T. J. Daley's and Gray & Goodland's, for instance) large ponds form due to the faulty paving. However slowly a big car (or truck) is driven it is next to impossible not to make some splash in those places. Only the other day we saw a gentleman, driving in a semi closed cab, get doused from head to foot with the most filthy water, and the truck that was responsible for this outrage, was proceeding only quite slowly but, having got in the street car track, was stirring up a miniature Niagara Falls all the way up the street. All that drivers can be asked to do is to drive as slowly on Water Street as possible after a rain and try to keep out of the car tracks. The state of the paving on Water Street, from where it begins to where it ends, is a positive disgrace for the principal street of the most important town of the Oldest Colony. The residents of no other town on the continent of North America would put up with it, but we Newfoundlanders are a d— slight too easy going. The first thing we, personally, will do, if the town sees fit to return us as councillor at the next Municipal election, is to start an agitation to have Water Street (and why not Duckworth Street and New Governor Street?) decently paved as would have been done long ago if anybody had taken the matter up seriously.

At this time of year the chains are desirable for light cars driving on the country roads, especially on the Waterford Bridge Road, which is always greasy after a rain storm, especially in the dip by Germandale. This morning, Thursday, (these notes go to press on Friday) there is a "thin line" by the side of the Waterford Bridge Road looking like something the cat brought in. We have not yet heard the particulars of the smash and hope no one was hurt, but the answer is: "Safety first! Buy a set of Tire Chains!"

And, lastly, dear Brethren, has the Board of Works done anything in regard to collecting in motor taxes due on 1920 account, or in reference to repairing Mann's Bridge, of which subjects we have held forth in this column "ad lib" and "ad nauseum"? Also we fear that some of our noble discourses have fallen upon barren ground! MR. DUNLOP.

N. F. Novices Pronounced First Temporary Vows.

(The Guardian, Little Rock Ark.)

A beautiful and impressive ceremony was held at St. Mary's Convent of Mercy, on last Saturday, September 18th, in the presence of Right Rev. Monsignor Tobin, assisted by Rev. T. Keay and Rev. T. Smith, eight novices pronounced their first temporary vows. Before the Mass, the interrogation was put to the Brides-elect, "My child what do you demand?" and the earnest and fervent response came in clear ringing tones, in the presence of interested friends, "I most humbly beg to be admitted to the Holy Profession."

Headmaster Tobin, Presides. Previous to the interrogation, the Right Reverend Monsignor Tobin delivered a very touching and appropriate sermon, which was very highly appreciated, not only by the aspirants to Holy Profession, but also, by all who witnessed the ceremony. Taking his text from St. John XV, 18-19, "If the world hate you, know ye, that it hath hated me before you, if you had been of the world, the world would love its own; but because you are not of the world, but I have chosen you out of the world, therefore the world hateth you."

Without venturing upon a discussion which would seem to disturb the tranquility of the scene which we are witnessing this morning," said the speaker, "the opposition to nuns and convents which finds expression from time to time is a curious manifestation of the anti-Christian spirit of our time. Opposition to priests may be fanned by charging them with exerting undue political influence; but opposition to Sisters who are engaged in the Christ-like work of doing good to the sick, the ignorant and the abandoned is inexplicable, and finds only a partial explanation in the antagonism there is always between a worldly life and a religious life. Sisters have chosen the better part—commended by our Blessed Lord, and their devotion to the three vows that constitute the essence of the religious life—poverty, obedience and chastity is a rebuke to the avarice, the disobedience and the sensuality which are always so much in evidence."

Kind and thoughtful friends sent beautiful flowers and ferns for the chapel, the with the artistic setting of lights, inside the altar and sanctuary present a scene of exquisite loveliness.

During the Mass, after the "Ecce Agnus Dei," the Novices approached the Altar steps, and in a clear audible voice, pronounced the Vows that were to bind them to the service of their heavenly Master. Then in order to ratify their promises, they received Holy Communion, from the hands of the celebrant, making their joy complete.

After Mass, the choir chanted the "Veni Sponsa Christi," the novices then laid aside their White Veils and received the Black Veil, the symbol of their religious profession.

While the choir was singing the closing words of the "Quem vidit," the newly professed sisters prostrated themselves before the altar, renouncing the world, and dying as it were to all earthly things. During the prostration the "Te Deum" was sung. As the joyful strains of the "Benedictus" pealed forth, the newly professed sisters arose, received their lighted candles, and after the congratulations from their sisters in Religion, took their places among the ranks of the professed members, of the Order of Mercy.

The heavenly hymns peculiar to this occasion, and rendered by the sisters' choir, added much, very much, to the joyful, yet solemn tone of this truly devotional ceremony. The names of the sisters who took their Vows are as follows:—Sisters Mary Regina Keating, Mary Thomas, Mary Murphy, Mary Phillipa Manning, Mary Sebastian Mackey, Mary Regis Bolstrom, Mary Louis Wakeham, Mary Alphonsa Butler, Mary Bernadette Butler, all from Newfoundland.

TO-DAY'S MESSAGES. How Mummies Were Made.

THE REID CASE REOPENED.

MONTREAL, Sept. 22. The Reid case, which in its preliminary procedure has already passed in one phase before the Appellate Judges, was again brought into court on the appeal by Harry Duff Reid and his brother, to-day, from the interlocutory judgment of the Superior Court, granting the petition of Miss Harriet Reid that a rogatory committee be appointed to examine certain witnesses in Newfoundland in relation to the principal action. In this action Miss Reid is asking that the executors of her father's shall render her an accounting of the succession, and that certain shares in the Reid "Nfld." Co. shall be assigned to the Royal Trust Co. Alternatively the plaintiff claims to recover loss, or depreciation, she alleges in the value of her settlement on the fourth share of her father's estate. In the present appeal, it is submitted that the procedure adopted by plaintiff-respondent in obtaining a rogatory committee of Newfoundland is foreign to the issue raised in plaintiff's action, as entered. Respondent demands that the Company and interested parties be ordered to appear before the rogatory committee of the Government in appeal as relevant to the appeal, and it is urged that plaintiff is liable to suffer irreparable injury and injustice if a rogatory committee is disallowed.

THE LEAGUE AND THE NEAR EAST.

GENEVA, Sept. 22. Lord Robert Cecil in the League of Nations Assembly this afternoon demanded of the Political Committee of the Assembly that troubles between Albanians and Jug-Slavs be discussed immediately, in view of alarming news of conflicts between Albanians and Jug-Slavs. H. A. L. Fisher, of England, asked a postponement until Monday, in order that more detailed information might be secured. The matter finally was fixed up for discussion on Monday.

ANARCHISTS AT LARGE.

WASHINGTON, Sept. 22. More than one hundred anarchists are at liberty in United States, under bonds, which are covered by six hundred thousand dollars in Liberty Bonds deposited with the Secretary of Labor. It was stated to-day at the Department of Labor, on account of the refusal of the Russian Soviet Government to accept them, it has been impossible to deport them.

N.S. VESSEL LOST.

HALIFAX, Sept. 22. The 110-ton schooner "Nansara," bound from "Pointe-a-la-Peine" with a cargo of salt, was lost in the recent hurricane, which swept the West Indies, according to word reaching here. The report stated that the captain and crew were saved. The "Nansara" was partly owned in Halifax.

TOWING OSKALOOSA.

BOSTON, Mass., Sept. 22. Wireless advice received to-day from the United States Shipping Board steamer "Monroe," bound here from Povey, said she was towing to this port the steamer "Oskaloosa," from Antwerp, which broke down at sea several days ago. The "Monroe" is making five knots an hour, the message said, and would come direct unless a gale should force her to head for St. John's, Nfld., or Halifax.

U.F.O. IN THE FIELD.

TORONTO, Sept. 22. In every Province in the Dominion, farmer candidates will be entered in the Federal elections. The United Farmers Executive met yesterday, and from reports received, it was stated that a number of rural ridings would be contested by farmers. In Ontario, eighty four seats, the farmers' will contest at least sixty seven.

A NATIONAL PROBLEM.

LONDON, Sept. 23. A manifesto issued by the Labor Party declares that the unemployment situation is a national problem, and requires a national policy to deal with it. The Government's scheme of placing the main portion of the burden on the local authorities, says the manifesto is unjust, inadequate and indefensible, and must be abandoned in favor of much more generous assistance. If work is not provided for the unemployed, then provision for their maintenance must be made, though adequate unemployment insurance benefits.

NEWFOUNDLAND SHOULD FOLLOW SUIT.

OTTAWA, Sept. 23. A rapidly increasing demand for fresh sea fish throughout Canada, is indicated by statistics compiled by the Fisheries Branch of the Department of Marine and Fisheries. In every section of the country more fresh sea fish is being eaten, the most noticeable increase in consumption being registered in Central Canada, including Eastern Ontario and Western Quebec. The smallest increase is apparent in territories closer to the source of supply.

TO-NIGHT—C. C. C. Promenade Band Concert, Prince's Rink, at 8.15. Average attendance 1,000 people nightly. Therefore follow the crowd to-night. Admission 20c.—sep23.

When Your Senses Sleep

The process of going to sleep is a curious one. The whole of the body does not become unconscious at the same moment, but the senses drop off one after the other.

The first to go into oblivion is that of sight, caused by the closing of the eyelids. This is followed by the suspension of the olfactory nerves, in other words, the sense of smelling.

Then the nerves of your ears stop work, the sense of touch being the last to leave.

The muscles and sinews lose their power in steady succession. Starting with the feet, numbness steals over the body until it reaches the brain, when oblivion is complete. That is why, when the feet are cold, sleep is so slow in coming; warmth is needed to make nature perform her functions properly.

The senses do not wake in the same order as that in which they go to sleep.

Touch is the first to return, followed quickly by hearing and taste, the eyes being the next. Last of all to rouse is the sense of smell, which is the reason why suffocation by coal-gas can take place so easily when one is asleep; the deadly odours having done their work before the victim has noticed them.

Here and There.

Millions Now Living Will Never Die.

WIRE TROUBLE.—On account of wire trouble along the line we are unable to publish the Kyle's passengers to-day.

CHOIR NOTICE.—Members of Gower Street Choir, are requested to meet for practice to-night at 9 o'clock.—sep23.11

TOTAL CATCH.—A message to the Collector of Customs from C. C. Pittman gives the total catch to date for Lamaline as 28,000 quintals.

TO-NIGHT—C. C. C. Promenade Band Concert, Prince's Rink, at 8.15. Splendid concert selections and seven of the Band's best dance numbers. Price 20c.—sep23.11

TO LOAD FISH.—It is learned that the S.S. "Nestun" will arrive to the N.F. Shipping Co. on the 28th, and will load fish direct for Alicante and Naples. The ship has a capacity of about 5000 cases.

A large shipment of Cotton Blankets for double beds, in Grey and Brown, \$2.75 a pair only; just opened by I. LEVITZ, 252 Water St., opp. Dicks & Co. Get yours early.—sep23.6i

NOTE OF THANKS.—The family of the late Albert Noel, Harbor Grace South, wish to thank all their friends, who showed their sympathy in their sad bereavement by sending wreaths and flowers to adorn the casket of a loving husband and father and those who sent messages and letters of sympathy, especially are their thanks due to Dr. Cron for his attention; also the Rev. W. E. R. and Mrs. Cracknell and Rev. E. Andrews, Coley's Point for many acts of kindness.—adv.

TO-NIGHT—C. C. C. Promenade Band Concert, Prince's Rink, at 8.15. See the large crowd who dance to the best dance items of the C. C. C. Band, 25 instruments. Admission 20c.—sep23.11

STOWAWAYS DISCHARGED.—Two youths named Costello and Kelly were charged in the Police Court to-day with stowing away on S.S. Rosalind. They had been brought back at the request of the Inspector General, who thought they might have been implicated in some robberies. Both were found to have had nothing to do with these, however, and as the owners of the ship did not wish to prosecute, the accused were discharged.
