GERMANS HAVE "SHOT THEIR BOLT" IN WEST, IS OPINION OF FRENCH MILITARY CRITIC

Refugees Say The Swagger Has Gone and There is Now no Talk of Calais and What They Will do to English—Fighting in Alsace Resumed

New York, Dec. 5.—A Paris to the Herald says—"There are no developments in Flanders calling for comment, is the opinion of Lieut.-Col. Rousset, military expert. He says the sensational reports of German activity probably were set in circulation by the Germans themselves likely to hide their withdrawal of reinforcements for Poland.

"There," continues Lieut. Col. Rousset, the Germans, whatever the ultimate result of the battle now being fought, are compelled to concentrate their strength that they may, by an enormous effort, prevent a catastrophe. To protect themselves in the east they are forced to weaken their effectiveness in the west.

"Proof of this is found in the comparative inaction of their armies in Flanders and the steady advance the French are making in Alsace." Lieut.-Col. Rousset's opinion seems to be that the Germans have "shot their bolt" and henceforth can do little more than fight on the defensive.

THE SWAGGER GONE

London, Dec. 5.—The correspondent of the Daily News telegraphs from "Northern France" that behind the cannonade which is taking place along the front there are military moves, jockeying for positions and manoeuvres of all kinds at Dixmude, Ypres, Arras, Armentieres and Arras. The movements behind the German lines are chiefly the withdrawal of troops from awkward trenches and woods.

"Refugees say that all the old military swagger has disappeared and the Germans no longer talk about Calais and what they will do to the English when they get there.

FIGHTING IN ALSACE

Berne, Switzerland, Dec. 5.—The sound of heavy cannonading in Upper Alsace, has been heard as far as Basle. The main struggle being between the French and Germans, according to reports, is around Altkirch and Damerkirch.

KING DECORATES BRAVE SOLDIERS

London, Dec. 5.—King George decorated many soldiers yesterday while visiting the battlefield in France, with the Prince of Wales and General French. The king pinned the medals on the coats of the recipients, and made a brief speech in each case.

IMPORTANT MOVEMENTS

London, Dec. 5.—The Times correspondent at Nancy reports that from somewhere near Pont-A-Mousson the French bombarded, at the range of eight miles the town of Arnville, just beyond Pagny-Sur-Moselle, and some miles short of Metz. As it lies on the direct line of German communications by which their advanced forces at St. Mihiel and in the rest of the Woerwe are supplied with ammunition and provisions from Metz, its destruction would have been a heavy blow to the Germans.

"The bombardment of Arnville affects the possible retirement of the Germans from the Woerwe.

"What has happened and is happening near Ciry has to do with a possible advance of the French into German Lorraine."

TRYING TO HOLD FROM THE ALLIES

Rome, Dec. 4.—The formal announcement that Prince Bernard von Buelow, former Chancellor of the German Empire, has been placed at the head of the German embassy here, has attracted much interested comment in Rome. It is remarkable that a former chancellor should become the head of an embassy which is by no means the most important in the German diplomatic service.

Many observers are of the opinion that the appointment means that Berlin is about to exercise strong pressure to prevent Italy from passing to the side of the allies.

FIGHTING IN GALE AND HEAVY RAIN

London, Dec. 5.—The Daily News correspondent telegraphs from northeastern France: "Yesterday's fighting took place in the fiercest gale of the winter, with early rain and hail. So hard were the conditions that the guns at times had to undergo an enforced silence.

Around Ypres the French forced back several determined attacks in torrential rain, and a little to be south of the British had a busy time of it."

DEALING WITH ARMY AND NAVY CONTRACTS

London, Dec. 5.—The government has taken prompt action to forestall a scandal over army contracts at which some years already have lapsed, by appointing a special committee, with Lord Sher as chairman, who will co-operate with the heads of the treasury department in sanctioning all army and navy contracts.

ANADA MAY HAVE TO SEND MANY MORE

Woodstock, Ont., Dec. 4.—That Canada will have to send at least 800,000 men to the aid of the motherland, if enlistment in the British Isles is adopted as basis for the dominion, was the statement of N. W. Rowell, K. C., Liberal member in Ontario, in an address at the annual meeting of the Woodstock Canadian Club last night.

Soldiers of Canada

(A. M. Belding)

You that are bone of our bone and flesh of our flesh; You, with a right to your lives, yet willing to die, Tell to the world, if it need the telling a truce, That the faith of the race does not rest on a lie. They who had mocked at an age that seemed to have lost All that is worthful to man, in its lust for gain, Making the standard of values only the cost Paid in the gold that shall perish and naught remain, Now see how the vision of prophets of old.

Find in your manhood the pledge of a world redeemed Out of its bondage to gods of silver and gold, Raised to a height of whose glory the seers have dreamed.

God's in His world, and the task He gives to your hands, Calls for the strength of a soul that is undimmed, Fearless of danger and toil where honor commands, True until death to avenge an honor betrayed.

Once, long ago, in the storm-swept life of the race, One who had preached unto men the gospel of love, Daring to die for the faith professed, set His face To the city of Hate and the mountain above.

Not by the way of the Cross is the sacrifice Challenging men of today, to prove to the world That the soul of the race is not bought for a price, —Yours is the test where banners of war are unfurled.

Still stand the walls of the ancient city of Hate, Frowning and dark, o'er the peaceful valleys of life; Yours is the task, 'mid the chosen legions of Fate, There in the storm and the stress and heat of the strife.

Down into ruin to hurl grim tower and wall, That the peace of the world may be wrought by your hands, God be your strength in the fight! The heroes who fall, Dying shall live, shrined in men's hearts while the world stands.

Both young men will carry with them the best wishes of the Times and Telegraph. Last week the Times composing room staff bid farewell to Gordon Smith and presented a watch to him on his joining the 26th Battalion.

At the same time a wrist watch was also presented to Kenneth Finley of the Times press room, who has enlisted with the 26th Battalion, a presentation in which the press room staff joined.

Both young men will carry with them the best wishes of the Times and Telegraph. Last week the Times composing room staff bid farewell to Gordon Smith and presented a watch to him on his joining the 26th Battalion.

Francis X. Jennings, of the writing staff of the Times, will leave Monday for Fredericton to join the field artillery battery, which has been enlisted there, and which is composed chiefly of students and graduates from the U. N. B. and other provincial universities. Mr. Jennings has been a valued member of the Times staff and will be greatly missed in the office as well as by many friends around the city. Before leaving a wrist watch was presented to him by A. M. Belding, on behalf of the writing and office staffs of the Times and Telegraph.

Ed. D. Howard and Rupert P. Dykeman Sign on For 26th Battalion

After tonight the strength of the local police force will be reduced by two. Edward D. Howard, who has been stationed for the last year on the west side, resigned on last Saturday to join the 26th Battalion and Policeman Rupert P. Dykeman is today doing his last day's duty in the police department, having also enlisted with the second Canadian contingent.

Chief Clerk said today that it was going to make the policing of the city more difficult, particularly as the winter port season was at hand. He felt that the "strangeness" of the season should be defined by law and always kept up to that number so that several vacancies would not be left to fill at one time with green men.

Both the petrolmen who have enlisted have been popular with the citizens, who will wish them a safe return.

The collection will be in aid of the Patriotic Fund.

A WAR POSTAL CARD

British patriotism finds expression in many ways and it was not to be expected that the future soldier would have the opportunity of the war afforded to put out cards that would appeal to the public fancy. This one with three grain buildings on a Union Jack field sells by thousands.

TWO MORE TIMES BOYS OFF TO WAR; THEY GET WATCHES

Francis X. Jennings, of the writing staff of the Times, will leave Monday for Fredericton to join the field artillery battery, which has been enlisted there, and which is composed chiefly of students and graduates from the U. N. B. and other provincial universities. Mr. Jennings has been a valued member of the Times staff and will be greatly missed in the office as well as by many friends around the city. TODAY'S OFFICIAL REPORT

Paris, Dec. 5.—The official French statement today says that north of the Lys the French troops have made perceptible progress. The infantry occupied in one operation two lines of entrenchments.

Half way between Dixmude and Ypres the French possession of a position, the occupation of which has been disputed spiritedly for a month. The enemy's violent attack with heavy artillery failed to make the French evacuate the conquered ground.

"In the region of Arras and in Champagne there have been intermittent cannonading. The French have been bombarded with particularly severity. The French have destroyed several earth fortifications of the enemy.

"In the Argonne the contest continues to be very hotly waged. The French have occupied several trenches and repulsed all counter attacks. In Lorraine and in Alsace there is nothing of importance."

PROJECT AFOOT FOR STEAMER LINE TO CUBA FROM ST. JOHN

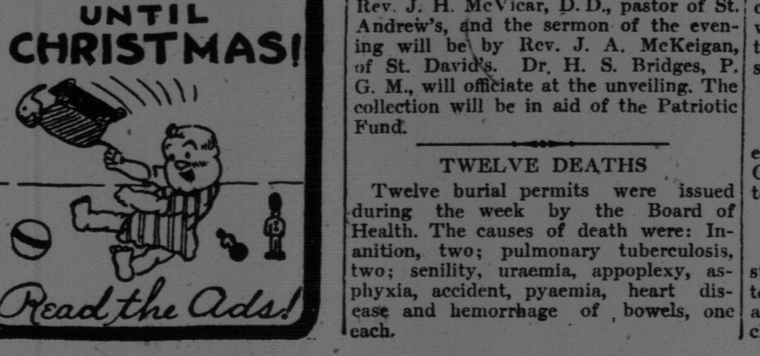

Owing to the energetic efforts of Senor Barranes, the new Cuban consul at this port, the trade between St. John and Cuba has been steadily increasing. It is probable that a large business could be built up. At present there is no direct steamer communication and this has proved a barrier but the trade has increased to such an extent as to make a direct line seem feasible. The Cuban consul has been endeavoring to arrange for such a service and is issuing a circular letter to all merchants interested asking for co-operation.

On Monday, December 7, the flag of the Cuban consulate will be flown at half mast in recognition of their national decoration day, when honor is paid to those who fell in the war for Cuban independence.

RUSSIANS HAVE WON AT LEAST A TACTICAL VICTORY IN POLAND FIGHT

Gory Battle Around Lodz One of the Hardest Fought of War—Germans Cut Through Surrounding Russians in Fearful Fight

New York, Dec. 5.—A Herald cable from London says—"The return of the Kaiser to Berlin yesterday is regarded here as a sure indication that German expectations of an early success in Poland have been effectually blocked. Conflicting reports continue to come from Petrograd and Berlin, but through them one fact looms. The battle of Lodz has ended and with all the signs pointing to at least a tactical victory for Grand Duke Nicholas.

Petrograd, via London, Dec. 5.—Southeast of Lodz, where German forces which had penetrated to Tuszyn were surrounded and obliged to fight their way to Berezyn to unite with the main body. The Russians essayed counter attack after counter attack to prevent the junction, but the Germans cut a passage, at the point of the bayonet, for a distance of fifteen miles.

BATTLE ONE OF WORST

This battle is called the bloodiest and most pitiless fight of the war. Ninety per cent of the German officers were put out of action and many regiments had fewer than 100 men left. The fighting lasted thirty-six hours. The Germans fell in rows but their comrades pushed forward over the bodies and hustled themselves against the Russians.

Petrograd, via London, Dec. 5.—On the Serechew line, which is fifteen to twenty miles long, east of the Warta, the fighting appears to indicate that the Germans have been heavily reinforced and that they are filling the gap between their right wing and the isolated body which has been striving to turn the Russian left.

The military critic of the Bourse Gazette reckons the fighting strength of Austria now at two-thirds of what it was at the beginning of the war. He states that the last 50,000 Austrian prisoners included 600 commissioned officers and contrasts this with the results where the Russians are engaged against the Germans. There, he declares, the officers fall fighting.

BIG SEIZURE OF LIQUOR IN HOTEL IN FREDERICTON

Fredricton, N. B., Dec. 5.—At the Waverley hotel yesterday afternoon Chief of Police McCallum seized \$1,000 worth of ale and whiskey, mostly bottled goods. A complaint will be lodged for keeping liquor for sale.

There are now 160 men on the strength of the field battery being raised here and more are coming. Twelve enlistees with the infantry at Halifax will leave for there this evening.

MINIMUM WAGE OF \$9 A WEEK FOR WOMEN OF THE TWIN CITIES

St. Paul, Minn., Dec. 5.—A minimum wage of \$7 a week for women was the highest consented to by employers serving on the advisory board appointed by the new Minnesota minimum wage law.

Nevertheless the minimum wage commission has just over-ruled the employers and fixed \$9 as the minimum wage in cities of the first class for office, telephone and telegraph employees. The commission resigned just before the new wage order was issued, and the employers of the state are now waging a bitter fight on the law, saying it is unconstitutional.

An enlightening analysis of the investigations which were made by the commission in determining what should be considered a "living" wage has just been published by Rev. John A. Ryan of St. Paul seminary. Father Ryan is author of "A Living Wage," and is considered one of the foremost authorities in this country on the subject.

In the matter of food and lodging the majority of the mercantile board, says Father Ryan, decided that an allowance of \$4.80 a week would provide good accommodations with board for all who are willing to live two in a room.

The final recommendation of the advisory board—which was not followed by the commission—was \$8.66 a week as the minimum wage, of which sum only \$2 was allowed for clothing and \$1.85 for miscellaneous expenses.

CARE FOR THE GIRLS.

The care of girls on their arrival here from outside places while awaiting permanent lodgings was discussed at a meeting of the King's Daughters Guild yesterday afternoon. The matter of the character of permanent boarding houses in the city for young girls was also discussed and Mrs. W. C. Matthews, Mrs. John Bullock, Miss Alice-Estey and Mrs. J. S. Flagler were appointed to investigate the matter.

Another committee was appointed to keep watch on the motion pictures in the city. The report of the night school committee was very encouraging. There is still room for more girls.

Two soldiers stationed at the door give the affair a very military appearance. The little girls are all dressed in white with the school colors.

IN THE COURTS. The jury in the case of Harding vs. Parlee before Chief Justice Landry in the supreme court yesterday returned a verdict for the plaintiff, awarding him damages of \$2,250. Damages were claimed for injuries received by being thrown from a car of lumber on the Ballast wharf last December. H. O. McCreary for the plaintiff and J. B. M. Baxter, K. C., for the defendant. Trooper W. C. Hall, Trooper Chas. Warren, Eugene Ring, Farrier Sgt. Lyon, Trooper Herbert Smith, Corporal Arthur Smith, and Captain Parker gave evidence yesterday afternoon in the case against Corp. David White, arrested on suspicion of stealing a horse from 45-remount depot. Witnesses testified that White borrowed a key to one of the gates from Trooper Hall about two weeks ago, and later the horse was missed. Captain Parker and Sgt. Lyon denied having given permission for the removal of the horse and said that cases of horses not fit for use, they were closed. The case for the crown was closed and evidence for the defense will be heard this morning. E. C. Weyman is appearing for White. Young Ahearn will probably call to go to England and meet O'Keefe, the middleweight champion, that country. The latter is in the army but has not yet been sent to the front.

### THE WAR NEWS

The news from the war zone is still undecided. The Russians, however, still claim to have the best of the fighting in Poland, and it is evident that the German losses there have been enormous. There is no marked change in the situation in France and Belgium. The French government is calling on 800,000 youths of eighteen years of age, to be ready to begin their military training next March, so that if necessary they may be placed in the field in July next. The Allies are steadily strengthening their position, and getting ready for the moment when a general advance against the Germans will be ordered. Whether the order will come before next spring is still a matter of doubt. Much will of course depend upon what takes place in the eastern theatre of the war.

The return of the Kaiser to Berlin yesterday is interpreted as an evidence that his hopes of a great victory in Poland have been destroyed. From Northern France the belief is expressed that the Germans are withdrawing from some of their positions, while in the south the French are steadily gaining ground in the direction of Metz, in German territory. Lieut.-Colonel Rousset, a French observer, believes that the Germans have withdrawn large forces from the west for the fighting in Poland, and that this explains their comparative inaction in Flanders and the steady advance the French are making in Alsace.

### A WORTHY LEADER

The friends of good government in convention in Fredericton yesterday selected Hon. C. W. Robinson as their leader. Mr. Robinson himself would much have preferred to do his part under the leadership of Mr. F. B. Carvell, but the latter, although he had been very strongly urged to quit federal politics and lead a new provincial party in the interests of better government, felt that he could be of greater service to the country and to his party by remaining a member of the federal parliament.

The return of Hon. C. W. Robinson to active political life is universally approved. He is an honorable and high-minded gentleman, and those who listened to his address at the banquet in Fredericton on Thursday night were deeply impressed by his appeal to the best men of all parties to come together and insist upon an honest and businesslike administration of provincial affairs. The Standard this morning describes Mr. Robinson as "a gentleman" who possesses "refinement," and in another sentence tells its readers that "the other sentence tells its readers that 'the really possesses many of the qualities of a gentleman.'" This from The Standard may be accepted as convincing evidence that by the respectable element of the Conservative party Mr. Robinson is recognized as an honest and able man, worthy of the respect and confidence of the people. In its choice of a leader the good government party has been extremely fortunate. In accepting the leadership Mr. Robinson said:

"The time had come for our public men to be guided by principles of right and justice, and not by political expediency. It was in other words a day of regeneration. The best citizens must come forward to take their part in bringing about good government. They had before them the shining example of the men from all the Empire who were sacrificing home and business ties and shedding their blood for their country."

When this appeal is made by Mr. Robinson to the people of New Brunswick in a political campaign, in which the whole shameful record of the Flemming government will also be laid bare, there can be no doubt as to what the answer will be. Mr. Robinson was well described as the "future premier of New Brunswick."

All attempts on the part of the government press to minimize the importance of this conference of the friends of good government will only result in deceiving the few hide-bound partisans who read only one side of the news, and accept as the truth the utterly false and misleading statements placed before them. Hon. Mr. Robinson on Thursday night told Mr. Carvell that if he (Carvell) would accept the leadership he would be supported by thousands of Conservatives, as well as Liberals. What Mr. Robinson said of Mr. Carvell is equally true of Mr. Robinson himself. He too will be supported when the time comes by thousands of Conservatives, who are ashamed of a party which has not only produced Mr. Flemming and his co-workers in political iniquity, but has now accepted responsibility for them and declared its approval of their acts by accepting Mr. Flemming as a fit representative and exponent of Conservative ideals in the parliament of Canada. There are thousands upon thousands of Conservatives who will not follow their party in endorsing and supporting a man who as premier of the province was found guilty of taking "by compulsion" \$2,000 from a railroad contractor, and who "set the seal of his approval" upon the acts of Berry and Teed. By contrast the record of Hon. C. W. Robinson, and his manly stand for genuine reform in the

politics of the province, must appeal in the strongest manner to all who desire to wipe out as far as possible the disgrace brought upon New Brunswick by the government which has been in power for the last half dozen years.

### A PEOPLE'S FORUM

St. John people have kindly recollections of Mr. J. S. Woodsworth of Winnipeg, who visited this city some months ago and gave a number of very interesting addresses on community welfare work.

The Times has received from Mr. Woodsworth the winter programme of the People's Forum of Winnipeg, which is an incorporated body, and has entered upon its fifth year, and holds meetings free to the public every Sunday afternoon from three till five o'clock, in St. John's Technical Institute. It is pointed out that the People's Forum has provided opportunities for the discussion of civic and social questions by citizens irrespective of nationality or creed, and has popularized science and art by arranging for lectures and addresses, illustrated whenever possible by lantern views; and by providing good music. It is explained that the views presented by Forum speakers are not necessarily those of the directors and officers of the Forum. A quotation from Professor L. T. Hobhouse explains this by saying: "In great matters of life it is our imperative duty not only to hear all sides, but having heard them to form opinions of our own."

The season of 1914-15 provides for twenty-two addresses on a great variety of interesting subjects, some of them accompanied by lantern illustrations. Civic problems, rural problems, the woman's movement, health problems, labor organization, the banking system, taxation, land speculation, the cost of living, public utilities, railway nationalization and other very interesting topics are in the list; and it is very evident that the People's Forum, whose meetings are free to all, and where questions and discussion follow the formal addresses, must be of very great value in creating an enlightened public opinion in the city of Winnipeg.

In South Africa they are talking of hanging General DeWet. Nothing would be gained by such a course.

The good government party in New Brunswick stands for better roads and an honest administration of the crown timber lands.

There is a rumor that the German cruiser Karlsruhe is again in North Atlantic waters. The announcement will not cause any serious alarm, as there are many British cruisers in these waters which would be glad of an opportunity to encounter the Karlsruhe.

If the news that comes from Halifax is correct, Premier Borden will compel the mail steamers, which prefer the direct course between Liverpool and St. John, to call also at Halifax, and thus skirt around the Nova Scotia coast both going and coming, and unnecessarily lengthen their voyage. Where is Mr. Hazen?

There will be more calls than ever before for the spirit of charity and good will during the coming Christmas season. Those who respond to the call and do the best with the means at their disposal to bring some brightness into other lives at home and abroad will be themselves the happier and richer, in possession of that spirit which is the mainspring of human welfare.

"Despite all his dodging and squirming, F. B. Carvell must now come into the open and fight the man he has traduced and slandered for years," says The Standard. Who is it that Mr. Carvell has been "dodging" all these years, and has also "slandered"? None other than the Hon. J. K. Flemming, hero of the timber graft and the \$2,000 episode. Mr. Carvell had an opportunity yesterday to dodge the redoubtable Mr. Flemming by retiring from parliament and accepting the leadership of a party in provincial politics, but he refused to dodge. The picture of Mr. Flemming going up and down the country seeking to destroy graft and grafters and villainous politicians is one to make the very angels weep.

## THE BLOOD IS THE STREAM OF LIFE

Pure Blood Is Absolutely Necessary To Health

### "FRUIT-A-LIVES" PURIFIES

These Wonderful Tablets, Made of Fruit Juices, Are the Best of All Tonics To Purify and Enrich The Blood

Pure, rich blood can flow only in a clean body. Now, a clean body is one in which the waste matter is regularly and naturally eliminated from the system. The blood cannot be pure when the skin action is weak, when the stomach does not digest the food properly, when the bowels do not move regularly, when the kidneys are strained or overworked.

Pure blood is the result of perfect health and harmony of stomach, liver, bowels, kidneys and skin.

"Fruit-a-lives," by their wonderful action on all these organs, keeps the whole system as clean as Nature intended our bodies to be clean.

"Fruit-a-lives" tones up, invigorates, strengthens, purifies, cleans and gives pure, rich, clean blood that is, in truth, the stream of life.

"Fruit-a-lives" is sold by all dealers at 50c a box, 6 for \$2.50 trial size 25c or sent postpaid on receipt of price by Fruit-a-lives Limited, Ottawa.

### LIGHTER VEIN.

The paradox of the age is that Mr. Rockefeller admits paying \$10,000 too much for an oil painting. Not that he lost the money, but that he got beat on anything in oil—Omnibus Bee.

Jack and Mary were told that there were two apples on the table for them. Being taught to consider each other first, Jack said: "Take your choice, Mary." "No," said Mary, "you take your choice." Each of them kept on insisting that the other take first choice, until finally Mary broke the deadlock by taking the larger apple. Instantly Jack's eyes flashed, and he exclaimed: "Put that back and take your choice."

A New Yorker tells, in Lippincott's of his sojourn at a certain hotel in the Carolina mountains. At about eight in the morning he was aroused from a sound slumber by a knocking on his door. "What is it?" he shouted. "Telegram for you, boss," replied the darkey on the other side of the door. "Will you open the door?" "The New Yorker was angered by this. 'It will not!' he yelled back. 'Can't you slip it under the door?'" "No, boss," was the response, "it's on a tray."

An Unhappy Empress

For the last forty years Empress Charlotte of Mexico, widow of the ill-fated Emperor Maximilian, has been living, incurably insane, but otherwise in good health at the castle of Bouillon, close to Brussels. As a daughter of King Leopold I of Belgium, she is the aunt of King Albert.

A gift of a Gillette Safety Razor appeals to one of man's strongest "weaknesses", his love of ease and comfort. It makes shaving quick and easy—a pleasure instead of a task. So naturally it wins his whole-hearted appreciation, renewed every morning.

The selection of Gillette Sets is this year better than ever. There is the new "Aristocrat"—a superb Set in white French Ivory, blade boxes to match, with a handle of new and graceful shape, as illustrated. The patriotic "Bulldog" out just a month or two, has made a tremendous "hit". Its feature is a stocky, heavy handle that gives a new balance which most men like. The case is of gray Antique Leather, handsome and business like. These two new Gillette Sets are priced as usual—\$5.00 in Silver Plate, \$6.00 in Gold Plate.

Then there are the favorite Standard Sets and the handy Pocket Editions in a great variety of Plated Metal and Leather Cases, at prices from \$5.00 to \$6.00. Or you can pick out a Combination Set, as elaborate as you wish at prices up to \$25.00. You cannot choose a more practical Christmas Gift for the man who is working away at home, while for the soldier boy who is off to the front it is even more acceptable.

Look over the assortment at your Dealer's. If you do not find just the Set you want, write us and we will see that you are supplied.

SKIN TROUBLE ALL OVER CHILD'S HEAD

Like Little Water Blisters. Itched So Could Not Sleep. Cross and Fretful. Hair All Dropped Out. Cuticura Soap and Ointment Healed.

99 Foundry St., Moncton, N. B.—"My little girl's trouble started just like little water blisters on her head, which went all over her head. They itched so she could not sleep at night and she would cry by the hour and then she would scratch it. I never had any rest with her night or day she was so cross and fretful. She failed in health. All her hair dropped out. I was given a wash for it and a salve and I used them and they did her no good. Then I got Cuticura Soap and Ointment which did her no good. I was told about Cuticura Soap and Ointment which healed her head in two months." (Signed) Mrs. James Flood, Mar. 11, 1914.

PIMPLES AND BLACKHEADS. 46 Stephanie St., Toronto, Ont.—"Blackheads came on my face and then afterwards pimples came. They became red and sore and itched so I could not sleep. I tried Ointment but it was not successful. Then a friend told me that Cuticura Soap and Ointment were the best I could use. I suffered for two months before I used them. I only used Cuticura Soap and Ointment for three weeks and they healed my face." (Signed) Arthur J. Every, May 29, 1914.

SALTS IF BACKACHE AND KIDNEYS HURT

Stop Eating Meat For a While if Your Bladder is Troubling You

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water seals and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful effervescent lithia-water drink.

BISHOP LeBLANC

(New Freeman.) Thursday next will mark the second anniversary of the consecration of Monsignor LeBlanc as bishop of this episcopal see. Since assuming chief pastoral charge of the diocese, His Lordship has been a busy man, and among the many episcopal qualifications that he has shown, none stand out in bolder relief than his great capacity for work. Within the last two years he has made marked changes in his Cathedral parish; he has visited practically every part of the diocese and has come in personal contact with the greater portion of his flock. His ad limina visit to Rome this year afforded him an opportunity not only of visiting our late lamented Holy Father Pius X, but also of visiting the Holy Land and the principal historic places of Europe, and gaining therefrom, like all discerning travelers, wide and useful experience.

In the name of all our readers and on behalf of the New Freeman itself, we extend to His Lordship our heartfelt congratulations on this the anniversary of his episcopal consecration, and wish him ad multos annos.

THE LATE MRS. HELEN MACCLEERY

On last Thursday at eight o'clock the funeral services for Mrs. Helen MacCleery, widow of James Albert MacCleery, were held in Trinity church, Kingston, Kings county, N. B. The funeral was one of the largest ever held in this parish. Mrs. MacCleery went there a bride on Feb. 3, 1868, and had been a worker in the church until the time of her death which occurred on last Tuesday at 8.30 a.m. Mrs. MacCleery was a descendant of

the Loyalists who landed in St. John on May 18, 1783. Trinity church, Kingston, was later built by the Loyalists, the foundation stone, laid in 1788, is the oldest church in New Brunswick.

Mrs. MacCleery was one of the best known and best loved persons in the community and was highly respected by all who knew her. Many will recall her many beautiful characteristics, her kindly smile and cheerful words, which so endeared her to all who were fortunate enough to come in contact with her. At one p.m. a short service was held in her home, Rev. C. Gordon Lawrence officiating. Mrs. MacCleery's favorite hymn, Nearer My God to Thee, was sung at the service. At half past one a procession was formed and proceeded to the church where the Episcopal funeral service was conducted by Rev. Mr. Lawrence. The pall bearers were: Watson A. MacCleery of Boston, Oakley C. MacCleery and Herbert S. MacCleery of St. John, and Ivory D. MacCleery, who lives on the homestead at Kingston, all sons of Mrs. MacCleery. Besides these Mrs. MacCleery leaves one daughter, Mrs. Laura H. Fairweather, of Boston, and a son, Gordon MacCleery, of Harvard, Mass., also a brother Captain Alfred Peatman, of St. John, and several grand-children to mourn her loss.

The wedding of Joseph Costack of Dudley and Mary Wagnella of Quinbaug, Conn., was first set for a day last week, but because of the delay in the arrival of the wedding dress the wedding was postponed till November 30. Then, after its safe arrival on Monday, they found that the dress had been damaged, and that religious rules required a postponement of a month.

Individual towels and soap were distributed to the firemen of Philadelphia as a result of an order by the chief of the fire department. The department has arranged to supply each fireman in

the city with two towels daily, and with a pound of soap every month. In addition the firemen are required to supply themselves with individual drinking cups, brushes and combs.

Twitching of the Nerves Broken-down System

Now Entirely Cured—Never Used Any Medicine With Such Benefit as Dr. Chase's Nerve Food.

Headaches, sleeplessness and nervousness are often very disagreeable, but when your nervous system gets into such a condition that the nerves twitch and jerk, and you have peculiar nervous sensations come over you there is cause for grave alarm. If every body regards the thought of paralysis or locomotor ataxia. Nothing is worse to look forward to than helplessness. Sometimes it is the helplessness of body, and at other times the mind is affected, which is far worse.

The writer of this letter did not know what to expect, but fortunately began the use of Dr. Chase's Nerve Food in time to head off danger, and writes that she was entirely cured of the old trouble. The last paragraph proves that the cure was lasting. Mrs. John McKellar, 11 Barton street east, Hamilton, Ont., writes:— "I was injured some years ago, and that left me with a broken-down nervous system. I could not sleep, and suffered from twitching of the nerves and disagreeable nervous sensations. I then began using Dr. Chase's Nerve Food, and can say that I never used any medicine that did me so much good; in fact, I am entirely cured of my old trouble. The Nerve Food not only strengthened the nerves, but also built up my system in every way." Under more recent date Mrs. McKellar writes confirming her cure, and states that she has had inquiries from many people who had heard of the great benefits she obtained from Dr. Chase's Nerve Food. Dr. Chase's Nerve Food, 50c a box, \$ for \$2.50. At all dealers.

Take this present time easy. Sit by the fireside and run over our list of attractive gifts, then call on us or phone or write. Newbro's Herpicide

The Original Germ-Remedy for Dandruff. Makes hair soft and fluffy. Stops itching of the scalp. DON'T BLAME YOUR MIRROR Many ladies compel their mirrors to bear silent witness to needless hair destruction. Day after day they see beauty and attractiveness despoiled by the removal of great combfuls of slightly diseased hair that could be saved. If your mirror could talk it would plead with you to "save your hair—not the combings." It can be done with Newbro's Herpicide which eradicates the contagion that causes dull, brittle and lusterless hair, also dandruff and falling hair. Correct this and the hair's natural lustre and abundance will return. Almost extraordinary results. An exquisite hair dressing. Who'll Pay That Mortgage?

That mortgage—or other indebtedness—may cause you no worry. You know you can repay it if all goes well. But there's the rub. What if things go wrong? Supposing you should die—could your wife pay the mortgage without your income? An Imperial Endowment Policy for the amount of the indebtedness will insure its repayment, whether you live or die. There is no other means of meeting the case that is quite so certain—that leaves nothing to chance. And the annual investment required is very moderate—moderate at least when you consider the peace of mind it will afford you. Look at this problem squarely—don't dodge—don't wait. The advantages of Life Insurance are available only to those in good health. Send to-day for information about a policy to suit your particular need. To-morrow may be too late.

**Ready for the Chilly Days?**

Fortify yourself against the days that bring sudden changes of temperature—the days that try the strongest bodies—by eating

# SHREDED WHEAT

It will increase your powers of resistance and your physical and mental efficiency by supplying the elements that make rich blood and good muscular tissue. Poorly nourished bodies are most susceptible to climatic changes. Shredded Wheat contains all the body-building material in the whole wheat grain made digestible by steam-cooking, shredding and baking—the best process ever devised for making the whole wheat grain digestible in the human stomach. Ready-cooked, ready-to-serve.

For breakfast heat the Biscuit in oven to restore crispness and then pour hot milk over it, adding a little cream. Salt or sweeten to suit the taste. Better than mushy porridges that are bolted down without chewing. A hot, nourishing breakfast for a chilly day. Deliciously nourishing for any meal with sliced bananas, baked apples or canned or preserved fruits of any kind.

**THE TRAGIC STRUGGLE TO LIVE ON \$6 A WEEK**

Evidence Relative to Factory Girls at New York Investigation

New York, Dec. 5.—"How girls live on \$6 a week." Under this caption are read into the record of the factory investigation commission first hand details of the fight for existence which the commission's investigators say is being waged daily by tens of thousands of underpaid women and girls in New York state.

Miss Esther Packard, assistant secretary of the Consumers' League, testified as to the results of her personal investigation. She cited many instances among them the following:

"Miss C. W.—When I have to pay for shoes or anything like that I don't buy meat for weeks at a time."

"F. M.—I never eat any breakfast at all; I found that was the easiest meal to do without."

"Miss T.—I generally buy beans for three cents and bread for two cents at lunch; I seldom pay more than seven cents."

One girl, Miss Packard said, lives on one meal a day when she has to pay for shoes or a hat. Many girls frankly admit that they counted on their male friends to buy their Sunday dinners. A girl of twenty-three has taken no vacation for six years, because she could

not afford to lose her salary for a week. One of forty without a vacation for twenty-five years cannot think of stopping work for a month to take a rest which she needs. A girl of twenty-two who became ill last summer, explained her illness, according to the witness as follows:

"The only thing I can economize on is food. Fifteen or twenty cents is the most I ever pay for lunch or dinner; I get so tired of those twenty-cent dinners year in and year out that often I think I'd rather not eat at all."

**SIR THOS. TAIT BACK TO POST WITH C. P. R.**

(Montreal Journal of Commerce)

It has been for some time mooted that Sir Thomas Tait, who is now in command of a coal company in New Brunswick district, is to assume an important position in the C. P. R. soon. On enquiry this was neither confirmed nor denied but at the same time it is in consonance with the other changes which were denied, because this paper has it on good authority that Mr. Tait is coming back to his first love. The details of the return are based on some codicils in the will of the late Lord Strathcona.

**London's Beauty Writers**

Weekly Selections from Noted Beauty Experts Writing for the English Press. Simple and Effective Methods.

By OLGA ARSEBELL, Special Correspondent, London, Eng.

Each week in this department I will endeavor, by careful clipping from the London papers, to keep my Colonial readers informed on the latest and best advice of the London beauty experts. Owing to the persistent demand most London newspapers and periodicals are now devoting much space to the serious consideration of beauty culture. Many of them now employ high salaried experts to advise and instruct in methods, more efficient than leading English publications. Any of the ingredients mentioned could be obtained from Canadian chemists or druggists, so I am told. Look out for more hints next week. I shall endeavor to keep right up to date.

**Don't Curl Hair With Hot Iron**

Instead of burning the life out of your hair with a heated curling iron, you can add to its life by using plain liquid diet. It is simple and at the same time secure a hair will have a delightful wavy appearance, no matter in what form it is done up. If you will simply apply a little salmerine at night with a clean tooth brush, drawing this through the hair from root to tip. As you will not need to repeat this every day, the application for a fortnight—or possibly longer if the weather be unusually damp—the smallest bottle the druggist carries will last you a long time.

**Abort Hair Tonic.**

Each week almost one hears of some wonderful discovery for improving the hair, and although this paragraph may seem a little superfluous, an old-fashioned recipe may come as a welcome change. I know of many instances where it has stopped hair from falling out and caused new hair to grow. Get an original package of boraxum, add one-fourth pint of bay rum, allow it to stand 30 minutes, strain, then add sufficient water to make half a pint. Rub briskly into the scalp with the finger-tips and you will immediately experience that clean tingling sensation which is a sure sign of healthy action.

**Care of Eyebrows and Lashes.**

Eyebrows and lashes should be brushed gently night and morning. Besides keeping them dust free, this stimulates growth. Ordinary menials will help wonderfully in the same direction. Rub it into the eyebrows from nose outward. Apply to lash roots with thumb and forefinger. Menials also makes the hair glossier and darker. The lashes soon lengthen and curl up beautifully.

Three resolutions were passed which will be given further consideration later. The first called for the insertion of a plank in the party platform as to the desirability of having the colonization and lumbering interests placed under the control of separate departments of the executive council.

On the opening of the afternoon session it was reported by O. Turgeon, M. P., that Mr. Robinson had been selected as leader, which announcement was received with hearty cheers.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running ear or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever, since sound waves cannot pass the inflamed surface of the mucous lining of the Eustachian tube. English Beauty Tells Complexion Secrets

Through a fortunate meeting with an English lady, noted for her dazzling complexion, I recently learned the full meaning of that old adage, "Beauty is but skin deep." She taught me how to remove my maddening skin, revealing the young and beautiful skin underneath. The process is so simple, harmless and inexpensive, I'm sure you'll be glad to know about it. Just get an ounce of ordinary mercurized water, as any druggist will supply, and add a few drops of my special skin cream, for a week or so. Every morning in washing off the wax, they particles of worn-out outside come off, too. The action is so gentle and gradual, there's no discomfort. It's a wonderful treatment, as it not only peels off the faded or discolored skin, but all of its defects, as chaps, roughness, freckles, pimples, blotches.

I am indebted to the same lady for a remarkable wrinkle-removing formula. One ounce powdered vasoline is dissolved in a half pint which hazel. Used as a face bath, this is so effective that just one application causes the finer lines to disappear, and soon even the deepest ones go. "Bliss" is American Home.

Canada Life Service

The Canada Life management studies to extend and broaden its service to the policyholders, while constantly aiming at increased efficiency. The Company is quick to adopt any measure which will promote either.

An Example of Canada Life Usefulness

By means of an annual deposit with the Company, a man may now arrange that in the event of his death his wife, or other dependent, will at once enter on an income of, say, \$50 per month. This sum is beyond the reach of poor investments and is absolutely assured to her for life—or for a minimum of 240 payments to the estate should the beneficiary die. The amount of the guaranteed monthly payment may be adjusted to suit the means of the assured.

This is the ideal provision in that it furnishes a guaranteed income for life, payable every month. As it may be provided through moderate annual payments to the Company, it is within the reach of every business man.

Herbert C. Cox President & General Manager N.B.—Booklet No. 283 tells interestingly about this plan. Shall we send you a copy? Address: J. M. QUEEN, Manager for New Brunswick, St. John

Why You Should Wear

GUARANTEED NOT TO SHRINK

FIRSTLY—There is no better high-grade Woolen Underwear made, either in Canada or abroad than "CEETEE"—in other words, our own good Canada makes the best Underclothing you can wear—yet many people still retain the old-fashioned idea that imported goods are best.

SECONDLY—On account of the War, imported underwear will be difficult to get, therefore, this is a good opportunity for you to prove to yourself the superior quality of "CEETEE" Underclothing, made in your own country.

Practice economy this winter by purchasing "CEETEE" all pure wool Underclothing. Every garment is fashioned during the knitting to fit the contour of the human form—it has all selvedge edges and all joints are knitted together (not sewn)—only the very finest and absolutely clean Australian Merino Wool is used—so soft that an infant could wear it.

"Let's Make It Unanimous!"

Says Mrs. Bradley, the bride: "Frank wonders where ever I learned to make such white, tasty bread. He wouldn't wonder if he could see how superior my Rainbow Flour is to others."

Says Chef Dupree: "It is not alone that my rolls and bread are better—you should see how flaky pastry is when Rainbow Flour is used for it."

Says Grandmother Brown: "I've never seen a grandchild so stubborn that it wouldn't run an errand for a slice of my bread and butter and sugar. But then—I use Rainbow Flour."

TICKY WORK WHICH HELPED TO THE EMDEN'S SUCCESS

San Francisco, Dec. 5.—The reckless daring and ironic courtesy of Captain Mueller of the German cruiser Emden, lately destroyed by an Australian warship, are illustrated in anecdotes brought home by Captain Phillips of the Standard Oil tanker Wabasha, which narrowly missed capture by the Emden in the Straits of Malacca. The Wabasha flies the British flag.

THOUGHT SHE COULD NOT LIVE

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Unionville, Mo.—"I suffered from a female trouble and I got so weak that I could hardly walk across the floor without holding on to something. I had nervous spells and my fingers would cramp and my face would draw, and I could not speak, nor sleep to do any good, had no appetite, and everyone thought I would not live. Some one advised me to take Lydia E. Pinkham's Vegetable Compound. I had taken so much medicine and my doctor said he could do me no good so I told my husband he might get me a bottle and I would try it. By the time I had taken it I felt better. I continued its use, and now I am well and strong. 'I have always recommended your medicine ever since I was so wonderfully benefited by it and I hope this letter will be the means of saving some other poor woman from suffering.'—Mrs. MARTHA SEAVEY, Box 1144, Unionville, Missouri.

How Thin People Can Put on Flesh

A NEW DISCOVERY Thin men and women—that big, hearty, filling dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained in weight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but your food didn't work and stick, and the plain truth is you haven't got enough nourishment from your meals to pay for the cost of cooking. This is true of thin folk the world over. Your nutritive organs, your functions of assimilation, are sadly out of gear and need reconstruction. Cut out the foolish foods and funny sweetened diets. Omit the flesh cream reductions. Cut out everything but the meals you are eating now and eat with every one of those single Sargol tablets. In two weeks note the difference. Five to eight good solid pounds of healthy, "stay there" fat should be the net result. Sargol charges your weak, stagnant blood with millions of fresh new red corpuscles—gives the blood the carrying power to deliver every ounce of fat-making material in your food to every part of your body. Sargol, too, mixes with your food and prepares it for the blood in easily assimilated form. Thin people gain all the way from 10 to 25 pounds a month while taking Sargol, and the new flesh stays put. Sargol tablets are a scientific combination of six of the best flesh-producing elements known to chemistry. They come 40 tablets to a package, are pleasant, harmless and inexpensive, and all druggists sell them subject to an absolute guarantee of weight increase or money back.

To Grow Hair On a Bald Head

BY A SPECIALIST Thousands of people suffer from baldness and falling hair who, having tried every advertised hair tonic and hair-grower without results, have resigned themselves to baldness, and its attendant discomfort. Yet their case is not hopeless; the following simple home prescription has made hair grow after years of baldness, and is also unequalled for restoring gray hair from falling out, and destroying the dandruff germ. It will not make the hair greasy, and can be put up by any druggist: Bay Rum, 6 ounces; Lavona de Composee, 2 ounces; Menthol Crystals, one-half drachm. If you wish it perfumed, add 1 drachm of your favorite perfume. This preparation is highly recommended by physicians and specialists, and is absolutely harmless, as it contains none of the poisonous wood alcohol so frequently found in hair tonics.

USE THE WANT AD. WAY

HEART WOULD PALPITATE. HAD WEAK and DIZZY SPELLS.

Palpitation of the heart is one of the most common of all heart troubles. The heart will beat fast for several seconds, then slow, then start to flutter, and a feeling of utter depression will come over the system accompanied by weak and dizzy spells, making you feel that you are surely going to die. When you feel this way what you require is a real heart and never tiring one that will strengthen the weak heart and build up the nerve system. For this purpose we know of nothing that can equal Milburn's Heart and Nerve Pills. Mrs. J. S. Nicholls, Listowel, Ont., writes: "I was weak and run down, my heart would palpitate, and I would take weak and dizzy spells. A friend advised me to try your Milburn's Heart and Nerve Pills so I started at once, and found that I felt much better within a short time. I cannot praise my medicine too highly for it has done me a world of good. My husband has me a world of good. My husband has ever since childhood and finds great relief in using your valuable pills. Milburn's Heart and Nerve Pills are 50 cents per box, 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

INSURING GOOD DIGESTION

Importance of Preventing Food Fermentation in Stomach. Good digestion usually means good health. So long as the stomach does its work properly disease can find no lodgment in the human system; the liver, kidneys and intestines will perform their work perfectly and remain in perfect health; but permit anything to interfere with the proper digestion of food, an unending train of troubles is set in motion. About the only thing that will upset the stomach and interfere with digestion is an excess of acid, usually caused by food fermentation. Food fermentation is due to chemical action in the food itself. This fermentation causes the formation of gas, or wind, as well as acid, resulting in the unnatural distention of the stomach and the burning by the acid of the delicate lining of the stomach. Medicine and tonics cannot relieve this condition—they usually make it worse. The fermentation and acid are to blame and these must be overcome and prevented by taking after meals a teaspoonful of bismuthic magnesia in a little hot or cold water. Physicians recommend bismuthic magnesia especially because it stops and prevents fermentation of food and neutralizes the acid instantly, making it bland and harmless, without irritating the stomach in any way. Get a little bismuthic magnesia from your druggist and try it the next time your food ferments and upsets your stomach. Note how quickly the acid is neutralized and how soon you forget that you have such a thing as a stomach.

An Easy Way to Stop Head Noises

Good Advice For Those Who Fear Deafness Men and women who are growing hard of hearing and who experience a stuffy feeling of pressure against their eardrums, accompanied by buzzing, rumbling sounds in their head like water falling over stones, or escaping steam, take prompt and effective measures to stop this trouble. Head noises are almost invariably the forerunners of complete or partial deafness and most deaf people suffer from them constantly. Sometimes these head noises become so distracting and nerve-racking with their never ceasing "hum" they drive the sufferer almost frantic and complete nervous breakdown and even violent insanity have been known to result. Thanks to a remarkable scientific discovery made recently in England it is now possible to almost instantly lessen the severity of these head noises and in a very short time to completely and permanently overcome them. With the disappearance of the head noises the hearing also greatly improves and very frequently can be restored to normal. This English treatment is known as Parmit and can be easily and safely administered at home. Leading druggists in St. John and vicinity now have it in stock. Get from your druggist 1 oz. Parmit (Double Strength) and mix it at home with 1-4 pint of hot water and 4 oz. of granulated sugar. Stir until dissolved and then take one tablespoonful four times a day until the noises disappear and hearing improves. Parmit is used double strength in this way not only to reduce, by tonic action, the inflammation and swelling in the Eustachian tube and thus to equalize the air pressure on the drum but to correct any excess secretions in the middle ear and the results it gives are both remarkably quick and effective. IMPORTANT!—In ordering Parmit always specify that you want double strength; your druggist has it or he can get it for you; if not, send 75c to the International Laboratories, 74 St. Antoine St., Montreal, P. Q., who make a specialty of it.

**BASEBALL**  
Again an Ex-Giant.  
New York, Dec. 4.—Mike Donlin is  
once more an ex-giant. He has received  
his unconditional release, and unless  
some club in the National League claims  
him within the next week or so he will  
be a free agent.  
As a player Mike's loss means little  
now, as a personality much. His depart-  
ure will rob the games here of color,  
both local and linguistic. To see Mike  
on the Polo Grounds, striding away from  
an umpire, was to get the impression  
that the man was a consummate actor.  
Yet in vaudeville Donlin was every inch  
a ball player.  
Once a truly great outfielder, Mike  
has tarried in the big leagues long be-  
yond the days of his playing worth. Al-  
though not famed in his early days for  
careful living, he is in point of service  
one of the oldest players in the game to-  
day. Like Kipling's Mulvaney, Mike  
has seen the league change from colonel  
to drummer boy, not once, but scores of  
times. And like Mulvaney, Mike has  
shown an enormous aptitude for getting  
into scrapes both on and off the field.  
One of the fastest of diamond stars  
in his early days, Mike's speed began to  
fade three seasons ago, but he could  
still hit the ball so far and so cleanly  
that he had no trouble in keeping his  
batting mark above .300.  
He came to the Giants to act simply  
as a pinch hitter, and it must be con-  
fessed that in one department of this  
function he more than made good. Never  
did a player realize so keenly as Mike  
the dramatic possibilities of a march to  
the plate with three men on bases.  
But the New York public demands a  
happy ending, and these Mike could  
not furnish. Too often the curtain came  
down with the three men still on bases  
and the ball high in the air above the  
head of the infielder. Or, more often  
yet, the ball was in the mitt of the  
catcher and Mike was arguing with the

on the days of the exhibition of the St.  
John Exhibition Association or of any  
agricultural society exhibition, either on  
the grounds of such society or within a  
distance of 800 yards of such grounds."  
The meeting proved very interesting  
and some severe criticism on the actions  
of the commissioners was passed. The  
commission afterwards decided in pri-  
vate session that they could do nothing  
further than receive the representations  
of the delegation.

fancy nickel to catch the dust or dirt; the Mission Style applied  
to a range, a room-saver, too, like the upright piano, every  
essential refined and improved upon.
