SALE OF R. WALKER & SONS' STOCK.

SALE OF WALKERS' STOCK

Also Our Own Regular Spring Imports to Be Sold at Less Than Importers' Cost.

SALE OF WALKERS' STOCK.

W.A. Murray & Co

Have purchased the entire stock of R. Walker & Sons, amounting to upwards of Half a Million Dollars, and which we purpose placing on sale, beginning

TO-MORROW, FRIDAY, MORNING MARCH 12TH,

At their old premises. We have also decided--in view of the unprecedented sale now going on at our store, 17 to 27 King-street East, and also the utter impossibility for some weeks yet to accommodate our own regular customers--to open up at the Walker Store our entire

Spring Importations

amounting to about \$250,000.00, and in addition to this we also wish to announce that we have to-day completed the purchase of

R. Walker & Sons' Entire Importation for Spring, 1897, of nearly \$75,000,

Which will also be opened up at once. These stocks total to nearly ONE MILLION DOLLARS, and comprise the VERY CHOICEST AND NEWEST GOODS.

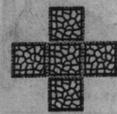

These transactions are enormous and no firm in Canada has ever undertaken to dispose of so extensive or so valuable a stock of Dry Goods, etc., etc., and in consequence of this fact it is necessary to make as quick a disposition as possible, which simply means that everything must be sacrificed, including all these new goods. The Public of Toronto and vicinity have never been afforded such an opportunity before and will undoubtedly take full advantage of this great chance.

Remember this Sale begins To-morrow (Friday) morning at the former premises of

R. WALKER & SONS

W.A. MURRAY & COMPANY.

SALE OF WALKERS' STOCK

Aggregating In All a Stock of Nearly One Million Dollars' Worth of High-Class Dry Goods.

CHIPPING ESTIMATES

Board of Works Has a Sharp and Heavy Ax.

TUNNEL ITEM THROWN OUT

Likewise the Large Item for the Big Reservoir Plan.

A Demand Made for Greater Economy in the Work of Scavenging and Street Cleaning—Adaptation That Has Less Time and the Cost is Greater in Consequence—The Board Refuses to Paraphrase the Traffic Which is Needed to Cross the Cherry-Grove Bridge.

The Works Committee yesterday discussed the City Engineer's estimates.

The first item was provocative estimate of \$12,000 for macadam road repairs.

The committee unanimously out down the first item to \$7000.

Ald. Shaw entered a few minutes afterwards and then the fun commenced.

Ald. Shaw insisted upon the item being re-opened and then moved that it be allowed to stand until the local improvement question is settled.

He argued that the streets upon which the macadam pavements are being laid are paying their percentage of the city's share of the pavements on other streets.

He said, therefore, entitled to have their streets repaired.

Ald. Gowanlock took up the challenge and based his objection upon the fact that these pavements had been built by the city at large and the property owners on these streets had never paid any local improvements.

He said that the city had paid for their own pavements were now called upon to keep up the macadam pavements in the Strand and Third Wards.

There was a sharp passage between Ald. Shaw and Gowanlock in reference to the matter.

Ald. Crane and Hubbard also entered their protest against the item.

Ald. Shaw, which simply meant the abolition of the local improvement system.

If the city went on to repair the macadam pavements at the general cost the property owners would never petition for reconstruction as a local improvement.

Ultimately it was agreed to allow the item to stand until a future meeting.

Ald. Shaw made an effort to have the \$6000 quoted for repairs and reconstruction of the pavements on track allowed taken out of the estimate.

Ald. Hubbard protested against an expenditure of \$1000 per mile for cleaning asphalt pavements.

His objection was a large amount asked for cleaning gutters drew from Chairman Stanger's admission that this work had been neglected.

He insisted giving special attention to it as the public health is involved.

On the item for street cleaning Ald. Hubbard stated that he had for some time been expressing his views on the cost of street cleaning and scavenging.

New studies had been made, and he stated that the cost was still the cost kept up.

The people are paying too much, he declared, for the work that is done.

He did not favor letting it by contract, but an offer had been made to do the work for less than it is costing.

And the commissioner should cut down expenditure.

Ald. Gowanlock attributed a portion of the heavy cost to the fact that the steamers were allowed to come in at night and stay in the harbor.

He had seen men taking their cars into the streets after 11 o'clock, and not getting out again until 1 o'clock.

Many of them are not working more than two-thirds of the time.

The item of \$35,000 for general repairs was allowed.

Ald. Lamb demanded that a detailed report be furnished.

HOW EXPENSES RUN UP.

The repairs to the maintenance of bridges were estimated to cost \$7500.

Details were asked for and Ald. Crane and Gowanlock took exception to some of the proposed expenditures.

It was reported that the repairs to the bridge across the Bowdoin Ravine drive, Parliament-street, which it was estimated would cost \$300, had been started.

The whole item stands for further consideration.

A BRIDGE WITHOUT TRAFFIC.

I suppose the committee knows that a contract has been let for the bridge across the Don for the express purpose of carrying these trucks.

works in connection with the Waterworks the members made a regular out-slaught, and \$135,000 for a large main to the reservoir \$500 for a main on Avenue-road and \$450,000 for a tunnel under the Bay went out.

Then the Engineer and Ald. Hubbard and Gowanlock had a difference of opinion with reference to the necessity of improving the fire pressure.

The Engineer had recommended new main, and the Aldermen, who said they were backed up in their opinion by the Chief of the Fire Department, insisted that what was needed was that the mains be connected at cross streets.

Engineer Keating somewhat warmly intimated that it was entirely outside the province of Chief Graham's duty to insist that what was needed was that the mains be connected at cross streets.

Ald. Hubbard, with equal warmth, replied that Chief Graham knew from actual tests what he needed to make the fire pressure efficient, and intimated his preference for actual experience rather than scientific theory.

The committee refused to endorse the items of \$2774 and \$4307 for new mains on Bay and Avenue-streets, and the expensive asphalt pavements have been laid.

The net result of the afternoon's work was a reduction of \$17,500 in the Works Department and \$429,941 in the Waterworks Department.

DEER FOR THE PARKS.

There was no quorum of the Parks and Gardens Committee yesterday.

Ald. Harry Dyer was accompanied with an offer from Mr. James S. Struthers of Newmarket, to present to the City of Toronto a fine herd of deer of a rare species, which he has brought from the Northwest.

Mr. Struthers is much attached to the animals, and as he intends removing to Toronto, he conceivably offers to present them to the city, so that they might see them in the park.

The members who were present accepted the offer on behalf of the committee.

Ald. J. J. Graham has sent in his estimate for the Children's Aid Society's work. The amount asked for (including his salary \$1000) is \$4000, being an increase of \$1,000.

The Mayor received a visit yesterday from a number of teachers employed in clearing away the debris around the Court House building, who complain that the contractor is not paying the union rate of wages.

They were referred to Architect Lennox, who had granted a license occupation covering the entire block of 20,000 sq. ft. When the introduction of the usual bills had been concluded, Dr. Willoughby arose and moved the adjournment of the House.

This move was to give the leader of the Opposition a chance to make a few remarks.

Mr. Whitney arose and called attention to a mining deal which The Globe yesterday had reported as having taken place between the Ontario Government and a South African mining syndicate.

The article in question stated that the Government had granted a license occupation covering some 64,000 acres, 44,000 acres lying to the northward of Rainy Lake and another block of 20,000 acres, consisting of a part of the peninsula lying between Shoal Lake (west) and the Lake of the Woods, which license granted the syndicate exclusive rights of exploration and prospecting in that territory for three years from March 1897.

To ensure that prospecting would be done, the following provisions were made: "The syndicate must expend in the first year not less than \$30,000, during the second year not less than \$40,000, and during the third year not less than \$50,000, and to ensure that both blocks shall be at once prospected, not less than \$100,000 must be expended in either one during the first year, the remaining \$30,000 to be expended upon the two blocks respectively.

The syndicate must also be furnished at the end of each year to the satisfaction of the Commissioner of Crown Lands with a NOVEL DEAL, TRULY.

Never said the Opposition leader, has an act so extraordinary as this Government's fraud with more serious results to its people.

The agreement was made in the name of the Government, but never had such an agreement been presented for the signature of the Legislature.

He would be endorsed in condemning it, and he would be glad to see the Government in the Dominion.

He would be endorsed in condemning it, and he would be glad to see the Government in the Dominion.

Everyone was aware of the great importance of the mining industry in the province.

The people of Ontario and Canada were looking forward with great interest and anxiety with justifiable hope to the future of the province in connection with the acquisition of its vast mineral wealth.

The cry of the Opposition was that a Government was wanted which would do some mineral development.

CONSCIENCE-STRIKEN GLOBE.

The editorial in The Globe here in the face of it the arguments of the conscience-stricken journal, and there was needed no other commentary on its equivocal nature of the decision.

As follows: "The land of two townships was to be handed over to them for a good work and that for the purpose of prospecting."

The Globe had stated that the land company was to be entirely controlled by them.

MINING DEALS IN CANADA.

What is the Latest?—That is the Question.

BRITISH CAPITAL COMING.

Four Valuable Properties Now Under Option to a Syndicate.

Proposed Price for Jumbo, Commander, Gertrude and Maryland is \$500,000.

In order to keep pace with the times a man has to cash in the options each morning.

The option on the Jumbo is for \$500,000, of which several thousand dollars has already been paid.

Several thousand dollars have also been paid to look up the options each morning.

OTHER DEALS REPORTED.

Properties are Freely Changing Hands in the Silver Slocan Country.

But Rosland is not the only camp in which mining deals are being made.

The Monitor and Juggler, near Cody Creek, have been bonded to a Chicago party for \$15,000.

Another claim recently bonded to a New York syndicate is the famous California, in the second section of New Denver.
