ARREST LABOR LEADER

C. O. Pratt Organizer of Railwaymen in Philadelphia

STRIKE IS FEARED

Renewal of Troubles Anticipated Soon - Pratt Declares Arrest a Move to Secure Information - Chance of Peace in New York Fades Away

Philadelphia, Nov. 4.—C. O. Pratt, organizer of the Amalgamated Association of Street and Electric Railway Employees and the leader of the street car men in their recent strike, was arrested here last night. He has been making speeches for the Keystone party candidates. The arrest has caused an acute situation in labor circles. Two central office detectives placed him under arrest while he was on his way to consult with other reform leaders. He was later released.

Pratt declared he had been a victim of a "frame-up," and that the detectives were anxious to secure any papers which he might have upon him showing the plans of the men regarding another strike. The report of the men in the recent strike agreement had been referred in expected soon. It is rumored that a strike may be called next Monday, but the leaders of the former strikers declined to discuss the subject.

The employees of the Philadelphia Rapid Transit Company have voted their executive committee and the National Officers power to call a strike of motormen and conductors whenever they deem it advisable.

The same men were invested with like authority a night before the strike of last February.

The New York Situation
New York, Nov. 4.—Union recognition, the rock against which it is apprehended the peace movement is being struck, might split, today appeared to be a stumbling block in the way of even effective preliminary negotiations between companies and men. Two of the companies still held out against treating with the strikers except as former employees. The men declare that, while they do not demand a closed shop, they must insist upon recognition of their organization. This state of affairs has brought the situation to a renewed deadlock and the outlook for peace seemed decidedly poor today.

Steps to hamper the companies' use of strike-breakers have been taken by the strikers' leaders in invoking an old ordinance providing that all express drivers must be licensed.

Barcelona, Spain, Nov. 4.—Non-striking fired upon non-union workmen as the latter were leaving a factory last evening and wounded three.

The general strike at Sabadell is assuming a dangerous character. At a meeting of strikers, it was voted to march on Barcelona tomorrow. Anarchistic literature urging a revolution is being distributed.

Each Candidate Works for Opponent
Here's a Funny Political Situation - Forced to Run, Neither Wants Office

Muncie, Ind., Nov. 4.—"Any party that did not have any more sense than to nominate me for the position of justice, ought to be elected a man like Joseph Zehner, even though he be a Democrat." That is the kind of stump speech Isaiah Duddleson, Republican candidate for Justice of the Peace of Delaware Township this county has been making. He has been working hard for the election of his opponent, Joseph Zehner, and Mr. Zehner has been working just as hard trying to elect the Republican candidate. The campaign has become so warm that both have been indulging in personalities each denying his abilities and lauding his opponent. The campaign is no joke with the two candidates, although it affords humor for the entire county.

The office pays little and would interfere with the business interests of the candidates.

HEAVY STORM COMES ROARING UP ATLANTIC

Snow Fall, Rain and Wind Cause Trouble on Seaboard

Wires are Down and Cities are Almost Cut Off - New York, Philadelphia and Baltimore Report Conditions Bad

New York, Nov. 4.—A storm of mid-winter intensity which came booming up the Atlantic coast last night bringing with it sharp gales and heavy falls of snow and rain left today a broad trail of broken wire connections along the seaboard. The storm was apparently severest between Baltimore and Washington all wires being down between these cities. Pennsylvania suffered from a foggy, clinging snow and wires across the state were either down or working only intermittently. A heavy fall of snow was reported in Scranton, Pa., and near by territory.

Broken wire communications affected some of the railroads and trains from distant points were in some cases far behind their schedules. Five steamships due at quarantine had not been reported at 10 a. m. A small steamer is anchored in the outside harbor, broken down.

Philadelphia, Nov. 4.—The gale developed during last night into one of the worst November storms in years. In the mountains of Pennsylvania snow fell to the depth of twelve inches and some places drifted badly and the trolley service in these sections is impaired. The storm was accompanied by a high wind which played havoc with telegraph and telephone wires. Part of the anthracite coal region is snow-bound.

Baltimore, Nov. 4.—Last night's storm caused serious interruption to telegraph and telephone service. Companies report wires to Washington and the west down. The long-distance telephone companies report no communication in any direction.

This forenoon the storm showed signs of abatement although a mixture of snow and rain was still falling.

Col. J. H. Joyce, declared that the reports of damage to the aeroplanes were greatly exaggerated. There will be no flights today but the meet will be started again as soon as necessary repairs could be made and the weather permitted.

GUNBOAT READY
U. S. Has War Vessel at Amapola, Honduras Where Chaos Reigns

New Orleans, Nov. 4.—The United States gunboat Princeton at anchor off Amapola, Honduras, is cleared for action and its guns are trained upon the governor's residence now occupied by General Jose Valladares, leader of the revolt.

A despatch states that Valladares yesterday insulted the American consular agent at Amapola and threatened to shoot up his residence. The commander of the Princeton prepared his ship for action and sent word to the revolutionist that if foreigners were shot he would shoot the governor's palace full of holes. The despatch says that chaos reigns throughout the western portion of Honduras and that inflammatory manifestoes are being circulated by Valladares and his followers.

San Juan del Sur, Nicaragua, Nov. 4.—It is reported that the revolutionary movement inaugurated by General Jose Valladares at Amapola, Honduras, is backed by the principal opposition leaders.

They recommended shortening the season as the best way of preserving the fishing and that, pending consideration, the government suspend the new regulations for one year.

MORE DEALINGS IN REAL ESTATE

Walker's Wharf Property Bought by the Thorne Warehousing Company—Option Taken on Pugsley Building at Prince William and Church Streets - Hazen Transfer to C. P. R. Filed

One of the latest property deals to come to light is the purchase, by the Thorne Wharf and Warehousing Co., of properties situated on Walker's wharf, for the purpose of establishing a large warehousing business. The Thorne Wharf and Warehousing Co. was incorporated recently by letters patent from the provincial government. The head of the company is W. H. Thorne of this city.

Mr. Thorne said this morning that the Walker's wharf property had been purchased and the company planned extensive development and improvements there. It is proposed to erect modern warehouse accommodation and a large covered shed for the storing of molasses and other heavy goods, and generally to carry on a shipping and storage business.

The purchase includes the brick building in which George McKenna and F. L. Agresta have their offices and a portion of wharf which was occupied some time ago by William Thomson & Co. Mr. Thorne said that it was the intention of the company to spend about \$100,000 in improvements. Possession of the property will be taken on May 1. The C.P.R. are now the owners of all the properties of the Hazen estate in Mill and Main streets, as well as the Likely property in Main street. The transfer of the Hazen properties was recorded on Saturday last. This includes all the land owned by the late Hazen, including the corner of Alder and Main streets, and the corner of Main street and around the corner of Main street to the Likely property. The ten-

ants on the property will have to be dealt with separately, but it is understood that they have received notice to vacate on the first of May next.

It was rumored this morning that the Merchants Bank of Canada which recently opened a branch here, had purchased a building in Prince William street, but those in authority here denied any knowledge of the matter. It is known that an option was given not long ago on what is known as the Pugsley building at the corner of Prince William and Church streets. While this option was not taken in the name of the Merchants Bank, it is rumored that it is being sought for, that institution. The building is now occupied by Andrew Jack, banker, and a shoe shine parlor, on the Prince William street front and by the local government rooms and a residence quarters.

In connection with the report that other banks are seeking an opportunity for opening branches in this city, it is interesting to note what has been done in Halifax. It was stated this morning by a man who had just returned from the sister city that the Union Bank of Canada has bought the corner building on Granville and Buckingham streets, from Johnson & Co.; that the Merchants Bank has bought the corner occupied by Beazons' Gen's furnishings store; the Traders Bank has bought the Aberdeen building on the corner of Bannock and Buckingham streets and the C.P.R. has secured the old Union Bank building.

KICKED WOMAN OFF FIRE ESCAPE TO HER DEATH
Sensational Scenes at Fires in Several Parts of New York Today

New York, Nov. 4.—One woman was killed, several persons were injured and there were numerous narrow escapes in fires in New York today. Mrs. Rebecca Abner is declared by witnesses to have been kicked from a third floor fire escape to her death in the court yard below while she fled from a fire with her husband and children.

In a fire in a West 114th street apartment house policemen carried out most of the panic-stricken occupants, dead only in their night clothing. One woman was badly injured by a fall. Several firemen were injured by brick, following an explosion of acid tanks during a fire in a loft building at 27-31 Bleecker street.

Former General Manager of Transcontinental to Be Head of "Hawley Lines"

Montreal, Nov. 4.—Of interest in Canada is an announcement that, as a result of a general shakeup on what are known as the "Hawley Lines" in the United States, Frank W. Morse, of Montreal, has been appointed general manager of the Chicago & Alton and "Clover Leaf" roads.

Mr. Morse is best known in Canada from his connection with the Grand Trunk Pacific as vice-president and general manager, which position he resigned about two years ago, since which time he has traveled a good deal, and taken no active part in railway work. He was born in 1864 at Lafayette, Indiana. In the course of his progress he met C. M. Hays, and the two became friends. When Mr. Hays came to Canada, general manager of the Grand Trunk, Mr. Morse followed him, being appointed in 1890 superintendent of motive power of that road, and in 1901 was appointed third vice-president and general manager of the Grand Trunk Pacific.

In connection with his work on the G. T. P. Mr. Morse has been in St. John.

MANY BOOKING PASSAGE HOME FOR CHRISTMAS

Liners from Canada Will Have Big Passenger Lists

Big Number Already for the Empresses Sailing from Here in December—Indications of Prosperity of Country in it

Montreal, Nov. 4.—The prosperity of the country, and particularly the western districts, is being reflected in the large number of bookings that all the transatlantic steamship companies are making to Great Britain and Europe for the Christmas holidays.

The majority of the people sailing are taking return tickets in the second class or steerage. A big percentage of them are travelling from Winnipeg and points in the west, and the heaviest bookings are on the ships sailing on dates between December 3 and 10. These include an appreciable number bound for Europe. From the latter date to December 15, the passengers are sailing almost exclusively for England.

In order to meet the demand, the Canadian Northern Company has arranged for sailings of the Royal boats from Halifax on December 9. Their other Liverpool steamers as well as those bound for Glasgow, Havre and London are being well patronized in December.

The C. P. R. have big lists for the two Empresses, the British leaving St. John, on December 3, and the Ireland on December 4. The Lake Manitoba, sailing on December 10, also has a large number of Christmas bookings.

The White Star Dominion liners Laurentic and Canada, sailing on December 2 and 10 respectively, will carry capacity loads.

For the convenience of the holiday traffic both the steamers will call at Halifax after leaving Portland on the dates named. In the ordinary course of winter sailings, the Dominion boats sail to Liverpool after leaving Portland, and touch at Halifax only on the west-bound voyage.

BOYS IN COURT
McQueen and Ryan Freed—Disorderly Actions in Waterloo Street by Gang

Evidence was given this morning in the police court in the cases against Leonard McQueen, and Joseph Ryan, each aged 18, on charges of disorderly conduct in Waterloo street on Tuesday evening. The boys were not proven members of the crowd, but they were warned to keep off the streets after a reasonable hour at night in order to be respected.

Evidence was given by Chas. Kerr, Wm. McNeill, John Hefferan, and Policeman Crawford, and it was shown that about five boys had been around the street until a late hour, and had even approached women and demanded money. They had also stopped men in passing and asked for money or tobacco. One witness described them as having been partially under the influence of liquor.

Han Lee who keeps a laundry store in Waterloo street said his window had been broken at a loss of \$1 to him. The boys in court denied all knowledge of the affair. Judge Ritchie, before dismissing the boys, said that he would consider it more honor for a policeman to arrest one of the toughest who were fighting and passing along the street, than to take into custody one or more drunken men.

BIG MATTERS AT IMPERIAL CONFERENCE

All Red Route, Empire Penny Postage and State Owned Cable

LEMIEUX STANDS HIGH

Canadian Minister Regarded as Ablest of Dominion Representatives Gathered in South Africa - His Eloquent Speech Made at Banquet in Cape Town

London, Nov. 4.—The following subjects are on the agenda of the imperial conference—The all red route, penny postage with the empire, which is a proposal of the Australian government; a British state-owned cable between Great Britain and Canada, and transatlantic laws.

Sir J. Lawrence, replying to Sir A. Maud, refers to Mr. MacDonald's letter in the Globe of August 28 and says he would like to be referred to any picture of squallor and pessimism drawn by any tariff reformer comparable to MacDonald's.

The Times correspondent at Cape Town says that Hon. Mr. Lemieux is universally recognized as the ablest and most distinguished of the delegates from the other dominions. The problems of language and race are always delicate subjects at such gatherings, but Mr. Lemieux succeeded in steering a course between the more meaningless optimism and the appearance of lecturing. Mr. Lemieux's speech was admirable in form as it was in substance.

To offset derogatory reports that caused the withdrawal of the proposed Canadian Newfoundland Loan Company, Canadian Commissioner Preston personally interviewed Canadian banks here for official information of the stability of west land securities.

What is contemplated in the colonial office is a permanent secretariat for the dominions, whose official spokesman in the commons will be the premier. This expansion will not occur for some time.

London, Nov. 3.—Official statement is made that Earl Crewe goes to the India office; L. V. Harcourt to the colonial office; Lord Beauchamp, first commissioner of works, Lord Morley becomes lord president of the council.

Hon. Mr. Lemieux at Cape Town
Cape Town, South Africa, Nov. 4.—At a government banquet last night, Dr. Jameson, the opposition leader, in the words suggested for the impasse of Britain was successful if they might anticipate the first step towards the union of the empire's five states. He eulogized Hon. Mr. Lemieux's settlement of the Asiatic difficulty in Canada.

The Australian premier, Mr. Fisher, said that nothing had occurred in the world's history in recent times which would have a greater effect than the union of South Africa. They now had five nations willing to cooperate in the common affairs, united by unseem bonds and to see justice done to all people.

Hon. Mr. Lemieux aroused enthusiasm by an eloquent speech. He sent a message to the people of Britain via the Mail. In South Africa as in Canada, England has been great and generous, knowing that a brave foe makes a staunch friend, and had granted equality, freedom and self-government to the two races. Canada had been welded into one by goodwill and mutual forbearance, and the obstacles could be as successfully overcome. In South Africa, which was bound to play a brilliant part in the history of the greatest empire the world had ever seen.

POLICE COURT TODAY
Quite a number of cases were dealt with this morning by Judge Ritchie in the police court. Cornelius Sheehan, released only on Wednesday last, was again before the court and \$8 or two months, imposed. Policeman McCollum told of having seen the man wandering about York Point and acting strangely, peeping into hallways and alleys.

George Darter, aged 65, was arrested on being found wandering about Millidgeville avenue about 1.30 this morning by Policemen Merrick and Jones. He was remanded. John O'Brien was remanded on a charge of stealing a horse from Samuel H. See. The latter gave evidence. Wm. W. charged with stealing a horse from Leary was also remanded. THE TIMES' NEW REPORTER

WELL MERITED HONOR.
"Well, well, well," said Mr. Hinx, Hornbeam this morning. "I see Gordon Levitt has had a name after him. They say it's a new bug he found out to the Narpies. That's a great find. I'm going up to the school board office to shake hands with Gordon. He come out to the Settlement one time with a lot of pictures an' give us a talk on bugs an' butterflies an' snakes an' birds that done us a lot of good. It beats all what a lot of folks find out when he goes around with his eyes open. If everybody took Gordon's advice about birds an' things I call 'em we'd have better crops. I think I'll see even a poutnik. Levitt er two to take home with me, jist to scare the old lady."

THE NEW REGIME.
Ottawa, Nov. 4.—(Special)—Acting on instructions from Mr. Bourassa, Sir Wilfrid Laurier was chased out of town this morning. Mr. Monk will be here tomorrow with Mr. Bourassa's instructions for Earl Grey. It is expected that Armand Lavergne will succeed Earl Grey as governor general, with Tancred Mareil as private secretary. The French language will be adopted as the only language of Canada under the new regime, and as Mr. Bourassa has been and French he may be given a minor position in the new cabinet. Sir Wilfrid will probably join the ex-King of Portugal and the Duke of Braganza, as his presence on this continent would be regarded by Mr. Bourassa as a menace to the great Nationalist movement. The St. John Standard will shortly be published in French. "As has Laurier," says Bourassa; "Vive Monk! Viola tout!"

She ain't much struck on him, Great weather fer 'er. A MISTAKE CORRECTED.
The Times new reporter was in error yesterday in stating that the new surface that we laid on Union street and rolled, and then dug up and hauled away again was placed there as a little surprise for general use. This information came from a minor official and was incorrect. The work done on Union street was really a part of a general system of street improvement. The new surface that was hauled upon the street was really a minor position in the new cabinet. Sir Wilfrid will probably join the ex-King of Portugal and the Duke of Braganza, as his presence on this continent would be regarded by Mr. Bourassa as a menace to the great Nationalist movement. The St. John Standard will shortly be published in French. "As has Laurier," says Bourassa; "Vive Monk! Viola tout!"

The Montreal Witness adds these pertinent remarks on the same subject—

"We have lately had our attention drawn to the slums, which are woefully extending in area and in degradation in Montreal. By our indifference to this growing evil, by our greed and selfishness, by our toleration of drink and other vices, by our neglect of the masses, juvenile criminals, we are daily increasing this class who never had a chance, and are sowing seeds from which we shall some day reap a terrible harvest."

The citizens of St. John should plan for the future, as well as endeavor to rectify some of the mistakes of the past.

THE NEWEST DOMINIONS

The first parliament of the Dominion of South Africa opens today at Cape Town.

The opening ceremony will be performed by the Duke of Connaught, whose departure from England took place on the eleventh anniversary of the declaration of war between Great Britain and the South African republics.

Of the remarkable change that has taken place in eleven years the Montreal Herald says—

"Eleven years ago, on the 11th of October the British agent was instructed to ask for his passport, and the same afternoon the Orange Free State burghers seized a train at the border belonging to the Natal Government Railways. On the following day, at Krasnap, the first shot in the three years' war was fired. Wonderful surely must be the transformation that renders a confederated South Africa, including the two Boer states, possible in so short a time. Such an achievement could not have been carried through without the sincere and whole-hearted co-operation of men who were fighting each other to the death. It is to the credit of the British and Dutch races that this has been rendered possible. In saying this credit may also be given to political traditions founded upon long experience of British statesmanship."

If Sir Wilfrid Laurier is denounced in Quebec by men who talk about shooting bullets through the British flag, and he loses a by-election, is the result a victory for Mr. Borden?

Mr. Allison loses a very able man in Prof. Andrews, who goes to the presidency of Saskatchewan College. Prof. Andrews has been much more than a college professor during his stay in Sackville.

The Victoria Colonist says—"Every now and then some paper will talk about the union of the Maritime Provinces. The people who seem to take the least interest in the notion are those who live in those provinces."

The Standard says the result of the by-election in Drummond-Artabasaska is the beginning of the end for Laurier. If so, it is also the beginning of a racial strife that every good citizen should deplore, for the real issue raised by Monk and Bourassa is loyalty to the empire.

The Toronto Telegram (Conservative) says this of Hon. W. S. Fielding—"Canadian are united in sympathy for Hon. W. S. Fielding in his illness and in the hope that a speedy recovery may restore him to all the friendly associations of his admirable private life and to the great work of his useful public life."

The Times commends to leading citizens of St. John the example of Sir Wilfrid Laurier in Ottawa. The Journal, a Conservative paper, says—"The ordering by Sir Wilfrid Laurier of the removal of the old public works yard at the foot of Parliament Hill cliff is one of those steps towards a better and cleaner Ottawa, for which Sir Wilfrid has ever been willing to direct his influence. Ottawa, as a municipality, has few better citizens than Sir Wilfrid Laurier, in spite of the manifold claims that other spheres of usefulness have upon his time and attention."

JOHN BULL'S THIRST

(Montreal Witness.)

John Bull's thirst, as we have already recorded, is diminishing. We gather from the annual report of the Customs and Excise Commissioners some statistics which will please all who love temperance.

Although, says the report, during 1909-10 the consumption of beer was only 412,100 barrels less than in the previous year, a decline of approximately one and a quarter per cent—it makes a total decrease of 3,633,000 barrels in the last decade, every year of which shows a fall in the per capita consumption. For every fifty glasses of beer drunk by John Bull in 1909, he consumed only forty-one last year. The annual drop in the consumption of spirits is much more remarkable. In 1909-10 it was as much as thirty-three and a third per cent—one glass out of every three. In the ten years the quantity of spirits drunk at home has fallen from 462,000 to 260,000 gallons, a decline of forty-three per cent; while the consumption per head has fallen over forty-seven per cent—one glass of spirits in 1909-10, approximately taking the place of two in 1900.

The highest golf course in Europe is that at Maloja, in the Upper Engadine. The course of nine holes, varying from 170 to 350 yards, is between Maloja and the pass which leads from the Engadine to the lake of Como and commands lovely views of the Silver see and the snow-clad peaks; the hazards are chiefly depressions between the hills. The altitude of these links is about 6200 feet above sea level.

BY AND BY

Whence heavy hearts are beating, Comes the gentle whispered greeting, Hoping to see me ere I parting, By and by! by and by!

Chase the tear-drops, chuck the sigh, Joy is coming by and by.

Rosy childhood's pulse is bounding, To that magic whisper sounding, Telling of the joys abounding, By and by! by and by!

Heard the monarchs let them fly—Joys, we'll grasp them by and by.

And to manhood, tired and weary, Through the work's hours long and dreary, Steals an echo, soft, yet cheery, By and by! by and by!

Funch not, gauds not, gauds not, High shall reward thee by and by!

—Peter Prince, in Leslie's Weekly.

NOT LIKE MARRIED PEOPLE.

"You'd never guess they were man and wife."

"Why not?"

"She never contradicts any statement that he makes."

A GOOD MEMORY.

"Has she a good memory?"

"Splendid. She never has to ask what's trump in a card game."

WHERE IS HE?

What has become of the old-fashioned, William B. O'Connell, who used to wash it himself?

FOXY SCHEME.

"I think my wife purposely picked a quarrel with me yesterday."

"What for?"

"A pony coat."

WHAT MAY HAPPEN.

When women get the ballot if a handsome man runs against a pretty girl what will be the result? All the women will vote for the handsome man, and all the husbands and wives will quarrel over the affair, and the divorce courts will be choked with trade. It looks dangerous.—Detroit Free Press.

TIME FOR CHANGE.

George Washington Primrose, thinking of matrimony and trembling on the edge of matrimony, wrote Rufus, for advice, "Dear Jawie," wrote Rufus in reply, "every man should marry. A wife is a man's greatest gift. She soothes his troubles, doubles his joys and helps him every way with. The married life is the only life worth living. You are fortunate enough to get a good wife like mine. P. S.—Mandy has just stepped out. You blame fule you, Stay Single!"

Cheeks for unusually small amounts have been delivered to citizens of Manchester. William B. O'Connell received a check drawn on a Boston bank, and the face value of this check was one cent. The other little check was received by Michael Healy. It was worth five cents and was in payment of a dividend.

MORE DEADLY THAN THE PLAGUE

The Common Cold is held Responsible For a Multitude of Human Ills.

Colds kill more people than plagues. When not avoided they can often be hurried from the system by keeping the filtering and excretory organs active.

Many write us that nothing helps them to so quickly get rid of a cold as Dr. Chase's Kidney and Liver Pills. This is because these pills act on the liver, kidneys and bowels, and promptly assure their activity.

The poisonous matter which collects with every cold is quickly removed from the system before it has time to cause trouble or give rise to other derangements.

If misfortune in the form of a cold should overtake you do not give it a chance to attack the lungs or to settle on the kidneys. Get rid of it quickly by using Dr. Chase's Kidney and Liver Pills.

Mr. J. H. Gibbard, of St. John, N. B., writes—"We have used Dr. Chase's Kidney and Liver Pills for the last year, and think they are the best thing as a family medicine. My wife had been sick for nearly two years with rapid liver and kidney complaint. I met her she was so bad she could not get up. She was so weak at a time, and I suffered dreadfully."

"Reading of Dr. Chase's Kidney and Liver Pills she decided to use them, and has been improving ever since. She is never sick a day now. I have been greatly benefited myself by this treatment for kidney trouble."

Dr. A. W. Chase's Kidney and Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edman, Bates & Co., Toronto. To protect you against imitations the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, are on every box.

HAIR ORNAMENTS Some of the large shell hair pins used to a great extent in holding together the braids or rolls can be made particularly attractive by an inlay or overlay of gold or silver. One pretty pair has a seaweed design worked over the shell, and they are connected by a very slender silver chain that has a small moonstone set in the middle. This gives a distinctly oriental effect to the coiffure. For the girl who has a fancy for such work a few lessons in the management of metals would make it possible to acquire facility for producing charming ornaments for herself and gifts for her friends.

The Evening Chit-Chat

By RUTH CAMERON

I WANT to have a little chat today with the people who write letters to me suggesting subjects for me to talk about in this column. And the first thing I want to say and the most emphatic is—THANK YOU.

Of course I'm "delighted," as our good friend of the obvious teeth would say, to know what you people want discussed in this column. An actor, no matter how good his talents and his intentions were, would probably find it hard to please if he played to an invisible and inaudible audience, and that's what we writer folks are always doing. So you can see that any epistolary echo of the feelings of that audience is always very welcome.

And never more so than when it brings a constructive suggestion. Please keep it up, you folks who have taken enough interest in me to suggest some topics you'd like to hear discussed. And please take it up, you people who have thought of something that "would be good for Ruth Cameron to write about," but haven't quite gotten around to putting it down on paper and sending it along.

One more "Please." And that is, please don't be offended when I don't write on the topics you suggest. Much as I'd like to oblige, that isn't always possible. It isn't that the subjects aren't just as good as many of my own. It's just that I'm not a penny in the dot machine into which you can drop a topic and inevitably get a column of remarks. I have to feel that I have something to say.

The lines of conduct I suggest are my ideals. Do you know anyone who lives up to all his ideals? But I think I can truthfully say one thing. I never write anything I don't thoroughly believe.

For instance, someone asked me to please write on "The detestable and filthy habit of chewing gum in public." I haven't complied with the request because it seemed to me that anything I might say would be so ridiculously obvious. I don't think I have a reader who doesn't know that it is bad form to chew gum in public, and anyone who does it in spite of that knowledge, will undoubtedly continue to do it, no matter what I may say.

I am also asked to write about some special cases which do not seem to me to have enough of the universal in them to make them interesting. For instance, after writing about the unkind way in which the dependent, the maiden aunt or helpless will admit is cruelly common—I was requested to write about "the person, entirely dependent on a man for absolutely everything, who, on being taken into his household and asked to become a member of the family and take his share of the family life, declines to do so, but perpetually demands to be treated as a guest of honor, acting insulted if not so treated, who, in short, if not always and ever considered before everyone else, raises walls to any friend or stranger willing to give ear to his complaints."

Such people may exist, but I certainly don't think the type is common enough to make a denunciation of it helpful or interesting to any large number of readers. I am also asked to write on subjects which cannot be treated in a general way, because they are of a class in which "circumstances alter cases." For instance: "How late a man should stay when he comes to call." "How long a time ought to elapse between a first and second visit." "My correspondents occasionally inquire, 'Do you live up to all you write? If you do, you must be an angel.'"

Of course I don't. The lines of conduct I suggest are my ideals. Do you know anyone who lives up to all his ideals? But I think I can truthfully say one thing. I never write anything I don't thoroughly believe.

TALL YARNS USED BY THE NATIONALISTS

Laurier "Walking Through the Blood of the Canadians."

THE BYE-ELECTION

Boarassa and Monk, Nationalist and Conservative, Made the Wildest Sectional Appeals to the Habitant in the Drummond Arthabaska Contest

(By Fred Williams, of the Ottawa Free Press Editorial Staff)

Victoriaville, Que., Nov. 1.—The part which the official Conservative machine has been playing in the campaign to elect Laurier is a study in itself. The feeling in Montreal especially among the English-speaking Conservatives, is that the party which has gone to pieces, has been the French Liberals led by the whole machinery of the French Conservative party, and that if Boarassa, Lavergne and Monk have been able to secure any success at all they have to thank the Conservative machine.

Certain it is that Mr. Monk has carried with him all the fighting men of his party in the Montreal district and Senator Landry in the Quebec district have done this.

How Nervous Men Get Most Out of Life

(From "Successful Men.") Every normal minded man wishes to get all he can out of life. It is falling far short.

The successful man, who eats and plays with the keenest enjoyment, is the man whose nerves are keenly sensitive. He tastes, hears, sees and feels all with the highest intensity of nerve.

As a consequence he has stamina, endurance and personal magnetism, which make him a leader and dear to him worship his manliness, chivalry and weariness at all times. A most valuable nerve treatment, restorative in its sense, is to be found in the following prescription, emanating as it is, from a brilliant and successful specialist on nervous ailments.

The treatment is prepared in the shape of a home-made tonic, and consists of the following ingredients: One ounce of compound sarsaparilla compound in a one ounce bottle. To this add one ounce of compound fluid balsam of shake well and let stand two hours. Then add one ounce of tincture caduence compound (not caduence cardiol. Mix. Shake well and take a teaspoonful after each meal and one when retiring.

It is astonishing to feel the new nerve force, the steadied nerves, and the control of every muscle in the body after using this. Overworked office men, and the many victims of society's late hours and dissipation will surely find in this the restorative, rejuvenating force they are sorely in need of. The ingredients are used in various prescriptions and any good druggist can supply them.

son, tell me, Mr. Laurier, if your conscription will respect her tears and her sorrow." Story of the Picture This same pamphlet tells of a supposed habitant who had the picture of Laurier on the walls of his house, alongside of that of Christ, but who kept it there "despite the betrayal of the schools in Manitoba, in Alberta and Saskatchewan," despite the flooding of Canada by "hordes of miserable foreigners," because he believed it "better a hundred times to be sacrificed by a Laurier who loves you than by a Borden who would sell you because he hates you." But "Laurier showed a traitor and so the picture was taken down from beside that of the Christ and the crucifix; and presumably there is now a vacant space upon that wall.

Tournament Last Night.
The St. John Bowling Club had their first tournament on Black's alleys last night. Fourteen two-men teams battled for supremacy, McKean and Estey winning out in the last string, their grand total being 714. Each team rolled four strings and some very good scores were made. McLellan and Mahoney batted out in second place with a score of 672. The winning team practically won the game in the last string, Estey bowling 119 in his last. The following are the teams and their scores:

Estey and McKean	714
McLellan and Mahoney	672
Ferguson and Jordan	660
Hurley and Colgan	658
Logan and Stevens	657
Gregory and Brown	658

The winning team were presented with stipkins. Another tournament will take place next month.

The game to have been played here this afternoon between Moncton and the U. N. B. has therefore been called off.

Football.
Cannot Play Here.
R. L. Grierson received a message last night from Fredericton to the effect that the team from that city will be unable to play the Algonquin in this city on Saturday next. He has wired Moncton to see if a match can be arranged with a team from that city with the local players here on Saturday next.

Connie Mack's Men.
7
Connie Mack evidently feels satisfied to stand pat with his champion Athletics for next year, as he has declined the offers of players, four by draft and four by purchase outright. Lefty Russell, the Baltimore Southpaw, was bought by the Athletics for \$100 in mid-season, and he is expected to be an Athletics regular. Collamore, a young pitcher from Worcester, is highly regarded; also Bonner, a pitcher from Spokane, and Griffen, a boxman from the Rocky Mountain league. Mack has a crack outfielder named Logan, who comes from the coast well recommended. O'Neill of Elmira is said to be a star catcher needing development, while new third baseman, Bellamy, who did finely on the coast this year, also is in the Mack draft.

Robert Pettit Dead.
Robert Pettit, a former National league baseball player, died in Derby, Conn., on Wednesday of hemorrhage. Mr. Pettit was 48 years old and leaves a wife and one child. He joined the Chicago Nationals in 1883, being brought out by "Pop" Anson, and played with that team for several years, making the trip around the world with it in 1888.

ITCHING SCALP Falling Hair

To prevent dry, thin and falling hair, remove dandruff, itching, irritation of the scalp, and promote the growth and loss of hair, frequent shampooing with Cuticura Soap, assisted by occasional dressings of Cuticura Ointment, succeed when other methods fail. Cuticura Soap and Ointment have been equally effective in the treatment of torturing, disfiguring scalp humors and the alarming loss of hair which so often results. For example, read how George W. Jefferson, 1518 1/2 Road St., Philadelphia, tells of his remarkable case:

"My disease started with a little pimple on my head. Then it began to itch. The more I scratched, the worse it grew until it spread all over my head. So I went to the doctor. But my head grew as raw as a piece of beef and my hair commenced to fall out in bunches. So changed doctor. My head at this time was so sore I could not touch it. They began to treat it by applying kerosene. For over two weeks I was kept in a permanent state of agony. A friend of mine saw me in this condition and told me of a medicine called Cuticura. I told him nothing would do me any good but he was very anxious to be cured. I decided to try them. The first treatment almost immediately relieved. My hair began to grow and stopped falling out, all that was left and now I am perfectly well and have a full head of hair. I can truthfully say that it was entirely due to the use of the Cuticura Remedies."

(Signed) GEORGE W. JEFFERSON.

Cuticura Remedies are sold by druggists everywhere. Foster Drug Co. Chem. Corp., Sole Mfrs., Boston, Mass. Read the free film book.

THE STAR.
"Over Mountain Pass" is an excellent set of scenic pictures taken in the Canadian Rockies by the Edison Co., and will be of more than ordinary interest to the people of St. John. The Star will show these tonight and tomorrow, including the school children's matinee Saturday. There will be two other films which possess attractive merit as follows:—"The Foreman," a racy story of Arizona; a cowboy as hero; and "The Sheriff," a cow-boy drama of country and city life with much human interest. Mr. Weston will stage.

MORNING NEWS OVER THE WIRES

At a Republican meeting held in Rome, N. Y. last night, U. S. Secretary James Wilson, of the department of agriculture, explained the telephone for the high prices of food. He claimed it was not the protective tariff but the transit methods, from the farm to the table, that made prices so high.

Three workmen engaged in the building of a new standpipe for the waterworks system in Weston, Ont., were hurried to their death yesterday when the supports of the structure gave way and they fell eighty feet.

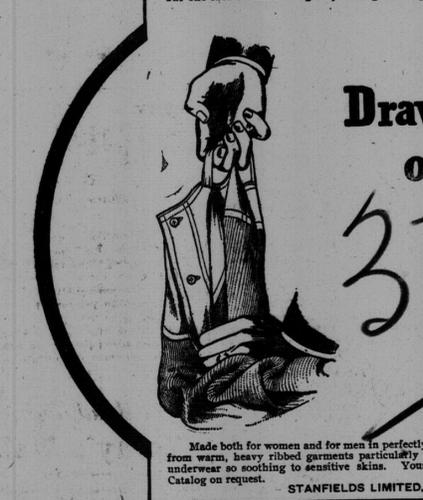

The Ontario Wheel Works at Gananoque, Ont., destroyed by fire yesterday; loss placed at \$150,000, insurance \$125,000. One hundred men are out of work.

T. P. O'Connor, M. P., speaking in Halifax last night advocated home rule for Ireland, Scotland, Wales and England. Each country, in his opinion, should have a local legislature and the imperial parliament would deal solely with imperial questions.

The inquest into the death of Harry Bag was continued in Moncton yesterday. The purpose seemed to be to ascertain whether the deceased got the rope with which he hanged himself in the cell, or whether he had it prior to entering the cell. Sgt. Atkins stated that he had examined the cell at the time and found the rope. George Bowers and Joseph Thistle told of a piece of rope there some days previous.

FOOT-BALLER'S BAD KNEE HEALED

Zam-Buk once again the only cure

Mr. H. Allison, of 457 King street, London, Ont., says: "While a member of the East Kent Division Football Team, and during a rough and exciting game of football, I fell on the hard ground, sustaining a badly lacerated knee. This required prompt medical attention, as sand and gravel fell into the open wound, which was very painful and sore.

"For several weeks the doctor treated my injury and it was thought to be well healed over; but no sooner had I begun to move about than the skin broke, and I suffered more than at first. For seven long weeks I was actually laid up. It then developed into a running sore, and I was alarmed for fear the result might be a permanently stiff knee. The doctor's treatment failed to heal the wound, so I procured a supply of Zam-Buk.

"It was almost magical in its effect on the sore. The discharging soon ceased. The soreness and pain were banished and perseverance with Zam-Buk made the badly-lacerated knee good and firm as ever. Zam-Buk has no equal in clearing and healing of wounds, and I recommend it to all athletes and sportsmen."

Zam-Buk will also found a sure cure for cold sores, chapped hands, frost bite, alopecia, eczema, hemorrhoids, indurated piles, scalp scurf, ringworm, inflamed patches, itching eruptions, and various other skin diseases. It is a sure cure for all such ailments. It is sold in 1/2 oz. tins, or post-free from Zam-Buk Co., Toronto, upon receipt of 2/6 price. You are warned against harmful imitations and substitutes. See the registered name "Zam-Buk" on every package before buying.

Madam Marie Norelle, the world-renowned Irish-Australian prima donna, accompanied by Miss Genevieve Moroney and Signor Michel Sciapero, will be at the Opera House on Monday next. The company will be at the Opera House on Monday next. The company is under the direction of Ludwig M. Ruben, for twelve years manager of the Metropolitan Grand Opera House, New York.

Madam Norelle is one of the most accomplished and finished artists of the day, and her beautiful soprano voice has won international recognition. Nature has given her a beautiful face and classic physique, which, with her wonderful personality demands instant admiration. Her voice is rich, full and sympathetic. The finest of vocal organs and the most perfect technique are combined, but the indefinable something which touches hearts and brains is to be felt at every sound she utters.

Signor Michel Sciapero, the violinist of the company, has a reputation second to none throughout continental Europe. He has performed before the Emperor of Germany and has been acclaimed as one of the greatest violinists in the world. His admirers have compared him to the great Kubbick and it is even said that he is a "superior" in putting soul into his music.

Miss Genevieve Moroney, the pianist of the company, is a Spanish girl, and is one of the best known pianists of the United States. Altogether the Norelle company is a magnificent combination and next Monday evening's performance will be the musical event of the season.

OPERA HOUSE.
The Gondoliers was repeated in the Opera House last night. The members of the company acquitted themselves with distinction. Baby Grace made a hit last night, and after singing "I'm Going to Tell on You," got five encores. Miss Irene Barry more was not far behind in this regard as she received three encores. This evening the company will present "San Toy," a reception for the children in the audience will be held on the stage by Baby Grace.

THE LYRIC.
The Lyric Theatre holds an enviable reputation for presentation of high class scenic pictures and the Lyric Theatre, who appeared for the first time yesterday are expected to be the means of putting another feather in the cap of this popular theatre. For variety this attraction is hard to excel, as it contains opera, comedy, and the highland ring by a dainty and pretty miss, burlesque on opera, and a grand comedy. The grand comic finale, all three playing the bagpipes. The costume of the ladies were the attraction for many an eye. The versatility of Miss Gillett was displayed to great advantage in her rendering of "The Bar Maid." The management consider it an act that all should see.

The pictures for today embrace three fine stories: "The Miner's Sweetheart," "Oh, What a Night," and "Mother's Love."

THE UNIQUE.
A comedy drama of "The Old Domesday," or "Way Down East," style entitled "The Legacy," by the Vitagraph Company will be given in initial presentation in the city today as the feature story of the "Unique" picture programme. A strong vein of rich comedy runs through this tale. An old rural couple who come to a great city to live in style having a series of strenuous experiences, making the picture true and amusing. Some of the mysteries of behind the scenes will be revealed in the Imp drama. All the World's a Stage programme will be cared for by "A Nobleman's Rights" and "The Doctor and the Monkey." F. Louise Tufts has a new popular number for today.

THE GEM.
Another splendid western picture is billed as one of three film features for the Gem's weekend show. It is a Biograph production "The Girl and the Outlaw" and is exciting and thrilling. It is sufficient to say that it is a Biograph film.

A brand new comedy released by the Vitagraph company, portraying the domestic troubles of Davy Jones, is expected by the management to be one of the biggest laughing triumphs of the season. The film features is an Imp production, "PRESSED ROSES," a pretty and attractive story told in a clever manner and well acted. Mr. Bradley will stage "My Darling" and a good programme of new selections will be given by the orchestra. A new singer will be heard on Monday. There will be a souvenir matinee tomorrow.

THE LILLIPUTIANS.
The Lilliputian Opera Co. gave the Gondoliers again in the Opera House last evening and tonight will sing San Toy. Particularly in the second act last evening the clever little stage people acquitted themselves excellently.

CARLETON FIRE.

Citizens who were out early this morning were somewhat alarmed and curious over the reflection of what looked like a serious fire in the vicinity of Fort Dufferin, on the west side. The building was untenanted and the origin of the fire is a mystery. The building was completely destroyed.

GIVES CITY 1,000 BULBS.

Walter Pedersen, of this city writes to Mayor Frink offering to donate to the city 1,000 bulbs for planting in King square in the spring. He contends that the local florists are capable of furnishing as good bulbs as the outside firms and his donation of 1,000 bulbs is to prove his contention.

HEALTH OF CITY IMPROVES

Fewer Deaths in St. John in Year Ended Oct. 31

LESS DISEASE

Infectious Cases Show Marked Decrease—Tuberculosis Claims 107 Against 118 in Previous Year—Double Number of Suicides

The Board of Health returns for the year ended October 31 show the deaths were 776, a slight decrease from last year's figure of 782. What is, perhaps, the feature of the statement is the very large decrease in the number of infectious diseases, with the corresponding falling off in the death rate from them, the total being 330 for this year, as against 532 last year, and the death rate fourteen as compared with thirty-five last year. This is attributed largely to the fact that the board are now looking after the disinfecting themselves.

Tuberculosis has claimed by far the greater number, there being 107 deaths from this disease. This, however, is a slight decrease from last year's 118. The number of suicides has increased fifty per cent, there being six as against three last year.

The death rate is made up as follows:—691 male, 375 female. There were 627 of Canadian birth, 146 foreign, and three not stated. The death list was the largest in October, 87, and August had the smallest number, 66. The other months were:—January, 68; February, 73; March, 61; April, 64; May, 71; June, 80; July, 65; August, 46; September, 50; October, 87; November, 74; December, 69. The death rate among infants under one year was the largest, being 198. The others were between one and five, sixty; five and ten, twenty-one; ten and fourteen, sixteen; fifteen and twenty, twenty-one; twenty and twenty-five, thirty-four; 25 and thirty, thirty; thirty and forty, thirty-four; forty and fifty, forty-five; fifty and sixty, seventy-four; sixty and seventy, eighty-five; seventy and eighty, 106; eighty and over, eighty-two.

Infectious Diseases.

The statement of infectious diseases is as follows:—Diphtheria, 38; deaths 5; scarlet fever, 71; deaths 3; typhoid fever, 59; deaths 8; measles 101; deaths 11; smallpox 1, deaths nil; total 237; deaths 40. Last year's total for infectious diseases was 532 with 35 deaths, showing a decrease of 295 in the number, and twenty-one fewer deaths. In last year's figures, the death rate from diphtheria was nineteen and typhoid sixteen, as compared with five and six, respectively this year.

Among the causes most prominent in the number of deaths were: Meningitis, thirty-two; consumption, thirty-two; general paralysis, 17; organic disease of the heart, fifty-one; pleuro-pneumonia, twenty-one; pneumonia, 81; diphtheria, forty-five; Bright's disease, fourteen; old age, 79. In the number of suicides, there were from poison, one from drowning, one with fire arms, and one with cutting instruments.

An abstract from the report of the board's plumbing inspector shows great improvement in the sanitary condition of the city. During the year there were 379 old and new buildings plumbed and 763 closets were put in old and new buildings, and most important of all is the statement that 338 outhouses have been done away with during the year.

LITTLE LADS HAVE SCRAP, FATHERS GET INTO COURT

A difference of opinion between two little schoolfellows, aged six and seven caused their parents to be in the police court this morning and one of them, Ronnie Foulds, to be made liable to a fine of \$20 or two months in jail, on a charge of assaulting Clarence Sinclair, the child of the other man. Six-year-old Teddy Foulds and seven-year-old Clarence were playing in his little chum, striking him in the ankle. The Stanley lad reciprocated with a blow in the face with his tiny fist, whereas the pugacious Theodore "came back" with another pebble.

The father of Teddy took a hand and administered a "spanking" to the other boy, which raised the ire of the latter's dad, who had him brought to court, where he said that all he wished to have done was to get Foulds to keep from chastising his boy.

Judge Ritchie, while reminding the parents that the boys would probably be playing together tomorrow, said that the defendant was liable to a fine of \$20 on the charge, but it was allowed to stand against him.

He occupied position as lecturer and history professor, Hebrew and Assyrian and later as assistant Professor of Semitic philology and archaeology, and as curator of the Babylonian antiquities.
