MAKE 11 HOMERS IN TWO GAMES

Heavy Batting by Big Leaguers.

Nova Scotia Baseball Association—Annual Meeting on April 6—McTigue Announced Over Claim of K. O. Loughran—Late News of Sport.

New York, March 23.—The Yankees, having under the eye of Charles Leahy, acting manager, lost yesterday's game against the St. Paul American Association team. Baker slammed out two homers, while Ruth, Murray and McMillan each contributed a circuit smash.

Detroit, Mich., March 23.—The Detroit Americans and Rochester International staged a home-run exhibition for fans at Columbia, S. C., yesterday.

Pittsburg, March 23.—In the first nine-inning game of the training season, the Pittsburg National League regulars, called over the Yankees yesterday at Hot Springs, Ark., in the fifth of the family series, 7 to 4.

Chicago, March 23.—Today was moving day for the Chicago clubs of the American and National leagues. The White Sox were to pack up after the practice game at Seguin, Texas, this afternoon, and go to Austin.

Cleveland, March 23.—The regulars had been unable to solve Gus Rego's pitching. Manager Speaker sent his recruits into yesterday's game with Kansas City, which Cleveland won 10 to 5.

Cincinnati, March 23.—Having closed their training season at Mineral Wells, yesterday, when they suffered defeat at the hands of the Fort Worth, Texas, League, 6 to 2, the Cincinnati Reds drove over to Weatherford today to put on a test-catch game for the fans of that little city.

N. S. Meeting. Halifax, N. S., March 23.—The annual meeting of the Nova Scotia Baseball Association, which has opened since 1920, will be held in Halifax on April 6.

Toronto, March 23.—Commenting on last night's Allan Cup result between Granite (O. H. A. champions) and the Regina Victorias (champions of all the west), the Globe says: "The score, 7 to 0, was the worst showing ever made in the blue ribbon event by the western representatives and it gives an indication of the extent the teams were weakened when the majority of the star amateurs in Winnipeg, Regina, Selkirk and other places turned professional."

Joe Jacobs, McTigue's manager, has offered all sorts of inducements for a return match but has had no luck. He has even offered to post a forfeit of \$5,000 that McTigue will knock Loughran out, but the latter declined with thanks. McTigue is working out daily in the hope of landing a match with Wilson.

IN PORT AFTER A HARD FIGHT U. S. Freight Steamer West Caruth was in Distress Off Cherbouurg.

Cherbouurg, March 23.—The United States Shipping Board freight steamer West Caruth, aided by a pilot boat from Cherbouurg, reached here early this afternoon after having been in distress since last night off the northwest coast of France.

The vessel had to sacrifice a large part of her cargo of bamboo, which she was bringing from Dakar, French West Africa.

BIG DEFICIT IN MANITOBA FOR 1922 PREDICTED

Winnipeg, March 23.—(Canadian Press) Candidates of the United Farmers of Manitoba will contest every rural constituency in Manitoba in the coming election, so it was said yesterday by W. H. Woods, secretary of the organization.

Hon. Edward Brown, provincial treasurer, said that there would be a provincial deficit of more than \$1,100,000 for 1922.

The provincial income tax bill, which would have reduced the deficit to some extent, will be dropped.

U. S. Government Will Stand For No Violence In Strike

Last Hour Conference in New York Today to Avert Strike, But Union Leader Does Not See Much Hope of Avoiding Suspension of Work on April 1.

(Canadian Press.) Washington, March 23.—Warning that the federal government would tolerate no use of violence to prevent coal production during the threatened coal strike, was issued today by Attorney-General Daugherty.

STILL STRIVING FOR SETTLEMENT. New York, March 23.—In an 11th hour attempt to avert preparations for a nation-wide strike in the coal industry, the arbitration committee of anthracite miners and operators will meet behind locked doors, today, at the Union League Club.

The committee will be composed of eight men, four miners and four operators. With them will sit two non-voting neutrals, a chairman and a secretary.

John L. Lewis, president of the international organization of United Mine Workers will head the delegation.

Upon today's conference will depend whether the 200,000 anthracite workers shall proceed with their 400,000 brethren in the bituminous fields, and prepare to drop their tools April 1, while their nineteen wage demands are given consideration.

The miners' representatives will enter today's conference with little expectation of reaching an agreement which will avert the strike.

"Of course, we have hope," said Mr. Lewis, but there is no reasonable doubt that the general strike will be called April 1, as scheduled.

Plans will be devised for the assessment of strike dues in local districts, to augment the \$2,000,000 "war chest" which union leaders estimate is already available.

Mr. Lewis announced today that the "united mine workers are still ready and willing to meet the mine owners in any move to decide upon a new wage scale."

He said his organization was in perfect accord with attempts to the administration at Washington to "urge the operators to change their policy of absolute refusal to deal with the unions."

Coal distributors of New York today were distributing circulars urging their customers to buy anthracite now, to prepare for a threatened shortage which a protracted strike would cause.

MONTREAL VIEW OF CONDITIONS. Montreal, March 23.—Commenting on the situation brought about by the strike order of President Lewis of the U. M. W. of A. and on the situation obtaining in the coal mines of the maritime provinces, the Montreal Gazette says in a news column today:

"The declaration of J. L. Lewis, international president of the miners, that the Nova Scotia district has been excluded from the general strike order to become effective on March 31, may have another meaning than that attributed to Mr. Lewis, who said that the eastern Canadian miners were not included in the order because they were disorganised."

It is known that previous to the present developments the N. S. miners were informed that they could not expect more than \$10,000 from the general union funds.

Inquiries were made yesterday as to the effect of a general strike and in reply it was said that Montreal could get along for some time on present supplies.

At this season there is a falling off in the demand both for anthracite and bituminous coal, banked by the Nova Scotia companies and importing organizations to carry manufacturing concerns through the summer months.

After that the problem would be increased should the strike, if undertaken, be prolonged. During the open season the local situation might be relieved by importations of United Kingdom coal.

A special meeting of the bills committee of the municipal council was called for this afternoon at 2:30 o'clock in the mayor's office to go into the matter of the proposed bill considered at Fredericton yesterday regarding the taxation of persons residing in the county and working in the city.

The mayor said that the county council had proposed amending the original clause in the bill to include in the county assessment only government employees in the customs house and post office and men employed by the C. N. R. and C. P. R.

As consideration of the bill by the legislature committee was deferred until next Wednesday, he said, some action would have to be taken by the municipal authorities before that date.

PREMIER HOME TODAY WITH THE BODY OF BROTHER. Toronto, March 23.—The casket containing the body of Dr. D. MacDougall King, accompanied by his brother, Premier W. L. King, will arrive in Toronto from Denver, Colo., this afternoon.

Advices received from the premier indicated that it was not the intention to hold any funeral services in the city. The ceremony at the grave will be conducted by Rev. John Inkster, a life-long friend of the family and by request of the Prime Minister, will be private.

As Hiram Sees It

"I see," said Mr. Hiram Hornbeam to the Times reporter, "they ain't a-go to allow no more political speeches in the Manitoba legislature for the rest of the session."

"It is so announced," said a reporter.

"What'll the poor fellows do?" queried Hiram. "They won't want to go back—will they? What's the use of a man gittin' into the house now an' agin and tell the world that and his party is the only salvation of the country?"

"Just think what it 'ud be like up to Fredericton if our members had to stop paradin' an' get down to business. How'd they earn their pay? Why, they'd git through in three or four weeks. I s'pose you newspaper fellers wouldn't care how I'm afeard them western folks that's avus up to some no tricks is goin' to undermine the foundations of our legislature."

"But they say the best Manitoba government is to be made up of farmers," said the reporter.

"That's up to them," said Hiram. "What they hev to say'll be with hearin'—yes, sir."

CONSERVATIVES TALKED MOST. What Hansard Shows on Address Debate—Church of Toronto, Used Most Words and Meighen Second.

(Special to The Times.) Ottawa, March 23.—The columns of Hansard, up to Tuesday night, provide an interesting analysis of the speaking in reply to the address to the throne.

The Conservatives, for instance, occupied 123 columns. The Independents, two of them labor men, took up seventy-seven columns.

Mr. Doherty says the circular issued by the bankers' association is a political document and its contents "marked by a clear desire to inflame public opinion against this government."

Mr. Doherty asks if, as the bankers argue, there is no real need of the government banking system in Ontario, then "why should the bankers association worry? If there is no need, why should this association issue its political propaganda and its individual members sit up nights to contrive ways of giving effect to their hostility to the government?"

WINDSOR. Windsor, Ont., March 23.—Twenty-five cases of liquor in three months. Not an unreasonable amount of liquor for man and his friends, says Windsor Magistrate.

Windsor, Ont., March 23.—Twenty-five cases of liquor in three months. Not an unreasonable amount of liquor for man and his friends to consume in less than three months, says Windsor Magistrate.

WILLIS TO RESIGN IN MANITOBA.—Taxation Declared Issue in Next Election.

Winnipeg, March 23.—R. G. Willis, leader of the Conservative party in Manitoba, will resign as head of the party at a convention to be called soon in Winnipeg. This was announced by Mr. Willis at a conference of the provincial members of the Conservative Association of Manitoba.

The issue of the coming provincial campaign will be taxation, said J. T. Haig, leader of the Conservative party in the house.

STEAMSHIP IS SOLD FOR \$15,000. Had Been Labeled for Violation of the U. S. Prohibition Regulations.

New York, March 23.—The steamship Javary, libeled by prohibition enforcement officers for violation of the Volstead act, was sold at auction yesterday for \$15,000 to the Garland Steamship Co. She was built at a cost of \$300,000 and had been remodelled and renovated a few years ago when she was turned into an oil burner. The bidding started at \$1,000.

WOULD PUT BAN ON DAYLIGHT SAVING IN THE DOMINION. Ottawa, March 23.—Daylight saving is apparently to be a bone of contention in the present session of parliament.

Fredericton, N. B., March 23.—Quebec has given notice of a resolution that, "in the opinion of this House, it is desirable that legislation be introduced during the present session to prohibit the adoption of daylight saving time in any part of Canada."

DODGE ACQUITTED. Kalamazoo, Mich., March 23.—John Duval Dodge, son of the late John P. Dodge, automobile manufacturer of Detroit, was acquitted by a jury in municipal court here yesterday on a charge of driving an auto while intoxicated.

British Submarine Is Lost With all Hands

The H-42 Collides With Destroyer in Manoeuvres in the Mediterranean and is Sunk.

London, March 23.—The British submarine H-42 has been lost with all hands in the Mediterranean, says an Exchange Telegraph message from Gibraltar today. She collided with a destroyer during manoeuvring.

The British submarines of the H-class were all built under the war emergency programme, most of them in the years 1918-19. They are of the single hull "Holland" type, modified by the admiralty, 164 1-2 to 171 feet long and 15 3-4 feet beam. They displace from 440 to 500 tons and are equipped with two sets of Diesel engines, giving a speed of thirteen knots on the surface and carrying four torpedo tubes. Their ordinary complement is twenty-two men.

SAYS U. S. CAN DO MORE OUTSIDE NATIONS LEAGUE. Colonel Repington Looks for Advent of Great Statesman to Consolidate Washington, League and Hague.

Chicago, March 23.—The United States "is of more service outside of the League of Nations than she will be in, for as a non-member she can refer to the European football game," said Col. Charles Repington, British writer and military expert, in speech yesterday, at the League of Nations and the international court of justice at The Hague into an organization.

DOHERTY N BRUSH WITH THE BANKERS. Ontario Minister of Agriculture Defends Policy of Establishing Savings Banks.

Toronto, March 23.—Hon. Manning W. Doherty, minister of agriculture has issued a reply to a circular published recently from the Canadian Bankers Association, outlining the Ontario government policy of establishing savings banks.

Mr. Doherty says the circular issued by the bankers' association is a political document and its contents "marked by a clear desire to inflame public opinion against this government."

Mr. Doherty asks if, as the bankers argue, there is no real need of the government banking system in Ontario, then "why should the bankers association worry? If there is no need, why should this association issue its political propaganda and its individual members sit up nights to contrive ways of giving effect to their hostility to the government?"

CHANGE DIVORCE COURT RULES. In England Proposed to Increase Facilities for Women Who are Not Rich.

London, March 23.—Poor women of England are to be given increased facilities for using the divorce courts. Hereafter a wife could not be admitted as a "poor person" in a matrimonial case if the combined income of herself and her husband exceeded forty pounds a week, even if they were living apart. Moreover, the wife could not bring action unless she deposited five pounds with the court.

QUESTION OF THE STATUS OF C. N. R. Relation of the Railway to the Civil Courts to be Tested.

Montreal, March 23.—The question of the status of the Canadian National Railway before the civil courts will be submitted to the Supreme Court of Canada as a result of a judgment of the court of appeal, delivered here yesterday.

The case arises from an action in the superior court where the Canadian National Railways was made a co-defendant in a suit by Dame C. Ross in connection with the death of her son, killed by one of the railway company's engines in the Mount Royal tunnel here.

Highways Minister Proposes in Speech in Provincial Legislature.

Halifax, N. S., March 23.—The establishment of a provincial tax commission, to gather information about assessments and taxes, report to the provincial secretary after every fiscal year, except where regulate taxation and assessment in Nova Scotia, was foreshadowed in the provincial legislature yesterday afternoon, when Hon. H. H. Wickwire, minister of highways, introduced a bill to establish such a body.

The commission would be called the Nova Scotia tax commission and would be composed of not more than three members, to be named by the lieutenant-governor-in-council, who would fix the remuneration of the members. The commission would have the same powers as provided for by the Public Inquiries Act, of 1919, and would have authority to enter on and inspect any land in the province.

The commission would also study, investigate and report on assessment and tax laws of this and other provinces of Canada and of other countries. It would assess properties and review its own assessments and those of other assessors in the province, and also act as a board of equalization, to equalize fairly the valuations and assessments of property and incomes in the province liable to taxation.

PISTOL PRACTICE FOR BANK CLERKS. Boston, March 23.—Pistol Practice for bank clerks is provided in a new course arranged by the Boston University College of business administration. It is planned to give clerks from the larger banking institutions in Greater Boston and nearby cities a course in the use of the pistol as a defensive weapon.

WALK INTO SHOP, SAY NOT A WORD, AND KILL PROPRIETOR. New York, March 23.—Three silent young men walked into the Brooklyn grocery store of John Burns last night, and while two of them stood near the door, the others advanced to the proprietor and fired two shots into his abdomen. A third shot went wild. Burns died a few minutes later, after telling the police that no attempt had been made to rob him, that not a word had been spoken by the trio, and that he never had seen any of them before.

SAYS C. R. RATES RUINING TRADE

Commons Speaker for Moncton Headquarters.

Putnam of Colchester Urges That Men Familiar With Maritime Province Conditions be in Charge—Debate at Ottawa.

(Canadian Press.) Ottawa, March 23.—Today in the commons the debate on the address will be continued. Leon J. Ladner (Conservative, Vancouver South) will be the first speaker. The senate will sit at three p. m.

Yesterday, in the commons, the debate on the address was resumed by John Evans (Progressive, Saskatoon), who said that the tariff of today was the foundation on which the structure of special privileges was built. He declared that in 1916 the United Grain Growers' Company, forced to buy in the U. S. because Canadian manufacturers refused to sell to them for co-operative distribution, had to pay fifty-two per cent in duties on gang plows. He predicted that if the Laurier-Fielding tariff was continued for another four years the Progressives would be returned to parliament in greater numbers after the next election.

J. H. Harris (Conservative, North York) said that immigrants should be required to have a clear conception of British ideals and institutions before being admitted into Canada. It was not enough for them to have a clean bill of health. He said trade in Canada was fast and west if this country was to remain a nation within the empire.

J. E. D'Anjou (Liberal, Rimouski) commended the proposed reduction in militia estimates. He was glad to see more attention to agriculture than its predecessors had.

H. Putnam (Liberal, Colchester) made a strong plea for the removal of the I. C. R. from the Intercolonial Railway to Moncton. Men who were familiar with conditions in the maritime provinces should be appointed to handle this road, he said. The rates on the I. C. R. were ruining maritime trade and driving young men and women across the line into the U. S.

F. G. McBride (Progressive, Carleton Place) protested against admitting orientals into Canada. Orientals would not assimilate, and the white and yellow races should never associate. The influx of Japanese and Chinese tended to lower the moral and laboring standards of the Dominion. He urged the government to send that returned soldiers settled on the land received a square deal.

C. Robitaille (Liberal, Missisquoi) commended the proposed reduction in militia estimates. He was glad to see more attention to agriculture than its predecessors had.

L. J. Ladner (Conservative, Vancouver South) said that all the members from British Columbia, irrespective of party, were in favor of the tariff urged by the Conservative party. Mr. Ladner was speaking when the house rose.

In the Senate Hon. J. D. Reid was introduced. Senator Lesperance moved that the committee be appointed to continue the investigation of last session into the division of the western grain trade to American ports. Second reading was given to a bill to extend the right of appeal from convictions for indictable offences.

Senate Matters. Ottawa, March 23.—On the request of Sir George E. Foster, the order-in-council appointing P. C. Larkin, Canadian High Commissioner in London was laid on the table in the Senate yesterday. One clause stated that the policy embodied in the original and amended office of high commissioner had been departed from by placing under the supervision of the high commissioner the London offices of the department of immigration, trade and commerce, soldiers civil re-establishment, pensions commission and also departmental representatives.

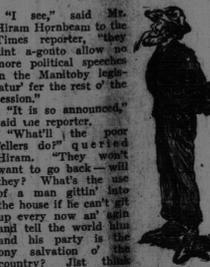

Senator Tanner gave notice of questions in regard to the labor troubles and the wage dispute in the Cape Breton coal fields.

Senator Loughheed was informed by Senator Dandurand that the census, when finally revised, could be used for redistribution purposes.

Senator Murphy called the attention of the government to the dismissal of the officers of patrol "D" boat for the protection of the lobster fisheries on Prince Edward Island. He was informed that the crew had been retired in February. There was no information available as to whether they would be re-engaged or not.

MORE CHARGES IN THE CASE OF BOTTOMLEY, M. P. London, March 23.—Horatio Bottomley, member of parliament and former publisher of John Bull, who is on trial charged with having misappropriated £5,000 belonging to the Victoria Theatre, had two additional charges prepared against him yesterday.

During the session of the court, the prosecuting attorney announced these further charges, one of which relates to the purchase of the former German submarine Deutschland, for which Bottomley is alleged to have taken £15,461 from an estate of which he was trustee. The other allegation is that he fraudulently converted to his own use £100,000 with which to purchase bonds for the Victoria Bond Club.

GRANDSON OF FIRST NAPOLEON EVICTED

Rag-picker Fails to Pay His Ground Rent and is Dispossessed.

Paris, March 22.—Louis Napoleon Masson, a ragpicker who claims to be the grandson of the first Napoleon and who for years has occupied a tumble-down shack just outside of Paris, has been dispossessed for failing to pay ground rent for an abandoned quarry which he claimed he owned under a squatter's rights.

With tears in his eyes, but with haughty dignity, Louis Napoleon Eugene Maximilian Masson, as he is registered in the official records, placed his hand on his chest in a traditional Napoleonic gesture and defied the bailiff to touch his personal documents, under which he hopes some day to obtain a pension from the French government.

Among the documents are letters signed by his grandmother, Rosalie de Mandes, daughter of an impoverished Spanish grandee, who, during Napoleon's flight from Waterloo through the north of France, managed a small tavern which provided a night's refuge to the vanquished Caisar.

BRITISH CAPITAL IN LARGER AMOUNTS

American and English Capital Competing in Canadian Real Estate Markets.

"British capital is now coming to Canada in larger volume for real estate development, than before the war," according to F. Robins, of Toronto, who has just returned from a four months' business trip through England. "Doubtless the stagnant condition of the real estate market and the heavy taxes in England are important factors in sending money here for investment," continued Mr. Robins.

Commenting on the real estate conditions in Canada, Mr. Robins said that all branches reported increased volume of sales. More large transactions in the way of leases and sales had been made in the past few weeks than during the last two years. American capital was coming here in large quantities, attracted by the good return of mortgages and the added benefit of a favorable exchange.

Another interesting fact in connection with real estate transactions was the change that has come over the small artisan class of buyers. Before the war these people would pay \$10 or so down

GANDHI ADMITS GUILT ON ALL ACCUSATIONS

Said He Would Cheerfully Submit to Highest Penalty—Six Year Sentence.

(Associated Press Cable)

Ahmedabad, British India, March 19.—Asked by the magistrate on Saturday, prior to being sentenced to six years' imprisonment, whether he pleaded guilty to all the charges made against him by the Advocate-General, Mohandas K. Gandhi, the non-co-operationist leader, replied in the affirmative.

The Advocate-General pointed out the articles of Gandhi's printed in Young India formed merely a part of the campaign to spread dissatisfaction openly to all the charges made against him by the Advocate-General, Mohandas K. Gandhi, the non-co-operationist leader, replied in the affirmative.

Thereupon Gandhi made a long statement, in which he admitted that teaching dissatisfaction against the existing system of government had become almost a passion with him. He declared he took all the blame for the disorders in Madras, Bombay and Chauri Chaura; but he added that if he were liberated he would keep up his work. Non-violence was the first and last article of his faith; he bore no ill-will against any single administrator nor any dissatisfaction towards the King's person.

Gandhi said he was in court to submit cheerfully to the highest penalty which could be inflicted and that there were only two courses open to the judge, either to resign if he felt the law was called upon to administer as evil and Gandhi was innocent, or to inflict the most severe penalty if he believed Gandhi's activity injurious to the public weal.

The judge in addressing Gandhi said it was impossible to ignore the fact that

in the eyes of millions of his countrymen Gandhi was a great patriotic leader and a man of high ideals, leading a noble, even a saintly life; but his duty was to judge him as a man who admitted he had broken the law and committed what to the ordinary person must appear to be a great offence against the state.

Gandhi thanked the court. The judge said he was unable to understand how Gandhi could continue to believe violence would not be the inevitable consequence of his political teachings. He quoted the case of the agitator Tilak of twelve years ago and announced that he would pass the same sentence on Gandhi, as was imposed on Tilak, namely, the simple sentence of two years' imprisonment on each of the three counts, making six years altogether.

Gandhi in replying thanked the court for his courtesy. He said he considered the sentence as light as any judge could possibly have inflicted.

The news of the sentence of the non-co-operationist leader spread like wildfire through Ahmedabad and crowds besieged the offices of Young India to read Gandhi's statement. There was no disorder.

put in the face of the public," he said. "The modern aim at music seems to be to invent new, strange noises. "We don't ask children to discover the multiplication table, we ask them to learn it. The meeting then endorsed that Mr. Sealey's claim for a full death benefit should be granted at once to his family. It was decided that a wreath should be sent which will carry his working card showing his membership in the union from March 6, 1902, to March 1922, being one of the oldest members in the union. Many of the members present at last night's meeting spoke feelingly of Mr. Sealey's death and the great loss the union had met with through his demise.

WHERE MILLIONS STARVE

Dr. Fridtjof Nansen, who has done such valuable work in relieving the suffering in the famine districts of Russia, has made another spirited appeal for further assistance.

Following closely on Dr. Nansen's latest appeal comes a report from Moscow that with the food supplies that are being rushed to the famine areas the worst phase of the situation will be passed by the middle of April.

When the terrible suffering of the Russian people was discussed with Tolstol during the famine period several years ago, he said: "The sufferers are like a great good natured boy who tries to smile in his tribulation because he is inspired by the faith that in the end all will come out well."

The Standard says there is not a particle of evidence to show that under civic distribution the electric current from Musquash would be any cheaper than the New Brunswick Power Company's price to the consumer for its current today.

Are the people to get the benefit of the Musquash development, or is it to go to a corporation which the people have been fighting, and which would welcome the chance to strengthen its grip upon the city?

PLEASING RESULTS.

Medical inspection of school children is only one of the progressive steps resulting from up-to-date health laws, but it is an important one. It has been made plain enough that many pupils are backward in their studies because of disease, sometimes not apparent, or malformation which is easily treated if taken in time.

"A case in point was recently reported by the official representative of the Public Health Service in the eighth sanitary district of Vermont, in which the Service is co-operating in a rural health work project.

"On re-examination of the pupils last December (1920) it appeared that all of the sixteen previously backward children had caught up with their proper grades and were keeping up in them with their classmates.

The city council has had since last November, or rather since the hydro-electric development at Musquash became assured, to find out what a civic distribution plant would cost. It has not done so. It has acted throughout as if it regarded the New Brunswick Power Company as the natural distributor.

There is a new elevator in City Hall, but the real boost will come on election day, and it will be hydro-driven.

MORNING NEWS OVER THE WIRES

Harry and Clyde Westhaver, sons of Mr. and Mrs. John T. Westhaver, of Sheet Harbor, N. S., were drowned yesterday afternoon. They were crossing a brook, when the ice broke up.

Kenneth Campbell, Liberal, was elected by a majority of 489 over C. F. McHardy, Conservative, in the provincial election in Nelson, B. C., yesterday.

Trapped in the upper story of their burning home, three children of Mr. and Mrs. A. Berault, of St. Francis Xavier, thirty miles west of Winnipeg, perished in the flames, on Tuesday afternoon.

The Standard says there is not a particle of evidence to show that under civic distribution the electric current from Musquash would be any cheaper than the New Brunswick Power Company's price to the consumer for its current today.

Are the people to get the benefit of the Musquash development, or is it to go to a corporation which the people have been fighting, and which would welcome the chance to strengthen its grip upon the city?

IN MEMORIAM

Viscount Bryce, O. M. Born 1838. Died January 23, 1922.

So long a day waning in light so clear Shines o'er a world perplexed and malcontent, Like a fair sunset whose first stars appear Before its fire is spent.

His gamered wisdom and his prophetic vision Showed him the ancient and the unborn years; So he died dreaming of a world made By sorrow and pure by tears.

And one dream which he followed through many lands, Shall now an earnest of fulfillment have, When the two nations whom he loved clasp hands In silence o'er his grave.

NEED BETTER CLASS OF IMMIGRANTS

Ottawa, March 22—Addressing the third annual meeting of the Canadian council of immigration of women, which convened in Ottawa today, Hon. Charles Stewart, minister of immigration, emphasized the need of closer co-operation between the provincial and federal governments in immigration matters.

Information has been received by a special branch of Scotland Yard that the Communists have been studying the militant tactics employed by their Italian "comrades" some months ago and that plans for action in England have been drawn up on a similar line.

COMMUNISTS' PLOT TO EXPLOIT CRISIS

London, March 22—The Communist plans for exploiting the industrial crisis in this country have now reached an advanced stage. Disclosures were made today of the Soviet plot to seize factories affected by the engineering dispute and to bring them under the control of the Communist party in London to brandish them as a threat to the government.

Information has been received by a special branch of Scotland Yard that the Communists have been studying the militant tactics employed by their Italian "comrades" some months ago and that plans for action in England have been drawn up on a similar line.

A side light on the mentality of the Communists is furnished by a paragraph of the memorandum containing advice on how to keep up the enthusiasm of the men, it runs:

"For example, the arrival of a messenger, with news of a factory where the men have ceased to work in sympathy may be received on hours two before the mass meeting. In such a case hold up the news until the mass meeting is in progress and let it be announced there by a perspiring messenger."

ST. FRANCIS XAVIER WINS THE DEBATE

Halifax, March 22—In the annual maritime inter-collegiate debate held here tonight, St. Francis Xavier, supporting the declaration "that labor is more responsible than capital for the undesirable economic conditions of the present and the past few years," defeated Dalhousie, the three judges, heads of maritime colleges, being unanimous. Six college presidents attended. The debaters were St. Francis Xavier—M. E. Murphy, D. S. McDonald and J. W. McGowan.

TAX COMMISSION FOR NOVA SCOTIA

Halifax, March 22—In the house of assembly today, Hon. H. H. Wickwire, minister of finance, introduced a bill providing for the creation of a provincial tax commission, the duties of which will be to adjust in a fair and equitable manner the valuation and assessment of all property and income, liable to assessment for provincial purposes, in the towns and municipalities of the province.

A BOARD OF TRADE NIGHT

A week from tonight the Board of Trade will hold a social night at Pyramus Hall. It will be a smoker and refreshments will be served, but the real feature will be sporting films shown by Harry Allen, chief of the New Brunswick guides, and a speech by G. Fred Pearson, publisher of the Halifax Chronicle, and a member of the Halifax Board of Trade, who will talk on maritime operation. It will be a New Brunswick and St. John-Halifax night, with special reference to maritime unity in promoting common interests.

SHOT DEAD BY HER GRANDFATHER

Six Year Old Child Loses Life in Mock Skirmish, Playing Indian.

Six-year-old Emma Bauer decided on a surprise for her grandfather, Ernest Fuchs, when he returned from his work to their home in Brooklyn, N. Y. It had been the nightly practice of Fuchs to indulge in a game with the child, who was motherless. As Fuchs entered the dining room Emma suddenly confronted him, garbed as a desperate Indian, and wielding a piece of wood as a tomahawk.

Fuchs, who is fifty-two years old, feligned terror as the little girl, who was the only child of his dead daughter, pulled a pistol in the drawer of the dining table. He remembered that his son Richard, nineteen years old, had thrown a pistol in the drawer of the dining room sideboard some time before with the remark that it was empty and useless.

He reached into the drawer, got the weapon and, pointing it at his granddaughter, said: "Like all bad Indians, you must die." He pulled the trigger, there was a report and little Emma fell over dead with a bullet through her heart.

Brother Jonathan. The weekly Observer, an old journal published in St. John, in its edition of June 14, 1883, contains an interesting account of the festival in Buffalo on St. George's Day, April 23.

Well, well, and every praise of old, That makes us famous still, You would be just, and may be bold, To share it thou wilt.

O, Brother, could we both be one, In nation and in name, How gladly would the very sun Lie basking in our fame?

What more? I touch not holier things, A loftier strain to win; Now glance at prophets, priests or kings, Or heavenly kith or kin, As friend with friend, and man with man.

He gave a toast—John Bull and Brother Jonathan, like the Siamese twins, although quarrelsome at times, they never yet ventured to sever the ligament of mutual interest that binds them together.

Paris, March 23—Owing to the vast number of cases of injustice in the late war, Gen. Sarrail, leader of the French troops in Salonica, declares there must be no court-martial in the next war.

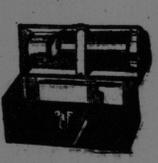

NO COURTS MARTIAL IN FUTURE WARS

London, March 23—Central News despatch from Venice, says that a tidal wave late last night inundated the city, the water rising to a depth of more than three feet in some of the public squares.

Thermos Lunch Kits

The workman used to carry his sandwiches, pie and coffee in a two-story tin pail. By lunch time the sandwiches were dry as chips, the pie was mashed flat, and the cold coffee was unfit for human consumption.

THE THERMOS LUNCH KIT affords a new measure of convenience in packing and carrying food—the most sanitary way to keep it fresh and wholesome. For those who take their lunch to the shop, office or school, the Thermos Kit is the ideal food carrier, protector and preserver.

### RECENT DEATHS

**Alexander M. Drum.**  
The death of Alexander M. Drum, of Kincardine, which occurred at the Lancaster Military Hospital on Tuesday, was the mother of the casualties of war, because of developments of war disabilities, and will be learned of by his friends with deep regret. Sergeant Drum, who was forty-five years of age, was a native of Kincardine. He went overseas with the 50th Battalion and saw service with a machine gun section. He was gassed and shell shocked. His wife was a native of Scotland, whom he met while overseas, and she came to Canada two months ago. Mr. Drum came to the Lancaster hospital for treatment and he died there on Tuesday. The body was taken to Kincardine for interment yesterday. Besides his wife, he is survived by his parents, Mr. and Mrs. John Drum, of Kincardine; one brother, James in Western Canada and four sisters, Mrs. McCreary, wife of Hon. D. W. McCreary, of Fredericton Junction; Mrs. Robert Hawkes, of Houlton, (Me.); Mrs. David Findlater of Kincardine and Miss Jean at home.

**Frank E. Saunders.**  
The death of Frank E. Saunders, son of Mr. and Mrs. J. H. Saunders, occurred yesterday at his parents' residence at Model Farm. He is survived by his parents, three brothers, L. S. Saunders, of this city, and J. R. and J.

A. Saunders at home; also four sisters, Mrs. William Porter, of Hammond River; Mrs. Charles Grosley, of Model Farm and Winona and Lena at home. The funeral will be held from his parents' residence on Friday afternoon at 2:30 o'clock.

**Rev. F. S. Hartley.**  
The death of Rev. F. S. Hartley, pastor of the First Baptist church in Natick, Mass., occurred yesterday from apoplexy. Rev. Mr. Hartley was born in West St. John forty-six years ago and was educated at Acadia University and at Bates College, Lewiston, Me. D. C. Clark, of West St. John, is an uncle and Mrs. L. O. Beatty, also of the West Side, is an aunt. The body will probably be brought to St. John for burial.

**Marriage Record.**  
London, March 22—Mrs. Elizabeth Bradshaw, seventy-seven years old, went to the altar for the eighth time, and Sylvester Hargreaves, seventy-six, for the fifth time, when they were married to each other in Sheffield. She has a grown-up family of seventeen children and he is the father of twelve. Both declared that this will be their last marriage, but claim the world's record between them.

**REV. E. J. STOBO DEAD.**  
Toronto, March 22—Rev. Dr. Edward J. Stobo, a leading Baptist minister, died here today in his fifty-fifth year.

"A Big Call for Sports Blouses!"

—Latest news from Paris.

Over the wire came this interesting bit of fashion news early, early—away back in the winter.

At once our designers got to work to create a perfect copy of the new Sport Blouse as designed by Paris and New York.

The new sports blouse is cut to allow ample freedom to the arms. It is longer and fuller. An inside box-pleat in the back gives extra freedom, at the same time maintaining a perfect fit. Mannish collar and cuffs. Very smart with a (College Stripe) Gentleman's Tie.

Parts of the waist have been reinforced without detracting from its dainty chic appearance.

## Housefurnishings In a Formal Spring Opening on Friday and Following Days

THE question of housefurnishings is a timely one and one that is just now taking the attention of every home loving woman. Before selecting the carpets, curtains, hangings, upholsterings and furniture needed to bring about the new scheme of decoration for spring and summer, a great many questions of real importance may be decided by attending the spring exposition.

### For Those in Search of New Curtains

No matter which room is in need of new curtains, our spring stocks are ready to supply you with the kind you seek.  
Scrim and marquisette curtains are fashioned with lace edges and in some cases insertion to match.  
Swiss voile curtains in ivory and beige have narrow insertion and hand-drawn work.  
Irish Point with single or double borders.  
Curtain Materials Most in Favor.  
Irish Point Nets, 12 to 24 in. wide; White and Cream. Scrim and Marquisettes in cross bar and spotted patterns; All-over Nets in small patterns and large squares (among them the Adams pattern).

(Germain Street Entrance.)

### When You Buy Carpets

Wise buyers will look for quality when it comes to investing in a floor covering of any kind. We are prepared to give you quality and you'll not consider our prices too high. Spring stocks include:

#### LUXURIOUS ORIENTAL RUGS

For exquisite beauty in color, lustre and design, nothing can equal these hand-knotted Persian Carpets. Their wearing quality too far exceeds that of any other kind. We are showing large room sizes in "Mahals" and "Anatolians." Medium and small pieces in "Sarouks," "Kazacs," "Mosouls," "Roussams" and others.

Among other Persian pieces will be seen one of the finest hall strips we have ever imported.

#### ENGLISH AXMINSTER RUGS

These are seamless and are in particularly serviceable colors and designs especially adapted for use in living rooms.

(Germain St. Entrance.)

#### BROAD LOOM CARPETS

Where an artistic effect is wanted, such floor coverings as these are unsurpassable. They are made seamless, have a deep, soft pile and are showing in wonderfully lovely shades of rose, blue and taupe. Broad Loom Carpets are 3 and 3½ yards wide and can be cut in any desired length.

#### WILTONS, BRUSSELS AND TAPESTRIES

In all standard sizes, qualities and designs. While in the Carpet Dept. ask for demonstration of the famous Hoover Electric Suction Sweeper. It beats—as it sweeps—as it suction cleans.

### We Have What is Newest in Cretonnes Tapestries and Shadow Taffetas

These are the materials so much in demand just now for hangings, slip covers, upholstery, and the many other uses so well known to the interior decorator.

You may choose from a very comprehensive variety of English and French Cretonnes in light, medium and dark patterns. Shades are toned to blend with the color scheme of any room. Among these are "Grafton" Cretonnes in novel patterns and color effects.

Tapestries are showing in the greatest variety offered for years. The shade tones are particularly rich and attractive. There are small and large designs suitable for use on any style of upholstered furniture.

Portiere fabrics include the new "Monastery" cloth in plain color or checked pattern; Velours in many very acceptable shades.

Our housefurnishings department can offer you many more suggestions as to what is newest and in most popular demand.

#### HAD PITY ON MISSIONARIES.

Chinese Pirates Let Party Off for \$36, Says Priest.

(New York Times)

Two of a contingent of Irish immigrants who arrived here yesterday on the White Star liner Cedric from Liverpool, via Queenstown, wished to get married before landing, but the Rev. Father

James A. Walsh, who was also a passenger, advised the young couple to wait until they got ashore.

Father Walsh left New York with six priests, six sisters and Father James F. Kelley of Quincy, Mass., for China last September, via Vancouver. As they were going up the Pearl River on a junk, he said, they were held up by pirates, who obligingly settled for \$36 when they found their victims were missionaries.

On the return journey the priests had an audience with the Pope.

Another passenger on the Cedric was Frederick Palmer, war correspondent and journalist, back from Ireland. He said he believed Ireland would soon settle its internal troubles, and make Arthur Griffiths the first premier.

came home. She gave me her promise and I prepared for her a solution of strong poison. The letter related how Larsen had met Miss Clark six weeks ago, and they had become intimate friends.

"I called a doctor and attempted to assist her," the letter continued. "When I saw that she was dead I left because I would not give myself up to be grilled by non-understanding police."

"I had intended to take poison before I met Miss Clark. She was the world's finest woman."

The parties in Miss Clark's apartment, the letter said, were not wild revels, but were only for the purpose of killing the moroseness of her life.

In his letter to the editor of a Boston paper, condemning the printing of stories of scandal, he advised that the editor also take poison, "when your inferiority becomes too conscious in your mind, if you have one."

It was Larsen's first love affair, friends said tonight. He came to America in 1918 as one of ten students sent to America by the Norwegian government to study engineering methods.

SOUTHERN ALBERTA IS RICH OIL FIELD

Engineer Makes Deduction from Strike Made in Montana Near Border.

Calgary, March 23.—The Calgary Herald says: That the quantity and quality of oil struck at Kevin, Montana, sixteen miles south of the Alberta boundary is sufficient to prove beyond a doubt that oil in great paying quantities exists in the sweetgrass uplift of the southern part of this province, and that southern Alberta will some day constitute a big oil producing district.

There have been large sums of money spent on drilling in Alberta during the past three or four years, and I am thinking that this find will take the people's attention away from where the useless drilling is going on, and concentrate on the sweetgrass uplift.

HALIFAX EXPLOSION WRECKED HER NERVES

The reader, who no doubt, remembers when a few years ago there was a collision in the Halifax, N. S. Harbor and one of the munition ships was blown up, causing great loss of life and laying a large portion of the city in ruins, and causing a great deal of suffering and distress among the inhabitants.

TRAMPED 750-MILES FROM ARCTIC ZONE

J. Christie, Factor at Great Whale River, Back to Civilization—Made a Record Trip.

(Montreal Gazette)

After a jaunt of 750 miles on snowshoes from Great Whale River 550 miles up the eastern coast of Newfoundland Bay and well within the Arctic Circle, to Cochrane, Ont., where he connected with civilization and the railways, Mr. J. Christie, factor for Revillon Freres at their Great Whale River fur trading station, returned yesterday to Montreal for a holiday, after spending over a year in the far north.

He looked very fit yesterday after reporting for business at the head office of the Revillon Freres firm on McGill street, and was inclined to talk lightly of the fact that he had just tramped 750 miles through the Arctic wilderness and only emerged into civilization two or three days ago.

Mr. Christie returns to Whale River in May when he will be able to get back by snows on the Hudson Bay, following the shore.

Sixty Below Zero. Mr. Christie said that he and Inspector George and his dog team had started their long snowshoe tramp from Great Whale River on February 4, with a temperature of about 60 below zero, and only eight hours of daylight, while occasionally through the great barrens they were stopped by the furious winds of Miss Christie, who followed the coast line of Hudson Bay for 550 miles steady tramping, stopping at Forts George, East Main and Rupert, and finally at Moose, on the southern shore of James Bay.

Then from Moose they started on the last leg of their tramp, striking south to Cochrane, where they connected with the P. & N. O. Railway. Inspector George is staying in the north, while Mr. Christie came on to Montreal, changing his Eskimo fur suit to the habiliments of civilization.

"It was nothing at all," said Mr. Christie. "Up in the Arctic we think nothing of little things like that. We are not bothered with city habits as to hours—measure time by days, and a day more or less never bothers, unless you run out of food and water, and then it is pretty hard. We made about thirty-five miles a day, mostly running, and then sitting in the snow to get our wind. But we did not mind that, what we did mind was the change in weather and the glare of the sun on the snow. The greatest difficulty we had to meet was the lack of food and water. We had snow water without boiling it in tea, and the other waters were tidal, and sometimes on a fifteen-mile tramp I had to do with a glass of real water if I could get it—that is just as bad as on a tropical desert."

"But the farthest south the worse it got, because the weather was milder, and the snowshoeing was hard. One day my cheeks were frozen, as well as my nose, in a northerly gale, while the next day I got a headache, which was a change in weather and the glare of the sun on the snow. The greatest difficulty we had to meet was the lack of food and water. We had snow water without boiling it in tea, and the other waters were tidal, and sometimes on a fifteen-mile tramp I had to do with a glass of real water if I could get it—that is just as bad as on a tropical desert."

"And talk about wolves, those big northern fellows," said Mr. Christie. "They were thick on our trail all the time. But as usual, we never saw one, although they always followed up and gathered anything our dogs left. It was the same at Great Whale. The wolves hung around, but never showed themselves, the northern wolves being just as cowardly as those more to the south. But just before we came away a couple of Eskimos from a snow hut village a few miles away reported that

Locating the hotel he was unable to wake the manager, but finding a public telephone on the porch, called up the manager and got in. His clothing was all wet and he was suffering from exposure, but he answered his name when called in court.

"At Forty-Five"

"YES, at my age I suppose I should expect a change in my condition. But I am so nervous and irritable, so easily excited and worried, that I cannot understand what is wrong."

"I know just how you feel, my dear, for I have gone through exactly what you are experiencing now."

"But you are not nervous." "No, not now, but I was in a far worse condition than you are, when a friend advised the use of Dr. Chase's Nerve Food. I need not tell you more, for you know how well I have been for the last few years."

Mrs. H. Alchorn, 23 Gerald St., Charlottetown, P. E. I., writes: "Dr. Chase's

Nerve Food was recommended to me by an aunt who used it while passing through the change of life and was completely built up by its use. From my experience as a wife and mother I find that the majority of users are women, especially women passing through the change of life; next by young mothers to regain strength after baby comes, and also by mothers for their young daughters entering their womanhood. While it is good for all classes of humanity, I am sure it is especially so for women, as they seem to be troubled most by nervous diseases."

the trade having poor luck. The catches, he said, were like salmon fishing, running in cycles, with a very good season every four or five years, while between times the Revillon Company had to help them along.

"It is not such a bad life up there," said Mr. Christie, "if you can stand it. While men are few and far between, while it is no place for white women at all. But the Eskimos are always friendly and hospitable and will do anything for you, although the Indians, mostly half-breeds, are a poor lot."

JUROR WALKS TWENTY MILES. Garrison Man Tramps Over Mountains in Rain to Reach Court in Time.

Carmel, N. Y., March 23.—James P. Pellow, a retired accountant, walked all night through the rain from his home near Garrison-on-the-Hudson to Carmel, a distance of twenty miles, to attend the supreme court here as a trial juror. His journey was across the mountains and through ten miles of woods, where there are no houses.

Believing it the duty of all jurymen to arrive at court on time he left his home at nine o'clock, and, with two lanterns, started for the county seat. The heavy rain storm put out his lanterns, and, after being puzzled several times at

cross roads, reached the court house shortly before five o'clock in the morning. Locating the hotel he was unable to wake the manager, but finding a public telephone on the porch, called up the manager and got in. His clothing was all wet and he was suffering from exposure, but he answered his name when called in court.

and ably answered criticism that had been directed against it. The record of the government compared most favorably with that of any previous administrations, he declared. The criticism from the other side of the house was of a destructive rather than constructive nature.

Speaking of the health act, Hon. Mr. Magee declared that the health of the people was of great importance, and it was the duty of the state to look after it. He forecasted an increase in the subsidy granted by the federal government.

In regard to hydro-development, the government had carried out the demands of public opinion and the ultimate policy of the government, when carried out, would be of big benefit to the farmer who would receive power at cost.

 A quiet family wedding was solemnized this afternoon at the home of Mr. and Mrs. B. L. Amdur, 35 Eglar row, when their daughter, Miss Cecile, was united in marriage to I. Sydney Isaacs of this city. The ceremony was performed by Rev. S. Salaberg. The bride was given away by her father and was attended by her sister, Miss Belle Amdur. The bride wore an attractive gown of periwinkle blue tulle, with hat to match, and carried a shower bouquet of Ophelia roses and lilies of the valley. The wedding march was played by Miss Ruby Isaacs, cousin of the groom. The wedding took place in the drawing room, which was tastefully decorated with cut flowers and palms. Immediate relatives of the contracting parties witnessed the ceremony.  
 After a dainty wedding luncheon was served, Mr. and Mrs. Isaacs left on a honeymoon trip to Quebec, where they plan spending a few days, returning to St. John early next week. The bride wore a traveling suit of navy blue Poiret twill, with squirrel scarf and hat to correspond.  
 After remaining in St. John for a few days, Mr. and Mrs. Isaacs will leave for their future home in California. On their way west they will spend a short time visiting the groom's mother, Mrs. J. Isaacs, in Montreal, and will also visit several of the United States cities and spend some time in the Canadian Rockies and Vancouver. Both bride and groom have many friends here who will wish them every happiness in the future life.

**HAVE IDENTIFIED SOLDIER'S BODY**  
 Man Killed in Toronto, and Thought at First Moncton Veteran, was Toronto Resident, So Mayor is Informed.  
 Mayor Schofield this morning received a letter from the mayor of Toronto enclosing a memo from the chief constable of that city to the effect that the body of the man killed on the railway there on March 6 had been definitely identified. On account of the number on a returned soldier's badge found on the body, it was thought at first to be that of Frank Wallace McLaren of Moncton, but this idea was proved false by the arrival of McLaren in St. John a few days later. According to the Toronto communication, the body was identified as that of Robert Hutchinson, residing at 143 Berkeley street, Toronto, a returned soldier who had been a member of the 15th Overseas battalion.

 A New Protestant Orphans' Home Planned for Lancaster.  
 Will Cost Between \$200,000 and \$250,000 and be for the Benefit of the Whole Province—Possibility of Orthopedic Hospital in Britain Street—The Sydney Street Dump.  
 Plans for the erection of a home costing between \$200,000 and \$250,000, intended eventually to care for all the Protestant orphans of the province, were disclosed at a committee meeting of the common council this morning, when a delegation from the directors of the St. John Protestant Orphans' Home asked for a grant of some fifteen acres of city land in the town planning area in Lancaster. The delegation consisted of D. C. Clark, William M. Campbell, J. King Kelley and David Hipwell.  
 Mr. Clark, who is president of the institution said that the time had come when the home must enlarge and get a permanent building. The West St. John annex, he said, was not fire proof and there was always danger of a large loss of life should a fire occur there. He asked if the city would make a grant of a piece of land on the Manawagonish road opposite the Manchester farm, and on the corner of the Nerepis road. About fifteen acres was the area asked for to allow for, besides the buildings, an area for farming and educating the children in farm work. The area comprised about eighty lots in the Town planning area. He said the building proposed would cost \$200,000 to \$250,000.  
 The mayor said the institution was one of the best the city had and if the request was presented in writing he was sure it would be given earnest consideration.  
 Provincial Institution.  
 Asked if this plan would take in all the Protestant orphans' institutions in the city, Mr. Kelley said this might come in the future. He said that the Britain street home might be taken over for Orthopedic work. The masons he said were planning ten of these in the U. S. He said that the institution took in orphans from all over the province. He said there was a bill before the legislature which would change the name of the institution to the New Brunswick Protestant Orphans' Home. The board of directors would consist of twenty and would include a members from each county. The money for the undertaking, he said, was expected to secure from annual contribution from various denominations. It was planned to care from 250 to 300 children.  
 \$25,000 New in Sight.  
 Mr. Hipwell said it cost about \$350 a week to run the institution; about \$150 was raised from bequests and contributions from parents and trustees. He said that he had talked with Jew and Gentile, Catholic and Protestant about the proposed plans and he did not believe that one of these would object to the city making the grant. He said there was about \$25,000 in sight at present and it was planned to put on a drive in the near future for the balance.  
 Mr. Bullock said that the county valuations of the lot in question were at the rate of about \$11 a lot. He said it was in his opinion an admirable site for an institution of this kind. He understood that the erection of this building might hasten the extension of street cars to the Dever road and thus open up the city land.  
 Amalgamation Question.  
 The mayor said he regretted that the proposed plan did not include all the Protestant institutions. Mr. Clark said that this was expected in the future. He said it was not the fault of the Protestant Orphans' Home that the amalgamation had not taken place last fall. He said a mortgage of \$10,000 on the Memorial Home, which they refused to take over, was the difficulty. He said there were thirty children in the municipal home, which the orphans' home wished to take care of. There was a waiting list from all over the province, he said.  
 The delegation agreed to submit the request in writing.  
 The Sydney Street Dump Matter.  
 Commissioner Frink reported on a complaint of Alexander Gray, federal engineer in charge of St. John harbor that material from the dump at the foot of Sydney street was being carried into the harbor, necessitating dredging operations. He referred to a letter from Mr. Gray in which it was stated that G. Fred Fisher when commissioner of public works had said that the city would construct a wall if necessary to prevent any of the material from the dump getting into the harbor.  
 The commissioner said he could find no record of this undertaking in the minutes of the city council and he would not recommend such construction on account of the high cost, which he estimated would extend well into six figures. He said that in 1911 the city had decided to the dominion government all the foreshore from the Barrack point to the north side line of Union street, thence extending eastwardly to the Marsh creek, for the purpose of developing Courtenay Bay. This deed did not include the shore area of the Barrack point or the eastern side line of Sydney street. He recommended that the city deed this additional area to the government and allow them to build a sea wall at the foot of Sydney street if they desired it, or else abandon the present dump.  
 Mr. Bullock thought that no more property should be decided to the government for any purchase unless the government agreed to place a time limit on their carrying out of the proposed work. He thought in this case that the city might build a wall, reclaim a certain amount of land thereby and thus create an area for development.  
 It was decided to allow the matter to lie on the table for further discussion and in the meantime forward a copy of Commissioner Frink's recommendations to Mr. Gray.  
 Mrs. Mary A. Kelly wrote concerning a retaining wall placed under the front of her house, 100 Wright street. She said that the city engineer had told her that the city would bear half the cost of the wall, which was placed at \$108.49. The matter was referred to Commissioner Frink and the road engineer for a report.

(Toronto Mail and Empire) It is a far cry from the little invertebrate animal which is responsible for the building of the coral reef to the huge ice caps which once covered parts of this and other continents, but there is a definite connection between the two, according to Dr. T. W. Vaughan, geologist in charge of the Coastal Plain Investigations under the United States Geological Survey, who addressed the Royal Canadian Institute at the Physics Building of the University, on Saturday evening. Following the same line of reasoning which points out what goes up must come down, the water which formed the gigantic glaciers of the ice age must have come from somewhere. A bill relating to school district No. 16, Town of Bathurst, was discussed at the convention.

SOLDIER BOWLERS

Two Sets of Tie Scores in Competition Last Evening—Garrison League Standing.

In the weekly three-string bowling competition on the army alleys last night there were twenty-eight contestants and the rolling resulted in two sets of tie scores, one for first place and one for third, with only one pin separating these two sets. Sergeant McNulty of the 6th Siege Company and Trumpeter R. Cross of the 6th Siege Battery, both made 272, but the roll-off of one string Serg. McNulty won the first prize, a ten-pound roast of beef, by the score of 78 to his opponent's 74. Cross won the second prize, a four-pound box of choice English toffee. For third prize, two pounds of toffee, Sergeant A. Davidson of the 7th C. M. G. B. and Driver F. J. Kelly of the 6th Siege Battery tied with scores of 271. They rolled off three boxes, and Kelly won. There will be no contest next Wednesday on account of the maritime wrestling championships being staged in the armories.

In a match on the army alleys last evening the 7th C. M. G. B. took three points from the R. C. A. S. C. The scores follow: R. C. A. S. C.—Total. Avg. Capt. PASTEURIZATION IS ADVOCATED

Health Officer Speaks of Milk Matter in the Light of Recent Case.

Dr. William Warwick, district medical health officer, said this morning that the report of the analysis of the milk which affected about thirty-five people on Monday, would be completed tonight or tomorrow. In the meantime, the vendor whose product caused the trouble, is prohibited from selling his milk, which amounts to about two hundred quarts a day. It is therefore causing him considerable financial loss. He is, however, allowed to serve his customers with milk secured elsewhere. According to reports at the health office, all the patients have recovered.

In commenting on the case this morning, Dr. Warwick said that he considered the use of pasteurized milk the only remedy, as the inspector could not keep the whole territory where the milk was produced under enough to cover the milk free from careless handling. He also said that an inspector might visit a vendor's premises one day and the next day the milk might contract some contagious disease and perhaps not know the fact for some days. In the meantime the consumers were exposed to the contagion, and so, while the pasteurization method was not perfect, it was much better than to let matters go as they are now, with a case like the one in hand coming up every few weeks. He also desired to impress upon the public the fact that pasteurized milk was not boiled milk, as many seemed to think, and that none of the vital elements in the milk were destroyed by the process.

GORMAN SCORED TEN POINTS AT MILWAUKEE MEET

Milwaukee, March 23.—(Canadian Press)—Charles Gorman of St. John N. B., failed to place in the 880 yard dash or two mile race for seniors in the last night of the events of the international indoor championship skating races. Although Gorman placed in the heats of the 880, a spill in the final caused him to lose what chance there was of placing in the event. He entered the two mile race but dropped out before the finish. The official markings for the tournament gave Gorman only ten points.

VATICAN TO BE REPRESENTED IN RUSSIAN RELIEF

London, March 23.—The Rome correspondent of the Daily Herald understands that the Russian government has granted a request from the Pope that the Vatican be represented on the international commission for relief in Russia headed by Dr. Fridtjof Nansen. Seven papal delegates are going to Russia soon, he adds, and the Pope may also send a personal mission to the Volga region.

S. had actually been killed by them.

WHAT THEY ARE SAYING IN LOCAL BASEBALL CIRCLES

A report from Halifax that there was a professional baseball league carried considerable discussion here. The subject is not a new one, as local sportsmen have long been contemplating a similar movement, but their idea of a circuit was somewhat different from that in Halifax. There was talk of having two teams from St. John, one from Calais and St. Stephen, one from Fredericton, one from Moncton and one from either Amherst or Miramichi. It was felt that a semi-professional league playing games on Wednesday afternoons and evenings and Saturday afternoons in the sports, thus doing away with a big salary scale. But no steps have been taken to date to form such a circuit.

A BUILDING BOOM

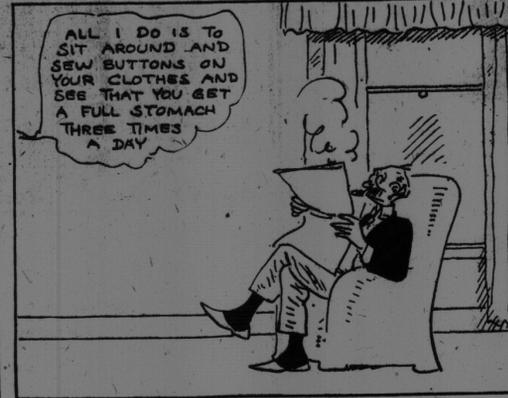

Annapolis Spectator: The building boom is in the air and from now until the frost of next winter the old town of Annapolis Royal will be a humming hive of activity. New town hall, new court house, possibly a new hotel and many private buildings for commercial and residential purposes will run the expenditure to probably exceed \$100,000 for work in sight and mean the employment of a lot of men right here for a good many weeks. It is also possible that there may be just as much more work next year.

Information as to the institutional care of colored children without parents or guardians, replied that in New Brunswick colored children were cared for in the same manner as white children. In his five years of experience, two had been placed by him in the Children's Aid Home and three in Catholic institutions. There were a few in the Protestant orphanages and some in the municipal home. Halifax had a special institution for the care of colored children but there was no need for one in New Brunswick because of the comparatively small numbers here. The letter was ordered forwarded to Judge Emily Murphy, of Edmonton, from whom the inquiry had come in the first instance.

Arrangements were made for the tag day for the milk fund and it was decided to adopt as the slogan "Save the Babies." Plans were also made for the travelogue which Mrs. E. Atherton Smith will give to augment the council funds.

Miss Lillian Hazen presented a petition to exempt dogs from vivisection and those members who wished to do so were given the opportunity to sign it. Mrs. R. J. Hooper reported that a member of the Women's Institutes had sent \$75 for the milk fund.

In introducing Mrs. Osman, Mrs. Smith referred to the fact that Mrs. Osman is a life member of the Women's Council and a member of the Federation of Canadian Women's Institutes, as well as president of the advisory board of the Women's Institutes of New Brunswick.

Mrs. J. W. V. Lawlor, president of the St. John Women's Institute, exhibited some of the handicraft work of the institutes.

After the meeting the members of the executive of the St. John Institute entertained Mrs. Osman, Mrs. E. Atherton Smith, Miss Nutter, supervisor and the assistant supervisor of the institutes in the provinces, at luncheon at the Clifton House.

**SCOUT LEADERS' TRAINING COURSE**  
The third meeting of the Scout Leaders' training course in Trinity school-room last night was an especially inter-

esting session and was well attended. Guy L. Short was the chairman and gave the address of the evening, taking for his subject "The badge system and vocational guidance." Mr. Short pointed out how the scout leader could use the badge system as a test of the boy's natural bent and so aid the boy in the choice of a vocation. Sergeant John Kenny gave a period of instruction in semaphore signalling and in the games period V. C. Timberley taught the leaders three new games which they will teach their troops. The assigned portion of the text book was taken up and studied. The programme was much enjoyed and the leaders showed enthusiasm for their work.

**BOOTLEGGERS GET MILLIONS.**  
Chicago Dry Director Revokes Liquor Licenses of 125 Druggists.

Chicago, March 23—More than \$10,000,000 has passed into the hands of bootleggers, counterfeiters, dishonest druggists and physicians during the last two years through the use of illegal whiskey prescription blanks, so Prohibition Director Charles A. Gregory announced.

The only weapon in the hands of the government to fight the illegal prescription pill is that employed by Mr. Gregory, when he revoked the liquor licenses of 125 Chicago druggists after he discovered violations of the law. This action is said to be the direct result of the arrest of Lee Ranson and William Claud recently.

The two men, it is said, had in their possession thirty-five books of prescription blanks. An investigation disclosed that they were agents of a clique of New York men who were printing the blanks and selling the books of 100 each to Chicago druggists. It is said the price of each book ranged from \$75 to \$250.

**THE BRITISH GOVERNMENT IS DEFEATED IN THE HOUSE OF LORDS**

London, March 22—The government was defeated in the house of lords this evening by the adoption of an amendment to the Irish Free State bill to guarantee pensions to Irish civil servants. The vote was 42 to 40.

The defeat of the government by two votes is not likely to involve the fate of the ministry at the present stage. The amendment will be rejected by the house of commons and when the bill is returned to the house of lords the rejection will probably be accepted in accordance with the statement of Lord Lansdowne in the upper house on Tuesday that it became a choice between the lords proposed amendments and the measure itself he would favor dropping the amendments when the bill came back.

Money is plentiful. Interest rates are declining. There has been decided improvement in the investment market.

Government and municipal bonds are selling at less attractive prices than they were a few months ago. Consequently there is an awakening interest in, and heavy demand for, sound Corporation Bonds, which may still be purchased to yield 6 1/2% to 8% with safety.

### One-Pants Suits Are Doomed, Says Clothier

The question whether sales of ready-made clothing might not be helped if suits were sold with two pairs of trousers instead of one is being much discussed in New York retail clothing circles. It is a question which has two sides, from the standpoint of both the retailer and the manufacturer. For while the "two-pants plan" might have the effect of stimulating immediate sales it would be likely to affect turnover adversely inasmuch as it would have the effect of keeping the purchaser of a suit out of the market for a much longer period than would otherwise be the case. That, at least, is the argument frankly advanced by some retail clothiers who oppose the idea.

If, however, the lead taken by H. R. Seller, a retail clothier of Newark, N. J., is followed by others, retailers who are opposed to the idea of selling two pairs of pants only, will be compelled to get into line. For Mr. Seller, who conducts an "upstairs" establishment where a nationally advertised brand of clothing is handled, has launched an advertising campaign which constitutes a challenge to the "ground-floor" clothing merchants in his territory.

Says this clothier in big black type: "I am satisfied that every clothier in Newark will soon be selling suits with two pairs of pants only. If they don't, judging from my rapidly increasing business, I'll clothe the majority of Newark's men myself."

Druggist Sells \$1,500 Worth of Fishing Tackle

During the spring and summer of last year, Leighton Moore, proprietor of Moore's drug store, in Endicott, N. Y., sold \$1,800 worth of fishing tackle-and the interesting thing is that the store's regular line alone increased from \$200 to \$500 per week and, besides this, he made a handsome profit on his fishing tackle.

Moore believes in exploiting hobbies. During the fishing season he figures that every man, youth and boy is a potential fisherman. It's a universal hobby! Hence by making a special application of his hobby he draws a much larger trade than he otherwise would. Since exploiting this hobby idea Moore's drug sales and regular line alone increased from \$200 to \$500 per week and, besides this, he made a handsome profit on his fishing tackle.

To make a success of his sporting goods venture the Endicott pharmacist enlisted the aid of a local taxidermist. This man was pleased to have the drug store display his handwork in the window and he was willing to supply the taxidermist. Hence it cost nothing to trim a window with the mounted specimens of fish and game indigenous to the waters of the backcountry.

Moore did not sell any special line of fishing tackle, but made a good selection of rods, reels, baskets, lures and accessories with an eye to local conditions. Moreover, he found that these best be offered temptingly on a moving table. Hence they were displayed on a circular revolving table with two shelves. This moving display, flanked by mounted specimens of fish and game indigenous to the waters of the surrounding country, proved that sporting goods made an ideal sideline for the drug store.

Co-operative sales by shoe dealers with stores along one street have been tried out very successfully in Ithaca, N. Y., by a dozen or more dealers, who bought a page in a local newspaper and divided it up among themselves on a pro-rata basis, after arranging with the paper for a "feature" story on the event. The result was very satisfactory.

The sale was staged at an unusual time and at a period when business in the shoe line is inclined to be rather dull. Its effect was materially to boost sales in all the co-operating stores and even in some of those on other streets that did not take part in the scheme.

T. A. Carr of the Carr Store, in a statement explaining the sale, said: "It has been asserted that the coming season would bring the price of merchandise to a very much lower level than prevails at the present time. We hope that is true, but we find nothing in our daily market reports to warrant this kind of prophecy. It is true that the raw materials, such as the raw hides, are quoted much lower than during the peak-price times, but the raw hides are not necessarily passed through many hands before it is fitted to the feet of the consumer.

"In brief, let us say that we do not look for lower prices in 1922 to any marked degree, and we would not want you to be confused on account of the sweeping reductions that will prevail for the next ten days in the shoe stores of

"First Samples" Get Orders.

That it is just as important to mail a sample order on the earliest possible date as it is to fill regular orders promptly-and sometimes more important-is the lesson that the Lovemans, Berger & Teitelbaum store of Nashville, Tenn., trying to bring home to its workmen.

Said a recent bulletin issued by the firm: "When some of our customers anticipate making a dress, they send to several concerns in one or more cities to get samples of material. The store whose samples arrive first makes a better impression on account of being prompt and reliable. Hence if a customer is in a very big hurry, it is doubly important to get samples there quickly, for the last train will be ten to fifteen hours late in a great many cases, so that the customer will have made her selection and her order on the way by the time the other samples are received. There is no doubt that much business goes to wide-awake stores who are on the alert and take advantage of every opportunity to best serve their customers."

Builds Big Trade "A Mile From Town."

"A Mile From Town," "Is True, but a Mile From High Prices, Too."

This is evidently something more than a mere collection of words, for in eleven years it has lifted the Vandenberg Brothers of Grand Rapids, Mich., from a humble cabinet makers' shop to a furniture store that has all the appointments and business volume of a semi-metropolitan establishment.

The brothers, who are partners in the

The Value of Charcoal

Few People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, and after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfests the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being sweetened to be smooth and palatable.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is that no possible harm can result from their continued use, but on the contrary, great benefit.

Many physicians advise Stuart's Charcoal Lozenges to patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat. Charcoal is also believed to greatly benefit the liver. These lozenges cost but thirty cents a box at drug stores, and you get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets.

TRURO VS. TROJANS.

The manager of the Trojan team received word last evening from Truro that the Trojan offer had been accepted for a match here, probably on the night of Saturday, April 1. This will undoubtedly prove the star attraction in basketball circles for this year. Both teams have done well with outside teams. The Trojans have yet to meet defeat from an outside team, while the only team to trounce Truro has been Halifax Y. M. C. A. George A. Margets will referee the game.

The Joy of Living.

When you awaken with no appetite, a dread of the day's work and your head heavy, your digestive organs are probably calling for just the help which **WATERBURY'S STRENGTH** can give them. The medicinal extracts of more than ten different roots, herbs and leaves restore the natural healthy action of liver and stomach. Meals are enjoyed, that tired feeling disappears, and you know the joy of living. Sold in 50c. and \$1.00 bottles at drug stores. 10-221

Cocoon Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with. Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain Mulford's coconut oil shampoo (which is pure and entirely greaseless) is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls of Mulford's will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Mulford's coconut oil shampoo at most any drug store. It is very cheap and a few ounces is enough to last everyone in the family for months. Be sure you get Mulford's. Beware of imitations. Look for the name **Watkins** on the package.

BENTLEY'S LINIMENT For Man and Beast

YOUNG ATHLETES TO BE DEVELOPED

Coaches Hope to Stimulate Interest in Track and Field Events.

(Montreal Gazette) Despite the early date, leaders in track and field athletics are casting around tentatively planning for the summer's campaign among the athletes of the city and district. No definite plans have been formulated for the season's activities by any of the clubs interested in this branch of sport, but it is generally agreed among those who have worked in its interest during the past few years that the same policy of working with the young boys will be followed this summer as has been pursued almost wholly since the war period.

Decidedly the outlook for track and field athletics is not bright for this season. Last year the M. A. A. McGill University, the different Y. M. C. A.'s and other athletic organizations in and about Montreal worked hard to stimulate an interest in the sport. Little likely material was brought to light and, despite the great efforts put forward by them in charge of the training, here was not a very satisfactory interest shown.

Indicative of the conditions existing in athletics at the present time is the showing made by the McGill University Track Club. With a good track, excellent coaching and every facility practically available there were less than 50 students, of over 1,000 registered, who took an active part in track or field events. This state of affairs runs practically throughout the other organizations in the city and the Dominion generally.

Leaders in the sport do not blame the lack of interest to competition with other sports so much as a general failure of the young men of the present day to take to the type of athletics, so popular but a few years ago. Just how the interest can be stimulated and the track and field events brought back to something near the status that they held previously is the question bothering the leaders of the Olympic Games.

What is the chief source of worry for those active in promoting track and field events is the lack of promising material for the coming Olympic Games. There is apparently no worse than other provinces in the Dominion in this respect, and the annual spring question is again to the fore: What can be done this year towards developing likely contenders for positions on the 1924 Canadian Olympic team?

Lack of funds for the proper control of athletic meets throughout the Dominion is felt here, where it is considered highly important that an all-Canadian coach should visit, especially when a meet is on, to look over the material and generally supervise the coaching of athletes with a view to fitting men to compete for Olympic honors. Disappointment is expressed with the present system of selecting a Canadian Olympic team but a few weeks prior to the Olympic meet, and it is felt that with proper coaching supervision, likely contenders could receive suitable instruction to better fit them to compete against the stars of other countries.

Due to the lack of contestants in track meets, many men who might perform well in races suitable to their speed are perforce run in several events with a resultant mediocre showing in all of them. This has been evidenced at Montreal in the intercollegiate meet. While the university has no great outstanding track men, there are such athletes as Dave Johnson, captain of the red and white for next season, who is comparatively young and has the makings of a good short distance runner, but although he has been forced to run in as many as four races in a meet, resulting in the promising youth being unable to show at his best in any event.

Work among the younger athletes will be initiated here about the end of April, when the McGill Track Club will stage its annual meet for the school and college teams of this province and Quebec. A new departure will be made this year when the events will be regulated so as to allow a greater number for boys between the age of 14 and 18 years, all events for the younger athletes having been done away with this season.

MOORE AND MISS ROBINSON WIN Milwaukee, Wis., March 22—Gladys Robinson, Toronto, won the girls' 800 yards dash in 1:48.5 at the international amateur indoor skating meet here tonight with Rose Johnson, Chicago, second and Elsie Mullen, New York, third.

John Hollander, Milwaukee, won the junior 440 yards dash in 44 seconds. Joe Moore, New York, won the senior half mile race; Al Nuberger, Cleveland, and Gus Pitz, Chicago, third. Moore's time was 1:34.

Joe Moore also won the senior two mile race in 6:30.3, with Elmer Nelson, St. Paul, second, and Val Biales, New York, third. Lester Drach, Chicago, won the juvenile 20 yard dash. Time, 23.2-5 seconds.

OFFICERS OF RIFLE ASSOCIATION Officers for the ensuing year were elected at the annual meeting of the St. John Rifle Association in the office of N. J. Morrison last evening. It was decided to hold the first match on Good Friday, weather permitting, beginning at 9 a. m. Members will be those scoring their scores at this meet. Class "A" will include those making above 90; Class "B" will be those scoring above 70. Class "C" will be those scoring below 70. The financial condition of the association was reported to be good. The officers for this year are: Captain, N. J. Morrison; Lieutenant, E. S. Murray; secretary-treasurer, W. C. Magee; assistant, Clifford Seely. The executive committee is: A. S. Emery, Alexander Ellison, D. Connolly, I. F. Archibald, James Downey and J. F. Emery.

NUMBER OF BILLIARD PLAYERS IN UNITED STATES ESTIMATED AT 4,000,000 There is little doubt that billiards is entitled to claim that, so far as the number of actual players is concerned, it is one of the greatest of all sports, says the New York Times. It is impossible to figure just how many players there are in the U. S., but C. F. Miller, vice-president of the Brunswick-Balke-Collender Company, has made an estimate based on the number of billiard tables in use in public rooms. "I believe that 500,000 tables would be a conservative estimate," he said, "and since it is a known fact that each table, in order to pay, would have to have at least eight players, there must be more than 4,000,000 actual players in this country."

PLAN ATHLETIC BANQUET. Plans for an athletic banquet to be held the latter part of next month at which the guests of honor will be the eighteen Y. M. C. A. athletes of the local hexathlon team, which won international honors for 1922, were made at a meeting of the physical department committee last evening. Each of the athletes will receive a special bronze shield, commemorating his prowess. City League basketball prizes will also be presented at this banquet. It was announced that Frank Thorne would manage the burlesque end of the annual circus and gymnasium display in April.

The Women's Missionary Society of St. Andrew's church held a successful thank-offering meeting yesterday afternoon. Mrs. R. A. Jamieson gave an interesting account of Presbyterian Mission work in Minto—a subject that appeals to all New Brunswickers who are interested in the welfare of the province. The collection taken was more than \$87.

Freckle-Face

Now is the Time to Get Rid of These Ugly Spots.

Do you know how easy it is to remove those ugly spots so that no one will call you freckle-face? Simply get an ounce of Othine, double strength, from your druggist and a few applications should show you how easy it is to rid yourself of freckles and get a beautiful complexion. The sun and winds of March have a strong tendency to bring out freckles, and as a result more Othine is sold in this month than in any other. Othine, as this is sold under guarantee of money back if it fails to remove the freckles.

PIMPLES ON FACE AND SHOULDERS

For Several Months. Festered and Itched. Cuticura Healed.

"I was affected with pimples on my face and shoulders for several months. They festered and itched and my forehead was disfigured. I tried different remedies which did me no good. I sent for a free sample of Cuticura Soap and Ointment which seemed to help me. I bought more and after using two cakes of Cuticura Soap and one box of Cuticura Ointment I was completely healed." (Signed) C. V. Randall, Granada, Colorado, Feb. 11, 1921.

BRITISH FOOTBALL

London, March 22—Association football results today were as follows: First Division. Arsenal, 1; Liverpool, 0. Second Division. Bradford, 2; Barnsley, 3. Chesterfield, 0; Ashington, 0. Scottish League. Clyde, 0; Hamilton, 1. Aberdeen, 2; Albion, 0.

The result of the international trial between the home Scots and the Anglo-Scots at Glasgow was a draw of one goal each.

The final for the navy cup played at Portsmouth today was a goalless draw after extra time in a match between Easyney Royal Marine Artillery of Devonport and the Royal Marine Light Infantry.

Welsh Battalion Win. London, March 22—In the army cup rugby football final played at Aldershot today between the second battalion Gloucester, the former won by 28 to 7. Other rugby results were: Devon, 16; Cornwall, 6. Portsmouth Services, 8; Guys Hospital, 15. Northern Union. Wigan, 34; Hull-Kingston, 4.

NO INTERNATIONAL HOCKEY SERIES

Toronto, Match 22—The international hockey series between Granites of this city, Canadian amateur champions, and Westminster, of Boston, for the Hamilton B. Wills trophy, will not be played this season, it was decided today. Granites were loath to play any second season, and it is understood there was a hitch in regard to the selection of a third trustee of the trophy to set with W. A. Hewitt, secretary of the Ontario Hockey Association, and Sheriff Haddock, president of the United States Hockey Association. The games may be played next December before the regular season opens.

TO FIGHT IN HALIFAX. Joe Irvine, the local boxer, went to his home in Oranmore yesterday afternoon. He will spend a few days there. Joe expects a match in Halifax in the near future with Johnnie McIntyre, of Sydney, by whom he was defeated last week in a fight in which a large share of the honors went to Irvine.

HOW THEY STOOD IN THE HEXATHLON

Nearly four thousand athletes, representing seventy-four different institutions, competed this year in the international hexathlon contests during the latter part of February, according to a letter received by Captain William Bowie, physical director at the Y. M. C. A., from Dr. John R. Brown, of New York, chairman of the physical department. The high man for the events was J. P. MacDonald of the Toronto Central branch, with 546 points to his name.

The Class "C" standing is headed by the local branch with 2,884 points. Next are: Fargo, N. D., 2,828; Greville, S. C., 2,789; Galt, Ont., 2,736; Montreal, North End, 2,706; Calgary, 2,669; Montreal, 2,621; York, Pa., 2,594; Augusta, Ga., 2,559; Fort William, Ont., 2,552; Regina, 2,523; London, 2,510; Moultrie, Ga., 2,478; Danville, Ill., 2,453; Bay City, Mich., 2,448; New Bedford, Mass., 2,442; Chester, Pa., 2,392; Corland, N. Y., 2,388; Vancouver, 2,298; Fort Worth, 2,297; Sherbrooke, P. Q., 2,293; Wausau, Wis., 2,145; Chicago, Ill., North Ave., 2,127; Kingston, Ont., 2,072; Montreal, Westmont, 2,018; Petersburg, Va., 1,993; Johnstown, N. Y., 1,911, and others.

It will be seen that the Canadian institutions are well up in the list, especially Montreal, which comes seventh. The names of local boys who competed

are as follows: Andrew Malcolm, Leslie Kerr, Allan MacGowan, C. Urquhart, R. Pattison, Arnold Kee, R. B. Cox, F. Allan, E. Yeomans, Lloyd Ryan, R. B. Turner, W. Wetmore, G. C. Cunningham, W. Peters, George Hudson and J. Brennan.

**Wheaton Doing Well.**  
Word has been received in the city recently of the good work of a local bowler, J. Hartley Wheaton, in Boston. The other day he rolled three strings with scores of 127-115 and 139. Wheaton and Archie Walsh, another former St. John bowler, are expected in the city shortly, and Jim Whalen, another premier bowler, is coming to Halifax about the same time. Attempts will probably be made to give local bowling fans an opportunity to watch these men in action.

**Establishes New Record.**  
Joseph Harrington is believed to have established a new record in candle pin bowling when on the Y. M. C. I. alleys last evening he made ninety-nine without a spare or a strike. In order to do so he had to make a number of difficult shots.

**BASKETBALL.**  
**Girls' Games.**  
The Y. M. C. A. girls' team and the Sparks, a Y. W. C. A. team which was formed this year, staged a fine game of basketball in the Y. W. C. A. gymnasium last night. The Y. M. C. A. team won by a score of fourteen to six. The Y. M. C. A. team was second in the Girls' City Basketball League and the Sparks third. C. Urquhart refereed the game which was an exciting one.

The Byngs, champions of the Girls' Basketball League left today for Fredericton where they will play a return game with the U. N. B. girls team. When the U. N. B. team came to St. John, the Byngs won a decisive victory, doubling the score of their opponents, and they went to Fredericton determined to win again. The game in Fredericton will be played this evening and the Byngs will return to St. John on the early train on Friday.

**Y. M. C. A. Team Wins.**  
The Y. M. C. A. Intermediates easily defeated the Celtics of Moncton in the Y. M. C. A. last evening by a score of 64 to 21. In a game between the High School championship team and one composed of "old boys," the latter won by a score of 35 to 14. Preceding these games the Sparks and the Y. M. C. A. ladies team played, the latter team winning by a score of 10 to 8.

**YOUNG GIRL GIVES EVIDENCE AGAINST RICKARD AT TRIAL**

New York, March 22.—Resuming her testimony today before a supreme court jury trying Tex Rickard for attacking her, fifteen-year-old Sarah Schoenfeld declared that three days after his arrest the sports promoter took her and Nellie Gasko, a school girl chum, for an automobile ride through Central Park and told them to say "another man did it" if they got caught. Rickard was under arrest at the time for attacking Alice Ruck, fifteen.

WOMAN TRAPPER'S TERRIBLE DEATH

With Arm Caught in Trap, She was Sucked in Mire—Died of Exhaustion.

Algonac, Mich., March 22.—An aged woman, who had been a trapper for a lifetime, died a terrible death in the St. Clair Flats, when, with a steel trap fast to her arm, she tried to wade to help, only to be mired in the soft mud. She struggled against the grip of the slime that slowly sucked her down until, waist deep, she died of exhaustion.

Several days ago Mrs. Sears left her Flats home in a duck boat to trap muskrat and mink. She did not return in the evening, and a search was made for her. Her body lay close to shore, sunk to the waist in the oozy channel bottom when the searchers reached her next morning. Gripped around her right arm was a large steel muskrat trap. It was apparent that her arm had become caught in the trap while she was in the duck boat. She had left the boat and had got to shallow water a few feet from shore when she began to sink.

It was evident that her losing struggles to release herself, aggravated by the pain from the cruel teeth of the trap had brought the mercy of exhaustion and then death.

In the flats section the women as well as the men are expert trappers and fish hunters, and Mrs. Sears for years had gone out alone in her duck boat to lay her traps. She was one of the best known pioneers of the flats section.

BRITAIN IS LENDING.

Extension of Capital to Continental Nations.

London, March 22.—The great strength of the investment bond market and the favorable condition of the foreign exchanges are making possible the extension of English capital to Continental nations, which are in need of financial assistance. The credit just granted by the British Government of £3,000,000 to Portugal is relatively small, but it is taken as an encouraging sign, because the money is to be spent in this market. Portuguese exchange on London is rising as a consequence and will probably go farther. Loans to Finland and Czecho-Slovakia are expected to be raised in the London market at no very distant date. The feeling in financial circles is that Austria's future also appears to be somewhat brighter as a consequence of the suspension of American liens on her assets.

HIT BY FORDNEY BILL.

Jamaica Wants Preference on Canada's Sugar Imports.

Kingston, Jamaica, March 22.—The Chamber of Commerce has passed resolutions urging the government to obtain from Canada a double preference from Canada on imports of Jamaican sugar, the view being to offset the effect of the Fordney bill's proposed sugar duties upon imports into the United States. The chamber expressed itself in favor of increasing the preference upon imports of Canadian flour and fish stuffs into Jamaica.

EMPLOYERS MUST PAY HEAD TAX FOR WORKERS

London, March 23.—In a mad search for additional revenue to fill the empty city treasury, the municipal council of Berlin, a despatch says, is going over all taxable objects with a fine tooth comb.

You are cordially invited to attend a free Demonstration of Baking

conducted by a practical and experienced Domestic Science expert, a member of the Educational Department of E. W. Gillett Co. Ltd., manufacturers of Magic Baking Powder, under whose auspices this demonstration is held.

At the Following Stores: M. A. MALONE, 516 Main Street; P. NASE & SON, LTD., North End; M. E. GRASS, 16 Germain Street; McBEATH'S GROCERY, 239 Charlotte Street; FORRESTALL BROS., 198 Rockland Road.

They have now hit upon a new tax, called a "head tax" for employers. Whoever employs twenty or more workmen or other employees must pay a hundred marks head tax for each employee. The new tax follows the recent "night life tax" for those who stay out late at night. All those who attend balls or frequent resorts after one o'clock must pay a special tax.

MORE TROUBLE IN SIGHT AT DETROIT

City Officials Claim D. U. R. is Trying to Defeat City Lines Purchase.

Detroit, March 23.—That the D. U. R. is endeavoring to defeat the \$18,880,000 purchase proposition by putting its most dilapidated cars back in service and relegating its more modern cars to the barns, was charged by city officials today. Voters will decide on April 17 whether or not to buy the company's city system at the price agreed upon by the city and company conferees recently.

The chief argument advanced against the purchase has been that the D. U. R. tracks and equipment are antiquated and worn out. City officials charged today that the company itself inspired this argument and is endeavoring to lend its weight by putting abandoned street cars back into service.

"I never saw such shabby old wrecks on Detroit streets in my life, as some of the cars the D. U. R. is now running," said one official. "I'm sure some of those cars have been idle in barns or on sidings, exposed to the weather, for years."

Then the official pointed out several cars which ran down Griswold street past the city hall. Their appearance certainly bore out the official's statement. They looked more dilapidated than anything the company has operated on the streets in many months.

"Evidently the company believes," said the official, "that it can convince the people that the purchase plan should be defeated merely by putting its newer cars in the barns and its most dilapidated ones on the streets."

The official added that he did not believe the public could be "fooled so easily."

MOTHER NATURE ACTS SURGEON

Removes Glass from Boy's Head After Several Years' Delay.

London, Ont., March 23.—In the explosion which wrecked the city of Halifax during the war, George Crichton, the young son of Brigadier Crichton, now of the local Salvation Army staff, but at that time stationed in Halifax, suffered a wound to the head from broken glass, since which time the lad has suffered much pain. Surgeons had found it impossible to remove the glass, and had advised that nature be allowed to use its own processes in the difficulty.

While the boy was in the Wortley Road School this week the piece of glass worked its way out, and the little fellow appears none the worse for the experience.

Robin Hood Flour

When Robin Hood dined the old Friar, They had a fine feast, it is said, Quoth his guest — "May I frankly enquire, The recipe for such cracking good bread?"

"Well worth the slight extra cost"

the beginning of February the percentage of unemployment among members of trade unions stood at 13.9, as compared with 15.1 at the beginning of January and with 18.1 at the beginning of February, 1919.

According to reports received from more than 5,000 employers, there was more employment during February than January, but the situation was still somewhat less favorable than during the corresponding period of last year.

1. One standard model. As time goes on we improve our methods of doing the things we have always specialized upon. There are no losses due to radical and unnecessary changes in design, causing the scrapping of machinery, tools and materials.

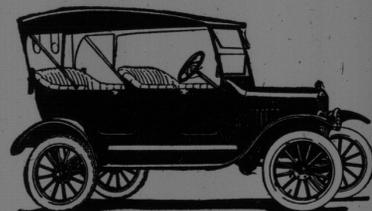

2. The adoption of new time and money-saving machines means new savings.

3. Quantity production has permitted us to obtain lowest prices on raw materials.

Although the 1922 car sells for less money than the 1914 model, the following improvements have been added:

- Improved upholstery
One-man top
Ventilating windshield
Side curtain envelope
Demountable rims
Spare rim and tire carrier
Roller bearings in front wheels
Leather door grips.
