This item is filmed at the reduction ratio checked below/ Ce document est filmé au taux de réauction indiqué ci-dessol's.

The copy fllmed here has been reproduced thanks to the generosity of:

Harold Camptell Vaughan Memorial Library Acadia University.

The images appearing here are the best qualliy possible cansidering the condition and legibilty of the criginal copy and in keaping with the fliming contract specifications.

Criginel copies in printed papor covers are filmed beginniag with the front cover and ending on the last page with a princed or illustrated impression, or the back cover when appropriate. All other original copies are fllmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated Impression.

Tho last record3d framo on each microflche shall contaln the syinbol $\rightarrow$ (meaning "CON. TINUED"), or the symbol $\nabla$ (meenirg "END"). whichever applies.

Maps, plates, charts, otc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following dlagrams illustrate the method:

L'exemplaire filmé fut reproduit gràce à la générosité de:

Harold Campbell Vaughan Memorial Library Acadia University.

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de le netreté de l'exemplaire fllmé, er en conformités avec les conditions du contrat de fllmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont fllmés en commençant par le premier plat ot en terminant soit par la derniére page qui comporte une emprainte d'Impression ou d'illustration, solt par le second plat, selon le cas. Tous les autres exemplaires originaux sont flimés en commençant par la premidre page qui comporte une empreinte d'Impression ou j'illustration ec en terminant par la dernidre page qui comporte une telle empreints.

Un des symboles suivants apparaitra sur la dernlère image de chaque microfiche, selon le cas: le symbole $\rightarrow$ signifle "A SUIVRE", le symbole $\nabla$ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent ätre filmés à des taux de réductlon différents. Lorsque le document est trop grand pour àtre reproduit en un seul cllché, il est fllmé à partir de l'angle supérieur gauche, de gauche à droite. ot de haut on bas, en prenant le nombre d'images nécessairs. Les diagrammes suivants illustrant le méthode.

## REPORT ON THE ORGANIZATION

- OF -

## M ${ }^{c}$ MASTER UNIVERSITY

AND OTHER

MATTERS PERTAINING THERETO

SUBMITTED TO THE

SENATE AND BOARD OF GOVERNORS

March 6Th, 1889.

# Gieport on the (1)xamization of dtletaster duibersity 

AND OTHER MATTERS PERTAINING THERETO.

## To the Senate and the Board of Governors, McMaster University :

Gentlemen:-The following report on the organization of McMaster University and nther matters pertaining thereto, is submitted for your consideration and action, at your meeting to be held at McMaster Hall, Wednesday, March 6th, 1889.
Your attention is especially called to the following points in the report :

1. In the Act incorporating McMaster University, Sec. 12), the power to confer degrees vested in the senate is conditionel as follows: "Provided the conrse of study prescribed for Matriculation into the said University shall in no essential sense differ or vary from that prescribed for Matriculation into the University of Toronto ; and in respect to any degree which the said Senate has power to confer, the course of instruction and the scope of the examination for such degree shall be as thorough and comprehensive as the courses and examinations for corresponding degrees in the University of Toronto." This nakes it imperative upon the Senate in prescribing the Curriculum and Courses of instruction for McMaster University to make a careful examination of the Curriculum and Courses of instruction in Toronto University. To assist in meking this examination I have given in this $r^{\prime}$ ort in fnll, from official documents, the Pass Course and three departments of the Honor Course, of the Curriculum of Toronto University.
2. To assist in making the necessary comparison between the Curriculum and Courses of instruction of the Torouto University, and the proposed Cnrriculnm and Courses of instruction for McMaster University, I have given, in full, on pages 6-9, the Pass Coarse of Toronto University, side by side with the proposed Courses for the degree of Bachelor of Arts and of Bachelor of Theology, in McMaster University. I have also given tables showing the number of lectures per week delivered upon the subjects of the Curriculum of Teronto University, and the proposed number of lectures per weci: to be delivered upon the subjecte of the proposed Courscs for McMaster University. To this is added notes calling attertion to points of comparison, important to be observed.
3. In the organization of McMaster University the Theological Departnent inust receive the special consideration of the Senate and of the Board of Governors. This is binding upon them in view of the special provision in Mr. McMaster's Will, which is as follows: "That the balance of such income, after payment of all
necessary expenses and outgoings connected with the administration of my estate, shall he paid over from time to time as the same shall come to the hands of my said trustees, to the Board of Governors of the zaid University, to be by them employed for the purposes of the promotion of the work of the said University, as and how shall seem to them best; provided, however, that in order to secure to Toronto Baptist Coliege not less than the amount I ani now paying thereto, which I feel bound to provide, shall always be assured thereto, the said Board of Governors shall devote not less than Fourteen thousand five hundred dollars per amnum of the moneys which shell become payable to them hercunder to the proper purposes of Toronto Baptist College, as the Faculty in Theology of the said University."

This provision makes it imperative that not less than $\$ 14,500$ be devoted annually to the "proper purposes of Toronto Baptist College." In interpreting, however, this provision, careful note inust be made of what is included in the "proper purposes of Toronto Baptist College." What this includes can be interpreted only by taking into full account the extent and nature of the work done by the College during the lifetime of Mr. McMaster, and under his own immediate supervision as Chairman of the Board of Trustees. The attention of the Senate and of the Board is therefore directed to a careful examination of the work done by the College when the amount named in the Will was required ancually for its support. For information on this point, reference should be made to the Catalogues of the College for 1884.85 and 1885.86. In this connection attention is also directed to a careful comparison of the proposed Course of instrnction for Toronto Baptist College as a department of McMaster University with the Courses contained in the Catalogue of the College for 1885-86. This comparison will make apparent that the proposed Course includes all the work that was done by the College at the time when the aggregate annual salaries amounted to $\$ 14,500$. This, without doubt, is the time to which the provision of the Will refers. In examining the proposed Course it will be seen that it contains much more than is included in the former Courses, and must therefore add materially, if adopted, to the amount of work done by the College.
4. Special attention is directed to the facts presented in this report with reference to the opening, at an early date, of the Arts Department of the University, the erection of an addition building for Moulton Ladies' College, and the erection of an additional building in connection with McMaster Fall for the accommodation of the Arts Department.

## Pasm Course in Toronto University for the Degree of Bachetor of Arts.

## FIRST YEAR.

GREEK.-Demosthenes, Philippics I, II; Homor, Odyssey, VII ; Greek Grammar.
LATIN.-Livy, B. x $\quad$ iII; LIorace, Odes, 1; Translation from English iuto Latin Prose; Latin Grammar; Translation, wlth id of dictionaries, of easy passaces from Latin authors not spacified.
IISTORY.--1. The origin and various sources of civilization. 2. From the Pursian War to the Achean League, inclusive. Grote, chaps. xxxv, xxxyi, xxxvil, xhi, vilv, xLVI, LxVI, Lxxi, Lxxvil, lxxix, lxxxyi, xci; Thirlwall, Chaps. Lx., Lxill. 3. Mommsen, B. III., Chaps. 1-vi, xill, xiv; B. IV, Chaps. xi, xiI;
 Lxi, Lxvil.
ENGLISH.-History and Etymolugy of the English Language; Rhetoric; History of Engligh Literaiure, temp. Elizabeth and James I; Shakespeare, Critical Reading of As You Liks Ir.
FRENCH, or GERMAN, or ILEBREW.-French: Grammar Dictation ; Composition ; Translation of unspecified pausages ; Outline of the Ifistory of French Literature; Scribe, Le Verre d'Eau.

German: Grammar; Dictation; Composition; Translation of unspecitled passages; Outline of the History of German Literature; Schiller, Belagerung von Antwerpen; Dis Kraniche des Ibycus.

IIebruvo: Essentials of Hebrew Grammar; Genesis, 1, II, III, xxIV, xxxvil, xLII; Exodus, xx, xxxi1; Numbers, xxili; I Samuel, xvn; II Samuel, xiv ; Translation of easy sentences from English into Hebrew.
MATIEMATICS.-Algebra, Equations, Proportion, Progressions ; Euclid, B. Iv, ri, and definitions of B. v; Trigonometry, as far as solution of Plane Ti iangles.
NATURAL SCIENCES.-Chemistry, Elementary Inorganic Chemistry ; or, Biology, Rudiments of Anlmal and Vegetable Physiology and Morphology ; or, Geology, Elementary Geology (including Elementsof Physical Geography and Palæontology).

Honor Course in the Department of Ciansicn in Toronto Iniversity for the Degree of IB,A.

## FIRST YEAR

GREEK.—Demosthenes, Philippics 1, II; Homer, Odyssey ViI; Demosthenes, Philippics 111 ; Pro Rhodus. Homer, Odyssey 111 ; Translation froin Finglish into Greek Prose; Greck Grammar and Philologv ; Translation from Greck authore not specifed.
LATIN.——Livy, B. xxiII; Horace, Odes, 1; Ciccro, Pro Sestio and Tusculan Disputations, iv ; Virgil, Georgics, B. 1; Transla tion from English into Latin Prose ; Latin Grammar and Philology; Translation from Latin authors not specified.
KNGLISA. - History and Etymology of the English Language; Rhetoric; History of English Literature, temp. Elizabeth and James I; Shakespeare, Critical Reading of As You Liks It.
MATHEMATICS.-Algebra; Equations, Proportions, Progressions; Euclid. B. iv, VI, and defnitions of B. v; Trigonometry as far as Solution of Plane Triangles.
NATURAL SCIENCE.-1. Chemistry: Elementary Inorranic Chemistry; or Biology: Rudiments of Aninisl and Vegetable Physiology and Morphology; or Geology: Elcmen egetable Phy, of instead of either of the foregoing tary Geology. 2. Or, instead of either of the ioregoing, Hebrew: E'ssentials of Ilebrew Grammar; Genesis $\mathbf{x x i v}$, xxxil, xuil ; ix xxiv, Xxxvil, XLII; Exodus Xx, xxxil; Numbers xxim,
Samuel xvii; II Samuel xiv; Translation of easy sentences from Euglish into Hebrew.

## SECOND YEAR

GREEK.-Sophoeles, Antigone; Plato, Crito; Demosthenes, de Falso Legatlone ; Greek Grammar; Translations, with aid o dictionaries, of easy passages from Greek authors notspecified; Translations from Greek authors not specified.
LATIN.-Cicero, 2nd Philippic; Livy, B. In; T1anslations from English into Latin Prose ; Latin Grammar; Translations, with aid of dictionaries, of easy passages from Latin authors not sperified.
IIISTORY.—Mediæval History, Italy, France, Spain, England, Scotland, Ireland; Intrusion of the Barbarians on the Roman Provinces; the Crusades; the rise of the Ottoman Power.
FRENCH, or GERMAN, or HEBREW._French: Grammar ; Dictation; Composition; Translation of unspecified passages; History of Fren h h Literature in the 19th Century ; Ponsard, Charlctte Corday; About, La Fille du Chamoinc, and La Mere de la Marquise.

German: Grammar; Dictation; Composition; Translation of unspccified passages; Histcry of German Literature (Goethe and Schiller); Schiller, Wilhelm Tell; Lessing, Laocoín.

Hebrew: Grammar, continued, word formation and syntax more fully treated; Psalms, 1, in, vin, xix, xxiII; 1 Kings, v-vili; Il Kings, xvili, xix; Hosea, Iv, v; Amos, v, vi; Isaiah, 1-VI, XIII, xIv; Translation of easy passages at sight ; Exercises in Hebrew Composition,
PHYSICS.-Elements of Physics, Dynamics, and Hydrostatics. Only definitions and statement of principles, with simple illustratiols, will be required.
LOGIC, or MENTAL PHILOSOPHY.-Logic : Names, Notions, Propositions, Syllogisms.

Mental Philosophy: Psychology (Sully).

Hongr Conrse in the Department of Mathemation and Physics in Toronto Iniveraliy for the

Degree ef ib.A.

## FIRST YEAR.

1. GREEK.-Demosthenos, Phllippics 1, II; Hower, Cdyssey VII; Greek Grammar; or
2. FRENCH AND GERMAN.- V'rench: Grammar, Dictatlon, Compositlon, Translation of unspecified passages, Outlines uf the ilistory of French Litarature Scribe Le Verre d'Eau, German: Grammar, Dletation, Compositlon, Tranglation of unsperified passages. Outlines of the HIstory of German Litcrature, Schllicr, Belagerung von Antwerpen; German Litcrarure, Sch
Die , rantiche des I bycirs.
LATlN_LLivy, B. xxili ; Horace, Odes, i; Translation from English lito Latln Prose; Latln Grammar ; Translation wlth ald of dictlonaries of easy passages from Lath authors not speelfied.
E'NGLISH. - History and Etymology of the Engllsh Language; Rhetoric ; Illstory of Engllsh Literature, temp. Elizabeth and James I; Siakeepeare, Critlcal Reidling of As You Like It.
NATURAL SCIENCES.-Chemistry, Ilementary Inorganle Chemistry ; or Biology, Rudlments of Allimal anc Vegetable Physiology and Morpholegy ; or Geology, Elementary Geology.
MATHEMATICS.—Algebra, omlttlng Theory of Probablllty ; Plane Trigonome" Analytical Conle Sectlons; (Solmon's, omitting the a ithlos..

## SECOND YEAR.

LAT1N.-Cicero, 2nd Philippic; Llvy, B. in ; Translation trom English Into Latin prose ; Latin Grammar ; Translatlons with ald of dictionaries of easy pessages from Latin authors not specifled.
LOGIC.-Names, Notions, Propositions, Syllogisms,
MATHEMATICS.-Newton's Principia, Sec. I (Main's Ed.) Differential Calculus (Williamson); Intcgral Calculus(Wlliam son); Solid Geometry, Salmon - the selected course for Junior Readers, omittling methods of abrldged notation: Spherical Trigonometry, Todhunter ; Theory of Equations.

Honor Corrse in the Department of Mental and Morai Phllosopiny and Civil Poilty in Toronte Iniverversity, for the Degree of B.A.

## FIRST YEAR.

GREEK. - Ven.osthenes, Philipples, 1 , 1 ; Homer, Odysbey, VI. Greeh Grammar
LATIN -Livy, B xxill; Horace Odes., I; Transiations from easy English into Latin Prose; Latln Graminar ; Translations, wlth aid of diotionaries, of easy passages from Latln authors not speclfed.
ENGLISH.--History and Etymology of the Ecgllsh Language Rhetorle, History of Engllih Literature, temp Elizaoeth and James I; Shakeppeare, Critcal Rearting of As You Like Ir.
IISTORY_I. The orlgin and various sources of Civilization. 2. From the Perslan War to the Achacn Lehgue, Incluslve. Grote, chapa, xxxv, xxxvi, xxxyiit, xLil, xLiv, xLif, Lxvi, Lxxi, LXXVII, LXXIX, LXXXVI, XC1; Thlriwell, chaps. Lx, LxIII. 3. Mommsen, B. III, chaps. I-VI, XIII, XIV ; B. IV chaps xi-xII Merlvale, History of Romans, chaps. xxxi-xxxiv, xxxvi1-xLi, Li, Lxi, Lxvil
FRENCH, or IIERREW.--French: Grammar; Dletation: Composition; Transiatlon of unspecifed passages; Outlincs of the History of French Literature; Scribe, Le Verre d'Eau, or

Hebrew : Fssentials of Hebrew Grammar ; Genesls, I, II, III, xxiv, xxxili, xhil ; Exotus, yx, xxxil ; Numbers, xxill ; Samuel, xviI; II Samuel, xIV ; Translations of easy sentences from Engllsh into Hebrew.
GERMAN.-Grammar ; Dictation; Composition ; Translation of unspecificd passages ; Outllnes of the History of German Literature ; Schiller, Beliagarung von Antwerpen; Die Krainche des Ibycus.
NATURAL SCIENCES.—Chemistry: Eiementary Inorganic Chemistry; or

Biolngy : Rudiments of Animal and Vegetcble Pliyslology and Morphology ; or,

Gectogy: Elementary Geology.
MATHENATICS.——Algebra. Equatlons, Proportion, Progresiolls, Euclld ; B. iv, vi. and defiriticns of B. v; Trigonometry, as far as solution of Plane Trlangles.

## SECOND YEAR.

GKEER.—Sophocles: Antigone : Plato;:Crito ; Demosthenes; de Falso Legatione ; Greek Grammar ; Translation with aid o dictlonaries of easy passayes from Greek authors not spe iffed.
HISTORY.-Melliæval History; Italy, Franre, Spain, Enciand, Scotland, Ireland; Intrusion of the Barbarians on the Roman Provinces ; the Crusades; The rise of the Ottuman Power.
FREXCH, or HEBREW.-French: Grammer; Dictation Composition; Transiation of unspecifled passages: Hlstory of French Literature in the 10th Century; Ponsard, Charlotte Corday; About, La Fille du Chanoine, and La Mere de la Marquise ; or

Hebrew: Grammar continued; Word Formation and Syntax more fully treated. Psalms, 1, II, vili, xix, xxill : I Klngs, v-viII ; II Klngg, xvili, xix ; Hosca, Iv-v; Amos v-vi; Isaiah, I-vI, XHI-xiv; Translation of easy pussages at sight ; Exercises in Hebrew Composition.
GERMAN.—Grammar ; Dictatic 1; Compositlon; Transiation of unspeclfied passages ; History of German Literature (Goeth and Schiller); Schiller Wiihelm Tell; Lessing, Laocoön.
PHYSICS.-Elements of Physles. Dynamics, and Hydrostatics Only definitions and statement of principles, with simpic illustrations will be required.
LOGIC AND MENTAL PHILOSOPHY.-Logic: Names, Notlons, Pronositlons, Syilogisms.

Mental Philosophy: Course of Lectures on Psyehology (Sully's Psychology); Locke's Essay on the Human Understandlng, Berkeley's Princlples of Knowledge ; Hume's Treatise on Human Nature, Book I, with Green's Introdugtion.

## IPnm fiontme, fiontinital.

## IIIIRD YEAR

GREER -Demosthenes, de Corona; Enripides, Hippolytus: Greek Grammar': Translation, with add of dictionaries, of easy passages from Greek anthors not specifled.
LATIN.——Tacitus, Agricola; Juvenal, Satires i, III, IV, V; Translation from Enclish into Latin Prose; Latin Grammar; Translation, with thl of dictionarica, of es.sy pasdases from Latin authors not specified.

IISTORX.- Modern History, England, Germany, France, Spain, United States, Camada, to peace of 1815.
ENGLISII. - History of the English Language; Milton, Lyeidas; Dryden, to Sir (iodfrey Kheller.
FRENCII, or GERMAN, or HEBRE'W._French: Grammar; Dictation; Conıposition ; Translation of unspeclficd passages ; IIstory of French Literature lil the 17th and 18 th Centurics; Voltaire, Vaise; La Fontaine, Fables, 13. 1, 11, u1; Mérimee, Colomba ; Brachet, Introduction to Etymological French Dietionary.

German: Grammar; Dictation; Composition ; Translaion of unspeclfied passages; IIstory of German Literature In the 18th and 19th Centurics; Schiller, 'Thirty Years' War, B. III; Goethe, Goetz von Berlichingen.

Hebrew: Isaiah, XL, Lit-Lw, Lx, Lxill; Jercmiah, Xxi, xxy ; Ezekiel, 1, it ; Micali, v; Nahum, iti ; Transation at sight ant Composition continucd; Hirsehfelder's Hebrew Poetry.

## PHYSICS._Elements of Heat and Optics.

MENTAL AND MORAL I'IILOSOI'IY.—The Will : Theory of Obligation; Ethical Systems.
CIVIL POLITY.—Walker, Political Economy.

## FOURTII YEAR

GREEK.——Plato, Phaedo; Xenophon, Hellenics 1, II; Greek Grammar; 'Translations, with aid of dictionaries, of easy pas sages from Greck authors not specified.
LATIN._Tacitus, Annals, xin; Juvenal, Satires xi, xyi Pliny, Epistle vir; Translation from English into Latin Prose; Latin Grammar ; Translation, with aid of dletionarics, of easy passages from Latin authors not specified.
ENGLISII.—Principles oi Composition, Grammar and Ety mology; History of the Formation of the English Language History of Literature from Dryden to Wordsworth; Words worth, Excursion, B. iv; Sonuets to Liberty, Part I, Nos. 4, 6, 8, 12, 14, 15; Coleridge, Ode to the Departing Year; France, An Ode.
FRENCH, or GERMAN, or IIERREW._French: Grammar Dictation ; Composition ; Translation of unspecifled passages History of French Literature prior to the 17th Century Molière, L'Avare; Corneille, Horace; Racine, Athalie; La Bruyère, Do La Cour, and Des Grands.

German: Grammar; Dictation; Composition ; Transla tion of unspecifled passages; Ilistory of German Literature prior to the 18 th Century; Schiller, Maria Stuart ; Goethe, Dichtung und Wahrheit, B. x, x.

Hebrew: Psalms, xhi, xlv, xc, cxxi, cxxvin, cxxxix ; Proverbs, I-vili, xvi, xxv ; Job, in, iv, xix, xxvili; Ecclesiastes, vil; Lamentations, iII; Nehemiah, 1, vill; Exercises continued.
PIIYSICS.-Astronomy and Acoustics or Electricity and Acoustics.
LOGIC AND CIVIL POLITY:--LDnfir: Induction and the subsidiary operations

Civil Polity: Jevons, Money and the Mechanism of Ex thange : Bagehot, the English Constitution.

## Clammical d'ourne, continneal

## THIRD YEAR

GREEK.-Demosthenes, de Corona; Euripides, Hippolytus; Hlato, Republic 1, 11, III, $\mathbf{N}$; Aristotle, Nicom: Ethics 1, II, IV, x ; Aristophanes, Birds and Frogs; Translation from English into Greek Prosc ; Greek Grammar and Philology ; Translation from Greek authors not specifled.
LATIN_Tacitus, Agricola; Juvenal, Satires, 1, In, iv, v; Plinı, Epistles, iv ; Cicero, De Natura Dcorum, 1;'Ta itus, Histo:ies; Terenee, Adelphi ; Juvenal, Satires, vil, vili, x; Translation from English into :atin Prose : Latin Grammar and Philology; Translation from Latin authors not specifled
CIVIL FOLITY, OR IIEBREW.-Civil I'olity: Walker, Politieal Economy ; or, Hebrew: Isaiah xl, LIt-Lv, lx, Lxili; Jeremiah xxi, xxv ; Ezekiel I, II Micah V ; Nahum III; Trans. lation at sight and Composition continued; HIrechfelder's Hebrew Poetry ; Chaldee Grammar, Paradigms, in Baer's 'Text of Danieı and Ezra; Daniel II, 111 .

EEK.—Plato, Phædo ; Xenophon, Hellenics, I, II; Herodo tus, B. Vil, vill, IX ; Thucydides, B. 1, 11, iII, vi. vit, vili; Fschines, against Ctcsiphon ; Demosthenes, on the Crown; Aris-
 B. 11; Plat, Apology ; Republic, B. I, II, III, IV, VII. VIII, 1x, X; Homer, Iilit 1, B. vi, xxit; Homer, Odyssey, B. IX, XvII ; Exthy lus, Prometneus, and Agamennon; Sopochles, Ajax and AnxIII, xy, xxiv; Theuphrastus, Characters (Jebb's edition) Translation froin English into Greek Prose ; Grcek Grammar and Philology; Translation from Greek authors not speeifled.
LATIN.-Tacitus, Annals, xı11; Juvenal, Satires, xı-xvi inclısive; Pliny, Epistles, vil; Sallust, Catiline ; Livy, B xxi-xxis inclusive; Tacitus, Annals, B. 1, 11,111 : Cleero, De Natura De orum, Epistles ad Fan. B. iv ; Pliny, Epistles, B. VI; Viryil Aneid, B. 11, w, vi ; Plautus, Aulularia; Terencc, Adelphi Horace, Odes, Epistles; Aıs Poetica; Juvenal, Satíres, iif, iv vill; Catullus, 15, xxxi, Lxilt, Lxiv, lixv; Propertius, 1,20 and v, 11 (Paley's Text); Translation from Engnab into Latin Prose; Latin Grammar and Philology ; translation from Latin authors not specifled.

Nork. - In the Fourth Year of the Course the same parts of Authors read in former years are repeated.

## THIRD YEAH

CIVIL POLITY, ——Walker, Polltlal Lconomy,
PHYSJCS,_Elements of Heat and Optles; Analitical Statice, Minchin; Bynamice of a Partlcle, Talt and Steele; Newton's Princlpla, Sectlons II and III; Geometrlcal Optles: Hydrostatles, Bosaut; RIgld Dyuanles; Iractlcal woric in the Leboratory.
Candldates must present a certificate of having worked at least 40 hours in an approved physical laboratory,

## FOURTII YEAに.

MATHEMATICS OR PIJYSICS.——(An option is allowed between elements of Astronomy and Acoustles, or of Eloctriclty and Acoustlcs.) Mathemafics: 1. Modern Geometry; Saluon's Conic Scctions, Chaps. IV, IX, XIV, xv. 2. Hlgher Plane Curves, Salnion, Chaps, I to IV, 3, Higher Algebra, Scott's Determinarits, 4. Differential Equations, Forsyth, Chaps. 1 to Vill. 5. Theory of Probability. 6. Plane Astronomy, Chauvenet. 7. Quarternlons. Or

Physics: 1. Elastlclty. 2. Hydrodynamics. 3. Acoustics. 4. Physical Optles, Verdet, 5. Thermodynamice, Clausius. 6. Electrlcity a.dd Magnetlsm (Elementary Theory). 7. Method of Least Squarea, (Wright). Practlcal work In Laboratory.

## THIIRD YEAR

ENGLISH. -IIstory of the English Language; Milton, Lycldae; Dryden, to Slr Godfrey' Kucller.
IIISTORY:-Molern Illstory, England, Dermany, France, Spaln, Culted States, Canada, to the peace of 1815.
GERMAN.—Graminar ; Dlctatlon; Compositlon; Translation of unspecified passagoa: IIlstory of German Literature In the 18th and 19th C.nturies; schllor, Thirty Years War B. 111 ; Goethe, Guetz von Berllchingen.
MENTAL AND MORAL PHILOSOPIIY, - Lecturee on the -Will : Theory of Obllyation, and the Moral Systems; (Calder. wood's llandbook of Moral Phllosophy): (Irean's Prole 'amona to Ethles; IIlstory of Philosophy; Graeco-Romar and Medlieval Periods; (Scliwegler's Handlook of the Hlstory of Phllosophy; Ueherweg's llintory of Phll 'sophy, especlally for the Scholastle Rorlod; Zeller's IIstory of Greek Phllosophy from the earllest perlod to the tlme of Socrates; Socrates and Sorratle Schools: Plato and the older Academy; Scolcs, Eplcureans, and Sceptles.)
CIVIL POLITY_—Fawcott, Manual of Polltleal Economy: Creasy, Kise and [rogress of the Engllsh Constltution : Holland, Elements of Jurlsprudence.

## FOURTII YEAR.

GERMAN.-Grammar: Dlctation: Compositlon: Translation of unsperified passates : History of German Literature prior to the 18th Century; Schller, Maria Stuart; Goethe, Dlchtung, und Wahrhelt, B, X•xı.
LOG/C.- Inductlon, and the subsldiary operations.
MEVTAL AND MORAL PIIILOSOPIIY,_-llistory of Phllosophy, Modern; Work of prevlous years ; (Reference to the works of the writers whose vlews come urder consideni. In ; special study of Kant's Critique of Pure Keason, and Crit ,ue of Practical Reason.)
CIVIL POLITY, -- Mill. Prlnciples of Political Eeonomy ; Maine, Ancient Law; Bourinot, Parliamentary Practice and Proccdure chaps. I, and xxis.

## Notes on the Foregoing Conrses.

In comparing the foregoing Courscs to determine thoir relative value, the following notes, with reference to each Course. should be carefully observed:

1. Pass Course (a) In Latin all the four Examinations must he passed.
(b) In Greei all the four Examinations must be passed. French and German, howerer, may be substltuted for Grcek in ench year of the Course. Undergraduates exercising this option must take the Honor French or the Honor German of the second year, though not required to obtain in these subjects an Honor atanding.
(c) In iJathematics and Physics the Fixaminations in the First, Sccond, and Fourth Yekrs must be taken. In the Third Year tnis subject or that of Mental and Moral Philosophy and Civll Pulity is required.
(d) In English the Examinations in the First, Third, and Fourth Years must be taken.
(e) In History, the Examlnatlons In the First, Second and Third Years must be takell.
(f) In Frcnch, German or IIebrew. Each Undergraduate must talie the Pass French or the Pass Geman or the Pass Hebrew of the First and Second Years In the First and iैecond Years re:pectively.
(g) In Natural Sciences, Each Undergraduate nust take the Chemistry or the Biology or the Geology of the First Year in hls First Year.
(h) In Mental and Moral Philosophy, Logic and Civil. Dolity. In the Sceond Year an option between the logic and the Meatal

Phllosophy is allowed. In the Thlri Year either thls Department or that of Physics must be tsken. In the Fourth Year the Examination in thls Depertment must be taken.
II. Hunor Course (a) Department of Classics,-In thls department the only subjects, In addition to Latln, Greek, and Oriental Languares, which $\mathrm{ml}^{-}$st be taken to obtain the Degree of R. A., are the Pass Mathematics of tho First Year, the Pass English of the First Year, and the Pass Logic of the Second Year. In case the First Year, and the Pass Logic of the Second Year. In case the orlental Languaics are not Yaken ar, Naturail Science of the Flrst Year, Physics of the
Third Ycar must be takel.
(b) Department of Mathematics and Physics.-In thls department the only subjects, in adilitlon to Marhematles and Physics, which must be taken to ohtain the Deg' of B, A., are the Pass Greok or Pass French and German of the Flrst Year, Pass Latin of the First and Second Years, Pass Engllsh of the First Year, a Pass Natural Science of the First Year, Hass Logic of the Second Year, and Pass Civil Polity of the Third Year. The only subjects that must be taken in the Third Year are Physics and Clvil Pollty, and in the Fourth Year Mathematles or Physics.
(c) Department of Mental and Moral Philosophy and Civil Polity - In this department the only subjects which must be taken, in addition to Mental and Sloral Philosophy and Loglc and Civil Polity, are Pass Latin, Pass Mathematics, and a Pass Natural Science of the First Year, Pass Greek of the First and Second Years, Pass English of the Flrst and Third Years, Pazy Hlstory of the First, Second and Third Years, Pass French or Hebrew of the First and Second Years, and Pass German of the First, Second. Third and Fourtl Years.

HOMILETICS.——Preparation and Delivery of Sermons (Broadus) ; History of Preaching (Broadus).
UASTORAE TEEOROGY AND CEURCH POLYTY.—— (Shedd, Vinet and Karvey).

Note 1.--The proposed Course for the Degree of Bacholor of Arts in McMaster University should be carefully compared with the Pass Course and with the Honor Courscs in Toronto University for the same degree. To assist in making this comparison ix the case of the Pass Course, tat two courses are placed here side by side, and attention is called to the sibjects which must be taken each year in each Course. A similar comparison can easily be made suith any one of the three Honor Courses given on pages 4 to 7 of this report. In making this latter comparison reference should specially be made to the notes on the Honor Course, rage 7.
(a) In the First year of the Pass Course of Toronto University, in case German is taken rather than French or Hebrew, and Biology rather than Chemistry or Geology, the subjects which must be taken are : Greek, Latin, History, English, German, Mathematics and Biology. In the First Year of the Course proposed for McMaster University, the same subjects, with the addition of the English Bible, must be taken, except History, which is placed in the Second, Third and Fourth years, rather than in the First, Second and Third years. It will be observed that the work proposed in Greek, Latin, English, Mathematics, and Biology is much heavier than the work required in the Pass Course of Toronto University.

- (b) In the Second year of the Pass Course of Toronto University, in casc German is taken rather than French or Hebrew, and Mental Philosophy rather than Logic, the subjects which must be taken are: Greek, Latin, History, German, Physics and Mental Philosophy. In the proposed Course for McMaster University, all these subjects must be taken, and in addition to these, English and Chemistry. It will also be noted that the work proposed in Greek, German and Physics is heavier than what is required in Toronto University.
(c) In the Third year of the Pass Course of Toronto University, in case Mental and Moral Philosophy and Civil Yolity are taken rather than Physics, the subjects which must be taken are: Greek, Latin, History, English, Mental and Moral Philosophy and Civil Polity. In this year of the proposed Course for McMaster University, Greek or Itebrew or French ol English must be taken. In case Greek is taken, the subjects which nust be taken are: Greek, Latin, History, Mathematics, Mental and Moral Philosophy, Science of Education, Civil Polity and the English Bible. This includes all of the subjects of the Third year of Toronto University except English. It includes also in addition to these subjects, Mathematics, the Science of Edncation and the English Bible.
(d) In the Fourth year of the Pass Course of Toronto University, the subjects which must be taken are: Greek, Latin, English, Physics, Logic and Civil Polity. In the proposed Coursc for McMaster University, in case Greek is taken rather than Hehrew or French or English, the subjects which must be taken are : Greck, Latin, History, Physics, Mincralogy and

Geology, Logic, Science of Education, Civil Polity, and Evidences of Christianity. This includes all of the subjects of the Pass Course of Toronto University except English. It includes aiso in add:tion to these subjects, History, Mineralogy and Geology, Science of Education and Fividences of Christianity.
(e) A careful study of each author in the English of each year in the proposed Course for McMaster University will be required, and authors marked with an asterisk will be critically studied.
Note 2.-The following suggestions should be carefully noted regarding the relation of the work required in the present Course in Toronto Baptist College to the work required for the Degree of Bachelor of Arts in Toronto University, and also to the work required in the proposed Course for the Degree of Bachelor of Theology in Toronto Baptist College as a department of McMaster University.
(a) The following subjects, which are a part of the present Course of Toronto Baptist College, are allowed as options in the Course for Bachelor of Arts in Toronto University, namely: Hebrew, New Testament Greek, Biblical Literature, Church History and Apologetics. In addition to thesc optional subjects the following in the present Course of Toronto Baptist College are also included in the University Courses, namely : Mental Fhilosophy, Moral Philosophy or Ethics, Rhetoric and English Literature. It will be seen from these facts that the only subjects in the present Course of Toronto Baptist College not included in the Course in Arts in Toronto University are : Systematic Theology, Pastoral Theology, Homiletics, English Bible and Hebrew and Greek Exegesis.
(b) The proposed Course for the Degree of Bachelor of Theology, in Toronto Baptist College, includes all the subjects of its present Course. This may be verified by an examination of the two Courses. In addition to this, the proposed Course includes also all of the subjects of the Pass Course of Toronto University with the exception of Latin in the Second, Third and Fourth years, Civil Polity in the Third year, and Logic and Civil Polity in the Fourth year. This may also be verified by referring to the two Courses, and taking into account the options allowed. In the place oi the Latin, Civil Polity and Logic an additional Natural Science is taken and the Science of Education. To this is also added Hebrew and Greek Exegesis, Systematic Theology, Prstoral Theology, Apologetics and Homiletics
(c) It must here be noted that the Course for Bachelor of Theology is to be followed by a Course of advanced studies in Theoingical, subjects for the Degree of Master of Theology. It should also be noted that in case the examinations for the proposed Course for Bachelor of Arts have been passed with Hebrew as the optional subject in the Third and Fourth years, the Course for Bachelor of Theology can be completed by attending one additional year of lectures. On the other hand, in case the Degree of Pachelor of Theology has been taken first, one ycar's additional lectures in Arts subjects will complete the Course for Bachelor of Arts.
(d) From a careful comparison of the proposed Course for the Degree of Bachelor of Arts, and for the Degree of Bachelor of Theology with the Pass and Honor Courses of the Toronto University, it may be objected that the work proposed is more than can be done properly in four years. It may, perhaps, be granted that this objection is well taken in view of ex isting conditions with reference to Universily education. But the ans wer to the objection is not to lessen the work proposed, but to raise the standard of Matriculation, and supply the students during their Undergraduate Course with proper conditione, io do at least the amount o.. work required in the proposed courses. With such conditions supplied the average student will be found equal to the work proposed, and young men with superior preparation will be found able to carry additional work. For such, provision will be made, under the direction and with the approval of the Faculty, to pursue advanced work in one or more subjects.

## Notes on the following Tables

Note 3.-The comparisons suggested in the fore going notes have reference to the subjects included in the Curriculum of Toronto University and in the proposed curriculum for McMaster University. The Charter, however, as will be seen by referring to zections 12 and 18, requires a comparison also of the courses of instruction. by which raust be meant the courses of lectures delivered nind of the number of professors employed. The following tables, with the accompanying suggestions wili furnish the data for making this comparison. It must, however, be here observed that it was found very difficult to obtain the required information regarding the courses of lectures delivered on the Honor subjects in the curriculum of Toronto Univursity, as will be seen by the following letter from the Registrar of the College :-

## University of Toronto,

Registrar's Office, Dec. 10th, 1888.
Dear Sir:
The Calendar of University College, which you have, gives a time-table of Pass lectures only, as in view of the fact that twenty-seven Professors, or lecturers are engaged in lecturing on the work of the various courses, it was found impossible to construct a permanent time-table of all lectures. The Calendar contains a list of the subjects in which instruction is given, and the Council deemed it advisable to leave it to the various Professors and lecturers to arrange with their classes the hours for lectures, and the number of lectures necessary to cover the ground. It is, therefore, not competent for me to make such a return of lectures as you desire.

## Yours faithfully,

[^0]（a）－Table A shows the number of Lectures per week upon the subjects of a Pass Course in the Uni－ versity of Toronto for the degree of Bachelor of Arts，and proposed to be delivered upon the subjects of the proposed Courses for McMaster University，for the Degrees of Bachelor of Arts，and Bachelor of Theology．

Table A．

In examining table A , the following should be careiully noted:
(a) The number of lectures per weuk given on the Pass Course, University College, are taken from the published scheme of lectures in the Calendar of 1888 . 89. In Physics the Calendar gives four lectures per week, in the Second, Third and Fourth years. These lectures, however, occupy in each year only a part of the session. The number of lectures given in the table represent the average number per week, in case the lectares were continued through the entire session. It must also be noted, that the number of lectures given in the tabie, assumes that the student has elected:. "German, rather than French or Hebrew; Biology, rather than Chemistry or Geology ; Mental P'bilosophy of the Second Year, rather than Logic; and Mental and Moral Philosophy of the Third Year, rather than Physics." The number of lectures the siudent must attend is not changed in any way by the options he may elect.
(b) In the proposed course for Bachelor of Arts in McMaster University, all the subjects in the First and Second years must be taken. In the Third and Fourth ycars only two languages are required. The Latin must be one of these and for the other Greek or He brew or French or English must be taken. In the table it is assumed that the English has been elected.
(c) In the proposed course for Bachelor of Theology no options are allowed; hence the student must attend all the lectures as given in the table.

Note 4.-As stated in Note 3, it has been found difficult to procure accurate information as to the number of lectures delivered upon the Honor Subjects of the Curriculum of Toronto University. Information upon this point has, however, been obtained from what is believed to be reliable sources. In Taile $B$ full credit is therefore given for all lectures delivered upon Honor Subjects.
(a) Tahle $B$ shows the number of Lectures per week delivered upon Honor Classics, Mathematics, and Metaphysics, and npon all of the Pass Subjects of the Curriculum of Toronto University.

TABLE B.

| SUBJECTS. | First <br> Year. | Second Year. | Third <br> Year. | Fourth Year. |
| :---: | :---: | :---: | :---: | :---: |
| Honor Classics. . . . . . . . . . . . . | 5 | 5 | 6 | 7 |
| Honor Mathematics.......... | 3 | 4 | 4 | 7 |
| Honor Metaphysies.. ........ | $\cdots$ | 5 | 2 | 4 |
| Total on Pass Subjects as shown in Table A........ | 14 | 13 | 9 | 8 |
| Additional Lectures on account of Options ........... | 10 | 8 | 2 |  |
| Total Honor and Pass lecetures | 39 | 3.5 | 23 | 26 |

From this table it will be seen that twenty-three lectures per week are delivered on Honor Classics, eighteen on Honor Mathematics, eleven on Honor Metaphysics, forty-four on all the subjects of a Pass Course, and twenty on subjects allowed as options. Making in all, on the subjects of four of the courses of the Curriculum for Bachelor of Arts in Toronto University, one hundred and sixteen lectures per week. The additional lectures on the subjects of the Curriculum on account of options are, First Year, Natural Sciences four, Modern Languages and Hebrew six; Second Year, Mathematics and Logic two, Mudern Lancuages and Hebrew six; and Third Year, Physics and Mathematics two.
(b) Table $C$ shows the proposed number of Lectures per week upon the subjects of the proposed courses for Bachelor of Arts and for Bachelor of Theology in McMaster University.

TABLE C.

| SUBJECTS. | First <br> Year. | Second <br> Year. | Third <br> Year. | Fourth <br> Year. |
| :---: | :---: | :---: | :---: | :---: |
| Arts Subjects, without Op- <br> tions, as shown in Table A. | 17 | 17 | 17 | 17 |
| Strictly Theological Subjects, <br> as shown in Table A....... | 6 | 7 | 1.5 | 17 |
| Additional Lectures on ac- <br> count of Options .......... | $\ldots$ | .. | 6 | 9 |

From this Table it will be seen that sixty-eight lectures per week arc to be delivered upon the subjects in the proposed course for Bachelor of Arts, fortyfive on strictly theological subjects, fifteen on sub. jects allowed as options, three of which are theological; making in all on the subjects of the two courses proposed for McMaster University, one hundred and twenty-eight lectures per week. The additional lectures on the subjects of the proposed courses, on account of options, are: Third Year, Greek, French and English, six ; and Fourth Year, Greek, Hebrew, French and English, nine.
(c) Here it will be observed that, allowing twelve lectures per week as the average work of one Professor, not more than eleven Professors will be required to deliver the one hundred and twenty-eight lectures per week on the subjects of the proposed courses for Bachelor of Arts and for Bachelor of Theology in MeMaster University.

## Notes on Toronto Baptist College

Before submitting recommendations for your consideration and action regarding the opening of the Arts Department, attention must be called to some facts in reference to the present and prospective condition of Toronto Baptist College.

There are thirty-nine students attending thcological lectures the present session. Of these, five are in the Conrse for University graduates, thirteen in the fouryear Course with Hebrew and Greek, fourteen in the three-year Euglish Course, and seven are not in any Course.

Regarding these thirty-nine students the following should be noted:
(a) The five Tuiversity graduates have beenadmitted on their University diploma.
(b) Of the thirteen in the Coursc with Hebrew and Greek two have matriculated in Arts, six have done work equivaient to what is required for matriculation in Arts, the other five heve not done work equivalent to this.
(c) Of the fourteen in the Finglish Course ten have done work equivalent to the English required for matriculation in ? rts, four have not done such work.
(d) Of the seven irregular students, their preparation is not sufficient to admit them to any of the Courses of the College.
(e) From the facts just statci: it will be seen that at
the present time there are only twenty-three students in attendance upon lectures who have, according to the standard laid down on pages 29 and 30 of the Culendar fur 1888-9, autained an equivalent to the qualifications necessary to euter regularly the Courses of the College. In this connection it must, however, be noted that the standard for admission to the Cuurses of the College the present session is much higher than was required in any former session.
( $f$ ) In view of the wide difference in literary preparation and mental training of the students attending lectures, as appears from the above facts, it is impossible to adant instruction properly to the wants of the classes. A considerable proportion, therefore, of th:e students fail to receive the benefit they should from the lectures they attend. This state of things is destructive to the best interests of the College. It of necessity makes it impossible to do first-class work. Under such circumstances, if justice is done to those who enter the classes without proper preparation, the stronger and well prepared class of young men inust suffer loss.
(g) It need scarcely be added that if this condition of things be continued, the College must of necessity fail to give to the ministry of our denomination the advantages which ought to be given to then. After a careful study of this whole sabject, it is evident to me that Toronto Baptist College must be placed substantially upon ti:e basis proposed in the following recomrnendations if it is to serve the purpose ior which it was founded:

## RECOMMENDATIONS AND SUGGESTIONS.

Having given the most careful consideration to the various educational interests placed und +r your charge and being fully convinced of the importance to the future erucecss of these intcrests, of wise, deñnite and promp wition, at the present time, I deem it my duty to submit tur your favorable consideration and action recommendations and suggestions touching all of these interests.
Recommendation I. - That the courses of instruction for the Arts Departnient and for Toronto Baptist College, as a department of the University, given on pages eight to eleven of this report, be adonted and come into effect at the beginsing of the College year of 1889-90.
In considering this recommendation the following should be noted:
(a) The course proposed for Bachelor of Theolory is to be followed by an a ${ }^{\text {d }}$ vanced course of two years for the Degree of Master of Theology, and an additional course of two years for the Degree of Doctor of Philosophy. In the advanced course for Master of Theology, students will be recuired to pursue special and original lines of investigation under the direction of the Professors in Exegetical Theology, Historical Theology, Dogmatic Theology, and Practical Theology. The course proposed for Bachelor of Arts is also to be followed by advanced courses for the degrees of Master of Arts, Doctor of Philosophy and Doctor of La: w.
(b) Students entering upon any one of these advanced courses will be required to give clear and satisfactory evidence that they have acquired such mental discipline as will enable them to undertake with advantage the work of in lependent and original investigation. Men who have not completed an Arts or Theological Course will be admitted into any of these advanced courses, but the Degree of Master or Doctor will not be conferred upon any but such as have proceeded regularly to the Degree of Bachelor.
(c) On the subjects prescribed for each of these advanced courses short courses of lectures will be delivared which will serve to place before the students in a clear and forcible manner the best methods of conducting the investigations undertaken, the points which should receive special attention, the aids which should be called into requisition, and the proper conditions and necessary limits of the lines of investigation pursued.
(d) The number of lectures on any one subject of the proposed advanced courses is not to exceed twenty, hence all the lectures on the subjects of any onc year of any of these courses will be delive.ed in not to ex-
cecd seven weeks. The students pursuing these advanced courses, will therefore only require to be in residence in the University seven weeks each year, making it p sssible for men who may have entered upon the artive duties of life to continue their studies for one of the higher degrees.
(e) The lectuics upon the subjects of the proposed advanced courses are to be delivered by the Professors who lecture upon the subjects of the under-graduate courses. That this should be done is necessary, not chicfly for the sake of economy, but to secure effic ient work in the lower courses. Any profezsor who lectures from year to year upon the same subjects in an undergraduate course, and who fails to continue his own investigations even far beyond the limits of the proposed advanced courses, will soon become inefficient and powerless in monlding the life and character of the students to whom he lectures in these undergraduate ccurses. The preparation and delivery of a coursc of trom fifteen to twentr lectures each year on some advanced branch of the subjects daily discussed in giving instructions in the under-graduate courses is necessary upon the part of every professor who will keep himself in effective relation to his work and to his pupils.

Recommendation II. - That during the College Year of $1889-90$, lectures be delivered only upon the first year of each of the courses proposed, together with such additional theological subjects as may be necessary to enable students who are now in the College to complete the courses on which they have entered; during 1890-91, only upon the first and second years, with necessary additional theologicail subjects; during 1891.92, only upon the first, second and third years; and during 1592.93 and onwards, upon all of the subjects of each of the courses proposed.

In considering this recommendation the following points should be noted :
(a) The total number of lectures per week required to carry into cffect this recommendation will be as follows : For the College Year of 1889-90, fifty-eight; for 1890-91, seventy; for $\mathbf{1 8 9 1}-92$, seventv-seven; and for 1892.93 and onwards, one hundred and twenty-eight.
(b) The number of professors required to carry into effect this recon:mendation depends, first, upon the range of subjects each professor is competent to undertakc, and second, upon the number of lectures he is required to de'iver each week. Assuming, however, the competency of the professors to undertake the subjects and that each professor deliver an average of twelve lectures per week, it is evident from the statement made in (a), that seven professors will be able
to do
to do the work required for $1889-90$, for $1890-91$ and for 1891.92,
(c) From what has been stated in (w) and (b) it is evident that the present Faculty with an additional pofessor, who will lecture on Latin end Greek, wil! be fully able to do all the work required for $1889-90$ and 1890-91; and with a second additional professor all
the work for 1891-92. At the beginning of 1892.93 the full Arts Faculty will be required, as the lectures on all the subjects of the two courses will commence at that time. The following scheme of lectures will serve to show how the work for $1889.90,1890.91$ and 1891-92 can be distributed among a limited number of professors as suggested.

## SCHEME OF LECTURES FROM 1889 TO 1892.

| Professors by whom the Lectures are to be delivered. | Subjects on which Lectures are to be delivered, 1889-90. | Suljects on which Lectures are to be delivered. 1-90.91. | Subjects on which Lectures are io be delivered, 18:1-92. |
| :---: | :---: | :---: | :---: |
| M. MacVicar........... | Mathematics, $3^{*}$. ......... English Bible, 3. | Mathematics, 3 <br> Physics, 3 <br> Chemistry, 2. | English Bible, 6. Science of Education, 2. |
| J. H. Castle | Homiletics, 5. <br> Pastoral Theology, 2. ... | Homiletics, 5 Pastoral Theology, 2..... | Homiletics, 5. Pastoral Theology, 2. |
| A. H. Newman | History, 3 German Language, Greek Exegesis, 3. | History, 4 ................. German Language, 6. | History, 4. <br> German Language, 6. |
| D. M | Hebrew Language and Ex. egesis, 9 <br> English Bible, $3 . . . .$. | Hebrew Language and Exegesis, 9 Greek Exegesis, 3 | Hebrew Language aud Ex egesis, 9. Greek Exegesis, 3. |
| T. H. Rand | English Language, 3 <br> Scrence and Religion, 2. <br> Physiology and Botany, 2 | English Language, 6. Mental Science, 3 Physiology and Botany, 2. | English Language, 6. <br> Mental Science, 3. <br> Moral Science, 3. |
| D. A. McGregor | Systematic Theology, 6. . Apologetics, 3 | Systematic Theology, 6 <br> Apologetics, 3 <br> English Bible, 3 | Systematic Theology, 3. Civil Polity, 2. |
| Professor of Latin and Greek, or of New Testa. Greekt and Patristic Greek | Greek Language, 6 . Latin Langage, 2 | Greek Language, 6 Latin Language, 4 | Greek Language, 6. Latin Language, 6. |
| Professor of Mathematics and Physics, or of Natu: ral Sciences. |  |  | Mathematics, 6. Biology, 2. Physics, 3. |

(d) It will be noticed, by referring to this table, that some years the work assigned is very light. This is unavoidable, on account of the transition from the present condition of things to University work proper. Where this, however, occurs, it is proposed to arrange courses of lectures for the Professors in Moulton College.

[^1]Recommendation III.-That nineteen Chair」 of In struction be, at present, established in the University, and that the courses of lectures upon the subjects of these Chairs be delivered by twelve Professors, who shall be appointed, and who shall euter upon their duties as hereinafter suggested.

## Chairs in the Arts Department.

1. Philosophy and Evidences of Christianity.
2. Latin Language and Literature.
3. Greek Language and Literature.
4. Modern l.anguages and Literatures.
5. Finglish Language and Literature.
6. History.
7. English Bible.
8. P'sychology, Ethics and Logic.
9. Civil Polity.
10. Mathematics and Plysics.
11. Natural Sciences.
12. Science of Education.

## Chairs in Toronto Baptist College.

1. Homiletics, Pastoral Theology and Church Polity.
2. Hebrew and Cognate Languages.
3. New Testament and Patristic Grcek.
4. Systematic Theology.
5. Historical Theology.
6. English Bible.
7. Biblical Introduction.
8. Apologetics.

In considering this recommendation the following points should be carefully noted :
(a) By referring to table A, page 13, of this report, it will be seen that twenty-ninc lectures per week of the Course proposed for Toronto Baptist College, belong also to the Arts Course. Hence the work of the professors who lecture upon the subjects of the Chairs of Instruction in Toronto Baptist College is supplemented from the Arts Department, by the work of three additional professors, giving to the students of Toronto Baptist College much better advantages than were given to them when the aggregate annual salary paid by Mr. McMaster was sixteen thousand five hundred dollars. It should also be observed at this point that the course of instruction now proposed contains exactly the same theological subjects, as will be scen by referring to the Catalogue 1884-85, as were contained in the courses of instruction at the time when this aggregate annual salary was paid, and that Mr. McMaster gave, at that time, to those courses, his unqualified endorsement; and further, that those courses were the courses of instruction in Toronto Baptist College at the time of Mr. Mc.Naster's death.
(b) Iis the foregoing scheme of lectures for the three ycars from 1889 to 1892 the work is not assigned to Professors with reference to the Chairs of Instruction proposed in this recommendation. The assignment made, however, is a necessity ir order to employ properly the time of nach professor until classes in all the subjects of the curriculum are commonced. This will take place according to Recommendation II, at the beginning of the College year of i892-93.
(c) Before the members of the present Faculty are assigned the work indicated in the foregoing lecture scheme, each should be designated to the department he is to occupy when lectures are commenced on all the subjects of the curriculum. This is necessary in order to determine at once the departments for which properly qualified men must be found. In this conncetion permit me to suggest the following assignment of Chairs of Instruction: Namely, that the Chancellor take Philosophy and Evidences of Christianity, and, for the present, the English Bible; that the Principal of Toronto Baptist College take Homiletics, Pastoral Theo logy and Church Polity; that Professor Newman take Historical Theology and History ; that Professor Welton take Hebrew and Cognate Languages, and, for the present, Biblical Introduction, Old Testament: that Professor Rand take Psychology, Fthics and Logic, and, for the present, Civil Polity; and that Professor McGregor take Systematic Theology, and, for the present, Apologetics.
(ll) It will be observed by referring to Table A that all the subjects contained in the two courses proposed are represented by the Chairs of Instruction proposed; and that on Arts' subjects, including options, 80 lectures per week will be required, and on Theological subjects, 48, making in all 128 lectures per week. It will also be observed that this number of lectures, distributed among twelve professors, gives each professor less than eleven lectures per week.
(e) To carry into effect this Recommendation, and Recommendation II, the Professor of Latin and Greek, or the Professor of New Testamentand Patristic Greek, must enter upon the discharge of his duties at the beginning of the College ycar 1889.90. The Professor of Mathematics, or Natural Sciences, at the beginning of 1891-92, and the other Professors at the beginning of 1892-93. It is suggested that these professors should be uppointed at an early date, so as to allow them all, except the one who enters upon his duty in 1889.90 , the opportunity of making, at their own cost, at least one year's special preparation for their work.

Recommendation IV.-With reference to Matriculation and attendance npon courses of lectures in McMaster University, the following recommendations are made:
(1) That the subjects of Examination for Matricula. tion in Arts and Theology be the same as Junior Matriculation Pass Course in Toronto University, or a full equivalent, with the addition in Arts of the Honor subjects in Classics, Mathematies or English, and in Theology of pressribed portions of the English Bible and other Theological subjects.
(2) It is believed that the standard for Matriculation herc proposed is as high as can be safely adopted at the present time. I cannot, however, iorbear expressing the opinion that this standard is too low, and that the true interests of University education in On. tario, as well as the true interests of our Collegiate Institutes and High Schools, demand that a large share. if not the whole, of the present University work for the First Year, should be required for Matriculation.

## Exa

mex
(3) I'hat the Examinations of the Educational Departinent for First and Second-class teachers' certificates be accepted pro tanto at any Matriculation Examination.
(4) That Graduation from the Classical Course of Weodstock College or Moulton College be accepted as equivalent to passing the Matriculation Examination in Arts or Theology.
(5) That Graduation from the English or Modern Language Course in Woodstock College or Moulton College, or an Examination upon a full equivalent to either of these courses, admit a student into all the lectures upon the English subjects of either the Arts or Theological Cuurse, and entitie such student to a certificate of standing from the University on having passed the required examination on these subjects.
(6) That the Senate, by special permission, admit into any of the lectures in Arts or Theology, without exam.ination, as an occasional student, any person who shall comply with all the requirements of the University.

Recommendation V.-That a course of instruction, including the elements of Theology, be provided in Woodstock College, for students for the ministry who, because of age or other satisfactory reasons, are unable to comply with the conditions stated in Recommendation IV, for admission as regular students in Toronto Baptist College.
The following suggestions regarding this Recommendation should be noted :
(a) To admit students of the class contemplated in this Recommendation to the lectures of the University is a wrong to themselves, to the Professors, and to the other stadents attending these lectures. As already stated, it is impossible to adapt instruction to the wants of such students, without doing great injustice to those who are properly prepared for the work.
(b) But aside from the bad effect upon themselves and others, caused by attending lectures in the University, the very work which such studeuts should do is entirely wanting in such a course. What they need is a thorough drill in elementary, biblical and other subjects, that will form in them right hahits of mental work and give them the power of speaking and writing English with some degrec of accuracy. It is a great mistake to suppose that these needs can be supplied by attendance upon lectures in the University on theological or other related suljects.
(c) The best interests of sueh students for the min istry and of the clurches which they will afterwards serve, will be secured by requiring of them, first, to complete in a very thcrough manner the preparatory course now provided in 'Voodstoek College, and then pursue for at least two years, in Woodstock College, substantially the following course: namely, a thorough study of the English Bible, of the Elements of Systematic Theology, of Composition and the Elements of Rhetoric, of the Elements of Homiletics, of the Elements of General History and Pinlical Gengraphy, of the Elements of Mental and Noral Science, of the Elements of Geometry, and of the Elements of

Physiography and Physiology. In addition to the sturly of these subjects, they should also be required to pursue, under the direction of their teachers, a carefully selected course of reading.

Recommendation VI.--That an additional huilding, an outline plan of which is herewith submitted, be erected betore the beginning of next Collcge year fo:Moulton College, at a cost not to exceed $\$ 16,000$ This amount to include the bvilding and furnishing, and be proviled for as shown below in Financial Statement III.

The following should be noticed regarding this Recommendation :
(a) The present accommodations have been taxed to the utteimost ever since the College opened last September. At the present time, by putting six students in one room, provision has been made for fortyone boarders in the College building. P'rovision has also been made in private fami ina for a few additional boarders. But after all was du on that could be done, at the bcginning of the present term, quite a number of boarders had to be refuseci admission. Judging from the success of the College thus far, it is quite certain that accommodations will be required at the begiuning of next College year for from seventy-five to one hundred boarders, and from one handred to one hundred and fifty day pupils. The building proposed will, with the present buildings, make first-elass provision for this number of boarders and day pupils.
(b) In carrying this recommendation into effect, ncthing is asked for the College in the way of money, beyond the annual appropriation of $\$ 4,000$ which is already made. It will be necessary, however, in order to go forward at once with the building proposed, that $\$ 16,000$ of this annual appropriation be paid in advance. On this amount, as well as upon the mortgage of $\$ 25,000$ on the premises, it is proposed to pay interest, as shown in Financial Statement IV, until the whole is cancelled.
(c) The plan suggested to provide the necessary amount of money for the erection of the proposed building, and for the payment of the present mortgage of $\$ 25,000$, is based upon the assumption, that, with the excellent accommodations proposed in the way of huildings and other appliances, the College, from the beginning of next year, will, from its own resources, meet all expenses, including the salaries of all the teachers. This, 1 am fully convinced, can be done without any difficulty. It means, however, that everything pertaining to the College be managed eeonomically and efficiently.

Recommendation VII.-To provide the necessary lecture rooms, and other accommodations, to carry into effect Recommendations I and II, the following course is recommended :

First.-That not later than during the year 1891-92 an additional building be erected at the west end of McMaster Hall for chapel and library, an outline plan of which is herewith submitted, at a cost not to exceed
$\$ 20,000$, which suin can be paid from the balance shown in Financial Statement III.

Second.-That for the present the lectures on Arts' subjects be delivered in the lecture rooms of McMasier Hall, and that after the proposed chapel and library building is erected, the present chapel, library and reading-room be used as lecture rooms.

Third.-That as soon as means for doing so can be secured, ai Arts' building, the same in size and architectural design as McMaster Hall, be crected west of the proposed chapel and library building, and connected therewith in the same manner as McMaster Hall.

Before it can be decided tocarry into effect this recom. mendation, careful consideration must be given to the following clause contained in the Trust Deed: "It is declared and agreed that the lands and premises shall be held in trust to permit the completion of the buildings now being erected thereon, and to permit the use and occupation of thes said buildings, or of any buildings which may, at any time, be erected in addition thereto, or in the stead thereof, for all the necessary and proper purposes of Theological College, be called and known as the 'Toronto Baptist College,' or such other name as shall be given to the said College in and by the said Act of Incorporation, for the education and training of students preparing for and intending to be engaged in pastoral, evangelical, missionary, or other deneminational work in connection with the Regular Baptist Churches exclusively, composed of persons who have been baptized on a personal profession of their faith in Christ."
In interpreting this clause of the Trust Deed the following points should be carefully noted :
(a) The lands and premises are to be held in trust to permit the use of all buildings erected thereon "for all the necessary and proper purposes of Theological College . . . for the education and training of students preparing for and intending to be engaged in pastoral, evangelical. missionary, or other denominational work." It will be observed that this language designates, in a general sense, the objects for which the education cond training are to be given, but it does not limit, in any sense, the nature and extent of this education and training.
(b) Inasmuch as the nature and extent of the educa. tion and training to be ' ven are not explicitly set forth in the Trust Deed, the true int - Lion of Mr. McMaster, with reference to the trust imposed in this matter, must be determined by the course of action pursued duriag the seven yearis in which he himself, as T'rustee,
and as Chairman of the Board of Trustees, had the chief voice in marking out the lines of work which could and should be done in McMaster Hall, or any other building erected upon the premises.
(c) Just here it should be noted that Mr. McMaster, in 1884-85, after the most careful consideration of the whole subject, made provision for two additional Professors in the Faculty of Toronto BaptistCollege in vrder that Seven Arts Subjects might be added to the course o? instruction pursued in the College at that time. The subjects added were Mental Science, Ethics, Deductive and Inductive Logis, Rhetoric and Oratory, Science and Religion and English Literature. Mr. McMaster went even further than this. When it was ${ }^{-}$cecided, at the meeting of tha Baptist Union held at Branttord, that the Cellege should, in case certain conditions could be realized, enter into federation with Toronto University, he made provision for erecting an addition to McMaster Hall similar to the building now proposed. This addition was to be erected for the express purpses of giving more accommodation for teaching, if not an entire Arts Course, quite an addition to the Arts subjects then included in the course of instruction in the College and taught in the lecture rooms of McMaster Hall. All this Mr. McMaster did himself, and regarded what he had done as carrying out the true intention and spirit of the trust imposed in the clause quoted from the Trust Deed.
(d) One thing more should be noted in this connection. The latter clause of the above quotation, namely: "for the education and training of students preparing for, and intending to be engaged in, pastoral, evangelical, missionary, or other denominational work in connection with the regular Baptist denomination," seems to restrict the trust to making provision for students who were in some capacity to serve the Baptist denomination. This strict inte "pretatior was not put upon this clause by Mr. McMastes himself. During his personal administration of the affairs of the College, as Chairman of the Board of Trustees, students were received into McMaster Hall, and into the lectures of Toronto Baptist College, who were not Baptists, and hence were not preparing to serve the Baptist denomination in any capacity. But more than this, when Mr. McMaster arranged plans to erect an addition to McMaster Hall, similar to the one now proposed, it was for the very purpose of making full provision for the education and training, not of Baptis. students only, but of young men of other denominations who desired to fit themselves for rea! usefulness in their chosen life work.

## FINANCIAL STATEMENTS.

Statement I.-The following shows the minimum assured annual income of the University and the annual disbursements which will be required to carry into effect Recommendations I, II, III of the foregoing. It is assumed in this statement that the action of the Board regarding salaries will take effect at the beginning of the College year of 1889-90.

COLLEGK YEAR 189:3.93.

To this surphts should be added at least $\$ 500$ of fees, making in all $\$ 2,000$.

Statement II.-This statement shows the amount still due on the Old and New subscriptions for Woodstock College.

In considering this statcment, the following should be noted:
(a) The statement is based upon the repant made by Professor Wolverton, at the request of the Board of Governors, on the subscriptions obtained for Woodstock College. Mr. Wolverton examined with great care these subscriptions, and prepared a correct alphabetical list, giving the post-oftice address and church counection of each subscriber, the amount paid and the halance still due. He classitied also, with great carc, the amounts due on the subscriptions obtaired by Rev. S. A. Dyke, and also secured on the $\$ 56,000$, as follows: Class No. 1 coritains the amounts due where the pledges are writien and signed in dio form, and regarded as perfectly good; Class No. 2 contains the amounts due on verbal promises, which are regarded as good; Class No. 3 contains the amounts due on promises that were conditioned in some way, and therefore regarded as of doubtful value; Class No. 4 contains the amounts due that are of 110 value. The amount due on each of these classes is as follows :

Dyke Subscriltions.

| Class No. 1 | \$ 7,257.50 |
| :---: | :---: |
| Class No. 2 | 4,587.40 |
| Class No. 3 | 2,828.60 |
| Class No. 4 | $6,542.37$ |

\$56,000 Subscriptions.

| $\$ 13,600.96$ |
| ---: |
| $1,496.50$ |
| $8,749.35$ |
| $1,857.15$ |
| $\$ 25,703.96$ |

Totals.

| $\$ 20,958.46$ |
| ---: |
| $6,083.90$ |
| $11,577.95$ |
| $3,399.52$ |
| $\$ 47,019.83$ |

(b) From this analysis of the subscriptions, it will be seen that there are $\$ 20,958$ which Mr . Wolverton regards as perfectly good. Class No. 2 he regards also as good, making an aggregate of $\$ 27,052$, of reasonably good subscriptions. To this should be added the $\$ 8,749$ of new subscriptions, which Mr. Wol ierton has placed in Class No. 3. This amount is largely made up of balances due from subscriptions supposed to be affected by the decision to locate the Arts department of the University in Toronto. In reference to this amount, it is quite reasonable to expect that a pait of it will be realized, in view of the large expenditure the Bond is making for Woodstock Collcge. Taking this amount into account, there is an aggragive subscription of $\$ 35,801$, from which, with proper effort, it is believed $\$ 20,000$ at least can be collected.

Statement III.-The following shows the proposed disbursement of the surplus which will accumulate from 1888 to 1892 , as shown in Statement I.

It should be observed here, that in this statement $\$ 28,000$ is allowed for buildings and improvements for Wondstock College. This is $\$ 1,500$ more than the amount already appropriated by the Board for this purpose. The Building Committee propose, however, to keep the expenditure rigidly within the appropriation already made, unless otherwise directed by the

Board. It should alsu be observed, that in this statement $\$ 3,000$ is allowed to pay the interest upon the $\$ 23,000$ appropriated to Woodstock College until this mount is cancelled by the accumulated surplus.

ACCUMULATEI SURPLUS

## DISBURSEMENT JF SURPLUS.

| Buildings and Improvements for Woo stock College. | $828,000$ |
| :---: | :---: |
| Interest upon this amount. | 3,000 |
| Interest to Toronto General Trusts Co., for 4 years, on $\$ 10,000$. | 2,400 |
| Payment of Principal to Toronto General <br> 'T. usts Co. | 10,000 |
|  | \$43,400 |

This balance of $\$ 2,100$, with the $\$ 20,000$ to be realized from subscriptions, gives an aggre ${ }^{-}$ gate be'ance of $\$ 22,100$, which can be applied in the purchase of alditional land for the University site, or in erecting tha proposed addition to McMaster Hall.

In this connection it should be ruted, that the only encumbrance on Woodstock College unt provided for in the foregoing statement, is the mortgage of $\$ 3,000$ on the Principal's residence. This the Board has ordered to be cancelled by the sale of the promises.

Statement IV.-This statement shows how it is proposed to carry into effect Recommendation VI, and cancel the mortgage of $\$ 25,000$ on the premises of Moulton College, by the use of the annual appropriation of $\$ 4,000$.

Regarding ihis statement it should be noted:
(a) That the poriod proposed, in which to pay, from the annual appropriation of 84,000 , for the eiection of the proposed building and discharge the mortgage of $\$ 25,000$, is sixteen years.
(b) That no payment, except the $\$ 1,250$ annual interest, is to be made upon the mortgage until the $\$ 16,000$ expended on buildings is cancelled. This will require a little over seven years The interest on the unpaid Laidnce, each year, of the $\$ 16,000$, is calculated at six per cent., and on the mortgage at five per cent.

## RECEIPTS.

From the University, \$4,0 9 annually, for sixteen years.
