Among other reasons in support of this the argument is offered that Rome is an excellent field for the conduct of negotiations of this nature; Prince Von Buelow, one of the ablest of German diplomats is in Rome as ambassador to Italy; and the official relations between Italy and Germany, as well as between Italy and the powers of the Triple Entente,

Germans Are Said To Have Planned Gigantic Strike For Carpathians.

[Canadian Press.] LONDON, April 19 .- While reports from Petrograd during the past two days refer to minor successes in the Carpathians, indications are that in both the Carpathians and Poland a greater battle than any yet fought is imminent. According to a dispatch from Rome

attributed to a high German authority the German general staff has discarde all plans for an advance on the French front, deciding to remain on the defensive there, while troops are being sent to meet the Russians. It is believed that they will attempt to bring on a decisive battle in the Carpathians by making a strong advance from Cracow, while their forces in the neighborhood of Uzsok pass and in northern Hungary will attack from the south-west. This, however, does not coincide with the official statements from Russian. Austrian and German sources to the effect that spring weather has seriously hampered operations.

"Times have surely changed, for that Mr. Sunday is doing a tremendous religious work cannot be doubted. His methods are different, but that doesn't matter. God has put his seal upon Sunday's work, we know, and that's all important, even if it does grate on some of our sensibilities." Employees On Government Railways Say This May Cause Strike.

[Canadian Press.]

HALIFAX, April 19.-President A. R Mosher, of the Canadian Brotherhood of Railway Employees, issued a statement today in reply to General Manager Gutellus, regarding the threatened strike of the employees of the Intercolonial Railway:

"If there is a strike on the Government railways, the biame must rest on the general manager, Mr. F. P. Gutelius," he said. "The management failed to carry out the terms of the agreement of March 21, 1913. There numerous instances where promotions of the senior qualified employee has been refused in his own department, while incompetent men have been advanced because of favoritism.

"Mr. Gutelius omits entirely to mention the fact that the Brotherhood was willing to arbitrate, and had applied for a board of conciliation. "Mr. Gutelius knows that just previous to the outbreak of the war, a strike was threatened and that the Brotherhood, rather than cause any disturbance after the war began, sub-

The new Atlantic Sugar Refineries commenced operation a few weeks ago, are capable of producing one million pounds per day, or three hundred million pounds per year. This plant has been in course of construction for over two years, and now that it has been ompleted and started operations, it regarded as the best and most com lete sugar refinery on the continent. The very latest in machinery, equip ment and method of construction con bine to make the plant an ideal one for the purpose. In addition, the directors have made a careful study of the needs of the consuming public, and are launching out with a line of high-grade sugars which are bound to make large place for themselves. They are nown as "Lantic" sugars, a brand which will doubtless soon become nousehold word throughout Canada. The plant is so situated that raw sugar can be unloaded from ocean going vessels, while the finished product can be shipped out either by rail or boat to all parts of Canada. These and other economies which they are able to effect in the manufacture of their product will react on the consumer, who will get the benefit of a high-grade sugar at no additional cost.

Our new slogan—one that will help Canada:

"What we have we'll hold-what we haven't we'll make".

Any mother can tell you that it takes cast iron shoes to keep the schoolboy's feet covered. We need say nothing about the girls. Just step around this way when you have a minute to spare and take a look at the \$2.75 school shoe for the boy. We don't think you can find its equal in any other store in London. You can bring the youngsters or send them alone. They will have prompt attention and the best there is in the house for the money.

These boys' shoes are made of the stoutest leathers, and will wear like PIGSKIN. They have style too. The girls' shoes are the swell ones, just what girls like. Made from soft but robust, in button or lace with kid or patent leather tips and dandy soles. Examine Your Eyes
