## RATEPAYERS WILL HOLD AN INQUIRY

Into West Toronto's Sewer Problem to Find Reason for Delay.

### IN SOUTHERN SECTION

Spoon in Man's Stomach Who Didn't Know He Had Swallowed It.

The live question in Ward Seven at present, with the exception of transportation, is the sewer problem, and the next meeting of the Ratepayers' Association will be devoted to a study of the conditions existing in the various sections of the ward. Few of the citizens realize fully the size of the work which is now and has been going on for the past eighteen months. During that time, in spite of the utmost difficulty, the sewer trunk and the huge Bloor street trunk sewer have been constructed and branch trunks have been built on Clendene avenue, Keele street, Main avenue and Humber street.

These are all in the southern part of West Toronto, however, and the citizens in the northern and eastern sections are asking why the work in their part of the great system mapped out by Commissioner Harris cannot be proceeded with. Everything is apparently being held in check because of the lack of permanent pavement disposal. No permanent pavements can be laid; no car lines constructed and many other local improvements have to be temporarily denied because the streets will have to be torn up again when the sewers are laid.

It is to find out the exact situation and to discuss the reason, if possible, why the work cannot be proceeded with in other parts of the ward, that the special meeting is being held and an effort will be made to have the works commissioner address the ratepayers on the subject on Friday evening next, Feb. 13, in the Annetta street school.

Worcester Lodge No. 47, Sons of England, held a special meeting for the initiation of business and the election of new candidates in St. James' Hall last night. The local branch of the United Machineists met in another part of the building.

Troubled for several weeks by peculiar and occasionally acute pains in his stomach, Lawrence Murphy, of 14 Annetta street, acted on the advice of his friends and underwent an X-ray examination yesterday at St. Michael's Hospital. When the plate was developed it disclosed the outlines of an average-sized desert spoon lodged at the bottom of the man's stomach. Murphy does not know how the spoon came there, but believes he may have swallowed it while eating a sandwich in a restaurant. He suffered during the last year of the spoon will be performed next Saturday.

**Sudden Death.**  
The death occurred yesterday in Belleville of a former resident of West Toronto, and a well-known member of Victoria Lodge, A. F. and A. M., of Ward Seven, in the person of William H. Ellis. The late Mr. Ellis was manager of the Wm. Davies store in Belleville and was 30 years of age and unmarried. He was found dead in his room in the morning, and it is believed that he suffered an attack of heart failure during the night.

**NORWAY.**  
The delay in lowering the grade of Edgewood road between the cemetery and Edgewood avenue is the cause of a lot of complaint from the residents in the district. It matters little to them when they clean the streets, immediately the water runs down the road back up the hill, making walking very dangerous. Some time ago a man broke on the Kingston road in a car and the channels made by his wheels in the vicinity are flooded.

## GEORGE WALLACE CALLED BY DEATH

Brother of the Late Hon. N. Clarke Wallace of Woodbridge.

George Wallace, eldest brother of the late Hon. N. Clarke Wallace, and son of the late Captain Nathaniel Wallace, was called by death on Thursday morning at 3 o'clock. He had been ill for the past three months and his death was not unexpected. Mr. Wallace was born in Woodbridge on the 25th day of November, 1839, and was the eldest son of the late Captain Nathaniel Wallace, and has resided at Woodbridge all his life, and he was the oldest resident of the town. For a great number of years he ran the shingle mill and barrel factory at Woodbridge, but retired from active business some few years ago.

He was a prominent member of the Royal Orange Association, being a past master of N. C. Wallace, L.O.L., No. 28, a past district master, Vaughan, and a past county master of West York, and a member of the York Pioneer club. He was also a prominent Conservative and a member of the Methodist Church, Woodbridge. Mr. Wallace is survived by his widow, daughter of the late John Williams of Woodbridge, two sons, M. Ross of Calgary and N. George of Woodbridge; a sister, Miss Annie Wallace of Toronto, and a stepdaughter, Mrs. Dr. Orr of Chicago.

The funeral will be held on Sunday, Feb. 8, at 2 p.m. from the funeral parlour, Wallace street, to the Methodist Cemetery, Woodbridge.

**CEDARVALE.**  
At a meeting of the Cedarvale Ratepayers' Association last night, a deputation was appointed to interview the township council and ask that a sidewalk be laid on Woodbine avenue for the convenience of children going to school.

The lack of hydro lamps on Gledhill avenue, Coleridge avenue and Woodbine avenue was again discussed, and will be taken up with the council.

MR. AND MRS. GEORGE CARTER, two of the most popular residents of Earlescourt.

## EQUALIZATION OF YORK ASSESSMENT

Committee's Report Adopted Without Change—York Township Leads.

AT EIGHTEEN MILLS Council May Provide Farm for Mental Weaklings as Suggested.

The York County Council adopted the report of the equalization committee, fixing the total assessment of the various municipalities within the county, without change. York Township leads with an assessment after equalization of \$18,000,000. The total assessment for the county, \$50,463,720, was raised by equalization, \$50,696,338, showing an increase in equalization of \$232,658.

Reeve Watson of King City protested, strongly against the increase of \$100,000 in assessing that township, but he was assured by the members of the equalization committee that King City had been assessed in the same comparison as the townships. The report was adopted.

**Committee Appointed.**  
It was resolved, on the motion of B. W. Hunter of Newmarket, that the legislative committee, with the addition of Reeve Dr. Irwin of Weston and Reeve Dr. Sangster of Stouffville, be authorized to inquire into the necessity for establishing a home for the feeble-minded. "The address of Dr. Irwin," said the committee, "is the address of the feeble-minded." The city council, he said, "can not run anything. They can spend millions in buying street railways, but the people acquiesce with the 4700 bylaws they had passed."

**Opposed Markets.**  
He was strongly opposed to a municipal market and stated that he would not buy meat at St. Lawrence Market if he was paid \$100 per pound to take it. He was very much amused to see the members take to the platform to say that the middleman must be eliminated, but he knew of no better organization than the lawyers had. "You can't kill a man in five years by bad law," said Mr. Trowern, "but he won't last five weeks with bad meat."

He maintained that the retail market was essential in providing wholesome food for the people and if the consumer wanted clean, fresh food they had to pay for it. He said that many women go to the market and they don't know whether they are buying diseased meat or not. Let the city councilors leave municipal markets alone, he said, and practice what they preach.

**Wanless Speaks.**  
Ald. Wanless said he was in favor of public ownership, but for private concerns always gave a lot of trouble to the city. Speaking on the back to the land agitation, he said he was sorry very little had been done in that direction. He thought one of the best things a boy could do is to take up farming and expressed his opinion that thousands of young men in the city were wasting their time in vain efforts while the field of farming had many inducements.

**Reeves Started.**  
The alderman said he had been blamed for starting the discussion regarding municipal markets, but he transferred the blame to Reeve Pugsley of Richmond Hill and Reeve Syme of York, who headed a deputation to the mayor and asked that something be done in the way of establishing suburban markets, as the people were crying out against the high cost of farming and claimed that those markets would save the consumer from 25 to 18 per cent. He wished to state on behalf of the council that they desired to give the people every chance to discuss the matter with a view to solving the problem.

**Wholesale Market.**  
He also stated that a large wholesale market would soon be established on the water front, which is now being considered by the harbor commission.

## TROWERN "SWATS" CIVIC MARKETS

At North Toronto Ratepayers' Meeting Last Night—Slim Attendance.

ALD. WANLESS SPOKE

Told of Wholesale Market Contemplated by Harbor Commission.

E. M. Trowern, secretary of the Retail Merchants' Association, speaking on "markets" at a meeting of the North Toronto Ratepayers' Association last night, contended that socialism was the direct cause of the high cost of living.

"I am very sorry," said he, "that Controller Simpson is not here tonight because it is the agitation and the demand for high wages by trade unions that has an effect on the price of produce. Those labor men think they are just the whole people, and that they can control the source of production and therefore reduce the price of food, but produce will never become cheaper. High wages have brought labor to the city, making it difficult for the farmer to produce for the market, which induces him to make farming a business proposition and to try to get the best price he can."

Mr. Trowern admitted that he was against municipal ownership, first, last and all the time. "The city councilors of Toronto," he said, "can not run anything. They can spend millions in buying street railways, but the people acquiesce with the 4700 bylaws they had passed."

**Market in U. S.**  
He gave instances of the suburban markets in operation in the States, and said that results had been satisfactory. In concluding he said he did not urge the markets if the people did not wish them, but if they did let them study the matter and then ask for what they needed.

**Earlescourt.**  
The ladies of St. Clare's Church, held their usual euchre party and social last night.

**Record Price Paid For Shop License.**  
The highest price ever paid for a shop license in Toronto was recorded yesterday when the license commissioners approved of the transfer of the license of the Allan Graham liquor store, 3 McCaul street, to John Cullen, a former engineer on the C.P.R., at \$35,000.

The board also approved the transfer of the license of the premises, corner of Barbour and Korman House, 134 Sherbourne street, from E. McAvoy to K. H. McDonald of Calgary, the amount involved being \$52,000.

EATON'S DAILY STORE NEWS

Astonishingly Low in Price Are the Sale Attractions in the Carpet Department

Splendid Values in Anglo-Oriental Rugs, Wilton and Brussels Squares

THERE IS A FRENCH PROVERB to the effect that if you cannot be the rose, it is well to be near the rose, and surely the next best thing to the Oriental—as much king among carpets, as the rose is queen among flowers—is one of the new Anglo-Oriental designs. It possesses a thick, soft wool pile with a cotton back, which ensures it lying flat on the floor, and to the casual passer-by could not be distinguished from the genuine Oriental. Sarabands, with their well known pear patterns, Ferahans, with their closely-covered floral and geometrical designs, the trailing pear vines of Kermanshahs, the beautiful medallions and vines of Anatolians, are all to be seen in various colorings—soft greens, rose, blues combined with camel, russet and black, Chinese Samar-kands, which are specially popular with the revival of things Chinese, are obtainable in blues and rose and black on a mustard ground, on a blue or greyish green ground.

Specially worthy of note are a reproduction of a 14th century Persian rug, showing scrolls, flowers and animals on a green ground, and another of a 17th century Ferahan rug in characteristic, closely-covered design. Prices range from—2 1/4 x 3, at \$24.00, to 3 3/4 x 4 1/2 yards, at \$60.00.

Wilton squares, with their close, soft pile and endless wearing qualities are so popular as to need no recommendation, but the remarkably low pricing of the group under present discussion demands special attention. Oriental designs in

medallion, pear, scroll, floral, and the large geometrical designs are obtainable with tan, blue, terra cotta or green grounds. Some are developed in conventional floral and small conventional designs, which look so well with chintz hangings and chair coverings, and the cosy looking red and green Turkey carpet is also to be met with. Sizes and prices from—2 1/4 to 3, \$14.00, to 3 x 4, at \$25.00.

Brussels Squares, which give splendid service to their last thread, are obtainable at prices which are remarkably low, even in this collection of remarkable values. In a tan floral chintz, with a rose wreath and border, and in a two-tone green, floral design with a faint pink rosebud, they are obtainable in sizes ranging from 2 1/4 to 3, at \$9.00, to 3 3/4 x 4 1/2 yards, at \$22.50.

Mirrors, in Sale Clearance, Saturday, at \$2.45

It's a February Sale Special Extraordinary to crowd the Picture Department on the Fourth Floor, at 9 o'clock on Saturday. Our buyer has just rounded up a number of mirrors in many sizes, and in frames suitable for bathrooms, kitchens, stores, show-rooms, etc., which will be offered on Saturday, some

at less than half the usual price. Mirrors are all British bevel plate glass, sizes 12 x 20; 16 x 20; 14 x 24; 18 x 24; 16 x 28, in white enamel frames. Also sizes 20 x 24, and 22 x 28 inches, in solid oak frames—oval, square, and square with rounded corners. The number is limited. Sale price, each, \$2.45. Fourth Floor.

Every Day the Furniture Department Shows Astounding Values

Beautiful Dining and Bedroom Period Suites at Extremely Low Prices

A HAPPY HUNTING GROUND, indeed, the Furniture Building is proving itself, both for lovers of the beautiful and for those who would practise economy, for never before has a February Sale seen such an assemblage of beautiful furniture in this department, and not for years have values been so good as at present. Another very noteworthy feature is that many of the pieces, having been made specially for Exhibition purposes, are absolutely without duplicates. The choice, too, is excellent, for besides numbers of odd pieces, the collection of dining and bedroom suite, is really wonderful both in extent and in the low pricing that prevails, as the few examples described will show.

Absolutely unique is a charming dining-room suite in Adam design, carried out in dark, antique finished mahogany and showing the beautiful simple classic lines which distinguished the famous brothers at their best. Of moderate size, it is so gracefully designed that it would not overcrowd even a small house, the fluted moulding, the slender tapering, grooved legs and the antique brass ring handles, with their wreath and knot ornamentation being the special characteristics. The sideboard, with its low pediment top, has a slightly bowed front, the long linen drawer at the top being fluted along its whole length. Between the two side cupboards are a divided sliding cutlery drawer and another linen drawer. The price, extraordinarily low for such a beautifully designed piece of furniture, is \$94.50.

The Dinner Wagon to match, with its incurved undershelf, is \$39.50; the four-shelfed China Cabinet with mirror back and bent glass front, \$77.00; the round Extension Table, \$72.50, and the 6 Chairs with curved backs and Spanish leather seats, \$75.50.

The admirer of Sheraton will find manifold attractions, both in price and design in a Dining-room Suite of that ilk, in light antique mahogany, inlaid with single and double line satin wood. The sideboard has a low mirror back, supported on double pilasters and are supported on tapering brass capped legs in true Sheraton style. The price is \$72.50. The Extension Table, with octagonal pedestal, is \$58.50, the five shelved China Cabinet, with a long drawer

beneath, is \$48.50, the Dinner Wagon slightly bowed in front to match the sideboard, \$28.00, and the 6 Chairs with slat panel backs, dark leather seats and tapering legs are, \$57.75.

An instance of Chippendale's influence on Sheraton is seen in an artistic bedroom suite in which the bed is ornamented with fretwork, in Chinese Chippendale design on either side of a large cane panel at head and foot. The wood is the typical light mahogany and the price \$60.00. The rest of the suite comprises—a High-boy with low, arched pediment back and shaped front, ring handles, price \$50.00; a Dresser with arched mirror—price, \$48.00, a triple wing Toilet Table, price, \$46.00, and a very graceful Cheval Mirror, with arched top and tapering supports, price, \$30.00.

In William and Mary style is a bedroom suite, of dark mahogany. The low, four-post Bed has oval panels at head and foot, the posts and legs showing the typical ball and cup and saucer turning. Price, \$32.50. The Chest of Drawers has an overhanging top supported on the characteristic turned pilasters. Price, \$36.50. The triple-wing Toilet Table is \$28.00, and the high base Dresser, which, excepting for the arched mirror, is like the chest of drawers, \$39.50.

Corset Comfort and Hygiene as Expressed in the Nemo and Demonstrated by Miss Newport

HAVE YOU EVER had your corset fitted by an expert corsetier? If so, you will know what a difference it makes—how you are quite sure of getting the right model, how its correct adjustment is not only beneficial to your figure, but ensures comfort and health. If you have never had this experience, then come and let Miss Newport, a member of the Nemo Hygiene Fashion Institute, fit you with a Nemo or a Smart Set. She will see at a glance the particular corset that will suit your requirements, and whatever your type of figure, whether you suffer unduly from embonpoint, or whether you are distressingly thin, you may be sure of getting the exact model from among the large selection of Nemo styles, and one that conforms to all the demands of current fashion. Special points to be noted in connection with all Nemo corsets are the "bridge," an invention which prevents the corset pressing in front in that way which is so injurious to the vital organs; the use of "lastikops" cloth and webbing—both elastic materials—in the various lim-shaping and reducing devices, also the "lastikops" beneath the bones of the back, by means which retain the long appearance, while rendering it possible to sit with comfort.

No. 512, to which your attention is especially directed, is a wonderful new figure-reducing model. Its special features are a very low bust, an extremely long skirt, with a triple reducing device, by means of which the abdomen is supported while bands of lastikops automatically massage away superfluous flesh, lim-shaping insertions of lastikops performing the same function at the back. The price is \$6.00. Third Floor, Queen St.

Ostrich Bands, 34 inches long, in white, pale blue, Alice, and royal blue, orange and purple. Price, \$1.65.

Early Spring Styles in Millinery

Jaunty hats of taffeta and moire silk combined with tulle, velvet, lace, etc., with smart mounts in pom-pom and stick-up effects, are specially featured. Jet is frequently introduced in a very artistic way, finishing the base of mounts in large pins or ornaments, strings of solitary beads and in trimmings. Priced at \$4.50 to \$10.00.

Also many styles in imported street hats for immediate wear, at \$1.75 to \$5.00.

A specially prepared collection of misses' hats, made of moire and taffeta silk, velvet, etc., combined with new imported flowers and lace. Saturday, \$3.35.

Ostrich Feather Mounts, consisting of full head tapering stick-up mount in black, white, green, royal blue, cerise and tan. Price, 95c.

J. Lockie Wilson Rebukes Innocent Directors Who Allow Fakers to Operate.

CROP COMPETITIONS

Meant Big Financial Gain to Farmers—School Fairs for Rural Children.

The fourteenth annual convention of the Ontario Association of Exhibitors, was opened at the Canadian Order of Foresters' Hall, College street, yesterday afternoon, with about 250 delegates in attendance. In his report Superintendent J. Lockie Wilson expressed his gratification at the success of the various societies that go to make up the association. Very few of the exhibitors suffered their best weather and only a little more than \$5000 of the appropriation was required to pay the claims made. Field crop competitions, he said, had proved valuable, resulting in better cultivation, cleaner fields, better seed grain and larger financial returns to those who carefully followed the rules. Mr. Wilson commented very forcibly upon the innovation of certain heads of directors in allowing gambling devices to be installed at the fairs. As far as he was concerned he intended to see that the public were protected from these men who take the sum of five dollars and then take away hundreds from the patrons of the fair. He was reported to have said that some of the societies that are permitted to

HORSE IS NEEDED ON WESTERN FARMS

Reaction Against Traction Power Has Set in, States Clydesdale Report.

MARKET WILL GROW

More and More the Horse Will Be the Farmer's Standby.

"A factor in the west that will have an important bearing on the demand for work horses is the decline of traction power for farm work," was the statement made in the annual report of the Clydesdale Horse Association of Canada, yesterday at the annual meeting in the Grand Union Hotel.

"A few years ago it looked as if the tractor was likely to supplant the horse very largely for farm work," stated the report. "A reaction has, however, taken place and the horse is assuming its place as the chief power in working the lands of the west. This does not mean that the tractor will be displaced altogether. There is work in which it can be utilized to advantage, but more than ever before the horse will be the standby of the western farmer."

John Boag, President. The election of officers resulted as follows: President, John A. Boag, Queensville; vice-president, William Graham, Claremont; vice-presidents for the various provinces, Ontario, Peter Christie; Manitoba, John Graham; Saskatchewan, W. H. Bryce; Alberta, John H. NEWS OF SPECIAL INTEREST TO WOMEN

WOMEN DECIDE TO SUPPORT TEACHERS ON SALARY QUESTION

Local Council Will Send a Deputation to the City Hall on Monday to Urge Increase in Wages—Dr. Withrow Endorsed as Commissioner of the Juvenile Court.

Yesterday afternoon saw a second full and busy session for the annual meeting of the Toronto local Council of Women. Mrs. A. M. Huestis presided, and the reading of the reports of federated societies and committees left from the previous day took up a good part of the time.

The president announced that on Monday at 4 p.m. a delegation at the city hall would present the resolution from the local council supporting the request of the women teachers with regard to their salary.

Among the societies from which reports were read were the Jewish Council of Women, the Catholic Young Ladies' Literary Association, the graduate nurses, the Mission Gate, Infants' Home and Infirmary, International Order of King's Daughters, Ladies' Auxiliary Board of Western Hospital, the Nursing Mission, Needlework Guild, Protestant Orphans' Home, Infants' Home and Infirmary, Round Table Club, Toronto Horticultural Association, Rymynde Travel Club, Trafalgar Daughters and Women's Christian Temperance Union.

This last society were able to report that their new building, the Frances Willard Hall, which cost \$11000, was all paid for, the sum having been all collected or obtained by the women themselves.

The satisfaction and confidence of the meeting in its president was voiced in most loud terms, when before the close of the meeting the following addresses were presented: Dear Mrs. Huestis: We, the officers, conveners and members of the Toronto local Council of Women would like to express to you at this annual meeting, in the presence of the presidents and representatives of fifty federated societies, our approval and appreciation of and our absolute faith in your judgment in the many phases of work which come under your jurisdiction. Your calm, logical and sane administration as president of the council is the pride and pleasure of the members, and this year especially when the demands upon your time are so many and varied, we humbly offer our encouragement and loving sympathy to you as our leader in this stupendous work for the benefit of humanity.

Signed on behalf of the council: Minnie Louise Irvine, Corresponding Secretary. Mrs. Boutbee said a few words, supporting the address, after which Miss H. M. Hill read the following on behalf of the vice-presidents: May I follow the excellent tribute of the last speaker by a few words from the vice-presidents of the local council, whose confidence in their chosen president is gained by their knowledge of her intense interest in every branch of the standing committees, helping with wonderful ability and tact whatever required showing great capacity in dealing with public officials, bringing out all the best and most useful points amongst her fellow-workers and last, but not least, extending to all in contact with her a loving affectionate disposition with the utmost forbearance and kindness to those with whom she may possibly not agree in opinion? To these expressions of esteem from her co-workers, Mrs. Huestis replied in her usual gracious manner, assuring all that their confidence and support would be an inspiration for things for the future.

The council endorsed Dr. Withrow for the position of commissioner of the juvenile court, and sent a letter to the mayor to that effect. Greetings were sent to Mrs. Jameson of Calgary, the first woman to be appointed judge of a juvenile court in Canada. The officers were returned by acclamation except the vice-presidents, who were elected as follows: Miss H. M. Hill, Constance Boulton, Mrs. Jacobs, Mrs. Glasgow, Mrs. Campbell, Meyers.

DR. CONBOY WOULD TAKE STEPS TO WRING FROM CONTRACTORS MONEY WRONGFULLY OBTAINED

Judge Winchester's Report Discussed by Board of Education—Board Will Not Advise Tenders in Hebrew Journal—Presentation to Alderman Hiltz.

Chairman McTaggart informed the board of education last night that the report of the superintendent of buildings on Judge Winchester's findings, would be ready for the next meeting. Trustee Jackson, chairman of the property committee, said the report was two-thirds ready. Trustee Faltz said he would defer his motion for the reorganization of the building department to the next meeting. When various tenders were before the board, Dr. Noble said that in view of the charges of cheating by contractors, the repair work should this year be done by day labor. Dr. Conboy said that he was in favor of taking whatever steps were necessary to secure a return of money wrongfully obtained by contractors.

QUOTES LOW GAS RATES TO INGERSOLL COUNCIL Southern Ontario Natural Gas Company Negotiates With Council to Enter Town. INGERSOLL, Feb. 5.—General Manager Lowrey, Frank B. Tomb and Solicitor Sweet of the Southern Ontario Natural Gas Company waited upon the council in reference to the company entering Ingersoll. On behalf of the company a willingness to purify the gas was expressed and rates quoted as follows: Up to four thousand cubic feet, forty-five cents per thousand for prompt payment, over four thousand cubic feet, thirty-five cents per thousand, with a discount of five cents per thousand for prompt payment. The company desire a fixed assessment. The council is inclined to take a favorable view of the conditions named by the company.

WOMAN FALLS ILL AT PARTY IN DURHAM Mrs. Robert Torrey, Wife of Ex-Fire Chief, is Dead as Result of Sudden Seizure. DURHAM, Feb. 5.—While attending a party on Monday evening, Mrs. Robert Torrey, wife of ex-Chief Torrey, of the fire brigade, was suddenly stricken with paralysis. She was removed to her home, but never regained consciousness and died today. Besides her husband she leaves a son, Fred, of Walkerton; two daughters at home; two sisters, Mrs. Beal, of Brantford, and Miss Sheppard, and two brothers on the old homestead in Nelson Township, Halton County. Interment takes place today in Durham Cemetery.

ST. ANTHONY'S H. N. S. The annual election of officers for St. Anthony's Branch, Holy Name Society, held in the new parish hall, resulted as follows: President, J. E. Fullerton; vice-president, W. Crampsey; secretary, George N. Gracey; treasurer, J. Reddin; marshal, J. J. Hyland. The annual reports submitted by the different officers and committees were most satisfactory.

Why use Teas of uncertain quality and value, when delicious

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER for Valentine Jay

A HEART PARTY is a pretty affair for Valentine day, as it affords an opportunity to entertain simply and inexpensively; the only thing absolutely necessary is to have hearts in evidence on every hand.

To begin with the invitations should be heart shaped, or if on white note paper a heart should be drawn, with red ink, at the top or corner of the sheet. Stationery stores sell little packages of hearts in various sizes, or all of one size, reasonably, but if you cannot find these a sheet of red paper will provide as many hearts as you will need for your invitations.

Forfeits and kissing games are only permissible on this true lover's day and are then correct and popular. The refreshment for a valentine party should be light and may be served from the dining table which may be decorated with streamers of hearts running from the chandelier to each table corner.

MARIE LLOYD CANNOT ENTER UNITED STATES Well-Known Vaudeville Singer Turned Back at Western Border. VANCOUVER, B. C., Feb. 5.—Marie Lloyd, an English vaudeville singer, was refused admission to the United States today. An appeal will be made directly to the secretary of state.

WILL RUN GAS-ELECTRIC TRAIN OUT OF KINGSTON C. N. R. to Place Line From Harrowsmith to City—Convenience for Suburbanites. (Special to The Toronto World) KINGSTON, Feb. 5.—It was announced today that the Canadian Northern railway would probably place a gas electric train on its line from Harrowsmith to Kingston, since people along the line would be able to get into town to do their shopping.

Heart Songs at Massey Hall. Mme. Luisa Tetrazzini, the world's greatest coloratura soprano, who honored Toronto with a concert at Massey Hall recently, is perhaps the best-loved singer that this city has ever seen. This was her third visit to Toronto, and on each occasion she has appeared before audiences which have tested the capacity of the famous local auditorium. Competent critics now declare her to be at the zenith of her powers.

JOSEPHUS HENDERSON Josephus Henderson at play Is always, always in the way. He's always cluttering up the floor. Or on the stairs, or at the door. A Goop who's always in the way Will get bumped into hard, some day! Don't Be A Goop!

J. HEPBURN OF LINDSAY DEAD. LINDSAY, Feb. 5.—James Hepburn died here yesterday. He had long been a resident of Lindsay. He was for years a town employe. He is survived by a wife and family and a number of brothers and sisters.

DR. ROBERTSON NOT IDOL AT OTTAWA

Like Bryan He Goes a Lecturing—But Where is Report? AND YEARS ROLL ON Older Generation May Recall When Technical Commission Was Appointed.

(Special to The Toronto World) OTTAWA, Feb. 5.—Great annoyance is expressed in government circles this report of the Technical Education Commission has not yet been handed in complete by Dr. J. W. Robertson. The minister of labor has not yet received the fourth and last volume, and this is the most important, as it deals with conditions in this country as the commissioners' own.

The delay is the more serious as the question of technical education affects the provinces more than the Dominion, although the commission was appointed and financed by the federal authorities. When the complete report is in the hands of the government, copies of it will be sent to the provincial authorities, and nothing will be done by the Dominion Government until the views of the provinces have been obtained and a scheme agreeable to all has been formulated.

HOPE LONG DEFERRED. Announcement is expressed that Dr. Robertson should find time to deliver lectures on the question of technical education so long as the report is not in the hands of the government. The point is emphasized also that the policy which Dr. Robertson is laying down as the best for Canada is not official, and there will be no policy laid down until the report has been heard from.

MARKDALE, Feb. 5.—A theft was perpetrated at the C. P. R. station when a thief took \$300 from the till. The robbery was pulled off while the evening train was at the station and Stationmaster Caesars was out on the platform looking after the express packages and his son Morell was attending to the baggage.

MUCH GROUND GAINED BY HYDRO-ELECTRIC Eighty-Eight New Connections Put in at Galt in January. GALT, Feb. 5.—January was a banner month for the Galt hydro-electric department. There were ninety-nine applications for services. Of these 11 were transfers, leaving a total of 88 new connections, which is about three a day. The total number of users of hydro power in Galt is now considerably in excess of 1600.

MUTUAL INSURANCE DIRECTORS GALT, Feb. 5.—At the annual meeting of the Gore District Mutual Fire Insurance Co. here, Hugh Cant and Robert Scott of Galt, and Lincoln Goldie of Guelph, were elected directors for three years, and Charles Turnbull of Galt was elected for two years.

Very Latest Fancies of Fashion

Plaids Still Popular For Misses' Models

By MADGE MARVEL

PLAIDS have had unusual popularity for several months...

Two Charming Models for Misses

pleasing variations of costume not otherwise possible.

In the illustration an example of the skilful combination of plaids is shown

to advantage. In this case the skirt is of one of the tartan plaid serges...

At first glance the effect is of stripes running around the figure on the skirt of the tunic and biased on the bodice.

In this silk the widest stripe is blue, which is the strongest color in the plaid of the skirt, and the revers and sash are of satin in the same shade.

The gown on the other figure is charming in its simplicity, and is beautifully suited for the same young schoolgirl for whom the plaid is intended.

It is pink silk mull, the skirt having a tier of four ruffles, the upper and deeper one being the skirt of the tunic.

The bodice could not be more simple with its simple closing, and is finished at the neck and elbow sleeves with a double ruching of the mull.

The book deals with an hereditary feud between the Pyncheons and the Maules dating back about two hundred years.

Great Novels in a Nutshell "The House of Seven Gables"

Condensed from the HAWTHORNE novel by HELEN S. GRAY.

SEVERAL houses in Salem have been pointed out with insistence as the originals of "The House of Seven Gables"; but, while they doubtless contributed to the picture Hawthorne drew...

ber brother, in her grief and wounded pride she divested herself of her friends and held herself aloof as much as possible from her neighbors.

One day a young cousin, Phebe Pyncheon, came to visit Hester. As her mother had remarked, Phebe belonged to the life in the mouldy old mansion.

The intelligent woman is not always physically beautiful, but the beautiful woman must be intelligent.

In regard to intelligence, one is never in doubt. You do not hear, "Is she intelligent?" for you know whether the person under consideration is of the elect or not.

Clifford Pyncheon had a sensitive, delicate, finely constituted nature such as artists and poets have, but his tenacious old grandfather, Judge Pyncheon, had spent thirty years in prison for a crime he did not commit.

Clifford Pyncheon was a massive, imposing person, who always carried a big gold-headed cane. He resembled a bear in his gait.

Col. Pyncheon then built a fine mansion with seven gables on the site of Man's cabin. His enemy's son was head carpenter.

Nearly two centuries later the Pyncheon family was reduced to five members; and so far as known, there were no Maules. After a brief history of the Pyncheon family the scene of the story shifts to the opening of a shop for the sale of small wares in the old family mansion by Miss Hepzibah Pyncheon.

She was a "mildewed piece of aristocracy" who, like all her predecessors, cherished "an absurd delusion of family importance," based chiefly on shadowy claims to princely territory.

day. But what's the use in living, pray? Oh, why do people try, when it is an established fact that they are bound to die? There's no cure for the Pessimist, whose mind is full of dents.

"BEAUTY MUST BE INTELLIGENT"

Teresa Maxwell-Conover

Work, Hard Work, the Best Rule

By TERESA MAXWELL-CONOVER

BEAUTY is merely a letter of introduction—to your social world or to your audience, if you are an actress.

The intelligent woman is not always physically beautiful, but the beautiful woman must be intelligent.

In regard to intelligence, one is never in doubt. You do not hear, "Is she intelligent?" for you know whether the person under consideration is of the elect or not.

Clifford Pyncheon had a sensitive, delicate, finely constituted nature such as artists and poets have, but his tenacious old grandfather, Judge Pyncheon, had spent thirty years in prison for a crime he did not commit.

day. But what's the use in living, pray? Oh, why do people try, when it is an established fact that they are bound to die? There's no cure for the Pessimist, whose mind is full of dents.

Not Wealthy. "Her face is her fortune."

Possibly. "What is meant by 'initial velocity'?"

Keeps Her Busy. "Your wife says that she always speaks her mind," said John Doe.

One Use for It. "My ability to do tricks with cards," said the amateur prestidigitator.

Two Real Advantages. "He expects to make his fortune out of a combination of the phonograph and the moving picture."

Perhaps. "I wonder why they call this the pain room?"

Secrets of Health and Happiness

Weak Achilles Tendon Cause of "Tired Feet"

By Dr. LEONARD KEENE HIRSHBERG

A. B. M. A., M. D. (Johns Hopkins). Copyright, 1914, by L. K. Hirschberg.

WHERE is your most vulnerable part? It may be your solar plexus; it may be your eyes; it may be your super-sensitive feelings.

Do you recall the beautiful myth about the hero-god Achilles? He, when an infant, was dipped into the river Styx by his mother.

Greek physicians and later anatomists called this part of the human body "the Achilles heel." Then when the tissues inside the heel were dissected one of them which stretches from the calf to the bottom of the heel like a bass violin string was named the "tendon of Achilles."

There are three muscles of the leg which narrow and fuse together as the "tendo-Achilles." This is a most vulnerable texture in housewives, maids, salespeople, letter carriers and all those whose duties limit their walking and standing to a routine habit.

The aches, pains and tribulations of these victims of weak feet and "tired feet" are often beyond the endurance of a Job.

"O little feet! that such long years Must wander on through hopes and fears, Must ache and bleed beneath your load."

I, nearer to the way-side Inn Where toil shall cease and rest begin, Am weary thinking of your road.

"It is a modern conception," according to Dr. Emil S. Geist, the orthopedic surgeon of the University of Minnesota, "that flat foot is primarily caused by a loss of balance of the muscles of the leg and foot."

At such disease, accidents, clumsiness, faulty shoes, ailments and sprains throw the pedal machinery out of gear.

The tendo-Achilles, it has been found, in a great proportion of foot defects, deformities and diseases has shrunk and become shortened.

Briefly, a whole host of young surgeons maintain that one in every five examples of weak feet show upon examination a contracted, short tendon of Achilles.

It cannot be due so much to the high heels of women as to the traditional and faulty "modern" lasts which shoe manufacturers persist in making.

Dr. Hirschberg will answer questions for readers of this paper on medical, hygienic and sanitation subjects that are of general interest.

Answers to Health Questions. L. L.—What is neurasthenia? Professor of Toronto University says I have it.

"Neurasthenia" means nervous weakness, but it is only a conglomerate of symptoms.

Usually "neurasthenia" is actually a form of muscle weakness or muscular "blindness."

"That is to say, your muscles of precision, skill, agility, gymnastics and adaptability have become partially defective."

Proper muscular training will help your "neurasthenia."

Dr. Hirschberg will answer questions for readers of this paper on medical, hygienic and sanitation subjects that are of general interest.

Masterpieces of the Cuisine

By E. Panchard

Chef of the Hotel McAlpin, New York.

PLUM PUDDING. PLACE in a vessel one pound of beef mutton suet, very dry, free of fibres, and chop very finely; one pound of seeded Malaga raisins; one pound of currants cleaned and washed in plenty of water.

one pound of bread crumbs, through a sieve; quarter of a pound of candied lemon peel, chopped up very fine; one pound of powdered sugar; four tablespoonsful of flour; a quarter of an ounce of nutmeg and allspice; a pint of brandy and six eggs.

Mix the whole well together, and add one pound of butter or cream, and bring it out to extract all its moisture; spread it upon a table and butter it liberally with butter softened to the consistency of cream, dredge over with sifted flour and shake the cloth to remove the excess of flour that has failed to adhere to the butter. Lay in the cen-

tre of this cloth the above prepared mixture, form it in the shape of a ball, raise up the edges of the cloth, bringing the four ends together and all around so as to enclose the preparation well, then tighten and tie firmly.

Have on the fire a high sauce pan filled to three-quarters of its height with water. Have it stand for five minutes before cutting the string; undo the cloth carefully and invert the pudding on a hot dish; besprinkle it with sugar, pour over some brandy or rum and set it on the fire; serve immediately. Have a separate sauce boat of frothy vanilla and rum sauce to be made as follows:

Chop up half a pound of beef marrow, melt it in a bain-marie, then strain through a napkin into a bowl and when it begins to froth; then add four ounces of fresh butter broken in small parts, four ounces of vanilla sugar, and lastly, half a gill of rum. Serve.

Daddy's Good Night Story.

By GEORGE HENRY SMITH

DO YOU know," began Judge Bear, talking to Mrs. Bear, "I feel as if I want to go down by the brook and talk to the fishes. It rests me."

"Then why don't you go?" asked his wife. Judge Bear put on his hat and started for the brook. He sat down on a mossy bank and waited for a little fish to come along. He waited and waited and no one came. Finally he heard a voice saying:

"My, but I am glad to get here!" Looking down in the water, Judge Bear saw Mr. Eel peeling straight at him.

"Why are you glad to get here, Mr. Eel?" asked Judge Bear. "Because I have come a thousand miles," answered Mr. Eel. "The brook isn't a thousand miles long," replied Judge Bear.

"How do you know?" asked Mr. Eel. "Because Mr. Cat Fish told me," answered Judge Bear. "Well," began Mr. Eel. "He is right, but I came from the bottom of the ocean, many, many miles out to sea. I was born there."

"Why do you come up the brook?" asked Judge Bear. "There is not so much danger here," said Mr. Eel. "My brothers and sisters and I go along the seashore until we find a river. We go up the river until we come to a brook and then we swim up it as far as we can go."

"Don't you get tired?" asked Judge Bear. "No," said Mr. Eel. "For there is always something to see. Lazy folks get tired."

"I see," said Judge Bear, as he went up the bank. On the way home he began to look at the flowers, the birds and the trees. "I guess Mr. Eel was right," he said to himself. "I'm going to watch everything after this."

One Unhygienic Day

By WINIFRED BLACK

Copyright, 1914, by Newspaper Feature Service.

MR. and Mrs. Michael Shirley of Sonoma county, California, celebrated the 66th anniversary of their wedding the other day and Mrs. Shirley made the cake for the party.

Mrs. Shirley is something over 83 years old. I wonder what sort of a cake she baked.

I'll warrant it wasn't one of these little, nimby-pimby affairs with about a spoonful of jelly between the layers and a thin scattering of stung sugar across its poor forlorn—this beautiful-cake-for-59-cents and a half bakery window sort of top.

I'm willing to wager that that cake had five layers in it and every one of them was so full of jelly, good old-fashioned jelly at that, that you had to eat it with a spoon. And I'll bet that none of the wedding guests at that particular wedding celebration thought you ought to use an ice cream fork to do it.

Frosting—the frosting on Grandma Shirley's wedding cake—was half an inch thick and as smooth as the pond where she and Grandpa Shirley went skating—60 years ago, when her cheeks were red and his hair was black as the crow's wing.

I suppose none of the little great-grandchildren got a bite of that wedding cake—not a single, horrifying, unhygienic bite.

If they were nice, proper modern little children, they brought boughten wafers to the party and ate them instead and wished they were like grandma and had been born 83 years ago, when people ate what they wanted to and let the doctors worry about it.

I'd go half across the continent to be the guest of honor at such a party as that and leave all my new fangled ideas about hygiene and digestion and proteins and calories at home on the top shelf of the darkest closet in my perfectly new scientifically hygienic home.

Let's see—fried chicken—no, broiled, thank you—fried, and fried brown—hot biscuits, potatoes mashed with cream—I do hope they brought them to the table in a blue dish with a big silver spoon standing straight up in the middle of them like a flag-staff.

Succotash and hominy and sweet pickles and sour pickles and mixed pickles and preserved peaches and canned cherries and apple sauce with cinnamon in it and apple sauce without it, and quince jelly, pale and tinged with a geranium leaf—however did you get it so perfect, Aunt Mary—apple jelly as pink as the heart of an apple blossom in May, currant and grape-rose and purple as the Jewels Queen Esther wore at her coronation—

Pies—every kind you could think of, from lemon with whipped cream on top of it, browned just right in the old oven that could bake all around the new ovens—to dried apple, made specially to please Uncle James, and to vinegar pie, which was there to show what Grandma did when fruit was scarce in the early days and her man got pie hungry.

Indigestion—headache, the blues—never in the wide, wide world, not after that party, not even if you were the worst looking at you, Grandma Shirley, and at you, too, Grandpa Shirley—66 years married and not a divorce lawyer in the family records. When you looked across the table, Grandpa Shirley, at the withered face of the woman who has loved you so dear for these many years, I hope she looked as pretty to you the very day of that anniversary dinner as she did when you kissed her first, 66 years ago, in the old apple orchard, when the Early Junes were just beginning to ripen.

But, whisper—I hope neither of you told your guests that you'd never had a single quarrel in all the 66 years. If you did, every one who heard you tell it knew that you were either a saint or that one of you didn't amount to very much. Happy days, old people—and many of them even yet.

On His Dreary Way

By Tom Jackson

THE PESSIMIST is one who views all earthly things with fear, whose system is all full of rust, unrolled and out of gear. He looks upon affairs of life with solemn face and grim, while indignation seems to play a top-line part in him.

If one should say, "It's a nice day, the sun is shining bright," the Pessimist would answer, "Yes, but it will rain by night."

And when he eats a dinner fine he never can refrain from saying, "Oh, what is the use! I'll have to eat again." When e'er he sees a happy man he whispers, "Don't be gay, because you may be laid up sick before another day."

But what's the use in living, pray? Oh, why do people try, when it is an established fact that they are bound to die? There's no cure for the Pessimist, whose mind is full of dents.

When he approaches, if you can, just dodge behind a fence. He throws cold water on our smiles, he wears an icy mitt, and e'ry jolly thing on earth he loves to smite and hit. He's never in a cheerful mood, except when he is sad; he's never feeling good at all unless he's feeling bad. We cannot teach the Pessimist to happy and gay, or look upon the brighter side—he isn't built that way. So he goes on his dreary path, and woe on sorrow piles, until he has his funeral, when everybody smiles.

day. But what's the use in living, pray? Oh, why do people try, when it is an established fact that they are bound to die? There's no cure for the Pessimist, whose mind is full of dents.

FRIDAY, MORNING, FEB. 6.

"JUMP JIM CROW."

Was there ever such a right-about-face since the days of "Jump Jim Crow" as The Telegram has made on the clean-up of the franchise? Compelled to admit that Mayor Hocken's policy was a clean-up, and that the negotiations had secured a clean-up, which it condemned the mayor for not procuring, would be a positive evil and danger to the city, and that nothing but an agreement granting the radials franchises in perpetuity or longer will save the city from the machinations of the enemy. It must puzzle the readers of The Telegram to learn that the clean-up, which it was the weakness of Mayor Hocken's policy not to have obtained last week is this week to be condemned unutterably, while the loud shouts are now to be given in favor of admitting the radials on terms.

It is well to note that all this pother is over a quibble which The Telegram and its friends are endeavoring to magnify into a legal position. The Telegram wants to make a fight on the letter of July 21, which was modified by the letter of Sept. 20, and explicitly modified by the mayor's message of Oct. 13. Yet The Telegram had the effrontery last night to say that the eyesight of Controller McCarthy and Mayor Hocken was so defective that they failed to see the jokers, as The Telegram calls them, in the letter of July 21. Sir William Mackenzie's letter of Sept. 20 shows that, if they were jokers, they were not intended for jokers, for he consented to accept whatever proposal the mayor should make about the radials, and suggested that an agreement be drawn by the city's legal department to suit the mayor. The mayor referred the matter to the legal department with instructions to draw up such an agreement. Now it appears that the legal department has failed to draw up the required agreement, but wishes to draw up one quite different from what the mayor wants, on the ground that by some oversight the council last year mentioned the letter of July 21 without including the letter of Sept. 20 over which so much negotiation had been spent.

We do not wish to be unfair to the legal department, and we are quite willing to admit any justification the department has for itself for not discovering sooner that a technical error in council had led the legal department into a legal belief which its common sense could not tolerate. The mistake of the legal department was in not notifying the mayor that it was preparing an agreement quite contrary to the wishes of the mayor, the board of control and the council, and to the wishes of the citizens. For some reason the mayor and council have been kept in the dark as to the true state of affairs, and the legal department has been preparing an agreement in accordance with the hostile desires of The Telegram, which prophesied, apparently because it knew, that the agreement would not furnish a clean-up.

As a clean-up is what is wanted it should not be difficult for the council to call the attention of the legal department to the letter of Sept. 20, and the mayor's message of Oct. 13. Perhaps then we shall find The Telegram contending for the admission of Sir William Mackenzie's radials.

The Telegram and the legal department are a fine joke together.

BRITISH EMIGRATION.

Last year Canada maintained its commanding lead over the other overseas dominions in the volume of British emigration. The net gain to the Dominion was 164,502, as against 44,509 to Australia and 11803 to New Zealand, that to other British countries being practically a negligible quantity. The United States attracted a net British emigration of 77,094, but even at that a very considerable diminution from the figures of a generation ago. It is satisfactory that such a large proportion of British-born are not so much emigrating as migrating to other parts of the empire, and it will more probably increase than decrease. Within the empire undoubtedly are offered the most attractive opportunities now available to the young and enterprising spirits of the motherland.

CORNWALL PIONEER DEAD.

CORNWALL, Feb. 5.—(Special).—The Township of Cornwall lost an old and highly esteemed resident in the death of H. Algire at Esmer's Corners. Mr. Algire was born in the township 36 years ago, his family being among the pioneer settlers of this section of Eastern Ontario. He is survived by one son and one daughter. The funeral took place to Woodlawn Cemetery, Cornwall, this afternoon.

New South Wales and Victoria are now inviting the entrance of youths between the ages of sixteen and twenty and promise in March the low fare of \$35, or under certain conditions of \$15 instead of the usual steamship minimum of \$90. Government agents undertake to place them on farms, where they will be taught the routine of farm work, and so instructed that in a few years they will be able to take up farms for themselves. A commencement wage of at least \$2.00 a week is guaranteed with full board and lodging. Encouragement for thrift is provided thru the State Savings Banks, and the other government inducements to an agricultural life. Unless the Canadian provinces are prepared to meet this competition the tide of emigration from Britain may be diverted to the sister states of the empire.

MEAT PRODUCTION.

According to Mr. Judson C. Williver, writing in Farm and Fireside, the economic experts of the United States Department of Agriculture are giving close attention to the impending problem of how to supply meat sufficient for the need of the country. In this connection he quotes Dr. T. N. Carver of Harvard University, at a recent conference of experts held at the department, as stating that the whole meat-raising industry has got into an unnatural and abnormal status. This Dr. Carver attributes to the fact that the great corn-raising industry of the middle west, developed some decades ago at a rate so rapid that the world could not absorb the crop until it was transmuted into meat. Then it proved economically possible to raise cattle on grain. That condition, he insists, could not continue, and the end of the system is now approaching.

From a meat exporting country the United States has now changed to a meat importing country. It is drawing from the Argentine, from Australasia and from Canada, with the inevitable result that prices in the places of production and in countries dependent on imported meat, must go higher. That process cannot obtain much longer without a reduction in the demand, an event which Dr. Carver holds will be followed by disintegration of the centralized control of the agencies for slaughtering, marketing, storing and distributing meat. He thinks that the meat-raising industry must retire from the corn belt and return to the normal conditions prevailing one and two generations ago. Meantime the United States Government has in mind to cope with the problem by the provision of municipal abattoirs and markets, the decentralization of meat control and the promotion of meat production in sections where it has not hitherto been pursued.

FOLLOWING ONTARIO'S LEAD.

If the measures recommended by Governor Glynn of New York State, pass the legislature a hydro-electric system will be developed on parallel lines to that now operating in Ontario. When the proposal first commanded public attention a strong effort was made to discredit the provincial undertaking. It was represented as imperfect, unsatisfactory and unprofitable, and to be a warning rather than an example. These unwarranted animadversions have been disregarded, since the most cursory examination could not but disclose their lack of authenticity. A system that has compelled reductions in the retail cost of electric light and power by approximately 50 per cent, cannot by any stretch of fancy be described as illusory or unworthy of credit.

The bills recommended by the New York Conservation Commission give power to the state authorities to regulate the flow of streams, to acquire and construct water powers and plants and do whatever is necessary to develop, transmit and distribute hydro-electric energy. They mean a state-wide development of power because only in this way, it is contended, can New York maintain its industrial standing. Nor is this new departure likely to stand alone. A similar policy is already being called for affecting the other natural resources of the state. This evolution is typical and simply reflects the new ideas that are every day becoming more in evidence. Not the profit of the few but the benefit to the many is the present goal of progressive statesmanship.

WILL PURIFY GAS FOR BRANTFORD CONSUMERS

Pipe Line Company Will Install Purifying Plant for Supply From Tilbury Fields.

BRANTFORD, Feb. 5.—

Brantford gas users are not yet thru with the sulphur gas from the Tilbury field, but there is relief in sight. The Southern Pipe Line Co., which pipes the gas from the Tilbury fields to this and other cities and towns, will install a big purifying plant at the head of the pipe line, which will do away with the necessity of a plant in this city. This was announced to Mayor Spence today.

CORNWALL PIONEER DEAD.

CORNWALL, Feb. 5.—(Special).—The Township of Cornwall lost an old and highly esteemed resident in the death of H. Algire at Esmer's Corners. Mr. Algire was born in the township 36 years ago, his family being among the pioneer settlers of this section of Eastern Ontario. He is survived by one son and one daughter. The funeral took place to Woodlawn Cemetery, Cornwall, this afternoon.

WILD MAN ROAMED NORTHERN WOODS

Geo. Georgeson Arrested After Long Chase at Fort William—Fought Captor.

FORT WILLIAM, Feb. 5.—A year's nomadic life in Western Ontario has evidently blotted from the mind of George Georgeson, who has been apprehended after a long chase by Provincial police, all memory of, and certainly all liking for civilization. Georgeson was placed in a cell this afternoon after having fought over every foot of the twenty-six miles he was taken. Several weeks ago the provincial police received a petition signed by numerous settlers saying a wild man was terrorizing the district and that their families lives were in danger. A search of the country revealed only a man's footprints leading to a dilapidated cabin, barren of furniture save a broken stove and a few quilts. Scarcely a shadow of the man who came from Minnesota a year or so ago to fish, hunt and trap, he was seen yesterday stealthily approaching his cabin. He seemed bewildered at the sight of the constable who singled him out, took him into custody. When nearing the city limits he succeeded in breaking away and was recaptured only after a long chase. He may be deported.

MATTERS BEING SHAPED FOR RADIAL FIELD DAY

London Executive Will Seek to Embrace Points Between Brantford and Windsor.

LONDON, Ont., Feb. 5.—

Western Ontario's radial field day will be held in London during the first week of February or the first week of March. The date has not been definitely set, but a meeting of the executive board of trade will be held within the next few days to attend to this matter and make a recommendation to the board. Delegates from all municipalities as far east as including Brantford and west to Windsor will be invited to attend the session, which is being promoted for the purpose of discussing the radial railway scheme. It is felt that only by concerted action by the many municipalities interested can the desired result be obtained.

WHITBY V. O. N. RAISES \$400.

WHITBY, Ont., Feb. 5.—(Special).—The Victorian Order of Nurses, thru the branch lately established in Whitby, made a successful whirlwind campaign today for funds. A big check fronting the committee room told graphically how the money came in. At the close of the campaign upwards of four hundred dollars was subscribed. Arrangements were complete and worked splendidly under the direction of the enthusiastic president, Mrs. John Baird Laidlaw of Toronto, whose suburban home is in Whitby.

One Hundred Dollars and upwards may be invested in our Debentures. They are issued for one or more years. Interest is paid twice a year. They are AN AUTHORIZED TRUSTEE INVESTMENT. Send for specimen Debentures, last Annual Report and all information. Canada Permanent Mortgage Corporation. TORONTO STREET, TORONTO. Established 1853.

SIGN UP FARMERS BEET SUGAR CROP

Agents of Sugar Refiners Compete for Contracts in Lambton County.

SARNIA, Feb. 5.—The farmers of this county are being signed up for the growing of the bumper crop of sugar beets, which are wanted by the big sugar refiners of this county and the two across the river in Michigan. These companies now have their agents at work settling matters with the farmers as to the amount of acreage they will put in. All along the different lines of railway thru the county, and the rich clay loams, and in the black lands, the sugar beet has become a staple crop. The production is growing fast, and the demand appears to be unlimited. This county stands second in the value of crop produced.

STREET RAILWAY GETS OFF ON NUISANCE CHARGE

Brantford Company Substituted Round Wheels for Flat Wheels and Prosecution Drops.

BRANTFORD, Feb. 5.—

The case of the Brantford Street Railway Co. on a charge of using flat wheels on its cars, thereby constituting a public nuisance, came up this morning in the police court. A. M. Harley, K.C., appearing for the company, said that all the cars objected to were now equipped with new wheels, and that there would be no further trouble from that cause. Chief Slemin, the complainant in the case, informed the court that he had inspected cars Nos. 42, 45 and 46, and found them equipped with new wheels. The chief urged the company to keep a supply of wheels on hand so as to avoid further trouble.

COULTHURST'S CASE STANDS ADJOURNED

BRIDGEBURG, Ont., Feb. 5.—Deputy Returning Officer E. Coulthurst appeared before Magistrate House today and by agreement between the lawyers in the case an adjournment was made until eleven o'clock on Saturday. Coulthurst was arrested in connection with his statement regarding the vote record on Thursday last in his polling sub-division when the Canada Temperance Act was submitted to the people.

MEETING OF CREDITORS OF ST. THOMAS FIRM. Broom and Brush Manufacturers Are Financially Embarrassed—Reorganize Business. The creditors of Thomas Brothers Limited, manufacturers of brooms and brushes, St. Thomas, Ont., will meet in the offices of E. R. C. Clark, Toronto, next Tuesday, Feb. 10. The firm's embarrassment is said to be due to insufficient funds to meet current obligations. The liabilities are estimated at \$250,000. The firm was first established at Norwich twenty years ago, and two or three years later the business having grown greatly was moved to St. Thomas. It is expected that the creditors will form a plan of reorganization.

COLDEST WAVE OF YEAR STRIKES CANADIAN WEST. Extremely Low Temperature Continues—Thermometer Touches Forty Below. # Tankard Semi-Finals: Granites v. Lindsay v. Paris v. Sarnia

## TANKARD DOWN TO THE SEMI-FINALS

### Group Winners Curl to Form in First and Second Rounds—Play on Keen Ice.

Toronto Granites, Lindsay, Paris and Sarnia are the four clubs remaining in the running for the Ontario silver tankard, which was last year won by Collingwood. The first two come together this morning and the winner meets Sarnia or Paris, whichever survives, in the afternoon.

Granites went through both games yesterday with long margins, and Guelph Unionists played in the second round sufficiently well to advance to the quarter-finals. A feature was the accurate shots of the veteran, A. Conroy, who, in the afternoon, Frank Johnston's rink, that held T. Renale down to 13 in 18 ends. "Alex" has been curling over 40 years. He has passed the three score and ten mark.

Lindsay pretty nearly doubled the score on St. Thomas in the morning and had nine on Napanee in the afternoon. J. D. Flavell, with Larry O'Connor, was about as strong a rink as Gex, Gilles, his running mate.

### THE BYE HELPS.

Sarnia had the bye in the morning and defeated Aberdeens in the second round, the colonel being a lead of 10 on Gildings.

Paris, the fourth survivor, had a close call in the first round, Carrie carrying his running mate over, as Telford was three up on Arncliffe, and Brown Sound was only one down all around.

Then Arncliffe came to the rescue in the afternoon with a seven point margin, and Rite put away Collingwood.

Ralph Ripley and his Hamilton Victorians and Doc Simon and his Barrie thoroughbred were the promising teams that failed to survive the preliminary rounds.

The ice was perfect at the clubs. Anyone watching the play yesterday would pick Granites to win the tankard, and Doc Simon and his Barrie thoroughbred were the promising teams that failed to survive the preliminary rounds.

### LONDON PLAYER INJURED.

LONDON, Ont., Feb. 5.—Bert Orr of the Lawson and Jones team of the Manufacturers' Hockey League was so badly injured during a game tonight that he is at present in Victoria Hospital and little hope is held for his recovery.

Orr and two other players collided. The former head struck the ice with a terrific impact and he was rendered unconscious. The doctors who attended him say he has concussion of the brain.

Lee, St. Simons at North Riverside, 7.15, at Withrow Park.

## Rowing Club Will Show Again Tonight

The Toronto Rowing Club will make a lot of friends by defeating Midland in a great battle early in the week, and themselves more so. They play T.R. & A.A. at 8.30, and the American city on tonight and should at least make it interesting. Don't be surprised if they slip it over the champagne.

Two pro. clubs are hot foot after Skirner, the good Rowing Club forward. Toronto made him a good offer yesterday afternoon. Varsity II. defeated McMaster. He will play for T.R.C. tonight and it may be his last amateur game.

Toronto Canoe Club will play in Syracuse on Friday and Saturday. Preston were billed for the American city on these two days, but owing to their strenuous training in Berlin on Wednesday night they called off the exhibition stunts.

Several of the T.R.C. squad are sported bruises from the Midland affair, but every man will be able to start tonight.

In an intermediate intercollegiate hockey match at the Arena yesterday afternoon, Varsity II. defeated McMaster by 3 goals to 2.

Ottawa has been notified that the Quebec Hockey Club has protested last Saturday's N.H.A. match in Ottawa, on the ground that Jack Barrage, who received two major penalties, only served five minutes on the bench for the second one instead of ten minutes, as called for by the rules. The league penalty officer in Ottawa, however, equal to the occasion and will submit proof that Barrage was off for the full ten minutes.

The leading scorers in the N.H.A. are as follows:  
P. Smith, Quebec..... 29  
Darragh, Ottawa..... 19  
Davidson, Toronto..... 18  
McDonald, Ontario..... 18  
D. Smith, Canadiens..... 18  
Walker, Toronto..... 15  
Lalonde, Canadiens..... 15  
Roberts, Wanderers..... 13  
Hysland, Wanderers..... 13  
Roman, Ottawa..... 12  
Malone, Quebec..... 10  
Cameron, Toronto..... 10

Supporters and players of the A. R. C. have the Ladies Hockey Club being requested to be on hand tonight at 8.15 at Withrow Park Rink for the game with the Imperials. P. Ross, J. Ross, J. Spanton, P. McNeil, J. Sullivan, A. George, N. McMahon, G. Snyder, A. Connor, F. Robohart, are the only players who have won \$1000 or more as follows: H. G. Bedwell, \$10,785; J. O. Talbot, \$12,225; M. C. Baker, \$2385; J. L. Holland, \$2100; A. Weber, \$2285; J. W. Carroll, \$2050; W. Walker, \$2050; J. W. Blaisel, \$2185; I. M. Hedberg, \$1700; G. Yanka, \$1900; F. E. Gordon, \$1700; L. Martin, \$1665; T. F. Sheehy, \$1600; J. W. Johnson, \$1510; Mrs. W. H. Fryer, \$1275; C. A. Speer, \$1250; E. J. Fona, \$1225; M. C. Baker, \$1210; J. M. Zimmer, \$1175; F. McBride, \$1180; C. T. Worthington, \$1150; J. M. Gordon, \$1100; N. B. Davis, \$1025.

Sweden is on the verge of national prohibition of alcoholic beverages and tobacco. The great English metropolis has 30,000 tea lamps and about 10,000 electric light lamps.

## NIAGARA FALLS TEAM ARE SUSPENDED

Played George Under an Assumed Name—Games and Officials for Tonight.

As a result of their action in playing an assumed player under another's certificate, the Niagara Falls Tecumseh Intermediates have been suspended from the O.H.A. Some time ago the club applied for a certificate for Basil George, who at one time played with the Queen's University team and who is now working in residence near the Falls. As he did not fulfil the requirements of the O.H.A., the club was notified that he could not be re-played. Now that the Tecumsehs have been suspended the club with Port Colborne at the Falls tonight will be defeated by the Niagara Falls H.C. and Port Colborne, instead of with Tecumseh.

Orillia and Midland, who are now tied for their intermediate group honors, will play tonight at Midland to decide a winner. Dr. Gilliland of Orillia, Belleville have defaulted to Whitty tonight in the intermediate series of the O.H.A. Neither team has a chance for the group honors. Preston has notified Secretary Lewis that they will protest Trumbull and the Preston club has been notified that unless new evidence has been secured the case will not be reopened. Berlin will now play off with New Hamburg on Monday and Wednesday next week, but where the games will be played has not been decided.

Following are the games and some of the officials for tonight at Queen City.  
Senior—St. Michaels at Kingston, Allan Kinder of Preston.  
Junior—Toronto Rowing Club, J. Moxon.  
Intermediate—Oshawa at Cobourg, Don Tompkins at Wollary, H. H. Hurn; Stratford at Warton, S. Burgoyne (the return game will be played at Stratford on Monday night).  
At Victoria Rink—Paris vs. Toronto Granites.  
Final at 2.30 p.m.  
Governor-General's.  
At Grantville—9 a.m.—Barrie v. Napanee.  
At Victoria Rink—Owen Sound v. Toronto Aberdeens.  
Hamilton Victorians, a bye.

## Tankard Semi-Finals And Final Game Today

The final for the Tankard will take place this afternoon at the Victoria rink. Lindsay and Toronto Granites play off at Queen City and the other semi-final at the Victoria rink. The winners will have short rest before they start at 2.30. Galt Granites defaulted in the Governor-General's competition, and so did Guelph Unionists. The following is the draw for today:  
The Tankard.  
At Grantville, 9 a.m.—Lindsay v. Toronto Granites.  
Paris v. At Victoria Rink—Final at 2.30 p.m.  
Governor-General's.  
At Grantville—9 a.m.—Barrie v. Napanee.  
At Victoria Rink—Owen Sound v. Toronto Aberdeens.  
Hamilton Victorians, a bye.

## MARKHAM LOSE TO WEST TORONTO VICS

MARKHAM, Feb. 6.—Victoria sprung a surprise by defeating Markham tonight by a score of 7 to 6. Half-time score was 4 to 3 in favor of Markham. The game was a hard fought one, and half, they having not yet recovered from their four-hour struggle with Riversdale Monday night.

The teams:  
Markham (6): Goal, W. Speck; defence, Beaton and Harty; forwards, King, Hery, Parry; wings, J. Speck and Maxwell.  
Victoria (7): Goal, Clemer; defence, McKee and McBurney; rover, McLean; centre, Smith; wings, Campbell and Joyce.  
Referee: Harty.

## SARNIA AND POINT EDWARDS MAY INTER

Question Has Been Under Discussion—C. T. A. Vote in Lambton Possible.

(Special to The Toronto World.)  
SARNIA, Feb. 5.—Lambton County members of the Canadian Temperance Act. All the local option was defeated in Sarnia, it is the belief of temperance workers that if the question of county option is brought up, Lambton will be in the ranks of the "drys."

Sarnia and Point Edward may amalgamate. The question has been under discussion for some time, and the village is favorably inclined towards the idea. The Sarnia council is being urged to take steps in the matter. It has been suggested that the stations for the proposed line be placed on the increase in land values would result, and the waterworks administration would be simplified.

A department of marine has forwarded to the wireless station at the Point the new rules to govern the Canadian Government wireless. Among the rules is a provision that the stations furnish warnings of weather conditions to vessels.

Sarnia's new park at the corner of Chatham and Stuart streets will be named Tecumseh, after the famous Indian chief. The park commission held its inaugural meeting yesterday.

## EATON'S BEAT BARACAS.

In a very fast and exciting game of basketball on Eaton's floor last night the Eaton club O.B.A. Intermediates defeated Baracas by the score of 40 to 35. The game at all times displayed lots of speed and the better team work of the winners assisted greatly in securing them the victory. The Eaton team, whose time was 21-18 in favor of Baracas. The teams lined up as follows:  
Eaton's (40): Johnston, Johnstone, Pierce, Carrick; centre, Williams; guards, Crawford, McDougall.  
Baracas (35): Johnston, J. C. Baker, Rooney; centre, Patton; forwards, Montgomery, Palmer, Fullerton.  
Referee: A. Armour.

## EATON GUN CLUB.

The annual banquet of the Eaton Gun Club was held last evening in the Eaton's Hotel and the prizes and championship cups for the year were presented to the winners. W. J. Bowman, who is president of the club, carried off the most of the silverware. About thirty-five members were present, but only plans for the coming season were discussed.

## WINNING OWNERS AT CHARLESTON

CHARLESTON, Feb. 5.—Jockey Johnny McTaggart considerably increased his bank last night, riding over the past week. Twice during the week he rode the half the card. The riding honors, expected to be won by the favorite, were so widely scattered, however, that the jockeys have made the showing expected of them.

Owners who have won \$1000 or more as follows: H. G. Bedwell, \$10,785; J. O. Talbot, \$12,225; M. C. Baker, \$2385; J. L. Holland, \$2100; A. Weber, \$2285; J. W. Carroll, \$2050; W. Walker, \$2050; J. W. Blaisel, \$2185; I. M. Hedberg, \$1700; G. Yanka, \$1900; F. E. Gordon, \$1700; L. Martin, \$1665; T. F. Sheehy, \$1600; J. W. Johnson, \$1510; Mrs. W. H. Fryer, \$1275; C. A. Speer, \$1250; E. J. Fona, \$1225; M. C. Baker, \$1210; J. M. Zimmer, \$1175; F. McBride, \$1180; C. T. Worthington, \$1150; J. M. Gordon, \$1100; N. B. Davis, \$1025.

## WILL RESTORE CHURCH.

Knox Cong egati n, Stratford, to Re-build on Old Site.

STRATFORD, Feb. 5.—(Special.)—A magnificent new Knox church to replace the one which was burned down in the disastrous and tragic fire of last year, will be built on the ruins of the old building with the arrival of spring. The building committee has accepted the plans of Lindsay and Brydon, architects of Toronto, who have been instructed to call for tenders to be opened on Feb. 27. The new edifice will be a cathedral type. It is expected that the work of laying down material can be got under way while there is yet good sleighing.

## WEST KENT CONSERVATIVES.

WHEATLEY, Feb. 5.—The annual meeting of the West Kent Conservatives was held here on Monday last, the year elected and delegates appointed to the big convention to be held at the Victoria rink in Hamilton on Feb. 7. In Hamilton, the following officers were appointed: President, F. Fox; secretary, Charles H. Potts; committee, J. R. Hodgson, Jerome Fitzpatrick, Joseph Finch, George Hatt, James Wilson and Edward Colter.

In Paraguay there is found a "railway beetle" a kind of glow worm, which emits a strong red light from its tail, but also a green light along each side of its body.

Peat powder with a small addition of coal has been successfully and economically used in locomotive firing in Sweden. A new pocket electric lamp has a tiny dynamo operated by a spring lever instead of the dry battery.

## UPPER CANADA EASY FOR OSHTAWA TEAM

Prep Group Winners Trounced in Second Round Fixture by Fourteen Goals.

OSHTAWA, Feb. 5.—The Upper Canada College hockey team was easily defeated here tonight by the Oshawa Juniors by a score of 18 to 2. The line-up: Oshawa (16)—Goal, Jacob; right defence, Bowen; left defence, Riordan; rover, Miller; right wing, Walker; left wing, Miller.  
Upper Canada (9)—Goal, Grier; right defence, Dean; left defence, Phillips; rover, Heintzman; right wing, Inglis; left wing, Inglis.  
Referee—Whitehead.

## A "Wolfe Toddy"

is the ideal "Night-cap"; hot water, lemon and sugar, and a wineglass of Wolfe's Aromatic Schiedam Schnapps, and you have a toddy fit for a King. You will sleep "like a top," wake in the morning with the cold arrested, and a freedom from those aches in the joints and pains in the back.

That "Wolfe Toddy," while you sleep, has gone direct to the seat of the trouble—the kidneys. It has commenced a cure which you can make complete by a glass of Wolfe's Schnapps twice a day for a day or two. Then when you feel "as fit as a fiddle," don't forget what made you so; get into the Wolfe's Schnapps habit; drink it regularly, and you will not suffer from liver or kidney troubles.

### WOLFE'S AROMATIC SCHIEDAM SCHNAPPS

is the world's greatest tonic-energiser for sluggishness of the vital organs of the body.

Obtainable at all Hotels and Retail Stores.

AGENTS: **R. H. HOWARD & CO.**  
29 Front Street East Toronto

## NEW WORLD'S RECORD ON THE ICE FOR FIVE MILES BY MERRY DIRECT

Dan McEwan Wins Two Races With Eel Direct and The Moose on Closing Day at Ottawa.

OTTAWA, Feb. 5.—(Staff Special.)—The final day of the Hull Driving Club meeting had a splendid attendance and the races were much better than yesterday. There were three unfinished races, which took up a good deal of the time. Two of them, the 2.14 trotting stake and 2.20 pacing class race, were finished in one heat each. The free for all and seven-heat affair was made with Little Belle, C. Brownlee, Ottawa, and Dan McEwan, who was popular. She has been out of the game for some time and is an aged mare, but showed that she could come back and fight out a hard race and win.

The special races for the wind-up were the 2.14 pacing stake, the 2.25 race and the five-mile event. In the latter the world's mark was again beaten. The record has been held by the gray gelding Conduct, 12.30 1/2, since Feb. 11, 1906. Merry Direct, the winner, is owned by Fred Smith of Calgary, and ran in 12.27 1/2.

## AMATEUR RUNNERS ARE EXONERATED

NEW YORK, Feb. 5.—Hannes Kolehmainen and Abel R. Kiviat were exonerated by the registration committee of the Metropolitan Association of the Amateur Athletic Union last night of any intention to run a fake two-mile race at the athletic games in the Thirtieth Regiment armory in Brooklyn on Jan. 24. The committee lifted the suspension, which had prohibited them from racing since.

Hotel Krausmann, Ladies' and Gentlemen's grill, with music, imported German Beers, Plank Steak a la Krausmann. Open till 12 p.m. Corner Church and King Streets, Toronto. ed-7

## CHARTIER WINS THE HANDICAP

Favorites Make an Even Break With the Long Shots at Palmetto Park.

CHARLESTON, Feb. 5.—Favorites had an even break with the long shots today at Palmetto Park. In the handicap three long ones ran in the money with Chartier at 5 to 1 in front. Summary: FIRST RACE—Purse \$300, 3-year-old maidens, selling, 6 furlongs: 1. Stetina, 103 (Miller), 5 to 1, 2 to 1 and even.

THIRD RACE—Purse \$300, 4-year-olds and up, selling, 6 furlongs: 1. Frank Hudson, 106 (McTaggart), even, 2 to 1 and out.

FIFTH RACE—Purse \$300, 3-year-olds and up, selling, 1 mile: 1. Billy Baker, 106 (Fraser), 8 to 1, 9 to 1 and 2 to 1.

## Dorothy Dean Wins The Feature at Juarez

YOU can almost FEEL your strength coming back, as you enjoy a bottle of this rich, creamy, old ale.

Before meals, with meals and after meals—take it as you prefer. It will do you good anytime, and all the time.

## SHOULD PLACARD POOR BUILDINGS

All Work Also Should Be Stopped at Once, Says Inspector.

## ARCHITECT'S INQUIRY

Purchase of Bricks Took Up Most of Evening Session.

City Building Inspector James Riddell took the stand at last night's session of the enquiry into the city architect's department in connection with a certain quantity of brick which were condemned during the construction of the Cuthbertson building on Yonge street. Before Mr. Riddell found them, the brick had been pronounced too soft for outside use by Contractors Garrett and Jones, who swore that they had been sold to Adolph Meyers, another contractor, who had used them in the Franklin building on Elizabeth street. Meyers denied having in question, but he admitted that others of a similar nature, a week's adjournment, at which time a fine would be imposed. In the meantime the defective work was allowed to proceed unimpeded. Riddell said that the system in vogue in American cities by which a building where the bylaw was being violated should be immediately placarded and all work stopped, should be adopted in Toronto.

Before adjournment Stanley Makepeace, jr., was called to the stand and fled plans of Loewing's Theatre, as well as bank and cheque books, which will figure in further evidence to be given when the investigation is resumed on Wednesday morning next.

## FISHERIES UNDER A JOINT CONTROL

Bill to Give Effect to Treaty Introduced into U.S. Congress.

WASHINGTON, Feb. 5.—Representative Flood, chairman of the house committee on foreign affairs, today introduced a bill to give effect to a treaty of April, 1908, between the United States and Great Britain concerning fisheries in waters contiguous to the United States and Canada, and to create an international fisheries division in the United States fish commission to carry out the conditions of the convention.

The measure would authorize the president to promulgate regulations to govern the seasons and methods of fishing in the Great Lakes, regulations to be effective after Jan. 1, 1915. It would also direct the United States International Fisheries Commission to conduct an enquiry to determine what modifications are required in regulations on the United States side of the boundary line. The commission would be directed to report at the next session of congress.

Maximum penalties of \$500 fine or six months imprisonment or both together with forfeiture of fisheries equipment would be provided for violations of the regulations.

(Continued From Page 1.)

penalty that it would be unwise for the House to commit itself merely upon a hastily introduced bill.

#### Prevent Bloodshed.

Mr. Verill (London) introduced a bill to prevent bloodshed. It provided that any person who employed a man or armed man on his premises, without first having obtained the consent in writing of the attorney-general of the province, should be liable to a fine of not exceeding one thousand dollars and costs or to imprisonment for one year, or to both fine and costs and imprisonment.

1. The criminal code, chapter 146 of the revised statutes, 1906, is amended by inserting the following section immediately after section 334A:

"33A. Every person who employs or causes to be employed any armed man or armed men on his works or premises, without first having obtained the consent in writing of the attorney-general of the province wherein such works or premises are situated, which consent shall only be given for a period of six months, but which consent may be renewed, is guilty of an offence and liable on summary conviction to a penalty not exceeding one thousand dollars and costs or to imprisonment for one year, or to both fine and costs and imprisonment.

Provided that the foregoing provisions shall not apply to any nightwatchman who has a license to carry weapons under the provisions of section 115.

2. The criminal code, chapter 146 of the revised statutes, 1906, is amended by inserting the following section immediately after section 334A:

"33A.1. Everyone who is guilty of an offence under section 33A is liable on summary conviction to a penalty not exceeding one thousand dollars and costs or to imprisonment for one year, or to both fine and costs and imprisonment for one year, or to both fine and costs and imprisonment.

3. The criminal code, chapter 146 of the revised statutes, 1906, is amended by inserting the following section immediately after section 334A:

"33A.2. Everyone who is guilty of an offence under section 33A is liable on summary conviction to a penalty not exceeding one thousand dollars and costs or to imprisonment for one year, or to both fine and costs and imprisonment for one year, or to both fine and costs and imprisonment.

4. The criminal code, chapter 146 of the revised statutes, 1906, is amended by inserting the following section immediately after section 334A:

"33A.3. Everyone who is guilty of an offence under section 33A is liable on summary conviction to a penalty not exceeding one thousand dollars and costs or to imprisonment for one year, or to both fine and costs and imprisonment for one year, or to both fine and costs and imprisonment.

5. The criminal code, chapter 146 of the revised statutes, 1906, is amended by inserting the following section immediately after section 334A:

"33A.4. Everyone who is guilty of an offence under section 33A is liable on summary conviction to a penalty not exceeding one thousand dollars and costs or to imprisonment for one year, or to both fine and costs and imprisonment for one year, or to both fine and costs and imprisonment.

6. The criminal code, chapter 146 of the revised statutes, 1906, is amended by inserting the following section immediately after section 334A:

"33A.5. Everyone who is guilty of an offence under section 33A is liable on summary conviction to a penalty not exceeding one thousand dollars and costs or to imprisonment for one year, or to both fine and costs and imprisonment for one year, or to both fine and costs and imprisonment.

7. The criminal code, chapter 146 of the revised statutes, 1906, is amended by inserting the following section immediately after section 334A:

"33A.6. Everyone who is guilty of an offence under section 33A is liable on summary conviction to a penalty not exceeding one thousand dollars and costs or to imprisonment for one year, or to both fine and costs and imprisonment for one year, or to both fine and costs and imprisonment.

8. The criminal code, chapter 146 of the revised statutes, 1906, is amended by inserting the following section immediately after section 334A:

"33A.7. Everyone who is guilty of an offence under section 33A is liable on summary conviction to a penalty not exceeding one thousand dollars and costs or to imprisonment for one year, or to both fine and costs and imprisonment for one year, or to both fine and costs and imprisonment.

9. The criminal code, chapter 146 of the revised statutes, 1906, is amended by inserting the following section immediately after section 334A:

"33A.8. Everyone who is guilty of an offence under section 33A is liable on summary conviction to a penalty not exceeding one thousand dollars and costs or to imprisonment for one year, or to both fine and costs and imprisonment for one year, or to both fine and costs and imprisonment.

10. The criminal code, chapter 146 of the revised statutes, 1906, is amended by inserting the following section immediately after section 334A:

"33A.9. Everyone who is guilty of an offence under section 33A is liable on summary conviction to a penalty not exceeding one thousand dollars and costs or to imprisonment for one year, or to both fine and costs and imprisonment for one year, or to both fine and costs and imprisonment.

11. The criminal code, chapter 146 of the revised statutes, 1906, is amended by inserting the following section immediately after section 334A:

"33A.10. Everyone who is guilty of an offence under section 33A is liable on summary conviction to a penalty not exceeding one thousand dollars and costs or to imprisonment for one year, or to both fine and costs and imprisonment for one year, or to both fine and costs and imprisonment.

12. The criminal code, chapter 146 of the revised statutes, 1906, is amended by inserting the following section immediately after section 334A:

"33A.11. Everyone who is guilty of an offence under section 33A is liable on summary conviction to a penalty not exceeding one thousand dollars and costs or to imprisonment for one year, or to both fine and costs and imprisonment for one year, or to both fine and costs and imprisonment.

13. The criminal code, chapter 146 of the revised statutes, 1906, is amended by inserting the following section immediately after section 334A:

"33A.12. Everyone who is guilty of an offence under section 33A is liable on summary conviction to a penalty not exceeding one thousand dollars and costs or to imprisonment for one year, or to both fine and costs and imprisonment for one year, or to both fine and costs and imprisonment.

14. The criminal code, chapter 146 of the revised statutes, 1906, is amended by inserting the following section immediately after section 334A:

"33A.13. Everyone who is guilty of an offence under section 33A is liable on summary conviction to a penalty not exceeding one thousand dollars and costs or to imprisonment for one year, or to both fine and costs and imprisonment for one year, or to both fine and costs and imprisonment.

dered a woman and child and killed himself.

The detectaphone he denounced as a greater menace to society than the revolver, and said that by its use organizations were deprived of all privacy and innocent men threatened with discharge. Its unrestricted use would permit intolerable espionage. It could be used as a spy upon the meetings of labor assemblies, and even the secrets of the cabinet could be made public property or come into the possession of unscrupulous men.

"Alert" in Disgrace. Mr. E. Macdonald (Picton) complained that the steamer Alert had again left Sydney harbor for Victoria county, C. B., and was conveying Conservative politicians to the scene of the election in that county.

Hon. J. D. Reid, minister of customs, said the first trip made by the Alert was caused by a well-grounded report that United States fishermen were fishing within the three-mile limit. The vessel, being unable to effect a landing, had returned to North Sydney. Her departure yesterday had been without any orders from the department and she had suspended the collector of customs and ordered the vessel out of commission.

The bill will remain.

Mr. Burnham (London) wished the deposit of \$500 now required of parliamentary candidates was deleted upon second reading, and his bill "to abolish the deposit of \$500 in Canada and the same rate in the United States" was introduced. In support of the latter the West Peterboro member argued that titles made class distinctions and were unjustly granted to a democratic country. The title conferred upon a man often misdescribed him. He might be described as a "title man" which he was in fact nothing but a "greedy feeder at the public trough."

Everybody's Getting Them.

On George E. Foster, who led the house, said that no titles of honor were conferred by the government or parliament. Burnham: "How about military titles?"

Mr. Foster: "They have become so numerous as to be no longer honorary." (Laughter.)

Speaking more seriously Mr. Foster said that he saw no objection to his Majesty conferring, or to loyal subjects receiving, titles and decorations bestowed upon them in recognition of great public service.

Sir Wilfrid Laurier said he was much in sympathy with the views expressed by Mr. Burnham, but the object sought could be better attained by an address to his Majesty.

Mr. Burnham: "The bill is not in conformity with the ideas of the day or of a country like this."

Military Not Responsible. Mr. W. Macdonald (South York): "Who is responsible for the recommendations for honors? Is it the prime minister?"

Sir Wilfrid: "In England certain recommendations are made as a matter of right by the prime minister and the leader of the opposition. So far as Canada goes I never admitted the principles of ministerial responsibility for the honors conferred upon Canadians."

Of course the governor-general submits a list to the prime minister and the prime minister would naturally confer with other members of the cabinet. But the question put to me by the member for South York (Mr. Maclean) shows how antiquated titles have become.

On one time conferred by the sovereign they have necessarily become largely under political control, also some titles are no doubt conferred by his Majesty without suggestion or recommendation from the government of the day."

To Abolish Death Penalty.

Mr. Bickerdike (Montreal) moved the second reading of his bill to abolish the death penalty. He believed it was morally wrong for the state to take the life of a citizen. A man not fit to live was certainly not fit to die. It was shocking to witness the government of a Christian country contracting with a hangerman to put people to death.

After the rebellion of 1837 Mr. Bickerdike reminded the house, a large number of people had been executed by hanging without suggestion or recommendation from the government of the day.

## MEXICAN REBELS TO IMPORT AEROPLANES TO AID CAMPAIGN

### General Carranza, Leader of Constitutionalists, Will Take Full Advantage of Removal of Embargo by U. S.—Aerial War Fleet to Be Organized.

CULLACAN, Sinaloa, Feb. 5. Military aeroplanes will be among the war munitions to be ordered at once from the United States by Gen. Carranza, the rebel chieftain.

This was announced today after Carranza had made hasty arrangements to take advantage immediately of the American government's action in lifting the embargo on the exportation of arms. The aeroplanes will be used in campaigns in northern Mexico.

Forty thousand rifles with sufficient ammunition for a long campaign have been ordered.

It was also stated that the insurgents would import artillery with mounts suitable for use aboard vessels which will be armored for operations against the Pacific coast seaports still held by the Huerta forces.

The organization of aerial war fleet will be effected by Gen. Angeles, secretary of war in the Carranza cabinet. It will be commanded by Captain Frederico Cervantes, who recently returned after having spent three months as a student in military aviation camps in France.

Only Mexican aviators will be used, including two members of Carranza's staff, who are qualified air pilots. The 14,000 rifles contracted for will be used to equip rebel troops in Chihuahua and Zacatecas.

In Canada occurred between 1838 and 1858, yet no increase in homicides was noted. Many countries and several states of the American Union had abolished capital punishment, and a British royal commission, of which John Bright was a member, had recommended doing away with the death penalty in 1868.

Time Not Ripe. Hon. George E. Foster hoped the day would come when capital punishment would be unnecessary, but he hardly thought that the house should commit itself without considerable thought and discussion to the principle of Mr. Bickerdike's bill. Society had a right to protect itself against vicious individuals.

Every government in the world had at one time or another prescribed the death penalty for certain offences, and today still retain capital punishment.

Mr. Carvell (Carleton, N.B.), opposed the bill. Immigrants, he said, were pouring into the country and also foreign laborers. They should be taught that human life was sacred in Canada. The extreme penalty should be inflicted upon the murderer.

Graham Waxed Eloquent. Hon. George E. Graham spoke with eloquent vehemence in support of the bill. No man or set of men could confer upon themselves the power to kill a human being. Capital punishment was morally wrong and so in his opinion was the legalized killing by wars. Our histories and other books did not teach the sacredness of human life but glorified the men who killed their fellows.

Our monuments should be erected not to honor those who slaughtered but to honor those who served and saved their fellowmen. It was right to have statutes authorizing the killing of dogs, wolves and other animals for certain offences, but such laws should not apply to human beings.

Criminal law, Mr. Graham said in conclusion, should seek to protect society and to reform the criminal. Capital punishment was a relic of the half savage instinct to be revenged on the offender.

Nickle Dubious. Mr. W. F. Nickle (Kingston) said the legislature should pass laws in the interest of justice.

Many crimes were being done away with capital punishment were forced to return to it because murders increased. He read from the Bible to prove that capital punishment rested upon divine sanction.

The debate was continued by Mr. Thompson who favored the bill, and Dr. Edwards (Frontenac) who approached the subject with an open mind, but advised against hasty action.

Mr. Verill favored the bill as also did Mr. Frank (Prescott). Hon. Frank Oliver defended capital punishment, and Judge Doherty, minister of justice, who also intimated his disagreement with Mr. Bickerdike's proposal, moved the adjournment of the debate.

## SIR HUGH GRAHAM CALLED TO QUEBEC

### Beck Showed Unwillingness to Discuss Relations With Newspaper Czar.

## LANCOT APOLOGIZED

### Unpleasant Incident Closed—Bergevin Less Grappling Than Other Legislators.

(Continued From Page 1.)

These names had been forced out by the legislature. "I might tell you a lot that Mousseau told me," he said, "but I do not consider it would be fair."

Mr. Appelee, the chauffeur, who is alleged to have driven Mr. Mousseau, was also called by the committee of the house, but his evidence was not heard, and the committee adjourned until Friday.

LANCOT HOTLY ATTACKED. The assault committed last night upon Brenton A. Macnab, editor of the Montreal Daily Mail, by Charles Lantot, deputy attorney-general, for the province, gave rise to a heated debate at this afternoon regular session of the Assembly. Mr. Jean Prevost brought the matter up on a question of privilege.

"We have read the apology from Mr. Lantot to Mr. Macnab," he said, "but what about an apology to members of the house who are equally assaulted by the unwarranted attacks? The indignity will be upon the province which could not protect a witness from assault. Mr. Lantot assaulted not only a British subject, but he assaulted one who was especially under the protection of a British parliament. When Mr. Macnab had been struck a uniformed messenger led him away, but no one molested Mr. Lantot, the beloved of the gods. I demand that he be brought before the bar and this house to present his excuses, not only to Mr. Macnab, but to us now."

Gouin's Regrets. Mr. Sauvé, a journalist, was sent for on an assault upon Hon. Mr. Taschereau a few years ago. "The government is now satiated with an apology. How times have changed! I regret the government has one kind of treatment for its friends and another for its adversaries," he said.

Sir Lomer Gouin, premier, expressed deep regret at the incident, but he excused Mr. Lantot on the ground that he had been misled for a year or two by attacks upon him in the house. He asked that the incident be closed, as Mr. Macnab had accepted Mr. Lantot's excuses.

Mr. Taschereau, chairman of investigating committee, also expressed deep regret at the incident, and took occasion to compliment Mr. Macnab on the frank manner in which he had accepted Mr. Lantot's apology.

When the assembly committee met this morning Mr. Lantot's apology was read by him for himself and he committed himself without reservation. "I let myself be carried away," he declared, "and I acted in a manner which I regret. I ask that I may be allowed to offer my excuses in the same spirit Mr. Macnab accepted the apology." The inquiry then closed.

Labels Under Fire. Keen examination of J. O. Labelle, the Montreal lawyer, whose name appears so frequently in the detectaphone records was the feature of the sitting. Question after question with respect to his alleged declarations to Hyland were flashed at him from every side of the committee. But while in the main he declined to answer questions affecting confidential relations with his clients, Mr. Labelle declared positively that he had never paid nor promised to pay money to any members of the legislature. As to the details of his conversation—how he was declared to have said he would take care of this or that—Mr. Labelle said he could not remember all that might have been said.

STEAMER IN HAY FIELD THE REMAINS OF WRECK. The remains of an excursion steamer may be seen in a hay field 200 feet above the Lake of Leon, in Norway, says The Wide World Magazine. This odd-shaped wreck of a vessel is a veritable island which took place in 1866 when the whole side of a mountain suddenly slipped in the lake, raising a great wave over 300 feet high, which drowned everybody living on the steamer.

The steam, which was moored on the lake at the time, was carried on the cliff and deposited, as already stated, more than 300 feet above the normal level of the water, over a quarter of a mile away from its anchorage.

## WHERE FIRST SCHOOL OF LEARNING WAS LOCATED

### Existed More Than Five Thousand Years Ago in the Temple at Nippur.

Stephen Herbert Langdon, professor of Assyriology at Oxford, and who recently undertook an investigation of the Nippur collection at the University of Pennsylvania, is quoted in The New York Times as saying that he has ascertained that the study of tables found in the southern part of Babylon that priests had a school in the temple at Nippur as early as 3200 B.C. and that this school existed for about a thousand years.

"To these priests," Prof. Langdon further says, "is due the liturgical system which spread throught Babylonia and Assyria and influenced Greece and Rome. They were exponents of a great university, the most important centre of learning."

He believes it was the first school of learning, and for that reason the University of Pennsylvania's collection, which discloses the presence of this university, is of the greatest value to scholars.

"The discovery will establish more clearly in the minds of scholars the fact that the origin of religious orders existed in remote antiquity, and that a very important religious order existed at the temple near Nippur."

FERTILIZING SOIL BY USE OF ANTISEPTICS Purpose is to Destroy Disease Organism Harmful to Ammonia-Producing Germs.

Agricultural experimenters have shown that antiseptics, tending to stimulate growth like nitrogenous fertilizers, may be used to supplement the fertilizers. In a paper Dr. E. J. Russell and W. Buddin, British investigators, state that the antiseptic has a complex action, but most important the destruction of micro-organisms, the higher forms of life being killed and the bacteria greatly reduced.

If the antiseptic is volatile or easily removed from the soil, however, a remarkable change soon follows. The bacteria begin to increase and soon far exceed their original numbers, and unless there is much ammonia and nitrate already present, the bacteria set up a rapid production of ammonia. It is this ammonia that gives greater crops than those of untreated soils.

The purpose of the antiseptics is to destroy disease organisms, pests and germs harmful to the ammonia-producing bacteria, but they should be substances easily removed from the soil by evaporation, oxidation or decomposition, should be convenient to apply, and should be not so readily absorbed.

Of compounds tried in the last three years, formaldehyde is best, the none of the chemicals used has effects quite so permanent as those of steam.

NEW WAY OF MAKING ARTIFICIAL PEARLS Small Glass Beads Used as Nuclei for Process Which is Based on Chemical Laws.

A new process of making artificial pearls, which has recently been perfected, is said to equal other methods heretofore employed and also to be less expensive than many of those now in use. The process is based on the fact that certain alkali phosphates have the property of rendering pure gelatin insoluble in water. Popular Mechanics. Small glass beads are used as nuclei for the imitation pearls. These are dipped into a warm solution of gelatin and then placed on a greenish-coated glass plate. On the gelatin surface of the plate, forming a ring around each bead, is then applied with a small brush the phosphate solution. This is absorbed by the gelatin and is soon diffused thru the coating of the bead.

As soon as the iridescent effect desired has been produced, which must not be accomplished too rapidly, the pearls are exposed to the vapors of formaldehyde, which hardens the gelatin and renders it insoluble.

SMOKE-PROOF BUILDINGS NOW GREAT DESIDERATUM

Of the great number of persons who are the victims of conflagrations, a very large percentage of them are shown by examination of the bodies, to be unscathed by flame. By examining the interior of the lungs of those supposed to have been burned to death it has been clearly shown that death has been caused by asphyxiation before the flames attacked the unfortunate persons. Thus, generally speaking, these persons are not burned to death, but smothered.

The fire experts of the country are now giving some attention to the construction of smoke-proof buildings, which are said to be quite as desirable as fire-proof buildings. One of the furniture contained in a couple of rooms in the lower part of an office building is quite sufficient to asphyxiate hundreds of persons in the upper part of the structure. This, of course, is a strong argument in favor of the general adoption of metal furniture.

NEW YORK SUN SAYS PRESS TRUST EXISTS

Organization Refused to Sell Its News is Charged.

WASHINGTON, Feb. 5.—The Sun Printing and Publishing Company of New York has presented a statement to Attorney-General McReynolds, asking that he institute on behalf of the government proceedings in respect of the Associated Press for violation of the Sherman Act, alleging refusal to sell news to the New York Sun. The newspaper declined to apply for membership in the Associated Press, and

HEAVY EXPENDITURE ASKED

HAMILTON, Feb. 5.—(Special.)—Mayor Allan returned to the city today, after accompanying a large detachment of military men to Ottawa, in an effort to have extensions made to the present armories. He stated that he is confident that the deputations will get what is asked for. The deputations proposed an expenditure of between \$100,000 and \$120,000 to put a new front on the old drill hall, to make it conform with the new armories, and to extend it back to Hughson street.

CLAIMED THE RIGHT TO BUY THE NEWS OF THE ORGANIZATION

The officers of the Associated Press have notified the attorney-general that any information in their possession will be cheerfully placed at his disposal.

# NEWS FROM THE CITY HALL

## WORK IS NEEDED FOR UNEMPLOYED

Heads of City Departments Will Report on What is Available.

## MONEY NOT NECESSARY

Citizens Who Want to Give Relief Should Supply Work.

Another effort is necessary to provide work for the unemployed, Rev. Dr. Bridger, Rev. W. L. Baynes-Reed, Rev. P. E. Powell and Rev. A. Brown, representing the social conferences of all parts of the city, appealed to the board of control yesterday morning to provide work for the people who do not register at the civic employment bureau, because they believe so many have registered that there is not work for all.

"The cry is for work," Rev. Mr. Powell declared. "We find many people who need relief but will not take charity. They want work."

"The eight thousand who have registered are not half the unemployed," Rev. Mr. Baynes-Reed said.

"Instead of spreading the civic relief work over a period of three months it should be one month so that more men would get immediate relief," said Rev. Dr. Bridger. "In a month from now there is likely to be more demand for labor."

Secretary Dickie of the Social Service Commission stated that five or six thousand men who have registered have had three days' work, and that married men are kept at work as steadily as possible. He said that the registration for the past few days has been abnormal. Hundreds of those who register are physically unfit to handle picks and shovels. He advised that citizens who wish to contribute money for relief should be asked to provide work instead.

## HOCKEN STAYED HOME

ILL FROM OVERWORK

Division of Mayor's Duties With Controllers May Be Put in Effect.

Mayor Hocken was confined to his home yesterday with a slight illness, brought on by overwork. The demands made upon the time of the mayor have so increased with the growth of the city that it is becoming impossible for one man to carry the burden.

It is now proposed that Controller McCarthy be given an apartment adjoining that occupied by Mayor Hocken, and that the work of the mayor be divided as far as is practicable. This arrangement may be carried out at an early date.

A serious handicap to team work in the civic government is the lack of office space in the city hall. Without much more delay a court house will have to be built, and this would take the police department out of the city hall. The board of education is planning the removal of its offices from the city hall within the next year or two. In the meantime congestion will have to be tolerated.

## WALKERTON MAN FOUND DEAD BY ROADSIDE

Anthony Meyer Upset on Way Home and Crushed by Cutter.

WALKERTON, Feb. 5.—Anthony Meyer, aged 72 years, was found dead on the road side under his cutter a short distance east of this place last night. He was on his way home to Ayrton when the horse got out of the track and the cutter was thrown over on the occupant. The horse was found lying on its back tangled up in the harness.

## Not "Raised" with Yeast

You can "raise" a loaf of white flour bread with yeast—but you can't "raise" husky, robust Canadian youngsters in that way. The best food for growing boys and girls is

## SHREDDED WHEAT

It contains no yeast, no fats, no chemicals of any kind—just pure whole wheat steam-cooked, shredded and baked. The crisp, brown biscuits are not only deliciously appetizing, but they encourage thorough chewing, which makes them better than porridges for growing youngsters. A Shredded Wheat Biscuit with cream and sliced bananas makes a wholesome, nourishing meal and will give all the strength needed for a half day's work or play.

Always heat the biscuit in oven to restore crispness. Two Shredded Wheat Biscuits with hot milk or cream will supply all the energy needed for a half day's work. Try Toasted Triscuit, the Shredded Wheat wafer, for luncheon, with butter, cheese or marmalade.

The Canadian Shredded Wheat Company, Limited  
Niagara Falls, Ont.  
Toronto Office: 49 Wellington Street East

## REPORT BY "SURVEYS"

Recommendation Made for Issuing Concise Annual Balance Sheet.

That the annual report of the city treasurer dealing with Toronto's finances at a glance significant statement of the city's financial position is the opinion of the civic survey experts who made known the result of their examination of it yesterday. The balance sheet is buried in a mass of detail, and is all but lost because it does not reveal at a glance significant relations which should be brought to public attention. The conclusion drawn is that the form of balance sheet now in use is a makeshift and is not an integral part of the reporting system.

While the method of preparing and submitting the report is criticized, the work of the officials is praised and they are commended for doing as well as they have done under the circumstances of rapid expansion in the city and press of ordinary business.

In conclusion, the experts submit a balance sheet of their own entitled "What the City of Toronto Ought to Know About Its Own Business" in which the situation is shown under headings of "Current Assets," "Capital Assets," "Current Liabilities and Reserves," "Capital Liabilities and Reserves" and "Sinking Fund Liabilities and Reserves," to which is added a "Fund Statement" showing the condition of the general fund, debt fund and special and trust funds and sinking funds.

## ANALYSIS

Analyzing the report, the report finds as follows: "Taking the accounts as they stand on the books of December 31, 1912, it will be seen from the report that the cash on hand and in banks and in the hands of other parties is \$5,859,566.21, and a current loan of \$16,255, making a total of \$4,758,317 of immediate demands against the city. In addition to these there are proceeds of bonds sales, special and trust funds, which should have been set aside and made available for these purposes, amounting to \$1,127,755. In other words, there was a total of current liabilities and cash reserves of \$5,398,330, as against which there was only \$488,232 in cash. The only other assets that were immediately available to the city were uncollected taxes and miscellaneous amounts amounting to \$1,899,527. The total of cash and other assets due to the city was less than half of the current liabilities and cash reserves.

From the balance sheet it also appears that the city has two advances for capital purposes of current funds amounting to \$2,358,050. This is largely for local improvement purposes, and is very largely accounted for by the necessity for current borrowing. In other words, for the current liabilities headed "bank overdrafts" amounting to over \$3,700,000. The financial condition as reflected by the current balance sheet at once raises the question as to whether it is desirable to carry on improvements through advances from tax collections.

"The statement also shows that even including the advances for local improvements and the very large overdraft, there was a current deficit amounting to \$583,100 as reflected by the books December 31, 1912.

"The Fund Statement.

"In the fund statement are brought together under the title 'General Fund Resources and Liabilities' all of the facts which are necessary to show what resources are available to meet the current funding needs of the city, and which are shown the unexpended balance of appropriations, the reserves for contracts, and the unencumbered balances. In this statement is also shown expenditures for 1912, which were authorized by acts of appropriation, amounting to \$938,570. Adopting the accounts of 1912, it would appear that there was a general fund deficiency of \$832,534.

## WILL SERVE HUERTA AGAIN.

PARIS, Feb. 5.—Adolfo de la Llama, who in January resigned his position as Mexican minister, finance as a protest against Provisional President Huerta's decree suspending the payment of interest on the Mexican national debt, decided today to return to Mexico by way of New York to serve again as minister of finance. He will leave Paris on Feb. 11.

# THE UNION TRUST COMPANY LIMITED

## Annual Meeting of Shareholders

The Annual General Meeting of the Shareholders of The Union Trust Company Limited, was held at the Company's Offices, Bay Street, Toronto, on Thursday, the fifth day of February, 1913.

The following Shareholders were present:—H. H. Beck, Charles Magee, Hon. E. G. Stevenson, E. E. A. DuVernet, K.C., Hon. Samuel Barker, M.P., F.C., H. S. Strath, George S. May, Professor Mayor, Dr. J. H. McConnell, Henry F. Goodenough, G. H. Muntz, W. H. Hunter, William D. Braden, W. E. Raymond, T. Curran, D. C. Ross, G. A. Kingston, C. R. Cumberland, J. M. McWhinney and others.

The chair was taken by the President, Mr. H. H. Beck, and the General Manager, Mr. J. M. McWhinney, acted as Secretary.

## Thirteenth Annual Report of the Board of Directors, December 31st, 1912.

Your Directors have pleasure in submitting herewith the Thirteenth Annual Report of the Company's business for the year ended December 31st, 1912.

The net profits for the year, after payment of interest on Guaranteed Investments, cost of management, salaries, fees and expenses of every kind, amounted to \$290,784.95 brought forward from the preceding year \$28,738.02

Making a total of \$319,522.97  
Out of this there have been paid:  
Four quarterly dividends, at the rate of ten per cent. per annum \$100,000.00  
Added to the Reserve Fund \$100,000.00  
Balance carried forward \$119,522.97

A daily audit of the Company's Accounts has been maintained throughout the year, and a copy of the Auditor's Report is attached to the Statement. The Company's Securities have also been inspected by the Inspection Committee appointed by the Shareholders.

All of which is respectfully submitted.

H. H. BECK, President.

Transferred from Profit and Loss	100,000.00		
	\$200,000.00		\$200,000.00

AUDITORS CERTIFICATE.

We have made a continuous audit of the Cash and Bank Accounts with the books and vouchers of The Union Trust Company, Limited, for the year ending 31st December, 1912, and we hereby certify that the accompanying balance sheet is a true and correct statement of its affairs at the date named. The books are properly kept, and all required information has been freely given.

C. R. CUMBERLAND }  
A. C. NEFF, F.C.A. } Auditors

In moving the adoption of the report, the President, Mr. H. H. Beck, said: "The profits for the year, after payment of interest on Guaranteed Investments and cost of management and expenses of every kind, amounted to \$290,784.95, being a return of over 2% on the Company's Paid-up Capital, and I am sure you will agree with me that this is an admirable and most satisfactory result of the Company's business."

Out of the profits, including balance brought forward, there have been paid \$100,000, being four quarterly dividends at the rate of 10% per annum, \$100,000 has been added to Reserve Fund, and \$88,784.95 has been carried forward.

The year just closed has been a very eventful one in many respects. The phenomenal growth in the prosperity and wealth of Canada has been assisted in a very marked degree by the large amount of English money which has been invested in this country, but this movement received a severe check in the beginning of last year when the war in the Balkan States, coming just at the time when the demand for loans reached and apparently exceeded the available supply, caused a sudden change of conditions, and a number of important undertakings involving with appreciation on account of the careful attention and prompt realization of speculation in the value of municipal and other bonds, and, in view of this, our Board considered it wise and in the interest of the Company to set aside a substantial amount to cover possible depreciation in the securities owned by the Trust Company, otherwise we may say to you that the profits of the Company for the past year would have amounted to a much larger sum.

As you will notice from the Auditors' Certificate, there has been a daily audit of the Company's accounts at Head Office with monthly audits of the Branches, and the Company's Securities have also been checked and certified by the Inspection Committee, consisting of the Hon. Mr. George W. Ross and Mr. W. H. Hunter. I desire to express our appreciation of the very great assistance and excellent results which we are receiving from the Manager and Staff of the Winnipeg Office, and the Chairman, Committee and Staff of the London Office.

I regret very much that Mr. W. H. Hunter, who has been one of our English Directors for some years, is unable to continue as a Director owing to his official and other duties. Mr. Curran has rendered the Company valuable services since he

came on the Board. I am glad to be able to say that, although retiring from the Board, he has promised to give us the benefit of his assistance whenever required. I wish also to express our appreciation to the Officers and Staff at Head Office, who have given us their best services during the year.

We all miss today the presence of Sir George Ross, one of our Directors, and a member of the Inspection Committee, who is absent through illness. We hope that he will be able to be with us again before the adoption of the Report.

I have much pleasure in moving the adoption of the Report. The President then called upon the General Manager, Mr. J. M. McWhinney, who said:

The Company's Reserve Fund of \$850,000, together with the balance of undivided profits carried forward, makes a total of \$993,738, which is almost equal to our Paid-up Capital of \$1,000,000.

Our funds are divided, as you know, into three accounts, our own funds being kept separate from Guaranteed and Trust Funds. Our Capital Account, of course, remains about the same from year to year, but our Trust Savings Accounts show an increase of 20% over the previous year, and there has also been an increase in the value of estates in the hands of the Company as executor, administrator, liquidator, etc., and our total Capital, Guaranteed Funds, Trust Funds and Estates show a gradual and steady increase, having risen from \$10,827,083 in 1908 to \$14,860,000 in 1912. We also acted as trustee for bondholders and counter-signed bonds aggregating several million dollars, which are not included in the above figures.

A number of very important estates and liquidations have been placed with us during the year, and I believe that our system of administration of estates is meeting with appreciation on account of the careful attention and prompt realization of assets by the Company. We have received also a number of important Wills, and I refer with much pleasure to this department of the Company's work.

The fiducial services given by the Company to persons owning or purchasing property or contemplating the investment of money is becoming recognized, and the public are becoming more generally aware of the many ways in which they can, at small expense, take advantage of the experience and assistance of the Trust Company.

Our Mortgage Investments have been particularly successful and no losses have been sustained. Our rule is to make loans only in districts where property is readily salable. It must be centrally located, have suitable buildings, be revenue-producing, and the amount loaned is limited to fifty per cent. of the appraised value. Special care is taken to avoid accepting loans on property in speculative territories or in districts where there is no ready market for the property.

Of the applications from Ontario submitted to the Board during the year, I think that about forty per cent. only were accepted; in the others there was either insufficient margin, or they did not comply with the above conditions. In Ontario interest on mortgages has, as a rule, been promptly paid, and at the end of the year the interest in arrears over one month amounted to only one-eighth of one per cent. of the principal. In the North-West, while the arrears were larger than usual during the early part of the year, the payments during the latter months showed marked improvement, and the arrears on December 31st were not larger than usual.

No relaxation has been made in our policy of inspection of the property offered as security, by the Company's Inspector, before acceptance of the loan, and to this I attribute in large measure our successful record.

The Company's Real Estate Department, Transfer Department and Safety Deposit Vaults also report a satisfactory year.

Already we have secured excellent financial conditions, and looking forward I feel that the Company's prospects are most encouraging.

In closing, I wish to add my testimony to the hearty and faithful support given by the members of the staff during the year.

The Report was seconded by Hon. E. G. Stevenson, and adopted.

Sir George W. Ross and Mr. W. H. Hunter were appointed members of the Inspection Committee, and Messrs. C. R. Cumberland and C. W. F.C.A., were appointed Auditors of the Company.

The following were elected Directors for the ensuing year: Samuel Barker, M.P.; H. H. Beck, E. E. A. DuVernet, K.C.; Henry F. Goodenough, Right Hon. Lord Kingslip, Charles H. Hoare, E. F. Lauder, K.C.; Charles Magee, George S. May, Dr. J. H. McConnell, J. M. McWhinney, Right Hon. the Earl of Onslow, H. H. Strath, Hon. Elliott G. Stevenson, Sir George W. Ross.

At a subsequent meeting of the Directors, Mr. Charles Magee was elected Chairman of the Board, and Mr. H. H. Beck, President, the Hon. Elliott G. Stevenson and Mr. E. E. A. DuVernet, K.C., Vice-Presidents of the Company.

The following were appointed members of the London Committee:—Mr. Charles H. Hoare, E. F. Lauder, K.C., the Earl of Onslow, Major J. C. Britton, D.S.O., M.V.O., and Mr. Arnold R. Rathbone.

Notes of thanks to the President, Directors, Officers and Staff were passed, after which the meeting adjourned.

BOARD WILL ALLOW WIDENING OF ROAD

Arguments of Ratepayers Were Discounted by Ontario Railway Board.

NEEDED FOR TRAFFIC Unique Value as Residential Section Not Justified From Citizen Viewpoint.

The proposed widening of Poplar Plains road which winds up the Avenue road hill occasioned a prolonged and spirited discussion before the Ontario Railway Board yesterday.

At the afternoon hearing the residents took the position that their properties would depreciate and not increase in value. The city thru Corporation Counsel Geary declared that the city as a whole demanded the road as a traffic artery.

Senator Kerr who owns a block of 750 feet frontage, was the first ratepayer to oppose. The locality was peculiarly suited for a quiet residential district. New traffic would mean insufferable dust and the increased tax was unfair.

Varsity Manipulator AIMS TO MAKE RAKEOFF A. M. Latchford, Fourth Year Man, Holds Cup tight on University Directory.

Because A. M. Latchford, a fourth arts man, refuses to sell copyright for the University Directory for less than \$350, the students' council are considering obtaining another copyright and publishing an official directory next year.

U. S. NAVAL TUG WAS NEARLY CAUGHT IN ICE Attempt to Liberate Fishing Schooners Almost Caused Added Disaster.

CURLING, Nfld., Feb. 5.—The United States naval tug Potomac not only failed to free the fishing schooners Hiram Lowell and Frances Willard in the Bay of Islands today, but narrowly escaped being caught in the ice which was driven in heavily from the Gulf of St. Lawrence before a north-west gale.

The contractors have one engine on the tracks and another in the C. P. R. yards ready to start ballasting.

BRAZILS BUMPED BY FREE SELLING

London Turns Bearish on South American Tractions.

STOCKS REACTIONARY

Diversity of Opinion as to the Future Trend of Prices.

The reactionary tendency of the Toronto stock market today was toward a stronger evidence yesterday.

On the larger markets C.P.R. had an inclination to get to lower levels and the action of these shares and also to put a damper on local bullish enthusiasm.

CONSOLS LED DROP ON LONDON MARKET

General Selling Movement in Which Paris and Berlin Joined.

LONDON, Feb. 5.—Money was abundant and discount rates were dearer today.

PARIS, Feb. 5.—Prices were steady on the bourse today. Three per cent, rentes, 87 francs 27/100.

C.N.R. NEW ISSUE

LONDON, Feb. 4.—(C.A.P.)—Canadian Northern Railway 4 1/2 per cent bonds for £1,350,000 are being underwritten.

MARKET AWAITS NEW STIMULUS

Traders Consider New York Stocks Have Sufficiently Discounted Development.

NO DEFINITE TREND

Prices Drifted Slightly Downward After Some Signs of Strength.

NEW YORK, Feb. 5.—The trend of the stock market today was toward a lower range, but the movement was slow and hesitating, and the average change was small.

Prices hardened slightly in the early trading, but an increased supply of stocks was met, and the improvement was checked promptly.

MONTREAL STOCKS WERE IRREGULAR

Rise in Shawinigan Chief Feature—Brazilian and C. P. R. Reactionary.

MONTREAL, Feb. 5.—Following the early strength and late reaction of Wednesday the local market presented an irregular appearance today.

TORONTO BANK CLEARINGS

Toronto bank clearings this week show a big increase over last week. The figures are: Total, \$45,450,322.

MONEY AND EXCHANGE

MONTREAL, Feb. 5.—Bank clearings for the week ended today were \$3,310,757, compared with \$4,274,392 for the same period of last year.

NEW YORK COTTON

Erickson Perkins & Co. (J. G. Beatty), 14 West King street, Toronto, report the following fluctuations on the New York Cotton Exchange:

DULUTH-SUPERIOR EARNINGS

Earnings of Duluth-Superior Traction Co. for January were \$101,289.19, an increase of \$10,113.04, or 11.1 per cent.

TORONTO MAN HON. PRESIDENT

OTTAWA, Feb. 5.—The Ontario Granite and Marble Dealers' Association today chose Peterboro for its next annual meeting.

SUIT FOR FALSE ARREST

WELLAND, Feb. 5.—Geo. Laing, chief of police, has been served with notice by lawyers for Frank Farr that action will be entered for false arrest, assault and battery, and malicious prosecution.

**WINTER WHEAT DAMAGE FEARED**  
Crops West of Mississippi in Danger From Cold Wave.

**CHICAGO, Feb. 5.**—Uneasiness over scattering reports of cold wave damage in Kansas had a bullish effect today on wheat. In the end, however, the market was easy with a shade of a gain to 1/8c net. In both corn and oats the outcome was an advance of 1/4c to 3/8c compared with last night. Provisions finished unchanged to 1/4c up.

Wheat speculators gave earnest attention to the fact that in the face of the coldest weather of the winter the autumn sown fields west of the Mississippi are bare of snow protection, and have an unusual amount of surface moisture. The chance of serious injury from a freeze could not altogether be banished from mind, despite assurances by experts that the plant possessed root development far more vigorous than the average at this time of the year.

Disappointment of hopes that export sales of wheat would continue today was chiefly handicapped by the fact that it turned out, however, that yesterday's business with foreigners had been much larger than was generally supposed.

**Corn Bears Stamped.**  
In corn, the shorts took to cover as a result of wheat strength and owing to the alleged scantiness of rural offerings. An estimate on farm reserve was constructed by some traders as bearing the figures indicating that fully half the deficiency in the crop had been made up by reduced consumption.

Oats hardened with other grain and because farm reserve figures were regarded as bullish.

Provisions had an upward slant in consequence of advancing prices for hogs. On the bulge, there was considerable profit-taking by long holders.

**LIVERPOOL CLOSE**  
Liverpool wheat closed 3/4d higher; corn, unchanged to 1/4d higher.

**ARGENTINE SHIPMENTS**  
This wk. Last wk. Last yr.  
Wheat 2,000,000 1,900,000 1,300,000

**LIVE STOCK MARKET WAS VERY QUIET**

Cattle Prices Unchanged—Sheep, Lambs, Calves, Steady—Hogs Lower.

MONTEREAL, Feb. 5.—(Special.)—The annual statement of the Canada Cattle Co. is a favorable one. It will be mailed to shareholders tomorrow, showing net increase to be about \$140,000. The bond interest of the company was increased some time ago by about \$17,000 and this will make the net increase \$125,000. The surplus as shown in the statement for 1913 was about \$248,000, and the surplus this year will therefore be in the neighborhood of \$400,000.

**BAD CHEQUES PASSED ON WINDSOR BANK**  
Offence Repeated Several Times—Were Given in Payment of Life Insurance Policies.

WINDSOR, Feb. 5.—The Dominion Bank has been bothered several times recently with bad cheques signed by Albert P. Drysdale, of Detroit. They have been made out in favor of life insurance companies doing business in Detroit.

**VAGRANT GIVEN UNIQUE FUNERAL BY HIS FRIENDS**  
Companions Spent Money in Flowers and Choir of Fifty Sang Hymns.

CINCINNATI, O., Feb. 5.—The corpse of the vagrant who was shot and killed here last Saturday, was given one of the most unique funerals ever known in this city. A number of vagrants who had been his companions at a charitable institute, contributed seventy-five cents to buy flowers for him. Fifty of them organized a choir and sang hymns at the funeral service.

**LONDON HAS AMBITIONS.**  
LONDON, Ont., Feb. 5.—If plans formulated by Industrial Commissioner Gordon Phillip come to a successful issue, London will be the home of an annual spring fat stock show and the annual convention of the Ontario Corn Growers' Association. The commissioner's idea is to hold the two functions in conjunction at the western fair grounds.

**CANADA CEMENT SHOWS GOOD YEAR'S EARNINGS**

Net Profits Substantially Increased Despite Larger Bond Interest.

MONTEREAL, Feb. 5.—(Special.)—The annual statement of the Canada Cement Co. is a favorable one. It will be mailed to shareholders tomorrow, showing net increase to be about \$140,000. The bond interest of the company was increased some time ago by about \$17,000 and this will make the net increase \$125,000. The surplus as shown in the statement for 1913 was about \$248,000, and the surplus this year will therefore be in the neighborhood of \$400,000.

**COLLEGE CATTLE BELOW STANDARD**

Ayrshire Breeders Complain Government Herds Are of Poor Quality.

It is the intention of the Canadian Ayrshire Breeders' Association to send twelve Ayrshire cows of good type, having an official record of milk and fat to represent the breed at the Panama Exposition. Such was decided upon at the annual meeting of the association, held at the Prince George Hotel yesterday, and \$1000 was appropriated for this purpose.

**TO SEND DOZEN COWS**  
Panama Exhibition Visitors Will See Canadian Ayrshires at Their Best.

It is the intention of the Canadian Ayrshire Breeders' Association to send twelve Ayrshire cows of good type, having an official record of milk and fat to represent the breed at the Panama Exposition. Such was decided upon at the annual meeting of the association, held at the Prince George Hotel yesterday, and \$1000 was appropriated for this purpose.

## February Sale of Linoleums

The Linoleums and Floorcloths included in this annual Floor-Covering Sale offer many opportunities for substantial savings. The kitchen and pantry floor must be kept clean and fresh looking, also the bathroom, vestibules, halls and sitting-rooms, all of which can have a linoleum laid at a very small cost from this sale stock. There are five different qualities. Some of the floorcloths and a few of the linoleums have slight imperfections in the printing—not affecting the wear in the least. The quality in every case is the standard grade that we recommend and always stock. A very good assortment of Floorcloths at 23c square yard. Hardwood stripe effects, tiles and carpet designs, 2 1/2 yards wide, 58c running yard; 2 yards wide, 46c running yard; 1 1/2 yards wide, 35c running yard; 1 1/4 yards wide, 29c running yard.

STERLING ENGLISH LINOLEUM, 43c SQUARE YARD.

All 2 yards wide, 86c the running yard. The best of designs made by one of the big English makers, who was glad to take our cash and clear his storerooms, and gave us an extra inducement. Square yard..... 43

FOUR THOUSAND YARDS CLEARING AT 33c SQUARE YARD.

English Printed Linoleums and Floorcloths, on which there is a saving of 7c on every square yard, as well as a splendid lot of a heavy hard-wearing quality of domestic manufacture, in a generous, well-assorted lot of colors and designs for baths, kitchens, halls, sitting-rooms and bedrooms. Extra good value, 33c square yard; 66c running yard; 2 yards wide.

EXTRA SPECIAL VALUE AT 39c SQUARE YARD.

Thirty rolls, about 1800 yards, in four or five good styles; floral designs, specially suited for sitting-rooms and bedrooms; a splendid quality; a reduction of 11c on every square yard; 39c square yard; 2 yards wide; 78c running yard.

AT SIX DOLLARS FOR THE SIXTH DAY--SIX CARPET SIZE RUGS.

For an 8.30 special; size 9.0 x 9.0. A good-looking, all-wool rug, for bedroom or sitting-room; colors soft reds and tans. A reduction of over 25 per cent. on each rug.

18c MATS ON SALE ON THE MAIN FLOOR.

About one thousand of these very useful little rugs to go on sale on Saturday at 18c each. They are closely woven Japanese matting, with attractive stenciled designs on the one side, in browns, greens, blues and reds; size 24 in. x 54 in. On sale, Main Floor, and Rug Department, Fourth Floor, each.... 18 (Fourth Floor)
