possible image / Les pages s'opposant ayant des  
colorations variables ou des décolorations sont  
filmées deux fois afin d'obtenir la meilleure image  
possible.

This item is filmed at the reduction ratio checked below /  
Ce document est filmé au taux de réduction indiqué ci-dessous.

A horizontal scale bar with labels for various magnification levels. The labels are: 10x, 14x, 18x, 22x, 26x, 30x, 12x, 16x, 20x, 24x, 28x, and 32x. Each label is positioned above a corresponding set of empty square boxes.

The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUE"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

BULLETIN No. 202

Borax (Examination for Arsenic.)

OTTAWA, March 17, 1910.

W. J. GERALD, Esq.,  
Deputy Minister of Inland Revenue.

SIR,—I beg to hand you herewith a report upon the examination of 151 samples of Borax collected throughout Canada in December last.

The inspection has regard to the contamination of this article by arsenic. Borax is very largely employed as a preservative for meats, butter, and other articles of food and it is consequently of great importance that it should be free from arsenic, or other dangerous impurity. One hundred and thirty-five (135) samples are found to be entirely free from arsenic. The remaining sixteen (16) samples contain the following amounts of arsenic ( $As_2O_3$ ) per 100 grammes; also stated as parts per million.

No. of Sample.	Milligrammes per 100 grammes.	Parts per million.

41777.....	0·2	2
39589.....	0·2	2
42681.....	0·2	2
41624.....	0·2	2

The effective dose of arsenic named by the British Pharmacop<sup>e</sup> varies from 1 to 4 milligrammes. We possess no standard of purity for borax as regards arsenic, but it is safe to say that even the maximum amount found cannot be regarded as dangerous to health.

I have the honour to be, Sir,

Your obedient servant,

A. MCGILL,

*Chief Analyst.*
