

INDIAN ON THE WARPATH.

Navajo, Indian War Chief, Runs Amuck at Cincinnati.

With a Yell He Fatally Cut and Slashed a Woman

And Wounded a Man—Spectators Overpowered Him.

Cincinnati, Feb. 22.—With an ear-splitting warwhoop, a Navajo Indian war chief ran amuck in the Union Station yesterday and fatally stabbed and cut Mrs. Anna Devord, of Huntington, W. Va., and Max Meyers, of Cincinnati, and seriously wounded Joseph W. Gordon, of Cambridge, Ill.

The Navajo, with four Sioux chiefs from Kansas, alighted from a crowded Chesapeake & Ohio train. As the passengers stepped from the train the Indian, with a yell, drew a long knife and started through the crowd, slashing right and left.

Mrs. Devord was walking along the station platform with a child in her arms. The Indian had buried the blade in her back, and then slashed her across the body and arms. She fell insensible to the platform. The child was not hurt. After the Indian had attacked Gordon and Meyers, the passengers rushed on the madman and hurled him prostrate to the platform. He was taken in charge by the police.

The Indian, who had been to Washington to see the Secretary of the Interior, was taken while on the train, passengers say, but he evinced no signs of frenzy until the passengers were leaving the train.

G.T.R. MEN'S TRIAL.

Manslaughter Cases at Guelph Over Harrison Accident.

(Special Despatch to the Times.)

Guelph, Feb. 22.—A great deal of interest is being taken in the manslaughter charges, which are to be heard at the Assizes here this week, against the six Stratford trainmen who formed the crew of the freight train which caused the head-on collision at Harrison, when two lives were lost. The court opens this afternoon and besides the manslaughter count the jury will also consider breach of jury, negligence, etc., as alternate charges. There are many witnesses to be heard and the men will be called upon to testify against one another. The counsel are, N. Jeffrey, Guelph; J. W. Makins, Stratford, and T. C. Robinette, Toronto, will assist in pleading the case of Conductor Fleming.

CANADA'S VALUE.

Britain Would Not Spend \$5 to Hold Her, Says Lecturer.

New York, Feb. 22.—"In case of emergency Great Britain would not spend \$5 to hold Canada and Australia as her colonies," said Dean I. W. Russell, of the university law school, in a speech before the People's Institute last night. "As a matter of fact, England has found the United States a much more profitable friend of hers as a separate nation than as a vassal, and she might not be unwilling to lose the Dominion and the antipodes on the same ground."

ICE PALACE.

Weather Too Hot For the Montreal Winter Carnival.

Montreal, Que., Feb. 22.—The winter carnival, which was held here from the 10th to the 12th of this month, has proven a failure. The weather was so mild that the ice palace collapsed. Fortunately no one was injured. The spring-like rains spoiled the torchlight procession and balloon ascension. Citizens here suggest that in future attention be paid to sports not dependent upon cold weather.

SYLVIA'S WEDDING.

Hetty Green's Daughter May be Married To-morrow.

New York, Feb. 22.—The World declares itself to have learned from an excellent authority that the much talked of marriage of Miss Sylvia Green, daughter of Mrs. Hetty Green, to Matthew Astor Wilks, of this city, is to be celebrated to-morrow morning. When a reporter called at Mrs. Green's home in Hoboken last night, she declined to either affirm or deny the report.

ANOTHER WARNING.

Six Persons Crushed to Death in Moving Picture Panic.

Tulla, Russia, Feb. 22.—Six persons were crushed to death and thirty were seriously injured here to-day during a fire panic in a moving picture theatre. The film of a machine caught fire, starting a rush of spectators for the exits.

Preservation.

A beautiful set of teeth is one of nature's best gifts. It is up to you to keep them beautiful, which you can easily do by using a good tooth brush and Parke's Thymol Footh Paste. This paste is an antiseptic and cleaning preparation which keeps the tartar and decay from the teeth, 15 and 25c per cake. Parke & Parke, druggists.

CATHOLICS AND SECRET SOCIETIES

The Subject Dealt With Again in the Lenten Announcements.

The remarks made by His Grace Archbishop McEvay recently when addressing the Catholic Mutual Benefit Society in Toronto, and a hint from the pulpit in St. Mary's Cathedral yesterday, have caused local members of the Knights of Columbus to almost abandon hope of getting the church authorities here to sanction the organization of a council in the archdiocese, of which Hamilton is a part, and it is said that the advisability of carrying an appeal to Rome is being seriously considered by those who are anxious to see the order established here. The idea is to get prominent Catholics in Toronto, Hamilton, London, St. Catharines and other parts of the archdiocese to join in a petition to His Holiness the Pope. It is said that the highest church dignitaries in the States approve of the order, and that many of them belong to it. In Hamilton there are about thirty members of the Knights of Columbus associated with different councils scattered throughout the country. The society has long been knocking at the door here, but has always been barred.

Condemning secret societies in connection with the annual Lenten announcements in St. Mary's Cathedral yesterday morning, Rev. Dean Mahoney, the rector, at the high mass, called the attention of the faithful to the secret organizations on which the church had placed the ban of excommunication. He declared, committed spiritual suicide. While not naming the Knights of Columbus, there is every reason to believe that it was the order to which the speaker referred when he spoke of societies composed exclusively of Catholics, which did not have the approval of the church authorities here; societies which insisted on appointing their own chaplain. This was a religious office, and the appointment should rest with the church authorities. No Catholic society had a right to organize as such without the sanction and approval of the bishop. The application must be made in the regular way to the head of the diocese, and await his approval.

Catholics were also warned against attending public amusements during the Lenten season. Parents were advised to exercise supervision over the literature read by their children, and regret was expressed that the papers and public libraries were often filled with literature calculated to poison the faith and morals of young people. Satisfaction was expressed that afternoon funerals for adults has practically become a thing of the past with Catholics, and that the old custom of flowers at funerals was being abolished and replaced by spiritual bouquets—flowers that never fade.

The faithful were exhorted to attend the devotions during the season, and to hold family devotions at home. The regulations governing Lent are the same as in former years. All those over 21 years of age and under 60 are obliged to abide by them, although the clergy have power to grant dispensations. There will be special services on Wednesday and Friday evenings throughout Lent, benediction of the blessed sacrament following the rosary on Wednesday, and the stations of the cross on Friday.

At 7:30 yesterday morning mass was celebrated in the cathedral on the new Sacred Heart altar for the benefit of all the benefactors.

Yesterday afternoon the cathedral was opened for inspection, and between the hours of 2:30 and 5 o'clock was visited by hundreds of people.

A mission for men will open in the cathedral on March 14 and last a week. It will be conducted by the Redemptionist fathers.

VOICE FROM PEW.

Eulogy of Roosevelt Interrupted in New York Church.

New York, Feb. 22.—"I make a point of order!" was the interrupting cry that came from an excited man in the body of St. Bartholomew Church on Madison Avenue yesterday while Rev. Percy Stickney Grant was lauding President Roosevelt in a sermon to the Sons of the Revolution. The occasion was the nineteenth annual church service of the society.

Mr. Grant had just referred to President Roosevelt as one of the four great presidents when the interruption came. All eyes sought the individual who had made the objection, but few saw him, as he did not rise to his feet. Instantly there were cries of "Be quiet!" "Get out!" and a score of hisses. The would-be objector took heed of the cries and subsided, the incident ending right there. Rev. Mr. Grant quietly continued with his eulogy.

SEEKS \$200 DAMAGES.

Chisholm & Logie issued a writ this morning, in the county court, against the Hamilton Gas Light Company, on behalf of R. J. Cox, for \$200 damages for personal injuries. On December 23rd last, Cox was unloading a car of coal at the company's yards. While the hopper, which conveys the coal from the car to the pile, was in mid-air, a lump of coal weighing about 75 pounds, fell and struck him on the head, inflicting serious injuries, which laid him up for some time.

Baby in Box

New York, Feb. 22.—A fine, healthy boy about five days old, was found in a confessional box yesterday afternoon in St. Joseph's Roman Catholic Church.

The Rev. Father Doyle was baptizing some children at the time and the baby was taken to him and baptized with the name of Michael Joseph. The youngster was taken into the priest's house and the police were called. The baby was taken by them to Bellevue.

SHOT CONSTABLE.

Berlin, Ont., Lad May Recover From His Wounds.

Olean, N. Y., Feb. 22.—Nelson Dessler, who killed Police Captain Hassett yesterday morning, rallied well after an operation at the General Hospital last night, and the doctors say he will recover unless gangrene sets in. Three bullets were removed from his abdomen, but none of the intestines, it is stated, were pierced. The fourth bullet, which had pierced his thigh, was found in his shoe.

Paid \$100 For a Cat

Beamsville, Feb. 22.—Mr. A. E. Field-Marshall, one of the most expert judges of cats in the United States and Canada, returned to his home here on Saturday night after a record judging tour. In a little over a month he travelled twelve thousand miles, and awarded the ribbons among two thousand pussies in the shows of Los Angeles and San Francisco, Cal., Grand Rapids, Boston, Chicago, Cleveland and Columbus. The clubs of five cities across the line have already engaged the services of Mr. Marshall for next winter, although they have set no dates as yet for their shows. On his way through Detroit Mr. Marshall purchased for \$100 a champion brown Persian tabby from Mrs. Harvey, a well-known fancier, who is going to the State of Kansas to live.

"I found the liveliest interest imaginable, more so than at any other time, among cat fanciers. It is taking a very strong hold, and I expect in a few years to see the number of exhibits equal to the dog shows," said Mr. Marshall.

The largest show this judge had on his circuit the past season was the one at Syracuse.

THE MAN IN OVERALLS

"The Earl's Mistake." Our new story will be begun on Thursday. It is a pure, fresh love story, with enough of incident to give it the proper snap and go.

Does the Public Library Board want its full pound of flesh, too? I suppose so.

If we don't get any ice off the bay this winter, what will the girls do for ice cream next summer? Any answer?

Allen Studholme is still the champion Marathon talker in the Legislature, Joe Downey being a poor second.

Just as Inspector Birrell thought he had everything running smoothly in his department, up jumps the Spectator and demands his head on a charger, just as if it were doing the Salome dance.

Never let a day pass without doing something to help the other fellow. If you only knew how some people hunger for a little encouragement, and how much good it may do!

Our new story, "The Earl's Mistake," is one that will certainly please our lady readers. There is not a dull or questionable line in it, begins on Thursday. Look out for it.

I sometimes wonder if the minister really means and believes all he says on Sundays. Do you?

What's the sense in filling in the Coal Oil Inlet when it might be sold as a go-penny concern as a swimming hole?

Don't be afraid, Mr. Champ. Go up and speak to the boys you think belong to the Labor men.

We are certainly much obliged to those civic officials who graciously state that they will wait another year before asking for a "raise." It will give us time to earn the money to pay them.

I notice also that phonographs are taking the place of musicians, and pianos go by steam or some other motive power.

This is the night the City Engineer will have to fight for his life. Hear his defence.

Wiping out the school fees did not help the working man any. Those who own their houses will have to make it up in their taxes and those who do not will have to pay it in their rent.

Don't you think a Labor man ought to have a position on the Industrial Committee? Sometimes firms ask questions as to the labor situation.

Perhaps if the City Hallers were properly unionized they could dictate terms to the employers as to the scale of wages they wanted.

Better see what Whitney can do about technical education before you ask Sir Wilfrid for assistance. What does Whitney do with all the money he gets from friend Laurier?

Now let us have an early closing movement this spring. Both the bosses and the clerks will be all the better of it.

By way of boosting business and incidentally the city, I would suggest that the factories and foundries get a gait on.

Irish Twist Tobacco.

Genuine imported Irish black twist tobacco in the original roll is sold in this city at peace's cigar store. The Irish twist costs 10 cents at the headquarters, 107 King Street East.

JACK THE RIPPER.

Berlin, Feb. 22.—In a continuance of the so-called "Jack the Ripper" attacks a woman, who had previously been stabbed on Feb. 16th, was slightly wounded in the thigh this morning. The "ripper" escaped.

The monthly parlor meeting of Central C. T. U. will be held at the residence of Mrs. Overholt, 85 Victoria Avenue North, to-morrow afternoon.

WILL ASK COUNCIL TO BE SPECIFIC.

City Engineer Barrow Will Demand to be Heard in His Own Defence.

The chief feature of to-night's Council meeting will be the recommendation of the special committee that A. B. McCallum, of Toronto, be appointed city engineer. Opinion is divided to-day as to what the result will be, although City Engineer Barrow's friends are satisfied that he has more than a fighting chance. They base this on the fact that those who favor reorganization are divided as to who the new man shall be. Mayor McLaren this morning refused to propose, but he declared that in his opinion the people should turn out of office every alderman who votes to retain Mr. Barrow. "It is not right," he said, "to ask me to take the people's money and try and give them results with a department run in such a slipshod manner as is the engineering department. I want to give the people results. If the treasurer's department was run like the engineer's department with such a want of control and with so little apparent interest, how long would the people stand for it? What difference is it when it is the engineer's department? I believe there is a crying need for a change, and that 75 per cent. of the people demand it."

Mr. Barrow will probably ask permission to-night to address the Council. If it is granted he will demand that the specific reasons for which his scalp is being sought shall be set forth. The engineer's friends say that in the fight

to oust him all kinds of generalities have been indulged in, but no straight charges have been made.

About the only other matter that there is likely to be much discussion over to-night is the question of calling for tenders for the civic fuel supply. The Fuel Committee will recommend that the present arrangement be continued, and Mayor McLaren will support it. Some of the aldermen think, however, that tenders should be asked for, and there may be a lively debate. There may be some objection to raising the tax rate to twenty-one mills, but the majority of the Council is committed to it. An effort may also be made to bow out the salary increases, but a majority of the aldermen are also said to be committed to granting them. As the Council is not likely to decide to-night to submit the plebiscite to the people on the power question, there should be no discussion over it. The new street railway agreement, providing for the reconstruction of the roadbed, will likely be approved without objection.

The Board of Education has sold the old Hugbison Street School, which was recently closed, to the Ferguson Avenue Baptist Church, for \$2,100, the reserve bid. It is understood that the building will be remodelled for church purposes.

Secretary Foster, of the Board of Education, has received a telegram from Dr. Pyne, Minister of Education, saying that he will be pleased to meet the department.

ACCUSED OF STEALING IT.

McCarthy and Rock Alleged to be Jewelry Thieves.

Foreigner Accused of Using Knife in Street Row.

Regular Blue-Monday List at Police Court This Morning.

Police Court, this morning, was a regular blue Monday affair, and the dock and backbenches were filled by a sleepy looking crowd. For the first Monday in a long time there were no women in the dock and Magistrate Jelfs commented favorably on this. Two young men of respectable families were arrested on Sunday morning on a charge of theft, at Niagara Falls, Ontario, by P. C. McNamara. They were brought back here by Detective Campbell last evening, and this morning appeared at court. The pair are Thomas McCarthy, 174 MacNab street north, a young man who has been in trouble of a serious nature before, and Edward Rock, Market Square, and the charge against them is that they stole \$193 worth of jewelry from the Canada supply Co., on Saturday. The police state that the young men had a duplicate key to the office of the company, a jewelry concern at 90 1/2 King street east. To Detective Campbell the men were alleged to have stolen the theft and said they were drunk at the time. The way the local police got wise to the pair was through reports that they were attempting to dispose of jewelry on James street on Saturday night. They were both drunk but were wise enough to skidoo before the police arrived. The police immediately notified the surrounding towns of the names and descriptions of the men, and they were nabbed as they got off a train at the Falls yesterday morning. Chief Mains notified the local police at once, and Detective Campbell went after the men. The police believe the lads hid a lot of the jewelry in this city before leaving, and all that was found on the pair was a lady's gold watch in one of their pockets. This morning at court they were granted a remand till Friday. George S. Kerr, K. C., appeared for them. "John Toner, K. C.," called Sergt. Moore, and this pair stood

CAUGHT SIX.

Sunday Fish Spearers Fined But Money Returned.

Game and Fishery Inspector Kerr was busy on the bay yesterday, and arrested six men, accusing them of spearing without licenses. He made the rounds of all the huts and looked into several tips he had received, with the result that the half dozen were nabbed. This morning four of them were fined \$5 each by the inspector himself, and the other two will get a like dose when they appear. The names of the six are Bert Duckworth and Robert Norton, Dundas; W. Clendenning, Niagara Falls; C. C. Moore, York street; W. Potter, 110 Hugbison street north, and W. Franks, foot of Catharine street.

The two Dundas men did not appear this morning, but the others pleaded guilty and paid their fines. They also took out licenses. The fines were given back to them later, and entered on the books as "suspended," owing to this being their first offence. The inspector and his son had to pry Potter's house over before they could get at him. The spears were all seized, the houses locked and the keys seized, but they were given to the men this morning when they took out licenses.

TWO DEATHS

Of Respected Residents of the Fruit Section.

(Special Despatch to the Times.)

Beamsville, Feb. 22.—Two respected residents of the fruit section have been called away. Rev. W. J. Andrews, a retired clergyman, and one of the largest fruit growers in Clinton Township, whose fruit farm is about two miles north of Beamsville, on the lake shore, died yesterday. He came from England with his family about ten years ago. Mr. Andrews was 62 years of age, and leaves a widow, two sons and three daughters. Mr. J. B. Grobb, of Camden, 60 years of age, died yesterday. He was night mail carrier between Beamsville and Camden, and was very highly respected.

EARLY START.

Gurney-Tilden Company Hopes to Begin This Week.

Although the wages question is still unsettled, some of the stove firms in this city are making preparations to re-open their shops. The Gurney-Tilden Company expects to make a start on Thursday of this week. It will be in a small way only, but the intention is to increase the output without much delay until the shop is running at full capacity. The foundrymen have received no official word from the men, and the union has received no further proposition. The intention of the foundrymen, when they open, is to work on the old scale, but with no bonuses, according to their late proposition. An advertisement for moulders for Hamilton is running in one of the Toronto papers.

BISHOP SWEENEY

Will be Consecrated as Bishop of Toronto on March 25th.

Ottawa, Ont., Feb. 22.—The new Bishop of the Anglican Diocese of Toronto, the Venerable Archbishop Sweeney, will be consecrated in his new position on March 25 next. This is the decision of the Bishop of Ottawa, senior bishop, whose duty it was to decide this.

Mr. and Mrs. P. D. Crerar will return from Kingston this evening. Their son, H. D., who was so severely injured last Thursday, has sufficiently recovered to be able to travel, and they will bring him home with them.

RACE RIOT IN OMAHA.

Crowd Averages Murder of Policeman by Greek.

Buildings Wrecked in Greek Quarter and Many Free Fights.

Row and Cry of "Kill the Greeks" in Kansas City.

Omaha, Neb., Feb. 22.—Bent on avenging the murder of Patrolman Edward Lowery, who was shot on Friday night by a Greek prisoner, some 3,000 men and boys yesterday partly wrecked thirty buildings in the Greek quarter of South Omaha and created a riot, during which two boys were wounded with birdshot and a dozen other persons were injured with the missiles of various sorts used in smashing buildings occupied by Greeks.

The riots followed a mass meeting at which two State legislators and an attorney harangued the crowd. The police were helpless for almost three hours to disperse the rioters, and Greek residents and business men, with their wives and children, fled in panic from the quarter attacked while the mob wrecked vengeance on property, hurling stones and bricks through windows and destroying the stocks of the stores. The mob assaulted many Italians and Roumanians, who were mistaken for Greeks. The police finally called in sufficient numbers to surround every home and business place of the Greeks, but it was nearly impossible to keep back the crowd.

MANY WERE HURT. The disorders which took place in the Greek quarter of South Omaha on Sunday afternoon did not subside until an early hour this morning and the roll of casualties is five persons suffering with gunshot wounds, eleven Greeks so badly beaten that they were taken to hospitals for treatment, and about fifteen other persons suffering from assaults or as the results of misdirected missiles intended for the Greeks on whom the wrath of the horde was centred.

No estimate can be placed on the financial loss resulting from the destruction of property by the mob. Not less than five shops of importance were almost wholly wrecked while sixteen smaller ones escaped serious damage only because of their smallness. The last of the rioters was not seen until four o'clock, and at that time Chief of Police Briggs and Sheriff Brailley began to collect their forces in the packing house districts where it was anticipated trouble would occur in the event that the Greeks attempted to return to work as usual.

Last night's riot developed the fact that nearly every Greek in the city is armed. In not less than six instances did they show themselves prepared to defend their rights and fired into the crowds indiscriminately. Fortunately none of the shootings was serious. It was sufficiently severe, however, to raise the wrath of the mob even higher than before, and especial vengeance was wrought by the crowds at places where the Greeks showed a display of firearms. By morning nearly fifty people had been taken by the police to the police station and booked for disturbing the peace. At one time, early in the evening, an immense crowd gathered around police headquarters and only a display of firearms by the officers prevented a successful attempt to force their way into the building.

TROUBLE IN KANSAS.

Kansas City, Mo., Feb. 22.—Following a quarrel in Kansas City, Kan., yesterday, between a Greek laborer and an American, a general fight occurred and four men were painfully hurt. Fifty Greeks were attacked by a crowd of six hundred men and women armed with sticks and stones. Thirty Greeks and two Americans were arrested.

The trouble began when Wesley C. Root, a laborer, and a Greek met on a sidewalk. A dispute as to which should step aside followed. David Hendricks, a restaurant keeper, saw Root struggling with the Greek and ran to them. Several Greeks came to the assistance of their countryman. Presently a shot was fired and a crowd gathered, crying "Kill the Greeks." The Greeks drew knives and the Americans threw stones. A riot call brought a dozen policemen, but it was not until a second call was turned in that the trouble stopped.

NEW TERMS.

Street Railway Men Will Submit Changes to Company.

The Street Railwaymen's Union held a meeting on Saturday night, and it was decided to prepare a new agreement to be submitted to the company. The old agreement, which has been in force since the strike, expires on the 1st of April, and the men are anxious for a few changes. The younger men want a change in their shifts, and a slight increase will likely be asked for.

SMALL FIRE.

A pot of grease caught fire at the Waldorf Hotel kitchen yesterday shortly before noon. The fire department was called out, but was not needed. No damage was done.

A small fire at 3:30 this morning at the residence of G. T. Burgoyne, 189 Sanford Avenue North, was discovered by the tenants, who were awakened by the smoke. The blaze was from an overheated furnace, and did little damage, burning the cushions and carpets in a small area.

THE CLOUDS.

The wierd low-sloping night wind flings stirs. The black star-spangled bosom of the lake. But gently shivers through the whispering firs. And dimly moans down the rocky street west, above Park.

Again the long lost hopes come trooping fast. Again soft eyes and feverish hand-claps burn. Old joys, old griefs from the forgotten past. With all their bitter sense of loss return.

Yet, gazing at the softly glowing west the past is not all pain, but blindly sweet. For those rose-tinted islands of the blest. Flooding the sky with ecstasy complete.

Are nothing but the clouds that hung so dark. In the gold lustre of the noon-day sun. Yet when they kindle in his dying spark. The heavenly draperies could spare not one.

So when I see the western gates aflame. With floating glories, ere the even shrouds. The thought comes home with stronger force again. What would life's sunset be without the clouds? Ethel M. Chapman.

RECIPES

Blackberry Wine. Add one quart of water to every quart of berries. Boil for half an hour and then strain through a hair sieve, breaking the fruit. Strain a second time through cheese cloth. To every quart of juice allow three-fourths of a pound of sugar and one-fourth of an ounce of Jamaica ginger, pepper and cloves. Boil for half an hour. When cooled sufficiently, place in wide-mouthed jars or in crocks, add a cupful of yeast and a piece of bread, cover the jar with a fine wire screen or a piece of cheese cloth and keep several days in a warm place. After the juice ceases to ferment, strain through cheese cloth and add one pint of brandy to each gallon of wine. Then place in an airtight barrel or in closely corked jugs, and keep in a cool temperature for six months before bottling the wine. If you prefer, the brandy may be omitted.

Devised Chicken. Some cold chicken, one egg, one-half teaspoonful of mustard, one-half teaspoonful of curry powder, one-half teaspoonful of salt, two tablespoonfuls of bread crumbs, two tablespoonfuls of butter, some watercress or parsley. Beat up the egg, add the mustard, salt and curry powder, divide the chicken into small pieces, and brush over each piece with the egg mixture, cover with bread crumbs, place in a baking pan with the butter and bake about fifteen minutes. Serve in a ring, garnished with watercress or parsley.

Orange Snowballs. Boil one cup of rice fifteen minutes in salted water, drain and let cool. Remove the peel from five seedless oranges, spread the rice on dumpling cloths, roll each orange in sugar, place on the rice, ties and boil the balls for an hour; turn them carefully on a dish, sprinkle with sugar. Serve with sweetened cream.

Plain Corn Meal Pudding. A cupful of sour milk, a cupful of sliced apples or dried fruit, a pinch of salt and a half teaspoonful of soda with enough cornmeal added to form a batter as thick for Johnny cake. Steam in a turkhead tin.

Corn Muffins. To one quart of white corn meal add two tablespoonfuls of baking powder and a teaspoonful of salt and sift well. Add milk to form a stiff dough that can be formed into little cakes, and drop in smoking fat and cook until delicately browned.

Maple Candy. Put into a saucepan a pint of hot milk and stir into this a pound of maple sugar that has been broken or rolled small. Boil hard as soon as the sugar is dissolved and stir constantly. When a little dropped into cold water is brittle, pour into buttered pans and cut into squares.

Sour Cream Biscuit. Into one pint of sour cream stir one teaspoonful of soda which has been dissolved in two tablespoonfuls of warm water, add the well beaten white of one egg and one-half teaspoonful of salt. When the cream foams up add enough sifted flour to make a soft dough. Roll, cut out and bake in a quick oven.

Mulled Cider. Heat the cider to the boiling point, sweeten to taste, thicken with flour to the consistency of cream, heating out all the lumps. To make this properly moisten the flour with a little milk. Put over the fire again, bring to the boiling point and remove and serve.

Calves' Brains. Wash the brains carefully and cut each pair into four pieces, taking away all bits of fibre and skin. Rinse well, wipe dry and dip each piece first in beaten egg, then in cracker crumbs, then in egg and again in cracker crumbs and fry in hot fat.

Feather Cake. Cream together a tablespoonful of butter and a cup of sugar; add one beaten egg, a cup of sweet milk and two cups of flour sifted with a teaspoonful of cream of tartar. Put a half teaspoonful of soda in the milk before adding this.

Making Soap. A correspondent asks how to make soap from waste fat that accumulates in householding. The commonest and easiest method is to buy a box of any of the brands of concentrated lye and follow the printed directions on the label.

Disposes of a Canard. Roast "possum" and alligator steaks are never served in the hotels and restaurants of this city. The opossum, which is an unclean animal and is far from choice in the quality of his food, nevertheless, when kept up and fattened on clean food, makes a rich and somewhat gross viand, like roach pig, but except in special cases it is chiefly prized by the negroes as the crown of their feasts. As to the alligator, it is said to have a place in the bill of fare of the Indians of the Florida Everglades, but is never eaten by civilized people, unless under the compulsion of starvation. —New Orleans Picayune.

VALLEY TOWN. DR. GRANT. First of Series of Lectures Arranged by Ladies. The Well-Known "Knoxonian" Passes Away at Orillia.

Dundas, Feb. 22.—The lecture on Browning, by Professor Abbott, in the Baptist Church, on Friday evening last, was well attended, and the lecturer pleased an audience made up of many of the town's people well versed in literary matters. This was the first lecture of the season under the auspices of a committee of town ladies who have for several years secured high class lecturers each winter. A change of the proposed programme was made at the Y. M. C. A. entertainment on Friday evening. That evening Mr. Minty of the Bank of Commerce, was announced to give a talk on "Banking," but as Mr. Minty could not be present, Dr. Lachland gave his talk on "First Aid to the Injured," and a very interesting and instructive talk it proved to be. His hints and instructions in cases of emergency were of a practical nature, and at the conclusion of his talk many of his hearers were certainly better prepared for assisting in cases of unexpected injuries or accidents than before. Mr. Minty's lecture will be given on Friday evening next in Y. M. C. A. parlour. There is no charge for admission to these lectures. Rev. A. Barnard, the blind minister, occupied the pulpit in Knox Church yesterday. Rev. Mr. Gray has recovered from his recent illness. The young people of St. James' Church, it is said, have in preparation a rare treat for the congregation and friends in the shape of a mock trial, a trial for breach of promise, no less. Rev. James Grant (Baptist), occupied the pulpit in the Methodist Church last evening, exchanging with Rev. Mr. Harvey. The Ontario branch of the Royal Life Saving Society has been organized. LUTHERANS. English Speaking Members Organize Sunday School and League.

Yesterday afternoon the English Lutheran Church organized its Sunday school under favorable auspices. Miss Bertha Palm had charge of the music. The temporary officers are: Superintendent, the pastor, Rev. M. J. Bieber; Secretary, Fred O'Brien; Treasurer, E. A. Bartman; Librarian, Albert O'Brien. The teachers in the primary department are Miss Emma Bartman and Mrs. Richter; in the main department, Mrs. M. E. Brennan and Mrs. Bieber. The pastor teaches the Bible class. The school will be thoroughly equipped in the primary department there are three grades, Kindergarten, children's and Junior's; in the main department are Bible study, Bible reading, Bible history; Bible facts and lessons, Bible biography, Bible teachings, Bible literature and the Scripture quarterly grades.

TRAVELLERS' BALL.

Preparations for the annual ball of the Hamilton Commercial Travellers' Association, to be held in the Hotel Royal on the evening of Friday, February 26, are well advanced. The sale of tickets will be restricted, so as to insure comfort and a good time to those present. The car service will be the best. The patronesses are: Mrs. W. H. Dean, Mrs. E. J. Fenwick, Mrs. Arthur Hatch, Mrs. John Lennox, Mrs. C. M. McGregor, Mrs. C. C. Stoye, Mrs. F. T. Smye, Mrs. J. Stoneman, Mrs. H. G. Wright, Mrs. E. O. Zimmerman.

100 LIVES LOST.

London, Feb. 22.—It is reported here that more than a hundred lives have been lost in a blizzard, which has raged in Southwestern Russia during the last three days. The tracks of the Southwestern Railway are blocked for 2,000 miles.

LABOR RIOT.

Hong Kong, Feb. 22.—Laborers engaged in constructing the Canton-Hankow Railway began rioting to-day because the wages of some of the men who had been absent from work were withheld. Troops were called out to suppress the disorders and in a clash which ensued 25 laborers were injured. Three soldiers are missing.

TAFT TALKED.

Philadelphia, Feb. 22.—President-elect Taft was the orator at the celebration by the University of Pennsylvania today of the 177th anniversary of the birth of Geo. Washington.

THE HAMILTON TIMES

MONDAY, FEB. 22, 1909.

THE PRIVATE LIGHT-USER.

An esteemed correspondent, who says he has no confidence in "municipal monkeying with business that can be done better and more cheaply, and more honestly, by private citizens," says he has only one fault to find with the Council of 1908 in making the contract with the local company.

This correspondent is not unreasonable and the fact that he does not seem to be aware that the case of the local private light user was considered and his rights carefully safeguarded, shows that the good features of the power contract are not sufficiently known and appreciated.

In other words, it is a condition of the power contract that Hamilton users of incandescent light shall enjoy a service at least 10 per cent. cheaper than the price at which the Hydro-Electric Commission can supply Toronto.

"PROVINCIAL RIGHTS" AGAIN.

We shall now probably hear some more Provincial Rights discussion. According to a decision of the highest court in British Columbia, a company incorporated in any of the other Provinces can have no standing in the British Columbia courts and can not proceed against creditors in that Province, unless they have by license been authorized to do business within it.

A POLICY OF BAD FAITH.

The Monetary Times, which has its finger on the financial pulse of the country and which has already a number of times called attention to the evil which is likely to result to Canadian credit in the British markets by the unscientific, unwise, unfair, if not actually immoral, methods of the war upon private investment being made by municipalities, in a recent issue again sounds a note of warning against this form of legislative piracy.

Our contemporary very properly refers to the Winnipeg and Hydro-Electric schemes as "flagrant cases—two of many which will in time have a bad moral effect on the world's money markets so far as Canada is concerned."

EDITORIAL NOTES.

Are we to have more monkeying with experimental pavements? Have we not two asphalt plants? Can we not lay brick and cement?

This is the anniversary of the birth of George Washington, "the Father of his country." It is not given to every country to celebrate the natal day of its two greatest men within two weeks.

Austen Chamberlain's "tariff reform"—in other words, protection—amendment to the address did not fare well. It was defeated by 276 to 107. The protectionists cannot even whip the Unionists into line.

Uncle Sam's "big stick" bill intended to scare Canada into giving him cheap pulpwood does not frighten us a little bit. We shall deal with our own assets as best suits ourselves, and without any regard to his "boo-ing."

In the last five months 125,633 immigrants entered Canada, as compared with 240,892 for the same period of 1907-8. The reduction is about 48 per

cent. It is an indication of the changed conditions of the period.

Queer, isn't it, how certain aldermen who seek Barrow's scalp, seek to make it appear that all who reprehend the knifing are opposed to "reorganizing the department." Reorganization does not depend on a change of engineers.

The Toronto News says the burden of eliminating level crossings should not all be placed upon the railways, but "should be so distributed that reasonable proportions thereof will fall upon the railways, the municipalities, the Provinces and the Dominion."

Studholme declares that there is nothing in the address to talk about. To the guillotine with him! Sir James Pliny Whitney cannot tolerate such lese majesty. Moreover, what difference does it make to Studholme? Can't he find something else to talk about?

Cuba is looking for trouble, and a measure has been pushed through the House of Representatives to prevent aliens from buying real estate. If any such legislation as that be acted upon, it will find the trouble, all right.

By and by the Windsor Record will learn that it is unsafe to trust the local power monopoly organ's statements as to the lighting situation here. There was no increase in rates, as this organ alleges, but the flat rate, which had been much abused, was abolished and a decreased meter rate took its place.

The Trades and Labor Council thinks it ought not to be necessary to squander the people's money to interpret the Judge's decision in the power by-law suit. It is right. The decision was clear and definite. The by-law was attacked and its binding character called in question. The judgment upheld the by-law and dismissed the action with costs.

The local power monopoly organ cannot expunge that third option from the contract. Now that it has ungraciously admitted that the city is really entitled to take metered power at 1/2 cent per horse-power hour, minimum payment 75 cents per horse-power per month of the power ordered, it seems to feel that it has damaged its retainers' case.

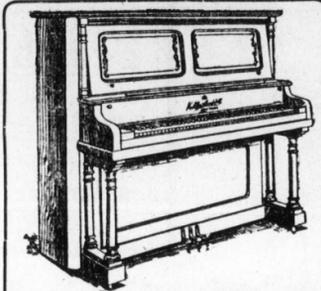

When the other day the Herald published Sothman's estimate of the cost of Hydro power at \$17.92, why did it interpolate, before Sothman's quoted words, the remark: "These are the outside figures?" Is Sothman ready to guarantee that under the Hydro contract the cost of the power actually used by the city will not be twice or even three times \$17.92? There's the rub.

France's tariff against the United States has been increased 20 per cent. That by way of retaliation, Canada's Liberal Government does not pursue a policy of tariff war. It believes that more flies are caught with molasses than with vinegar. Our new treaty with France gives Canada special advantages, and it is probable that many United States firms will establish themselves in Canada in order to benefit by its terms.

"Flaneur," who contributes a good deal of parrotic drivel to the Saturday Mail and Empire, tells his readers that the Ottawa Government proposes "a slight reduction" in the estimates this year, but adds that "it is needless to point out to ordinary people that no such action would have been asked for by the persistent clamor of the Opposition members and the Opposition." Within a few lines, however, he points

out that owing to falling revenue this "slight reduction" was "absolutely necessary." The beautiful coherency of this lubrication suggests its production as an after-dinner effort.

The Toronto News makes the quite unnecessary admission that in West Kent the Tory skirts have, in the past, been far from clean; but it tells us that the party has met in convention, and formally repented of its errors, and that "henceforth in that riding, the Conservative campaigns will be scrupulous and honest."

Mr. Oliver's immigration bill shuts out all immigrants who have been assisted to reach this country by any charitable or other organization, unless the landing of such persons is by permission in writing by the assistant superintendent of immigration for Canada in London.

Rev. Dr. R. N. Grant, of Orillia, well known to Times readers and to the Canadian public generally by his pen-name "Knoxonian," died at Orillia on Saturday. The deceased gentleman was very well known to the Presbyterians of the Province. His first charge was that of Waterdown and Wellington Square (now Burlington) congregations.

Mr. J. H. Bertram, surveyor of customs, Toronto, has been appointed collector in place of the late John Small, and Mr. Robert Holmes, ex-M. P., has been appointed surveyor. In choosing Mr. Holmes the Government has made a good selection, and there is no doubt that he will fill the office capably, and discharge its duties so as to earn the good will of those with whom he has to do business.

The pettiness of Sir James Whitney was beautifully displayed in his treatment of the University discussion in the debate on the address. Mr. Mackay had taken the position that the appropriation for the University should be voted by the Legislature exactly as all other appropriations are voted. He said not one word in opposition to generously supporting the Provincial University, yet in his speech Sir James Whitney spoke of the "attack made upon the University," and alleged that "the Government would never allow anyone to throttle such an institution, 60 per cent. of the students of which were the sons of farmers."

Mr. MacKay, M. P. P., put the case of the Tavistock gerrymander very strongly before the Legislature on Friday. The village was moved over into Oxford county to help the Tory candidate, and to try to handicap Mr. Stock.

the Liberal, taking him out of Perth county. Mr. MacKay showed that of the population of the village 623 belonged to Perth and 403 to Oxford. Of the assessment \$502,000 belonged to Perth, and \$164,000 to Oxford. Of the ratepayers, 155 petitioned to be united to Perth while only 1 person petitioned for union with Oxford. Whitney was forced to admit that Perth County was equally divided on the matter, yet in the face of the facts he added it to Oxford. The dirty trick failed, however, for Mr. Stock defeated Hon. Mr. Monteith.

OUR EXCHANGES

A Question. (Toronto Star.) Was there anything in the Synod voting that recalled the old war-cries, "Anything to beat Mowat?"

With the Jawbone of an Ass? (Toronto World.) Premier Whitney rose as to a banquet, and smote the Opposition Philistines from Dan to Beersheba.

Hamilton's Plan. (London Free Press.) Hamilton has struck a tax rate of 21 mills. This is higher than usual. The practice at Hamilton has been to keep the tax rate down and the overdraft up.

How They Will Do It. (London Advertiser.) The Labor member of the Ontario Legislature reproaches the Government for ignoring the question of civil service reform. The Government will view this reform more kindly when all the Reformers have been squeezed out of the service.

Can't Swallow Protection. (Winnipeg Tribune.) The late Lord Salisbury himself would never have allowed his party to return to protection, and his sons are never likely to be drawn from the path of free trade in hope of political preferment. The strongest possible combination of tariff reform lies in the fact that the best Unionist finance ministers alike opposed it. Another strong figure

is Lord Cromer, whose international reputation is great, and whose record makes his opinions worthy of consideration; there is no doubt that the Protectionists would promise Lord Cromer any office to secure his support.

The Police and Sunday. (Toronto News.) The law of the land aims at securing every man one day's rest in seven. Surely the men who enforce the law in Toronto ought not to be shut out from the benefits of that legislation. The police force will be all the more efficient if its members are allowed to go to church on Sunday.

The Passing of Knoxonian. (Toronto Globe.) Knoxonian is dead. Every newspaper man in Canada will feel that a worthy member of the craft has fallen. To many thousands of readers the announcement will cause sincere regret, for the hand has laid down the pen that was mighty for many a day.

It Was the Tender Price. (London Free Press.) The Hamilton Times says McAvity is allowed to keep the money because he earned it. Not even Mr. Pugsley has set up this claim. The Minister does not defend the transaction. He recognizes the impossibility of that. What he holds is that it is none of the business of the Government. The Times goes the Minister one better. Newspaper service of that kind is invaluable.

JAPANESE MOVE ON PERU. Laborers for the Sugar and Rubber Plantations Seek Quick Wealth. News comes from Tokio that the restless workers of the Emperor's domain have discovered a new outlet from overcrowded Japan, this time in Peru. The Meiji Shokumin Goshi Kaisha, which is nothing but an emigration company, despite its name, has sent 800 laborers to Peru within the last six months and is now canvassing for 500 more.

A Japanese in Peru must be a new spectacle. The Chinese have been there for years, but the eastward tide of Japanese to America had not found anything to attract numbers to the South American republics. Labor is so cheap there that it hardly appears possible that any number of Japanese could be

found to compete with the halfbred peon of the Andean country.

The news from Japanese sources has it that the laborers bound for Peru are going to work on sugar plantations and in the rubber forests. Those on the plantations are promised 60 cents a day; the laborers among the rubber trees will receive \$1.25. The emigration company holds out the lure that living expenses in Peru will amount to only \$4 a month. If the Japanese work diligently and live economically they will be able to save about \$10 a month against the time when they return to the home land and be little millionaires among their former associates.

Just one stumbling block has its Tokio emigration company found in its path. The Japanese of the coolie class believe that all North Americans are barbarians who will stone them and bully them on slight provocation; they want to know if the South Americans are not aino, or savages. The company has had to include some reassuring statements regarding the peaceful habits and general loveliness of the Peruvians in its prospectus to offset the coolie distrust.

CHINKS IN A BOX.

Twenty-Two of Them Discovered Being Smuggled Into the U. S.

San Luis Obispo, Calif., Feb. 22. What is believed to be an organized plan to smuggle Asiatics into this country has been unmasked as a result of the discovery of twenty-two Chinese in a box car in this city. The most peculiar feature of the discovery was that the Chinese were in a bonded car, sealed by the government stamp. The car was billed from Algiers, La., where it left on February 10 for San Francisco. Owing to numerous landslides and washouts the car was delayed on the coast division of the Southern Pacific.

While passing by the box car in the yard to-day, Conductor Page heard voices in it. In response to a question who was in the car he received an offer of two dollars for a bucket of water in the "jargon English" of the Chinese. The sheriff's office was notified, the seals broken and twenty-two half-starved Chinese taken out. All had large callouses but which during the long journey had been drained of every drop of water. One of them stated that they had crossed the Mexican border at El Paso but refused to give any further information. They were placed in the county jail and are being held awaiting the arrival of immigration inspectors from San Francisco.

Silliness—"Do you believe in heredity?" "Cenius." "Not at all; would you lay the blame of a bad egg on hen?"

JUDGE ANGLIN

Promoted to the Supreme Court Bench.

Justice Osler Once More Refuses to Leave Toronto.

New Judge Has Earned His Appointment.

Ottawa, Feb. 21.—Mr. Justice F. A. Anglin, of the Exchequer Division of the Ontario High Court, has been appointed to the vacancy on the bench of the Supreme Court of Canada caused by the retirement on superannuation of Hon. James MacLennan.

Justice Osler, who is the son of the late Hon. Timothy Anglin, at one time Speaker of the Commons, and brother of Miss Anglin, the well-known actress, was appointed to the High Court Bench in March, 1904.

The Judge is perhaps best known to the Hamilton public as the Judge who tried the power suit, and whose verdict was given to "experts" for their opinion as to its meaning.

ORIGINATOR OF G.T.P.

Mr. Hays the First to Suggest It—Wainwright's Speech.

Montreal, Feb. 21.—One of the most interesting speeches made in Quebec on Saturday night was that of Mr. William Wainwright, comptroller and fourth vice-president of the Grand Trunk, who from his half century of experience gave his hearers some interesting facts of the history of the railway life.

Mr. Wainwright stated that when his road desired to reach Quebec via the North Shore the Dominion Government under Sir John Macdonald threatened to grant a subsidy to other roads and parallel every foot of road the Grand Trunk built between Montreal and Quebec.

BUFFALO DYING OUT

Winnipeg's Splendid Herd Has Been Neglected.

Winnipeg, Feb. 21.—The magnificent herd of buffalos which the city once owned, and which was bred from stock given by Lord Strathcona, is now almost extinct, only two animals being left, and those are in such a condition that they are not likely to survive the winter.

DYING WIFE.

Belgian Workman Tramping Across Canada to Visit Her.

Winnipeg, Feb. 21.—Charles Rover, a Belgian workman, has arrived here, on a desperate tramp across Canada in the heart of winter, in the forlorn hope of working his way back to Europe to see his dying wife, who is a victim of consumption, and is appealing to him to come home and see her before she dies.

PRINCE AS HEAD SINNER.

A story that reads like "time copy," a diabolical plot in which several Americans aboard the vessel upon which Tom Longboat sailed for England were banded together to incapacitate and render him unfit for the Marathon race. It is unearched. Better lay any gun-powder plot like this, however, at the doorstep of T. Longboat, who unfortunately beat himself that hot day in August.—Toronto Telegram.

A Chicago woman wants all men labelled so that they can tell the married men from the bachelors. She points out that the terms Miss and Mrs. distinguish her sex and she wants the men put under the same rule. It is suggested that she is a baseball fan, or theatre patron, and wants to know whether Clarence the Demon Slugger is eligible for the matrimony market, or whether Alphonse, who plays the ice in "Chicago Tom's Cabin," has yet been married. It's a good scheme. But there should be some tag on widows, to show whether they were the common or garden variety or of the "grass" species.—London Advertiser.

Indians That Practice Polygamy. It is commonly supposed that Uncle Sam strictly forbids polygamy within his dominions. This is a mistake. Polygamy has been practised from time immemorial by the Navajos, and they have no intention of giving up the practice. Nothing has ever been done by the Government or by the Indian agents to discourage it. Not many of the braves have more than two wives, although some have been known to maintain a harem of twelve.

Two wives are almost as common as one. Being only human, sometimes they "scrap." Then the husband separates them, building for each a separate hogan, located wherever possible on opposite sides of a butte or small mesa. Each is strictly forbidden to leave her side of the separating landmark. It is to be feared, however, that this prohibition is not always obeyed and there are doubtless many hair pulling scraps that no one but the jackrabbits and peapoppers witness.—From the San Francisco Chronicle.

VARSIITY BEAT QUEENS

Brantford Beaten by Galt in Pro. League.

McVey Defeated Joe Jeanette.

Australians Defeated Vancouver.

Toronto, Feb. 22.—The Queen's team, which has been mowing down everything in the Intercollegiate Union this season, went against a snag at the Mutual Street rink Saturday night when they tackled Varsity in the soft going, which suits the Blue and White, and the Kingstons were defeated by 6 to 3. Although the ice was watery and heavy the game was fast. At the inter-vening the tally was 3 to 1 in favor of Varsity.

The Queen's team is remarkable for its speed and compares very favorably with the Varsity team of last season in this respect. The slushy ice rendered their speed ineffective and they could not combine on the line, oversteering the puck and shooting poorly. The Presbyterians are a team which will about beat Varsity on hard, fast ice.

The visitors, after discovering their inability to work their fast combination, resorted largely to individual rushes and long range shooting. Thomas, in the Varsity goal, had a sharp eye for the long shots, and many of the rushes were stopped by the defence. On the other hand, Varsity appeared to like the heavy ice and managed to work a short-pass combination through the Queen's defence and close to the flag.

In spite of a spectacular game put up by Daniels, for Queen's, the Blue and White beat him for three corners in each half.

The fastest man on the ice was Billy Dobson, of the losing side. His skating and stick-handling were very fine, but when he did manage to get through the defence Thomas looked after his offerings. Dobson worked like "a horse" from start to finish. Campbell had a lot of speed and got Queen's first goal on the most spectacular play of the game when he went right through from end to end, evaded the Varsity defence and scored. The score was 6 to 1, with five minutes to play, when both C. McVey and Rankin were ruled off. The entire Queen's team, with the exception of the goalkeeper, came down on the Varsity goal and commenced a bombardment, which resulted in two goals.

Queen's — Goal, Daniels; point, McDonnell; rover, Pennock; rover, George; centre, Crawford; right, Dobson; left, Campbell.

Varsity — Goal, Thomas; point, Clarke; rover, Rankin; rover, Hanley; centre, Frith; right, Wickson; left, McSloy.

Australian Footballers Defeated Vancouver Team.

Vancouver, Feb. 22.—In a brilliant exhibition of Rugby football played yesterday at Brockton Point, the Australians defeated Vancouver by a score of 23 points to nil.

The Wallabies, who are returning home after a six months' tour of the old country, excelled in every department of the game, but Vancouver, by a plucky fight and several times rushed the ball close to the Australian goal line.

Magnificent kicking and passing by the visiting team's backs prevented the locals from crossing their line. The Wallabies played on Victoria on Wednesday next, sailing for Australia the latter part of the week.

LONGBOAT UGLY.

Will the Indian Run Shrub at Buffalo?

Toronto, Feb. 22.—Harry Pollok, the well-known fistic and athletic promoter, and right-hand man of "Pat" Powers, is in town, and will remain a day or two, in an effort to persuade Tom Longboat to keep his engagement with Shrub at Buffalo next Thursday night. If it is possible to do so the champion will be made to see that it will be to his advantage to do so on the mark when the time comes.

"We want Longboat for this engagement," says Mr. Pollok, "and we feel, in common with all fair-minded followers of the Marathon game, that Shrub is entitled to this fifteen-mile engagement. I may say, from an inside standpoint, that the Indian will be doing himself a good turn and furthering his own interests for the future if he meets Shrub as he agreed." Tom Flanagan knows this, too, and cannot conceal the friendly interest which he still maintains for his former charge. The Irish-Canadian Athletic Club man is doing what he can to induce Longboat to accept the contract which he made before he passed into the hands of P. T. Powers.

Shrub left for Buffalo yesterday to finish his preparation for Thursday night's race, and was still of the opinion when he boarded the train that he would beat Longboat going the fifteen miles. If the Indian is obstinate, and cannot be persuaded to meet Shrub, Pietro Dorando will be substituted, and if the latter Italian is in the improved form which he has shown in the west the Englishman will have something to do to break the tape first.

CURLERS OF MIDDLE OF LAST CENTURY.

Names Familiar to This Day in Hamilton Were on the Quebec Club List of 1841.

Mr. G. Denholm Burns, of the Canada Life, among his old papers, the other day, came across a list of the Quebec curlers of 1841 and the curling song of the club, written and sung by Lieut. Col. Hay, of the Coldstream Guards, at the anniversary dinner on Jan. 26 of that year. The membership of the club at that time was only 14, and it is a most remarkable fact that almost half of the names on the roll are as familiar to the old curlers of Hamilton as to the players had drawn to the tee on Thistle ice. The curling game is hereditary, sure enough. Here are the names:

QUEBEC CURLING CLUB, 1841. James Gillespie, Col. Hay, Alex. D. Bell, John Gilmore, Colin Bruce, David Gilmore, John Gordon, Tom Hamilton, James Dean, John Anderson, R. K. Gairdner, James Burns, Adam Burns, James Denholm.

James Gillespie, the first name on the list, was a brother of the late Geo. H. Gillespie, of this city, himself a curler, and an uncle of Mr. Alex. Gillespie, of the Canada Life, Toronto. James Dean, was an uncle of Mr. J. J. Dean, a former member of the Thistle Club. Mr. Adam Burns was father of Mr. G. Denholm Burns, and Mr. James Burns was a brother of Adam, while James Denholm, as the name implies, was a grand uncle of Mr. G. Denholm Burns. Tom Hamilton is believed to be of the same family as Bishop Hamilton.

Mr. Adam Burns kept a record of all the members of the club, all of whom are now dead. The curling song is good enough for the present day. To the air: "Brose an' Brochan an' a'." It ran as follows:

Our pleasure in winter is curling. When good fellows meet on the rink; Know ice, merry hearts and stout bodies, And a wee drappie whiskey to drink. The sides are soon fairly divided, The skips all in readiness stand; The stake that we play for is honor And love of our own native land.

BASKETBALL GAME TO-NIGHT.

A few good seats are still left for the big game of basketball to-night at the Alexandra rink between the Buffalo Germans, world's champions, and the Hamilton five, Canadian champions. The scores:

Miller..... Spares..... McKeown H. Miller..... Smith Referees, Manweiler, Buffalo, and Jack McKay, Hamilton.

SKETCH OF CAPT. CHADWICK. Jack Chadwick, the captain of the Hamiltons, was born in Hamilton, is 3 feet 8 inches in height, weighs 150 pounds. He originated the basketball game in Canada first some fifteen years ago, and has been playing on the team ever since. Captain Chadwick is known all over the States as the brainiest defences man playing the game, and has a record that no other player has been able to equal. In the last seven games which he has played this season only three men have scored against him, and the largest score being two baskets. In two games to-night the Hamiltons will stack up against Alf Heerd, captain and manager of the Buffalo Germans.

CITY LEAGUE GAMES. In the City League games Saturday night in the Central Y. M. C. A. gymnasium, two fast games were played, the Rangers and the Intermediates playing the first game. The score at half time was 14-13 in favor of the Intermediates. The final score, 33-29, in favor of the Intermediates. The game was between the East Hamilton team and the Eureka's. The score was 16-11 in favor of the East Hamilton team. The interest in these games is certainly increasing, and it is hoped that though the Intermediates, Boys' Club, Business Men and the Tigers will be in the final, J. McKay referee.

A fast and exciting game of basketball was played on the East Hamilton rink on Saturday night, between the Central School team and St. Andrew's, resulting in a victory for Central School by a score of 37-25. J. Connor and A. Small officials.

H. C. BEATEN AT TORONTO. Toronto West Enders witnessed the fastest game of basketball of the season on their gymnasium floor on Saturday night. The Hamilton Juniors, who have held the Canadian championship for seven years, were defeated by a score of 24-30. The game from start to finish was a fast one. Many times the score was tie; then first one team and then the other took the lead, until near the end when Toronto took a sprint and won out by six points. Kennedy, forward for Hamilton, was held down by Clark to no baskets. Madgett, the four forward for the local team, scored four baskets, while McNeilly, the defences, scored four baskets, making the total number of baskets scored by the Hamilton team. Wilson and Bainbridge were held down, while their checks made several points. The Toronto team scored nine baskets. The game was really won by the fouls. Toronto has the fastest team now, that they have had in some years. Mr. James Malcolm, formerly of Hamilton, acted as referee. The local Juniors feel confident that on Friday night of this week, when the return game will be played with Toronto, that they will again land the championship for Hamilton.

Ten Miles in Nine Minutes. New Orleans, La., Feb. 22.—The principal feature of the first day's Mardi Gras automobile races was the breaking of the ten-mile world's track record by heavyweight gasoline cars by Ralph De Palma. He made the distance in 9:12.5, which is 11.5 seconds better than the record made by Barney Oldfield in 1904. De Palma made his record in the ten-mile handicap, defeating a field of five, after being handicapped a full minute. Mrs. Joan Cmeo broke her own record for five miles in an exhibition race, her time being 5:05.2.5. Her former record, which was also the world's record, was 5:04.3.5.

M'VEY WON.

Colored Heavies Get Easy Money in Paris.

Paris, Feb. 22.—Sam McVey, of California, was awarded the decision on points over Joe Jeanette, of New York, at the end of a twenty-round fight at the Cirque de Paris Saturday night. The winner received \$3,000 and the loser \$2,000. Neither of the fighters was seriously injured, and both finished without showing any signs of exhaustion. McVey got the decision on points. This seemed to satisfy the audience, who had been warned by the sporting newspapers for several days that when two negroes fight it is not likely that one will knock the other out.

Jeanette's science and quickness seemed to be superior to that of McVey, but his blows lacked force. McVey had the power but lacked the ability to profit by it.

Jeanette reached McVey's eye in the seventh round, swelling it considerably, while in the eighth McVey had Jeanette distinctly groggy. Joe saved himself by continued hugging, at which the spectators hooted and yelled. That's wrestling, not boxing."

Chokes were the main feature of the last two rounds.

WHITE TO FIGHT GANS. New York, Feb. 22.—Labez White, who says he is the lightweight champion of England, will box Joe Gans ten rounds at the National A. C. on March 12. Tom O'Rourke, who is managing White in this country, thinks he will make things decidedly interesting for Gans, and that in the event of success the Briton will go after his countryman, Freddie Welsh.

Six Months For Breaking Into and Robbing Grocery Store.

Can Not Get Natural Gas From Port Dover.

(Special Despatch to the Times.) Brantford, Feb. 22.—William Symons, a respectable and well-to-do local mechanic, returned here yesterday from Detroit with his three children, Edward, Annie and May, all under 14 years of age, which he alleges were sent away by his wife, prior to an intended elopement with a man named John McDonald, said to be well known in polo circles in Detroit.

Some 2000 Galt excursionists who accompanied the Galt pros here Saturday night and witnessed the downfall of the locals by 4-3, celebrated their victory some before their departure.

Brantford is almost out of the league race, having to win the remaining two games, and hoping for a victory of Belleville over Galt, in order that these three teams will be tied for first position.

SIX MONTHS. William Steves, who broke into Hartley's grocery store last week was given six months by Magistrate Livingston on Saturday. P. C. Kerr caught Stevens in a local hotel passing some coppers over the bar, and at once suspected him of the theft at the grocery, where, among other things, \$1 worth of coppers were stolen.

Through Mayor Wood, an effort was recently made to find out if natural gas, which is being sold at Port Dover at 23 cents per 1000 cubic feet, could not be delivered in Brantford, and in that way force the present company to lower rates, which have recently been raised, owing, it is said, to a failure at the source of supply.

Collegiate Girls Victorious Over Room B, of Normal.

The senior team of the Girls' Athletic Club, H. C. 1, played its first game of the season on Saturday afternoon, against Room B, of the Normal School. The game was called at 3 o'clock, in the H. C. 1 gymnasium.

The crack team of the G. A. C., which defeated St. George's and Assumption last year, was slightly changed.

SNELL WILL CASE.

Illinois Supreme Court Holds Old Man Was Not Insane.

Letters Not Evidence of Mental Weakness, Decision Says.

Springfield, Ill., Feb. 22.—The Illinois Supreme Court on Saturday reversed the decision of the DeWitt County Circuit Court, which held the will of the late Richard Snell invalid. The findings of the court also prevent the reopening of the suit.

In the will of the son of the aged millionaire was cut off with only \$50 a year, while a codicil allowed Mrs. Mabelle Snell McNamara, of Kansas City, a large life annuity. The son, who is a banker at Clinton, Ill., brought suit to break the will, alleging that his father was of unsound mind and was unduly influenced by Mrs. McNamara in amending his will so as to provide her with a large sum.

The contest was one of the most sensational which has been before the public in several years. Not only were the letters from Mrs. McNamara, showing improper relations with the old man, introduced, but there were sheets of other letters, written by other women and even young girls offered as evidence.

The first trial resulted in a disagreement, but in the second the will was set aside as invalid.

In its decision to-day the Supreme Court not only reverses this decision, saying there is no proof that Snell was insane, but holds that the lower court erred in allowing the introduction of the letters.

The Supreme Court says there is not one iota of evidence on which to base the verdict that he was insane when he made the will or codicils. There is no evidence that Mabelle McNamara in any way influenced the will or its contents. There is no evidence that she ever said a word to him or wrote to him about it. Considering the size of the estate, her share as trifling, says the court.

"The letters found in the trunk are not competent on the question of his mental capacity to make a will, and Snell's memorandum on the letters shows only 'moral delinquency' and had no tendency to show either insanity or undue influence," the court continues.

"He was dissolute and profligate and his conduct disgraceful and reprehensible," says the court, "it would not affect his ability to make a will, and evidence which tends only to blacken the reputation of the testator is not admissible, and the court in admitting it was both erroneous and prejudicial."

A YARN.

Sensational Despatch From Detroit Was a Fake.

An enterprising Detroit newspaper man sent out a sensational story on Saturday about the arrest of two prominent society women of Hamilton at Port Huron. The story was based on the fact that a man who works around the market, carrying meat and doing work for the butcher, had wired in the name of Wm. Arthur, asking for the arrest of his wife and a Toronto woman, saying that there was a warrant in Hamilton for their arrest for shoplifting.

DARING THIEF

Got Three Years For Stealing Thousands of Yards of Wire.

Toronto, Ont., Feb. 22.—In the Police Court this morning David Wells was sentenced to three years in the Kingston Penitentiary for daring theft of copper wire from the Toronto Electric Light Company. Two men arrested with him, namely, George Wilson and Newton Snowden, were acquitted on Wells' admission that he had hired them to do the work, and that he had hired them to cart the wire away. Wells did his work in broad daylight, deliberately cutting down thousands of yards of wire, which he had loaded on sledges and taken to dealers and sold. He was identified in court this morning as having served several previous terms for theft at St. Thomas and West Toronto.

MIXED MARRIAGES

The Cause of Large Losses to the Catholic Church in Germany.

A short time ago Father Bonaventura, the great Dominican preacher, stated that within fifty yards in the city of Berlin alone a quarter of a million souls have been lost to the Catholic Church, principally through mixed marriages, were under the impression that he was working for the company, and that he had hired them to cart the wire away.

In Germany it is almost certain that the greater part of the children of mixed marriages are lost to the Church. In Prussia about 60 per cent of these children are Protestants. The number of these marriages greatly exceeds the number of Catholic marriages.

In the four years from 1901 to 1905 there were 1,557 Catholic marriages, as opposed to 4,574 mixed marriages in Berlin and Brandenburg alone. The proportion for the whole empire for 1906 was 350 mixed to 100 Catholic unions. The question has become very grave and is giving much worry to the Catholic leaders.

One of the explanations of this strange condition of affairs is the discrimination practised throughout the German Empire against Catholics. Prussia is still the great centre of the spirit of the Reformation and the strict Lutherans there cannot compromise with a Catholic. All the Government positions are held by Protestants. The army, the universities, the railroad administration—all are closed to Roman Catholics.—From the Rosary Magazine.

up. "These men say they are willing to tell where they got the liquor now," said the sergeant.

"Just take that yourself and keep the names of the noted quiet till you investigate chief," said Magistrate Jelfs and the reporters were not given the name of the hotel the men "squaled" on. Chief Smith said he would announce the name as soon as he discovered if the men's names were on the hotel's list. In the meantime the men are held in jail till the truth of their admission is established.

Peter Nusier, 142 Sherman avenue north, will be charged with the serious offence of attempting to stab William Greer on Saturday evening. Nusier appeared at court this morning charged with threatening to cut and with being disordered, and pleaded not guilty to both charges, through Harry Carpenter. Constable Pettit said he arrested the prisoner mentioned in the morning on information of men in the crowd. He said he was told that Nusier had flourished a knife and was bothering two newspaper vendors, little boys, William Greer, a young Scotman, said that two lads were having a scrap on James street north, and that Nusier butted in and started to choke one of the boys. Greer said he told the foreigner to stop, but the latter retaliated by striking him, and drawing a knife, made a run for him. He warned him off and a second or so later a policeman came along. The prisoner managed to get rid of the knife before the policeman got him, however.

"Don't go on with this charge," said the Magistrate. "He should be charged with the indictable offence of attempting to stab this man and he will have to be recharged."

Mr. Carpenter moved for an adjournment, which was granted, for several days, and bail was fixed at his request in the sum of \$250, which the defendant is alleged to have seen the prisoner flourishing the knife.

The charge of usury brought against Sylvester Nelson, bailiff, by Mrs. Ferguson, 477 Cannon street east, was adjourned till Friday, as the defendant's condition of his leg, which was broken a short time ago.

George Bryers, 82 Melbourne street, a sixteen-year-old lad, was fined \$10 at court this morning for assaulting Herbert Harrison, another young boy. Both boys work in the Greening Wire Co's factory at night and the assault took place on Friday night. Through J. G. Farmer Bryers pleaded not guilty. Harrison said that he and Bryers had a talking match and Bryers got angry and threw a bobbin at Bryers, hitting him. Bryers then swatted him with the broom again and hitting him in the wind, put him down for the count. An other lad who worked there only a week corroborated this.

Bryers stated in rebuttal that the boys always did a lot of fooling at the place at nights, and that he just pushed Harrison with the broom. The complainant threw the bobbin and hit him and he pushed him again, but did not knock him out. He claimed that Harrison fell and hurt himself while running for more bobbins to throw at him. The bobbins are lead and weigh about two or three pounds. Magistrate Jelfs said that fooling in factories always brought bad results and he was going to put a stop to it. He then affixed the fine and Bryers was given time to pay it.

A most peculiar case was that of Arthur Lebar, who sued W. Wildes for \$1500 wages. The case was not called at court, and Sergt. Moore discovered that Lebar had served the summons on Wildes himself. Wildes appeared, but the court was not aware of the case till after adjournment, and the police will have to serve the summons properly and bring the case up again.

CARMACK SHOOTING

Nashville, Tenn., Feb. 22.—Expectation that all the resources of the prosecution would to-day be brought to bear upon the young man who swears he shot and killed former U. S. Senator E. W. Carmack, led to another big crowd at the Cooper-Sharp trial. The young man himself, Robin Cooper, looking fresh and buoyant, seemed to welcome the ordeal, and his sister, too, seemed to be in fine spirits.

Before cross examination began Judge Anderson asked young Cooper if he knew Senator Carmack. "Yes sir, I knew him and he knew me."

"That's all." Attorney-Gen. McCann then took the witness in hand. "When were you introduced to Senator Carmack?" he asked. "I do not remember whether I ever was introduced to him. I knew him all my life."

That he was a lawyer and that he did a great deal of paragon work was brought out next and the Attorney-General then asked Cooper if his practice was not practically to see Governor Patterson and the Pardon Board. "I appeared before both," he answered.

Cooper said he got \$750 for obtaining a pardon for Jesse Linder, who had been sentenced to fifteen years, but served only about two years.
