EAST WELLINGTON MEMBER RESIGNS IN FAVOR OF RANEY British Conference on Exchange Collapse Sees No Immediate Relief

U.F.O. MEMBERS SUCCESSFUL IN SECURING SEAT FOR RANEY IN EAST WELLINGTON RIDING

**Albert E. Hellyer, J. J. Morrison's Brother - in - Law,
Bows to Party Needs Without Submitting Decision to His Constituents.**

From the general substance of remarks made by its members, the caucus, or conference, of U.F.O. members of the legislature, cabinet ministers, with and without seats, Labor members, directors of the U.F.O. county U.F.O. directors, and others in sympathy with the coalition government in Queen's Park, accomplished some important business yesterday, and did it with some measure of celerity, in view of the necessity for calling the legislature together at the earliest possible date. One thing accomplished was the finding of a seat for Hon. W. E. Raney.

The caucus was in session behind closed and carefully tiled doors in the reception room of the parliament buildings, practically from 2 till 6 p.m. Hon. F. C. Biggs, minister of public works, was in the chair most of the time. Premier Drury went in early, as he was billed to speak at a meeting in Burlington last evening and had to catch the last train for Hamilton. R. H. Halbert, M.P. for North Ontario, was the first to leave. The proceedings did not interest him very much, and he came, forth as soon as the meeting had adjourned. Andrew Hicks, M.L.A., Centralia, South Huron, U.F.O. party whip. This action means parliamentary organization of the U.F.O. group in the assembly.

Premier Drury left after Mr. Raney's seat had been allotted. Rev. Edgar Watson, M.L.A., North Victoria, at that stage also had been selected as mover of the address in reply to the speech of his honor the lieutenant-governor. The selection of Rev. Mr. Watson for this distinction confirmed the information published last week in The World that the North Victoria reverend member of the assembly had steered his heart against the blandishments of Hon. R. H. Grant's seat-seeking committee. Mr. Watson did not attend yesterday's caucus, and his chief concern, he submitted for his consent, of which it is not anticipated he will be chary this time.

Round the corridor jog while the caucus continued in session Hon. R. H. Grant and some members of his committee, sat in a smaller room, Nelson Parliament, Speaker-presumptive, Hon. W. E. Raney, and other leading members of the U.F.O. party, passed from one room to the other and were all very busy. When Mr. Raney's affairs were transferred from a smaller room to the main assembly, the attorney-general himself left the vicinity of the double-staged deliberations and went to his own office, where he attended during the greater (Continued on Page 4, Column 5).

**CLEMENCEAU WARNED
TO PASS UP EGYPT**

Geneva, Feb. 3.—One of the Egyptian nationalist leaders here, Dr. Abdul Said, has addressed a telegram to former Premier Clemenceau of France, requesting him not to enter Egypt or else to leave the country as soon as possible. Otherwise, the telegram says, his life would be in danger.

Dr. Abdul Said accuses M. Clemenceau of joining the British against humanity and against Egyptian liberty and also condemns his foreign policy while premier.

**GABY PROMISES
PLENTY OF POWER
FOR THE RADIALS**

**Tells Hamilton Council Hydro
Power Development Will
Be Ample.**

WILL EXCEED DEMAND

Hamilton, Feb. 3.—(Special)—The Hydro radial bylaw, which was held up a week ago, will be given its third reading at the next meeting of the council. At tonight's meeting of the council, informal session, F. A. Gaby, chief engineer, set at rest the doubts about the ability of the Hydro-Electric Power Commission of Ontario to provide power for the radials. The Chippawa development project will be completed in September, 1921, and would have a canal capacity of 450,000 horsepower, he pointed out. Two generators ordered for delivery in May of 1921 would have 110,000 capacity and by July or August of 1922 an additional 250,000 horsepower would be available.

"This means," said Engineer Gaby, "that in 1922 there will be approximately 475,000 horsepower available for municipalities, a lot more than is necessary, when it is realized that at the present the normal demand of municipalities, after 10 years of development, is but 175,000 horsepower."

Bugaboo About Power.

Regarding the Hydro radials bugaboo the chief engineer declared that the 200-mile stretch, including main and branch lines, would not require more than 12,000 horsepower, which would be put an infinitesimal part of the power that would be available.

Answering Controller Atchison, Engineer Gaby said it was not a fact that two generators had been burned out because of being over-stressed. It was but one of many wild rumors that were going the rounds. Engineer Gaby also assured the council that the development project was completed, he troubles would be minimized by the new intake methods employed.

A hearty vote of thanks was tendered the Hydro engineer.

EX-CROWN PRINCE HEADS THE LIST

**Names of Those Demanded by
Allies Handed to Head of German
Delegation.**

OTHER PRINCES WANTED

Paris, Feb. 3.—The secretary of the peace conference, Paul Datusa, this evening handed to Baron von Lersner, head of the German delegation, the list of persons whose extradition is demanded from Germany. The list is headed by the former Crown Prince Frederick William and several other sons of the former German emperor.

Included in the list are: Dr. Theobald von Bethmann-Hollweg, who was former German imperial chancellor; Field Marshal von Hindenburg; Gen. Erich Ludendorff, former first quarter-master-general; Field Marshal von Mackensen, Crown Prince Rupprecht of Bavaria, the Duke of Wurttemberg and a number of other princes and titled officers.

The total number of names on the list is about 800 and it is divided into eight sections. The first section is a common list of all the accused. The following seven other lists, giving the names, rank and accusations of persons whose names were supplied by Great Britain, France, Italy, Belgium, Rumania, Jugo-Slavia and Poland.

AFTER STOCK TAKING.

Dineen Company announce a "clean up" sale during this month. This will be the greatest opportunity ever presented to the people to buy high class suits, ladies' suits and dresses and fur trimmed cloths coats, at prices that will pay to purchase for next year. Every article of merchandise is advancing in price and by next fall you will have to pay very much higher prices than we are selling at today. Beautiful seal coats, plain and trimmed; handsome mink furs, squirrel sable and opossum neck pieces and muffers as well as all the stock of winter overcoats for men. All to be sold this month at very much reduced prices. Dineen's, 140 Yonge street.

ADVOCATES EXILE FOR EX-EMPEROR

**Karl Kautsky Says if He is
Sentenced, He Can Pose
as a Martyr.**

Berlin, Feb. 3.—Carl Kautsky, who investigated the causes leading to the war, writes in The Berlin Volks Zeitung:

"The passing of sentence on the former German emperor before an enemy court would not alleviate the danger of a counter-revolution, but would add to it. Wilhelm would be made a martyr in the eyes of the German public, to whom he would appear as a martyr sentenced not for this crime or that, but for being a German. His popularity would suddenly soar upwards tremendously and he might become a dangerous element in opposition to the German republic."

Herr Kautsky is of the opinion that the entente powers should not go beyond coercing Holland into appointing a residence for the former emperor on some island, where conspiracies with his German friends would be very difficult.

F. MOBLEY, M.L.A., DIES.

Victoria, Feb. 3.—Frank Mobley, member of the legislative assembly for Atlin, and one of the best-known mining men in British Columbia, died here this morning, following an attack of influenza. Mr. Mobley was about 50 years old and came west from Ontario a number of years ago.

DEATH PERCENTAGE REMARKABLY SMALL IN FLU OUTBREAK

**Fatal Cases Few Considering
Thousands in Grip
of Disease.**

LESS HARMFUL TYPE

Those persons who are contemplating having the flu, had better hurry up and catch it or they will be too late to participate. The peak of the outbreak is looked for about the middle of the present month. Dr. Hastings, M.O.H., had fixed that date for about March 1, but so satisfactorily (from a medical standpoint) has the flu behaved that the date for the peak has been put back considerably.

The World yesterday made an extensive inquiry into the seriousness and the results of the present outbreak of flu, and it may be at once stated that the disease is not so serious as it was last year. The terrible death harvest it did last year. Altogether there are between 9,000 and 10,000 cases of flu in Toronto (that is an official estimate) the percentage of deaths is remarkably low, and its standing testimonial to the preparedness of the city health department.

The World during the enquiry had a talk with one of the leading consulting physicians of the city and a doctor who probably saw more flu cases last year than any other Toronto medical man. In answer to a question as to whether the present outbreak was the same old flu of last year or a new variety, the consultant said it was the same flu—the same organism—of 1919, but of a far less virulent type. The organism, explained the physician, was less strong than that of last year, and it would keep on getting weaker year by year until it practically died itself. That was what experience taught, he said, in all outbreaks of the Milder Type.

The consultant saw all the bad cases of last year and has visited many patients stricken down during the last month. His conclusion, after carefully comparing the two outbreaks and minutely watching the 1920 cases, is that the death roll this year will have nothing like the proportion of 1919.

**FATAL ENDING
TO LIMERICK RIOT**

**Troops Fire on Demonstrators
and Kill One Man and Mor-
tally Wound Woman.**

Limerick, Feb. 3.—Serious rioting occurred at Limerick last night, according to a despatch to The Star. The military fired on the crowd of demonstrators, and one man was killed. The latter was Richard Dwyer, a publican.

A woman also received a shot in the body, and is believed to be mortally wounded. A number of other persons were injured.

The trouble arose in O'Connell street, where a crowd of people, several of whom are said to have been armed, came into collision with an armed military patrol and constabulary. The crowd "boomed" the patrol. It is reported that one of the crowd fired a revolver at the troops, who returned the fire.

Copenhagen, Feb. 3.—The Scandinavian premiers and foreign ministers at a conference held here decided to accept the invitation to join the league of nations, it was learned today.

BITTER ENDERS SAY RESERVATIONS WILL NOT COUNT

**Talk of Giving Peace Pact
New Start in U. S. Senate
Committee.**

BORAH'S STATEMENT

Washington, Feb. 3.—Now that it has been definitely decided to bring the peace treaty back to the floor of the senate for discussion, senate leaders are worried chiefly about details of that debate.

When the senate debated the treaty before it was under cloture rules and many senators had already exhausted their right to talk, Vice-President Marshall is expected to rule that if the treaty comes back the cloture will come with it, and the whole thing will start in where it left off. Senators object to this, and there is a proposal to refer the treaty to the foreign relations committee, which will give it a brand new start. Meanwhile plans for a limited cloture are being elaborated.

The bitter-enders claim that an alleged cablegram of Premier Lloyd George and the letter of Viscount Grey bear out their contentions in respect to the treaty. At a meeting tonight, Senator Borah, Republican, Idaho, said:

"The weakening and injury to the league which some apprehend from the American reservations would not be felt in practice. This Viscount Grey disposes of all reservations and renounces them as utterly ineffective and worthless. The sad part of it is that he is entirely correct. Those proposed reservations do not protect our independence. They do not protect America at all. They are simply a filter of excuses, and they are what we do. They are the answer of party politics to the demand by foreign governments to surrender our independence."

Reservations Will Not Count.

The Grey interview and Lloyd George's cablegram ought to convince anyone that there is just one question involved in this controversy—the league shall we enter the league or shall we stay out of it. When we enter the league we are there for all purposes and our reservations will never be felt or ever respected.

"It has been known in Washington for weeks that the Lodge reservations were entirely satisfactory to the British, and that they would be so publicly long ago, but he did not desire to offend the president. But after an effort to reach the president thru Viscount Grey, which failed, and after a study and after consultation with the greatest lawyers of London and some in this country it was concluded that reservations contained that he had been informed that there was no appeal would be wholly worthless. So Lloyd George cabled Lodge reservations satisfactory, we want the United States to enter the league. I am not going to enter the spider to the fly. I will take my own time in advising you how to get out."

Explaining the reference to Premier Lloyd George's cablegram, Senator Borah said he understood that such a cablegram as he quoted was sent by the British premier to Viscount Grey early in January.

Reports that Premier Lloyd George had set forth the attitude toward proposed American reservations have been current at various times in senate cloak rooms.

CHRISTIANIA IS SNOWBOUND.

Christiania, Feb. 3.—Christiania has been cut off from the outside world since the past few days by a heavy snowfall. All the railways are snow-bound and in many cases ski runners are bringing food to passenger trains held up by the deep snow.

FOREIGN EXCHANGE COLLAPSES LONDON AND NEW YORK WORRIED CANADIAN DOLLAR AGAIN DROPS

**British Chancellor Calls Meet-
ing of Financiers to
Seek Solution.**

NEED RETRENCHMENT

London, Feb. 3.—Austen Chamberlain, chancellor of the exchequer, discussed with leading bankers, political leaders and others this afternoon the situation that has arisen from the adverse rate of exchange. The greatest secrecy was maintained in connection with the proceedings, a report of which is being prepared for presentation to the cabinet.

Great crowds witnessed the arrival of the conferees, who included Lord Robert Cecil, Reginald McKenna, former chancellor of the exchequer; Robert Kindersley, chairman of the war savings commission; Walter Leaf, chairman of the London County, Westminster and Paris Bank; Sir Auckland Geddes, minister of national service and reconstruction; G. H. Stuart Bunning, secretary of the Postman's Federation; Sir Richard Vassar-Smith, president and chairman of the Council of the Institute of Bankers, and Sir Donald MacLean, M.P.

An official report, issued tonight, shows that Mr. Chamberlain convened the conference for the purpose of discussing the recent memorial of bankers and others to the premier, in favor of calling an international finance conference.

The memorialists explained that the memorial had not been prepared with special reference to the exchange situation, but was the outcome of a series of conferences held at Amster-dam a month ago, with a view to finding remedies for the economic collapse in many parts of Europe. In further explanation of their views, they urged the imperative need of European countries bringing their expenditures within the compass of their revenue as the first condition of obtaining assistance thru public or private channels, and pointed out that once this was accomplished private credits would immediately become available.

No Panacea.

A general exchange of views followed, and it was unanimously recognized that there was no panacea for the existing financial and economic disorders, and that recovery was certain to be slow, and could only be achieved by hard work, increased production and private and public retrenchment.

Mr. Chamberlain promised to report on the matter to the cabinet tomorrow. He discussed the subject tonight with Premier Lloyd George, who did not attend the conference.

**CANADIAN DOLLAR
IS WORTH 85 CENTS**

New Low Records Established
For Foreign Exchange on the
New York Market.

New York, Feb. 3.—After the close of the market here today the British pound was quoted at \$3.33, against a parity of \$4.86 2-3, or a discount of almost one-third.

The Canadian dollar was quoted at a discount of 15 per cent., thus making its value here 85 cents.

**Tremendous Offerings of
British and French Bills
Reputed at New York.**

FEARS FOR U.S. EXPORTS

New York, Feb. 3.—Another sensational slump in foreign exchange today unsettled prices on the stock exchange, and the various commodity markets, especially those trading in food stuffs and cotton. The decline was the most severe in the long sustained reaction of international credits, and was attended by many disquieting rumors, especially as to the probable effect on this country's foreign trade.

There is no way by which the extent of today's operations in the exchange market can be computed, but the aggregate of sales probably ran into hundreds of millions of dollars. British and French bills, providing the bulk of the offerings.

Some dealers in exchange, probably as a measure of precaution, declined to accept bids on any European centre, except subject to collection rates. This policy was not adopted by the larger dealers and banking institutions, however, where outright purchases continued the rule.

Today's reversal, which established new low records for London, Paris, Rome, Antwerp, and many less important centres, also took in Canada. As an instance, the Canadian dollar's ramification, exchange on New York at Montreal, was quoted at premium of 15 1-2 cents, or one cent over the previous high rate.

The reverse side of the exchange situation was presented by a withdrawal of about \$17,000,000 gold from the sub-treasury for shipment to South America, which it was expected to be favored by trade conditions.

In the stock market there were heavy dealings at variable declines in American securities, presumably of foreign ownership. It was estimated these stocks were being sold here because this market offered almost the only medium for their conversion into money from their pockets and reasonable prices.

HELD UP TWICE IN ONE MONTH

**George Irish Assaulted for
Second Time and Robbed
of Cash.**

For the second time within a month hold-up men tackled George Irish, 139 Wolsley street, while he was walking to work, assaulted and robbed him. Irish is employed at the Civic Abattoir, and while walking to work at 5 o'clock in the morning two men came out of a lane near the corner of Tecumseh and Nelson streets, and tackled him. Irish claims one man put his hand over his mouth and attempted to hold him, while a second searched his pockets. It was dark at the time and Irish could not see any person to call to, and he resisted both men, as long as he could. They both struck him several times in the face, knocking him down, then stole about \$10 in money from his pocket and ran, leaving him lying in the snow.

Irish was badly beaten about the face, and when he went to Claremont street station he could not give a very good description of the robbers. Early last month Irish stated he had been held-up on Tecumseh St. and after being assaulted, was robbed of over \$48 in cash. Detectives are investigating the robbery.

Hope for Recovery.

Bankers in London and Paris acknowledged that the exchange situation had taken on more ominous aspects, but in no important quarters was immediate recovery regarded as improbable.

There were many conferences during the day between financial interests and exporters, shippers were also vitally concerned in the situation, which is believed to have caused many cancellations of outbound tonnage.

At the lowest rate, issued after the close of the market, the British pound was quoted at \$3.33 against a parity of \$4.86 2-3, or a discount of almost 33 per cent.

French and Belgian francs and Italian bills, all quoted at the one price of 5 1/2-1/2, or a discount of almost 17.52 per cent., to the dollar.

**SIR ROBERT BORDEN
ARRIVES AT PORTSMOUTH**

London, Feb. 3.—Premier Borden was at Portsmouth this morning and was met by Sir George Perley. The two proceeded to London together. The premier's stay here will probably be very short, he looks fairly well, and everyone will doubtless respect his desire for complete quiet.

When Sir George Perley was asked to confirm the news of the premier's arrival, he replied:

"If he is here, he is not here officially, and these despatches do not help him to get well."

It is understood that the voyage of the warship New Zealand, on which the premier sailed, has latterly been tempestuous.

Admiral Lord Jellicoe had hearty cheers from ashore and was received by the naval commander of Portsmouth.

Is Over-Speculation in Food the Cause?

What is the main cause of the difference in exchange as between the United States and Britain?

The World believes it is largely because there has been a great over-buying of material and provisions in Britain, bought mainly in the United States. On the top of these enormous purchases of provisions and material in London, it is now beginning to come to light that an enormous speculation in commodities, especially in provisions, has been carried on in New York on borrowed money, and that these provisions and materials are warehoused in New York to secure the loans.

Britain, thus overstocked with provisions, may have determined to force the situation and to compel the holders of the provisions in Britain, and those who are holding them in the States, to sell at lower prices. The situation may become so serious any day that a crisis may be brought about, and a widespread reduction in

prices in many articles of food and in some commodities result. The holder will lose; the public will benefit. There may be quite a drop in the cost of living and in many materials.

There is no famine in sight of food, but there may be famine in some materials, and while some of the poorer nations of Europe may not be in a position to pay unless by way of credit, there is plenty of money in Britain for the purchase of food; also more or less in France, and there may be quite a lot available in Germany. But those who have this money to buy food may be determined to break the price boosters by bringing on a slump in values.

The United States do not know what action to take. They are inexperienced. They may be too anxious to make large profits, but the bankers behind them, when they see their money "frozen" in advances made on provisions stored in London and New York, may also force a slump rather than risk greater losses.

The London Times some three or four weeks ago referred to miles and miles of the docks of London crowded with foods imported from all quarters of the world. Part of this was stored because it was thought that the war might extend for another couple of years; now that that fear is passed, a drop in prices must come.

While Sir George Paish has been talking all over America about the situation, no one knows exactly what is his mission. The British government have said that he is not speaking for them; but he may be speaking for the bankers who have invested money in these enormous accumulations of provisions in London, in New York and elsewhere, and that in order to get some of their money back they may force unloading. Some great slump in prices is near at hand, and while it may not interfere with business generally it will relieve a pressure that bears heavily on all the world. The best thing that can happen is to make the puncture.

CHILDREN DESERTED IN BIG FARM HOUSE

**Were Left Alone While Parents
Were Working in
Toronto.**

FARM ANIMALS STARVED

St. Catharines, Feb. 3.—A sordid story of a family of eight children deserted in a farm house in Gainsborough Township, and of more startling conditions in the barn, where young pigs were found feeding upon the flesh of two cows, two horses and two other pigs which had died of neglect, was brought to the city today by R. E. Boyle, agent of the Children's Aid Society, who visited the place, about 25 miles southwest of here yesterday, but was unable to return until today because of almost impassable roads.

In a large well built brick house, Boyle found eight children, alone and uncared for, running about the house scantily and poorly clad, and three of the eight, without shoes or stockings. The family ranged from a 17-months' old baby to a 15-year-old, the younger members being left in the care of the eldest family member. There was still four cows living. His trip resulted in neighbors of the deserted children undertaking their care until a notification sent today by Mr. Boyle that action would be taken unless they returned. The pair have been working in Toronto, the mother making three trips home since they left in November, and the father one visit. The Toronto branch of the Society was also notified to find the parents.

AIR BOARD OFFERS GOOD OPENINGS

Equipment, Wireless, Photographic Officers and Pilots Needed.

Ottawa, Feb. 3.—Airmen and their aids are sought by the Canadian Civil Service Commission to work for the Canadian Air Board. Qualifications demanded are many and various, and salaries offered are all subject to deduction if board, lodging or ordinary clothing is supplied. In a few cases increased pay is provided for, and in others for the current fiscal year bonuses are allowed. Appointments are for three years, and renewable, and the provision is made for insurance against injury or death due to accident.

An air station superintendent is to get \$3,360, rising, if efficient, by \$180 per annum to \$3,540. A sub-station superintendent receives \$2,940, increasing by \$180 instalments to \$3,300. The air equipment officer begins at \$2,400 and may reach \$2,860 at the yearly rate of \$120. This gentleman is to have "wide knowledge of markets, current prices, commercial procedure and transportation facilities."

Airship and Air Pilot. The photographic inspector and the wireless inspector start at the same figure as the equipment officer, but their maximum is \$2,700. The pilot navigator will be a little better off, beginning at \$2,460, going up \$180 at a time to \$2,940; but he must be an expert photographer, wireless, telegraph and telephone operator. An airship pilot starts on the same level as the pilot navigator, but he can't go so high by \$120. If he heads a household, he, like the pilot navigator, gets an extra \$3 a week this year.

There is a difference between an airship pilot and a mere air pilot, tho

the inferior grade must be a photographer. He begins at \$1,920 and may only reach \$2,400, but if he is married he receives a first year bonus of \$4.54 24-52 per week. The foreman mechanic's initial salary is \$1,500, rising \$60 to \$1,800. The bonus works differently in his case. Married, he gets \$348 for the year; single, over 21, it will be \$102; under 21, nothing. The photographer is like the foreman mechanic, except that his maximum is \$1,740, the he must be enough of a mechanic to repair his cameras. The wireless operator is exactly like the photographer.

Four years non-flying classes are required—air engine fitters, air riggers, fabric workers and hydrogen plant operators. They all commence at \$1,080 and may climb to \$1,380 at \$80 per climb. Their first year bonuses are \$420 if heading a household, \$192 if not, but over 21 years of age, \$150 if between 18 and 21, nothing if below 18. Applications will be received at Ottawa till February 19. There is no exact information yet as to where the station or headquarters of the aviation branch will be located.

To Confer With Government On Immigration Policy. London, Feb. 3.—Commissioner Lamb of the Salvation Army will arrive in Canada in a few days to confer on the government's immigration policy. Hungarian Assembly May Name Archduke Joseph as King. Budapest, Feb. 3.—Designation of Archduke Joseph as king by the Hungarian National Assembly seems probable as a result of the strong royalist tendency in this country. This movement persists, despite objections to the Hapsburgs on the part of the allies and Hungarian Socialists.

PASSENGER SERVICE RESTORED. Rome, Feb. 3.—The railway passenger service has been completely resumed since the calling off of the strike. Freight service also has been started, and is being pushed to the utmost, in order to clear the ports and other shipping centres of freight which piled up during the strike. It is expected at the end of the week that the freight service will be normal.

BUDAPEST STARTS TRIAL OF "REDS"

Two Thousand Are Locked Up in Prison Awaiting Appearance in Court.

Budapest, Feb. 3.—The trial of a large number of terrorists began yesterday. Count Apponyi, head of the Hungarian peace delegation, when asked if there was any persecution of Communists, replied: "I have implicit confidence in the judges, who are moving so slowly that there have been only 27 executions for murder so far, which is a small number when it is remembered that the Communists killed several thousand persons. Nobody is being arrested for opinions, but for acts."

"Hungary is in a state of self-defence against the Red terror just as the United States, which is deporting Bolsheviks. With semi-Bolshevist governments at Vienna and Prague, and also agents coming in from Russia, all preparing to subvert the peace of Europe, we are bound to be careful."

The correspondent was allowed to visit the prison, in which more than 2000 persons are locked up, awaiting trial. These include Professor Peter Agoston, former minister of foreign affairs. He said that his freedom had been guaranteed him by the British and Americans last August, provided he would return from Vienna and help to overthrow Bela Kun. He did so, but was arrested in November.

Professor Agoston disclaims any complicity in the terrorist murders, and representations are being made by the allies in his behalf. His hair turned gray while in prison. As there is no heat in the building, his arm,

which was injured in the war, is giving him much trouble. It is expected that he will be removed to the hospital, if not released.

Officials in Plebiscite Area Not Allowed to Electioneer. Pienburg, Schleswig-Holstein, Feb. 3.—A new order by the plebiscite commission, issued yesterday, prohibiting public officials and preachers from engaging in electioneering, caused a stir in the German faction. Dr. Rudolf Müss, a Lutheran minister, announced his resignation in order that he might be free to carry on propaganda in connection with the plebiscite.

The excitement abated somewhat after Adolf Koester, special representative of the German government, visited the commission and reported that he had received assurances that the order was directed only against propaganda being carried out by persons well engaged in official duties.

May Prosecute Soldiers Who Made False Claims. Ottawa, Feb. 3.—(By Canadian Press).—Investigations are under way, it is understood, with a view to the prosecution of men who are alleged to have made false claims for assistance from the \$40,000,000 special emergency fund voted for returned men last session. Advice received here indicates that the claims, alleged to be fraudulent, may number several hundred.

Whiskey, Value Two Hundred Thousand, Seized in Calgary. Calgary, Alta., Feb. 3.—Two cartons of whiskey consigned to Charles Bell, proprietor of the King George Hotel, here, and one carton of beer, consigned from Lettbridge Brewery to the Drumheller Bottling Works, were seized here yesterday by the provincial police. The shipments are valued at close to \$200,000. Bell will be required to answer to the charge of keeping liquor for sale. The whiskey came from Detroit.

CHIEF OF FRENCH NAVAL STAFF. Paris, Feb. 3.—Rear-Admiral Salaun, former director of submarine warfare, has been appointed chief of the general staff of the navy. Rear-Admiral Levasseur and Captain Jean Motte have been named as his assistants.

FRENCH CHAMBER PASSES DAYLIGHT SAVING BILL

Paris, Feb. 3.—The chamber of deputies today passed the daylight saving bill, the measure then going to the senate for action. The bill fixes March 15 as the date for turning the clocks an hour ahead, and provides that summer time thus established shall extend to Oct. 25. Because of the coal shortage, however, the bill provides that this year and in 1921 the summer-time period shall begin a month earlier.

Hitherto summer-time dates have been fixed arbitrarily, there being no law on the subject.

To Exchange Austrian Goods For Materials in London. London, Feb. 3.—A large delegation, representing the principal Austrian industries, has arrived in London with fancy goods to the value of \$40,000. These will be sold in England, and the proceeds will be devoted to obtaining necessary raw-materials, mainly metals and leather to enable the restoring of Austrian industries. This particular barter system has been resorted to owing to the depreciated currency.

Report Increase of Flu Cases in the Montreal District. Montreal, Feb. 3.—The number of flu cases here is increasing. The report for Saturday, Sunday and Monday is slightly above normal figures, and there is nothing to be alarmed at, the city medical authorities are closely watching the disease. The report received by Dr. Boucher today shows a total of new cases of flu for Monday at 57. There were 12 deaths from pneumonia over the week-end.

Belgium Has Prohibited All Dealings in Exchange. Brussels, Feb. 3.—The Solt Brussels that King Albert has signed a decree prohibiting dealings in foreign exchange, except in bona fide commercial transactions.

Alleged Quebec Thief Rearrested in Massachusetts. Salem, Mass., Feb. 3.—Joseph Levasseur of Rimouski, Que., held as a fugitive from justice in Canada, was ordered released by the superior court on habeas corpus proceedings today. He was rearrested, charged with breaking and entering a house here, and the lower court continued the case until Feb. 10. Levasseur is wanted at Quebec in connection with the alleged theft of three silver fox skins valued at \$10,000.

CLEMENCEAU'S ITINERARY. Paris, Feb. 3.—Dr. Wisard, who is accompanying former Premier Clemenceau on his trip to Egypt, is quoted by The Excelsior as saying M. Clemenceau's itinerary would include Cairo, Khartoum, a trip up the Nile, and probably a visit to Syria, Persia, and India. It is also said he may visit Japan before returning to France.

FLUE BAD AT CAMERON FALLS. Port Arthur, Ont., Feb. 3.—Influenza and gripe are reported very bad at Cameron Falls, where Hydro-Electric power development is in progress. As yet there are no reported cases of flu in Port Arthur.

SAY LABOR COUNCIL CAUSED BIG STRIKE

Several Sensational Charges at Trial of F. J. Dixon, M.L.A., in Winnipeg.

Winnipeg, Man., Feb. 3.—(Canadian Press).—At the trial of F. J. Dixon, M.L.A., charged with publishing seditious words, W. M. Percy, the only witness called this morning, under cross-examination by Mr. Dixon, said: "The Trades and Labor Council of Winnipeg was responsible for the strike last spring."

Begus Orders on Big Store. The Trades and Labor Council, however, said witness had not the power to force any one local to walk out. It was brought out from the minutes of the general strike committee that the question of flooding the T. Eaton Co. with begus orders was advocated in an endeavor to stampede the staff. Witness Percy defined the committee of one thousand "as a band of citizens organized to carry on the public utilities during the strike."

Hugh Phillips, K.C., counsel for the crown, read various items from The Western Labor News and other exhibits already put in describing the meeting at the Majestic Theatre; the advocacy of the general strike, insurrection and control of industries. He also read from the minutes of the general strike committee, in which the adoption of the one day union in its entirety was urged and finally recorded as adopted.

WILFUL MURDER, VERDICT. London, Feb. 3.—A verdict of wilful murder against some persons unknown was returned at the inquest today on Frances Buxton, the landlady of a Chelsea inn, whose body was discovered a fortnight ago in a collar of her house. What Should You Pay Your Teacher?

There are two kinds of salaries available for the profession of that boy or girl of yours. On your part is the choice that is made for you.

One can continue to see in the payment of salaries that are paid in commercial life. The result—those are best fitted to your children will be encouraged from the teaching profession, and attracted to other paid opportunities in modern business.

A request of Toronto teachers for a 25% increase is presented in the good faith and spirit of bargain.

In January, 1914, the cost of living has increased 100%. During the same time, industrial production has increased to 100%.

Teachers' salaries increased only to 22% during the period. An increase of 25% now will give a still decidedly inferior position. No less will keep teachers permanently out of schools. No less will draw back training schools and women who are turning aside to betid vocations.

There are no "plums" in teaching profession as in other vocations. Teachers do not expect princely salaries. They do ask for air and just treat.

Children of Today are the Citizens of Tomorrow. Keep up the hard of teachers and give those citizens the best and moral training that are to come.

25% Increase is asked. They can't live on 25%. Are they worth it?

SIR HARRY LAUDER AT CANADIAN CLUB

Scotland's Greatest Comedian Delights Members With Song and Talk.

Major Brown introduced Sir Harry Lauder yesterday to the Canadian Club as one who had added not a little to the gaiety of the English speaking peoples, and played the part of a man in the war, having lost his son, Capt. Lauder, at the front. Major Brown described an experience of his own when at the front he saw a private come in and throw himself down utterly worn out, but he brightened up when a photograph played "Jock."

"Gentlemen, you fatten me. I'm delighted to be here. I am just come from America. (Laughter). They are just the same there. They are settling down," he declared, and indicated his belief that optimism was warranted. He had met Sir Douglas Haig near Bullecourt, and had asked him for a message. "Tell them at home for me," he said. "Tell them to forget the hell of things."

"I know a bonnie lassie out in Ochi-O," was the result of a recent experience he had. He sang a stanza in inimitable style. After loud applause, he remarked, "That's all you're going to get." The audience roared. "I'll have it in the next time I come to Toronto, and it'll cost you something."

"The Sunshine of a Bonnie Lassie's Smile" was another chorus which he sang. "That's one of my very latest," he remarked, and the laughter continued. He said he did not know what he was going to talk about when he was asked to speak. It was his nature to ramble, and he would ramble. He had it in his mind the supreme part of the English-speaking people had played in the war. They had to play the supreme part in peace also. The example they had to set was work. That was a war word, but it was the key. They had to earn their bread with the sweat of their brow. There were too many who never oozed a drop of sweat in their lives. He despised these people, who were only parasites on the real workers.

He had worked since he was 11. He was 50, but he was 13. He remembered having a holiday, once. He never was so miserable in his life, thinking of the day he would have to start working again. (Laughter).

There were men who did not like the job they were in. They were asked to speak. It was his nature to ramble, and he would ramble. He had it in his mind the supreme part of the English-speaking people had played in the war. They had to play the supreme part in peace also. The example they had to set was work. Some of them had been concentrating on paring down—paring down the hours of labor. If a man was only going to work half a day, he would only be paid half a day's wages. Working men were too much agitated by soap box orators, who never wanted to do a day's work. They had gone among men and heard him and he could see no good in them. They made him want to get behind and push. He was glad to see in America

WANT CANADIAN SINGERS.

There was a large number of local singers at Loew's Theatre yesterday when Miss Doree tried voices with a view to filling vacancies in the big grand opera companies of New York, Chicago and Philadelphia. The majority of grand opera aspirants were soprano and contralto and it is expected that local tenors, baritones and basses will make a good showing tomorrow when Mme. Doree will be deputed to sing in the Windmill Theatre. The madame has been requested by the big impresarios across the border to pick voices in Canada and Toronto in particular. She secured an army of singers in Montreal last week.

"TAKE IT FROM ME"

New York Record-breaker Returning to Royal Alexandra to Repeat its Previous Success in Toronto.

Seats will be placed on sale tomorrow morning at the Royal Alexandra Theatre for the theatrical event that will prove to be of more than passing interest in the entertainment life of Toronto. This will be for the return of "Take It From Me," which not only broke records in New York, where it ran for five solid months, but in Chicago, whence it comes to Toronto direct, where it is confidently predicted it will repeat the success it attained when presented here a little over a year ago.

Since being presented here "Take It From Me" has been completely re-costumed, more magnificently staged, until now it is summed up in simple one word, "lavish." The Gardiner Trio, perhaps the cleverest dancing trio in America today, have been added to the cast. The screamingly funny story of big store methods has been retained, also all the beautiful song numbers, including "The Call of a Cosy Home." The matinee will be as usual on Wednesday and Saturday.

that they were pushing them off in boats. (Applause). He would like to ask any of the successful men if they had ever limited their hours of labor. "No, you didn't," I was reading about the professors working 16 and 18 hours a day. If they could work that long with their brains he thought an able-bodied man could work ten hours, anyway, if he did work. But if he worked only eight hours he would not pay him for ten, and if he worked six hours he would not pay him for eight. He thought if more time was spent by men in trying to get things back to normal they would be more patriotic. There were some men who were sorry the war was over. It was because of money they thought that. It was a shame to them.

Some employers had not shared with their employees. Perhaps they had dispensed their profits philanthropically, but there might be more satisfactory arrangements, he intimated.

Off to Australia. He did not know when he would be in Toronto again. He was on his way from Australia, where they were very British. He had been glad to find in British Columbia Scotsmen like himself, but British. Then he related a story of an old sea captain who had never drunk a glass of whiskey in his life. "That's right," he concluded. "When you get down on your knees to drink you'll see your face in it. It'll be clear as crystal. Your nose will ripple it when it hits the water. You'll see the sky in it. It's a bonnie clear spring and a bonnie world around it. It's up to you and me to keep it sac."

Today's program will include among other items a discussion concerning an extended medical and nursing service, and various problems submitted by a number of provincial branches.

GOOD-BYE DYSPEPSIA

No More Gurgly Brash. "Lump of Lead," Bad Digestion, Heartburn or Such Troubles. The man who can't help making faces at his stomach, the man or woman with a gurgly indigestion, or with downright dyspepsia need fret no more. The heaviest, richest dinners, the most unspicakable quick lunches, all taken care of without imposing on the stomach. A scientific digestive can do the digesting where the stomach either did not do it before or did it very imperfectly. This is why the use of Stuart's Dyspepsia Tablets has become so universal among those who suffer from indigestion and dyspepsia. Take one of Stuart's Dyspepsia Tablets after your next meal, and if you are given to belching, sour risings, fermentation, heavy lumpy feelings in the stomach, indigestion, dyspepsia, loss of appetite or other such digestive derangement, you will find at once a remarkable improvement. They regulate the gastric juices and give the stomach the rest it needs before it can again be healthy and strong. Stuart's Dyspepsia Tablets are for sale at all druggists at six a box.

RED CROSS PLAN PEACE CONTINUANCE

Round-Table Conference to Be Held at Early Date.

How best to organize and carry on the peace time work of the Canadian Red Cross Society so that it might fulfil the purposes to which it was committed by Canada's signature to the covenant of the league of nations, which includes the "establishment and co-operation of duly authorized voluntary National Red Cross organizations having as purposes the improvement of health, the prevention of disease, and the mitigation of suffering thruout the world," was the principal subject under discussion at yesterday's meeting of the central council of the society. The closest cooperation with every organization having kindred objects with the Red Cross is the earnest desire of His Excellency, the Duke of Devonshire, who, with Her Excellency, the president of the Canadian Red Cross, is attending all sessions of the council as well as the annual meeting on Thursday afternoon.

To further the scheme of co-operation as far as possible a round table conference of all bodies concerned with the scheme will be held in the afternoon. Pending that conference no definite scheme can be evolved before another meeting of the council. In the meantime a grant of \$10,000 for the St. John Ambulance association and \$5,000 for the St. John Ambulance Brigade were made, these two bodies having been closely allied to the Red Cross thruout the war period.

Representatives Attended. Yesterday's meeting opened with an attendance from all provinces except Manitoba and Prince Edward Island. The meeting being the one prior to the annual meeting of the society and the nominations of officers and representatives on the central council, all of which will be submitted to the meeting on Thursday, require consideration.

The first general meeting of the League of Red Cross Societies, of which the Canadian Red Cross is a member, is to be held in Geneva the week of March 2. To this meeting the central council yesterday appointed Lady Drummond of Montreal, Sir Richard Lake, Registrar, and the chairman of the executive committee of the society as official representatives.

Siberia, which has been considered a war zone by the Canadian Red Cross for the past year and a half, once more came up for discussion, and was once more felt to be a responsibility which must be maintained to a certain degree. Mr. D. Douglas Young, the society's representative in Siberia, reported the alleviation of acute suffering in the military hospitals in the district covered by the British military mission, thru the supplies which he was able to distribute, and urged a continuance of the shipments.

Today's program will include among other items a discussion concerning an extended medical and nursing service, and various problems submitted by a number of provincial branches. Their excellencies the duke and duchess were accompanied by his honor the lieutenant-governor, Mrs. Saunders, Col. Heronson, the military secretary, Capt. Balfour, A.D.C., and Col. Alexander Fraser, A.D.C.

Col. Noel Marshall, chairman of the council, received the distinguished guests. Among those attending the meetings representing the provinces of Canada from Atlantic to Pacific, are Mrs. Fleming, Victoria; Mrs. Sewell, Quebec; Mrs. B. McNeice, K.C., president, and Mrs. Waagen, secretary of the Alberta Provincial Chapter; Miss Pinkham, Calgary; Mr. Pope, Moose; Commissioner Pelee of the Royal Canadian Mounted Police, late of Regina, now of Ottawa; Mrs. T. D. Brown, Regina; Judge Rimmer, Arcoia, all representing Saskatchewan; Col. R. W. Leonard, St. Catharines; J. W. Robertson, Ottawa; Mr. Allen, of St. John, N.B.; Mr. Miller, Montreal, Sir John Gibson, Hamilton, and Toronto members, Mrs. Plumtree, Mr. B. B. McNeice, K. J. Dunstan, General Sterling Ryerson, Mr. Gordon Osler and Col. and Mrs. A. E. Gooderham.

Polarine
FRICION REDUCING MOTOR OIL
"Makes a good car better"

The name Imperial Polarine on your lubricant container is like the buoy on the sea that guide the mariner past shoals and rocks.

Imperial Polarine Means Safe Lubrication

The right grade of lubricating oil is as essential to safe motoring as the buoy is to navigation. The use of a lubricant of the right body prevents many breakdowns and engine troubles. Imperial Polarine is the ideal winter lubricant. It maintains effective lubrication when cold is intense and internal heat high. Imperial Polarine keeps compression tight, and minimizes wear on moving parts. It prevents rust, scorched cylinders and fouled spark plugs, because it maintains its lubricating efficiency under wear. Imperial Polarine will not congeal in cold weather neither will it run thin at engine heat. Imperial Polarine, Imperial Polarine Heavy, Imperial Polarine A—three grades—learn which is best suited to your car. Transmission and differential lubrication by means of special Polarine oils and greases combined with Imperial Premier Gasoline assures care-free motoring winter or summer. ROSEDALE STADIUM WARMS UP COUNCIL

Alderman (Mrs.) Hamilton Pours Effective Oil on Troubled Waters.

Frequent and angry interruptions by the mayor and a corresponding number of reprovals from the chair forced the meeting of the parks and exhibitions committee yesterday afternoon at the city hall. The chief topic discussed was the mayor's "pet" proposal, the Rosedale Athletic Stadium, entailing an expenditure of \$60,000. His worship appeared to be in a great hurry to finish the discussion, stating that he had another meeting to attend, and accused Chairman Ald. Beamish and the members of the parks committee of having old, antiquated methods of conducting business. This caused a small verbal flare-up. "Mr. Mayor," shouted the chair, "I don't propose to let you or anyone else not on this committee come here and instruct us how to manage its affairs."

"Where is the money coming from?" queried Ald. Nesbitt, on hearing of the proposed cost of erection. "Never mind the money," countered the mayor, followed by laughter. The financial aspect of the case seemed to occupy the most attention. His worship stated that the stadium could be made open to the public every day and that a "gate" could be charged Saturday afternoons, which in a short time would defray the cost of erection.

The next objection met was that the Rosedale site was too far from the city-line. "In practically all American cities of any size, the athletic and recreation parks are two or three miles out," said the mayor. In this respect he was supported by Ald. Sykes, who stated that the same condition applied to many English cities.

Controller Gibbons thought that the proposed stadium was large enough for the purpose required. "I would suggest that we make an effort to procure the Woodbine race-track," he said. "There is 100 acres of good park ground there, and fifty teams could be playing at once."

SOME STATISTICS.

He proceeded to give some statistics, emphasizing the need for a big recreation ground. There are 50 ball teams, 24 senior football and 15 junior teams in the city, many of whom have no home fields on which to practise. The Woodbine track would alleviate this situation greatly, and there is also room on the stands to seat 1500 spectators.

"The stand is too far away from the track," interrupted the mayor. This suggestion was left in abeyance. "The mayor suggested that the motion be sent on, but again he met opposition. 'I do not see where there is any purpose in this,' said Mrs. L. A. Hamilton. 'I would move that a conference be held here of the heads of the various athletic organizations affected, and ourselves.' This motion met with the approval of the committee, with the exception of the mayor, who characterized it as 'anything to kill time.' 'We have letters on record from all the big sporting men in the city, all of whom express themselves as in favor of the Rosedale site,' said his worship. Mrs. Hamilton's motion was carried, only the mayor and Ald. Sykes dissenting.

Run down from overwork, Sir Sam Hughes is taking a complete rest at the Wellesley Hospital.

Run down from overwork, Sir Sam Hughes is taking a complete rest at the Wellesley Hospital. He was staying over the week-end at the King Edward Hotel and, acting on the advice of four of his personal friends, Dr. Norman Allen, Col. Herbert Bruce, Dr. William Caven and Wallace Scott, he will remain at the hospital for a three weeks' rest. The condition of Sir Sam Hughes is not regarded as serious by his attending physician, Dr. Allen, and Sir Sam himself informed The World over the telephone that he was just suffering from a bad cold and a run down constitution. He jokingly referred to his admission to the hospital as a conspiracy of some of his old pals who decided that he needed a rest. He did not anticipate remaining at the hospital for three weeks, as recommended by his physician.

PRINCIPALS ASK RAISE.

Among salaries which will be paid by the board of education is that of James Burns, secretary, who it is rumored, will have his salary raised from \$2,200 to \$4,000. Among requests for increases is that from Principal Hagarty and Principal Jeffries of the Harbord and Jarvis Collegiates, who ask that they may receive the same for night work as the sum given the head of the High School of Commerce, who receives \$800 per annum, while, as pointed out by Principal Hagarty, his extra allotment is barely \$300.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all. Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin—prescribed by physicians for over nineteen years. Now made in Canada. Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer". Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocarbolic acid of Salicylic acid. While it is well known that Aspirin means Bayer manufacture, to avert the public action imitations, the Tablets of Bayer Company will be stamped with their special trade mark, the "Bayer Cross".

REAL ESTATE NEWS

The premises occupied by Dunlops Limited, florists at 8, 10, 12 and 14 West Adelaide street, have been purchased by that concern from R. V. Weldon estate for \$230,000. The property has a frontage of 51 feet. E. W. Goulding has purchased for about \$25,000 the building and ground lease which has about 19 years to run, at 11, 13 and 15 East Adelaide street. This property has a frontage of 38 feet, and a depth of 95 feet.

POLICE ESTIMATES NEARLY TWO MILLION

The police estimates for this year will be \$1,981,559. This includes the cost of running the department, and granting an increase of pay to all members of the force, in addition to the taking on of 340 recruits. An increase of \$100 a year, was granted to third class constables, \$200 a year to second class, and \$300 to first class constables, and all other ranks of the force. Third class men will now get \$1350 a year, second class \$1650, and first class \$1850.

Chief Graessle announced that he had new traffic regulations under consideration, and was now prepared to discuss the matter with the motor league, board of trade, and other organizations. The board will give their decision at the next meeting regarding the granting of a tea-room license at 97 St. George street. Permits for the holding of tag races were granted the Ontario Club, April 22, the Salvation Army, May 22, and the Imperial Order of the Daughters of the Empire early in June. Police-man Bennett (128), resigned.

WEDNESDAY MORNING, FEB. 4.

Will the Friends of the National Policy Ever Wake Up?

The friends of free trade in the west are confident of carrying nearly every seat in the three prairie provinces at the next Dominion election. The Liberals are ready to scrap their organization and support the Farmers' candidates. Premier Norris of Manitoba and Premier Martin of Saskatchewan are making a deal by which the Farmers' candidates will be unopposed by Liberal candidates in the Dominion election. Premier Stewart of Alberta is anxious to make a similar deal, but finds rougher sailing than his neighbors in Saskatchewan.

Hard shell Grits like Frank Oliver cannot be coaxed into any compromise, and H. A. Wood, leader of the United Farmers of Alberta, believes in the farmers fighting every election. Dominion, provincial or municipal, that may be called.

The Edmonton Bulletin, edited by Hon. Frank Oliver, goes savagely after The Regina Leader, the organ of the Martin government, and charges them with selling out the Liberals in the federal field in return for the support of the Grain Growers in provincial politics. After quoting at some length from a recent editorial in The Leader, The Bulletin says:

If The Leader editorial is not a straight bid on the part of the Martin government for an alliance with the Farmers' party of Saskatchewan against Liberalism in federal affairs, it is difficult to understand for what purpose it was written.

This called forth a reply from The Leader, which more than justifies Mr. Oliver's complaint. The Leader declares that the national platform adopted by the Liberal party at Ottawa last summer is in substantial accord with the free trade platform adopted by the [Farmers'] National Council of Agriculture. It sees no reason, therefore, why the Liberals should put up candidates against Farmers at the Dominion election. Neither does it see any reason why the Farmers in grateful remembrance thereof should not abstain from opposing the Martin government, and we read:

But if Saskatchewan Liberals unite with the farmers as a matter of principle in support of the National Policy in federal affairs, and in order to assure the triumph of principles and policies in which both believe, even this may involve abandonment by the Liberals of their old party form of organization in federal affairs; it is reasonable to expect that after thus fighting together, the farmers should turn and fight the Liberals in provincial affairs when they have nothing at stake in so doing but the setting up of a distinct name and organization, and no questions of principle or policy are involved?

That a deal is on is evident by the effort the Martin government made to prevent a Liberal candidate running against a Grain Grower in Assiniboia, and the effort of J. B. Musselman, secretary of the Saskatchewan Grain Growers' Association, to prevent a farmer from opposing the provincial government in Kildersley.

If the Liberals and Farmers in Saskatchewan alike are in favor of free trade their amalgamation is legitimate enough. If they divide their forces in any riding a Conservative or Unionist candidate might slip in. The Winnipeg Free Press, less frank than The Leader, is leaning heavily toward a similar deal in Manitoba. The Free Press is more anxious to secure the return of the Norris government than it is to see Mackenzie King premier of Canada.

The significance of it all is that 38 of the 44 members from the prairie provinces at the next election may be out and out free traders. What the Farmers in the other six provinces may do remains to be seen. They may not strike root in Quebec, but their party has grown like Jonah's gourd overnight in Ontario. It is making headway in New Brunswick as witness the by-election in Carleton and the proposed establishment of a Farmers' paper with a guaranteed circulation of 10,000.

The friends of the National Policy will have to wake up. They seem to be in the land of the lotus eaters, where it is always afternoon. They seem like an army without a general, or a litigant without a lawyer. They seem almost willing to let judgment go by default in an undefended suit. These are plain words, but are justified by the state of affairs. A determined assault is being made on the National Policy. What is being done to overcome it?

ROADS LOOKING BETTER

Farmer Drury: O, I think we'll get thru all right.

Drury, Premier of Ontario, Viewed in Action at Oakville

The following impression of Premier Drury at Oakville has been sent to The World by M. W. Glendon, of Bronte:

While the chairman at the Drury meeting in Trafalgar Hall, Oakville, on Thursday night, was making his opening remarks, I had a chance to study the face of E. C. Drury himself, as he sat before me.

One is first attracted by the eyes of Mr. Drury. They are not the alert eyes one usually associates with the politician. Somewhat brooding, they are the eyes of the scholar, one who has thought much. The mouth is grim and honest. The chin firm and strong.

As he comes forward and begins his speech his "Covenanter" look fades away, and his face lights up with the play of expression of the politician. Somewhat brooding, they are the eyes of the scholar, one who has thought much. The mouth is grim and honest. The chin firm and strong.

ing the narrow, almost unworkable majority his party holds in the new house.

To me that appears to depend on the moral fibre of the various members-elect from the cities and towns who have gone in under the Grit and Tory banners. If a part of these men can forget their partisan interests, their tribal wars, can for once support the general principles of right, then Drury will win out, and we shall see the beginning of a new political dispensation.

Here at home, in Halton County, I have talked with many voters, men who are prominent in both the Liberal and Conservative ranks, and if the spoken word counts for anything, Mr. Drury will have few to oppose his election in this section, at all events.

Apparently most men from Bronte and vicinity, who like myself heard Mr. Drury for the first time, came away feeling we had listened to the words of a sincere and honest man, a man who will fight for what he believes is right and just—and that is the kind of a man we want for premier in Ontario.

Mr. Drury has promised also that if elected for Halton, he will not forget our local interests amid the duties of his larger office—I believe he will keep his word.

Gossip has it that there are certain malcontents in another part of the county, who are trying to drum up a candidate in opposition. It may be so, but if this is done I prophesy such a man will go down to the defeat he deserves.

M. W. Glendon.

LECTURER AT O. A. C. DIES OF PNEUMONIA

Walter L. Iveson Succumbs After One Week's Illness.

Guelph, Feb. 3.—(Special.)—The death took place this morning of Walter Lawton Iveson, M.A., lecturer in chemistry at the O.A.C., after an illness of only a week's duration. He was taken ill with a bad cold, which developed into septic pneumonia, and although he put up a strong battle for life, death came this morning. He was in his 29th year, was the son of Mr. and Mrs. Frank Iveson of Metcalfe, near Ottawa, where he was born. He received his education at McMaster University, Toronto, and was, before coming to Guelph to join the staff at the O.A.C., in the civil service at Ottawa. He came here about seven years ago. He married Miss Eileen Hoover, daughter of ex-Ald. and Mrs. J. B. Hoover, who survives him. He also leaves his parents, who reside at Metcalfe; one brother, William of Perth, and four sisters, Mrs. (Rev.) W. E. Hindson of Guelph, Mrs. E. Anderson of Lindsay, Miss Sadie of Ottawa and Miss Fannie at Metcalfe for interment.

SETTLERS FROM ALBERTA COMING FROM HOLLAND

Edmonton, Alta., Feb. 3.—More settlers for Alberta farm lands, this time from Holland, Scandinavia, Belgium and the United States, are the prospect held out by J. C. Dennis of the Canadian Railway, who called upon Premier Stewart this morning with a story of good immigration possibilities for the province.

A definite scheme for bringing several thousand agricultural settlers into the western province is being plotted by the Canadian Pacific Railway interests, and the co-operation of the provincial government is being sought before a beginning is actually made. The railway company proposes to bring in the new immigrants and sell them farm lands from its own holdings.

WOULD GIVE UP WILHELM ON CRIMINALS

Amsterdam, Feb. 3.—According to The Handelsblad, it is quite probable that Holland would consent to the extradition of "German war criminals" who are within her borders if extradition were asked on the grounds that they are serious or notorious criminals. In the event that the request were based on some act of the ordinary course of war or reprisal ordered by superior orders, the case would be different, the newspaper asserts.

The Handelsblad says further that if the extradition of former Emperor William had been demanded on actual grounds, Holland's reply might have been different.

FOUND DEAD IN BED

Emma Rushton, aged 65, was found dead in bed at 50 East Dundas street yesterday morning. On entering the room, Thomas De Pries found the woman, and he at once notified the police of West Dundas street station. The police stated the woman had been dead for two or three days. Death is believed to have been from natural causes. The body was removed to the morgue.

WANT PULPWOOD FROM CANADA

United States Senators Prepared to Put Up Big Fight to Secure It.

Washington, Feb. 3.—The resolution introduced in the senate yesterday by Senator Underwood, which requests the appointment of a commission to open negotiations with Canada with regard to the Canadian restrictions on the exportation of pulpwood, is believed to mark the opening of a big fight which a number of United States senators plan to make with the object of threatening the opening up of Canadian forest resources to United States mills. That Senator Underwood and his associates are ready to "go to the limit" in this campaign is indicated by a rather pointed suggestion contained in the Underwood resolution, that a movement may be started in congress for retaliatory action against Canada, in the event of the failure of the commission to recommend or modification of the Canadian exportation restrictions.

Question of Property Rights.

After a preamble which calls attention to the existing scarcity of wood pulp in the United States, and its threatened total exhaustion, "a matter of grave concern to the paper industry and the users and manufacturers of forest products," Senator Underwood states that prior to 1910 American paper producers purchased leases of crown lands in Canada with the consent of the Canadian provinces for the purpose of cutting pulpwood and shipping it to the paper mills in the United States. In 1910 the lieutenant-governor of Quebec issued an order prohibiting exportation of wood pulp from crown lands unless manufactured into lumber or paper, "thereby invalidating the rights of property by statute conveyed and doing grievous and irreparable injury to American interests by making valueless their large investments in river shipments and wood preparing and shipping plants, and depriving American interests of the wood to which they had been conveyed all property rights."

Hold Leases for Large Areas.

The American interests, says Senator Underwood, now hold leases for about 10,000 square miles of such lands in the province of Quebec, or about 5 per cent. of the total wooded area of the province, upon which they have regular property rights. Similar restrictive orders are in effect in the provinces of Ontario and New Brunswick.

The resolution requests the appointment of a commission to negotiate with the Canadian authorities for the cancellation of said restrictive orders in-council as they may apply to crown and leased lands acquired by American interests prior to the passage of said restrictive orders. It then continues:

"That in the event the cancellation of said restrictive orders in-council cannot be agreed to by mutual arrangement of the governments of the United States and the Dominion of Canada, said commission shall investigate, consider and report to the senate the long gradual lines of cancellation of said restrictive orders in-council or their modification, so that they may not continue to militate against the interests of the people of the United States who are now affected by them."

Sell Five Million Dollars' Worth of Furs at Montreal Auction

Montreal, Feb. 3.—Many shipments of raw furs are pouring into the city for the big auction sales that commence here on March 28. It is thought that at least \$5,000,000 worth of pelts will be offered to the fur traders during the days of the sale. Fox, muskrat, mink and beaver will be the features of the sales. Fox skins especially will attract buyers from all parts of the world, for the entire output of Prince Edward Island will be marketed in Montreal.

Although these sales were primarily arranged with the idea of marketing Canadian furs, there will be many consignments of Australian and South American furs offered thru the bigger Canadian raw skin houses.

WANTED IN ENGLAND

Detective Inspector Pye and Detective-Sergeant Moffatt of the Liverpool Police left Toronto last night for Montreal, from where they will sail to England, taking back with them Samuel Smallpiece. Smallpiece was arrested some time ago in Windsor for the police, charged with theft of \$800 from an insurance company which he was working for in Liverpool. Pye and Moffatt were sent here to take back the prisoner, who has been held in Toronto Jail for several days.

CILICIA SCENE OF MANY CLASHES

Irregular Forces Attack Stations Occupied by the French.

Beirut, Syria, Feb. 3.—Following in the wake of extremist propaganda in Anatolia, Asia Minor, clashes have occurred in Cilicia. Irregular forces from the mountains attempted a sudden attack in regions occupied by the French, and a band attacked a station on the Bagdad railway. Troops sent from Antab repulsed the latter attack.

In the region of Antab and Marash, engagements have occurred between natives and brigands, and troops were compelled to intervene. The military post at Al-Hamman, on the road from Alexandrette to Aleppo, was recently surrounded by a party of Bedouins. Aid was sent to the relief of the beleaguered post. During the engagement, one officer was killed.

Ottawa.—The members of the Bricklayers' Union express this city are demanding \$1 per hour for an eight-hour day, according to a member of the local.

MOONLIGHT AND MONEY

BY MARION RUBINCAM

THE OTHER LADY.

CHAPTER 106.

A woman would have guessed who it was that Carol meant to have meet Murray at tea next day, but Murray himself had no idea. He thought it might be some business man who knew Harry and who could quote him facts and figures as to the young man's income.

But there was only one person in the room besides Carol, a woman with shining blonde hair and a perfect skin—almost too perfect—who turned with easy grace as he advanced. He was not sure for a moment he knew her. But of course he did—it was—it must be—

"Do you know Mrs. Shattsbury, Mr. Butler?" Carol introduced them.

"Of course I know her! We met here before," said Butler, remembering perfectly now.

"And of course I was sure it would be you," said Mrs. Shattsbury. "Carol mentioned the name 'Butler' and said a great artist—and there's only one Murray Butler." She nodded her head, and the jade green feathers on her hat shook airily with each movement.

No wonder women were jealous of her, Murray thought, studying her while he drank tea and chatted about nothing in particular with the two women. His artist's eye followed with pleasure the long graceful lines of her gown, a sleek black satin that trailed gracefully about her, with white ermine collar and cuffs softening it about her face and hands and a string of jade as a contrasting color note.

"If you don't mind, I'm going to leave you a moment," Carol said. "My beloved baby has supper at this hour and I make it a point to be in the nursery. I want to talk more before you go—I shan't be long."

And in this tactful way did Carol leave Murray alone with Mrs. Shattsbury. He was watching her closely, the slight resentment he felt at her because of the unhappiness she had caused Louise—or that Louise thought she had caused her—melted away while she talked. Mrs. Shattsbury was a brilliant conversationalist; she was in touch with all the new political movements, she could quote from a dozen of the foremost men of the country.

Then, too, she was charming to look at. Butler admired the way she carried her head, the poise of her shoulders.

"A Man Doesn't Need a Woman's Help!"

Alice Fairbanks said this bitterly. For she had believed that her interest in David's ambition had encouraged him and helped him—until he allowed himself to be won away from her by a girl who took no interest whatever in his work.

Then Alice told herself that the man-nature was absolutely independent of the woman-nature. Little did she dream that, as she told herself these things, David was telling himself that his ambition was dead—dead because he had married the wrong girl.

Before the other girl had come between them, David and Alice had dreamed of running a farm together on scientific principles, and she had taken an eager interest in his agricultural studies which were to lead to the realization of this dream.

And then life had led them far apart, and yet had not taken the roots of that early ambition out of the man's heart any more than out of the woman's—so that it blossomed forth again, too late!

Yet sometimes life sees a way of smoothing out tangles even as great as this one. Does this happen? Find out by reading "The Girl Who Smiled Thru," which starts in this paper on Monday next, a week today.

Hands Up! Boy Charged With Theft Tried to Bluff Detective With Harmless Revolver.

"Hands up" was the rapid reply of Marvin Whitehead, a 17-year-old boy, to Detective Walter McConnell last night, when the detective approached Whitehead on West King street. McConnell touched the boy on the shoulder while he was attempting to sell a bicycle and turning around quickly, Whitehead pointed a revolver at McConnell. The detective snatched the revolver from the boy's hand and on looking it over, found it had no chamber. Whitehead is charged with stealing a bicycle. He gave a West King street number as his home address.

G. A. C. ORGANIZE JEWS. The G. A. C. have completed arrangements, whereby they intend to organize all Jewish veterans thruout Canada, from the Atlantic to the Pacific coasts. The Maccocean Post, organized recently in Toronto, was the first Jewish post formed in Canada, and the association hopes to form similar posts in towns and cities thruout the Dominion.

MASS MEETING SUNDAY. An aid of the gigantic petition for increased gratuities, a large meeting of returned soldiers, under the auspices of the G. A. C., will be held in the Massey Hall on Sunday afternoon next, at two o'clock. Arthur Roebuck will preside, and the speakers will be Rev. J. F. Tupper, the "Fighting Parson"; J. F. Mansel, Dominion organizer; G. A. C. and J. H. Flynn, president of the U. V. L. The G.A.C. band will be in attendance.

MINISTER GIVES DEWART THE LIE

Hon. Manning Doherty Made No Money Except From Farm.

Hon. Manning Doherty, minister of agriculture, yesterday handed to the press the following reply to H.H. Dewart's Thamesville charge, that he had dredging contracts from 1912 to 1918 as a member of the Maritime Dredging & Construction Co., and that the gross amount of contracts shown by the auditor-general's reports to the company was over \$4,570,000. "My friend, Mr. Dewart, like the bear, ventured forth on Candelmas Day, and seeing that the bright sun of the Drury government cast him in a deep shadow, he realized that there was still a long, cold winter ahead of him, so he returned to his den, gnashing his teeth."

The newspaper reports of Mr. Dewart's speech would indicate that he made the statement that a contracting firm which I was connected with carried on operations during the war, to the extent of millions of dollars, and that I therefore was in a class with the war profiteers. This is an absolute falsehood, and was uttered by Mr. Dewart for the malicious purpose of deceiving the electors of East Kent. I have never had any connection whatsoever, direct or indirect, financial or otherwise, with any business except my farm since the outbreak of the war.

Proud of Record. "I am very proud of the record which I made during the three years that I was manager for the Maritime Dredging & Construction Co., Limited. The minister of public works for Canada, speaking in St. John in 1914, stated that the experience which his department had had with the company, of which I was manager, was almost unique in the history of Canadian public affairs. We had completed a contract amounting to nearly a million dollars, six months ahead of time, and had never asked for a single change in the specifications, nor had we asked for a single dollar of extras. Even a man of the limited intelligence of Mr. Dewart could have ascertained these facts had he been honestly disposed.

"No public man could possibly hope for a more satisfactory testimony as to his code of morals than to have the same called into question by a politician of the Dewart type. Hundreds of the leading agriculturists of Canada who have known me for years have expressed in editorials and letters their confidence in me to administer the affairs of the department of agriculture in the best interests of our agricultural industry. These far outweigh the slanderous untruths of a sorely disappointed party leader. The fact that the Liberal electors of East Kent did not believe Mr. Dewart and refused to nominate a man to oppose him, the delegates had been handed picked for the purpose, should constitute sufficient reply for the time being. In the proper place and at the proper time I shall show the electors of East Kent just how far from the truth even the leader of a great political party may wander in order to deceive the public and to gain selfish ends."

VETERANS Items of Interest to Returned Soldiers Will Be Sent in This Column if Photo or Sent in. NOT TO PARTICIPATE IN SOLDIERS' FUND Border Cities G.W.V.A. Take Action Because Outsiders in United States Were Applying.

Windsor, Ont., Feb. 3.—The following resolution was passed at a meeting of the executive of the Border Cities Branch of the G.W.V.A. Monday evening: "In view of the fact that the Canadian Patriotic Fund have promised to take care of needy and deserving cases among returned soldiers of Windsor and Essex county, and in view of the alarming increase of personal applications from various parts of the United States and other parts outside this district, to participate in the federal emergency appropriation fund, be it therefore resolved, that the Border Cities Branch of the G.W.V.A. Monday evening: "That the Great War Veterans' Association request the director-general to withdraw its operation in the city of Windsor and the county of Essex."

This action was taken in response to the request of Gen. Ross, distributor of the fund, who visited the border cities on Saturday. He asked that the G.W.V.A. make known their views on the proposed cessation of payments in the border cities, stating that he would abide by their decision.

MIKE SULLIVAN LEAVES. Mike Sullivan, who leaves in a few days to visit his wife and three children in New York, left a good position in the Kitz-Carlin Hotel at the outbreak of war to join his way across the Atlantic and join the Gordon Highlanders' Regiment. He later transferred to the Royal Irish Rifles, with which regiment he served during the South African war. His record in France with the Royal Irish Rifles was enviable one, but it was brought to a close when he was seriously wounded at the battle of Hooge.

After being invalided to Canada he enlisted with the 25th Battalion C.E.F., and served with that unit in England. During this period he was also prominent in two Victory loan campaigns.

ONE EVERY MINUTE - By Billy Scott

THE WRONG SCENT I DON'T guess that no dame ever had a better lady friend than my friend, Gertrude, who lives across the line. The only thing that's wrong, she lays on refinement with a putty knife. She's been visiting me, and, being as how they had some grand bargains in "undies" here, she parted with a bunch of shiny metal on a layout in "finger-stone" only to get her feet when it came to smuggling 'em across. I helped her swamp them in nice, smelly Deer Kiss, and the morning she was gonna go way she hauled me outa bed—telephoned me in a dark secret. (How did I know she was talkin' about camellies?) "What stuff? I'm not bright when I first crawl outa the hay," I says. "Oh, you know—the pale-pink trimmed with insertion. I've decided not to take it. I'll leave it with the guy at the desk. So long, dearie!" she sung over the string. Later I buzzed up to the clerk and grabbed the bundle. "Your friend says there's a note n' side," says he. "Before I made the door a big paw lit on my shoulder. "All right, officer; I'll come quiet," I says. "Caught with the goods, eh, Birdie?" says a moudly swab of a house dick. "Not on yer life!" I says. "I ain't caught with nothin' 'cept what's my own." And, say, you shoulda saw the look on his mahogany face when he seen what was in that bundle. He thought he'd rounded a booze artist; but far be it from me to blame him. I blame Gertrude for actin' like she was hidin' somethin', and it was up to the teck to see what it was; but, Lord! he did whirl my noodle for the minute. I'm with them what calls a spade a spade. The wrong scent is right!

POLICE TOO BUSY FOR NIGHT COURTS

Magistrate Denison Considers Suggestion Impracticable and Unnecessary.

In a letter to Attorney-General Roney, Magistrate Denison states that the holding of night courts would be impracticable and would not be required.

"From 5 p.m. until 10 p.m.," says Magistrate Denison, "the police are busier than at any other time, and are required on the streets. They could only attend court during those hours at the expense of neglecting necessary duties."

Continuing, Magistrate Denison says that men could not be fairly tried any way until they are sufficiently sober, and the provisions that have been made for bail get over the difficulty of keeping them in custody during the night. They have many friends who will care for them and see that they attend the early court.

"I think," he concludes, "the arrangements made meet all the difficulties that have been suggested, except the charges against the interpreters, which I think are exaggerated, although it is difficult to obtain good interpreters and the very numerous languages that come up every day in the police court."

"Once more, I would suggest that a scale of police officers should be fixed, and a taxing officer appointed to whom litigants complaining of extortion could appeal for the arrangements."

Under the arrangements arrived at by the police magistrates of the city for the carrying out of the work of the court, states Magistrate Denison, Mr. Cohen will try the charges of drunkenness and disorderly conduct at 9:30 a.m. every day except Saturday, when all prisoners are dealt with in the 10 o'clock court.

Col. Denison, himself, will take all the cases under the criminal code and indictable offenses and T.A. cases, in the 10 o'clock police court.

In Women's Court, Magistrate Kingsford will take all the charges against women, all charges of non-support, breaches of the law, indecent assault, and Surplus cases will be dealt with by either Magistrate Denison or Magistrate Kingsford, according to whose court finishes first.

Magistrate Ellis will hold the afternoon court at two o'clock for trial of all breaches of the city bylaws and automobile cases and other minor charges.

With regard to bail, Magistrate Denison states that, under the arrangements made, the following order, designated "Order No. 2," has been issued to the police:

Bail Charges.
Referring to Order No. 4, April 5, 1918, the crown attorney has authorized that persons arrested for the following offences may be granted bail according to the amount set as under:—

Drunk—\$50 to \$100.
Disorderly—\$50 to \$100.
B.O.T.A. (have liquor)—\$200.
B.O.T.A. (sell liquor)—\$200.
B.O.T.A. (second offence)—\$1000.

PRINCESS IN TROUBLE

Actors in "Twin Beds" Company Arrive But Scenery Still Held Up by Railway.

Altho the "Twin Beds" company arrived in the city on Monday afternoon, for a week's engagement at the Princess Theatre, their baggage containing the scenery, which left Hartford, Conn., several hours before them, met with a series of accidents and did not arrive here in time for Monday night's performance. To make matters worse, despite the strenuous efforts of the management, the railway company was unable to deliver it in time for last night's performance. The company will therefore appear for the first time at the matinee on Tuesday afternoon, and all subsequent performances through the week.

CITY HALL NOTES

Parks Commissioner Chambers tendered a general survey of the work proposed by his department to be done this year to the Parks and Recreation committee yesterday afternoon.

According to this report, application is to be made to the board of education for an additional ten school grounds, for supervised playgrounds for children. With this addition, 28 juvenile recreation centres will be in operation this year.

Other park areas are required in many parts of the city, principally of the "neighborhood park" type, but consideration of these will have to be deferred until finances are forthcoming to deal with them.

Extensive improvements in lands are also urged, and more buildings, particularly lavatories and dressing rooms will have to be erected.

CLAIMS JUDGE ERRED IN ALIMONY ACTION

Acting for Mrs. Mabel Sylvester, W. R. Smyth, K.C., has lodged an appeal against the judgment of Mr. Justice Latchford, who on January 1 dismissed her action for alimony against her husband, James H. Sylvester, a G. T. R. conductor.

It was found by Mr. Justice Latchford that Mrs. Sylvester had compromised herself with two men named Heron and Morden. She appeals on the ground that in the Heron matter the trial judge "erred in the deductions drawn by him from the uncontradicted evidence given on the trial, and in the Morden affair that he erred in finding that adultery had been committed in the teeth of overwhelming evidence to the contrary."

It is asserted that the judge improperly received and rejected evidence material and relevant to the issues, especially evidence directed on the part of the plaintiff to show the standard and customs of living of the plaintiff and defendant, which was material and relevant on the ground that many children would continue to be born to the defendant.

STREET CAR COLLIDES WITH LUMBER WAGON

Motorman F. Gibson, 537 St. Clarae avenue, had his leg broken at 6:30 last evening, when a lumber wagon, while driving west on Bloor street, struck the rear of a lumber wagon. The wagon was west bound, and the lumber wagon, near St. Paul's square the driver had not driven his team from the tracks in time to avoid the street car striking the rear of the vehicle with great force. The front vestibule of the car was broken in and the driver was thrown from the motor. The driver of the wagon, J. Millward, 141 Campbell avenue, was thrown from his seat, but escaped being injured. The outfit is owned by the Russell Lumber Company. Gibson was attended by Dr. H. B. Deane, 480 Dundas street, and later removed in the police ambulance to the General Hospital.

RECEPTIONS

Mrs. Harry W. Phelan will receive for the first time in her new house, 44 Cavendish street, on Friday, the 6th inst., from 4 to 5 o'clock.

ENGAGEMENTS

Dr. and Mrs. J. M. Mair announce the engagement of their daughter, Winifred Elizabeth, to Frank William Craig, son of Dr. J. M. Mair, on January 21, 1919, bequeathed his estate, consisting of a deposit of \$1010 with The T. Eaton Co. to his wife, Mrs. Amelia Woods of Portadown, County Armagh, Ireland.

WILLS AND BEQUESTS.

By his will executed May 15, 1917, Richard Clark, a jeweler, who died on November 18, last, left an estate valued at \$10,417. His widow, Mary Esther Clark, is sole beneficiary.

The late Harry Verity, who was killed in action in September, 1918, left an estate valued at \$4600, consisting of land in England, English securities, and \$400 cash. An aunt in England receives half the realty and cash. Miss Constance H. Dawson, 265 Carlton street, receives half the realty and the pictures on the screen, and Mrs. E. W. Gunner, 954 Shaw street, receives the residue.

COLLAPSED WITH GAS ON

Florence Sullivan, aged 30, was found lying unconscious on the floor of her room, 217 Yonge street, last night. Gas was escaping from an open burner of a gas stove. Miss Sullivan, the police stated, had been ill, and it is believed, she attempted to light the stove and collapsed after she had turned the gas on. George Hudson, 138 Beattie street, found the unconscious woman and called Dr. Brown of 10 Carlton street. The police ambulance removed her to the General Hospital.

ARRESTED IN BUFFALO

Charged with "absconding for the purpose of evading justice," Annie Walker was arrested in Buffalo yesterday for the Toronto police. She was arrested for theft of a coat and was to appear in police court Jan. 3, on which date she is alleged to have left the city.

NO EXAMINATION INTO HIGH SCHOOL

Is Reform Suggested by Home and School Club Membership.

The popular opinion expressed, last night at the monthly meeting of the Home and School Club, held in the board of education administration building, was that the examination set for entrance into the high school from the public school, should either be abolished or reformed drastically.

According to Prof. McCready, the transition from public to high school should be just as easy and natural as that from the first to second books. In this he was upheld by several of the teachers.

The foreign languages, particularly French, should be taught in the public schools, was another theory advanced. Prof. J. Squair, retired from Toronto University, and now actively engaged on the bilingual question, was the principal speaker of the evening, and advocated strongly the teaching of French at an early age.

"There are many qualities of the French and their language, which we would do well to learn," he said, "and there is often more instruction to be derived from one rule quickly, to anyone, after they have reached the adolescent period." He also stated that there were too many trivials emphasized in our modern education and that not enough was left to the good judgment of the teachers.

The suggestion was also broached of re-instituting the fifth book, in connection with the public schools. These classes were dropped some years ago, which the club considered a loss to education. R. G. Elliott was of the opinion that many children would continue into the fifth book, who would not go to high school. "The only objection to these continued classes seems to be, that a child taking them, and afterwards wishing to go to high school, has to start in at the first form," explained one speaker. "The only solution is to have an arrangement, whereby the fifth book would count as a year at high school."

BURGLARS LOOT DRUG STORE

Burglars broke into R. W. McIntyre's drug store at 383 West Queen street yesterday and stole a quantity of articles. They entered the store by a window, and among the articles stolen were a number of kodaks, bottles of perfume and other toilet articles. The police have been notified of the burglary.

STREET CAR COLLIDES WITH LUMBER WAGON

Motorman F. Gibson, 537 St. Clarae avenue, had his leg broken at 6:30 last evening, when a lumber wagon, while driving west on Bloor street, struck the rear of a lumber wagon. The wagon was west bound, and the lumber wagon, near St. Paul's square the driver had not driven his team from the tracks in time to avoid the street car striking the rear of the vehicle with great force. The front vestibule of the car was broken in and the driver was thrown from the motor. The driver of the wagon, J. Millward, 141 Campbell avenue, was thrown from his seat, but escaped being injured. The outfit is owned by the Russell Lumber Company. Gibson was attended by Dr. H. B. Deane, 480 Dundas street, and later removed in the police ambulance to the General Hospital.

RECEPTIONS

Mrs. Harry W. Phelan will receive for the first time in her new house, 44 Cavendish street, on Friday, the 6th inst., from 4 to 5 o'clock.

ENGAGEMENTS

Dr. and Mrs. J. M. Mair announce the engagement of their daughter, Winifred Elizabeth, to Frank William Craig, son of Dr. J. M. Mair, on January 21, 1919, bequeathed his estate, consisting of a deposit of \$1010 with The T. Eaton Co. to his wife, Mrs. Amelia Woods of Portadown, County Armagh, Ireland.

WILLS AND BEQUESTS.

By his will executed May 15, 1917, Richard Clark, a jeweler, who died on November 18, last, left an estate valued at \$10,417. His widow, Mary Esther Clark, is sole beneficiary.

The late Harry Verity, who was killed in action in September, 1918, left an estate valued at \$4600, consisting of land in England, English securities, and \$400 cash. An aunt in England receives half the realty and cash. Miss Constance H. Dawson, 265 Carlton street, receives half the realty and the pictures on the screen, and Mrs. E. W. Gunner, 954 Shaw street, receives the residue.

COLLAPSED WITH GAS ON

Florence Sullivan, aged 30, was found lying unconscious on the floor of her room, 217 Yonge street, last night. Gas was escaping from an open burner of a gas stove. Miss Sullivan, the police stated, had been ill, and it is believed, she attempted to light the stove and collapsed after she had turned the gas on. George Hudson, 138 Beattie street, found the unconscious woman and called Dr. Brown of 10 Carlton street. The police ambulance removed her to the General Hospital.

ARRESTED IN BUFFALO

Charged with "absconding for the purpose of evading justice," Annie Walker was arrested in Buffalo yesterday for the Toronto police. She was arrested for theft of a coat and was to appear in police court Jan. 3, on which date she is alleged to have left the city.

STEADY SOURCE OF SUPPLY!

Baltimore, Feb. 3.—Sixty-four barrels of whiskey, 3,000 gallons, were taken by the police from the premises of a warehouse on the eastern limits of the city Sunday morning, loaded in trucks and spirited away. This is the seventh time this warehouse has been entered.

EDDY'S WASHTUBS

of Indurated Fibreware

Are far better than old-style wooden or galvanized tubs. Yet they cost no more. They cannot leak, because they are made all in one piece, without seams or cracks or staves.

So light and easy to carry, yet so strong, they never become dented or battered. They do not absorb heat, therefore, the contents remain hot longer.

Eddy's Twin Beaver Washboards are also of Indurated Fibreware—no metal—double-sided. Save time by the special crisp which loosens dirt easily without wear on the clothes.

BURGLARS LOOT DRUG STORE
Burglars broke into R. W. McIntyre's drug store at 383 West Queen street yesterday and stole a quantity of articles. They entered the store by a window, and among the articles stolen were a number of kodaks, bottles of perfume and other toilet articles. The police have been notified of the burglary.

INFLUENZA INSTRUCTIONS

The important thing is to go to bed immediately the first symptoms appear, and to stay there until a doctor pronounces it safe to get up. Do not be foolish and get up as soon as you feel better. Stay in bed at least 48 hours longer—till your system has recovered from the poisoning effects of the disease—and then be careful. By so doing you will probably avoid a relapse, which frequently proves fatal.

As influenza produces a profound poisoning and checks elimination, a purgative should be taken at once to help carry away the poison, and plenty of water should be drunk for the same purpose. As long as the temperature is up only liquid or semi-liquid foods should be taken. Plenty of circulating fresh air has been proved to be of the greatest value in treatment, but it is necessary to keep warm.

Of course a doctor should be called in promptly in every case.

However, the thing that may make the real difference between a trifling malady and a dangerous disease is laying up at once and staying in bed until the danger of complications is well passed.

ENGINEERS CALL OFF STRIKE IN NEW YORK. New York, Feb. 3.—The Interborough Rapid Transit Company, which is seeking an increase of fare on the ground that bankruptcy will result if it is not granted, has paid out more than \$1,000,000 in bankers' expenses including discounts and commissions since it was organized, according to an admission made today by E. F. Gaylor, auditor of the company, before the board of directors, which is investigating the financial status of the railroad.

REPORT MEN OUT OF WORK. Can Find It in Guelph. Guelph, Ont., Feb. 3.—(Special.)—The local government employment bureau reports that there is plenty of work in the city for men out of employment. Last week 41 men were placed on various jobs, mostly mechanical and in boating. There is a great demand in Guelph for female help, but the girls cannot be found to take the jobs.

RUSSO-ESTHONIAN PEACE PACT TERMS. Independence is Recognized and Neutrality Guaranteed by Soviet. Reval, Feb. 3.—The Russo-Esthonian peace treaty provides for full recognition of Esthonia's independence. The Soviet government renounces all sovereignty over Esthonia, and in the event that Esthonia's neutrality is recognized internationally the Soviet government is bound to participate in the maintenance of that neutrality.

CATTLE MARKET IN RUT; PRICES FIRM

Light Runs of All Kinds of Small Meats. One of the lightest runs of the season, only 388 fresh cattle featured yesterday's market, but in view of the generally inferior quality of the offering and the weakness of the trade it was a mighty good thing for the drovers that receipts were as slight as they were. Just what is the matter with the cattle trade this week is hard to say but it lacks snap and so, and this was probably more in evidence yesterday than on Monday. In a word the market was slow, mighty slow, and just about steady.

GRAIN LOWER IN CHICAGO MARKET

Collapse of Foreign Exchange Exerts Effect—Provisions Depressed From Outset. Chicago, Feb. 3.—Collapse of foreign exchange, altho at first treated with apparent indifference today in the corn pit, became afterward an evident source of depression. Corn closed unsettled at 1-2 to 1 1-2 cents lower, with May 1-4 to 1 1-4, 3-4 and July 1 1-4 to 1 1-4, 1-2. Oats lost 1 to 1 1-2 and provisions 1 to 1 1-2 cents.

CRASH IN FOREIGN EXCHANGE REFLECTED ON WALL STREET

Substantial Shares Off Two to Five Points, and Speculative Issues Show Larger Losses—Market Weakest and Most Active in Final Hour. New York, Feb. 3.—The more alarming crash in foreign exchange today overshadowed all other considerations and developments in the stock market. Substantial shares were impaired by two to five points, and many of the more speculative issues suffered greater depreciation.

WORK ON WASPIKA NEARS VITAL STAGE

Cross-Cutting Ore Body at Two-Hundred-Foot Level Eagerly Awaited. George R. Rogers, E.M., general manager of the Wasipika Consolidated Gold Mining Co., has just returned from the Wasipika property near Downs, 165 feet and that the 200-foot level will be reached some time next month. He will be recalled that the Ribble vein strikes nearly north and south and dips to the west. The shaft has been located about 60 feet west of the outcrop of the vein. It is, therefore, believed that the Ribble vein at the 200-foot level, if not broken, at this level the width of the great vein can be determined with less cross cutting than on the 100-foot level. Tho not expected to be broken at its best even on the 200-foot level, still it is certain that if the Ribble vein is broken at this level, the gold should also be more abundant. If these expectations are fully realized and there is no reason to suppose that the general advance will be in a position to raise ample capital for further development. Much is to be assumed in favor of a vein which has a well defined outcrop, which has a great increase in gold below 800 feet. In fact, this is a normal condition in all deep-seated deposits, such as those of the Wasipika and Shinarump. They are high temperature deposits formed at great depths and in this respect entirely unlike our silver area, which may be followed on the surface for three miles. But fine as the surface expression of the vein be, the results at the 200-foot level are even better. In fact, we may reasonably look for a progressive improvement from the surface to a depth of over 800 feet.

MINING STOCKS FAIRLY STEADY

Disturbances in Other Markets Reflected to a Moderate Degree Only. Disturbed conditions in other markets were reflected to only a moderate degree on the mining stocks yesterday, while the majority of net changes were a rule only fractional and were to some extent balanced by gains by other stocks. Advances are noted in drills, denims, Transactions, amounting to 120,000 shares, showing some improvement, and some declines in other markets continue. It is not unlikely that such improvement in values will have the effect of diverting considerable purchasing power to the mining market. There are reasons, however, why the gold and silver mining industry can be deemed to be on a stable footing and which need not be repeated, why the gold and silver mining industry can be deemed to be on a stable footing and which need not be repeated, why the gold and silver mining industry can be deemed to be on a stable footing and which need not be repeated.

TRADE TOPICS

The week in business has been featureless, the extreme cold weather affecting country trading and city retail shopping. In wholesale drygoods there is an active demand in all lines, but delivery is the problem. Larger importation of English woollens, tweeds and French dress goods and silks are locally reported. Buyers are not questioning prices, if assured of delivery. Advances are noted in drills, denims, Transactions, amounting to 120,000 shares, showing some improvement, and some declines in other markets continue.

ST. LAWRENCE MARKET

Grain—Farmers' market board of trade quotations. Hay and Straw—Hay, No. 1, per ton, \$22.00 to \$23.00; No. 2, per ton, \$20.00 to \$21.00; Straw, rye, per ton, \$18.00 to \$19.00; Straw, clover, per ton, \$18.00 to \$19.00.

ON CHICAGO MARKET

Hughes, Harcourt and Co., 307 Royal Bank Building, received the following wire at the close of the Chicago market yesterday: Corn is in a relatively quiet market, which is being sufficient to hold the price, whereas on a bull offering has been sufficient to prevent an advance. Receipts were moderate again and the price of a material increase is not bright as the warmer weather is breaking up country roads, which makes the hauling of much corn impracticable. In respect of molasses and oil, it is unlikely until conditions change.

MONTREAL PRODUCE MARKET

Montreal, Feb. 3.—Conditions in regard to Montreal produce were unimportant today and demand for supplies from all sources was small with little business transacted. The iron and steel market is very strong; zinc and cut nails are advanced, and supplies of pig iron are low. In wholesale hardware and shoes, manufacturers are buying leather more freely, and are well supplied with orders. The trade market is firm, and sole leather is further advanced. City orders are slow. The iron and steel market is very strong; zinc and cut nails are advanced, and supplies of pig iron are low.

TWO QUEBEC MEN DIED IN HANDCART CRASH

Quebec, Feb. 3.—Two men were killed and two others wounded today when their handcart was struck by a locomotive of the Canadian Pacific Railway at Goulin, about twelve miles west of Hervey, Que. on the Transcontinental line. The locomotive had left Quebec for Goulin, and the handcart was struck by the engine. The injured men are Patrick Que, and an Irish man named Hervey, struck the handcart. The dead are Hallicon Clement and Albert Macscoite, both married. They were only slightly hurt.

D'ANNUNZIO'S AIDES HELD FOR KIDNAPPING

Turin, Feb. 3.—Four lieutenants, five sub-lieutenants and two sergeants of Captain Gabriele D'Annunzio's Fiuman army, who made up the party which kidnaped General Nigra, commander of the Italian 49th division, stationed at Istria, late Wednesday night, have been arrested, and are imprisoned here, after having again crossed the Italian line. One "desperate deed" are charged against them.

Hydro-Electric System For Gloucester Township

Ottawa, Feb. 3.—As the result of representations made by a strong committee from the north end of Gloucester township, the council, yesterday approved the installation of the Hydro-Electric system for both light and power in that part of the township known as the "North End." This will involve an expenditure of approximately \$100,000, which if approved by the Hydro-Electric commission, will be raised on township debentures. It is stated that approval is received, the construction of the lines will be announced, and by next summer the use of electricity for light and power will be general in the majority of the farms in the township.

Requesting Ontario to Make Police Commission Elective

Peterboro, Ont., Feb. 3.—Interviewed this afternoon, Thomas Tooma, M.L.A., said it was his intention to introduce a bill at the next session of the Ontario legislature, making the police commission an elective body instead of an appointed body. Letting the 1920 council of the city of Peterboro, Ont., to elect a police commission, Tooma said he would like to see a remedy for the power situation which was most vitally affecting the operation of the municipal railway. Mr. Tooma intimated that an effort would be made to secure a prior right on a certain quota of power for the street railway, which would mean an increase in the general allowance received by Brantford.

Men Are Alive Today

To the Opportunity of Securing a Blue Suit Reasonably

They know that a man with a conservative taste, and yet desiring to appear well dressed, rarely makes a mistake in buying navy blue worsted. It is a cloth that hangs well, gives a certain distinction and has real wearing qualities.

Moreover, most men who do not care to subscribe to "freak" styles, but who do want a reliable well-cut, authentic suit, are quite particular about the quality. The Simpson navy blue worsted we describe here is the very suit they have in mind. Design, quality and price—satisfaction in all features. They are tailored in our own factory.

Fine-finished navy blue worsted, in single-breasted, 3-button, soft roll, semi-fitted sacque model, with regular pockets and centre vent. Medium height vests—trousers finished with 5 pockets, belt loops, cuff or plain bottoms. Sizes 36 to 42 42.00

Simpson's—Main Floor.

Petite Shoes for Petite Feet

Finest of Styles, Greatest of Comfort for Little Girls

New Shoes for the Younger Generations are here in great array. Wee shoes for the "baby sister," sturdy boots for the girl who is romping her way through school, and smart models for the young miss who has an eye for style.

Mothers are assured of satisfaction when choosing children's footwear here—not alone because our complete stock covers every possible need, but because we have specialized on the fitting of children's shoes. To describe a few of many styles:

For the Little Girl

Sizes 4 1/2 to 7 1/2

"Daintitot" shoe in soft black kid, with high laced top and broad-toe. Flexible McKay sewn non-slip sole and spring heel. Price 3.25

The Spice of Variety in Suits

Is Very Apparent in Our Merry Spring-Time Display Which is

already assembled in the Women's Department—but one and all follow the lead of the smart, short-coated, trimly-fitted tailleur.

This may be devoid of trimming with the narrowest of belts and just a bit of the distended hip to proclaim the new mode, a mannish collar and close-fitting sleeves. Or it may boast a rich embroidery on skirt and coat, innumerable rows of military braid or chic designs in soutache braiding.

All are fashioned from Botany serges, English gabardines and tricelines—mostly in navy and black, with a few in brown and taupe. Priced from \$60.00 to \$100.00.

Women's Winter Coats, \$37.50

Several smart styles and well-assorted shades from stock that was priced to \$60.00. Made from splendid quality silvertone. Sizes 34 to 44. Marked for quick clearance today 37.50

New Taffeta Frocks for the Miss

Presage the Mode of the Dawning Season and Win Their Way By Means of the Many Allurements Youth and Happiness Demand

A quaintly-Quakerish frock in navy taffeta has a broad shawl collar shirred to a fullness in the back and crossed to form a demure surplice front. Further simplicity and charm is gained from short sleeves and a narrow girde inset with French blue velvet ribbon. Price 55.00

Or another smart navy taffeta, broad loose panniers heavily corded where they are fastened to the skirt to give the distended hip, are also richly embroidered in black and gold. The basque bodice is corded about neckline and short sleeves. Price 95.00

Simplicity Characterizing All

is seen at its best in another navy taffeta model. The long, straight waist falls below the waistline, an appliqued skirt is rippled on and cleverly-puffed out at the hips, and the whole is trimmed with tiny pipings of gold brocade. Price 85.00

Little "Jacob's Ladder" pleatings effectively border the irregular tunic, surplice bodice and very short sleeves of a navy taffeta, whose only other adornment is a wee bouquet of field flowers at the waistline. Price 95.00

The Essence of Springtime

is a frock that combines French blue taffeta with one of the new crepes de chine in the same blue all-over printed in rose-colored flowerets. The taffeta slants out in panels on back and front bodice, is broadly-banded about the weighted side panniers, cuffs the short sleeves and ends its career in a wonderful sash with a huge bow. Price 85.00

Simpson's Salons for Imported Gowns

Remarkable Lingerie Sale

For Six Days. Blouses and Whitewear at Surprising Prices

This unprecedented sale of fine garments is offering values which, we believe, if equalled are unsurpassed on the continent. Unsurpassed, not in quality, smart style and expert workmanship, but because, despite the skyward advance of fabric, prices, labor, etc., we are able to give Toronto women fresh "Made in Canada" garments at away below the pro-rata of production today.

A series of enormous special purchases from the best Canadian manufacturers of waists and whitewear, concentrated into one great six days' selling. Included are women's nightgowns and silk camisoles and other under garments.

Exquisite Lingerie Blouses, \$2.95

Styles that spell daintiness and charm are these—in a variety that beggars description.

Sheer English and French voiles or fine batishes, lovely with delicate laces or embroideries, tiny tuckings, pretty buttons, becoming collars and other such tricks of Fashion that betray the "better" blouse.

Sizes 34 to 46. Ordinarily at \$4.50 to \$6.95. No Phone Orders. Today, at 2.95
