

Will be married in a few days to Miss Gibbons, a lady possessed of £100,000 fortune.

Soldiers' reading rooms are about to be established by authority in the principal barracks in both countries—a most desirable acquisition.

A young gentleman, an officer, has commenced walking 1000 miles in a 1000 successive hours at Belfast.

According to Edward Gibbon Wakefield, London contains thirty thousand persons who live by appropriating other people's property to their own use, yet £100,000 only could be brought together to listen and to operate at the grand radical meeting at Westminster.

Mr. Thomas Moore, the poet, has arrived at Dublin on business connected with his History of Ireland. He has several times dined at the Castle, and visited the Theatre, where he was received enthusiastically.

An operation on the Princess Sophia's eyes has recently been performed by Mr. Alexander. Her Royal Highness is nearly blind.

There is at the present moment in a window in the Trafalgar Road, Greenwich, a quotation from Isaiah—"Oh! Lucifer how art thou fallen!—One penny a box." The man sells Lucifer matches.

Mr. Peter Holland, aged 22, and unmarried, a barrister, who recently died in the Isle of Wight, has left his personal property, amounting to more than £1,000,000, exclusive of freehold and copyhold estates, to his nephew.

The amount of duty to Government is £45,000. It is a singular fact that the will is contained on one side of a sheet of letter paper—a striking contrast with the will of the late Lord Eldon, which occupied 48 closely written skins of parchment.

On Tuesday evening, Messrs. Green & Rush ascended in the Nassau balloon from Vauxhall Gardens, and arrived in safety in a field at Southover, near Lewes, Sussex, having accomplished the distance of 55 miles in 75 minutes. In the course of their voyage they reached an altitude of more than five miles, a greater height than has ever before been attained. The aeronauts passed through a considerable quantity of snow, and the cold was intense.

The average number of persons who daily visit the British Museum is about 2,500; but on the Monday of the week preceding the late Coronation, the astonishing number of 10,000 paid a visit to the Museum.

On the 6th October, King Louis Philippe attained his 66th year, being the first of the Orleans family that ever lived to that age.

At the Lincoln Assizes, Samuel Kirkley, a boy 14 years of age, was found guilty of the murder of his master, Wm. Bruce, late a master butcher of Lincoln, by administering to him arsenic, in revenge for having been corrected for his neglect, in consequence of which a lamb had died. The young rascal did not betray the slightest emotion.

Previous to the opening of the Liverpool and Manchester rail way there were more than 146,000 passengers in the year travelling between the two places by coaches, whereas the present number, by railway alone exceeds 500,000!

UNITED STATES.

New York, Oct. 11th.—The attention of a person on pier No. 11 was this morning attracted to a very disagreeable smell arising from a pork or beef barrel. He caused the head to be knocked out, and found that it contained the bodies of two females, apparently between the ages of 21 and 25 years. One was the body of a white woman, the other of a negro. The barrel was directed to Pratt & Kings, 28, India wharf, Boston.

The New York Journal of Commerce says, "The 'patriotic' fever in this country has very much abated, and if unfortunately, after all the generosity which has been manifested by the Canadian government, any of our people should attempt to renew the disturbances, they will not command much 'sympathy,' even should they get their necks stretched."

The Princetown Whig says "One of the citizens of this borough, has one million of silk worms feeding, and about one hundred thousand of the Chinese mulberry trees, in a fine thrifty condition; and several other citizens are turning their attention to the silk business."

"SYMPATHY."—A correspondent of the Boston Traveller says, "The Canadians at Lockport hold weekly meetings of consultation for the purpose of devising ways and means for subsistence, emigration, &c."!

NOVA-SCOTIA.

In the Supreme Court of Amherst, County of Cumberland, Nova-Scotia, on the 28th Sept.

Maurice Doyle was arraigned and found guilty of the murder of John Clem, of Philip River, under circumstances of the most atrocious nature. The prisoner, who had been in the service of Clem about six months, and had been discharged, effected an entrance into the bed-room of the latter, and inflicted several dreadful wounds on his head with an axe, which caused his death. He then entered the adjoining room, where the housekeeper, Mrs. Pipes, and her daughter, were sleeping, and after inflicting several wounds which he doubtless supposed would prove fatal, he destroyed several articles of furniture, forced open a chest, and carried off the money belonging to his victim, amounting to about £40. Fortunately the two females, though very severely wounded, so far recovered as to be able to attend the court and give evidence. The testimony adduced was altogether circumstantial, but so clear as to leave not the slightest doubt of the prisoner's guilt. When called upon for his defence, the prisoner merely denied the fact of Mrs. Pipes ever having seen the pocket-book found upon his person, and identified by her and others as that of the deceased. During the trial he exhibited much firmness; but at the announcement of the verdict, his firmness forsook him, his head dropped between his knees, and he burst into tears. The sentence of death was pronounced in a feeling and impressive address; and the unhappy criminal was to be executed on the Monday following.

UPPER CANADA.

The Lieut. Governor of Upper Canada has offered a reward of £200 for the discovery of the persons who set fire to the premises of Charles F. W. Esq. of Goderich, on the night of the 18th September.

The Court of King's Bench commenced its sittings at Brockville on Monday last. The criminal calendar contains but few cases. One or two persons are to be tried for enticing some of the regular troops to desert; and if found guilty, it is hoped that such punishment will be awarded as will prevent the recurrence of an offence that is becoming so common among us.

The Court of King's Bench held at Sandwich, closed its sitting on the 28th ult. The only important trial was that of two men, Cooley and Bowerman, for burglary, who were convicted, and sentenced to be hanged on the 27th inst. It appears that on the 28th June last, they formed a portion of a band of American pirates who forcibly entered the store of a Mr. C. Govin, situated on the banks of the St. Clair, and robbed it of several articles of merchandise, after which they proceeded to a home kept by Capt. Angus M'Donald, which was also plundered, and the captain made prisoner. As these crimes have been perpetrated under the name of patriotism and liberty and rebellion, it is very probable the criminals will be pardoned, as it is the fashion in this enlightened age and country to dispense with punishing the guilty, especially if the crime committed is the most aggravated in the criminal code.

From Liverpool, Sept. 20 From Halifax, Oct. 2
From Paris, Sept. 27 From Toronto, Oct. 2

New York papers of Saturday last are without any news of moment.

His Excellency Sir John Colborne, arrived from Sorel on Tuesday evening in the steamer *St. George*.

"JUSTICE TO THE GUILTY."—Louis Perault, one of the rebel refugees, and formerly proprietor of the *Indicator*, for whose apprehension a reward of five hundred pounds was offered by Lord Gosford, returned to Montreal on Sunday last. Messrs. Rodier & Cartier are expected to return in a few days; and it is

probable that nearly all the expatriated rebels will return, to re-commence with impunity the work of agitation and murder, unless some "part and parcel of the celebrated code of Judge Lynch" is promptly brought into force. A contemporary, distinguished for his uniform equanimity of temper and flexibility of principle, says, in a paragraph excellently adapted for transferring to the United States papers, "we have made great progress in the practice;" and indeed it is high time for us to commence "learning," for "the times are out of joint;" and "We should be brief when traitors brave the field."

The *Quebec Gazette* at all times and in all seasons assumes a calmness and amiability which no other paper in the Province can attain to. It makes a point of being exceedingly shocked at any ebullition of public feeling, and is incessant in its cry of "Peace! peace! when there is no peace!"—but from the following paragraph in yesterday's paper we are led to infer that "a change came over the spirit of its dream" since Monday:—

"Foreigners have frequently interfered in our difficulties, and are still interfering; and our subjects are notoriously being acting with them, and fomenting troubles. It is not prudent necessarily to arm the Executive with extraordinary powers in peaceable times; but, on coming out of a rebellion, and when new disturbances are threatened, it is necessary that it should be strong. From 1794 to 1811, we had an alien law, and an act for suspending, in certain cases, the Habeas Corpus Act, when there was very little need for them. If present appearances continue, there is much need for them at present."

The names of the prisoners who effected their escape from the citadel on Tuesday last are Theller, Dodge, Parker, Partridge, and Culver. Theller and Dodge are still at large; and though the most active search and enquiry has been made, nothing has transpired to lead to the discovery of their hiding-place or the route which they may have taken. We understand that a rigid investigation is taking place into the circumstances of this extraordinary affair, which can scarcely fail to lead to the conviction of some of those under whose immediate charge the prisoners were placed at the time of their escape.

Sutherland still remains in confinement, being unable to obtain the required securities. The other prisoners are to embark at the commencement of next month for England, from whence they will be sent to New South Wales.

A rumour is very prevalent in town that James Stuart, Esq. is about to be appointed to the Chief Justiceship of this Province, and that he will immediately assume the duties.

At a meeting of the Montreal Committee of Trade, held on the 15th inst., the following resolution was adopted:—

"That as specie payments have been resumed by the Banks of our city, the necessity for the circulation of Bills under the nominal value of One Dollar no longer exists; the Committee therefore recommend that all such be refused in payment; and also taking into consideration the losses sustained through bills issued by private banking Companies, they would advise the public to avoid taking all such notes."

The day of sailing of the steam-ship *Royal William* from New York has been changed from the 18th to the 20th inst.

The *Eleutheria*, which arrived on Tuesday last from London, it is said, brought out English shillings and sixpences to the amount of five thousand pounds.

A dry goods store kept by Mrs. Widow Gilmore, in St. Augustin Street, St. John Suburbs, forcibly entered, yesterday morning, and articles to the amount of about £12 were carried off.

God bless us! what a word upon a title page is! The *Gazette* of last night says, "Very active PERQUISITIONS were made all day yesterday for Theller and Dodge."

THE NEWS.

(From the United Service Journal, Sept. 12.)
GRANDMARE GUARDS.—Lieutenants Forresters House, and Neville, have sailed to join the 2nd Battalion in Canada.

COLDSTREAM GUARDS.—We have to announce the sudden death of Ensign and Lieut. George Herbert, which took place on the 9th. The gallant officer had only just attained his 26th year, and had been in the regiment six years.

LAYS OF THE DESTRUCTIVES.
No. 2.

THE SYMPATHISER'S SONG.

Each freeman, magnanimous despot of labor,
Each freeman who pines for the goods of his neighbor,
To Canada, on!—'tis a glorious spree,
And the venture is trifling—'tis only your neck—
When beckon'd to conquest by glory and spoil,
What freeman would falter, what lover would
flinch?

And oh! shall the slaves who in British chains toil
Sigh in vain for the blessings of freedom and
Lynch!

No—arise to the combat—hold democratic reins—
For bright is the prospect before you that lies yon—
What brave sympathiser would not fight the battles
Of men with such lands and such goods and such
chastels?

Those lands and those riches shall all be our own,
We will wade in the blood of our hated old mother,
And, while acting the part play'd by Isaac's only
son,
We will hug in our arms our Canadian brother.

'Tis true we despise him—his laws—his religion—
But what gaudier e'er looks to the *Age* of his
Pigion?

That he laces us and fears us is just quite as true;
But, then, that is nothing to me or to you—
It is not decum'd polite, when outspread is the
board,

To do you of your host if he grudges the feast;
And as rudeness, we know, is by Yankees abhor'd,
'Tis a thing, I am sure, on which we'll not insist.

So, on no less, on! We soon shall be lords
Of the "Torries" rich fields—the priests' tombs
ing boards;
And the sun too—if proofs of our love they re-
quire,

They may find them recorded in Charleston's fire;
To reformers like us, then, what joy it will give
To smoke out these hornets, in vice and wealth
sunk.

'Mid the shouts of our thousands rebo'd to believe
In the faithful and chaste—"Revelations of Monk."

With leaders like ours, our success is secure—
There is not the valiant, Mackenzie the pure,
And Brown, who so fiercely at Kings and Queens
snarls,
Tho' he was not so fierce at the fight of St. Charles;
Then beckon'd to conquest by glory and spoil,
What freeman would falter, what lover would
flinch?

And oh! shall the slaves who in British chains
toil
Sigh in vain for the blessings of freedom and
Lynch!

MEMORANDA.

The *Toronto*, Douglas, in going up to Montreal, in tow of the *British America*, ran aground on Lake St. Peter. She has since been got off, without having received any injury, and arrived at Montreal.

The *Southampton* came off Taylor's Slip on Tuesday last, after receiving some trifling repairs. The brig *Isabella & Louisa*, of Sunderland, from Quebec, bound to Sunderland, with a cargo of timber, was cast away at St. Pierre, Miquelon, on the 9th August—Crew saved.

DIED.

At Stamford, (U. C.) on Wednesday last, retaining the full possession of her faculties to the latest moment of her life, Mrs. John Knox. The deceased had reached a very advanced age, as may be inferred from the fact that when Quebec was captured in 1759, she was a prisoner—an adult—in the hands of the Indians.

VICTORIA HOUSE.
 (RUE SOUS-LE-FORT—QUEBEC.)
GEORGE ARNOLD, PROPRIETOR.
IS now open for the reception of visitors. The situation and accommodation of the premises combine advantages unequalled by any similar establishment in Quebec, and unsurpassed in the Canadas. The arrangements have been made under the immediate superintendance of the proprietor, and as the business will be conducted by himself personally, every attention will be ensured to those who may favor him with their visits. To those gentlemen in particular who are connected with the business of the port, the situation of the premises, in the direct vicinity of the Steam-Boat Wharves, and Custom House, offers great advantages; and to the public in general, the arrangements of the establishment are such as to present every convenience. On the ground floor are an extensive, Saloon, and Reading Room. On the first floor are two spacious rooms, which by means of folding doors between, may, whenever required, be converted into one magnificent apartment of 70 feet by 32 feet, and 15 feet high; a dimension which renders it a most eligible place for meetings, &c. The numerous apartments contained in the three upper stories are fitted up for the accommodation of families and individuals. A spacious gallery on the roof commands a splendid view of the harbour of Quebec and the surrounding country.
 The Wines and other liquors of the establishment will be of the first order; refreshments of all kinds may be had throughout the day; and it will be the study of the proprietor in providing for his guests to combine moderate charges, and superior accommodation.
GEO. ARNOLD.
 Quebec, 23d June, 1838.

NOTE.—Lumber Merchants and others connected with that branch of commerce, will meet with every accommodation and attention, at the above establishment, the proprietor having for many years past had an extensive acquaintance with parties in that line, from the Upper Province and the United States.
PILES, DROPSY, SWELLINGS, ALL SORES, RHEUMATISM. It is absolutely asserted on the most positive proof that the above complaints are arrested and cured by the timely use of Hay's Liniment. It is impossible to find room in this paper to present those proofs which are conclusive and convincing. They may be seen at length as below.
 The true article has a splendid engraved wrapper with agents' and proprietor's name, and may be had of

HEADACHE.
DR. E. SPORN, a German physician of much note, having devoted his attention for some years to the cure and removal of the causes of **NERVOUS AND SICK HEADACHE,** has the satisfaction to make known, that he has a remedy which by removing the causes cures effectually and permanently this distressing complaint. There are many families who have considered Sick Headache a constitutional incurable family complaint. Dr. S. assures them that they are mistaken, and labouring under distress which they might not only alleviate, but actually eradicate by the use of his remedy. It is the result of scientific research, and is entirely of a different character from advertised patent medicine, and is not unpleasant to the taste. To be had of

BALDNESS.
A BEAUTIFUL HEAD OF HAIR is the grandest ornament belonging to the human frame. How strangely the loss of it changes the countenance, and prematurely brings on the appearance of old age, which causes many to recoil at being uncovered, and sometimes even shun society to avoid the jests and sneers of their acquaintances; the remainder of their lives consequently spent in retirement. In short, not even the loss of property fills the generous thinking youth, with that heavy sinking gloom as does the loss of his hair.—To avert all these unpleasant circumstances, **OLDRIDGE'S BALM OF COLUMBIA** stops the hair from falling off on the first application and a few bottles restores it again. It likewise produces eyebrows and whiskers; prevents the hair from turning gray, makes it curl beautifully, and frees it from scurf. Numerous certificates of the first respectability in support of the virtues of Oldridge's Balm are shown by the proprietors.
 Read the following:
ROBERT WHARTON, Esquire, late Mayor of Philadelphia, has certified, as may be seen below, to the high character of the following gentleman:
 The undersigned do hereby certify that we have used the Balm of Columbia discovered by J. Oldridge, and have found it highly serviceable not only as a preventative against the falling off of hair, but also a certain restorative.

DR. BRANDETH requests a perusal of the following article:—
LIFE AND DEATH,
 Every thing has two distinct principles to its nature; one
THE PRINCIPLE OF LIFE
 THE OTHER
THE PRINCIPLE OF DEATH.
 So long as the principal of Life predominates, Health is enjoyed. When the principle of Death, Sickness takes place. How is this accounted for?
 By the principle of Death, I mean the principle of decomposition or decay, which is each hour going on in the human frame from the hour of birth, to that of our final exit. While the natural outlets—the pores—the bowels—and all other directories of the body, discharge these decayed particles as fast as they are generated, we are in a state of health; we are free from the presence of the disease.
 When, from breathing an impure atmosphere, living in a vicinity of swamps, or where we are in the constant habit of coming in contact with bad smells—effluvia arising from obnoxious accumulations of animal or vegetable bodies in a state of putridity, being infected from a living body under the influence of disease in a malignant state; or secondary occupations; or, in short, any cause which promotes decomposition faster than the stomach and bowels and the other excretories can remove, naturally; we are then in a state of disease. And should the cause which produces this state of the body remain, and nothing be done to drive the accumulated and accumulating impurities out of the body, the principle of death or decomposition, will become paramount, and the last glimmering of life depart from the once animated clay.
 How then, shall we counteract these death dispensing influences? How?
PURGE!—Yes—Isay Purge!
 The magic in that word shall yet be understood, if this hand or brain can accomplish so mighty an explanation. Yes, purged be that pain in the head, the back, the bowels, the foot, the stomach, the side, the throat. Does it arise from internal or external cause,—I still say purge!—For know this self-evident truth, that pain cannot exist, save by the presence of some impurity—some deposit of decomposed particles upon the organ or part where the pain is seated. And purging discharges this impurity by the bowels, and continuing the practice daily will cure every complication of disease; and will prevent any one from becoming seriously indisposed; even when in constant contact with the most malignant fevers which cannot by possibility seriously affect the body, if we are continually careful to preserve it in a pure state, by frequent and effectual purgation. *Hippocrates* says, "Purgation expulses what must be expelled, and patients find relief; if, on the contrary, they are tormented by purgation, it is a proof there are yet matters which must be expelled."
 The subscriber of this has resided in every variety of climate, and by always purging on the first appearance of sickness, has enjoyed for the last ten years, uninterrupted health. For we may call such the state of him who never sick more than 6 or 8 hours, about the time it takes to secure the effect of a purgative. The purgative I make use of is my grandfather's pills, and they are, to my certain knowledge, the most judiciously balanced purge in existence. I have used them for 8 months daily, in doses of from 2 to 16 pills per day, to satisfy myself as to their innocency. It therefore, cannot be doubted. It is my opinion, that any person, be he ever so prostrated by disease, provided he is capable of taking exercise at all, may lengthen his life to 60 years, by continuing to assist his natural functions with the **BRANDETH VEGETABLE PILLS.** Death never can take place until the Principle of Decomposition puts out the lamp of life. And that would seldom be before 60 or 70 years, was this principle of purgation always resorted to on the first appearance of sickness.
 In the hope that these remarks may be of some service, I am the public's obedient servant,
D. BRANDETH, M. D.

Great caution is required to procure the genuine Brandeth's Pills. Druggists and Chemists are never in any place appointed Agents by Dr. B. All his

authorised Agents have an engraved certificate of agency, signed by himself; unless this certificate can be shown, do not purchase. This caution is absolutely necessary to guard the public against spurious Pills.

PILES, &c.
HÆMORRHOIDS—NO CURE NO PAY!
 Price \$1—Hay's Liniment—No Fiction.

THIS extraordinary chemical composition, the result of science and the invention of a celebrated medical man, the introduction of which to the public was invented with the solemnity of a death-bed bequest, has since gained a reputation unparalleled, fully sustaining the correctness of the lamented Dr. Gridley's last confession, that "he dared not die without giving to posterity the benefit of his knowledge on this subject," and he therefore bequeathed to his friend and attendant, Solomon Hays, the secret of his discovery.
 It is now used in the principal hospitals and the private practice in our country, first and most certainly for the cure of the piles, and also so extensively and effectually as to be well credited, unless where its effects are baffled externally in the following complaints:—
 For Dropsy—Creating extraordinary absorption at once.
 All Swellings—Reducing them in a few hours.
 Rheumatism—Acute or Chronic, giving quick ease.
 Sore Throat—By cancers, ulcers or colic.
 Croup and Whooping Cough—Externally, and over the chest.
 All Bruises, Sprains and Burns—Curing in a few hours.
 Sores and Ulcers—Whether fresh or long standing, and fever sores.
 Its operations upon adults and children in reducing rheumatic swellings, and loosening coughs, and tightness of the chest by relaxation of the parts has been surprising beyond conception. The common remark of those who have used it in the Piles, is "it acts like a charm."
THE PILES.—The price \$1 is refunded to any one who will use a bottle of Hay's Liniment for the Piles, and return the empty bottle without being cured. These are the positive orders of the proprietor to the Agents, and out of the many thousands sold, not one has been unsuccessful.
 We might insert certificates to any length, but prefer that those who sell the article should exhibit the original to purchasers.
CAUTION.—None can be genuine without a splendid engraved wrapper, on which is my name, and also that of the Agents.
