

THE LATE JAMES NOLAN

James Nolan, the city hall pitman, died suddenly at his home, 44 Sunnyside street, yesterday. Mr. Nolan had been on duty at the foot of the main staircase since the city hall was first opened, in 1859. For some time he had been suffering from rheumatism. On Saturday, however, he was at his post as usual, but on Sunday he complained of not feeling well. Early yesterday morning he announced his intention of going to work as usual, and a few minutes later he was dead. Mr. Nolan was very popular around the city hall, and the civic officials and employees are deeply grieved at his death.

NO LOUD CHEERS IN OLD QUEBEC

La Presse Thinks Canada Does Enough as Empire Granary—Bourassa Expends Some Sarcasm.

MONTREAL, July 23.—(Can. Press.)—La Presse, discussing Canada's naval contribution to imperial defence, says in part: "Canada is the granary of the empire. Is not that the most useful manner in which to contribute to imperial defence? We supported Sir Wilfrid Laurier without hesitation when he consented to prepare, little by little, a Canadian navy for the defence of our own territory, but what Mr. Borden proposes to-day is not the same thing. Led astray by a false sentimentalism, intoxicated by incense which mounts to his nostrils from the Unionist censors, he sees nothing more nor less than the progressive enfeeblement of our national autonomy. We cannot follow him so far. Canada is ready to help Great Britain generously, but it has no need to sacrifice for that any one of its present rights."

Henri Bourassa in Le Devoir refers to the impropriety of a British minister undertaking to define the attitude of the Canadian Prime Minister on the naval question before Mr. Borden had returned to Canada and submitted his policy to parliament and the people. "This strange proceeding has been evidently adopted by the authorization of Mr. Borden," Mr. Bourassa says. "The further information is received, it may be taken for granted that Mr. Borden is preparing to return to his attitude of 1906, i.e., to reserve for a nebulous future the definition of the terms of imperial partnership and the settlement of the condition on which the political authority and the military burdens of the empire will be apportioned. In the meanwhile he is preparing to run to arms on land and sea, and to take an immediate plunge into a policy of preparation against the still more problematical dangers that Britain may encounter in the North Sea or the Mediterranean."

HEARING OVER IN MARRIAGE CASE

Privy Council Reserves Judgment After Hearing Argument on Behalf of Quebec.

LONDON, July 23.—The privy council reserved judgment in the appeal by the Canadian Government on the marriage question.

Mr. F. Hellmuth, continuing the argument to-day before the privy council, urged that the provision now sought to be imposed would be at variance with the code in the case of two Roman Catholics, whose marriage could only be validly solemnized by a Roman Catholic priest, because no other minister upon the true construction of the code had the necessary authority to solemnize such a marriage.

Quebec's Contentions. Mr. Smith then opened the case for the Province of Quebec. When this was introduced by a private person, he pointed out the question at once presented itself whether the Dominion Parliament was not acting ultra vires in allowing such a bill to be introduced.

Medicos Are Defiant. LIVERPOOL, July 23.—The British Medical Association has finally declared open war on David Lloyd George, the chancellor of the exchequer, and the doctors present passed a resolution breaking off negotiations and refusing to accept office of any kind.

Ottawa's Typhoid Scare. OTTAWA, July 23.—There were 100 cases of typhoid reported in Ottawa to noon today, as a result of contaminated water being supplied to the city through a break in the intake which was discovered last night.

Electricity is the source of physical and mental energy.

What would you not sacrifice to realize the joyous spark of nerve life as it infuses the body with its glowing vitality; to feel the magnetic enthusiasm of youthful energy; to be happy, light-hearted and full of joyous impulses; to be free from spells of despondency, from brain wandering, from the dull, stupid feeling, to have confidence, self-esteem and the admiration of men and women? Such is the wish of the broken-down man, and it may be gratified.

DR. McLAUGHLIN'S ELECTRIC BELT

makes men noble; it causes the nerves to tingle with the joyous exhilaration of youth; it fills the heart with a feeling of gladness, makes every-thing look right and makes the nerves like bars of steel. It cures to stay cured Nervous Debility, Weakness of any kind, whether in Nerves, Stomach, Heart, Liver or Kidneys, Rheumatism, Pains in the Back and Shoulders, Sciatica, Lumbago, Indigestion, Neuralgia, Constipation, Dyspepsia, and all troubles where new life can restore health. It does all this while you sleep by pouring electricity, which is Nature's energy, into your nerves and blood. Electricity is life to the vital parts; when they are weak it will make them strong.

DR. McLaughlin's Electric Belt Cures

Varicocele, Rheumatism, Kidney Troubles, Lame Back, Sciatica, Stomach Troubles, Nervous Debility, and every indication that you are breaking down physically.

ROD MACKENZIE REPEATS IN CHAMBER OF COMMERCE

Joe Patchen II Lands \$5000 Pacing Stake at Detroit in Straight Heats—Pop Geers Had Bad Day.

DETROIT, July 23.—R. J. Mackenzie of Toronto and Winnipeg had the satisfaction to-day of watching his splendid horse, Joe Patchen II, duplicate last year's performance of his stablemate, Vernon McKinney, and capture the rich Chamber of Commerce stakes, the feature event on to-day's Grand Circuit program.

In Mr. Mackenzie's box, Sir Rodman Palen Roblin, premier of Manitoba, was an enthusiastic spectator of the horse's victory.

The son of Joe Patchen was always best in the big race. Away in front in each of the three heats he led from wire to wire, never faltering and never in danger. When Chimes Hal, who followed him closely in each round, came too close, Fleming gave the handsome bay the word and he pulled away. Behind the two leaders, the next three horses fought it out, the real contest being for third and fourth moneys.

Geers' horses acted badly to-day, third money in one event being the best the veteran could get. In the 2 1/2 trot, which Ruth McGregor won rather easily, Funnny Crank got away behind the field, raced into third place in the stretch and then broke, falling back to sixth. He repeated in the second, but in the third heat Geers got him going right after passing the first turn. He came to the wire with a rush and in another stride would have passed the winner.

It took five heats to decide the 2 1/2 pace, of which Baron A. took the last three. Both Clark, coming out of the bunch, won the first two heats slowed down, Baron A. had the lasting quality, however, and in the third heat he took the lead and held it through.

Chatty Direct took the 2 1/2 trot in two straight heats. Gordon Todd led into the stretch but Chatty Direct passed him in a hot drive. Summaries:

Doubleheader To-day. The Leafs and Grays will finish their series here to-day with a doubleheader at the island, the first game of which will start at 7 o'clock. Manager Kelley is going to make strenuous efforts to win both contests, but Manager Lake will likely make it all the harder by trying to get two southpaws in Mitchell and Covington. Drucks will pitch the first game for the Leafs, while in the second it will either be Maxwell or Gaspar.

The "Flying Water Witch" Bait. The "Flying Water Witch" Bait is a deadly lure for Trout, Salmon, Pike, etc. and suitable for River, Sea or Lake. It is composed of a series of graduated metal balls with angles, each a separate unit, which spin independently, revolving on a single metal bar running right through the centre of the bait, and when drawn through the water whilst spinning gives the bait a most attractive appearance.

Senators Get Their Tigers Hit the Ball

Ford Loses to White Sox—American League Scores. At Washington—Detroit bunched five hits with three bases on balls and a hit by pitcher off Groom in the ninth inning, by scoring seven runs and winning out, 12 to 7. Morgan's triple scored three runs. Catches by Gaudin and Williams featured. The score: Washington, 12; Detroit, 7.

At Philadelphia—Philadelphia again defeated St. Louis, 5 to 4. Coombs, who went to Pennock's rescue in the fourth inning, held the visitors down. Powell weakened in the eighth inning, when a base, Collins' single, Baker's double and Meliner's single gave the home team three runs. Score: Philadelphia, 5; St. Louis, 4.

At New York—Chicago won the second game of the series, 6 to 4. In the eighth inning Hartell made three errors, which enabled Chicago to win, after New York had overhauled a three-run lead. A three-base wild throw by Ford presented Chicago with another run in the ninth. The score: Chicago, 6; New York, 4.

At Boston—Boston won from Cleveland again, 4 to 3, by batting both Kahler and Blanding. Wood was hit hard, but he tightened in the pinches. Cady frustrated Ryan's attempt to steal home in the seventh by catching the ball before it

WEDNESDAY MORNING, JULY 24, 1912.

NIAGARA FOR ONTARIO.

It is expected that by the end of the year the Hydro-Electric Commission of Ontario will have the whole of the 30,000 horsepower contracted for placed with its customers of the Union of Ontario Municipalities.

There appears to be absolutely no limit to the consumption of power under the people's commission. All thru Western Ontario enthusiasm and confidence is spreading with the area which may be supplied is being widened.

Hon. Adam Beck has plans on hand for the supply at favorable rates and under varying conditions of power on the farm for chopping, churning, milking, wood-cutting, pumping and all household uses.

Flowing, silt-filling and threshing are excepted from the ordinary schedule, but special provision will be made for these by traveling wagons and motors.

Arrangements are being made to install a farm system through Toronto Township, which will exhibit the possibilities of the application of power to farm purposes.

It seems clear that with the present growth of consumption of power, the province will soon have to consider the problem of reserving all the power possible at Niagara for the people of Ontario.

The best way to settle the matter is for the province to acquire the rights of the present companies.

This could easily be done by the issue of hydro-electric bonds. Toronto and Hamilton would become responsible for their local activities. Consumers' interests would be fully protected.

What have the electrical interests to say?

THE REAL BACKERS OF THE GLOBE.

The Globe is again at its commercial-industrial-free trade-annexation program. It has no use for free trade within Canada and yet this is a big order.

It has little use for manufacturers and workmen, for cities and towns. It wants farms—selling out raw products to the United States, buying our manufactured goods from the United States.

But never all the time the Laurier Government was in power did it move a hand to abolish or substantially reduce the iniquitous tariff. Now it is trying to split the country: east against west, Ontario against Saskatchewan—mainly because of our tariff.

And yet, if the Globe was depending on the farm population and on the manufacturers of the United States, it would earn a sorry livelihood. The Globe has lived and is living on the support of people who believe in the national policy. Four-fifths of its revenue comes from these people.

And, therefore, it is a very fair inference that those who believe in the national policy are responsible for the Globe's pro-free trade-United States policy.

NO LESS RENOWNED.

The Mail regrets that the splendid talents and courageous spirit of Winston Churchill along with his colleague, Lloyd George, should have been engaged for several years with social and economic problems, instead of, with what it deems to be the loftier duty of maintaining Britain's supremacy on the sea.

The defence of his country from foreign invasion may be at times the most urgent duty of a statesman, but, by and large, the great task of his life should be to improve the social and economic condition of the people.

Many public men at all times and in all countries can be found ready to attend to the military and naval policies essential to national safety with considerable ability, but the statesman are few and far between who grapple with vested wrongs and economic injustices.

Parliament and the people know that the present first loss of the admiralty asks for large appropriations only because they are headed and that he would personally prefer an expenditure more intimately connected, with the daily lives and the daily welfare of the people.

His service in other fields was service of high value to the state, which will increase his usefulness and influence in his present position.

Healthy people and happy homes are no less important to king and country than Dreadnoughts and battleships.

ROYALTIES ON COBALT SILVER MINES.

The question is up again of the royalties collected on certain Cobalt silver mines by the Province of Ontario.

It is claimed that out of \$3,300,000 taken from the O'Brien Mine during the past four years, the government's share, namely, 25 per cent, was \$825,000. Out of last year's production of \$725,000, the province got \$181,250.

The World believes in royalties; our only regret is that the province is not wise enough to have secured them on all the mines. We have extensive commitments as a province in the way of railways in the mining districts.

There is no reason why the La Roca and the Nipissing mines should not have shared with the province, nor many other properties as well. There are mine owners in Cobalt who would give a good deal to have had Mr. O'Brien's experience!

It may be, however, that the share now taken is, in instances, rather severe, and may prevent properties being worked; if such be the case, it is a matter of adjustment, but the principle of royalty is sound.

Both British Columbia and Nova Scotia to-day are well off and able to look after themselves because of substantial royalties drawn from their mines.

THE LAW AND C. P. R. MELONS.

The Canadian Pacific Railway Act of 1882, provides by section 3 that the company may issue capital stock in lieu of consolidated debenture stock for any purpose for which it might issue consolidated debenture stock, but when capital stock has been issued for such purpose the right to issue consolidated debenture stock for such purpose shall cease to exist.

And then follows section 3, which apparently permits the company to increase its capital to any extent that may be approved by the governor-in-council and under which the capital of the company has been increased from \$65,000,000 to \$200,000,000.

Section 3 reads: "In addition to its capital stock, at the time of the passing of this act, and to any which may be issued under the authority of the next preceding section, the company being first authorized so to do by a vote of at least two-thirds of its shareholders present or represented at a special general meeting duly called for the purpose, may, from time to time, issue shares of capital stock for any purpose for which the company requires new capital, in such amounts and at such times as the shareholders, by resolution at any such meeting, determine—such issue being first approved by the governor-in-council."

WHO IS TO BLAME?

When the Dominion Railway Commission was at Winnipeg the other day an application was presented by the mayor and citizens of Stonewall, Man., for compensation rates between Stonewall and Winnipeg.

As usual the railway company asked for delay, and the matter finally went over for a few weeks. Vice-chairman D'Arcy Scott, president, and in the report of the proceedings in the local press we note the following:

Mr. Scott said that the question of commutation tickets was one which required careful consideration. It had been taken up by the board in the case of Brampton and Toronto, but no decision was arrived at.

May we ask why no decision has been arrived at, and who is to blame for the delay?

Does Mr. Scott mean to say that the commission is seized of the situation, but has failed to render judgment?

One reason for creating the railway commission was to secure expedition in the interpretation and enforcement of the Railway Act. Mr. Scott and his colleagues should be able to arrive at a conclusion if the facts are before them.

Or does the vice-chairman mean that the case as submitted is incomplete and that the commission has been waiting all this time, several years now, for the city to put in additional evidence? Is it up to the corporation counsel or the city law department to account for and explain this inaction and delay?

Someone must be reprimand. Is it the city, or is it the commission, and if it is the city, who is to blame?

And what is going to be done about it? Where is Church?

A TWO-CENT PASSENGER RATE.

Winnipeg Tribune: If a man has right ideas and pounds away long enough, those ideas are bound to prevail. W. F. Maclean, M.P., editor of The Toronto World, has his shortcomings, but year in and year out he has hammered away in his journal and in parliament for a two-cent rate.

In the present organ-in-chief of the Ottawa government, The Toronto News, we find the two-cent rate idea meeting with favor.

"The demand comes from the west for a two-cent passenger rate on Canadian railways," says The News. "It is certain that the demand should be resisted. Nothing is clearer than that reduction of charges materially increases the volume of travel, just as lower freight rates determine the routes of products and merchandise."

A QUESTION FOR MAYOR CHURCH

Editor World: When the franchise for that portion of the Kingston-road within the city limits expires next October, will the city give a five-cent fare from about the Hunt Club to the city's centre, with transfers on King-street and on the Gerrard-street car line? Will the Gerrard-street line run down Victoria Park-avenue and thus connect up with King-street?

TAFT TO DROP RECIPROCIITY

President intimates He Will Favor Repeal of Act—Definite Message Coming Soon.

WASHINGTON, July 23.—President Taft has indicated to several western senators who were active opponents of Canadian reciprocity, that he would favor a repeal of the act.

Mr. Taft will not withdraw his own support of Canadian reciprocity as a principle, it is understood, but will take the position that the United States should not continue an effort at reciprocity if Canada refuses to accept. The reciprocity law continues in effect in the United States notwithstanding Canada's refusal to endorse it.

Senators McCumber, Heyburn, Granger and others have urged a repeal and an amendment was put on the steel trust bill, recently passed by congress, and now in conference, providing for such action.

It is asserted among western senators that if any tariff measure is passed in the senate this week, an amendment will also be incorporated for the repeal of this reciprocity law. In case any one of these bills reach the president and is vetoed, it is expected he will make clear in his veto message the fact that he would approve a measure to repeal the reciprocity law.

THOUSANDS SAVED TO BUSINESS HOUSES

Canadian Credit Men's Association Splendid Work in Canada by the Co-operation of Its Members in Preventing Fraud.

Since its inception three years ago the Canadian Credit Men's Association has increased its membership from 30 to 700. So stated Henry Detohnd, general manager of the organization, at the dinner given in McCowen's last night. There were many old as well as new members present and all were interested in the addresses of the evening.

Douglas Eby of Eby-Blain occupied the chair.

W. H. Lamont of H. S. Holland & Sons reported from the Credit Men's convention held in Boston, at which he was the official representative of the association on June 2. Mr. Detohnd spoke about his recent trips to

TAKE ADVANTAGE OF OFFER QUICK

No Time to Lose Now and First Come, First Served, Will Be Established Rule.

Unknown to them there is now being formed among our readers a "Too Late Club."

While you may not know this, you are sure to be a member in good standing if you don't take immediate advantage of The World's offer and get the Bible that everybody is talking about, at the rate at which they are now going, they will not last long, so if you want to keep out of the "Too Late" you must act quickly.

This is the Bible with the pictures and the length with regard to the splendid work being accomplished throughout the Dominion by the co-operation of the members. Thousands of dollars had been saved in adjustments of accounts made by the association at cost, whereas formerly assignments were paid for by the individual.

The speaker dwelt on the details of a number of estates in particular where adjustments had been effected and \$60 to \$100 cents paid on the dollar.

Mr. Detohnd will leave on Thursday for Vancouver to conduct negotiations for the opening of a branch of the organization there. When this is done the Credit Men's Association will extend from the Atlantic to the Pacific.

It was stated that the association had not only saved thousands of dollars yearly to the wholesalers, but it was helping honest retailers, who mean to handle money by leaving the wholesale on a straight basis.

The association takes part in the prosecution of cases of fraud, does the work for its members that Bradstreet's and Dun's are doing: investigates financial conditions of the retailers, and runs to earth "men who do" the "house" out money by leaving the country. There is no extra charge for this work; it is an organization run at cost and is non-profit-making.

FIFTY THOUSAND MEN REQUIRED

Farm Laborers' Excursion—This Year's Wheat Crop Will Be the Largest in the History of Canada.

The wheat crop of 1912 will be the greatest ever harvested in Manitoba, Saskatchewan and Alberta, thus requiring the farm laborers of the east to recruit and assist in harvesting the world's greatest bread basket.

The governments of the respective provinces state that 90,000 men will be required for this year's harvest. These will have to be principally recruited from Ontario, and the prosperity of Canada depends on securing labor recruits from the Canadian Pacific, on which company falls practically the entire task of transporting the men to the west, is already making special arrangements for this year.

Excursions from points in Ontario to Manitoba, Saskatchewan and Alberta will be run and special trains operated, making the trip in about 38 hours, and avoiding any change of cars or transfers. This will be a day shorter than any other route.

Dates, rates and conditions will be announced in a few days. Consult any C. P. R. agent for full particulars. 23

FRANK SASTO NEAR ARREST

Police Are Close on Trail of Italian Wanted For Recent Murder at Humber.

Several stories are going the rounds to the effect that "Big Frank" Sasto, wanted for the murder of John Masternak at the Humber Polish Colony some weeks ago, has arrived in Italy.

The Italian's in the camp at Mimico have stated that the fugitive left some weeks ago for the place of his birth.

It is admitted by the police that with several hundred dollars, which it is said he had, "Big Frank" could soon get away. But there is still a suspicion in the minds of the officers that the Italian has not left this country.

While the double murder at Humber Bay has been partly forgotten by the general public the police have been using means to run their man to earth. He is now to police investigation in the city. There is every reason to believe that they are on the track of Sasto. In fact, the news of his arrest is liable to be received at any moment.
