The Fergus Express says that Mr. Eugene Scanlon, of Lower Nichol, sold his farm this week, for the sum of \$4,000. Mr Scanlon has purchased two hundred acres of land in North Carolina, where he intends spending the remainder of his days.

From Saturday 14th until Saturday the 21st inst., two hundred special freight trains ran over the Great Western line, each averaging twenty-six cars, beside the thirty regular freight trains, which were kept regularly employed, and with one exception the express connections were made promptly.

PRESENTATION.—Miss Dorothy, who has been music teacher at the Senior Girls' School, was on Thursday presented by her pupils with a handsome album on the occasion of her leaving for Manitoba. Miss Dorothy made a suitable reply to the young people who had presented her with this token of their esteem and appreciation of her abilities as a teacher.

The Mail Jenkins, writing from Hamilton, is incensed at the Hon. Mr. McKellar for lowering the dignity of Ontario by riding to the fair ground "seated between two others upon the box of a broken down one-horse cab." Mr. McKellar ought to have driven in state, arrayed in claw-hammer coat, gilt buttons and white kids. The farmers might laugh, but Jenkins would be happy.

Rumors were prevalent in Galt on Friday last to the effect that the gauge of the Grand Trunk Railway was to be changed to the same as that of the Great Western. It was added that this was to be done at the instance of some well-known Railway capitalists, who had agreed to provide the rolling stock necessary until the Grand Trunk Co. could provide their own.

The Galt Reporter says that Mr Jacob E Klotz, who was engaged by the Dominion Government as Emigration Agent for Germany, returned from there, his term of engagement having expired, and as an evidence of the full satisfaction he gave to the Government in promoting emigration, he has received orders to immediately return to his field of operation. He will therefore start for Germany at an early date.

Y. M. C. A.—The monthly public meeting of the Young Men's Christian Association was held in their room last evening. The chair was taken by Mr. Wm. Watson at a few minutes past eight o'clock. The programme commenced with a recitation from Mr. Stevenson, "Last days of Hercules" which was very ably rendered. Mr. W. H. Jones followed with a beautiful sacred piece, "The Angels are coming," accompanied by the organ by Mr. W. Ryan. Mr. W. H. Seoffers gave a very able Essay, "Abominations of Desolations." Miss Boulton sang a very beautiful piece, "His love shines over all." Mr. Gilbert Maddock gave a very good recitation, "Benard del Carlo." The Misses Dont concluded the programme with a very sweet duet, "Too Late." Owing to the train for the West being an hour and a half late, Mr. Anderson from Toronto did not make his appearance. Mr. W. S. Jones proposed a vote of thanks to those friends who had helped us, namely, Mr. Stevenson, the Misses Boulton and Mr. Ryan, which was seconded by Mr. W. Smith. Mr. Seoffers was sorry to see so few ladies amongst us, but hoped they would encourage us by more coming to our public meetings. After passing a pleasant evening, the meetings separated.

The Gov.-General in Hamilton.

His Reception in the Ambitious City.

(From the Hamilton Times.) On Wednesday the Mayor issued a proclamation, officially informing the citizens that distinguished visitors were expected next day, and calling upon them to accord him a loyal and hearty welcome.

To Hamiltonians this was merely a formal request, for there was not a soul in the city which would not have turned out to do honor to the representative of a Royal lady, so dear to and beloved by them all. The consequence was that flags, banners, etc., were hung to the breeze, honours and stores decorated, and all the people that possibly could were on the streets in their gala day costumes.

The G. W. R. authorities had arranged that a special train, preceded by a pilot engine, should leave Toronto a few minutes before 11 o'clock, so as to arrive here at noon sharp. On the centre platform a large and commodious dais had been erected, precisely opposite the ladies' waiting room, which, being carpeted in crimson and covered with a red, white and blue canopy, beside keeping off the heat of the sun, looked brilliant in his rays. The pillars and supports were all encased in colored materials, and a handsome carpet laid from the door of the train to the dais—a few feet—then up the steps and down again across the main platform to the ladies' waiting-room, which had been beautifully decorated with flags and emblems as a luncheon apartment. At the upper end of the train, above the Governor-General's head, was placed his coat of arms and motto, *per viri rectora*. Mr. Geo Roach had the care of the luncheon, which was laid in the ladies' waiting room, in a princely style, the covers being laid for thirty guests, including a few besides the guest of the day and his suite.

Shortly after eleven o'clock the splendor of the train and a guard of honor from the 13th Battalion, under charge of Captain Roy, paraded at the shed and marched to the depot. Thousands upon thousands of people crowded the depot to its utmost capacity, and platforms, rooms, grounds, tracks and cars were packed almost solidly. Such a crush and jam is only to be seen once in a lifetime. From early daylight the soldiers and police cordoned off the depot, the city, and when the trains began to arrive the crush became something awful. Train on train came thundering in, and there are many who calculate that at the 37,000 of the Governor arrived, there were 87,000 of the "angers in town," and nearly 10,000 were at the depot or in its surroundings. The greatest excitement and enthusiasm prevailed, and the utmost good humor, though the officials had indeed an arduous task to keep the tracks clear for the never-ending running of locomotives and trains.

The Local Committee of the Fair were in attendance, as was also the Mayor and Corporation, who came down in carriages, and brought one with a span of greys for the use of His Excellency.

His Excellency's carriage, a Pullman or the Directors' car, drew up at the depot, when a general salute was made by the troops, while the artillery thundered out their salute from the adjoining heights. Lord Dufferin descended the steps and inspected the guard, after which, accompanied by Lieut-Governor Howland and Sir C. Hastings Doyle, he ascended the dais, when the City Clerk read the address from the Corporation. An address was also presented from the Board of Trade, and Mr Wingfield, the popular poet of Hamilton, was introduced by the Mayor. His Excellency received the beautifully engrossed poem, gave the poet a hearty shake of the hand and introduced him to Lady Dufferin.

On the platform and dais were Hon. A. Mackenzie, Hon. A. McKellar, Hon. F. G. H. B. W. S. G. Knowles, Hon. J. McMill, D. McInnes, Esq., Col McGivern, Col. Patten, 88th Bat., Brant; Col. Skinner, 13th Bat., Hamilton; Col. Barnett, 40th Bat., Lincoln; W. K. Muir, Esq., Judge Logie, J. I. Mackenzie, the Mayor and Aldermen, the members of the Board of Trade, and the members of the Local Committee, J. Keil—an old Waterloo veteran, decorated with medals—and many others. Several of the above gentlemen were presented to Lord and Lady Dufferin, when they retired to the dining room and parook of luncheon, after which, escorted by the troops, they drove to the hotel, where they were awaited by the members of the Agricultural and Arts Association.

The Governor-General made a suitable reply. He and Lady Dufferin then, followed by His Excellency's suite, the members of the Government and the members of the Agricultural and Arts Association, proceeded to the depot, where they were met by the immense crowd who gathered round the ropes, probably numbering 10,000. The prize horses were then trotted out and inspected by His Excellency, after which the prize cattle were brought out, and examined by Lord Dufferin with the eye of a connoisseur. This inspection over the gubernatorial and Governmental party again entered their carriages and were driven round the grounds, and thence to Hon. Isaac Buchanan's. The remainder of the afternoon was passed there, and His Excellency then proceeded to Mr. D. McInnes's, a select party being invited to meet him, including several members of the Government and local members of Parliament. To-night (Thursday) the Governor-General is the guest of Mr. McInnes, and next morning he will, if possible, hold a reception before returning to Toronto.

PRESENTATION IN HESPELER.—On Monday evening last, Mr James Jardine, leader of the choir in the Canada Presbyterian Church, of Hespeler, was presented with an address, accompanied by a watch valued at \$85, by the members of the choir and others of the congregation, to which he made a suitable reply. Mr Jardine has been leader of the choir for some time, and as he would accept of no remuneration for his services from the congregation, they have taken this method of showing their appreciation of his services.

Guelph Fall Races.

The Guelph Turf Club, undeterred by their unrequited exertions in 1871, have this year again ventured to appear before the public as caterers for their amusement, and if we take the attendance yesterday, (Thursday) as an index of the popular verdict we should decidedly infer that racing has gone out of fashion in Guelph, with but slim chances of a profitable revival. The day was propitious, with the exception of a rather high wind, which blew directly in the face of the fair but seamy occupants of the Grand Stand, to their somewhat chilly inconvenience. The track was in admirable condition, the rain of the previous day having largely contributed to keep down the almost inevitable race-course dust. The attendance, "we should imagine, might well be comprised within 500, a considerable number of whom were strangers. The pool-sellers were on hand as usual and as transaction seemed principally confined to race No. 2, we imagine the results from pool-selling and buying must have been far from satisfactory to those concerned, in consequence of the Judges' decision in that race.

It is a matter of satisfaction to be able to record no accident to either man or beast, and we sincerely hope similar good fortune will attend to-day's proceedings, when a steep chase will form one of the most interesting and exciting features of the programme. The following gentlemen acted as judges on the occasion: Messrs Lowell and Hetherington of Galt, and Goodfellow, of Guelph. The first race on the programme, (the Dominion Handicap) was not contested, in consequence of an insufficiency in entries; the rules requiring three entries or no race.

In the second, an open running race, mile heat, best two in three, although there were three entries, but two horses came to the post—Messrs Forbes & Boyle's ch. s., Judge Durrell, and Messrs Fisher & Carson's b. g. Kelso. Mr. Campbell's g. m. Conquer, having hurt himself in exercising gallop the day previously, was unable to contest the race, to the great disappointment of the spectators, as this horse has the reputation of being the fastest fiercer in the Dominion. First premium \$255; 2nd \$75. Kelso was a beautiful hand, was effected, the Judge leading, and hard held, and kept gradually increasing the distance between himself and competitor, until several lengths was the result at the turn to the straight running, when Kelso made a most marvellous recovery of his way and his jockey landed him in a head behind the Judge. Time 1 min. 57 3/4 sec.

2nd heat.—Quite an excellent start was effected, the Judge leading, with scarcely ever more than a length ahead. In the straight running Kelso made up to his opponent, but the heat was finished precisely as was the first, and won by a head. Great and manifest dissatisfaction was shown by the crowd at the result of both heats, the race evidently being considered a "sell." The Judges themselves took a considerable time before announcing their decision, which, amid loud hurrying, was ultimately announced to be as "no heat," and the consequence was a third heat had to be run, the owners of the respective horses having been warned by the judges of the consequence of not allowing their horses to run a fair and square race.

3rd heat.—After one false start the horses got away splendidly together, and it was very evident that in this heat, at all events, the horses were going it as for their lives, and as pretty and exciting a race was run as could be desired, and the winner was declared by the judge as being the longest cheers. Time 1 min. 56 sec.

4th heat.—At the start Kelso was ahead; he reached the stand the Judge was considerably ahead of him, and occupying his running, and maintained his advantage all round the course to the winning post, which enabled him to get to the post first in 1 min. 39 sec.

2nd heat.—J. Ellis led from start, with Royal Magna a close neighbor; these respective positions were maintained till the straight running was entered when Magna broke badly, which enabled Ellis to win in a somewhat easier winner than otherwise would have been the case by a good length. Time 2 min. 36 3/4 sec.

3rd heat.—A splendid trot on the part of both horses from start to finish, and such was the gallant struggle made by Royal Magna in this heat that his backer's hopes rose to a high pitch that he would pass the judges amid the winner. However, although not successful he was only defeated by enough to "swear by." Time 2 min. 42 3/4 sec.

The next race on the programme was a trotting race, open to all horses "owned and in the County of Wellington" at the date of this Race Bill, Sept. 10th). Mile heats, 2 in 3. First Premium \$70, 2nd \$30. Four horses were entered for this race. Mr G. Slesman's "Wellington Boy," Mr Dickson's "Sleepy Bill," Mr J. Hirsch's "Juliet," Mr W. Hewer's "Lady Goulson." "Sleepy Bill" was not from some cause or other, a contestant. First heat.—After some false starts the lot got well away, and as Juliet had settled down to something like the half mile post as if the Boy would never succeed in overtaking the 5 or 6 lengths which separated them. But the Boy displayed true Wellington pluck and would not be beaten, and much satisfaction was evinced when he was

declared winner of the heat and race, with Juliet so close a second that the backers of the former must have felt their bets in a somewhat critical position. Lady Goulson in this as in the previous heat declined unceremoniously making the excitement of the finish between the other two by remaining a respectable distance in the rear. This concluded the programme of the day's sports, and not before time, as the shades of evening rapidly gathered themselves into night as the last heat of race No. 4 was ended.

Mechanics' Institute Association.

The annual meeting of this Institute was held in Hamilton on Wednesday evening. Among the delegates present were Messrs. Charles Raymond and David McCrae from the Guelph Mechanics' Institute. Mr. Jas. Young presided. The annual report set forth that during the past year 48 institutes became affiliated with the association, by participating in the Legislative grant, and paying five per cent. thereof to the Treasurer, in accordance with the requirements of the statute. A list was appended showing the number of Institutes as being 51, and to what extent they have availed themselves of the Government grants for the years 1869, 1870, and 1871.

Attached to the report was a programme of studies and examinations to be open to all members of affiliated Institutes, or of the classes, who are not students of any college. Copper plate certificates of three grades, printed on parchment, will be awarded to the successful candidates, indicating "Excellence," "Proficiency" and "Commendables." In addition to the diplomas, the Association will award them prizes of the value of \$10, \$6 and \$4 respectively, to any affiliated Mechanic's Institute establishing an evening class or classes, with an average attendance of not less than 12 members, and of not less than 25 instruction meetings on separate evenings.

A resolution was carried recommending that application be made to the Government asking a change to be made in the present law in regard to the tax levied upon Mechanics' Institutes. The following officers were elected: J. Young, Esq., M. P., Galt, President. (re-elected).

Rev. W. Cochrane, Brantford, Vice-President; W. Edwards, Toronto, Secretary; D. McCrae, J. C. Rykert, His Honor Judge Logie, Hamilton, and Mr. Sweetman, Toronto, executive committee.

Arts and Agricultural Association.

ANNUAL MEETING. The annual meeting of the Agricultural and Arts Association was held on Thursday evening, about 300 delegates being present. Stephen White, of Chatham, on taking the chair, read the Annual Address, for which he was tendered a vote of thanks.

The Secretary, Mr. Hugh Thomson, called the names of the delegates and read the minutes of the last annual meeting, which were approved. Dr. Beadle, of St. Catharines and F. W. Stone, of Guelph, were appointed auditors. The next business was deciding on the place of the next exhibition.

Col. Johnson, of London, moved that it be held in that city, seconded by J. C. Rykert, of St. Catharines.

Mr. Geo. Elliott proposed Guelph. Mr. John Mair, Warden of Wellington, seconded the motion.

Mr. Ira Morgan, of the County of Russell, proposed Ottawa city, and Mr. Archibald McNab, of Lochiel, Glengarry, seconded the motion.

Mr. Martineau, Mayor of Ottawa, submitted a resolution of the Council authorizing the deputation from that city to guarantee the requisite accommodation in the event of the show being held next year at Ottawa.

Mr. Richard Mitchell, Mayor of Guelph, submitted a similar resolution, adopted by the Council of that town.

Mr. John Campbell, Mayor of London, submitted on behalf of the Council of London a guarantee of the required accommodation.

After some discussion the vote was taken, with the following result:—London 77, Ottawa 85, Guelph 29. No other important business was transacted.

The Great Western Railway and the Guelph Central Exhibition.

The Great Western Railway will, during the week of the Exhibition, issue return tickets from all stations to and from Guelph at one fare for the double journey, good from Monday 30th Sept., to the 5th October, both inclusive. They will also run additional trains to and from Guelph on Wednesday, Thursday and Friday. On these days the special train will leave Paisley at 6 a. m., and returning will leave Guelph at 6 p. m. A special train will also leave Harrisburg each of the above days at 8.15 a. m., arriving at Guelph at 10 a. m., and returning will leave Guelph at 5.35 p. m. Excursion tickets to be valid for the return trip from Guelph, must have the Central Exhibition stamp upon them, which will be obtained at the offices on the Fair Grounds, on presentation of the tickets.

THE GRAIN CROP IN ENGLAND.—The opinion on the grain crops of England have altered lately. The Spectator observes:—"The aggregate reports from the wheat producing countries indicate that corn will be dear during the coming year but not extravagantly so. The home crop is good, but from 10 to 15 per cent. under average the crop in South Russia and Hungary is very poor, and the crop in Germany is not good. The United States, however, will reach its average, and the crop in France, Italy and Spain is the best known for years, so good that France will be able to export largely." There need be no fear of grain being dear if it be true that the farmers of Minnesota will have not less than 20,000,000 bushels of surplus wheat to put in the market.

CROMON.—Mr. Taylor leaves to-morrow by noon, so parties desirous of picking up something rare and artistic should not fail to call at the Royal Hotel show rooms before 11 o'clock to-morrow.

- WOOLLEN GOODS. Chief among the exhibitors in this class is the well-known Guelph firm of Armstrong, McCrae & Co., who show a splendid assortment of Cardigan jackets men's drawers of a very superior quality, and undershirts to match, also woolen socks and a number of children's fancy jackets. They have been deservedly awarded the gold medal for samples of their wool underclothing. We have often had occasion to speak of the very superior quality of the goods manufactured by this firm, and we now congratulate them on the highly honorable recognition of the excellence of their fabrics by the bestowal of this the highest prize that can be granted by the association.

Messrs Barber & Brother, of Streetsville, have an assortment of some forty pieces of broad of excellent quality and varied patterns; also some satines and full cloth. They indicate a wonderful change from the time, comparatively recent, when coarse satinet and homely Canadian grey were the only productions which Canada could show in this line.

As showing the progress which Canada is making in woven fabrics this first place must be given to the black lute dress goods manufactured by Messrs. Randall & Farr, at the Hespeler mills. A lady's dress of this material made in the millinery department of T. E. Barstow's, will be a delight of every lady visitor. Messrs Randall & Farr are the only firm that have attempted the manufacture of this class of goods in Canada, and we are glad to see that they have met with the most liberal encouragement.

Mr. Cliff, of Hespeler, shows some handsome woollen goods in Cardigan jackets, comforters, &c.

Mr. Williams, of Glen Williams, exhibits some water-proof cloth for ladies' wear, and gentlemen's spring overcoats, the first of the kind attempted in Canada.

Messrs Harris & Co., of Rockwood, show some of their nice checkered muscades, the patterns and finish are all that can be desired. The samples attracted a great deal of attention.

Joseph Simpson, Toronto, takes on extra prize with samples of fancy hosiery, in which there is shown a fineness of texture and a brilliancy of colouring that a few years ago would have been considered impossible of production in Canada.

In cottons the show is small in quantity, but good in quality. The Dundas Cotton Mills Company show their grey cotton, cloth and yarn, of established reputation, also cotton bags. George Wright, and Wright & Co., St. Jacobs, show factory carpets of superior make. In rag and other carpets of domestic make, very good specimens are shown, but few in number.

The largest exhibitors in this line are Messrs. A. & J. Copp, of Hamilton; who exhibit no less than 98 different patterns, and would have exhibited more if space could have been had. These stoves have been taken out of the general stock of this firm, and were not made with any special view to exhibition, but they are splendid specimens of foundry work.

Messrs. Turnbull & Co. exhibit largely in this line, and their stock has a very handsome appearance, and occupies the best position in the building. Mr. Matthew Howling is a large exhibitor, as usual. His stoves are not of his own manufacture, and are used merely to illustrate the uses of the many ingenious contrivances which he has become famous for the invention and manufacture of. His toilet sets of Japanese ware are very handsome, and the same may be said in an intensified degree of his copper work, which is shown in all the various stages of its manufacture.

ROOTS AND GRAINS. The show in this department is decidedly poor. The display is quite inferior to that which we were entitled to expect. A very fine sample of wheat was shown which was sent to the Association from Mr. R. Brown, of North Saabruk, Vancouver, British Columbia, which weighed

68 pounds to the bushel. It is called the Scotch Flie fall wheat, and is certainly of a superior description. Mr. Brown tells the Association that he grows forty bushels to the acre. Not bad for our sister provinces.

MISCELLANEOUS.
Caleb Chase, Guelph, shows some excellent mill picks; also, some fine samples of horse-shoes.

T. D. Gaffe, Mount Forest, shows a new patent cement for sidewalks, roadways, garden walks, croquet grounds, cellar floors, etc. It combines many advantages and will no doubt come into general use.

Mr. Donald Clark, shows successfully some pieces of kersey for horse clothing. A number of pieces of home-made satinet are on exhibition, of various shades of merit. One piece of scarlet flannel, by Mrs. Joseph Grant, of Puslinch, takes 1st prize.

Mr. Donald Clark, Puslinch, gets the second prize for tweeds, home-made; also first for a piece of white serge of really good quality. Miss M. A. McIntyre and Mrs. Joseph Grant, who takes a second prize, are also exhibitors in this article.

Mr. D. Clark gets first prize for a very fine piece of white flannel (home-made). In the display of floral designs Miss L. Parkinson, of Eramosa, has on exhibition a fine pyramid of wild fall leaves and berries, which displays great neatness and grace in arrangement.

With regard to the question of ladies' work we are treading on ground the most hazardous. It would be safe to say, however, that for elegance of design and elaborate execution, the numerous articles of needle work exhibited would hold their own anywhere.

FRIDAY EVENING, SEPT. 27, 1872

The Provincial Exhibition.

Thursday was the great day of the Provincial Exhibition in Hamilton. The visit of the Governor General drew out an immense crowd. The official returns show that about 25,000 persons paid their quarters to enter the grounds. Members of the Association and holders of complimentary tickets must have counted up heavily in addition, for everybody was remarking that never such a crowd was seen at any Exhibition before. The weather was bright and beautiful with a brisk breeze blowing. The crowd was so great in the Palace that Lord Dufferin did not attempt to enter it, but it was arranged that this (Friday) morning he would make a private visit to it.

As will be seen by the report of

the annual meeting of the Agricultural and Arts' Association, the motion to have the next Exhibition held in London was carried by a large majority. The Londoners, we understand had been busily canvassing before the meeting, and induced a number of delegates to vote for London on the ground that if the Exhibition was once taken off its old route, and held in Guelph, other towns such as St. Catharines and Brantford would be clamouring for it, and the four cities would then only have it once in seven or eight years. As it now is they have it every four years. This argument took with not a few, and others fearing that Guelph could not afford sufficient accommodation, voted to keep it on the old track. Well, we are not greatly disappointed. We have a good claim to it, for there is no section of the Province contributes more largely to its entries, or takes so many prizes. Had it been decided to hold the show in Guelph, we could have offered sufficient accommodation for all comers, and would have done all in our power to make it a success, as it undoubtedly would have been. As it is we must redouble our efforts to make our own Central Exhibition a still greater success, and do all in our power to enlarge its dimensions by offering larger prizes and every encouragement to exhibitors.

CHAPTER XIX.

LOVE REVEALS ITSELF—A DISAGREABLE INTERRUPTION—THE OUTCAST.

"Be calm, Captain Gibson," said the youth, with wonderful composure "there is no occasion for this violence. I will come forth voluntarily."

He had by this time relinquished his hold of Lillias, who sank upon the seat in helpless terror, but as her father and her lover moved out, her fear for the latter's safety caused her to spring up and follow them.

If the two men expected to see George manifest the bearing of a man baffled, mortified, and overwhelmed by the discovery which had been made, they found themselves mistaken for he stood before them erect, dignified, and unabashed—his eyes meeting theirs without shrinking and the expression of his face remaining calm and self-possessed.

As for Nathan Garrett, he gazed at the youth with that vague, undefined, yet excessive feeling of dread which he experienced on the day of the youth's arrival, and at the first moment of beholding him, for he was again struck by a resemblance to his former master, George Mortar, and the heart which Nathan Garrett carried in his bosom was so guilty a character that an idea of this kind, even though he attributed it to mere fancy, greatly disturbed him.

"Now, you base, deceitful vagabond, what have you to say for yourself?" roared Stephen, shaking his clenched hand in George's face.

"At least this," answered George, "that I do not deserve to be called by such opprobrious names."

"Have you the impudence to say so after I have caught you thus? You brazen it out well, sir, I must say. Your conduct now is of a piece with the base attempt you have made to ensnare my daughter. None but a scoundrel of the worst description would look me in the face as you are doing after your villainy has been discovered."

"Your pardon, Captain Gibson," said George. "I am conscious of no villainy, therefore I have no occasion to feel other than unmoved before you."

"Denial is useless, sir, utterly useless, I heard sufficient before my entrance to make it impossible for you to resort to subterfuge. The detection is full, sir—full and complete."

"I have nothing to deny," returned George, "I have no need to resort to subterfuge, and detection can occur only when concealment is desired. Of what do you accuse me?"

"Of a base and wicked design upon this simple, silly girl—my daughter Lillias."

"That I do deny," answered George, firmly.

"But I tell you, you need not. I heard your words—heard them with my own ears. The lie, therefore, will not serve you."

"Oh, father," pleaded Lillias, imploringly, "George does not deserve this treatment."

"Peace, girl," roared her father, with a burst of passion. "I promise that you shall be better looked after for the future. I might have guessed something of this kind was working to cause you to object so strongly to the marriage I have settled for you. A very fortunate thing it is for you that this fellow's attempt has come to my knowledge, but dare not to add to your folly by trying to screen him."

"De thankful, rather, that you are saved from ruin. Now, sir, do you still persist in your denial?"

"Most certainly I emphatically deny the charge you have brought against me," replied George. "Of a base and wicked design I am altogether innocent. That I love Lillias is true, but that I cannot no crime, and no disgrace. To love one so fair, so noble—one adorned with every virtue and excellence—"

"Oh, spare us the rhapsody," said Stephen. "Tis not her foolish ear into which you are now pouring that trash. You admit, then, that you have dared to love her?"

"I do."

"And yet you would deny my charge of baseness and villainy?"

"Yes, for it is neither baseness nor villainy to love as I love Lillias, and if you do not distinguish between true affection and interested passion, that is my misfortune but not my fault."

"Perhaps the young man expects you to believe that his motives are not interested," said Nathan Garrett, speaking for the first time, and that in a sarcastic tone, and with a sneer.

Narrow Escape.

The Drayton Enterprise says—Mrs Gankins of the Maryboro Farm, had a narrow escape from death or serious injury one day last week. She was driving over the bridge at the farm, and when about half way on the bridge the horse stopped and would go no farther, but commenced backing up and a part of the railing being broken off the bridge, it backed over it, and fell on a pile of logs laying in the river. Those who witnessed the occurrence expected to find Mrs. Gankins seriously injured, but strange to say she received only a few light bruises. The horse escaped unharmed, but the buggy was broken to pieces.

Jas. I. Fellows, Esq., St. Johns, N. B.—Dear Sir: We are happy to be able to report the favor with which your Syrup of Hypophosphites is received wherever introduced in Canada. The sales, notwithstanding the high price of the article and the short time it has been before the public, have attained very large proportions. Our own sales during the past year have exceeded seven hundred dozens. We have no hesitation in recommending it to our friends as a preparation of undoubted merit. Yours very truly,

A Chemical Food and Nutritive Tonic.

Without Phosphorus no thought, say the Germans, and they might add, no action, since Phosphorus and its Compounds are known to be the motive power of the nervous and muscular system. They constitute more than half the material of the human body, being found in every tissue, and their presence is absolutely essential to nutrition, as they promote the conversion of albumen in the food into fibrine, which is the vitalizing agent of pure, healthy blood. They are now coming into universal use in Europe and America in the treatment of Scrophulous, Consumptive and Venereal diseases, which are caused by impoverished or poisoned blood; and in diseases of women suffering from irregular, obstructed and exhausting discharges, in pale, puny children, and that condition of nervous and physical prostration resulting from habits, and excessive use of stimulants and tobacco, and all other train of evils known as a fast life. The great reliability and promptness in its effects in immediately and permanently restoring the debilitated constitution has made DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES and CALICAVA a great favorite with the Physicians and Public. Sold at \$1.00.

The Largest and Best Company in the World.

This Society has led the van in the Insurance world for many years; it has introduced more improvements and given greater impetus to the business than any Life Company in the United States, and is deserving in this respect of the praise and gratitude of the community.

There are many reasons for selecting the Equitable Life Assurance Society.
1st—No company has such large annual transactions, thereby insuring into its business account a selection of fresh and selected lives which is one of the greatest elements of strength.
2nd—Liberal in dealing with all claims; asserting at the same time, a due regard to the interests of its present large body of policy-holders by a firm resistance to any attempt at imposition.
3rd—Perfect organization in every department, which renders official information easily attainable and secures a complete administration of its affairs.
4th—Being one of the most progressive institutions of its kind in the world, it is ever prepared to seize at once upon all the improvements in the business that science can suggest.

The Equitable Life Assurance Society issues every recognized form of policy, and especially the

WINNING SAVINGS FUND INSURANCE

which the Company introduced. This new plan has become very popular, as equalizing among all who are insured, under its advantages which arise from the profits of the business, without in any respect infringing upon the normal results for which Life Insurance was first instituted.

The EQUITABLE feels that it has the strongest claims upon public confidence. Under the management that distinguishes it, and the principles by which it is guided, perfect security is given for the future, than which no greater inducement can be held out to all who wish to insure their lives. Further information regarding the different kinds of Policies issued by the Society can readily be obtained at
