GOES TO ENGLAND.

It was very clear to the astute mind of the Prophet Smith that the Mormon Church could not exist in the United States without the aid of a foreign element, and so the apostles received in the revelation alluded to, the command to repair to England under the leadership of Brigham. Some of the apostles and elders had preceded them some two years before, so that they were not altogether without friends. Still they had a hard time of it generally, and Brigham had his share of ciations of the Maritime Provinces, and in getting out an edition of the ed throughout. How to cure a REARING HORSE .-I will give you a plan that has succeeded well with one of the worst cases I ever saw. Drive with harness on (out of the buggy) a half hour a day for two weeks, to break to mind the word whao! When perto mind the word whao! When perfectly broken to whao, put on an over check bit and over-check rein hitch him up and spin him around in the buggy twenty or thirty times in a circle; then reverse and stop OFFICE REQUISITES square up against the corner of a high fence or building, leaving room enough to turn out if he will not stand still. Never strike with the Kept, as authorized by Board of Education, whip for not standing still. Some horses cannot rear with a tight overcheck: some it will make rear a little at first, till they get used to it. It should be used at first with cau-

A GOOD DISINFECTANT. - One pound of green copperas, dissolved in one quart of water and poured down a water-closet, will effectually concentrate and destroy the foulest smells. On board ships and steamships about hotels and other public places, there is nothing so dissolved in anything under the bed, will render a hospital or other places for sick, free from unpleasant smells. In fish-markets, slaughter-houses, sinks, and wherever there are offensive gases, dissolve copperas and sprinkle it about, and in a few days the smell will pass away. If a cat, rat or WARD STREET mouse dies about the house and sends forth an offensive gas, place some dissolved copperas in an open vessel near the place where the muisance is and it will purify the atmosphere.

To keep tomatoes for winter USE.—As the tomato season is now here, I contribute one way of keeping them for winter use that may be new to some of your readers. I ate them in February, sliced and seasoned with sugar and a little vinegar, that seemed every way as nice as tomatoes picked from the vines. They may be preserved in this manner; Dissolve a teacup of salt in a gallon of water. Pick ripe tomatoes, but not overripe, leaving I ate them in February, sliced and little of the stem on. The tomatoes must be well covered with brine, and they will keep till spring is over.

TO PREVENT A BONE FELON. When you find that you have a bone Thomas's Eclectric Oil, felon coming, apply a fly blister to the affected part immediately, and let it draw to its fullest extent. an early application of this kind will seldom fail to put back a felon. Of course the remedy is somewhat severe, but it does not compare in

that respect to the disease. Tomato sauce. - To one gallon of stewed and strained tomatoes add six tablespoonsful of fine salt, three of pepper, four of allspice, two of dered. In driving large screws, where the force to operate the driver is necessarily great, the slipping of the screw-driver occurs with more frequency then in medium and small screws and can be obviated as follows, viz: with the edge of a small "half-round smooth" file make several little grooves (longitudinal ly with the bit) upon each side of the driver, should the tool be too hard to file, it is too hard for use, and may be remedied by holding it upon a piece of red-hot iron until it will leave John Jardine's for Chatham at 9 a. m.; and Chatham for John Jardine's (the driver) assumes a deep blue colour, when immediately plunge suggestions regarding handles and

Before Taking. After Taking SPECIFIC MEDICINE Cures all Nervous Diseases, such as Tremors Debility, Prostration, etc., which are in many cases produced by over indulgance in the use of tobacco and alcoholic spirits; but the Specific Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatorrhea, Impotency and all the diseases that follow as a sequence of Self shape as less of memory. Universal Self abuse, as loss of memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age and many other diseases that lead to Insanity or Consumption and a Premature Grave, all of which as a rule are first caused by deviating from the path of nature and over indulgence.

The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet which we desire to send free by mail to every one. PATENT STEP LADDER by mail to every one.

The Specific Medicine is sold by all Druggists at \$1 per package, or six packages for \$5, or will be sent by mail on receipt of the money by addressing WM. GRAY & Co., Windsor, Ont.

TO THE . FARMERS OF MIRAMICHI We have been Manufacturing IRON FRAME MOWERS

For the last four years, and are now offering to the farming community this, the BEST MOWER, Combining a greater excellence of mechan all simplicity together with greater durability and entire reliability for all the requirements of the field, than any other Mower extant.— In construction they are similar to the celebrated Walter A. Wood's Iron Frame Mower, and the Richardson Buckeye, both American machines. Of the former there are over 200,000 in use, and the extraordinary number of 200,000 were manufactured and sold best of 20,000 were manufactured and sold last season, by the Wood Company of United States. We have over 500 of our manufac-States. We have over 500 of our manufacture now in use, every one of which (no exceptions) stands as a monument of the grand and unprecedented success of home manufacture and our enterprise. A list of our Agents in this section of the Province will be found appended, and farmers are requested to ask information of them relative to our Mowers in use in their respective localities, which will establish beyond doubt their progress. in use in their respective localities, which will establish beyond doubt their unquestionable superiority over any other mower to be had in our macket. The facility of procuring all parts or pieces within a nominal length of time must show beyond the shadow of a doubt the claims such an enterprise has upon the farmers of the Maritime Provinces.

For the coming Harvest of 1877 we will manufacture LARGELY in excess of our numbers of last Season, and trust FIRST-CLASS COOKING RANGES, that our growing enterprise may find such inducements held out to it as will be comluding the well-known GOOD NEWS, NEW CABINET, DARLING, etc.

nducements need out to it as will be com-nensurate with its merits.

Let it be remembered we have no hesita-ion at all times, in entering in a friendly competition in the field with any other ma-chine in our market. WE GUARANTEE OUR MOWERS TO BE INFERIOR TO NONE.
