BRIDGETOWN, ANNAPOLIS COUNTY, NOVA SCOTIA, APRIL 18, 1910

NO. 52

WILL MAKE HOMES IN NOVA SCOTIA

Two Hundred New Settlers with Capital Aggregating Two Hundred Thousand Dollars Destined for Our Province.

Fifty immigrants, representing a capital of over \$75,000 destined for Nova Scotia, especially conducted by Rev. M. McLean Goldie, the representative of the Government of Nova Scotia in England, arrived on the mail steamer Virginian at noon last week from Liverpool. In addition there were on board the big liner 1281 passengers made up as follows: Sixty-one first, four hundred and ninety-one second, and nine hundred and thirty-one steerage.

Besides her passengers the Virginian had 1459 sacks of mail, 312 packages parcel post and 190 packages express. The steamer docked at one p. m., and the special with the mails left at 4.30 having eight cars and a number of passengers. At 11 o'clock last night a C. P. R. special left and later two I. C. R. specials pulled out. Of the number of passengers on board nine hundred landed here, and the remainder will go around to St. John when the steamer leaves today.

Speaking to a representative of the Morning Chronicle, Rev. Mr. Goldie said that undoubtedly his party aggregated two hundred with a capital of \$200,000 was the finest that had ever left the shores of England to settle in Nova Scotia. The balance

are coming on other steamers. "We have been working," said Mr. Goldie, "with a view to securing the very best class of immigrants, and although the propaganda has only been started under the auspices of the Department of Industries and Immigration for ten months, nevertheless, the success which has attended the enterprise has exceeded our most sanguine expectations."

Mr. Goldie said that he had been kept unusually busy during the past few months owing to the fact that other parts of the British Empire are now concentrating all their energies with the object of securing settlers similar to those which Nova Scotia and other provinces of Canada are getting; settlers with capital. He said that a better systematic mode of working was being established and notwithstanding the keen competition that exists it is his intention to continue bringing immigrants into Canada on a thorough business basis.

At present the Premier of Western Australia is in England for the purpose of securing immigrants for the part of the Commonwealth that he represents and is organizing a very aggressive scheme which involves a large expenditure.

Legal Decision of Interest to Property Holders

Editor Monitor: I am glad you published in last issue the item of the above nature. Such items should not be held back. Published they do good service. Property holders should bear the point in mind. How many have been called upon to pay under similar conditions it would be hard to tell, notwithstanding the agreement verbal-written-printed: No sale, no charge. One, we know, who had waited for months for the agent to effect a sale, but waited in vain, has paid, rather than be worried by a threatened legal contest. Thanks for your duty to your readers. Honor, also, to local legal talent that won the case.—COM.

NEW COLLEGE PRESIDENT.

Bishop Worrell has received a dispatch from Rev. T. W. Powell, M.A. of Toronto, announcing his acceptance of the office of the presidency of Kings' College, Windsor, his duties to commence in September.

Rev. Mr. Worrell is a canon of St. Alban's cathedral, Toronto, and a pastor of a large suburban church in that city, a prominent clergyman, a strong worker for temperance and educationalist.

A Costly Ride

The theft of a short ride on an I. C. R. train will cost Frank Patterson and Arthur Ryan fifty dollars each, or else they will serve three months in the county jail. They were in a box car on No. 12 train coming from St. John last night and were talking a peep out to see if anybody was in sight. Somebody was, in the person of the conductor and brakeman, who captured Ryan while Patterson got away. He came the rest of the way to Moncton on foot and early this morning Officer Bryden was told that the man was hanging about the yard in the west end. The second arrest was made and the two pals were placed in the same cell. This morning the two were taken before Magistrate Kay on the complaint of Special Agent Tindley and were fined fifty dollars or three months in jail.—Moncton Transcript.

HALIFAX MAY HAVE MELBA

If there is sufficient interest shown in the subscription list, the Academy of Music management will have Melba and her company come to Halifax at the close of her engagement at Covent Garden. Halifax has had a number of great artists during the past ten or twelve years, but the securing of Melba for a concert is by far the greatest and most costly undertaking that has ever been attempted.

Bridgetown Regrets Departure of Prominent Citizen

Mr. F. L. Milner, barrister, left on Monday for Amherst where he will in future reside and follow his profession. The esteem in which he is held in this community and the regret which all classes feel at his departure has found expression in various ways. On last Friday night the Presbyterian congregation held a social at the home of Mr. John W. Ross in honor of Mr. and Mrs. Milner. The latter was unfortunately unable to be present owing to illness. A presentation was made to them on behalf of the congregation by Mr. W. R. Calder, of three beautiful pieces of silver. Previous to Mr. Milner's departure for Amherst at a gathering of the Council and a number of citizens at the home of Mayor Hoyt he was suitably inscribed, the presentation being accompanied by the following address:—

Frank L. Milner, Esq.,
Dear Sir,

On behalf of the Town Council I have the pleasure of presenting to you, on the eve of your departure from us, this small token of remembrance, not because of its intrinsic value, but as a sincere expression of the high place you have won during your residence among us in the esteem and confidence of the members of the Council as well as our fellow-citizens in general.

While we may much regret the loss from among us of one who has proved so competent an adviser and so valuable a citizen, and realize that the vacancy cannot easily be filled, we extend to you our heartfelt wishes for your prosperity, and for the health and welfare of yourself and family in your new sphere; and in doing so we are confident that we voice not only our own sentiments as a Town Council, but the sentiments of the many warm friends among our citizens whom you will leave behind.

I remain in behalf of the Council
Yours sincerely
W. J. HOYT,
Mayor.

Bridgetown, N. S. March 29, '10.

Obituary.

JAMES GREENSLADE.
James Greenslade, one of our Round Hill residents, passed away on the morning of Thursday last, the 7th inst. Seventeen years ago he left the country of his birth—Devon,—the third largest county of the motherland and the shores of old England, with a view of establishing a home on this side of the great Atlantic. He was well-known here for his remarkable industry and perseverance, working early and late, and as a result was in a fair way of accumulating a good share of earth's riches. Unfortunately a few years ago he was attacked by an incurable disease which gradually undermined his health, and finally brought about his death. He was of a sterling character, honest, steady and reliable and he will undoubtedly be missed in this community. The funeral took place at the parish church of St. Paul's, Rosette, the rector of the parish, the Rev. John Reeks, conducting the burial services.

He leaves a wife and six children to mourn their great loss.—COM.

Arbor Day

The Monitor has received the following letter from a prominent educationist especially interested in Annapolis county school matters. It refers to a subject of much timely interest and importance, — attractive school surroundings and the application of natural science teaching. Bridgetown is exceptionally favored in the matter of school surroundings, the park-like grounds enclosing the modern brick school-house being a matter of pride and pleasure, not only to the pupils but to our citizens in general. A few beds of annual flower seeds and vegetables might be made an additional source of pleasure and profit to the pupils. Some of our county districts show very little taste or care in their school surroundings and to the consideration of readers in these sections the following suggestions are especially commended.—ED.

To the Editor Monitor-Sentinel:—
Have the teachers and parents fully appreciated the educational value of school premises?—Spring is here with its green grass, its singing birds, its trees bursting into life and its beautiful flowers, shall we not appropriate more of natural beauty for the benefit of our children, who sometimes find the school and school premises dull and uninteresting.

Not the least potent educators in a child's life are his surroundings. The school life of the children for six hours each day and five days each week, and for ten months each year, should be made as clean, dear and beautiful as the natural conditions will allow. Beautiful surroundings will be an uplift to the child morally and intellectually.

The school premises should be the most beautiful place in the community. There is where the children live during the most impressive period of their lives.

The most practical lessons in life may be learned in connection with the proper care of the school premises—the application of all natural science teachings finds its natural application in the school garden.

The garden may be small but if it is well kept, the lessons on weather, botany, find their natural application in the school garden.

The school garden work intelligently directed should aid in solving many of the problems that are seeking a solution in country districts. It would increase the knowledge and give a taste for farming.

Reading school lessons and sitting in the school-room, lead the child's taste from the farm, while gardening would as naturally lead to a love for agriculture. Forestry is a subject that in recent years is rapidly placing itself in the front rank of recognition by every Nova Scotian.

The planting and care of trees would certainly lead to a more sympathetic interest in forestry. In country schools no better work could be undertaken by the school than the planting of the native trees of Nova Scotia on a corner of the school grounds and thus forming an Arboretum. Much has been accomplished by our common schools, but much yet remains to be done in the future. The proper observance of Arbor Day in our schools would give an added interest to the school.

Few institutions are so well adapted to increase the prosperity of the country and promote the happiness of the people as the common school.

The possibilities for the increasing usefulness of the school in the hands of the teachers, trustees and parents of the present time. The improvement and beautifying of the school buildings and grounds, affords all an opportunity for doing a splendid work.

Arbor Day is a day set apart each spring to do that work and this affords a good opportunity to do a noble and useful work.

Good manners are the manners of the people who treat others with uniform consideration and kindness, who believe the best of others and by such belief bring out the best there is in others. Wherever people of this kind is found, there is good society.

A Wild Bird Sanctuary in an English Home

Thinking that your readers would like to hear something of what is being done here for feeding and caring for the wild birds, I write to tell you about it. Some time ago I took in about four acres of parkland and planted it with every imaginable hardy shrub and tree which bears fruit or berries beloved of the birds. It is now a fascinating tangle of leaves, fruit, berries, seeds, and cones in their season, with wild trails and natural paths leading here and there in dell, bank, knoll, or wilderness.

I got the carpenter to build a little feeding pavilion of oak on oak posts, with a sloping shingle roof to keep off the snow and rain. Inside there are three tiers of oaken trays, in which I have placed every morning a mixture we pour boiling water, and when it cools a little the trays are filled with it. On the ground beneath the pavilion we place a large, very shallow earthenware pan of fresh water. This is renewed twice a day in the frosty weather and every morning otherwise. Fresh water is as needful to our birds as food, and especially in cold weather.

On the crossbars that support or uphold this structure I hang coconuts, stuffed with meat. Our acrobatic friends, the tits, when realizing themselves on these, perform wondrous antics.

This bird-feeding pavilion stands in front of our dining room windows, and it is quite delightful to see the joy and surprise of the many varieties of birds which visit it. I have also invented feeder troughs for the birds, which are rooted over so as to protect them whilst feeding from the snow and rain. These troughs are placed in sheltered corners of the garden. On almost every tree I have hung up great feeding sticks, with deep, round holes which are filled with fat and seeds regularly. In the wilderness I hang up meaty bones on the tree branches and other edibles at which the birds like to peck.

Outside each of the bedroom windows I have had oak put up on supports of iron. On these trays food and fresh water are placed every morning for the birds. I have also put several hundreds of nesting boxes in the trees and in many quiet retreats all over the grounds, so I think and hope the birds are happy here.

In America we always gave the birds a Christmas tree, and I have tried to keep up the custom in my adopted home. Our servants are very good to the birds, and outside the windows many big birds, without fear, or chatter, gossip, and sing while the maids are singing close by. Often when I am talking in the garden the birds come so near that I can touch them. They sing to me, and I learn many beautiful secrets from them.

Northampton, Eng.

Broken Rails and Tires

Broken rails have become a frequent occurrence on the I. R. C. No less than one hundred and twenty were discovered from the 1st to the 26th of March. Railwaymen are at a loss to account for it, unless it is suddenly changing atmosphere.

The inbound night freight was flagged on Folly Mountain last Sunday morning by a section man who discovered a broken rail, and he was just in the nick of time. No. 10, the St. John Express, and other trains passed over it a few hours previous, and yet there are those in authority who would do away with Sunday track walking.

A correspondent writes:—"A certain newspaper referring to the Folly Lake accident said that railwaymen heretofore never knew of broken tirts. This is not correct. I have personal knowledge, of such in Nova Scotia, and there has been not less than ten such occurrences on the I. R. C. in 1910, but fortunately none of them, with the exception of the Folly Lake affair, caused fatal or even serious accidents."—Truro Sun.

REGISTRATION OF VITAL STATISTICS

First Report of Registrar of Vital Statistics.—Two Births to One Death.—Tuberculosis Claims Many Victims.

The first report of the deputy registrar general relating to the registration of births, marriages and deaths was laid on the table of the house of assembly last week.

The total number of births recorded in 1908-9 were 12,332. On the basis of a population of 500,000, the birth rate per 1,000 is 24.7. The increase in births over deaths amounted to 5,854. There was an increase of births over deaths in every county in the province.

Of the 12,332 births, 6,385 were males and 5,947 females.

MARRIAGE GAINING IN POPULARITY

The total number of marriages was 2,485 as against 2,755 the previous year. This is an increase of one hundred and thirty, or three per cent. in the rate over 1908 and gives Nova Scotia a present marriage rate of 5.77 per 1,000. September proves to be the popular month for marriages, the number being celebrated in that month being three hundred and sixty-seven. Only one hundred and forty-seven were solemnized in March.

DEATH RATE LOWER THAN ONTARIO.

The total number of deaths recorded

in Nova Scotia during the financial year 1908-9 was 6,978, 3,555 males and 3,423 females. This gives a death rate of 14.0 per 1,000. The death rate compared favorably with rate in Ontario which is 15.0 and in England and Wales 14.7.

TUBERCULOSIS CHIEF CAUSE OF DEATHS.

Tuberculosis of lungs heads the list of the chief causes of death, claiming 922 victims, 13.3 per cent of the total mortality list. Senile decay is the next most common cause with 512 deaths or 7.3 per cent; pneumonia follows with 487 or 5.5 per cent; congenital debility with 291 or 4.2 per cent; organic heart disease with 744 or 3.9 per cent; cholera infantum with 211 or 3.0 per cent; paralysis (without indicated cause) with 178 or 2.8 per cent; diphtheria with 178 or 2.5 per cent; convulsions (infants) with 176 or 2.5 per cent; Bright's disease with 143 or 2.9 per cent; cancer of stomach and liver with 136 or 1.9 per cent; simple meningitis with 132 or 1.9 per cent; cerebral congestion with 119 or 1.7 per cent. Typhoid fever carried off 88 or 1.2 per cent.

Death Penalty For Dealers in Cocaine is Advocated

Philadelphia, April 8.—Capital punishment was advocated last night by Dr. Henry Beals, Jr., president of the Pennsylvania State Board of Medical Examiners, in an address before the American Society for the Study of Alcohol and other Drug Narcotics.

"Murder is penalized with capital punishment. To kill a man and allow him to live is worse than murder. This is what cocaine does, because the victim of the drug continues to live and exert an influence that is immoral, depraved and criminal and beyond the power of man to estimate in its ultimate results in destroying humanity."

TROOPS FOR ALDERSHOT

The following corps will train at the Aldershot camp, beginning Sept. 13, and 14: Hussars, 3rd Brigade C. I. A., 7th Heavy Brigade C. I. A., Corps of Guides Military District 9, 68th, 69th, 70th six companies, 75th, 78th, 93rd and 94th Regiments, one company Royal Canadian Regiment; Signalling Corps M. D., No. 9; No. 8 Company Canadian Army Service Corps; No. 1 Field Ambulance, No. 9 detachment Canadian Ordnance Corps.

Major E. F. McNeil has been gazetted as Lieut. Col. of the 69th regiment, to succeed G. A. LeCain, who has been gazetted as Brigade Major of the 14th Infantry Brigade.

One Express Rate

At a recent meeting of the Annapolis Board of Trade the following resolution was moved by A. E. Atkes and seconded by J. Owen, and passed:

"Whereas on the lines of railways where one private company operates the express business (as on the Dominion Atlantic Railway) for all parcels weighing seven pounds or over there are double rates charged as for example on parcels from Montreal to Annapolis Royal weighing ten pounds the rate is from Montreal to St. John N. B. or Halifax, N. S., 35c., and from those points to Annapolis Royal N. S., on the D. A. Ry. 35c.

"And whereas, this is considered to be an injustice and imposing on the people a double rate in distinction to other places having one through rate therefore resolved that this Board of Trade ask the railway commissioners for Canada to have arranged either running rights granted to different express companies for all roads or a through rate pro rata per mile to all sections of the Dominion."

ABOLITION OF TREATING.

Quebec, March 31.—Once more at this session it is announced that the total abolition of the "Treating System," in saloons and hotels of Province will be proposed in legislature by Allen W. Giard in Compton.

MONITOR OFFICE

WORTH ITS WEIGHT IN GOLD

MI-O-NA has reached a Gold Standard Says Harry Ellis of Fergus, Ont., says: "I believe that MI-O-NA for the cure of stomach trouble, is worth its weight in gold. It cured me from a stomach difficulty that seemed puzzle all other prescriptions and remedies. I was unable to eat, the food would ferment and form gas make a serious pressure on my heart. There were terrible pains in the pit of my stomach. I became weak, drowsy, discouraged and later I got nervous and could not sleep or rest. This disease makes one feel like not wanting to see any human being and produces melancholy and foreboding. I was told to try MI-O-NA, and when I commenced on the first two days' treatment made pain in my stomach cease, and to make a long story short, the number of my visits MI-O-NA was that it cured me wholly, and I now can eat what I like and when I am hungry. I am an ardent advocate of the use of MI-O-NA."

S. N. Wear sells MI-O-NA Tablets, the dyspepsia remedy that is making such surprising cures throughout Canada, for 50 cents a box, guarantees them to cure, or money back.

CARE OF THE EYES.

There is nothing which will so soon refresh tired ocular nerves as many hours of sleep. Eyes that have been overworked in the daytime should be given absolute rest at twilight, and during the evening books, sewing and cards should be taboo, because the delicate ocular muscles strained by fatigue make the lids blink. This habit usually shows its traces in a network of fine lines all round the eyes, but especially beneath them, where the lines quickly degenerate into wrinkles. At the first indication of incipient crows-feet a girl should break herself of blinking, meanwhile preventing the muscles below the eyes from shrinking by lightly rubbing the cuticle with a very little cold cream applied every night directly after the face has been washed with warm water.

Slightly inflamed eyelids, which frequently are caused by straining the sight, may be relieved by bathing them with a solution of salt or boric acid in pure tepid water or with two or three drops of witch hazel in a glass of hot water. The fluid should always be applied from an eye cup and the lids dried with a fresh, soft handkerchief, rubbed toward the nose the better to prevent the formation of wrinkles about the eyes or upon their lids.

A rose water bath is best for eyes which have been made red by prolonged weeping or by motoring, and, if possible, one should afterward lie down for an hour in a darkened room as a complete respite from work and light is a wonderful aid to cheering and brightening a pair of ordinarily healthy eyes.

Bloodshot eyes nearly always indicate a cold; dark circles about them usually denote imperfect circulation, and swellings below them are frequently a sign of incipient dropsy. For any of these conditions it is unwise to resort to home remedies. They need the prompt attention of the family doctor, who probably will recommend a visit to an eye-specialist.

Eye trouble is so much more common now than it was a generation ago, that it must be largely owing to our high pressure manner of life. That a strain upon the nerves has an effect upon the ocular muscles is evidenced by the number of school girls whose eyes have a restless, excited expression. Their eye-balls, even when such girls are conversing with quiet, elderly people, continually shift from one object to another in a manner which indicates not only extreme nervousness, but a lack of that repose which should characterize every well-bred young gentlewoman.

CORPORATIONS SAVING SOULS

The captains of industry are bringing about reforms in life with a few sentences while preachers must often spend years in educating a lesser number of persons to the same point.

Where can there be found in every day life a more eloquent sermon than that which says to the young man: "Work hard, do right, be patient, be cheerful, be courageous and power and plenty shall surely be yours; but, be your other virtues what they may if you drink, I will turn you out in disgrace?"

The great corporation may be soulless itself, but the great corporation is saving souls, in legions.

Under the storm of the cloud today, And today the hard peril and pain— Tomorrow the stone shall be rolled away, For the sunshine shall follow the rain. (Joquin Miller)

Joker's Corner

ONE TOUCH OF NATURE.

In the heretofore the man encountered a singular group of animals—two or three beavers, an otter, and some seals, say the least, was said. "We were skinned for your wife's furs," they exclaimed, civily, seeing his perplexity.

"So was I," quoth he.

Thenceforth they wandered on together.—Circle Magazine.

LOOKED SUSPICIOUS

A reputable citizen had left four umbrellas to be repaired. At noon he had luncheon in a restaurant, and as he was departing he absentmindedly started to take an umbrella from a hook near his hat.

"That's mine, sir," said a woman at the next table.

He apologized and went out. When he was going home in a street car with his four repaired umbrellas, the got in. She glanced from him to his umbrellas and said:

"I see you had a good day," Everybody's Magazine.

YES OR NO?

There are some legal questions that a witness can not answer by a single yes or no, and a cross-examining lawyer will sometimes take advantage of this fact. One of this class was, once demanding that a witness answer a certain question either in the negative or affirmative.

"I cannot do it," said the witness.

"There are some questions that can be answered by a 'yes' or a 'no' as any one knows."

"I defy you to give an example to the court," thundered the lawyer.

The retort came in a flash, "are you still beating your wife?"

A sickly grin spread over the lawyer's face and he sat down.—Exchange.

"Are you still taking a cold plunge every morning?"

"No; I quit doing that to save time."

"Why a cold plunge doesn't take but a minute or two?"

"I know, but I used to spend three-quarters of an hour curled up in bed hesitating."

"So you don't guide hunting parties any more?"

"None," said the guide. "Got tired of being mistook for a deer."

"How do you earn a living now?"

"Guide fishin' parties. So fer nobody ain't mistook me fer a fish."

DIALOGUE.

Teacher—Name the Greatest Empire on Earth.

Scholar—Empire Liniment.

Teacher—It is an excellent article, but why do you class it with other Empires?

Scholar—Because it Cures white other Empires are exercising their utmost humanity to Kill.

Teacher—Correct. Go to the head.

HOGS LIKE CLEANLINESS.

Joliet, Ill., April 1.—Addressing a farmer's banquet, Howard Francis, a New Lenox township breeder of swine in response to a toast "The Hog," said: "The hog is a sympathetic animal it is susceptible to a kindly treatment and grows fatter in pleasant surroundings.

"It has generally been supposed," he continued, "that almost any old place was good enough for a hog, but in years of experience I have found that good, clean quarters are as much appreciated by the hog as by any other animal, and that it thrives under kindly treatment. This helps in a material way, because the animal grows fatter as a result."

PARASITES IN WAITING FOR THE GIPSY MOTH.

Boston Has a Plan Whereby The Destructive Tree Insects Will Themselves be Gobbled Up.

Boston, Mass., April 4.—When the great Gipsy Moth begins to emerge for its annual feast upon the Massachusetts foliage it will encounter one million foreign enemies which were not in the woods last summer. One hundred colonies of the little Japanese parasite known as the Schedius have just been planted from the factory by W. F. Fiske. In each colony there are about 10,000 parasites making the total for spring planting of 1,000,000. These colonies have been liberated in different parts of the infested area. In the course of three months about 1,000,000 more will be liberated. They attack the gipsy moth eggs showing a marked preference for the eggs in which the embryonic caterpillars have developed so that in reality it is a parasite on the unhatched caterpillars. With one of these in its way the little gipsy moth caterpillar will have slight chances of ever reaching the foliage on the trees.

A number of the Provincial papers have published the irresponsible statement that the larger majority of the women in the United States engaged in the so-called "white slave" traffic were from Canada, chiefly from Nova Scotia. We believed the statement to be untrue, and would not give it publicity. It appears that we were right, for Police Commissioner O'Meara, of Massachusetts, has just issued his annual report up to Nov. 30, 1909. The commissioner comes to the defense of the foreign-born and especially those from the Canadian provinces, which have been accredited with furnishing the great bulk of "white slave slaves." Of the 669 women arrested in Boston last year for any of the offenses which might connect them with "white slavery," the report states that but eighty-six were natives of Canada.—Yarmouth Herald.

Under the Searchlight

(Midland Evening News, Wolverhampton.)

Plenty of interesting data in respect to the transference of Englishmen by Miss Agnes Dean Cameron, who lectured on behalf of the Canadian Government at the Wolverhampton Technical School, on Thursday evening, and her story was admirably told and excellently illustrated. The knowing of our own dominions, which lectures such as these supply, cannot fail to promote their object of drawing the Mother Country into closer acquaintance and sympathy with her colonies. It seems somewhat anomalous however, that the son should find it advisable to take the initiative in rousing the mother's interest. Should there not be, as General Thornycroft opined, greater attention paid to the explanation of Colonial geography, with its natural resources, among the children of the Motherland? It is, as Miss Cameron expressed it, the children who will have the development of the empire when older heads are to enter the daisies, and at any rate, "live boys," whom Miss Cameron characterized as among the most fascinating animals God has made, should be provided with full information of places and opportunities where their powers may find full scope. No one wishes to see the Motherland lose the best of its blood but, as the chairman, Mr. William Kettle, put it, we want to see Canada possessed by the British. To the chairman the word emigration was hateful, and it is distasteful to numbers of others, but softened down into the transference of Englishmen from one part of their dominions to another it loses much of its repulsiveness.

Pains or Cramps

"I carry Dr. Miles' Anti-Pain Pills with me all the time, and for aches and pains there is nothing equals them. I have used them for rheumatic pains, headache, and pains in side and back, and in every case they give perfect satisfaction."

HENRY COURLEN, Boonton, N. J.

Pain comes from tortured nerves. It may occur in any part of the head or body where there is weakness or pressure upon the nerves.

Dr. Miles' Anti-Pain Pills

Relieve pain, whether it be neuralgic, rheumatic, sciatic, headache, stomachic, pleurisy or ovarian pains.

Price 25c at your druggist. He should supply you. If he does not, send price to us, we forward prepaid.

DR. MILES MEDICAL CO., Toronto.

Mrs. Abigail Foster, relict of the late Benjamin Foster, died at Fort Medway last Wednesday at the advanced age of 103 years. She was the oldest person in Queens county.

Diarrhoea should be cured without loss of time and by a medicine which like Chamberlain's Colic, Cholera and Diarrhoea Remedy not only cures promptly but produces no unpleasant after effects. It never fails and is pleasant and safe to take. Sold by all dealers.

"A Kingly Gift"

EARL GREY'S APPEAL

On behalf of Needy Consumptives

Strong words of Canada's Governor-General

At the official opening of the King Edward Sanatorium for Consumptives, near Toronto, His Excellency delivered an address that must have an important bearing on the future of the sanatorium movement in Canada. We quote:—

"The proceedings this afternoon commenced with a beautiful and reverent prayer from your old friend, Dr. Potts. He prayed that the light of the Lord might shine upon us. That prayer is abundantly answered. He also prayed that the White Plague might be removed. Well, whether that prayer will be answered or not depends upon yourselves."

"Is it not a standing shame and reproach to the governments and individuals that there is not more care taken by the people of Canada to protect themselves against the curse of consumption?"

On his way out to the King Edward Sanatorium, so named by permission of His Majesty King Edward VII.—the Governor-General's car was stopped in its progress outside the Canada Cycle & Motor Co. by a large crowd of its employees. A contribution of one hundred dollars was handed the Governor-General, a donation to the Toronto Free Hospital for Consumptives.

"'Twas a kingly gift" said His Excellency in making acknowledgment. "I will tell the King."

Addressing the large audience that attended these opening exercises, referring to this event, Earl Grey said:

"Ladies and gentlemen, when the workmen of Canada are setting an example of this character, I hope you will not be slow to follow, and I trust that the example of the Canada Cycle & Motor Co. may be followed, as I am sure it will, in every factory and manufacturing industry throughout the land."

We carry these words to the people of Canada in our appeal to-day on behalf of the

Muskoka Free Hospital for Consumptives

An institution that has never refused a single applicant admission, because of his or her inability to pay.

Seventy-five patients can be cared for to-day. Accommodation could be provided for three hundred if the required money were forthcoming.

To make this possible, our appeal is for \$30,000, to be used in extension of buildings and maintenance of patients.

Where will your money do more good? Every community and every individual is interested.

His Excellency Earl Grey has shown his interest and sympathy in the work at Muskoka for needy consumptives, by accepting the position of Honorary President of the National Sanitarium Association.

Contributions may be sent to Sir Wm. R. Meredith, Kt., Chief Justice, Osgoode Hall, Toronto; W. J. Gage, Esq., 84 Spadina Ave., or J. S. Robertson, Sec'y-Treas., National Sanitarium Association, 247 King Street West, Toronto, Canada.

For Ladies Only!

Women need Zam-Buk even more than men. For chafed places, inflamed surfaces, skin sore from friction from clothing, rough, red hands, unsightly face sores—for all these and a hundred-and-one needs that are peculiar to women, Zam-Buk is a boon.

Then there are the children! For their little cuts and burns and knocks—for skin rashes and skin sores, Zam-Buk is far the best. Why?

Best because it is pure. Best because it contains not one grain of mineral matter or poisonous coloring, not one bit of animal fat. It is antiseptic, soothing and healing.

A WIFE'S EXPERIENCE. Mrs. Joseph Carr, who keeps a grocery store at 2111 Hamburg Ave., Toronto, says: "In all my years of housekeeping I have never yet used a preparation equal to Zam-Buk. It is nothing short of a wonder—a miracle. Indeed I cannot speak in terms too praise-worthy of its wonderful healing properties, and would not be without this remedy in my home as any cook, I have used it for sores, cuts, bruises and other skin injuries, and consider it a household necessity, especially where there are children, as it heals all wounds and bruises in almost incredibly short time. My eldest son had occasion to use Zam-Buk for a badly inflamed toe, caused by an ingrowing toe nail. A few applications were all that was necessary to draw out the soreness and inflammation, and he looked no sicker with the toe shoe. Every mother and every woman who has charge of a household should keep Zam-Buk handy."

Safe cure for eczema, varicose veins, hot feet, scalded sores, Urticaria, itching sores, ring worms, salt sores, ulcers, burns, bruises, and all skin injuries and diseases. For bottles, drugists and stores everywhere or post free from Zam-Buk Co., Toronto, for price.

MOTOR AND GROW FAT A physician who counts among his patients many well-known London women, has been pointing out the effect of too much automobilism on the figure.

"At the risk of making myself unpopular," he says, "I have had to forbid motoring to several of my patients, who have consulted me regarding their growing embonpoint. Those who have followed my advice have succeeded in regaining their figures."

"Motoring surpasses in luxury any form of locomotion yet invented. The seats are so tilted that one is forced to lean back among the cushions at such an angle that all the muscles are relaxed."

"Add to this the exhilaration which rapid movement produces and the increase of appetite encendered by plenty of fresh air, and you will see that motoring contains most of the elements which make for adiposity."

"Think for yourself, act for yourself, and in doing so cultivate pliability and versatility. Never say you cannot do this or cannot do that. You don't know until you try, nor do you know the strength of your own forces until you commence to draw upon them."

There is one hat so light you'd hardly know you had it on; stylish to the minute; made quite as well as high-priced hats; so dyed as to be fade-proof; silk napped, finely finished, smart, satisfying hat in every way. A. A. Allan & Co., of Toronto, are wholesale distributors for Canada, and the best hatter in your town will show it to you if you will ask for

HERE AND THERE

Chamoisette is the Name of New Spring Gloves. Chamoisette is the name of the new fabric gloves for spring wear. Though woven from cotton, these gloves closely resemble the genuine chamois. They are smooth to the touch on the outside, rough and warm on the inside and are closely woven. They may be purchased in the natural chamois and a number of other shades. Pale tan and

A SUMMER SUGGESTION. White colors are also represented. Prices are from 50 cents a pair up. Flumes are becoming a prominent place on straw hats for afternoon wear. Roses veiled with tulle form the crown of a black straw hat sent over from Paris.

Here is a useful, smart skirt combined with one of the newest lingerie blouses. The skirt is made of white linen of the new poplin weave, and the blouse is trimmed with hand lined lace, while the material is handkerchief lawn.

These May Manton patterns come in sizes for the skirt from 22 to 30 inches waist measure and for the blouse from 34 to 42 inches bust measure. Send 10 cents each for these patterns to this office, giving numbers 650 and blouse 651—and they will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage which insures more prompt delivery.

FOIBLES OF FASHION. The Coin Purse—Cherry Colored Pongee Coats—Let Popular. They fit into the palm of the hand under the glove. Cherry colored pongee will be used for coats to be worn over natural colored pongee or white dresses. Blue and lavender bugle beads are used for embroidering lace and net crepe de chine and liberty silk. Jet necklaces and collars of jet, some with rhinestone clasps, are much in favor.

Madras is one of the best fabrics in which to develop the tailored shirt waist. It is soft, substantial, wears well and is not difficult to launder.

New patterns in madras for the spring are brocaded effects, stripes and

A NEW BLOUSE WAIST. Next conventional designs. Velle nixon, marquisette and wash grenadine are more expensive materials. Shirt waists that are finished with bands are among the novelties of the season. This one includes also wide tucks over the shoulders. It can be embroidered as illustrated or left plain.

This May Manton pattern is cut in sizes from 34 to 44 inches bust measure. Send 10 cents to this office, giving number 650, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

How to get a pure white loaf

THE object of all expert bakers and cooks is to make a pure white loaf. And this object is attained by the use of

PURITY FLOUR

Purity is a hard-wheat flour of decidedly superior whiteness. It bakes into a pure white loaf. So, you see, to get the really beautiful white loaf you must use PURITY hard-wheat flour.

Worse Than Horse.

Old Pastor Says Corporations Kinder Than Churches. Pittsburgh dispatch: "Many a man makes better provision for an old horse than is made by the church for her old ministers," fairly shouted Rev. J. H. McIlvane today before a meeting of Episcopal laymen to which he had been invited.

Dr. McIlvane, because of his prominence in the church, startled his hearers with his statement, and it was recalled that several months ago he tendered his resignation, with a statement intimating that a minister's efforts were not appreciated, but he was induced to reconsider his resignation with a substantial increase in salary.

Dr. McIlvane cited the manner in which big corporations are caring for their old employes, and said that of the 900,000 communicants in the Episcopal church the average communicant gives yearly about nine or ten cents to the support of old ministers. He welcomed the coming of a business man into the church, because then the finances would be put on a business basis.

Chamberlain's Stomach and Liver Tablets assist nature in driving all impurities out of the system, insuring a free and regular condition and restoring the organs of the body to health and strength. Sold by all dealers.

ML Floorglaze Use it to finish floors with a beautiful and most durable surface that you can keep clean most easily.

ML Floorglaze Use it instead of paint or varnish for vehicles of every sort. It withstands the weather.

ML Floorglaze Use it to renew the looks of old furniture and every sort of woodwork.

ML Floorglaze Get it in time—choose from 17 handsome colors in solid Esmeralda, 7 shades of Lacquer to imitate hardwoods, or translucent Lac for natural finish. Ask about the handsome M L Floorglaze has in your home, shown in our Free Book. Mailed costs 50c in feet. Imperial Varnish & Color Company, Ltd., Toronto

CLEANINGS OF FASHION.

Poplin Robes in Perfected the Latest Cry of La Mode—Jet Blouses Bets. Foulard gown lengths for the classic poplin style known as poplin robes are one of the new things shown in the shops. The foulard, which is of heavy, soft twill weave, has a yard and seven-eighths of small petal dotted ground, with a bowler set round of large dots. The robe of the pattern, of which there is an ample quantity, is plain, separated from the figured length by a line of hemstitching through which to cut. The robes come in full range of street colors at \$40.

The Russian coat that is shown from left to right is one of the very latest novelties. The model illustrated is cut to form the petrie at the lower edge that are so smart. The sleeves

FANCY BROUZE COATS. may be either plain coat affairs or slightly full and finished with pointed cuffs. For warm weather linen and other summer suitings will be charming made from this model.

This May Manton pattern is cut in sizes from 34 to 42 inches bust measure. Send 10 cents to this office, giving number 652, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

CAUGHT ON THE WING. The Summer Girl Will Wear Airship and French Cook Shaped Hats.

The airship hat is one of the latest in millinery. It looks exactly like a "Merry Widow" turned up both back and front until the edges of the brims meet on the center of the low crown. Another freak hat of the spring is the French cook shape. The soft tan crown is a mass of net in one color.

A FASHIONABLE SPRING SUIT. and the broad band is swathed in wet of a constricting shade. Spring suits made of materials showing a hair line stripe are fashionable and generally becoming. The suit illustrated combines a short coat with a box plaited skirt. It is golden brown in color, with the cut faced in satin. The fastening is with crochet buttons.

These May Manton patterns come in sizes for the coat from 34 to 44 inches bust measure and for the skirt 22 to 30 inches waist measure. Send 10 cents each for these patterns, giving numbers—coat 653 and skirt 654—and they will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

A BOY'S STRUGGLE FOR LIFE

Mr. E. J. New, of 122 Belleville St., Toronto, says: I can trace my own health's decline to when I had the measles five years ago from which I never really recovered. Some of the best physicians attended me, but with months of suffering he to have continued whooping cough, bronchitis, and then pneumonia. Month after month went by that I shall not soon forget, months of sleepless nights, fearful coughs, washing night sweats, but my boy, a mere shadow. He had no appetite, and my heart ached to see my only child, my only joy, so weakly and so ill. I had a doctor's prescription, but it did not seem to do much good. I had a doctor's prescription, but it did not seem to do much good. I had a doctor's prescription, but it did not seem to do much good.

At this point we tried PSYCHINE, and hence we cannot describe the change that took place. The words can express the thankfulness of his mother and myself when we saw the child was over, and realize that our boy was brought back to life and health. PSYCHINE had restored that which the doctor's prescription had failed to check. Day by day Harold grew stronger, and all through the winter, although constantly out of doors, he failed to take cold, and he put on flesh very quickly. By the spring my son was completely cured, and developed into a strong, sturdy lad.

PSYCHINE is the Greatest Strength Restorer and System Builder known to medical science, and should be used for COUGHS, COLDS, WEAK LUNGS, LOSS OF APPETITE, WEARINESS.

M. K. PIPER PROPRIETOR AND PUBLISHER. WEDNESDAY, APRIL 13, 1910

Ratepayers are looking for some action this season on the part of the Town Council in regard to street improvement. There appears to be an impression that the sum of \$4000 voted by the ratepayers is entirely inadequate for the plan of road construction which the Town Council then had in view.

Some members of the Council believing that the proposed system is beyond the scope of a town of the size and population of Bridgetown are suggesting a less expensive means of improving our streets. They are of the opinion that the use of a good quantity of gravel need in crowning the streets, with a proper fall on the sides to allow the water to run off and attention paid to keeping the ditches and catch-basins open would greatly improve and benefit our streets.

They propose the outlay of about a thousand dollars this season along the method suggested. Middleton is adopting this plan, using both gravel and crushed stone from the quarry. This stone costs eighty cents a load, double the price of the gravel supplied our town and it is questionable whether the stone answers the purpose any better than the gravel. A heavy roller applied to the roads after the gravel is spread would serve to level and solidify the surface. Those who have visited Middleton lately say that the good results of this treatment are already apparent.

Whatever is to be done should be done now. All public spirited citizens are dissatisfied to see the streets neglected and going from bad to worse and will support the efforts of the Council to improve them. All eyes are on you, gentlemen of the Council. What are you going to do!

MARKET REPORT.

Table with 2 columns: Item and Price. Includes Eggs, doz. .18; Butter, lb. .20 to .22; Potatoes, bush .50; Turnips, bush .30; Parsnips, bush .50; Carrots, bush .50; Flour \$5.85, \$6.55; Oats, bush .55; Middling bag \$1.45 \$1.60; Bran 1.85; Feed flour, bag 1.85; Corn Meal, bag 1.65; Veal, lb. .10 to .12; Beef, lb. 7c to .12; Pork .14; Ham .18 to .20; Halibut, lb. .15.

A bill to incorporate the Annapolis County Recreation Association has been introduced into the house of assembly, the association to be governed by a board of trustees, who shall have power to acquire and maintain property for recreation purposes, the object being to apply funds towards the new Recreation Hall for the inmates of the County Institutions which is now in process of construction.

Lord Rosebery.—"Well, its plain that we're pretty unpopular in some quarters, so there's no help for it—some of you chaps have got to go!" "Punch."

Dominion Exhibition

The St. John Exhibition Association, who will this year conduct Canada's Official Fair, the Dominion Exhibition from September 5th, to the 15th, have accepted tender for the erection of the new buildings necessary for this especially important Exhibition. These buildings include the Horticultural Structure 150 feet x 60 feet, Grand Stand 208 feet and seating 1,750 people, new cattle sheds accommodating over five hundred head, sheep-barns, horse-barns, etc.

St. John is already boasting it will have the most modern accommodations for live-stock in Canada and equal to any in the world. The sloping formation of the land upon which the cattle accommodations are to be built affords a peculiar advantage in the way of sight-seeing. For instance, the cattle-sheds alone will house most comfortably over five hundred animals, which from the top of the long central promenade can be seen at a glance, an advantage unique in cattle exhibiting. At most other Fairs detached barns and numerous departments make a satisfactory inspection worrisome and tiresome.

Convenient distribution of water service directly in the stalls, the latest improvements in litter carriers—removing refuse from the cattle buildings with the utmost facility—through ventilation and a great flood of daylight will make the approaching Exhibition much more attractive to exhibitor and sight-seer alike. The Piggery and Sheep-barns have been modelled upon lines embodying the best features, the most up-to-date farms and some new ideas as well. The horse will have ample box-stall accommodations and the advantages of a new barn for the Harness classes.

Poultry, pet stock, etc., are this year to be shown in what has formerly been known as Agricultural Hall, but where much more accommodation is available. The new Horticultural Hall to adjoin the southern wing of the main Industrial building will contain Agricultural exhibits, the Fruit show, Dairying, etc. In fact every department of the approaching Dominion Fair as it affects the farmer, breeder and dairyman has been greatly elaborated and modernized so that St. John will have the distinction of having, what might rightly be termed, the "last word" in national exhibitions.

Accidental Shooting

The community of Chegoogin was shocked on Saturday last to hear of the death of Mr. George Cann by accidental shooting. He remarked to his house-keeper in the morning that he must find and shoot the skunk which had been frequenting his barn and root cellar for about two weeks and that morning was particularly disagreeable. As he did not return a search was made, and he was found at the foot of the ladder in the root cellar, the gun having discharged as he was descending. The coroner decided that death was probably instantaneous as the full charge entered the heart. The funeral was held at his late residence on Tuesday afternoon, the concourse of people being especially large, showing the esteem and respect held for one who was a good neighbor and citizen. Yarmouth Light.

British Parliament

London, April 9.—The House of Commons in committee has adopted Premier Asquith's first veto resolution by a vote of 339 to 237. This resolution declares it expedient that the House of Lords be disabled by law from rejecting or amending a money bill, but that any such limitation shall not be taken to diminish or qualify the existing rights of the House of Commons. Lord Rosebery, continuing his efforts to reform the House of Lords, gave a large dinner party to leading Peers last night and the proposals Lord Rosebery intends to introduce were informally discussed.

Appeal has been filed by Hon. Geo. E. Foster against a decision of Mr. Justice McGee of Toronto, and a jury dismissing his action and claim for \$10,000 damages for alleged libel against the editor of the Toronto Globe.

HOLDING DOWN A HOMESTEAD.

How the Land-Owners in the West Wait For the Office to Open. Something new under the sun! This surely is the case in some all parts of the north Atlantic take their stand side by side to the number of almost eleven hundred. There are a week ahead, securing their business before it day and night. This company is democratic and open to all competitors. Strange language notwithstanding, and stronger buildings in down side by side with the company of the day. Social distinctions are lost. The Russian peasant and the son of a lord may dine on the same table. They share the same coat of arms blanket. Even now is no bar to this fellowship for several women and a baby help to swell the number. The cheerless through invisible army. The Ron and the Lamb, on to opening of the stand among the best of the crowd. Some bringing with them some and some worn to the area and through it with years and rubbing to get the rough side of life.

The last afternoon has come. Tomorrow morning the doors of the land office will be opened and the crowd will fill its first course, as a rule, first served. All down the ranks they will receive their right to make a piece of ground their own. It may be the first inch of earth they have ever owned. Night and day they have kept hold of their property, not a foot of land in most cases of times by a friend.

It is said one homesteader, who had no such friend, offered a man a dollar to help him get the land for an hour. When he came back the man refused to offer him the dollar or the piece. But such cases are rare.

It is Sunday afternoon. The time draws wearily to the January day to the close of the year. Many of them are with their heads bowed. They will receive their right to make a piece of ground their own. It may be the first inch of earth they have ever owned. Night and day they have kept hold of their property, not a foot of land in most cases of times by a friend.

THE EMPIRE DRILL

IS USED BY SUCCESSFUL FARMERS. For more than half a century the Empire Drill has been on the market, and is now used by the most progressive and successful farmers in all parts of the grain-growing world. Surely an evidence that the Empire is all right. If the machine could not do the work as it should be done, it would never have survived—it would not be manufactured today. Empire Drills will sow all brands of commercial fertilizers, no matter how obstinate, in wide range of quantities. Every grain seed sown exactly the same as its neighbor, plants the seeds in a properly prepared seed furrow, at an even depth in the soil, and an equal amount of soil in each trench without shuffling or muddling. Even sowing means even growing, even ripening, and a proper high law simple it is not what the Empire Drill. See how well it is made, how easy to operate. Any further information you desire let us know. We are the exclusive agents in Nova Scotia for the Empire Grain and Fertilizer Drills. BLIGH & PRINCE, TRURO, N.S. Agricultural Implement and Carriage Dealers.

JOHN LOCKETT & SON

LOCAL AND SPECIAL

The trout season has opened and sportsmen are reporting good success.

The mint at Ottawa will soon be making the new Canadian silver dollar.

Louis Brooks is building a house on Church road on a lot purchased from W. Anthony.

J. H. Hicks and Sons have a cottage on Church road nearly completed for one of their workmen, Mr. Kidston.

There should be no unemployed laborers in Bridgetown. Those who have building and gardening operations to attend to are unanimous in complaining of the scarcity of good help.

W. E. Reed, as will be noticed elsewhere, has formed a co-partnership with his brother-in-law, A. W. Kinney who has been in his employ for some years, under the firm name of W. E. Reed & Co.

Outlook.—The flag of MacDonald School floated at halfmast on Wednesday through regard for the late Dr. Willis DeLancey, a former pupil of the school, whose body arrived from Panama for burial on that day.

Two farms have changed ownership during the week. Mrs. Cogswell has bought back the property at Centreton which she sold to John Elliott last spring, and Albert Goodwin has purchased the Henry Bruce farm at Granville.

A bill has been introduced in the House of Assembly, providing that no person shall use or drive a motor car on any public street or highway, unless such person holds a certificate of competence as required under the amendment to the act.

The summer-like days of early April have given place to damp and chilly weather but vegetation is wonderfully forward. Grass is springing, fruit trees are budding, crocuses and pansies blooming and all the indications are that spring has come to stay.

Frank Saboun, who was recently arrested charged with burglary of, and theft from, the premises of Messrs. Nelly and Bowley, Aylesford was brought before Justice Robinson by whom he was, on Monday last, committed to jail to await trial before the supreme court.—Berwick Register.

The Rev. W. G. Hanna, B. A., Secretary of the Lord's Day Alliance, will deliver an address on the work of the Alliance in the Baptist church, on Sabbath evening next. (7th inst.) at the close of the usual evening services in the churches. A collection will be taken up in aid of the funds of the Alliance.

Mr. W. A. Chute, the well-known building mover, left Bear River Monday for Canard, Kings Co., says the Digby Courier, to move a large house for Mr. Evans, an English gentleman. Mr. J. F. Bent has the contract to build a handsome residence on the cellar from which Mr. Chute is moving the building above referred to. We understand the new residence will cost \$18,000.

The death occurred at Berwick on Friday last of Isiah Shaw, the well-known fruit grower. Three generations have been represented by this name all successful orchardists. Mr. Shaw had passed his three score years and ten and had lived to enjoy the fruits of his labor. He is survived by his widow and two sons, Isiah, Jr., on the homestead and Howard, a practicing physician in Ashland, Oregon.

The death occurred suddenly on Monday night of Mrs. Speakman, mother of Mrs. Wm. Howes, with whom she has been for a time residing. Mrs. Speakman was about the house as usual on Monday, but suffering from a severe cold. After she had retired her grandson heard her choking and coughing, and going to her found she had breathed her last. She was in her eighty-seventh year. Interment will take place at Dalhousie where she formerly resided.

There was a full attendance at Esquire Legg's court on Saturday afternoon, says the Outlook, at the trial of Ernest Hoffman, charged with killing moose out of season. Lawyer Parsons was acting for O'Dell and Connell, game officers and Lawyer Davidson defended the accused. The evidence indicated that there exists a general disregard of the game laws. A fine of \$50 was imposed. The scenes in court were animated. At one stage in the proceedings Chas. Connell struck Leader Burns. Lawyer Davidson at once took action for Burns and Connell was fined \$1.50 and costs amounting to about \$5.00 before the court broke up.

PERSONAL

Ernest Dargie leaves today for Boston, where he has secured a position.

Mrs. Alvin Stewart, of Paradise, was a guest at the home of Mrs. John Lockett over Sunday.

Mr. and Mrs. Rupert G. Parker, of South Farmington, have the sympathy of many friends in the loss of their infant child.

Mr. H. Cosman returned last week from St. John where he underwent a surgical operation for appendicitis, and has resumed his position as bookkeeper with McKenzie, Crowe & Co.

Mrs. Otterson has returned from Lawrence town, where she has been visiting her parents. Mr. and Mrs. Albert Phinney, somewhat improved in health.

Mr. Cecil Ruffee, foreman of the Monitor-Sentinel, had the misfortune to break a bone in his wrist last Thursday incapacitating him for work for some weeks.

Mr. John Regan, of Halifax, the well-known representative in Nova Scotia of the Associated Press, was married in Boston and returned with his bride to Halifax last week.

Mr. Joshua Douglas, of Port George, who went to Boston to have an operation for cancer of the tongue returned on Saturday looking bright and cheerful.—Outlook.

Mr. Chas. M. Hoyt, of the Middleton Granite and Marble Works, who was in town a few days ago, reports business starting briskly and orders being filled from all parts of the Valley.

Mr. Vroom Hoyt, responding to the lure of the West, has severed his connection with the Union Bank at Halifax and leaves today for Vancouver. En route he will visit Seattle and spend a few weeks with his sister, Mrs. Godard, in Ashland, Oregon.

Mr. James J. Young, of the staff of the Bank of Nova Scotia, has been transferred from Yarmouth to Halifax, and spent a few days this week in town with his parents, Mr. and Mrs. E. C. Young, on his way to the city.

Mr. C. L. Banks, of Paradise, who was in town the other day, informed the Monitor that he intended leaving shortly for Mexico, where he has business interests and where he was a resident for twelve years. He does not expect to remain away from old Nova Scotia so long this time.

Miss Lyle McCormick, who has spent the winter at Kingman, Maine, left last week to return to Bridgetown visiting her sister, Mrs. W. B. Stewart, Digby, en route. During the winter her brother-in-law, Mr. John son suffered a severe loss in the destruction of his property by fire.

Mrs. B. Dargie has lately returned from Annapolis, where her father, Mr. Fred Bealer, a very ill. Mr. and Mrs. Dargie were summoned on Monday evening to Round Hill owing to the critical illness of Mr. Wm. McLaughlin, of whose recovery there is little hope. They found Miss Durn also in very poor health.

Mrs. DeWitt has returned from New York, says an exchange, where she accompanied Dr. DeWitt, who is taking treatment at a sanatorium in that state. Dr. Avery DeWitt and Mrs. DeWitt have announced the birth of a daughter at Brussels. They expect to return to Wolfville in June where Dr. DeWitt will assist his father in his medical practice.

The funeral of Muriel M. Brown, only daughter of Mrs. H. E. Brown, took place yesterday afternoon from the home. A very large gathering of friends from far and near attended the funeral service, which was very impressive and affecting and was conducted by Rev. N. A. McNeill, assisted by Rev. W. H. Warren. A number of hymns were tenderly and sweetly rendered by the members of the Baptist choir, also a solo "Beautiful Isle of Somewhere" by Miss Gladys Reed and a duet by Miss Beatrice Young and Mrs. A. F. Brown. Four copies of the deceased acted as pallbearers. The casket containing the remains of the lovely young girl was massed with floral tributes.

School Board Meeting

A meeting of the School Committee was held in the Council Room on Tuesday evening the 12th day of April 1910, at 7.30 p.m. with Dr. Jost in the chair and Commissioners Dr. Armstrong, Mayor Hoyt and E. A. Craig present.

Ordered that the following bills be paid, viz:— S. C. Turner, step ladders for the school house, \$1.00; W. A. Warren, chemicals for laboratory, \$3.40; Karl Freeman, for sundries hardware \$1.65; R. A. Crowe for plumbing \$3.25; Dr. Jost, for sundries .95.

It was resolved that the bill of J. H. Hicks & Sons be laid over until the next meeting of the board and that in the meantime the Clerk request J. H. Hicks & Sons to furnish the board with a full account with items and dates for amount of account rendered.

Resolved that the public examinations in the various departments of the Public School of the town be held on Wednesday and Thursday, 18th and 19th days of May, 1910 as follows, namely:—

The Primary department, Grade I to be held on Wednesday at 10.30 a.m. Primary Grade II at 1.15 to 3.15 p.m. on Wednesday. Advanced Primary grades III and IV from 2.15 to 3.15 p.m. on Wednesday. Intermediate department grades V and VI at 10.30 a.m. on Thursday. Preparatory department grades VII and VIII at 1.15 p.m. on Thursday. High school grades IX and X from 2.15 to 3.30 p.m. on Thursday.

Upon the matter of the tuition of an outside pupil being brought before the Chairman, it was discussed at some length by the different members of the board present and upon motion resolved that the matter be left with the Chairman and Clerk.

Resolved that the meeting adjourn to Tuesday May 3rd. next at the same hour and place.

H. RUGGLES Town Clerk

Five Roses, Madam, Gives You Better Pastries Cheaper

Who started that moth-eaten, bewhiskered fallacy, Madam, that the best all-round family flour should be made from soft winter wheat? Then, again, what really good cook would risk his reputation on such a delusion? Once again we ask, who was it?

Soft wheat, means more starch and less gluten protein. If it's starch you want, Madam, and not gluten—starch is cheaper and more plentiful in quantity.

Think of the saving, Madam, both in health and dollars.

And for the same reason your cookies and cakes, etc., will keep longer, fresher, more moist, because FIVE ROSES adds the moisture.

Of course, Madam, you already know the wonderful breadstuffs in the FIVE ROSES brand.

Just mix your dough and set aside awhile before rolling, and roll thinner than usual.

And they invariably rise higher, with a clearer, richer, more delicate appearance.

If you want more pastries with less labor—more nutritious, more appetizing, delicious—save money, time and trouble, and money—Then, Madam, you will use FIVE ROSES.

What It Costs the Working Girl in Boston To Live

(From the Boston American) The above wages, taken in consideration with those paid the younger girls, makes the average wage of Boston women \$4.37 a week.

Facts and figures would indicate that the girl in the country would better remain there, if she has a home, for coming to the city to make her own way means much hardship and tribulation—even were she specially able to obtain work.

Women who are forced to provide for themselves find that in union there is advantage, for if they can have a girl friend share in paying the room rent a great saving results at once.

CLOTHING A PROBLEM. Fifty cents must be laid aside weekly for a new dress or to buy an extra shirt or some of the necessaries.

Those who are forced to live on five dollars a week in this city are very ingenious in their plans. They help one another in the evening to make clothes, so that a girl who would otherwise find it hard to get anything new in the way of a dress is often aided in the desire by a few of her young woman chums.

Shoes are an item in the expenses of a young woman's account that mean something. She must pay as much as two dollars and fifty cents per pair for them, and she is obliged to have at least two pairs a year.

Young women in the city of New Bedford are greatly aided in getting their wearing apparel by a co-operative sales store, where the rich of New York and Newport and other places send their cast-off garments, receiving for them about fifty per cent of their value.

SICKNESS GREAT DANGER. The young woman who lives at home can live upon \$5 simply because she has the consideration of her parents.

The event of sickness or non-employment, even for a short time, puts a girl of this salary into a bad plight in the city. Many hardships and misfortunes are continually coming to light for girls or young women, who have lost their positions through no fault of their own and are stranded.

These girls are often bridged over their dilemma by other young women who have been known to stand them by losing their boarding places by others, who are working and are willing to club together and aid themselves. Some heroic examples in this particular of young women, helping one another, have lately come to light at the State Employment Bureau in Montreal office.

The household is the most fortunate of all the women workers. She receives \$5 a week and her board, and can often save about \$15 a month, provided she has no one to take care of but herself.

Board and lodging \$3.75, Washing .75, Incidentals 1.00, Total LIVING ON \$5-A WEEK. \$5.50

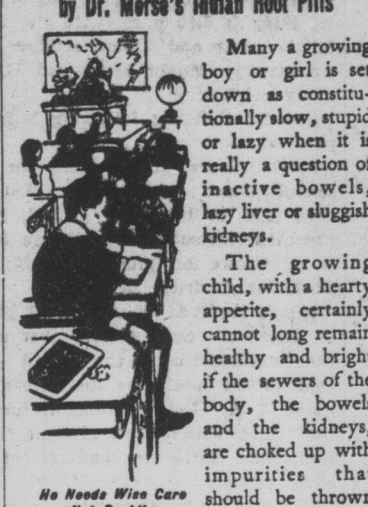

The young woman who is trying to live upon \$5 a week divides up this way: Board and lodging \$2.50, Washing .75, Incidentals 1.00, Total \$4.25

The woman who is obliged to live upon \$5 a week has the struggle and often cannot meet her expenses.

The household is the most fortunate of all the women workers. She receives \$5 a week and her board, and can often save about \$15 a month, provided she has no one to take care of but herself.

It is the united opinion of those in the employment agencies of this city that more women must eventually offer themselves for housework. The demand here is greater than the supply.

Listless, Backward Children Made Bright and Active by Dr. Morse's Indian Root Pills

Many a growing boy or girl is set down as constitutionally slow, stupid or lazy when it is really a question of inactive bowels, the bowels and the kidneys, are choked up with impurities that should be thrown off promptly.

The mummy complexion, dragging limbs, dislike for mental or physical effort show plainly that the child needs Dr. Morse's Indian Root Pills to stir up the liver and kidneys and regulate the bowels.

Dr. Morse's Indian Root Pills do this most effectively, cleansing the whole system, purifying the blood, aiding the digestion and giving plenty of life and activity.

Dr. Burpee FitzRandolph has purchased the farm recently owned by Mr. Fred Shaffer.

Superintendent Freeman, of the V. Tel. Co., has received a motor carriage to be used in his business to reduce horse and railway expense.

Dr. Louis Saunders has sold his property at Middleton to Mr. C. H. Daniels. He took a carload of furniture and the station, Rampart II with him on his return to Calgary.

Mr. Rupert Banks, formerly of Middleton, who a few days ago returned from Winnipeg, has resumed his old position of foreman in the office of the Wolfville Acadian.

Rev. A. C. Archibald, of Brockton, Mass., has received a call to the First Baptist church of Columbus, Ohio, but he understands it to remain in Brockton, where he has just opened a very fine church edifice—Outlook.

Mr. A. M. Reed is making the experiment of sailing a gasoline boat on the Annapolis river, at Middleton. So far as we know he has the honor of being the first to sail on this part of the river in a motor craft.

The Annapolis river is becoming more popular each year for boating and canoeing and the next we may see a fleet of motor boats.

It is difficult to picture to oneself the beneficent change that would come about in the whole of human life, if people ceased to stupefy and poison themselves with spirits, wine, tobacco and opium.—Leo N. Tolstoy.

Wild Panic on British Steamer

Dover, April 7.—A terrific explosion occurred early this morning on the British steamer Cairnrona off Dungeness, which wrecked the women's quarters, killing one child and injuring a number of women and children.

A large number of passengers were landed here this evening, many of them in an exhausted condition. In all, twenty were seriously and no less than fifty were slightly injured by the explosion and in the panic that followed it.

HAD 900 PASSENGERS. The Cairnrona sailed yesterday from London for Portland, Maine. She carried nine hundred passengers, for the most part emigrants and a general cargo.

By great good luck, the steamers Upland and Kanawha were close at hand when the Cairnrona caught fire. They stood-by and took on several hundred passengers and landed them here.

Several of the first-class passengers and American cattlemen give thrilling details of the accident.

THE SUN AND THE AURORA. Chicago, March 30.—Strange eruptions have appeared on the sun according to a statement by Professor Edwin B. Frost, director of the Yerkes' Observatory at William's Bay, Wis.

"The eruptions shoot from the surface of the sun like sky-rockets," said Professor Frost. "They are easily visible at the edge of the disc. One of them shot out to a length of 150,000 miles as near as we could estimate. It then detached itself from the main body and sped through space, a mass of luminous gas not dissimilar to acacia. Before it disappeared it had reached a distance from the sun of 250,000 miles. The eruptions are probably caused by the release of pressure on some particular spot on the sun."

Professor Frost said the disturbance probably accounts for the brilliant auroral displays which have been seen recently.

TO DEAL WITH SOCIAL EVILS. There are now seventeen Presbyterian churches in Winnipeg. The suggestion came from Ralph Connor's active brain to organize them into a Brotherhood. The men of the seventeen Presbyterian churches in the city have organized themselves into a Brotherhood to study and deal with social problems. The idea came from the active and practical brain of Rev. C. W. Gordon. Similar unions are being formed in the Baptist and Methodist churches. This movement has not started a day too soon. The white slave traffic and associated evils are silently and, in some respects, successfully contending that the segregation of vice in the proper method of dealing with that evil. The arguments against segregation have not been declared sufficiently. The work of the Brotherhood will be to educate public opinion in this matter and also to encourage intelligent investigation into the many problems involved in civic administration.

IT IS SIMPLY MARVELLOUS

NOTHING TO COMPARE WITH "FRUIT-A-TIVES."

After Physicians and Ordinary Remedies Failed to Relieve This Famous Fruit Medicine Promptly Cured.

Thousands of people owe their good health to "Fruit-a-tives." Thousands of others are rapidly being restored to health and strength through the marvellous powers of this extraordinary medicine. Here is just one case in Lancaster, Ont.:

"For years, I was a martyr to Chronic Constipation. I tried castor oil, and consulted physicians without relief. Then I began to take 'Fruit-a-tives' and these wonderful fruit tablets entirely cured me."

(Mrs.) ZENOPHILE BONNEVILLE. 50c a box, 6 for \$2.50, or trial size 25c. At dealers or from Fruit-a-tives, Limited, Ottawa.

THE ORPHAN'S LAMENT. "But she is in her grave, and oh, The difference to me!"

—Woodworth Though many winters' snow Have been their winding-sheet, Affection's flowers still blow And shed their odors sweet. Above, around This sacred mound In which that dismal day They laid thy form away; And somehow still it gives relief In memory's listening ear to tell our secret grief.

To-day, when rain is falling As sadly it fell then, We are that day recalling—Time brings it back again—When like a brood Of birds in wood Which 'neath Love's wings would hide And all stores bravely bide, Till by some sportsman's aim beret Were we, still D's dart flew, and orphan-hearts were left.

Grey woods shall yet be greening Where far-down flocks shall meet, And on the braes the yearling Shall by its mother bleat; But days of yore Return no more, When we were free from fear Because we had thee near; But this doth ease our poignant pain Eternity's glad Spring shall give thee back again!

Alexander Louis Fraser, Great Village, Nova Scotia.

Your tongue is coated. Your breath is foul. Headaches come and go. These symptoms show that your stomach is the trouble. To remove the cause is the first thing, and Chamberlain's Stomach and Liver Tablets will do that. Easy to take and most effective. Sold by all dealers.

NOT YET, BUT... Twinkle, twinkle, little star! Oft I've wondered what you are; But with airships' there's no doubt That ere long I will find out.

Convince yourself that it is worth the price

THE secret of the greater flavor and body of Union Blend Tea—the choice aroma—lies in the fact that there is not a single full-grown tea leaf in it. I use nothing but the tender, young sprouts hill grown in Ceylon and India, and I get the pick of the crops every year. This ensures quality. In my thirty years I have gathered together a staff of expert blenders who devote their entire time to make Union Blend

the one perfect tea. That's why I stake all my business reputation on its delicious, refreshing flavor. Union Blend Tea comes to you in a hermetically sealed packet that keeps all the strength and flavor in the leaves. It's as different from ordinary tea as—well, there's no comparison, really. You can prove it—right in your own tea-cup!

Union Blend one pound packets—the pound packets only—contain coupons that are worth money to you. But this is only an advertisement—the tea itself is worth the price, fully.

UNION BLEND TEA the Tea that satisfies

I HAVE no doubt you wonder why I use my picture in advertising a tea. Let me explain—it is for your protection. When you buy, look for this picture on the end of the packet; it is your guarantee that the packet contains Union Blend—the tea that satisfies. I firmly believe that you are going to like Union Blend Tea when once

you try it—grocers tell me that of all who once start using it, ninety-five per cent. continue to buy it. Remember, also, that you have only to buy one, half pound packet to convince yourself of the truth of my claim—will you give me the chance to prove my words? I shall be perfectly satisfied to accept Harry W. Frost your decision.

Clothing and Furnishings

Greatest Spring-time display of merchandise that has ever been seen in this store.

Each season it seems as if we could go no farther, and yet this spring we are as far ahead of last, as last spring as we were ahead of the previous year.

THE SMARTEST SPRING STYLES for Men and young Men and Boys are bidding for your favour, come in for closer inspection.

Our Clothing, Hats and Haberdashery will stand the most critical examination and satisfy you of their superior merit.

Never did you see such stylish, refined looking clothes at the prices.

J. HARRY HICKS

SPRING! SPRING! SPRING!

Having been away the last three weeks looking over the world's fashion centres I was fortunate to secure some nice goods at prices which will make you smile.

CLOTHING! CLOTHING!

Mens' Suits, the latest styles your inspection. Prices from \$4.75 to \$12.75. Youth's Suits, the biggest display in town. Boys' 2 piece suits. I am sure I can satisfy you.

BOOTS! BOOTS! BOOTS!

\$1500.00 worth of Mens', Ladies', Boys' and Children's Shoes, all shapes, all styles.

House cleaning time is here; have a look at our Oilcloths, Matting, and Lace Curtains, before you buy. I must turn my stock into cash as I don't want to carry such heavy stock. Remember the place.

Annapolis Royal, Nova Scotia

LOST HIS BUNNET.

Disappearance of Speaker's Tile Nearly by Unseen Empire.

Anyone who has visited the House of Commons when that body is in motion, and has passed from the galleries on the legislators busily engaged at \$2,500 per head, in escaping work, has noted with feelings of curiosity, not unaccompanied with awe, Mr. Speaker seated in his carved oak chair, with knee and ankles rampant all over it. In his previous life and from his chambers to the House, Mr. Speaker wears a curiously shaped crooked hat, resembling nothing so much as those mysterious three-cornered pie which made Hanbury famous. Every first Comdomeer has worn one, but the present occupant of the Chair, the Honorable Charles Martell, when he came into office last year, ordered at vast expense a more stylish looking hat, with a new design, which he generally wears on his passage to and from the chamber with a distinct look of discomfort. It is this hat which the other day was on the verge of precipitating a Parliamentary crisis, concerned with the Canadian navy and the Lamsden charges are mere child's play.

The Honorable Charles lost his hat, and he did not know it was missing until a few minutes before the House was due to meet at three o'clock. The peg on which it hung, with the equally famous silk gown, was empty. Colonel Smith, the general in the chamber, was waiting at the door to hand the procession, as there is no precedent on record of any Speaker opening the daily sitting of the Commons with the traditional headgear. The crisis was so grave that even the famous British North American Act on a dusty shelf in the library stirred uneasily inside its vellum bindings.

Up in the clock tower, Big Ben boomed the hour of three. Members gathered in the chamber for their daily religious exercises but that of rubbing, by the way, are carefully hidden from the view of ordinary spectators. Still the procession was delayed. The Sergeant at Arms got so excited that the end of the mace nearly extinguished the candles of the guardian of the Speaker's rooms. Had the underling been engaged in any other exercise but that of rubbing his eyes, in an effort to keep awake, the consequences might have been serious. From the apartments came the sound of furniture being violently moved and the distant tones of the Honorable Charles wondering what had happened to his tile. Then from the interior came a shrill note of triumph. Mademoiselle Martell, bearing in her hand the derelict headgear. It appeared that a little girl relative had taken the hat in which to put her doll to sleep, and the three-cornered tile was discovered under a bed, and the child had died up the little sis baby. Thus was the commotion saved in the very nick of time, and an alibi was concocted into the Chamber with all the pomp and panoply of state.

Graham the Jester.
The chief "joller" in the House of Commons is Hon. George Perry Graham, the Minister of Education and Canada. His good humor is irresistible, and he escapes from many a tight corner by his quick wit and ready pen. An instance of the Minister's "jolliness" occurred, accidentally, during an animated talk over the question of granting water powers to private individuals. This was one of those big bears of Parliament, and frequently raises his head. The Opposition argued long and loud about the matter, but what they thought were the people's interests, although Mr. Graham pointed out that the same were quietly safeguarded by the Railway Commission. Two hours were consumed. Finally, the right hon. member, in an eventually the talk concerning water powers died of exhaustion. The next day, the order paper was that standing to the name of Mr. Alexander Haggart, of Winnipeg, to incorporate the Congregational Union of Canada.

"Any water powers asked for in this" required an Opposition member tactfully.

"Oh, no," laughed Mr. Graham. "This is not a Baptist congregation."

Boulevard For Montreal.
An ambitious scheme for the construction of a boulevard from Montreal to the northern extremity of the island of Montreal has been planned by a number of Montreal financiers, who will apply for the necessary authorization by an act of the next session. These gentlemen, Messrs. J. A. Pendergast, manager of the Banque d'Hydro-Québec, Sen. Veronique, and J. F. R. Laussane, financier, G. Hartshorn, civil engineer, and Jean Vercauthe, broker, seek incorporation under the name of the Montreal East Boulevard Co. They wish power to construct the boulevard and the following rather wide powers are those described—"with tramways, electric light, waterworks, parks, buildings and private residences, and with right of expropriation and other necessary rights and for other purposes."

The Deadly Revolver.
A cheap revolver can do more deadly work, with less preparation than a subtle poison. The sale of poisons is at least under restriction, but any insecticide who can be bought or sold the price is able to make a human battery of himself on five minutes' notice.—Toronto Telegram.

A Record Egg.
A young pullet owned by David Lewis, of Kingston, laid an egg which measured 6.13 by 7.34 inches in circumference.

A BRILLIANT WRITER.

Dr. Thomas O'Hagan's Essays Are Receiving High Praise.

Thomas O'Hagan, M.A., Ph. D., the noted Canadian critic, poet and litterateur, whose recently published essays are receiving such high praise from leading Canadian and American critics, is one of Canada's most brilliant young writers. During the last fifteen years he has been doing splendid work in the field of literature and making a name for himself. His first attracted marked attention by his Songs of the Settlements and his Canadian Essays and Studies in Poetry reveal a wide acquaintance with literature of the Dominion.

Dr. O'Hagan is of Irish descent and of good old Kerry stock. He was educated at St. Michael's College and Ottawa University, graduating there in 1888 with high honors in English, Latin, French and German, and subsequently took a post graduate course at Cornell University, where he studied literature under Prof. Corson, the eminent Brownian and Shakespearean scholar. He followed the teaching profession for some years and has taken a deep interest in the educational advancement of the Catholic schools of Ontario. He has held classical and modern languages masterships in several of the leading high schools of Canada and has been a voluminous contributor to many of the leading magazines, periodicals and newspapers of the day. His writing is characterized by a fine literary style and a finish that stamp him as a writer of superior merit.

During 1903 and 1904 Dr. O'Hagan travelled in Europe and he has enjoyed great success on the lecture platform both in Canada and the United States. He has lectured at the Catholic Winter School at New Orleans, the Columbian Catholic Summer School, Detroit, and the Champlain Summer School, Plattsburg, and has appeared on the lecture platform in nearly all the leading cities of the American Union.

Dr. O'Hagan is a member of the Canadian Club, Hamilton, and the Gaelic Society, Montreal; the Irish-American Historical Society, the American Historical Catholic Society and the Catholic Congress of Europe. He has specially prepared poems and read them at numerous national celebrations, such as the Moore centenary celebration in Belleville, the jubilee of St. Michael's College, Toronto, in 1903, and the dedication of the Memorial Church to the Jesuit Martyrs at Pontenach, in 1902. Among his noted published works may be mentioned Gate of Flowers, 1897; Dreamland, 1898, and his recent work, Beauty, Liberty, Critical and Historical. His earlier poetical works received high commendation from J. D. Whittier, Dudley C. Warner, Katharine Tysan, Charles D. Roberts, Jas. Jeffrey Roche and a host of minor critics. Dr. O'Hagan is still a young man and much valuable work may still be expected from his brilliant and facile pen.

A Difference of Viewpoints.
Mr. Frank Nelson, with addition to being the best known race-starter in Canada is sporting editor of The Canadian, and he has written and delivered several other things, was one of the chief witnesses against the Miller case, and he has received a special enquiry at Ottawa. After he had given his evidence, Mr. W. E. Raney of Toronto, who represents the religious interests back of the measure, approached Nelson in the corridor and said:

"Look here, Nelson, it's all very well for you to testify as you did, but you must admit that racing brings objectionable characters into the country and that racing associations even admit objectionable characters to membership."

"Well," replied Nelson, "there's a good deal of difference of opinion everywhere as to what constitutes an objectionable character. Now I used to belong to a very fine organization and it specified only two classes of people which it would not admit to membership under any consideration. We say you like to know what they were?"

"Yes," said Mr. Raney.

"One was the liquor seller."

"Quite right," said Mr. Raney.

"What was the other?"

"The lawyer," said Nelson.

And what he said was true, for the organization to which Nelson belonged, which excluded both lawyers and liquor sellers was the Knights of Labor.

More Than He Wanted.
At Dundee, twenty miles east of Winnipeg, on the farm of Guy Scott, there is a flowing well which has caused considerable anxiety to the owner and municipality of Springfield. Mr. Scott wanted an artesian well and he bored down to the rock, a distance of 250 feet. The water spouted up very powerfully and at the top of a pipe thirty feet above the ground the flow is just as strong as at the surface of the ground.

The well was dug a year ago and since then the water has been gushing out from the land altogether beyond the control of the owner of the farm.

The Springfield Council gave a great toward helping Mr. Scott to control the water and concrete to the thickness of ten feet was put all around the pipe. The flow, however, was still so strong that the water spouted out all around the concrete. The water is now running away for miles under the snow.

There is reason to believe that the C.P.R. will take hold and help control the situation by piping the water to Hazelridge for tank purposes.

Power Plows For Alberta.
A few weeks ago an entire train of gasoline power plows arrived in Alberta and despatches later advise that a large steam plow manufacturing company in Indiana had shipped thirty steam plowing outfits to that district. Each engine is capable of plowing 2,000 acres during the season.

Losers Cannot Vote.
All citizens of Brazil have the franchise—both soldiers and beggars.

Crops For Sheep

The wise shepherd in planning his crops for the year has regard to the needs of his flock. He recognizes the great advantage of providing not only a variety of foods but a succession of succulent crops the season through. Bulletin No. 12, "Sheep Husbandry in Canada," published and issued free by the Live Stock Branch at Ottawa, takes up this subject in a practical and thorough manner. Under special crops for sheep deals with clover, alfalfa, vetches, rape, cabbage, turnips, mangels, and the several classes of grain. Each is treated separately in regard to method of cultivation and manner of feeding. Dealing with vetches the bulletin says:

"Vetches, or tares, as they are also called, make excellent fodder for sheep, either as a soiling crop or as cured hay. This crop much resembles peas in habit of growth and requires about the same kind of cultivation. Its vines are more slender than peas and stand up better when grown with a stiff variety of oats. Vetches are grown extensively for sheep feed in Great Britain, and to some extent in Canada for the same purpose. The writer, while raising sheep, always grew a small area of tares with oats for colting the show flock, and in case of a shortage of clover tares were cured for hay. The crop being fine in vine and very leafy is much relished by sheep and constitutes a rich diet."

"Two varieties of vetches are grown for fodder. The common vetch is the chief sort cultivated, but the hairy variety is receiving some attention. The latter produces the heavier yield, but so far the seed having to be imported is very expensive and few care to bother with it."

"The soil for vetches should be clean, mellow and rich. The seed may be sown in drills or broadcast. A good seeding for either soiling or hay is about three pecks of vetches and four pecks of oats per acre. The vetches are ready to feed any time after the crop comes into blossom and before the seed commences to ripen. For soiling the crop may be hauled to racks, or be distributed on the sod of a pasture field as soon as cut, or it may be allowed to wilt in the swath for a few hours. Vetch hay is made in much the same manner as clover or timothy is handled. Vetches may be pastured by sheep, but this is a wasteful practice, as much of the crop is destroyed by tramping."

Every family and especially those who reside in the country should be provided at all times with a bottle of Chamberlain's Liniment. There is no telling when it may be wanted in case of an accident or emergency. It is most excellent in all cases of rheumatism, sprains and bruises. Sold by all dealers.

Sheep-raisers who do not already possess a copy of this bulletin would do well to order one from the Live Stock Commissioner at Ottawa.

Every family and especially those who reside in the country should be provided at all times with a bottle of Chamberlain's Liniment. There is no telling when it may be wanted in case of an accident or emergency. It is most excellent in all cases of rheumatism, sprains and bruises. Sold by all dealers.

Mrs. Rachael Graves is home, after visiting friends in Bridgetown, on Sunday school at 10 a. m.

Make Them Sound
A lame horse is a dead loss. Spavin, Curb, Splint, Ringbone, Swollen Joints and Bony Growths won't cure themselves. Yet you can cure these troubles and make your lame horse sound with

Kendall's Spavin Cure
just as thousands have done, and are doing today.
In the 40 years that this world's famous remedy has been on the market, Kendall's Spavin Cure has saved millions of dollars to horse owners.

Mounds, P.O., Olds, Ala.
Care for a number of years with great success, and I think it can't be beaten as an all-around stable liniment for Kicks, Strains, Swelling of all kinds, Ringbone and Spavin.

ARTHUR FLETCHER.
No telling when you will need it. Get a bottle now—\$1—5 for \$5.
One book—"A Treatise On The Horse"—free at your druggist or write us.
Dr. B. J. KENDALL CO., Proprietors, Falls, Va.

Bear River.

While working on Clarke Bros. wharf on Saturday last Elwyn Morine, aged forty-seven, suddenly expired, as he stooped down to pick up a pebble. He leaves a wife and four children, also a brother and sister, and his parents, Mr. and Mrs. John Morine. Interment took place at Mt. Hope cemetery on Monday.
On Friday last Mrs. Rebecca, wife of Wesley Rossmore, passed away, after a long illness, at the age of fifty-eight years, leaving a husband to mourn his loss.
Tern Schr. Ponhook, Payne sailed for Clevelago on Tuesday, with lumber.
Schr. Hugh John, Capt. Young, arrived on Saturday to load lumber for St. Kitts.

Round Bill

Mrs. A. D. Bancroft returned from Halifax last week, where she has been undergoing surgical treatment. We are pleased to say she seems much improved in health.
Mr. Bernard Foster has returned from the Military School in Halifax, where he has been for the past three months. He expects to return to the city again in the near future.
Mr. William McLaughlin still remains in a very critical condition. Little hope is entertained for his recovery.
Mr. William Bancroft is still confined to his house, but his many friends are in hope to see him out again soon.
The Easter meeting held in St. Paul's church was very satisfactory. The Warden appointed for the year are: James Whitman and Robert Tupper. A vote of thanks was passed for Miss Gladys Sargent, who has so kindly filled the position of organist.
Mrs. Gertrude Spurr leaves for Boston today, taking with her many sad memories.
Miss Lena Purdy has been visiting her friend, Miss Erena Healy.

Port Wade

On Thursday afternoon while working at the ore pit Mr. Macgregor met with a serious accident, falling into the pit and striking on his side on the planking, breaking three of his ribs and otherwise getting a severe shaking-up. Dr. Smith was summoned and attended to his injuries.
Mr. Carleton Nelly with a gang of workmen is getting along nicely with the improvements on his premises here.
James Snow will soon have his store ready for occupancy.
James F. Morrison is occupying his residence here and is taking care of a number of boarders.
A strike occurred in the excavating work here last week, but was promptly settled.
Work is now booming on the works at the pier, new hands are being put on daily. Anyone handy at carpenter work should have no trouble in getting a job. General pay is \$1.50.
A large barge is anchored off here unloading ballast preparatory to loading lumber at A. D. Mills & Sons, Annapolis.

Port Lorne

Miss Hattie O'Neal, of Mr. Rose, has been visiting her sister, Mrs. G. D. Corbett.
Mr. Percy Brinton and William Johnson are home from Boston, after spending the winter there and in visiting his son, Rev. Walter Smith.
Mrs. Rachael Graves is home, after visiting friends in Bridgetown, on Sunday school at 10 a. m.

Parkers Cove

Mr. Thomas Milner and son, having purchased the schooner "Wave Queen" from Capt. Howard Anderson, of Digby, are now making necessary repairs and fitting her up for halibut fishing.
Mr. George Robinson, of Lynn, Mass., spent a fortnight's vacation with his parents, Mr. and Mrs. Stephen Robinson.
Fred and George Milner, Enos Wiles and Stuart Robinson have returned home from sea, after being gone a year. We are always glad to welcome our boys back again.
Morris Clayton leaves today for Boston, where in the future he intends to reside.
Mrs. Eliza Halliday has returned home, having spent the winter with her daughter, Mrs. Cora Bohaker, of Karadale.
Mr. William Carter, of California, was the guest of Mr. and Mrs. David Milner last week.

Springfield.

(April 6.)
Messrs. L. E. Carter, Gifford Grimm and Ellis Hoop left on the 4th for the West.
Mr. and Mrs. S. A. Conrad from New Germany spent Sunday last the guest of the latter's parents, Mr. and Mrs. John Grimm.
Miss Georgia Morrison and friend, Miss Loggie, returned to Halifax on the 2nd to resume their studies at the Ladies' College.
Mrs. F. Carter from Bridgewater, was the guest of Mr. and Mrs. L. E. Carter on the 2nd.

North Wiltamston

(April 6.)
The many friends here of Dr. Willis DeLaney, of California, learned of his death with deep regret. We extend our deep sympathy to the bereaved parents, brothers and sisters in their sad affliction.
We are sorry to report that Mrs. M. J. Nelly is in poor health.
Mr. and Mrs. S. C. Turner, of Bridgetown, were guests of Mr. and Mrs. W. E. Halsey on the 3rd.
Mr. Legac Hills spent the week end with friends at Bridgetown.
Mr. and Mrs. Z. Durling and child visited Mr. and Mrs. O. DeLaney quite recently.
Mr. Geo. Clarke and family have moved to Middleton.

Smith Cove

(April 6.)
The metallic sheathing for the vestry of the Baptist church arrived, and the work of putting it on will be commenced forthwith.
Mr. and Mrs. Lovitt Winchester, of Scotch Village, visited friends here this week.
Rev. Henry Carter officiated at the Baptist church services last Sunday. He has about recovered from the ill effects of the smash-up he was in recently.
Mrs. George T. Cossett is critically ill with pleurisy.
Ploughing operations are now the order of the day. Early cropping is anticipated.
Miss Stella Austin has returned from St. John, where she spent Easter.
Mrs. A. M. Gidney has returned from Boston.
Mr. John McGuire expects to take charge of the building operations on the new rail way that is to be laid down between Canning and Middleton. He will probably take quite a crew of men with him from here.
Because of his appointments to the office of collector of Customs at Digby it is not likely that Mr. Gidney will sell his residence, "Wobneda Lodge". He values it at three thousand five hundred dollars.
Miss Nellie Bullis is in Digby attending her brother, Mr. Arthur Bullis and his wife, both of whom have been threatened with pneumonia.
Mrs. E. R. Thomas spent Easter with friends in Halifax.
Miss Pearl Thomas, who fills a lucrative position in a photographic studio in Halifax, is using her spare time in studying at the art school. Miss Thomas is an artist of considerable attainment and is much in love with the work.

Annapolis.

(April 6.)
H. B. Burnham, H. M. S. Customs, is home for a short time.
Miss Jennie Brittain, accompanied by her cousin from St. John, spent Easter at Bridgewater.
Miss Dora Thomas and friend, Miss Lewis, of Acadia Seminary, spent Easter the guest of Mr. and Mrs. W. M. Farnsworth.
Miss Mary Balcom, who is attending Commercial College, Halifax, was home for the holidays.
Miss Dimock, of Halifax, assisted with the Easter music in the Methodist church.
Mr. G. B. Arnaud is enjoying a visit here before returning to Colaba. Mrs. T. M. Buckler, and her mother Mrs. Roy, spent a couple of days at Bridgetown last week.
Chas. Whitman has returned to Halifax to resume his studies at the Commercial College.
At the Board of Trade meeting held on Monday evening, it was decided that public feeling was against the removal of the elevated bridge on St. George St. It is probable that application will be made through the Railway Commission for a more suitable structure than the present one.

THEY ACTUALLY CURE RHEUMATISM

Gin Pills Prove It
It is one thing to claim to cure Rheumatism. It is quite another to do it. Gin Pills bear out every claim we make for they are not a "favorite prescription" or a "miraculous discovery" or a "wonderful secret preparation."
They are simply a common-sense, scientific combination of medicines that have proved their value in Rheumatism, Kidney and Bladder Troubles, and Disorders of the Liver.
Ogden, N. S., July 1st, 1909.
"I have been troubled with Rheumatism so bad that I could not work. A doctor tended me and advised me to go to the hospital but all of good until a friend told me to try Gin Pills. I did so and after using a few boxes, I am perfectly cured. I am recommending Gin Pills."
D. J. LAWLER.
There is no reason why Mr. Lawler's case should be any different from yours. He took Gin Pills and cured himself of Rheumatism. Why don't you take them and cure yourself?
We will let you test them free. A sample of Gin Pills will be sent you, absolutely free, if you write the National Drug & Chem. Co. Limited Dept. N. S., Toronto.

THE RED FOX'S TRICKS

THE LITTLE FELLOW SEEMS TO OVERCOME ALL TROUBLES.

In spite of all the evils that beset him the Red Fox Thrives and Manages to Get Along Almost Anywhere—He is a Fine Mouser-Catcher and is of Great Service to the Farmer.

Too well known to need description; the joy of the hunter; hated by the farmer, yet one of his best friends; hunted, trapped, and poisoned by experts everywhere, the red fox holds his own in every section of the country. In fact he appears to thrive and increase best under the most difficult conditions.

Have you ever during the spring months visited a fox den where a mother fox and family reside? If not, out of nature's tricks has been missed. In crossing a piece of woods one fine spring afternoon I happened to be placed by a most peculiar noise. Moving forward with extreme caution, I approached the brow of a low, yellow hill and saw the red fox started once more, and down the hill on their path went rolling, tumbling, and growling, a band of young ones. At the bottom they would break away and rush up the hill a distance, then disappear into a hole only to appear higher up or lower down the hill from some underground passage, and repeat the same thing over and over again. A sharp cry close by told me I had been seen by mother fox, and the little fellows scattered. I called at his place and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished. Examining the den I found a number of holes for fully fifty feet up the hill. The path leading to the den was very rough and no doubt was an ideal playground. At the foot of the hill was a large hole and sharp eyes curious to know the danger. The moment I moved from my position I was seen and all vanished.
