## WATER BOARD MAKES MONEY

Chairman Sheldon Says  
They Now Have Bank  
Balance of \$2,216.92

Salary Question Causes a  
Little Trouble—Monthly  
Meeting

The Water Commissioners and their Superintendent were in a talkative mood last night, and, as a result, this Board, which has shared a record with the Library Board and Board of Education, for short, business-like meetings, was longer than usual.

Chairman Sheldon pointed with pride to the month's financial record. The Water Board had paid out \$3,382.82 for extensions to the plant, \$288.81 for extension to service, and they have a balance of \$2,216.92 in the bank.

Dr. Cornell—We are making money for the city, and no doubt about it.

Night Fireman John Moore asked for an increase in salary. He is at present getting \$40 a month from the Water Board for his services as fireman for the Waterworks plant, and \$15 per month from the Council for his services as electric light fireman. He works on Sundays.

The members of the Board were of the opinion that if Mr. Moore considers his salary to be too small, he should apply to the Council, for if he is underpaid by anyone, it is by the city. The request was not granted, but Mr. Moore was granted the customary two weeks' holidays.

Second Engineer Thomas Neil sent in his resignation. Mr. Neil did not give his reasons, but from what Mr. Sheldon said, it seems that Mr. Neil believes that he did not receive all his overtime wages. Superintendent Jones was instructed to investigate Mr. Neil's complaint, and if there are any back wages owing to him to see that they are promptly paid. In the meantime, the Board will not accept his resignation if Mr. Neil is satisfied.

The Canadian Casualty and Boiler Insurance Company sent the report of the condition of the Waterworks boilers. They reported them to be all in excellent shape but recommended certain minor repairs to the lining of one of the boilers.

James Palmer of the Palmer Bakery Company petitioned for water service in his new bakery on Patterson avenue. Mr. Jones was instructed to make an estimate of the probable cost of such an undertaking.

Chairman Sheldon said that he had recently been spoken to by a member of residents on Queen street south, asking for a water service out as far as Indian Creek. He deplored the fact that the Council have not the money to have this work done with.

### CHATHAM LEADS

That Chatham is ahead in many municipal improvements is often evidenced by the commendation received from larger cities inquiring about local municipal equipment. The latest instance was that of a letter from the Secretary of the Water Board of Cleveland, Ohio, to Secretary Weir, asking how Chatham was satisfied with the Buffalo metre, which has been in use here for some time.

On the strength of a subsequent recommendation from Secretary Weir the authorities at Cleveland have decided to install 10,000 Buffalo metres. This proves that Chatham was one of the first cities in the Continent of America to install this up-to-date metre.

### RESPECTED YOUNG MAN

Robert E. Ellerbeck, aged 21 years, passed away yesterday at his home, on Lot No. 1, Chatham Township. He was a son of Arian Ellerbeck, and was a very highly-respected young man. He took ill about a week ago, and his trouble affected his heart, which was the immediate cause of his death. He was a prosperous farmer, and has always been a resident of Kent County. He was a member of the Methodist Church, and a regular attendant.

The funeral arrangements have not yet been made, as the deceased's father is in Edmonton, and word has not yet been heard from him. His early death is a shock to the entire community, and the bereaved family have the sympathy of the surrounding community.

### FENCE FOR SALE

Tenders, addressed to the Secretary of the Board of Education, Chatham, Ont., will be received up to September 10th, 1907, for the picket fence around the front of the Collegiate Institute grounds at Chatham, excepting that part of the fence across the front of the boys' playground, the purchaser to remove the fence and to fill up the post holes.

T. C. MACNABE,  
Secretary Board of Education.

## ARRANGEMENTS COMPLETED FOR R. L. BORDEN'S VISIT

This Will be one of the Biggest Political Meetings Ever  
Held Here—Pere Marquette Train Leaving Chatham  
at 6.15 Will Make Connections East and West  
At Blenheim

All that is necessary now to complete the arrangements for the largest political meeting ever held in Chatham is fair weather. This meeting will be held to-morrow, and every possible precaution has been taken by the local executive and reception committee to insure the comfort and pleasure of both Mr. Borden and his party, and also the people who will attend the meetings.

To-day the Opera House is being decorated in preparation for the event with flags, bunting, streamers, etc.

Encouraging messages still continue to come in from the surrounding district, and these all tell of big crowds which will be on hand to hear this distinguished statesman. Never before was such interest taken in any political event in this county. Ever since Mr. Borden announced his platform in Halifax people generally have received his messages with approval and satisfaction. They recognize in him the man of their political ideals, and they are all anxious to hear the message from his own lips. The people of this county are fortunate in securing this meeting, and there is no doubt that they will show their appreciation of Mr. Borden's consideration in including Chatham in the list of places visited during his present tour.

Special attention has been given by the executive towards securing special transportation facilities for the accommodation of the visitors who will be in Chatham to-morrow. It will be learned with a great deal of pleasure that the 6.15 train leaving Chatham for the Pere Marquette will be the one to-morrow make connections east and west at Blenheim. This will give the people from the west another hour in the Maple City, so that they will not have to hurry away from the afternoon meeting in order to get home the same night. Owing to this everyone will be able to stay at the meeting until all of the speaking is over.

The men who will arrive with Mr. Borden, as far as is at present known, are—Claude Macdonell, M.P., of Toronto; W. B. Northrup, M.A., K. C. M.P., of Belleville; W. E. Bennett, M.P., of Midland; Andrew Brodeur, M.P., Morrisburg; Hon. Dr. J. O. Reame, M.D., M.P.P., Minister of Public Works of the Province; Rufus Pope, of Cookshire, Quebec; and T. Chas. Casgrain, Montreal. The gentlemen will be recognized as some of the finest orators in the Dominion. Among them, probably Mr. Rufus Pope, will be a particularly clever and fluent speaker, and his speech will be one of the treats of the day.

## A BIG STRUGGLE IS ON BETWEEN TWO RAILROADS

C. W. & L. E. Has Been Blocked in Every Attempt to  
Cross The M. C. R. — Michigan Central Station  
May Be Future Reality

From further information, gained from a private source by The Planet, there seems to be no doubt that the Michigan Central Railway officials have entertained, and to some extent discussed, the project of erecting a depot in Chatham, as was announced some time ago. To do this, the Michigan Central would first have to come to some agreement with the C. W. & L. E. officials for the carrying of their passengers out to Charing Cross, to make connections with the American road.

The C. W. & L. E. officials, who have been interviewed regarding the matter, state that they know nothing about such a project, but the fact remains that it has been talked of, and it is an undertaking which will be realized some time in the future. It is understood that the Michigan Central is now anxious to have the crossing dispute settled before they seek terms with the C. W. & L. E. with regard to the carrying of passengers to Charing Cross. This opportunity to make good connections with Chatham, without making any alterations to their own road looks from the outside like a proposition the enterprising American road would scarcely turn down in scorn. That a Michigan Central station will eventually come to Chatham, is felt to be a sure thing in some quarters. The shrewd officials of that road are not likely to make any public announcement until such time as they are sure of their ground.

Meanwhile the crossing dispute with the C. W. & L. E. is unsettled, and it is understood that the M. C. R. Company intend to fight the matter out to the bitter end. This C. W. & L. E. are as a result tied up for operating purposes, until such time as the Railway Board hands down a decision. The idea the M. R. people have in mind is to force the traction line to build a subway under their tracks, much the same as that specified in the high-handed demand of the Grand Trunk a year ago.

The C. W. & L. E. were first blocked in their attempt to place a diamond on the M. C. R. at a spot

in direct line with their tracks on the right of way. This was disputed by the M. C. R., and as a temporary measure the C. W. & L. E. next tried to put their overhead wires across over the M. C. R. tracks at the same point, so as to supply power to cars operating at the other side. It then turned out that the steam road had control of the atmosphere above their tracks, "right up to the heavens," as one gentleman put it when speaking of the matter to The Planet. Thus, the C. W. & L. E. were even blocked in getting their wires across the tracks, even were they willing to run them any distance above the tracks. Their next move by the C. W. & L. E. was to attempt plunging the power wire through a sewer under the M. C. R. track. This was promptly stopped, and the M. C. R. placed a detective within close range of every reach, that he might notify the officials of any move the traction company might make to get their wires across. Thus the fight between the two roads has waged all summer.

Now the C. W. & L. E. people, game to the end, are making another attempt to get across without recourse to litigation. This time they will divert ten feet from their right of way, and up onto the highway. Here, it is understood, the M. C. R. can do nothing to prevent them from getting across, as the highway being public property is as free to the traction line as it is to the M. C. R. This, possibly, will only be used as a temporary crossing by the C. W. & L. E. until such time as they can gain a decision from the Railway Board to place their diamond in on the tracks directly in line with their right of way. This crossing will undoubtedly be an expensive one to both roads, both from a point of erection and for cost of maintenance. It will mean that derailling from crossing alarms, etc., will have to be installed.

A plucky fight being put up by the C. W. & L. E. has gained for its officials the admiration of all who have kept in touch with the mighty struggle.

### THE HORSE THIEVES

Chief of Police John Holmes this morning received a telegram from Detective Campeau, of Windsor, bearing the following message: "Sent Dr. McFarlane, the man who had the horses stolen to Windsor on the first G. T. R. train to-day." The message did not contain any further information, but it is surmised that the border detective has got some important clue regarding the horse thieves. Dr. McFarlane, whose horses were stolen, as exclusively announced in last evening's Planet, left for Windsor this morning as directed.

### BURNS WILL UMPIRE

Tommy Burns (Noah Brasso) the heavy-weight champion prize-fighter of the world, will umpire the ball game for the championship of Western Ontario, between Windsor and Detroit, on the Fair Grounds, Monday.

The game will be called at three o'clock, and will be formally opened by H. S. Clements, M.P., and A. B. McOgil, M.P.P.

Force of circumstances is a poor excuse for taking of a wrong path.

Two cannot fall out if one does not choose.

## MORE DOG POISONING

This Time Gordon Everard  
Loses a Very Valuable  
Pet

It Will Soon Be Time For  
The Authorities To take  
Action

Another dog has been poisoned. In the meantime the people generally are commencing to wonder what the authorities are going to take some definite action to stop this unwarranted crusade against the canines of the city.

The last victim to fall as a result of the poisoner's work is a pet dog belonging to Gordon Everard, of Park Street. Mr. Everard woke up one morning to find that it was his turn to lament the evident insanity of some busy individual who has been venting his ill-temper upon the dogs in the vicinity of Queen Street for the past few weeks.

It appears that no one has interested himself enough in the prosecution to even examine any of the dogs after they were dead to discover the exact cause of death. It was apparent in all of the cases that the animals died of poisoning, but no one is in a position to state positively that poison is directly responsible for the slaughter, or to give any evidence as to what kind of poison was used.

It seems to be clearly up to the dog owners of the city to get together quietly and employ a detective to follow the case with some intelligence and care. It is understood that the police cannot be sent out of the city to follow the case up as it should be followed, and it is quite necessary to send someone to Detroit and other places to find out who purchased the poison.

It is an unfortunate thing that when a crime is committed in the community, the private citizens vitally interested have to put up the money to push the prosecution themselves to bring the criminal to justice. In other words, small bands of private citizens have to get actively and personally interested to see that the laws of the country are enforced. There should be some way of appointing officials who would have the power to perform their duties without looking for outside aid from private citizens.

### WANT TO MAKE TEST

The Pitometer Company, of New York, recently wrote the local Water Board, asking if they might not make a demonstration with their pitometers in Chatham. This ingenious device can be placed on a water main anywhere, and will detect a leak or waste of water in the vicinity. Where flat rates are in vogue the pitometer should prove very useful and, therefore, were installed here there would be no need for the Water Board employing special men to watch the lawn services.

Secretary Weir, of the Water Board, has been instructed to write to the Pitometer Company giving them permission to make a demonstration in Chatham.

### JENNY'S NEW VICTIM

The reversed reportorial representative for the Banner, who does the police write-ups for that organ, by all accounts, had a rather exciting experience on the Park recently. Our ecclesiastical confere was enjoying the cooling breezes from one of the Park benches, when his reverie was rudely disturbed by a female, whom he afterwards described to the police as a "very extraordinary person, by the way."

The lady in question, whom the young man describes as having a rather brilliant forehead, adorned, approached him, and first proffered him a bouquet of flowers. On being turned down, she asked the young man if he was not aware that she was a first cousin of the late Queen Victoria, and proceeded to favor him with an enthusiastic embrace and kiss that brought a blush to his face almost as bright and red as the lady's nose. The young man made a hasty retreat, followed by the lady. He has applied for police protection, but the police are of the belief that if he persists in being so charming and attractive it will be difficult to keep enthusiastic females from annoying him with their attentions.

From the description given to the police the latter are of the belief that the lady is none other than one who has a surname similar to a certain kitchen utensil used in the boiling of water.

### NOT IN HIS FAMILY.

Teacher—Now, children, remember the text—Eat, drink and be merry, for to-morrow you die.

Pupil—Please, teacher, in our family we don't. We all take a dose of castor oil the next day.

It takes more than an amateur gardener to raise hopes.

## School Starts Sept. 3

We want your order for  
Books for

High School  
Model School  
Separate School  
Public School

### THE RIVER BANKS.

From time to time comment has been made upon the unsightly condition of some parts of the river banks within the city limits, and the unfavorable impression they are bound to give visitors coming into the city by water. It is indeed a disgrace to the property owners who have neglected their water fronts, but at the same time there are citizens who have not been careless in this respect. Some of the residents of King street west have gone to considerable expense in sodding and grading their portions of the banks, and it is understood that there are many others who are contemplating improvements of this kind. The citizens generally owe these gentlemen a debt of gratitude for their efforts in improving the appearance of the Maple City, and such public-spiritedness should be encouraged by everyone.

Some time ago the residents of this vicinity entered a mild protest with the Chatham Navigation Company against the whistling of the steamer "City of Chatham." It was claimed that the "City" made more noise than was necessary, thus disturbing the patients in the Hospital, and proving a source of annoyance to the other residents. The objection was received kindly and, as a result, the "City" now whistles only once, when formerly it whistled two or three times. The people affected are very grateful for this courtesy on the part of the Navigation Company, and now they have another complaint, which they hope will receive the same thoughtful consideration.

When the "City" passes the Hospital she travels at a high rate of speed and goes close to the bank. This causes a big swell which runs along the shore and tears away the bank. As a result, portions of the improvements before mentioned are endangered, and boats are sometimes thrown up on the bank. This is a source of great annoyance, inconvenience and expense to the residents. One citizen suggested that if the steamer would slacken up when approaching the city, the time which she would lose would be very immaterial, and all cause for future complaint would be effectively removed.

### THE NEW REMEDY

Take It Now That Vacation Days Are Fast Approaching.

Thousands of men and women are anxiously looking forward to the vacation days that come in June, July and August—not so much for the pleasure or enjoyment as for the chance of getting rid of their ill health.

To thoroughly drive away troubles of the stomach most people think they have to make a business of it with dieting, exercise, and perhaps a vacation.

But Mi-on-a stomach tablets taken with regularity, in a very few days will drive away indigestion, dizzy spells, distress after eating, headaches, sleeplessness, and the many other symptoms of indigestion and sluggishness of the digestive organs that keep people from enjoying themselves.

Day after day, at work behind desks or in the factory with poor sunlight and air, soon results in sluggishness of the entire physical and mental apparatus. The first slight symptoms of indigestion can be easily cured, but when they are allowed to increase without any help, then the stomach complaints become hard to shake off.

Strengthen the whole digestive system with Mi-on-a and you will soon find that both stomach and bowels do their work as they should.

C. H. Gunn & Co. sell Mi-on-a in 50 cent boxes and guarantee to refund the money if the remedy does not give complete satisfaction.

### PASSED AWAY

The death of John Boon, King St., aged 68 years, occurred yesterday, after a lingering illness. Deceased was a victim of paralysis. He has been living retired for several years and was a U. S. pensioner.

The funeral will be held on Saturday at 2:30 o'clock from his late residence on King street. Interment will be made in Maple Leaf Cemetery.

### GOLDEN WEDDING

The home of Mr. and Mrs. George Elgie was the scene of a very happy gathering on Saturday evening, August 24th, being the fiftieth anniversary of their marriage. Only their children and grandchildren were present. The well-laid tables, which were spread out on the lawn, were beautifully decorated with flowers, while the entire lawn was decorated with flags, flowers, and Japanese lanterns. Just before supper the entire party, numbering 42, were photographed, after which the presentation was made.

To Mr. Elgie a gold watch and gold chain, to Mrs. Elgie a pair of gold-rimmed glasses, a gold wedding ring, and a gold berry spoon. Miss Nellie Cruse, of Port Huron, the eldest grand-daughter, made the presentation, while Mr. Wm. Elgie, of Dover, the eldest son, read the following address—

Dear Parents—It is with feelings of joy and gladness that we, your children and grand-children, have met here to-day in honor of the fiftieth anniversary of your marriage. We feel that we should give thanks to the All Wise Father, who, in his mercy, has been pleased to spare so many of us to see this day, and we trust that He will be pleased to spare you both to us for many years to come.

We ask you to accept these, our gifts, not for their value, but as a slight token of our love and gratitude for the many years of loving and protecting kindness that we have ever received, hoping you will enjoy them as we enjoy giving them.

Signed,

YOUR CHILDREN AND GRAND-CHILDREN.

\$100 REWARD \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHERY & CO., Toledo, O.

Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

### Sixteen Years' For Assault.

New York, Sept. 5.—That it is the intention of the judges in whose hands their fate may be placed to deal severely with men convicted of attacks upon women and children, was evidenced yesterday, when Frederick Shennard was sent to prison for not less than 16 nor more than 18 years. He had assaulted a 16-year-old girl.

### SELECT YOUR MEDICINE WITH CARE.

In debility and weakness medicine should be mild and far reaching. Many pills and purgatives are too harsh, are distressing to the system. Excessive action is always followed by depression, and knowing this, Dr. Hamilton devised his pills of Mandrake and Butternut so as to mildly increase liver and kidney activity, flush out the elementary action, and regulate the bowels. Thus do Dr. Hamilton's Pills eliminate poisons from the body, restore clearness to the skin, bring strength and that sweet restorer of health—sleep. Best medicine on earth, 25c. per box at all dealers.

### Firemen May Die.

New York, Sept. 5.—An exploded tank of gasoline in the cellar of a burning building on Havenmeyer street, Brooklyn, yesterday seriously injured four firemen. Two will probably die of their injuries.

The fire broke out in a tenement house cellar, where there was stored a quantity of paint and oil.

The firemen, who had flooded the cellar with water, rolled out a tank of gasoline, when it exploded.

### DON'T USE GREASY LINIMENTS.

A century ago they were popular. To-day people want something easy to apply, certain in results, and, above all, a clean liniment. When Nerviline is applied aches and pains disappear. The pores absorb its soothing, healing properties. Nerviline penetrates to the core of the pain, eases instantly, and leaves no oily, bad smelling memory behind. Good to take in, capital to rub on, and five times more powerful in destroying pain than any oil liniment. Don't fail to get a large 25c. bottle.

The world is full of men whose intentions are good.

A gentleman buying a bottle of Vaseline's Sure Cure, said: "This is a small bottle for 50c." I replied, make a calculation. A 12 oz. bottle of other medicine costs \$1; the dose is 1 tablespoonful 3 times a day, equal to 1 1/2 oz.; the 12 oz. lasts 8 days. That 50c. V. S. C. bottle contains about 150 days' medicine; 18 1/4 times as much as the large bottle—saving of \$18.00. In the one you pay for water and glass. V. S. C. is concentrated medicine without water. It is the medicine for all cases; 50c. and \$1 bottles. At druggists'. Mailed anywhere by The V. S. C. Med. Co., Chatham, Ont.

Minard's Liniment—Lumberman's Friend.

Pride fosters our foes and puts our friends to flight.

## LETTERS

### CONDITIONS IN THE WEST.

To the Editor of The Planet: Dear Sir,—Having received one of your papers of July 31st I have seen a statement which I would like to correct.

Mr. Henry Blonde, of Chatham, Ont., said that over 1,400 carpenters were lying around idle at the present time. I think Mr. Blonde was exaggerating it. I don't think Mr. Blonde saw 1,400 idle men in Edmonton all the time he was here, counting all kinds of tradesmen, and never more than 75 or 100 carpenters idle.

This is a very strong union city and there are only about 500 members in the union, and I think I could swear that there are not 900 non-union carpenters here.

At the time Mr. Blonde left for the east things were somewhat quiet on account of the money stringency, but I can say business is brightening up again. I have been here some eighteen months and have found plenty of work at carpentering, and can say I have only been out of work for a few days, and that was last season.

Yours truly, EDWIN KEYES.

Edmonton, Alta., Aug. 24th, 1907.

### STRIKER SUICIDES.

Grew Moody Because He Received No Strike Pay.

Pittsburg, Sept. 5.—Harry Iden of Long Island, N. Y., telegraph operator, died in the Allegheny General Hospital Tuesday night. Desperate, Iden twice tried to hang himself, then he took carbolic acid.

Although not a union man, Iden, who was 40 years old, quit work when the strike was declared. He said it would not last long and came home with his wife and two children. No money came to Iden from the strike benefit. He grew moody and behaved so strangely he was arrested. In his cell Iden tried to hang himself with his suspenders and again with his coat, and was then stripped.

The police let Mrs. Iden take her husband home. He escaped from her and was found five miles from the home, fatally poisoned.

The man who sticks to the truth seldom talks about himself.

A child on his knees is mightier than the giant.

## THE SOLDIER'S FRIEND

KING UNVEILS STATUE TO THE DUKE OF CAMBRIDGE.

Brilliant Assembly Gather at Whitehall to Do Honor to Late Army Leader — German Officers Place Wreath From Kaiser—His Majesty Pays Warm Tribute to the Duke's sterling Qualities.

The King recently unveiled in Whitehall a worthy memorial to the late Duke of Cambridge. The weather was, unfortunately, most inclement, and robbed the ceremony of much of the brilliancy with which, in more favorable circumstances, it would have been invested. But the spirit of those who attended the unveiling to pay their tribute to the memory of a very notable man, rose above the depression which might have been created by the surroundings; and a fitting recognition was made of the high qualities and unswerving character of the Royal Commander-in-Chief. England has been very fortunate in enlisting the services of members of the various branches of the royal family, and "the Duke," as by custom he came to be known, set an excellent example to the nation.

LATE DUKE OF CAMBRIDGE. His bluff, downright demeanor, the unselfish simplicity of his temperament, his tenacious devotion to duty, and his unswerving adherence to the principles he cherished won for him the unstinted regard of all Englishmen.

Brilliant Ceremony. All the members of the royal family drove up in closed carriages and, with the exception of the Duke of Connaught, hurried into the shelter of the War Office as soon as they arrived. The Prince and Princess of Wales, the Princess Royal and the Duke of Fife, the Duchess of Connaught and Princess Patricia, Prince and Princess Christian, Princess Louise and the Duke of Argyll, Princess Henry of Battenberg, the Duchess of Albany, the Duke and Duchess of Teck, Prince and Princess Alexander of Teck, and the Landgrave of Hesse were assembled, when the King and Queen, with Princess Victoria, drove up.

The Queen entered the building, but the King at once walked to the platform which had been erected in the center of the road to the west of the statue. He was accompanied by a brilliant company including all the princes and relatives of the royal house, the Prime Minister, Lord Roberts, Sir Evelyn Wood, Mr. Haldane, the Secretary for War, and former Secretaries for War, in the person of the Marquis of Lansdowne, Viscount Middleton, and Mr. Arnold Forster, and scores of military men of high rank. The German officers, headed by Field Marshal von Hahnke, stood out from the rest by reason of their helmets and light grey cloaks.

King's Warm Tributes. The Duke of Connaught, addressing His Majesty, asked him, in the name of the officers of the British army, past and present, who had subscribed to erect the statue, to unveil it.

His Majesty, in a clear voice, that could be heard right across the road, said: "I beg to thank you, as chairman of the committee charged with the erection of this memorial to my revered relative, the Duke of Cambridge, for asking me to unveil it."

It is enough to say that the appreciation in which he was held, not only by his friends and brother officers, but by the army generally, inspired the project to erect to his memory a suitable memorial. This has been done by the officers past and present of the army, by his personal friends, and by members of the city companies. The statue which I am about to unveil will be committed to the care of the Westminster City Council.

I can only say that those who pass it will be led to remember that the late duke was the soldiers' friend during a period of nearly half a century, when he held high rank in the army, and endeavored himself to all ranks. He had but one motto—that was to do his duty to his sovereign and his country.

I wish to add one word more before I unveil the memorial, and that is how deeply I appreciate the honor which the German Emperor has conferred upon me by sending the distinguished Field Marshal von Hahnke and a deputation from the Von Goeben Regiment to show their appreciation of the late Duke by taking part in to-day's ceremony.

The King then unveiled the statue.

## THE MARKETS.

Liverpool and Chicago Wheat Futures Close Higher—Live Stock—Latest Quotations.

Wednesday Evening, Sept. 4. Liverpool wheat futures closed 1 1/4 and corn 3/4 higher than yesterday. At Chicago, September wheat closed 1/4 higher than yesterday. September corn 1/4 and September oats 2/4 higher than yesterday.

Toronto Grain Markets. Wheat, spring, bush, 30 85 to 90. Wheat, fall, bush, 28 85 to 90. Wheat, red, bush, 28 85 to 90. Barley, bush, 20 85 to 90. Oats, new, bush, 14 85 to 90.

Toronto Dairy Market. Butter, creamery, boxes, 22 85 to 23. Butter, dairy, lb. rolls, 22 85 to 23. Cheese, large, lb. 12 85 to 13. Cheese, small, lb. 12 85 to 13. Eggs, new-laid, dozen, 17 85 to 18. Hams, short cut, 50c.

Liverpool Grain and Produce. LIVERPOOL, Sept. 4.—Wheat—Spot nominal. Futures, firm; Sept. 75 1/2, Dec. 76 1/2, March 77 1/2. Corn—Spot firm; American mixed, new, 1 1/4. Futures steady; Sept. 5 1/4, Dec. 5 1/4, March 5 1/4.

New York Dairy Market. NEW YORK, Sept. 4.—Butter—Firm, unchanged; receipts, 14,120. Cheese—Firm, unchanged; receipts, 11,663. Eggs—Firm, unchanged; receipts, 17,586.

CATTLE MARKETS. Cables Steady—Hogs Slightly Easier at U. S. Points.

LONDON, Sept. 4.—London cables are firmer at 134c to 134 1/2c per lb. dressed weight; refrigerator beef is quoted at 130c per lb.

Montreal Live Stock. MONTREAL, Sept. 4.—(Special).—About 60 head of butchers' cattle, 40 milch cows, 150 calves, and about 250 fat hogs were offered for sale at the east end abattoir to-day. There were no really good cattle on the market and there was a slow demand for common or inferior stock, for which very low prices were paid. A few choice cattle sold at from 2 1/2 to 4c per lb. and the common stock 20c to 3c per lb. Milch cows sold at from 25c to 30c each. Most of the calves were grassers, which sold at from 2 1/2 to 3c per lb.; good veals sold at 4c to 5c per lb. Sheep sold at about 4 1/2c per lb. and the lambs at about 5c per lb. Good lots of fat hogs sold at 2 1/2 to 3c.

East Buffalo Cattle Market. EAST BUFFALO, Sept. 4.—Cattle—Receipts, 150 head; light demand and steady; prime steers, 12 1/2 to 13 1/2. Veals—Receipts, 100 head; active and steady; 10c to 12c. Sheep—Receipts, 300 head; fairly active; 10c to 12c. Lambs—Receipts, 200 head; active and steady; 10c to 12c. Hogs—Receipts, 200 head; active and steady; 10c to 12c.

New York Live Stock. NEW YORK, Sept. 4.—Beef—Receipts, 400; prime and choice steers strong; others steady; closing slow on medium grades; bulls firm; cows to the lower; steers, 14 1/2 to 15 1/2; tops, 16 1/2; stags and oxen, 13 1/2 to 14 1/2; bulls, 12 1/2 to 14 1/2; cows, 11 1/2 to 13 1/2; calves, 10 1/2 to 12 1/2. Sheep—Receipts, 200 head; good to choice; 10c to 12c. Lambs—Receipts, 200 head; good to choice; 10c to 12c. Hogs—Receipts, 200 head; good to choice; 10c to 12c.

Chicago Live Stock. CHICAGO, Sept. 4.—Cattle—Receipts, 24,000; market, weak to 10c to the lower; common to prime steers, 12 1/2 to 13 1/2; cows, 11 1/2 to 13 1/2; calves, 10 1/2 to 12 1/2. Sheep—Receipts, 23,000; market weak to 10c to the lower; choice heavy shipping, 12 1/2 to 13 1/2; light butchers, 12 1/2 to 13 1/2; packing, 12 1/2 to 13 1/2; bulk of sales, 12 1/2 to 13 1/2. Hogs—Receipts, 25,000; market, steady to strong; sheep, 12 1/2 to 13 1/2; yearlings, 12 1/2 to 13 1/2; lambs, 12 1/2 to 13 1/2.

LOST BARN AND CROP. John Marlen of Kimberley Heavy Loser by Lightning.

Kimberley, Ont., Sept. 5.—John Marlen, who lives about four miles east of this village on the east mountain, lost all his farm buildings by fire yesterday. During the thunderstorm his barns were struck by lightning. He and his son were in the barn at the time and both were rendered unconscious, but the son soon recovered. The father, however, was still unconscious late in the evening. The horses were saved, but a number of hogs were burned to death. All the season's crop was lost, together with most of the implements. The loss is about \$1,500, with no insurance. This is Marlen's second fire, and much sympathy is felt for him.

Revenue Bounding. Toronto, Sept. 5.—The receipts of the Provincial Secretary's Department for the eight months ending Aug. 31 were \$210,501.23, an increase of nearly \$90,000 over the corresponding period of last year, when the receipts totalled \$123,280.91. For August alone the amount taken for licenses, charters, etc., was \$12,034.15, and for the same month last year the figure was \$10,831.45.

While the receipts showed a satisfactory increase, there has been a falling off in the past few weeks in the number of new companies incorporated.

Will Divorce to Please Husband. New York, Sept. 5.—On board the steamer Ryndam yesterday Mrs. Ferdinand P. Earle of Monroe, N. Y., sailed for her native home in France to obtain a divorce. In order that her husband, an artist and Socialist, may marry another woman whom he declares, he has found to be his ideal.

## SUMMER COMPLAINT.

One of the Commonest and Most Dangerous of Diseases.

Everyone Should be Prepared for it with a Bottle of Dr. Fowler's Extract of Wild Strawberry.

Very few people escape an attack of Summer Complaint. It may be slight, or it may be severe, but nearly everyone is liable to it.

You cannot tell, when it seizes on you, how it may end.

Let it go for a day or two only, and see how weak and prostrated it will leave you.

There is only one safe way to cure it and that is by Dr. Fowler's Extract of Wild Strawberry. It has been on the market for sixty-two years and has been proved and tried so you are not experimenting when you buy it.

Do not accept a substitute or imitation, as many of these are positively dangerous to life and health. Insist on having Dr. Fowler's.

Mrs. Norman H. Egan, Ship Harbor, N.S., writes: "Last summer my baby was very bad with Summer Complaint. I tried most everything for him, but nothing seemed to help. One day a neighbor called in and told me to try Dr. Fowler's Extract of Wild Strawberry, so I got a bottle and after a few doses my baby was cured. I shall always keep it in the house."

Appointed to High Post. The Executive Council of the I.O.F. has appointed Mr. Wm. H. Hunter to the law firm of Hunter & Hunter to the post of Supreme Counsellor of the Foresters.

Mr. Hunter is a son of Mr. J. Howard Hunter, K. C., inspector of insurance, registrar of friendly societies and loan corporations. For years he has been associated with the order and was solicitor for the organization appearing for it at the Insurance Commission.

At the winding up proceedings in connection with the Atlas Loan Co. of St. Thomas, Mr. Hunter represented the liquidators, the National Trust Co.

His duties will now consist of revising the decision of the Supreme Council and Executive Council. The vacancy was created by the appointment of Mr. Elliott G. Stevenson to the office of Chief Ranger at the death of Dr. Cronin.

The following gentlemen compose the Executive Council: Messrs. El. Mott G. Stevenson, Supreme Chief Ranger; Victor Morin, Montreal, Past Supreme Chief Ranger; J. D. Clark, Dayton, Ohio, Supreme Vice-Chief Ranger; R. Matheson, Supreme Secretary; H. A. Collins, Supreme Treasurer; Dr. Millman, Supreme Physician; and W. H. Hunter, Supreme Counsellor.

The girl who always ponders twice Ere she speaks, and by gum, Is either very nice Or else she's deaf and dumb!

Of Interest To Women.

To such women as are not seriously out of health but who have exciting tastes to perform, either in the way of household cares or in social duties and functions, which seriously tax their strength, as well as to nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nerve. By its timely use, much serious sickness and suffering may be avoided. The operating table and the surgeon's knife would be of little value to a woman's remedy were it not for this good time. "The Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Best in mind, please that Dr. Pierce's Favorite Prescription is not a second or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a medicine of known composition, a full list of all its ingredients being printed in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol, in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine that cures the woman's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unimpeachable endorsement of the best medical writers and teachers of all the several schools of medicine, and that too as a remedy for the ailments for which "The Favorite Prescription" is famous.

A little book of these endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal note or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take as candy.

Valuable Painting Damaged. Paris, Aug. 31.—It was discovered Thursday that another valuable picture in the Louvre Galleries, a landscape by Berghem, has been maliciously damaged. The vandalism is believed to be the work of mischievous children.

In Prospect. "Have you lived here all your life, friend?" "Not yet, but if I don't get money enough to move I reckon I'll have to."

The Good of Laughter. 4 Man's capacity for seeing his own existence in a humorous light, the various springs of his laugh and everything implied therein—few subjects are more philosophically suggestive than this, yet few have been so entirely ignored by speculative thought. After all may it not be that in a deep sense laughter rather than goodness is the true antidote for evil?

## A FIERCE BATTLE

6000 Moors Take Part in A Hook on The French

Ground Station with Codpses—Lastest Seven Hours.

Casablanca, Sept. 5.—Eight Frenchmen were killed and 17 were wounded in an engagement Tuesday outside the camp. The fighting was started by an attack made by the Moors on a French scouting party. About 6,000 Moors participated.

The Moors, who were repulsed on all sides, made a most impressive appearance as, parbed fantastically, mounted on white horses and carrying their banners in the front line, they swept down from the hills in splendid formation and charged thunderously to within about 400 yards of the French camp, which for a moment seemed to be in danger of being overthrown.

As they advanced, the Moors chanted in unison verses from the Koran Book. The irregular Algerian cavalry encountered the first shock of the Moors, but they did not budge a foot from the position they occupied.

Gen. Druce quickly deployed his forces to the greatest advantage, and the Moors were submitted to a fire of shot and shell which soon left the ground strewn with corpses.

Major Prevost was slain while returning to camp after the engagement, which opened at 5 a. m. and lasted seven hours.

It is estimated that in the engagement about 800 Moors were killed. Major Prevost conducted a scouting expedition, which was the actual cause of the battle, the object being to locate the enemy and prepare the way for an extensive offensive movement later.

The major advanced about eight miles in a southerly direction, meeting only with scattered bands of Moors, which were easily dispersed. He then issued orders to return, and it was when nearing the camp that his force was assailed by hordes of Moors. Prevost formed his men in hollow squares, with the irregular Algerian cavalry in front.

Gen. Druce quickly reinforced Prevost and the engagement immediately developed into a desperate conflict, from which the Moors retreated only after their ranks had been decimated by a shell fire.

Second Engagement. Paris, Sept. 5.—A despatch was received during the day from Vice-Admiral Philibert at Casablanca, reporting that a new engagement occurred Tuesday, Sept. 3, about seven miles south of Casablanca. The French cruiser Gloire participated in the fighting, firing 150 shells at the Moors, who were dispersed and fled to the hills. This engagement followed a forward movement on the part of the French forces.

The fierce assaults of the enemy are believed to be due to France's failure to annihilate the Moors during the early stages of the expedition, a result which France was unable to accomplish on account of the restrictions imposed on her by the Algerian convention.

M. Reagnut, the French Minister at Tangier, left Paris yesterday for Spain, where he will confer with the Spanish officials on the subject of the enlargement of the action and co-operation of Spain and France.

FIVE MEN SENT FOR TRIAL. Wiarion Raiders Must Appear at Next Assizes.

Wiarion, Sept. 5.—Yesterday afternoon the Thomas "raiding" case was opened before Police Magistrate Miller, with P. G. Tucker of Owen Sound and Mr. Munro of Palmerston for the defence. Provincial Detective Reburn and counsel fought his own case. The evidence was practically the same as that given before.

The majority of raiders, it appears, got there too late and escaped prosecution. The men who have got to appear before the county judge on the 15th inst. are: William, Walter, John and Robert Lancaster and R. Hastings.

Mayor McEwen wanted to join Magistrate Miller on the bench, but Mr. Reburn objected and went out on his point that he was going to use the mayor as a witness, and he could not sit.

The five men will appear before Judge Mulock in Walkerton at the assizes on the 15th inst.

Great credit is due to Mr. Reburn for the way he has handled the case, and the outcome is satisfactory to all our people. There has been no prosecution, but simply presentation in the interests of law and justice.

SECOND JOHANN HOOK. Burglar Killed in New York Credited With Two Murders.

New York, Sept. 5.—A second Johann Hook, the police believe, has been discovered in Henry Hoffman, the burglar who was killed while attempting to rob Charles Verrill's flat last Friday. The police declare that they have evidence to show that Hoffman was the murderer of Sophy Heckler, a servant girl found dead Aug. 23, and Mrs. Rena Schum, who was killed in Brooklyn Aug. 20. It is possible, they declare, that Hoffman was also guilty of other mysterious murders which occurred recently.

Hoffman's method, like that of Hook, the police say, was to make the acquaintance of women of his own nationality, by pretending to desire to marry them, secure the opportunity of robbing, and if necessary, killing them.

Hoffman entered the Verrill flat early last Friday morning and attempted to kill the family by firing on the gas. Verrill shot him to death.

Ask for Minard's and take no other

## WOMEN TALK TO WOMEN About Pe-ru-na.

MRS. MCCOUGH. MRS. MOORE. MRS. NELSON.

Headache and Backache. Headache and Backache. Headache and Backache.

Mrs. McCough, 219 W. 58th street, New York, N. Y., writes: "I gladly add my mite of praise to Peruna for what it has done for me. Two years ago a depressed feeling took hold of me. My back and sides ached continually. My stomach got out of order so that at times I could not hold a glass of cold water. I didn't like to eat, afraid that my stomach would get sick. I have been using Peruna for the three past months and now I feel as well as I ever did. My stomach is as strong as ever and my nervous troubles have disappeared. I keep recommending Peruna to my friends who are troubled as I was, and I have been thanked for doing so."

The above testimonials represent actual experience of every-day life. They are the truthful utterances of women who have been ill and have found a reliable remedy in Peruna.

It means a great deal to the women of America who have at hand a remedy capable of performing such cures. Nervousness, backache, dyspepsia, headache, melancholy, bearing down pains. All these and a host of other symptoms are relieved by Peruna. At least this is what the women say. They have no object in saying such things, except to render truthful testimony to their suffering sisters.

The reader will note by reading these testimonials that in most cases other remedies were tried, doctors were consulted, and finally Peruna came to their rescue and made them well again. Peruna is making such cures every day. It is the testimony of the people that has made Peruna so justly famous.

Suffered Thirteen Years. Headache and Deafness. A Severe Cold.

Mrs. Anna Menden, Hollygrove, Ark., writes: "I suffered with female troubles for thirteen years. I saw an advertisement of your Peruna and bought one bottle and before I had taken it all I could get out of bed and walk about. After taking three bottles I was as well and hearty as ever and gained in flesh. I would not be without it."

Mrs. Mary E. Sampson, Londonderry, N. H., writes: "I had terrible headaches, both ears run and I was nervous all the time, was deaf in one ear for thirty years. I took six bottles of Peruna and one of Mergal, and am happy to say that it is the best medicine that I ever heard of. I am not so nervous, my appetite is good, everything I eat agrees with me, and I am feeling better in every way."

Mrs. Marie Calvin, 927 Main street, Cincinnati, Ohio, writes: "I caught a cold coming home from an evening party and as I did not pay particular attention to it, I quickly became worse and found myself in a serious condition. I took Peruna and it brought me immediate relief. Within a week I was cured and now whenever I feel badly Peruna will set things right."

Any of Chatham, were the guests of Mrs. Charleston over Sunday.

Miss Houston and Miss Garlickson, of Oury, were the guests of Mrs. Kendall last week. Mr. and Mrs. Edmunds, of Tilbury, were the guests of Mr. and Mrs. Verrill on Sunday.

Misses Edith and Flora Peck, of Detroit, spent Labor Day with their parents here. Miss Clara Smith returned to Hamilton on Tuesday.

A number of our villagers spent Labor Day at the lake. The Methodist Church was very beautifully decorated for the special services which were held on Sunday last for the S. S. scholars. The choir was composed of the children, who sang two very appropriate anthems.

WHAT HE WENT. He—Marriage is a pottery. She—You mean a lottery, don't you? He—Oh, no, I mean a pottery—a place to make family jars.

Man Accused of Fraud Ordered to Quit the Country. Niagara Falls, Ont., Sept. 5.—Jacques Erlanger, arrested while attempting to procure possession of nearly 1,000 letters addressed to the Rogers Silverware Manufacturing Co. and alleged to contain money obtained by fraudulent schemes, was up yesterday.

The authorities, not having sufficient evidence to convict, withdrew the charge, but ordered the prisoner out of the country. The authorities have confiscated all mail addressed to the firm, and instructed the postmaster to open the letters and return them, with contents to the senders, branding the letters "fraud."

Wolves Attack Boy. Winnipeg, Sept. 5.—Walter Brewer, a lad of nine years, met with a painful injury at River Park by having one of his arms nearly torn to shreds by the wolves that are in the menagerie there.

The little fellow was feeding one of the animals some grass through the wires, and in taking the grass the wolf took the little fellow's thumb into his mouth with it. This gave the beast a taste of blood, and made it savage for more, and three or four more wolves in the enclosure attacked the boy's arm.

Drowns In Foot of Water. Galt, Sept. 5.—Yesterday, Charles Wylie, 22 years of age, was drowned in about a foot of water. He was employed at the R. M. Dougall works and went home as usual for his dinner. On returning to work he stopped at Mill Creek and went in for a swim. He was a good swimmer, but was subject to epileptic fits, and when coming out of the water was seized and fell face downwards. Two boys noticed the body. Dr. Vardon pronounced life extinct.

Minard's Liniment cures Colds, etc

## DISTRICT

DRESDEN. Dresden, August 29.—Mrs. J. McE. Murray has invited a number of little children to a picnic in Jeff's woods on Friday afternoon.

Mrs. John McEwen and children returned from Lake Onon on Thursday. Mrs. Pat Burns, of Lyons, N. Y., is visiting her aunt, Mrs. Thomas Ennett, concession 3, Dawn.

Mrs. J. Forsythe returned on Thursday from a two months visit with friends in Hamilton. Miss Grace Laird, has issued invitations to an afternoon tea on Saturday afternoon.

The bowlers visited the Thamesville and Bothwell rinks on Thursday. A number of ladies were bowling on Wednesday afternoon, and enjoyed it so well that they intend to keep it up.

JEANNETTE'S CREEK. Mr. and Mrs. Bert Howe and Miss

For all kinds of Baking

—for Bread, Biscuits and Pan Cakes—for Pies, Cakes and Fancy Pastry—no flour, milled of a single kind of wheat, compares with a BLENDED FLOUR.

It bakes whiter and lighter—it contains more nutriment—and it yields MORE bread etc. to the barrel.

"Made in Ontario"

Use A Blended Flour

(of Ontario and Manitoba Wheat)

and you use the perfect flour.

BLENDED FLOUR combines the splendid food properties of Manitoba wheat—with the lightness and nutty flavor of Ontario wheat.

TRY A BLENDED FLOUR—the result of your first baking will PROVE its superiority.

This trademark is on all fine BLENDED FLOURS. It is the sign of quality.

Look for it on every bag and barrel you buy.

Look for it on every bag and barrel you buy.

## THE EYES OF SCHOOL CHILDREN

Should be examined by a competent optician at least once a year. The so-called dull boy is often a smart boy with weak eyes as a handicap.

Our Optical Department is open at any time for the FRER examination of the eyes of any child who brings a written request from a parent or guardian that the eyes should be examined.

## TO COMPLETE THE BRIDGE ENGINEER TELLS STORY

Government Determined to Hold the Company Responsible

The Quebec Disaster Was Not Caused By a Crack

Quebec, Sept. 6.—The coroner's inquest into the bridge disaster was yesterday adjourned until the Government's commissioners complete their investigations.

Alexander Oulmet, who testified that there was a crack of three-quarters of an inch broad and 20 inches long in the abut of the main pier, was called to complete his evidence. He testified that the plate in question was six feet long and three-quarters of an inch in thickness, the crack was the full depth of the plate and 20 inches in length. There were bolts and rivets in the plate.

He had first noticed the defect in May last, and in July, but did not inform the inspectors or engineers of the bridge. Alfred Emond and Zephirin La France, to whom he had shown the defect, were both victims of the accident.

Raoul La France, the next witness, corroborated the evidence of the previous witness; the crack went right through the plate.

Mr. Oulmet, C. E., was recalled, and asked if he had noticed the crack referred to. He said that he had not, also that he had inspected the plate on different occasions. In reply to the coroner, he said the crack in question or any piece would naturally weaken the structure. He said on May 23, July 24 and Aug. 23 of this year, he inspected the plate in question. The crack would not cause the wreck of the bridge. He had a record that the plate was bent, but it was not a fault, being crimped when it left the shops, and an enforcement place used.

It was possible for an inexperienced eye to take the crimp in the plate for a crack. It was intended for a wind bracer. He would not have considered a crack of sufficient importance to have reported it to the chief engineer.

Mr. Kinlock, inspector for the Quebec Bridge Co., said he had made his last inspection 15 minutes before it went down. The plate in question was crimped, but not cracked. He had seen No. 9 chord since the accident, and it was bent almost in the shape of an S. The chord must have been struck at both ends. He knew of the defect, having discovered it at 9 o'clock Tuesday morning, Aug. 27, and considered it a serious matter. The end damaged was subsequently repaired, and the report conveyed the impression that it was perfectly safe.

## Must Complete Bridge.

Montreal, Sept. 6.—On Tuesday last Sir Wilfrid Laurier paid a visit of inspection to the ruins of the Quebec bridge.

The Premier expressed his profound grief to those about him, and, later, to relatives of workmen who lost their lives.

Sir Wilfrid had no formal interviews with officials of the Phoenix Bridge Co., but made a number of enquiries into the immediate circumstances connected with the collapse.

Although no official announcement has yet been made, it is stated on the highest authority that the Dominion Government has decided to take a very firm and definite stand in the question of responsibility.

It is now appears to be certain, the result of the official enquiry proves that the piers were in no way responsible for the collapse, the Dominion Government will hold the Phoenix Co. in all details strictly to the actual text of the contract.

That is to say, the company will be held directly responsible for the disaster, will be required to rebuild the bridge as if no accident had occurred, and in addition the Federal Government will require the company to meet all requirements of such penalties as may be provided in the contract for non-completion by date specified.

Sir Wilfrid is determined that the bridge shall be completed, and with this end in view the Government will, if necessary, take the most drastic steps to enforce the completion of the contract.

Four More Suits.  
Montreal, Sept. 6.—Four actions for damages, aggregating \$25,000, were entered in the Montreal court yesterday against the contractors of the Quebec Bridge Co. by the relatives of four Indians who were killed.

Diver's Awful Sight.  
Quebec, Sept. 6.—A diver who went down beside the bridge wreck tells a gruesome tale of what he saw.

He says that he could see several bodies pinned under the ironwork in the deep water in all sorts of positions, and some standing upright.

The diver declared that he would not go down again, as the sight was a terrible one.

It is not the sign of the cross, but the spirit of the cross that makes true religion.

SMITH & SMITH, REAL ESTATE AGENTS

He Was Not Trying to Make up Lost Time

It Was His Third Trip Out With a Passenger Train

Toronto, Sept. 6.—Samuel Mossop, for 25 years employed on a bridge and track repair gang about the fatal Caledon "horseshoe curve," and who saw the ill-fated train leave the track at the time of the accident, Tuesday, swore last night, before Coroner Johnson, that the train was going 35 miles an hour when it left the rails. He jumped the fence enclosing the right-of-way, fearing that the train would leave the rails. He had seen many trains round this curve before, but had never entertained this fear.

The train left the rails before it reached him.

George Hodge, the 23-year-old engineer, who ran a passenger train for the third time in his life when he took out the passenger special, declared that the speed of the train at the point of leaving the rails was between fifteen and twenty miles, and that the brakes were on.

He swore, however, that he had advanced a considerable distance along the curve and down the grade before he applied the brakes, but that he had shut off steam and advanced under the gained speed at the slow-board sign before the grade. He said that he was not over-worked, and had had plenty of sleep, although he had not been off duty the night before.

It is likely that the investigation opened here will be the only one at which evidence will be heard.

Crown Attorney W. H. MacFadden of Brampton, who is conducting the enquiry for the crown here by order of the Attorney-General, and who is acting at the Caledon inquest, said last night:

"The other inquest will likely be abandoned. It would be foolish to hear the witnesses twice, and they will all be heard here."

The first witness heard was Geo. A. Walker, of the C. P. R. solicitor's department, who stated that he had the will of Richard Bell while on the train coming to Toronto.

Train Despatcher's Evidence.  
W. H. Allison, the train despatcher of the railway at Toronto, was an important witness. He was on duty at the time of the wreck, and said that the wrecked train was a special with a special schedule. The train started from Markdale, and was to stop for passengers between that point and Orangeville. He was not on duty when the train started, but it left at 7:30, an hour and 20 minutes late. It arrived at Caledon Station at 9:30, and left at 9:21 o'clock. The train had four coaches behind engine 555, leaving Markdale. These were all passenger coaches.

His first word of the accident was from the agent at Cardwell Junction, who wired at 10 o'clock that the train had been ditched at Caledon Mountain. He could not fix the exact time of the wreck definitely. It went the 45 miles between Markdale and Orangeville in an hour and 20 minutes without about five minutes off for stops. The regular took one hour and 35 minutes to run 37 miles, taking as much time for stops. The despatcher more time in stops.

On the schedule the train was given two hours between Orangeville and Toronto, while the regular steamboat express makes the run in an hour and 20 minutes.

John Fairbairn, C. P. R. division engineer, identified a blue print of the curve. The maximum grade was 1.8, and at the scene was 1.6. The curve is the sharpest under his jurisdiction. He examined the track after the accident, and found it in good shape. He would only account for the accident by excessive speeding.

Engineer's Story.  
George Hodge, the engineer on the ill-fated train, was next called. Mr. Robinette, his counsel, objected to the witness giving evidence. He also asked that Coroner Johnson should give him protection against criminal prosecution. It was ruled by Coroner Johnson that the witness must answer all questions, but his answer to any question likely to criminate him to which he objected would not be used against him.

The witness went on to tell of his trip, beginning at the start from Markdale. He shut off steam about 250 yards before the slow board at grade. On the first curve he applied the brake, and felt it take hold about a quarter of a mile before the engine left the rails with seven pounds pressure on the air brakes.

He judged that the speed was sufficient to ensure safety. He was about to release the brake, having reached the toe of the horseshoe, but did not do so. He felt the engine jolt.

He thought that the engine was running 15 to 20 miles an hour on the curve.

He repeated his testimony as to precaution at this point. He was not trying to make up time, having left Caledon only one minute behind the time of his orders. These orders were filed by Mr. Robinette.

His conductor, he said, in answer to Mr. MacFadden, had not remonstrated with him as to the speed he was making on the fatal trip. The slowboard is the only order special for the horseshoe. This means "slow down," but the degree of speed is left to the engineer. It is the most dangerous curve on the road, and the grade makes it more so. Anything less than 25 miles an hour, the witness thought, would be a safe speed on the curve.

The witness did not know what caused the jolt which released the brake curve. He had been in a wreck before. When the jolt came the engine had not left the rail. He applied the emergency brake, because he felt the engine leaving the tracks. When he went back to the engine the throttle

was slightly open, but the witness could not possibly have done this. The brake was on, but not quite to the emergency position.

The witness could not say what was the cause of the accident.

In answer to a jurymen the witness said that 20 miles an hour would be his maximum speed between Caledon and the scene of accident.

The inquest adjourned to meet again Wednesday of next week.

Funerals of Victims.  
The funerals of several victims of the wreck took place yesterday, amid scenes of general mourning. At Flesherton, the arrival of the body of Robert Carr was delayed owing to the remains of James Buller of Priceville having been placed in the wrong casket. It was not until the body of Robert Carr had reached Flesherton that the mistake was made known to the railway authorities, and no time was lost in returning the body to Shelburne.

It is said that there is not a house between Markdale and Caledon but what has felt the effect directly or indirectly of the disaster. At every station between the two places a crowd of people awaited the arrival of some of those whom they had not seen since Tuesday, and there were many pathetic welcoming scenes.

William Whitehead of Shelburne is said to be in a serious condition.

A farmer who lives not far from the scene of the wreck stated that no less than four wrecks have occurred below this place in the past six months, nine of them serious. In one case, where several freight cars were derailed, the auxiliary itself left the track while hurrying to the scene.

Charles Bellamy, who is in the Western Hospital, says that for some time he was pinned down on top of the bodies of three of the killed.

MURDERED IN COLORADO.  
Charles R. Gorton Shot on Road by Unknown Man.

Toronto, Sept. 6.—C. M. Gorton, president of the Grimsby Park Co., has received word from Colorado of the murder of his nephew, Charles R. Gorton, a young man recently married, and who had just graduated from the State Agricultural College.

Mr. Gorton was about to purchase a farm to work scientifically and was, in company with his wife, looking over a piece of land. He got out of the buggy to fix the top, when an unknown man appeared and shot him. Mrs. Gorton got her husband into a rig and took him to a farm house. He died next day.

A large reward has been offered for the capture of the murderer.

ARE YOU COURTING TROUBLE.  
Do not neglect your kidneys and thus court the return of your old friend Rheumatism for the winter. Start at once taking "Bu-Ju" and by winter your kidneys and system will be fortified against Rheumatism or any other kidney trouble. 50 pills, 50c; a box, at Turner's Drug Store, 28, King Street.

## TO UNITE SOUTH AFRICA

FORECAST OF NEW BRITISH  
COMMONWEALTH.

Colonies to Be Federated—Lord Selborne Issues Important News—To Establish One Parliament—Consolidate the Railways—Delagoa Bay Reaps Inordinate Advantages—Constitution of Present Legislature

A scheme of the greatest importance is on foot for the federation of the South African Colonies. A memorandum, edited by Lord Selborne, and issued with his authority, points out the necessity of establishing one Parliament to represent the whole of South Africa, and protect British ports and interests, especially in view of the position of Delagoa Bay, which, under the Portuguese, is reaping inordinate railway and other advantages. The memorandum asserts that the state of affairs is such that the political position of the country as a whole must within the present year be advantageously discussed between all the British South African Governments. The memorandum conveys the impression that union is necessitated by the position of Delagoa Bay, which is reaping inordinate railway and other advantages, and the idea is that a consolidation of the railway and other British interests terminating in this state of things, though with scrupulous fairness to our ally Portugal, becomes increasingly pressing. General Botha and his Government point out that the memorandum was drawn up before they took office. While cordially approving of federation, they dissent from what is said in the document regarding Delagoa Bay, declaring that their attitude towards the Portuguese will always be sincerely friendly. Lord Selborne strongly deprecates regarding federation. The Colonies, it is pointed out, possess full self-government, but South Africa as a whole does not possess it, because there are constant inter-colonial divergences which necessitate the intervention of the High Commissioner, who is controlled by the Imperial Government. Consequently, in extreme cases, the ultimate authority in the strictly internal affairs of South Africa is the Imperial Parliament. South Africa, the memorandum adds, can only be wisely and successfully governed by a Government responsible to a Parliament representing the whole of South Africa. The four self-governing Colonies of South Africa, now that Orange has been granted a constitution, are the Cape of Good Hope, Natal, the Transvaal, and the Orange River Colony. The present constitution of the Cape Colony dates from 1872. The Parliament consists of a Legislative Council of twenty-six members, elected for seven years, and a House of Assembly of 107 members elected for five years. Natal attained responsible Government in 1893. It has a Legislative Council of thirteen members, who hold their seats for ten years, and a Legislative Assembly of forty-three members, elected for four years. The Transvaal, under its new constitution granted last year, has a Legislative Council of fifteen members, and a Legislative Assembly of sixty-nine members. The letters patent, recently issued, providing for the establishment of responsible Government in the Orange River Colony, vest the Legislative power in a Legislative Council of eleven members and a Legislative Assembly of thirty-eight.

A BUSY MONARCH.

King Edward Lives Strenuous Life—Has No Idle Moments.

The program of activities which King Edward is undergoing this summer marks him as one of the busiest and most hard-working monarchs of his time. The German Emperor, who has a popular reputation for activity, and President Roosevelt's name is linked with "the strenuous life," but when it is considered how much older the King of England is than his contemporaries, the comparison is not without its interest. The King's visit to Ireland was one of the last chapters in the King's work before an August vacation at Marienbad concludes a strenuous summer.

Last week the King went to Newmarket for racing, and after that to the Goodwood races and to the Cowes regatta before his departure for Marienbad.

While abroad the King will meet the Emperor of Austria. In September the German Emperor will visit King Edward while the court is in residence at Windsor. This will mean much entertaining, reviewing of troops and formalities, but the recent announcements have failed to excite any enthusiasm in this country. There was much sighing in society during the years of Queen Victoria's widowhood for the splendors of court life. King Edward is giving the court and the country a memorable social reign, apart from his activities as a diplomat.

Persistence of Men.

Holborn, Burgess and Wolfe have all decided to try the swim from Dover to Calais this season. Holborn, it will be remembered, failed last year by half a mile after a swim of 22 1/2 hours; Burgess was compelled to abandon the attempt when three miles from shore, owing to cramp; while Wolfe was crippled by muscular injury about four miles from shore. Other competitors will be Ted Heaton, the superintendent of Liverpool corporation baths; Horace Mees, the Isle of Wight long distance swimmer, and Cattaneo, the Italian champion.

A new feature this season will be a team race from England to France, arrangements for which have been made by "L'Auto." In August a similar race will be carried out under the auspices of the Channel Swimming Club.

Holborn is at present training at Waterbury, Burgess and Cattaneo on the Seine; Wolfe at Brighton, Mees at Sandown, and Heaton on the Lancashire coast.

## STRIKES THAT LASTED.

Battles Between Labor and Capital that Continued for Years.

The large number of strikes, especially among longshoremen, which have taken place in Canadian cities during the spring, may recall to many that the boycott by its teachers of the West Ham Educational Authority in England may very possibly prove the beginning of one of the most prolonged strikes of modern times. The National Union of Teachers has a membership of 60,000, and already it has pledged itself to support the strikers for five years at the least, paying them full salaries during the whole of that period.

The great Bethesda strike, which was recently brought back to memory by the death of Lord Penryhn, lasted just over three years, cost the district in wages alone \$284,000, and seems likely to have crippled the British slate industry for some time to come. This is, up till now, the longest labor war on record, but it looks like being exceeded, in point of time, by that which broke out two and a half years ago at the Hensworth Colliery, Yorkshire, and which is still unsettled, the pits meanwhile lying idle, and the men receiving regular wages for doing nothing—from the Yorkshire Miners' Union.

Two and a half years, by the by, is precisely the length of the duration of the engineers' strike which broke out in Sunderland in the spring of 1883, which left the men just where they were, while it cost the Union £200,000 in strike pay. It may well be, however, that all the above mentioned will be eclipsed by the great strike of agricultural laborers which began last month in the province of Ferrara, Italy. The men have been saving up for the strike for more than twenty years past, and as an indication of the spirit that animates the strikers, it may be mentioned that their womenfolk have sent away from the scene of conflict all their babies, seventeen hundred in number, to be cared for in artisan households in various parts of Upper Italy.

## HAS MANY PRIVILEGES

QUEEN ALEXANDRA MOST FAVORED OF BRITISH CONSORTS.

Number of Quaint Privileges May Be Exercised by Her—Is Considered Single—Only Lady of the Garter—Separate Household—Some Minor Perquisites—May Use Motor Car Without Any Number.

It is interesting to know that in certain circumstances Queen Alexandra is assumed to be a single woman. This is in case of legal proceedings. As everybody knows, the law takes a very different view of married women and a female sole—which means either spinster or widow in the old Norman-French law. As a single woman, Queen Alexandra can purchase and convey land, hold leases, and do many other useful things without His Majesty's concurrence. To aid her in her legal work, Her Majesty has the power of appointing her own Attorney-General and Solicitor-General, though this privilege has not been exercised during the present reign.

The Queen can be tried only by the House of Peers, as was Queen Caroline, of unhappy memory. But, unless expressly exempted by law, Her Majesty is not subject to the King as any other lady in his wide dominions. The reason of the immemorial law which made the Queen Consort of the reigning monarch a female sole in legal matters, is supposed to be the necessity that the sovereign should not be worried by domestic matters.

## A Favored Queen.

Queen Alexandra is more favored than any other consort who ever shared the British throne. She is the only lady member of the most exalted order of English chivalry—a daughter of "Lady of the Garter," being especially created for her. A new verse has been added to the National Anthem in her honor. She can ride by the side of her royal husband in the great coach of state, which no Queen Consort of England has ever done before. Her Majesty, like her beautiful Queen, Edward VII, has torn precedents to tatters. Indeed, the King was never a respecter of precedent, as he showed when he lighted a cigar in the sacred hall of the Middle Temple, where he attended the wedding of one of the Rothschilds—the first time a Jewish ceremony had been so honored—and when he resigned from a certain celebrated club which had presumed to blackball the late Mr. Cecil Rhodes.

## Her Own Household.

Her Majesty has, of course, her own household, quite separate from that of the King. The Duchess of Devonshire (Lord Colville of Culross), Vice-Chamberlain (Earl of Gosford), Treasurer (Earl de Grey), and Private Secretary (Hon. Sidney Greville), among the gentlemen. The ladies of the household include a Mistress of the Robes (the Duchess of Buccleuch), five Ladies of the Bedchamber, four Bedchamber women, and four Maids of Honor.

Though the ancient privilege of "queen-gold" is never claimed now, Queen Alexandra has some quaint prerogatives. For instance, if a whole is caught of the British coasts, the tail part of him belongs to the Queen, the King taking the head. The Archbishop of York is her chaplain in perpetuity. It is interesting to know that though the Queen is a subject of her husband, none of His Majesty's courts may fine her or cast her in damages.

## Numberless Automobiles.

In common with the King, the Queen enjoys the privilege of riding in a numberless motor-car. Not long ago an officious country policeman stopped the royal motor because it bore no number-plate. On learning whom he had held up, he was ready to faint with confusion, but the Queen reassured him and drove off smiling. It is high treason to plot against the Queen's life while His Majesty is alive, though it would cease to be so after the demise of the King. Should Queen Alexandra survive his present Majesty, an annuity of \$350,000 will be hers, on which to keep up the state and dignity proper to a queen-dowager.

In the very unlikely event of Her Majesty wishing to marry again, she would be perfectly at liberty to do so, provided that the bridegroom did not mind having all his property forfeited to the Crown. A special license from the reigning King is necessary to the re-marriage of a queen-dowager.

## Tyranny of Caste.

Notwithstanding the general trend of opinion and practice in favor of familiarizing the natives of India with the methods of modern civilization, the forces of reaction make themselves at times unpleasantly felt. An Urdu weekly published at Benares, says: "Salig Ram Singh, a Khatri student of the Central Hindu College, went to Japan in 1903 to learn glass blowing. He returned to Benares this year, but his narrow-minded brotherhood refuses to take him back into caste. Certain Brahmins offered to accept his 'prashrit' (repentance or penance), but people of his own caste have refused to fellowship him. Among the enemies of Salig Ram Singh there are some educated people, but their education must have taken a peculiar turn."

## How to Become a Billiard Player.

I recommend all players to train their touch and gauge of strength by practicing with only one ball, sending it up the table from ball until it can be made to stop with some certainty at the same place always. Then that place should be moved, so as to present a different test of touch and strength, and so on with constant variations.—R. W. Stevenson in O. B. Fry's London Magazine.

## CAUTION IN ENTERPRISES.

J. J. Hill Says Something As to Railway Development.

J. J. Hill of St. Paul, president of the Great Northern Railway, sailed last week on board his yacht for the Gulf, to enjoy salmon fishing off the Labrador coast.

"Every healthy man," said Mr. Hill, "should be an optimist. When a man has something wrong with his liver he sees the world awry."

At the same time Mr. Hill recommends caution in respect of business enterprises.

"We have been upon the crest of the wave now for about eight years; we may expect reaction," he said.

"We may look for shrinkage. There should be no rash undertakings. There may be three men looking for the job which only but one can have. I do not pretend to be a prophet, but this is to be expected."

"You do not seem to be slackening any effort, Mr. Hill, in respect of railway expansion?"

"Oh, we are still doing business and, indeed, there is more business than we can do at present. Of course, we are bothered by legislation which only cripples and never helps," was the reply.

"The action of the C.P.R. in setting up a connection between St. Paul and Spokane is considered to be rather a neat counter stroke," was suggested.

"Oh," said Mr. Hill, "that sort of thing is part of the game. There is room enough for all of us out west."

"You are still carrying out your ideas with respect to the invasion of our Northwest?"

"Invasion is nonsense. Our lines are reaching out to get a share of business which cannot be handled by your lines, which will not be handled for years to come, by any number of lines. I can make confident prediction as to the future of the western part of Canada. You can, and you will, have a population there of 30,000,000 in time. You have the finest and largest wheat belt in the world. There is business there for us all. We have only got to the fringe of things in the west."

"Your coming in will have the effect of diverting our trade to American channels?"

"Not necessarily."

"The C.P.R., however, does not intend evidently to allow you to have a walk-over?"

"My friend Shillshnessy is quite alert," was Mr. Hill's tribute.

## FETE DIEU IN MONTREAL.

Interesting Ceremony That Dates Back Many Centuries.

Very impressive and picturesque is the festival of Fete Dieu as it is held in Montreal on the first Sunday after Trinity Sunday in each year. The procession and ceremony in honor of the "Blessed Sacrament" by Roman Catholics dates back many centuries, but has been observed in Montreal since at least 1646. Familiar as the sight is to Montrealers, the streets are nevertheless thronged as the procession passes.

From Notre Dame the procession starts, to St. Patrick's Church grounds, where a beautiful repository was erected for the occasion. Varied and novel characters are the units which constitute the procession. Little girls are there clad in long white veils, signifying that they have attended their first communion. Little boys who have reached the same spiritual milestone wear ribbons and bows. Then come novices somberly garbed, followed by grey nuns, and monks clad in coarse brown serge ulsters and wearing sandals. Farther down the line are priests in elaborately embroidered robes of office. Ladies in ordinary attire are there too, ladies of fashion and social standing who march for the time being should to shoulder with women who earn their living by manual labor. Members of various church societies carrying banners and motes constitute a large part of the procession.

Final comes the baldach, a gorgeous canopy of cloth of gold, beneath which Bishop Racicot walked carrying the Host. Beside him was the Archbishop of Montreal clad in the elaborate vestments of his high office. Mount St. Louis Cadets marched beside the baldach, as a guard of honor. At the passing of the Host, all faithful Catholics on the line of march silently uncover and fall on their knees. Bringing up the rear of the procession were the members of the Montreal Bar, headed by Judges Thibault, Guerin, Curran and Lafontaine.

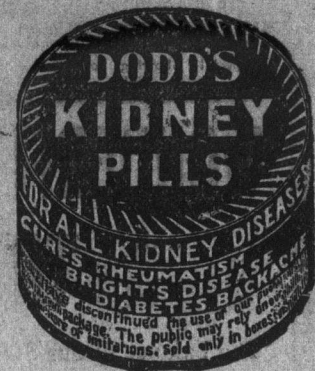

## Statue to Capt. Vancouver.

Canadians will learn with pleasure that a movement is on foot in Vancouver, headed by the Canadian Club of that city, to erect a monument or statue to the memory of Captain Vancouver, which shall be, in every way, worthy of the record of that illustrious and picturesque British naval officer. Though the Canadian Club now has the matter in hand, it is said that credit is due for the suggestion to Mr. L. D. Young, managing director of "The Vancouver World," who voiced the proposition more than a year ago.

Exploits such as those achieved by Captain Vancouver are always seen in better proportion with the lapse of time, and it is not surprising that Vancouverites have now a clearer idea of what Vancouver's discoveries have meant for the Empire in general and for British Columbia in particular.

The suggestion is made that the statue be unveiled on the twenty-fifth anniversary of the death of the city—April 6th, 1911—an excellent idea. Another very reasonable suggestion is that the Dominion Government might very well contribute to so patriotic an object, as they have done in other matters of the kind, notably towards the monument to be erected to the memory of Champlain in St. John, N.B.

It is movements such as this which mark the progress of the nation in its truest sense and help to strengthen the national sentiment, which should ever accompany material development.—Courier.

## DEMAND YANKEE MONEY.

Havana Masons' Strike Ties Up Building Operations.

Havana, Cuba, Sept. 4.—Four thousand buildings under construction or about to be constructed were abandoned Monday when the masons struck, demanding the payment of their wages in American money. The police are guarding the buildings, with orders to stop all meetings near them or interference by the strikers with masons willing to work.

The cigarmakers are supporting the masons and will contribute part of their wages to the strikers' fund.

This may be the beginning of a general move for American money, expected since the cigarmakers' strike.

## YOU PREVENT HAY FEVER, OR CURE IT.

In a prompt, pleasant and effective way, by inhaling the germ-killing, throat and lung healing Catarrhose. Delightful to use, simple in its operation, free from stomach-nauseating and destroying substances. It is a marvel of scientific efficiency. Catarrhose kills the germs that excite the disease, heals the inflamed surfaces and prevents absolutely a recurrence of the malady. Catarrhose cannot fail to cure Hay Fever, because it destroys its cause. Druggists, 25c., \$1.00 or mailed to your address if it is for price is forwarded to Polson & Co., Kingston, Ont.

Farmer Trampled to Death. Meaford, Sept. 4.—Joseph T. Taylor of Griesville, a much respected farmer, 46 years of age, was trampled to death by one of his horses while removing the harness after the day's work. It appears that the horse had got into the stable.

Boy Drowns. Dresden, Sept. 4.—Geo. Stevens, the 8-year-old son of Charles Stevens, was drowned last evening. He was out in a boat with a number of other boys, when the boat upset. The others being able to swim, escaped.

THE CAUSE OF HAY FEVER. It's a microbe that floats in the air, gets into the throat and lungs, develops rapidly, excites inflammation, etc. The cause is as simple as this, away goes the pain. Destroy the Hay Fever germ—you get well. That's why Catarrhose acts so marvelously in Hay Fever. Its fragrant vapor to you brings cure, but to the microbe death. Catarrhose is as quick to act on these microscopic organisms as lightning. Prevents as well as cures, and always successful. Druggists, 25c. and \$1.00, or Polson & Co., Kingston, Ont.

Fire Chief Kills Home-Wrecker. Dayton, Ohio, Sept. 5.—Fire Chief B. H. Miller of Franklin, Ohio, yesterday shot and instantly killed J. H. Little, who recently sloped with his wife and was returned to Franklin Tuesday night for trial. Miller is now insane.

Suicide at Falls. Niagara Falls, N. Y., Sept. 5.—Last evening an unknown man leaped from the centre of the upper steel arch bridge to the river, 122 feet below.

I will mail you free, to prove merit, examples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart or The Kidneys. Troubles of the Stomach, Heart or Kidneys are merely symptoms of a deeper ailment. Do not make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the Heart and Kidneys as well. Have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the inside nerves. Also for bloatedness, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me to-day for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by all Dealers.

A Lucky Escape. London, Sept. 5.—W. H. Butler, a foreman employed by the Pere Marquette, fell 40 feet from the bridge over the river at the south end of the city late yesterday afternoon, alighting on a cement pier and escaped without injury.

Fires got quick and certain relief from Dr. Shoop's Magic Ointment. Please note it is made alone for Piles, and its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use. Large nickel-capped glass jars 50 cents. Sold by All Dealers.

The sick man is generally ill-advised. Most of us have trouble to lend.

## MUST LOWER THE RATES.

Railway Commission Issues New Order to Canadian Roads.

The findings of the Railway Commission with respect to the discrimination in rates from United States points to Canadian points as against those from contiguous Canadian territory to the same destination has been announced, and as a result of the efforts and representations of the Canadian Manufacturers' Association a general readjustment of rates throughout eastern Canada has been brought about. An order has just been issued to the railways that tariffs covering the new basis of rates must be issued without unnecessary delay.

The new proposition means a general decrease in class freight rates in the territory east of the Detroit River and Sudbury to and including the Maritime Provinces; the same basis of rates from and between all large centres; the same rates in winter as in summer; overcome complaints as to the violation of the long and short haul clause of the Railway Act, except as authorized; the removal of the discrimination which now exists at the States manufacturing; the rates between all points to be based on short line mileage, and as nearly as practicable, uniformity in rates between various distributing centres in Ontario.

Railways may continue to apply from recognized water points, such as Toronto, Hamilton, St. Catharines, etc., a basis in competition with water during the summer slightly lower than the general basis adopted, but there is to be no increase from those prevailing at the present time.

As an illustration as to how the new basis will work out, the present first-class rate, Windsor to Montreal, is 70 cents in the winter and 60 cents in the summer. The new basis will be 68 cents all the year round.

Owner's risk conditions have been so amended and defined that the carrier are liable for loss through negligence on the part of themselves, their agents or employees.

There is to be no disturbance of any special commodity tariffs or commodity rates now in effect, where these rates are lower than the new class rates.

## ADVENTURE WITH MOOSE.

Trapper In Danger of Being Trampled to Death, Saved by Dogs.

Angus Le Sage, who has just returned from a trip over his trapping trail at the 24-mile post on the Gunflint road, Minnesota, tells of a thrilling adventure he had with a moose, in which he narrowly escaped being trampled to death, and was saved only by his dogs.

Le Sage, who has been trapping in that vicinity all winter, started recently to pick up his traps and close camp. On the trail in the vicinity of Clearwater Lake the two dogs which were accompanying him, a pointer, and which had been on ahead were barking furiously, and when their master caught up with them he found that they held a monster moose at bay. The big animal stood squarely in the trail, and was menacing the dogs with a look of deadly intent. He was out of thought of danger, attempted to take a hand in the fun, starting toward the animal, and inciting the dogs to renew the attack by clapping his hands.

As soon as the moose saw its human master he charged forward, and the trapper, in attempting to make a sharp turn, became entangled in his snowshoes, and fell heavily to the ground. The animal was almost upon him, and had its hoofs raised to beat his life out when the dogs, seeing their master's peril, started the moose fiercely from behind. This caused a diversion, and the upraised hoof of the animal descended on the prostrate man's leg instead of upon his head.

Meantime, a companion of Le Sage, who had been some distance in the rear, came up, and assisted the fallen man to his feet. The combined efforts of the men and dogs put the infuriated moose to flight, but not until it had inflicted severe injuries upon one of the dogs.

Le Sage was not badly hurt, escaping with a contusion caused by his heavy fall upon the frozen snow, and with a bad scrape along the muscles of his leg, where the roof of the moose had ripped open his trousers.

Our Australian Trade.

The Department of Trade and Commerce has received a report from F. S. Larko and D. H. Ross, Canadian trade agents in Sydney and Melbourne, Australia, respectively.

This year's harvest in Australia will probably be below the average owing to the dry weather. Good prospects for developing a good leather trade with Australia are reported, provided Canadian firms will devote sufficient attention to the Australian market.

Canada's trade with Australia shows a satisfactory increase. Australia imports from Canada last year totaled \$233,748, an increase over the preceding year of over \$350,000. The increase was principally in textiles, drugs, apples, paper, spirits and vegetables. On the other hand, Canadian exports to Australia decreased in lumber, agricultural implements and fish. Canada's imports from Australia totaled last year \$73,638, an increase of about \$30,000 over the preceding year. The principal increases were in meats, butter, wool, tin and coconut oil.

Canada imports butter to the value of over \$15,000 last year from Australia.

Greenland's Glaciers.

Nearly all the Greenland glaciers and tongues from the interior ice cap terminate in vertical faces from 100 to 1,000 feet high, presenting facilities for massive icebergs. The faces reveal pronounced stratification on the basal ice, even earth materials in the bases carried by the ice being arranged in layers. Fine laminations were seen twelve or twenty to an inch. The layers are sometimes twisted and contorted and even showed over each other.

## Is The Fastest Growing Company In Canada

Over \$2,700,000.00 MORE

insurance was written by this company last year, than in any previous year.

The expenses were \$10,224 LESS than in 1905, while the volume of business on its books was much larger.

Is it any wonder then that the whole Canadian people have confidence in the wise, conservative business management?

And they show their confidence by taking out enough insurance in The Mutual Life to make it the fastest growing company in the Dominion.

Write Head Office, Waterloo, Ont., or call on

Geo. H. Redpath, General Agent

## BRIDGE COLLAPSED.

Man Killed While Running With Traction Engine.

Brantford, Sept. 5.—At an early hour yesterday morning T. W. Clark of Charnville was starting out with a steam traction to do some threshing on a neighbor's farm. About two miles east of Charnville a bridge runs over Fairchild's Creek.

Clark was passing over this bridge with his engine when the bridge gave way, taking Clark with it, killing him instantly.

Some of the neighbors saw the bridge going down and hastened to Clark's assistance, but could do nothing.

I'll stop your pain tree. To show you first—before you spend a penny what my Pink Pain Tablets can do for you—free, a Trial Package of them—Dr. Shoop's Headache Tablets, Neuralgia, Headache, Toothache, Period pains, etc., are due alone to blood congestion. Dr. Shoop's Headache Tablets simply kill pain by coaxing away the unnatural blood pressure. That is all. Address Dr. Shoop, Racine, Wis.

Sold by All Dealers.

Princess Royal's Health.

There is still a great deal of anxiety about the health of the Princess Royal, who is again leaving England for a long cruise with her family. A well-known specialist is a constant visitor at her house, in Portman Square, London, and he feels very concerned about Her Royal Highness. The princess makes an admirable patient. She conscientiously carries out all the instructions of her medical adviser. Every morning she holds a long conversation on the telephone placed in her bedroom with the Queen. Since her illness, Her Royal Highness has become an omnivorous reader. Travel and history are her favorite subjects. Like the late Queen, she has a great partiality for languages. She now passes much time in this study.

WOMEN WHO WEAR WELL.

It is astonishing how great a change a few years of married life will make in the appearance and disposition of many women. The freshness, the charm, the brilliancy, the bloom, the bloom from a peach which is rudely shadowed. Matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change—ignorance and neglect. Few young women appreciate the abook to the system through the change which comes with marriage. Many neglect to deal with the unpleasant drains which are often consequent on marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness. As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health, the face and form at once witness to the fact in renewed comeliness. Half a million women and more have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label.

Crushed by Train.

Chatham, Sept. 4.—Patrick Scully, aged 35, of Paris, had his two legs cut off while trying to board a freight train at the C. P. R. station Monday night, from the effects of which he died in the baggage room of the station a few minutes later without regaining consciousness.

St. Isidore, P. Q., Aug. 18, '04. Minard's Liniment Co., Limited.

Gentlemen—I have frequently used MINARD'S LINIMENT and also prescribe it for my patients, always with the most gratifying results, and I consider it the best all-round Liniment extant.

Yours truly, DR. JOS. AUG. SIROIS.

Lord Lake is the best 10c. Cigar in the market—made by O'Brien Bros.

Quail on Toast is the best 5 cent Cigar in the market—made by O'Brien Bros.

## USED BIBLE AS CIPHER.

A Verse From Solomon Told of a Marriage Engagement.

When she left her home in the small town to come to New York to take up a special course of study her pet sister was fast reaching the crisis of a love affair. The pet sister was a most winsome young lady and had long kept a goodly train of suitors a-sighing. Was this affair to be the grand affair? The older sister hoped so, for she liked the young man cordially—thought he was just the sort to make a proper brother-in-law.

But the weeks passed, and not a bit of definite news about the progress of the affair did the older sister receive in her city boarding house. She became anxious. Louise, she thought, must not go on recklessly trifling in such important matters.

Then one night about 10 o'clock, just as she was going to bed, came a telegram. The servant brought it up. The older sister was country girl enough to be thoroughly frightened by the pale manila, black inked envelope. How ominous it looked! At length she gathered courage to open it. This is what she read:

Solomon six three. LOUISE.

Solomon six three! Whatever in the world! Oh, why, yes, stupid, it of course meant the Song of Solomon, sixth chapter, third verse! But—and her cheeks flushed with shame—she had no Bible!

There was a great scurrying about the boarding house to find a copy of the sacred book. The girls were routed out in vain. On all sides the cry arose, "Who's got a Bible?" Just think of the sister trying to sleep that night without knowing what that verse was! It would have been just like a woman to lie down to pleasant dreams, content to know that she could satisfy her curiosity in the morning—not!

The landlady, good soul, came to the rescue. She was no heathen. She had a Bible. Up to her room with it flew the sister and shut the door. Such a turning over of pages by eager, nervous fingers! Solomon six three. She found it, and then she cried "Hurrah!" and laughed, for the verse was:

I am my beloved's, and my beloved is mine.

## THE SPECTER SWIMMER.

A Legend of the Sea That Still Appeals to Sailors.

The sailor as a class still holds fast to the superstitions that have been his especial heritage throughout all ages. To him the sea is still peopled with phantoms. Men there are still who sail the sea believing in the power of the Swimmer, men who believe in the Walrus of unholy fame and in the existence of the specter bar Lucy to be seen at any time dodging in and out of the creeks and bays of the South Carolina coast. This is the tale of the Swimmer.

Near Cape Finisterre there lived a fisher maiden in days when the world asked fewer questions than now, and with her lived her fisher sweetheart. On their wedding night, runs the yarn, smugglers came down on their village, a thieving, drunken band. When they left, having done all the damage they could, the fisher maiden's sweetheart had disappeared, whether with or through them was never known. Instead of pining uselessly, as would most women, she dressed herself in men's clothes and started to find him, dead or alive.

For years she wandered over the earth and ocean, and though her disguise was penetrated several times, and she passed through a host of troubles which vary with each telling, she succeeded in keeping up her hunt. Finally, after escaping from an English prison the vessel she was on was lost at sea, and the simple Breton fisher-maid enshrined her in a legend which has her forever swimming the seas still in search of the man she loved and hailing each craft she nears. A sailor, be he Yankee or Portuguese, matter of fact in all things else or grossly superstitious, believes firmly that if you hear the hall of the Swimmer on a dark night at sea and answer it not woe follows swiftly.

A man may have enough of the world to sink him, but he can never have enough to satisfy him.

## DISTRICT

### BLENHEIM

Blenheim, Sept. 5.—Mrs. Morris, of Fort William, accompanied by Mrs. Fotheringham, also of Fort William, were the guests of Mr. and Mrs. J. K. Morris, Blenheim, for a few days this week.

Miss Vickie White resumed her attendance at Chatham Business College on Tuesday.

Miss Clara Burns, of Blenheim, is a Chatham visitor this week.

Mrs. Chas. Jeffry, who has been conducting a grocery and crockery business in Blenheim for the past year, has disposed of the business to Mr. J. B. Little, of London, Ont.

Mrs. T. D. Hingley, of Chatham, visited her parents, Mr. and Mrs. P. Labadie, this week.

Miss May Pickering, of Toronto, returned to her home this week, after spending a pleasant time with her friends in Blenheim this summer.

Mrs. E. H. Morse, of Wallaceburg, visited her sister, Mrs. A. Denholm, this week.

Dr. Robt. E. Wodehouse, of Toronto, was a Blenheim visitor for a few days last week.

Miss Marjory Brown, of Paris, is visiting her sister, Mrs. Geo. Miller, Blenheim.

Miss Lela Crookshank and Miss Eva Green, of Blenheim, are at present away on a trip to Toronto, Portland and Peterboro', and they will also enjoy a trip on the St. Lawrence.

### TILBURY

Tilbury, Sept. 6.—Mrs. Robt. Bice is visiting relatives at Alvinston.

Mr. and Mrs. N. Smith, Charles Rhoades and son, Chris. Wylie, John Treas and Mrs. Wm. Ward were Toronto Fair visitors this week.

Miss Louise Peltier has returned from a visit in Detroit and Wyandotte.

Mrs. Balmer and son are visiting relatives in Leamington.

Mr. and Mrs. E. Dusty have returned from St. Mary's, where they attended the funeral of the latter's sister, Mrs. W. Gilpin.

Miss Beatrice Ballard left this week to study music at Adrian, Mich.

J. T. Arnew left this week for Cobalt.

The barns of Arthur Holmes, Middle Road, Tilbury West, with contents, including most of this season's crops, were destroyed by fire during the electric storm on Wednesday night.

Rev. George Clark, Ph. D., will address a union meeting in the Presbyterian Church on Wednesday evening of next week in the interests of the Lord's Day Alliance.

Miss Beatrice Malloux left this week to complete her course in music at Adrian, Mich.

Miss Effie Shafer left this week to resume her work at the millinery in Windsor.

There will be no services in the Presbyterian Church next Sunday. Rev. Mr. Nichol is expected to return from his vacation in time to take the services the following Sunday.

Work commenced at the canning factory this week on tomatoes, which, owing to the dry weather, will only be half a crop.

### SPECIAL MEETING

A Special General Meeting of the Public General Hospital Society of Chatham will be held in the City Council Chamber, Harrison Hall, on Friday, the 12th of September next, at 4 o'clock p. m., to empower the trustees to mortgage the premises and to do such other business as may come before the meeting.

THOS. K. McKEAND,  
Secretary.

Chatham, Sept. 5th, 1907.

### MOTOR ORDINANCE

In view of much complaint which has been made to the police, it is likely that the City Council will shortly be asked to pass a bylaw specifying on what streets the Chatham Motor Car Company may speed in trying out their new machines. The company will be asked to keep to the streets on which such privileges are granted.

There is talk of making Adelaide street one of the speedways, on account of there being less traffic on it than on some of the downtown thoroughfares.

### DEATH OF MRS. EVANS

The sad and sudden death of Mrs. John Evans, of Stewart, took place on Tuesday morning, after a few moments' illness.

The deceased lady was about 52 years of age, and was always in good health. On Tuesday morning she got up and was getting breakfast ready when she was suddenly taken ill. She was standing by the stove and said she felt a severe pain in her head, and, in walking towards her room, she fell in a fainting swoon on the floor. She immediately regained consciousness for a few minutes and then relapsed into unconsciousness. Medical aid was at once summoned from Merlin, but in an hour she was dead.

Mr. and Mrs. Evans came here from Indiana some four months ago, and Mr. Evans is interested in the oil business. The deceased was a sister of T. W. McLean, Baxter St., this city. She was formerly a resident of St. Catharines, and comes from one of the oldest and most respected families in that city.

She leaves, besides her husband, a family of three children, her mother, and twelve sisters and brothers. A remarkable thing about her family is that there were thirteen children, and her death was the first break in the family. The oldest is 54, and the youngest is about 30.

The remains were taken to Mr. McLean's residence on Wednesday, and were conveyed to St. Catharines yesterday for burial.

The hero in humble life is quite a figure.
