BOOMB EXPLODES IN MIGHTY ST. PETER'S

INDESCRIBABLE PANIC IN CATHEDRAL

Attempt to Wreck Basilica During Celebration of Anniversary of Dedication, but the Damage Was Small—Officiating Clergyman Fails to Reassure People, and Wild Scene of Disorder Follows.

PONTIFF IMPLORES MERCY FOR MISGUIDED ANARCHIST

Rome, Nov. 18.—A bomb was exploded in St. Peter's today. The edifice was crowded and an indescribable scene of confusion followed. There were no fatalities.

As soon as the echoes of the tremendous roar had ceased a canon sought by reassuring words to quiet the people, but in vain. They fled in all directions and a number of women fainted.

Women and children screamed and men tried to protect their families in the crush. The church is so large, however, and there was ample room for the crowd to scatter, and no one was injured. No trace of the perpetrator of the deed has been found.

Since Saint Anselm, who was ordained by Peter himself, erected an oratory in A. D. on the site of the present basilica, to mark the spot where the remains of St. Peter are buried, no such disastrous occurrence is noted in the annals of the church.

Today was the anniversary of the dedication of the basilica to St. Peter, and it was beautifully decorated for the occasion. Holy relics were exposed, and a large number of the faithful attended the services. Cardinal Rampolla, formerly papal secretary of state, was among those who took part in the service in the choir chapel.

The last mass had just been concluded when the explosion occurred, and only one canon, who had not quite finished, remained at the altar of St. Petronilla. This altar is at the end of the right aisle, and it was near here that the bomb had been placed.

Tremendous Roar.
As the canon turned to bless the communicants, there was a tremendous roar, which echoed thru the lofty arches of the immense dome like a thunder clap. At the same time a dense smoke spread thru the portion of the basilica occupied by the altar of St. Peter.

The canon at the altar tried to stem the tide of fear. He shouted: "Do not be afraid; it is nothing; merely the noonday gun."

His words, however, had little effect; they were rebuffed by the smoke and the pungent smell of powder, and the people continued their headlong flight. Chairs were overturned, making the confusion more dominant. Men and women fled, stumbling in all directions, and the screams of children and cries of anguish were heard on all sides, and for a few moments it seemed as if nothing could obviate a grave disaster.

The vast size of the church, however, gave room for the crowd to scatter, and the moments the people were surging toward the doors, excited and nervous, but orderly.

As soon as the smoke cleared away a hasty examination showed that nobody had been hurt in the crush, and furthermore, that no one had been wounded by the explosion. Calm was gradually restored, and people returned to view the extent of the damage.

Over Pontiff's Tomb.
It was discovered that the bomb had been placed under a scaffolding which had been erected to facilitate repairs to the roof exactly over the celebrated tomb of Clement XIII., by Canova, which consists of a figure of the pope and two lions, and which is the most remarkable piece of sculpture in the basilica. This tomb ranks among the finest efforts of modern sculpture, and by its execution Canova established his reputation.

When the first gendarmes reached the spot the scaffolding was found to be smouldering, but this fire was easily extinguished. The tomb was found to be absolutely uninjured, and even the pavement shows scarcely any signs of the explosion.

An examination of the remains of the bomb leads to the supposition, unless it was crudely prepared on purpose to mislead, that it was manufactured in the country and brought into Rome. It is believed that the

C.P.R. to Build on Lake Shore

Preliminary Stages Completed for New Line From Smith's Falls to Toronto, Passing Thru Towns New Served Exclusively by Grand Trunk.

Montreal, Nov. 18.—(Special.)—It now looks as if the preliminary stages were about completed for the building of a new thru line by the Canadian Pacific Railway from near Smith's Falls to Toronto, taking in such towns as Belleville, Cobourg and other smart places on Lake Ontario.

In other words, the C.P.R. so loves the G.T.R. that Sir Thomas Shaughnessy will hug its big rival all the way from Montreal to the Union Station. It was announced some time ago that the C.P.R. would double its track from this city to Smith's Falls. This has been accomplished to Vandriell, and as the machinery is about completed the double set of rails will be laid to Smith's Falls during the coming summer.

People who have been thru Ontario say that the country is full of C.P.R. surveying parties, and that a new thru and shorter line to the Queen City of the west will be undertaken at a very early date.

SAYS CANADA'S TEMPER IS PRETTY WELL TIED

Prof. Wrong's Letter to The Spectator—Young Canada Inclined to Look Upon Great Britain With Distrust and Anger—The Reason Why.

Prof. G. M. Wrong, whose letter to The London Spectator, in which are set forth results of the writer's observations on the temper of Canada as regards its relations to Great Britain, was, in part, cabled to the Toronto press on Saturday, courteously but firmly declines to discuss the matter further. He is reluctant to be drawn into any controversy, he explains, but he is quite prepared to acknowledge that he entertains sentiments fully as strong, if not of even more positive character, than appear in his reply to an editorial in The Spectator of Oct. 13.

In the cable reports there were only excerpts of his letter, which is nothing if not striking. The full text is as follows:
Toronto, Nov. 3, 1906.
Dear Sir:—By an accident, I have only now seen The Spectator of Oct. 13, in which you discuss briefly the indignation of Newfoundland in regard to the recent modus vivendi.

You will, perhaps, be surprised to be told that there are probably few people in Canada who would read your obviously well-meant comments with other than profound irritation. As the matter is of wider application than to the Newfoundland incident, perhaps you will allow me to state the reason.

You say: "It would be impossible for the whole empire to go to war with the United States over a small fishery dispute." Of course, no one wants the British Empire to go to war with the United States over fisheries or anything else, but your way of saying this (which is the general way in England) causes infinite mischief here.

Not so very long ago, some English fishermen were killed by Russian warships. Did the British press say then, "It would be impossible for the whole empire to go to war with Russia over two or three fishermen"? What you said was, "There is a justice in the matter, and Britain's might is pledged to see that justice is done." Had you adopted any other concession to Russia, justice would not have been done. When you promise the United States beforehand that Newfoundland fishing can be taken as seriously endangering peace, you are inciting the more selfish elements in Newfoundland to menace Great Britain with war whenever cause for dispute appears. There are in the United States many reasonable

SOO STEAMER GOES DOWN

CARRIED CARGO OF RAILS FOR G.T.P. CREW GETS OFF IN BOATS

Thames Strikes Rocks Near Thunder Cape and Slides Into Deep Water—Steamer Simla May Also Be a Wreck.

Sault Ste. Marie, Nov. 18.—(Special.)—The Algoma Central Steamer Theano with a cargo of 2000 tons of steel rails for the Grand Trunk Pacific at Port Arthur was sunk three miles from Thunder Cape.

The boat struck a small island while trying to make the harbor Friday night, and being washed off by a heavy sea, sank in deep water. The crew were able to get off in life boats, and reached Port Arthur in safety.

NO TRACE.
Port Arthur, Nov. 18.—(Special.)—No trace of the steamer Theano could be found by divers who went out to the wreck of the wreck this morning on the Whelan. Only floating oil and bubbles coming to the surface of Lake Huron indicated the spot where a wreck had taken place. The steamer, with her cargo of rails, had gone to the bottom of the lake. At that point the water is 17 feet deep, and there is no likelihood of the boat being recovered.

The steamer struck the rocks a glancing blow, knocking a large hole in her bow, and water flowed into the aperture.

The steamer was on the sheltered side of the island, and the crew were able to take to the boats. When they left the boat was down at the bow, and it was thought that she was breaking in two. It is thought that the boat was split in two, and she plunged to the bottom.

The tug Bowman, sent out to search for the crew, came across a large amount of wreckage, portions of which were painted green. As the steamer Simla was green striped it is believed that she was wrecked.

MACKAY BOAT ASHORE.
Owen Sound, Nov. 18.—(Special.)—Word was received here this afternoon that the new steel freight carrier, Winona, of the R. O. & A. B. MacKay Line, is ashore on Duck Island, south of Manitowish Island.

The Winona, which is off the dry dock only a few weeks, having met with a similar misfortune about six weeks ago, left Owen Sound on Friday evening at 3:30 o'clock, bound for Port William with a cargo of cement. In a blinding snowstorm early Saturday morning, the Winona went ashore on one of the Duck Islands, about 190 miles from Owen Sound. The big steamer landed well up in shallow water.

MR. FIELDING: "Now, that's very careless of Fitzgerald."

Mob Chases Cars Into Barn

Disorders Renewed on Hamilton Streets Demand for Militia Refused

All Hope of Settlement of Strike Abandoned With Withdrawal of Railway Beard—Union Pleaded With Its Efforts to Bring Struggle to Close.

Hamilton, Nov. 18.—(Special.)—With the withdrawal of the Ontario railway and municipal board Saturday evening, all hope of settlement of the street car strike has been abandoned for the present.

The company to-day notified Mayor Biggar that it would start its cars out at 8 o'clock Monday morning. The mayor told the company that it would do so at its own risk, as the police had to have a little rest and they could not be out again until 10 o'clock.

The company also made another demand for the calling out of the militia. The mayor again refused to do so. The company says that it will insist upon the soldiers being called out, and will probably apply to Judge Snider.

In spite of what the mayor told the company, the policemen said to-night that they had called out for 8 o'clock in the morning.

Disorders Renewed.
Altho the cars were not motesed much since last Monday, the disorders were renewed to-day, and the cars were chased into the barn. Near the corner of Locke and King-streets a rail was placed across the tracks and spikes were thrown along the York-street tracks.

The cars started out about 10 o'clock this morning and ran until they were chased in at 4 o'clock this afternoon. Rotin eggs and stones were thrown at a car near the corner of James and Main-streets.

The strike-breakers and detectives, in number, armed with clubs, stopped the car, stepped off, and, with vile epithets, dared the crowd to come on. The detectives tried to catch those who had thrown the missiles, but the guilty ones were swallowed up in the crowd of about 2000 that quickly collected. The strike-breakers dashed up to the scene in a buggy and ordered his men to get back on the car and take it out of the crowd. The whole police reserve of forty men was called out to disperse the gathering.

Jack O'Connor, Harriet-street, 19 years of age, was arrested on the charge of throwing a brick thru a car window. The alleged offence was committed in front of the city hall.

Penal for Board.
The union handed out an official statement to-day, expressing pleasure with what the Ontario railway and municipal board had done to settle the trouble. The statement expresses the opinion that if the company had wanted to act fairly and have the strike settled the board could have fixed matters up. The men, thru the board, asked the company to submit a proposition, but it did not do so.

CATHEDRAL PLANS VANISH QUESTION NOW IS RAISED IF EVER DRAWN

Mystery Which Surrounds the Designs From Which Were Commenced the Building of St. Alban's—Never Seen After Architect's Death—Planning to Reconstruct.

Imagine the architectural designs, the laborious draftings, the estimates and calculations, the working drawings, the specifications and particulars, and all the general mass of papers associated with the planning of what would be almost the largest building in Toronto disappearing off the face of the earth, vanishing into the air, and like Prospero's insubstantial pageant faded, leaving not a rack behind.

It sounds incredible, but this is what has actually happened in the case of St. Alban's Cathedral. It is so much beyond belief that competent architects take leave to doubt whether such plans really ever existed. The assurances of the cathedral authorities seem to leave no doubt on this score, however, and search has been made in every direction for the missing papers.

Six or seven years ago Richard Windyey, who was the architect of the cathedral, and, as it is stated, drew the plans, having fallen into feeble health, died. His affairs were in a somewhat confused state, and all his goods and effects were scattered in every direction.

The cathedral chancel alone having been built, and no immediate construction being contemplated, the question of the plans was not raised for some time, and then nothing could be heard of them. The members of the late Mr. Windyey's family could give no information, and after pursuing every available channel the matter was dropped.

Reconstructing Designs.
Since the renaissance of the cathedral project the necessity of plans has become pressing, and Chadwick & Beckett have been engaged by the cathedral chapter and work is being diligently

FREE TRIP TO TORONTO. Special Concessions to Out-of-Town Customers During November.

In order to give out-of-town customers the same shopping privileges as city people, the Dineen Fur Store is extending railroad fares all the month proportionate to the amount of purchase. This enables residents of Hamilton, Brantford, London, Peterborough, Brockville and other Ontario towns to come to Toronto at Dineen's expense to do their Christmas shopping. The offer holds good for November, and is intended for immediate acceptance.

MUCH COLDER.
Toronto, Nov. 18.—An area of high pressure, which is moving into the western provinces, is now the dominant feature, and decidedly cold conditions prevail from the Rockies to Lake Superior. The weather has been mild to-day from the Great Lakes to the Atlantic, with scattered showers.

Lower Lakes and Georgian Bay—Strong breezes and moderate gales, westerly to northwesterly; mostly fair and turning much colder.

Was Prominent in Church Work for Years and an Active Prohibitionist.

Sarnia, Nov. 18.—(Special.)—Hon. Senator Vidal died to-day at 2 o'clock at the residence of his son-in-law, T. W. Nisbett.

Sarnia Mourns Aged Son SENATOR VIDAL DEAD

Sensor Vidal had been ill nearly a year, and death was not unexpected. He was in his 83rd year, and is survived by two sons and two daughters.

The funeral will be on Wednesday at 2 o'clock from St. Andrew's Presbyterian Church.

Sensor Vidal was one of Sarnia's oldest and most highly respected residents.

Hon. Alexander Vidal was born in Berkshire, England, Aug. 4, 1813, being the eldest surviving son of Captain R. E. Vidal, R.N. The Vidal family came originally from Spain, removing to England in the seventeenth century. He was educated at the Royal Mathematical School, Christ's Hospital, London, accompanying his father to Canada in 1834, settling in Sarnia, Ont., the following year. Married, December, 1847, Catherine, eldest daughter of Captain W. E. Wright, R.N., of Moore, Lambton County. He practiced the profession of civil engineering from 1847 to 1852, and was manager of the Sarnia branch of the Bank of Upper Canada from 1852 till the failure of that institution in 1856. He held the same position in the service of the Bank of Montreal from that time until 1875, when he resigned. At the first general election, following Confederation in 1867, he was an unsuccessful candidate against the Hon. Alex. Mackenzie for the house of commons; again in 1872 he was defeated. He represented the St. Clair division in the legislative council from September, 1865, until the union. He became a senator at the call of Sir John A. Macdonald, Jan. 15, 1873. He was a man who took a general interest in the affairs of his community. He had been lieutenant-colonel in the Canadian militia, county treasury of Lambton, president of the Y.M.C.A. at Sarnia in 1878. The temperance cause claimed a great deal of his energies in late years and he was a central figure in the Dominion Alliance for the total suppression of the liquor traffic, of which organization he was a past president. Senator Vidal was a member of the Church of England till 1843, when he joined the Presbyterian Church, and has represented the Sarnia Church in the general assembly.

He is survived by four sons and two daughters.

PREVALENCE OF BRIBERY TAKES MAN'S DISGUISES

Rev. J. B. Silcox Preaches a Strong Sermon on the Present-Day Evil.

Rev. J. B. Silcox addressed a large audience in Bond-street Congregational Church last evening, drawing strong present-day lessons from the story of "Balaam, the bribed young man."

"The man who holds office and who takes a bribe sells himself to Satan as surely as did Balaam when he took the 30 pieces of silver."

"When a statesman shrinks his vote or refuses to champion the cause of what his conscience tells him is right and just, he is bribed."

"Thus, in a multitude of ways—some of them leading to the ruin of nations—men allow themselves to be bribed."

Referring to ill-gotten gains, the speaker said: "The sudden wealth that has come to some politicians in this land has been due to their perjury."

"My friends all admit that I have a very delightful complexion. This I owe positively to Dr. Hamilton's Pills."

WOMAN'S WORLD.

LIFE'S KEY.

All that I craved belonged to me. God held the gifts and I the key. He held them waiting my command. And yet I would not understand.

In patience and discontent. Full many a wasted year was spent. I cried, "How cruel is the fate That makes me work and weep and wait."

For things which make life worth living. Nor rob the giver in the giving!

A little joy, a little wealth. Result for toil, abundant health.

A chance to do, a chance to be. And then I looked and saw the key! Right in my heart I carried it. Divinely fashioned, formed to fit.

The lock of God's great reservoir. Which holds the things I hungered for.

The key was love; pure gold, acurist. With glittering gems of faith and trust.

It fits all doors, it turns all locks. It leads the way thru walls and rocks.

It lifts the bolt, unbars the gate. And shows us where life's treasures wait.

Oh, are there heights that feet would not ascend? Try love, the key to all success.

THE PRINCIPLES OF HOME MAKING.

Mrs. Heddles of Hamilton addressed a large audience in the Technical School, Toronto, on Friday evening last, on the principles of home-making. Ten years ago she said, "There was no recognized place in our scheme of education for these special subjects which relate directly to the home and the training of teachers for every subject under the sun but that upon which society is based, home economics. Special schools have been established for generations for the training of lawyers, doctors, ministers, pharmacists, and accountants, but in what way had the home been recognized as a special institution, or organized on an educational and business basis? Today, all the home interests are only a struggling infant in the field of education, yet its cries are penetrating the ears of the public, and efforts are being made to promote the healthy development of a child that is functionally determined to live a form of organization is being made."

"The effect of an organization or institution upon which it is based, in order to adjust principles, a standard must be established. We have standards in law, medicine, teaching, and for all the other great social influences, but what educational standard has been established for the home-maker? That seems to be the work laid out for the generation of educators. This is a distinctly sociological age, and when it comes to a study of sociology (which is contemporary history), the place and influence of the home cannot be ignored, as it is there that the variations of character must be studied, and those qualities developed which shall make for efficient living.

WHY IT IS DIFFICULT

For the man who evidences this wish to be correctly dressed.

Good tailoring is necessary for satisfactory results in a frock coat. The costume depends for its effect on its absolute correctness, and a man who wears a frock evidences his wish to be smartly dressed. Few tailors have mastered the difficulty of making frock suits as few as there are between. A tailor may make only four or five in a season.

Semi-ready tailoring is the only way to get one absolutely and gracefully correct in the prevailing mode. It is much better to do without a frock if a good cut and make cannot be gotten. The coat and all its appointments must be correct, as they are in the \$25 and \$30 frock suits in the Semi-ready Wardrobe. More than 100 frock suits are finished in a week in the Semi-ready tailor shops in Montreal.

In Toronto, at 81 Yonge or 472 West Queen-street. Ed. Mack.

ODD ORIGIN OF DESIGN.

Favored Pattern in Bracelets Taken From Old English Architecture.

Perhaps the most favored designs in this season's gold hoop bracelets are what are termed the "gallery patterns." These are reproductions in pierced gold of stone-carved designs from the quaint gallery railings, familiar to lovers of old-time English architecture. Ryrie Bros., Limited, are showing many fine specimens of their goldsmith's art in these designs.

To Build Up Siberia.

St. Petersburg, Nov. 17.—In view of the extension and improvement of railways, waterways and public roads in Siberia, a meeting soon will be held at Irkutsk, which will be attended by representatives of the government and persons prominent in Siberian business and industrial circles to discuss measures and draw up a plan of procedure, having as its purpose the further settlement and development of the country.

NO CRIME, SAYS JEROME

REPORTS ON MUTUAL LIFE

Only in Case of Two Officers Specifically Charged With Forgery—Law Doesn't Apply.

New York, Nov. 17.—District Attorney Jerome to-night made public the report prepared by him upon the request of Gov. Higgins, and concerning the conduct of the business of life insurance in this state.

The report is a voluminous document of some 14,000 words, and is addressed to the governor, to whom a copy was mailed to-day. It deals with the affairs of the mutual life insurance companies in this state, and the district attorney says that he will consider the business methods of the New York Life Insurance Co.

Epitomized in a sentence, the conclusions of the district attorney, based upon an exhaustive investigation of the facts and the legal points involved, are that there is no state law under which insurance officials can be proceeded against criminally for acts now or formerly in common practice, some of which were public during the investigation, and that the district attorney says that he will consider the business methods of the New York Life Insurance Co.

Chicago, Nov. 17.—The insurance commissioners, who have been in session for the last week drafting proposed laws for the control of the life insurance throughout the country, completed their work to-day and adjourned. Sixteen new laws have been drawn up, which the commissioners believe, if adopted by the various states, will correct the greater part of the abuses in the management of life insurance companies. These laws will be introduced during next winter into the legislatures of thirty-seven different states. They may be summarized as follows:

A standard policy act, which provides six forms of uniform policies for use by all life insurance companies; an annual appointment act, which requires life insurance companies either to pay annual dividends or credit the amount earned to the different policyholders. This act limits the amount of surplus which the companies are permitted to retain in their treasuries; an act prohibiting discrimination and relating to the management of life insurance companies; an act prohibiting corporations from acting as agents of life insurance companies.

THE "EMPRESS" SAILINGS.

All Passengers Must Go on Board at St. John, N.B.

Montreal, Que., Nov. 17.—The Empress of Ireland, announced to sail from St. John, N.B., Saturday, Dec. 1, will sail from that port on Friday, Nov. 20, instead of her arrival there by train No. 9, which leaves Windsor-street station, Montreal, at 7.25 on night of Thursday, Nov. 29. This will be the Empress' arrangements for the winter season.

The Empresses will simply touch at Halifax for the mails, which will be put on board by tender. All passengers must go aboard at St. John.

The popularity of the Canadian Pacific Railway's Atlantic "Empresses" has been evidenced by the phenomenal large passenger list on the Empress of Britain sailing from Quebec yesterday. She carried out 732 passengers, a record number for autumn sailing from Canada. In fact this passenger list was exceeded only on one occasion, that being the sailing of the same steamer on June 22 last with 755 passengers, also a record.

A NOTABLE SINGER.

The Excellent Standing in Musical Toronto of Arthur Blight.

Although Mr. Arthur Blight returned from Europe only a year ago, he has won already a very prominent place in the musical fraternity of this city. As a singer in the life insurance industry, he has surpassed, while his interpretations are full of vigor, free from offensive mannerisms and indubitably artistic in the highest sense. His voice is exceedingly resonant and clear, and is well-balanced and flexible. As a teacher, too, Mr. Blight has done good work. Many of his pupils are engaged in church solo work, and are winning a large measure of success. Mr. Blight's excellent reputation has stretched beyond Toronto. Throughout all Ontario he is always welcome in concert or recital, and he has been engaged as soloist for the Montreal Symphony Orchestra's concert in February. During the past summer, Mr. Blight was musical director at Grimsby Park. In reference to his work here, he wrote to Messrs. Gourlay, Winter & Co., Ltd., as follows: "Words fall me to express the pleasure the Gourlay piano gave me at Grimsby Park. I am sure it has made many a man's life a beautiful thing to the work of all those who had to do with it while there."

HEARD THE DEATH-CRY

OF WOMAN MURDERED

Herklimer, N.Y., Nov. 17.—That the dying cries of Grace Brown were heard by a witness who will be called by the state in the trial of Chester E. Gillette, charged with the murder of his sweetheart, was the declaration of Attorney George B. Ward, who made his opening speech to-day.

After describing the trip of the prisoner and Miss Brown to Moose Lake, from the waters of which the girl's body was later recovered, and a struggle on the shore, the prosecutor added: "And that night, as he struck that girl, and her last death cry echoed over that lake, there was a witness on that, and she will be here to tell you about it."

A Favorite Winter Resort.

The foresight of the Canadian Pacific Railway in rebuilding and refurbishing a comfortable winter hotel at Caledonia Springs, Ont., is now being appreciated by many visitors, who find Caledonia as charming at this time of the year as in summer. With first-class hotel accommodation at moderate rates, every convenience for taking the waters and baths and a frequent service of fast trains being happily situated between Ottawa and Montreal on the main line, Caledonia Springs is rapidly growing in favor as an all-year-round resort.

JAP SAILORS COMING.

Will Visit Prince in Spring—Why Not Toronto in September?

Safrancisco, Cal., Nov. 17.—Collector of the Port Stratton has been notified to prepare for the reception of a Japanese squadron which will come to this port in the spring.

The visit will assume much international importance, and every courtesy is to be offered the officers and crew. The Tokyo government has appropriated 500,000 yen for the expenses of the cruise. First-Admiral Schlichter Kataoka, commander of the third squadron of Port Arthur, under Admiral Togo, is to be in command. The squadron is to be composed of three vessels, a first-class battleship and two cruisers.

OPENING DOMINION PARLIAMENT.

C.P.R. Through Ottawa Car Nov. 21

Wednesday, Nov. 21, marks the opening of the Dominion parliament at Ottawa. A crowd of men will be hurrying to the capital city. For their convenience the Canadian Pacific Railway is arranging to run a special parlor car through to Ottawa, attached to their 9.15 a. m. train Nov. 21. This will do away with the usual change at Smith's Falls and ensure a comfortable cushioned chair all the way. Extra charge will be \$1; seats reserved at the C. P. OIL TRUST TO THE PEOPLE

Directors Assure Shareholders That the Organization is Legally Sound.

New York, Nov. 17.—The directors of the Standard Oil Company issued this circular to-day:

New York, Nov. 15, 1900. To the Shareholders of the Standard Oil Company:

Regarding the suit this day commenced in the United States court at St. Louis, Mo., in which it is sought to prevent the Standard Oil Company (of New Jersey) from holding any stocks of other companies, your directors are entirely convinced that the company's position is unassailable from both a legal and a moral standpoint. We are confident that in the proceedings which will follow the company will successfully maintain every citizen upon the merits and vindicate it before the public and the law.

PUBLIC AMUSEMENTS.

Toronto is the only city in Canada which Mr. Dillingham has chosen, in which to present Rob Lorraine in the much-discussed play, "Man and Superman," and to-night at the Princess will be the first time Mr. Lorraine has ever appeared in Toronto in the capacity of star. It will likewise be the first time "Man and Superman" has ever been placed on view in Canada. There is but one company presenting this comedy, therefore the production which is to be seen in this city is the original one, as well as the only one. In the character of John Tanner, the hero of "Man and Superman," it is said, Mr. Lorraine has demonstrated his splendid versatility in making the character one of unusual individuality—one that is strong, forceful, in short a daring and dashing iconoclast—a modern relationist, who would change existing social conditions and bring out many needed reforms. It is recognized as an unusual character, but not an unnatural one, and as interpreted by Mr. Lorraine's personality he enjoys the reputation of making it exceedingly convincing.

FIRE TOWN TO HIDE BURGLARY

Robbers Make Second Attack Within Week on Bank Funds.

Walker, Mo., Nov. 17.—Robbers here early to-day started a fire that destroyed six of the best business buildings in Walker, the object being to cover up the robbery of between \$2000 and \$3000 belonging to the Bank of Walker.

On Monday last robbers wrecked the safe of the bank with dynamite, the bank officials were forced to place in the safe of a neighboring store what money was left.

To-day's robbery is believed to have been committed by the same men who dynamited the bank.

TIGERS UNBEATEN BY 11-6 MONTREAL NEVER LEAD

Enormous Crowd Saw Semi-Final for Canadian Championship.

Hamilton, Nov. 17.—(Special.)—The largest crowd of the year witnessed the Dominion championship game to-day. The west side of the grounds was a sea of mud, and it happened to be Montreal's luck to have this for the first half.

By a score of 11 to 6, Hamilton Tigers, champions of the C. P. U., defeated Montreal never lead in the semi-final of the Dominion championship game.

policy respecting Niagara power, that, at this time, the Conservative party, in its greatest stronghold in all Canada, should be forced into the position of opposing the people, and even of denying them their right to vote.

The report of the Conservative meeting Friday night contains the following: Mayor Coatsworth was cordially received. He thought it a fine thing to have a little combat that would hurt nobody.

It is now up to the controllers and aldermen. There is not room enough for them all behind Mayor Coatsworth. Let them come out in the open and show where they stand.

ENGLISH EDUCATION BILL. While all the elements of a pretty quarrel exist between the popular and hereditary legislatures of the United Kingdom, some excellent authorities prophesy there will yet be a peaceful settlement.

Without careful study of the history and present position of the English elementary schools, it is very difficult to appreciate the precise points at issue between the contending parties, except in a broad and general way.

What a splendid ticket a representative convention could construct if whoever might be elected would be obliged to serve the City of Toronto. The party back and chronic office-seeker would find his occupation gone if the citizens could choose the best men, knowing that there would be no begging off, that the man elected would be drafted for public service.

Canada and British Capital. With the valuable Cobalt properties rapidly passing into the hands of United States companies, the time has surely arrived for Ontario capitalists and business men to ask themselves whether it would not be a wiser and more profitable policy to reserve similar opportunities, which are certain to occur, for provincial exploitation.

Discovery is Made That the Union is Without a Definite Policy. Minneapolis, Minn., Nov. 18.—One of the resolutions reported at Saturday's session of the labor convention here asked that the federation's platform of principles be embodied in the records.

For the greater part of the morning session the convention discussed the point raised without arriving at any conclusion. The debate culminated in this declaration by Delegate Mahons of the street railway employes: "If we have a platform of principles I do not know what it is. For God's sake let us know what we stand for and what we may stand for before the world."

Politics appeared in a mild form, but was not generally discussed. It is evident that the general political policy of the federation is to be largely guided by President Gompers in person or thru his associates.

BRITAIN NEARS STRUGGLE TO ABOLISH UPPER HOUSE

Government Will Compel Lords to Fill Cup of Misdeeds to Overflowing. London, Nov. 18.—Great Britain is fast approaching the greatest political struggle she has had in a hundred years. That contest will determine whether the house of lords shall remain an unreformed Tory chamber, ruthlessly mutilating or destroying outright all the measures sent up by a Liberal government.

The education bill, under which the Liberals propose to establish popular control of all the schools, denominational or otherwise, that receive state grants, has been turned inside out in the house of lords. Yet education is not the question on which this great and popular agitation is coming, for the lords' policy is to take small interest in that subject.

Then there is the land tenure bill giving tenants some security against the rapacity of landlords and a right to suitable compensation for improvements made with the tenant's labor and money. Besides, there is the trades dispute bill, which restores the law to what it was until five years ago, when the house of lords, acting as a judicial tribunal, held a trade union's funds responsible for the loss incurred by coal owners, owing to a strike organized by the union.

THE NEW YORK MARKET

Money Situation Clouded by Un-usual Manipulation—Toronto Stocks Easier and Dull.

World Office, Saturday Evening, Nov. 17.

After a tame, uninteresting and dragging period of nearly three months, the New York stocks have been instilled with renewed life.

Last week's bank statement was easily sufficient to dispense much of the left-over long stocks of several weeks' standing, and to incite a faltering short interest.

The responsibility for advances in the present market are mainly the result of short speculators who were able to advance among the insiders.

On Monday, Nov. 17, the market was again somewhat better than the usual, immediately prices were able to advance.

The theories propounded were a large integration of the Union Pacific holdings to conceal the 10 per cent. dividend and the discovery that Rock Island common had acquired a large controlling power which had hitherto passed unnoticed.

Traders were nonplussed by the very audacity which confronted them. Those who were not committed in the early stages of the advance found themselves in a predicament, as fluctuations were narrowed down immediately any volume of speculative long accounts were attracted into one market.

The position of the money market has been clouded by the market situation can be disregarded.

Just how far the financial situation can be disregarded is the immediate and distant prospect for prices. There is no evidence at all that interest in the market is any violent reduction for months to come.

The outcome of the financial situation is a profit and loss account for the week. The situation is anomalous and has no precedent to work upon.

One thing is certain, and that is the venture carries a high risk, and securities are quoted at record prices, and by deduction it may be inferred that all is far more likely than further advances.

The Wall-street interests are aware of the possible danger. They are endeavoring to prepare for all possible contingencies, and in case of a collapse they are hopeful that the big losses will be confined to the speculators.

It may be possible to take profits on the long side of the present market, but the venture carries a high risk, and securities are quoted at record prices, and by deduction it may be inferred that all is far more likely than further advances.

The Wall-street interests are aware of the possible danger. They are endeavoring to prepare for all possible contingencies, and in case of a collapse they are hopeful that the big losses will be confined to the speculators.

It may be possible to take profits on the long side of the present market, but the venture carries a high risk, and securities are quoted at record prices, and by deduction it may be inferred that all is far more likely than further advances.

MOST IMPORTANT SPECK IN BRITISH AMERICA

Is the City of Cobalt---Latest Doings in the Silver Camp.

Cobalt, Nov. 17.---(From Staff Correspondent)---The mining town of Cobalt today is proud of itself. The activity is not all centered around the mines, nor confined to mining interests. The city of Cobalt is also here to stay and the prospect of a better summer, by those who thought the town would prove a fortune-wrecker, have proved unfounded. False prophets arise in every age. Cobalt has had them, but the fact is the most important speck on our map of the continent colored red in our geographical, according to Doctor Hunter. The doctor is the man who created the real estate boom here last spring. He is a phony stock speculator, but he has had a gold mine. The vein petered out and instead of having the mine, he had to avoid the front door for the little ticket cutting the holder to the privilege of sleeping in one of the bunk-houses, he had to coax a couple of men to go down there and sleep as a sort of protection in case of fire.

The large sign, "Beds 50 cents," only provoked smiles, but the doctor took his medicine as a doctor should. He bought more property and built half a dozen of the most pretentious dwelling houses in the town. Located on the corner, suggestive of aristocracy and section, in a part of the town where the churches are, and built after the lounge style, they command good rents and made up for the absence of a rental from the bank-house.

Last week the doctor turned down two offers for the bank building and bought the Dominion Block, which stands on the main street, just at the top of the hill leading from the station. This will, when completed, be one of the best blocks in the "City of Silver."

Druggist Moore will have the front shop, a prominent Torontoan a new banking agency and S. Abbott, promoter of the new Rothschilds, will occupy the downtown part of the building.

Universities there will be the headquarters of the Cobalt gymnasium or club, which will fill a great want here, and a portion will be laid out in offices on the top and three rooms, which will be furnished in first-class style and with all office fixtures. A photographer will be in the building. These the doctor will rent by the day, to promoters, mine operators and professional men from the outside, so that they can have rooms at his disposal for consultation and transaction of business.

ness of typhoid, which has kept him in Minneapolis for nearly six weeks. At the Red Rock everything is now being put in shape. Quincy Weston House, the representative of the present owners and a large owner himself, has been here. Messrs. Chapin, Gagey, Bryant and others immediately re-sold after buying from the Timmins Co. and are said to have made a big cleanup. A directors' meeting was held at Halleybury on Thursday and a statement, somewhat sensational, will be made shortly. F. B. Moore.

New Bank for Cobalt.
The Standard Bank of Canada has secured premises and will open an office in Cobalt, Ont., in a few days.

O'Brien is still involved.
The legal firm of Pinkerton, Cline & Bartman made application to the attorney-general Friday afternoon for permission to take action to compel Mining Recorder J. T. Smith to declare Mr. J. S. O'Brien to be the first applicant to the O'Brien mine. Failing in this, it is said, action is to be taken against the attorney-general, M. J. & J. B. O'Brien and Mr. Smith. The complainants take the position that it is necessary to secure the consent of the crown for the latter action.

Dividend Talk on Foster.
A rumor was in circulation at New York on Saturday that the Foster directors had arranged for the payment of a 3 per cent. dividend. The rumor could not be confirmed here, but it is not denied that a declaration may be shortly announced. The funds of the company from ore receipts would easily admit of substantial payments. It is said that the directors are of the opinion that the company is being wonderfully well taken care of and that the shares were quoted at a price which would allow a dividend of 25 to be witnessed.

Development Work Well Forward.
Superintendent McConnell of the Green-Meehan mine is making a record with the property under his charge. He has a full complement of men and intends pushing forward the ore as rapidly as cars are available. The company has received word that the first car load of ore has reached the New Jersey smelter. Another car was shipped last week and a further consignment is said to be on its way. The development of the various Cobalt properties, to be in a more advanced position than any other mine of its age, not even excepting the Nipissing.

Will Develop Gillies' Mine.
Messrs. P. G. Abbott and J. J. Cochran of Toronto, who have been in the city for some time, are now in camp and have closed with these gentlemen. They have secured a property that has been sought by many this week. Druggist Moore and Tommy Hare are both widely known in the camp and are deservedly popular men. When others had very little faith in the mine, they were the first to buy. They had cash held under their noses, but they turned the offer down.

A Larder Lake Proposition.
The Larder Lake Gold Mining Company held its organization meeting on Saturday. Mr. A. F. Budd was elected president, J. E. Gillies vice-president, and J. C. McMurdo Petrie secretary-treasurer. The company owns 120 acres of Larder Lake gold mining and well-ventilated area of the camp. It is now under way. The capital of the company is \$500,000. Mr. A. T. Budd has been interested in the property since it was being placed on a sound financial basis. 25 per cent. of the stock was being purchased by the company and the balance by private investors. Mr. Budd predicts that the spring of 1907 will see the Larder Lake boom that will rival that of Cobalt.

More Litigation.
Thomas B. Bland, E. R. Michie of Newark, the Green-Meehan Mining Company, Toronto, and Edmund B. Cyclopedia, Toronto, are suing Michael Meehan and Phillip J. Greene of Sudbury and Melvin G. Hunt of Halleybury for a declaration that the plaintiff company is entitled to all the profits from ore mined on the southwest quarter of the north half of lot 14, concession 1, Bucke Township, prior to Oct. 24, 1904. The suit is now on in court. The proceeds to be handed over to them, and for less money to handle them, and the speculation in this case, in spite of its activity, has not yet reached threatening proportions. The speculative spirit, however, is thoroughly aroused and having spent much of its force on the railroads is turning its attention to other fields.

A Skeptic Convinced.
"I have just returned from Cobalt," said a man of substance to the New York Journal of Commerce, "and I confess to being a convert. I had my engineer looking at the claims in Nevada---the gold fields chiefly---and I was doing very well there. I did not bother about Cobalt. The reports that reached me, however, were of such a character that I was persuaded to visit the camp. No man could have approached it more skeptically. Well, I spent two weeks there, along with my experts, and you may guess what I found when I returned to Toronto was to give orders for---well, a few thousand shares. I paid \$15,000 for 5000 shares of Silver Queen. I bought and am still buying Nipissing. I also took on a lot of Foster Cobalt. Nipissing is the best far discovered, but there are other good ones. The camp has just been born. It is not even crawling yet. It will get a swift pace one of these days. All this was not said for advertising purposes, as the speaker, when he spoke did not know there was a 'chill' talker notes."

Speculation Turns to Mining.
Henry Clews' New York letter says: "Our railroad corporations continue to enjoy extraordinary prosperity. This they are already sharing with their employees by granting increases of wages. The effect of this, of course, will be stimulating to general trade. The reports of increased dividends and increased wages, the railroads have raised their obligations to a point where it is useless for stockholders to anticipate further increase in profits. The zeal in that respect for stock for stock, and the fact that the company has been made by a New York syndicate and it is now said that money for stock was received subject to the condition that if a sale were made the money would simply be returned. The machinery for the Wabigoon is being taken out there and at the Jacobs a double contract share has been sunk and the case is now lying on the platform of Cobalt station. Superintendent Cohen has returned, completely recovered from a trying illness of typhoid, which has kept him in Minneapolis for nearly six weeks. At the Red Rock everything is now being put in shape. Quincy Weston House, the representative of the present owners and a large owner himself, has been here. Messrs. Chapin, Gagey, Bryant and others immediately re-sold after buying from the Timmins Co. and are said to have made a big cleanup. ANNOUNCEMENT
Owing to the recent discoveries and development on the
GILPIN

Cobalt Mining Company's property, the stock will be advanced on Nov. 26th, and only a small amount of stock will be sold and the subscription list closed.

We have recommended this to our clients and the public as one of the best purchases to be made in Cobalts to-day owing to its low capitalization, which is \$500,000, in shares of \$1.00 each, of which 150,000 shares are still in the treasury. The company owns 120 acres of the best land in Bucke Township, in the mineral belt. They have uncovered seventeen veins and are sinking two shafts, one down 30 feet, the other 15 feet, at which depth some very rich vein matter has been struck, which is creating the above advance. The men on the property are there for the winter and shipments should commence before the 1st February. The shares on merit are worth \$5.00 each, instead of \$1.00, the present selling price. The Meehan-Green and the Red Rock properties are both in Bucke Township and have proved very rich mines.

If you want to make money quickly we have a few more shares left of our allotment at \$1.00 per share. Address---

The best value offered in Cobalt stocks to-day. Limited number of shares at 65 cents, par value \$1. We unhesitatingly recommend this stock because of its extraordinary merit. Every Shareholder in the "Cobalt-American Development Company, Limited," is a promoter as well as an investor. Company controls several valuable mining locations.

Property under development located in heart of original silver-bearing zone. Five well-defined veins trended over 1000 feet. All run very high in silver values. Two shafts being sunk with good results.
A Sure Winner and Shipper in a Short Time.
This stock will assuredly increase in value. Buy now and take advantage of the rise. Do not delay. Opportunity will not wait. It is yours now. The people have confidence in this proposition, as is evidenced by the great demand for stock. Rush your order, by mail, or wire reservations at our expense. Write for our new 32-page booklet, "Fortunes in Cobalt," which will be sent "FREE" on request, and will give you full particulars.
