## DISTRIBUTION OFFER FAVORED

Special Power Committee Considered Offer of the London Electric Company.

### ALDERMEN IN DARK, HOWEVER

And Ask Engineer Sifton to Report on Several Important Matters Regarding the Propositions.

The four propositions of the London Electric Company relative to the sale of their plant and the distribution of Niagara power were discussed at the meeting of the special power committee yesterday afternoon, but as none of the members were in a position to discuss the offers, they were laid over until Engineer Sifton prepared a report on

the matter. His instructions were to report on the cost of bringing Niagara power here in 1,000, 2,000, 3,000 and 4,000 horsepower lots on the basis of \$23 50 per horsepower for 5,000-horsepower. The committee desires to-know just what the power will cost, provided they cannot sell the larger quantity, but must take the smaller amount, namely

This Underwear will be worn more in the future than ever in this Canadian climate. WHY? Because our winter seasons are becoming so changeable—Zero weather today and barely freezing-point tomorrow. It is needless for us to explain the results of heavy woolen undergarments with such changes. Linen is the most absorbent fibre that can clearing prices in be used for Underwear. It soaks up moisture like a sponge; but, just as it absorbs rapidly, it dries readily, radiating away at once the moisture given off by the pores.

Mesh is the ideal weave, as it allows a free passage of air to the body, preserves the natural heat and keeps the skin in a healthy condition. These garments are pure linen.

#### THE LONDON ELECTRIC COM-PANY'S PROPOSALS.

The London Electric Company makes several alternative proposals- to the offers to sell its plant, busi ness, and goodwill for the sum of \$506,-200 which represents its capital stock and its bonded indebtedness, Or the company will allow the price to be fixed by arbitration, provided that the valuation is based must not be considered less than 6 per tribute Niagara power, under a 30years' contract, at prices ranging from \$10 50 per horsepower for 5,000-horse-

The acagainst some municipalities and exempting others from its provisions, is illogical and inequitable. The London Electric Company, therefore, is morally entitled to the protection of the Conmee act. In other words, the city is bound, in fairness, to give the company a chance to dispose of its busi- the suffragettes. Surely the suffraness. The Conmee act, however, went gettes would not be guilty of flirting! no further than to require a municipality to pay for a private plant accorditself. The London Electric Company asks that the basis of valuation be the company's earning power as a going concern, which is a very different matter. The company's figures as to the cost of distribution-\$10 50 to \$17 50 per horsepower per annum, according to the quantity-are startling by comparison with the estimates furnished by the hydro-electric commission. The latter quoted \$3 to \$4 per horsepower. Here again is a question for experts. The power committee has taken the prudent step of instructing the city's electrical engineer to report upon the cost of distributing power by means of a \$235,000 plant, for which the ratepayers have voted the money.

## INSURANCE AGAINST HAIL.

Next to frost, nothing has caused the farmers of Western Canada greater loss than hail storms. Some six or seven years ago the Legislature of the making hail insurance a Government monopoly and prohibiting any company from engaging in the business. With the creation of the two new provinces of Saskatchewan and Alberta both continued the system. Experience, however, has proven hail insurance to be a losing venture-at least when carried on by the public. The Saskatchewan Government has declared in the Legislature that in damages have inflicted upon the provincial treasury, some decided change must be made during the present

session. Official figures for Saskatchewan for be soon effected. 1908 show that the premiums paid on 6.049 contracts amounted to \$145.632. while the claims paid to 1,350 claimants for losses totalled \$258,816. # Rebuilding Furniture Sale-

## READ THIS:

In a few days we start to tear out our store and remodel and enlarge it. We will put another floor on top, an entirely new front, and a large basement for a showroom. When our store is complete we will have what will probably be one of the most complete and up-to-date housefurnishing establishments in Canada. In a few

days we will show a picture of our new store when finished. To make these alterations we will have to clear out most of our \$30,000 stock. Next week we have to give up our entire third floor. This means that we start a sale at once, a sale that will eclipse all previous furniture sales in size and price reductions.

How "sadness and despair" gave place to "joy, comfort and life," is St., Brockville, in relating how his wife was restored to health after having been told by her doctors that both her lungs were seriously affected and that she could not possibly live many months.

Gloom like a pall fell over that Canadian home when the apparently irre-vocable flat went forth. Not long before life had seemed full of promise to Mr. and Mrs. Walter, and a bright future of married happiness stretched out into the coming years. And now that brought him'd gone away, and all was changed. The fatal words had been pronounced which banished all hope. But they had not then heard of PSYCHINE.

It was when the cloud was darkest that the silver lining appeared. A friend urged them to give PSYCHINE a trial, and told of the marvellous remedy. Mr. Walter procured a bottle and persuaded his wife to take it. Before the whole bottle had been taken," he says, "the severe pain in her lungs quickly went away, and after taking six bottles, my wife was a new creature, and completely well again. I will never cease to praise PSYCHINE; it has brought Mrs. Walter back to life and health when all else had failed." No case need be considered hope

You never told me a lie yet. Go and tell Mrs. Tilly I'm going to take you away with me at once. Get your cap and let her wash your hands, and then ask her to come in

Dickie slid from the knee of his adopted father with a slow reluctance. Suters' orders were on him, and he was trained to obey orders, but he was anything but keen to go to Mrs. Tilly. She had scolded him roundly for telling the story he had just told Suter. She had threatened him with prison and told him he would never o to heaven. # AN ADVANCE SHOWING OF NEW SPRING GOODS

Seventeen huge cases have given up their contents to our already large and varied stocks in the last few days, and all these new arrivals, from foreign and domestic markets are making a brave show in the several departments of this store. It's the first shipment of the season, but still a comprehensive showing. We invite and advise every woman to tour the store, examining the qualities, comparing the prices and becoming posted on the new Spring Styles. NOW is a good time to select the material for your New Spring Dress or Suit. One frock judiciously planned gives more satisfaction and pleasure than half a dozen hurriedly-selected and hurriedly-made by worried dressmakers.

## For the New Suit or Dress

HOW TO TELL.

Does every cold affect your back, and bause! a feeling of chilliness, followed by disturbance of the kidney action.

Does the use of spirits, tea or beer excits the kidneys? Are you easily worried and annoyed over trifles? Are the feet and hands cold? Circulation bad? Do the feet and legs swell? Is there puffiness under the eyes? Do you have rheumatism, poor eyesight, headaches and backaches? there gravel or any unnatural action of the kidneys?

If you have any of the above symptoms your kidneys are either weak or diseased, and these symptoms are warnings of more serious troubles to follow; Bright's Disease, Diabetes or Dropay.

Whatever you do, whatever you think your disease is, look well to your kidneys at the first sign of anything wrong, Give them just the aid they require in Doan's Kidney Pills, the Great Quaker Kidney Medicine, and see how well and fit you feel after even a few doses.

Mrs. O. Warren, Radisson, Sask., writes: "I was troubled with very severe pains in my back for years. I tried everything I could think of but they did me no good. A friend told me about Doan's Kidney Pills and after taking two boxes, I have not been troubled since."

Price 50 cents per box, or 3 boxes for \$1,25, at all dealers or The T. Milburg Co Limited, Toronto. In ordering specify "Doan's."

There was necessary 6,104-horseable horsepower. These two last classes "The fourth proposition commends were so situated that it was highly imitself to me," said Ald. Beattie, "but we probable that they would use Niagara power, no matter what the price was. Amount To Be Used.

To supply this amount of power the power for eight months in the year, and 5,629 during the other four. The reduction from 6,104-horsepower is due to overlapping and the like. In the winter months there would be a greater demand for power owing to street lighting and incandescent lighting. To these amounts must also be add-

"From the number of customers I have spoken of, we must deduct a reasonable number because of the natural hesitancy of the public to make a change," said Mr. Sifton. "I would give it as my opinion that if we do not land the Southwestern Traction Company and the London street railway by July we had better reduce our amount from

5.000-horsepower to 3,000-horsepower." The committee then adjourned, to meet when Engineer Sifton had his report ready.
