APPLE SHIPMENTS FROM N. S. HAVE COMMENCED

Some of Nova Scotia's Product Have Been Sent Across Atlantic and to Newfoundland.

(Halifax Chronicle.) The apple shipment to the United Kingdom and to Newfoundland have commenced, and a record season is looked for.

About the middle of September, two large shipments are expected to be made. The Furness liners Castellano and Wigmore are both due to load between 12,000 and 15,000 barrels.

The Red Cross liner took a carload of apples to Newfoundland on her trip two weeks ago, and when she sails today she will have on board another 500 barrels.

Minard's Liniment for Dandruff.

MURINE After the Movies Wholesome-Cleansing-Refreshing When Your Eyes Need Care

PAT'S WIFE ON BACK TO HIDE \$5,000 GEMS

Detective Pats Her, Too, and Then Arrests Hotel Porter as Thief — Discloses Big Robberies.

(N. Y. Times)

After Detective Finn had arrested Edward Bond, a hotel porter, at 102nd street and Amsterdam avenue, at 6 o'clock last night, he thought there was something unusual in the way that Bond patted the back of his wife while he kept saying: "There, there. Don't worry. Everything will be all right."

So Finn, who first had asked Bond to go to the West 100th street Station to be questioned, then had overpowered him when he started to run, and then had arrested him when the struggle disclosed a loaded revolver in Bond's hip pocket, now patted Mrs. Bond's back himself. When he felt a lump there he asked Mrs. Bond to go to the station house too.

COLLIDED WITH A BIG WHALE Liner St. Paul Crashed Into It Off Coast of Ireland.

New York, Sept. 3—You could generally tell when a submarine was in the vicinity of the Atlantic coast of the St. Paul, didn't see any whale oil on the Atlantic last Tuesday, so he doesn't know, and maybe never will, whether or not he sank the whale.

Last Tuesday the St. Paul of the American Line, was 800 miles out from Ireland, headed for the North River. Suddenly there was a bump. Skipper Candy, the crew and 800 passengers slid forward three feet simultaneously.

WITH A SELLERS Kitchen Cabinet. You can systemize your kitchen work as never before. J. MARCUS 30-36 Dock St.

Skipper. "We're on the northern route." Then the whale—for such it was—jumped clean out of the water, much to the consternation of all the passengers.

Skipper Candy doesn't know whether the critter was in its death throes or just wanted to play.

St. Isidore, P. Q., Aug. 18, 1894. Minard's Liniment Co., Limited. Gentlemen—I have frequently used MINARD'S LINIMENT and also prescribe it for my patients always with the most gratifying results, and I consider it the best all-round Liniment extant.

NATIONAL LETTER CARRIERS MEET Peterboro, Ont., Sept. 2—At the nineteenth bi-annual convention of the Federated Association of Letter Carriers, which opened here today with President Pierre Menard, of Montreal, in the chair, and about seventy delegates from all parts of the dominion in attendance, it was decided to hold the conventions annually hereafter.

IT WILL PAY YOU TO RENT OUR NEW BOOKS At 3 cents a day. Come in and see them. Open Evenings.

### Must Obtain Peace For Europeans to Cure World's Ills

Ottawa, Sept. 2.—With the calm impartiality and cool detachment of a scientific physician diagnosing the ills of the world, Sir Auckland Geddes, British ambassador to the United States, today held the primary causes of the world's unrest and showing the danger of trying to dismiss it with haphazard and stock explanations or cure it with thin specifics directed at the symptoms rather than the roots of the disease. This alarming and world-wide phenomenon had made itself evident long before the war, but now had attained such dimensions that it behooved every forward-looking statesman the world over to do his best to secure peace for the Europeans and western civilization that a cure might be sought for these ills resulting from an industrialized civilization where the regards of labor were not always justly divided. Such a peace, sympathy, of a light on any other foundation than the development of a close sympathy, of a mutual respect and of a real understanding between the British nations and Canada was peculiarly placed by community of interest, of knowledge and of innumerable friendships to help better the United States of America. At the close of his address he was given a great ovation and Hance J. Logan, ex-M. P., of Amherst (N. S.), in moving the vote of thanks, said that the speaker himself was the architect of that "golden bridge of sympathy."

### A Race Riot In New York

New York, Sept. 2.—More than two thousand white and negro "longshoremen" engaged in a pitched battle at Pier Fifty, North River, today, which required the police reserves from virtually all the precinct stations along the water front to quell the disturbance. Traffic was suspended for an hour along West Street in the vicinity. The fight started when one thousand white "longshoremen" reported to the pier and found that five hundred negroes were unloading a vessel.

### HYDRO-ELECTRIC DEVELOPMENT TO START AT ONCE

Fredericton, Sept. 2.—It is understood that the New Brunswick Hydro-Electric Commission at its meeting here decided not to proceed with any power development on the North Shore at present, but will at once call for tenders for the construction of dam and other works at Shogomoc, York county, and Musquash, N. B. The Shogomoc development will provide for the St. John River valley from Fredericton to Bath in Carleton county, a distance more than 100 miles in length, while that at Musquash will be for the St. John river, extending east towards Sussex and west towards St. Stephen. Both of the developments will call for the construction of large dams of earth as well as power houses, but because of present prices of cement it is proposed to use as little concrete work as possible. At Shogomoc, in addition to the large dam there will be an extensive canal and the pipe line running from the dam to the power house etc, which will be immediately below the Meductic Rapids on the St. John river, about a mile or so from the site of the dam. Excavation for this canal will be a steam shovel job for a railway construction outfit, and it is understood several contractors have already looked over the work, plans of which have been prepared. Tenders for this work will be called for at once, and it is expected to have a commencement inside this fall. Tenders for the wheels, dynamos and power house construction will be taken until the details have been worked out by Henry Holgate, Montreal, the consulting engineer.

Musquash Development. The development at Musquash will also be started this fall and will bring the water from the west branch way into the east branch much in the same way as is being done at Halifax where the Indian River is being taken into the North River. The power house at Musquash will thus be located on the east branch.

### LIBERAL WINNER IN SHELBURNE

Halifax, Sept. 2.—In the by-election held in Shelburne county today Hon. E. H. Armstrong (Liberal) was elected by over 700 majority. The election was caused by the retirement of F. E. Smith to allow Hon. Mr. Armstrong to run as commissioner of works and mines in the Nova Scotia government. His opponent was Zenas F. Bower, lumberman, who was nominated as an independent candidate with the support of Conservatives, labor, farmers and fishermen.

### TRAIN KNOCKS STATION OVER

(Special to The Telegraph.) Truro, N.S., Sept. 2.—The C. N. R. railway station at Onslow, two miles north of here, was knocked over at 8 o'clock this evening when it was hit by a passenger train. The train was carrying a large number of passengers and a number of automobiles. The station was completely destroyed and the train was derailed. The cause of the accident is being investigated.

**NEURALGIA**  
A. J. FIELD (late) R. A. M. C.  
(1) "I suffered horribly from Neuralgia and pains in the legs. I received a large bottle of Phosferine from home. Even after the first few doses I felt relieved, in three of four days the pains had gone altogether. The nerve-rackling experience of working under terrific batrages was unbearable. Phosferine saved me from a breakdown. Since then I have found it a sure relief for nerve strain, depression and toothache."  
14, Vicerege Gardens, Seven Kings, Essex.

**NEURALGIA**  
Miss N. CSBORNE.  
"I have always suffered rather badly from nerves, and any strain, mental or physical, would result in the most agonizing attacks of violent neuralgia, followed by complete exhaustion. One day a friend persuaded me to try Phosferine. I gradually found myself enjoying the morning air, wanting my breakfast and taking interest and enjoyment in everything. In fact, my friends could hardly realize the change in me. Now that I am robust and strong again, from the fullness of my heart, I must thank you for the wonderful results of Phosferine."  
128, Albert Palace Mansions, S. W. 11.

**NEURALGIA**  
DRIVER D. A. WHETNALL, R.A.S.C. M. T.  
(3) "I was working practically night and day, bringing in 'flu cases to the hospital, until I began to feel myself going to pieces and becoming a nervous wreck. It was through Phosferine that I pulled through myself and was able to carry on with my work when we were short-handed. I suffered a lot from Neuralgia and Sleeplessness, but thanks to Phosferine I am as fit as a fiddle now."  
All these victims of nerve strain are fully agreed they owe their present well-being entirely to Phosferine. Phosferine enabled their nerve systems to provide the vital force to overcome their disabilities and to take up their daily activities with tireless rest.

**PHOSFERINE**  
When you require the Best Tonic Medicine, see that you get  
**PHOSFERINE**  
A PROVEN REMEDY FOR  
Influenza, Indigestion, Sleeplessness, Exhaustion, Nervous Debility, Neurialgia, Nervous Weakness, Premature Decay, Mental Exhaustion, Loss of Appetite, Lassitude, Neuritis, Painfulness, Brain-Pag, Anaemia, Rheumatism, Malaria, Headache, Nerve Shock, Sciatica.

**PHOSFERINE**  
Phosferine has a world-wide repute for curing disorders of the nervous system more completely and speedily, and at less cost than any other preparation.  
**SPECIAL BUSINESS AND TRAVEL NOTE**  
Phosferine is made in liquid and Tablets, each sold in two sizes. The Tablet form is particularly convenient for business men and women, all outdoor workers, travellers, sportsmen, etc. It can be used any time, anywhere, in accurate doses, as no water is required. The No. 2 tube is small enough to carry in the pocket and contains 90 doses. Anyone affected by unhealthy localities or climatic conditions will be the better for Phosferine—always put a tube of Tablets in your outfit.

**Revenue Is Increasing**  
Ottawa, Sept. 2.—With an increase of \$6,221,171, as respects war-tax collection (which includes sales and luxury taxation) for the month of August just closed) as compared with August of last year, the new taxes have begun to make their weight felt in the national treasury. Canada's total revenue for the month just closed was \$11,874,200, as against \$5,251,501 for the corresponding month of last year. The increase in the amount of war tax wiped out the decrease of \$108,915 in the total amounts received from excise and seizures, fines, methy-lated spirits and law stamps and left a net increase in inland revenue for the month of \$6,122,489. The total revenue for the fiscal year ending March 31 last, was slightly over \$38,900,000. A very conservative estimate, based on the August totals, places the total collections for the current year at approximately \$115,000,000.

The Evening Times and Star

ST. JOHN, N. B., SEPTEMBER 3, 1920.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE EXHIBITION.

The formal opening of the exhibition will take place tomorrow afternoon. As there has been no fair for some years there should be a very general interest in this one, for which such extensive preparations have been made.

Daily Telegraph—"The government is not to provide any money for harbor development. The commission will have to borrow the money required for new construction, and it cannot borrow any, according to Hon. Mr. Ballantyne, until it can show that after providing for all the fixed charges on existing property it will still have revenue enough from the shipping to finance new work.

The statement that several thousand harvesters who went west cannot get work should be investigated. Both the government railways and the C. P. R. conducted a great campaign to get men from the east.

Hon. E. H. Armstrong, Nova Scotia minister of works and mines, has been elected in Shelburne. The Tory party had succeeded in getting a candidate, described as an independent, but all the elements united in opposition could not prevail.

THE RIGHT FAITH.

But for the faith of its people the city of St. John would not occupy the position it occupies today. They had faith in themselves and in the geographical position of the port in relation to the trade of Canada.

There are more than ten thousand automobiles in New Brunswick, despite the fact that so many owners get that "tired" feeling.

It is good news that a real effort is to be made to enforce prohibition in St. John.

Why has not the government asked Halifax to adopt harbor commission?

Let us hope the sun has come to stay with us throughout the exhibition.

BOARD OF TRADE COUNCIL MEETS

A criticism of the fire protection offered by the city at the west side wharves and recommendations regarding the Royal Mail Steam Packet service and the provincial offices in London were among the matters before the regular meeting of the council of the Board of Trade, held yesterday at noon, in the board room.

Complaints regarding the present method of handling traffic between St. John and Nova Scotia stations on the D. A. R. system were heard and a committee was appointed to deal further with the matter.

Appreciating what the M. S. P. line had done to improve trade and tourist traffic between Canada and the West Indies, the council forwarded a recommendation to the federal government asking that the existing contract between the company and the government be renewed for a further period.

A communication was received from the Halifax Board of Trade, notifying the local board that the sister organization was in sympathy with the movement for a better agency representation in London for the maritime provinces and that the matter was being brought to the attention of the Nova Scotia government.

Resolutions for submission to the annual meeting of the Maritime Board of Trade, which meets in Amherst the latter part of this month, were considered.

There was considerable discussion upon the matter of adequate fire protection on the west side wharves, when it was said by one of the members, that the insurance carried by the city on the local wharf properties was only \$286,000 and the value of the property insured exceeded the value of the policy by more than \$2,000,000.

MURDER IN BOSTON

Boston, Sept. 2.—Antonio Spinazo was shot and killed at his home in the north end early today and the police sought Mary Spinazo, his wife. Children of the couple, who saw the shooting, said that their mother had fired when their father threatened to kill her, and had left home saying she would surrender herself to the police.

(Copyright by George Matthew Adams.)

THE RELEASE.

When Old Hiram Rumble was planted, I sighed like a son of a gun, although I was rather enchanted to know that his troubles were done. Some symptoms of grief are expected, when neighbors or friends pass away; we have to look sad and dejected, and give our emotions some play.

Domestic Happenings of Other Days

THE MURDERER'S TRIALS.

After the massacre of the Red River colonists that Lord Selkirk had sent to western Canada, there was a period of great rejoicing among the North Westers and the Bois Brules. Then Lord Selkirk came hot on the trail of the murderers.

The prisoners were allowed their liberty in the fort but after an attempt at escape had been discovered as well as a plot to offer resistance to Lord Selkirk, from whom eight barrels of powder had been stolen, the men were lodged in one building and kept under close guard.

On August 18, 1816, Selkirk decided to send the prisoners under guard to York (Toronto) for trial. They were in charge of lieu. Fauche. On the trip down the lakes one of the canoes was upset near Sault Ste. Marie and one of the prisoners was drowned as well as a sergeant of the guard and six Indians.

But the arrival in Montreal did not mean the approaching end of the case. An agitation against Lord Selkirk was developed by the powerful interests of the opposing company and in the end the affair ended with the trial of Lord Selkirk himself on four charges and a heavy fine was imposed upon him upon his conviction.

THE LITTLE ROADS.

I do not love the concrete crown; Which steel and concrete crown; I love the little lonely ways; That Autumn elches brown; Soft with the scent of hickory; And shut from the talking town.

I do not love the mansions; Men make for gold and gain; I love the country cabins, kissed Of the gypsy wind and rain, Where darkly pickaninnies wave At the broken window pane.

For when I walk the paths that pass By shabby door and gate; As sure as gypsy sun and star To stranger lost or late, Behind the broken window pane Will welcome always my guest— Kadra May in the New York Times.

IN LIGHTER VEIN. Old and New Models. "Happiness," said Jud Tunkins, "has to be cranked up, but trouble always has a self-starter."—Washington Star.

Its Opportunity. Berlin manufacturers are experimenting with the use of the nettle bag long been waiting for.—Punch (London).

Trend of the Times. "It's got so these days that a man can hardly wed unless he can show the girl two licenses?" "Yes, marriage and automobile."—Boston Transcript.

"What do you mean, sir?" said the angry man in the crowd, "by sticking your umbrella in my eye?" "No, no," replied the bystander cheerfully, "you're mistaken, I assure you." "Mistaken?" roared the aggrieved one. "Do you mean to say that I don't know when my eye is hurt? I saw you do it! How can I be mistaken?" "I assure you that you are, nevertheless," was the calm reply. "You may know when your eye is hurt, but you don't know my umbrella. This isn't mine—I borrowed it."—

CANADIAN KILLS WOMAN AND SELF

Lowell, Mass., Sept. 2.—Mrs. Ezekia Glines, twenty-nine years old, who left her husband two years ago, was found murdered in a bedroom of a tenement at 231 Dalton street, this city, when police officers broke into the house.

In the same tenement they also found the body of Adela Lapointe, a Canadian, forty years old, and a glass containing drops of a greenish fluid, which they believe caused his death. The couple had been living at the tenement for the past two months, neighbors say.

Examination of the woman's body showed that she had sustained a fractured skull, and police officials said that the woman had evidently been murdered by Lapointe. They also believe that Lapointe committed suicide by drinking some kind of poison immediately after the murder.

BLERIOT'S WAR PROFITS

Paris, Sept. 3.—Louis Bleriot, the first aviator to cross the English Channel, has been ordered by the French courts to pay immediately \$300,000 francs into the French treasury.

The amount was claimed by the Ministry of Finance as war profits. Bleriot accumulated through manufacturing airplanes and motors during the war.

QUEBEC IS ALL RIGHT.

(Montreal Herald.)

Is it wise to be continually talking of the aloofness or isolation of the province of Quebec? This province, which is the key-note member of the Confederation, is not conscious of isolation. On the contrary she goes calmly on her prosperous way contributing greatly to the prosperity of the whole Dominion.

Little if any good can come from such meetings where sentiments of the highest character are uttered and contrasted with actions which speak louder than words. The French-Canadian people are not in need of sympathy and far less in need of patronizing utterances.

The United States Department of Labor, the Federal Reserve board and the private commercial agencies are all agreed that prices generally are moving downward. According to Broadstreet there has been a lessening of prices on the average, all articles being considered, of 9.4 per cent. from the high peak of the year as reflected in the conditions found Aug. 1.

The retail prices have undoubtedly dropped in the line of foods and clothing. The first was certain in view of the crops now available but textiles are supposed to be held in large quantities by manufacturers and wholesalers. Ultimately they will reach the consumers and retailers generally are not buying in large quantities guarding themselves against a sudden decline.

The wool production is increasing as the industries become rehabilitated after the war and another decided factor that will eventually cause price reduction is the falling in ocean freight rates occasioned by the sharp competition afforded by the immense amount of shipping constructed during and since the war. Prices are falling in Europe as well as in this country.

Contracts for goods are now being made at decreased prices and this will of course ultimately result in gain for the consumer but many goods are still being delivered on old contracts not expected to be renewed.

Contracts for goods are now being made at decreased prices and this will of course ultimately result in gain for the consumer but many goods are still being delivered on old contracts not expected to be renewed.

### THE MIRACLE MAN STARTS WITH A BIG GIFT SALE

Today He Reduces Semi-ready Suits to Minus-Profits Costs, and Throws in a New English Cap For Good Measure to "First Ten."

The Miracle Man at the new Semi-ready store on Charlotte street has promised to perform commercial wonders during fair week. He will work miscellaneous savings for the visitors to the fair.

There will be no complaint by tourists and fair visitors about any tendency to charge them top prices for merchandise, is the promise of George Cleary, who has promised to follow the policy laid down by the Miracle Man.

"I started operations in Canada a few months ago," said the Miracle Man. "For a long time I could find no merchants of importance to co-operate with me to the full extent I wished to get. Plenty of the little and irresponsible fellows wanted to join up with me in my campaign for lower prices, but one can't tell what their figures mean. They juggle so."

"My first real campaign was with a semi-ready store where I least expected it—for the price label in the pocket of a semi-ready garment enforces the nearest-to-cost price I know of, and the profits are so small that many merchants won't touch semi-ready suits at all."

"Now, here is what an English clothier wrote me this week, and mind you, the cloth market was booming and rising when I started this campaign in Canada. Hear what he says:

"Canada is not alone in respect to a market for woollens at present high prices. With all the markets of the world open to us here in England, not one is buying anything, and they are all hard up. There you are. I helped bring them to their senses."

"Canada can go it alone—can produce all she wants and can sell along on an even keel when these spectacular and sky high price boosters are squelched."

"With even Americans discounting our money—Americans whose courage is not as good as ours and whose banking system is a joke compared with ours—why it's time we began to dictate what prices we should pay. It is time for us to conduct campaigns, to refuse to pay sky high prices for necessities and to decline to trade with a nation that spurns our money at its face value."

On Friday the Miracle Man opens the

Tall Footed Ice Creams and Sherbets in attractive designs of Cut and Etched Glass. Also Lemonades, Water Tumblers and Pitchers. Appropriate this season of the year.

PROVINCIAL AGENTS.

### BRIDE'S FATHER STOPS WEDDING

Moncton, Sept. 2.—A girl of seventeen and a young man belonging to a village six miles below Dorchester, are under arrest here. The couple endeavored to get married, but the ceremony was delayed by the arrival of the girl's father to claim his daughter. The arrests were made at the father's request, but it is thought that the case will be adjusted and a marriage permitted.

### RECENT DEATHS

Hopewell Hill, Sept. 2.—(Special)—Mrs. R. C. Bacon of Hopewell Cape, has received word of the death of her brother-in-law, Joseph Cullen at Fresno (Cal.), where he had been living for many years. Mr. Cullen was a son of the late David Cullen of Hillsboro, and lived at this village for a time before going to California. He made many friends while there, who will be sorry to learn of his death.

### RECENT WEDDINGS

A quiet wedding took place on Wednesday afternoon at 4 o'clock at St. Andrew's church, St. Andrews (N. B.), when Rev. Father D. S. O'Keefe united in marriage E. A. Cummings and Miss Elizabeth Gow, of Montserrat. The bride was attended by Miss Genevieve Howe and Mayor W. F. Kennedy supported the groom. After the ceremony a dainty luncheon was served at the home of the groom. After a trip to Montreal, Mr. and Mrs. Cummings will reside at St. Andrews. The good wishes of many friends are extended to them for their future happiness.

### GULF STREAM UNCHANGED

Reported Change of Course Termed All Nonsense  
Toronto, Sept. 2.—Sir Frederick Stupart, chief of the Toronto Observatory, characterized a cable despatch to the effect that the Gulf Stream was changing its course as "all nonsense." Sir Frederick said he did not think that the Panama Canal could have any influence on the Gulf Stream, and pointed out that if there had been an upheaval of the ocean bed, as was stated in the cable, the recording instruments would not have failed to show it.

### CANADIAN GOODS BETTER AND SOME ARE CHEAPER

The Canadian Reconstruction Association is formed by an experienced Toronto druggist, who is not personally interested, that many toilet commodities, such as face creams, powders, and toilet soaps, made by plants in Canada, are of quite as high quality and as satisfactory in use as similar imported products. Moreover, the Canadian-made goods are somewhat lower in price.

in the United States, and undoubtedly this has hampered the coal shipments in a very serious way. Other reasons given are mainly labor troubles and the high cost of labor, etc.

While the great coal combines in this country and in the United States are giving these excuses, and, incidentally, not forgetting to attend to the prices going up, a considerable quantity of coal is being exported to Europe from Canada. The people across the Atlantic must have coal, and they are prepared to pay higher prices than people on this side. Big offers cannot but be tempting, but it is getting so serious for everybody now

**PRINCE CAROL LONGS FOR SUBWAY CRUSH**

Ride During Rush Hours the Experience He Wanted Most, He Says—He Doesn't Like Jazz.

(New York Times.)  
Crown Prince Carol of Roumania, has had such a good time during his unofficial visit to New York that on the eve of his departure for home he con-

sidered his decision not to grant interviews and for half an hour faced a battery of newspapermen who sought his opinions on all kinds of subjects, ranging from jazz music to woman suffrage. Throughout the interview, which took place late yesterday afternoon in his suite in the Waldorf-Astoria, he demonstrated the accurate knowledge he possesses of American affairs and the English language.

After expressing his appreciation of the cordiality of his reception here, he said: "I expect to return to America in a year or so for a longer visit, when I hope to see more of the country." "What has impressed you the most

**To Enjoy Picnics—**  
the lunch must be a success. Whether tea or coffee is the favorite, everyone wants milk. Take along a few convenient sized cans of BORDEN'S and insure fresh country milk for every meal.

during your stay in the United States?" he was asked.

"Generally speaking, the all-important part played by business in the lives of your people. You are essentially a business people and business seems to be paramount to everything else. Most of the people I have met here have been business men. I have had no opportunity this time of studying your society life."

"What do you think of prohibition?" was the next question.  
"When does it begin?" the Prince answered with a twinkle in his eye. Then seriously he went on: "On the whole I believe it is a wholesome thing and appears to be beneficial. No, I do not believe we will have prohibition in Europe, certainly not in my country, as we do not need it. My people drink light wines and there is no intoxication."

Prince Carol expressed his dislike for jazz music, saying that it had no harmony. Regarding American newspapers he thought those in the east were better than those in the west. The Eastern newspapers were more serious and further east across the pond they were still more serious, he added.

"When I was on the coast the newspapers gave more space to the account of the death of one of your leading baseball players than to the Russian defeat," Prince Carol explained.

"Do you know," he added somewhat wistfully, "the experience I have wanted most, namely, to ride in the subway during your rush hours, I have not been able to have. I've been so rushed, that it could not be arranged this time."

"Do you believe in suffrage?" was the final question asked him.  
"Yes, decidedly," he replied. "There is a well defined movement for extending the ballot to women in Roumania. As woman is the home builder of a nation there is no question that the granting of the vote to her will be a stabilizing influence. And, in passing, may I

**GERMANY DUMPING INFERIOR GOODS**

Stamp Exports "Made in England" in Effort to Regain Trade.

Washington, Sept. 3.—(Associated Press)—Germany is dumping its surplus inferior goods in Great Britain and the United States and is marking its exports to Great Britain "Made in America," and its exports to the United States "Made in England," so official advisers received here state.

German exporters are following this practice the advisers said, in an effort to regain their foreign trade and to realize quickly large sums on manufactured articles which otherwise might not be sold because of popular prejudice. Such tactics are discrediting United States manufacturers in Great Britain and British manufacturers in the United States, the advisers declared.

Antwerp, Sept. 3.—M. M. Kirksey, San Francisco, one of the United States sprinters, was arrested, handcuffed and taken to the police station early in the week by Belgian gendarmes, who, unable to speak English, blocked Kirksey from entering the United States dressing-rooms at the stadium.

Kirksey had just returned with Charles W. Paddock, Los Angeles, from Paris for the medal presentations. He had tickets, but when he tried to enter the dressing-rooms he was stopped by the gendarmes, who apparently had orders which were unknown to the sprinters, to the effect that the rooms were to be used only by football players. Kirksey later was released at the station house. He was charged with resisting an officer. The American Olympic commission is investigating the case.

**CALLED HER LIKE DOG; NOW SHE ASKS TO BE GIVEN DIVORCE**

New York, Sept. 3.—Her husband whistled for her instead of addressing her by name when he wanted to attract her attention, Mrs. Adelaide M. Sommer alleged in her suit begun in the Supreme Court, Brooklyn, for a separation from Andrew I. Sommer, a tailor, whose shop was at Fulton street and Oxford street south. She alleges that although he accumulated \$50,000, he refused to provide enough money for household expenses and clothing, that he refused to pay an oculist's bill for her, and that he remained away from home three weeks without explaining where he had been.

Laura, their seventeen-year-old daughter, supported her mother's allegations with an affidavit alleging inhuman conduct. Sommer denied the charges. He said that his wife moved all the furniture out one day while he was on the roof of their home.

The schooner Ada A. McIntyre, which sailed from this port for Africa on her maiden voyage two years ago, has returned to St. John for the first time. She brought a cargo of molasses from the Barbadoes. She was launched at Moss Glen September 25, 1918.

Its belief that the deterioration of the crop in the month of September is likely to be the greatest ever known. In addition a shortage of labor threatens the successful harvesting of the crop. Excessive rains have been the chief factor in the stroke at the cotton crop. Dealers say that a minimum price based upon the cost of production would mean a price above any price for which cotton has sold since the war.

Marine Notes.  
The schooner Ada A. McIntyre, which sailed from this port for Africa on her maiden voyage two years ago, has returned to St. John for the first time. She brought a cargo of molasses from the Barbadoes. She was launched at Moss Glen September 25, 1918.

**PREMIER TO RETURN**

Larne, Sept. 2.—Lloyd George has decided to end his visit to Switzerland and return to England by the beginning of next week, without holding any further conference here, his son, Major Richard Lloyd George, said today. "The premier," Major Lloyd George added, "would not attend the meeting to be held on September 12 at Aix-les-Bains, when Premier Millerand of France and Premier Giolitti of Italy, will hold a conference."

Larne, Sept. 2.—Lloyd George has decided to end his visit to Switzerland and return to England by the beginning of next week, without holding any further conference here, his son, Major Richard Lloyd George, said today. "The premier," Major Lloyd George added, "would not attend the meeting to be held on September 12 at Aix-les-Bains, when Premier Millerand of France and Premier Giolitti of Italy, will hold a conference."

Marine Notes.  
The schooner Ada A. McIntyre, which sailed from this port for Africa on her maiden voyage two years ago, has returned to St. John for the first time. She brought a cargo of molasses from the Barbadoes. She was launched at Moss Glen September 25, 1918.

Its belief that the deterioration of the crop in the month of September is likely to be the greatest ever known. In addition a shortage of labor threatens the successful harvesting of the crop. Excessive rains have been the chief factor in the stroke at the cotton crop. Dealers say that a minimum price based upon the cost of production would mean a price above any price for which cotton has sold since the war.

**Let Us Face The Facts**

THE great majority of families in Canada cannot have the doctor for every ailment or simple injury on account of the expense, or cannot receive his early help because of the distance, even when their means permit. Something must be always on hand ready to combat these minor ills and accidents in place of the physician, or until he comes.

For nearly three quarters of a century PERRY DAVIS "PAINKILLER" has been a leading household medicine for just these purposes. It is used in nearly every country on the globe by people of every race, requiring the printing of directions in over twenty languages and tongues.

This world wide test of long experience warrants our recommending that you always have with you when travelling, or on hand when at home, a bottle of "Painkiller" ready for use in emergencies and especially for the purposes noted below.

For acute painful stomach and bowel attacks (summer complaint) take a teaspoonful dose of Perry Davis "Painkiller" in a glass of warm water slightly sweetened, following the other fuller directions on the wrapper accompanying each bottle.

For sprains, bruises, insect bites and stings, apply the "Painkiller" freely by hand or with a bandage.

For Chills resulting from exposure to cold or damp, take a teaspoonful dose of "Painkiller" in a glass of warm water or milk, slightly sweetened, just before retiring. This treatment with the other measures given on the directions accompanying each bottle will be found most effective in warding off Colds, Bronchitis, La Grippe and Pneumonia. For children's Croup and Bronchial attacks.

If a child at bed time shows evidence of such attacks coming on, wring out a flannel cloth in a cupful of hot water to which a teaspoonful of "Painkiller" has been added, wrap this around the child's throat and place over same another cloth. The warmth and drawing power of the "Painkiller" are remarkably effective in checking the ailment, soothing and inducing sleep, sparing both mother and child a restless night.

**A Comfortable Home**

A SOUND, lasting roof, weather-tight and fire-resisting, is what the owner wanted when he built this house in Fredericton, N.B. Investigation of various roofing materials convinced him that for durability, freedom from repairs and positive roofing protection no other roofing equalled

**NEPONSET TWIN SHINGLES**

Asphalt Saturation—Slate Surfaced—Fire Safe.

The size and shape of Neponset Twin Shingles permits of them being laid four inches to the weather, making a roof that endures many years.

These are the only twin shingles manufactured—two shingles in one. They are quickly and easily laid, require one-third less nails, are laid close together and have the appearance of a slate roof.

Neponset Twin Shingles do not split, curl or dry out, and once laid, form a roof that endures many years.

Their attractive color—red or green—gives the roof an artistic appearance that harmonizes with the surroundings.

The ideal roofing for Residences, Bungalows, Churches, Schools and Public Buildings.

There is a Neponset dealer in your district. Write us for his name and a copy of our illustrated booklet "Roofing Canada."

CANADA'S PULP AND PAPER INDUSTRY

Remarkable Growth Due to Sound Industrial Principles on Which It is Founded—Pulpwood Resources.

What are the reasons for the advance in market prices of the various pulp and paper securities during the past few years? Investors are recognizing more and more the intrinsic merit of these securities, and the wisdom of purchasing bonds and stocks of sound, well managed companies.

The explanation is found in the present favorable situation of the pulp and paper industry in Canada. At no time in its history has this domestic industry attracted so much attention as at present, for its enormous expansion from comparatively insignificant proportions to its present status has made it Canada's largest manufacturing export industry.

The latest official census of the industry, from reports gathered during the year 1918, shows the existence of thirty-seven pulp mills, 81 paper mills and twenty-six combined pulp and paper establishments in operation. The total amount of capital invested is \$241,844,704, of which \$12,520,765 is invested in pulp mills exclusively; \$71,708,229 is in

IMPORTANCE OF THE WHEAT CROP

Estimate Shows That World's Production Will Fall Below Demand—Figures Indicate Situation.

(The Income Builder.) The importance of the wheat crop in Canada would be hard to exaggerate. A general survey of the estimated wheat consumption shows that the estimated wheat production will fall below the demand.

European agricultural production this year will hardly exceed 70 per cent of the pre-war normal. The wheat acreage of England and Wales is slightly less than last year. Belgium's grain acreage is about the same as last year.

A careful computation shows that in all industries, including agriculture, that the European output scarcely exceeds 60 per cent of the pre-war output.

The present position of the world as regards wheat has not been caused directly by post-war conditions. Even before 1914 the world's supply for the primary foods and materials was tending to exceed the supply.

Only tablets marked "Bayer" are Aspirin. Not Aspirin at all without the "Bayer Cross".

Ouch! Lame Back. Rub Backache, Lumbago, Soreness and Stiffness Away—Try This!

The year 1919 holds the record in the value of Canadian field crops, the total value being \$1,492,487,500, according to figures just issued by the Dominion Bureau of Statistics. It also holds the record for the amount of land under cultivation, 53,046,640 acres.

The great bulk of it, however, is Canadian capital, provided by Canadian investors. A conservative estimate of the number of individual shareholders in Canadian pulp and paper companies places them at 25,000. The shares of the larger companies, which are listed upon the stock exchanges, are popular with investors. The fact that the industry is a basic one; that it is founded upon sound industrial principles; that a permanent and profitable market for its products is definitely assured; that, unlike many Canadian industries, it is not subject to domestic tariff legislation; that it is administered on the whole by conservative and safe business methods; and that its securities are in general demand, accords to the industry high rank in the field of Canadian finance and investment.

The rapid growth of Canada's export trade in pulp and paper products, already alluded to, is shown in the following statement, covering the years 1911 to April, 1920, inclusive:

Table with 3 columns: Year, Paper and Pulp, Total. Rows for 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920.

Chemical Mechanical Total. 1911 1,208,101 24,407,431 25,615,532. 1912 1,387,533 25,006,770 26,394,303. 1913 2,100,542 34,885,702 36,986,244. 1914 2,923,083 34,411,741 37,334,824. 1915 4,806,622 38,011,011 42,817,633. 1916 4,439,539 37,575,387 42,014,926. 1917 14,029,290 6,971,133 21,000,423. 1918 19,135,813 6,487,079 25,622,892. 1919 30,226,856 4,479,915 34,706,771. 1920 33,000,063 9,888,419 42,888,482.

PROMPT RELIEF for the acid-distressed stomach—try two or three KI-MOIDS after meals, dissolved on the tongue—keep your stomach sweet—try KI-moids—the new aid to digestion.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN. Not Aspirin at all without the "Bayer Cross".

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

There is only one Aspirin—"Bayer". You must say "Bayer" Aspirin is the trade mark registered in Canada of Bayer Manufacture of Monocetylacetic acid of salicylic acid. While it is well known that Aspirin means Bayer Manufacture, to assist the public against imitations, the Bayer Company will be stamped with their general trade mark, the "Bayer Cross".

Ouch! Lame Back. Rub Backache, Lumbago, Soreness and Stiffness Away—Try This!

Back hurt you? Can't straighten up, without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica or maybe from a strain, and you'll get blessed relief if you rub your back with soothing, penetrating "St. Jacobs Oil." Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on and out comes the pain. It is perfectly harmless and doesn't burn or discolor the skin. Limber up! Don't suffer! Get a small tin bottle from any drug store, and after using it just once, you'll forget that you ever had backache, lumbago or sciatica, because your back, lumbago, sciatica, or whatever it may be, never hurts again. It causes no more misery. It never disappoints and has been recommended for 60 years.

The acreage under crop during this period has been as follows:— 1919 51,427,190. 1918 53,046,640. 1917 42,602,288. 1916 39,140,460. 1915 33,436,675.

Wheat was the most valuable crop during 1919, being worth \$364,837,000; oats third with \$317,097,000; potatoes, \$118,894,200; barley, \$77,462,700; flax, \$22,609,500. The wheat crop was worth \$83,000,000 more than in 1918; the oat crop was worth \$16,000,000 less; hay and clover were worth \$97,000,000 more.

and the principal grain crops as shown is declining. Wheat, for example, was about 10 bushels to the acre in 1915 and about 26 bushels in 1919. The variations are occasioned by climatic differences during the years, but the fact remains that more intensive cultivation is needed.

Western Canada has 225,000,000 acres available for cultivation of which only 13,000,000 acres are at present being cultivated or less than 14 per cent. The largest consecutive wheat field in the world, about 300 x 300 miles, lies in the Prairie Provinces. Canada at the present time ranks fifth among wheat producing countries, its acreage of wheat being over 7 per cent of the world's total of 30 countries. In 1919 the field crop represented a production of over \$165 per capita, compared with \$110 per capita in the United States.

WORLD CHURCH ALLIANCE URGES THAT AMERICA ENTER LEAGUE. Bern, Switzerland, Sept. 3.—The conference of the International Committee of the World Alliance for Promoting International Friendship Through Churches ended at Bernberg after the adoption of a resolution, upon the initiative of a French delegation, expressing a strong desire that America should enter the League of Nations.

Among the well-known men who are taking part in the proceedings are Lord Desborough, K. C. V. O., President of the British Chambers of Commerce, late President of the London Chamber of Commerce and Chairman of the Congress Organizing Committee; Mr. A. J. Hobson, President of the Association of British Chambers of Commerce and Deputy Chairman of the Organizing Committee; the Hon. J. G. Jenkins, Treasurer; Sir Edward Dawson, Sir Alexander McRobert, Sir James Hill, Bart., J. P., Sir Bertram Windle, F. R. S.; the Hon. Sir Thomas Mackenzie, late President of the Dominion of New Zealand; Sir Harold E. Boulton, Bart., Sir Logie P. Watson, Sir Howard Egville, K. B. E., Mr. A. R. Atley, M. P., and other representatives of the United Kingdom, Australia, Canada, New Zealand, South Africa, India and Ceylon and of the West Indies.

His Majesty the King is patron of the Congress, and the Duke of Devonshire, Governor-General of Canada, is the Honorary President.

The list of Vice-Presidents includes a large number of representative public men specially associated with the Governments of the Empire and with commerce generally.

Arrangements for the reception and entertainment of the delegates of the Empire Chambers of Commerce and Boards of Trade are rapidly being completed. The only hitch in the program in Montreal to take care of the delegates on the dates set, which may necessitate a slight change in the itinerary of the tour.

The delegates will arrive in Toronto on Friday, September 17, and will be tendered an official welcome at Massey Hall, with addresses by the Hon. the Lieutenant-Governor of Ontario, Premier Drury, Mayor Church and C. Marriot, President of the Toronto Board of Trade.

On Saturday, September 18, the congress will open at Capricorn Hall, where the preliminary formalities will be observed, followed in the afternoon by a garden party at Government House and a theatre party in the evening. The regular business of the congress will start on Monday, and continue throughout the week until Friday, September 24, when the party will leave Toronto by train for Niagara Falls, where it is expected they will make an extensive tour of Ontario and Quebec, finishing about October 9.

The Pathway of Progress

Goes Straight Through the Heart of CRESCENT HEIGHTS HOME SITES

Electricity, Gas, Sewers, Tramcars, Cement Sidewalks, Playgrounds—all these and more too—the hand of Destiny have prepared for CRESCENT HEIGHTS—High and Dry in the Heart of the Most Prosperous City in Canada lies CRESCENT HEIGHTS—St. John can only grow one way, and that way is directly through CRESCENT HEIGHTS—Stupendous Fortunes have been made by Real Estate Speculators in St. John—Get away from the Real Estate Profiteer—Get out from under the landlord's heel—Own your own home—Start Today—All You Need is \$10.00 Cash.

TURN YOUR VICTORY BONDS INTO A HOME—Aid Given to Build

Five Magnificent Homes—All rented and returning fine income. A reasonable first payment of \$500 or more will secure immediate ownership of these flats. Call Saturday Morning early.

On Millidge Avenue—Monthly income from this property is now \$24. This can be bought for a reasonable first payment and balance as rent.

Two Family House on Exmouth Street. Just the kind of a place for anyone wishing a good home and a desirable rental location. The monthly rental income from this property now is \$44.50. This price buys it.

MR. WORKINGMAN:—You work all your life and pay rent—you are a good Tenant—you pay promptly—What do you get?—You get a receipt—What is the receipt worth?—Absolutely nothing—What thanks do you get?—You get kicked out in the street as soon as a man who rents a Home Site—A deposit of \$10 will start you on the way to own your own home—it can be arranged so that you can start building at once if necessary—You hear every day "Yes, he is a good man, he owns his own Home." He is one of the good men—own your own home—Start today and you will be years nearer your desire.

MR. BUSINESSMAN:—Where the grass is green and the air is pure and sweet—Away from the dust and dirt and turmoil of the crowded and over populated areas you will find rest and ease and comfort after a trying day at the office or store.

A Ten Dollar Bill Lays the Corner Stone of Your Future Home. Perhaps you have a Family—Then if you have you owe it to them to place a roof over their heads that belongs to them and to you—Perhaps you're a young fellow just thinking about asking the only girl in the world to share with you for life what you offer her?—Have you a Home?—Have you a Home Site? Are you going to ask her to worry about rent day the rest of her life? Get started right—Buy a home site—Build a Home—Own it—Live in it and get something besides a receipt for your money.

How Many Times Have You Heard—We can't do it this week because it is rent this week? Rent week is the boogey man in 60 per cent of the homes in the city of St. John—Rent week is the week when Johnny cannot get the hall he wants—Rent week is the week when the sister cannot get her new hat—Father has to cut down on his smokes—And Mother has to worry because Father has been on short time and she is a little shy of the rent—But maybe the Landlord will wait a week for the small balance—THE LANDLORD IS THE BOOGY MAN OF ST. JOHN—GET AWAY FROM UNDER HIM—BUY YOUR OWN HOME—BUILD YOUR OWN HOME—BE IT EVER SO HUMBLE THERE IS NO PLACE LIKE—YOUR OWN HOME.

A Home Site for Every Purse—Terms to Suit All. Facing East with the Glorious Morning Sun shining directly in your eyes in the morning. You are monarch of all you survey on these sites—High, dry, a Fine Spacious Home Site in the Heart of the Very Finest New Development in St. John—Any Terms in Reason and Here is the Price.

CRESCENT HEIGHTS HOME SITES. 69 Dock Street. OPEN EVERY NIGHT UNTIL NINE O'CLOCK. Phone Main 4038.

WOMAN SUFFERED 12 YEARS

Finally Made Well by Taking Lydia E. Pinkham's Vegetable Compound.

Emmitsburg, Md.—"I suffered for twelve or fifteen years, and was treated by a physician, but got little relief. I saw an advertisement of Lydia E. Pinkham's Vegetable Compound in my paper, so I thought I would try it, and it did me more good than all the doctor's medicine. I am a farmer's wife and do my housework all the time, and I am better now than I have been for years. I am never without Lydia E. Pinkham's Vegetable Compound in my house and have recommended it to several of my friends. You are perfectly welcome to publish my letter for the good it may do other women."—Mrs. ERNEST WARREN, Emmitsburg, Md.

GET READY NOW TO ASK FOR MORE

Anthracite Workers Sign Contract But Dissatisfied—Some Not Working Today.

Seranton, Pa. Sept. 3.—Representatives of the United Mine Workers of America, who last night accepted and signed a new two-year contract with the coal operators, based on the award of the Anthracite Coal Commission, giving an 11 per cent increase ranging from 10 to 25-7-8 per cent, met today to formulate a plan for re-opening the agreement and asking for further reasons. The union leaders declared the contract just signed is unsatisfactory in that it gave the workers little more than the offer of the operators which was rejected last spring.

Many colliers throughout the anthracite regions were still idle today due to workers remaining away from the unions as a protest against the terms of the award.

A despatch to J. M. Robinson & Sons says it is estimated 100,000 miners are idle in the Pennsylvania fields and that the American Federation of officials admit that miners control the situation.

PASTOR RETURNS WAR RELIC

Letters to Worcester, Mass., with Mass Plate Found in France.

The Rev. Joseph Ryerson, D. D., rector of Grace Episcopal Church, at Riverside, L. I., has just returned after a return trip to Worcester, Mass., taken during his vacation for the purpose of returning to a young ex-serviceman of that city a tin mess plate which the young man picked up in September, 1918, in the battlefield of St. Mihiel. Dr. Ryerson was then a Y. M. C. A. secretary in France. He had lost his own mess plate and hunted about until he found one. On it was inscribed a soldier's name, his number, and the word "France."

Ryerson kept the plate and after returning to this country, learned the number of its owner by giving the name of the man to the war department. The owner, he learned, was Corporal George Allen of Worcester, Mass., who had been a member of the 64th Battalion, 26th Division. Dr. Ryerson learned incidentally that Allen is now engaged to "Grace," whose name was cut in the plate.

NOTICES OF BIRTHS, MARRIAGES AND DEATHS, 50 cents.

BIRTHS

LAVIN—On September 2, 1930, at 156 Queen street, W. E. Mr. and Mrs. James Lavin, a daughter.

BROWN—On Sept. 2, 1930 to Mr. and Mrs. Geo. L. Brown, Winslow street, West—a son.

MARRIAGES

HA M-COVEY—In the Baptist church, Halifax, N. S., on Sept. 2, 1930, Rev. H. R. Boyer, Robert Mathias of St. John to Adeline Mathias of Halifax.

DEATHS

TINGLEY—At 151 St. James street on September 2, 1930, Edwin T. Tingley, wife of G. W. Tingley, leaving two sisters and two brothers to mourn.

Funeral from her late residence at 2 p.m., on Saturday, September 4.

IN MEMORIAM

MORROW—In loving memory of our dear son and brother A. T. Morrow who gave his life for the cause of freedom on Sept. 3rd, 1918.

Now he sleeps beside his comrades, In a hero's grave unknown. But his name is written in words of love

On the hearts he has left at home. FATHER, MOTHER, BROTHERS AND SISTERS.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

"Bill" LYTELL'S BOY ON IMPERIAL SCREEN

The Favorite Star in "Alias Jimmy Valentine," a Fine Week-End Bill.

Bert Lytell, the star of "Alias Jimmy Valentine," now showing at the Imperial Theatre, a son of the well known W. H. Lytell, ("Bill"), so familiar to St. John play-goers, has been hailed throughout the country as the big "discovery" of recent years in the motion picture world. Critics are still expressing surprise at the highly finished artistry of the young star. Never was more fulsome praise given than that which greeted Mr. Lytell for his recent performance in "Lombardi, Ltd.," the Moroso stage success by Frederic and Fanny Hatton. "The Right of Way," the picture which is the capstone of the Lytell picture series of Sir Gilbert Parker's novels, and now in "Alias Jimmy Valentine," Mr. Lytell was educated in Upper Canada College and considers himself virtually a Canadian.

LYRIC RE-OPENING

Musical Comedy Stock Season to Open on Monday.

The Lyric Theatre will return to its former policy of light musical comedy next Monday with a big special holiday matinee and two evening performances. "The You Tell Zons" is the capstone of the aggregation which will open this engagement and it will be pleasing news to many to learn that the principal comedians will be Joe Burkhart, known better as Mickey, Mr. Burkhart will be supported by an especially selected cast of artists and a delightful chorus of dainty girls. The opening bill is entitled, "The Mix-up of Mickey." Every effort will be made to present only good clean entertainment and lovers of musical comedy will look forward to a season of refined, high class and entirely different offerings. Matinee Monday 2:30; two evening performances, 7:15 and 8:45.

JACK DEMPSEY AT THE STAR

Jack Dempsey, who will defend his title against Billy Mike on Friday night at the Star tonight, both in and out of the ring, at the Star tonight in the serial story "Daredevil Jack." The western drama and several comedy pictures are also on tonight's programme.

YOUNG-ADAMS CO. HERE ON SEPT. 13

The Young-Adams Dramatic Company are booked at Queen Square Theatre, September 13.

PERSONALS

Mrs. Leonard Tilley, the Misses Tilley, and Master Leonard Tilley, who have been spending the months of August at Smith's Cove, N. S. have returned to Roshealy.

Miss Elizabeth Phillips of St. John, has returned to Boston, after spending two months with relatives here. Miss Phillips has graduated from Sumnerville High School and is now at the Frost Hospital training for a nurse.

Word has been received that Lord Beaverbrook will arrive in Newcastle on Thursday, Sept. 9, to visit his mother, Mrs. William Aitken.

Mrs. R. W. Churchill of Hantsport arrived in the city this week and is visiting her parents, Mr. and Mrs. R. E. Armstrong. Mrs. Churchill traveled by auto to Digby.

Mrs. Ellen B. Ayer, 255 Prince street, West St. John, announces the engagement of her niece, Carrie L. Ayer, daughter of the late Edwin J. and M. Emma Ayer of Westmorland Point, to Lancing A. Reid of Cornish, New Hampshire, the marriage to take place at an early date.

Mrs. Allan Russell of St. James street left this morning for Yarmouth, where she will join her husband. Mrs. Russell had been in this city left last evening on an extended trip to New York.

Miss Alice Wilson was hostess yesterday afternoon at her home in Seely street at a charming tea given in honor of the principals in an interesting event. About a dozen of the girl friends of the guests of honor were present.

Mrs. Walter Watson, accompanied by her grand-daughter, Evelyn Abbey, who has been visiting friends in Renforth for the last month, left on Wednesday morning for the home of her daughter, Mrs. Lucien Petzoldt, M. D., of Commonwealth Avenue, Boston.

J. M. Woodman, superintendent of the New Brunswick district of the C. P. R., went to MacAdam today and will inspect the line in that district.

N. R. DesBrisay, district passenger agent of the C. P. R., arrived home yesterday from Halifax where he has been on official business.

Rev. W. D. Wilson, chief liquor inspector for New Brunswick, is in the city today from Fredericton.

CONDENSED NEWS

Poni's liabilities are reported at \$5,948,207.

Sterling exchange in New York today was steady. Demand 85 1/2; cables, 86 1/2. Canadian dollars 95 1/2 per cent discount.

The wage dispute of the Sydney, C. B., coal miners has been settled.

ANIMAL HOSPITAL TREATS 50 CASES IN EVERY DAY

Large Institution With Staff of Experts Relieves Suffering of Horses, Dogs, Kittens and Canaries.

Puppies, kittens, monkeys, parrots, guinea pigs, weasels, rabbits and other domestic animals swallow corks, thimbles, hairpins, marbles, spoons, rubber balls and other indigestible things. Horses inhale fumes from burning stables, cats collect pins and needles in their soft paws and delicate canaries put rather tough objects in their little beaks.

This may seem rather a trivial observation. Nevertheless, a large institution, with a staff of medical and surgical experts, is kept busy day and night in relieving the sufferings of the dumb beasts which are the companions of man and which, not unlike man, bring woes upon themselves through foolish pranks. Any one who saunters into the free animal hospital maintained by the New York Society for the Prevention of Cruelty to Animals in a spacious building at the foot of East Twenty-fourth street is confronted with the sight of a battered cat or the splintered foot of some other animal, that not human life alone is beset with vicissitudes.

Some droll philosopher has remarked that man sympathizes with dumb creatures when they get into trouble because the aggregation which is the result of his analogy to the consequences of his own. Be that as it may, the only purpose which prevails at the society's hospital is to relieve the dumb creatures as quickly as possible and to send them back into the world again as sound as "Mix-up of Mickey."

Statistics tell only a dry story of what happens at the hospital every day. About fifty animals are brought in. Some are ill, others are suffering from accidents.

But the real story of the animal hospital is told in the individual cases. The guinea angels of the place are Dr. G. W. Little, Dr. F. J. McCaffery and Dr. Raymond Garbutt, assisted by a scientific staff of the ailments of creatures that cannot speak for themselves.

A canary is brought in by a girl just after Garbutt has had a part of a tooth which he had broken in attempting to bite something not intended to be bitten. The bird, which has gone his accustomed way, his tail wagging expressively of gratitude, Dr. Garbutt advances to diagnose the trouble. The canary, the bird wisely swallowed something which threatens to put an end to its career. But a little medicine will quickly make matters right. Meantime Dr. McCaffery has just finished two cases. One was the case of a horse, a horse, which came near meeting a tragic death in a burning stable, but was rescued by its owner, who discovered that the animal had inhaled gas and smoke.

Four weeks in the hospital had made Beauty sound and healed several severe burns on her back. The other case was that of a beautiful Russian hound, which when brought into the hospital could hardly move because of a high fever and congestion in the lungs. The big dog was swathed in ointments, nursed and had its temperature taken, until now it is ready to be discharged.

As evidence of its restored health the call of its name and caressingly rubbed its long muzzle against Dr. McCaffery's knee.

"The Tragedy of a Dog." But not all cases end so happily. Dr. McCaffery, on opening his office door in response to a timid knock, admits to the grief-stricken owner that his dog had left Jack at the hospital to see what could be done for him.

She entered the office with apparent apprehension, fearing she possibly might not be able to take Jack home with her. Dr. McCaffery shook his head helplessly. Jack had been taken out to enjoy the sun on the roof. Thither Mrs. Goodall was now conducted. When she returned five or ten minutes later she was wiping her eyes.

"Must I sign it?" she asked pleadingly. "Must I wait another day, just another day? He may get better."

"I hope. Another day means just that much more suffering for him," said Dr. McCaffery.

Mrs. Goodall, with tears streaming down her cheeks, bends over a slip of paper which she asked to sign. It is Jack's death warrant.

ROMANTIQUE

Love comes gently, softly calling Down the years. Bids my heart be gay and buoyant—Dries my tears.

Love has twined his rosebud fingers 'Round my heart, and life and loving—Filled it full of life and loving—Eased its smart.

Long gray years stretch far behind me—Are not all last summer's roses Lying dead?

Years ahead may stretch before me—Bright or gray; But my treasure they can never Take away.

So, why heed the years before me—With their smart? Love has twined his wick, warm fingers 'Round my heart.

MARY GRAY

Have City At Its Best for Exhibition

Mayor Schofield expressed the hope this morning that shopkeepers and residents of the city would do their utmost during exhibition week to make the city attractive to visitors to the fall fair. He said that he would like to see many flags at shop windows and most particularly that citizens would co-operate in keeping the streets and the vicinity of their premises clean during the week.

LOCAL NEWS

CANADIAN CLUBS

Mrs. Hasbrouck, field secretary of the National Child Welfare Association addressed the Canadian Club. The Women's Canadian Club and Rotary Club held a joint luncheon at Bond's today. The speaker was accompanied by Hon. Dr. Roberts, A. M. Bedding presided.

SHOULD BE INTERESTING

A very pretty wedding took place last evening at 69 Simonds street, when Dorothy daughter of Mr. and Mrs. John Cullinan, was united in marriage to James Gordon Welsh, son of Thomas Welsh of Magdalen Island. Rev. J. V. The bride was prettily dressed in blue silk with georgette trimmings, wore a veil and carried a bouquet of pink roses, over a dress of georgette. The groomsmen were Clifford McCracken. Beautiful wedding presents were received, including a piano from the bride's father.

COLLISION

At 10:30 this morning at the corner of Princess and Sydney streets an automobile travelling down the latter street was struck by the rear of a Canadian Express Company. The team of the team was broken and the horse hurt by the broken wheel of the automobile did not sound his horn when approaching the corner. The automobile windshield was shattered and the car ran off the street to the sidewalk.

TROUBLE IN SIMLA

Attempt to Oust British Administration — Attacks on British Ports.

London, Sept. 3.—An official communication from Simla, British India, announces virulent anti-British propaganda among the frontier regions, where an attempt has been made to organize a provisional government to supersede the British administration.

British commissioners hurried from Peshawar and arrested the ring-leaders. Armed crowds assembled and demanded the liberation of the men under guard. Eventually they were persuaded to retire, though at one time the situation looked dangerous.

Reinforcement troops have been sent into the region, where they are engaged on British posts and unrest continues.

GOT CHARGE FROM GUN

Chatham World—A young man, who visited Mr. White's garden and orchard with the evident intention of helping himself, was charged with the theft of a gun. The young man was shot or salt in the leg by one of the householders. The charge was a serious talking to by Judge Connors yesterday and allowed to go.

ENGAGEMENTS ANNOUNCED

Mr. and Mrs. Alfred Griffiths, of Keswick, announce the engagement of their daughter, Violet Sadie, to Edward J. Lounsbury, of Fredericton. The wedding will take place at an early date.

Mr. and Mrs. Wm. Munro of Lower Southamptown, announce the engagement of their youngest daughter, Gertrude Myrtle, to Murray D. Kelly, of Plymouth, Carleton county. The wedding will take place this month.

Mr. and Mrs. Jas. Purtil of Upper Goshen, N. B., announce the engagement of their daughter, Margaret J., to H. Ryan of Sussex. The marriage will take place at an early date.

Invitations are out for the wedding of Miss Nora Lanning Wetmore, formerly of Sussex, now of Cloverdale, Albert county and Guy Launceton Short of St. John, which is to take place in St. George's church, Moncton, on Wednesday, Sept. 8.

LORD MAYOR IS VERY LOW TODAY

Various Reports on the Irish Situation — Meeting of Unionist Council.

London, Sept. 3.—Terence MacSwiney, lord mayor of Cork, who is in a critical condition in Brixton prison as a result of his hunger strike which began August 12, was reported this morning to be showing signs of sinking rapidly and showing signs of being weaker. This statement of his condition was made by his brother, after he left the prison this afternoon.

At the lord mayor's request, members of his family visited him this morning and later they expressed fear that he was not far away. Those who went to his cell included his wife, his brother, and his sisters. They arrived at half past eight and remained for forty-five minutes. Father, Dominick, private chaplain to Mayor MacSwiney, celebrated a special mass in the prison this morning.

London, Sept. 3.—A report made on Mayor MacSwiney's condition a little after noon, was that he was rapidly approaching unconsciousness. It was said that he was weak during the morning to carry on a conversation.

Unionist Council

Belfast, Sept. 3.—The most urgent and important business, says an official report, was transacted at a meeting of the Ulster Unionist Council yesterday in connection with the grave situation facing the loyalists of that province. It was decided that certain proposals were adopted unanimously with a view to meeting the demand for full and immediate protection of those whose lives are imperilled by the present disturbances.

Meanwhile the council earnestly appeals to all loyal subjects of the king to assist the authorities in maintaining law and order.

Quebec, Sept. 3.—(Canadian Press)—The following telegram was sent yesterday to Hon. Arthur Meighen, premier of Canada, and to Hon. Clifford Sifton, secretary of state, by M. Monaghan, president of the Self-Determination League for Ireland of Canada.

"Irish citizens indignantly protest at the barbaric treatment meted out to Mayor MacSwiney and Irish prisoners by the British government. In this regard for Irishmen's services to the king and for the rights of the Irish people, we are allowed to die for protesting against British injustice while we are held in our hearts for generations. Is Canada to be a silent partner in foul offences?"

Cork, Sept. 3.—The citizens' protest against the treatment of Lord Mayor MacSwiney and other hunger strikers contains more than 80,000 signatures, representing all denominations, including 200 priests. The mayor of Cork said he still entertains a hope that the British government would be persuaded to release the hunger strikers if no complications arise.

Official Resigns

Dublin, Sept. 3.—Sir Algernon Boote has resigned as lord lieutenant of the Queen's county, which position he has held for two years. He will be succeeded by the present government and disappears of many of its actions in Ireland.

Belfast, Sept. 3.—Rumor has it that an important statement is expected at today's meeting of the Ulster Unionist Council and that it will be the government's recognition of the Ulster Volunteers.

Brooklyn Strike

New York, Sept. 3.—That 8,000 Brooklyn longshoremen and dock workers have gone on strike, was announced at a meeting of longshoremen here last night. The purpose, it was said, at the meeting, was to force Great Britain to allow Archbishop Mannix to land in Ireland; to release Lord Mayor MacSwiney, and to withdraw British troops from Irish soil.

APPROVE THE ALEXANDRA HEIGHTS LOTS

Matter Adjusted at Meeting of Town Planning Commission This Morning.

The matter of the lots on Alexandra Heights was taken up at a meeting of the St. John Town Planning Commission, held in the mayor's office this morning. W. F. Burditt was in the chair.

The question to be disposed of was raised by the fact that some time ago Heights asked the city to take over a piece of land for a street, but the city declined to do so as the lots facing on the street had a frontage of only 25 feet, which was not in accordance with the town planning regulations. Later the owners asked the commission to approve a meeting this was done, on condition that all houses shall be subject to the government housing regulations.

FROST THIS MORNING

Although the temperature in the city yesterday did not go below 44, frost was reported to have been experienced in some of the outlying districts early this morning. At Hampton, one summer resident said that his thermometer registered 30 degrees above when he was on the way to catch the suburban train.

ARE HAPPY TODAY

J. D. O'Connell's Outing for Children at Rockwood Takes Place.

After being postponed for three days on account of unfavorable weather, J. D. O'Connell's picnic took place this afternoon in Rockwood Park and hundreds of children enjoyed the outing arranged by their kind-hearted host. Automobiles went to the orphanages at one o'clock and gathered the children on the north side of King square where several hundred feet of film were used in taking a motion picture. The smiling faces and happy expressions on the faces of the little ones will be evidence of the enjoyment the children had in the entertainment. Mr. O'Connell will present about one thousand feet to the city. At two o'clock the picnic party proceeded to the park where ice cream, candy, distribution of money and penny games were carried out. Sports were requested to be present. By order of the president. 10722-9-8.

### BIG DEFICIT IN BRITISH RAILWAY ADMINISTRATION

Will Be Approximately 54,500,000 Pounds — Cost of Material and Maintenance Shows Great Increase.

London, Sept. 2.—(By Canadian Press) —An announcement from the Ministry of transport states that there is an apparent deficit of 54,500,000 pounds sterling to accrue to the exchequer from the state control of railways in Great Britain and Ireland during the current fiscal year to end March 31, 1921.

Among the principal items of per annum increased expenditure, as figured from last October, when the question of rates revision was referred to the Railway Rates Advisory Committee, are: Cost of materials, £12,000,000; coal, £3,500,000; hire of rolling stock, £750,000; rates, taxes and compensation, £3,200,000; while £24,300,000 are estimated for increased labor costs.

The ministry of transport has requested the railway rates advisory committee to suggest increases in tariffs for various railway services which will wipe out the deficiency by the close of the following June. The last increase in rates was ordered in the latter part of December, 1919.

### FALLING OFF IN BRITISH MINE PRODUCTION

Coal Shows Only Increase and That Is Declared to Be Inappreciable.

London, Sept. 3.—(By Canadian Press) —The preliminary figures regarding the output from British mines, which have been issued for 1919, have aroused particular interest here because of the struggle in progress between the coal miners and the government. While they are not a complete record of the mine output, they are substantially complete for coal, copper, lead and zinc. Despite the number of men demobilized in 1919, which increased the number of employes in mines by no fewer than 183,264, the yield of minerals, with the exception of coal, is generally lower, while in the case of coal the increase was inappreciable.

The returns bring out the reduced per capita production of miners employed under the coal mines act. The number of men employed in 1919 exceeded those employed in the same industry in 1918 by 64,425, yet the output of 1919 was only 229,748,196 tons, compared with 297,430,478 tons in 1918. The contrast is striking when this is worked out in terms of production per workman. In 1918 this was 892 tons per man underground, while in 1919 it was only 233 tons.

### ECONOMY CAMPAIGN ON IN SOUTH AFRICA

### HUGE SERPENT OF STONE IN OHIO

Supposed Religious Symbol of Ancient People Is 1,300 Feet Long — Now Centre of Park.

(By Associated Press.)  
West Union, O., Sept. 3.—A great serpent 1,300 feet long, built of earth and stone, a symbol of the religion of ancient peoples, stands a few miles from here as the most interesting and important earthwork left by the mound builders of Ohio.

Situated in a rather secluded spot, supposedly selected by the mound builders for privacy in performing their ancient rites, the massive reptile winds, gracefully back from a glen to higher land. The serpent's head rests upon a rock platform which presents a precipitous face to the descending sun and is about 100 feet high. The jaws of the mouth are widely extended in the act of swallowing an egg, represented by an oval ridge of earth.

As the mound builders shaped the body they caused it to make four large folds as it tapered back to the tail, which is folded in three complete and close coils.

The land about this curious relic of primitive days is low at the head, but gradually ascends toward the tail. There is ample room on all sides for a gathering of many people and the relief is expressed that the idol worshippers gathered on all sides of their altar to pour forth praise, or beseech forgiveness and blessings from the beautifully hideous god of their own creation.

"The Serpent Mound," was purchased by Professor F. W. Putnam, of the Peabody Museum, Cambridge, Mass., in 1887, along with about 70 acres of adjacent land and shortly afterward a beautiful public park was laid out on the ground. Thus in present days the spot of reverence sacred to the people who preceded civilization in the nation is used as a playground for picnickers and pleasure seekers. The deed to the land is vested in the museum attached to Harvard University.

Those who have made a study of the work of the mound builders have estimated that in Ohio alone there are over 10,000 mounds and from 1,000 to 2,000 enclosures standing as monuments to their work. By the study of ancient implements and burial places found in and near these mystery hills it has been found possible to form a conception of their life.

Cause and Effect.  
Magistrate—Do you mean to say that such a physical wreck as your husband gave you that black eye?  
Plaintiff—Your Worship, 'e wasn't a physical wreck until 'e gave me the black eye.—London Opinion.

### TO EXPLOIT THE BELGIAN CONGO FOR PULPWOOD

Canada and Scandinavia May Have to Look to Laurels — Big Plant Planned.

Brussels, Sept. 3.—(By Canadian Press) —The supremacy of Canada and the Scandinavian countries in the pulp and paper industry may be challenged soon by the Belgian Congo. Papyrus, which grows in great abundance in the Congo, is to be exploited by a large company which has been granted a concession. It is planned to establish a large plant, costing two and a half million francs,

which will have an initial production of 20,000 tons of pulp.

The papyrus of the Congo has shown on analysis 37 per cent of cellulose. After research and experiments, a process has been discovered for bleaching the plants. This had been vainly sought for fifty years. The papyrus grows principally along the lower Louaba River, near the lakes of Kabuli, Sjemba, Kisali, and Nooga.

LOCAL NEWS

Former members of the Sixth Canadian Siege Battery, C.E.F., will be pleased to learn that Lt. H. Nichols of Montreal, a former lieutenant of that unit, is at the Dufferin. Mr. Nichols is engaged in research work at McGill University, Montreal, and is spending part of his vacation in the maritime provinces.

Mrs. W. E. McIntyre returned to the city yesterday after an absence of ten months during which time she has been on a leisurely pleasure tour of California, returning via the Canadian Rockies, and stopping at the principal Canadian cities enroute. She stopped at Albert on her way to St. John to attend the wedding of her second son, Willard, which took place on September 1.

At a meeting of the board of directors of the Y. M. C. A. held on Wednesday night and presided over by George Marwick, the president, plans for the coming winter were discussed. Provisional arrangements were made for a campaign for funds for additional work, which will take place this autumn.

The first meeting for the season of the Women's Missionary Society of St. David's church was held yesterday afternoon. Miss Harrison was in charge of the subject for the afternoon. Several papers were read on the subject for the afternoon, which was "Dr. Menzies of China, his life and work." Mrs. Robert Cruikshank, president of the society, was in the chair.

While proceeding along Britain street yesterday afternoon a heavily loaded motor truck ran over a man hole and broke the cover making a dangerous hole in the middle of the street. This hole was guarded by a piece of scumling during the day time and a lantern by night. It will be repaired today.

Marjorie Campbell, six year old daughter of Mrs. Campbell, at 21 Victoria Lane, suffered a fracture in her right leg yesterday. She and some other children were having a free ride on a sloop when she fell and the wheel of the sloop passed over her leg. She was taken home and Dr. Chase was called. He ordered her to the hospital where splints were placed on the limb.

At the regular monthly meeting of the Provincial Memorial Home for Children, Wright street, held last evening, with the president, Dr. James Marming, in the chair, it was reported that twelve children were admitted into the home last month, and three have been taken back by their parents. The financial condition of the home is good. An addition is being built and the work is being carried on by voluntary workmen.

At the regular meeting of the Ladies' Association of the Protestant Orphan Asylum yesterday afternoon routine business was transacted. The association adjourned to the exhibition building where matters in connection with their booth were discussed. W. H. Golding is making arrangements for the decoration and fitting of the booth. Mrs. F. W. Murray was in the chair.

The regular monthly tea of the Ladies' Association of the Riverside Golf and Country Club was held yesterday afternoon and on account of the unfavorable weather no matches were played. Cards were indulged in. Mrs. A. W. Adams and Mrs. George K. McLeod were in charge of the tea.

DECLARE DOLLAR CUT DOES NOT CHEAPEN BREAD

Vancouver, B. C., Sept. 3.—Bakers say that a reduction of \$1 a barrel in the price of flour announced here Wednesday does not mean cheaper bread in this city. The reduction, they say, is not sufficient to justify a decrease in the price of bread. Winnipeg, Sept. 3.—A reduction of \$1.05 on all grades of flour was announced here yesterday making fancy patented flour \$18.75 and bakers' patent \$12.95 a barrel. There will be no reduction in the price of bread.

SEND 'EM TO JAIL

New York, Sept. 3.—John E. McGeehan, acting chief magistrate of New York city yesterday sent letters to all city magistrates recommending jail sentences for baseball fans convicted of throwing pop bottles at players or umpires.

Just a minute, please!

HERE'S a timely suggestion for your vacation kit. Put in an Ingersoll Maple Leaf with a Radiolite dial—the face that lights up in the dark. The cost will be \$4.00, and for that you'll have a hardy, husky watch, built to keep going wherever you're going; to stand any rough stuff you can stand, to give you faithful record of the time of day and time o' night.

Thus you can give your expensive watch a vacation in a nice comfortable strong box, knowing that the Maple Leaf will tell just as good time and bear hardships much more cheerfully.

Then if you lose the Maple Leaf Radiolite—you should worry, when you realize you've only lost \$4.00. Suppose it had been your high priced watch!

And there isn't any town too small to supply you with a new Maple Leaf.

Maple Leaf Radiolite, \$4.00

Ingersoll Models from \$3.25 to \$14.50

MINISTER FROM TURKEY TO ROME

Sultan to Send Representative of Government to the Vatican.

Constantinople, Sept. 3.—Turkey will send a minister to the Vatican, so it was announced today.

This is the first time that Islam officially has affiliated with Christendom, the step being taken on the Sultan's initiative as a mark of gratitude for the Pope's financial and other aid to Turkish war prisoners during the war.

Before the minister is sent to Rome, the Vatican will be asked if he will be received.

SAYS ALL SMOOTH SAILING UNDER NEW ELECTIONS ACT

Ottawa, Sept. 3.—(Canadian Press.)—Little difficulty is being met by returning officers in mastering the procedure under the new election act, according to Col. O. M. Bigger, chief electoral officer. The instructions placed in the hands of the returning officers have apparently smoothed out the difficulties which they were facing, and very few of the officials are having any trouble in getting all the necessary machinery in order for the taking of the vote or presiding in their district.

SCHOOL BOYCOTT IS VOTED DOWN AT T. & L. MEETING IN MONTREAL

Montreal, Sept. 3.—A movement at a trades and labor council meeting last night to appeal to trade unionists to keep their children away from Catholic schools was overwhelmingly defeated by a vote of eighty-two to seven. The issue arose over the refusal of the Catholic commission to re-engage sixty-eight male teachers.

MORNING NEWS OVER THE WIRES

Mrs. Loudon, mother of Mrs. J. L. Tweedie, of Chatham, fell while walking in her bedroom on Sunday and broke her thigh. Dr. Marven set the bone and Mrs. Loudon, who is an aged lady, is resting as well as could be expected.

The police department at Fredericton have been placed in charge of the enforcement of the prohibition law. Chief Finlay will be inspector.

Mrs. Arthur Hamilton, daughter of the late Sir Charles and Lady Fairlie Cunningham, was in the English Channel twelve hours yesterday, while attempting to swim from St. Margaret's Bay on the English coast, to Cape Grisnez in France. She is the second woman to attempt this feat and although she failed, says she will try again next year. Her failure was due to heavy seas and strong currents.

According to a statement made by J. B. McDonnell, general manager of the Dominion Express Company, before the railway commission yesterday liquor and ship shipments will be discontinued and in the rates was asked for, as he said there would be a deficit of \$800,000 during the ensuing year, if the increase was not granted.

It was announced in Montreal yesterday by P. N. Prevost, who recently returned from the wheat fields, that hundreds of harvesters were idle and out of a train load of 800 only fifty found work. The railway officials say there must be some mistake as no men are taken beyond Winnipeg unless they are found work.

SALVATION ARMY NOTES.

The announcement has been made that Adjutant Elias Owen of the Toronto division of the Salvation Army will succeed Adjutant Gilbert Bédé as chancellor of the New Brunswick division of the Army. Adjutant Best has been appointed chancellor of the Western Ontario division with headquarters at Hamilton, Ont. Adjutant Best will leave for his new headquarters on Tuesday, Brigadier D. C. Moore, commander of the N. B. division will leave this evening for Toronto to attend a council of the divisional commanders.

The death of Mrs. D. H. Lang, formerly of Moncton, took place in Boston recently. She leaves a daughter residing in Moncton.

A touch of gold— Radiators, picture frames, etc., look better when gilded with RAMSAY'S Perfection Gold Paint Wm. E. Emerson, West St. John

THE SADDEST THING Halifax Chronicle—The saddest thing about the tumbling of sugar prices in the States, from the Canadian point of view, is that some of the sugar is the product of Canadian refineries, which exported it to the States to get the benefit of the exchange.

Ladies Let Cuticura Keep Your Skin Fresh and Young

You will like Lantic fine!

For BAKING. For pound, tea or sponge cakes, layer cakes, fruit cakes, coconut cakes, short cakes, macaroons and biscuits, rolls, buns—ALL cakes—LANTIC creams quicker with the butter—because it's FINE.

For BEVERAGES. For tea, coffee, cocoa, lemonade, root beer, orangeade, lemon pop and fruit punch, use LANTIC. There will then be no wasted spoonful left at the bottom of the cup or glass—because it's FINE.

For PRESERVING. For peaches, plums and grapes—if you use LANTIC you can smile at the old caution "Let it simmer until all the sugar is dissolved." While yet the fruit retains its beautiful color and attractive form, the preserving is done!—because it's FINE.

For CANDY-MAKING. For fudge, taffy, butterscotch, caramels and fondants, walnut and maple creams, marshmallows, peppermints, peanut brittle, candied fruits, and of course all icings. LANTIC has the call with the best candy makers—because it's FINE.

FINE in granulation—finer than all other sweeteners in actual use—finest in results obtained. "Fine" has many meanings to the Lantic user! In snowy glistening crystals of pure cane sugar—all sugar and nothing else—Lantic brings you concentrated sweetening. And because each crystal is fine and even, Lantic dissolves at once—it instantly delivers its great sweetening power without hesitation. Of course it goes farther. Of course it costs less. Of course you will like it fine.

In PRESERVING late fruits such as pears, plums, and peaches, it eliminates the danger of over-cooking, which robs fruit of its natural color and shape, and some of its flavor. In BAKING, Lantic creams quickly with the butter—which makes the cake light and dainty. Creaming need not be tedious.

In CANDY-MAKING fine granulation gives candy a soft velvety quality. Most of the highest grade chocolates and finer candies are made with Lantic. The exquisite "velours" of the best chocolate creams come from Lantic fineness. In TEA or COFFEE, in fact in all beverages (hot or cold), every Lantic crystal dissolves at once, yielding readily the full sweetening of the purest cane.

FRENCH TO SEND GEN. NIVELLE AS MAYFLOWER FETE ENVOY Paris, Sept. 8.—The French government has decided to appoint two delegates to the American Mayflower celebration in November and December, one of whom will be General Nivelle. The other has not yet been selected. The appointment came in response to an invitation from the American Mayflower Council, conveyed by the Rev. Charles MacFarland.

WHITE VETERAN TO THE REGATTA

Elijah Ross, of Paris Crew, Asked to Be Guest at Renforth Aquatic Sports.

Information has been received by the committee of the Renforth Outing Association that it will, devoting every spare moment of their time to getting in trim for the big regatta. The three senior crews are coming around in fine shape and this race promises to be the best of its kind ever witnessed in these waters.

An invitation has been extended to Elijah Ross, who is the only survivor of the famous Paris crew, to be a distinguished visitor with them on Labor Day.

Dr. McVey has entered his yacht, the "Tanagra" for the yacht races, of which Millidgeville have confirmed each of their entries, namely: Novice four man, double canoe, boys' swimming.

The evening amusement promises to be the best ever held at Renforth, and the music furnished will be the best heard in that community.

FAST HALIFAX TEAM COMING

Crescents Will Play Four Games With St. Peter's Here on Saturday and Monday.

Although the local baseball fans have not witnessed any games lately, ample provision has been made for their entertainment for Saturday and the following day. The St. Peter's team, announced last evening that arrangements had been completed to bring to St. John the fast Halifax Crescents, winners of the Halifax League.

WOMAN WITNESSED MURDER OF MAN

Chicago Merchant Killed Under Curious Circumstances at Evanston.

Chicago, Sept. 3—Howard B. Rhodes, 80 years of age, a wealthy drygoods merchant, was shot and killed one night this week on a lonely road near Evanston, known as "Lovers Lane."

Rhodes, who is married, was the company Mrs. Gladys Jacobson, a divorcee. Mrs. Jacobson told the Evanston police that Rhodes was shot by a man who attempted to hold them up. The police are investigating her story.

Mrs. Jacobson said that she and Rhodes had driven out to "Lovers Lane" a little after midnight and Rhodes stopped at a secluded spot along the roadside. Soon after he had stopped the car, Rhodes saw a man jump out of a clump of bushes, and pointing a revolver at him, ordered them to hold up their hands. Rhodes reached into a pocket of his coat for his revolver. He fired one shot at the man, but missed him, although the man was only three feet away. The robber, according to Mrs. Jacobson, disappeared behind the machine.

Rhodes leaned over to look out the window while he was peering into the darkness the robber appeared on the other side of the machine, jumped onto the running board and fired twice at Rhodes. Rhodes sank unconscious under the stering wheel. Mrs. Jacobson drove the car six miles to St. Joseph Hospital, in Evanston.

There will be little difference in the weight of the heavyweights Monday. Both scaled 189 pounds yesterday.

A heavyweight contest between Toney Melcher, Chicago, and Homer Smith, Kalamazoo, was called off, due to an injury to Melcher's leg.

MAY TAKE FINGER PRINTS OF EVERYONE IN STATES. Minneapolis, Minn., Sept. 3—Fingerprints of every man, woman and child in the United States will be taken and filed by the government in the near future as a permanent means of identification.

ST. JOHN'S FAVORITES. With Lew Browns, Felix Martin, Jack Sheehan, Madeline Bickley, Melvin Meredith, Rose Emmett, Jack Cahill.

Serial Drama, THE THIRD EYE. The original intention of getting a hold for the piles, but it will be at large expense. A short distance from shore the bottom of the piles is almost level with the water.

SISTERS' NEW BOARDING SCHOOL TO OPEN SOON

Burpee Avenue Building Will Accommodate 24 Resident Students

Day Pupils in Commercial Classes—Sisters Plan Erection of Larger Building Later—Description of the House and Grounds.

A valuable addition to the educational institutions of the city will be the residential and day school for girls and young ladies in Burpee avenue, conducted by the Sisters of Charity and which will be ready for occupation about the middle of September. It is now receiving the finishing touches after being slightly remodelled to suit the requirements of a modern boarding school.

The building, from the windows of which an excellent view of the city and surrounding country can be obtained, has spacious grounds, dotted here and there with beautiful shade trees, and which will afford ample space for all kinds of outdoor recreation.

Into the capable hands of Sister M. Francesca has been placed the task of mapping out the curriculum and instruction will be carried out under her supervision. It will include preparatory, grammar, academic or high school grades, preparation for Normal School entrance and university matriculation and commercial classes. Pupils graduating from the school it is the aim of the Sisters to develop the pupil's character with a view to future life work.

The discipline will be mild and parental in character, and special attention will be given to individual cases. Occasional talks will be given on etiquette.

While little change was necessary in the arrangement of rooms to make the boarding house into a school, considerable work has been done. Two new furnaces have been installed and the whole heating system overhauled. Many alterations have been made to the sanitary arrangements, and commodious toilets have been placed on each of the three floors.

This work has been done under the direction of George Blake, Driscoll and Mackie has installed an entire new electric lighting system, replacing the old gas lighting. The Sisters taking over the building, hardwood floors have been added to the front door of the building, a visitor enters a spacious hall from which stairs ascend to the right of the door is converted into a chapel.

The base for a beautiful Ilglico altar, a gift of St. John Lady, is now being erected. Stations of the Cross, also a gift to the Sisters, will be placed about the walls. On the other side of the hall in the front of the house is a large reception room. A large library, into the dining room, are built hand some three walls of which are built hand some hand carved wood cases, used as a reading room. The two day class rooms are in the rear of the house. Wide stairs leading upstairs are also situated in the back of the house.

There are eleven rooms in addition to the big hallway on the second floor. On the northeastern side of the house are two private rooms for students and a room for the Sisters and a room to be used for art needlework, painting, and sketching. In the middle of this floor, used immediately over the refectory, will be the assembly room, to be used also for study and recreation. Openings to the dormitory, infirmary and practice room. In the northwest wing are two rooms.

The top story will be used exclusively as sleeping accommodation and will have two large dormitories in the back and two semi-private rooms, each containing two beds overlooking the avenue.

The Sisters of Charity are to be congratulated on this new step in their efforts for education and that the new institution will prove popular is already assured, judging by the number of applications already received yesterday that sister Francis received for entrance.

Others who assisted at the garden party held this week, the proceeds of which will be applied to the fund for the furnishing of the new school.

HOULTON TRACK HEAVY

Houlton, Me., Sept. 2.—The track was too heavy for racing at the Houlton fair today and the card was set ahead to Friday, when the racing will start at 11:30 a.m. The \$1,000 free-for-all will be called Saturday.

Prince Rupert Dock Work to Cost \$500,000

(Ship Building and Harbor Construction) The new dock of Prince Rupert, B. C., the contract for which has been let and the work on which is to go ahead at once, will add to the wharf of the Booth Fisheries, but it will extend something like eighty-five feet farther out than the fish wharf. It will have a number of new features which will make it one of the most modern and convenient docks on the Pacific coast. Not only will there be a Gantry crane and two Barlow elevators for handling freight, but the railway cars will run along the front of the dock between the shed and the water, thus allowing direct discharging or loading to and from vessels tied alongside.

The dock is to be 600 feet long or about a sixth of a mile. The width will be 125 feet, while the warehouse to be built on it will be 820 feet long and 147 feet wide. In the centre there will be a suspended office 50 by 50 feet. The capacity of the shed will be 300,000 cases of salmon or 200,000 tons of freight. There will be car tracks front and back, those in front being on a level with the floor of the dock and those behind being sunk similar to the tracks at the other sheds.

The travelling electric Gantry crane will be of the most modern type and will prove a great addition to the convenience of loading and discharging vessels. The Barlow elevators, two in number, will be used for the smaller craft, which may wish to use the dock.

Owing to the confinement of the shore, some difficulties have been experienced in connection with the work of construction. Chief Engineer W. S. Pechterstonough has overcome some of the difficulties of getting a hold for the piles, but it will be at large expense. A short distance from shore the bottom of the piles is almost level with the water. There is a layer of soft mud, too soft to hold piles. This will be dredged and gravel filling will take its place.

The great hold for the piles. It will require 300,000 cubic yards of filling, which will be secured from Silver Creek or will be got from Melakiat, but owing to the claim put in by the Indians for yardage on the material removed from the bar, it may be that the material will come from Silver Creek.

The wharf will be built on 3,800 piles, half of which will be creosoted. A number of them are stored in the lagoon at Melakiat Island until needed.

The total cost of the dock is estimated to be over half a million dollars.

IN SYMPATHY ON THE DEATH OF FRANK P. DOODY

The deepest sympathy felt for his relatives in the death of Frank P. Doody was shown by the large number of floral tributes and spiritual bouquets sent by friends.

These included pieces from F. J. Klauer, assistant manager, Hare's Motors, Boston, and Mrs. Klauer; J. M. Emerson, vice-president Pennsylvania Tile Co.; W. S. Porter, vice-president and general manager, Hare's Motors, Boston, and Mrs. Porter; members of the Hare's Motors, New England; Roy Hiltz, sales manager, Boston branch Hare's Motors, and Mrs. Hiltz; C. E. Ryder, president and general manager, Beth Motors of New England, Boston; Mr. and Mrs. J. F. VanBuren, Fredrickton; Mrs. Walter Kitchen, Fredericton; Miss Ada M. Schleyer, Fredericton; Miss K. M. Stewart, Fredericton; Mr. and Mrs. J. V. Monahan, Fredericton; Dr. and Mrs. F. H. Neve; Mr. and Mrs. J. T. Dunlap, Mr. and Mrs. U. J. Sweeney, Mrs. J. V. Anglin, Mrs. Frank B. Ellis, Miss Parsons, E. Baird, Charles Logan, James McGargle, Mr. and Mrs. A. Ernest Fleming, Ronald McAvity, Howard P. Robinson, Robert D. Magee, Kenneth R. Inches, Arthur McLellan, John Fugaley, all of St. John, and soldier patients and staff of St. John County Hospital.

Spiritual bouquets were sent by St. Monica's Society, Mrs. Eliza T. Gorman, the executive of St. Monica's Society, Gerald P. Keane, Edmund A. Keane, P. W. Keane, Mr. and Mrs. F. L. Keane, Miss Katherine Lawlor, Mrs. C. Ramsey, Thomas Stevens and W. J. Magee.

FAMOUS FAMILIES IN HISTORY

Ten Thousand Once Died in Rome in One Day. (Netrot News.) Among the famous families in history was that terrible period of suffering from 79 to 88 A. D., when the Roman world, which seemed to be shaken to its physical foundations. At that time, in addition to the devastating drought and famine, which swept over the Italian peninsula, which 10,000 citizens are said to have died in one day in Rome, there took place a catastrophic eruption of volcanoes.

In no other country in the world has a people been brought to such a low ebb of morality or become so completely lost to all sense of national humanity as in the series of famines which swept over Egypt during the tenth, eleventh and twelfth centuries. During the twelfth century, a low Nile in 967 A. D. resulted in a famine the following year, which swept away 600,000 people in the vicinity of Fostat. Gawhar, a Mahometan city, founded a new city, the Cairo of today, a short distance from the stricken city, and immediately organized relief measures.

One of the worse calamities that ever befell the human race was the Black Death, and the accompanying famine, which afflicted all western civilization during the middle decade of the fourteenth century, its toll has been variously estimated at from one-fourth to three-fourths of the entire population of Europe, and was not less than 20,000,000 people.

No Labor Case Before Commission at Tariff Hearing

Winnipeg, Sept. 3.—Labor will lay no case before the tariff commission when that body's opening session is held in this city on September 14, so it was said by local labor leaders yesterday. It is said that the United Farmers of Manitoba will co-operate with the Canadian Council of Agriculture in presenting their demands.

RETIREMENT OF AGED FROM THE ONTARIO CIVIL SERVICE RANKS

Ottawa, Sept. 3.—There is some misunderstanding regarding the effect of an act passed last session providing for the retirement of members of the civil service over the age of sixty-five. The act does not mean that all civil servants over that age will be retired but only those who are not able, either owing to infirmity, to give efficient service. The act further provides that those under the age of sixty-five who are unable to render efficient service may be similarly retired.

**INCREASING THE LIFE OF LEATHER**

Research Work Which Is Helping to Solve Many Problems in This Industry.

The cellar of a large shoe factory was flooded during a freshet last Spring, and although the manufacturer congratulated himself that expensive stock was not stored there, it was found that \$25,000 worth of leather heel taps had been seriously damaged by the water. When the goods were finally salvaged they were found to be in the usual condition of leather that has been well soaked, namely rotted, mildewed and stiff. The manufacturer thought that reclaiming the stock was a hopeless task, but he put it up to an individual who, by many, is now considered the "trouble man" of the industry, Fred A. Howard of South Easton, Mass. Mr. Howard got busy with his solutions and special treatments and in a short time had those heel taps not only back to their original condition but made them, according to the manufacturer, a more pliable and a longer wearing leather than they had been previously.

**THE KENNEDY MFG CO Montreal**

Recently another problem was put up to Mr. Howard. Cordovan shoes, those aristocrats of bootdom, shortly after they were placed on the retail shelves would cloud with so-called "blom" in somewhat the same way as fine mahogany or chocolates exposed to light. In the case of cordovan, this phenomenon was ascribed to the use of "stuffing chemicals," which had to be removed before the highly polished finish would retain its sheen. In removing the acid left by tanning, the research worker was able to treat the leather in a way to make it more pliable. This was regarded as an especially praiseworthy accomplishment in view of the fact that

cordovan leather has always been a very difficult one to manipulate. For that reason, the comfortable leats obtainable in other leathers have not been possible in cordovan. It was a matter of thirty-five years ago when Mr. Howard first entered the field of leather chemistry, according to his associate Fred D. Hull of this city, and he came by his interest in the industry in a natural way. His grandfather and uncle were both shoe manufacturers. After several years spent in study abroad, he returned to this country to take up the problems found in domestic manufacturing. One of his first studies was how to improve the qualities of hemlock sole leather. This material had some justly noted characteristics, but at the same time was stiff and sometimes very brittle. It would be difficult, Mr. Hull remarks, to sum up the many interesting experiments and results achieved by the chemist in this direction. He found out early that the use of oil had its

disadvantages, because it frequently oxidized, leaving the leather in a worse condition than before treatment. He found, too, through microscopic examination that the defects in hemlock leather could not be entirely eradicated through lubrication because of the presence of acid crystals left after tanning. These crystals were sharp pointed and frequently cemented the leather fibres together, thus making it stiff. It was the clogging of the leather by these crystals and their manner of cutting the fibre when the sole was bent that contributed to the unsatisfactory quality and brittleness of hemlock. Another discovery was that what the manufacturer or tanner thought was a separate fibre was in fact a bundle of fibres. The proper solution applied to the fibres would cause them to branch out like a quickly growing tree. The freeing of these fibres from their cement of crystals was the object of Mr. Howard's study and, if it could be accomplished, the fibres would be put back into the flexible positions they occupied in life. In the course of his work, Mr. Howard had occasion to test out a treatment he had formulated. This he did by cutting a hide into equal sections so that both contained leather of the same quality. One piece was treated and the other was left as it came from the tanner. The test samples were hung in the storeroom of a shoe factory for the period of the experiment. Other work came along and the test was forgotten until recently, when the shoe manufacturer in cleaning out his storeroom came across the two pieces. They had been placed there fifteen years before. The untreated piece could be broken with a hammer, the manufacturer said, but the other sample was in excellent condition and comparable to the best leather then being used in the factory. At present, Mr. Howard is engaged in research work for sixteen large manufacturers. Several prominent men in the industry are particularly interested in his process for the treatment of shoe insoles. Upon the quality of the insole, it has been found, depends a good deal of the wearing character of the shoe because the insole is cemented and sewed to it and the upper also attached to it. Even the best leather used for the purpose does not always give satisfactory service, chiefly for the reason that the acids generated by the body have a deterrent effect on the material. In shoes that have been worn a little and then laid aside, the insole has been found warped and cracked by the action of these body acids. How to overcome this has been a problem that ordinary treatments or processes have not seemed to overcome. Mr. Howard used an acid emulsion that takes up the acids given off by perspiring feet and holds them in the acid "ring" of his solution so that they are no longer free to do harm to the leather fibre. Among his experiments in this line was having a shoe worn for over a year and then examined by a maker of the finest shoes. The latter said the insole was good enough to use in a new pair of shoes. Other experiments in the direction of proving that the life and wearing quality of leather could be greatly increased through special processing were made in the course of the chemist's work. A pair of factory-made shoes costing \$1.65 before the war was presented to a workman in position. At that price, of course, the leather was of the poorest quality. The shoes, however, gave active service without overshoes for close to two years and can still be worn, though they are rather "baggy." It was noted that, despite the "bagginess," no cracks had appeared in the uppers. In this case the solution used had opened up the leather in the way previously described, the tannin was more evenly distributed and the lubrication supplied in a manner that prevented oxidation or drying up. The field of the leather chemist, Mr. Hull explained, is not confined to shoes, but takes in all articles composed of leather. Just now, he said, Mr. Howard is experimenting with leather belting in co-operation with one of the largest manufacturers. Three months ago elapsed since a newly processed belt was put to work under the same conditions governing the use of unprocessed belts in the same factory. In this plant the ordinary life of a belt is two months, but it is Mr. Howard's claim that by his method of processing six months' use can be obtained with no attention after the preliminary adjustment. So far the processed belt has lived up to the claims made for it. During his years of research Mr. Howard has progressed on his own initiative, attending to both the experiments and to the business end of his ventures. Recently, however, a company has been formed to take over the marketing of his processes. It will be one of the purposes of this organization to encourage a greater study of leather and its properties. It has been even suggested that a special tutoring of men to be engaged in research work by manufacturers would be welcomed in view of the possibilities in the future for those producers who desire to know all there is to know about leather. In the meantime, Mr. Hull promises a surprise for those who will bring him a sample of "acid-burned, over-tanned, or any type of inferior or aged stock, even a "branded leather," and see what can be made out of it after processing.

**CLEANLINESS IS HEALTH**  
 By the use of Gillett's Lye, house cleaning is made a pleasure instead of a drudgery. It softens the water and cleans thoroughly whether the dirt is visible or invisible. Destroys all bacteria and infectious germs, removes obstructions from drain pipes, closets, sinks, etc. Refrigerators are made delightfully fresh and clean by using one teaspoonful of Gillett's Lye dissolved in two gallons of water.  
**"GILLETT'S LYE EATS DIRT"**  
 Made in Canada.

**TO REGULATE PRICES.**  
 (Toronto Telegram.)  
 A list of the prices charged in thirty-one downtown restaurants was furnished to Mayor Church by Dr. Hastings, M. O.H., yesterday. This list will be used as evidence in the mayor's campaign to regulate prices and put a stop to the constant upward tendency. The prices vary to the extent that in some restaurants the price of one dish is five or ten cents higher than in another, but the difference on some other article of food is reversed. In practically all of the self-serve places the price of egg and ham sandwiches has increased to fifteen cents. Three or four years ago it was five cents. Coffee and tea vary between five and ten cents. In several of the restaurants it is 7 cents and in others 8. In only one is it above ten cents.

**The Aristocrat of Feathered Game**

—this is the term that has been justly applied to the woodcock. Although smaller than the woodcock of the Old World, it, of all game, affords the keenest zest for the hunter.

The woodcock ranges from Southern Manitoba east to Southern Quebec and Nova Scotia. The best grounds today are undoubtedly in the last-named section. Good covers are hard to find nowadays and big bags are a thing of the past.

The woodcock is a migratory bird and the open season begins after most of the 'cock have left for the south. The occasional bird that gets up in October, as one beats the covers for grouse, adds to the sport, and the wonderfully elusive flight of the bird makes the successful shot one to be remembered. Woodcock demand the careful selection of ammunition with the dependable and accurate qualities of

**DOMINION Shot Shells**

Canuck, Sovereign and Regal are all good woodcock shells, backed by the big "D" trade-mark. Use No. 8 shot and the load best suited to your individual requirements. Each of these shells is steel reinforced and water-proof, and loaded with double-chilled shot.

Our new game book, "The Call of Canada," with illustrations of Canadian game birds and animals reproduced in full colors, contains valuable information that will interest you. Every sportsman should have a copy of this beautiful book in his library.

**NEW WATERFALLS FOUND.**

Discovered Within Forty Miles of Portland, Ore., in the Cascades.  
 Waterfall that rival in beauty the most splendid cataracts of the Pacific Northwest have just been discovered on the western slope of the Cascade Mountains in Oregon, writes Horace E. Thomas in Popular Mechanics.  
 "Although within forty miles of Portland, a city of 260,000 people, no white man, so far as the records show, had ever seen them until a few weeks ago.  
 "The falls lie almost in the center of the Bull Run Forest Reserve, set aside by the government to protect Bull Run Lake and Bull Run river, the sources of Portland's water supply. It is this, of course, that accounts for the fact that the falls were not discovered long ago. The reserve is closed to all visitors except employees of the government and of the city of Portland who may go there on business, a precaution taken to protect the timber of the watershed against fires that might be started by careless campers.  
 "The reserve, which includes 222 square miles of mountains and forest, was set aside by Congress in 1892, and has been closely guarded ever since. It may be that in the early days some of the men who inspected the reserve came upon the falls, but this is unlikely, as they could hardly have failed to make a record of their discovery. The geological service made a survey of the district, but the falls do not show on their maps, although all other waterfalls are marked.  
 "The falls were found by three officials of the water bureau who had been traveling a new trail that leads from Bull Run lake to the headworks of the water system, a distance of 21 miles. Up to the two close together, and the other a quarter of a mile above them."

**INFANTS-DELIGHT IT'S WHITE TOILET SOAP**  
  
 THE perfume of fresh-cut flowers is the only rival of *Infants-Delight's* refreshing fragrance. Its purity is shown in its whiteness. Order a supply from your dealer now.
