Dalhousie Ratepayers De-

RE NEW FACTORY.

Water System to be Install-
ed at a Cost of
\$25,000.00.

Dalhousie, N. B., Feb 15—On Monday evening, 13th inst., one of the largest and most enthusiastic public meetings ever held in the Shiretown took place in the Court House. In the absence of Dr. Ferguson, Chairman of the Board of Commissioners, Hon Mr. LaBillois occupied the chair and opened the meeting at 8 o'clock sharp.

Two subjects were before the meeting for consideration. The exemption of taxation for a period of years of what is to be known as "The Restigouche Woodworking Co. Ltd." and authority to be given to the Town-Commissioners to float debentures to place a complete water system in the town.

The Chairman read the petition of the Rate-payers praying that the new factory and its plant be exempt from taxation and invited discussion on the proposition.

Hon J. C. Barberie strongly opposed the petition. In principle he was opposed to exemption. He claimed that the meeting was irregular. It was unfair to the poor men of the town to favour any company.

Mr. Geo Haddow, Ex M. P., took the same view, but when it was explained that the Company could not escape paying the county and school tax, he proposed, seconded by James Harquail, sr., that the Company be exempted of taxation for a period of five years.

W. S. Montgomery, the principal promoter of the new Company addressed the meeting at length. He outlined the plans of the Company. Dalhousie he claimed required an institution that would employ men during the whole year. He said that when he had charge of Moffat's mill he ran it day and night.

Mr. Barberie—Why did you sell your own mill?

Havelock McNeil—Who prevented the I. C. R. from being built into Dalhousie?

At this stage there was such a tumult in the meeting that the Chairman had some difficulty in restoring order. He had to call on the policeman to arrest any person who would disturb the meeting.

Mr. LaBillois suggested that if the meeting adopted the principle of exemption it should be with the understanding that the Company guarantee to employ on an average of forty men per month during eleven months of the year. This proposition was loudly applauded by the meeting and was embodied in a motion proposed by Geo E. Mercier, and seconded by Arthur J. Arseneau, that the term of exemption be fifteen years.

Messrs Charles Stewart and Alex Chisholm opposed this, and an amendment was moved by John Barberie, seconded by Simon McGregor that the term of exemption be ten years. This resolution was put and lost and the 15 year proposition carried by a large majority amid loud cheering.

The water question was then taken up and after some discussion W. S. Montgomery moved, seconded by Geo E. Mercier, that the Town Commissioners be empowered to proceed with a drilling of wells that they employ a competent engineer and upon receiving a satisfactory report from him that they be warranted in issuing de-

DALHOUSIE

The Club "At Home" a
Great Success

THE NEW FACTORY

Preparations for Its Erection
Already Commenced.
The Directors

Mr A. G. McKenzie has been appointed Supt. of streets for the town of Dalhousie and Commissioners LaBillois and Powell a committee to advise as to repairs and improvements.

Mr John Nowlan has been appointed Supt. for the parish of Dalhousie and he has selected the following ratepayers to act as road masters, viz. Daniel McCurdy, John Douglas, George Thompson, Wm. LeBlanc, John Callaghan, Robert StOnge, Joseph Russell, George Miller, Ed. Heppell, Henry Barthelotte, Elizear Diotte, Wadsworth Perrot, David Garvie, James Wright, William Garvie, Charles McDonald.

The three bulls that were purchased by the Dalhousie Agricultural Society at Amherst were sold at public auction here on Monday, R. Y. Blackhall, of the Shiretown got one of the Durham breed and Councillor Mawhinney, of Colbourne, secured the two others.

The "At Home" that was given by the members of the Dalhousie Club, in their rooms here on Friday evening last was a great success. The committee in charge deserve much praise for the manner in which the whole matter was conducted. Music was furnished by the Chatham Orchestra, which consisted of four instruments, including the famous Mason and Risch, piano. Over 100 guests attended, most of the strangers coming from Campbellton and their presence was highly appreciated. The dresses worn would have reflected credit on any entertainment given in a large city and goes to show how Restigouche is forging ahead even in style.

Operations have already commenced preparing for the erection of the new factory. It will be located in close proximity to the J. C. R. station and railway wharf. Its front and office will face our main street and generally speaking no more suitable spot be found anywhere to build a manufacture of this kind.

Messrs W. S. Montgomery and Mr. Leveille, will leave for Amherst, this week, to purchase boiler and engine. From there they will proceed to the United States to secure the balance of the plant and the company expect to be ready to turn out all kinds of material, generally used for building purposes, sometime in May next. The provisional directors of "The Restigouche Woodworking Co. Ltd." are W. S. Montgomery, David Richards, Geo. E. Mercier, A. J. LeBlanc and R. Y. Blackhall. Mr. W. S. Montgomery, is acting as President and R. Y. Blackhall, as Secretary-Treasurer.

ventures for a term of years not to exceed the sum of \$25,000, to place a complete water system in the town. This resolution was carried by a large majority and the meeting adjourned.

Chamberlain's Cough Remedy
the Mother's Favorite.

The soothing and healing properties of this remedy, its pleasant taste and prompt and permanent cures have made it a favorite with people everywhere. It is especially prized by mothers of small children, for colds, croup and whooping cough, as it contains no opium or other harmful drug, it may be given as confidently to a baby as to an adult. Moncton.

THE CHATHAM GAME

The Curlers were Defeated
Yesterday in the Chat-
ham Rink.

Four rinks of the local curlers went to Moncton on Tuesday morning to play a match game at that place. Only one rink, that skipped by T. Wran, managed to secure a victory.

The following are the rinks and score:

FOR Y. M. C. A.

Question of Organizing Y.
M. C. A. Here Being
Considered.

On Thursday evening last Mr. Frank Thatcher, of Buffalo, who is touring the provinces in the interests of Y. M. C. A. work, gave a very strong and practical address in the Presbyterian Church. He pointed out the need of such work and made a plea for the organization of an association here.

After his address a committee composed of fifteen persons were appointed to look into the matter and decide if such a step was practicable.

Supreme Court.

Fredericton, Feb 10—In ex parte Albert J. H. Stewart, Allen K. C. moved for rule nisi for a mandamus to the municipality of Gloucester to compel them to pay the applicant his fees amounting to \$578.79 as valuator for the said county. A rule nisi was granted to compel the council to fix and determine the amount due, Judge Hanington dissenting.

INSTANTLY KILLED.

Jas. Black Meets Death in
I. C. R. Yard.

ON SATURDAY.

Was Working on Snow
Train and Fell Under
the Cars.

On Saturday morning about eleven o'clock Jas Black was instantly killed in the I. C. R. yard here, while working on the snow train. He was engaged in shovelling snow from the flat car next the engine, when he slipped down between the car and the engine. The train was moving slowly at the time but before it could be brought to a standstill the three heavily loaded cars had passed over his body. When picked up life was extinct, his body being terribly crushed and mangled.

Coroner Doherty was sent for immediately and after making examination and viewing the remains decided that an inquest was not necessary. He gave directions for the removal of the body to his home.

The unfortunate man is a native of Newcastle having come here with his family a few years ago. He leaves a widow and a large family, with whom the community will deeply sympathize. The funeral took place on Tuesday.

Little Boy Had Eczema
For Six Months.
Salves and Ointments
No Good.Eczema is one of the most torturing
of the many itching skin diseases, and
is the most prevalent, especially in
children. The cause is bad blood, aided
by inactive skin, inflammation, etc. It
manifests itself in small, round pimples
or blisters, which later on break, and
form crusts or scales. The skin has an
itching, burning and stinging sensation.
To get rid of Eczema, it is necessary to
have the blood pure, and for this purpose
nothing can equal

Burdock Blood Bitters.

Mrs. Florence Bena, Marlbank, Ont.,
writes: "My little boy had eczema for
six months. I tried ointments and
salves, but they healed for a short
time, when it would break out worse
than ever. I then decided to give
Burdock Blood Bitters a trial. I only
gave him two bottles, and it is now two
months since, and there is no sign of
a return. I feel sure that it is a blood
regulator, nothing can equal it. I can
not say too much for what it has done
for us."THE T. McALISTER CO., LIMITED,

scarcely a passing notice. Every one
of these cases of pneumonia resulted
from a cold and could have been pre-

AS TO FIRE PROTECTION

Fire impoverishes a multitude and enriches a few. The devastation of a town by fire spells bankruptcy for many. As a consequence it takes a very long time indeed to recover from the ravages of a conflagration and one of the greatest menaces to the prosperity of a town built principally of wood, is fire. A town without adequate fire protection, is, it goes without saying, at the mercy of the first blaze which happens along. The majority of small towns seem to labor under the impression that they are immune from big conflagrations. Their facilities for extinguishing a petty blaze are adequate, consequently they are safe. As a matter of fact the majority of small towns are inadequately protected from fire and the facilities which they regard as sufficient to cope with an ordinary blaze are altogether insufficient to cope with one which has gained considerable headway before discovered or whose location renders successful attack a difficult proposition. Large cities are chiefly built of brick and stone and all the modern appliances for fighting a fire are at the disposal of their firemen. Now if such appliances are necessary in communities of brick and stone they should certainly be necessary in communities where every other building is a kindling box or a fire trap. A town should spare no money in obtaining the best fire fighting appliances on the market for sooner or later such appliances will be required. Campbellton should devote more attention to this question than it does. Its importance should not be underestimated. Not only should we have the best appliances available but we should have the best men available. We cannot expect to retain efficient firemen without generously rewarding them for their services. They should be amply repaid for their work and, compelled to practise and study. Antiquated methods won't do.

The first time the Moncton Transcript and the Moncton Times ever agreed on a question was last week when both announced their opposition to the proposal to make New Castle a divisional point on the I. C. R. Now they are both justified in calling one another wrong.—Advocate.

SAD TO CONTEMPLATE

"Oysters are very scarce; they are now selling for seventy-five cents a quart, but in a few days will be considerably higher."—St. John Times.

And to think that the supply of lobster still keeps up.

The present season is said to be a banner one for snowshoes in Nova Scotia.

Several bottles of ale and porter were confiscated by the St. John police last week and the Times of that city announces that the grog will be sent to the home of incurables. Goodness. It really looks as though the Times' new reporter, was getting entertainment at last.

If Nova Scotia is to have such snow storms every season as it is having this season, Halifax will go on "Queer Street," as far as the winter port is concerned.

BETTER HOTELS NEEDED

"What is wanted is a snug, moderately-sized house, fitted, not gorgeously, but simply and tastefully, and provided with a comfortable table. Such a house could be conducted profitably at a charge of about seven dollars a week for each guest.

The above observations are made by "The Maritime Merchant" in the course of an article dealing with summer hotels for the accommodation of tourists. "The Maritime Merchant" doubtless knows that there are in the provinces, today, a number of such hotels as it speaks of above. Almost every County can boast of one or more. Such hotels or boarding houses, however, are incapable of filling the demands of a well-to-do class of tourists. This country is unrivalled as a tourist resort, but it can never attract a desirable tourist trade until it erects large up-to-date hotels where golf, polo, sea bathing and fishing may be indulged in. The opportunities for energetic hotel men are boundless. The second class house has had its day.

The Snow Plow Limited is an appropriate term for the Maritime express nowadays.

Fielding does not appear to be the only individual who can 'snow under' Nova Scotia.

EDITOR'S MAIL.

Dalhousie, Feb 16, 05,
Dear Editor,

Whereas it has pleased Providence and others to inflict upon the Town of Dalhousie that one man, one horse monument of shortsightedness known as "An Act to Incorporate the Town of Dalhousie for Water, Fire, Police and Light," notice is hereby given that at the next upheaval in the process of the evolution of mob law known as a town meeting, a resolution will be introduced and passed unanimously by non-property owners, to send an Engineer to Niagara Falls for the purpose of estimating the cost of supplying the Town of Dalhousie with water and also the cost of a pumping and electric light station to be located on the Northern slope of the Shick Stock Mountains.

C. O. D.

Editor of Events,

Sir: Will you kindly allow me space in the columns of your paper to make a few remarks.

St. Valentine's Day, Feb. 14th, has come and gone and although we are living in an enlightened age and in a land of golden opportunities, still, I am sorry to say, we find people who are ignorant of the beautiful legend of the day, or else have forgotten it, and instead of the pretty love message, send the dreadful comic Valentine which carries no loving wish but is a missile of spite.

In former times, before Valentines were dropped in the mail box, young people had a great deal of fun sending them to each other. They generally waited till twilight then each would sally forth in his neighborhood, lightly step up to the front door of the house where the Valentine was to be left, and with out the least noise slip the paper under the door, ring the bell, and scamper away as fast as possible to avoid being seen.

To-day instead of those pleasant surprises, we find the practice much abused, and people whose hearts are full of malice, hatred and envy, take advantage of the day and send forth their insignificant missives of spite, and ill-will in an open letter, directed by disguised hand writing, or in some cases a friend of the same caste lends a helping hand, and with a two-cent postage stamp placed on the corner of the envelope it is dropped into the mail box.

It is the heart or life inside that decides our acts. As the main spring moves the hands of a watch

THE NEW BOAT

Additional Wharf Accommodation at Campbellton

Capt Poullot to Command

Sleeping Car of Maritime Express to Run Down to Wharf

(Montreal Star)

Mr. F. S. Blair, secretary-treasurer and manager of the Inter-provincial Navigation Company of Canada, Limited, left on Saturday the 5th inst. He had been in Ottawa and Montreal, in company with Mr. Alfred T. Carter, of Gaspe Basin, one of the directors of the company, arranging for the operation of the Baie des Chaleurs Line, which has been taken over by the company.

The company has at present building in the yards of Russell & Co., Glasgow, a steamship the Lady Eileen, of which a model is now attracting considerable attention in the windows of the Star office. The new vessel is a twin screw steamship 185 feet over all and 31 feet in beam. She is 12 feet 6 inches in depth from the main deck, and draws 9 feet 6 inches. She will have a speed of from fourteen to fifteen knots and will be fitted with triple expansion engines.

She will have passenger accommodation for one hundred first class and one hundred second class passengers, and will be fitted up with all modern improvements, including hot and cold baths, with open plumbing, search light, electric lights and bells and a freight elevator for raising the freight from the hold. The boat is to be delivered in time to sail from Glasgow on April 10 and reach Campbellton to begin operations for the season on April 25.

Capt Poullot, who for years was in charge of the steamer Admiral on the Dalhousie-Gaspe route, will be in command of the new ship.

Additional wharf accommodation will be granted. The terms offered by the Dominion Government to the new company are satisfactory, while the arrangement made by Messrs Carter and Blair with the Intercolonial authorities are also of a nature to ensure good service for those who wish to enjoy the cooling breezes of the Gulf in the hot summer.

The sleeping car of the Maritime express containing passengers for the Lady Eileen will be run down to the wharf, so that those desiring to embark on that vessel will merely have to step from the car to the boat, an advantage that was impossible when the

so the heart within will move hands, feet, tongue and all the person. Our acts bear witness to what we are, and the persons that allow themselves to become so degraded as to send these insignificant missives around need not try to pass off for more than they are worth. It cannot be done. For although no human eye can see it, and no tongue may speak of it, conscience will have its revenge, even in the silent hours of the night its voice will be heard.

I hope before another year the friend who has never failed to remind me of St. Valentine's Day for the last few years will be led to see different and act the noble part, and come and see me for my aim in life is higher than entertaining Boozey Labourers.

Thanking you Mr. Editor for space in your paper,

I am

boat left Dalhousie, which is situated on a branch line.

The new company is made up of residents of Northern New Brunswick and the Gaspe coast. Mr. David Richards, of Campbellton, N. B. is the president with Mr. Jos Boudreau, Mr. Geo. G. McKenzie of the same place, as the other directors for Restigouche: John F. Guite ex-M. P. and Thomas Enright, directors for Bonaventure county, and A. T. Carter and Jos X Lavoie, directors for Gaspe County, with Mr. F. S. Blair, of Campbellton, N. B., as secretary-treasurer and manager.

NOTICE

Notice is hereby given that applications will be made at the next session of the Legislature of the Province of New Brunswick for the passage of an Act to incorporate a certain portion of the Parish of Bathurst, in the County of Gloucester, for the purpose of lighting the streets thereof by electricity.

The district to be incorporated will include the Town of Bathurst, the Village of Bathurst and around the Basin so-called to the southern line of the property occupied by Jos Gauthier. The act asked for will include a clause stipulating that the incorporation will only take effect after a favourable vote has been given by the ratepayers of the district above mentioned.

Do you know that those old lamps you have been burning continuously for two or three years are using more current than you are getting the benefit of and only giving a fraction of their original candle power? Simply because you cannot see with your naked eye the gradual drop in candle power you think it is economy to continue using them, but get a dozen of BUCKEYE LAMPS and see how much smaller your light bill and how much brighter your rooms will be.

This is the reason when business men are planning the year's work and deciding what help will be needed. Inquiries are now pouring in to the St. John Business College for bookkeepers and stenographers, and Messrs Kerr & Son are kept busy at their accounts and work of qualifying their students and placing them in good positions.

On Friday evening Michael Kelly, the blind orator of St. Martin's who is touring the provinces with the view of resuscitating the Divisions of the Sons of Temperance, addressed a meeting in the Presbyterian Church. His address was listened to closely by all present. At the close he asked that the division which was once in a flourishing condition here be recognized. As far as can be learned no movement has been made in that direction as yet.

ARCHIBALD SETTLEMENT

It is with much regret we have to record the death of Donald McMillan who died at his home Archibald Settlement Feb 11. Mr. McMillan was a well known and respected citizen of 75 years of age. He leaves a wife and two adopted children Herbert S. and Bessie S. McMillan to mourn their loss. They have the sympathy of the whole community. He came to his death by a blow from a cross sheep that broke his leg up near his hip on Dec 21st inst and although he suffered a great deal since he was very quiet and hardly ever complained.

The funeral was conducted by the Rev J. M. McLeod and was largely attended although it was a very cold day. His remains were interred in New

Mills cemetery. He leaves two brothers, Robert of Black Point and Thomas of Jacquet River; also two sisters Mrs. Arch Campbell, Oconto Falls, Wisconsin and Mrs Arch McAlister, Marinette Wisconsin. The pall bearers were Angus McMillan, Thomas C. McNair, Robert W. Archibald, Wm Beattie, Arch Murchie.

ARE YOUR KIDNEYS SICK?

Let your morning urine stand for 24 hours in a glass or vessel, and then if it is milky or cloudy, or contains a reddish brick-dust sediment, or if particles of germs float about in it, your kidneys are diseased. If the kidneys are well they filter just so much blood, but if they are sick or weak from any cause, they leave the poison in the blood, and this poison affects the entire system.

It is natural to pass urine three times a day, but many who regard themselves as healthy are obliged to pass water six to ten times daily and are obliged to get up frequently during the night. They have sick kidneys and bladder and don't know it. Smith's Buchu Lithia Pills cure Rheumatism and all Kidney and Bladder diseases, and make new, rich blood.

Uncle Terry

CHARLES CLARK MUNN

Copyright, 1900, by LEE & SHEPARD

How kindly that wrinkled face beamed on him behind her spectacles while he insisted that she stand by and let him unharness and see to the horse as she directed. And how willingly he carried baskets of wood in and started the parlor fire.

"I did know you could make yourself so useful," Alice observed. When supper was over he asked her all manner of questions about her school, when she meant to open it again, how the old miller was, what had become of the boat, how the mill pond looked in winter, and had she been there since the day she gathered lilacs. "Always back to that spot," she thought.

When he asked her to sing "The Last Rose of Summer," she exclaimed with a pretty pout: "I do not want to sing that. It reminds me how scared I was when I sang it last."

"But you brought tears into most of our eyes that night," she said.

"Do you want to weep again?" she asked archly, looking up at him and smiling. "If you say so, I will sing it."

"No," he answered, and then hesitating a moment added: "I do not feel that way tonight. I may when train time comes tomorrow."

Her eyes fell, and rising quickly, like a scared bird anxious to escape, turned away.

But a strong hand clasped one of hers, and then she heard him say: "Am I to go away tomorrow happy or miserable? You know what I came up here to ask. You know what I have worked and studied and waited for all the long year since first I saw you and for whom I have tried to become a useful man in the world instead of an idler. It was to win you and to ask this that I came here today."

Then she felt an arm clasp her waist and a voice that trembled a little say: "Answer me, sweet Alice, is it yes or no?"

And then he felt her supple form yield a trifle, and as he gathered her close in his arms her proud head touched his shoulder.

CHAPTER XLII
THE winter had passed and March returned when one morning Albert received a bulky envelope bearing Stockholm postmark and containing numerous legal papers and a lengthy letter. He did not notice Frank when he came in or even hear his greeting, and well might Albert be keenly absorbed in those documents, for they made him the emissary privileged to lay at the feet of the girl he loved—a fortune!

No more need she devote herself to her foster parents, no more need Uncle Terry putter over lobster traps in rain or shine, or good, patient Aunt Lissy bake, wash and mend, year in and year out.

Here was more than they could spend in all the years that were left them, and what a changing privilege it would be to him to place in her loving hand the means to make glad and bless those kindly people who had cared for her as their own, and what a sweet door of hope it opened for him!

Then, for the first time, he noticed Frank watching him with smiling interest.

"Well," remarked that cheerful young man, "I'm glad to see you emerge from your trance and return to earth again. I've said good morning twice and watched you for half an hour and you didn't even know I was in the room."

When Frank had perused the most interesting of the documents he gave a low whistle and said:

"Now, methinks, somebody will be taking a wedding trip to the Land of the Midnight Sun in the near future. I congratulate you, my dear boy, and you can have the Gypsy when you are ready." Then he added shyly, "Maybe it can be arranged so there can be four in the party."

Miss Edythe Lindsay, Stromness, Ont., writes:—

"It affords me great pleasure to say that I have experienced great relief from your Heart and Nerve Pills. For over two years I suffered from violent palpitation of the heart, was very nervous and easily startled. I was in an extremely weak condition before I started to take the pills, but four boxes effected a complete cure. I cannot praise them too highly for their relief from nervous weakness and heart trouble."

The next morning Albert, bearing the legal evidence of Telly's heritage and with buoyant heart, left for Southport. Late in the afternoon the little boat bearing him as sole passenger halted at the head of the island, and he saw the smiling face and muffled form of Uncle Terry standing on the wharf alone.

"Bless your heart, Mr. Page," exclaimed Uncle Terry, grasping both of Albert's hands in his, "but the sight of ye is good for sore eyes."

"And how are Aunt Lissy and Telly?" responded Albert, smiling into the glowing face of the old man.

"Oh, they're purty middlin', an' they'll be powerful glad to see ye, too. It's been a long time since ye left us. How vividly came to Albert every detail of his last parting from Telly, framed as she was in a background of scarlet and brown foliage! He could see her as he last saw her, standing with bowed head and tear wet face, and feel a tinge of the keen pain that pulled at his own heartstrings then.

He could almost hear the sad rustle of the autumn winds in the dry leaves of the scrub oaks, and beneath the thickets of spruce still remained a white trail of snow. A half gale was blowing over the island, and when they halted in front of Uncle Terry's home the booming of the giant billows filled the night air, and by the gleam of the lighthouse rays Albert could see the spray tossed high over the point rocks.

"Do right and said Uncle Terry, 'an' don't stop ter knock; ye'll find the wimmin folks right glad ter see ye, an' I'll take keer of the boss."

With Telly it had been a long, dreary winter. Her only consolation had been the few letters from the only man who had ever uttered a word of love to her, and how eagerly they had been read again and again!

At times, when the cold desolation of winter was at its worst, only mildly reserve had kept her from writing him of her loneliness and heart hunger.

She had no inkling of his coming, and when Uncle Terry bade him enter the house she was alone in the sitting room, with only the cold hearth.

Lissy was in the kitchen cooking supper. She heard the click of the front door latch and, stepping into the little hall as she unlocked the door, she met the man who for five long months had never been absent from her thoughts.

A glad cry escaped her, and then—

When Albert had again clad Sandgate's hills and village with green and spangled its meadows with daisies, there occurred two events of sacred import to four young people.

The first was a wedding in the village church where the sweet voice of Alice Page had often been heard, and where now as a bride she walked timidly to the altar.

Her pupils, aided by their parents, had turned into a bowery green, brightened by every flower that grew in field or garden. Even the old mill pond contributed its share, and the altar was whirled round, and almost every resident of the town was present, and the aged miller sat in one corner and watched with wistful eyes.

The Nason family, with Aunt Susan and Albert, shared the front pew. Two weeks later occurred the other event, when the Gypsy steamed into the Cape harbor and a select party became the guests of honor at Uncle Terry's home. Long tables, decked with flowers and ledged with the best Aunt Lissy could prepare, stood under the trees in front. The little porch was a bower of ferns and clusters of red bunch berries, and every man, woman and child that dwelt on the island was there.

Then, after Albert and Telly had uttered the simple but sacred words that bound them for life, the gladsome party gathered and made merry at the tables.

The sun was low in the west ere Telly kissed the tear wet faces of Uncle Terry and Aunt Lissy and the Gypsy sailed away. Far to seaward the purple line of coming night was slowly creeping in, and side by side on the little knoll where stood a low white headstone those two sat and watched her pass out of their lives.

When only the wide ocean was visible and the line of shadow had crept up to the wave washed rocks beneath them, Uncle Terry arose.

"We'd best go in, Lissy," he said. And she saw that she must lead him, for he was blinded with tears.

THE END.

An Ape of 1738.
The human ape of the Hippodrome is not without its parallel in former days. An eighteenth century chronicle tells us that in 1738 "a most uncommon creature was brought from Carolina. It was a female, whose height was about four feet and in every part formed like a woman except the head,

Mr. Page: it's upset her a little an' made her hysterical. She don't quite understand yit what it all means. She ain't much used ter havin' a fortin' dropped in her lap."

And then, rising, he added, "We'd best go to bed now, Lissy, an' mebbe Mr. Page'll want a lawyer, can 'splain matters to Telly."

When they had left the room Albert seated himself on the sofa beside Telly and said: "I am a trifle puzzled and a little disappointed, Telly, at the way you feel about this inheritance. It is rightfully yours and will enable you to do much for the future comfort of those who are devoted to you. I had

which nearly resembled an ape. She walked upright and sat down to her food and fed herself as a human creature. It was supposed to be the female of the creature which is called chimpanzee, or the mock man." A charming touch is added in the remark, "She expressed great respect for a boy who was on board the ship with her and seemed very unhappy at his absence."

An Elongated Love Letter.
English is put to strange and eloquent uses in India. Here, for instance, is a letter addressed to a native gentleman by a youth seeking the hand of his daughter:

"To Baboo —, Paternal father of Miss —, Dear Sir,—It is with a fluttering penmanship that I write to have communication with you about the prospective condition of your damsel offspring. For some remote time to past a secret passion has been burning in my bosom internally with loving for your daughter. I have navigated every channel in the magnitude of my extensive jurisdiction to cruelly another the growing love-knot that is being constructed in my wish-inside, but the humid lamp of affection, trimmed by Cupid's productive hand still nourishes my love-sickened heart. Needless would it be for me to numerically describe the great conflagration that has been generated in my head and heart. Hoping that having debated this proposition to your pregnant mind you will concordantly corroborate in espousing your female progeny to my tender bosom and thereby acquire me into your family circle. Your dutiful Son-in-Law."

Guarding Against Tangles.
To keep the 30,000 odd miles of telegraph line in order in Great Britain and provide for the proper despatch and delivery of the millions of messages that pass over them every month, entails an expenditure of about £2,250,000 a year, and of this total more than £1,500,000 goes in paying the salaries and wages of the immense staff of engineers, skilled operators and messengers, and of those who direct their operations and keep the accounts straight.

War Medals Are Cheap.
There is a surplus of South African war medals on the market, and they can be had for a mere song. A medal with the common Cape Colony or Natal clasp is worth practically nothing, but some of the claspless medals, from their rarity, have considerable value. The defence of Mafeking clasp will fetch from £8 to £9, and the clasp for the defence of Wepener, a small place which some eighty British soldiers held, is worth £6. The poor fellow with the years ago of Ladysmith medal can, however, get only a few pence.

The pawnshops are offered large numbers of medals, but in most cases refuse to take them, as the dealer who happens to lend money on a medal belonging to a man still in his regiment is liable to be prosecuted by the commanding officer. One man was recently warned of these establishments said: "If you don't give me something for it I shall give it away. It took me twenty-nine months to win it, but I won't keep anything that will remind me of the worst time in my life." He got four shillings.—London Daily Mail.

Oldest Love Letter in the World.
In the British Museum is an ancient love letter, supposed to be the oldest in the world. It is a proposal of marriage, inscribed on a brick, to an Egyptian Princess, and made thirty-five hundred years ago. A brick doubtless was the correct form for polite correspondence in those days. But how have our postage bills made have been! Only a prince could afford to send a billet doux!

74 Years of Age and Cured of Rheumatism by "Sun" Kidney Pills

"I am 74 years of age, and have suffered for years with Rheumatism. My left leg shrank in size, and at times with my foot, was much swollen from the inflammation. Since taking 'Sun' Kidney Pills, the pain has left my arm, the swelling has disappeared from my foot, and my leg has improved so much that now I can, at times, walk short distances without support, a thing impossible before. As a remedy for urinary weakness, I cannot speak highly enough regarding 'Sun' Kidney Pills. I now retire to rest in comfort without having to arise during the night."

Think of the disadvantages of treating a case like this. Mr. Palmer was 74 years old. He had suffered for years. His kidneys were badly diseased. His whole system was filled with uric acid which caused the swelling. Yet "Sun" Kidney Pills cured him just as easily and as quickly as though it was a simple touch of Rheumatism in a strong, vigorous man.

That's the way with "Sun" Kidney Pills. They cure ANY case of Rheumatism Gout, Bright's Disease, Diabetes, Kidney or Bladder Trouble. Whether you've had it 6 months or 30 years—"Sun" Kidney Pills will cure you. The first box stops the ache—relieves the shooting pains through the hips—reduces the swollen limbs—brings back the appetite—and makes you feel so much better in every way, that you know you have found the right medicine at last.

Don't trifle with the kidneys. Start in now to cure yourself with "Sun" Kidney Pills. 50c a box—3 boxes for \$1.25. At all dealers or from The Sun Medicine Co., Oak Point, N.B.

OBITUARY.

Death of Jos. W. Arseneau
of Bathurst Village—Soc-
ial and Personal.

A very sad and sudden death occurred here on Sunday evening when Mr. Joseph William Arseneau of the village died at his home here. He had not been feeling well for some time past, but never complained any and kept going about. After his supper with the other members of the family he joined in with his sisters in music and singing, then left for an armful of wood and while in the woodshed he took a hemorrhage and died a few minutes after he was brought in the house, before medical or spiritual aid could be administered.

His death was a shock to all, especially his comrades with whom he had been during the day and with whom he was a general favorite. His father and mother are both dead but he leaves four affectionate sisters and two brothers to mourn his death and who have the sympathy of the whole community in their sad bereavement. His sisters are Harriette, Mary, Antoinette and Mrs. Jos. Tibideau of this place, his brothers William and Charles.

His funeral took place on Tuesday morning and was very largely attended. The members of the H. F. T. A. society, of which society deceased was a member, marched in a body to the church. The pallbearers were F. Fournier, M. Leahy, C. Cook, B. Baldwin, A. Kenny and G. Baldwin. Deceased was 22 years of age.

The funeral of the late John Nicol took place here on Friday last and, in spite of the distance and bad roads, was very largely attended; upwards of fifty horses followed the hearse. Interment took place in the Presbyterian cemetery and Rev. Mr. Hooper officiated.

The body of Miss Sarah Des Brisay who died in St. John on Sunday was brought on here for burial on Tuesday afternoon and was taken to the Church of England burial grounds for interment. Deceased was an aunt of Mr. N. A. DesBrisay of this town.

Price Webber Co. certainly met with success in Bathurst as he always does. The "Ocean Waif" on Monday evening was considered very good and the Opera was crowded. On Tuesday they played "Octoroon" and Wednesday "East Lynn". On Thursday he concluded with the play entitled a Woman's Life. Price expressed himself as being very much satisfied with the attendance in Bathurst and he did have a good house all four nights.

The many friends of Mr. J. S. Hachey, merchant of this place who learn with regret of his recent illness of Pneumonia are pleased to hear that he is improving and hope to see him around in good health soon.

Mr. Girkwood, principal of the Superior school here and family now occupy the house formerly owned by Mr. S. Melanson but since bought by Messrs McKenna Bros.

Messrs W. J. Kent & Co have had the electric light placed in their store lately and is quite an improvement to the gas lights which was used before.

The storm of Saturday last was a good old fashioned one here and in some places it left snow banks to the height of 12 feet, so we are well prepared to see remnants of those wonderful drifts in the good old summer time.

The smelt fishers have been granted an extension of five days which gives them to the 22nd inst to fish here.

Mr. Leander Landry of Moncton spent a few days at his home here this week.

Mr and Mrs Alex Melanson of Jacquet River spent Monday in town this week.

Mr. Philix Frenette and Mr. Adelard Morrison of Jacquet River were also among the visitors of our town this week.

Services in the Presbyterian church on Sunday last were conducted by Rev. Mr. MacPherson who was here for the day only. There has been no minister stationed here since the departure of Rev. Mr. Reid in the fall, that is for the Presbyterian church.

Mr. Clifford Hickey of Chatham spent a few days in town this week.

Conductor McDougall of a special train at the station here on Wednesday night had two of his fingers badly smashed.

Mr and Mrs A. J. Melanson of Jacquet River went to Dalhousie to attend the ball. They also spent a couple of days in Bathurst this week.

MILL IN ASHES.

But Fire Dept. Worked Hard
and Saved Flett's Box
Mill and Lumber.

Mr. I. W. Flett's sawmill, Nelson, caught fire Friday evening about 6 o'clock and was totally destroyed. The mill was idle and boxes to the value of between \$1500 and \$2000 were stored in it, awaiting shipment. The box mill and lumber piles were saved by the large force of workers that gathered and the Newcastle steam fire engine. The Newcastle boys did excellent work and are deserving of the highest praise. As soon as the alarm was sent in they started to have a road plowed from Newcastle to the mill. When this was accomplished the fire engine was taken over and a quantity of hose. The boys started in to work before midnight and worked hard all night with good results. Mr. Flett valued the mill at \$18,000, a large sum having been expended on it for repairs within a few years and had only \$5000 insurance on it. His loss is between \$14,000 and \$15,000. Everybody on the river strongly sympathizes with Mr. Flett, as he has worked like a Trojan for years to build up his business and get it on a solid basis. The fire is supposed to have been started by a spark from the box mill.—Advocate.
