

THE ACADIAN.

WOLFVILLE, N. S., NOV. 4, 1898.

Town Council Meeting.

The regular monthly meeting of the council was held on Wednesday evening...

The Police Committee reported that \$25 had been received from licenses during the month.

The following accounts were read and ordered paid:

Table with 2 columns: Name and Amount. Includes Acadia Electric Co., Wolfville Coal & Lumber Co., Star, Son & Franklin, etc.

A letter was read from the city clerk of Charlottetown re curfew ordinances...

A communication was read from Messrs Snow and Barber, civil engineers, of Boston, regarding sewerage.

Letter was read from Mr S. C. Parker, secretary of the Nova Scotia Fruit Growers' Association...

A proposition was made by Couns. Harvey, chairman of the Police Committee, to provide a residence for Policeman Quipp in the town building.

The Mayor reported to tenders for \$1000 debentures from Messrs Jack & Bell and Mr J. C. Macintosh of Halifax.

Resolved that Mr Macintosh be notified that his offer of 107 1/2 per cent. with accrued interest on one thousand dollars debenture be accepted.

What Gold Costs to Get.

When Sir Charles Tupper remarked during the Yukon debate, that a dollar to get the statement was ridiculous in some quarters as absurd, but a calculation just published by Mr. Mooreton...

The heavy fields of gold are exceptional, and had befall a few lucky people. Every prospector hopes to be one of these few exceptions...

United States general elections take place next Tuesday and both parties are closely figuring on their chances for a majority.

The exhibition commission met last week in Halifax and received, considered and took action upon reports concerning the finances of the late Provincial Exhibition.

A volume of poems entitled "A Treasury of Canadian Verse" is to be published early in the coming year.

The Apple Crop.

According to the Orange Judd Farmer, the apple crop of the United States is much smaller than it has been for a number of years.

At the leading trade centers the receipts of apples are moderate, and the offerings of strictly choice to fancy qualities are taken quite promptly at firm prices.

New York market reports state that really fancy apples are meeting a good outlet at very satisfactory prices, but the market is rather slow for medium grades.

Popular Reading.

We have received from The Poole Printing Company, Limited, Toronto, Ont., a copy of "His Brother's Keeper," by Charles M. Sheldon...

The result of the plebiscite vote announced five weeks after polling, is probably correct. In the whole it agrees fairly well with the statement made in our columns the morning after the poll.

Warren Guy's Campaign.

Friday's St. John Record says: "Harry C. Lydiard, owner of Warren Guy, 212 1/2, arrived in the city to-day, and will remain here a few days, previous to his return to Kentville, N. S."

The exhibition commission met last week in Halifax and received, considered and took action upon reports concerning the finances of the late Provincial Exhibition.

There is a deficit of \$5,061.97 which is proposed to carry over as a charge against the exhibition next year.

The Exhibition Deficit.

There is a deficit of \$5,061.97 which is proposed to carry over as a charge against the exhibition next year. This deficit is entirely attributable to the rainy weather of exhibition week, and to guard against such losses in the future the president of the commission stated that the exhibition next year would have to be held a week earlier or later in hope of having fine weather.

A volume of poems entitled "A Treasury of Canadian Verse" is to be published early in the coming year. It is in press now, and is to be issued simultaneously in the United States, Canada, and Great Britain.

Mr. Archibald Forbes, the well known Scotch war correspondent, has just published an interesting book called "The Black Watch." It is the history of a famous Highland Regiment, which has seen service in every quarter of the globe during the past 150 years.

THE NEW REMEDY.

Nature is full of hidden forces that are being utilized and yet to be utilized for the benefit and upbuilding of mankind.

One of the most important of these recent dates is Prof. Warner's Liquid Ozone. People are talking about it wherever it has been introduced. It is selling more readily every day, and even in places where it has not been advertised, from one person telling another of the benefit received.

It is a great tonic and builds up the system and thereby throws off disease. It is good for almost any complaint, but particularly effective in Dyspepsia, and general debility, and is also a great remedy for sore throat, bronchitis, etc.

Now is a good time of the year to take it, and fortify the system for the winter. Get a circular at the druggists, which tells all about this wonderful remedy, and try it, and you will see that it all more than is claimed for it.

Academy Home, Wolfville.

On looking over the ACADIAN of Oct. 28th, we find a piece written by a visitor of H. C. A. concerning the home life of the students, and particularly about the board provided for us in the Home.

We have no objection to the first part of that article, but the last part we do not feel like letting slip without a word. We deem it an insult when the writer intimates that some either in the past or present come from half starved homes.

People who half starve their families are too mean to send their children to a boarding school. If they wished their children to be educated, they would either send them to some county academy where they would have access to their own home starvation fare, or would hire some room in a barn and starve them outright.

The friends of the "Forward Movement" will be glad to learn that the amount pledged has reached the sum of \$56,000, within \$4,000 of the amount which Dr. Trotter set out to raise.

The Note of Thanks.

Just a word girl, about the gentle art of writing a graceful note of thanks. Do not be chary of such notes.

It's an art, this art of writing a brief word of thanks, says an exchange, but it is one which every gentleman should cultivate.

You go out of town, perhaps, and stay overnight, with a friend, and if you wish as pleasant a memory of your visit to linger with your hostess as with yourself, you should write a line repeating to her your spoken thanks.

Then, again, if a man sends you a book or a clipping from a newspaper, or a card for a subscription on ladies' day, write that word of thanks, even if you have to get up in the middle of the night to do it.

For Tired and Run-down Wives and Daughters.

MISS MADEL JENSON, whose wonderful system for the correct training of women and girls is so well known all over the North American continent, is a firm believer in the virtues of Paine's Celery Compound.

"I was induced to try Paine's Celery Compound at a time when I was suffering from overwork and the effect of an accident. I began immediately to realize tonic and blood-nourishing effects.

"I have not been able to take one day's rest since I returned from my long, hard western trip. I am sure were not for Paine's Celery Compound, which has a tonic effect, I should not be able to keep up my work here.

Man in His Home.

Too many men seem to have the idea that they can drop into constant drowsiness and churlish moods at home with their wives in any other place.

A laughable mistake. A book-agent, who was wearing a small circular piece of court-plaster on his face, removed it while having a few sayings since, and replaced it when his toilet was complete.

A Diamond Mine. A diamond mine! Where? Right here in our own Canada, and worked for the benefit of all economical homes.

Teacher—Now, children, we all know what the word poetry means, do we not? Pupil—Yes, ma'am.

Teacher—Well, then, write a sentence containing the word poetry in five minutes later. Now, Johnnie, you may read yours.

A novelty in stoves has just been experienced at Swansea workhouse, the inmates of which have revolted against attendance at religious services on Sunday evenings, and being satisfied with the officiating hymns.

The Mayor City (Ky.), Council has passed this ordinance: "If any person shall tie or fasten any rattle box or similar contrivance to any dog or other animal within the city of Murray he shall be fined \$1."

The Imperial authorities contemplate it to send the erection of strong fortifications in St. John.

Saltire is like a mustard plaster—we don't feel the salt until it is applied to ourselves.

An Engineer's Story.

SUFFERED THE PANGS OF RHEUMATISM FOR YEARS.

Was Reduced From Weighing 180 to 130 Pounds—His Friends Feared That Recovery Was Impossible—Now Actively Attending to His Duties.

From the "Glad Free Press." Alexander McKenzie is one of the well known residents of Brookholm, Ont., where he has lived for many years.

A few years ago it was thought that an early grave would be his; on the contrary, however, he is now stout and strong, and the story of his recovery is on the lips of almost all the citizens of that burgh.

Next meeting in Temperance Hall, Thursday, Nov. 10th, at 3.30 p. m. The meetings are always open to any who wish to become members. Visiting members of other W. O. T. Unions are cordially welcomed.

Cigarette Smoking.

Selma Severn, M. D. queries: "What is there about tobacco smoke so injurious to the young?"

Upon the nervous system, nicotine has a decided effect, the pupils of the eyes often becoming dilated with obscenity of vision, specks before the eyes, and sometimes deep seated pain.

He was pulled down from being a stout man of 180 pounds to about 130, and so thin and miserable that all who knew him thought it would be only a matter of a short time until he would be in his grave.

Almost at once a change was perceptible, and as he kept on taking them, the improvement continued, and he was soon able to be about.

There are two classes of people that particularly need our kindness, the very young and the very old; those that have borne the heat and burden of the day, and are walking along through the twilight looking for a place to rest.

Do you know what happened in London on the day of Garfield's funeral? A great bell there—the Royal funeral bell, that was never rung before, except when kings and queens died, was tolled for him the day that he was buried.

Some undergraduates once wished to play a practical joke upon a man who was a disciple of Pygmalion, so one day when he was a little sleepy by reason of the amount of brandy and soda that he had imbibed, his friend amused him with a little practical joke.

Men said to-day of one who sinned, "What a day!" This means? What sudden madness overtook His brain, that in a moment he forgot the rectitude which until yesterday had made his life a beacon by the way to common sense? I answered, "No."

Downfall.

Christ is tolerant of any feebleness or slowness, but not of any abandonment of the desire and design. No prospect that of this must bound our views.

For ease white and still, and seems a part of the eternal Aps. But at its heart Each hour some atom noiseless jars and slides.

Christ is tolerant of any feebleness or slowness, but not of any abandonment of the desire and design. No prospect that of this must bound our views.

A brand of whiskey is advertised called "The Horn of Plenty." A writer remarks that they have chosen the name wisely—for out of the thing designated shall come:

Plenty of poverty, plenty of pain, Plenty of sorrow, plenty of shame, Plenty of hook and beauty, hopes doomed and sealed.

It is a waste of breath for the mother to warn her boys against the cigarette, while their father is puffing away at a pipe.—Ben's Horn.

Minards Liniment Cures Distemper. Caller—Mrs de Styles is not in, you say? Why, I saw her through the window as I came up the steps.

"Sometimes," said Uncle Eben, "er young man dat hab a lot o' push makes de mistake ob applying 'is all set ob bicycle ob pleasure 'mid 'eravin' some fob de wheelbarrow ob necessity."

Little Boy—Isn't fathers queer? Auntie—In what way? "When a boy does anything for his pa, he doesn't get anything, but if another man's boy does it he gets a nickel."

Minards Liniment Cures Colds, etc. "What is the name of your dog, sir?" inquired a visitor.

"The name was William," said the host, "until he had fits, and since then we have called him Fitz William."

"What did you find to be the dark side of army life?" asked one of the neighbors who had dropped in. "My inside," replied the grunt soldier just back from the front.

Dolly—Papa, do they get salt out of Salt Lake? Papa—Yes, my dear, large quantities. "And ink out of the Black sea?"

Foreigner—Vot you mean ven you say I learn the langwisch like a big phony? Native American—That isn't what I said, I said you were learning it in great shape!

"Why, Freddie," exclaimed the mother of a precocious 6-year-old, "aren't you ashamed to call Auntie stupid. Go to her at once and tell her you are very sorry."

"Auntie," said the little fellow a few minutes later, "I'm awfully sorry you are so stupid."

"I'll tell you one thing," said Madpop to his long-suffering wife, "if Willy does not behave himself, I'll give him the worst spanking he ever had. He'll get it in the neck."

"Do be serious, my dear," replied Mrs Madpop. The neck is no place on which to spank a child.

BADDECK, June 11, 1897. C. C. RICHARDS & CO. DEAR SIRS,—Minard's Liniment is my remedy for NEURALGIA.

Scraps for Odd Moments.

Mark Twain says: There are two times in a man's life when he should not speculate—when he can't afford it, and when he can.

Miss La Fille—Mr. Spooner is a model husband. Dr. White—Yes; they say he treats his wife as if he were a candidate for election and she were a voter.

Miss Spinster—I think it very impolite for a gentleman to throw a kiss at a lady. Miss Flippant—So do I. He should deliver it in person.

Little Boy—Isn't fathers queer? Auntie—In what way? "When a boy does anything for his pa, he doesn't get anything, but if another man's boy does it he gets a nickel."
