BRANTFORD DAILY COURIER

FORTY-SEVENTH YEAR THE COURIER, BRANTFORD, CANADA, THURSDAY, MAY 3, 1917. TWO CENTS

INTERNAL STRIFE GROWING IN GERMANY

Agitation in Germany Continue; Resignation of Hollweg Asked Nationalization of Canadian Railways is Recommended Fresh Progress Recorded by Franco-British on West Front

Empire Divided Within, Faced By New Foes Within

Deluded German People are Slowly Awakening to a Realization of Their Crisis; Retirement of Chancellor Von Hollweg is Demanded

By Courier Leased Wire
Copenhagen, via London, May 3.—Such German newspapers as are now permitted to reach here, although evidently carefully selected for the absence of military news or any information in regard to the strike movement, indicate that the campaign against Chancellor von Bethmann-Hollweg is again in full swing. The Conservatives, although insisting that the other parties observe a political truce in the interests of the Fatherland, have adopted and published a set of resolutions sharply attacking the Chancellor and censuring the government for weakness and vacillation on the peace question and in dealing with the strike agitation.

The resolutions express grave grief and concern at the steadily growing influence of the Socialists, whose peace-making efforts are declared to be leading Germany to the brink of ruin. Apparently this attack was timed to coincide with the opening of the reichstag and it is significant that the resolutions are endorsed by the free Conservative wing under Baron von Zyditz. Baron Zyditz has hitherto been far less of an extremist than Count Westarp and Herr von Hydebrand, leaders of the regular or junker Conservatives.

ITALY EXPLAINS TO U.S. HER ENTRY INTO WAR

Guided by Highest National Aspirations, She Hastened With Chivalrous Audacity, to Cause of Right

By Courier Leased Wire.
Rome, via Paris, May 3.—The "Corriere della Sera," a semi-official Italian paper, has published an article about the Italian mission to America, says that in addition to a discussion of financial, economic and commercial questions, the mission is intended to explain to the United States the sacrifices made by Italy and her purposes in entering the war. The paper says that Italy was guided by her highest national aspiration and went to the assistance of right and justice "with chivalrous audacity." It continues: "The representative of the oldest democracy in Europe will agree with the trust democrat in America that the House of Savoy is ruling over a country which is justly called 'the crown republic of Italy.'"

Weather Bulletin

Toronto, May 3.—There are three well defined disturbances this morning centred over the Maritime provinces. The southwest states and the western provinces respectively, while an area of high pressure covers the great lakes. Snow or rain has occurred from eastern Ontario to the Maritime provinces and cool weather prevails over the Dominion.

TROOPS LANDED

Ottawa, Ont., May 3.—It is officially announced through the chief press censor's office that the following troops have arrived safely in England: Battalions, 229th Monmouth, 232nd Battleford, 151st Brandon, 214th Saskatchewan, 221st Winnipeg, 216th No. 2 section skilled railway employees. Drafts: Horse artillery, field artillery from Winnipeg, Regina, Calgary and Kingston; Infantry from 210th, 231st and 256th battalions medical corps, cyclists. Newfoundlanders; Naval details.

FRENCH OFFICIAL

Paris, May 3.—2.09.—"There was heavy artillery fighting near Juma and in the Cerna Bend on May 1," said today's official report from the Macedonian front.

NAVAL CO-OPERATION OF ALLIES AND U.S. TO COMBAT U-BOAT PERIL

Main Interest of British Mission at Washington is to Confer Upon Subject of Submarine Menace and to Arrive at Effective Methods of Campaign Against it

By Courier Leased Wire.
Washington, May 3.—That the submarine menace and ways to combat it by increased snipping, freight selection and naval co-operation, is the main interest of the British mission, became certain today from many different sources. The issue was focussed by Premier Lloyd George's statement in parliament recently that the need was for ships and still more ships; Lord Percy's explanation here that destruction was out-ran construction; and declarations of Secretaries Lansing and Lane that the submarine situation is grave. It is now evident that other matters before the British commission, however vital, are being subordinated.

considerable number of small boats to use as submarine chasers, but they have been disappointed to discover that the few available are needed here. The British shipping experts, however, have found encouragement in the emergency efforts of the shipping board and the availability of many German ships.

Proposed curtailment of non-essential freight now being carried to Europe would give increased tonnage for necessary supplies. The American government has agreed not only to restrict imports as the British already do, but to impose export restrictions authorized by the bill now pending in congress.

REPRISALS FORCED BY GERMANY

Bombing of Freiburg Done in Retaliation for Sinking of Hospital Ship

FEELING OF BRITISH ARCHBISHOP OF CANTEBURY Declares is Opposed to Action

By Courier Leased Wire.
London, May 3.—In the House of Lords yesterday, the Archbishop of Canterbury raised the question of the recent bombing of Freiburg by British and French aviators in retaliation for outrages perpetrated by the German fleet. The Archbishop declared there was a strong feeling throughout the entire country against such reprisals.

TO VISIT MONTREAL

Montreal, May 3.—General Joffre and his members of the French mission to Washington are expected to be in Montreal during the week of May 21-26, when the national unity convention, or as it is better known, the "win-the-war" convention, is to be held.

AMSTERDAM, VIA LONDON, MAY 3

Amsterdam, via London, May 3.—The Berlin Reichsbote, dealing with the submarine situation, says: "Certain elements are again at work aiming at the restoration of the old policy, which pitifully failed of running after Great Britain and America—the logical condition sought being that the submarine warfare should be again restricted." The newspaper denounces the propaganda as not only fatal, but also villainous and criminal.

ARTISTS CALLED

By Courier Leased Wire.
Copenhagen, via London, May 3.—German artists are the latest recruits demanded by the German war machine. The German Academy of Arts has been notified that artists will be subjected to compulsory enrollment under the national service law. The Academy advises its members to get under cover by volunteering for suitable avocations and suggests that manufacturers need draftsmen.

BRITISH AND FRENCH GAIN ON THE WEST

Important Progress Recorded by Haig's Forces in New Offensive

FOE GARRISON TAKEN BY ADVANCE OF FRENCH ON THE CHAMPAGNE FRONT

By Courier Leased Wire.
London, May 3.—2.20 p.m.—In the new attack of today the British made progress in the direction of Fresnoy and Cherisy, and also towards Belcourt. Reuter's correspondent at the British headquarters reports.

TURKEY SEEKS PEACE

Amsterdam, via London, May 3.—A Vienna despatch quotes Talat Bey, Turkish vizier, as saying to a reporter for The Neue Freie Presse that Turkey did not seek conquest. We wish for an honorable peace, always have wished it, and so informed President Wilson. Our enemies refused the invitation, but as soon as they change their minds, we are ready to negotiate an honorable peace.

FOE OFFICIAL

By Courier Leased Wire.
Berlin, May 3.—via London—New British attacks were begun on a wide front on both banks of the Scarpe early this morning after drum fire which followed the continuous artillery engagement of the past few days army headquarters announced.

BRAZILIAN MINISTER DETAINED

Germany Holds Ambassador; Brazil Foreign Minister Resigns

TURKEY SEEKS PEACE Entered War Only in Defence, Not for Conquest

By Courier Leased Wire.
Rio Janeiro, May 3.—Dr. Lauro Muller has tendered President Braz his resignation as minister of foreign affairs. The government has received information that the Brazilian minister to Germany has been ordered detained in Berlin, and has ordered the detention of Adolf Paul, German minister to Brazil, who is on his way to Uruguay.

BERLIN AND VIENNA IN ACCORD OVER PEACE

Conferences Between Bavarian Premier and Austrian Foreign Minister Show a Perfect Agreement

By Courier Leased Wire.
London, May 3.—The conferences that have been held in Vienna between Count von Hertling, the Bavarian Premier, and Count Czernin, the Austro-Hungarian foreign minister show that a perfect agreement continues between Germany and Austria regarding questions of peace, according to a semi-official telegram from Vienna forwarded by the Exchange Telegraph correspondent at Amsterdam.

TRANSPORT SHIP SUNK

By Courier Leased Wire.
London, May 3.—5.53 p.m.—The British transport Arcadian was sunk by a submarine, April 15. It is believed 279 men were drowned.

FREEDOM OF ASSOCIATION

By Courier Leased Wire.
Petograd, May 3.—via London—An order was issued by the Russian provisional government today granting freedom of association and meeting.

Brazil, Norway and China Now Hovering on Brink, About to Add Their Weight to Relentless Ring Around Germany

By Courier Leased Wire
Brazil has drawn one step nearer to war with Germany and today is one of three countries who are hovering on the brink of the maelstrom which has convulsed two thirds of the world. Norway and China are the two other countries which may shortly be added to the ever lengthening list of Germany's foes. Two events have happened in Brazil which may easily form the impetus to the last remaining step on the road to war. Dr. Lauro Muller, Brazilian foreign minister, has tendered his resignation on the eve of the day set for the Brazilian congress to decide whether the republic shall draw its sword. Dr. Muller has been persistently reported as if not actually pro-German at least a firm opponent of hostilities between Brazil and the Teutonic empire. His resignation coincides with an order by President Braz detaining the dismissed German minister. The order was issued on receipt of news from Berlin that the Brazilian minister in Germany had been refused permission to leave the country.

The possibility of Norway's entrance into the ranks of the allies is based on the havoc wrought among the Norwegian mercantile marine by German submarines. Norway prior to the war was fourth among the world's seafaring nations, and has suffered so heavily from the ravages of the U-Boats that her shipping is actually threatened with extinction. The bitterness among the Norwegians over German war methods is growing rapidly and many voices are urging that she could not be worse off as a belligerent and might find compensation if peace found her in the lists with the Entente.

All reports from China agree that the advocates of war are in a majority at Peking, but apparently the president is still reluctant to take the fateful step. It has been reported that Japan was unwilling that China should enter the struggle, but the Japanese foreign office has officially denied this. In the meantime the entire situation in Europe remains obscure through conflicting reports and the watchfulness of censors, especially in the realms of the Central Empires. The only definite fact in regard to conditions in Germany is that a political crisis exists and that the antagonism between the parties has blazed out with great strength. Chancellor von Bethmann-Hollweg is the target for all shafts, but apparently can rely only on a lukewarm support from the moderate Socialists. There is no light whatever on the strike situation and no reliable news of any kind from Austria.

On the western battle front the British began another attack this morning and the war office announces that progress is being made. The British continue to make headway in Mesopotamia also, but this is offset by unexplained reports of a Russian retreat in the Caucasuses. If the reports are true, the Russians are withdrawing with no serious fighting and in the face of the most successful campaign yet undertaken against Turkey.

Amsterdam, via London, May 3.—The Berlin Reichsbote, dealing with the submarine situation, says: "Certain elements are again at work aiming at the restoration of the old policy, which pitifully failed of running after Great Britain and America—the logical condition sought being that the submarine warfare should be again restricted." The newspaper denounces the propaganda as not only fatal, but also villainous and criminal.

FISHERIES RESUMED

Copenhagen, via London, May 3.—The Danish fisheries in the North Sea whose operations were temporarily suspended owing to a shortage of gasoline and the danger from mines are again busy with highly satisfactory results. Twelve tons of codfish were caught in a single day by two cutters. More than one hundred cutters are operating from Esbjerg harbor alone.

WILL NOT SLACKEN

By Courier Leased Wire.
Petograd, May 3.—via London, 5.50 p.m.—The Russian provisional government has sent to the Russian representative in Entente allied countries a note assuring the allies that the change in government in Russia cannot afford a pretext for any slackening up on the part of Russia in the common struggle of all the Entente allies.

RAILWAYS EXCEPT C. P. R. TO BE MERGED IN ONE SYSTEM OF PUBLICLY OWNED ROADS

Recommendation of Majority Report of Royal Commission; Board of Trustees to be Appointed by Parliament; The Minority Report Favors Private Ownership

Ottawa, May 3.—The majority report of the Royal Commission on Railways recommends that Canada should have two railway systems.

(1) One owned by the Government and operated by a Board of trustees, to be incorporated with nominal share capital as the "Dominion Railway Company," and merging in its system the G. T. R., the G. T. P., the Canadian Northern and the National Transcontinental.

(2) The Canadian Pacific Railway, owned and operated under its present status and by the existing company.

The minority report of the commission would provide for four systems; the present Government railways, including the National Transcontinental, the Canadian Pacific, the Grand Trunk and the Canadian Northern. By this proposal the Grand Trunk would be confined to Eastern Canada and the Canadian Northern to the West, and would provide for an interchange of traffic between the two.

Ottawa, May 3.—Two distinct plans for the solution of the Canadian railway problem are offered in the reports which were prepared by the Royal Commission appointed by the government last July, and which were laid on the table of the House of Commons yesterday by Sir Thos. White in his capacity as Acting Prime Minister.

All of the commissioners are agreed that the Dominion is over-supplied with railroads, and that some action should be taken without delay to meet the situation created by that circumstance. They are not, however, unanimous in their opinion as to the course which should be taken.

Sir Henry Drayton, chairman of the Dominion Railway Board, and William Mitchell Ackworth, the English member of the commission, concur in proposing the merging of the G. T. R., the G. T. P., the Canadian Northern, the Prince Edward Island road, and the National Transcontinental, in one system to be owned by the public and operated by a company of which the only beneficiary stockholders would be the people of Canada.

Mr. Alfred H. Smith, president of the New York Central lines, who was the third member of the commission makes an entirely different proposal and embodies his views in a minority report.

For Private Ownership

Mr. Smith, roughly speaking, recommends the continuation of the system of private ownership and of the policy of granting Government assistance to necessitous roads until such time as they become self-supporting, together with a division of territory between the Grand Trunk and the Canadian Northern Railways. Thus, Sir Henry Drayton and his colleague would have in Canada two railway systems, namely, that owned by the Government and operated by a board of trustees to be incorporated with a nominal share capital as "The Dominion Railway Company," and the Canadian Pacific Railway.

Mr. Smith, on the other hand, in order to give the trustees control of the roads to be incorporated in the Dominion Railway system, Sir Henry Drayton and Mr. Ackworth propose that the Intercolonial, National Transcontinental Railways be transferred to them by Act of Parliament; that the \$40,000,000 common stock of the Canadian Northern Railway Company, now vested in the Canadian Government, and also the \$60,000,000 still remaining in the hands of private persons, be transferred to them; that the whole of the common stock of the Grand Trunk Pacific should be transferred without payment, except in retarding cash paid for shares other than those held by the Grand Trunk Railway Company; that the whole of the stock of the Grand Trunk Company, first, second and third preferences and ordinary, should be handed over to the trustees. Taking up the question of compensation to be paid to holders of securities, Sir Henry Drayton and Mr. Ackworth express the conviction that allegation to the effect that public moneys received by Mackenzie and Mann were appropriated by Sir William Mackenzie and Sir Donald Mann, holders of the bulk of the outstanding \$60,000,000 of Canadian Northern stock, are unfounded. They do not think that holders of these shares have any claim to compensation as of right. Nevertheless they suggest if those shareholders were permitted to hold a moderate portion of the shares, the equity of the case would be met. They propose that the portions to be so retained and the proportion of the earnings of the Dominion Railway System to be regarded as attributable to the Canadian Northern lines be determined by arbitration.

The commissioners regard the share capital of the Grand Trunk Railway as intrinsically of small value. Nevertheless, they recommend that the stockholders be offered an annuity equivalent to the large dividend payment for the last ten years and subject to increase after seven years. The trustees would, under the arrangement hold the Intercolonial and Transcontinental roads as owners of the physical property. They would hold the Canadian Northern, Grand Trunk and Grand Trunk Pacific through their ownership of the capital stock. The existence of these three companies and also of their subsidiary companies would nominally continue unchanged and there would consequently be no question of the disturbance of the rights of the bond and debenture holders. Under the scheme the trustees would enter into possession of a complete self-contained system of 20,000 miles upon which the present fixed charges are \$34,000,000 a year and upon which, after providing for the annuity of the Grand Trunk shareholders and

East Buffalo, May 2.—Cattle, receipts, 350; light.
Veal, receipts, 400; active; \$5.00 to \$13.50.
Hogs—Receipts 1,200; active; strong; heavy, \$16.35 to \$16.40; mixed, \$15.35 to \$15.35; light Yorkers, \$16.00 to \$16.15; light Yorkers, \$14.50 to \$15.75; pigs, \$13.75 to \$14.50; roughs, \$14.00 to \$14.25; stags, \$11.50 to \$12.50.
Sheep and lambs—Receipts 2,000, active and steady; clipped lambs, \$9.00 to \$14.35; others unchanged.

CHICAGO LIVE STOCK MARKET.
By Courier Leased Wire.
Chicago, May 2.—Cattle, receipts, 5,000; market, steady; Native beef cattle, \$8.90 to \$13.40. Stockers-Feeders, \$7.15 to \$9.85. Cows-Heifers, \$6.25 to \$11.15. Calves, \$8.00 to \$11.00.
Hogs, receipts, 24,000; market, slow, light, \$14.85 to \$15.85; mixed, \$15.35 to \$15.95; heavy, \$15.30 to \$16.00; bulk of sales, \$15.65 to \$15.90.
Sheep, receipts, 10,000; market, steady; Western, \$11.00 to \$13.50. Lambs, native \$13.00 to \$17.65.

for composition with holders of Canadian Northern income debentures, the charges would at the outset be roughly \$40,000,000 a year or \$2,000 a mile.

Mr. A. H. Smith, in his minority report would release the Grand Trunk Railway from its obligation to lease the transcontinental and would require it to lease the Canadian Northern properties east of Parry Sound and North Bay, and to give up its Grand Trunk Pacific lines and its branch lines. He would require the Canadian Northern to confine its operations to the field west of Winnipeg and to lease the Grand Trunk Pacific and the lines between North Bay and Winnipeg (except the Canadian Pacific) to either the Grand Trunk or the Canadian Northern Railroad or any other qualified company. Mr. Smith would put this scheme into effect through a board of trustees which would take and make the leases between the two railways as a sort of intermediary. In each case the rentals would be determined by the net annual fixed charges and the owners subject to termination by the Government and companies on equitable terms after ten years.

Thursday, May 3rd, 1917.

THE SITUATION.
It is the guns on the western front which have lately been doing all the demonstrating, and the British "heavies" are clearly paving the way for another offensive. The foe is none the less busy in preparing to withstand the threatened onslaught. Mr. G. H. Perris, with the French army, states that recent Hun losses have certainly totalled 100,000 men and possibly 200,000.

General Maude reports from Mesopotamia that the Turks have been driven from both banks of the Shatt-el-Adhem. A fortified village and strong trenches were taken and the foe finally forced to retreat to the hills.

The tax on excess profits in the Old Land has been raised from 60 to 80 per cent., tobacco and amusements are to bear heavier burdens. Mr. Bonar Law, Chancellor of the Exchequer, in his introduction of the budget containing announcements, was able to state that Great Britain was meeting the financial strain of the war in good style, and was paying a greater share of war expenses from income than any of the other warring nations.

The submarine menace becomes more intensified. The official report for last week shows thirty-eight British vessels sunk of 1,600 tons and over, and 13 of less than 1,600 tons, or a gross total of over 400,000 tons. Translate those figures into train car loads, and their import becomes readily apparent. On the average, a single car carries about 30 tons, so that 400,000 represents 13,500 cars, or, at fifty cars each, 270 freight train loads.

THE RAILWAY REPORT.
The commissioners appointed to look into the railway question of the Dominion have completed their huge task with commendable promptness. They all agree that the C. P. R. should be left alone, and the majority report recommends the three others, the Grand Trunk, Northern and Canadian National. The two last named roads are all the time coming to parliament for more money, and the Grand Trunk Pacific was one of the colossal blunders of the Laurier Government. Instead of a white elephant it has proved to be a herd of them.

There is a quite general impression that as the people have to put up all the time, it would be an excellent thing to have public ownership but politics would have to be kept absolutely out of the administration.

THE SUBWAY AWARD
The decision of the Board of Railway Commissioners for Canada, with reference to the St. Paul Ave. subway, will not go far enough in the estimation of some people, but the fact has to be faced that the G.T.R. had a hard and fast agreement with the city in connection with the closing. A quite general impression exists that the arrangement was part and parcel of the bringing of the main line through here. This is not the case. The mistaken concession was made some two years later, and all that the company conceded in return was to erect two turnstiles on either side of the track in order to permit pedestrians to cross. For this reason, the board holds that the G. T. R. cannot be forced to pay any part of a subway for vehicular traffic, but assesses them \$4,800 in connection with walks for pedestrians. The Board also offers twenty per cent of the cost out of the "Railway Grade Crossing Fund," but stipulates that the amount shall not exceed \$5,000. This restriction does not seem fair, in view of the increased cost of labor and material. Twenty per cent, without any set figure, would seem more like it, and the Courier thinks that representations should be made to this end.

A vehicular subway will cost probably \$50,000. Twenty per cent of the entire outlay would be \$10,000, which added to the order on the G. T. R. for \$4,800, would mean \$35,200 for the city to face.

THE SUGGESTION OF WELLS
Mr. G. H. Wells is in many respects, one of the most noted and largely read of modern writers. Anything which emanates from him is sure of a large audience, notwithstanding the fact that he has often dealt with visionary things. The most recent suggestion of that nature was his declaration that now would be a good time to get rid of the British monarchy. The proposal was on all hands received with a calm amusement which in itself betokened how thoroughly satisfied the people, who owe allegiance to the grand old Union Jack, are with the present arrangement. As a matter of fact the British Empire constitutes the greatest Republic in the world to-day, and is more truly that than even the great nation across the border. Under a limited monarchy, the occupant of Britain's throne has less personal power by far than the President of the United States. The latter selects his cabinet of secretaries of state, and they have no seats in, or responsibilities to Congress. As head of the state, he selects the men and then asks Congress to approve. A British sovereign, on the other hand, does not do any selecting, but it is guided by the recommendations of the Premier for the time being, and the Ministers thus named must have seats in, and be responsible to Parliament. The President, under the constitution, has a veto over the legislation of Congress and it takes a two-thirds majority in both Houses to over-ride any step he may take in that regard. The King cannot take any such course, and he is subjected throughout to such limitations as may be imposed by parliament. So the contrast might be extended.

That there should be public resentment against such oligarchies as that which existed in Russia, and growing discontent in Germany under the iron heel of the Hohenzollerns, is only natural, but no such feelings exist, or have cause to exist, under the British monarchical plan, for it spells the greatest individual liberty, and the most responsive answer to the demands of the people, of which the world has any record. There is small cause for wonder then, that the suggestion of Mr. Wells should have created hilarity instead of challenging serious public attention.

NOTES AND COMMENTS
Mr. Balfour is to address both Houses of the U. S. Congress, a distinction never before accorded a Britisher. He will fulfill the task, too, in Number One style.

The Turks have been driven by General Maude into the hills. That is a small incident alongside of the mountains of trouble in which they have for some time found themselves.

One Alderman in Kitchener is threatening bodily harm to another Alderman. He has been bound over to keep the peace. In the London Council they had a tumbler throwing episode not long ago. Alongside such things Brantford civic daddies are so well behaved that doves of peace should be located in the City Hall cupola instead of the pigeons which occupy the dome of Brantford's ornate civic pile.

Miss May doesn't warm up pretty soon to the wooings of Spring cupid will have to get some things on.

German authorities continue to tighten the censorship and the people their belts.

By all means take a speedy vote on the St. Paul Avenue subway and carry the measure. Hill residents have always been good to money by laws for the other sections of the city and the opportunity would be an excellent one to do them a good turn besides helping the Municipality generally.

Maude shattered the Turks at Shatt-el-adhem and also had 'em.

Local News

POLICE COMMISSIONERS.
A meeting of the police commissioners has been summoned for tomorrow afternoon, when the question of a salary increase to the men will be settled. Since the last meeting at which action was deferred, three men have left the force and the staff is as a result in a badly depleted condition.

COUNTY ROADS.
Government Inspector Hubbard, County Roads Superintendent A. J. McVicar, County Engineer Lee, the Warden and members of the Roads and Bridges committees of the County Council, are to-day engaged in making an inspection of the roads in the county, included in the Good Roads system. This morning the party went over the Burford Road.

RUBBER SOCIAL AT MARLBORO CHURCH
Successful Entertainment of Novel Order Held This Week

The Ladies' Aid Society of Marlborough St. Methodist church held a "Rubber" entertainment on Tuesday evening at which one or more pairs of rubbers was accepted for admission. A programme consisting of selections by the orchestra, an instrumental solo by the little Misses Smith, solo with piano accompaniment by Mr. Woodley, and a dulcimer solo by Mr. Page was given. The chair was taken by Rev. J. E. Peters, and the feature of the evening was an address given by Mr. J. L. Dixon, manager of the Bell Telephone Co., on the "World of the Telephone." Illustrated by a large number of lantern slides, through which Mr. Dixon outlined to the goodly number present, the development of the telephone from the date of its birth up to the present state of efficiency. A summary of this lecture has previously appeared in these columns, and those who have heard the lecture and seen the pictures illustrating the same, say it is intensely interesting to Brantfordites, and should be heard to be appreciated. The pastor on behalf of the ladies, tendered to Mr. Dixon the thanks of the meeting for his part in the entertainment of the evening. The mite boxes, which had been in the hands of the members for some time past were brought in and opened, when it was found a very neat sum had been realized to augment the finances of the church.

SHAKESPEARE DAY.
By Courier Lensed Wire.
London, May 3.—Shakespeare Day was observed today throughout England and France. All the schools in Great Britain held special exercises. The principal celebration took place in Kings College, London, in the presence of representatives of Great Britain, France and the United States. Ambassador Page made an address on behalf of the latter country.

The observance of the day in the schools partook of the character of a celebration of the new alliance with the United States. Emphasis was laid on the fact that all countries supporting the language of Shakespeare were now united for the first time in a war on behalf of the principles of democracy.

To The Editor

TWO QUESTIONS ANSWERED.
Brantford, May 3rd, 1917.
Editor Courier.

Dear Sir,—Will you kindly answer the following:
First—I see Chief Slenin says men are leaving the force because of lack of sufficient pay. What do they get?
Second.—Who were the members of the City Council at the time the closing of St. Paul's Avenue was put through?

Yours truly,
SUBSCRIBER.

(1.—Application at the City Treasurer's Department, shows that the following was the police pay sheet for April:
Chief of Police, \$179.17; three Sergeants, \$98.25 each; Truant Officer, \$90.00; two men \$78.00 each; one man, \$75.00; four men, \$72.00 each; three men \$67.50 each.

This represents thirty days' pay, and what the men would receive did they work the whole time. In addition to this, uniforms are supplied.
2.—The members of the City Council in the year named were as follows:—
Mayor, C. H. Waterous; Aldermen Lloyd Harris, (Chairman of Finance); Andrew G. Montgomery; Samuel Suddaby (Chairman Buildings and Grounds); William D. Schultz, (Chairman Manufacturers); John P. Fitcher, Samuel Hartley; Thos. L. Lyte, John Muir, Fred Corey, James C. Watt, Levi Fisher, John A. Leitch. Ed. Courier.)

YOU NEED A TONIC

Hood's Sarsaparilla, as a Spring Medicine, is the Best.

Spring sickness comes in some degree to every man, woman and child in our climate. It is that run-down condition of the system that results from impure, impoverished, devitalized blood. It is marked by loss of appetite and that tired feeling, and in many cases by some form of eruption.

The best way to treat spring sickness is to take Hood's Sarsaparilla. Ask your druggist for this old reliable family medicine. It purifies, enriches and revitalizes the blood. It is an all-the-year-round alternative and tonic, and is absolutely the best Spring medicine.

Get your blood in good condition at once—now. Delay may be dangerous. Be sure to get Hood's Sarsaparilla, nothing else can take its place.

PARIS BOARD OF TRADE TO ASSIST FOOD PRODUCTION
Decision Reached at Special Meeting Held on Tuesday Evening

TOWN COUNCIL MEETS
Recommendations For Alterations to Fire System

Paris, May 2.—(From our own correspondent)—A special meeting of the Board of Trade was held Tuesday evening, in the Council Chamber, with a good attendance of farmers, manufacturers and citizens. The object of the meeting was to discuss ways and means of assisting the farmers in securing help this summer. Addresses were given by Rev. Seton-Adams, Rev. J. H. Wells, Messrs. Numan, Davidson, Schuyler and several others, after which a committee was appointed to co-operate with Mr. Schuyler and the farmers in securing the necessary help for the farmers.

P. W. K. PARKER, Paris, formerly of the 58th Battalion, wounded at the front and returned home, having lost his left arm. He is employed at Fenman's and his family reside on Grand River St.

At the monthly meeting of the Town Council the following business was transacted.

Mr. M. Skelly, street and sidewalk inspector, was granted an increase in salary, starting from May 1st. The ratemakers on Elgin street, sent in a petition for cement walk. Referred to the streets and sidewalks committee.

The Salvation Army was granted \$25.00 to help carry on their work. A communication signed by all the merchants on Grand River St., was read, requesting that the street be kept in a more sanitary condition. Referred to streets and sidewalks committee.

Samuel Robinson, who rings the town bell, sent in his resignation, which was accepted.

The Imperial Oil Co. will supply the oil for the road at \$9.16 per barrel.

The Bell Telephone Co., asked for permission to erect some poles on St. Andrew St. Referred to streets and sidewalks committee.

Messrs. Simko and Sanole, in a communication stated the town's bill re the sale of the old market property on Main St. for building purposes, had received its three readings in the Legislature. The letter was filed.

The matter of renting the site to use the water power from Mr. Axton, to operate booster pump, pending change in equipment, was passed the sum of \$200 being paid for same.

The committee were also instructed to look into the question of certain ratemakers as to the bad drainage along Catharine and Ball Streets.

The following report was given by C. E. Walker, chairman of the fire committee:

Your special committee appointed to look into the question of fire protection conditions, beg to report that in so far as the booster pump is concerned they have concluded their investigations and now recommend to the council that the whole system be altered to correspond with the Hydro-Electric, that is to say, the present 60-cycle equipment be replaced with a 25-cycle and that the present motor pump, together with generator be sold. The Canadian Fire Underwriters' Association approves of this change. We would also suggest that the Hydro-Electric Commission be requested to undertake the purchase and installation of this equipment. We would also suggest that some arrangement be entered into with Mr. Axton that we might have the use of the water power until such a time as the new equipment is installed. This committee is not yet in a position to make any recommendations regarding the fire equipment. The report was adopted as read.

The security of houses was also brought up, as it was thought by Councillor Wooler that the council should do something in regard to this matter.

Mayor Robinson promised to look into the matter and see if the council had power to do so.

The meeting then adjourned.

Employment For Returned Soldiers

The headquarters of the provincial Soldiers' Aid Commission, Toronto, have written the local branch requesting that a detailed statement be returned to them showing the names of all the men who have returned and giving the number employed and those who have not yet secured work. It is pointed out that the work of assisting these men can be carried out much more expeditiously and efficiently if full particulars from all districts are available at Toronto. The headquarters office also ask that monthly reports of this nature be forwarded on to them. Mr. George Macdonald, local secretary, says that there is not a single man who had returned from the front and who has not been supplied with employment if he so desires. In fact there are many merchants and manufacturers who are anxious to secure the service of ex-soldiers, so much so, that the demand exceeds the supply.

Eye Examining

is one of the most important features of our profession, and we have made the human eye a study so that we might excel in our work. By understanding the eye, its structure and susceptibility to derangement, we are enabled, after examination, to fit the exact lenses that improve the vision and rest the organ. We are reasonable in our charges and prompt in service. A trial solicited.

BURDEN BORNE WITHOUT STRAIN

British Finance Carries Heavy War Loan Without Additional Forces

London, May 3.—Great Britain's war budget for the fiscal year which Andrew Bonar Law, Chancellor of the Exchequer, introduced in the House of Commons yesterday contained no surprises and few changes from the existing taxation than did the previous war budget. No new

forms of taxation were proposed. The only changes were increased excess profits tax, which was raised to 80 per cent. from 60 per cent.; the placing of excess profits on munition works on the same basis, an increase of tobacco duty by 10d in the pound, and increased entertainment taxes on the higher-priced tickets. Economy in the employment of ships by Government improvement of all vessels except small coasters at fixed rates of pay also was announced. In beginning his announcement of the budget, Mr. Bonar Law said: "There is ground for thankfulness that we are able to bear the financial strain laid upon us. These figures represent part of the price we have to pay for the greatest act of mankind, the greatest crime ever committed in the history of the world.

We can still say with our souls and consciences that it is a crime in which we had no share." Mr. Bonar Law laid emphasis on the statement that Great Britain was paying a greater share of her war expenses from her income than were the other belligerents. Higher Than Estimates. In opening his budget speech Mr. Law's first allusions were to the expenditures, which he said had been in actuality £372,000,000 higher than the estimate. The increase was largely due to expenditure on munitions and advances to the allies and Dominions. The estimate for the allies and Dominions had been exceeded by £100,000,000, but he was glad to say the Dominions had not only met but the power to supply so

much from their own resources that there was no increasing strain on the British exchequer during the last financial year. Loans to the allies had been £540,000,000, and to the Dominions £54,000,000. The total of advances and loans was £594,000,000. No New Taxes. Mr. Bonar Law said he had no new taxes to propose and additional taxes only in three cases. The national debt, Mr. Bonar Law stated, stands at £3,854,000,000, less advances to the allies and the dominions. The total of the five per cent war loan was £966,948,000 and of the 4 1-2 per cent loan £321,005,000. War saving certificates had produced more than £72,000,000. During the war, the Chancellor

added, the national expenditure had been £4,318,000,000, of which £1,137,000,000 was out of the revenue. The tobacco duty, he said, would be increased 1s 10d per pound, and the excess profits tax raised from 60 to 80 per cent. The 80 per cent. excess profits tax was effective January 1st last. The Government, continued the Chancellor, would requisition all ships and by this means it would take the excessive shipping profits. Mr. Bonar Law said the total estimated expenditure this year would be £2,290,381,000. The daily expenditure he estimated at £6,275,000. The Revenue Side. The Chancellor emphasized the satisfactory character of the revenue returns for the year.

If the revenue side was turned out, continued the Chancellor, a more satisfactory picture was presented. The estimate of £302,000,000 had been exceeded by £71,000,000. After giving the details of the increased revenue, the Chancellor said there were coming new taxations which he thought it necessary to impose. He agreed that the burden of taxation already was heavy, and that in whatever form it was raised it diminished capital for after the war purposes. On the other hand, a heavier national debt also was a handicap. He drew attention to the amount of expenditure being met by revenue and said no belligerent country could present such a satisfactory figure. Additions to Existing Taxes. Mr. Bonar Law said he did not pro-

pose any new taxes but only an addition to the three existing taxes. The first was the entertainment tax. It yielded last year £3,000,000. The additional duty would bring in a further £1,500,000. There would be no increase in taxes on the cheaper seats, but free tickets would be taxed. The second tax to be increased, the Chancellor said, was on tobacco. The addition would be the same as that placed on it last year, namely, one shilling and tenpence in the pound. This would bring an additional £6,000,000 more.

SPORTOGRAPHY

FOND OF FOSTER
 Manager Griffith was in a reminiscent mood recently. When the subject of place-hitting came up and Willie Keeler's name was mentioned, it was always at such a time, Griffith would be in the front with a generous smile for Eddie Foster.

He had had the three greatest place-hitters of the game on my mind. Griffith observed, "and I want to tell you that Eddie Foster is the greatest of them. Willie Keeler, Ed Chase, Willie Taught Hal, and I taught Eddie. Foster is the greatest batter I ever saw."

A pitcher usually can tell by the position of the batter's feet just how good he is. The hit and run with a good line on the plan of the batter by watching the latter's feet. If you see the right-hand foot set for an attempt to hit, you will find you can pitch fast in and nine times in ten he will get the air. So it goes.

But you can't do this with Foster because he shifts too late for the pitcher. The hit and run with a second, or with men on second and first, is a play at which all pitchers excel, probably does not see. The shortstop would be the runner and the third baseman would be over nearer his base than the force on a bunt, leaving a big space between him and short. These could hang the ball, though it hole better than any pitcher I ever saw, but Foster can do it all.

It is fairly easy to tell about this way to hit and run, but it's the most difficult thing in the world to teach a man to get that snappy motion, and shifting and balance, which all heavy hitting batters are never good place hitters, never dangerous in the hit and run.

ATHLETIC REVIVAL.
 Although the war has eliminated the major portion of athletic competition throughout the European continent, sport has not been entirely abandoned, and there is plenty of evidence to support the belief that there will be a general revival of athletic following the declaration of the physical condition of the troops have stated as their opinion that the training necessary to fit the young man for the modern battlefield has produced a new type of European manhood which will instinctively turn to sport with extraordinary zest as soon as arms are laid aside. It is athletic competition are constantly indulged in on all fronts in the firing lines, and these games are particularly enjoyed by both the French and British authorities. Football, baseball, golf, cricket, wrestling, boxing and foot racing are all popular among the soldiers of duty.

It is said that some remarkable performances are witnessed from time to time, when hand-to-hand, under the same conditions, as the games are played, and the fact that these nations are far more affected by the great conflict than neutrals at a greater distance and broadening of sport throughout this section of Europe is found in the recent Scandinavian Athletic congress held at Stockholm. This congress was formed at the suggestion of the Swedish Amateur Athletic Union and was attended by representatives from the athletic organizations of Norway, Denmark and Sweden. At this conference it was agreed that the new body should have full charge of all arrangements looking toward athletic meets between these three nations or with teams from other countries which may later desire to compete against an all-Scandinavian combination. A committee was appointed to prepare a new code of eligibility and competitive regulations that will be uniform throughout Scandinavia. It was informally announced that this step was deemed advisable in view of the athletic challenges which this association is prepared to issue following the close of the war.

CONNIE IS COMING.
 "Anybody who thinks that Connie Mack has not the makings of a dangerous baseball club," writes Walter Trumbull in the New York World, "is urged to help himself to several more guesses. In Bodie, Strunk, Thrasher and Melnis he has a quartette of able sluggers, and in Grover, Witt and Bates he has three highly fine-looking young infielders. If Mack's pitchers come through his team may cause considerable commotion in its league this season. One great asset these youngsters have is Schang, who will not only coach and steady them from behind the plate, but will also encourage them with frequent wallops at the bat."

Connie Mack's collection of ball players no longer can be regarded as a joke," says Innis Brown in the New York Sun. "Those who went to the Polo Grounds yesterday for first-hand information concerning certain reports of strength among the Athletics were impressed with the fact that Mack's aggregation is going to cause no end of trouble in the American League."

Early successes against the Senators started rumors of unexpected prowess of the Mackmen. An extraordinary victory over the Red Sox helped somewhat to confirm the rumors. Wednesday's belated rally which swamped the Yankees was jammed along toward providing a ponderance of evidence.

"Mack hasn't a finished, smooth-running ball club yet. At times the outfit allowed a few rough edges to protrude into view. But the power is there. Wednesday it was Schang and Melnis who did most of the heavy work. However, Strunk and Witt each struck in extra-base raps. Neither Bodie, Bates nor Thrasher, who are held as material members of the winning crew, came through notably, though Bates got one timely single. But this ensemble can thump the ball, and thump it hard, and many a pitcher's gaze is likely to become blurred watching their wallops before the season is over."

SEEDING BEGUN
 By Courier-Lessee Wire.
 Saskatoon, Sask., May 2.—Seeding began at the University Experimental Farm to-day, just two weeks later than in 1916, and four weeks later than in 1915.

Signing the check for \$2,000,000,000; U. S.'s first war loan to Britain. Left to right are: Lord Cunliffe, of the Bank of England, who came over with Mr. Balfour; Sir Cecil Spring Rice, British Ambassador, who signed the receipt on behalf of Britain; Secretary of the Treasury, W. G. McAdoo; Sir Hardman Lever and Sir Richard Crawford.

SCOTLAND

(From our own Correspondent)
 The Scotland Pleasure Club held one of the largest and best balls of the season in Van Dusen's Hall on Friday night last. The music was furnished by an orchestra from the city.

Mr. Ed. Catton has moved on Mr. Chas. McCombs' property west of the village.

So much backward weather is delaying the farmers very much with their seeding.

Mr. Peter Beemer is spending a couple of weeks with his daughters in Brantford and Burford.

The regular session of division court was held here before his Honor Judge Hardy on Friday last.

Mrs. F. Olmstead has moved into the house on Whitney St., lately vacated by Mr. Ed. Catton.

Mr. and Mrs. A. D. Campbell and Mr. Clare Miller of Kelvin spent a few days in the village lately, preparatory to leaving for their new home at Lawrence, Ont.

We are sorry to report that Mrs. James Cotton, who underwent a very serious operation in Hamilton the last of the week, is very low, with not much prospect of recovery.

Mr. R. Swears and family are moving to Oakland this week.

Electricity Practicable in Isolated Residences

Developments in Small Electric Light and Power Plants Place Labor Saving Appliances Within the Reach of All

"Two of the greatest advantages of city life, continuous water supply and electric service, can now be enjoyed, almost without care, in the most isolated places," states a well-known electrician.

He continues: "The development in small automatic electric light and power plants for service in places not reached by the lines of the central power companies have been very rapid in the last few years. What was a few years ago a complicated collection of apparatus requiring the attention of persons familiar with electrical contrivances, has been transformed and standardized into compact units that require little attention, yet giving all the satisfaction of continuous service from an outside source."

"In one of the new systems, the human element has been eliminated as far as possible. The credit of this accomplishment is due chiefly to the advent of the electric self-starting system as used by automobiles and the refinements in automatic switch-board instruments and electrical control devices. These have made possible a plant that ordinarily requires no attention for weeks at a time, and in what is known as the full automatic type, there is no necessity of going to the plant even to press a button, the full capacity of the machine being available at the turn of any switch."

An Automatic Plant
 Located in Basement
 The plant may be located in the basement of the house or in an out-building, and is very quiet in operation. A light or two can be left burning all night before the set will start itself and thus eliminates any objection to its operation, when persons are asleep.

"An automatic electric water system used in connection with such a plant will give a completely automatic service of electricity and water and brings two of the chief advantages of city life to the most primitive surroundings."

Useful on the Farm
 It means the elimination of filling and trimming kerosene lamps and replenishing candles and their dangers and dependence on uncertain windmills or laboring over balky pumping engines and allows the whole family to come and go from the home at will, saving hours of care and attention. With a comparatively small plant the ordinary chores of a farm such as operating a cream separator, washing machine, vacuum cleaner, or small machine shop can be accomplished and course the ordinary heating devices such as toasters and flat-irons and much other domestic equipment can be used."

ARE YOU GOING WEST THIS SPRING
 If so, bear in mind that the Canadian Pacific offers especially good train service, with the finest possible equipment, including standard and tourist sleeping cars to Winnipeg and Vancouver by one of the most picturesque routes in the world.

If a trip is contemplated, apply to any C. P. R. agent for full particulars or write W. B. Howard, District Passenger Agent, Toronto, Ont.

CUBS HITLESS IN TEN INNINGS

Remarkable Pitching Duel Between Vaughn and Toney

CINCINNATI WINNER In Tenth After Going Nine Frames Without a Hit

Chicago, May 3.—A world's record was established here yesterday in a ten-inning game between Cincinnati and Chicago, when, after the game had gone nine innings, neither club had registered a hit or run. Cincinnati won 1 to 0.

For the nine innings Vaughn, assisted by remarkable defence by the Cincinnati player to reach second base, and in this only slightly surpassed his pitching opponent, Toney, who allowed but one Chicago runner to reach second. Vaughn struck out ten Cincinnati batters, while only three were fanned by Toney.

The game was won when, in the tenth inning, after one was out, Kopf singled, advanced to third when Williams dropped Chase's fly, and scored when Thorpe hit a slow sander to Vaughn. Score: Cincinnati 1, Chicago 0.

Batteries.—Toney and Hahn; Vaughn and Wilson.
 At New York—New York and Brooklyn played a fourteen-inning tie game here yesterday, the score being 2 to 2. Both Schupp and Cheney pitched splendid ball, the Brooklyn pitcher being especially effective in the closing innings. Burns opened the tenth inning for New York with a double and the twelfth with a triple, but the succeeding batters could not score him. Errors by the two catchers, McCarty and Miller, enabled each team to score an unearned run. Score:—

R. H. E. Cincinnati 0000000001—1 2 0
 Chicago 0000000000—0 0 0
Batteries.—Toney and Hahn; Vaughn and Wilson.
 At Pittsburgh—Good pitching by Ames helped St. Louis to shut out Pittsburgh yesterday 4 to 0. Grimes also pitched well, but received poor support. Score:—

R. H. E. St. Louis 100002010—5 0 0
 Pittsburgh 000000000—0 2 3
Batteries.—Ames and Snyder; Grime and Fischer.
 At Philadelphia.—An error by Smith gave Philadelphia the run which decided yesterday's game with Boston 2 to 1. In the sixth, with the bases filled and one out, Bancroft scored on Whitted's sacrifice fly. When Whitted threw to Gowdy, Stoeck was caught between second and third. Gowdy threw to Smith, who held the ball and then threw over Konecny's head trying to extend Crawth going back to first base. Stock scored on the error. Score:—

R. H. E. Boston 010000000—3 5 2
 Philadelphia 0000000—2 7 0
Batteries.—Barnes and Gowdy; Deegher and Kilfer.

SOCCER TROUBLES.
 By Courier-Lessee Wire.
 Toronto, May 3.—The Baracac Soccer League and will remain in the T. and D. It is expected that the Beaches will also follow their lead in withdrawing from the league. This will leave the new league in bad shape, according to T. and D. supporters, who are forwarding a statement of their side of the case to President Campbell of the Dominion Football Association at Montreal.

FLOUR DROPS.
 By Courier-Lessee Wire.
 Winnipeg, May 3.—Millers yesterday announced a drop of fifty cents a barrel in the price of flour. This makes the price now \$6.40 for a ninety-eight pound sack.

Catarth Cannot be Cured
 with Local Applications, as they cannot reach the seat of the disease. Catarth is a blood or constitutional disease and in order to cure it you must take internal remedies. Hall's Catarth Cure is taken internally, and acts directly upon the blood and mucous surface. Hall's Catarth Cure is not an anti-catarth medicine. It is prescribed by one of the best physicians in the country for years and has regular prescriptions. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surface. The perfect combination of the few ingredients is what produces the wonderful results in curing catarth. Send for testimonials, free.

Take Hall's Family's Pills for constipation. Sold by Druggists, price 75c. F. J. CHENEY & CO., Props., Toledo, O. order—"really does" overcome indigestion.

'TIS A FEAT TO FIT FEET

Avoid Foot Troubles

By wearing properly fitting Shoes

It is a mistake to try to crowd a No. 9 foot into a No. 7 shoe. On the other hand if a shoe is too large it will produce corns and bunions just as surely as will a tight shoe. It is essential that a shoe be just the right fit if you wish to avoid foot troubles. If however, you have bad feet, produced by wearing ill-fitting shoes, then we are at your service with all the known appliances for such ills. Tell your foot troubles to us. We are here every day, and we consider it our business to know.

Wear shoes from the "better" shoe store—shoes that put the EE's in FEET.

TO RENT—Furnished for the season; desirable house with two and a half acres of ground. Situated on Silver Lake, Port Dover. Apply J. W. Brent, care of Ash Sons & Co., 11 to 13 Granville St., Toronto.

Homework

OVER \$2 daily easily earned at home on auto-knitters making war socks, experience unnecessary, distance immaterial. Enclose three cent stamps today for contract forms. Dept. 12 C Auto-Knitter Co., College Street, Toronto.

EXTRA MONEY, OR HOW TO "CASH" FORGOTTEN ARTICLES

First—Realize that there's real money laying around the house that you'd no idea of. There is!

How long since you took an inventory of the "odds and ends?" Some time, Eh? Take a quick one now.

Check up the old things down in the basement—the rocker, the davenport, the picture, the "almost anything" that has been discarded or replaced. Thousands of people need these very things—glad to get them and pay for them, too.

Why not "cash the odds and ends?" This is what Want Ads are really for, if people only knew it; and you might just as well "get what they're worth" as to throw them out.

Why not!

STENOGRAPHER OF CANADIAN NORTH WEST LAND REGULATIONS
The sole head of a family, of an early 18 years old, may be licensed a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any Dominion Lands Agency or Sub-Agency, on certain conditions.
Duties—Six months residence upon and cultivation of the land in each of three years. A homestead may live within five miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.
Live stock may be substituted for cultivation under certain conditions.
In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$300 per acre.
Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$200.
W. W. COET,
Deputy Minister of the Interior.

Weather Bulletin
Toronto, May 3.—There has been a very little change in the weather here since yesterday. The sky is clear and the sun is shining brightly. The temperature is in the 60's and 70's. A light breeze is blowing from the west. The weather is generally pleasant. A few showers are expected for the remainder of the week.
