The Balkan Nations, Turned Butchers, Have Outraged Humanity

(From The New York American of yesterday).

THE Balkan races have forfeited the respect of civilization. Saving only Greece, which holds to the elements of humanity and Christian warfare, the Balkan races within the fortnight have proven themselves to be a horde of murderous savages of whom the arch savage and murderer is Ferdinand of Bulgaria.

There was never such a fall in history so swift, so sudden—from fame to infamy—from heroism to shame. The world of civilization was with the Balkans in their war. It was blazoned as almost a holy war—the war of the Christian nations against the Unspeakable and Heathen Turk—the last nemesis of civilization upon centuries of butchery and cycles of barbarity.

The crimson ghosts of Albania and Zeitoun—the holocausts of Christian martyrs incinerated in Turkish fires, the battalions of Christians butchered because they were Christians, the pictures of infants bayoneted before their mothers' eyes, and mothers murdered, with outrage preceding or following fast on murder—aroused the public protest of the Christian world.

Every voice in Christendom rang for Bulgaria and the Balkans. Every civilized prayer was theirs. And their battle was magnificently won. All records of history were equalled if not surpassed on the battlefields of this modern and magnificent crusade.

Step by step the Unspeakable Turk was driven back from his battlefields of murder. Inch by inch the Crescent yielded to the Cross.

Bulgaria swept from Adrianople to Chatalja. Greek battleships blocked the transportation of Turkish troops and provisions of war. Servia marched from her own victorious battlefields to reinforce the Bulgarians in the crisis at Adrianople and Chatalja, and with the allied legions thundering at the despairing gates of Constantinople. Southwestern Europe passed from the Crescent to Christ, and a great new nation seemed to have been born from the Slavonic races to rewrite history and to shift the balance of power from the elder monarchies to the plains of Thrace—new consecrated to liberty and humanity.

It was an epoch in human history. It was an Armageddon rich in the righteous triumph of the right above the wrong. And in its glorious aftermath the annals of the Christian races should have been remade and amplified.

But almost in a night the scene has changed. The peace of London became the proclamation of a progressive savagery. The men who endured like martyrs and fought like lions could not win like men, but quarrelled like jackals over the spoils of victory.

Bulgaria, first in battle, was foremost in her greed, and her crimson hands, wet with heathen blood, and presuming on their strength, reached out to grasp the throats of Christian allies and to seize the territory that Greece and Servia had helped like heroes to achieve. Friends fastened their fangs into each other's vitals with a ferocity fiercer than they had shown their common foe.

The Balkan armies seem to have become as barbarous as the Turks. Their hatred for the Turk was as nothing to their hatred for each other. Their hideous greed of territory blinded their eyes to every sentiment of Christianity and to every creed of Christ.

They caught from the Turk his bloodiest butchery and turned it upon their own people. Bulgars at Kilkiss and Kurkut burned alive seven hundred men before their tortured wives with as fine a savagery as ever brutalized the Turk. The Serb at Belgrade shouted jeers and hisses into the dying ears of Bulgarian prisoners, brought from the battle fronts, and to hand with fist and foot, with tooth and nail, like primeval savages, fought Bulgar and Serb, who had cried the Cross of Christ in triumph above the infidel and Unspeakable Turk.

The Balkan fortnight behind us is an outrage upon the whole Christian world. These lapsed Christians, these transformed savages of greed, have within ten days civilized nations. They have struck a staggering blow at the faith they followed and their religion and ours they have defiled.

The nations that cried godspeed to the Balkan armies of yesterday are ready now to cry, "Down with the newborn butchers of the Danube," and the world is ready to approve and applaud Austria or any other power that will repossess the territory so unworthily held and proceed to govern the people so obviously incapable and so basely unequal to the task of governing themselves.

TARIFF STRUGGLE IN SENATE ON WEDNESDAY

Debate Is Expected to Be Concluded in Five Weeks, as Republicans Disavow Any Intention to Adopt Obstruction Tactics—Preliminary Skirmish Opens Monday.

WASHINGTON, July 11.—(Can. Press.)—Discussion of the Underwood-Simmons tariff revision bill, with its lengthy free list, greater reduced rates on all commodities and its new system of ad valorem instead of specific rates, will actually begin in the senate next Wednesday at noon. On Monday, however, the opening assault upon the Democratic measure will be made by Senator McCumber of North Dakota, who will speak on the agricultural schedule.

The finance committee agreed that he should be given the floor ahead of the formal opening because he is obliged to leave Washington Monday night. Chairman Simmons, speaking for the Democrats at the finance committee meeting today, said he thought the debate on the bill could be concluded in five weeks and Senator Smoot of the minority agreed with him, declaring that the Republicans and no intention of purposely prolonging the discussion. The minority report of the senate committee will be presented by Senators Smoot, Lodge, McComber, Gallinger and Clark, and a separate report by Senator La Follette, who has had a corps of experts at work on the bill and who will have amendments that will constitute practically a new measure.

Preparing for Battle. Senator Smoot has in preparation a new wool schedule, which he intends to submit as an amendment Wednesday. Senator Simmons will file the majority report and make the opening argument for the Democrats and the administration. During consideration of the measure Senator Simmons will have general charge of the debate for the Democrats and Senator Penrose for the Republicans.

As reported to the senate, the bill contained comparatively few changes from that which was reported three weeks ago to the Democratic caucus by the finance-committee majority.

BALKAN HOSTILITIES ENDED WITHOUT FORMAL ARMISTICE LONG TASK TO SETTLE PEACE

Bulgaria Has Failed in Hazardous Coup and Will Not Oppose Roumania's Occupation of Silistria—Lloyd George Hopeful That Powers Will Effect a Lasting Settlement.

LONDON, July 11.—(Can. Press.)—Having failed in her hazardous coup, Bulgaria is now showing herself anxious for peace. No formal armistice has yet been arranged, but it is believed that hostilities are virtually ended. It is feared, however, that the settlement of the peace conditions will prove a long task, many new elements having entered to complicate matters. Bulgaria's decision not to oppose Roumania's occupation of Silistria and the strip of territory she desires, removes one difficulty. But other developments, such as the Greek occupation of Kavala, to which Bulgaria is expected to offer bitter resistance, are calculated to lead to troublesome negotiations, especially as both Servia and Greece, as the outcome of their campaign, will be certain to demand possession of the territory they occupied previous to the war.

Russia is already taking steps in the Balkan capitals to arrange for a cessation of hostilities. The British chancellor of the exchequer, David Lloyd George, addressing the bankers at a dinner at the Mansion House tonight, referred to Balkan affairs. He said that the first trouble was over and he was hopeful that the powers, who had started so well together, would be able to effect a lasting settlement among these hapless provinces.

So long as the Balkan States did nothing to upset the decisions already agreed to among the powers, continued the chancellor, it was to be hoped that no power would find it necessary to take any action likely to give rise to difficulty among the great powers themselves.

Saloniki, July 11.—(Can. Press.)—A deputation from Seres arrived here today and applied to King Constantine to despatch Greek troops to occupy the town. The deputation asserted that before evacuating Seres the Bulgarians slaughtered a large number of prominent Greeks, who had been imprisoned since hostilities began. Among those killed were M. Papapavlos, director of the gymnasium; M. Stamoulis, manager of the Orient Bank, and Dr. Charissevia.

HOPE FOR SHOWER OF THE DIAMONDS To Be Worn by Anna Held at London Theatre on Monday Night.

Special Cable to The World. Copyrighted by The Toronto World and N. Y. World. LONDON, July 11.—The Picoadilly "Johnnies" will assemble in force at the London Opera House Monday night, for Miss Anna Held, who has been living quietly in Paris for some months, is advertised to startle London when she appears in the Revue "Come Over Here," by wearing corsetless gowns and diamond encrusted stockings.

The hose is made of exceedingly fine net work with a small diamond at each intersection, giving the appearance of being composed entirely of brilliants.

The front row of the stalls will be booked up early by persons who hope to be showered with diamonds when Miss Held dances.

HANNA'S REPLY WILL BE SHORT

Ten or Fifteen Minutes Will Suffice in Which to Answer the Proudfoot Charges.

This is the night of the big political meeting when Hon. W. J. Hanna and William Proudfoot, M.L.A., will face one another on a platform in Owen Sound. The provincial secretary leaves this morning for the scene of conflict.

When asked yesterday regarding the division of time which had been made for each man to give his speech, Mr. Hanna said: "I have not concerned myself about the division of time. I think that 10 or 15 minutes is more than the subject is worth. The audience in a case of this sort has some right to consideration."

Mr. Hanna intimated that he would make a very brief reply to the speech of Mr. Proudfoot, but will devote most of his time to the work of the government.

OFFICERS LAZY HUGHES ASSERTS

Would Rid Permanent Force of Men Given to "Idleness, Profligacy and Social Gaity."

HALIFAX, July 11.—(Can. Press.)—Col. Sam Hughes, minister of militia, entertained the permanent and active militia of the Halifax garrison at dinner tonight and created somewhat of a sensation by roundly lecturing the regular officers for idling and neglecting their duties. He declared that the permanent forces were no places for men who desired to spend their time in idleness, profligacy and social gaity and any men who failed to do their work could look for little sympathy.

He referred to friction which had existed between the active militia and the permanent forces all over the Dominion and defended his policy of appointing men from the active forces to positions which men of the permanent corps were qualified to fill.

Col. Hughes said this condition had been met with all over Canada, but he had refrained from speaking of it until he could do so in Halifax, the largest Canadian garrison. He impressed on the permanent corps officers that their force existed purely for instructional purposes, and that they were nothing more than military schoolmasters.

Sir Ian Hamilton, inspector-general of the overseas forces, paid high compliments to the local militia, declaring that the Halifax regiments were fully up to the standard of the best corps throughout the empire.

PREMIER ASKED FOR PROTECTION

Good Templars Need Special Police For Carrying on Temperance Work in Montreal.

QUEBEC, July 11.—(Can. Press.)—Sir Lomer Gouin, premier, has received a written request from the Montreal Good Templars to afford them special police protection to aid them to carry on their work in the interest of temperance in the City of Montreal.

The letter sets forth the difficulties the Good Templars have had to contend with in their crusade against the sale of liquor in the interest of morality, and the recent assault made on J. H. Roberts, secretary of the Dominion Alliance.

Sir Lomer Gouin, when asked by the Canadian Press correspondent as to his attitude in regard to the request, said he has given the letter his attention, but refused to state what attitude he would take, if any, in the matter.

BANDITS HANGED BY VIGILANTES

Fourteen Mexicans Who Destroyed Property of Americans Have Been Put to Death.

Special to The Toronto World. WASHINGTON, July 11.—Fourteen Mexican bandits have been hanged by a band of American vigilantes in the Tampico district of Mexico, according to a despatch from the American consul at Tampico, received at the state department today. This despatch added that the depredations on Americans and their property by Mexican bandits, some of whom had been in the army, had become so numerous and that the government was so powerless to protect the Americans, that the latter appealed to the governor of the state for authority to organize and arm themselves. The permission was granted.

HYDROPLANE AIDED IN SEARCH

Machine Skimmed Waters of Lake Erie and Niagara River—Two More Bodies Found.

BUFFALO, July 11.—(Can. Press.)—A hydro-aeroplane skimming the surface of Lake Erie and the Niagara River this afternoon played a prominent part in the search for the bodies of the five canoeists who were drowned off Windmill Point last Sunday. The flying machine rapidly eliminated outlying territory from the necessity of further search and boatmen confined their efforts to a comparatively small stretch with the result that three bodies were recovered.

The bodies found were those of Carl Goodrich, Reginald McMahon and Albert M. Kayner, all of Niagara Falls. Two were found in the lake and one in the river. The body of Thos. Brophy recovered yesterday was today identified. The body of Edward Reichert is missing.

DEPLORE ATTACK ON DR. JACKSON

Wesleyan Church Asked to Put Back Hands of Scholarship Clock Twenty Years.

LONDON, July 11.—(C. A. P.)—It is extremely doubtful whether the Wesleyan Conference which meets at Plymouth next week will take any official action regarding Rev. George Jackson of Toronto, whose acceptance or higher criticism views has aroused some controversy.

Rev. G. N. A. Bennett, who has threatened to demand rescinding of Dr. Jackson's appointment to Didsbury Theological College, is described here as asking the Wesleyan Church to put the hands of the scholarship clock back twenty years, and is courting defeat. It is significant that even The Methodist Recorder, which represents the more conservative opinion of the Methodist Church, wholly disapproves the line of action pursued by Rev. Mr. Bennett.

"We hope, it says, "there is no other preacher, lay or ministerial, who will take the line which Rev. Mr. Bennett has in such action, of which he is sure to repent.

It adds: "A heresy hunt can do no good, and from that point of attack there will surely be a rolling back of any who may come."

At the same time The Methodist Recorder is doubtful whether the "Particular line of teaching" evinced in Dr. Jackson's book, is "the best for youthful minds."

NORWICH UNION IS IN BIG REALTY DEAL

Financed M. Deeley, M.P., in Purchase of London Property For More Than Two Millions.

Special Cable to The World. Copyrighted by The Toronto World and N. Y. World. LONDON, July 11.—Mallaby Deeley, M.P., who has bought the site of St. George's Hospital on Hyde Park corner for \$2,500,000, is financed by the Norwich Union Insurance Company, of which he is a director. This same company financed him in purchasing the Picoadilly Hotel, which proved a highly profitable investment.

There is no American money in the St. George's Hospital deal, but George C. Boldt will probably have first refusal of the site for a hotel. It is a splendid site in some ways, but it is questioned whether it is not a little too far away from Bond street and the best shopping centre, to be successful as the newest think in fashionable hotels. There is another big hotel being built in Picoadilly, two hundred yards westward of the site, facing St. James' Park, which is more convenient and equally well situated as the St. George's Hospital site.

RELIGION, SEX AS SCHOOL STUDIES

Christian Endeavor Conference Also in Favor of Church Union.

LOS ANGELES, July 11.—(Can. Press.)—The question "Should religion be taught in the schools?" was answered affirmatively today by the conference of ministers attending the twenty-sixth international convention of Christian Endeavor societies. So also was that as to the teaching of sex hygiene, but the clergymen registered it as their opinion that sex knowledge should not be taught school pupils by the regular teachers, but by physicians especially appointed for the purpose.

To strengthen the influence of Protestantism it was recommended that the churches join a federation and work in unison.

Dr. Charles M. Sheldon of Topeka, Kan., recommended the compilation of a Bible text book for use in the schools. He spoke vigorously against colleges and high school fraternities as a menace to democracy. Dr. Sheldon, who once undertook to edit a daily newspaper "as Christ would do it," declared the press would be greatly improved if it eliminated stories of crime, gave more church and religious news, and published editions every other day, so that it would not have to pad and "play up" sensational matter.

With regard to the theatre and the drama the clergymen in the conference acquiesced in the opinion that the love element in plays was permissible.

TORONTO LOSES TO CHICAGO

LOS ANGELES, July 11.—(Can. Press.)—Chicago was chosen for the next biennial session of the International Christian Endeavor in July, 1915. Toronto, at first was a strong competitor.

WILSON WILL ACT IN WAGE DISPUTE

Conference Monday at White House Between Unions and Railways to Avert Threatened Strike.

WASHINGTON, July 11.—(Can. Press.)—The meeting at the White House scheduled for Monday between President Wilson, railway officials and representatives of the employees' union will take place as planned, according to an announcement today by Secretary Wilson, of the department of labor.

"Both the representatives of the railway managers and the unions will be present at the conference," the secretary said. "They have notified me that they will be here, and I cannot understand all this talk at New York about nothing being known there regarding the meeting. Apparently the railway and union officials have a reason of their own for denying knowledge of the meeting, but what it is I have not been told."

"I prefer not to say at this time who requested for the conference with the president. I can say, however, that the request was not made on the initiative of this department."

The object of the conference, Secretary Wilson explained, was not altogether to aid in preventing the threatened strike of trainmen on eastern roads, but was to discuss and arrange a common ground upon which the government, the railways and the employees' unions can meet in the settlement of future wage troubles.

Neither the railways nor the unions have been satisfied with the provisions of the Erdman Arbitration Act, because of the small arbitration board it provides. They desire a board of six members, while Secretary Wilson is in favor of a board of nine. This point, however, the secretary is willing to waive.

The only vital difference, and the one which will form the main topic of discussion at the White House conference, is whether the proposed new board of conciliation and mediation shall be an independent commission or part of the department of labor.

LORD CHANCELLOR OF IRELAND DEAD

Right Hon. Redmond Barry Passed Away Last Night in London.

LONDON, July 11.—(Can. Press.)—The Right Hon. Redmond Barry, lord chancellor of Ireland, died tonight.

Redmond Barry was born in 1866. He was solicitor-general of Ireland from 1905-9, and attorney-general, 1909-11. He represented North Tyrone in the house of commons from 1907 to 1911, enjoying the distinction of being the only Irish Liberal in the house.

TABLET RECALLS GREAT SEA DUEL

Sir Ian Hamilton Unveils Memorial at Halifax of Shannon's Famous Victory.

HALIFAX, July 11.—(Can. Press.)—"Tradition saith that this cannon was used on board H. M. S. Shannon in the historic sea fight between the Chesapeake and the Shannon, June 1, 1813. It was used as the noon and evening gun 1832-1905. The Nova Scotia Historical Society."

So reads the memorial tablet which was unveiled today by Gen. Ian Hamilton on one of the cannon used on H. M. S. Shannon in the provincial building grounds. Archdeacon Armitage, the president of the society, made reference to the fact that Halifax was happy to have on that occasion such a distinguished visitor. The Nova Scotia Historical Society were glad that the tablet immortalizing such an event as the fight between the Chesapeake and the Shannon was to be unveiled by such a distinguished soldier.

Reference was made to the gallantry of Captain Broke, who was mortally wounded on boarding the Chesapeake. The command of the Shannon then fell on the shoulders of First Lieutenant Provo Wallis, a native of Halifax.

Let Every Street be a Blaze of Color

The indications are that many thousand visitors will invade this fair city during the next three months. Thanks to an efficient civic administration we have well paved and clean streets---but let us brighten up and put on a gala holiday appearance, a bit of bunting on our Verandah, on that Motor Boat, on that Island Cottage and on that Motor Car would help some.

But Pennants in a Multitude of Hues Will Do It Better! The World Has Made it Possible at a Very Nominal Cost.

The phenomenal demand for the Canada Pennants has prompted us to issue one with the name of our fair city, and with the city crest. They are now ready for distribution. One Coupon from The Daily World and 22 cents secures one, when presented at The World Office, 40 West Richmond Street, Toronto, or to the Branch Office, 15 East Main Street, Hamilton, Ont. By mail, add 2 cents for postage.  
NOTE.—Many people are buying Pennants as souvenirs and sending them to their friends abroad. Present your visitors with one, they will favorably remember Toronto and Canada.

**HUNDRED LODGES MAY MARCH IN RAIN**

Probs. May Take Some of the Glory Out of the Glorious Twelfth.

**PARADE WILL PROCEED**

Leave Queen's Park at Ten Thirty—Mayor Will Be First Speaker.

From Queen's Park, at 10.30 a. m. by Grosvenor, Yonge, Albert, Queen and Dufferin streets, to Exhibition Park.

Such will be the route taken by the one hundred parading Orange lodges this morning. Members of each lodge will convene at their lodge hall, where it is accustomed to meet, and will march to Queen's Park by 10.00. All officials have been instructed to keep Grosvenor street clear, so that the parade will have no difficulty in getting under way.

Mayor Hocken will be the first to speak when the Orangemen arrive at Exhibition Park. Colonel Scott, supreme grand master, will be next in order, and he will be followed by Rev. Canon Dixon, county chaplain; Dr. T. W. Edwards, Rev. J. Fitzgerald, Controller McCarthy, H. B. Morphy, of Perth, and W. D. McPherson, M.L.A. W. H. Harper, county director of ceremonies, will be chief marshal, with R. Shaw, F. Power, T. Bennett and C. P. Watson as his assistants, representing the northern, centre, western and eastern districts respectively.

All the fife and drum bands are reported to have been practicing faithfully for weeks, and today's celebration should be the biggest yet. The only blot on the prospects is the cold-blooded prophecy of rain which the meteorological office gave out late last night.

**CUT OFF DEBTOR'S WATER AND LIGHT**

St. Mary's Decides on Drastic Action—Wife Finds Farmer Dying of Carbolic.

ST. MARY'S, July 11.—(Special).—At a recent meeting of the water, light and heat board on resolution of Mayor Butcher, it was voted that all users of water and light in arrears who refuse to pay their accounts be cut off. A number of large "Fungsten" lamps were ordered to be placed on the bell tower of the municipal building to be lit on Saturday night.

St. James' Church Sunday School held a most delightful picnic at the Collegiate Institute grounds on Thursday afternoon. The picnic was held without any known reason early Sunday evening, James Reynolds, a farmer, living two miles south of Thornedale, died Monday afternoon. The discoverer, made by his wife, who, while milking, heard her husband moaning within the house. No inquest will be held. There are no children.

A number of the local members of the C.O.F.E. accompanied by the Maxwell East Band, attended the annual church parade of the order at Stratford on Sunday evening, when an appropriate sermon was preached by Rev. W. T. Clark.

**LAMAR MAY LOSE THAT SUNNY SMILE**

Impersonator's Case Likely to Come Before Supreme Court Grand Jury.

NEW YORK, July 11.—(Can. Press).—The investigation of the federal grand jury into the activity of David Lamar in the so-called Union Pacific conspiracy, was adjourned tonight until Monday after four more witnesses

had been examined under the United States statute which provides punishment for impersonating an officer or employe of the government.

Aside from the inquiry by the federal prosecutor, it is learned that the county authorities are taking an interest in the case. District Attorney Whitman has assigned Chas. Nott, Jr., an assistant, to watch developments with a view to placing the matter before a state supreme court grand jury.

J. Sergeant Cram, a member of the public service commission; Geo. F. Baker, chairman of the First National Bank; Margaret W. Kelly and Charles T. Eton were the witnesses examined today. Lewis Cass Ledyard and Paul D. Cravath, both of whom testified before the senate lobby investigating

committee, are expected to be called Monday. Mr. Ledyard's appearance will be his second before a jury, as he testified yesterday as the first witness.

At a small country church a newly-married couple were receiving some advice as to how they were to conduct themselves.

"You must never both get cross at once; it is the husband's duty to protect his wife whenever an occasion arises, and a wife must love and honor and obey her husband, and follow him wherever he goes."

"But, sir—" piped the young bride.  
"I haven't finished yet," remarked the clergyman. "She must—"  
"But, please, sir"—in desperation—"can't you alter that last part? My husband is a postman."

**Extensive Clearing Sale of Used Cars**

Must be cleared out by August 1st, the end of our financial year. No reasonable offer refused. The cars were taken as part payment on new Knight models. They are in good repair with first-class equipment.

- 1.—A full line of high-class cars for pleasure, to be sold at a sacrifice. Livery and real estate firms should take advantage of the very low prices.
  - 2.—Also several commercial trucks of 1500 lbs. capacity, in splendid shape.
  - 3.—Two automobile engines, 4 cylinder. Suitable for motor boats.
- All must be sold before August 1st, as this stock cannot be carried into next year.

Youthful, Wrinkless Skin Easy to Have

(Elberta Rold in Woman's Tribune.) You who desire to regain a youthful appearance will do well to make the acquaintance of the two simple, but valuable, prescriptions here given. To make an effective wrinkle-remover, mix an ounce of powdered exfoliate and half-pint water. Bathe the face with the solution immediately every time a wrinkle is affected. It acts wonderfully on sagging facial muscles, also, the lotion possessing remarkable astringent and tonic properties. To get rid of an aged, faded, freckled or discolored complexion, buy an ounce of common mercuric vas at any drug store and apply nightly as you would cold cream, creating this morning with soap and water. This will slowly absorb the undesirable surface skin, revealing the younger, brighter, healthier skin underneath. I know of nothing to equal this treatment as a facial rejuvenator.

Mother's Authority.

There are many who claim that a mother's authority over her children is a thing of the past, that parental discipline exists no longer and that children do as they please. Surely this is a very dark view of the case. I do think that children we hear about and read about were seemingly more obedient and consulted their parents' wishes for a much longer period than the children of today; but that obedience was instilled by fear. These days there is a healthy companionship between parents and children that was not dreamed of a generation ago.

The pessimist insists that the "chum" theory is based on a genuine understanding. There is still a goodly amount of authority left, but confess in many cases there might be more.

Mothers who lack this authority are the last ones to recognize the fact. The children are quick enough to know it. The development, keeping and increasing of the mother's authority over the child is one of the most important things we have to deal with. It is based on instilling the habit of obedience in children. Along with the exercise of authority, there must be a growth of confidence on the child's part in the wisdom and loving kindness of the mother's decisions. The result of this growth is the real comradeship that every parent and child long to enjoy.

Yesterday we spoke of explaining to a child the reason for decisions, so that he might understand their justice and not lose faith in his judges. Common sense must be brought into play to decide just when these explanations should be made. When a child is sore with disappointment and tempted-explanation would probably lead to discussion—perhaps not kind approachable than in other cases.

Above all, consider what your authority means to your child. Take into account his viewpoint. The more mistaken it is, the harder you will need to work to change it. But win him over to your side if you would retain your influence.

HIGH SCHOOL GIRL WAS NEVER TARDY

Was Absent From School But Once in Twelve Years.

NEW YORK, July 9.—One of this year's graduates of the South Orange, N.J., high school was Miss Elizabeth Arctularius, eighteen years old, who since she began going to school in the kindergarten, twelve years ago, had never been tardy once, and in ten years had never missed a session until this year, when, on a botanizing trip with the class she was poisoned with wild ivy and had to stay at home for three days. There being no special prize or medal for such an achievement, the members of the board of education made up a purse and bought her a medal, consisting of a chain and locket with amethyst pendant, and presenting to her with due formality. Miss Arctularius is the daughter of Mrs. M. L. Arctularius of No. 217 Irvington avenue, South Orange. She is strong and active, of medium height, with brown hair and fair complexion. Elizabeth took the college course in high school because she intends to go to Columbia University and become a teacher of Latin. Her school average in Latin was 85. Before entering Columbia she will attend the Montclair Normal School for two and a half years. She is a graduate of the South Orange School of Elocution. She was manager of the South Orange High School Girls' Basketball team.

Charming Muskoka

The Muskoka Lakes, of which Lake Muskoka, Rosseau and Joseph are the principal among some 300 in this district, are secluded in some of the most beautiful scenery that can be imagined, 112 miles north of Toronto on the line of the Grand Trunk Railway. They are in the midst of the "Highlands of Ontario" and have become famous throughout the North American continent for the diverse attractions which they hold for the tourist, pleasure-seeker, sportsman and those in search of health. The curative odor of the balsam and pine and the preponderance of water area to land surface, together with the high altitude (1000 feet above the sea) render it very favorable for the condition and perfect immunity from this annoying ailment is assured. The way to go is via Grand Trunk Railway, the line that made Muskoka famous. Train leaving Toronto 2:20 a.m. daily carries Pullman sleeping cars (open 10:30 p.m.) and coaches making direct connection for Muskoka Lakes resorts. Train leaving Toronto, 12:01 noon, daily, except Sunday, carries Pullman sleeping cars, parlor-library-cafe cars and coaches, making direct connection at Muskoka Lakes resorts. Tourist tickets at reduced rates, good to return until Nov. 30, are on

7876 Child's French Dress, 2 to 6 years.

WITH STRAIGHT SKIRT, SHORT OR LONG SLEEVES, SQUARE OR HIGH NECK, WITH OR WITHOUT TRIMMING.

The long waisted frock is the smart one this season. This little model can be made very dressy and really elaborate or quite plain and simple as it is treated in one way or another. In the large view and in the back view are suggestions for dainty dressy frocks. In the small view is shown a treatment adapted to simple materials and to every day use. For this pattern, percale and gingham are suitable materials. For the little lace trimmed frock all the fine laces are pretty and to make as shown in the back view will be used flouncing with all-over embroidery and plain laces. The skirt is straight and is simply gathered and the body portion includes just the tucks needed to provide plenty of fullness. As the trimming, when used, is arranged on indicated lines, the making is very simple.

For the 4 year size, the dress will require 2 1/2 yards of material 27, 1 1/4 yards 36 or 1 3/4 yards 44 inches wide with 7 yards of insertion and 6 yards of edging to trim as shown in the large view; 1 1/2 yards of flouncing 10 inches wide with 1 yard of plain material 36 inches wide and 1/2 yard of all-over embroidery 18 to make as shown in the back view. The pattern of the dress-7876 is cut in sizes for children from 2 to 6 years of age. It will be mailed to any address by the Fashion Department of this paper, on receipt of 15 cents.

BIG SHOWS HERE ALL NEXT WEEK

Col. Ferari's Organization at Bayside Park Under Shriners' Auspices.

When the Col. Francis Ferari Shows United and Trained Animal Arena erect their thirty-one cars of paraphernalia and equipment in Bayside Park, Monday morning, a week of fun and pleasure will be inaugurated. These allied exhibitions come to Toronto under the auspices of Ramesses Temple of the Mystic Shriners of this city. Caged wild animals have always a fascinating interest for the spectator. There will be every opportunity for the public to gratify their curiosity as to the habits of those ferocious denizens of the jungle, when the Bozook-Ferari aggregation opens its doors. Col. Ferari, the general manager of the enterprise, has secured many zoological specimens, among them lions, tigers, leopards, bears, hyenas and elephants, nearly all of which have been trained to perform marvelous feats in the large steel arena. In addition to the animal exhibit, he is bringing to Toronto many of the attractions which made Luna Park, Coney Island, the centre of interest. Among these will be Sam Gumpertz's famous "Dreamland," the great circus sideshow, with its grotesque inhabitants, the "Follies of the World," a Broadway hit in musical comedy. De Alma's dog, pony, monkey and elephant show; Sanger's miniature circus, Trip to Mars, Snake Show, ferris wheel, ocean wave and the smallest talking horse in the world, and many other attractions and amusements. Several open air free attractions will be offered—the Aerial Howards, the hazardous high-wire artists, the two Bouncing Rubes and their hay wagon, daily flights in the Red Wings and band concerts. There will be a daily street parade in which the two mammoth elephants, Gyp and Judy will draw the gilded band chariot, the largest vehicle of its kind in the world.

Overcome by the Heat

A sizzling sun is apt to paralyze your delivery service at a time when you need it most. Sometimes "first aid" treatment proves successful, and the horse, after an hour's delay, is on its way again; sometimes the service of a veterinary is required, and the horse is off for the entire day. Other times, if the accident is serious, he may have to be shot. But meantime deliveries are set back, promises broken, customers become impatient and dissatisfied, and business is lost. The firm up the street is getting most of this lost business. They do not use horses in their delivery any longer. They use electric trucks. An electric truck is weather-im-

munable. Heat cannot affect it, nor cold. It is ready for action every minute of every day, from Monday to Saturday. It does not have to "lay off" to rest one day in five, like a hard-worked horse. It enables its owner to keep promises, to satisfy customers, to reach out and get new business, and it is always a live advertisement for the firm that employs it.

SATURDAY MORNING, JULY 12.

FLAGGING THE ENGINEER.

The St. John Daily Telegraph reports from The Chatham World (Conservative) a vigorous protest against the administration of Hon. Frank Cochrane, as minister of railways, commencing:

The question that is to be decided very soon is this: will Mr. Hazen, as a member of the Borden Cabinet, permit his Ontario colleague to tear up New Brunswick railways when he pleases to do so—railways that have been built with subsidies given by the Province of New Brunswick for the benefit of the people of the province.

The controversy relates to the proposed abandonment of the "Chesford section" of the Canada Eastern. The Canada Eastern is the line extending from Chatham to Fredericton, purchased some years ago by the Dominion Government. Why the section referred to is to be abandoned we do not know, and we can only hope that this particular matter, quite local in its nature, will be disposed of in a business way, and with consideration for the people who are served by the railway.

But The Daily Telegraph proceeds to frame a general indictment against Mr. Cochrane and his administration of the I. C. R., and we read:

It is not only on the north shore that Mr. Cochrane has broken down the fences of local Conservative politicians. He has made trouble for the Conservative party practically throughout the maritime provinces by his arrogant and unwise treatment of intercolonial questions. The best revenue-producing part of the intercolonial is in the maritime provinces, and the government asserts that the railway recently produced a large surplus, the people in this part of the country naturally expect at least as good a service as they received under Liberal rule. They are not getting it, or anything like it, and they are not disposed to bear neglect, ill treatment, and arbitrary methods with patience.

Now we think that the minister and the people of Canada are entitled to a bill of particulars. The friends of public ownership in Ontario are deeply interested in the proper administration of the Canadian Government railways, whether located in eastern, central or western Canada. We hope to see the intercolonial extended via Toronto to the Niagara and Detroit Rivers and the Georgian Bay. Indeed, we hope the I. C. R. will use the running rights it is entitled to over the Quebec bridge, and the National Transcontinental.

The World took occasion more than once to compliment the splendid tour passenger service given by the I. C. R. during the Laurier administration. We could not speak with the same authority of the freight service given, or of the local service, but we believed that the road was well operated, and did not discredit the principle of public ownership. We naturally incline to the belief that under Mr. Cochrane the service has been improved.

The Daily Telegraph is a Liberal newspaper, but this question is too big to have its discussion colored by mere party politics.

Our friends by the sea sometimes accuse the people of Ontario of looking upon the I. C. R. as a burden borne by them for the peculiar benefit of the maritime provinces. That is not our view. It was the construction of the intercolonial which made confederation possible. The road should give the people first-class service, the best, at the lowest rates consistent with ordinary business management.

The Telegraph may rest assured that any substantial grievance the maritime provinces may have, in respect to the operation of the I. C. R. will command our sympathy, but we would like to have the grievance stated. What has Mr. Cochrane done? What has he omitted to do? To speak of his "arrogant and unwise treatment of intercolonial questions" is indefinite. The man who flags the train should be able to tell the engineer just what is the trouble down the line.

IS IT TIME TO LAUGH? Former Canadians domiciled in Detroit reading the letters patent issued under the Dominion Companies Act to the U. S. Steel Corporation, about to establish a plant on the Ontario side of the Detroit River, were appalled at what appeared to be the sweeping character of the powers granted the great corporation. They could scarcely believe that this gigantic anaconda had been formally authorized to swallow all its competitors in Canada. Hence a despatch was sent to The Toronto Mail quoting the remarkable clause permitting the ab-

sorbing of rival concerns, which is to be found in every charter issued by the secretary of state. The powers granted to every corporation which takes out a charter under the Companies Act are so extensive, varied and unlimited as to be grotesque.

In official circles at Ottawa, the correspondent of The News informs us, much amusement was manifested at the perturbation caused by the grant of powers to the U. S. Steel Corporation, and we are told:

The various steel companies doing business in Canada under the terms of the charter could be secured by the U. S. Steel Trust only by their consent.

This lifts a great load from our minds. Our new neighbor, the Steel Trust, will not be allowed to capture by force of arms the competing plants at Sydney and Sault Ste. Marie. If it wants to swallow these concerns it must procure their consent to the operation.

So long as the companies who make the deal are agreeable, no official in Canada seems to trouble himself about any trust or merger, however gigantic. We have just permitted all the inland navigation companies to consolidate, and thus become a unit in the still more gigantic trust which monopolizes the carriage of passengers and freight from the head of navigation to every port in the United Kingdom. The R. & O. merger was pulled off under this same Companies Act, which places no restriction whatever upon such amalgamations.

Finally we are assured that if the U. S. Steel Corporation did see fit to absorb all of its competitors, "action could be taken under the Anti-Combines Act to prevent the creation of the monopoly in restraint of trade." This would seem to be looking the stable door a trifle late, and, even at that, it is rather unsatisfactory to be told that action "could" be taken.

Would it be taken, and by what official of the government? Is there not a situation here which should be guarded against by restrictive legislation, and what is even more important, by its enforcement?

If the exiled Canadians at Detroit were unduly alarmed, it is quite possible that the state department officials were unduly "amused."

LAND TAXATION.

An excellent article on the business tax and the way to abolish it appears in The Canadian Manufacturer for July from the pen of Mr. A. B. Farmer, who is becoming recognized as an authority on land taxation. His tone in this article is temperate and his proposals moderate compared with many of the land tax ultimatums which enthusiastic prophets promulge. Mr. Farmer even points out that eight or nine years ago the business tax was an advance on previous systems, such, for example, as when a merchant paid taxes on the stock he carried, or that of ninety years ago, when a house was assessed according to the number of fireplaces in it.

Mr. Farmer believes that the business tax is levied according to the unpopularity of the business affected, or the effective resisting power of the interests assailed. The retailers, having the most votes, only pay 25 per cent. Departmental stores, being few in number, pay 35 per cent. Manufacturers, getting protection from the tariff, pay 75 per cent. And the distillers, who have no friends, are swatted 150 per cent.

As these levies are made on the value of the property, the result is that no property is improved. Mr. Farmer adduces many instances to drive this fact home. A case from Lindsay, for example, is that of a manufacturer, assessed for \$3000. The business tax of \$2000 makes a total of \$5000. He would like to spend \$15,000 on new plant, but if he did, his assessment would go up to \$25,000. So he sticks to the old premises.

The recent scientific rating of Weston showed that by assessing the land alone on a perfectly equitable basis, at the same rate of taxation, all the revenue required with a surplus of \$2000 could be raised. The only people who object to land taxation are the land speculators, exactly the people who add nothing to the common wealth of the people of a community. But even the land speculators would find their difficulty only a temporary one, as the general increase in building activities following the adoption of land taxation is the best result for the real estate dealer.

WATCH SWINDLE AT STATION BROKEN UP.

Leader of Gang That Victimized Credulous People Heavily Fined. Detectives Taylor and Twigg succeeded in breaking up another "watch game" gang at the Union Station yesterday, and two members were heavily classed in police court. Carl Phoenix, who is thought to be the leader, paid \$50 and costs or 30 days, and John McNulty \$20 and costs or 60 days. James Day and Fred J. Riddell got off with a warning.

MEDICINE HAT OFFICIALS ACCUSED.

(Can. Press)—Charges of neglect and mismanagement in their care made against Chief of Police Bruce and Magistrate Kealy by Sergeant Canney will be looked into by the city council Monday next. The report of the police department for the past month showed the disposition of fines, but did not mention costs, and the mayor wanted to know where the court costs went. It is as regards costs and their disposition that Canney bases part of his charges made against the officials higher up.

"BACK TO THE LAND" IS ONTARIO'S NEED

Belated Bulletin Shows a Rather Significant Shrinkage in Rural Population.

OTTAWA, July 11.—(Can. Press.)—Agriculture in Ontario for the year 1910, as enumerated under the date of June 1, 1911, is dealt with exhaustively in a bulletin issued today by the census and statistical branch of the department of trade and commerce, which tends to show the trend of population towards the cities and towns and the decrease in the farm holdings in the province.

The rural population of Ontario numbered 1,285,323 in 1901, in 1906 the number was 1,246,969 and in 1911 it had fallen to 1,191,777.

At the date of the census the area of the province was 166,951,638 acres; since then the area has been increased by the extension of boundaries act, 1912, by 33,696,000 acres, or 146,400 square miles, making the present area of the province 200,647,638 acres, or 352,282 square miles, which is nearly three times the area of the United Kingdom and over one and three-quarter times greater than the area of either France or the German Empire.

Area Under Cultivation. The area of occupied land in 1911 was 21,928,706 acres, as against 21,349,524 acres in 1901, and of 21,068,698 acres in 1901, being an increase of 7.7 per cent. in the last decade as against 1.32 per cent. in the previous decade. The land area of the province, exclusive of the new addition which is the district of Patricia, is 141,125,330 acres. Of this only 15,000,000 acres was occupied for agricultural purposes.

The number of farm holdings in 1911 was 223,290 as against 224,127 in 1901 and 256,608 in 1901. This decrease in the last decade has occurred wholly in the case of the smaller holdings, the number of occupiers of less than one acre having decreased by 5659 and that of from one to five acres by 226.

Lake of Bays. One hundred and forty-five miles north of Toronto, on the line of the Grand Trunk Railway, a pretty little town, nearly in the centre of what is known as the Huntsville and Lake of Bays district. The region in this locality is replete with natural beauty and loveliness and comprises some of the most beautiful water stretches and picturesque landscapes for which that portion of Northern Ontario is becoming so famous with the ever-increasing array of tourists, who each year are looking for fresh fields to explore. Very few people, even in Ontario, realize that Canada possesses such a magnificent pleasure ground as the Lake of Bays. Excellent fishing and boating can be found in this district.

Fast trains leave Toronto at 2:30 a.m. daily, carrying Pullman sleeping car and coaches; 10:15 a.m. daily except Sunday, carries parlor-library-buffet car, parlor-library-cafe car and coaches; and 12:01 noon, daily except Sunday, carries parlor-library-buffet car, parlor-library-cafe car and coaches.

These trains make direct connection at Huntsville with steamers for all points on Lake of Bays.

Tourist tickets at reduced rates, good to return until Nov. 30, are on sale to Lake of Bays points, and week-end tickets at single fare, plus ten cents for round trip, good going any Saturday or Sunday and valid to return following date of issue, are also on sale to a great many resorts on the Lake of Bays.

FRENCHMEN TACKLE BLUE SHIRTS AT BEACH. The game this afternoon at the Beach between the Nationals and the Blue Shirts was a lively contest, as the Blue Shirts have not got over their bad luck at Montreal last Saturday by the Frenchmen, and the fact that some of the papers carried the story that the Nationals had not soothed their feelings in any manner. The Toronto's will line up with two new men on their team, Muir, the former Montreal goalkeeper, being in the net, while Barry of the Shamrocks will figure on the defence line. Nationals looked like a "million dollars" in Montreal last Saturday, but Toronto will try to make them look like thirty cents this afternoon. The officials will be Roddy Finlayson, referee, and Pick Lillie, judge of play.

Preston and Hespeler play an International O.A.L.A. game today at Preston, F. C. Waghorne, Toronto, will referee.

The Good Old Days of Merrie England BY RAGGS No. III

PART IV. The records of the convict ship Success and her sister ships of England's felon fleet, should be of educational value to every citizen—the term citizen implying government representation.

If we modern British voters look with horror upon the records of the government of the last generation, on what light, think you, will those who come forward to legislate on the crude legislation of today? Will they think that we might have wholly, instead of partially, eliminated the unjust, the brutal, and vindictive from our laws?

The history of the "Six Men of Dorset," told in the last instalment of this article, is a record of governmental brutality no more arrogant nor unjust than the history of the fight for women's rights, which the present English government has thrust upon England's women.

One hundred years ago, the men who made England a great nation—her great middle class—had no say in the making of her laws. The laws, the Englishman did not make the conditions which disgraced his country. He was helpless—England was a victim of a greedy and brutal policy of her government and its contractors, who let convicts die like rotten sheep, and fed the soldiers of the King on rotten meats.

Responsible for Laws. But we of the present day are responsible for the laws which govern us—those of us who are voters—and those who come after us will not be able to say: "British hearts were true and brave. Great Britain was in the hands of royal rascals." No! They will say: "All the other countries of the world outstripped our country in the course of civilization in those days. Britons had been slaves for so long that they rather liked it—taxation without representation, forcing people to conform to laws which they had no say in making, and treating them as necessary evils."

The "only step forward," they will say, "was when England's women and their sons gained for women political freedom without recourse to bloodshed."

With these "few words" I now proceed to the history of another victim of the convict system of the "good old days."

At the battle of Navarino Charles Anderson, a young bluejacket of 17 years, fighting with all the enthusiasm of his boyish loyalty for King and country, received a head wound which literally "knocked him out."

The young sailor lost his memory and his common sense, and in moments of "maniacal" excitement, the idiot, poor creature, became a man of letters. With a party of drunken sailors in a Devonshire seaport town, he was mixed up in a street row one day, no doubt, and, as a result, although the young sailor, who had lost his reason in the service of his country, was quite irresponsible, he was sentenced to Botany Bay years' transportation to Botany Bay.

Upon his arrival at Sydney, after a voyage on the Success, the horrors of which he is useless to repeat, he was sent to the workhouse. A writer, in an article published in England a few years later, says: "Doomed to a punishment involving the deepest degradation, a crime of the commission of which he was not conscious, the bitterest hostility against his kind took possession of his mind, and he became ignorant, both mentally and morally, he had the idea of patient submission, which, indeed, physical disease rendered impossible. No wonder, then, that violence, created by his fate, his floggings were almost innumerable, but sturdy or staunch, for good or ill, punishment had no effect upon him. His will was to live in to hardness, and kindness was never dream of."

Twelve Hundred Lashes. After two months of torture on the island, this poor boy of 18 braved the sharks (which were induced by judicious feeding, to swim around the island), swam ashore and endeavored to make his escape. He was caught and lashed, and, during the following year, his record, comprises 1200 lashes, all for offences which are recorded in the register as "looking round from his work," "gazing at a boat in the river," and such outrageous breaches of discipline. The poor fellow, who had determined to leap among the sharks again, was recaptured, and, after much lashing, was tried and sentenced to be chained to a rock on the island for two years. The inhuman cruelty of the system was fully illustrated by the case of Charles Anderson. The good people made up little water picnics to see the "Human Chimpanzee," as they called the poor creature. They found it amusing to poke food at him on pointed sticks! Let me remind you that this barbaric took place within a stone's throw of Government House, under Governor Darling, not much over seventy years ago!

When Bourke arrived in the colony and heard of this horror, he sent Anderson back to work at Port Macquarie. There, however, he suffered such tortures at the hands of his brutal jailers that he again made his escape, travelling hundreds of miles on foot. He was recaptured and when some fellow-convicts suggested to the half-witted creature that he should try to escape, he accepted the suggestion with enthusiasm and promptly struck the man on the head with a spade, killing him instantly.

He was sentenced to be in chains on Norfolk Island for life.

The Turning Point. And then came the turning point in the lives of hundreds of convicts. The humane man, Captain Macdonell, was sent to take charge of Norfolk Island. Anderson was now a desperate

character, and, also, only twenty-four years of age, looked an old man.

According to official appraisal he was just the kind of convict for which Norfolk Island was established—utterly reprobate and hopelessly beyond reform. The justification for the assistance of that island of horror was the phenomenally bad character of the people found there, but the story of Anderson and of hundreds like him shows that these outcasts were regularly and systematically developed by the convict system and cultivated up to the phenomenal pitch of rascality which was the effect of the system and not its reason or cause.

Macdonell put Anderson in charge of the island, and a good many thought that the madman and his wild charges would come to grief. But the experiment was a great success. He was patient and kind with the animals, and it is interesting to contrast his treatment of the prisoners with that of his predecessors. He was patient and kind with the animals, and it is interesting to contrast his treatment of the prisoners with that of his predecessors.

Later, Captain Macdonell built a signal station on Mount Pitt and the "Six Men of Dorset" were put in charge. He was never known to make a mistake in signaling the many incoming and outgoing vessels and he made a little garden beside his hut and grew the best flowers and vegetables on the island.

As he regained his self-respect, Anderson revealed a kind heart and a jolly disposition. However, not long after Macdonell (who had restored him and hundreds of other convicts to the "Six Men of Dorset" by his philanthropic labors, Anderson was sent to a lunatic asylum—where he died.

The Prison Pest. Owen Henry Suffolk, author-organizer, evolved through the workings of the "system," was the son of a London merchant's junior postoffice clerk. In a moment of temptation he opened a money letter, and there being no "Six Men of Dorset" in those days, he became known as the prison-pest of Australia. A verse from "The Dream of Freedom," written on board the "Success," will give an example of his work, and give some idea of his repentance:

"In the captive's dream of fancy wild, He looked no more on the man of care; His gaze was fixed on a beautiful 'good old days' prayer. Who knelt at his mother's feet in prayer, His little hand was clasped—its eyes were to Paradise; His simple words of faith and love were registered in Heaven above; Recorded there with angels' tears As they wept over the hopes of the coming years. And saw it fettered to future guilt."

Yet he robbed mail coaches, stole horses and became a notorious bush-ranger. A few years later he wrote:

"Place me in a forest glen, Unfettered, wild, and free, With fifty tried and chosen men, A band chief to be, 'Tis there when fighting with my foes Amidst my trusty band, I'll freely leave this world of woes, And die with sword in hand."

"Yet Suffolk would be melted to tears at a recollection of his early life and home. By chance, he saw in "The Missing Friends" column of the Melbourne Age an appealing advertisement from his heart-broken mother in England imploring him to make his whereabouts known. He never answered the advertisement, but his true feelings for her were shown

in a pathetic verse found in his camp. The last line of the little rhyme are a sad commentary upon the workings of the system:

"My onward way must be a path of darkness and of pain, But I must tread it all alone—I cannot come again."

When the prison ships were abolished and the prisoners were taken ashore "The Melbourne Age" offered a £100 prize in open competition for the best story of a convict's life. Owen Suffolk won the prize with his "Days of Crime and Years of Sufferance," a really fine literary performance.

SUFFERED TERRIBLY WITH HAY FEVER

Until "Fruit-a-tives" Completely Cured Her

MRS. HENRY KEMP. Cornwall-Centre, Ont., November 27th, 1911.

"I was a martyr to Hay Fever for probably fifteen years and I suffered terribly at times. I consulted many physicians and took their treatment, but I tried every remedy I heard of in good for Hay Fever. But nothing did me any good. Then I tried 'Fruit-a-tives' and this remedy cured me completely. I have not heard of Hay Fever—'Try Fruit-a-tives.' This fruit medicine cured me when every other treatment failed, and I believe it is a perfect cure for this dreadful disease."

Some practical aspects of the forestry movement were introduced to the members of the Canadian Forestry Convention, Winnipeg, by Mr. Vere C. Brown, superintendent central western branches, Canadian Bank of Commerce.

As the views of the business men, the suggestions and ideas formulated in Mr. Brown's address are of interest to a large and popular audience.

The members of the association were assured that they had the support of both the premier and the leader of the opposition in the matter of having a broad national forestry policy, and with this in view, a great forward stride was commenced. Mr. Borden and Sir Wilfrid Laurier are quoted to the effect that a survey of the entire country for the purpose of dividing the forest lands from the suitable for agriculture, would meet their warmest approval. Something has already been done along this line, but the survey has proven altogether inadequate. A specific and detailed map, if prepared, would probably be distributed throughout the country, the funds for same provided from the government's suitable oil, especially in view of the fact that a large saving of operating expenses will result from the application of once made for legislation to make the use of oil compulsory.

A valuable recommendation was that introduced some time previously by Archdeacon Renison and brought to renewed notice by Mr. Brown, that of using the Indians as fire rangers, their native and cultivated experience of the woods making them peculiarly fitted for the task. Extra rangers are also needed. An active and organized campaign by the provincial government to educate the farmers of the prairie provinces on the value of trees is a necessity to the interests of those localities.

In concluding his address Mr. Brown urged strongly the appointment of a committee to petition the government and to press insistently for legislation and necessary money grants. Also to ask the organization to make legislation effective.

Attention to the removal from the sphere of politics, of both the Dominion and provincial forestry services, was urged and the petitioning of the government at Ottawa for the establishment of a forest products laboratory commended.

The matter of the substitution of oil for fuel by the railways is an important factor in the preservation of the forests. The Canadian Pacific has done admirable work in the installation of oil burners between Kamloops and Field, B.C., and also on a stretch of their Vancouver Island line. If other lines will not voluntarily use oil, especially in view of the fact that a large saving of operating expenses will result from the application of once made for legislation to make the use of oil compulsory.

**CUBAN EXPERT WINS.**

NEW YORK, July 11.—Making a combination, ten moves deep, against Oscar Chajes, erstwhile western chess champion, D. Masters' tournament of the Rice Chess Club, today, Jose R. Capablanca of Havana forced a brilliant win and notched his fifth straight victory. Chajes, who had hoped would give the Cuban champion the fight of his life, but who was

taken by surprise with the combination referred to, resigned after 32 moves had been recorded.  
Altho the former Chicago expert had been beaten before in this tournament, he was regarded as one of Capablanca's most formidable opponents, and the path of the latter to ultimate triumph has been cleared considerably. The opening today was the Ruy Lopez, selected by Capablanca.

**CADILLAC RENEWED CARS**

When buying a used car, quality should be considered. Unless an automobile has "quality" in every point, it will not give satisfaction when it is sold as a used car. A renewed Cadillac will give you greater service than any other new car at the same price. We have a few renewed Cadillac Touring Cars which can be seen at our showrooms—models of 1909, 1910, 1911 and 1912—at prices ranging from \$800 to \$2000.

**GRAND CIRCUIT AT CLEVELAND CHAMPIONSHIP TROT FOR ANVIL**

Final Division of Tavern Stake Won by Eulabel—Star Winter, an M. and M. Candidate, Won the 2.19 Trot—Pittsburg Next Week.

CLEVELAND, July 11.—The first Grand Circuit meeting of the year came to a close at North Randall track today, with four trotting events, that brought out a fine quality of sport.  
As was the case yesterday, outsiders shared honors with the favorites. The Tavern "steak," conceded to Dago F. because of his form on the previous Monday, was won by Jean Arion, who had found a backing even for place, altho Eve Cord, driven by Geers, was expected to win it with ease.  
It was in the last two events of the day that the favorites managed to break even. The championship trotting sweepstakes went to Anvil, as expected. The veteran driver, Ed. Geers, pushed Anvil around the oval in the remarkably fast time of 2:04 1/2 in the first heat, and coming right back in the next and conceding a heat with a mark of 2:04 1/2.  
In the last event of the day—the 2.19 trot—Star Winter, the first choice in the betting, had little difficulty in performing to the form expected of him.  
The first event on the program was the 2:09 trot. Eve Cord, the favorite, got away to a poor start in the first heat. Derby Boy and Jean Arion fought it out from the first quarter, but coming into the stretch Jean Arion took the lead and won handily. The repeater in the second heat, after Elizabeth Ray had pushed her hard to the half, in this heat Eve Cord showed her supporters enough speed to finish in second place, and in the next Jean Arion had pushed her to the limit. However, her fine finishing qualities brought her nothing better than second money.  
The finals in the Tavern "steak" race for 14 trotters, all drivers amateurs, the preliminaries of which were trotted on Monday, brought out some fine sport. Dago F. lived up to expectations by taking the first heat easily, but in the next heat Eulabel surprised everybody by leading the favorite in the stretch, after tipping had brought Dago F. under the wire with the whip.  
Only the heat winners took part in the third and deciding heat. Eulabel demonstrated that her showing in the second heat was not a fluke by taking the heat and race in neck-and-neck combat, which drew Dago F. in the next. Eulabel, owned by J. J. Mooney of Toledo, is the first Ohio horse ever to win the Tavern "steak."  
The mare was driven by Parlee Mitchell.

GIANTS WALLOPED CUBS

GAW BLEW UP, LEAFS BEATEN MONTREAL IN TEN INNINGS

Kelleyites Pile Up Good-Looking Lead Early, But Poor Pitching Failed to Hold It—Score Seven to Five.

Never count your chickens before they are hatched. The two thousand odd fans that crossed the bay yesterday afternoon to see the hired braves of James J. and our esteemed friend Sammy, he of the loud waistcoat, had it all topped out for the Leafs' fifth straight win, but then the Royals had to find out all their calculations. The locals were far enough out in front at one stage to play rag and pray for the closing whistle. Gaw took a trip up to the clouds later and the Royals tied it up. Buster Brown finished this game and Montreal had to go to 10 at the end of ten innings.

Del Mason, the human beanpole, flung them up for Brantford and he was very much. The Kelleyites found him to their liking and it would have done your heart good to see the way they were stepping into his slants. Base hits were as plentiful as oranges on the glorious 12th, and the runs came nearly as thick. For seven long innings there was not a cloud in the fans' bright sky, but a terrific gale blew up in the eighth and with it came enough runs for the Royals to tie the score. Gaw had lost all control and when Buster Brown went to the bridge in the ninth, it looked as if the slip might at least hold her own. It was not to be. Another nasty puff blew up in the tenth and it was all over but the journey across the bay to supper and explanations to the rest of the family.

Now for the horrid details. The Brantford kids were first to show with a single counter in the second. It practically was a gift, for Fitz booted Madden's roller on what should have been the third out, after Yeager had singled. Purcell then drove to deep centre for two corners and Yeager was in. Madden was ripped off at the plate by a fast return from the outfield.

The Leafs started in to while Mr. Mason in the third and they did it in style. Benis opened with a double and moved up to third on a balk. Gaw rolled out, but Fitz singled to left and Benis came home. O'Hara was an infield out. Shultz supplied a single that scored Fitz, but was thrown out trying to make second on the throw in.

The next netted two more for Kelley. Northern got a shabby. Alf. Captain Bill had grounded out. Hugh Bradley came thru with a beautiful triple that contained Northern and Benis came home. A moment later on Holly's single. This left the count 4 to 1.

A double and a single gave Montreal a run in the sixth and it was 4 to 2. One corner raps by Fitz, O'Hara and Shultz marked up run number five for Toronto in the seventh, but then the downpour came.

Gaw hit Delinger to start the eighth. Demmitt popped up and Lennox followed suit and was called out for running. Into Hugh Bradley who was getting in his weak fly. Joe Yeager had been chazed out of the grounds for talking back to umpire Owens, who's first disappearance act in all his 18 years in the game. Esmond was lame, but he had to go to the hot corner and drew a base from Gaw.

The tall youngster had lost all control and handed Madden a walk also. This filled the bases and Purcell stepped up. Gaw was sure he was going to get one over on Yeager and grooved the first to Purcell without a thing on it. The Leafs then stop rapped to deep right and all three batters were stranded. The Leafs' score was 3 in 8, off Smith 3 in 8, off Brown 3 in 8.

DOUBLEHEADER TODAY

The Leafs and the Royals will wind up the series with a doubleheader at the hot corner today. The first game is due to get under way at 2 o'clock, and the Leafs pitchers for the two battles will be Delinger and Lennox.

REAL BAD ACTORS

PROVIDENCE, R.I., July 11.—Pitchers appeared on the field yesterday apparently in an intoxicated or semi-intoxicated condition. Bell was so badly off that he did not get into uniform and sat on the bleachers with the spectators, calling to the other players in a boisterous manner. Burgess was in uniform, but his condition was apparent to everyone.

SUPERBAS LOSE SERIES TO REDS

BROOKLYN, July 11.—Cincinnati winning again today, took all four games of the series with Brooklyn. Bent pitched shut-out ball up to the eighth inning, in the fourth inning he was replaced by Stock who blanked the visitors during the remainder of the game. Devore made four hits in five times at bat. Score: Cincinnati 4, Brooklyn 0.

LEAGUE LEADERS SUFFERED SETBACK

ST. THOMAS, July 11.—The Canadian League leaders suffered a severe setback here today when Dave Rowley's Petrols surprised and won both games of a double-header. The Leafs' win was directly responsible for the loss of the opening contest, forcing in two runs, while the visitors won the second game by taking advantage of the Saints' misplays in the fourth. Tracey was strong up to the last inning, when the locals fell on him, and six runs were scored before the side was out. Scores: 1. Petrols 7, Leafs 3. 2. Petrols 4, Leafs 0.

Hamilton Pitcher Blew Up in Seventh After Holding Guelph Runless.

GUELPH, July 11.—The Guelph Maple Leafs took the second game of the series with Hamilton here this afternoon by a score of 5 to 0. It was one of the most exciting games of the season, and was marked with several features.

ST. LOUIS GOT TYLER IN SIXTH FOR FOUR

Boston Rallied Also But a Change of Pitchers Stopped Their Efforts.

BOSTON, July 11.—Tyler, the Boston pitcher, had one bad inning today, and St. Louis won the last game of the series by a score of 6 to 4. While running the third base in the sixth inning, Miller Huggins, the manager of the St. Louis team, was hit on the left side of the head and rendered unconscious.

ATHLETICS MADE IT TWO OUT OF THREE

Chief Bender Held Naps at His Mercy—Kohler Was Forced From Mound.

CLEVELAND, July 11.—Philadelphia made it two out of three today, defeating Cleveland by 11 to 5. Bender had Cleveland at his mercy until the seventh when he eased up and allowed hits, which scored five runs. Kohler was driven from the box in the sixth, the Athletics having then scored eight runs. Blanding, who finished in the box, was poorly supported.

Eleven to One Was the Score Against Chicago When Highlanders Got Thru.

CHICAGO, July 11.—New York played a slugger game today and defeated Chicago 11 to 1. Buck O'Brien, the former Boston twirler, made his debut in a Chicago uniform and was hit so hard that he had to retire in favor of White. White pitched the game and became a hero, the visitors scoring seven runs before a man was retired. C. Smith was sent to the rescue and he had difficulty in preventing New York from scoring. Kenning was almost invincible, allowing a man getting five hits, only two of which were bunched. Cree hit the ball over the left field fence for a home run with the bases full. Score: New York 11, Chicago 1.

# NEWS OF WESTERN ONTARIO

## PLAN TO ENLARGE FAIR AT GUELPH

Provincial Grant to Aid Construction of Horse Arena Is Urged.

GUELPH, July 11.—(Special).—At a meeting of a joint committee, composed of representatives of the city council, board of trade and Guelph Fair Stock Club, in reference to the proposed extension of the winter fair, it was decided to issue a circular letter, which will be sent out to every county in Western Ontario, to every member of the legislature and to all the agricultural associations interested in the winter fair, with the object of securing a government grant for the new horse arena.

The committee intend to take no chances on anything, but will push the matter for all it is worth until a suitable building is secured.

## ARRESTED AT BORDER THEY'RE COMING BACK

Mayette and His Female Companion Have Returned to Toronto.

SARNIA, July 11.—(Special).—Eugene Mayette and his female companion, who were detained here as a result of the refusal of the American immigration officials to allow them to go thru to Chicago, were brought before the police magistrate this morning with the charge against them of violating the immigration laws. The charge was withdrawn and they were formally discharged.

## INTEREST PUPILS IN PLANTING TREES

Part of Work Canadian Forestry Association Is Doing, Says Norman M. Ross.

## PLANTS GIVEN GRATIS

Twenty-Four Million Seedlings and Cuttings Sent Out by Department.

Norman M. Ross, chief of the tree planting division of the Canadian Forestry Association, has given a survey of the work done by his department during the twelve years of its existence. The object of this branch of forestry is to create interest among settlers in the matter of planting trees for the purpose of shelter, fuel and small wood supplies for the farm.

In 1901 a system of free-plant distribution was organized and from that date to the present, approximately 28,000,000 seedlings and cuttings of white spruce, jack and lodgepole pine, Scotch pine and Colorado spruce, 14,507 in all have been distributed. The nursery station at Indian Head, and a second lately started near Saskatoon, are the headquarters of the distribution.

Prominence is given to the importance of awakening an interest among children and giving encouragement to tree-planting at school. This spring there were 85 applications from schools in the west. It is noted, however, that there are more failures in school plantations than in any other. These failures are attributed to the frequent changes among teachers and trustees. On the other hand it is pointed out that where success has been obtained it has been due to the interest of some one individual particularly enthusiastic in the subject.

## "EASIEST WAY" WAS TO BURN STOLEN FINERY

But Mother's Action Didn't Keep Aurora Lad Out of Trouble.

Fercy Harmon, 15 years of age, of Aurora, pleaded guilty in police court yesterday to the theft of a dress and two blouses from the Metropolitan Station at Aurora. He gave the clothes as having been stolen from his mother. The mother said, as soon as she learned they were stolen she burned them, as she did not want stolen property around the house. The boy cried while giving the evidence, sobbing out that he would pay for the goods if only allowed to go back to his mother. He was let go on suspended sentence.

## MARRIED A WEEK KILLED BY TRAIN

Rupert Hughes, Brakeman, of London, Meets Death at Guelph.

GUELPH, July 11.—(Special).—Robert Hughes of London, a young brakeman, was instantly killed this morning in the C.P.R. yards at Guelph Junction while switching cars. The wheels of the car passed right over the middle part of his body, terribly mauling him. The crew on the train all came from London. It is surmised that Hughes tripped and fell under the moving car. He was an experienced man on the job, very well known in his home town and extremely popular with all railroad men traveling in or out of London.

A pathetic feature of the case is that Hughes had been married just one week. He is survived by his widowed mother also, and a brother and sister are left to mourn his loss.

## YOUTHFUL THIEVES FLOGGED

GUELPH, July 11.—(Special).—Police Magistrate Watt inaugurated an innovation here today when he ordered that two boys fifteen years old be taken into the police cells and flogged for theft. The sentence was carried out and both boys were given five blows across the back.

## AGROUND IN THE ST. CLAIR

SARNIA, July 11.—(Special).—During the heavy fog on the river early this morning the steamer Steven Clement of the Mitchell fleet went aground in St. Clair River just below the Muelter Manufacturing Co.'s plant. The steamer was released after a few hours' delay and proceeded on her way.

## TEACHING OWNERS TO CARE FOR TREES

Forestry in Ontario Subject of Address by E. J. Zavitz, Ontario Forester.

## RECLAIMING WASTES

Four Hundred Thousand Plants Are Sent Out Annually by Government.

"Forestry in Ontario" was the subject of an address delivered lately by Mr. E. J. Zavitz, forester for the province of which he treated.

Today, Mr. Zavitz told his hearers, there remains only nine per cent. of inferior woodlands along the south and west shores, where the first settlers of one hundred and fifty years ago found a magnificent and unbroken forest of hardwood and pine. Many districts are fast approaching a treeless condition under the axe of the settler and lumberman. In some parts cleared inferior soils have become a menace.

To improve conditions education of public opinion and encouragement to reclaim waste lands are the things needed. The fact that many are averse

to new methods, and that only a few even of our landowners give their woodlands care, are obstacles to be met in carrying out the campaign. The department of forestry in Ontario gives encouragement in the shape of free planting material, bulletins and any advice which may be of benefit. Reclamation of waste lands by forestry is another effort of the department. An example of this is the Norfolk Forest Station, started in 1903, when about two hundred acres were planted with white pine, Scotch pine, red pine, jack pine, spruce, black locust, chestnut, red oak and other species. At this forest station is a nursery when plants are produced for the locality, and for distribution to private landowners through the province.

Experimental plantations are another feature of the work. In 1905 the distribution of planting material was begun, and today there are experimental plantations in every county in old Ontario. To carry on these plantations about 400,000 plants are sent out annually. Results are already in evidence from the earlier settings, and it is hoped that they will be instrumental in inducing others to reforest the poorer soils on farms.

To reclaim and reforest the greater wastes of the province it will be necessary for the state municipality, or

**PAY JUDGMENT OR HE'LL CLOSE GOULD**

A. J. Estes, Montreal Broker, Says He Wasn't Outvoted at Meeting Last Spring.

"My attorneys have instructions to demand payment of the judgment for about \$1300 by next Tuesday, and unless it is satisfied we will seize whatever interests the Percuine Syndicate or the Gould interests have," said A. J. Estes, the Montreal broker, to The World last night.

He denied the report that the Estes interests had been outvoted at the meeting of shareholders of Gould Consolidated last spring. "They didn't outvote us simply because we didn't attend the meeting and we didn't attend because I thought the call for the meeting was irregular, and the share of the company wrong. Not a share of our interests voted. At that time I held more stock than all the new directors elected held together."

Mr. Estes for two years was president of Gould Consolidated. His only interest in the company now is the \$1300 judgment.

He had nothing to say regarding the condition of the property.

SYNOPSIS OF DOMINION LAND REGULATIONS

ANY person who is the sole head of a family, or any male over 18 years of age, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta.

Application for a homestead must be made in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon the land and cultivation of the land in each of three years in cartoned districts. Five acres of land in each of three years on a farm of at least 30 acres solely owned and occupied by him, or by his wife, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt quarter section alongside his homestead. Price \$3.00 per acre.

Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a homestead may enter for a purchased homestead in such places as are open to purchase at \$3.00 per acre. Duties—Must reside six years in each of three years, cultivate fifty acres and pay taxes worth \$300.

W. W. CORY, Deputy of the Minister of the Interior, N. B.—Under the provisions of the advertisement will not be paid for—\$688

TENDERS FOR PULPWOOD LIMIT

TENDERS will be received by the undersigned up to and including Friday, the 15th day of August next, for the right to cut pulpwood on a certain area tributary to the outlet of the Woods, in the District of Kenora.

Tenders shall state the amount they are prepared to pay as bonus in addition to the price of the wood, and also the price per cord for other pulpwoods, or such other terms as may be fixed by the Minister of the Interior, in Council, for the right to operate a pulpwood cut in such places as are open to tender.

Such tender shall be required to erect a mill or mill on or near the territory, or in such place as may be approved by the Lieutenant-Governor in Council, and to manufacture the wood into paper in the Dominion of Canada.

Parties making tender will be required to deposit with their tender a marked cheque payable to the order of the Minister of the Province of Ontario, for ten per cent. of the amount of their tender, to be forfeited in full if their tender is not entered into an agreement to carry out conditions, etc.

The high or any tender not necessarily accepted.

For particulars as to description of territory, capital to be invested, etc., apply to the undersigned.

W. H. HEARST, Minister of Lands, Forests and Mines, Toronto, Ontario, May 20, 1913.

TORONTO GENERAL HOSPITAL TENDERS FOR COAL

Sealed Tenders will be received by the undersigned up to 10 a.m. on THURSDAY, JULY 17TH, for the following coal: Soft Coal Screenings, about 7000 tons; Anthracite Coal, stove size, about 75 tons.

All the above coal must be of the best quality, the mine to be specified from the contract, and the coal to be delivered into the bunkers at the Power House, Toronto, and the tenders to be made at such times between July 25th, 1913, and June 30th, 1914, as the Trustees may specify. Coal to be weighed on the Hospital scale.

The Trustees reserve the right to award separate contracts as they may see fit for any of the foregoing, and shall be required to accept delivery only of such quantities as they may find necessary.

Security will be required, and a contract for the coal to be made in the usual and proper manner of delivery must be executed by each party whose tender shall be accepted. The Trustees are not bound to accept the lowest or any tender.

COST OF LIVING TO YOUNG WOMEN

More Than Five Hundred Dollars Yearly Is Lowest Figure.

IF MUSIC IS STUDIED

And All Necessities Are Reduced to Lowest Possible Price.

When an Ithaca paper announces that the high cost of living has been solved by Miss Clara S. Loewus of Towanda, Pa., a student of the violin at the conservatory, who has established a record for herself as one who can live on the modest sum of 50 cents a week, the paper forgets that living consists of something more than mere eating and drinking. Even the lilies of the field have need of raiment and the birds of the air require a nest and shelter.

Abstemious as the young lady from Towanda may be in the matter of diet, she too has need of clothes and a place to sleep in, and it is safe to say that were her outlay in all directions gathered together into one big unit, the resultant would scarcely be as modest in appearance as the little 50 cent outlay for food would lead one to expect. One who made a study of the subject, announced in a magazine article some time since, that the very least sum that a student of music can live upon in Germany is \$12,000 a year. In America, whether a girl is at home or on boards in an outside city, the outlay will doubtless make running strides to keep up with the \$12,000 outlay abroad.

The menu outlined as the one upon which the lady on the other side of the line subsisted, reminds one of the lad, who when asked what he had for breakfast, replied "parritch." "What do you have for dinner?" was the next question, to which the reply was the same. And what for supper? asked the persistent interlocutor, but the answer was still "parritch." "Do you never have tea?" said the surprised questioner. But the boy opened his eyes with amazement and said, "Why, you must think it's New Year's Day."

Too Much Peanuts. Miss Loewus' diet was tea, toast and peanut butter for breakfast, peanut butter, stale bread and cocoa for luncheon, stale bread, peanut butter, a boiled potato and dairy butter for dinner. There are not many whom this bill of fare would offend when it is included in the word "living" for a student in a city.

Take Toronto, for example. The very least for which a girl can get a furnished room in a respectable locality at the present time is \$3 per week. Even if she gets her breakfast in her room—something that is always on the quiver for extra outlay in order to devote her time to her studies, get her luncheon and dinner out. Even tea and toast means 10c, or soup and bread 15c. Then the evening meal costs another 20c. Putting the cost of breakfast, coffee and toast—at 5c, the cost is 40 cents a day for food alone. This is how things are under the normal conditions of today. Can fare is often a necessary item. Putting this at 50c a week is striking a low average. Lessons in any branch of music now-a-days, means anything from 50c to \$3 each, or from a dollar to \$6 weekly. Another average of \$2.50. Here we have: Room per week \$3, food \$2.80, car fare 50c, tuition \$2.50, total \$9.80, or something over \$10 per year. If two lessons a week were taken the estimate would be very nearly doubled.

Lowest Basis. This is putting things on the lowest basis, as they are in actual life today. Clothes, traveling expenses, laundry, stationery, lectures, books and the thousand and one incidentals to which student life is subject, would even on this side of the line and without the outlay entailed by long sea and land journeys, mount very near the \$12,000 estimate of the magazine writer quoted.

Even were the meagre diet credited to the girl from Ithaca practicable in her particular instance, its feasibility is altogether out of the question when the health of the ordinary student is concerned. The problem of high living is we fear, not yet solved.
